Mr. Bradshaw: There is little evidence to support the hypothesis that silage contaminated with material containing "Mycobacterium bovis" derived from badgers represents a significant risk of infection to cattle. However, "M. bovis" may survive outside the body for varying lengths of time and, so, there is a theoretical risk from this source.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of whether the current and proposed TB testing regimes in low risk areas are sufficient to ensure that new foci of infection do not develop which would pose a risk of spread to wildlife. [158370]

Mr. Bradshaw: The proposed testing regime meets or exceeds the requirements of the EC Directive 64/432/EEC. But neither this nor the current regime can guarantee that new foci of infection do not occur.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what her best estimate is of the incidence of TB in cattle arising from *(a)* cattle-to-cattle spread and *(b)* the spread from a wildlife reservoir. [158378]

Mr. Bradshaw: Current, continuing, research is designed to inform the Government on the relative importance of cattle and badgers as vectors of the disease. At present it is not possible to give a valid estimate for either.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what the latest advice issued by her Department is concerning cattle biosecurity measures. [159067]

Mr. Bradshaw: In 2001, Defra published "Golden Rules for a Healthy Herd". This guidance sets out the most important rules for minimising the risk of introducing diseases onto farms. It applies to those purchasing and selling cattle.

In 2002, Defra developed a concise biosecurity guidance poster with a number of livestock farming and veterinary organisations. "Better Biosecurity Provides . . . " was sent to every livestock farm in England and is available on the Defra website at: http://www.defra.gov.uk/animalh/biosecurity/farmguidance/biosecleaf.pdf

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate she has made of the likely incidence of TB in the badger population in 2007. [159072]

Mr. Bradshaw: The current incidence of TB in the national badger population is not known, so it is not possible to predict the incidence for future years.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs how long after exposure to an infective dose of M. bovis bacilli a bovine animal becomes infectious; and what the typical duration of infectivity is. [159074]

Mr. Bradshaw: Published figures for the time from exposure to being infectious include 87 to 226 days after natural exposure in a United Kingdom study and up to seven years in an Australian study. The typical duration of infectivity is not known.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what reasons have been adduced for the relatively low density of badgers in the eastern counties of England. [159075]

Mr. Bradshaw: The relatively low densities of badgers in eastern counties (excluding the south-east) compared to western counties is thought in part to reflect the east-west divide in the rural landscape. The predominantly pastoral west is thought to provide more preferred habitat for badgers than the arable east of the country.

However, this does not entirely explain the differences. In East Anglia badger densities are lower than would be expected based on landscape alone[1], and it is concluded that in these areas the low densities are the consequence of past 'persecution' of badgers, from which badgers have yet to recover[2].

[1] Heydon, M.J., Reynolds, J.C. and Short, M.J. (2000) Variation in abundance of foxes (Vulpes vulpes) between three contrasting regions of Rural Britain, in relation to landscape and other variables. "Journal of Zoology", 251, 253–264.

[2] Reason, P., Harris, S. and Cresswell, P. (1993) Estimating the impact of past persecution and habitat changes on the numbers of badgers Meles meles in Britain. Mammal Review. 23: 1–15.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs to what extent different *(a)* age groups and *(b)* sexes of badgers are more likely to be trapped than others. [159077]

Mr. Bradshaw: Research carried out by Oxford University and the Department's Central Science Laboratories suggested that the likelihood of badger capture using cage traps did not vary between the sexes but did vary significantly between adults and cubs. However, the direction of this age effect was not consistent between different study areas suggesting that other local factors were also important.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs whether there have been any significant differences between the pattern of TB lesions observed in badgers subject to post-mortem examination pre-2000 and those examined during and after 2000. [159078]

Mr. Bradshaw: Information about lesion distribution in badgers since the start of the randomised badger culling trial has not been available to Defra officials for analysis. This information is held on behalf of the Independent Scientific Group on Cattle TB.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what the ideal geological conditions are for a badger habitat; and whether there are conditions which *(a)* prevent and *(b)* deter colonisation by badgers. [159083]

Mr. Bradshaw: Badgers can exist in a wide variety of habitat types. They typically locate setts in sandy or chalky, well drained soil that is easy to excavate. Setts are also usually located on hillsides or otherwise sloping ground where drainage is good, and excavated soil is easy to clear from the sett entrance. However, badgers are also known to dig setts into flat ground where such optimal conditions are not available. Badgers are much less likely to dig setts in clay soil types that are less well drained and less easily dug. Given that setts are an important resource for badgers, it has been argued that the availability of suitable sett sites has a direct effect on the density of setts, and hence social group density.

For further information, see:

T. J. Roper (1993) Badger setts as a limiting resource. In: "The badger" (ed. T. J. Hayden) Royal Irish Academy, Dublin.

E. G. Neal and C. L. Cheeseman (1996) "Badgers".

Clements, E. D., Neal, E. G. and Yalden, D. W. (1988) The national badger sett survey. "Mammal Review", 18, 1–9.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what research has been conducted by her Department to determine whether badgers infected with *M. bovis* are capable of transmitting infection to cattle. [159108]

Mr. Bradshaw: Apart from the study by the Central Science Laboratory at Woodchester Park in which infected badgers have been identified as excreting *M. bovis* in faeces, urine, tracheal aspirates and suppurating skin lesions, there has been a study in which naturally infected badgers were housed with uninfected calves. Several of the calves developed sensitivity to the tuberculin skin test and were found to have TB lesions when subject to post mortem examination.

Mr. Gray: To ask the Secretary of State for Environment, Food and Rural Affairs how many carcasses of red deer have been examined by the State Veterinary Service in the last 10 years at the Baronsdown deer sanctuary; and how many were found to be infected with bovine tuberculosis. [160170]

Mr. Bradshaw: Defra does not provide disease statistics on individual premises, but does so on a parish basis.

Since 1998 there have been nine confirmed cases of "M. bovis" in red deer in the parish of Dulverton, which includes Baronsdown.

Defra does not have data on the number of carcases of red deer examined by the State Veterinary Service in Dulverton prior to 1998.

Mr. Gray: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment her Department has made of *(a)* whether deer populations on the Baronsdown deer sanctuary are sustainable and *(b)* whether the deer are infected with bovine tuberculosis. [160171]

Mr. Bradshaw: The information is as follows:

(a) The management of deer at the Baronsdown deer sanctuary should be addressed to the League Against Cruel Sports, as the management of wildlife on private land is primarily a matter for the relevant landowner and not the Government.

(b) Defra does not provide disease statistics on individual holdings. The deer on the Baronsdown sanctuary are wild and free to move.

The parish of Dulverton includes Baronsdown and other holdings. Since 1998 there have been nine confirmed cases of "M. bovis" in red deer in the parish of Dulverton.

Cattle Movements

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what the purpose is of the six-day rule for auction marts; what representations she has received on lifting the six-day rule of auction marts; if she will lift the six-day rule of auction marts; and if she will make a statement. [162028]

Mr. Bradshaw: Livestock moving to auction markets does not trigger a six day standstill on arrival at a market. But in order to balance the significant disease risk that results from animals from different sources mixing at a market, animals are only permitted to move to a market if the farm from which they originate is not under a standstill (20 days for pigs or six days for other species).

This rule is waived where the market is a dedicated slaughter market. In this case the livestock must go from the market direct to slaughter. The disease risk is accordingly less than if the stock were dispersed to other farms.

The standstill that applies to farm premises is based on a scientific Cost Benefit Analysis of the disease risks associated with various standstill lengths. I do not propose to amend the standstill regime, which represents the best available balance between minimising disease risk and the needs of the farming community to trade livestock.

I have received no representations from livestock farmers or market operators on lifting the requirement for livestock to observe a standstill before they move to auction markets.

Cetacean By-catch

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs what funding her Department has *(a)* allocated and *(b)* spent on scientific research into preventing cetacean strandings in UK waters in each of the past five years for which records are available. [155948]

Mr. Bradshaw: Figures for scientific research allocated and spent by Defra, in each of the past five (financial) years, on mitigating cetacean bycatch are;

2003–04—£173,232
2002–03—£220,582
2001–02—£171,912
2000–01—£155,308
1999–2000—£93,510

Computer Production (Environmental Effects)

Mr. Jim Cunningham: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on discussions between her Department and the Department of Trade and Industry on *(a)* effects on the environment of future computer production and *(b)* who should pay the costs of environmental effects. [160815]

Mr. Morley *[holding answer 16 March 2004]:* Defra work closely with the DTI, who lead on the implementation of the Waste Electrical and Electronic Equipment (WEEE), and the Restriction of the use of Certain Hazardous Substances in electrical and electronic equipment (RoHS) Directives. These Directives are producer responsibility Directives, and aim to reduce the environmental impact of all electronic equipment, including computers. The environmental impact is reduced by restricting the use of hazardous substances during manufacture; and through reprocessing WEEE, so that materials can be returned to the economic cycle and avoid being landfilled. The WEEE Directive also aims to assign financial responsibility, for the collection, treatment and recycling of WEEE, to producers and business users, when a computer reaches its end of its life.

In addition, both Defra and DTI are currently negotiating two other Directives that will have a positive effect on the environmental impact of computers. Batteries are a significant component of laptop computers, and the proposed Batteries Directive will make producers of batteries responsible for their collection and recycling.

Similarly the proposed Eco design for Energy using Products (EuP) Directive will ensure that producers take responsibility for the whole life cycle of their products, from the initial design stage, right through to end of life and disposal. Defra, via the Market Transformation Programme, has also been working with the DTI, among others, to seek to reduce the energy consumption of IT equipment in use. Current measures include the EU Energy Star Regulation and the Government Quick wins initiative which specifies minimum standards for government procurement of IT equipment.

Correspondence

Mr. Kaufman: To ask the Secretary of State for Environment, Food and Rural Affairs (1) when she will reply to the letter to her from the right hon. Member for Manchester, Gorton, dated 5 February 2004 with regard to Ms C.Holden; [161802]

(2) when she will reply to the letter from the right hon. Member for Manchester, Gorton dated 5 February, with regard to Ms C.Holden. [163300]

Alun Michael: My right hon. Friend the Secretary of State responded on 16 March.

Cotswolds Canals

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what her policy is on the re-opening of the Cotswolds canals; and what discussions she has had with the Heritage Lottery Board with regard to the bid that has been submitted. [162830]

Alun Michael: The Government wishes to encourage restoration projects to expand the canal network, which has clear economic, environmental and social benefits. It is for the Heritage Lottery Board to assess and decide on the funding application to support the restoration of the Cotswold Canals but we look forward to the outcome of the Board's major grant meeting in July.

Deer Sanctuaries

Mr. Gray: To ask the Secretary of State for Environment, Food and Rural Affairs if she will introduce an active management plan on deer sanctuaries in co-operation with neighbouring land managers. [160174]

Mr. Bradshaw: The management of wildlife on privately owned land is primarily the responsibility of the relevant landowner, and it has not been the policy of this or previous governments to become actively involved unless the landowner is the recipient of funds from the public purse or if the landowner is in breach of his / her legal obligations.

As the larger deer species range widely we encourage neighbouring landowners to co-operate in managing deer if agricultural damage or other problems arise. Advice on deer and guidance on preparing management plans are available from the Deer Initiative (Tel: 0870 774 3677; e-mail: info@thedeerinitiative.co.uk; www.thedeerinitiative.co.uk).

Energy Efficiency

Mr. Watson: To ask the Secretary of State for Environment, Food and Rural Affairs what her current targets are for domestic energy efficiency improvements. [161007]

Mr. Morley: The Energy White Paper issued in February 2003 made clear that more than half the emissions reductions in the UK Climate Change Programme—around 10 million tonnes of carbon per year by 2010—are expected to come from energy efficiency, with household energy efficiency accounting for around half of these. Beyond 2010, the Government believes that energy efficiency can contribute around half the additional 15–25 million tonnes of carbon we are likely to need by 2020, of which 4–6 million tonnes might be accounted for by the household sector.

An aim for energy efficiency in residential accommodation in England, as required by the Sustainable Energy Act 2003, is likely to be set out in the Government's Energy Efficiency Implementation Plan, to be published after Easter.

Farming

Mrs. Curtis-Thomas: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on farm income levels for farmers in Crosby in the past five years. [160394]

Alun Michael: Due to the small number of farms in Crosby, there is no robust data available on farm incomes for farmers in Crosby over the last five years.

Mr. Wills: To ask the Secretary of State for Environment, Food and Rural Affairs what the 20 largest payments made under the *(a)* Arable Area Payments Scheme, *(b)* Beef Special Premium Scheme, *(c)* Suckler Cow Premium Scheme, *(d)* Sheep Annual Premium Scheme, *(e)* Hill Farm Allowance Scheme, *(f)* Slaughter Premium Scheme, *(g)* Integrated Administration and Control System, *(h)* Dairy Premium Scheme, *(i)* Dairy Additional Payments Scheme and *(j)* Extensification Payment Scheme were in the most recent EU budget year for which figures are available. [156141]

Alun Michael: The figures in the following table represent the total of the 20 largest payments made under the listed schemes. These are based on the European Agriculture Guidance and Guarantee Fund (EAGGF) Year which runs from 16 October 2002 to 15 October 2003.

Scheme	*Value (£)*
Arable Area Payments	10,067,954.47
Beef Special Premium	819,631.12
Suckler Cow Premium	1,721,515.19
Sheep Annual Premium	1,438,796.95
Hill Farming Allowance	310,191.42
Slaughter Premium	600,375.50
Extensification Payment	915,768.43

Figures have not been provided for *(g)* Integrated Administration and Control System as this is an umbrella scheme which encompasses the individual schemes listed in the table; *(h)* Dairy Premium Scheme and *(i)* Dairy Additional Payments Scheme which are new schemes being introduced with effect from 2004.

The Rural Payments Agency (RPA) is bound by commercial confidentiality in its dealings with its customers, whether sole traders or farmers or corporations, breach of which by disclosing information relating to the affairs of individual traders or farmers or corporations would expose the RPA to the liability of legal proceedings in tort.

In relation to individual farmers or traders, information which is of a personal nature, such as individual payments to such persons, is personal data which is protected from voluntary disclosure under the Data Protection Act 1998. While the RPA can release global figures relating to payments, which do not identify individual persons, including corporations, it is unable to release individual figures without incurring the liabilities under the two principles.pa

Fisheries

Mr. Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs what the maximum amounts of fish allowed to be caught daily in Welsh waters were in each year since 1997. [160910]

Mr. Bradshaw: There are no specific limits as to the amount of fish that can be taken in Welsh waters. For certain stocks total allowable catches are fixed annually by the EU but in relation to sea areas as defined by the International Council for the Exploration of the Seas. These areas do not correspond with Welsh or other territorial waters.

Mr. Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs how many fisheries have been closed to protect stocks since 1997. [160874]

Mr. Bradshaw: Since 1997 restrictions have been introduced in the following areas to close fisheries to protect stocks:

Fisheries	
Irish Sea	Area closed each spring since 2000, through EU measures, to targeted fishing for cod in Spring as part of Irish Sea Cod Recovery Plan to protect spawning cod
North Sea	Area closed, through EU measures, to targeted fishing for cod in Spring 2001 as part of the North Sea Cod Recovery Plan to protect spawning cod
Nursery Areas for bass	3 further areas in estuaries and around the coast of England and Wales closed, by the UK Government, to bass fishing to protect juveniles
Clyde estuary	Area closed, by the Scottish Executive, each spring since 2001 to demersal trawls to protect spawning cod.

There are also longer standing fisheries closures such as the Mackerel, Pout and Herring boxes.

Legislation has also been introduced to restrict fishing in a number of areas for the protection of the wider marine environment:

Fisheries	
Darwin Mounds	A ban on bottom trawling introduced by the EU in 2003 at the UK's request to protect cold water coral
Lundy Island	A total fishing ban introduced by Devon Sea Fisheries Committee in 2003 to protect the Lundy Marine Nature Reserve
Sandeel Box	Area (the Wee Bankie) off the North-east coast of the UK where industrial fishing has been banned since 2000 by the EU to protect the food species of a range of predators including sea-birds
The Wash	A ban introduced by UK Government in 1998 on dredging for razor shells, trough shells and carpet shells to protect the Wash and North Norfolk candidate Special Area of Conservation (cSAC)
Fal and Helford Estuaries	A ban introduced by UK Government in 2003 on dredging for scallops to protect the Fal and Helford cSAC

Mr. Hammond: To ask the Secretary of State for Environment, Food and Rural Affairs what the tonnage of fish caught in UK territorial waters by fishing vessels registered in each EU member country was during the latest period for which figures are available. [161369]

Mr. Bradshaw: The arrangements for access to the coastal waters of the United Kingdom between 6 and 12 nautical miles are set out in Article 17 and Annex I of Council Regulation (EC) No. 2371/2002 of 20 December 2002 on the conservation and sustainable exploitation of fisheries resources under the Common Fisheries Policy. Data on catches and landings made by UK vessels and vessels from other Member States is collected in relation to sea areas as defined by the International Council for the Exploration of the Seas: this data includes, but does not separately identify, the quantities of fish taken from the United Kingdom's coastal waters.

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the *(a)* operations and *(b)* efficiency of claimants' associations in respect of loss of fisheries in the fishing industry. [159678]

Mr. Bradshaw: This is not a matter I can comment on. It is up to individual associations to negotiate compensation for the possible loss of fisheries.

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs what advice and assistance on *(a)* financial and *(b)* legal issues is available to fishermen who wish to explore compensation opportunities for loss of fisheries. [159681]

Mr. Bradshaw: As one of the statutory regulators of marine works under the Food and Environment Protection Act 1985, the Department takes account, among other things, the extent to which any proposed project is likely to affect the legitimate interests of other uses of the sea.

However, the Department does not offer advice or assistance on legal and financial issues with regard to seeking compensation from a licence applicant for any loss of fisheries.

Mr. Wiggin: To ask the Secretary of State for Environment, Food and Rural Affairs how many fishing vessels were licensed in each year since 1997. [160873]

Mr. Bradshaw: Information is not readily available for 1997 but details on the number of vessels licensed by the UK Fisheries Departments since 1998 are given in the following table.

Vessel overall length	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*	*2004*
Under 10 metres	5,041	5,053	4,925	4,810	4,805	4,699	4,738
Over 10 metres	2,320	2,149	2,034	1,958	1,912	1,691	1,570
Total	7,361	7,202	6,959	6,768	6,717	6,390	6,308

Foot and Mouth Disease

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs whether her Department withheld any evidence on the origins of the 2001 Foot and Mouth Disease outbreak from Dr. Iain Anderson's inquiry. [161521]

Mr. Bradshaw *[holding answer 15 March 2004]:* A full report on the origins of the outbreak was submitted to Iain Anderson's inquiry and is published alongside the inquiry report. That was based on wide-ranging evidence including rigorous epidemiological investigation.

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs whether evidence prepared by the Ministry of Agriculture, Fisheries and Food's vet Mr. J. Dring in respect of her inspection of Burnside Farm, Northumberland during early February 2001 was presented to Dr. Iain Anderson to assist him with his inquiry into the cause of the foot and mouth disease outbreak. [161522]

Mr. Bradshaw *[holding answer 15 March 2004]:* Mr. Dring contributed to the epidemiological investigation underpinning the Department's official submission to the Inquiry on the origins of the outbreak. His inspection of Burnside Farm on 24 January 2001 was also discussed at a meeting in Newcastle with Iain Anderson on 4 March 2002. Both the submission and the report of the meeting were published alongside Iain Anderson's final report of his Inquiry.

Gamma Interferon Test

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what assessment she has made of why the gamma interferon test achieves sensitivity of 60 to 65 per cent. in UK trials; [158363]

(2) what assessment she has made of the difference in gamma interferon test sensitivity in UK trials compared with test sensitivity in Australia. [159120]

Mr. Bradshaw: The gamma-interferon pilot currently running in Wales, Staffordshire, Cheshire, Derbyshire, Herefordshire, Worcestershire and Shropshire, and the work carried out in Northern Ireland, have not been designed to assess the sensitivity of the gamma-interferon test. No comparisons can therefore be drawn with test sensitivity in trials run in other countries.

GM Crops

Mr. Simon Thomas: To ask the Secretary of State for Environment, Food and Rural Affairs when she was informed that cattle feeding studies involving Chardon LL fodder maize had been requested by the *(a)* Advisory Committee on Releases into the Environment and *(b)* Advisory Committee on Animal Feedstuffs. [160574]

Mr. Morley: Neither the Advisory Committee on Releases to the Environment nor the Advisory Committee on Animal Feedingstuffs (ACAF) has requested cattle feeding studies involving Chardon LL fodder maize. ACAF has advised, on the basis of the data already submitted, that it is content that the T25 maize grain and its products pose no more risk as animal feed than non-GM maize varieties. The results of recent feeding trials to cattle have not yet been published or peer reviewed but I am not aware they have come to any different conclusion.

Mr. Simon Thomas: To ask the Secretary of State for Environment, Food and Rural Affairs (1) whether she has given consent for harvested Chardon LL fodder maize from farm-scale evaluation sites to be taken-off site and used in cattle-feeding studies at the Reading University Centre for Dairy Research; [160575]

(2) whether the Government's policy on harvested material from GM crops involved in the farm-scale evaluation programme being fed to animals or otherwise entering the food chain has changed; [160576]

(3) what steps she has taken to ensure that no milk or meat from the cattle involved in the Chardon LL feeding studies at Reading University has entered the food chain. [160577]

Mr. Morley: The GM maize used in the farm scale evaluations has Europe wide marketing consent for use in animal feed so no consent was required to use the harvested crop in the cattle feeding study carried out at the University of Reading.

The agreement made with the Supply Chain Initiative on Modified Agricultural Crops (SCIMAC) in November 1999 requires that none of the produce from GM crop plantings in the UK will be used in a way which is of direct commercial benefit to the consent-holders during the farm scale evaluation period. The policy on use of harvested material, as outlined in the SCIMAC agreement, has not changed.

Although there is no legal requirement to withhold the milk or meat from the food chain and there is no discernable difference between meat and milk from animals fed GM feed and those not, the protocol for the Reading University study required that the milk from the dairy cows did not enter the food chain during the period of the study.

Alan Simpson: To ask the Secretary of State for Environment, Food and Rural Affairs when she was first informed that cattle feeding studies involving Chardon LL fodder maize had been requested by *(a)* the Advisory Committee on Releases to the Environment and *(b)* the Advisory Committee on Animal Feedingstuffs. [160633]

Mr. Morley: Neither the Advisory Committee on Releases to the Environment nor the Advisory Committee on Animal Feedingstuffs (ACAF) has requested cattle feeding studies involving Chardon LL fodder maize. ACAF has advised, on the basis of the data already submitted, that it is content that the T25 maize grain and its products pose no more risk as animal feed than non-GM maize varieties. The results of recent feeding trials to cattle have not yet been published or peer reviewed but I am not aware they have come to any different conclusion.

Joan Ruddock: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make public the locations proposed in applications to grow Chardon LL T25 maize. [161362]

Mr. Morley: We will consider whether the locations of commercial GM crop sites should be made public when we consult stakeholders in due course on the co-existence issue.

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs if she will establish who paid for the research on the GM farm scale evaluations undertaken by members of the Scientific Steering Committee and published by Nature on 5 March. [161520]

Mr. Morley *[holding answer 15 March 2004]:* The research published in the Nature paper "Ban on triazine herbicides likely to reduce but not negate relative benefits of GMHT maize cropping" (Nature AOP; published online 4 March 2004) was undertaken by the authors at the expense of their respective institutes (listed on the paper). Defra and Scottish Executive paid for the data collected in the farm-scale evaluations, on which the paper was based, but did not commission this work. None of the authors were members of the Scientific Steering Committee. The research was peer reviewed by scientists not involved in the FSEs.

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to her statement of 9 March 2004, *Official Report*, columns 1381–84, on GM policy, (1) what new evidence applicants for the recently approved GM fodder maize need to provide before the renewal of the contract to grow this crop before October 2006; [161523]

(2) what new evidence is required by consent holders prior to the renewal of their consents in October 2006 that is not required now. [161614]

Mr. Morley *[holding answer 15 March 2004]:* Existing consents for genetically modified organisms issued under Part C of Directive 90/220, including that for GM maize T25 issued in 1998, continue in force until October 2006. At that time new consents must be obtained or the product withdrawn. Directive 2001/18/EC and EC Food and Feed Regulations 1829/2003 set out the required information and assessments to be provided by the applicants. Information provided to support the original 90/220 application must be updated to account for technical progress and relevant new information. The applicants must also provide an environmental risk assessment as set out in Annex II of the new directive. In the case of GM crops this must include an assessment of the GMO and its use which have the potential to cause adverse effects as compared with those presented by the non-modified crop and its use under corresponding situations, such as weed management with herbicides. Applicants must also provide a post market monitoring plan and information on methods for detection and identification to facilitate post marketing control and inspection.

Joan Ruddock: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the preliminary results of research carried out by Professor Terje Traavik of the Norwegian Institute of Gene Ecology on the health implications of GM maize crops for those living close to the crops. [161724]

Mr. Morley *[holding answer 16 March 2004]:* We understand that at a recent meeting in Malaysia, Professor Terje Traavik reported that farm workers from the island of Mindanao in the Phillipines had an immune reaction to genetically modified Bt maize (event MON 810). No scientific evidence has yet been published by the Norwegian research team on the health implications of Bt maize crops for those living close to such crops and Professor Traavik is quoted as stressing that more tests are needed before any definite conclusion can be drawn.

Bt maize is not grown in the UK. If Professor Traavik's work is published we will consider whether there are any implications for the UK.

Joan Ruddock: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to her oral statement of 9 March, *Official Report*, columns 1381 to 1396 on GM crops, if she will assess the work of Aaron de Grassi at the Institute of Development Studies, University of Sussex, on GM crops in Africa. [161727]

Mr. Morley *[holding answer 16 March 2004]:* We are aware of the work published by Aaron de Grassi evaluating various projects involving the development of GM crops for cultivation in Africa. While we have no plans to assess his work, we are always interested in quality research on GM crops and their application.

Llew Smith: To ask the Secretary of State for Environment, Food and Rural Affairs if she will publish her Department's assessment of the section of the GM national consultation concerned with the practicality of co-existence between GM and non-GM crops. [161758]

Mr. Morley: A detailed response to the findings of the GM Dialogue is available at www.defra.gov.uk/environment/gm/debate/pdf/gmdialogue-response.pdf. We believe there is no reason in principle why GM and non-GM crops should not co-exist, and our recent policy statement confirmed how we intend to move forward on this subject. We will consult stakeholders on co-existence measures based on the 0.9 per cent. EU labelling threshold for GM presence, and on whether a lower threshold might apply for organic production.

Llew Smith: To ask the Secretary of State for Environment, Food and Rural Affairs if she will conduct investigations into the feasibility of GM free zones being established in areas in Wales and Scotland bordering England where English farmers cultivating border farms decide to grow GM crops. [161781]

Mr. Morley: Under EU law it is not possible to establish compulsory or statutory GM-free zones, but we have said that we will provide guidance to farmers who may want to establish voluntary zones in which GM crops are not cultivated. English farmers on the border with Wales and Scotland will have the right to grow an approved GM crop subject to the co-existence measures that are put in place, so the scope for voluntary GM-free zones in areas bordering England will have to be considered in that light. We will be liaising closely with the Devolved Administrations on these issues.

Gregory Barker: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a further statement on *(a)* her plans to introduce legislation in respect of GM crop liability and co-existence and *(b)* the timescale for those plans. [162373]

Mr. Morley *[holding answer 18 March 2004]:* We intend to have co-existence measures that have statutory backing in place before any commercial cultivation of GM crops, which we do not expect before spring 2005 at the earliest. We plan to consult stakeholders on this shortly, and on options for compensating non-GM farmers for financial losses that they may incur.

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to her statement of 9 March 2004, *Official Report*, columns 1381–84, on GM policy, who will determine the conditions required to achieve the first condition of not resulting in adverse effects on the environment; and when those conditions will be made public. [161615]

Mr. Morley: On 9 March officials wrote to the French Competent Authority, which issued the relevant consents on behalf of the EU member states, and proposed that restrictions be placed on the existing marketing consents for cultivation of maize containing transformation events T25 and BT176. In accordance with Directive 2001/18 the French Competent Authority will now forward an assessment report to the Commission who will forward it to all the other member states. A collective EU decision will be made on the proposal for amending the conditions of the consent.

A copy of the letter to the French Competent Authority will be published on the Defra website and placed on the public register.

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to her statement of 9 March 2004, *Official Report*, columns 1381–84, on GM policy, when decisions will be made on thresholds for GM contamination of organic farms; and who will make the decision. [161616]

Mr. Morley: We will take decisions in liaison with the Devolved Administrations, after we have consulted stakeholders. We will initiate a consultation exercise as soon as possible.

Illegal Meat Imports

Mr. Alan Reid: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the progress of the Government's action plan on illegal imports of meat, other animal products, plants and plant products. [161406]

Mr. Bradshaw *[holding answer 15 March 2004]*: Progress against the Government's Action Plan on illegal imports in the financial year 2002–03 is reported in the Annual Review of Controls on Imports of Animal Products. Copies have been placed in the House Libraries.

The 2003–04 Action Plan is appended to the Review, and we are working with HM Customs and other responsible parties to implement it. HM Customs took over responsibility for anti-smuggling controls at the border on 11 April this year. Progress will be reported in the next Annual Review, to be published after the end of this financial year.

Lamb and Beef Farming (Lancashire)

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs how much money her Department makes available to promote Lancashire *(a)* lamb and *(b)* beef farming. [158583]

Alun Michael: Lancashire beef and lamb producers are eligible to receive subsidies under the Common Agricultural Policy Beef and Sheep meat Regimes (there are currently no schemes specifically for lambs). The table below shows the amount under these schemes that was paid to farmers in Lancashire in the 2003 European Agriculture Guidance and Guarantee Fund Year (15 October 2002 to 16 October 2003).

Any additional direct subsidy intervention by UK Government in favour of specific geographical regions is prohibited by State Aids and competition rules.

£000

	Payments
Sheep[1]	6,494,223.40
Beef[2]	18,110,610.02
Total	24,604,833.42

[1] Sheep Annual Premium Scheme.
[2] Beef Farming includes the following schemes:
Beef Special Premium
Extensification Payment
Slaughter Premium
Suckler Cow Premium
Over Thirty Month Compensation Payments

Nappies

Mr. Jim Cunningham: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she has had with the Department of Health regarding the *(a)* environmental and *(b)* financial effects of using cotton nappies in maternity wards. [159096]

Mr. Morley: I attended a meeting with the Minister for Health, and the Women's Environmental Network (WEN) in July last year to discuss the issues surrounding the use of re-usable nappies in hospitals.

WEN will be publishing a report on 29 March considering the issues raised at the meeting, a copy of which will be sent to me.

Mr. Swayne: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the Strategy Unit's report regarding the impact of initiatives to displace disposable nappy use on waste minimisation; and if she will make a statement. [160983]

Mr. Morley: The aim of the measure on re-usable nappies outlined in the Strategy Unit report 'Waste Not Want Not' was to achieve an average diversion of 225kg a year per participating household.

The Waste and Resources Action Programme, which is taking forward this work on the Government's behalf, is aiming to have an additional 155,000 households using re-usable nappies by the end of fiscal year 2006.

This is an ambitious target. If achieved it would create a reduction in household waste of 35,000 tonnes.

Mr. Swayne: To ask the Secretary of State for Environment, Food and Rural Affairs what initiatives her Department is taking to reduce landfill waste by encouraging alternatives to disposable nappies. [161167]

Mr. Morley: Following publication of the Strategy Unit Report the Government accepted the recommendation that the Waste and Resources Action Programme (WRAP) should take forward a waste minimisation initiative, which includes work on supporting re-usable nappies.

The details of the programme are still being worked up but include support for new businesses and the provision of information to parents.

Nuclear Materials

Dr. Jack Cunningham: To ask the Secretary of State for Environment, Food and Rural Affairs how many tonnes of material the United Kingdom Atomic Energy Authority proposes to transfer from Dounreay to Drigg; what the composition of the material is; what method of transport will be used; and if she will make a statement. [162254]

Mr. Morley *[holding answer 18 March 2004]:* The application by UKAEA to transfer LLW to Drigg has been made to SEPA, whose responsibility it is to determine the application under the provisions of the Radioactive Substances Act 1993, subject to the powers of Scottish Ministers. As such it is a matter for SEPA and the Scottish Ministers.

I understand that SEPA has published the application and associated documentation on its website for public consultation, which closed on 23 February 2004. These can be viewed at: http://www.sepa.org.uk/consultation/ukaea/index.htm.

Given that Drigg is operated as a United Kingdom facility and that its existing authorisation is sufficient to cover the proposed transfer, it is not necessary for the Secretary of State to be involved in determining UKAEA's current application.

Pesticides

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate she has made of the number of people whose health has been affected in the last five years by being exposed in the open air to pesticides; and if she will make a statement. [161102]

Alun Michael: Complaints alleging ill health effects resulting from exposure to pesticides are routinely investigated by Health and Safety Executive (HSE) Inspectors. HSE's Pesticides Incidents Appraisal Panel (PIAP) considers the reports of investigations, with the aim of providing an overview of ill health attributed to pesticide exposure so that new issues and trends can be identified, and to inform the pesticides approval process.

HSE publishes an annual Pesticide Incidents Report, which contains information on investigated incidents and enforcement action, looks at statistical trends over a ten year period, and summarises the work of PIAP. Copies of the latest Report for 2002/3 have been placed in the House Library.

Plant Diversity

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on her plans to implement the proposals contained in Plant Diversity Challenge: the UK's response to the Global Strategy for Plant Conservation. [161041]

Mr. Bradshaw *[holding answer 12 March 2004]:* There is already a great deal of action going on which will help us to progress many of these proposals. These include activities under the UK Biodiversity Action Plan and the specific action plans for the conservation of 45 habitats and 391 species, many of which are plants. In addition, a range of biodiversity and sustainable development measures will assist us in progressing the Plant Conservation Strategy, including our extensive network of protected sites, the development of agri-environment schemes in the UK, and the Millennium Seed Bank at Kew.

Printer Cartridges

Mr. Donohoe: To ask the Secretary of State for Environment, Food and Rural Affairs whether ink cartridges will be included under the guidelines of the Waste Electrical and Electronic Equipment Directive; and if she will make a statement. [161783]

Mr. Morley: The controls of the Waste Electrical and Electronic Equipment (WEEE) Directive apply to whole electrical and electronic products, and not consumables such as inkjet printer cartridges.

Sewer Baiting

Paddy Tipping: To ask the Secretary of State for Environment, Food and Rural Affairs if she will issue guidance to local authorities on courses of action available to them where sewerage undertakers are unwilling to be involved in joint work on sewer baiting. [161666]

Mr. Morley *[holding answer 17 March 2004]:* A joint protocol, published in 1999 by the Local Government Association and Water UK, contained arrangements for closer working relationships between water companies and local authorities in respect of rodent infestations in sewers.

I am not aware of any representations from Local Authorities needing further guidance.

Sugar Regime

Mr. Wills: To ask the Secretary of State for Environment, Food and Rural Affairs what representations she has made to the European *(a)* Agriculture and *(b)* Trade Commissioner on reform of the Common Agricultural Policy sugar regime; and if she will make a statement. [160559]

Alun Michael: My right hon. Friend the Secretary of State has made clear in the Agriculture Council and in other contacts with the Commission that she is anxious for early progress on reforming a regime that has remained substantially unaltered for over 35 years, despite the fundamental changes achieved elsewhere in the Common Agricultural Policy. The Government are still considering which of the specific options put forward by the Commission represents the best way ahead, taking account of the range of interests involved, including the implications for developing countries.

Mr. Wills: To ask the Secretary of State for Environment, Food and Rural Affairs which of the options for reform of the Common Agricultural Policy

sugar regime set out in the European Commission's working paper, Reforming the European Union's Sugar Policy, is preferred by her Department. [160560]

Alun Michael: The Government have already made clear that it shares the European Commission's view that Option 1, involving extension of the present regime beyond 2006, is not sustainable. We have also said that we are looking for a market based approach in line with the major CAP reforms achieved in June 2003 across most other sectors.

Sugar reform raises a complex set of issues, including implications for developing countries, and we are still considering the best way ahead, taking account of the views received in our consultation exercise which closed on 16 January and which we are still assessing.

US Ships

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs by when she expects the seasonal weather to be appropriate to allow the return of the four ghost ships from Hartlepool to the United States. [158914]

Mr. Morley *[holding answer 5 March 2004]:* Clearly it is difficult to predict when the weather will be appropriate to allow for the possible return of the ships, but it is expected that the weather window could open in May. Before any such journey could be made, the vessels would need to be inspected, surveyed and appropriately certified for seaworthiness.

Wildlife Habitats

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what information she has on the variables which affect the carrying capacity of a habitat in respect of its ability to support a particular wildlife species. [158005]

Mr. Bradshaw: Competition between individuals within a species (intraspecific competition) limits the maximum number of individuals that can be supported by an environment (the environmental carrying capacity). This is influenced by the quantity of resources that are under competition. These may include food resources, nesting sites and mates.

Further information on this topic may be obtained from any elementary ecology text book, such as Begon, M., Harper, J. L. & Townsend, C. R. (1996) *Ecology*. 3rd Edition. Blackwell Science, Oxford.

CABINET OFFICE

Departmental Communications

Matthew Taylor: To ask the Minister for the Cabinet Office (1) what the total expenditure on communications for the Office has been in 2003–04, broken down by expenditure on *(a)* Government Information and Communication Service staff and *(b)* other staff, broken down by (i) press officers, (ii) special advisers and (iii) others; [158158]

(2) how many staff are employed in the Office to work in the communications field, broken down by *(a)* Government Information and Communication Service staff and *(b)* other staff, broken down by (i) press officers, (ii) special advisers and (iii) others. [158172]

Mr. Alexander: Communication is embedded in Government policy development and delivery and not simply an end function of departmental press officers.

Within the Cabinet Office there are two specific units who deal with communications and are largely staffed by GICS members—the Communications Group (CG) and the GICS Centre.

CG provides advice and services on press and media relations, the internet and other electronic communication; internal communication; marketing and publications; and editorial. CG currently employs 41 staff, 7.5 of whom work in the press office supporting five Ministers. CG budget for this year is £3,615,100. This breaks down to £1,736,746 staff, £917,554 running costs and £960,800 departmental communication activity.

The GICS Centre is responsible for cross-departmental and emergency communications and activity including the Government News Network (GNN), and the News Co-ordination Unit (NCC) and the Media Monitoring Unit (MMU). It is also responsible for GICS corporate and HR policy matters. The budget for the GICS centre for 2003–04 was £2.458 million. The GICS Centre currently has 170 staff of whom 130 are part of the GNN, which has offices in London and also regionally across the UK. The GNN operates on a repayment basis charging Departments for the services it provides.

Communications staff across Whitehall on short-term secondment operate the NCC on an ad hoc basis when it is activated. The MMU currently has 15 full time staff. The MMU is self-financing operating on a subscription charge to the Government Departments that it serves.

There is one special adviser appointed to the Minister without Portfolio (MWP). The special adviser does not work as part of the Cabinet Office CG but may in the course of his duties as set out in the Special Adviser's Code of Conduct, advice the MWP on communications issues.

Official Opposition (Officials)

Norman Baker: To ask the Minister for the Cabinet Office how many officials, and of what grade, are allocated to the Official Opposition; how they were selected; where they are based; and what the total cost is. [161819]

Mr. Alexander: Four civil servants—one HEO equivalent, one EO and two administrative officers—are allocated to the Official Opposition Whips Office in the House of Commons. All were appointed following Cabinet Office recruitment and selection procedures. The total cost in the current financial year will be approximately £128,000.

CULTURE, MEDIA AND SPORT

National Lottery

Mr. Heald: To ask the Secretary of State for Culture, Media and Sport how many applications for Lottery money have been made since the introduction of the online facility; and how many of these were made online. [162812]

Estelle Morris: This Department does not collect comprehensive information on the number of applications for Lottery grants made to the distributing bodies. I will write to the hon. Member with details of the number of applications made online once these have been ascertained.

New Opportunities Fund

Mr. Spring: To ask the Secretary of State for Culture, Media and Sport how much money from the New Opportunities Fund was allocated to *(a)* the West Suffolk constituency and *(b)* the county of Suffolk, in each year since its inception. [163033]

Estelle Morris: In each financial year, the New Opportunities Fund allocated to:

West Suffolk constituency

	£
1999–2000	88,848
2000–01	149,362
2001–02	25,703
2002–03	76,398
2003 to current date	326,378
Total	666,689

County of Suffolk

	£
1999–2000	2,921,208
2000–01	1,828,195
2001–02	4,250,369
2002–03	3,271,150
2003 to current date	2,255,738
Total	14,526,660

These numbers are derived from the Department's database of Lottery awards, which is based on information supplied by New Opportunities Fund (and the other distributing bodies).

Police Transfers

Chris Grayling: To ask the Secretary of State for Culture, Media and Sport whether the transfer arrangements for the pensions of officers in the Royal Parks Constabulary when they join the Metropolitan Police will ensure that no officer receives a lower level of *(a)* pension and *(b)* lump sum than they would have received had they remained in the RPC under the current arrangements until retirement age. [160348]

Mr. Caborn: Officers in the Royal Parks Constabulary are covered by the Principal Civil Service Pension Scheme; officers in the Metropolitan Police Service are covered by the Police Pension Scheme. While the PCSPS provides a pension and lump sum payment on retirement, the PPS provides a pension at retirement with an option to commute up to a quarter for a lump sum. How much pension and lump sum officers in the PPS receive therefore depends on their own decisions. The Government Actuary's Department has confirmed that the PPS is generally more valuable for members than the PCSPS. Officers in the RPC will have the option of transferring their accrued pension rights from the PCSPS on special terms so that they will have a package of benefits which is overall at least as valuable as that they would have received from the RPC.

Television Signal

Mr. Soames: To ask the Secretary of State for Culture, Media and Sport what steps she *(a)* has taken and *(b)* plans to take to improve the television signal in mid-Sussex. [163042]

Estelle Morris *[holding answer 22 March 2004]:* Broadcasters, through contracts with transmission operators, are responsible for maintaining the terrestrial television network. The Broadcasters are no longer seeking to improve analogue coverage in the UK as this is expected to be switched off in favour of digital TV.

While much of mid-Sussex already receives digital terrestrial TV, the broadcasters are aware that coverage is not universal and are keen to improve this. Unfortunately, due to International planning constraints this cannot happen before switchover.

TRANSPORT

Bus Services

Mr. Drew: To ask the Secretary of State for Transport what advice he offers to local authorities on their subsidy regime for bus services; and what discussions he has had with the Department for Education and Skills on school transport policies. [162826]

Mr. McNulty: It is for local authorities to determine their policies and procedures for the subsidy of bus services in their area, within the framework set by the Transport Acts 1985 and 2000. We have however provided a guide to good practice on the procurement of local bus and community transport services, including school transport services. This guide is currently being revised and up-dated.

Ministers and officials of this Department and the Department for Education and Skills have frequent discussions on school transport issues. In September 2003, the two Departments jointly published "Travelling to School: an action plan", setting out measures to reduce car dependency and increase the proportion of children walking, cycling and taking the bus to school. We are working closely together on the implementation of the action plan and the School Transport Bill.

Cycling Accidents

Jim Dowd: To ask the Secretary of State for Transport what steps he is taking to reduce the level of accidents and injuries among cyclists aged 16 years and under; and if he will include the compulsory wearing of safety helmets. [155220]

Mr. Jamieson: We have a safer cycling programme, which applies both to cyclists aged 16 and under, and older cyclists. This package of measures includes improved infrastructure—better cycle routes, off road cycle tracks, cycle lanes, advance stop lines, toucan crossings etc.; better driving standards and advice for cyclists, for example we are encouraging better facilities for cyclists and improving training and testing for motorists. It also covers the promotion of measures which cyclists can take to protect themselves, such as taking cycle training, making themselves conspicuous and wearing a cycle helmet.

Measures specifically aimed at younger cyclists include a Cycle Sense campaign. This is aimed at teenagers and was launched on 21 May last year. It encourages teenagers to wear cycle helmets and consists of posters and a Cycle Sense website. For younger cyclists we also produce "Arrive Alive"—a Highway Code for young road users, and we have also worked in partnership with Disney, using their "Recess" characters to promote safer cycling for children through "Cycle Smart" comics and posters. These are available free through local authority road safety officers.

Our position on compulsion has been that at current wearing rates it would cause enforcement difficulties and could have an effect on cycling levels. But the Government will keep their policies in this as in all areas under review in the light of discussion in Parliament and elsewhere.

Departmental Scientific Adviser

Dr. Iddon: To ask the Secretary of State for Transport whether his Department has a Chief Scientific Adviser. [162480]

Mr. McNulty: Professor Frank Kelly joined the Department for Transport as its Chief Scientific Adviser in August 2003.

E-business Strategy

Mr. Heald: To ask the Secretary of State for Transport when he expects to produce his Department's e-business strategy. [162814]

Mr. McNulty: A summary of the Department's e-business strategy was presented on page 116 of the Department's Annual Report 2003 (Cm 5907). Good progress has continued to be made during 2003–04, including the launch of an internet service for the booking of practical Driving Tests, a Motoring section of the new DirectGov service and a pilot service for the online payment of Vehicle Excise Duty.

Fuel-efficient Vehicles

Claire Ward: To ask the Secretary of State for Transport what plans he has to extend the grant scheme for fuel efficient and hybrid powered vehicles. [162906]

Mr. Jamieson: Overall DfT funding for the Transport Energy programmes, including the Powershift grant programme, which supports purchases of clean hybrid and alternatively fuelled vehicles, will be nearly £30 million in 2004–05, the same level as in 2003–04. We will be carrying out a consultation exercise later this year to invite views on how well the Transport Energy grant programmes are assisting the delivery of the Government's policy objectives in the Powering Future Vehicles Strategy, and how the programmes could be improved.

Headlamp Glare

Mr. Chope: To ask the Secretary of State for Transport if he will place in the Library the conclusions of the research project sponsored by his Department into the safe limits for headlamp glare; and if he will make a statement on the action the Government intend to take in the light of the conclusions of the report. [163152]

Mr. Jamieson: The research was carried out by ICE Ergonomics Ltd. Copies of the "Vehicle Lighting: Headlamp Glare and Driver Vision" summary report have been placed in the Libraries of the House.

The Department for Transport is actively involved in developing international standards for improved vehicle lighting and will continue to monitor proposals for new headlamp regulations and to oppose them where there is a possibility of increased glare.

Research is currently being carried out into headlamp misalignment as a cause of annual roadworthiness test failure for heavy goods vehicles. The results will be used to consider how the incidence of poorly adjusted headlamps could be reduced.

The Department is also developing protocols for a Primary New Car Assessment Programme looking at lighting and other safety features. If these are adopted as a basis for a European consumer information programme, assessment of headlamps for glare will contribute to the vehicle's rating.

M1

Mr. Greg Knight: To ask the Secretary of State for Transport for what reasons the roadworks being undertaken between junctions 1 and 2 of the M1 motorway and the roadworks being undertaken on Hendon Way, London have not been phased and carried out consecutively. [162859]

Dr. Howells: The Highways Agency and Transport for London liaised prior to the start of these works to avoid clashes of major works likely to cause severe disruption. These meetings concluded that certain works could be carried out simultaneously.

The works by Transport for London are currently being carried out at the southern end of the A41 only during off-peak hours. The Highways Agency works are continuing 24 hours a day, seven days a week so that they can be completed in the shortest time with minimal inconvenience to the public.

Monitoring by both the Highways Agency and Transport for London has indicated no serious problems for motorists.

Science Strategy

Dr. Iddon: To ask the Secretary of State for Transport what steps he has taken to enhance science in his Department since the publication of the Government's science strategy, Investing in Innovation. [162243]

Mr. McNulty: The Department for Transport (DfT) has maintained its commitment to the use of science for policy making and delivery. DfTs expenditure on Science, Engineering and Technology remains at the levels indicated in the annual Office of Science and Technology publication "The Forward Look". This includes commissioned research expenditure of around £45 million per year.

In August 2003 Professor Frank Kelly joined the Department as Chief Scientific Adviser. He is focusing on ensuring that DfT scientific activities are well directed and policies are based on sound scientific advice. He also leads on developing a technology strategy for the Department.

In December 2003, the Department published an Evidence and Research Strategy, which aims to help achieve the goal of better evidence based policy-making by taking a strategic look at its future evidence needs. This will inform the planning and execution of the Department's research.

The Department has also created a web-based Research Management Database (RMD) which will make it easier for departmental staff as well as people outside the Department to access the results of the research funded by the DfT. The RMD can be accessed at http://www.rmd.dft.gov.uk.

DfT is continuing to implement the recommendations of the 2002 Cross Cutting Review of Science in Government, and Investing in Innovation. This includes ensuring that our research, and evidence and research expertise are managed effectively.

We support a Horizons responsive research programme, which supports innovative research on the challenges and opportunities DfT might face over the next decade and beyond. The programme invites proposals from external researchers via a series of individual calls.

Renewed emphasis is being put on maximising the use of Departmental Science to promote innovation within the public services and the economy at large. One of the avenues being explored is the opportunities for innovation through the freeing up of information eg real time traffic data.

Speeding

Mr. Burns: To ask the Secretary of State for Transport how many road traffic accidents which occured in Essex during 2003 were primarily caused by speed; and if he will make a statement. [156314]

Mr. Jamieson: Routine statistics do not record the primary cause of a road accident. However, under a pilot scheme, since 1999 Essex police force has provided information on contributory factors to accidents. The latest year for which pilot data are available is 2002. The number of reported injury accidents in Essex in 2002 for which 'excessive speed' was deemed by the police to be one of the contributory factors, was 964. These 964 accidents resulted in 27 deaths, 270 serious injuries and 1,118 slight injuries.

Essex is one of 14 police forces for which pilot data are available. Overall, the pilot results for 2002 show that 'excessive speed' was deemed to be a factor in some 15 per cent. of injury accidents. The proportion of accidents where 'excessive speed' is coded as a factor rises with the severity of the accident; it applied to 13 per cent. of slight accidents, 23 per cent. of serious accidents and 33 per cen. of fatal accidents in the pilot areas in 2002. If these proportions were the same across the whole of the country, this would mean that 1,132 deaths, 8,274 serious injuries and 34,216 slight injuries were sustained in accidents where excessive speed was deemed to be a contributory factor.

The contributory factor data are based on the opinions of police officers. In the case of accidents reported by a member of the public at a police station, these factors have to be determined from their description of the accident.

The true extent of the influence of speed as a contributory factor in road traffic accidents may be even greater than suggested by the single factor 'excessive speed', as some other factors—such as 'following too close'—may also be associated with inappropriate speed. My Department is undertaking further analysis of the pilot contributory factor data and will publish an article later in the year.

Starting in January 2005 this pilot scheme will be replaced by a new set of questions on contributory factors, which will henceforward form an integral part of the road accident reporting system and will be collected by all police forces for accidents reported at scene by a police officer.

Steer Davies Gleave

Mr. Watson: To ask the Secretary of State for Transport pursuant to his answer of 17 March 2004, *Official Report*, column 288W, on Steer Davies Gleave, if he will list the contracts undertaken by Steer Davies Gleave in *(a)* 2002 and *(b)* 2003. [163046]

Mr. McNulty: The Strategic Rail Authority has placed the following contracts (with a value of over £25,000) with Steer Davies Gleave in the financial years 2002–03 and 2003–04.

	£000[1] *total value*
2002–03	
Modelling and strategic review of rail industry	75
Review of International rail services	70
Interchange needs	69
2003–04	
General Freight and value proposition analysis	108
Freight Studies—General Freight and Value Proposition Analysis	98
Remit for Study of Effects of Change Positions Pattern	124
West Midlands Route Utilisation Strategy: Passenger Demand Analysis and Forecasting	37
West Midlands Route Utilisation Strategy Passenger Counts and Surveys	38
RPC delivery best practice in information provision across the rail industry	87
Great Western Route Utilisation Strategy: Passenger demand analysis and forecasting	32
Policy of build of new stations	100
WCRM review project	85
Development of Regional Planning assessment for North West England	221
Freight Studies—Value Proposition analysis	138
Recalibration of PLANET south models	116

[1] Rounded

Vehicle Excise Duty

Mr. Nigel Jones: To ask the Secretary of State for Transport what representations he has received from people who are unable to renew their vehicle excise duty at the appropriate time owing to being out of the country for the period before their existing vehicle excise duty expires; if he will allow a period of grace so that such people can tax their cars on their return to the United Kingdom and not be prosecuted for driving without having paid the duty during the period of grace; and if he will make a statement. [161963]

Mr. Jamieson: It is already possible for motorists who are abroad when their vehicle licence becomes due for renewal to relicense their vehicle up to six weeks in advance of expiry date. Tax discs can be posted to applicants at a forwarding address abroad. The law also allows motorists a further 14 days from the date the licence was due, in which to relicense. If the keeper of a vehicle is abroad for a protracted period of time and intends to take a licensed vehicle off the road, they may make a Statutory Off Road Notification (SORN) to this effect to DVLA and will receive a refund for every full month of unexpired vehicle excise duty. However, if the vehicle is used or kept on the public road it must be licensed.

CONSTITUTIONAL AFFAIRS

Cleveland Coroner Inquiry

Vera Baird: To ask the Parliamentary Secretary, Department for Constitutional Affairs when the Department expects to announce the outcome of the inquiry into the conduct of the Cleveland Coroner. [162985]

Mr. Leslie: His Honour Judge Milford QC presented his report of the investigation into the conduct of Coroner Sheffield in December 2003. As I have said previously, my noble and learned Friend the Secretary of State and Lord Chancellor is keen to conclude this matter, but the report has required detailed consideration. It is not possible to set a specific date for public announcement at this stage.

Fines (Salisbury Courts)

Mr. Key: To ask the Parliamentary Secretary, Department for Constitutional Affairs what percentage of fines imposed have been paid in *(a)* Salisbury magistrates court and *(b)* Salisbury Crown court in the past 12 months. [162447]

Mr. Leslie: Magistrates Courts Committees (MCCs) have a responsibility for the collection of a range of debts imposed by both the magistrates courts and the Crown court.

Data are collected centrally at a MCC level, rather than at individual court level. The Wiltshire MCC accounting system is therefore unable to separately identify the percentage of fines paid in Salisbury magistrates court or imposed by the Crown court.

For 2003–04 Wiltshire MCCs fines payment rate for the year to date at the end of January was 94 per cent.

Liability Claims

Brian Cotter: To ask the Parliamentary Secretary, Department for Constitutional Affairs what his policy is on enabling fixed cost awards for successful employers' liability and public liability claims. [162658]

Mr. Lammy: The cost of resolving claims should be reasonable and proportionate and the Department is working with other government departments, the Civil Justice Council, representative bodies from the legal, insurance and local government sectors to determine what role measures such as fixed recoverable costs can play in delivering this aim and helping to resolve disputes more quickly.

Project Funding

Mr. Colman: To ask the Parliamentary Secretary, Department for Constitutional Affairs how many *(a)* solely state-financed and *(b)* public-private partnership and private finance initiative projects for which his Department is responsible have been launched in each region in each of the last 10 years. [160977]

Mr. Leslie: The table shows how many *(a)* solely state financed and *(b)* public-private and private finance initiative projects the DCA has launched in each of the last 10 years. The solely state financed projects are for property and construction projects. The figures for the public-private and private finance initiative projects include IT and property and construction projects.

	Solely state financed	*Region*	*Public-private and private finance initiative projects*	*Region*
1994–95	3	Wales and Chester	0	
	1	South Eastern		
1995–96	2	South Eastern	0	
1996–97	0		0	
1997–98	0		2	National
1998–99	0		0	
1999–2000	1	Western	0	
2000–01	0		2	National
2001–02	0		0	—
2002–03	0		0	—
2003–04	0		1	South Eastern
(expected)			1	North Eastern
			1	Western

Hutton Inquiry

Chris Grayling: To ask the Parliamentary Secretary, Department for Constitutional Affairs what the total cost to public funds was of the Hutton inquiry. [162609]

Mr. Leslie: I refer the hon. Gentlemen to the answer I gave to the hon. Member for Torbay (Mr. Sanders) on 23 February 2004, *Official Report*, column 217W.

Supreme Court

Annabelle Ewing: To ask the Parliamentary Secretary, Department for Constitutional Affairs which consultees argued against the inclusion of Scottish criminal law appeals within the jurisdiction of the new UK Supreme Court. [162326]

Mr. Leslie: The Government published a summary of responses in January 2004. It has also published the full responses given by consultees on the Department for Constitutional Affairs website.

The Government have proposed that Scottish Criminal Law Appeals should not be included within the jurisdiction of the new UK Supreme Court. The majority of consultees agreed. These included the Law Society of Scotland, the Scottish Executive, Professor Hector MacQueen and Lord Mackay of Clashfern.

Annabelle Ewing: To ask the Parliamentary Secretary, Department for Constitutional Affairs what assessment has been made of the possible change in fees in civil cases that may be required following the establishment of the UK Supreme Court in *(a)* Scotland and *(b)* the rest of the UK. [162329]

Mr. Leslie: The costs of the United Kingdom Supreme Court attributable to civil business will be met by fee recovery in England and Wales; and in Northern Ireland. The Government are working closely with the Scottish Executive to develop an appropriate funding mechanism for Scotland. No detailed assessment can be made of changes in fee levels until a location is chosen for the Supreme Court,

Annabelle Ewing: To ask the Parliamentary Secretary, Department for Constitutional Affairs when Ministers in the Department last met Scottish Ministers to discuss the proposals for a new UK Supreme Court. [162330]

Mr. Leslie: My noble and learned Friend the Secretary of State for Constitutional Affairs and Lord Chancellor last met the First Minister of Scotland on 20 February 2004 and discussed the proposals for a new UK Supreme Court.

Annabelle Ewing: To ask the Parliamentary Secretary, Department for Constitutional Affairs whether Ministers in the Department have met representatives of *(a)* the Law Society of Scotland, *(b)* the Faculty of Advocates, *(c)* the Shrieval Bench, *(d)* Scottish judges and *(e)* the Scottish Legal Aid Board to discuss the proposals for a new UK Supreme Court. [162331]

Mr. Leslie: Ministers in the Department for Constitutional Affairs have informally met representatives of the Faculty of Advocates and Scottish judges to discuss proposals for a new UK Supreme Court.

There has been an exchange of correspondence with the Law Society of Scotland and this and other organisations responded to the Department's consultation paper on the proposed UK Supreme Court.

There have been no meetings between Department for Constitutional Affairs Ministers and either the Shrieval Bench or the Scottish Legal Aid Board.

HEALTH

Social Work

13. **Ms Munn:** To ask the Secretary of State for Health what progress has been made in increasing the number of people applying to courses leading to a qualification in social work. [162791]

Dr. Ladyman: The introduction of the social work degree in September 2003, a non means tested bursary for students not supported through training by their employer and our on-going national recruitment campaign is having a positive effect on applications to approved courses and in widening participation. The last available data in 2002 showed an increase in applications of 6 per cent.

Patients Forums

14. **Ms Oona King:** To ask the Secretary of State for Health if he will increase the support given to patients forums. [162792]

Ms Rosie Winterton: Support for patients forums is organised by the Commission for Patient and Public Involvement in Health. The budget for the Commission is £35.4 million in financial year 2003–04 and contracts have been awarded for support organisations to provide day to day support for forums.

Obesity

15. **Tom Brake:** To ask the Secretary of State for Health if he will make a statement on his Department's policy to tackle obesity. [162793]

Miss Melanie Johnson: Tackling obesity is at the heart of many of the Government's health priority areas. Prevention is the best long-term approach, especially in children, by improving diet and promoting physical activity. The Public Health White Paper will provide the overarching framework for work on diet and nutrition, physical activity and obesity.

Hospital-acquired Infections

16. **Mr. Lilley:** To ask the Secretary of State for Health whether he plans to issue new guidance on treatment and prevention of hospital-acquired infections. [162794]

Miss Melanie Johnson: Our action plan "Winning Ways—Working together to reduce Healthcare Associated Infection in England" is intended to ensure the implementation of existing guidance. It has a strong focus on better information and monitoring at the local level to secure change, with further guidance in due course.

Health Services (West Worcestershire)

17. **Sir Michael Spicer:** To ask the Secretary of State for Health if he will publish plans for the future of the health service in the constituency of West Worcestershire. [162795]

Dr. Ladyman: South Worcestershire Primary Care Trust is responsible for commissioning health care in West Worcestershire, to meet national and local priorities for improving health, tackling health inequalities and modernising services.

Over the current three year period, South Worcestershire's allocation will increase in cash terms by £60.6 million or over 30 per cent. That is a significant level of investment and will deliver real benefits and results for the people of West Worcestershire.

Blood Donation

18. **Nick Harvey:** To ask the Secretary of State for Health what plans he has to extend the ban on blood donations from those who have received a blood transfusion since 1980 to organ recipients; and if he will make a statement. [162796]

Miss Melanie Johnson: Individuals who have had an organ transplant would be excluded from being blood donors because of their underlying condition, which led to that organ transplant.

Mr. Havard: To ask the Secretary of State for Health whether the Advisory Committee on the Microbiological Safety of Blood and Tissues for Transplantation has decided whether to ban recipients of blood from donating blood; and when the decision will be made public. [153864]

Miss Melanie Johnson: The Advisory Committee on the Microbiological Safety of Blood and Tissues for Transplantation met on 22 January to discuss further measures to safeguard the blood supply against the possible risk of variant Creutzfeldt-Jakob Disease (vCJD). The Committee advised that the United Kingdom blood services should exclude those people who have previously received a blood transfusion since 1980 as a precautionary measure against the risk of vCJD being transmitted by blood and blood components. My right hon. Friend the Secretary of State for Health made a statement to the House on this issue on 16 March.

Sports Provision

19. **Mr. Gardiner:** To ask the Secretary of State for Health what action he is taking to ensure that primary care trusts, local authorities and others have shared objectives with regard to sport and physical activity. [162797]

Miss Melanie Johnson: The cross-Government Activity Co-ordination Team (ACT), jointly chaired by myself and my hon. Friend, the Minister of State at the Department for Culture, Media and Sport (Richard Caborn), is drawing up a plan to increase physical activity levels across England and this will include work by the national health service, local government and others.

Digital Hearing Aids

21. **Mr. Webb:** To ask the Secretary of State for Health if he will make a statement on access to digital hearing aids. [162799]

Dr. Ladyman: The Royal National Institute for Deaf People has successfully managed the Modernising Hearing Aid Services (MHAS) project on behalf of my Department. Already digital hearing aids are available in two thirds of the National Health Service audiology departments in England and by April 2005, they will be available throughout England.

Administration Costs

Mr. Burstow: To ask the Secretary of State for Health if he will undertake to reduce the administration costs of *(a)* strategic health authorities, *(b)* primary care trusts and *(c)* NHS trusts by setting up shared administration and human resources systems. [157581]

Mr. Hutton: The Department has initiated a number of initiatives to reduce the administration and human resource costs of all National Health Service bodies. These include the setting up of two shared service centres to provide financial services and the sponsoring of a number of projects designed to support the NHS in recruiting, retaining and managing its workforce.

The shared financial service centres in Bristol and Leeds were set up as pilots last year. These have been successful and the Department is currently advertising for a private sector partner to help expand the centres and make their services available across the NHS. The human resources projects cover electronic recruitment and careers, and staff records/payroll. The recruitment and careers project is currently being rolled out across the NHS and staff records/payroll will be piloted this year.

Alcohol-related Violence

Mr. Denham: To ask the Secretary of State for Health what measures his Department has taken to ensure that the NHS co-operates with other agencies to tackle alcohol-related violence. [162781]

Miss Melanie Johnson: Crime and disorder reduction partnerships tackle crime at local level. National health service involvement in tackling alcohol-related crime will be strengthened when primary care trusts become responsible authorities within these partnerships from April 2004.

Angiography

Mr. Burstow: To ask the Secretary of State for Health (1) pursuant to his Answer of 9 February 2004, *Official Report*, column 1200W, on angiography, how many waits were under *(a)* three, *(b)* six, *(c)* nine, *(d)* 12 and *(e)* 15 months; [156246]

(2) pursuant to his Answer of 9 February 2004, *Official Report*, column 1200W, on angiography, how many waits were under *(a)* three, *(b)* six, *(c)* nine, *(d)* 12 and *(e)* 15 months for (i) England and (ii) each Strategic Health Authority. [158964]

Miss Melanie Johnson: The information requested has been placed in the Library.

No patient will wait more than nine months from April 2004.

Berners Willi Syndrome

Mr. Gordon Prentice: To ask the Secretary of State for Health how many people in the UK have Berners Willi Syndrome; what the cost was to *(a)* the NHS and *(b)* social services departments of treating them in the last financial year; and if he will make a statement. [162598]

Dr. Ladyman: There are estimated to be about 1,100 people with Prader Willi Syndrome (PWS) in England. Packages of care reflecting individual needs are drawn up locally. Records of expenditure relating specifically to people suffering from PWS are not collected centrally.

Carers Assessments

Mr. Baron: To ask the Secretary of State for Health how many carers assessments were carried out by each local authority in England during *(a)* 2002 and *(b)* 2003. [162233]

Dr. Ladyman *[holding answer 18 March 2004]:* Information showing the number of carer assessments carried out by each council in England for the year 2001–02 and 2002–03, has been placed in the Library.

Chronic Disease Management

Mr. Burstow: To ask the Secretary of State for Health if he will estimate the total cost of chronic disease to *(a)* the NHS and *(b)* the economy as a whole. [157582]

Mr. Hutton: There is a range of evidence that confirms that patients with chronic conditions make the most use of health services. For example, around 80 per cent. of general practice consultations and 60 per cent. of hospital bed usage relates to chronic diseases. It is, however, difficult to estimate the full costs of these conditions reliably. Spending on the disease-focused national service frameworks was estimated at £9.9 billion in 2002–03 by Derek Wanless in "Securing our Future Health: Taking a Long-Term View", but this represents only a part of the costs of chronic disease.

Improving the care offered to people with chronic conditions now represents a major challenge to the National Health Service and partner organisations and we have just announced plans to establish demonstration sites within each strategic health authority as part of a programme to address this challenge.

Dentistry

Mr. Watts: To ask the Secretary of State for Health how many vacancies there are for NHS *(a)* general practitioners and *(b)* dentists in each primary care trust. [158181]

Mr. Hutton: Information on the number of general practitioners (GP) vacancies in each primary care trust that occurred between 1 April 2002 and 31 March 2003 has been placed in the Library.

The recruitment, retention and vacancy survey is a count of all GP vacancies that have occurred during each year. It will include existing posts that doctors have left and also new posts created to increase the work force, even where they were filled very quickly. The number of vacancies in parts is a result of there being more posts overall, reflecting the Government's plan to increase the GP work force.

In the general dental service dentists are recruited and employed by independent contractors. This information is therefore not available centrally.

Mr. Gordon Prentice: To ask the Secretary of State for Health what incentives are being offered to dentists to practise NHS dentistry in Pendle. [162783]

Ms Rosie Winterton: Burnley, Pendle and Rossendale Primary Care Trust has been identified as one of the 16 PCTs where access is a significant problem. The National Health Service dentistry support team is currently working with the PCT to provide advice and guidance on best practice in increasing access and modernising dentistry locally, backed by £9 million nationally. A Dental Action Plan has been developed jointly with the two neighbouring primary care trusts in East Lancashire This plan is wide-ranging, but includes offering incentive grants to dental students willing to practice in the area for three to five years following vocational training, equating to £3,000 per year.

Mr. Hancock: To ask the Secretary of State for Health what research he has *(a)* commissioned and *(b)* evaluated on the reasons for dentists leaving the NHS for the private sector; and if he will make a statement. [160768]

Ms Rosie Winterton: The Department has not itself commissioned any such research. However, the Department has been aware, through working with the dental profession and from various reports by independent bodies such as the Audit Commission, that there is a high level of discontent amongst dentists with the current arrangements. Dentists tell us that the current remuneration system, which is based on fee for item of service, feels like a treadmill and is the main cause of dissatisfaction among dentists and patients. It gears payments towards treatment rather than prevention and its piecework nature is thought to act as a barrier to dentists agreeing to undertake National Health Service work.

In 2001, the then Chief Dental Officer, Dame Margaret Seward, was invited to lead a working group, comprising representatives from the profession, patient groups and other stakeholders, to look at the options to modernise NHS dentistry, building on the Government's strategy document, "Modernising NHS Dentistry: Implementing the NHS Plan", published in September 2000.

The group's conclusions are set out in "NHS Dentistry: Options for Change", which was published in August 2002. The key themes and priorities that emerged were the need for local commissioning and funding and new methods of remuneration for general dental practitioners.

We have followed up this work by taking powers through the Health and Social Care (Community Health and Standards) Act 2003 to undertake wide-ranging reform of NHS dentistry. Under these proposals, primary care trusts will assume responsibility for commissioning primary dental care services. With these responsibilities will go the financial resources,

totalling some £1.3 billion this year (2003-04), which are currently held centrally. These changes are aimed to underpin modernised, high-quality primary dental care services properly integrated with the rest of the NHS and providing better access, improved patient experience and better working lives for dentists and their staff.

East Midlands Ambulance Service

Mr. Garnier: To ask the Secretary of State for Health if he will make a statement on recent trends in the response times by the East Midlands Ambulance Service to Category A emergency call outs within the Melton, Rutland and Harborough Primary Care Trust Area; and if he will set up an inquiry into the management of this ambulance service. [162589]

Dr. Ladyman: Information on recent trends by the East Midlands Ambulance Service to Category A emergency call outs within the Melton, Rutland and Harborough Primary Care Trust area are not available centrally.

Information about the performance of ambulance trusts is published annually in a statistical bulletin. The latest data are in "Ambulance Services, England: 2002–03". A copy of the bulletin is available in the Library and at www.publications.doh.gov.uk/public/sb0313.htm.

In line with "Shifting the Balance of Power", it is for Trent and Leicestershire, Northamptonshire and Rutland strategic health authorities to decide whether an inquiry into the management of the trust is necessary.

Elderly People

Bob Spink: To ask the Secretary of State for Health what his policy is for the rehabilitation of elderly people; and if he will make a statement. [162913]

Dr. Ladyman: The development and expansion of intermediate care services is key to the Government's policy for the rehabilitation of elderly people. In 2003–04 a total of £405 million has been made available to the national health service for intermediate care services.

The national service framework (NSF) for older people asks the NHS and local councils, in partnership with independent sector providers, to develop an appropriate range of services that aid rehabilitation and recovery. Individual care plans should clearly identify any potential for rehabilitation.

Environmental Protection

Norman Baker: To ask the Secretary of State for Health what mechanisms exist to assess *(a)* the health benefits and *(b)* the potential savings for the NHS in the regulatory impact assessments undertaken by (i) Department for Environment, Food and Rural Affairs and (ii) Department of Trade and Industry on proposed environmental protection measures. [155429]

Mr. Hutton *[holding answer 23 February 2004]:* I understand all regulatory impact assessments (RIAs) undertaken by the Department for Environment, Food and Rural Affairs (DEFRA) and the Department for Trade and Industry include details, where appropriate, of not only the obvious costs and benefits of the proposal but also the wider economic, social and environmental impacts. This includes health benefits and, where appropriate, public sector impacts, including savings. Information regarding the costs and benefits analysis of policy proposals is contained in the Cabinet Office guidance, Better Policy Making: A Guide To Regulatory Impact Assessment.

Within DEFRA, use of the integrated policy appraisal screening tool is also encouraged, which provides a checklist of questions on potential impacts of a proposed policy, including a question on access to National Health Service services.

Analytical work within DEFRA also covers the quantification and valuation of health benefits and costs to inform policy making and feed directly into the RIA process. For example, considerable work has been undertaken on quantifying and valuing the health benefits of improved air quality, on valuing the benefits of improvements to bathing water quality and on valuing the "intangible" impacts of flooding, that is the health and stress effects associated with flooding.

DEFRA will be shortly issuing further guidance to operating authorities on the application of the results of research on the health and stress impacts of flooding for use in project appraisal.

NHS Trusts

Mr. Burstow: To ask the Secretary of State for Health if he will estimate the total cost of his Department's policy to franchise the management of failing NHS trusts. [154100]

Mr. Hutton: Staff time is not recorded by task undertaken and it is therefore not possible to differentiate the amount of time allocated to this task by the organisations involved.

Mr. Burstow: To ask the Secretary of State for Health what his Department's policy is on franchising the management of failing NHS trusts. [154141]

Mr. Hutton: National health service franchising is a way of introducing new senior management to poorly performing NHS organisations as a means of improving performance.

Franchising is only considered for zero star trusts, which are unable to demonstrate their capacity under existing management for sustainable improvements in performance. Normally, it is a last resort for trusts where less direct forms of assistance, support and/or intervention have already failed or are considered unlikely to succeed.

It is for strategic health authorities to decide what support and intervention is necessary in zero star trusts and primary care trusts.

Franchise Managers

Mr. Hoban: To ask the Secretary of State for Health what role the Department has played in appointing franchise managers to zero star acute hospital trusts, with

particular reference to *(a)* their terms of employment, *(b)* their remuneration packages and *(c)* approving their plans for improving the performance of the trust. [154835]

Mr. Hutton: The chief executives appointed to the seven national health service trusts that have been franchised were appointed and employed by the NHS trust chairs and non-executives on behalf of the trusts. The terms of their employment and remuneration are matters for the appointments and remuneration committees of the respective trust boards, as is the case for all NHS trust chief executive appointments.

The Department was represented on each candidate's interview panel.

Franchise plans are documents that set out future operational proposals for the trust, and formed the basis of the franchise application. The Department representatives saw the franchise plans as they were part of the recruitment process.

Hip Replacements

Dr. Starkey: To ask the Secretary of State for Health what the latest estimated cost is of a hip replacement operation on the NHS. [162790]

Mr. Hutton: According to the National Schedule of Reference Costs 2003, the national average cost of a primary hip replacement undertaken by a National Health Service trust as a planned elective inpatient admission is £4,660.

Hospital Car Park Charges

Mr. Hoyle: To ask the Secretary of State for Health how many hospitals *(a)* charge and *(b)* do not charge (i) staff, (ii) visitors and (iii) patients to park. [157908]

Mr. Hutton: It is a matter for individual National Health Service trusts to decide whether to charge for car parking in the light of local circumstances. Information on this activity is, therefore, not collected centrally.

Medical Contracts

Mr. Burstow: To ask the Secretary of State for Health what assessment he has made of the achievability of his target of placing all general practitioners on *(a)* personal medical service and *(b)* general medical services contracts by 31st March. [158503]

Mr. Hutton: We expect the majority of general practitioners to have entered into valid contracts by 1 April 2004.

NHS Professionals

Mr. Baron: To ask the Secretary of State for Health what proportion of the funding for NHS Professionals for the 2002–03 financial year and each of the previous years since inception was spent on *(a)* staff salaries, *(b)* infrastructure and premises costs and *(c)* marketing and advertising; and if he will make a statement. [160497]

Mr. Hutton *[holding answer 11 March 2004]:* This information is not held centrally. The newly established NHS Professionals special health authority will identify expenditure on these areas separately in future.

Nursing

Mr. Godsiff: To ask the Secretary of State for Health what information he has collated on how many black and ethnic minority nurses in the NHS are paid less than their white counterparts. [158108]

Mr. Hutton: This information is not collected centrally.

The proposed new pay system for the non-medical workforce, "Agenda for Change", developed in partnership with the trades unions, is designed to ensure there is equal pay for work of equal value for all non-medical staff regardless of their ethnic origin.

Parliamentary Questions

Mr. Carmichael: To ask the Secretary of State for Health when he will reply to the question reference 156621 tabled by the hon. Member for Orkney and Shetland on 25 February 2004, on the promotion of organ donation. [163267]

Ms Rosie Winterton: A reply was sent to the hon. Member on Monday 22 March.

Patient Power

Mr. Dhanda: To ask the Secretary of State for Health what steps he is taking to implement the Government's commitment to give patients more power over the treatment they receive. [156827]

Mr. Hutton: Building on the Best: Choice, Responsiveness and Equity in the NHS, published on 9 December 2003, sets out what steps we are taking to increase patient choice in the national health service. The document includes six priorities for immediate action including extending choice in treatment and care. One of the six priorities emphasises the importance of information so that patients have the power and confidence to work in partnership with clinical staff and share decisions about their care and treatment.

Primary Care Trusts

Mr. Jim Cunningham: To ask the Secretary of State for Health what measures his Department is taking in response to Commission for Health Improvement concerns on the capacity of primary care trusts to use commissioning as a lever for improvement. [160918]

Mr. Hutton *[holding answer 16 March 2004]:* Primary care trusts (PCTs) currently control 75 per cent. of the total National Health Service budget and from April 2004 that will increase to 81 per cent. This places PCTs in the forefront of the modernisation agenda, with the resources at their disposal to deliver improvements for their local populations. Through the Modernisation Agency, PCTs will continue to have access to high quality support programmes (such as the national primary and care trust development programme) that provide opportunities for the sharing of good practice and expert advice.

In addition, work is currently under way to identify opportunities for primary care clinicians to become more actively involved in the commissioning process. This will facilitate further clinician to clinician commissioning using accepted clinical care pathways.

Private Health Providers

Mr. Goodman: To ask the Secretary of State for Health what sums the NHS has paid to private health providers in each year since 2003; and how much has been paid this year. [158082]

Mr. Hutton: The Department does not hold centrally information on the amount the National Health Service has paid to private health providers in each year since 2003. The exception is the independent sector treatment centre programme. The centre at Daventry opened in October 2003 and we estimate that, by the end of March 2004, the amount paid to the provider will be £1.1 million. The national mobile cataract treatment centre opened in February 2004 and we estimate that, by the end of March 2004, the amount paid will be £2 million.

Recruitment

Matthew Taylor: To ask the Secretary of State for Health what the cost of recruitment of civil servants for the Department was in each financial year since 1996–97, broken down by *(a)* delegated or contracted out recruitment procedures and *(b)* recruitment procedures carried out by the Department. [158176]

Ms Rosie Winterton: The Department does not keep a record of the cost of recruitment of civil servants broken down by delegated or contracted out recruitment procedures.

The recruitment of staff into the Department is delegated to managers with the help of their corporate development teams. The information on the cost of recruitment procedures carried out by the Department can be provided only at disproportionate cost.

Temporary Staff

Matthew Taylor: To ask the Secretary of State for Health how many staff the Department employs on a temporary basis through employment agencies; what percentage this is of total staff employed; and how much the Department paid employment agencies to supply temporary staff in *(a)* 2001–02, *(b)* 2002–03 and *(c)* 2003–04 to the most recent date for which figures are available. [158244]

Ms Rosie Winterton: The table shows the contract/employment agency staff costs for years 2001–02 to 2003–04, and the percentage of contract/employment agency costs as a percentage of total staff costs. Employment agency costs are not kept separately.

Year	*Amount (£)*	*Percentage*
2001–02	7,589,927	5
2002–03	10,245,940	7
2003–04[1]	10,190,618	8

[1] Expenditure in 2003–04 is April 2003 to January 2004.

The number of temporary staff employed through employment agencies and the percentage this is of the total staff employed can be provided only at disproportionate cost. Temporary staff employed through employment agencies are recruited by managers according to business needs. The Department does not keep a central record of the number of temporary staff employed through employment agencies.

Trusts (Franchise Appointments)

Mr. Hoban: To ask the Secretary of State for Health if he will list the original franchise appointments made by trusts with no stars and the current status of those appointments. [155785]

Mr. Hutton: When Ashford and St. Peter's Hospitals National Health Service Trust was franchised in April 2002, Andrew Morris was appointed as chief executive for one year while he mentored Glen Douglas in the role. As planned, Glen Douglas took over as chief executive when Andrew Morris left in April 2003. Mr. Douglas remains in post.

When Dartford and Gravesham NHS Trust was franchised in May 2002, Sue Jennings was appointed as chief executive while continuing her post as chief executive of Basildon and Thurrock NHS Trust. Ms Jennings remains in post at Dartford and Gravesham. A new chief executive has since been recruited at Basildon and Thurrock.

When East and North Hertfordshire NHS Trust was franchised in November 2002, Nick Carver was appointed as chief executive. Mr. Carver remains in post.

When University Hospitals Coventry and Warwickshire NHS Trust was franchised in May 2002, David Roberts became the chief executive at the trust. Mr. Roberts remains in post.

When Barnet and Chase Farm NHS Trust was franchised in February 2002, Paul O'Connor was appointed as chief executive. Mr. O'Connor resigned in January 2004.

When Portsmouth Hospitals NHS Trust was franchised in April 2002, Alan Bedford was appointed as chief executive. Mr. Bedford resigned in February 2004.

Wanless Report

Mr. Sheerman: To ask the Secretary of State for Health what action he is planning to take in response to the Wanless report on public health. [162786]

Miss Melanie Johnson: We have transformed the National Health Service through extra investment and the hard work of staff.

We are turning our attention to the key public health challenges—obesity, smoking and sexually transmitted infections- and continue to reduce health inequalities.

We will respond to Wanless Report through the forthcoming White Paper on improving people's health. This will be informed by 'Choosing Health', launched on 3 March, which will look at the action required to improve people's health.

TRADE AND INDUSTRY

End of Life Vehicles Directive

Mr. Simmonds: To ask the Secretary of State for Trade and Industry what assessment her Department has made of the impact of the End of Life Vehicles Directive, on *(a)* the number of old and inefficient polluting vehicles on the road, *(b)* the number of cars abandoned and *(c)* the price of scrapping an old car. [163138]

Mr. Timms: Implementation of the End-of-Life Vehicles Directive is not expected to affect significantly the average age of vehicles being scrapped. The Department's Regulatory Impact Assessment of 20 June 2002, relating to the Government's decision to introduce producer responsibility for free take-back of all complete ELVs from 2007, did include an estimate of the potential for an increase in the level of vehicles abandoned annually. That estimate was, however, made before the Government took a number of initiatives to bear down on the problem of abandoned vehicles, and was based on ELV processing and treatment costs of £60, whereas latest estimates put these at £16–39. The cost to a last owner of scrapping an old car depends upon a number of factors, including location, age, make, and condition, and the prevailing price of scrap metal.

Energy Supplies

Mr. Bercow: To ask the Secretary of State for Trade and Industry if she will make a statement on *(a)* recent trends in investment in renewable energy and *(b)* the effect of those trends upon residents in Buckingham. [161568]

Mr. Timms: Recent trends in renewable energy investment have been highly encouraging. More new capacity has been constructed in the last few years than in the previous decade, and a significant amount is currently in the pipeline. This covers a wide range of technologies including onshore and offshore wind, solar and biomass.

I am not aware of any proposals for new development in Buckingham arising from these trends.

EU Regional Policy

Ann Winterton: To ask the Secretary of State for Trade and Industry whether the Government have discussed the proposal for EU Regional Policy with the European Commission; and if she will make a statement. [160739]

Jacqui Smith: I attended an Informal Ministerial meeting in Portlaoise on 27 February, where the future of EU Regional Policy was discussed. I set out the UK's proposals for reform of the Structural and Cohesion Funds post-2006. A range of views were put forward by the Commission and by other member states.

Negotiations on the reform of EU Regional Policy are still at an early stage. The decision on the 2007–13 Structural and Cohesion Funds must be made by unanimity. Currently, there is no consensus among member states on the best way forward.

Supermarket Supply

Mr. Edwards: To ask the Secretary of State for Trade and Industry what plans she has to strengthen the Code of Practice between supermarkets and suppliers. [162652]

Mr. Sutcliffe: The Office of Fair Trading has recently announced an audit of the supermarkets own records to determine whether there is evidence to support complaints about the code made by various suppliers. DTI is ready to look closely at their findings and any recommendations for action.

Mr. Edwards: To ask the Secretary of State for Trade and Industry what representations she has received proposing *(a)* a statutory code of practice between supermarkets and suppliers and *(b)* a retail regulator. [162653]

Mr. Sutcliffe: There have been a number of representations from hon. Members.

British Electricity Trading and Transmission Arrangements

Annabelle Ewing: To ask the Secretary of State for Trade and Industry what estimate her Department has made of the likely increase in transmission charges for Scottish generators further to the British Electricity Trading and Transmission Arrangements package of reforms. [162942]

Mr. Timms: The DTI together with Ofgem has carried out an analysis of the possible impact of BETTA as part of the Energy Bill Regulatory Impact Assessment. This includes an analysis of the increases in transmission charges on Scottish generation. The RIA can be found at: www.dti.gov.uk/energy/leg_and_reg/acts/ria.pdf

Chiefly the RIA found that the main market participants, British Energy and the two vertically integrated incumbents, Scottish Power and Scottish and Southern would be exposed to initial costs of around £7.5 million and ongoing costs of some £0.5 million per annum. It is important to note that this excludes the redistributive effects brought about by a Great Britain wide transmission-charging regime.

However transmission charges for Scottish generators have yet to be finalised. National Grid, the GB System Operator designate, launched the start of their consultation process on transmission charging under BETTA in December 2003. Subsequently and following discussion with the industry, Ofgem and DTI, National Grid published an addendum to the original consultation setting out how charges may vary with different assumptions. National Grid will shortly be publishing their next consultation document, and will issue its final proposals in time for Ofgem to consider and approve by the end of October. National Grid's consultation documents can be found on their website.

The increase in transmission charges to Scottish generators needs to be seen in the context of a package of reforms that make up BETTA. This increase will be offset by the removal of current interconnector charges and charges for access to the England and Wales market. There will also be lower connection charges for Scottish generation.

Annabelle Ewing: To ask the Secretary of State for Trade and Industry if she will publish in full the Ofgem estimates of the net impact of British Electricity Trading and Transmission Arrangements on Scottish generators. [162943]

Mr. Timms: The DTI together with Ofgem has carried out an analysis of the possible impact of BETTA as part of the Energy Bill Regulatory Impact Assessment, including an analysis of the impact of BETTA on Scottish generation. The RIA can be found at: www.dti.gov.uk/energy/leg and reg/acts/ria.pdf

Company Investment (Middle East)

Dr. Tonge: To ask the Secretary of State for Trade and Industry what advice is given to UK companies on investment in *(a)* Israel and *(b)* the Occupied Territories of Palestine. [162037]

Mr. Mike O'Brien: UK Trade and Investment (UKTI) does not actively promote investment opportunities overseas in any particular market. UKTI monitors commercial developments in Israel and the Palestinian territories and alerts UK companies on a case by case basis to specific opportunities in each market. UKTI is ready to offer general advice and support to all UK companies wishing to invest overseas, but it is for the companies themselves to judge the benefits and risks of overseas investment in any market and take decisions accordingly.

Conferences and Seminars

Michael Fabricant: To ask the Secretary of State for Trade and Industry pursuant to her answer of 12 March 2004, *Official Report*, col. 1775W, on conferences and seminars, for what reason she does not maintain a central register of the *(a)* number and *(b)* cost of conferences and seminars held since June 2001. [162604]

Ms Hewitt: Responsibility for conferences and seminars rests with individual business units in DTI. Statistics on such events with associated costs are not normally required for business reasons and are therefore not collected centrally.

Export Contracts (Iraq)

Mr. Nigel Jones: To ask the Secretary of State for Trade and Industry if she will make a statement on the *(a)* type and *(b)* value of export contracts to the Iraqi Ministry of Defence for each year since 1979; and if she will list those contracts which were supported by export credits. [148539]

Ms Hewitt: I apologise for the delay in responding to this question. This Department does not keep records of contracts to the Iraqi Ministry of Defence.

From records available, the contracts with Iraqi defence ministries which were supported by ECGD's Project Group during this period were as follows:

Year	*Type*	*£ million*
1986	Radio Communications Equipment	26.4
1986	Vehicle-mounted aircraft ground power units	1.6
1986	Radio Communications Equipment	9.7
1986	Radio Communications Equipment	5.5
1986	Radio Communications Equipment	0.7
1986	Radars	0.9
1987	Vehicle-mounted aircraft ground power units	4.2
1997	Motor Generator Units	0.9
1988	HF Receiving Stations	0.2
1988	Scanning Electron Microscope	0.1
1989	Aircraft Ground support air conditioning system	2.9

Additionally during this period ECGD's Insurance Services Group—privatised in 1991—provided credit insurance cover for a number of contracts with Iraqi defence ministries on cash or short terms of payment. From the partial records available at the time of Lord Justice Scott's Inquiry (comprehensive records were only available from 1987), ECGD was able to document having approved over £220 million of credit limits in respect of business on such terms with Iraqi defence ministries, but corresponding records of the amount of business actually transacted against these limits were not available. ECGD did not require to be advised of the types of goods supported under these short term policies although it was a condition of cover that an export licence be obtained by the exporter where this was required.

This information was made available by ECGD to Lord Justice Scott at the time of his Inquiry.

Miners' Compensation

Mr. Simon Thomas: To ask the Secretary of State for Trade and Industry how many former miners who worked in both the private mining industry and for the National Coal Board have waited for longer than *(a)* four years, *(b)* three years and *(c)* two years for their respiratory claim to be resolved. [161337]

Nigel Griffiths: As of 12 March 2004 the figures are:

	Over four years	*Between three to four years*	*Between two to three years*
Claims outstanding	1,913	1,103	685
Claims settled	76	45	66
Total	1,989	1,148	771

The dispute between the claimant's solicitors and small private mines prevented the Department settling the majority of claims in full, although interim payments were made. Agreement between the parties has now been reached.

Mr. Simon Thomas: To ask the Secretary of State for Trade and Industry how many former miners who worked exclusively for the National Coal Board have waited for longer than *(a)* four years, *(b)* three years and *(c)* two years for their respiratory claim to be resolved. [161338]

Nigel Griffiths: I am informed that as of 12 March 2004 the figures are:

	Over four years	*Between three to four years*	*Between two to three years*
Claims outstanding	32,172	18,434	23,555
Claims settled	32,617	20,515	24,163
Total	64,789	38,949	47,718

I urge all solicitors and claims handlers to prioritise cases and also to ensure any delays are avoided in settling claims.

Mobile Phone Tracking

Michael Fabricant: To ask the Secretary of State for Trade and Industry what assessment she has made of the implications of services available to employers to track automatically the movements of staff using their mobile phones, with particular reference to the European Commission Directive on Privacy and Electronic Communications. [162622]

Mr. Timms: The Privacy and Electronic Communications Directive (2002/5 8/EC) applies a number of privacy safeguards to value added services based on traffic and location data, including a requirement for informed consent from subscribers or users of the communications service involved, and, in the case of location data services, a requirement that subscribers or users must be able to withdraw their consent on a temporary as well as a long term basis, each time they connect to the network or make a phone call or other form of communication. The Directive was implemented in the UK by the Privacy and Electronic Communications (EC Directive) Regulations 2003, which came into force on 11 December 2003, following public consultation on this and other aspects of the Directive earlier in the year.

The Directive recognises that there needs to be a degree of flexibility in determining whose consent should be obtained in cases where the subscriber to a service is a different person from the user—for instance, where a business subscribes to a mobile phone service on behalf of employees. In their guidance on the Privacy and Electronic Communications Regulations, the view of the Information Commissioner's Office (ICO) is that in the case of a corporate subscriber, a person holding himself out as capable of making decisions on the part of the company is likely to be able to give consent, unless the communications provider has reasonable grounds to believe otherwise.

This does not remove the need for businesses and other organisations to ensure that they are complying with their own obligations to employees. The ICO have advised us that any use by employers of the data obtained from this kind of system for monitoring purposes must be conducted in accordance with the Data Protection Act and they provide detailed advice in Part 3 of the Employment Practices Data Protection Code, which is specifically concerned with monitoring at work.

Official Engagements (Linlithgow)

Mr. Dalyell: To ask the Secretary of State for Trade and Industry for what purpose an official of her Department travelled from London to the Linlithgow constituency on 23 February returning on 24 February; what advice the official gave on planning matters; and what contact the official had with Fauldhouse Community Council. [158563]

Jacqui Smith *[holding answer 4 March 2004]:* I wrote to my hon. Friend on this matter on 14 March 2004. The official concerned visited Linlithgow constituency over the stated period as part of the "week in business" programme, which civil servants in the Department are undertaking to better understand the needs of UK businesses. One of her key developmental objectives whilst visiting WBB Minerals Scottish operations was to gain an understanding of the planning process in relation to her work on industrial minerals. She attended an exhibition in Fauldhouse on 24 February 2004 organised by WBB Minerals at the invitation of the company. She attended purely as an observer and at no point did she try to influence the planning process.

Postwatch/Postwatch Scotland

Annabelle Ewing: To ask the Secretary of State for Trade and Industry (1) what the cost of Postwatch has been in each year since its creation; [161455]

(2) how many staff are employed by Postwatch; [161456]

(3) what the budget of Postwatch Scotland is in 2003–04; [161457]

(4) how many staff are employed by Postwatch Scotland. [161458]

Mr. Timms: The Postal Services Act provided for the establishment of Consumer Council for Postal Services also known as Postwatch to promote the interests of consumers. Postwatch was set up on 1 January 2001; it is made up of a National Council with four national members and representatives from Scotland, Wales Northern Ireland and six English regions each with its own Chair and Regional Committee.

Its budget in the three years since it was set up has been:

	£ million
2001–02	7.89
2002–03	8.19
2003–04	9.904

Postwatch currently has 101 posts in its central office and regions. In some regions rather than employ its own staff, Postwatch outsources to external contractors; this is the case in Scotland where there are five contracted staff. Information on Postwatch budget and staff is published in its Annual Report, copies are made available in the Libraries of the House.

Press Officers

Mr. Laws: To ask the Secretary of State for Trade and Industry how many press officers were employed in her Department in each year from 1990–91 to 2003–04; what the total cost was in each year; and if she will make a statement. [162853]

Ms Hewitt: I refer the hon. Member to the answer given to him on 4 February 2003, *Official Report*, column 180W.

The number of Press Officers employed in DTI on 1 January 2004 was 19. A breakdown of Press Office costs is not held and could only be provided at disproportionate cost.

Renewable Energy

Mr. Sheerman: To ask the Secretary of State for Trade and Industry what *(a)* portfolio quotas and *(b)* incentive tariffs are available to encourage greater use and supply of renewable energy in the UK. [162047]

Mr. Timms: The Renewables Obligation, introduced with effect from 1 April 2002, provides a substantial market incentive for all eligible forms of renewable energy.

The Obligation requires licensed electricity suppliers to source specified percentages of the electricity that they supply from renewable sources. The level of the Obligation is set to increase each year from its current level of 4.3 per cent. for 2003–4 to reach 10.4 per cent. for 2010–11. In December, I announced the Government's intention to provide for the level of the Obligation to continue to rise in years beyond 2010–11 so that it would reach 15.4 per cent. for 2015–16.

Before the introduction of the Renewables Obligation, the Government considered the possibility of introducing a banded Obligation, with the buy-out price set at different levels for different renewable sources of energy. This possibility was rejected, as it was judged that it would segment the market unnecessarily, and would lead to the Government dictating the relative importance of each technology.

Failure to reach the specified percentages exposes suppliers to a buy-out price currently set at 3,051 pence per KWh for each unit not sourced from renewables.

It is open to suppliers to offer "green tariffs" of various kinds to their customers, some of which may go beyond the requirements of the Renewables Obligation in terms of support for renewables.

Mr. Sheerman: To ask the Secretary of State for Trade and Industry what steps her Department is taking to lower incentives on the *(a)* development, *(b)* sale and *(c)* use of environmentally unfriendly energy technologies. [162048]

Mr. Timms: The department works with others to develop a range of measures designed to disincentivise environmentally unfriendly energy technologies. These include:

regulatory instruments—like the implementation of the Large Combustion Plant Directive;

economic instruments—like the forthcoming EU Emissions Trading Scheme;

the production of guidance—such as the guidance we publish for developers seeking consent for large power stations on the need to consider opportunities for Combined Heat and Power.

In addition, of course, we have developed a wide range of incentives for environmentally friendly sources of energy, for example the Renewables Obligation which provides an incentive for the use of renewable energy sources to generate electricity.

Renewables Obligation Certificates Scheme

Mrs. May: To ask the Secretary of State for Trade and Industry what assessment she has made of the operation of the Renewables Obligation Certificates scheme. [162954]

Mr. Timms: The Renewables Obligation (RO) will only have been in operation for two years at the end of March 2004. However, in this short period of time it has proved successful in bringing forward new renewables generation and in encouraging investment. More new capacity was installed over this period than in the previous decade, and we remain confident that this support mechanism will help us meet our 2010 renewable energy target.

An initial assessment of the RO came in the form of a technical review shortly after the first year of operation. This was to ensure that the RO was working as first intended and proposed changes to benefit biomass and small generators. Changes to the Obligation resulting from this review and from the 'Late-payments' consultation are currently before Parliament. In February of this year Ofgem also released their review of the RO's first year of operation.

All of this leads into the major review of the RO, which is scheduled for 2005–06.

Taxis

Mr. Sanders: To ask the Secretary of State for Trade and Industry when she expects to publish the Government's response to the Office of Fair Trading Report on the regulation of the taxi trade. [162973]

Mr. Sutcliffe: Mr right hon. Friend the Secretary of State for Trade and Industry issued a written statement to Parliament announcing the Government's response to the report on Thursday 18 March 2004.

Tidal Power

Mr. Swayne: To ask the Secretary of State for Trade and Industry what assessment she has made of the potential for generating electricity using the tidal power of the Severn estuary; and if she will make a statement. [163114]

Mr. Timms: Between 1978 and 1994 the Government supported a number of studies under its Tidal Energy Research and Development Programme. Those studies included an assessment of the feasibility and financial viability of a Severn barrage scheme.

The Government's Energy White Paper published in February 2003 looked at potential renewable sources of energy, including large scale barrage. It concluded that this type of scheme is very expensive and that any plans for a Severn Barrage would raise strong environmental concerns and as such it would not be fruitful to pursue at this stage.

Wind Farms

Mr. Evans: To ask the Secretary of State for Trade and Industry what plans there are to develop wind farms in *(a)* Lancashire and *(b)* the North West. [161799]

Mr. Timms: My right hon. Friend the Secretary of State for Trade and Industry is only asked to give permission routinely when proposed wind farms have a capacity above 50 MWh. She is currently considering one application for consent under section 36 of the Electricity Act 1989 to construct a 65 MW windfarm at

Scout Moor, nr Rochdale. She is also considering one application for a 67.5 MW windfarm at Whinash, Tebay, Cumbria.

WORK AND PENSIONS

Carer's Allowance

Simon Hughes: To ask the Secretary of State for Work and Pensions how many people in each London borough were receiving carer's allowance in each of the last six years. [157281]

Maria Eagle: The numbers of Carers Allowance recipients from September 2001 to August 2003, the latest available figures, are set out in the tables below. Figures prior to September 2001 are not available.

Carer's Allowance Recipients as at August 2003

	Total
Great Britain	414,240
London GOR	41,695
Inner London—West	4,560
Camden	1,125

Figures are rounded to the nearest 5.

Child Support Agency

Chris Ruane: To ask the Secretary of State for Work and Pensions (1) how many *(a)* Child Support Agency sites, and *(b)* Child Support Agency staff at each, are dealing specifically with clerical cases caused by the new system failures; [160357]

(2) what assessment he has made of the adequacy of the availability of *(a)* trained staff and *(b)* other resources to the Child Support Agency to handle the increase in manual clerical cases due to the failures of the new system. [160358]

Mr. Pond: The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Doug Smith. He will write to the hon. Member with the information requested.

Letter from Doug Smith to Mr. Chris Ruane, dated 23 March 2004:

In reply to your recent Parliamentary questions about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, how many Child Support Agency sites, and how many Child Support Agency staff at each are dealing specifically with clerical cases caused by the new system failures; and what assessment he has made of the adequacy of the availability of *(a)* trained staff and *(b)* other resources to the Child Support Agency to handle the increase in manual clerical cases due to the failures of the new system.

I have looked carefully at the number of staff needed to handle cases clerically. Currently 105 staff on two sites at Newcastle and Cumnock are engaged in this work. I keep this under continuous review and will adjust the figure as necessary.

Council Tax Benefit

Mr. Carmichael: To ask the Secretary of State for Work and Pensions what estimate he has made of the number of people eligible for but not claiming council tax benefit in *(a)* Scotland, *(b)* the Highlands and Islands, *(c)* Orkney and *(d)* Shetland. [163309]

Mr. Pond: Information requested is not available. National estimates of take-up of council tax benefit are presented in the DWP report series 'Income Related Benefits Estimates of Take-Up'. Latest estimates relate to financial year 2001–02 and copies of the published report are held in the Library.

Estimates of council tax benefit take-up cover private households in Great Britain; sub-national estimates cannot be reliably produced.

Discretionary Social Fund

Annabelle Ewing: To ask the Secretary of State for Work and Pensions what the net budget is for the Discretionary Social Fund for *(a)* 2004–05 and *(b)* 2005–06. [162947]

Mr. Pond: The discretionary Social Fund plays an important role in the Government's agenda for tackling poverty and social exclusion by helping the poorest members of society meet the cost of occasional one-off essential items through Community Care Grants, Budgeting Loans and Crisis Loans.

The net discretionary Social Fund budget is £168.2 million for 2004–05 and £178.2 million for 2005–06. A written statement about the gross discretionary Social Fund budget for 2004–05 and its breakdown will be made in due course.

Earnings Disregards

Mrs. Ellman: To ask the Secretary of State for Work and Pensions when earnings disregards for claimants were last reviewed; and what plans he has to increase them. [162572]

Mr. Pond: Income-related benefits are intended to help people whose resources are insufficient to meet their day-to-day living expenses; any income that is available to meet those expenses is normally taken into account. However, as an incentive to those who wish to work part-time, a certain amount of part-time earnings can be disregarded.

All aspects of benefit payment, including these disregards, are kept under review in order to ensure the fair and equitable distribution of benefit and the best use of public funds. Earnings disregards were last increased in April 2001, when a higher rate of £20 was introduced for certain vulnerable groups, including disabled people, lone parents and carers.

Employers' Liability Compulsory Insurance

Brian Cotter: To ask the Secretary of State for Work and Pensions what progress the Government has made in developing a Framework for Vocational Rehabilitation, as referred to in the Second Stage Report of the Review of Employers' Liability Compulsory Insurance. [162655]

Mr. Browne: Good progress has been made to fulfil the Government's commitment to develop and publish a Framework for Vocational Rehabilitation by late summer 2004. As a next step we intend to consult formally with stakeholders in April.

Brian Cotter: To ask the Secretary of State for Work and Pensions how many new underwriters have *(a)* entered and *(b)* re-established themselves in the market offering employers' liability compulsory insurance over the last five years; and how many underwriters have left the market over the same period. [162660]

Mr. Browne: This information is not collected centrally. It remains the view of the market that capacity for Employers' Liability Compulsory Insurance (ELCI) is increasing at a gradual rate.

Brian Cotter: To ask the Secretary of State for Work and Pensions what progress the Health and Safety Executive has made in regard to launching a Health and Safety Management Index, as referred to in the Second Stage Report of the Review of Employers' Liability Compulsory Insurance. [162656]

Mr. Browne: The Health and Safety Executive (HSE) has developed a management index to measure the health and safety management performance of large organisations and has placed the index on the HSE website www.hse.gov.uk/research/chaspi.htm for validation. Validation is scheduled to commence in April and to last four months.

In parallel HSE is developing a similar index for small businesses. A validated version is expected in June. Further work will then be required to convert this into a form that is suited to users, for example, insurers and small businesses.

Brian Cotter: To ask the Secretary of State for Work and Pensions what assessment he has made of the feasibility of establishing an enforcement database to focus the Health and Safety Executive's enforcement efforts in regard to employers' liability compulsory insurance. [162659]

Mr. Browne: We are re-appraising our approach to an enforcement database in the light of information that the Health and Safety Executive has gathered from 18,000 employers indicating a high level of compliance (over 99 per cent).

In the meantime we are continuing the actions outlined in the second stage report to improve enforcement. These include commitments to prepare and publish new Government procurement guidance to ensure compliance from bodies that contract with the public sector.

Brian Cotter: To ask the Secretary of State for Work and Pensions what steps he is taking to monitor the joint code of practice from the Association of British Insurers and British Insurance Brokers' Association, as referred to in the Second Stage Report of the Review of Employers' Liability Compulsory Insurance. [162661]

Mr. Browne: The Association of British Insurers (ABI) and the British Insurance Brokers' Association (BIBA) have been monitoring the implementation of the Statement of Good Practice on renewal of Employers' Liability Compulsory Insurance (ELCI) and public liability insurance published on 6 August 2003.

The ABI and BIBA have not received any complaints under the Statement.

In addition the Financial Services Authority (FSA) sent "Good Practice Indicators" to all general Insurance Companies in June 2003 following a project run by the FSA looking at risk management, in writing liability insurance, as part of a Dear CEO (Chief Executive Officer) letter. The indicators included guidance on renewals.

The FSA will look at how companies writing liability insurance are adhering to these indicators as part of the risk assessment process, which takes place annually for the larger firms and possibly every two or three years for smaller firms.

Brian Cotter: To ask the Secretary of State for Work and Pensions what role information and advice from the Association of British Insurers plays in the development of his Department's policy on employer's liability insurance. [162662]

Mr. Browne: The Association of British Insurers (ABI) has been open and active in its support for the actions mapped out in the Government's Report of the Review of Employers' Liability Compulsory Insurance (ELCI).

The Government continues to work with the ABI in the delivery of this agenda as well as drawing on support from other key representative organisations such as the Association of Personal Injury Lawyers (APIL), the Confederation of British Industry (CBI), the Engineering Employers' Federation (EEF), the Federation of Small Businesses (FSB) and the Trades Union Congress (TUC).

Brian Cotter: To ask the Secretary of State for Work and Pensions what guidance is issued by the Financial Services Authority on good practice indicators to be used in assessing firms writing liability insurance, referred to in the Second Stage Report of the Review of Employers' Liability Compulsory Insurance. [162690]

Mr. Browne: The Financial Services Authority (FSA) sent the "Good Practice Indicators" to all General Insurance Companies last June following a project run by the FSA looking at risk management practices within the liability insurance market as part of a Dear CEO (Chief Executive Officer) letter. The indicators were issued to the market to try and raise standards within the market, and did not constitute general guidance. They covered Business Operating Environment and Strategy, Pricing and Reinsurance, Risk Management and Claims Handling. A copy has been placed in the Library.

Brian Cotter: To ask the Secretary of State for Work and Pensions what assessment he has made of the effect of the Making the Market Work initiative by the Association of British Insurers in relation to the cost of premiums for employers' liability compulsory insurance. [162691]

Mr. Browne: The Association of British Insurers (ABI) is planning to undertake an evaluation of the initiative after one year of its operation, in Autumn 2004. The Government will take a close interest in the outcome.

Brian Cotter: To ask the Secretary of State for Work and Pensions how many personal injury claims were made to general insurers in specific relation to employers' liability in each of the last five years; what the total value of all costs in relation to such claims was; and what the total value of all settlements in relation to such claims was. [162692]

Mr. Browne: Figures for the number of personal injury claims in relation to Employers' Liability for

1999–2000 are not available. The number of personal injury claims in relation to Employers' Liability for 2001 to 2003 are:

	£
2001	219,183
2002	170,554
2003	183,342

Source:
Compensation Recovery Unit

Separate figures for just the total value of costs and just the total value of settlements are not available. However the total value of costs and claims combined for 1999–2002 were:

	£ million
1999	468
2000	427
2001	639
2002	926

Note:
Figures are not yet available for 2003.
Source:
Association of British Insurers

It is important to note that because of the long tail nature of certain claims, settlements may accrue for many years to come. The figures in the table only relate to the value of claims thus far settled in each of those years.

Lone Parents

Mrs. Curtis-Thomas: To ask the Secretary of State for Work and Pensions how many lone parents in Crosby have gained work through the New Deal programme. [160530]

Mr. Browne: Two hundred and ninty lone parents in Crosby have gained a job through the New Deal for Lone Parents since the start of the programme in October 1998.

National Insurance Pension Benefits

Mr. Denham: To ask the Secretary of State for Work and Pensions what percentage of state payments to pensioners, including income related benefits, was represented by National Insurance pension benefits, in *(a)* 1983, *(b)* 1993 and *(c)* 2003. [162405]

Malcolm Wicks: The information is given in the table.

Percentage

	1983–84	*1992–93*	*2002–03*
National Insurance pension benefits as a proportion of all benefits paid to people over pension age	83	78	75

Note:
Contributory Benefits include: Retirement Pension basic and additional pension; Widows' and Bereavement Benefits; Christmas Bonus contribution based; Invalidity Benefit basic and additional pension (not included in 2002–03 as benefit ceased in 2000).
Non-Contributory Benefits include non-contributory Retirement Pension; Mobility Allowance (benefit subsumed into Disability Allowance from 1992–93); Attendance Allowance; Disability Living Allowance; Non-Contributory Invalidity Pension/Severe Disablement Allowance; Winter Fuel Payments (payable from 1997–98); Over 75 TV Licence (payable from 2000–01).
Income Related Benefits include: Housing Benefit; Rate Rebate (1983–84)/Community Charge Benefit (1992–93)/ Council Tax Benefit (2002/03); and Supplementary Benefit (1983–84)/Income Support (1992–93)/Minimum Income Guarantee (2002–03). All income-related benefits relate to people aged 60 or over, rather than over pension age.
Major Benefits not included in the calculations are: Industrial Injuries Benefits; Invalid Care Allowance.

Mr. Denham: To ask the Secretary of State for Work and Pensions what percentage of all pensioner income was represented by National Insurance pension benefits, in *(a)* 1983, *(b)* 1993 and *(c)* 2003. [162406]

Malcolm Wicks: Information for 1983 and 2003 is not available. In 1981 National Insurance pension benefits amounted to 52 per cent. of pensioner gross income. In 1993 this proportion was 43 per cent. National Insurance pension benefits amounted to 39 per cent. of pensioners gross income in 2001–02. National insurance pension benefits have fallen relative to pensioner gross income in the last 20 years mainly because occupational pensions have increased by more than average earnings during this period.

Note:
The information is derived from the Family Expenditure Survey for the years 1981 and 1993 and the Family Resources Survey for the year 2001–02. Data from the FES and FRS should not be directly compared.

New Deal

Mr. George Osborne: To ask the Secretary of State for Work and Pensions if he will make a statement on the effectiveness of the operation of benefit sanctions for persons participating in the New Deal. [158381]

Mr. Browne: Research that we have conducted into the effects of the imposition of sanctions found that, overall, sanctions do not have a detrimental effect on jobsearch activity, and in many cases resulted in increased effort in actively seeking work.

A copy of the report 'Saunders, T., Stone, V. and Candy, S. (2001): The Impact of the 26 week Sanctioning Regime. Employment Services Report ESR 100', which deals with the effects of the sanctioning regime is available in the Library.

Details of the number of sanctions applied to 18 to 24-year-olds are in the quarterly publication 'Labour Market Statistics—Analysis of Sector Decision Making', a copy of which is in the Library. Separate information is not available on sanctions for New Deal 25 plus participants.

We are continuing to study the effectiveness of benefit sanctions and their effect on individual jobseekers and their families. Work is being undertaken to improve the available statistics, including the development of a sanctions database, with the first results from this are expected later this year.

Mr. George Osborne: To ask the Secretary of State for Work and Pensions how many jobseeker's allowance claimants have incurred benefit sanctions for failure to participate in the New Deal in each year since the New Deal's inception; and what percentage of persons liable for benefit sanctions that represents. [158421]

Mr. Browne: Within the New Deal programme, benefit sanctions are applied only in connection with the New Deal for Young People and New Deal 25 plus. Information is not available, for sanctions applied to people who refuse to participate in New Deal 25 plus. The available information is in the table.

Numbers of Decisions and Sanctions for Jobseeker's Allowance claimants who refuse to participate in the New Deal for Young People (NDYP)

Year Totals	*Total starts on New Deal for Young People*[1]	*Decisions relating to non-participation in NDYP resulting in a benefit sanction being imposed*[2]	*Decisions relating to non-participation in NDYP resulting in a benefit sanction NOT being applied*[3]	*Percentage of decisions relating to non-participation in NDYP resulting in a benefit sanction being imposed*	*Number of sanctions imposed as a percentage of total starts to NDYP*
1998–99	248,510	3,525	1,601	68.77	1.4
1999–2000	192,530	8,888	3,895	69.53	4.3
2000–01	170,040	8,518	4,372	66.08	4.7
2001–02	160,840	5,953	3,603	62.29	3.5
2002–03	167,370	6,579	3,873	62.94	3.7
2003–04	126,130	4,868	2,462	66.41	3.6
Total	1,065,420	38,450	19,806	66.00	3.4

[1] Some people may have made more than one start on NDYP during the year.
[2] Some people may have been sanctioned more than once during the year.
[3] These figures include cases where the original decision has been revised and allowed completely along with those cases were the initial decision was not to impose a sanction.
[4] Figures are to end December 2003.
Source:
Labour Market Statistics—Analysis of Sector Decision Making.

Mrs. Curtis-Thomas: To ask the Secretary of State for Work and Pensions how many women in Crosby have benefited from *(a)* the New Deal for Lone Parents and *(b)* the New Deal for Partners since 1997; and if he will make a statement. [160384]

Mr. Browne: Through the New Deal we have introduced a wide range of initiatives to help individuals improve their employment prospects by giving them the skills, support and confidence they need to move into work. From 12 April we are enhancing New Deal for Partners to offer the same level of help and support as our successful New Deal for Lone Parents programme. From April we shall also start to roll out Work Focused Interviews for Partners, offering greater support to partners of benefit recipients.

Four hundred and sixty women have started New Deal for Lone Parents in Crosby since the beginning of the programme in October 1998, of whom, 280 have gained a job. Information on the number of women in Crosby who have benefited from the New Deal for Partners is not available.

Ms Abbott: To ask the Secretary of State for Work and Pensions how many people in Hackney North and Stoke Newington have benefited from the New Deal for *(a)* young people, *(b)* long-term unemployed and *(c)* lone parents. [162289]

Mr. Browne: The information is in the table.

Numbers into work in Hackney and Stoke Newington through New Deal programmes

Programme	*Numbers into work*
New Deal for Young People	1,630
New Deal 25 plus	2,170
New Deal for Lone Parents	300

Note:
1. Numbers are rounded to the nearest 10.
2. Information is to the end of December 2003.
Source:
Department for Work and Pensions Information and Analysis Directorate

Pension Entitlements

Mr. Viggers: To ask the Secretary of State for Work and Pensions what the state retirement pension entitlements are of women who are married to younger husbands. [162686]

Malcolm Wicks: A married woman may be entitled to a State Pension in her own right if she has paid enough National Insurance (NI) contributions herself.

However, a married woman can also become entitled to a State Pension based on her husband's contributions but only when they have both reached State Pension age and claim their State Pension.

If she is entitled to a pension in her own right as well as one based on her husband's contributions, she will be paid at the higher rate.

Pensioner Incomes

Mr. Webb: To ask the Secretary of State for Work and Pensions if he will update his estimates based on the Family Resources Survey 2001–02 of *(a)* median pensioner incomes, excluding means-tested benefits, by

(i) age, (ii) sex and (iii) marital status and *(b)* the size of each group, consistent with his Answer of 27 June 2002, *Official Report*, column 1060W. [162649]

Malcolm Wicks: The information requested is in the table.

	Age 60–64	*Age 65–69*	*Age 70–74*	*Age 75–79*	*Age 80+*
Single males					
Median income (£)	n/a	161	155	145	135
Number	n/a	230,000	260,000	250,000	310,000
Single females					
Median income (£)	137	142	125	118	117
Number	410,000	480,000	600,000	640,000	950,000
Couples					
Median income (£)	n/a	309	264	241	224
Number	n/a	990,000	800,000	550,000	390,000

Notes:
1. The definition of income used here is gross income that is income gross of the following items: income tax payments, national insurance contributions, contributions to occupational and personal pension schemes, local taxes, maintenance, child support payments ands parental contributions to students living away from home.
2. "Median income" represents the income of the person or family exactly in the middle of the range of ranked incomes of the age group. For each age group there is a wide range of incomes.
3. The data from the Family Resources Survey 2001–02 are rounded to the nearest £1 are 10,000, money amounts are expressed in 2001–02 prices to be consistent with latest published pensioners' income series.
4. These estimates are based on a small sample size and comparisons with 2000–01 figures given in the previous answer should therefore be made with caution.
5. Pensioner units are allocated to age categories according to the age of the head of the unit.
6. Estimates have not been split by gender for couples as the extent of income sharing within pensioner units is unknown.
7. Means tested benefits refer to minimum income guarantee, working families tax credit, housing benefit and social fund grants.
8. These results are based on survey respondents' identification of different elements of benefit income and are therefore subject to misreporting.
9. The pensioners income series 2002–03 will be published in May 2004 which will update these figures.

Pensions

Mr. Tynan: To ask the Secretary of State for Work and Pensions what research his Department has *(a)* carried out and *(b)* commissioned into the benefits of (i) compulsory and (ii) opt-out pension scheme membership for employees. [161206]

Malcolm Wicks: We have established the independent Pensions Commission to monitor and keep under review the voluntary system of private pensions and long term savings. Its interim report, which will describe in detail the present situation, current trends, and the challenges to be met, will be published in September. Their first full report, expected in mid 2005, will include recommendations as to whether there is a case to move beyond the current voluntary system.

International research suggests that automatic enrolment, where new employees automatically become members of their employer's pension scheme unless they choose to opt-out, is a very effective tool for increasing pension scheme membership for employees. Over the next year we aim to research the effectiveness of this approach in delivering increased pension savings in the UK.

Worktrain Scheme

Mr. Heald: To ask the Secretary of State for Work and Pensions how many people have *(a)* found employment and *(b)* enrolled on training courses through the Worktrain scheme online in each year since the service became available. [158013]

Mr. Browne: The requested information is not available.

Worktrain is an internet service for people looking for information on job vacancies, training courses, careers, childcare providers and voluntary opportunities. It is a popular service and is one of the most used government websites. It currently receives around 250,000 visitors a month. The website offers users access to the Jobcentre Plus database of 400,000 job vacancies and the learndirect database of 500,000 training opportunities.

It is not possible for the Worktrain service to track if visitors to the site have been successful in finding a job or enrolling on a training course. An online questionnaire asks visitors if they have applied for job vacancies or training courses as a result of using the site. In 2002–03, 68 per cent. of repeat visitors who replied to the questionnaire had applied for a job and 12 per cent. applied for a training course.

FOREIGN AND COMMONWEALTH AFFAIRS

Bodies/Associations

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs what the cost to public funds, including staff, is of the *(a)* Great Britain-China Centre, *(b)* British Association for Central and Eastern Europe and *(c)* Britain-Russia Centre in the current financial year; and when the cost of each will next be reviewed. [162733]

Mr. Straw: Budgets for 2003–04 are:

	£
(a) Great Britain-China Centre	300,000
(b) British Association for Central and Eastern Europe	252,000
(c) British-Russia Centre	70,000

The next reviews are scheduled to take place in 2006. The budgets for 2004–05 will remain the same as this year.

Cameroon/Nigeria

Mr. Tynan: To ask the Secretary of State for Foreign and Commonwealth Affairs what support he intends to provide in the delineation of the Cameroon/Nigeria border. [161225]

Mr. Mullin: We welcome the efforts of the UN Secretary-General's Special Representative, supported by Cameroon and Nigeria, to take forward the 2002 International Court of Justice ruling on the border between Cameroon and Nigeria. HMG is actively considering a contribution to the present demarcation exercise.

European Radio Asia

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will raise with his EU counterparts the possible establishment of a European Radio Asia to broadcast to North Korea, China, Tibet and Burma. [161496]

Mr. Mike O'Brien: I have no plans at present to raise with EU partners the establishment of a European Radio Asia.

Radio broadcasters in the UK and other EU Member States already transmit programmes into Asia, notably the BBC World Service.

Guantanamo Bay Detainees

Mr Galloway: To ask the Secretary of State for Foreign and Commonwealth Affairs what assistance the Government will afford to UK nationals formerly detained in Guantanamo Bay who have since been freed without charge in the UK to obtain redress and compensation from the US Administration; and if he will make a statement. [162067]

Mr. Mullin: I am aware of reports that the British nationals recently released from Guantanamo Bay may be intending to seek redress and compensation from the US Administration. The question of how they proceed, and whether they pursue legal action, is a matter for the men and their legal representatives.

Kosovo

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the political situation in *(a)* Kosovo and *(b)* Serbia and Montenegro. [163257]

Mr. MacShane: The situation in Kosovo is calm but tense. It is important now that the leaders in Pristina and Belgrade work with the United Nations Interim Administration Mission in Kosovo (UNMIK) and Kosovo Force (KFOR) to ensure that there is no repetition of last week's violence. Inter-ethnic violence is not acceptable and the perpetrators of these criminal acts must be brought to justice. We will continue to work for a stable, democratic and multi-ethnic Kosovo. UNMIK and KFOR will have our complete support in working towards this end.

There were demonstrations in Belgrade and Nis in Southern Serbia following the outbreak of violence in Kosovo. But the situation is now calm. The situation in Montenegro remained calm throughout.

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs what the Government's policy is on the final determination of the status of Kosovo; and if he will make a statement. [163258]

Mr. MacShane: Our policy is based on United Nations Security Council Resolution 1244 (1999) and the formal review process of standards as endorsed by the UN in December 2003. The UK, with the rest of the international community, will work with the United Nations Interim Administration Mission in Kosovo, Kosovo Force and the local authorities to ensure a stable, democratic and multi-ethnic Kosovo.

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs what *(a)* meetings have been held and *(b)* initiatives have been undertaken by (i) NATO, (ii) the EU and (iii) the United Kingdom bilaterally to achieve a settlement in Kosovo in the past two years, broken down by date; and if he will make a statement. [163259]

Mr. MacShane: There have been constant discussions formally and informally in Nato, EU and bilaterally on Kosovo. I take every opportunity on visits to the region or in meetings with relevant partners in the UK or elsewhere in Europe to keep UK and international policy on Kosovo under review. My most recent discussions with Kosovan leaders took place at the recent funeral of President Trajkovski of Macedonia. I will be visiting Pristina and Belgrade again next month for further talks on finding a solution to the Kosovo question. My officials play a leading role in shaping the EU-Nato policy towards Kosovo based on the need for Kosovans to abide by international legal and human rights norms.

Laos

Mr. Best: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on relations between the United Kingdom and Laos. [156237]

Mr. Mike O'Brien: Our relations with Laos are not extensive. There is only modest trade between the two countries, and our contacts with the Lao Government are limited. We are keen to see the development of democracy and of the economy in Laos and, in particular, improvements in its human rights performance.

We do not have an Embassy in Laos. Our Embassy in Bangkok is accredited to Laos, and Embassy staff visit periodically and monitor major developments there, including the human rights situation. Around 20,000 British nationals visit Laos each year. Consular facilities are kindly provided by the Australian Embassy in Vientiane.

Mr. Best: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Laos Government regarding the treatment of Christians. [156238]

Mr. Mike O'Brien: We are aware of reports of the mistreatment of Christians in Laos. Our Embassy in Bangkok (which is accredited to Laos) monitors the situation.

Our contacts with the Laos Government are limited, but we have raised our human rights concerns on a number of occasions either in bilateral contacts or through the European Union. Most recently, for example, in January the Deputy Head of Mission at our Embassy in Bangkok raised human rights and the persecution of Christians with HE Madam Khempheng Pholsena, the Lao Vice-Minister of Foreign Affairs.

Promotion of human rights, including freedom of thought, conscience and religion, is at the heart of our foreign policy. We condemn instances where individuals are persecuted because of their faith or belief, wherever they happen and whatever the religion of the individual or group concerned.

We will continue to raise our concerns with the Lao authorities when opportunities arise.

Marshall Aid Commemoration Commission

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs what the overall annual cost to public funds has been, including the 2.5 staff cited in the Cabinet Office publication, Public Bodies 2003, of the Marshall Aid Commemoration Commission; and when spending on it will next be reviewed. [162732]

Mr. Straw: The overall annual cost of the Marshall Aid Commemoration Commission in the current financial year is £1,966,500. This budget is reviewed annually. The budget for 2004–05 will be £2,083,784.

McCann v. United Kingdom

Mr. McNamara: To ask the Secretary of State for Foreign and Commonwealth Affairs what changes have been made to the records of the Gibraltar Coroner following the European Court of Human Rights judgment in McCann v. United Kingdom. [162065]

Mr. MacShane: I refer my hon. Friend to the answer given to him by the then Minister of State at the Foreign and Commonwealth Office, the late Derek Fatchett, on 10 February 1998, *Official Report*, col. 114. No changes have been made to the records of the Gibraltar coroner following this judgement.

Mr. Maajid Nawaz

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations the Government has made to the Egyptian Government since 13 January regarding Mr. Maajid Nawaz. [163254]

Mr. Mullin: I refer the hon. Member to my right hon. Friend the Prime Minister's answer of 26 January 2004, *Official Report*, columns 49–50W. The British Ambassador in Cairo raised our concerns about this case with the Egyptian Foreign Minister on 15 January, one of many representations we have made to the Egyptian authorities since Mr. Nawas was first detained. The case was also raised with Egyptian Government officials on 7 March.

Secondees

Norman Baker: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list the secondees from outside organisations working in his Department, stating in each case *(a)* the name of the person, *(b)* the name of the organisation, *(c)* the post held and *(d)* the start and finish dates of the secondment; and which are involved in drafting parliamentary answers. [160601]

Mr. Mike O'Brien *[holding answer 11 March 2004]*: The list of secondees from outside organisations working in the Foreign and Commonwealth Office are detailed in the following table.

Name	*Company*	*Start*	*Finish*	*Job title*	*Involved in drafting Parliamentary answers*
Bakhshi Hasan	Bank of England	30 June 2003	30 June 2005	Deputy Head Economic Policy Department.	Yes
Baldwin Alan	BT	26 September 1999	29 May 2004	Telecoms consultant (UK Trade and Investment London)	No
Ball Alexandra	One North East	31 January 2004	30 April 2004	Middle Manager Commercial Team-Chongqing	No
Donougher Mark	PWC	27 March 2002	26 March 2004	Middle Manger Global Entrepreneur Programme (UK Trade and Investment London)	No
Hinde Julia	Michael John Trust	1 December 2001	31 May 2006	First Secretary Science and Technology Ottawa	No
O'Keeffe Phil	AMEC	27 November 2003	27 May 2004	Middle Manager British Office Baghdad	No
Porter Dr. Robin	KGP	13 May 2002	13 January 2006	Science and Technology Counsellor Beijing	No
Sands Nigel	Invest Northern Ireland	30 October 2003	29 May 2004	Middle Manger Commercial Los Anseles	No
Adams Lew	Strategic Rail Authority	1 April 2002	31 March 2004	Export—(UK Trade and Investment)	No
Alien Martyn	BAE Systems	4 February 2002	3 February 2005	Export Promoter—(UK Trade and Investment)	No
Bassnett Fred	Raylian London Limited	25 April 2000	24 April 2004	Export Promoter (UK Trade and Investment)	No
David Bill	Balfour Beatty Rail Limited	1 January 2002	31 December 2004	Export Promoter (UK Trade and Investment)	No
Boswell Debbie	British Jewellery and Giftware Federation	15 July 2003	14 July 2005	Export Promoter (UK Trade and Investment	No
Bowles Edwin	Exploration Consultants Limited	2 January 2002	31 March 2004	Export Promoter—(UK Trade and Investment)	No
Chapman Jeff Dr.	Combined Heat and Power Assoc.	1 April 2000	31 March 2004	Export Promoter—(UK Trade and Investment)	No
Churchward Jennifer	Ernst and Young	3 February 2003	2 February 2005	Export Promoter—(UK Trade and Investment)	No
Crooks Hugh	RASE	5 November 2001	28 February 2006	Export Promoter—(UK Trade and Investment)	No
Ernes Tony	Mott Macdonald Group Ltd.	1 June 1999	31 May-2004	Export Promoter—(UK Trade and Investment)	No
Fawcett Paul	HSBC Bank plc	1 September 2003	31 August 2005	Export Promoter—(UK Trade and Investment)	No

Name	Company	Start	Finish	Job title	Involved in drafting Parliamentary answers
Fitton John	Foster Wheeler Energy Ltd.	10 April 2000	2 July 2004	Export Promoter—(UK Trade and Investment)	No
Franceschi Christian (Chris)	DSL Consultants Limited	18 November 2002	19 November 2004	Export Promoter—(UK Trade and Investment)	No
Holt Mark	Business Link Cheshire and Warrington	18 June 2002	17 June 2004	Export Promoter—(UK Trade and Investment)	No
Hudson Robert	Hyder Consulting	1 September 2001	31 August 2005	Export Promoter—(UK Trade and Investment)	No
Ireland John	British Nuclear Fuels	1 September 1999	31 August 2004	Export Promoter—(UK Trade and Investment)	No
Jones Alexia	Deluca	2 September 2002	31 March 2005	Export Promoter—(UK Trade and Investment-)	No
McArthur Alan	Middlesbrough College	27 May 2003	26 May 2005	Export Promoter—(UK Trade and Investment)	No
MacKeown Tom	Bertrams	1 March 2003	26 February 2005	Export Promoter—(UK Trade and Investment)	No
Pascoe Richard	Reuters Limited	9 December 2002	9 June 2004	Export Promoter—(UK Trade and Investment)	No
Patterson Philip	Association of Independent Music Ltd.	22 April 2003	22 October 2004	Export Promoter—(UK Trade and Investment)	No
Nick Peace	The Newbrook Engineering Company	24 May 1999	31 May 2004	Export Promoter—(UK Trade and Investment)	No
Scott Alison	Gardenex	1 December 1999	31 March 2004	Export Promoter—(UK Trade and Investment)	No
Skinner Martyn	Tate and Lyle pic	10 April 2000	9 April 2004	Export Promoter—(UK Trade and Investment)	No
Sloane Robin	Ova Arup	8 April 2002	9 April 2004	Export Promoter—(UK Trade and Investment)	No
Somers Jackie	Traditional Weatherwear Limited	2 May 2000	1 May 2004	Export Promoter—(UK Trade and Investment)	No
Speyr von John	DSL Consultants Limited	1 Oct 2002	30 September 2004	Export Promoter—(UK Trade and Investment)	No
Vaidya Anil	Goldshield Pharmaceuticals Ltd	1 March 2000	28 March 2004	Export Promoter—(UK Trade and Investment)	No
Vimpany John	Exhibition Consultants Ltd	1 September 2003	31 August 2005	Export Promoter—(UK Trade and Investment)	No
Waters David	AMEC	2 April 2001	1 April 2004	Export Promoter—(UK Trade and Investment)	No
Watford Peter	Commonwealth Business Council	1 October 2002	31 August 2004	Export Promoter—(UK Trade and Investment)	No
Williams David	Gilbert Gilkes and Gordon	7 August 2000	6 August 2004	Export Promoter—(UK Trade and Investment)	No
Wilson Barbara	Corgi Hosiery Limited	1 September 2001	31 August 2004	Export Promoter—(UK Trade and Investment)	No
Wilson Ed	Waterkubj (UK) Ltd.—Vexamus Water Ltd.	2 September 2002	1 September 2004	Export Promoter—(UK Trade and Investment)	No
Wilson Graham	AMEC Plc	3 January 2004	2 January 2006	Export Promoter—(UK Trade and Investment)	No
Wright Gordon	BAE Systems plc	21 July 2003	20 July 2005	Export Promoter—(UK Trade and Investment)	No
Woodhouse Tony	GKN plc	1 June 1999	31 May 2004	Export Promoter—(UK Trade and Investment)	No

While on secondment, secondees are subject to Civil Service terms and conditions, and are expected to undertake the full range of duties attached to the post, including the provision of drafts for parliamentary questions if required.

NORTHERN IRELAND

Belfast Metropolitan Area Plan

Mr. Beggs: To ask the Secretary of State for Northern Ireland when he intends to publish the draft Belfast metropolitan area plan. [162698]

Angela Smith: The publication date for the plan has not been finalised. The programme is currently being reviewed to ensure publication at the earliest possible date

Census Records

Mr. John Taylor: To ask the Secretary of State for Northern Ireland what assessment he has made of the financial consequences of establishing a new *(a)* 80 and *(b)* 90-year closure period for decennial population census records for Northern Ireland. [160429]

Mr. Pearson: No assessment has been made of the financial consequences of an 80 or 90-year closure period for decennial censuses. Censuses in 1901 and 1911 were conducted on an all-Ireland basis. These records are available in the National Archives, Dublin. The Public Record Office of Northern Ireland has microfilm of the 1901 census and intends to obtain the same for 1911. For the 1926 and later censuses conducted in Northern Ireland, the Census Act (Northern Ireland) 1969 stipulates that it is an offence to disclose personal census information without lawful authority. Officials consider that at an appropriate time the Government should consider introducing legislation to prescribe a closure period for Northern Ireland census records that is in line with the rest of the United Kingdom, where a 100-year closure period pertains.

Dentistry

Rev. Martin Smyth: To ask the Secretary of State for Northern Ireland what percentage of *(a)* two-year-olds and *(b)* three to five year-olds are registered with general dental practitioners, broken down by health board. [162721]

Angela Smith: Information on the percentage of *(a)* two-year-olds and *(b)* three to five-year-olds who are registered with general dental practitioners, broken down by health board is as follows.

Children registered with General Dental Practitioners[1]—March 2004

	Two-year-olds	*Three to five-year-olds*	*Under three years*
Eastern Board			
Number registered	3,242	15,053	5,790
2002 MYE[2]	8,086	25,962	23,794
Proportion registered (%)	40.1	58.0	24.3
Northern Board			
Number registered	2,259	11,201	3,996
2002 MYE[2]	5,709	17,888	16,461
Proportion registered (%)	39.6	62.6	24.3
Southern Board			
Number registered	1,819	8,729	3,075
2002 MYE[2]	4,534	14,288	13,395
Proportion registered (%)	40.1	61.1	23.0
Western Board			
Number registered	1,493	7,379	2,475
2002 MYE[2]	4,059	13,215	11,900
Proportion registered (%)	36.8	55.8	20.8
Northern Ireland[3]			
Number registered	8,861	42,588	15,416
2002 MYE[2]	22,388	71,353	65,550
Proportion registered (%)	39.6	59.7	23.5

Central Services Agency
[2] Mid Year Estimates—Source: Northern Ireland Statistics and Research Agency
[3] The total number registered for Northern Ireland includes a small number of children in each age band who could not be allocated to a specific Health and Social Services Board

Road Safety

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many driving misdemeanours were dealt with by the Police Service of Northern Ireland from March 2003 to February 2004, broken down by *(a)* parliamentary constituency and *(b)* council area. [160322]

Jane Kennedy: The information requested is not recorded by parliamentary constituency. The table sets out the number of driving offence detections dealt with by police in 2003 (calendar year), by council area.

District councils	*Detections*
Antrim	4,720
Ards	3,535
Belfast	38,922
Carrickfergus	1,189
Castlereagh	4,249
Larne	1,052
Lisburn	5,833
Newtownabbey	4,127
North Down	3,170
Urban Region	66,797
Armagh	2,748
Ballymena	6,202
Ballymoney	2,013
Banbridge	3,707
Coleraine	3,083
Cookstown	1,469
Craigavon	7,931
Down	3,286
Dungannon and St	3,337

Omagh	3,983
Strabane	1,564
Rural Region	61,168

End-of-life Vehicle Directive

Lady Hermon: To ask the Secretary of State for Northern Ireland what assessment he has made of the implications of the End-of-Life Vehicle Regulations 2003 for Northern Ireland; and if he will make a statement. [162728]

Angela Smith: The Department of the Environment has assessed the implications of the End of Life Vehicles Regulations 2003. Regulatory impact assessments were included in the documents "Consultation on the Transposition of Articles 4,5, 8 and 9 and Annex 2 of the End of Life Vehicles Directive (2000/53/EC)—The End of Life Vehicles Regulations 2003" and "Consultation on the Transposition of Article 6 and Annex 1 of the End of Life Vehicles Directive (2000/53/EC)-Proposals for Regulations".

Copies of these papers have been placed in the Library.

Essential Skills Strategy

Mr. Beggs: To ask the Secretary of State for Northern Ireland what progress has been made in achieving the targets set in the Essential Skills Strategy; and if he will make a statement. [160990]

Jane Kennedy: The Essential Skills Strategy set a target of supporting 25,000 learners by March 2005.

The Department has made good progress against the target with 6,500 learners supported between April 2002 and March 2003 and a further 8,000 to be supported by 31 March 2004.

Futurebuilders Fund

Mr. Beggs: To ask the Secretary of State for Northern Ireland what arrangements have been made to establish a Futurebuilders Fund, similar to that in England, for the voluntary and community sectors in Northern Ireland. [162701]

Mr. Spellar: The announcement of the Futurebuilders Fund in England resulted in a consequential allocation to Northern Ireland. Such consequentials arising from allocations to programmes in England are not hypothecated to similar issues in Northern Ireland and the resources can be used to address local needs and priorities. Work is ongoing to develop proposals on how the resources might best be used to support the voluntary and community sector in Northern Ireland.

Gocean Development

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland when a decision on the proposed £35 million development at Gocean, Killyleagh will be made; and if he will make a statement. [162919]

Angela Smith: I intend to make a decision on this proposed development shortly.

Hospital Beds (Psychiatric Patients)

Mr. McGrady: To ask the Secretary of State for Northern Ireland how many bed spaces are available in Northern Ireland for psychiatric patients; and if he will list the locations of these beds. [163217]

Angela Smith: The average numbers of available beds by hospital in the Mental Health Programme of Care are as follows.

Average number of available beds in the Mental Health Programme of Care by hospital, 2002–03

Hospital	*Average available beds*
St. Lukes	183.2
Windsor House	35.7
Causeway	31.1
Craigavon Psychiatric Nursing Unit	80.0
Downshire	122.0
Lagan Valley Psychiatric Nursing Unit	25.0
Gransha	70.0
Forster Green	20.0
Holywell	212.1
Whiteabbey Psychiatric Nursing Unit	19.0
Mater Infirmorum	58.6
Knockbracken Healthcare Park	153.0
Shaftesbury Square	18.8
Young Peoples Centre	10.5
Tyrone and Fermanagh	158.6
Ards	25.0
Northern Ireland	1,222.6

Land Use (Dundonald)

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland whether land owned by a subsidiary of TK-ECC in Dundonald will remain zoned for industrial use only if put on the open market. [162922]

Angela Smith: I can confirm that the land in question will be retained as "existing employment/industry" in the Draft Belfast metropolitan area plan 2015.

Patient Exemption Fraud

Rev. Martin Smyth: To ask the Secretary of State for Northern Ireland how far targets for the reduction of patient exemption fraud have been realised for each Northern Ireland Health Board area; and what targets have been put in place for the period beyond March. [162722]

Angela Smith: The target for the reduction of patient exemption fraud is set at Northern Ireland, rather than at an individual Health Board, level.

My 2004–05 Priorities for Action sets a Northern Ireland target for patient fraud exemption of a 45 per cent. reduction from the 1999–2000 level by 31 March 2005.

My Department remains committed to the achievement of this target.

Police

Mr. Lidington: To ask the Secretary of State for Northern Ireland how many police officers there were in Northern Ireland in each year since 1997. [160479]

Jane Kennedy: The figures requested are as follows.

	Regular[1]	*Full Time Reserve*	*Part Time Reserve*
1997	8,423	2,929	1,473
1998	8,485	2,982	1,324
1999	8,496	2,862	1,217
2000	8,393	2,688	1,152
2001	7,810	2,496	1,073
2002	6,976	2,184	1,001
2003	6,994	1,860	951
2004	7,319	1,640	868

[1] The numbers of regular officers illustrated in the table does not include student officers.

Lady Hermon: To ask the Secretary of State for Northern Ireland how many complaints have been made against the Office of the Police Ombudsman for Northern Ireland in each year since its formation. [161293]

Jane Kennedy: The Ombudsman's Office advises that a Satisfaction Policy, Procedure and Complaints register was established in 2002. In the reporting year ending 31 March 2003 (the first full year of the register), 22 complaints were received and in the current year to date, 12 complaints have been received.

Prisons

Mr. McGrady: To ask the Secretary of State for Northern Ireland how many suicides took place in prisons in Northern Ireland in 2003; and what steps have been taken to eliminate the risk of suicide in prisons in Northern Ireland. [162143]

Jane Kennedy: There was a total of three suicides in Northern Ireland prisons in 2003. The Northern Ireland Prison Service has been reviewing its procedures in an effort to reduce the number of incidences of self-harm and suicide. A new policy entitled "Self Harm and Suicide Prevention Management" will be implemented on 29 March 2003.

Mr. McGrady: To ask the Secretary of State for Northern Ireland what measures have been put in place to assess vulnerable inmates in prisons in Northern Ireland who are at risk of suicide; and what measures he is taking to protect those who have been assessed as being at risk of suicide in prison. [162144]

Jane Kennedy: Every prisoner on first committal to prison is examined by a member of the health care staff who will carry out an initial assessment of the possibility that they are at risk of self-harm or suicide. If the health care staff member has concerns about the prisoner, they will either formally notify the senior officers managing the House in which the prisoner is placed or alternatively will immediately place the prisoner in the Healthcare Unit. If the prisoner is located in a House one of the senior officers will immediately interview the

prisoner. In Maghaberry Prison, each House also has an individual nurse officer allocated to it and the nurse will be involved in the on-going support for the prisoner. In either case, a medical officer will then examine the prisoner at the first available opportunity when a care plan will be prepared.

On a day-to-day basis, there is a formal procedure by which any member of staff, who is concerned that a prisoner is at risk of self-harm or suicide, can initiate an assessment. All prison staff are involved in providing support to prisoners who are deemed to be at risk. Health care support is provided through full-time and part-time medical officers, general practitioners, consultant forensic psychiatrists, specialist registrars in mental health and health care staff—a large number of whom have nurse qualifications with a significant proportion having a mental health qualification.

Road Taxes

Mr. Beggs: To ask the Secretary of State for Northern Ireland how much revenue was raised from *(a)* road tax licences and *(b)* road fuel tax in Northern Ireland in each of the last two years. [162668]

Angela Smith: The revenue raised in Northern Ireland from road tax licences for the calendar year 2002 was £112,800,934 and for 2003, £124,646,824.

Road fuel tax is collected on a United Kingdom wide basis and separate figures are not available for Northern Ireland.

Security Costs

Mr. Rosindell: To ask the Secretary of State for Northern Ireland what assessment he has made of how security costs have changed since the Northern Ireland peace process began. [154840]

Jane Kennedy: There have been many positive changes to security since the peace process began ranging from reductions in army bases to changes associated with implementing the Patten report on policing. Given the wide range of such changes it would be difficult to determine security savings without a significant costing exercise that would incur disproportionate cost.

Speaker's Office

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what the cost of the Speaker's Office in the Northern Ireland Assembly has been since 1998. [160613]

Mr. Spellar: Expenditure on the Office of the Speaker from 1 April 1999 to 29 February 2004 is £834,666 for staff costs and £108,266 for general administration costs. Figures prior to 1 April 1999 are not available as the then New Northern Ireland Assembly was developing its financial systems and expenditure could not be identified against specific cost centres.

Terrorism

Rev. Martin Smyth: To ask the Secretary of State for Northern Ireland if he will list the terrorist *(a)* actions, *(b)* beatings and *(c)* abductions in Northern Ireland since 1 January; and to which terrorist group the Chief Constable of the Police Service of Northern Ireland has attributed responsibility in each case. [161342]

Jane Kennedy: The following table provides details of paramilitary activity since 1 January this year attributed to Loyalist and Republican groups. It is not possible to give an accurate assessment of the number of abductions as often victims of such crime do not co-operate with the police. The Chief Constable has stated publicly that he believes persons connected with the Provisional IRA were involved in the abduction of a male in Belfast earlier this month.

Security Situation Statistics for Northern Ireland 1 January—29 February 2004

	Perceived Attribution[1]	
	By Loyalist	*By Republican*
Number of deaths[2]	—	—
Number of shooting incidents[3]	22	15
Number of bombing incidents[4]	2	3
Casualties as a result of paramilitary style assaults	13	10
Casualties as a result of paramilitary shootings	22	11

[1] Attribution is as perceived by the PSNI based on the information available

[2] Includes all deaths due to the security situation

[3] The following types of incidents are included:
Shots fired by terrorists
Paramilitary-style attacks involving shootings
Shots heard (and later confirmed)
Other violent incidents where shots are fired (eg armed robbery)

[4] An individual bombing incident may involve one or more explosive devices. Incidents recorded include explosions and defusings. Incidents involving hoax devices, petrol bombings or incendiaries are excluded.

Statistics are provisional and may be subject to minor amendment.

Mr. Swire: To ask the Secretary of State for Northern Ireland how many people there are on the mainland UK exiled from Northern Ireland because of threats from terrorist organisations; and what the cost is to public funds in 2003–04 of such people. [155648]

Angela Smith: There are no official figures on the number of people exiled from Northern Ireland as a result of paramilitary intimidation as not all incidents are reported. The needs of exiles are examined in detail in the Legacy Report, an independent needs analysis of victims of the Troubles living in Great Britain. One of the major contributors to this research was Maranatha, a Christian community that has considerable experience in this area. Maranatha estimates that around four people per month are exiled from Northern Ireland to Great Britain.

Assistance to exiles is provided across a number of agencies both statutory and voluntary. However, in the absence of official figures, it is not possible to quantify the cost to public funds.

Waste Management

Mr. Beggs: To ask the Secretary of State for Northern Ireland what measures are in place in Northern Ireland to ensure compliance with the EU Directive regarding the disposal of fridges and freezers; and if he will make a statement. [162693]

Angela Smith: The Department of the Environment has been working in partnership with District Councils in Northern Ireland to put in place a contract to dispose of waste fridges and freezers collected from Council civic amenity sites.

The contractor operates a fully licensed facility in Great Britain, where the waste units are demanufactured, removing and destroying the ozone depleting substances they contain, in line with the requirements of the EU Regulation, while recycling almost all of the remainder of the constituent parts.

The use of a smart tagging system, together with independent monthly checks on the amount of ODS recovered; provide an end-to-end audit trail to demonstrate full compliance with the EU Regulation.

All the Councils in Northern Ireland have signed up to the contract and work has begun on removing the backlog of waste units.

Mr. Beggs: To ask the Secretary of State for Northern Ireland what steps have been taken to implement waste management plans in Northern Ireland, broken down by each area; and if he will make a statement [162694]

Angela Smith: The three District Council Waste Management Partnership Groups (arc 21, Swamp and North West Region Waste Management Group) have prepared Implementation Action Plans (IAPs), which have been submitted to the Department of the Environment. These Plans detail the steps and expenditure required to implement the Waste Management Plan for each group. The Department has provided guidance to the District Councils on Key Performance Indicators to monitor progress towards the key targets identified in the Northern Ireland Waste Management Strategy. The IAPs are the subject of ongoing review to ensure that appropriate measures are implemented to meet these key targets.

LEADER OF THE HOUSE

Members' Staff (Pensions)

Mr. Gummer: To ask the Leader of the House (1) how many hon. Members' staff have yet to be notified of an adjudication by ProAct, on behalf of the House's Department of Finance and Administration, that a decision has been made regarding the recipient pension scheme of their entitled pension contribution; [160756]

(2) what arrangements are being made by the Department of Finance and Administration in the House to assist those hon. Members' staff who wish to transfer their accumulated fund from the Portcullis Pension Plan to another pension provider on an annual basis; [160757]

(3) how many adjudications of hon. Members' staff pension arrangements have been made by ProAct in favour of their existing arrangements rather than the Portcullis Pension Plan; [160758]

(4) how many hon. Members' staff have had their pension arrangements changed by the Department of Finance and Administration via the default arrangements recommended by ProAct; [160759]

(5) how many weeks' notice will be given to hon. Members' staff of any changes to their existing pension arrangements, as adjudicated by ProAct, before the Department of Finance and Administration ceases to honour the existing arrangements; [160760]

(6) how many adjudications of hon. Members' staff pensions have yet to be decided upon by ProAct on behalf of the Department of Finance and Administration; [160761]

(7) when he expects the adjudication process of hon. Members' staff pensions, by ProAct on behalf of the Department of Finance and Administration to be completed; [160762]

(8) how many hon. Members' staff registered a preference to remain with their existing pension provider. [160763]

Mr. Hain: The information requested is as follows, and is based on 16 March 2004.

ProAct are the Independent Financial Advisers who have been assisting the Speaker and the advisory Committee on Members Estimate (formerly known as the Speaker's Advisory Panel) with the setting-up of the Portcullis Pension Plan (the plan).

They provide an impartial professional assessment, in accordance with regulatory guidelines, of whether an individual would be better off remaining in their current pension arrangement, or having future contributions paid to the plan.

The Department of Finance & Administration are responsible for implementing the advice given by ProAct to the House.

I am delighted to confirm that the introduction of the plan (a group stakeholder arrangement) has seen take-up for the 10 per cent. pension supplement move from 49 per cent. as at February 2003 to a nigh-on 100 per cent. take-up rate as of 16 March.

I would like to thank ProAct Financial Planning, CMS Cameron McKenna and members of the Department of Finance & Administration for all their efforts and assistance in helping this major project reach such a highly successful conclusion.

The right hon. Member will be aware that all Members were advised a full year ago of the proposals, by e-mail and in hard copy, and were sent questionnaires to give to their staff for forwarding to current pension providers and/or professional advisers. Staff who are on e-mail were similarly advised at the same time. It was not possible to write to home addresses at that time because the Payroll System then in place could not generate individual address labels. This has since been rectified.

A deadline of October 2003 was given originally, but this was subsequently extended to 31 March 2004. Relevant information was circulated to all Members and to home addresses of employees during September and October 2003. It was made clear that 31 March 2004 was the final deadline, although changes will not be effective until April's payroll run two weeks later. There are no plans to extend this again. Members' staff have already had 12 months in which to submit their questionnaires, and ProAct have dealt with these in a commendably prompt and efficient manner.

However, an exception will be made where employees submitted questionnaires in good time but ProAct will be unable to complete the assessment by the deadline because the further information they require was not supplied in a timely fashion by the current pension provider.

Members' staff have been advised by ProAct of the outcome of every questionnaire where the assessment has been finalised. In 49 cases, further information has been sought from the current pension provider. Final answers cannot be given until the relevant further information has been supplied to and assessed by ProAct.

ProAct have now confirmed that all Members and their employees, who have requested a "memory prompt" will be sent an annual e-mail by ProAct. This reminder will be sent out at a time when the House is sitting (on or around 31 January each year), thus ensuring that employees should be around to act on it and consider whether to top up their pension before the end of the tax year, if they wish to do so.

For 2004–05 only, the reminder will be sent at the beginning of December 2004 to give any employee wishing to use "carry back" time to pay a contribution before this facility is abolished on 31 January 2005.

Contributions for at least 131 staff of Members will (if the employee so wishes) continue to be paid to current arrangements. At least 131 staff wish to have contributions made to their pre-Portcullis pension arrangement. This includes employees who: are currently contributing to a pension arrangement that has terms that, when assessed in accordance with regulatory guidelines, are at least as good as those offered by the plan—only 30 employees fall into this category; are currently contributing to a pension arrangement that cannot accept transfers from the plan—certain cases, detailed in a letter to all Members and their employees on 16 March 2004, are being revisited now that current pension providers/advisers have admitted they gave incorrect or incomplete information in respect of the ability to make annual transfers from the plan to the current pension arrangement, so the number in this group may increase; were born on or before 1 October 1946 (this is based on reaching the age of 60 by the latest possible date for the next general election, plus four months for any "handover") and who have confirmed that they expect to retire at the next general election. Employees in the latter category had a free choice as to whether they wished future contributions to be paid to the plan or their current pension arrangement, and as such their position was not necessarily assessed by ProAct

Furthermore, many people who already had pension arrangements before the plan was introduced are now having future contributions paid to the plan. They now have the benefit of much more flexible contract terms—in particular, lower charges, thus increasing the amount of cash available for investment towards their retirement. Proper regard has been taken of those who may wish to keep their existing pension arrangements going, especially those who are very close to retirement.

In addition, the majority of employees of hon. Members now have death in service cover of twice basic pay. For some time there has been considerable interest in such a benefit, particularly from employees with young families, and we are very pleased that this arrangement is now in place.

Of the 275 questionnaires received, ProAct have recommended that 175 employees should have future contributions paid to the plan. It is entirely up to the employee as to whether the default option comes into play. They are fully entitled to choose whether their funds are invested wholly with AXA or Norwich Union, or split (as the employee directs) between the two. The employee is also able to stipulate that funds other than the default funds should be used. If the employee later changes their mind, they can switch between AXA and Norwich Union, and also invest in different funds with these two insurers.

ProAct currently have 49 questionnaires to assess. This does not represent any tardiness on their part. The apparent delay is because ProAct have felt unable to complete their impartial assessment without seeking further information from the current pension provider.

As advised to Members and their employees, subject to ProAct receiving all outstanding information, the deadline is 31 March 2004. However, an exception will be made where employees submitted questionnaires in good time but ProAct will be unable to complete the assessment by the deadline because the further information they require was not supplied in a timely fashion by the current pension provider.

ProAct is currently contacting or recontacting all the personal providers to whom contributions were being paid until the advent of the plan. If any of the providers are found to have given incomplete or misleading information about annual transfers, and such transfers are not in fact possible, the individuals concerned will be offered the chance to have future contributions paid to their current arrangement. Accordingly, this number may increase.

Some staff initially indicated that they would like to stay with their previous pension arrangements, but when they understood the true costs and charges associated with these older style contracts, the majority were grateful for ProAct's helpful responses and were content to join the plan.

A small number of staff would still prefer to remain in their previous arrangement, but it would be misleading to suggest that this number can be precisely quantified.

MINISTER FOR WOMEN

Domestic Violence

Miss McIntosh: To ask the Minister for Women how many reported incidents of domestic violence there were in the Vale of York on 1 January; and if she will make a statement. [156468]

Paul Goggins: I have been asked to reply.

Domestic violence is not separately identified in the recorded crime statistics collected by the Home Office or in the statistics of court proceedings. However, the British Crime Survey (BCS) routinely collects data on the prevalence and number of incidents of domestic

violence in England and Wales from the main "face-to-face" part of the survey. In the 2002–03 BCS, the rate of domestic violence in England and Wales as a whole was 120 per 10,000 adults, and 113 in Yorkshire and Humberside. The BCS is unable to provide domestic violence data at more local levels.

DEPUTY PRIME MINISTER

Affordable Housing

Mr. Hoban: To ask the Deputy Prime Minister if he will make a statement on the potential use of Government-owned sites in Fareham for affordable housing. [162987]

Keith Hill: The Government wishes to see better use made of all surplus public sector land, including any in Fareham, which includes the provision of more affordable housing. My right hon. Friend the Deputy Prime Minister's progress report on delivering the Government's sustainable communities programme (July 2003) set out the importance attached to this policy and the new arrangements being established for dealing with disposals of such land.

Tom Brake: To ask the Deputy Prime Minister what investment his Department *(a)* has allocated and *(b)* plans to allocate to increase the supply of affordable housing in Sutton in each year since 1997, broken down by parliamentary constituency. [162832]

Keith Hill: The funding for provision of new affordable housing in Sutton in the period 1997–98 to 2003–04 is tabled as follows. (ADP is investing in housing through Housing Corporation.) Allocations for 2004–05 and 2005–06 will be announced shortly.

£ million

	Approved development programme	*Local authority social housing grant*
1997–98	2.0	0.8
1998–99	1.8	0.6
1999–2000	2.6	2.2
2000–01	4.9	3.2
2001–02	4.4	2.5
2002–03	2.3	2.3
2003–04	13.9	2.6

Building Regulations

Mr. Blizzard: To ask the Deputy Prime Minister if he will amend the Approved Inspector Regulations 2000, to allow private practice building regulation control companies other than the National House Building Confederation to control the construction of dwellings for sale or rent. [163240]

Phil Hope: The Office of the Deputy Prime Minister intends to issue in the next few weeks a consultation document on designation of new home warranty schemes in the context of building control by approved inspectors. Subject to the outcome of that consultation process, the Office of the Deputy Prime Minister hopes, later this year, to be able to take the necessary steps to allow approved inspectors to undertake building control on new homes for sale or private sector renting.

English Channel

Norman Baker: To ask the Deputy Prime Minister what his policy is in respect of the removal of aggregates from the Median Deep section of the English Channel. [162900]

Keith Hill: My right hon. Friend the Deputy Prime Minister is currently considering a proposal to dredge marine aggregates from an area known as Median Deep within the eastern English Channel. This proposal is one of a number of other similar ones within this part of the Channel that he has before him and which have been subjected to wide publicity and consultation.

My right hon. Friend the Deputy Prime Minister will determine each marine minerals dredging proposal in the light of all material environmental information, including the findings of an Environmental Impact Assessment, and his general approach to marine minerals dredging set out in 'Marine Minerals Guidance Note 1: Guidance on the Extraction by Dredging of Sand, Gravel and Other Minerals from the English Sea bed' (MMG1). This was published in July 2002 and copies were placed in the House of Commons Library. Copies may also be downloaded from the Office of the Deputy Prime Minister's website at www.odpm.gov.uk or obtained from Her Majesty's Stationery Office.

Compulsory Purchase Orders

Mr. Hoban: To ask the Deputy Prime Minister if he will make a statement on the basis of valuations to be used for compulsory purchase orders when the land to be acquired is designated for road building. [162986]

Keith Hill: Irrespective of the purpose for which land is being acquired under compulsory purchase powers, its value has to be assessed in accordance with the compensation code set out in Part 2 of the Land Compensation Act 1961 and supplemented by case law. Where the acquiring authority and the vendor are unable to agree the amount payable on that basis, the matter falls to be settled by the Lands Tribunal in accordance with the provisions of Part 1 of the same Act.

Housing

Ms Oona King: To ask the Deputy Prime Minister which local authorities in London have used the funding from the Homelessness Directorate in support of their local homelessness strategies to pay cash incentives to social rented sector tenants to relinquish their tenancy and buy a property on the open market; how much funding was used for this purpose, and how many homes were released for reletting, in each case. [162237]

Yvette Cooper: The information requested is not held centrally and could be provided only at disproportionate cost.

I refer my hon. Friend to the answer given on 11 March 2004, *Official Report*, column 1708W, which states that authorities have considerable discretion over how they use the grant, provided that they deliver the required outcomes. Details of all the individual services by each local authority are not held centrally and could be provided only at disproportionate cost.

Charles Hendry: To ask the Deputy Prime Minister what guidance he gives to local authorities on the approval of requests for extensions to domestic residences. [162803]

Keith Hill: Extensions to domestic residences within certain limits are permitted under the Town and Country Planning (General Permitted Development) Order 1995. Outside those limits, it is for local authorities to assess applications in the light of their development plans, any design guidance they have issued, the comments of third parties (if relevant to planning) and any other relevant factors. The Government's planning policies make clear that applicants should be able to demonstrate how they have taken account of the need for good design. Good practice guidance on achieving high standards is set out in 'By Design', the companion guide to Planning Policy Guidance Note 1, which is on the Office of the Deputy Prime Minister's website at www.odpm.gov.uk.

Mr. Austin Mitchell: To ask the Deputy Prime Minister what *(a)* surveys he has commissioned and *(b)* research he has evaluated about the preferences of council tenants as to whether their housing should be managed by (i) the council, (ii) registered social landlords and (iii) arm's length management organisations. [162932]

Keith Hill: There has been no research conducted by the Office of the Deputy Prime Minister on the preferences of council tenants for alternative options for housing management. Each stock owning Local Authority, through its Options Appraisal process, will consult the views of tenants on alternative arrangements for management of their housing stock.

Tom Brake: To ask the Deputy Prime Minister what house building targets there have been for Sutton since 1997, broken down by parliamentary constituency; and if he will make a statement. [162833]

Keith Hill: House building targets are set for local authority areas. "Strategic Guidance for London Planning Authorities", Regional Planning Guidance 3, May 1996, proposed for Sutton a minimum 5,400 net additional dwellings over 15years, 1992 to 2006. This target was included in Sutton's replacement Unitary Development Plan (UDP) adopted in 2003. "The London Spatial Development Strategy (The London Plan)", published February 2004, set a minimum target for Sutton of 7,400 additional homes over 20 years, 1997 to 2016. This target derives from "London's Housing Capacity", Greater London Authority 2000, endorsed by boroughs through the London Planning Advisory Committee. As borough UDPs are reviewed or replaced, they will have to be in general conformity with "The London Plan".

Mr. Dobson: To ask the Deputy Prime Minister what the turnout of tenants and leaseholders was in each of the arm's length management organisation votes in the last 12 months. [162475]

Keith Hill: The turnout and percentage vote in favour in all ballots held by local authorities on arm's length management organisation proposals to date are tabled as follows. All the ballots in Rounds 3 and 4, plus Colchester's in Round 2, were held in the last 12 months.

Percentage

Local authority	*Turnout*	*In favour*
ALMO Round 1		
Derby	48	88
Hounslow	35	83
Kirklees	47	81
Rochdale	46	90
Stockton-on-Tees	44	93
ALMO Round 2		
Barnsley	25	57
Carrick	61	96
Colchester	57	76
Leeds—East	35	83
Leeds—North East	41	88
Leeds—North West	42	89
Leeds—South	39	91
Leeds—South East	40	88
Leeds—West	38	90
Waltham Forest	49	85
ALMO Round 3		
Camden	30	23
High Peak	60	98
Islington	27	85
Sheffield: Brightside and Shiregreen	42	78
Sheffield: Central Area	47	87
South Lakeland	65	88
ALMO Round 4—bids		
Hammersmith and Fulham	40	81
Sheffield: Hillsborough, Nether Thorpe	45	87
Sheffield: Parson Cross, Foxhill, Longley	38	94
Sheffield: Westfield, Hackenthorpe	43	89

Local Authority Statistics

Mr. Truswell: To ask the Deputy Prime Minister if he will list all local authorities, broken down by *(a)* type and *(b)* party political control. [156995]

Phil Hope: The information is as follows:

Local Authorities	
County Councils	[1]34
London Boroughs	[2]33
Metropolitan District	36
District Councils	238
Shire Unitary authorities	[3]46
Isles of Scilly	1
Total (England)	388
Wales[4]	22
Scotland[4]	29
Island councils	3
Northern Ireland	26

[1] Not including Isle of Wight unitary county
[2] Includes City of London
[3] Including Isle of Wight
[4] Unitary districts

The Office of the Deputy Prime Minister does not systematically collect and maintain comprehensive and up-to-date information on changes in the party political control in individual local authorities.

New Deal for Communities

Mr. Edward Davey: To ask the Deputy Prime Minister if he will place in the Library each New Deal for Communities delivery plan. [160343]

Yvette Cooper: All 39 New Deal for Communities Partnership's delivery plans have been made available in the Library of the House.

Ordnance Survey

Mr. Boris Johnson: To ask the Deputy Prime Minister what factors underlay the decision to use uncompleted Ordnance Survey data in the Pan Government Agreement for Central Government. [148480]

Yvette Cooper: The Pan Government Agreement (PGA) is a non-binding internal arrangement between two Crown bodies, the Office of the Deputy Prime Minister and the Ordnance Survey (OS). Accordingly, the PGA is not a contract necessitating competition through prior advertisement in accordance with the European Commission public procurement Directives.

The PGA has been a tremendous success, increasing the number of central government organisations utilising geographic information from 40 to in excess of 120. Without this, it would be impossible to deliver on 2005 Modernising Government targets or to offer many citizen-based services. The success of the pilot of the PGA was noted by the Transport, Local Government and the Regions Committee's tenth report on the OS, which contained the following statement:

> "The Committee recommends that the Government provides funding for a long-term Pan Government Service Level Agreement to ensure widespread use of Ordnance Survey data across Government, so as to ensure the Government gets the best value for money. This should be done by the start of the 2003–04 financial year."

In comparison to the cost of previous agreements and the much more limited use of geographic information they provided, the Office of the Deputy Prime Minister believes that the PGA offers very good value for money for government.

Public Toilets

Tom Levitt: To ask the Deputy Prime Minister what guidelines his Department issues to local authorities in respect of minimum standards for the *(a)* provision, *(b)* distribution and *(c)* maintenance of public toilets; and what guidelines are issued regarding public consultation on public toilets. [163427]

Mr. Raynsford: The Office of the Deputy Prime Minister does not provide any guidance to local authorities on the provision, distribution or maintenance of public toilets, or on the need to consult on this service. These functions are at the discretion of local authorities who have a power, but no duty, to provide public conveniences under section 87 of the Public Health Act 1936.

Recruitment Advertising

Pete Wishart: To ask the Deputy Prime Minister what his Department's expenditure on recruitment advertising was in each of the last three years, broken down by publication; and what proportion of such expenditure was *(a)* to advertise vacant posts and *(b)* in the form of other general recruitment advertising. [155516]

Yvette Cooper: I refer the hon. Member to the answer given to the hon. Member for Bromsgrove (Miss Kirkbride) on 17 February 2004, *Official Report*, column 23W.

Regeneration Partnerships

Mrs. Ellman: To ask the Deputy Prime Minister how many community and resident representatives have resigned from positions in regeneration partnerships over the past three years; and what assessment he has made of their reasons. [162573]

Yvette Cooper: This information is not held centrally and could be provided only at disproportionate cost. There are a very large number of regeneration partnerships in existence across the country and there is no central record of how many there are, or of their membership. Many are locally established and have no central Government involvement.

Mrs. Ellman: To ask the Deputy Prime Minister if he will make a statement on the adequacy of current arrangements for payments made to residents and community representatives involved in regeneration programmes. [162574]

Yvette Cooper: The Government welcomes and values the contributions that residents and community representatives make to regeneration partnerships. The arrangements for making any payments to those community representatives who are involved in regeneration programmes vary, depending on the programme and the nature of their involvement. If there are issues relating to the arrangements for a regeneration programme for which the Office of the Deputy Prime Minister is responsible that my hon. Friend wishes to bring to my attention, then I would be happy to look into them.

Small Business Support

Brian Cotter: To ask the Deputy Prime Minister if he will list the support programmes for small businesses that *(a)* his Department and *(b)* its agencies have financed in each of the last five years; how much money was allocated for each scheme in each year; how much money has gone unclaimed under each scheme; and how many small businesses have benefited from each scheme. [161253]

Yvette Cooper: The Cross-cutting review of government services for small business, published by the Small Business Service in December 2002 contained information on the services available to small businesses. This reported that the Government spends about £2.5 billion on a wide range of services for small firms. Further details can be found at the Small Business Service website at: http://www.sbs.gov.uk/crosscutting/default.php.

The Office of the Deputy Prime Minister's Annual Report 2003 published in May 2003 (Cm 5906) contains details of the Office's programmes, a number of which would be available to support the work of small businesses.

The specific information asked for on individual schemes is not held centrally and can be provided only at disproportionate cost.

Social Housing (Greater London)

Simon Hughes: To ask the Deputy Prime Minister how much has been spent on *(a)* maintenance and *(b)* repair of social rented housing in Greater London in each year since 1997. [162347]

Keith Hill: Local authorities provide data on council housing to the Office of the Deputy Prime Minister but no consistent figures on expenditure on maintenance and repair are available. Local authorities can use both capital and revenue expenditure on maintenance and repair of their own stock but the returns from London boroughs on capital expenditure include work on improvements, renewal, conversions and adaptations.

The Housing Corporation keep records of maintenance and repair costs for social rented properties in the housing association sector, but on an individual Registered Social Landlord basis only. No figures are therefore available for individual boroughs or London as a whole and could be provided only at disproportionate cost.

HOME DEPARTMENT

Freight (Theft)

Mr. Stephen O'Brien: To ask the Secretary of State for the Home Department what discussions he has held with the British International Freight Association regarding measures to reduce the incidence of theft of personal items during transit. [162591]

Ms Blears: I have not held any discussions with the British International Freight Association regarding measures to reduce the incidence of theft of personal items during transit.

Primates

Adam Price: To ask the Secretary of State for the Home Department how many licensed scientific experiments have been undertaken on primates in the United Kingdom in each of the last 10 years. [160270]

Caroline Flint: The information requested is shown in table 20 of Statistics of Scientific Procedures on Living Animals, Great Britain, 2002, and table 1 of Statistics of Scientific Procedures on Living Animals, Northern Ireland, 1993–2002, copies of which are in the Library.

For ease of reference the numbers of procedures performed for the first time on primates each year are shown in the table.

Numbers of procedures

	Great Britain	*Northern Ireland*
1993	4,994	—
1994	5,163	—
1995	4,721	—
1996	4,374	—
1997	3,908	—
1998	3,655	—
1999	4,003	—
2000	3,690	—
2001	3,986	—
2002	3,977	—

"Reducing Crime—Changing Lives"

Mr. Gerrard: To ask the Secretary of State for the Home Department what consultation took place with key stakeholders prior to the publication of the document Reducing Crime—Changing Lives; and whether trade unions were consulted. [160895]

Paul Goggins: Reducing Crime—Changing Lives sets out the Government's initial response to the Carter report.

The Home Secretary has sought and continues to seek views from all stakeholders on a number of issues relating to the effective management of offenders.

Mr. Martyn Jones: To ask the Secretary of State for the Home Department what plans he has to publicise the role of the *(a)* voluntary and *(b)* private sector in the delivery of justice following the publication of the Carter Report; and if he will make a statement. [155617]

Paul Goggins: The Government's response to Patrick Carter's report "Managing Offenders—Reducing Crime" was outlined in the Government paper "Reducing Crime—Changing Lives" both of which were published on 6 January 2004.

The "Reducing Crime—Changing Lives" document sets out the Government's proposals for the reform of correctional services and seeks views from key stakeholders on a number of implementation issues including how best to ensure effective community involvement and improve contestability in the new National Offender Management Service.

The Government will analyse the responses to those questions and make them available, unless the respondent has requested confidentiality.

Anti-terrorism (Overseas Evidence)

Mr. Dalyell: To ask the Secretary of State for the Home Department what his policy is on the admissibility of *(a)* hearsay evidence and *(b)* written evidence from abroad in relation to prosecutions under anti-terrorism legislation. [162610]

Mr. Blunkett *[holding answer 22 March 2004]*: Prosecutions under counter terrorist legislation are conducted in the same way as other prosecutions and the same rules on the admissibility of evidence apply, including the law on hearsay. At present, written statements from witnesses abroad who are unable to attend the trial, may be admitted as evidence if certain conditions are met. When implemented, the Criminal Justice Act 2003 provides that witness statements will generally be admissible in any criminal proceedings where a witness is abroad, subject to certain safeguards.

Cargo Theft

Mr. Stephen O'Brien: To ask the Secretary of State for the Home Department how many incidences of cargo theft were reported by contracted shipping delivery companies in each year between 1997 and 2003. [162419]

Ms Blears: The requested information is not collected centrally by the Home Office.

Child Abuse

Ms Shipley: To ask the Secretary of State for the Home Department what guidance he gives to chief constables on the secondment of police officers who specialise in *(a)* internet and *(b)* non internet child abuse to other types of police activity. [158987]

Paul Goggins: There are no specific arrangements for seconding officers to this area of work. The deployment of police officers to specific posts is an operational matter for Chief Officers.

Ms Shipley: To ask the Secretary of State for the Home Department what discussions he has had with internet service providers who refuse to keep the internet addresses of customers after they change ISP and the effect of this on the tracking of online predators. [158988]

Paul Goggins: There has been considerable consultation with the Internet Industry over the last two years about retention of their business data. The Industry continues this dialogue. We are keeping Internet Service Providers data retention practices under review in consultation with the Industry.

Coroners

Mr. Fabian Hamilton: To ask the Secretary of State for the Home Department whether he requires that bodies be released by hospitals immediately without precondition or delay once they are no longer required by a coroner for evidential purposes. [159971]

Paul Goggins: Once the coroner has released the body it is for the representatives of the deceased, working with the hospital, to arrange transfer of the body to its final resting place.

Corruption

Malcolm Bruce: To ask the Secretary of State for the Home Department what assessment his Department has made of the actions the UK needs to take to ratify the UN Convention Against Corruption; and if he will place a copy in the Library. [158307]

Caroline Flint: Officials of the responsible Government Departments are considering what, if any, legislative or administrative amendments are required to enable the UK to meet its commitments under the Convention. Should any amendments be required, these will be enacted or put in place at the earliest opportunity. It is not possible to indicate when this process will be completed. The UK will be in a position to ratify the Convention once the Government are satisfied that the UK can fulfil the Convention's provisions.

Crime

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what the percentage change in *(a)* overall recorded crime, *(b)* recorded violent crime, *(c)* burglaries and *(d)* vehicle thefts in Crosby has been since 1997. [160538]

Ms Blears: Recorded crime statistics below police force area level are collected on a Basic Command Unit (BCD) and Crime and Disorder Reduction Partnership (CDRP) basis. BCD areas equate to former police divisions/districts, with CDRPs equating to local authority areas.

The constituency of Crosby is not specified as being either a BCD or CDRP, however there is data available at these levels for the area of Sefton, which is located within the borough constituency of Crosby. Figures at these levels are available for 1999–2000, 2000–01, 2001–02 and 2002–03. Data for six key offences only has been previously published at CDRP level for these years and are given in the table.

A greater breakdown of recorded crime figures for 2002–03 by CDRP, police force and region has recently been made available and is given in the Home Office website at www.crimestatistics.org.uk/output/page1.asp.

Crime and Disorder Reduction Partnership data from April 1999 to March 2003

CDRP: Sefton Force: Merseyside	*1999–2000*	*2000–01*	*2001–02*	*2002–03*[1]
Violence against the person	2,034	2,307	2,225	3,016
Sexual offences	156	148	130	185
Robbery	288	224	346	334
Burglary dwelling	1,712	1,528	2,269	2,533
Theft of a motor vehicle	2,285	2,014	1.926	1,542
Theft from a vehicle	2,250	1,852	2,009	1,629

[1] Merseyside police implemented the principles of the National Crime Recording Standard (NCRS) on 1 April 2002. Broadly, the NCRS had the effect of increasing the number of crimes recorded by the police. Therefore, following the introduction of the Standard, numbers of recorded crimes are not directly.

Mr Rosindell: To ask the Secretary of State for the Home Department (1) how many violent crimes were committed in *(a)* the London Borough of Havering and *(b)* Romford in the last 12 months; [154851]

(2) what estimate he has made of the level of crime in *(a)* the London Borough of Havering and *(b)* Romford which is drug related. [154852]

Ms Blears: Recorded crime statistics below police force area level are collected on a basic command unit (BCD) basis. In London, BCD areas equate to London boroughs. The total number of violent crimes (violence against the person, sexual offences and robbery offence groups) recorded in Havering BCU in 2002–03 was 4,558. The Metropolitan police introduced the National Crime Recording Standard on 1 April 2002, and this may have increased the number of crimes recorded in the violence against the person offence group.

Recorded crime data is collected by offence type, rather than by particular circumstance. It is therefore not possible to distinguish drug related crime within recorded crime figures.

Criminal Cases Review Commission

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department (1) if he will make a statement on the role of the Criminal Cases Review Commission in seeking views on *(a)* controversial expert evidence and *(b)* investigative methods; [159704]

(2) what procedure is used by the Criminal Cases Review Commission if it suspects that *(a)* a body of evidence and *(b)* an investigative method is flawed. [159705]

Paul Goggins: The commission treats every application received on its individual merits. Cases regularly raise issues involving expert evidence and

investigative methods. Where necessary the commission instructs a professionally qualified person to give a view on the expert evidence or the investigative method, and such further evidence is taken into account when a decision is made on the case. In some circumstances it may be appropriate for the Commission to ask for further evidence on a particular issue which is common to several cases.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what research has been conducted into the motives of solicitors who submit large numbers of applications to the Criminal Cases Review Commission. [159710]

Paul Goggins: No research has been conducted into the motives of solicitors who submit large number of applications to the Commission. Some firms of solicitors specialise in this area and so it is not unexpected that several applications every year will come from them. To date the Commission has not received a large number of applications at the same time from any individual solicitor or firm. It continues to receive applications unsupported by legal representation.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what the findings of the Criminal Cases Review Commission's Working Group on Sexual Abuse were. [159711]

Paul Goggins: The "findings" of the Criminal Cases Review Commission's Working Group on Sexual Abuse enabled the Commission to analyse and refine it's approach to child sexual abuse cases generally, to help it establish best practice, to investigate developments that might discover new evidence in such cases and communicate any lessons obtained internally and to other stakeholders.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what process is used for recruiting members of the Criminal Cases Review Commission. [159713]

Paul Goggins: Members of the Criminal Cases Review Commission are appointed by Her Majesty the Queen on the recommendation of my right hon. Friend, the Prime Minister. New members are recruited in accordance with the Code of Practice for Public Appointments issued by the Office of the Commissioner for Public Appointment. The process includes:

open advertising of the posts

an initial sift of applications by external recruitment consultants

short-listing and interview by a panel comprising of the Director of Criminal Law and Policy of the Home Office, the Chairman of the Commission and an Independent Assessor

consultation with interested Ministers (including the Secretary of State for Northern Ireland) and the Cabinet Office's Public Appointment Unit.

Criminal Justice Act

Vera Baird: To ask the Secretary of State for the Home Department if he will bring section 144 of the Criminal Justice Act 2003 into force as a matter of urgency. [158562]

Paul Goggins *[holding answer 4 March 2004]*: The Sentencing Advisory Panel has recently consulted on the reduction of sentence for a guilty plea with a view to proposing to the Sentencing Guidelines Council that it should make a guideline in this area. We consider that it would be sensible to await the outcome of this work before making a final decision on the commencement of section 144 of the 2003 Act.

Dogs Act

Mr. Roger Williams: To ask the Secretary of State for the Home Department how many people were required to provide DNA samples as a result of *(a)* enquiries and *(b)* convictions in connection with section 2 of the Dogs Act 1871 in (i) Wales and (ii) England in (A) 2001, (B) 2002 and (C) 2003. [162181]

Ms Blears: Under section 2 of the Dogs Act 1871 a Magistrates' Court may make an order for a dog to be kept under proper control or for the destruction of the dog. The section does not create an offence.

The powers contained in Section 63 of the Police and Criminal Evidence Act 1984 (as amended) enable the police to take a non-intimate DNA sample without consent from a person held in police detention who has been charged with, informed they will be reported for or convicted of an offence and they apply only in respect of recordable offences. Since section 2 of the Dogs Act 1871 does not create an offence, there are no legal powers to take a DNA sample in these circumstances.

Mr. Roger Williams: To ask the Secretary of State for the Home Department how many people were required to attend a police station to provide fingerprints and photographs after being found guilty under section 2 of the Dogs Act 1871 in *(a)* Wales and *(b)* England in (i) 2001, (ii) 2002 and (iii) 2003. [162182]

Ms Blears: Under section 2 of the Dogs Act 1871 a Magistrates' Court may make an order for a dog to be kept under proper control or for the destruction of the dog. The section does not create an offence.

The powers under sections 27 and 61 of the Police and Criminal Evidence Act (PACE) 1984, (as amended), to take fingerprints without consent from convicted persons are restricted to persons who have been convicted for a recordable offence.

Recordable offences are those which have to be recorded on the Police National Computer to form part of a person's criminal record. They are set out in the National Police records (Recordable Offences) Regulations 2000 (SI 2000 No 1139) (as amended). They include convictions, cautions, reprimands and warnings given in respect of an offence punishable with imprisonment and any offence specified in the Schedule to the regulations.

Under section 64A(1) of PACE, a constable or designated person may photograph a person detained at a police station with or without that person's consent. Where there are reasonable grounds for suspecting the involvement of a person in a criminal offence, but that person is at a police station voluntarily and not detained, there are no powers to take fingerprints or photograph that person without consent.

Mr. Roger Williams: To ask the Secretary of State for the Home Department how many people were required to provide fingerprints and photographs when attending a police station in connection with a possible offence relating to section 2 of the Dogs Act 1871 in *(a)* Wales and *(b)* England in (i) 2001, (ii) 2002 and (iii) 2003. [162183]

Ms Blears: Under section 2 of the Dogs Act 1871 a Magistrates' Court may make an order for a dog to be kept under proper control or for the destruction of the dog. The section does not create an offence.

The powers under sections 27 and 61 of the Police and Criminal Evidence Act (PACE) 1984, (as amended), to take fingerprints without consent from convicted persons are restricted to persons who have been convicted for a recordable offence.

Recordable offences are those which have to be recorded on the Police National Computer to form part of a person's criminal record. They are set out in the National Police records (Recordable Offences) Regulations 2000 (SI 2000 No 1139) (as amended). They include convictions, cautions, reprimands and warnings given in respect of an offence punishable with imprisonment and any offence specified in the Schedule to the regulations.

Under section 64A(1) of PACE, a constable or designated person may photograph a person detained at a police station with or without that person's consent. Where there are reasonable grounds for suspecting the involvement of a person in a criminal offence, but that person is at a police station voluntarily and not detained, there are no powers to take fingerprints or photograph that person without consent.

Mr. Roger Williams: To ask the Secretary of State for the Home Department how many successful prosecutions were carried out under section 2 of the Dogs Act 1871 in *(a)* Wales and *(b)* England in (i) 2001, (ii) 2002 and (iii) 2003. [162184]

Ms Blears: Defendants proceeded against and those convicted of offences under Section 2 of the Dogs Act 1871 are grouped together with those dealt with for offences under the Dangerous Dogs Act 1989 in the information collected centrally and cannot be separately identified.

The number of defendants proceeded against at magistrates' courts and found guilty at all courts for offences under these two statutes, for England and Wales separately for 2001 and 2002 is contained in the table.

Number of defendants proceeded against at magistrates courts' and found guilty at all courts under section 2 of the Dogs Act 1871 and the Dangerous Dogs Act 1989, England and Wales 2001 and 2002 [1]

	Proceeded against	*Found guilty*
2001		
England	306	76
Wales	69	25
Total	375	101
2002		
England	279	84
Wales	57	21
Total	336	105

[1] These data are on the principal offence basis.

Statistics on court proceedings for 2003 will be published in the Autumn.

Domestic Violence

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department how much public funding has been provided to front-line domestic violence agencies in Crosby since 1997. [160385]

Mr. Blunkett: This information is not available. However, Crosby falls under the remit of Sefton's Crime and Disorder Reduction Partnership.

Since April 2003 the Home Department has allocated £62,600 to Crime and Disorder Reduction Partnerships. In November 2003, £17,600 from this funding was provided to aid front-line domestic violence agencies in Sefton. The funding will run until March 2006.

Drug Abuse (Avon and Somerset)

Mr. Liddell-Grainger: To ask the Secretary of State for the Home Department how much was spent in the Avon and Somerset police force area in 2003–04 to combat drug abuse. [161867]

Caroline Flint: Financial information is not maintained in a form that shows the proportion of mainstream funding allocated specifically to combating drug misuse in the Avon and Somerset police force area. However, information is available on the levels of funding allocated to Crime & Disorder Reduction Partnerships (CDRPs), Drug Action Teams (DATs) and Basic Command Units (BCUs). The rounded figures are as follows:

CDRPs—£1.45 million (out of £2.09 million Building Safer Communities Funding)

DATs—£6.57 million

BCD funding:

£1.3 million to deliver the Criminal Justice Interventions Programme

£1.7 million to support delivery of locally determined action to combat drug misuse

Emergency Services (Attacks)

Simon Hughes: To ask the Secretary of State for the Home Department (1) how many attacks on *(a)* police officers and *(b)* fire officers there were in (i) Greater London and (ii) each London borough in each of the last 10 years; [159222]

(2) how many burglaries were committed in *(a)* the Metropolitan police area and *(b)* each London borough in the last 12 months for which figures are available; and in how many cases convictions were obtained for (i) custodial and (ii) non-custodial sentence, broken down by police force area; [159223]

(3) how many violent crimes against people were committed in *(a)* Greater London and *(b)* each London borough in each year since 1997. [159224]

Ms Blears: The offence of 'Assault on a constable' was added to the recorded crime series from April 1998. The available published figures at police force area level are given in the table. A greater breakdown of recorded crime figures for 2002–03 by local authority, police force and region is given on the Home Office website at www.crimestatistics.org.uk/output/Page1.asp.

The numbers of assaults on fire officers are not collected by the Home Office.

Number of assaults on a constable offences in Greater London (Metropolitan police and City of London)

	Offences recorded
1998–99	1,636
1999–2000	1,438
2000–01	1,397

Note:
Footnotes are in violent crime table.

The Metropolitan police recorded 72,237 offences of Burglary in a dwelling, and 41,190 offences of Burglary in a building other than a dwelling, in the period April 2002 to March 2003, amounting to a total recorded burglary offence figure of 113,427.

A related collection, of numbers of recorded burglaries in dwellings, has been collected and published by Crime and Disorder Reduction Partnership (CDRP) area for financial years since 1999–2000. In the Metropolitan police area, CDRP areas equate to boroughs. The requested figures are given in the table.

Table 1: Numbers of burglary dwelling offences recorded by the Metropolitan police at CDRP level

Borough/CDRP	*Burglary dwelling, offences recorded 2002–03*
Barking and Dagenham	1,262
Barnet	2,607
Bexley	1,241

Total	5,002	4,404	1,991	2,413

[1] These data are on the principal offence basis
[2] Information held centrally does not allow a breakdown of cases by borough in the Inner London area

The numbers of recorded violent crimes in the Greater London area in each year since 1997 are given in the table. Violent crime is composed of offences of violence against the person, sexual offences and robbery. It should be noted that both the change in counting rules for recorded on 1 April 1998, and the adoption of the National Crime Recording Standard on 1 April 2002, had the effect of inflating the number of crimes recorded, particularly for crimes of violence against the person.

Number of violent offences in Greater London (including City of London)

	Number of recorded violent crimes
1997	87,634
1998–99[1]	[1]166,551
1999–2000	202,981
2000–01	205,632
2001–02	225,522
2002–03[2]	232,732[2]

[1] There was a change of counting rules for recorded crime on 1 April 1998, which had the effect of increasing the number of crimes counted. Numbers of offences for years before and after this date are therefore not directly comparable.
[2] The Metropolitan police and City of London forces introduced the principles of the National Crime Recording Standard (NCRS) in April 2002. Broadly, the NCRS had the effect of increasing the number of crimes recorded by the police. This has impacted particularly in violent crime. Therefore, following the introduction of the Standard, numbers of recorded crimes are directly comparable with previous years.

Numbers of violent crimes are also collected at CDRP level. The available information is given in the table.

Table 3: Crime and Disorder Reduction Partnerships from April 1999 to March 2003 London Region: Violent crime = Violence against the person, Sexual offences and Robbery

			Total violent crime: Total offences recorded			
CDRP Family	*CDRP*	*Force*	*1999–2000*[1]	*2000–01*[2]	*2001–02*[2]	*2002–03*[2,3]

3	Hillingdon	Metropolitan Police	4,338	4,773	5,679	5,847
3	Hounslow	Metropolitan Police	6,060	6,398	7,119	8,372
2	Islington	Metropolitan Police	7,350	7,218	7,673	8,436
3	Kensington and Chelsea	Metropolitan Police	4,304	4,444	4,443	4,450
3	Kingston upon Thames	Metropolitan Police	2,713	2,860	3,138	3,312
2	Lambeth	Metropolitan Police	12,167	13,156	15,241	13,752
2	Lewisham	Metropolitan Police	6,722	7,250	7,856	7,795
3	Merton	Metropolitan Police	3,358	3,447	3,974	4,322
2	Newham	Metropolitan Police	9,344	9,784	10,383	10,679
3	Redbridge	Metropolitan Police	4,453	4,847	5,182	5,892
3	Richmond upon Thames	Metropolitan Police	2,375	2,321	2,580	2,942
2	Southwark	Metropolitan Police	9,943	10,048	11,284	10,898
8	Sutton	Metropolitan Police	2,469	2,393	2,905	3,476
2	Tower Hamlets	Metropolitan Police	7,292	8,105	8,854	9,777
3	Waltham Forest	Metropolitan Police	5,755	6,332	7,424	7,506
3	Wandsworth	Metropolitan Police	6,798	6,580	7,314	7,510
	Heathrow[4]	Metropolitan Police	n/a	n/a	393	403

[1] CDRP total may differ from police force area total due to the boundary change on 1 April 2000, whereby the Metropolitan police ceded parts of it area to three surrounding forces (Hertfordshire, Essex and Surrey).
[2] Total CDRP data may not tally exactly with published totals for police force areas. This is due to a variety of reasons, mainly related to the procedures used to calculate the CDRP figures.
[3] The Metropolitan police and City of London forces introduced the principles of the National Crime Recording Standard (NCRS) in April 2002. Broadly the NCRS had the effect of increasing the number of crimes recorded by the police. This has impacted particularly in violent crime. Therefore, following the introduction of the standard, numbers of recorded crimes are not directly comparable with previous years.
[4] Heathrow was added to the CDRP series from April 2001, and is currently un-assigned to a family.

Forensic Science Service

Colin Burgon: To ask the Secretary of State for the Home Department what discussions his Department has had with Serco regarding the future of the Forensic Science Service. [161230]

Ms Blears: None, but as part of the Outline Business Case Home Office advisers are conducting market soundings with a cross-section of commercial organisations and investors.

Greater London Crime Statistics

Simon Hughes: To ask the Secretary of State for the Home Department how many *(a)* arrests were made, *(b)* people were charged, *(c)* cautions were issued and *(d)* convictions there were in Greater London, broken down by (i) police force, (ii) constituency and (iii) local authority area in each year since 1997. [162336]

Ms Blears: It is not possible, from the statistics collected centrally on arrests, court proceedings and

cautions, to identify constituencies in the Greater London Area, but the tables show the available information:

Table A relates to persons arrested in the Greater London Area, by police force area and is limited to arrests for notifiable offences and covers the financial years, 1999–2000 to 2002–03. Arrest figures are not collected centrally below police force area.

Table B relates to persons proceeded against for offences in the Greater London Area (statistics of people charged are not collected centrally) and those convicted in each borough in Outer London and each magistrates court in Inner London (it is not possible from the statistics collected centrally to identify boroughs in Inner London). The figures include persons convicted at the Crown court when committed for trial or sentence from the courts/boroughs shown.

Table C shows persons cautioned for all offences (excluding summary motoring offences for which cautions are not issued) by police force area. Caution figures are not collected centrally below police force area.

Table A: Persons arrested for notifiable offences recorded by the police, by police force area, Greater London, 1999–2000 to 2002–03

Police force area	*1999–2000*	*2000–01*	*2001–02*	*2002–03*

Statistics on court proceedings and cautions for 2003 will be published in the autumn.

Homicide Law

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department if he will make a statement on the research conducted by the Law Commission into the deficiencies in the English law of homicide. [159709]

Paul Goggins: There are two recent pieces of work which the Law Commission have undertaken on the law of homicide. The first, published in September 2003, was entitled "Children: Their non-accidental death or serious injury (criminal trials)" (no 282). The research the Law Commission drew on in undertaking this work is set out in their report. We have built on the Law Commission's proposals in formulating the offence of causing or allowing the death of a child in the Domestic Violence, Crime and Victim's Bill currently before Parliament, and the accompanying procedural measures.

The Commission have also begun work on the partial defences to murder, which reduce the charge of murder to that of manslaughter. They published a consultation document in October 2003 which sets out in more detail the research they have or will be undertaking on this. The consultation period closed at the end of January. We understand the Commission received a very large number of responses which they are considering and analysing. They are due to report in early summer and we await their conclusions with interest.

Huntingdon Life Sciences

Norman Baker: To ask the Secretary of State for the Home Department what consideration was given, and by whom, to the ethical aspect of allowing dogs to be used for the testing of the effects of HCFCs at the Huntingdon Life Sciences Laboratory before a licence was granted for this procedure. [159795]

Caroline Flint *[holding answer 8 March 2004]:* Dogs are among the species specially protected by the Animals Scientific Procedures Act 1986, in that they can only be used in scientific studies when no other species are suitable or available. Their use in the study in question was to collect safety data about a chemical compound still in use.

Initial consideration of the choice of species for the study, taking account of ethical and scientific considerations, was undertaken by those concerned at the establishment when preparing their application for the necessary project licence authorities under the 1986 Act. The special case for using dogs had to be made out at that stage.

The Animals (Scientific Procedures) Inspectorate provided a professional assessment of the application, and was satisfied that the use of dogs was justified and that there was no acceptable alternative. The Inspectorate was also satisfied that the other statutory criteria for granting the requested authorities had been met. In particular, the testing was for a permissible purpose, its likely benefit was deemed to outweigh the expected animal welfare costs, and the animal suffering was to be minimised consistent with achieving the scientific purpose.

Home Office officials acting on behalf of the Secretary of State considered and accepted the Inspectorate's recommendation that the licence authorities should be granted.

Identity Cards

Mr. Oaten: To ask the Secretary of State for the Home Department how many *(a)* civil servants in his Department, *(b)* civil servants in other Departments and *(c)* external consultants are employed in taking forward his proposals for (i) identity cards, (ii) the National Identity Register and (iii) the draft identity cards legislation. [161786]

Beverley Hughes: The work on identity cards, the National Identity Register, and the draft identity cards legislation is carried out within the Identity Cards Programme. We currently have 23 civil servants and three full-time secondees, who are not established civil servants, working on the programme. Civil servants in other Departments contribute to the programme alongside their other duties but none are dedicated to this role.

We also have six external part-time consultants currently contracted to provide specialised advice on particular parts of the programme.

Internet Child Pornography

Ms Shipley: To ask the Secretary of State for the Home Department what percentage of individuals suspected of *(a)* making and *(b)* possessing internet child pornography due to investigations carried out under Operation Ore have been (i) cautioned, (ii) prosecuted and (iii) convicted. [159485]

Paul Goggins: I understand that of approximately 6,000 suspects being investigated under Operation Ore, to date there have been 1,202 individuals charged and 655 convicted. There are no centrally aggregated figures available for the number of cautions.

Mr. Jenkins: To ask the Secretary of State for the Home Department what action his Department is taking to tackle the pornographic exploitation of children on the internet. [161334]

Paul Goggins: The Government is determined to reduce availability of child pornography on the internet and to deal with those people who use such images. Within the Task Force on Child Protection on the Internet we work with partners in industry, the law enforcement agencies and children's charities in order to improve technical and legal methods of addressing this problem as well as promote public awareness. We are also working with our international partners in the G8 and [illegible]ED to the same end. Achievements so far include increased police resources, higher criminal penalties for use of and trading in indecent photographs of children, and new offences in the Sexual Offences Act 2003 dealing with people who act so as to involve children in pornography. Additionally, the National Crime Squad of England and Wales have embarked on a global initiative with partner countries currently comprising Canada, USA and Australia, as well as Interpol, to establish new ways of combating and reducing child abuse on line.

Legislation

Mr. Oaten: To ask the Secretary of State for the Home Department if he will list by clause the provisions enacted in legislation sponsored by his Department since 1997 which have not been implemented. [158464]

Mr. Blunkett: The table, which has been placed in the Library, lists the bills introduced by the Home Office in the sessions 1997–98, 1998–99, 1999–2000, 2000–2001

and 2001–2002. The table indicates the extent to which provisions are not in force or only partially in force. Last session's bills are not included as the session only ended in November 2003.

We have now implemented over 94 per cent. of the legislation passed in these sessions.

In some cases provisions have been repealed and replaced by later legislation and improved measures such as those now in the Anti-Social Behaviour Act. In some cases legislation has been updated following representations from Parliament for example from the Home Affairs Select Committee and others.

Misuse of Computers Act

Mr. Oaten: To ask the Secretary of State for the Home Department (1) what estimate he has made of the financial cost to *(a)* the UK and *(b)* the regions of the misuse of information technology systems in the last 12 months; [162416]

(2) what steps he is taking to reduce the incidence of misuse of information technology systems; and if he will make a statement. [162417]

Caroline Flint: There are no centrally aggregated figures of the financial cost to either the UK or the regions resulting from the misuse of information technology. There are a number of surveys and reports which seek to provide an estimate of the financial cost of such incidences, although these surveys are usually limited to a small sample of businesses and provide mainly subjective assumptions of financial loss. The government e-crime strategy will seek to bring together existing information in this area and consider the next steps to providing an accurate picture of the harm caused by computer related offences.

There are a variety of measures which the government is taking to reduce the criminal misuse of computer systems.

We have set up the National Hi Tech Crime Unit (NHTCU) as part of the National Crime Squad to combat national and transnational hi-tech crime within or which impacts upon the UK. The Unit, together with the specialist units within local forces which also deal with hi-tech crime investigations, have established good international links with overseas industry and law enforcement, necessary to follow the evidence trail to discover and prosecute the perpetrators of offences committed against computer systems or facilitated by the misuse of technology.

We continue to keep all legislation which pertains to offences which can be committed by utilising information technology under review to ensure that developments in technology do not prevent law enforcement from being able to use legislative provisions to effectively investigate and prosecute computer related offences.

The government e-crime strategy currently being developed will look to provide a framework for Government, law enforcement and industry action in response to all crimes which can be committed through the misuse of technology. It will outline current legislation, policy and practice, as well as advancing and informing the debate on longer-term issues.

National Offender Management Service

Mr. David: To ask the Secretary of State for the Home Department what the timescale is for the introduction of the new National Offender Management Service. [161641]

Paul Goggins: An implementation team has been established and is currently preparing a detailed programme of work.

The changes will take some time to work through. The National Offender Management Service will come into being from 1 June 2004 and it is anticipated that it will have become fully functional by 2008–09.

Mr. Austin Mitchell: To ask the Secretary of State for the Home Department what plans there are for the management of the *(a)* juvenile and *(b)* high security prison estate under the new National Offender Management Service. [160859]

Paul Goggins: As the Government report "Reducing Crime—Changing Lives" makes clear, the Youth Justice Board will remain as a Non-Departmental Public Body with responsibility to the Home Secretary.

The management of the high security prison estate is being considered by the National Offender Management Service, implementation team as part of the wider implementation strategy.

Mr. Gerrard: To ask the Secretary of State for the Home Department what consultation took place with relevent trade unions prior to the publication of the document Managing Offenders, Reducing Crime. [160896]

Paul Goggins: Patrick Carter's report Managing Offenders- Reducing Crime was an independent review of the Correctional Services. The Government's response 'Reducing Crime- Changing Lives' sought views from key stakeholders.

Mr. Oaten: To ask the Secretary of State for the Home Department what steps he will take in the light of the Bichard Inquiry to ensure that relevant information is *(a)* collected by the National Offender Management Service and *(b)* shared with appropriate agencies. [161164]

Paul Goggins: Arrangements for the collection of data within the National Offender Management Service (NOMS) and the sharing of data with other appropriate agencies is being considered by the NOMS implementation team.

Mr. Oaten: To ask the Secretary of State for the Home Department when he intends to publicise the Business Case for the National Offender Management Service. [161172]

Paul Goggins: The case for the establishment of a National Offender Management Service is outlined in Patrick Carter's independent report "Managing Offenders—Reducing Crime" published along with the Government response "Reducing Crime—Changing Lives" on 6 January 2004.

Neighbourhood Wardens

Simon Hughes: To ask the Secretary of State for the Home Department which of London's boroughs run neighbourhood warden schemes; how many wardens were employed in each of these boroughs at the latest date for which figures are available; how many boroughs directly *(a)* fund and *(b)* employ police community support officers (PCSOs); how many PCSOs each of these boroughs (i) funded and (ii) employed at the latest date for which figures are available; how many run a community safety accreditation scheme; and if he will make a statement. [162358]

Ms Blears: The following table shows London boroughs which have warden schemes funded by the Office of the Deputy Prime Minister's Neighbourhood Wardens Team and the number of wardens the council employs:

Borough	*No. of Wardens*
Barking and Dagenham	4
Barnet	12
Brent	9
Camden	15
City of Westminster	18
Croydon	12
Ealing	8
Greenwich	10
Hackney	25
Hammersmith and Fulham	6
Haringey	14
Harrow	6
Havering	8
Hounslow	7
Islington	28
Kingston upon Thames	3
Lambeth	12
Lewisham	27
Merton	8
Newham	12
Redbridge	5
Southwark	27
Sutton	4
Tower Hamlets	29
Waltham Forest	10
Wandsworth	23

We are unable to supply figures for other types of warden schemes or warden numbers in London as this data is not collected.

Community Support Officers (CSOs), as defined by the Police Reform Act 2002, are all employees of the local Police Authority. In London and elsewhere local authorities have contributed to the funding of CSOs but they cannot employ them.

The Commissioner for the Metropolis informs me that the following Boroughs operate additional CSOs funded through Special Services Agreements under section 25 of the Police Act 1996.

Borough	*No of CSOs*
Camden	2
Greenwich	5
Hammersmith and Fulham	2
Hillingdon	7
Islington	4
Kensington and Chelsea	12
Tower Hamlets	8

At present the Metropolitan Police Service has no agreement with any of the London boroughs to accredit their staff under a community safety accreditation scheme.

Parole

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what methods are used by the Parole Board to assess whether an offender held in custody presents a risk which is manageable in the community, as defined under the Criminal Justice Act 2003. [159665]

Paul Goggins: The Parole Board considers the early release of prisoners either by means of a paper review, or by convening an oral hearing. In every case, the Parole Board is provided with a dossier of papers on behalf of the Secretary of State, which may include information about the index offence, previous offending, behaviour whilst in custody and progress on offending behaviour programmes, as well as reports prepared by probation officers, prison service staff and, where appropriate, psychiatrists or psychologists. The prisoner also has an opportunity to submit representations and, at oral hearings, give oral evidence and call witnesses.

In all cases, the Board's primary consideration is public protection. The Parole Board therefore uses all the available information to form an assessment of risk. In forming that assessment, the Board is required to take into account factors set out in the Secretary of State's Directions on the release or recall of prisoners. Copies of these Directions are to be found in the House Library, in Prison Service Order 6000 and Prison Service Order 4700.

The provisions of the Criminal Justice Act 2003 in respect of the release of determinate sentence prisoners and dangerous prisoners have not yet been implemented. The new release arrangements for mandatory life sentence prisoners, pursuant to section 275 of the 2003 Act were introduced on 18 December 2003. In light of these changes, we are currently reviewing the Secretary of State's Directions for the release of all life sentence prisoners and a statement will be made in due course.

Police

Mr. Oaten: To ask the Secretary of State for the Home Department what steps his Department has taken to improve the efficiency of the police since 1997, with particular reference to information and communication technology; and if he will make a statement. [161790]

Ms Blears: The Government wants to ensure that police resources are used efficiently as well as effectively. A target for annual efficiency gains by the police service of 2 per cent. has been in place since 1999–2000 and has been achieved in each year up to 2002–03, the last year for which figures are available. The efficiency target will be examined during the Spending Review 2004.

Since 1999–2000 police authorities have been required to include efficiency plans in their annual policing plans. Her Majestys Inspectorate of Constabulary assesses performance in relation to the efficiency plans.

Help to improve efficiency has been provided through:

the work of Her Majestys Inspectorate of Constabulary and the Police Standards Unit;

the introduction of Community Support Officers and empowered police staff, to help police officers concentrate on the tasks they are best suited and trained to undertake;

measures to reduce bureaucracy identified by the taskforce led by Sir David O'Dowd;

and by the introduction of the Policing Performance Assessment Framework.

Technology can play a significant role in reducing the burden of bureaucracy and in increasing efficiency.

The Home Office Science and Technology Strategy links together all of the individual strategies underway or planned in the Home Office and which contain Science and Technology strands.

This includes the Criminal Justice System (CJS) Strategic Plan for joint planning across the whole of the CJS by the Home Office, the Lord Chancellor's Department and the Attorney General's Office. The Police Information Technology Organisation (PITO) was established from 1 April 1998 as a Non-Departmental Public Body (NDPB) to provide a national capability for information technology and communications solutions to the police service.

There has been central investment through PITO in key national projects over the last six years including Airwave the new digital police radio system, the National Automated Fingerprint Identification System (NAFIS), applications Supporting the National Strategy for Police Information Systems (NSPIS) and the development of the police-public interface.

Forces are also able to use central funding provided through police and other grants to make local investments in IT and have direct access to funding streams such as the Invest to Save Budget.

Simon Hughes: To ask the Secretary of State for the Home Department if he will make a statement on *(a)* the recruitment of police officers, *(b)* the recruitment of graduates to work as police officers and *(c)* the Accelerated Promotion scheme for graduate police officers in Greater London. [162335]

Ms Blears: Recruitment in England and Wales from 1 April 1997 to 31 March 2003 was as follows:

	Number
1997–98	6,543
1998–99	5,391
1999–2000	4,535
2000–01	7,415
2001–02	10,215
2002–03	13,126

We now have record police numbers of 138,155 as at 31 December 2003.

Over the same period the Metropolitan Police Service recruited:

	Number
1997–98	1,199
1998–99	1,633
1999–2000	994
2000–01	1,350
2001–02	2,748
2002–03	3,489

We do not collate the number of graduates recruited into the police service centrally and cannot say how many graduates have been recruited. We believe that the Police Service remains an attractive career for graduates. Of the 4,947 candidates that have gone through the national assessment centre procedure since April 2003, 25 per cent. have been graduates.

The Accelerated Promotion Scheme for Graduates was replaced in April 2002 by the High Potential Development (HPD) scheme which recruits both graduates and non graduates, externally and from within forces, with the potential to reach at least superintendent rank. It ensures that they are equipped with the necessary skills to become highly effective in middle management, command and leadership roles. The scheme is actively marketed to graduates.

Three intakes are run each year. Five intakes have been completed. 96 candidates have been selected from these five intakes. Statistics for intakes 1–4 show that 67 per cent. of those recruited onto the scheme were graduates on application. We do not have data for the Greater London area.

Simon Hughes: To ask the Secretary of State for the Home Department what percentage of police officers in Greater London, broken down by rank, are *(a)* female and *(b)* from an ethnic minority. [162337]

Ms Blears: The information is provided in the table and is the position as at 31 March 2003.

(full-time equivalents)

	MPS		*City of London*	
	Number	*Percentage of total*	*Number*	*Percentage of total*
Women Officers				
ACPO Rank	5	13.9	0	0
Chief Superintendent	4	4.3	0	0
Superintendent	9	6.8	0	0
Chief Inspector	29	6.6	2	12.5
Inspector	97	7.1	3	5.9
Sergeant	468	11.1	9	8.3
Constable	4210	19.2	121	19.5
Total female officers	4822	17.1	135	16.6
Total number of officers	28231		811	
Minority Ethnic Officers				
ACPO Rank	3	8.3	0	0

Sergeant	132	3.1	2	1.9
Constable	1385	6.3	24	3.9
Total minority ethnic officers	1574	5.6	28	3.5
Total number of officers	28231		811	

Prison Governors

Mr. Stinchcombe: To ask the Secretary of State for the Home Department how many *(a)* governing governors and *(b)* governor grades of prison establishments in England and Wales are from a minority ethnic group. [161062]

Paul Goggins: There are currently 40 Senior Operational Managers (formerly Governor grades) working in public sector prisons who are recorded as coming from a minority ethnic group (based on voluntary declarations). There are currently no Senior Operational Managers in charge of establishments (Governing Governor) recorded as from a minority ethnic group.

Prison Officers

Mrs. Ann Cryer: To ask the Secretary of State for the Home Department how many prison officer entry level training courses have been run over the past 12 months; what the start date of each course was; where each course was held; what the capacity of each course was; how many new recruits or converting staff started each course; how many completed each course; and if he will make a statement. [160745]

Paul Goggins: Between 1 March 2003 and 29 February 2004, 89 Prison Officer Entry Level Training courses started.

Details of those courses are set out in the tables.

(i) 1 March 2003—30 September 2003

Date	*Venue*	*Normal capacity*	*Number of completions*
3 March 2003	Local—HMP Kingston	12	12

Total		834	800	799
Grand total		2,213	(800)	2,129

Records of number of delegates starting the course are available only for courses beginning from 1 October 2003.

It is not possible to provide information on the number of new recruits and the number of converting staff on each course. All existing staff apply to officer positions as external recruits, and not as transfers or promotions. As no distinction is made at the point of recruitment, no distinction is made in the data recorded.

Some central courses have operated at slightly above their normal capacity, to accommodate particular recruitment pressures at the time. Hence, in some cases, the numbers of completions exceeds the normal capacity.

Locally delivered courses generally do not have a pre-determined maximum capacity, but are planned to accommodate the number of officers who have been recruited. Hence, the capacity of locally delivered courses varies over time.

Mrs. Ann Cryer: To ask the Secretary of State for the Home Department what estimate the Prison Service has made of the number of new prison officers it will need to recruit to provide a full staff complement by April 2005. [160747]

Paul Goggins: On 29 February 2004 23,772 prison officer grades (Prison Officers, Senior Officers and Principal Officers) were employed by the Prison Service. In addition, prison officers contracted to work additional hours equivalent to in excess of 400 full-time officers through the contract supplementary hours scheme, giving a total staffing availability equivalent to 24,172 prison officer grades. This compared to an operational staffing requirement for prison officer grades of 24,627. These figures do not take account of new staff still in the recruitment process on 29 February 2004.

The Prison Service operational staffing requirement will change as new accommodation is brought into operation and as accommodation is temporarily taken

out of operational use for refurbishment. However, the current shortfall in overall staffing availability for prison officer grades against the current operational staffing requirement is equivalent to just 448 officers, or 1.82 per cent., which is an acceptable operating margin.

The Prison Service estimates that it will need to recruit 2,600 new prison officers between 1 February 2004 and 1 April 2005 to meet planned increased capacity and replace officers forecast to leave the service through retirement and for other reasons. This is in line with current levels of recruitment activity. However, actual recruitment over this period will depend on a variety of factors including the overall availability and use of resources.

Mr. Stinchcombe: To ask the Secretary of State for the Home Department how many prison officers in England and Wales are from a minority ethnic group. [161063]

Paul Goggins: 978 prison officer grade staff (prison officers, senior officers and principal officers) in public sector prisons are currently recorded as from a minority ethnic group, based on voluntary declarations. This represents 4.1 per cent. of staff currently employed in prison officer grades.

Mr. Hancock: To ask the Secretary of State for the Home Department what the average leave entitlement is for staff at *(a)* state and *(b)* private jails in England and Wales. [160804]

Paul Goggins: A report commissioned in 2003 by the Prison Service Pay Review Body contained a comparison of annual holiday entitlements between private sector and state run prisons. An extract of the relevant table in this report follows.

Senior officer, prison officer and OSG and equivalent

	Days per year
Initial	
Prison service	25
Private sector	20
Maximum	
Prison service	33
Private sector	23

Note:
Prison service figures include three days privilege holiday taken on defined days during the year.

Mr. Hancock: To ask the Secretary of State for the Home Department what the differences are between pension levels at private and state run jails in England and Wales. [160805]

Paul Goggins: A report commissioned in 2003 by the Prison Service Pay Review Body contained a comparison of pension provision between private sector and state run prisons. Using a method of comparison to employer contribution rates, the difference between pension levels for prison officers at private and state run prisons in England and Wales has been calculated at an average salary benefit value of +9.5 per cent. to staff in state-run prisons. This figure reduces to +2 per cent. at the in-charge governor level.

Mr. Hancock: To ask the Secretary of State for the Home Department what the average annual salary for prison officers is at *(a)* privately-run and *(b)* state-run prisons in England and Wales. [160801]

Paul Goggins: A report commissioned in 2003 by the Prison Service Pay Review Body contained an average salary comparison between private sector and state-run prisons. The study found the average basic salary for prison officers in state-run prisons in England and Wales to be £23,017 (at 1 April 2003 rates). The corresponding figure for private sector prisons was £16,077.

Mr. Hancock: To ask the Secretary of State for the Home Department what the average salary is for prison officers at state-run prisons in England and Wales. [160806]

Paul Goggins: A report commissioned in 2003 by the Prison Service Pay Review Body contained average salary figures for state run prisons in England and Wales. This showed the average basic salary for prison officers in state-run prisons to be £23,017 (at 1 April 2003 rates).

Prison Staff

Mr. Stinchcombe: To ask the Secretary of State for the Home Department what proportion of staff in each prison in England and Wales are from a minority ethnic group. [161064]

Paul Goggins: The information is contained in the table. The data reflects the proportion of all staff working at each public sector prison who have voluntarily declared themselves to be from a minority ethnic group, compared to the total staff in post.

Establishment	*Proportion of minority ethnic staff (based on voluntary declarations)*
Acklington	2.1
Albany	1.5
Ashwell	0.7

Prison/Probation Services

John McDonnell: To ask the Secretary of State for the Home Department how the Director General of the National Offender Management Service will ensure that the *(a)* Prison and *(b)* Probation Services are adequately funded to ensure that all their statutory duties are complied with. [160469]

Paul Goggins: The overall funding settlement for the National Offender Management Service will be secured as part of the usual Spending Review process. Funding for individual elements of the National Offender Management Service, including prison and probation services, will be determined by the Chief Executive who will take account of funding requirements necessary to discharge statutory duties.

Prisoner Categories

Mrs. Gillan: To ask the Secretary of State for the Home Department how many prisoners are held in Category C prisons who have been designated as Category B prisoners. [159310]

Paul Goggins: I will write to the hon. Member.

Prisoner Statistics

Mr. Oaten: To ask the Secretary of State for the Home Department how many prisoners are being held in prisons in England and Wales, broken down by *(a)* ethnic and *(b)* religious group; and if he will provide the equivalent figures for each of the last five years. [160554]

Paul Goggins: A breakdown of the prison population in England and Wales by ethnic group on 28 February 2003 and by religion on 30 November 2003 is given in

the tables. Equivalent figures for each of the last five years can be found in the publication "Prison Statistics England and Wales 2002", a copy of which is available in the Library.

Prison population by religion 30 November 2003	
All Christian	42,087
Anglican	25,608
Free Church	1,389
Roman Catholic	12,858
Other Christian	2,232
Buddhist	1,062
Hindu	338
Jewish	178
Muslim	6,277
Sikh	522
Other non-Christian	243
Non-recognised	291
No religion	23,005
Not recorded	52
Total	74,055

Prison population by ethnic group 28 February 2003	
White	54,445
Black	11,942
South Asian	2,352
Chinese and other	3,468
Unrecorded	79
Total	72,286

Mr. Stinchcombe: To ask the Secretary of State for the Home Department if he will break down by ethnic origin *(a)* prisoners in each prison in England and Wales and *(b)* the proportion of prisoners in each prison in England and Wales on the latest date for which figures are available. [161061]

Paul Goggins: A table showing the breakdown by ethnic origin of *(a)* prisoners in each prison in England and Wales and *(b)* the proportion of prisoners in each prison in England and Wales on 28 February 2003 has been placed in the Library.

Mrs. Gillan: To ask the Secretary of State for the Home Department how many *(a)* women and *(b)* men were being held in prison on 10 March 2004. [161626]

Paul Goggins *[holding answer 15 March 2004]*: On 10 March 2004 there were 4,554 females and 70,409 males held in prison service establishments in England and Wales.

Mrs. Gillan: To ask the Secretary of State for the Home Department how many prisoners were released on early release on 10 March. [161627]

Paul Goggins *[holding answer 15 March 2004]*: Information on the number of prisoners who were released on early release on 10 March 2004 is not yet available.

Mrs. Gillan: To ask the Secretary of State for the Home Department how many prisoners were eligible for early release on 10th March. [161628]

Paul Goggins *[holding answer 15 March 2004]*: Information on the number of prisoners who were eligible for early release on 10 March 2004 is not yet available.

Prisons

Mr. Austin Mitchell: To ask the Secretary of State for the Home Department what assessment he has made of whether the intended expansion in the use of contestability will require future private operators to run prisons at a lower cost, with the same targets for service delivery. [160858]

Paul Goggins: When evaluating bids following any competition, the Home Office uses best procurement practice in awarding the contract to the provider who offers best value for money, which may or may not be the lowest cost.

The introduction of greater contestability for offender services, including running prisons, will not lead to a change in this policy.

Mr. Austin Mitchell: To ask the Secretary of State for the Home Department what discussions have taken place with trade unions regarding future privately built but publicly run prisons. [160860]

Paul Goggins: Although future privately built but publicly run prisons are one of the options currently under consideration for the provision of additional offender accommodation, no decision has yet been taken on what form of procurement would be used. The trade unions will be consulted on the issue once firm proposals have been developed.

Mr. Austin Mitchell: To ask the Secretary of State for the Home Department who will be responsible for the monitoring of the performance of privately run prisons under the National Offender Management Service. [160861]

Paul Goggins: The Chief Executive of the National Offender Management Service will be responsible for monitoring the performance of privately run prisons.

Mr. Austin Mitchell: To ask the Secretary of State for the Home Department whether there will be a requirement under the National Offender Management Service to renegotiate existing contracts for privately run prisons. [160862]

Paul Goggins: The existing contracts for privately run prisons are with the Secretary of State and will not change under the National Offender Management Service reforms.

Mr. Hoyle: To ask the Secretary of State for the Home Department how many *(a)* new prisons and *(b)* extensions are planned to be built; how many will be (i) publicly and (ii) privately run; how many new prison officers will be needed; and what category each new prison will be. [161607]

Paul Goggins: The information is as follows:

(a) 1,290 places will be provided at two new private sector prisons. Bronzefield, in Middlesex, will provide closed conditions for women and is due to open in June 2004. Peterborough will be a local prison and will hold both male and female prisoners. All new prisons are built to Category B standards but are categorised to reflect the need of the prevailing population profile.

The contracts for these new prisons contain the minimum staffing cover for different times of day and different areas of the prison. It will be for the contractor to decide how many prison custody officers will be needed to sustain the required staffing cover.

(b) Funding has been provided for additional places to be built at existing prisons by 2006. 1,400 places will be built in 2004 and 1,300 places will be built in 2005 in new houseblocks and ready-to-use units. The places will take the security category of the establishment in which they are built. A breakdown of accommodation for which the security categorisation has already been determined as follows:

Expected	*Establishment*	*Category*	*Places*
2004	Winchester-West Hill	Local	40
2004	Wymott	C	180
2004	Wealstun	C	180
2004	Swinfen Hall[1]	C	120
2004	Foston Hall	Female closed	40
2004	Ranby	C	180
2004	Blakenhurst	Local	180
2004	Wellingborough	C	120
2004	Swinfen Hall[1]	C	180
2005	Gartree	B	240
2005	Whatton	C	400

[1] HMP Swinfen Hall has two new houseblocks due in 2004.

It will be for local managers to decide the appropriate levels of staffing to deliver the appropriate regime and security cover.

Mrs. Gillan: To ask the Secretary of State for the Home Department how many prisons with foreign nationals have specific work *(a)* led by a foreign nationals co-ordinator and *(b)* guided by relevant policies. [159287]

Paul Goggins: Some prisons with large numbers of foreign national prisoners have appointed a member of staff to act as a foreign nationals coordinator to work specifically to address their needs. Information on such prisons is not kept centrally but it tends to be in those prisons which have had a high number of foreign national prisoners for some time.

All prisons have a race relations liaison officer and a race relations management team that are responsible for the promotion of good race relations and the fair treatment of ethnic minority prisoners, who may include many foreign nationals.

Prison service policies aim to ensure that all prisoners, including foreign nationals, are treated fairly and that their needs are met. This includes maintenance of their ties with family members and their own community, diet, religion, and access to welfare, legal and interpreting services. Some prisons have produced a local policy document with specific guidance on how foreign national prisoners' needs should be met. However, detailed information about these policies is not monitored centrally and can be produced only at disproportionate cost.

Mrs. Ann Cryer: To ask the Secretary of State for the Home Department what the cost has been of the maintenance and refurbishment of each prison for each of the last five years. [160749]

Paul Goggins: The information is set out in the following table.

Establishments	*1999–2000*	*2000–01*	*2001–02*	*2002–03*	*2003–04*	*Total (£000)*

Note:
Figures are construction costs, excluding professional fees.
The additional accommodation programme and associated ancillaries are not included.
Minor maintenance works undertaken locally are also excluded.
The figures show current programmed work and may be adjusted and further work added.

Mrs. Ann Cryer: To ask the Secretary of State for the Home Department what the estimated cost of the backlog in maintenance for each prison establishment is; and if he will make a statement. [160751]

Paul Goggins: The estimated cost of identified maintenance is as follows:

Probation

Mr. Oaten: To ask the Secretary of State for the Home Department whether probation hostels in England and Wales will be subject to contestability following the creation of the National Offender Management Service. [161175]

Paul Goggins: The structure of the National Offender Management Service is yet to be finalised. As part of the implementation of the Reducing Crime—Changing Lives reforms details of contestability and the arrangements for the management of probation hostels in England and Wales are being developed.

Science Strategy

Dr. Iddon: To ask the Secretary of State for the Home Department what steps he has taken to enhance science in his Department since the publication of the Government's science strategy, Investing in Innovation. [162249]

Ms Blears: The Home Office continues to ensure that science and technology make a significant contribution to the delivery of the Department's aims. Our new Strategic Plan commits the Department to a more proactive use of science, technology and research to drive policy and practice. The appointment of our Chief Scientific Advisor has enabled a more strategic management and focus of science on policy priorities. The Forward Look entry summarises our significant investment in hard science, social science and data flows.

As far as innovation specifically is concerned, we try as far as possible to ensure that Intellectual Property Rights in research commissioned by the Home Office remains with the researcher and to work in partnership with commercial companies on development projects. Some restrictions on this are sometimes necessary in so far as it would not be in the national interest to share our research activity. However, management of knowledge and innovation will be key, especially since in many areas we are looking to a wider range of providers and more innovative ways of delivering services. Since its launch in July 2002, the Investing in Innovation strategy has provided the opportunity for the department to work more closely with the science base in co-operation with the research councils. In particular, the Home Office has excellent links with Economic Social Research Council and the Engineering and Physical Sciences Research Council. We have been working closely with the latter to support the crime prevention programme. We have established a structure to ensure that our Public Sector Research Establishment—the Forensic Science Service—is fully engaged in effective knowledge transfer in the spirit of the Baker report.

It is vital that we pursue our objectives in partnership with other Government departments, academia and the private sector and this approach will be at the heart of our science and innovation strategy.

Sentencing Statistics

Mr. Hancock: To ask the Secretary of State for the Home Department whether he proposes that the

Sentencing Guidelines Council should have a role in *(a)* reducing sentence lengths and *(b)* less serious offenders being jailed. [160803]

Paul Goggins: The work of the Sentencing Guidelines Council will lead to a greater consistency in sentencing around the country. The Government has made it clear that prison should be used only for the most serious, dangerous and persistent offenders.

Shoplifting

Mr. Oaten: To ask the Secretary of State for the Home Department how many *(a)* men and *(b)* women were imprisoned for shoplifting offences in each criminal justice area in 2002. [155064]

Paul Goggins: The information in the following table gives the number of persons sentenced and sentenced to immediate custody for "stealing from shops and stalls", by gender and criminal justice system area, England and Wales 2002.

It should be noted that courts' sentencing decisions are influenced by the seriousness of the offence and take into account previous convictions.

Number of persons sentenced and sentenced to immediate custody at all courts for "Stealing from shops and stalls", by sex and criminal justice system area England and Wales 2002[1] [2]

Traffic Officers

John Thurso: To ask the Secretary of State for the Home Department how many *(a)* traffic enforcement officers, *(b)* traffic wardens and *(c)* council parking attendants were operating in each police authority area in each year since 1999–2000. [163130]

Caroline Flint: There is no group specifically designated as traffic enforcement officers. Provision for Highways Agency traffic officers is included in the Traffic Management Bill currently before Parliament.

The number of traffic wardens employed by each of the police authorities in England and Wales for the last four years is given in the table attached.

No record is kept centrally of the number of parking attendants employed by local authorities or by contractors who carry out enforcement on their behalf.

Mr. Liddell-Grainger: To ask the Secretary of State for the Home Department how many traffic wardens there are in *(a)* Avon and Somerset and *(b)* Devon and Cornwall. [161863]

Caroline Flint: The number of traffic wardens employed by the police authorities in *(a)* Avon and Somerset and *(b)* Devon and Cornwall for the financial year 2002 to 2003 were 43 and 103 respectively.

Under the provisions of the Road Traffic Act 1991, local authorities can apply for parking restrictions in their areas to be decriminalised and enforced by the authority under civil law. Many have now done so and this has led to a marked decline in traffic warden numbers. In Avon and Somerset the local authorities for Bath & NE Somerset, Taunton Deane, and Bristol now have decriminalised parking enforcement (DPE) schemes. In Devon and Cornwall only Plymouth local authority is covered by DPE powers.

Wormwood Scrubs

Mr. McNamara: To ask the Secretary of State for the Home Department if he will list the payments of compensation as a result of claims against HM Prison Wormwood Scrubs in the last 10 years for which figures are available, broken down by perceived ethnic background of the complainant, including the Irish community and the Gypsy and Traveller community. [155657]

Paul Goggins *[holding answer 2 March 2004]:* A list of payments made is set out in the table. Data are not centrally collated to separately identify claimants from the Gypsy and Traveller community. These figures do not include claims for loss of property or accidents.

As at 11 February 2004

Written Answers to Questions

Wednesday 24 March 2004

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Badgers/Bovine TB

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what the total cost of the road traffic accident badger survey has been from its inception to date. [158335]

Mr. Bradshaw: The total cost of the road traffic accident badger survey to date is £218,000.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what research is being undertaken on badger to cattle transmission of M. bovis via cattle feed troughs. [158337]

Mr. Bradshaw: Research by the Central Science Laboratory (CSL) has shown that in the Woodchester Park study area some badgers regularly obtained feed from cattle troughs. In addition, badgers have been recorded defecating and urinating in troughs. Ongoing research at CSL aims to identify the seasonal and frequency of trough-use by badgers on cattle farms throughout the south-west of England. The results of this research will be reported to Defra in December 2005.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what the responses are of badger groups confronted with shortages of primary foods arising from population pressure in terms of *(a)* selectivity of diet and *(b)* foraging distance. [158338]

Mr. Bradshaw: The primary food of the badger in Britain is the earthworm. These do not represent a limiting resource across much of Britain, especially the south-west, due to their super-abundance. However, they may not be available to badgers under some conditions such as during periods of dry weather. Therefore, badgers are unlikely to be confronted with food shortages as a result of increasing population size alone. When earthworms are not available badgers are forced to select other food sources and will forage greater distances to obtain these. Being generalist opportunists, badgers will consume a wide variety of foods. These include many invertebrates, plant roots, fruits, cereals, animal carcases and stored livestock feed. Food shortages may encourage badgers to forage at greater distances from their setts, although there is no quantitative data on this.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs whether badger carcases on the roadside reported by members of the public are included in the road traffic accident badger survey. [158625]

Mr. Bradshaw: The Road Traffic Accident (RTA) survey only operates in the seven English counties of Cornwall, Devon, Dorset, Hereford, Gloucestershire, Shropshire and Worcestershire. Defra staff endeavour to collect any badgers reported by members of the public from roadsides within those counties. Not all badgers collected are suitable for post mortem examination, and only those that are suitable can provide data for the survey.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs how many staff are employed in the collection of badgers killed in road traffic accidents; and what the average period is between a report of a carcase being received and a collection being made. [158627]

Mr. Bradshaw: The road traffic accident survey (RTA) of badgers killed by motor vehicles in seven English counties was operated by the Central Science Laboratory (CSL) from June 2002 to end of February 2004. CSL had two full-time staff involved in the collection of RTA badgers (in peak periods another member of staff assisted), and typically a carcase would be collected within 24 hours of being reported.

Defra's Wildlife Unit (WLU) is now operating the RTA survey, and intends to involve up to four staff daily, as necessary, in the task of collecting carcases. All other travelling WLU staff, however, may also collect such carcases, as an ancillary action to their primary work tasks. The WLU will aim to collect such carcases within one working day of their notification.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the effectiveness of bovine TB control programmes undertaken without the active co-operation of farmers. [157939]

Mr. Bradshaw: No such assessment has been made, but the co-operation of farmers is vital for a TB control programme in cattle to be effective.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of other causes to which the reduction in bovine TB could be attributed in the Thornbury experiment, other than the clearance of badgers. [157949]

Mr. Bradshaw: The fundamental difference between the Thornbury area and other areas in south west England, where bovine tuberculosis was a problem, was the systematic removal badgers from the Thornbury area. No other species was similarly removed. No other contemporaneous change was identified that could have accounted for the reduction in TB incidence within the area.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what her assessment is of the effect of anti-trial activity on the success rate of badger trapping during the Krebs trials. [157954]

Mr. Bradshaw: It is not possible to assess accurately the effect of anti-trial activity on the success of badger trapping, as there are no control data with which to draw a comparison. However, it is likely that such

activity has had a negative impact on the success rate, and has certainly led to some trapping operations being prematurely suspended or extended.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs if she will estimate the number of injuries to *(a)* cattle owners, *(b)* keepers and *(c)* stockmen which will be sustained as a result of the enhanced testing programme. [157958]

Mr. Bradshaw: The Health and Safety Executive do not hold specific data on the number of accidents occurring on farms that can be directly attributed to the current TB testing programme. Therefore it would not be possible to estimate the number of injuries resultant of any changes to the TB testing programme.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs whether the prevalence of TB in cattle is higher on organic holdings than on those where cattle are housed intensively. [158021]

Mr. Bradshaw: The TB99 epidemiological questionnaire has been designed to assess factors that might predispose herds to a TB breakdown, and their relative importance. The form includes questions on organic herd status. To date, no finalised analyses have been made, but analyses of pre-Foot and Mouth Disease outbreak data and of data collected in 2002 are in progress. The results will be published later this year.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what recent discussions she has had with her counterparts in *(a)* Scotland and *(b)* Wales on the control of bovine TB; and what the outcome was of those consultations. [158330]

Mr. Bradshaw: There are regular discussions at official level on bovine TB issues. A subject of recent discussions has been the consultation exercise "Preparing for a new GB strategy on bovine tuberculosis".

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what evidence she has collated on whether poor standards of animal health and welfare in cattle husbandry contribute to the increases in bovine TB in cattle. [158331]

Mr. Bradshaw: An Independent Husbandry Panel was set up by MAFF on 17 January 2000, in response to a recommendation of the Agriculture Select Committee (in April 1999) for a working party to be established to review the available scientific evidence on husbandry, and the role it might play in controlling bovine TB. Factors considered by the Panel included health and welfare aspects such as physiological state and concurrent diseases. Its report was published by MAFF in 2000.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what resources devoted to the Krebs reactive trials have been transferred to the Krebs proactive trials. [158333]

Mr. Bradshaw: Wildlife unit staff and equipment have always been deployed on all elements of the culling trial; no particular element is ring-fenced and resources will therefore not specifically be re-directed to proactive culling following the cessation of the reactive culling work.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what adverse effects have been observed in cattle subject to continuous 60-day TB testing; and whether this has been accompanied by a higher rate of *(a)* abortion, *(b)* premature calving and *(c)* early embryonic loss. [158499]

Mr. Bradshaw: No adverse effects have been observed in cattle subjected to 60-day (short-interval) tuberculin testing.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what consultations she has had with *(a)* local authorities and *(b)* their representative bodies on the resource implications arising from the enforcement of the proposed Tuberculosis (England) Order; [158501]

(2) what estimate she has made of the costs to local authorities of enforcing the proposed Tuberculosis (England) Order 2004 in the first five years of its application. [158573]

Mr. Bradshaw: Consideration of the costs to local government will be considered fully in the final Regulatory Impact Assessment for the proposed new Tuberculosis (England) Order 2004.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate she has made of the cost to UK farmers of a levy to fund compensation payments in respect of slaughtered TB reactors. [158572]

Mr. Bradshaw: We have not made such an estimate but as a general principle our proposal is that farmers would pay into a levy fund to meet half of the projected costs associated with disease control, including compensation. However, no decision has been taken on whether the levy would cover endemic diseases such as TB, or indeed what costs would be covered. These issues will be in the consultation document on the levy proposals that we are working on.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 6 January 2004, *Official Report*, columns 247–8W, on bovine TB, whether TB reactors that are negative on culture are considered to have been infected with M.bovis bacilli. [158589]

Mr. Bradshaw: Cattle reacting to the intradermal comparative test are considered to be affected by bovine tuberculosis, regardless of culture results. The main reason for carrying out bacteriological tests in those animals is to identify, for epidemiological purposes, the strain of M. bovis responsible for the infection rather than to validate the skin test results.

There are several reasons why reactors may be negative on culture:

A very small proportion (0.5 per cent. or less according to the veterinary literature) of reactors without visible TB lesions can be caused by bacteria closely related to the M. bovis bacillus.

Cellular immune responses (which give rise to the skin test response) will be evident at earlier stages following infection than the pathological changes caused by the disease (e.g. visible lesions), and probably before bacterial loads are sufficiently large to be found by standard culture methods.

M. bovis is a fastidious organism to grow in the laboratory, so culture methods are less sensitive than the skin test.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs on what basis the Independent Science Group concluded that interference in the Krebs trials had had no discernible impact on the statistical integrity of the trials. [158596]

Mr. Bradshaw: The main technique used by the Independent Scientific Group on Cattle TB (ISG) for monitoring whether badger densities in the trial areas are consistent with the treatments, the 20 per cent. surveys of trial areas, showed that badger activity levels changed in line with the treatment given (proactive, reactive or survey-only). Furthermore, the ISG carried out various statistical analyses on the data from the reactive and survey-only areas of the Randomised Badger Culling Trial. These have shown a consistent effect of reactive culling across trial areas.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs who was in charge of the conduct of the Thornbury trial; and what his or her current position is. [158597]

Mr. Bradshaw: Dr. Harry Thompson was in charge of the conduct of the Thornbury Trial. He is now retired.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what her best estimate is of the number of badgers killed during the Thornbury trial. [158599]

Mr. Bradshaw: It is not possible to give a number. The method of culling, gassing, meant many badgers died underground and could not be recovered.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs how many cattle herds in heavily infected areas have demonstrated resistance to TB infection; and what explanation has been adduced for this phenomenon. [158603]

Mr. Bradshaw: There are many possible reasons why some herds in heavily infected areas remain uninfected. Since 1994, approximately 70 per cent. of herds in current yearly tested parishes have had no confirmed breakdown. The TB99 epidemiological survey is investigating risk factors. The next report of the Independent Scientific Group on Cattle TB will include some results from the analysis of TB99 data from before the foot and mouth disease outbreak and, possibly, more recent (2002) data.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what the badger population of the Isle of Wight is; what its health status is; and whether TB herd breakdowns have been reported on the island in the last five years. [158607]

Mr. Bradshaw: We do not have an estimate for the current badger population on the Isle of Wight; nor do we have information on its health status.

The number of new bovine tuberculosis (TB) breakdowns on the Isle of Wight in the last five years is given in the following table.

	Number of new TB breakdowns
1999	[1]1
2000	0
2001	0
2002	[2]1
2003	[2]1

[1] TB confirmed.

[2] TB not confirmed by post-mortem or culture results.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what the average cost per Krebs area was of the Krebs trials. [158657]

Mr. Bradshaw: It is not possible to give a realistic figure for the average cost of a Randomised Badger Culling Trial (RBCT) area. This is due to a number of factors such as the differences in treatment ascribed to the RBCT areas, the differences in enrolment time of the RBCT areas, and the number and type of culling operations carried out.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what appeal mechanisms are available to applicants for a Section 10 licence under the Protection of Badgers Act 1992 in the event that an application is refused. [158664]

Mr. Bradshaw: In the first instance appeals should be made to the Wildlife Administration Unit of the National Wildlife Management Team (part of the Rural Development Service) who are responsible for issuing licences under this legislation. Each appeal is assessed to determine the basis on which it has been made and is then handled accordingly.

If the appeal relates to the policy of the Department in implementing the legislation, it is passed to the Wildlife Integration and Conservation Team within the European Wildlife Division for a response. If the issues cannot be resolved satisfactorily the appeal is passed to the Head of the European Wildlife Division (Defra, Floor 1 Zone 10/D, Temple Quay House, 2 The Square, Temple Quay, Bristol, BS1 6EB).

If the appeal involves how the applicant or case were dealt with, it would be passed to the Team Manager of the National Wildlife Management Team to investigate and respond (RDS, Burghill Road, Westbury-on-Trym, Bristol, BS10 6NJ). If the issue(s) cannot be resolved the case is forwarded to the Department Impartial Complaint Adjudicator (Defra, Area 7E, 9 Millbank, c/o Nobel House, 17 Smith Square, London, SW1P 3JR). The Adjudicator will determine whether the correct procedures have been followed and if the outcome was appropriate.

This appeal mechanism will be considered as part of the ongoing public consultation into the procedures that the Department adopts in handling applications under the Protection of Badgers Act 1992.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs how many herds have suffered repeat breakdowns since 1997. [158676]

Mr. Bradshaw: Since 1 January 1998, 2,413[1] herds have suffered repeat breakdowns.

[1] Provisional data downloaded from the State Veterinary Service database on 4–5 March 2004. Subject to change as more data becomes available.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs how many staff are employed in tracing cattle from farm movement

books after a new breakdown; how many years back such traces go; and what the success rate is in tracing suspect cattle. [158682]

Mr. Bradshaw: The number of staff involved in each tracing will depend on how many movements there have been associated with a TB breakdown. In most cases, a new TB breakdown is allocated to a case Veterinary Officer, who is responsible for prioritising and initiating tracings from the herd. In addition, there is at least one person in each Animal Health Divisional Office who is recognised as having a specialist interest and ability in dealing with tracing work.

The start point for tracings is usually the last clear test. How many years back traces go will depend on the testing history of the traced herds.

It is not possible to give a figure regarding the rate of success in tracing cattle except at disproportionate cost.

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what measures her Department is taking to combat bovine TB. [162030]

Mr. Bradshaw: The Government have a five-point strategy for dealing with bovine TB, based on the recommendations of the Krebs report 1997:

Protecting human health

Testing cattle for TB and putting controls in place

Developing a TB vaccine

Carrying out research into how bovine TB is spread

Carrying out a badger culling trial.

On 9 February, the Government launched a consultation on proposals for short term cattle-based measures to prevent the further geographical spread of bovine TB. The consultation also seeks views on the key principles on which a new long-term strategy for tackling bovine TB will be developed. The consultation period ends on 4 May 2004.

Feline TB

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what requirement there is on veterinary investigation centres to examine the carcases of domestic cats for the presence of TB when submitted by private veterinary surgeons. [158334]

Mr. Bradshaw: Carcases of any domestic cats submitted to VLA Regional Laboratories are examined for TB as part of the standard post-mortem protocols. If TB is suspected by the submitting veterinarian or if characteristic lesions of TB are found in the course of the post-mortem examination at VLA, appropriate samples will be taken for histological and bacteriological tests to confirm the presence of "Mycobacterium bovis". Confirmatory TB tests are carried out free of charge to the submitting veterinarian.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to make TB in domestic cats a notifiable disease. [158341]

Mr. Bradshaw: As set out in the consultation document launched by the Department last 9 February, we are proposing an amendment to the Tuberculosis (England and Wales) Order 1984, which will make the isolation of "M. bovis" notifiable in any mammal other than humans.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs whether charges are imposed on private veterinary surgeons who submit the carcases of domestic cats to veterinary investigation centres for post mortem examination for the presence of TB. [158626]

Mr. Bradshaw: Carcases of any domestic cats submitted to VLA Regional Laboratories are examined for TB as part of the standard post-mortem protocols. If TB is suspected by the submitting veterinarian or if characteristic lesions of TB are found in the course of the post mortem examination at VLA, appropriate samples will be taken for histological and bacteriological tests to confirm the presence of "Mycobacterium bovis".

Confirmatory TB tests are carried out free of charge to the submitting veterinarian.

Fisheries

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what the scientific justification was for the reduction in the 2004 haddock total allowable catch allocation for the Rockall Haddock fishery. [161993]

Mr. Bradshaw: The scientific advice was for catches of Rockall haddock in 2004 to be reduced to the lowest possible level. The full advice is available in the autumn 2003 report of the Advisory Committee on Fisheries Management (ACFM), which may be found on the website of the International Council for the Exploration of the Seas (ICES) at www.ices.dk.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what the current condition is of the West of Scotland Nephrops stock. [161994]

Mr. Bradshaw: The ICES advice from October 2003 was that West of Scotland stocks of Nephrops are exploited at sustainable levels. Advice for the Nephrops stocks alone was that a TAG of 11,300 tonnes was appropriate, and the TAG for 2004 was set at that figure.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs (1) whether survey findings reliant on data obtained using the Granton trawl are comparable with findings reliant on data obtained using the GOV trawl; [161995]

(2) what the differences are in the characteristics between the GOV and Granton trawls in terms of their respective ability to catch cod; [161996]

(3) when the Granton trawl used by UK survey vessels in the North sea was replaced by the GOV trawl; [161997]

(4) pursuant to her answer of 10 February 2004, *Official Report*, column 1300W, on fisheries, whether the GOV trawl used by North sea survey vessels is optimised for the catching of cod. [162024]

Mr. Bradshaw: The autumn North sea fisheries survey undertaken by CEFAS changed to the GOV (Grande Ouverture Verticale) trawl from 1992. The survey gear predominantly targets roundfish but also samples a wide range of other commercial fish. Consequently the gear is not designed to target only cod. Nevertheless, the GOV trawl is more efficient at catching cod than the Granton trawl it replaced. Both gears show a very truncated age distribution, with few mature cod. Before the change to the GOV gear the cod stock had seriously declined, and in the early 1990s the advice from ICES was that strong measures were needed to protect the cod, including direct reductions in fishing effort. Results from the two gears, albeit at different times, are comparable.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what her estimate is of the proportion of North Sea fish stocks which have gravitated to oil and gas rig exclusion areas and are not accessible to commercial fisherman; [161998]

(2) what account is taken of the gravitation of commercial fish species to oil and gas pipelines and rigs in the conduct of abundance surveys. [162031]

Mr. Bradshaw: This is not a well researched area but one North Sea study concluded that an oil platform had attracted cod and saithe, leaving a zone around the platform where fish density was lower. Even so, the total quantity was negligible compared to regional or even local fish stocks. On this limited basis it does not appear that the aggregation of cod and saithe by platforms is likely to have a significant effect on the availability of fish.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs to what extent the previous year's landing of any specific fish species influences the setting of total allowable catches. [161999]

Mr. Bradshaw: Data on landings of commercial fish species are one important source of information for international assessments of such species. These assessments provide the basis for scientific advice on total allowable catches.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what adjustments are made to landing figures of fish species to account for *(a)* discards and *(b)* under-reporting in order to estimate the true levels of fishing mortality; and whether those adjustments have been constant in recent years. [162000]

Mr. Bradshaw: Data on discards are included in only some annual assessments where sampling is such as to provide an adequate estimate of the discards. Scientists at ICES use the best information at their disposal in the stock assessments, and this may include information on under-reporting or misreporting. The magnitude will depend upon the circumstances of any one year.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what corrections are applied to bottom trawl survey catch figures to adjust for the catchability limitations of the gear used. [162001]

Mr. Bradshaw: The current assessment techniques use catch-rates of commercial and research fleets. Each survey is used independently, and hence no corrections are necessary.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what the implications of Council Regulation (EC) No 1954/2003 of 4 November 2003, on the management of the fishing effort relating to certain community fishing areas, are for UK fishermen. [162002]

Mr. Bradshaw: Council Regulation 1954/2003 introduces a new fishing effort management regime for Western Waters in place of that contained in Council Regulation 685/95. It extends the scope of the regime from vessels over 18 metres overall length to vessels over 15 metres overall length but no longer applies to vessels fishing for deep-water species which are now subject to separate management arrangements. The hailing in and out arrangements contained in the previous regime have been removed except in a newly created biologically sensitive area off the south-west coast of Ireland. The Council will agree new effort ceilings for Member States later this year. The new arrangements do not affect the ability of UK registered vessels over 15 metres to fish in western waters. Fisheries Departments will monitor overall fishing effort against the ceilings set by Council. Where an effort ceiling is in danger of being breached licences will be varied to prohibit fishing in the relevant area. No such licence variations have proved necessary since the previous regime was introduced in 1995.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to her answer of 9 February 2004, *Official Report*, column 1148W, on fish stocks, what assessment she has made of the accuracy of scientific assessments of the levels of fish stocks. [162019]

Mr. Bradshaw: I refer the hon. Member to the answer I gave him on 23 February 2004, *Official Report*, column 136W.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to her answer of 9 February 2004, *Official Report*, column 1148W, on fish stocks, what scientific investigations have been carried out to determine the migration patterns of North Sea cod. [162021]

Mr. Bradshaw: There has been extensive tagging of cod to determine their migration and movements. These data form the basis for the current assessment and management areas for cod.

Since 1999, CEFAS has released cod tagged with electronic tags that allow more detailed information to be derived. The work has recently been expanded under a joint Defra/EU funded program (CODYSSEY) that is investigating movements and behaviour of cod over a wide part of the NE Atlantic including the North Sea. The technology is also being used in a current R&D programme which will help to show how cod respond to variations in food supply.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs (1) pursuant to her answer of 10 February 2004, *Official Report*,

column 1300W, on fisheries, what assessment she has made of the reason for the reduced cod recruitment in the North Sea since the 1980s; [162023]

(2) pursuant to her answer of 23 February 2004, *Official Report*, column 134W, on fisheries, what investigations she has carried out to determine the effect of environmental change and species interactions because of increased water temperature in the North Sea. [162025]

Mr. Bradshaw: Two key factors are affecting recruitment of cod. First, the size of the cod stock itself, as fewer adult cod give fewer young. Secondly, the environment, through the planktonic food chain, affects the survival from eggs to "recruits". Sea temperature is often used as an index of such environmental changes. Defra are funding research into the links between the environment and recruitment, as illustrated in the recently publicised article in Nature. However, it is the first we have to manage. ICES advice is that if the environment is also causing reduced recruitments then managers have to be even more cautious.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to her answer of 23 February 2004, *Official Report*, column 135W, on fisheries, on what evidence scientists have based their advice that over the last 20 years the fishing rate on cod has been five times that required to promote optimal use of the cod stock. [162026]

Mr. Bradshaw: ICES assessments show that recent fishing rates on cod have been about 60 per cent. per annum ("F of 1.0"). This is over three times the rate needed to achieve the maximum sustainable yield per recruit (MSY) ($F = 0.3$) and five times that needed to achieve the bioeconomic optimum F0.1 ($F_{0.1} = 0.2$).

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to her answer of 12 January 2004, *Official Report*, column 496W, on fisheries, in what direction in the vertical plane cod seek to escape towed trawl nets; and what the equivalent behaviour is of haddock. [162035]

Mr. Bradshaw: I refer the hon. Member to the answer I gave him on 9 February 2004, *Official Report*, column 1152W.

Flood Defences

Mrs. May: To ask the Secretary of State for Environment, Food and Rural Affairs what changes have been made to the criteria used by the Environment Agency to determine priorities for investment in flood defences in each of the last five years; and on what basis these changes were made. [154914]

Margaret Beckett: For grant-aided capital investment the Environment Agency uses Defra's priority scoring system, which applies to all flood and coastal defence operating authorities. The system was introduced on a pilot basis in 1997 and, following a review and wide ranging consultation, a revised system was announced in 2002 to come into effect in April 2003. The revised system ranks projects on three components in a ratio of 20:12:12 respectively: benefit:cost ratio, the number of people to be protected (as measured by number of residences over cost) and environmental assets protected. In order to be approved for grant aid from Defra proposals must meet a minimum threshold score, which is reviewed annually.

For investment in other flood management expenditure the Agency issued guidance to Regional Flood Defence Committees (RFDCs) on priorities in 1998. From 1 April 2004 Grant in Aid from Defra will replace levies on local authorities for financing the bulk of RFDC expenditure and this gives the Agency a greater direct role in deciding on priorities and distribution between regions. For 2004–05, allocations reflected the assumptions made in regional business plans for the previous levy-setting round. The Agency is now working with Defra on a more robust prioritisation system for the allocation of Grant in Aid based on new performance measures in relation to flood risk reduction, for application from 2006–07. In the meantime the Agency will be expected to meet the targets published in their 2004 Corporate Plan.

Livestock

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the effect of the slaughter-only market on *(a)* farms and *(b)* auction marts; and if she will alter her Department's ruling so that livestock may return to farm of origin with the proviso that it triggers a 20 day standstill on that farm. [162470]

Mr. Bradshaw: It is for market operators to take a commercial decision as to whether they choose to operate as a dedicated slaughter market. These markets can be beneficial to auction markets because of the revenue received from livestock originating from farms that are under a movement standstill.

Dedicated slaughter markets can also be beneficial to livestock farmers because they are able to take animals there whilst their farm is under a movement standstill.

The standstill arrangements are based on a scientific Cost Benefit Analysis of the disease risks associated with various standstill lengths. I do not propose to amend the standstill regime, which represents the best available balance between minimising disease risk and the needs of the farming community to trade livestock.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the welfare implications for suckler herds of the proposed pre-movement testing regime, with particular reference to the sufficiency of grazing to support animals retained on farm as a result of movement restrictions. [158602]

Mr. Bradshaw: None. Any welfare implications of this proposal will be estimated as part of the consultation process, which will involve discussions with veterinary and farming interests.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what her best estimate is of the number of cattle movements made annually in the United Kingdom to which pre- and post-movement testing will apply. [158628]

Mr. Bradshaw: The Cattle Tracing System in 2002 recorded approximately 2.8 million cattle movements in GB to which pre and post movement testing could apply dependent upon the option and area selected.

Pig Industry

Mr. Nicholas Brown: To ask the Secretary of State for Environment, Food and Rural Affairs if she will break down by *(a)* year and *(b)* scheme how the £66 million allocated to the pig industry restructuring scheme was spent; and if she will list unspent funds. [155593]

Alun Michael: The £66 million provisionally allocated to the Pig Industry Restructuring Scheme was spent as follows:

(a) £15.7 million in Financial Year 2001–02 and £10.9 million in each Financial Year 2002–03 and 2003–04.

(b) £21.8 million for the Ongoers scheme and £15.7 million for the Outgoers scheme.

Of the remainder, £22 million was used to fund measures related to the classical swine fever (CSF) outbreak in East Anglia, £3.9 million was 'loaned' to the Meat and Livestock Commission to fund the industry's top-up payment to the Government's CSF-related Pig Welfare (Disposal) Scheme, and £2.6 million was re-allocated to a post-FMD recovery scheme.

Not all claims have been submitted and met as yet but funds have been fully allocated.

Project Funding

Mr. Colman: To ask the Secretary of State for Environment, Food and Rural Affairs (1) how many *(a)* solely state-financed and *(b)* public-private partnership and private finance initiative projects for which her Department is responsible have been launched in each region in each of the last 10 years; [160963]

(2) how much was spent by *(a)* the Government on solely state-financed projects and *(b)* the (i) Government and (ii) private sector on public-private and private finance initiative projects for which her Department is responsible, in each of the last 10 years, broken down by region. [160964]

Alun Michael: Details on the Department's Private Finance Initiatives are in the Signed Project List on the Treasury Website http://www.hm-treasury.gov.uk/documents/public private partnerships/ppp pfi stats. cfm. The remainder of the information requested could be provided only at disproportionate cost.

Severely Disadvantaged Areas

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what alternative land uses she has considered for land vacated in severely disadvantaged areas resulting from lower payment made to livestock producers in those areas. [161539]

Alun Michael: Recipients of the single farm payment will be required to respect the cross compliance conditions. These will include a requirement to maintain land in good agricultural and environmental condition. Subject to these requirements, it will be for individual farmers to decide how best to organise their businesses.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what her assessment is of the impact on wildlife in severely disadvantaged areas of the payment regime in those areas. [161540]

Alun Michael: Defra will publish shortly an analysis of the economic impact on the English farming industry of the decoupling of CAP direct payment and the decision to allocate entitlement on the basis set out in the statement of my right hon. Friend the Secretary of State to the House on 12 February. Defra will monitor future changes in farming practices, markets and the environment.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she has had with farmers' representatives on the single farm payment to livestock farmers in severely disadvantaged areas. [161541]

Alun Michael: My right hon. Friend the Secretary of State made her decision on the basis for allocating entitlements to the single farm payment in England in the best interests of the farming industry as well as the wider public interest. Ministers and officials have had frequent meetings with representatives of farming organisations, before and since the announcement on 12 February, including with organisations with members in the Severely Disadvantaged Areas.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what estimate she has made of the number of livestock farmers in severely disadvantaged areas who will cease farming over the next 10 years; [161542]

(2) what assessment she has made of the effects on livestock farmers in severely disadvantaged areas of competition with livestock farmers in receipt of different levels of payments under the single farm payment scheme; [161543]

(3) what her assessment is of the effect on farmers' incomes in severely disadvantaged areas of differentials in single farm payments between producers in these areas and other livestock producers in the rest of England. [161536]

Alun Michael: Defra will publish shortly an analysis of the economic impact on the English farming industry of the decoupling of CAP direct payment and the decision to allocate entitlement on the basis set out in the statement of my right hon. Friend the Secretary of State to the House on 12 February 2004.

Single Farm Payments

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs (1) pursuant to her oral answer of 11 March 2004, *Official Report*, column 1640, on single farm payments, what the nature of Mr. Dring's memorandum was; for what purpose it was written; for what purpose it was submitted to the Ministry of Agriculture, Fisheries and Food; and whether the memorandum was requested by senior officials in MAFF; [162111]

(2) pursuant to her oral answer of 11 March 2004, *Official Report*, column 1640, on single farm payments, when the memorandum from Mr. Dring was *(a)* written and *(b)* received by the Ministry of Agriculture, Fisheries and Food; what discussions were held between Mr. Dring and his senior managers in MAFF following receipt of the memorandum; and what assessment was made of the memorandum by legal officials in MAFF; [162112]

(3) pursuant to her oral answer of 11March 2004, *Official Report*, column 1640, on single farm payments, who in the Ministry of Agriculture, Fisheries and Food made the decision not to submit Mr. Dring's memorandum to Dr Iain Anderson's inquiry into the foot and mouth outbreak. [162113]

Mr. Bradshaw: Mr. Dring wrote a personal statement during the summer of 2001 on his own initiative to document events in the light of the prospect of a court case against Robert Waugh and because he believed the information might be of help to any inquiry after the outbreak. It was not a formal report. He sought advice from his senior manager on 29 October 2001 who discussed the handling of the statement with the Department's Inquiry Liaison Unit. The statement was passed to them on 13 December 2001. The Inquiry Liaison Unit was responsible for passing to the Inquiry teams information on behalf of the Department. Individual officers retained the right to submit personal submissions, but Mr. Dring did not make a submission to the Anderson Inquiry. His personal statement is now in the Library of the House.

Small Business Support

Brian Cotter: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list the support programmes for small businesses that *(a)* her Department and *(b)* its agencies have financed, including Common Agricultural Policy payments in each of the last five years; how much money was allocated for each scheme in each year; how much money has gone unclaimed under each scheme; and how many small businesses have benefited from each scheme. [161255]

Alun Michael: Information is available in the form requested only at disproportionate cost, but I hope the following will be helpful.

The Cross-Cutting Review of Government Services for Small Business, published by the Small Business Service in December 2002, recorded that Defra and its agencies provided support to small businesses through over 120 schemes offering:

Grants (including EU production subsidies to agriculture)

Advice

In-kind support

The review estimated a total cost for these schemes of £3,120 million per year, the majority of which comprised production subsidies paid out under Pillar 1 of the Common Agricultural Policy. Some information about the range of schemes provided can be found in the Departmental Estimates for the year ending 31 March 2003, which are available in the Libraries of the House.

Although the 2002 review did not record how many businesses had benefited from the schemes operated, it recorded that Defra has significant contact with approximately 200,000 small and medium sized enterprises a year.

A review of rural funding schemes was announced by my right hon. Friend the Secretary of State on 11 November 2003, and is now in progress.

PRIME MINISTER

Credit Card Debt

Q9. **John Mann:** To ask the Prime Minister what assessment he has made of the level of credit card debt. [163186]

The Deputy Prime Minister: I have been asked to reply.

Last year, the Department for Trade and Industry published a White Paper on consumer credit that looked at credit card debt in the UK, suggested ways of tackling unmanageable levels of debt and offered advice to consumers looking for credit. The Government are working with the credit industry to ensure responsible lending and to increase access to free debt advice. I am also aware that the Bank of England publishes monthly statistics on credit card debt.

TRANSPORT

Car Usage

Mr. Sheerman: To ask the Secretary of State for Transport whether he has set targets for reducing car usage over the next 20 years. [162040]

Mr. Jamieson: The Government have not set targets for car usage. The Government's strategy is to reduce congestion and to reduce the environmental effects through investment in public transport, better traffic management and support for cleaner motoring.

Hazardous Substances (Carriage at Sea)

Norman Baker: To ask the Secretary of State for Transport pursuant to his answer of 15 January 2004, *Official Report*, column 40W, on ships (dangerous cargoes), how many incidents resulted in *(a)* court actions and *(b)* fines; and what the (i) nature of the conviction and (ii) financial penalty was in each case. [162971]

Mr. Jamieson: None of the incidents referred to in 2001 and 2002 resulted in court actions. In all of these cases it was either not possible to ascertain which vessels had lost the dangerous cargoes, or the spill occurred within harbour limits. In the latter case, it would be for the appropriate harbour authority to take forward court action.

Speed Cameras

Mr. Burns: To ask the Secretary of State for Transport if he will publish the accident records for each speed camera site in Essex. [156315]

Mr. Jamieson: Safety cameras in Essex are operated by the Essex Safety Camera Partnership. My Department will shortly publish collision and casualty information for all Safety Camera Partnerships in England and Wales.

TREASURY

Civil Service Jobs

Mr. Byers: To ask the Chancellor of the Exchequer what steps he is taking to ensure that there is a co-ordinated approach across Government Departments to *(a)* the reduction in civil service jobs (i) announced in the Budget Statement and (ii) that may follow from the Gershon Review and *(b)* the proposals to relocate employment of civil servants contained in the Lyons report; and if he will make a statement. [163266]

Mr. Boateng *[holding answer 23 March 2004]:* Sir Peter Gershon will be working with Departments to help them prepare efficiency submissions as part of their overall spending plans to the 2004 Spending Review. These proposals will take account of departments' relocation plans submitted to the Lyons Review. Departments will be expected to integrate their plans on efficiency and relocation.

Accounting Officers

Norman Baker: To ask the Chancellor of the Exchequer if he will make a statement on *(a)* the circumstances in which an accounting officer should seek a direction from a Minister before authorising expenditure, *(b)* the number of occasions since 6 June 2001 that such directions have been sought by accounting officers and *(c)* the Department and sum involved and the purpose of the expenditure for which a direction was sought in each case. [162894]

Ruth Kelly: The circumstances in which an accounting officer should seek a direction from a Minister before authorising expenditure are set out in paragraphs 15–18 of the Treasury document, "The Responsibilities of an Accounting Officer", as updated in March 2004. This document is published as annex 4.1 of the Treasury guidance, "Government Accounting". It may be viewed online at www.government-accounting.gov.uk.

The number of occasions since 6 June 2001 when such directions have been sought by accounting officers is four. The Departments concerned, together with general subject matter of each direction, were detailed in the answer I gave to the hon. Member for Twickenham (Dr. Cable) on 30 October 2003, *Official Report*, column 311W; the answer given by the Economic Secretary on 23 June 2003, *Official Report*, column 617W; the answer given by the Chief Secretary on 10 June 2002, *Official Report*, column 1037W; and in the answer given by his predecessor on 8 May 2002, *Official Report*, column 253W, relating to the direction issued in the then Department for Transport, Local Government and the Regions in 2002 and not, as stated in column 253W, in 2001.

The Treasury is advised when a ministerial direction is issued, but comprehensive information on the sums involved and the purpose of the expenditure related to the direction is not provided to the Treasury by Departments.

Age-Related Allowances

Mr. Todd: To ask the Chancellor of the Exchequer if he will *(a)* raise the figure below which pensioners may retain the full benefit of age-related allowances and *(b)* reduce the effect of the taper above that figure. [163342]

Ruth Kelly: The purpose of the age-related allowances is to give extra help to those aged 65 and over who have to rely on relatively modest incomes. They are therefore subject to an income limit, which is reviewed as part of the Budget process. The Government have no plans to alter the rate of the taper where income exceeds the limit.

Age-related personal allowances will increase in line with earnings rather than prices in April 2004 and will continue to do so for the remainder of this Parliament.

Financial Services

Mr. Gardiner: To ask the Chancellor of the Exchequer what assessments his Department has made of the costs to the economy as a whole caused by poor consumer understanding of the *(a)* financial services and *(b)* consumer credit industries. [163360]

Ruth Kelly: Poor consumer understanding of financial services can arise through imperfect information and low levels of financial literacy.

The Financial Services Authority, as part of its statutory objective to promote public understanding of the financial system, has published research (Occasional Paper 19) looking at how much a typical consumer would lose depending on their lifestage, reflecting the financial products held. For a typical young family this would equate to £268 per annum. No aggregate figure for financial services is available.

The White Paper "Fair, Clear and Competitive: The Consumer Credit Market in the 21st Century" (Cm 6040) estimates that informational problems associated with unsecured lending in the credit market give rise to complaints of consumer detriment approaching £40 million per annum. The White Paper estimates that increasing the transparency of agreements could save consumers a total of £381 million per annum as consumers are better able to shop around for the best deals.

Raising standards of financial literacy is an important part of the Government's wider strategy to reduce social and financial exclusion, and promote appropriate participation in the financial services industry, while tackling over-indebtedness, and promote saving.

Mr. Gardiner: To ask the Chancellor of the Exchequer if he will commission research to assess consumers' understanding of the different regulatory systems for equity release and home reversion schemes once the new Financial Services Authority's regulation comes into force. [163380]

Ruth Kelly: Sales of mortgage-based equity release schemes, also known as lifetime mortgages, will be regulated by the Financial Services Authority as from 31 October 2004. The Government are considering responses to the consultation on whether home reversion equity release schemes should also be regulated by the FSA. An announcement will be made in due course. The Government therefore have no plans to commission

research to assess consumers' understanding of the different regulatory systems once the new FSA regulation comes into force.

Disposable Incomes

Simon Hughes: To ask the Chancellor of the Exchequer what the level of real personal disposable income was in Greater London in each year since 1980; and what the percentage change was in each year compared with the previous year. [163062]

Ruth Kelly *[holding answer 22 March 2004]:* The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

Letter from Len Cook to Simon Hughes, dated 24 March 2004:

As National Statistician I have been asked to reply to your recent question on real disposable personal income in Greater London since 1980. (163062)

The Office for National Statistics (ONS) does not compile estimates of regional real disposable income. We do, however, publish estimates of regional gross disposable household income (GDHI) at current prices, as described under the European System of Accounts 1995 (ESA95). Estimates covering the period 1995 to 1999 were published on 26 March 2002 and data for the UK as a whole and for the London region are presented in the table below.

Total gross disposable household income[1] (GDHI) UK and London region, 1995–1999

	UK		London Region	
Year	GDHI	Annual Change	GDHI	Annual Change
1995	754,140		109,563	
1996	796,674	5.7	116,859	6.7
1997	843,244	5.9	126,154	8.0
1998	893,466	6.0	136,966	8.6
1999	930,887	4.2	143,088	4.5

[1] Consistent with the 2001 National Accounts Blue Book
[2] Excludes GDHI from the "extra regio" category which covers the contribution to GDHI from UK embassy staff and forces personnel stationed overseas
Previous estimates for regional GDHI covering the period 1989–1999 were published in July 2001. They data are not consistent with those shown above, owing to revisions to methods and to input data. However, these earlier estimates are available on the ONS website at:
http://www.statistics.gov.uk/cci/article.asp?ID=123&Pos=5&ColRank=1&Rank=160

Office for National Statistics

European Council of Finance Ministers

Mr. Hood: To ask the Chancellor of the Exchequer what the outcome was of the ECOFIN Council held on 9 March; what the Government's stance was on the issues discussed, including its voting record; and if he will make a statement. [161441]

Mr. Gordon Brown: I was unable to attend ECOFIN on 9 March. The UK was represented by John Grant, (the UK permanent representative to the EU) and Jon Cunliffe, (Managing director of Macro Economic Policy and International Finance Directorate, HM Treasury).

At the breakfast discussion, the Presidency invited Ministers to comment on a draft programme of future work, prepared by the Economic Policy Committee (EPC), to take forward the four Presidency initiatives on regulatory reform. Ministers reached a common understanding on the need for a work programme along the lines of the EPC paper, and that this should be reflected in the Key issues paper and the Spring Council Conclusions.

ECOFIN adopted a Key Issues Paper for the Spring European Council.

The Commission gave an assessment of national contributions to the Growth Initiative to date and Council conclusions were adopted.

The Council examined the stability programmes for Belgium, Spain, Germany and Portugal and Council Opinions were agreed.

ECOFIN gave its approval for the Commission to conclude a monetary agreement with Andorra.

On the Savings Tax Directive, the UK updated the Council on progress with the UK dependent and associated territories. All eight have now made commitments to apply the same measures as member states. The Netherlands reported good progress on their model agreement for the Antilles and Aruba. The Commission updated on progress with Switzerland and the micro-states. The Council reiterated its full determination to come to a satisfactory and timely conclusion of the negotiations with negotiating partners.

On VAT Reduced Rates, the Presidency outlined its intention to consider the matter further at working group level in preparation for discussion at a later ECOFIN.

The Council agreed its Recommendation that the Commission should be granted discharge for its management of the 2002 budget. The UK joined the Netherlands and Denmark in expressing regret at the ninth successive negative Declaration of Assurance (DAS); in calling on the Commission to speed up its financial improvements; and in calling for ECOFIN auditors in member states and EU institutions to work more closely to improve external controls.

The Council agreed a set of conclusions on the budget guidelines for 2005, which are consistent with the principles of budget discipline and UK policy on the community budget.

EU Budget

Mr. Spring: To ask the Chancellor of the Exchequer how much the EU budget will be in 2004–05; what *(a)* proportion and *(b)* sums will be spent on (i) the Common Agricultural Policy, (ii) the Common Fisheries Policy, (iii) structural operations and (iv) overseas aid; and what estimate he has made of expenditure in each category for the remainder of the current multi-annual financial framework. [161462]

Ruth Kelly: I refer the hon. Member to the following documents:

General budget of the European Union for the financial year 2004 (Document reference: Official Journal L 53 of 23 February 2004)

Preliminary Draft Amending Budget number 1 to the budget for 2004 (Document reference: SEC 2004 105)—page 9

Annual Policy Strategy for 2005—pages 18–19 (Document reference: COM 2004 1333)

Technical adjustment of the financial perspectives for 2005 in line with movements in GNI and prices—page 6 (Document reference: COM 2003 785)

All these documents are available from the public website of the European Commission http://europa.eu.int/comm. The Preliminary Draft Amending Budget number 1 to the budget for 2004, the Annual Policy Strategy for 2005, and the Technical adjustment of the financial perspectives for 2005 have been deposited in the House.

Kenneth Norden

Bob Spink: To ask the Chancellor of the Exchequer if he will meet Mr.Kenneth Norden to discuss the loss of his final salary pension scheme. [163593]

Ruth Kelly: If the hon. Gentleman or his constituent would kindly write to me with full details of the issue that is of concern to him, I will look into it.

Ovarian Hyper Stimulation Syndrome

Mr. Amess: To ask the Chancellor of the Exchequer how many deaths from ovarian hyper stimulation syndrome have been reported since 1991. [163165]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

Letter from Len Cook to Mr. David Amess, dated 24 March 2004:

As National Statistician I have been asked to reply to your recent question asking how many deaths from ovarian hyper stimulation syndrome have been reported since 1991. (163165)

The Office for National Statistics has recorded two deaths registered in England and Wales which include a mention of ovarian hyper-stimulation syndrome between 1991 and 2002, the latest year for which death registration figures are available.

Pre-Budget Report

Mr. Lansley: To ask the Chancellor of the Exchequer what the cost was of the *(a)* preparation and *(b)* distribution of the "What the Pre-Budget Report Means For" series of documents specific to each English region. [162816]

Ruth Kelly: The total cost of the preparation and distribution of the regional 2003 Pre-Budget Report leaflets was £2,100. This covered the production of 1,500 leaflets for each of the nine Government Office English regions, as well as for Scotland, Wales and Northern Ireland. The total cost included distribution of the leaflets to the Government Offices and the Devolved Administrations.

Same-sex Couples

Mr. Leigh: To ask the Chancellor of the Exchequer how many same-sex couple households there are in England and Wales according to the 2001 Census; and how many same-sex couple households there are in Great Britain according to the Labour Force Survey. [163070]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

Letter from Len Cook to Mr. Edward Leigh, dated 24 March 2004:

As National Statistician and Registrar General for England and Wales I have been asked to reply to your recent question asking how many same-sex couple households there are in England and Wales according to the 2001 Census; and how many same-sex couple households there are in Great Britain according to the Labour Force Survey. (163070)

The 2001 Census defines a same-sex couple as two people of the same sex, both resident in the same household, who report themselves as partners on the Census form. Figures published in table UV93 in the 2001 Census National Report for England and Wales Part 2 on the number of people with same-sex partners indicate that there were 39,261 co-residential same-sex couples in England and Wales identified by the 2001 Census. However, same-sex couples can only be identified if they choose to declare themselves as partners on the Census form. Thus the count of co-residential same-sex couples would be an underestimate of the true number. It is not known to what extent there was an undercount because, for example, same-sex couples may have ticked some other box in the relationship field such as 'Unrelated'. Furthermore, a household may contain more than one couple and there is no exact count of the number of same-sex households from the 2001 Census.

The Labour Force Survey (LFS) gives information about same-sex couple households for each three-month period. It collects information on residents in private households. Questions are designed to establish whether each resident is cohabiting or not, and, if so, with which other household member. However, same-sex partnership can only be distinguished if the respondent volunteers the fact; it is not asked. In the LFS, a same-sex couple is defined as two respondents who are living together as a couple in the household and who are the same sex.

In the three-month period ending November 2003, 50,887 same-sex couple households in Great Britain were identified on this basis. The LFS is a sample survey covering over 57,000 households in the United Kingdom in each three-month period. As with any statistical sample survey, estimates from the Labour Force Survey are subject to sampling error.

It is not possible to derive an estimate of the number of co-residential same-sex couples in Scotland by taking the difference of the two estimates provided in this answer, since data were provided at different times and in different contexts, and each figure is subject to estimation error.

There will be a more comprehensive analysis of how to interpret information on same sex couples later this year.

Science Strategy

Dr. Iddon: To ask the Chancellor of the Exchequer what steps he has taken to enhance science in his Department since the publication of the Government's science strategy, Investing in Innovation. [162246]

Ruth Kelly: HM Treasury works with the Office of Science and Technology, the DTI and the DfES on the implementation of the Government's science strategy, Investing in Innovation. HM Treasury's own direct expenditure on science and research is relatively small and is limited to economic advice, analysis and statistics: for example, during 2002–03, around £250,000 was spent on some 15 projects funded from the Macroeconomic Research Budget.

A 10-year investment framework for science and innovation, on which a consultation document was published recently[1], will be published alongside the 2004 spending review. This is also a joint project between HM Treasury, the Office of Science and Technology, the DTI and the DfES, and will look at a number of areas of Government policy in relation to science and innovation, including ensuring that Government Departments

remain well placed to exploit the opportunities that science and research have to offer. In particular, it will build on the 2002 Cross-Cutting Review of Science and Research, which fed into Investing in Innovation and set out recommendations to improve the management of Government Departments' research strategies and budgets.

[1] Science and innovation: working towards a ten-year investment framework, HMT, DfES & DTI, 16 March 2004.

Stamp Duty

Mr. Flight: To ask the Chancellor of the Exchequer what forecast he has made of the tax take for stamp duty on residential property for each band at which it is charged for 2004–05; and how much was raised in this way in each tax year since 1997–98. [163597]

Ruth Kelly: Estimates of receipts from stamp duty on residential property at each of the tax bands, from 1997–98 to 2002–03, are given at http://www.inlandrevenue.gov.uk/stats/stamp duty703IR153.pdf. Estimates of receipts at each tax band for 2003–04, and projections for 2004–05, are not available.

Strip Stamps

Mr. David Stewart: To ask the Chancellor of the Exchequer how many representations he has received in support of his proposal to introduce strip stamps. [161484]

John Healey: Since the Chancellor's announcement in the Pre-Budget Report that the Government were considering introducing tax stamps for spirits, Treasury Ministers and Officials have received a wide range of representations on this and on the spirits industry's alternative package of measures. Those representations acknowledge that spirits fraud is a serious problem and needs to be addressed but differ in their views on how to tackle this effectively. The main concerns highlighted related to the impact and compliance costs of tax stamps. In making his decision that tax stamps are necessary to tackle spirits fraud, the Chancellor took account of concerns raised and announced on Budget Day that he will help the trade financially with the cash-flow costs and capital investment associated with the introduction of tax stamps. He also announced that there would be a further freeze on spirits duty—for the seventh Budget in a row and, indeed, that spirits duty will be frozen for the remainder of this Parliament.

Officials are working with the industry to consider how the offsetting measures can be effectively targeted and applied and to develop the detailed arrangements for tax stamps in a way that minimises additional burdens on business and causes minimal disruption to the trade's operations.

Mr. David Stewart: To ask the Chancellor of the Exchequer what assessment he has made of options for the elimination of spirits duty evasion other than the introduction of strip stamps. [161485]

John Healey: This Government have given exhaustive consideration over recent years, in close consultation with the alcohol industry, to finding ways to tackle the serious problem of spirits duty fraud.

HM Customs and Excise held a formal consultation on tax stamps in late 2001 and early 2002. They conducted a further formal consultation in the summer of 2003 on regulatory options for reducing opportunities for fraud in the alcohol holding and movement system.

Partly as a result of those earlier discussions, a number of measures have already been put in place or are planned to tackle spirits fraud. These include the creation of a Joint Spirits Fraud Task Force in 2002 and the development of draft Memoranda of Understanding between Customs and key spirits trade associations. Customs have also strengthened their operational response to fraud, including the creation of a National Discreditation Team to detect illicit loads which were destined to be diverted after arrival in the UK.

Despite these ongoing efforts, Customs' estimates, published alongside the Pre-Budget Report in December 2003, showed that around £600 million of revenue was lost through spirits fraud in 2001–2002. The Government therefore announced that tax stamps for spirits would be introduced from 2006 unless the industry put forward alternative measures that would be as effective as tax stamps in combating fraud.

There has been a further intensive period of discussions with the industry since December on all aspects of tax stamps and alternative options. The industry put forward an alternative package of 17 proposals. However, as announced in the Budget, the Government's assessment is that the anti-fraud impact of the alternative package falls significantly short of that estimated for tax stamps. The package contains inherent weaknesses: it leaves the door open for displacement to other types of fraud, most notably inward diversion; it stands to be undermined by a complicit party; and unlike tax stamps it does not tackle the problem of identification—the ability for consumers, retailers and Customs officers to distinguish readily between licit and illicit products.

A full assessment of the industry's package of alternative proposals to tax stamps will form part of a Regulatory Impact Assessment, to be published alongside this year's Finance Bill.

Mr. David Stewart: To ask the Chancellor of the Exchequer what research he has conducted on fraudulent production of strip stamps in other countries; and what security measures he proposes to guard against the fraudulent production of strip stamps in the UK. [161486]

John Healey: Officials from HM Customs and Excise have contacted forty countries which operate tax stamps to discuss their regimes and experience of fraudulent strip stamps. From the twenty-five detailed responses received it is clear that fraudulent production can be limited by the use of anti-counterfeiting measures.

In addition, Customs have conducted a series of discussions with security printers and other experts in anti-counterfeiting technology. This has revealed a wide range of overt, covert and forensic features which could be used to protect UK tax stamps from counterfeiting.

Customs will continue detailed discussion's with the industry and continue to draw on a wide range of expert opinion's in their work on implementation of tax stamps for spirits in the UK.

Mr. David Stewart: To ask the Chancellor of the Exchequer how many *(a)* UK distilled and *(b)* imported products will be affected by the introduction of strip stamps. [161637]

John Healey: Subject to certain exceptions, to be determined following further discussions with the industry, tax stamps will apply to retail containers of spirits, and to wine and made wine with a strength exceeding 22 per cent. alcohol by volume.

The requirement for UK retail containers of spirits to bear a tax stamp will, however, apply equally both to imported and to home produced goods.

Tax Receipts

Mr. Rosindell: To ask the Chancellor of the Exchequer what the total tax take has been in each of the last five financial years for which figures are available. [162455]

Dawn Primarolo: Historic data on net taxes and social security contributions are available in table C4 of the public finances databank on the HM Treasury website www.hm-treasury.gov.uk/economic_data_and_tools/pubfinance/data_pubfinance_databank.cfm

Unclaimed Deposits

Mr. Frank Field: To ask the Chancellor of the Exchequer how many unclaimed deposits in banks and building societies have remained so for more than *(a)* 50 years and *(b)* 100 years; and what estimate he has made of the total value of such deposits. [162222]

Ruth Kelly *[holding answer 24 March 2004]:* There is currently no official estimate of the number of unclaimed deposits in banks and building societies or their total value.

CABINET OFFICE

Better Regulation Task Force

Mr. Heald: To ask the Minister for the Cabinet Office what recent cost-benefit analysis he has made of the Better Regulation Task Force; and if he will make a statement. [161958]

Mr. Alexander: The chairman and members of the Better Regulation Task Force are unpaid. The total running costs of the Task Force amount to about £0.5 million a year.

Since 1997 the Task Force has published 30 substantive reports and made around 400 recommendations to Government. All but 10 have been accepted.

Major reforms currently under way or recently enacted, that follow earlier recommendations by the Task Force include the reform of planning law, liquor licensing and fire safety.

The Task Force monitors the Government's implementation of its recommendations.

Computer Misuse

Mr. Webb: To ask the Minister for the Cabinet Office how many cases of computer misuse there were in his Department in *(a)* 1997 and *(b)* 2003, broken down by category of misuse; and how many of those cases resulted in disciplinary action. [163275]

Mr. Alexander: The information requested is not available for 1997. There were two cases of computer misuse in the Cabinet Office in 2003. Both cases involved inappropriate use of the internet and resulted in disciplinary action.

e-Government

Dr. Gibson: To ask the Minister for the Cabinet Office what powers the Head of e-Government will have to co-ordinate departmental database plans. [163156]

Mr. Alexander: A key responsibility of the Head of e-Government will be to develop a Government wide IS/ICT strategy, standards and technical architecture. Within that remit we would expect to define a data architecture to support all government operations.

In addition, the Office of the e-Envoy is currently working closely with the Office for National Statistics, who are leading the development of the Citizen Information Project.

Permanent Secretary of Government Communications

Mr. Heald: To ask the Minister for the Cabinet Office what expenditure is planned to be incurred in the establishment of the Permanent Secretary of Government Communications; and if he will make a statement. [161951]

Mr. Alexander: The Permanent Secretary Government Communications will work to ensure a co-ordinated approach and interaction between government and citizens with regard to the development and delivery of the Government's communications strategy.

The budget for this remit has been set at £3.4 million for 2004–05.

This includes efficiency savings of £1 million by the centralising of communications functions from across Cabinet Office units; for existing GIGS central functions funding, and for expenditure linked to the establishment of the Permanent Secretary role.

Public Appointments

Mr. Heald: To ask the Minister for the Cabinet Office how many nominations for public office were made in *(a)* 2002, *(b)* 2003 and *(c)* 2004; and how many of these were made online. [162808]

Mr. Alexander: This information is not held centrally. Individual departments are responsible for making appointments to their own public bodies.

In order to provide greater access to information about opportunities to serve on the boards of public bodies, my Department launched a new public appointments vacancy website www.publicappts-vacs.gov.uk in March 2003. People can search the site by area of interest, Government Department and by location to find details of the vacancies of most interest to them, including how and where to apply.

WALES

University Students

Mr. Wiggin: To ask the Secretary of State for Wales what percentage of students domiciled in Wales went on to university in each year since 1997. [160924]

Mr. Touhig: The only figures available for Welsh domiciled students entering university are for students leaving Welsh school sixth forms following Year 13 who entered a University or College of Higher Education. Figures are not collected for students entering University from other routes, such as further education, or mature students.

	Percentage
1997	63
1998	65
1999	65
2000	64
2001	67
2002	67

Source:
Careers Wales survey of pupil destinations from schools in Wales at 31 October of each year.

NHS Funding

11. **Mr. Andrew Turner:** To ask the Secretary of State for Wales what discussions he has had since 25 February with the National Assembly for Wales Government on NHS funding in Wales. [162552]

Mr. Touhig: I regularly meet the Assembly Health Minister concerning the health service in Wales: funding for NHS Wales is one of the topics that we frequently discuss.

The increased funding for health as a result of the Spending Review 2002 mean that in 2004–05 the Assembly Government have been able to allocate almost 95 per cent. more to the health budget than in 1996–97.

Welsh Development Agency

12. **Sir Nicholas Winterton:** To ask the Secretary of State for Wales what recent discussions he has had with the First Secretary about the work of the Welsh Development Agency. [162553]

Mr. Hain: I have regular meetings with the First Minister to discuss a range of issues of mutual interest to us, including the work of the WDA.

Wind Farms

13. **Miss McIntosh:** To ask the Secretary of State for Wales what recent discussions he has had on the *(a)* environmental and *(b)* health impact of wind farms in Wales. [162554]

Mr. Hain: I have regular discussions with a range of organisations on a wide variety of issues including on matters concerning the development of renewable energy projects.

Airbus

14. **Mark Tami:** To ask the Secretary of State for Wales what discussions he has held with *(a)* ministerial colleagues and *(b)* the National Assembly for Wales Government (i) to promote and (ii) to enhance the Airbus project at Broughton. [162555]

Mr. Hain: I have regular discussions with Cabinet colleagues, the First Minister and other stakeholders about a range of issues including the aerospace industry in Wales.

The launch investment aid of £530 million provided demonstrates the Government's practical and political support for Airbus to build the wings for the super jumbo project at Broughton and is a significant part of what is being done for the aerospace industry in Wales.

Pensioners

15. **Huw Irranca-Davies:** To ask the Secretary of State for Wales what discussions he has had with the National Assembly for Wales Government and Cabinet colleagues on targeted help for the poorest pensioners in Wales. [162556]

Mr. Touhig: Regular ones. We want all pensioners to have a decent and secure income in retirement and to share fairly in the rising prosperity of Wales.

National Lottery

Mr. Wiggin: To ask the Secretary of State for Wales how much was raised from the National Lottery in Wales in each year since 1997. [160872]

Estelle Morris: I have been asked to reply.

The available information is set out in a table prepared by Camelot that was placed in the Libraries of both Houses in response to a written parliamentary question from the hon. Member for Cheltenham (Mr. Jones) on 18 November 2003, *Official Report*, column 764W. The table lists sales of National Lottery tickets by postcode area since the Lottery's launch up to November 2003.

Rail Passenger Council

Mr. Simon Thomas: To ask the Secretary of State for Wales when he last met representatives from the Rail Passenger Council in Wales. [161647]

Mr. Hain: The Rail Passenger Council is the national body that co-ordinates the work of the regional committees. In Wales, the representative body is the Rail Passenger Committee.

Andrew Davies AM, the Assembly Minister for Economic Development and Transport, last met with the Committee's Chair and Secretary on 29 July 2003. I hold regular discussions with the Minister on all transport issues affecting Wales.

Supermarket Code of Practice

Mr. Llwyd: To ask the Secretary of State for Wales what discussions he has had with the First Minister of the National Assembly on the effectiveness of the Supermarket Code of Practice; and if he will make a statement. [162510]

Mr. Touhig: Responsibility for monitoring the Supermarket Code of Practice rests with the Office of Fair Trading. It published its first annual review of the operation of the Code on 20 February 2004. The review found a widespread belief among suppliers that the Code was not working effectively. However, suppliers did not provide any hard evidence to support their view. The Office of Fair Trading is therefore carrying out a further compliance audit to establish how supermarkets deal with suppliers under the Code.

DEFENCE

Bowman Radio System

Mr. Key: To ask the Secretary of State for Defence when the Bowman radio system will be fully operational; and if he will make a statement. [162838]

Mr. Ingram: The Bowman tactical communication system will achieve its full operational capability incrementally. Following the programme's planned delivery into service in 2004, the aim is for the first brigade converted to Bowman to undertake a further 15 months of unit and collective performance training to achieve warfighting operational readiness. Based on current progress, this will be in 2005.

Brimstone Missile

Mr. Gerald Howarth: To ask the Secretary of State for Defence with what *(a)* short range air-to-air, *(b)* beyond-visual-range air-to-air, *(c)* precision anti-armour and *(d)* other stand-off weapons the Future Joint Combat Aircraft (JCA) will be equipped; and for what reasons the requirement for (A) advanced short range air-to-air missiles and (B) Brimstone systems was removed from the JCA programme. [162643]

Mr. Ingram: No final decisions have been taken on the weapons fit for the Joint Combat Aircraft, beyond the requirement that it will have a precision bombing capability and an air to air capability when it enters service.

Weapons systems that we are considering integrating on JCA as the requirement evolves include:

Advanced Short Range Air-to-Air Missile

Advanced Medium Range Air-to-Air Missile

Beyond Visual Range Air-to-Air Missile (Meteor)

Paveway IV

Storm Shadow

Brimstone

Our considerations will cover which weapons should be carried internally and which should be carried externally on JCA. Under current plans, it is not considered cost or operationally effective for JCA to carry ASRAAM and Brimstone externally, but the internal carriage of these weapons remains an option.

Deepcut Barracks

Mr. McNamara: To ask the Secretary of State for Defence if he will place in the Library a copy of Brigadier Evans 1995 review of Phase 2 training system at Deepcut barracks. [162271]

Mr. Ingram: Yes. Arrangements are being made to place a copy of the report in the Library of the House.

Mr. McNamara: To ask the Secretary of State for Defence what the recommendations were of the 3 December 2002 Final Report of the Deputy Adjutant General on the Deepcut investigation; and if he will place a copy in the Library. [162275]

Mr. Ingram: The Deputy Adjutant General made the following recommendations in his Final Report:

the establishment at Deepcut should be revised in order to provide a supervisory ratio of approximately 1:38, and the resultant requirement for an increment of up to 12 officers and 50 NCOs be funded in the Short Term Plan 2003 (£2.2 million);

the supervisory ratios across the entire Army Training and Recruiting Agency (ATRA) should be reviewed and brought to appropriate levels in line with a clearly defined and endorsed policy for all training establishments and which can be carried forward into the Defence Training Review;

performance Indicators and Targets placed upon the ATRA should be reviewed and reordered to prevent inconsistency with the best interests of the trainees and the reduction of Soldiers Awaiting Trade Training;

the routine security and guarding of the Deepcut site should be taken over by MPGS as soon as practicable at a cost of £1.7 million;

a common induction training package for ATRA Phase 2 instructors and supervisors should be implemented in order to raise standards towards those prevailing in Phase 1;

the detailed observations and taskings in the Joint Surrey Police/Army Learning Account should be implemented forthwith.

Arrangements are being made to place a copy of the report in the Library of the House.

Defence Employment (Essex)

Bob Spink: To ask the Secretary of State for Defence how many *(a)* Ministry of Defence civilian personnel and *(b)* servicemen and women were employed in bases and establishments in Essex (i) in 1992, (ii) in 1997 and (iii) on the latest available date. [162873]

Mr. Caplin: Reliable data on civilian personnel are only available at Government Office region. The number of Ministry of Defence civilian personnel located in the eastern region in 1993, 1997 and January 2004 were as follows.

	Number
1 April 1993	5,430
1 April 1997	5,910
1 January 2004	5,860

All figures have been rounded to the nearest 10. Reliable data are not available for 1992.

The number of Service personnel located in Essex in 1992,1997 and 2002 were as follows:

	Number
1 July 1992	3,800
1 July 1997	3,190
1 July 2002[1]	3,710

[1] Location data as at 1 July 2002 are the latest available.

All figures have been rounded to the nearest 10.

Figures are for UK Regular Forces (including both Trained and Untrained personnel), and therefore exclude Gurkhas, Full Time Reserve Service personnel, the Home Service battalions of the Royal Irish Regiment, mobilised reservists and Naval Activated Reservists.

End-to-End Review

Annabelle Ewing: To ask the Secretary of State for Defence when his Department will determine its response to the End-to-End Review; and if he will make a statement. [162990]

Mr. Ingram *[holding answer 23 March 2004]*: The aim of the End-to-End Review was to find ways to improve logistics support to the armed forces, and to do this more efficiently. The End-to-End Study reported on 1 July 2003 and an 18 month Demonstration Phase commenced on 8 September 2003. A summary of the findings from the Review has been placed in the House Library.

The Demonstration Phase is using pilots to test End-to-End principles and to reduce risk. In parallel, the efficacy of some of the recommendations are being assessed and subjected to thorough investment appraisals prior to full implementation. I will make a more substantive statement on the implementation of the End-to-End Review when appropriate.

Eurofighter

Mr. Hoyle: To ask the Secretary of State for Defence what discussions he has had with the US Administration on whether Eurofighter could bring potential benefits to the United States Air Force. [162148]

Mr. Ingram: None.

Future Rapid Effects System

Peter Bradley: To ask the Secretary of State for Defence if he will make an announcement on the future of the Future Rapid Effects System before the Easter recess. [162772]

Mr. Ingram: I hope to be in a position to make an announcement on the way ahead shortly, but this will not be before the Easter recess.

Service Suicides (Reports)

Mr. McNamara: To ask the Secretary of State for Defence what conclusions were reached by Lieutenant Colonel Hawley in his October 1998 report that scoped the scale and nature of psychological morbidity among Army recruits; what recommendations were made; how many of these were acted upon; and if he will place a copy of the report in the Library. [162273]

Mr. Ingram: Lieutenant Colonel Hawley's paper on A Study of Attempted Suicide in the Army: 10 Years of Experience 1987 to 1996 came to the following conclusions:

a prospective cohort study should be undertaken over a period of five years to confirm the findings of this scoping study and to extend the analysis;

a review of the current selection criteria for entry into the Army should be undertaken in order to help select individuals appropriately;

a formalisation of the criteria for dealing and disposing of individuals who have attempted suicide should be completed;

training in the identification of individuals at risk should be introduced to all leadership courses.

This paper was not commissioned by the Army but produced as a result of private academic research in 1998. The report was not seen by the Chain of Command at the time and no action was taken. It coincided with a more major body of official research, the Walton Report. Arrangements are being made to place a copy of Lieutenant Colonel Hawley's paper in the Library of the House.

Mr. McNamara: To ask the Secretary of State for Defence what conclusions were reached by the 1996 Walton report on circumstances relating to unnatural deaths in the Army; what recommendations were made; how many of these were acted upon; and if he will place a copy of the report in the Library. [162272]

Mr. Ingram: Dr. Suzy Walton's research into Suicide in the British Army resulted in a report that was published in five parts during the period December 1996 to September 1998. All recommendations have been acted upon. Arrangements are being made to place a copy of the report in the Library of the House.

Information Technology

Mr. Allan: To ask the Secretary of State for Defence what audit mechanisms are in place to determine whether information technology *(a)* hardware and *(b)* software products are being used properly in his Department. [150936]

Mr. Caplin: The Ministry of Defence has several hundred computer systems in use ranging from corporate IT systems serving thousands of users to business area systems serving smaller communities. This means that a detailed and specific answer to this question could be provided only at disproportionate cost. There are, however, some practices which are standard across the department and these are detailed as follows.

Information systems within the Department are controlled by Security and Operating Procedures (SyOps). Each System is only accredited for use once the procedures have been approved by the Departmental Security Officer. All users are required to observe the SyOps; enforcement is the responsibility of individual System Security Officer(SSO's)/Information Technology Security Officers (ITSO's).

Joint Service Publication (JSP) 440, covering these issues was revised last year. SyOps are revised as necessary as and when new threats to security arise. A recent example is the appearance of photo-messaging which has required that mobile phones be prohibited in some areas where formally they were permitted.

Iraq

Mr. Keetch: To ask the Secretary of State for Defence if he will list the names of *(a)* full-time and *(b)* reservist personnel who refused to serve in Iraq, and the action taken against them; and if he will make a statement. [162401]

Mr. Ingram *[holding answer 23 March 2004]:* No regular or reserve personnel have refused to serve in Iraq. However, one regular member of the armed forces registered a conscientious objection on the grounds of religion, which was accepted and he was subsequently discharged.

Typhoon

Mr. Gerald Howarth: To ask the Secretary of State for Defence what suppression of enemy air defences capabilities the Typhoon will have. [162646]

Mr. Ingram: The baseline design for Typhoon includes the ability to integrate a SEAD capability such as ALARM. The United Kingdom is currently negotiating with industry and partner negotiations on what weapons fit will be incorporated into Typhoon as part of Tranche 2.

Warships

Mr. Soames: To ask the Secretary of State for Defence when HMS Bulwark will enter service. [162950]

Mr. Ingram: HMS Bulwark is planned to enter service with the Royal Navy by the end of March 2005.

WORK AND PENSIONS

Sure Start Maternity Grant

Mr. Bercow: To ask the Secretary of State for Work and Pensions how many workers in Buckingham have taken up the Sure Start maternity grant. [161564]

Mr. Pond: The information is not available in the format requested; the available information is in the table.

Awards of Sure Start Maternity Grants in Buckinghamshire and Oxfordshire district, broken down by qualifying benefit/tax credit

	Income support	*Jobseekers allowance (Income based)*	*Tax credits*	*Total*
2000–01	1,317	199	505	2,021
2001–02	1,414	189	783	2,386
2002–03	1,499	225	1,151	2,875
2003–04	1,379	242	1,166	2,787

Notes:
1. Data are not available by parliamentary constituency. Buckingham parliamentary constituency is part of Buckinghamshire and Oxfordshire Jobcentre Plus District, which was formed by merging Buckinghamshire Social Fund District and Oxfordshire Social Fund District in December 2002. For comparison purposes, data before the merger is given for Buckinghamshire Social Fund District and Oxfordshire Social Fund District combined.
2. Data on applications by workers are not available.
3. The available data are given in the tables above. Prior to 2003–04, tax credits refer to Working Families' Tax Credit and Disabled Person's Tax Credit. From 2003–04, tax credits refer to Child Tax Credit (CTC) payable at a rate higher than the family element and Working Tax Credit where the disability or severe disability element is included in the award. Where a Sure Start Maternity Grant (SSMG) is awarded and the applicant or partner is in receipt of both Income Support (IS) and CTC at the appropriate rate, the SSMG award will be recorded under IS. Similarly, where a SSMG is awarded and the applicant or partner is in receipt of both Jobseeker's Allowance (Income-Based) (JSA(IB)) and CTC at the appropriate rate, the SSMG award should be recorded under JSA(IB).
4. Data for 2003–04 are for April 2003 to February 2004 only.
Source:
DWP Social Fund Policy, Budget and Management Information System.

Departmental Scientific Adviser

Dr. Iddon: To ask the Secretary of State for Work and Pensions whether his Department has a chief scientific adviser. [162478]

Malcolm Wicks: Professor Mansel Aylward, CB is the Chief Scientific Adviser to the Department for Work and Pensions. Dr. Paul Davies is the Chief Scientific Adviser to the Health and Safety Executive.

Disability Living Allowance

Mr. Simon Thomas: To ask the Secretary of State for Work and Pensions whether the Department has decided to discontinue the Activities for Managing Life system for assessing claims for disability living allowance; and if he will make a statement. [163265]

Maria Eagle: Initial tests of the Activities for Managing Life (AMLs) assessment model as a potential alternative method of assessing entitlement to Disability Living Allowance and Attendance Allowance were not sufficiently encouraging to justify further development and testing of the model. We believe that our delivery objectives of substantially improved customer service and more speedy, accurate and consistent decision making can best be achieved through the Disability and Carers Service's change programme, which is designed to modernise the delivery of the benefits on the basis of the current assessment arrangements.

Incapacity Benefit

Mr. Goodman: To ask the Secretary of State for Work and Pensions how many *(a)* men and *(b)* women receiving incapacity benefit payments made on mental health grounds in relation to (i) stress and (ii) depression received these payments for longer than (A) one month, (B) six months, (C) a year and (D) two years in each year since 1997; and if he will break down these payments by region. [163052]

Maria Eagle *[holding answer 22 March 2004]:* The information has been placed in the Library.

Mental Health

David Taylor: To ask the Secretary of State for Work and Pensions how many people with mental ill health have been classified as hospital in-patients for more than a year for the purposes of benefit, broken down by *(a)* age, *(b)* diagnosis and *(c)* category of mental ill health. [163264]

Maria Eagle: The information is not available.

David Taylor: To ask the Secretary of State for Work and Pensions if he will list the types of establishment accommodating people with mental ill health who are classified as hospital in-patients for more than a year for the purposes of benefit. [163263]

Malcolm Wicks: For benefit purposes, a person is regarded as receiving or having received free in-patient treatment for any period when they are maintained free

of charge while undergoing medical or other treatment in a hospital or similar institution, under the National Health Service Act 1997, the National Health Service (Scotland) Act 1978 or the National Health Service and Community Care Act 1990 or in a hospital or similar institution maintained or administered by the Defence Council.

Pensions

Mr. Jim Cunningham: To ask the Secretary of State for Work and Pensions what steps his Department is taking to address the imbalances in levels of pensions between men and women, with particular reference to women from ethnic minorities. [162862]

Malcolm Wicks: Measures instituted by this Government since 1997 to improve pensioners' incomes have been targeted largely on those in the lower part of the income distribution who tend to be older, female, and from ethnic minorities.

The main measures since 1997 include: above inflation increases in the Basic State Pension between April 2000 and April 2003; the introduction of the Minimum Income Guarantee and then Pension Credit which, from April 2004, will ensure that no single pensioner need live on less than £105.45 a week and no couple on less than £160.95 a week, as well as providing extra support for those with modest savings; Winter Fuel payments of £200 a year for the remainder of this Parliament; an extra £100 a year within the Winter Fuel Payments for those aged 80 or over; free TV licences for individuals aged 75 or over; and an extra 100 for households with at least one pensioner aged 70 or over.

The Government will be spending around £10 billion a year extra on pensioners in 2004–05 as a result of these measures. They have resulted in pensioner households gaining £1,350 a year in real terms with the poorest third of pensioners gaining £1,750 a year in real terms.

In addition, the DWP provides comprehensive guidance to staff on providing a service to ethnic minority communities. The Department also provides information in a range of languages and holds an annual Ethnic Minority forum at which issues affecting black and minority ethnic pensioners are discussed.

Mr. Jim Cunningham: To ask the Secretary of State for Work and Pensions what plans his Department has to require compulsory employer contributions to workers' pensions. [162863]

Malcolm Wicks: The Government currently have no plans to require compulsory employer contributions. We believe in the value of employer contributions but also in the pensions partnership that is at the heart of the voluntarist system.

It is, however, important that progress is independently monitored. That is why we have established the Pensions Commission to monitor how the voluntarist system is developing. On the basis of the Commission's recommendations, we will decide whether there is a case for moving beyond the current voluntary approach.

Annabelle Ewing: To ask the Secretary of State for Work and Pensions whether he plans to reach a conclusion prior to the report stage of the Pensions Bill as to his policy on the position of those pension fund holders who have already lost out and are precluded from cover by the proposed protection fund as a result of the proposed date of entry of the same. [162946]

Malcolm Wicks: The Government are sympathetic to all those people who will not receive the pension they worked so hard to build up for their future retirement. We have been meeting some of those affected and listened to suggestions regarding assistance ahead of the Pension Protection Fund's introduction. But there are complex arguments on both sides.

We are now exploring with industry representatives the basis on which we can establish firm estimates of the extent of the problem of defined benefit schemes winding-up under funded, the numbers affected and the potential scale of losses. Once those data have been collated, I will be in a better position to report more fully the findings of our examinations and what, if any, the appropriate course of action should be.

Retirement Age

Mr. Jim Cunningham: To ask the Secretary of State for Work and Pensions what his policy is on the statutory retirement age in the UK. [162861]

Malcolm Wicks: There is no statutory retirement age in the UK, in the sense of an age at which legislation requires a person to retire.

The state pension age is currently 65 for men and 60 for women but will increase gradually from 60 to 65 between 2010 and 2020 to allow employees and employers as well as companies running pension schemes time to plan for and implement the changes.

We have signalled our intention to maintain the state pension age at 65 (there is a consensus that people should have the right to work longer but that this should be voluntary and not forced). However, both Private and State Pension systems allow individuals to work past this age and accrue higher pensions.

Proposals in the Pensions Bill will allow individuals to receive better rewards for deferring their state pension in the form of a lump sum payment or increased pension when an individual eventually retires.

The minimum age at which tax privileged retirement benefits can be drawn from a private pension scheme will be raised to 55 years by 2010. It is possible to retire earlier in exchange for an actuarial reduction of private pension. The actual amounts are dependant on the type of pension scheme and when the employee retires. It is a requirement of tax legislation that schemes should have a normal pension age reflecting the age at which individuals would usually withdraw their pension.

We are proposing to raise the age at which public sector employees can draw an unreduced pension from 60 to 65. This age would apply regardless of the employee's length of service but certain occupations where the physical capacity of the job justify the award of a normal pension at a lower age will continue.

Science Strategy

Dr. Iddon: To ask the Secretary of State for Work and Pensions what steps he has taken to enhance science in his Department since the publication of the Government's science strategy, Investing in Innovation. [162247]

Malcolm Wicks: Evidence from research plays a key role in developing, monitoring and evaluating the business of the Department. The Department has developed a cycle of investigation and research, leading to informed planning to implement change (sometimes through pilots which refine innovative approaches), and then monitoring to assess the impact. This cycle is reflected in a parallel process of consulting upon and commissioning our social research programme through open tendering. The analytical community has been reorganised and aligned with policy and delivery units, integrating analysis and policymaking to provide the highest level of evidence-based policy making. The Department has maintained the level of research spending, and rigorous evaluation and monitoring of new developments. All research is published on the internet so that it is freely available to anyone who would wish to use it.

TRADE AND INDUSTRY

Asbestos

Malcolm Bruce: To ask the Secretary of State for Trade and Industry what proportion of buildings occupied by *(a)* staff of the Department and *(b)* staff of the Department's executive agencies have been surveyed for the purpose of identifying the presence of asbestos prior to implementation of the control of Asbestos at Work Regulations 2002. [159368]

Ms Hewitt: The Department of Trade and Industry has ensured all buildings occupied by its staff that could contain asbestos have been surveyed for the purpose of identifying the presence of asbestos prior to the implementation of the Control of Asbestos at Work Regulations 2002. For those Executive Agencies where the Department holds information, the position is similar.

Letter from Caren Fullerton to Malcolm Bruce, dated 24 March 2004:

Within the past 9 months surveys have been undertaken in each of the 5 buildings occupied by Patent Office staff, for the purpose of identifying the presence of asbestos prior to implementation of the control of Asbestos at Work Regulations 2002.

The surveys were arranged and managed by The Patent Office in respect of the 3 buildings solely occupied by Patent Office staff, and by the Office for National Statistics and the Charity Commission in respect of buildings where the Patent Office is a minor occupier.

Letter from Claire Clancy to Malcolm Bruce, dated 24 March 2004:

I am responding to your recent Parliamentary Question to the Secretary of State for Trade and Industry on behalf of Companies House, which is an Executive Agency of the DTI.

A survey of our Cardiff offices was carried out in August 2002 by a specialist consultant in accordance with the Control of Asbestos at Work Regulations 2002. They compiled a detailed asbestos register which has been updated as work is carried out. The building accommodates 1,264 Companies House staff and approximately 300 tenants from the DTI and DWP.

Our offices in Edinburgh and London accommodating 47 staff, are rented from the DWP and the Insolvency Service respectively, and are therefore outwith our control.

Letter from David Smith to Malcolm Bruce, dated 24 March 2004:

You have asked the Secretary of State for Trade and Industry for information about asbestos surveys in relation to the Control of Asbestos at Work Regulations 2002 in her Department and its Agencies. This request has just been passed to me in respect of the Radiocommunications Agency.

The Radiocommunications Agency (RA) was a DTI Agency until 28 December 2003 when its responsibilities, functions and assets (including land and buildings) were transferred to the Office of Communications (Ofcom).

As the Agency's Accounting Officer, I continue to have responsibility for ensuring that the transfer of staff and DTI assets have been properly carried out and reflected in the RA accounts as part of the implementation of the Communications Act 2003. But from 29 December the relevant Accounting Officer for the information you are seeking is Ofcom's Chief Executive, Stephen Carter. Ofcom is a statutory corporation and therefore falls outside the arrangements by which Agencies respond to Parliamentary Questions.

For future reference, Mr Carter's address is:

Office of Communications
Riverside House
2a Southwark Bridge Road
London SE1 9HA.

Letter from Graham Horne to Malcolm Bruce, dated 24 March 2004:

The Secretary of State for Trade and Industry has asked me to reply to you directly on behalf of The Insolvency Service in respect to your question (2003/1822) dated 3 March 2004 asking which buildings occupied by staff of the Department's executive agencies have been surveyed for the purpose of identifying the presence of asbestos prior to implementation of the control of Asbestos at Work Regulations 2002.

The Insolvency Service has surveyed all of its buildings for asbestos, apart from one, which will be surveyed in April 2004.

Letter from J. W. Llewellyn to Malcolm Bruce, dated 24 March 2004:

The Secretary of State for Trade and Industry has asked me to reply on behalf of the National Weights and Measures Laboratory (NWML) to your question about surveys for identifying the presence of asbestos in buildings occupied by NWML staff.

The National Weights and Measures Laboratory moved into a purpose built laboratory at Teddington in 1988. The building has been surveyed recently and the preliminary report confirms that no asbestos is present.

Bullying

Mr. Nigel Jones: To ask the Secretary of State for Trade and Industry if she will make a statement on her policy towards bullying in the workplace by senior management personnel, with particular reference to local government officers. [163233]

Mr. Sutcliffe: The Government take the issue of bullying at work very seriously. We believe bullying is unacceptable whether by senior managers or between colleagues in any sector of industry.

This spring the Government intend to consult on a code of conduct for local administration employees. The aim of such a code would be to establish broad ethical

principles for all authority employees. Such a code would complement the existing model code for councillors, and could be incorporated into the conditions of service of the employees of all relevant local authorities. Among the provisions which the code could contain would be a requirement that the employee must treat others with respect.

Civil Partnerships

Mr. Leigh: To ask the Secretary of State for Trade and Industry whether there is a requirement on the United Kingdom to create a legal status for same-sex couples. [163087]

Jacqui Smith: The Government are proposing the creation of a new legal relationship of civil partnership for reasons of general equality and social justice. There is no legal requirement on the United Kingdom to create a legal status for same-sex couples.

Mr. Leigh: To ask the Secretary of State for Trade and Industry whether legal rights and benefits to which married couples are entitled will not be given to registered same-sex couples in the Civil Partnership Bill. [163088]

Jacqui Smith: The Government consulted on the extent and nature of rights and responsibilities to which civil partners should be entitled last year. The Government will make clear their proposals on introduction of the forthcoming Civil Partnership Bill.

Mr. Leigh: To ask the Secretary of State for Trade and Industry how long a same-sex couple will be required to live together before they can register their partnership under the proposed Civil Partnership Bill. [163089]

Jacqui Smith: The Government's policy is that same-sex couples would not be required to live together before entering a civil partnership.

Mr. Leigh: To ask the Secretary of State for Trade and Industry for what reason unfaithfulness similar to adultery has been omitted as a ground for dissolution of civil partnerships; and what obligation there is upon those entering a civil partnership to stay together for life. [163090]

Jacqui Smith: The detailed proposals for a dissolution procedure will appear in the forthcoming Civil Partnership Bill. Government policy is that the conduct of a civil partner who is unfaithful could amount to unreasonable behaviour on which dissolution proceedings could be grounded. This would be a matter for individual dissolution proceedings.

The Government's proposals for civil partnership are designed for those people in, or wishing to enter into, same-sex couple relationships that are intended to be permanent. The significant rights and responsibilities flowing from the new legal relationship of civil partnership and the formality of the proposed dissolution procedure underline the seriousness of the commitment expected.

Mr. Leigh: To ask the Secretary of State for Trade and Industry what legal protection will be afforded to registrars who hold a principled and conscientious objection to conducting a civil partnership registration under the proposed Civil Partnership Bill. [163091]

Jacqui Smith: The Government's policy is that there would be a legal requirement on registration authorities to provide the means to register a civil partnership. This would have to be provided to the same high standards as for other statutory services.

Coal Industry

Mr. Grogan: To ask the Secretary of State for Trade and Industry what commitments regarding working facilities were given by the National Union of Mineworkers to *(a)* Ministers and *(b)* the Coal Authority before the announcement of investment aid on 3 March 2003. [160108]

Mr. Timms *[holding answer 9 March 2004]:* Dr. Ian Roxburgh, the Chief Executive of the Coal Authority, met representatives of the National Union of Mineworkers (NUM) in January 2003 during work which he undertook at the request of the then Minister for Energy, my hon. Friend, the Member for Cunningham North (Mr. Wilson), to develop proposals to secure greater certainty for the future of the industry. That discussion permitted Dr. Roxburgh to advise ministers that the NUM was fully committed to proposals which would enable the introduction of a coal investment aid package, accepted that they would entail changes to working practices, and had agreed that they would examine flexible working on a pit by pit basis.

My right hon. Friend the Secretary of State for Trade and Industry met NUM representatives on 12 February 2003. The discussion included these proposals and the likelihood of coal investment aid that would support particular projects to maintain access to reserves and hence production at specified mines. The need for changed working practices, including flexible working, to maximise the value of aided projects was also discussed and the NUM representatives did not repudiate the position that Dr. Roxburgh had reported.

Foreign Investment (London)

Mr. Gardiner: To ask the Secretary of State for Trade and Industry what *(a)* assessments and *(b)* surveys her Department has (i) used and (ii) commissioned to assess the reasons why foreign companies (A) open and (B) maintain offices in London. [163369]

Mr. Mike O'Brien: Through UK Trade & Investment's investor development programme, which entails systematic contact—both in the UK and overseas—with the senior management of many overseas-owned companies present in the UK, we assess the reasons why companies set up in the UK and the factors that will impact on future business location decisions.

This is backed up by company surveys, commissioned by UK Trade & Investment. These are available on request from UK Trade & Investment. They are focused on the national picture.

New Businesses (Crosby)

Mrs. Curtis-Thomas: To ask the Secretary of State for Trade and Industry how many new businesses have been established in Crosby since 1997. [160441]

Nigel Griffiths: Barclays Bank's latest survey of business creation includes non-VAT registered firms and shows that there were 93,100 business start ups in England and Wales, including 500 in Sefton Local Authority (for which Crosby is a constituency), in the third quarter of 2003. The latest yearly figures show 384,900 business start ups in England and Wales in the 12 months ending September 2003. This represents a 3 per cent. increase on the year before. Data for local authorities are not available for before 2003.

DTI figures based solely on VAT registrations for Sefton Local Authority (for which Crosby is a constituency) are shown in the table for the period 1997 to 2002. Data for 2003 will be available in Autumn 2004.

VAT Registrations: 1997–2002

	Sefton
1997	570
1998	585
1999	565
2000	545
2001	580
2002	560

Note:
VAT registrations and de-registrations, which do not capture all start-up activity. Businesses are unlikely to be registered if they fall below the compulsory VAT threshold, which has risen in each year since 1997. Similarly, businesses that de-register will not necessarily have closed. Only 1.8 million out of 3.8 million enterprises were registered for VAT at the start of 2002.

Source:
Business Start-ups and Closures: VAT Registrations and De-registrations 1994–2002, Small Business Service.

E-Auctions

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry what representations she has received on the conduct of e-auctions. [162866]

Mr. Sutcliffe: During the last 18 months I have received 12 representations on the conduct of e-auctions. Consumers have experienced problems with payment transmission services and in obtaining redress when goods for which they have paid have not been delivered.

The Department issued guidance on 29 December 2003 advising consumers how to guard against internet auction risks—such as lack of information about the seller—and about their rights when buying from private individuals. The guidance is available from the Consumer Gateway at http://www2.consumer.gov.uk/consumer_ web/e-shopping.htm#5.

Post Offices (Chelmsford and Mid-Essex)

Mr. Burns: To ask the Secretary of State for Trade and Industry (1) what steps were taken during the development of the post office area plan for Chelmsford and mid Essex to assess the consequences of the plan for levels of road accidents and fatalities involving pedestrians; [162991]

(2) what assessment has been made of the change in the number of road journeys consequent on the closure of sub-post offices in Chelmsford over the last 18 months; [162992]

(3) what assessment has been made of the health and social care implications of the closure of sub-post offices in Chelmsford over the last 18 months. [162993]

Mr. Timms: There are operational matters for Post Office Ltd. and I have asked the Chief Executive to write direct to the hon. Member.

Postal Services

Mr. Andrew Turner: To ask the Secretary of State for Trade and Industry what consultations she undertook with *(a)* Postwatch, *(b)* Post Office users, *(c)* the CBI and *(d)* FSB before approving as shareholder the retiming of the first or main postal delivery after 9 a.m. [162495]

Mr. Timms: Conditions on the delivery of mail are a licensing matter for the regulator, Postcomm. The Postal Services Act 2000, and the Licence granted by Postcomm under it, requires Royal Mail to make one daily delivery to every household in the United Kingdom. It does not specify the time at which this has to be made. Postcomm, therefore, does not have authority to dictate the time of the daily delivery. Postwatch (The Consumer Council) has worked closely with Royal Mail (and the CWU) throughout the process to ensure that the change to a single daily delivery balances commercial necessity against customer need. Postwatch undertook extensive research jointly with Royal Mail to ensure that any adverse effect on consumers was minimised. Postwatch advocated local flexibility rather than a "one-size-fits-all" solution and continues to work with Royal Mail at a local level to help ensure a smooth transition.

Research and Development

Mrs. Curtis-Thomas: To ask the Secretary of State for Trade and Industry what assessment she has made of the effect of the research and development tax credit on levels of investment in research and development. [163317]

Dawn Primarolo: I have been asked to reply.

I refer the hon. Member to the answer I gave to the hon. Member for Yeovil's question 156766 on 2 March 2004, *Official Report*, column 796W.

HOME DEPARTMENT

"Managing Offenders, Reducing Crime: A New Approach"

Mr. Oaten: To ask the Secretary of State for the Home Department what method was used to estimate the effect on crime rates of the increased use of prison set out on page 16 of "Managing Offenders, Reducing Crime: A New Approach"; and if he will list the sources used in the preparation of the estimate. [161722]

Paul Goggins: The estimate of the effect on crime rates of increased prison was made by Patrick Carter's team as part of his independent review of correctional services. I understand that the estimate was arrived at after examining a number of sources both international and domestic that encompassed a range of different techniques and results.

Mr. Oaten: To ask the Secretary of State for the Home Department what the evidential basis is for the statement on page 15 of "Managing Offenders, Reducing Crime: A New Approach" that 100,000 persistent offenders commit 50 per cent. of all crime. [161723]

Paul Goggins: The statistic is taken from Annexe B of the Criminal Justice System document, Criminal Justice; The Way ahead, published February 2001.

Animal Welfare

Chris Ruane: To ask the Secretary of State for the Home Department if he will set out, with statistical information, the effects of his Department's policies and action in relation to animal welfare since 2 May 1997 for the Vale of Clwyd constituency. [153135]

Mr. Bradshaw: I have been asked to reply.

Records are not held at constituency level but key achievements since 1997 include:

Treaty Protocol on Animal Welfare which amends the Treaty of Rome and recognises animals as sentient beings, not merely commodities to be traded.Agreement on the farm animal welfare Directive setting minimum standards across the EU, implemented by the Welfare of Farmed Animals Regulations 2000.Improved standards for laying hens, which include a ban on barren battery cages throughout the EU and a Europe-wide ban on close—confinement sow stalls, which have been banned in the UK since January 1999. The creation of Defra in 2001 provided an opportunity to move the responsibility for welfare of all animals kept by man to a single Minister (with the exception of animals kept for experimental purposes which stays with the Home Office). Following consultation, the Government are undertaking a review of 21 animal welfare Acts relating to captive and domestic animals with the aim of consolidating them into one Animal Welfare Act. We hope to publish a draft Bill later this year.

Asylum Seekers

Vera Baird: To ask the Secretary of State for the Home Department how many Burmese asylum seekers have been deported to Burma in each of the past three years; and what information he has received concerning the fate of those people following their repatriation. [159885]

Beverley Hughes *[holding answer 9 March 2004]:* Estimates of the number of Burmese nationals who had sought asylum at some stage and who were removed from the UK in the period January 2001 to September 2003 (the latest available figures) are shown in the table. These figures include persons departing 'voluntarily' after the initiation of enforcement action against them, removals to a safe third country and persons leaving under Assisted Voluntary Returns Programmes run by the International Organisation for Migration.

Removals and voluntary[1] departures of principal asylum applicants (excluding dependants): January 2001 to September 2003[2,3,4]

	Burma (Myanmar)
2001	*
2002	10
January to September 2003	5

[1] Including persons departing "voluntarily" after enforcement action had been initiated against them.
[2] May include removals to a safe third country.
[3] Data are estimated due to date quality issues on the IND databases.
[4] Provisional figures.
Note:
Date are rounded to nearest five with * denoting 1 or 2

Information on the destination of these removals and whether they were forcibly removed or departed voluntarily is not available, except by examination of individual case-files at disproportionate cost.

All asylum (and human rights) claims made by Burmese nationals are considered on their individual merits in accordance with our obligations under the 1951 UN Refugee Convention and the European Convention on Human Rights (ECHR). Should a claim be refused and any appeal before the independent Immigration Appellate Authority be unsuccessful, it means that for that individual it is safe to return.

In making decisions about removing failed asylum seekers, the Home Office takes full account of up to date information from a wide range of sources about the situation in the country of origin. These sources include intergovernmental organisations (such as the UN), governmental sources (including the Foreign and Commonwealth Office) and human rights organisations (for example Amnesty International and Human Rights Watch).

If an individual asylum seeker establishes a need for international protection they would not be returned. We do not have information on individuals returned to Burma and there would be difficulties in determining the extent to which any problems the individuals experienced could be attributed to their having been returned as failed asylum seekers.

Charities Bill

Mrs. Lait: To ask the Secretary of State for the Home Department when he expects to publish the draft Charities Bill. [162298]

Fiona Mactaggart: The publication of a draft Charities Bill this Session was announced in the Queen's Speech and my right hon. Friend the Home Secretary has undertaken to publish such a Bill as soon as possible.

Cheadle Royal Hospital

Mrs. Calton: To ask the Secretary of State for the Home Department pursuant to the answer of 1 March 2004, *Official Report*, column 714W, on Cheadle Royal Hospital, if he will place in the Library a copy of the reply from the Director of Operations to the hon. Member for Cheadle. [160458]

Fiona Mactaggart: The Director of Operations wrote to the hon. Member on 9 March and a copy is now available in the Library.

Mrs. Calton: To ask the Secretary of State for the Home Department pursuant to the answer of 1 March 2004, *Official Report*, columns 714–15W, on Cheadle Royal Hospital, when the administrative arrangements for challenge and review of formal decisions of the Charity Commission were implemented. [160511]

Fiona Mactaggart: The Commission introduced administrative arrangements for challenge and review of its decisions on 1 January 2000. Full details, including published staff guidance and details of the decision reviews carried out to date, can be found on the Commission's website (www.charitycommission.gov.uk)

Mrs. Calton: To ask the Secretary of State for the Home Department pursuant to the answer of 1 March 2004, *Official Report*, columns 714–15W, on Cheadle Royal Hospital, when the Charity Commission reported the disposals of Cheadle Royal Hospital assets to Parliament; when the reports were audited by the National Audit Office; and when the Public Accounts Committee reviewed the audited reports. [160512]

Fiona Mactaggart: I advised the hon. Member of the scrutiny arrangements for the Charity Commission in my answer of 1 March 2004, *Official Report*, column 715W.

The Commission's statutory annual report on its operations made to my right hon. Friend the Secretary of State, further to section 1(5) of the Charities Act 1993, is laid by him before Parliament. This details the Commission's activities, operations and performance against its targets for the year. It also contains details of any significant developments in the operating environment during the year as identified at the time of publication. It does not contain details of individual charities and their activities except for a small number of examples that serve to illustrate the wide range of the Commission's work as registrar and regulator of the 187,316 charities on the Central Register of Charities (as at 31 March 2003). The Commission's latest report for the financial year 2002–03 is publicly available on its website (www.charitycommission.gov.uk).

The Commission is also required to produce a separate annual report as part of its Resource Accounts, which it prepares and publishes as required by Her Majesty's Treasury. The financial statements in the Commission's Resource Accounts are audited by the National Audit Office who may choose to refer particular aspects to the Public Accounts Committee for further inquiry. The latest Resource Accounts for 2002–03 are publicly available on the Commission's website.

Crime Statistics

Mr. Hoyle: To ask the Secretary of State for the Home Department (1) how many crimes have been recorded in each constituency in Lancashire in each of the last five years, broken down by type of crime; [156514]

(2) how many *(a)* burglaries, *(b)* car thefts, *(c)* acts of vandalism, *(d)* muggings, *(e)* rapes and *(f)* violent attacks were reported in Chorley constituency in each of the last three years. [157683]

Ms Blears: The available information is given in a table that has been placed in the Library.

Figures for crimes recorded by the police are not broken down by constituency areas. However, they are available at Crime and Disorder Reduction Partnership (CDRP) level. There are currently fourteen CDRPs in Lancashire, including Chorley. CDRPs broadly equate to Local Authority areas, and financial year figures are available for 1999–2000, 2000–01, 2001–02 and 2002–03.

Figures for recorded crime offences are available at CDRP level for six key offences groups only: violence against the person, sexual offences, robbery, burglary in a dwelling, theft of a motor vehicle, and theft from a vehicle.

The number of offences recorded may have been affected by the adoption of the principles of the National Crime Recording Standard (NCRS). The NCRS was officially implemented across England and Wales in April 2002. Lancashire police adopted the Standard prior to this, in August 2000. The NCRS has particularly impacted in violent crime offences. Therefore, following the introduction of the Standard, numbers of recorded crimes are not directly comparable with previous years.

Criminal Assets

Mr. Oaten: To ask the Secretary of State for the Home Department pursuant to his Answer of 2 March 2004, *Official Report*, column 899W, on criminal assets, what proportion of *(a)* cash seizures, *(b)* confiscation orders, *(c)* restraint orders and *(d)* freezing orders made to date were related to drug offences; what proportion of the money which has been successfully recovered to date has been allocated to (A) crime reduction projects and (B) central Treasury funds; and how he plans to allocate amounts seized in future. [161791]

Caroline Flint: The information in relation to cash seizures is not available. I understand from the Crown Prosecution Service that 85 per cent. of confiscation orders and 44 per cent. of restraint orders made under the Proceeds of Crime Act 2002 related to drug offences. I understand from the Assets Recovery Agency that 57 per cent. of the freezing orders related to drug offences.

All receipts from recovered assets are allocated to a range of initiatives in the asset recovery field. A new police incentivisation scheme will be introduced in 2004–05 that will enable police forces to receive a share of the criminal assets that are recovered locally. Police forces will benefit by receiving a third of all the recovered assets above £40 million in 2004–05, increasing to a half for 2005–06. The maximum benefit available to the police will be £43 million in 2004–05 rising to £65 million in 2005–06. The Government will be using the first £40 million to help fund existing commitments in the asset recovery field.

Criminal Cases Review Commission

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department if he will make a statement on the *(a)* work and *(b)* effectiveness of the Criminal Cases Review Commission. [159664]

Paul Goggins: The Criminal Cases Review Commission acts as a safety net to the Criminal Justice System. I commend the hard work of its Chairman, Members and staff in establishing the Commission as an authoritative and respected body. The Commission has established a high reputation for its decision making, for

impartiality, openness and thoroughness and has won the confidence of the public, the legal profession and related pressure groups.

Two thirds of the Commission's referrals have lead to quashed convictions or reduced sentences.

The Commission will be able to analyse the legal and investigative issues that still commonly arise in miscarriages of justice. The Commission will be able to provide advice to other stakeholders and agencies within the criminal justice system on actions that could help to minimise their incidence. The Commission's main priority, however, is to deal with its case accumulation, minimising the waiting time for applicants particularly those in custody. With additional funding, the Commission has made a considerable reduction in the number of cases awaiting a review from the 1999 peak. I have every confidence that the Commission will continue to make good progress towards this goal despite the recent unexpected rise in the number of applications.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department on how many occasions the Criminal Cases Review Commission has received representations from people concerned about *(a)* a body of expert evidence and *(b)* particular investigative methods and subsequently investigated these concerns. [159706]

Paul Goggins: A large number of applications to the Commission have raised concerns over expert evidence and investigative methods. Such concerns when raised are considered and if necessary investigated further. Finding the precise number of such cases would involve a search of over 6, 500 records, which would incur disproportionate cost.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department if he will make a statement on his consultation with the Criminal Cases Review Commission regarding extension of its powers under section 17 of the Criminal Appeal Act 1995. [159707]

Paul Goggins: Home Office officials met most recently with the Criminal Cases Review Commission on 4 February 2004 to discuss further their proposals for extending their powers under section 17 of the Criminal Appeal Act 1995. The proposals involve the complex issue of third party disclosure and are still under active consideration.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department whether his Department will provide the Criminal Cases Review Commission with additional resources in order for it to *(a)* review and *(b)* research non-referred cases. [159708]

Paul Goggins: At the present time it would be inappropriate to distract the Criminal Cases Review Commission from its main goal of minimising case accumulation.

Criminal Records Bureau

Mr. Andrew Turner: To ask the Secretary of State for the Home Department how many Criminal Records Bureau checks were outstanding at the most recent date for which information is available for *(a)* less than four weeks, *(b)* four to six weeks, *(c)* six to 12 weeks, *(d)* 12 to 26 weeks and *(e)* more than 26 weeks; and what steps are being taken to reduce delays in responding. [162211]

Ms Blears *[holding answer 18 March 2004]:* The information that the hon. Member for Isle of Wight has asked for on the number of outstanding checks broken down in the manner requested is not available from the Criminal Records Bureau (CRB) systems.

A weekly report is produced by the CRB to establish the number of outstanding applications held within the computer system. This report displays applications that have been outstanding from one week to six weeks. These figures are broken down further to show the number of applications that have been with the CRB from 0-four weeks, four-six weeks and over six weeks.

As at 29 February 2004, the CRB has a total of 105,218 applications awaiting completion.

Of these applications:

97,756 are less than four-weeks-old

5,901 are four to six-weeks-old

1,561 are over six-weeks-old

The number of applications awaiting completion over six weeks, approximately 1.5 per cent. of the overall total, falls well within the 5 per cent. tolerance, as stipulated in our Public Service Standard.

The CRB continues to monitor its performance and implement measures aimed at minimising backlogs and streamlining the Disclosure process. These measures have included:

consulting Registered Bodies on how to encompass greater responsibility within their role, enabling speedier authentication of Disclosure applicants;

minimising data quality errors by providing advice and assistance to applicants and Counter signatories on completing the application form;

replacing our previous manually produced Fastrack system with an automated process;

providing additional resources to specific areas of concern.

For example, five members of CRB staff have been seconded to alleviate backlogs at Local Police Forces.

Jon Trickett: To ask the Secretary of State for the Home Department (1) what identity verification processes were incorporated into the contract specification at the time that the Criminal Records Bureau let the contract to Capita; what identity verification processes are being used; and if he will make a statement; [162600]

(2) what information sources are used by the Criminal Records Bureau in verifying postal addresses; and if he will make a statement; [162601]

(3) what sources of data he has directed that the Criminal Records Bureau should use in conducting identity verification processes. [162602]

Ms Blears: The initial contract with Capita, which envisaged the majority of applications being made via the telephone, included an on-line identity check using Experian's on-line system. This was deemed to be the most efficient method as an applicant could be asked for sufficient information to "pass" the check while making the application via the call centre.

The subsequent introduction of the paper application channel, which now accounts for 87 per cent. of all applications made this route unviable as specific questions aimed at obtaining a pass score cannot be asked on a paper application form.

In line with the recommendation of the Independent Review Team appointed by my right hon. Friend the Home Secretary in September 2002 powers have been taken in the Criminal Justice Act 2003 to make Registered Bodies solely responsible for identity and address verification. The CRB issues guidance to Registered Bodies showing the type of documentation a Registered Body should use to verify name and address. The CRB Code of Practice requires Registered Bodies to check documents contained in this list

The CRB does use "postcode look up" to verify that an address exists but does not carry out any further address checks. The revised contract with Capita reflects this.

Custody Suites (Cornwall)

Ms Atherton: To ask the Secretary of State for the Home Department how many custody suite facilities are available in Cornwall; and what plans he has for additional custody suites. [162648]

Ms Blears: There is currently one designated custody suite operating in Cornwall. This is at Camborne police station, which has 25 cells. However, St Austell police station, which has eight cells and is not designated as a custody suite, is currently being used as a temporary option while the 11 cells at Newquay police station are undergoing extensive refurbishment. When Newquay reopens in May this year, St Austell police station will no longer be used as a custody suite. Planners are currently considering the designs for a new custody suite at Launceton and subject to planning consent, this will be open in 2005 and will provide an additional 21 cells. There are other cells available in police stations across Cornwall that are not part of custody suite facilities.

Firearms

Mr. Salter: To ask the Secretary of State for the Home Department what plans he has to set up a working group to review the Firearms Rules 1998. [161770]

Caroline Flint: Any review of the Firearms Rules 1998 would be largely consequential on the outcome of the review we are undertaking of the principal legislation. Certain aspects of the Rules are, however, currently being looked at by a group of practitioners on which the police and shooting organisations are represented.

Historical Abuse Appeal Panel

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department if he will make a statement on the *(a)* work and *(b)* findings of the Historical Abuse Appeal Panel, established by the Criminal Cases Review Commission. [159712]

Paul Goggins: The Historical Abuse Appeal Panel was not established by the Criminal Cases Review Commission. It was created by a specialist group of lawyers. The Commission is working with the Panel on a number of applications that involve convictions for child sex abuse in care homes.

Immigration Appeals

Mr. Lidington: To ask the Secretary of State for the Home Department how many immigration appeal cases processed by the Appeals Processing Centre are awaiting despatch to the Immigration Appellate Authority. [161976]

Beverley Hughes *[holding answer 16 March 2004]:* Figures at the end of February showed that there were approximately 2,000 entry clearance cases and 2,000 in country immigration cases which had been processed by the Appeals Processing Centre and were awaiting despatch to the Immigration Appellate Authority.

Computer Misuse Act

Mr. Oaten: To ask the Secretary of State for the Home Department what plans he has to ask the Sentencing Guidelines Council to frame guidelines in relation to the Computer Misuse Act 1990. [162413]

Caroline Flint: The Sentencing Guidelines Council was created by the Criminal Justice Act 2003 and has a key role to play in improving consistency in sentencing. It will in due course consider guidelines in respect of all criminal offences.

Mr. Oaten: To ask the Secretary of State for the Home Department what recent *(a)* representations he has received and *(b)* discussions he has had regarding (i) judicial awareness of and (ii) sentencing guidelines in relation to the Computer Misuse Act 1990; and if he will make a statement. [162415]

Caroline Flint: We have not received any representations nor had any discussions with the judiciary in relation to the Computer Misuse Act 1990. However, changes will be made to section 1 of the Computer Misuse Act 1990 to increase the penalty threshold, to allow for the effective punishment of all acts undertaken by hackers and others in committing this offence. This and other changes to the Act will be brought forward when Parliamentary time allows.

Offender Management

Mr. Gerrard: To ask the Secretary of State for the Home Department what plans he has to produce a project initiation document in respect of the National Offender Management Service. [160894]

Paul Goggins: Establishing the National Offender Management Service will include a number of projects. Those individual projects will follow standard government project management procedures.

Mr. Oaten: To ask the Secretary of State for the Home Department if he will make a statement on the management of the female prison estate under the National Offender Management Service arrangements. [161162]

Paul Goggins: The structure of the National Offender Management Service (NOMS) is yet to be finalised. The implementation team are considering a range of issues including the management of the female prison estate within NOMS.

Mr. Oaten: To ask the Secretary of State for the Home Department when he expects to publish a project initiation document in respect of the National Offender Management Service; when he intends to appoint a project manager; and what the delivery date will be. [161163]

Paul Goggins: Establishing the National Offender Management Service (NOMS) will include a number of projects. Those individual projects will follow standard government project management procedures.

Eithne Wallis, former Director General of the National Probation Service, was appointed as change manager on 6 January. She is responsible for the implementation of the National Offender Management Service. A Programme Team to assist with the development of NOMS is being assembled. The National Offender Management Service will come into being on 1 June 2004 and it is anticipated that it will have become fully functional by 2008–09.

Mr. David: To ask the Secretary of State for the Home Department what consultations he has had with *(a)* employees and trade unions and *(b)* hon. Members about the new National Offender Management Service. [161218]

Paul Goggins: The document "Reducing Crime—Changing Lives" sets out the Governments initial response to the review of correctional services carried out by Patrick Carter.

The Home Secretary continues to seek views from key stakeholders on a number of issues raised in that document relating to the effective management of offenders. We are currently considering initial responses.

Prisons

Mrs. Ann Cryer: To ask the Secretary of State for the Home Department how many prison officers left prison service employment within *(a)* six months, *(b)* one year and *(c)* two years of becoming an officer in each of the last five years. [160746]

Paul Goggins: Between 1 August 2000 and 31 December 2003, 4,763 new prison officers were recruited (including existing staff who converted to the prison officer grade).

Information on the number of prison officers who left the service in this period during their first two years of service is given in the table. The figures include resignations and dismissals.

	Left within six months of appointment	*Left between six and 12 months of appointment*	*Left between one and two years of appointment*
August to December 2000	11	12	24
2001	21	25	82
2002	46	25	36
2003	87	77	63

Information is not held centrally for staff that left the Service prior to August 2000 and could be obtained only at disproportionate cost.

John McDonnell: To ask the Secretary of State for the Home Department (1) what the *(a)* certified normal accommodation and *(b)* number of prisoners held in each prison establishment was on 31 December for each of the past five years; [160470]

(2) what new accommodation has been provided at each prison establishment in each of the last five years; and how this new accommodation has affected the certified normal accommodation of each establishment. [160471]

Paul Goggins: The Certified Normal Accommodation and total population of each prison in England and Wales on 31 December of each of the past five years will be placed in the Library.

Quashed Convictions

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department how many quashed convictions arose from the work of *(a)* the Criminal Cases Review Commission between 1997 and 2003 and *(b)* the comparable Home Office unit in the period between 1991 and 1997; and what assessment he has made of the reasons for differences between the two figures. [159663]

Paul Goggins: By 31 March 2003, referrals from the Criminal Cases Review Commission had resulted in 77 convictions being quashed.

Between January 1991 and March 1997, 54 convictions that had been referred to the Criminal Division of the Court of Appeal by my right hon. Friend the Home Secretary were quashed (this includes one case where only two of several counts were overturned).

The Criminal Appeal Act 1995 introduced changes that make a direct comparison impossible. The major difference was the introduction of a court appeal process for summary offences. As the Home Secretary could refer only convictions for indictable offences in England and Wales back to the Court of Appeal, C3 Division of Criminal Department's work also included considering the use of the Royal Prerogative of Mercy to free applicants from the consequences of wrongful conviction for summary offences. The Commission's 77 convictions quashed include six from Northern Ireland. The Commission has greater powers to obtain documents etc. than the Secretary of State had, and has more staff than were available in C3 Division.

Racial Harassment

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what powers preventing racial harassment have been introduced since 1997; and how many times these powers have been used in Crosby. [160549]

Fiona Mactaggart: Prior to 1997 the Race Relations Act (RRA) 1976 already prohibited discrimination on racial grounds. The RRA did not specifically refer to harassment, but it was clear from case law that racial harassment was a type of detriment capable of amounting to the kind of less favourable treatment prohibited by the Act.

As part of its fulfilment of its obligations under the EC Race Directive the UK amended the Race Relations Act 1976 (by virtue of the Race Relations Act 1976 (Amendment) Regulations 2003) so as to make it unlawful to harass a person, on grounds of race or ethnic or national origins, in the areas of activity covered by the 1976 Act.

The Crime and Disorder Act 1998 created new and separate offences where the offences of causing fear and violence or of causing harassment, alarm or distress under the Public Order Act 1986, or the offences of harassment or putting in fear of violence under the Protection from Harassment Act 1997 were racially aggravated.

Figures for the number of prosecutions in Crosby for this type of offence are not centrally available. Merseyside Police figures for racially aggravated harassment offences (published by the Home Office under the requirements of S95 of the Criminal Justice Act 1991) show a total of 434 recorded offences of this type over the period 1999/2000 to 2001/02.

Shooting

Mr. Edwards: To ask the Secretary of State for the Home Department what representations he has received about excessive noise from gunfire by clay pigeon shooters; and if he will require clay pigeon shooters to attach silencers to their guns. [161028]

Alun Michael: I have been asked to reply.

My right hon. Friend, the Secretary of State, has not received any recent representations on excessive noise from gunfire by clay pigeon shooters. There are no plans to require clay pigeon shooters to attach silencers to their guns.

Mr. Salter: To ask the Secretary of State for the Home Department if he will make a statement on his policy on responsible and safe shooting sports conducted in accordance with the law. [161766]

Caroline Flint: The Government believe that shooting should be done in a responsible and safe way and in accordance with the law.

Mr. Salter: To ask the Secretary of State for the Home Department when he last met representatives of the British Association for Shooting and Conservation; and what was discussed. [161767]

Caroline Flint: I met representatives of the Association on 8 September 2003 to discuss their concerns about the firearms related provisions in what is now the Anti-social Behaviour Act 2003.

Special Constables

Stephen Hesford: To ask the Secretary of State for the Home Department what steps his Department is taking to support the recruitment of special constables. [162745]

Ms Blears: We are determined to boost Special's numbers as a central component of our reform agenda geared towards re-energising volunteering within neighbourhood policing.

We launched a £2.5 million advertising campaign in February to raise the awareness about Specials and their voluntary work. There has been a significant increase in expressions of interest in the Specials with, for example, calls to the recruitment hotline leaping from around 60 in the week before the TV ad first aired, to over 1,800 in the week of the 23 February.

The campaign was also timed to coincide with the second annual "National special Weekend" held on the 28–29 February, with all 43 Forces in England and Wales working to raise Specials' profile and to focus on local recruitment and employer support initiatives.

These measures are part of a wider initiative to increase Specials Number and effectiveness, which has also seen all 43 police Forces awarded a share of £2.75 million "Capacity building" funding to help develop and improve Specials' recruitment, management and retention. We hope that by 2006/07 another 3,000 Specials will have been recruited through wider public awareness and better management and communication by Forces.

CULTURE, MEDIA AND SPORT

Betting

Mr. Simmonds: To ask the Secretary of State for Culture, Media and Sport what plans her Department has for regulating betting exchange. [163143]

Mr. Caborn: The draft Gambling Bill now being scrutinised by a Committee of both Houses includes a number of proposals for the better regulation of betting exchanges.

Computer Misuse

Mr. Webb: To ask the Secretary of State for Culture, Media and Sport how many cases of computer misuse there were in her Department in *(a)* 1997 and *(b)* 2003, broken down by category of misuse; and how many of those cases resulted in disciplinary action. [163289]

Mr. Caborn: There were no cases of computer misuse in DCMS in either 1997 or 2003.

Grants (Religious Buildings)

Mr. Key: To ask the Secretary of State for Culture, Media and Sport what her policy is on the future of conservation and restoration grants to *(a)* English cathedrals, *(b)* English parish churches and *(c)* other religious buildings. [162839]

Mr. Caborn: The Government channel their funding for the built historic environment through English Heritage, which is the largest source of non-Lottery grant funding for listed cathedrals and churches in England.

English Heritage runs a Cathedral Repairs Grant Scheme for Church of England and Roman Catholic Cathedrals which are listed grade I or II* and/or are situated within a conservation area. A budget of £2 million was made available for this scheme in financial year 2003–04 to assist with urgent repairs to high-level roofs and masonry to keep the cathedral

building structurally stable and weather-tight. Grant offers have already been made under this scheme against a budget of £2 million for 2004–05. Following a review of all its grant schemes, and now that the majority of big repair projects to cathedrals in England have been completed, English Heritage has earmarked a budget of £3 million for this scheme in 2005–2008.

Together with the Heritage Lottery Fund, English Heritage funds the Repair Grants for Places of Worship in England 2002–05, which welcomes applications from all faith groups and denominations, both Christian and non-Christian, provided they are formally constituted religious organisations. £30 million was made available in financial year 2003–04 for grants for urgent repairs to listed places of worship in regular use. This scheme has benefited a large number of parish churches in England.

The Department for Culture, Media and Sport administers the Listed Places of Worship Grant Scheme, an interim scheme introduced in the 2001 Budget, which has returned in grant aid the difference between five per cent and the actual amount of Value Added Tax (VAT) paid on eligible repairs and maintenance. In his Budget announcement on 17 March 2004, the Chancellor of the Exchequer confirmed that claims for all eligible works carried out on and after 1 April 2004 will receive grant payments under the scheme to cover the full amount of VAT paid. Unless a permanent VAT reduced rate is achieved in the meantime as part of negotiations on a review of the EU rules governing VAT reduced rates, this scheme will continue until 31 March 2006. Listed places of worship belonging to all formally constituted religious organisations are eligible to apply to the scheme. Around 4,500 listed places of worship throughout the United Kingdom have so far benefited from the scheme, which has paid out over £18 million.

National Lottery

Bob Spink: To ask the Secretary of State for Culture, Media and Sport what proportion of Lottery funding has been spent on *(a)* health, *(b)* education and *(c)* environmental projects; and if she will make a statement. [162908]

Estelle Morris: One third of Lottery money for good causes is distributed by the New Opportunities Fund (NOF), which makes grants to health, education and environment projects. Of the money distributed by NOF, the approximate breakdown between health, education and environment projects as at February 2004 was as follows:

	Percentage of overall committed funding	*Percentage of overall payments (i.e. spend)*
Health	29	22
Education	57	65
Environment	14	13

Data on grants made by other National Lottery distributors to projects with a health, education and environment dimension are not collected.

Sporting Contacts (Ban)

Nick Harvey: To ask the Secretary of State for Culture, Media and Sport whether on 28 October 1997 Ministers had the power to invoke a ban on sporting contacts with other countries. [162474]

Mr. Caborn *[holding answer 18 March 2004]:* In October 1997, as now, the power existed to use visa controls to deny anyone entry from countries whose nationals require visas to visit the UK, including sports people where appropriate.

Television Ownership

Mr. Carmichael: To ask the Secretary of State for Culture, Media and Sport pursuant to the answer of 15 March 2004, *Official Report*, columns 57–8W, on television ownership, what estimates her Department has made of the number of United Kingdom households that do not own a television in each of the last 10 years. [163307]

Estelle Morris: The estimated number of households without a television in the United Kingdom in each of the last ten years is set out in the following table:

March	*Thousands of households*[1,2]
1994	646
1995	662
1996	692[3]
1997	664
1998	646
1999	641
2000	625
2001	599
2002	544
2003	515

[1] Based on data from the British Audience Research Board and from official estimates of numbers of Households

[2] Revisions to data prior to 2001 are expected as official household estimates for these years are to be revised.

[3] The higher figure in 1996 may not be reliable. Since the percentage of households not owning a television is small, the survey measuring this is inevitably prone to the incidence of sampling variation.

INTERNATIONAL DEVELOPMENT

Afghanistan

Mr. Chidgey: To ask the Secretary of State for International Development what assessment has been made of the refugee situation in *(a)* Zhare Dasht, *(b)* other camps within Afghanistan and *(c)* camps set up in Pakistan by refugees fleeing Afghanistan; and what support the UK is providing to (i) NGOs and (ii) the United Nations Refugee Agency to address the refugee problem. [162969]

Hilary Benn: DFID provided over £9 million funding to the United Nations High Commission for Refugees (UNHCR) and the World Food Programme (WFP) 2003 Afghanistan appeals. UNHCR and WFP have contracted local and international Non-Governmental Organisations to help provide basic health care, education, food and water in the refugee camps.

Refugees are now returning home. Recently, community leaders from refugee camps inside Afghanistan issued a written statement that they felt conditions in the North have now improved sufficiently for refugees to return. As a result, 30 families (118 individuals) from the Zahre Dasht camp returned to Farayab province on 21 March. UNHCR jointly facilitated the return and provided shelter, income generation opportunities and water to vulnerable returnees in their areas of origin.

From a high of one million refugees living inside Afghanistan in 2001, there are now fewer than 200,000. Similarly, over three million refugees have returned to Afghanistan from Pakistan and Iran.

Brazil/Bolivia

Hugh Bayley: To ask the Secretary of State for International Development how much his Department has allocated to UK non-governmental organisations this year for work in *(a)* Brazil and *(b)* Bolivia; how this sum is expected to change in real terms in the future; and if he will make a statement. [162962]

Hilary Benn: Under DFID's Civil Society Challenge Fund, the value of firm offers of support to UK NGOs for specific activities in Brazil and Bolivia in 2004–05 is £204,204.00 and £336,730.00 respectively. In addition, £454,589.00 has been provisionally allocated for regional projects, including possible interventions in Brazil and Bolivia. Future offers of support will depend on the numbers and quality of proposals submitted by civil society organisations.

In September 2003, £28,904.00 was provided to Helpage International through the Latin America bilateral programme in support of activities to be undertaken between September 2003 and August 2004 in Bolivia.

DFID will also be providing £61 million in strategic support in 2004–05 to 19 major UK based Non-Governmental Organisations (NGOs) in the form of global Partnership Programme Agreements (PPA). A number of these organisations currently support activities in Bolivia and Brazil. From 2005–06, DFID is proposing to increase partnership funding, to include PPA and NGO's working in middle-income countries and Latin America in particular.

Hugh Bayley: To ask the Secretary of State for International Development which UK non-governmental organisations funded by his Department carry out work in *(a)* Brazil and *(b)* Bolivia. [162963]

Hilary Benn: The UK Non Governmental Organisations (NGOs) funded by DFID, which have programmes in Brazil and Bolivia, are shown in the following list:

Brazil

Action Aid
CAFOD
CARE International
Childhope
Christian Aid
Concern Universal
Everychild
International Service
Leprosy Relief Association (LEPRA)
OXFAM
Save the Children Fund
War on Want
WWF

Bolivia

Action Aid
CAFOD
CARE International
Christian Aid
Helpage International
Homeless International
International Service
Intermediate Technology for Development Group (ITDG)
Marie Stopes International
OXFAM
Plan International
Save the Children Fund
WWF

Drinking Water Wells

Sir Teddy Taylor: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the EU project to dig 50 wells for drinking water; how many of these have been completed; and what steps are being taken to reclaim funds misappropriated in relation to this project. [161699]

Hilary Benn: The "Ysaka" project was approved and started in 2000, and implementation was delegated to a Management Unit led by two co-directors (one European and one Paraguayan). Seven wells have been completed to date. Up to December 2002, the European Commission had disbursed a total of 3.2 million euro to this project.

Serious financial anomalies were uncovered in January by the Commission's annual audit for the period of 1 January to 31 December 2002. The two co-directors were dismissed immediately and supervision of the project was transferred directly to the European Commission's delegation to Paraguay. The Commission's anti-fraud unit is currently conducting an investigation that will seek to recoup missing funds. In the meantime the Government of Paraguay have filed a criminal complaint against the two co-directors. DFID and the Foreign Office will continue to monitor the situation.

DFID does not have a bilateral assistance programme for Paraguay.

Energy Systems

Mr. Sheerman: To ask the Secretary of State for International Development (1) how he plans to develop renewable energy supplies within broader sustainable development and poverty reduction programmes; [162044]

(2) what steps he is taking to enable developing countries to have equal access to upfront funding for renewable and conventional energy systems. [162043]

Hilary Benn: Over the past 10 years, DFID has funded about £3.6 million of applied research on renewable energy, covering all the main renewable energy technologies, about half of this in the last four years.

We recognise the importance of access to affordable and reliable energy services to economic growth and development, drawing on the full range of appropriate technology options, including renewable energy. This was a key outcome of the 2002 World Summit on Sustainable Development (WSSD), and was included among the range of actions needed to reduce poverty.

As a follow-up to the WSSD, DFID is working with several international networks to promote improved access to energy services, including the Global Village Energy Partnership and the EU Energy Initiative. These programmes involve dialogue with developing countries about their energy needs in support of their poverty reduction objectives. Most countries possess a range of indigenous natural resources that may help meet requirements such cooking, heating, lighting and water pumping. Where they are practical and financially feasible, renewable energy resources may have an important role to play.

In addition, DFID is taking a lead role in discussions with the World Bank about increasing the share of renewable energy in meeting the energy needs of developing countries, wherever this is feasible and financially viable.

EU Aid

Bob Spink: To ask the Secretary of State for International Development what the EU's *(a)* humanitarian assistance and *(b)* international development assistance budget was in each of the last five years. [162938]

Hilary Benn: The following table, sets out the European Commission's humanitarian and official development assistance spend over the last five years for which this information is available.

European Commission Disbursements to All Developing Countries ($ M)

	Total Net Official Development Assistance (ODA)	*Emergency Aid*
2002	6263	510
2001	5517	526
2000	4414	519
1999	4911	677
1998	5124	501

Source:
Development Assistance Committee, Destination of Official Development Assistance and Official Aid—Disbursements (Table 2a)

Food Aid

Mr. Evans: To ask the Secretary of State for International Development how much customs levy the Government paid on food aid given to developing countries in 2003–04. [162189]

Hilary Benn: As import or customs duties represent an additional cost that would reduce the overall amount of development assistance provided, all UK development assistance is conditional on being free of all import or customs duties. Food aid provided by the Department for International Development is given as cash only in response to specific appeals so would not attract customs duties.

In 2002–03 DFID provided food aid to the value of £65 million.

In 2004 the EC provision for food aid is 419 million euro of which the UK share is 19 per cent. EC regulations stipulate this is also free of import or customs duties.

Guatemala

Mr. Martyn Jones: To ask the Secretary of State for International Development what assessment he has made of the extent of child labour in Guatemala. [162607]

Hilary Benn: Child labour is a significant problem in Guatemala with estimates of the number ranging from 550,000 to 900,000. The Government of Guatemala have ratified the International Labour Organisation (ILO) conventions, which call for the elimination of the worst forms of child labour, the rehabilitation of child labourers, and the prevention of child labour. They have also pledged to create a commission to examine the requirement for new regulations and the enforcement of existing labour legislation, but they face many constraints in putting these commitments fully in to effect. DFID will continue to monitor the Government of Guatemala's progress in doing so.

The International Programme for the Elimination of Child Poverty (IPEC) programme of the ILO is active in Guatemala. The programme focuses on child labour in eight sectors including coffee and broccoli cultivation and firework production.

Iraq

Tom Brake: To ask the Secretary of State for International Development how the war in Iraq has affected progress towards the Millennium Development Goals of *(a)* halving by 2015 the number of people in Iraq who suffer from hunger, *(b)* halving by 2015 the number of people in Iraq without sustainable access to safe drinking water, *(c)* improving the mortality rate for children under five in Iraq, *(d)* achieving gender equality in primary education in Iraq and *(e)* moving towards universal youth literacy in Iraq. [162893]

Hilary Benn: Under Saddam Hussein's regime, Iraq was moving away from the Millennium Development Goals. The provision of health care, education and essential services declined significantly between the 1980s and 2003. Iraq's position on the Human development Index fell from 76th in 1990 to 126th in 2000.

Following Saddam's overthrow, the international community pledged $32 billion in assistance for 2004–2007 at the Madrid Donors' Conference last October. A significant proportion of this finance will be invested in health, education and essential services including water supply and sanitation. Consideration is also being given to reducing Iraq's unsustainable external debt. This support, together with Iraq's considerable natural and human resources, should enable the country to move quickly towards meeting the Millennium Development Goals in the coming years.

Statistics are not available on progress over the last year on the specific Goals referred to in the question.

Malaria

Tim Loughton: To ask the Secretary of State for International Development what action he is taking to tackle malaria in sub-saharan Africa. [162972]

Hilary Benn: Great progress was made in reducing malarial mortality in the 1970s and 1980s, yet many parts of Africa are now seeing an increase in the number of deaths from malaria. A key cause is the increase in the resistance to anti-malarial drugs and the lack of affordable alternatives. In addition the capacity of health systems in sub Saharan Africa is often inadequate to respond effectively to malaria. Nonetheless, malaria remains a disease that is preventable, treatable and curable.

Since 1998 the Department for International Development (DFID) has provided in excess of £110 million to support malaria control activities globally and at country level. At the global level this include support to Roll Back Malaria; support to the Medical Research Council; support to the Malaria Consortium Resource Centre; and initiatives to help find new low-cost malaria treatments. DFID has committed US$ 280 million over seven years to the Global Fund to Fight AIDS, TB and Malaria (GFATM). The GFATM will fund distribution of insecticide impregnated bednets and appropriate ant-malarial medication.

DFID also supports malaria control activities at country-level through our bilateral county programmes, either through direct support to the health sector or through general budget support. DFID is committed to supporting national Governments and their partners to help ensure that effective drugs and commodities, including effective anti-malarial drugs, are accessible to the poor. Since 1997, DFID has committed £1.5 billion to strengthen health systems to deliver vital drugs and health care treatment.

Press Officers

Mr. Laws: To ask the Secretary of State for International Development how many press officers were employed in his Department in each year from 1990–91 to 2003–04; what the total cost was in each year; and if he will make a statement. [162857]

Hilary Benn: The information for all years from 1996–97 is as follows:

	Number of press officers	*Annual Cost (£000)*
1996–97	6	195
1997–98	6	243
1998–99	4	240
1999–2000	3.3	100
2000–01	4.5	150
2001–02	4	148
2002–03	5	191
2003–04	6	230

Information for 1990–95 is not centrally available and could not be obtained without incurring a disproportionate cost.

Search and Rescue Dogs

Tom Brake: To ask the Secretary of State for International Development how many search and rescue dogs based in the UK are available to attend disasters. [162696]

Hilary Benn: There are twelve collapsed structure search and rescue dogs that are registered with the National Search and Rescue dog group of which two are presently quarantined following their deployment to the Bam earthquake and two are being kept in Spain.

Tom Brake: To ask the Secretary of State for International Development what funding the Department made available for the provision of search and rescue dogs in each of the last five years. [162697]

Hilary Benn: The provision of search and rescue dogs is managed and supported by the non-governmental organisations themselves that comprise the National Search and Rescue dog group. DFID meets the costs of their deployment and return when the dogs are used overseas as part of a United Kingdom response to natural disasters such as earthquakes. It is not possible to disaggregate the deployment costs of the dogs as they are one part of a larger search and rescue effort and immediate response that usually also includes the delivery of other relief items by the same chartered aircraft.

Water

Mr. Gardiner: To ask the Secretary of State for International Development if he will increase resources made available for water management in Africa. [163374]

Hilary Benn: DFID's overall aim is to reduce global poverty and promote sustainable development, in particular through achieving the internationally agreed Millennium Development Goals (MDGs). Our goal in the water sector is to enable poor people to lead healthier and more productive lives by helping to increase and sustain their access to safe drinking water supply and appropriate sanitation.

The UK has worked hard to improve aid effectiveness by untying aid, focusing support on strategies drawn up by developing countries themselves, harmonising our assistance with other donors, and the use of new means of aid, such as direct budget support. More effective use of aid therefore, means moving away from donors allocating funding to selected sectors or to donor-led projects, and moving towards providing support that is consistent with national poverty reduction strategies. For this reason, DFID budgets according to regions and countries, and allows country programmes to determine priorities according to national plans.

DFID's strategy for water and sanitation is therefore aimed at seeking to ensure that water and sanitation issues are given the right level of priority within developing countries' plans although evidence suggests that this is not always the case. It is for this reason that DFID has recently published a Water Action Plan,

which sets out how we intend to take this work forward. The Plan sets out what needs to be done at the national, regional and international level. The key elements are: making sure water and sanitation issues figure prominently in policy discussions with our main partner countries in their reform agendas; providing evidence of the links between improved water management, water supply and sanitation and achieving all the MDGs, and ensuring that we are making use of this evidence in our policy dialogue; improving the way the international system works, by focusing support on key international partnerships and networks, particularly those that can improve co- ordination in the water sector.

The next step will be to put the plan into operation.

EDUCATION AND SKILLS

New Entrepreneur Scholarship

Mrs. Curtis-Thomas: To ask the Secretary of State for Education and Skills how many people have benefited from the New Entrepreneur Scholarship programme since its creation. [163320]

Mr. Ivan Lewis: 40 scholars participated in the initial pilots in 2000/01 (in Greenwich, Manchester and Cornwall) of whom 75 per cent. completed. 850 scholars participated in the national pilot during 2001/02 and 2002/03 of whom 85 per cent. completed. Following the success of the pilots the programme has been extended until at least 2006/07. 1,147 scholars have been recruited to the programme in 2003/04 with an expected completion rate of 90 per cent.

"Funding of a Better Future"

Mr. Gardiner: To ask the Secretary of State for Education and Skills what discussions he has had with the Association of London Government about the Funding of a Better Future report. [163379]

Mr. Miliband: I wrote to Sir Robin Wales on 18 November 2003 to thank him for sending me a copy of the Funding a Better Future report. In my reply I noted the work being done to ensure London schools receive maximum benefit from all available sources of funding, and welcomed his views on how best to ensure the coherence of funding streams relating to the Extended Schools initiative. Officials meet regularly with the Association of London Government to discuss a range of issues, including funding for London schools, in the context of the London Challenge Programme.

Education

Shona McIsaac: To ask the Secretary of State for Education and Skills what percentage of pupils in *(a)* North East Lincolnshire and *(b)* North Lincolnshire local education authority left school with no qualifications in each year since 1997. [162582]

Mr. Miliband: Information on pupils leaving school is not available, however, the percentage of 15-year-old pupils that failed to achieve a pass at GCSE or GNVQ are detailed in the following table:

Percentage of 15 year old pupils[1] achieving no passes at GCSE/GNVQ

Academic year	*North East Lincolnshire*	*North Lincolnshire*
1997	10.9	5.5
1998	10.1	3.9
1999	7.8	3.7
2000	6.7	3.0
2001	5.0	2.7
2002	5.5	2.9
2003	6.4	3.6

[1] Pupils are aged 15 at the start of the academic year i.e. 31 August.

Mr. Drew: To ask the Secretary of State for Education and Skills how many teaching assistants there were in schools in Stroud in each of the last seven years for which figures are available. [162743]

Mr. Miliband: The following table gives the numbers of full-time equivalent teaching assistants employed in maintained schools and non-maintained special schools in Stroud constituency for each year between 1997 and 2003, the latest year for which data are available.

	Number
1997	100
1998	101
1999	122
2000	120
2001	144
2002	167
2003	165

Source:
Annual Schools' Census.

Mr. Drew: To ask the Secretary of State for Education and Skills (1) how many and what percentage of pupils in Stroud reached the *(a)* mathematics and *(b)* English standard in each of the last seven years; [162819]

(2) how many and what percentage of 11-year old pupils in Stroud reached level four in *(a)* mathematics and *(b)* English in each of the last seven years. [162820]

Mr. Miliband: The results from the 2003 National Curriculum tests showed that 75 per cent. of 11-year-olds in England reached Level 4 in English and 73 per cent. in mathematics. These results represent a significant improvement in standards—of 12 percentage points in English and 11 percentage points in mathematics— since 1997, reflecting the impact of the National Literacy and Numeracy Strategies on primary schools. We remain absolutely committed, through our new Primary Strategy, to supporting schools to achieve the ambitious targets we have set for standards of literacy and numeracy.

The following table shows the number and percentage of pupils in Stroud who have achieved level 4 or above in the Key Stage 2 English and mathematics tests since 1997. The results for Stroud are above the national average, with improvements since 1997:

	1997	1998	1999	2000	2001	2002	2003
English—Number of pupils	870	899	972	1,069	1,118	1,134	1,048
Mathematics—Number of pupils	830	794	939	1,050	1,056	1,120	1,066
English—Percentage of pupils	70	72	76	79	82	82	80
Mathematics—Percentage of pupils	66	64	73	77	77	81	81

Note:
The number of eligible pupils for the Key Stage 2 tests varies slightly from year to year.

Mr. Drew: To ask the Secretary of State for Education and Skills how many and what percentage of 15 and 16 year-olds in Stroud achieved five or more GCSEs at grade A*-C or GNVQ in each of the last seven years. [162821]

Mr. Miliband: The statistical information requested is detailed in the following table:

Percentage of 15 year old pupils[1] achieving 5 or more GCSE/GNVQ grades A–C*

Percentage

Academic Year	Stroud Parliamentary Constituency	England
1997	55.6	45.1
1998	60.1	46.3
1999	60.5	47.9
2000	61.3	49.2
2001	61.0	50.0
2002	62.9	51.6
2003	65.5	52.9

[1] Pupils are aged 15 at the start of the academic year i.e. 31 August

Mr. Drew: To ask the Secretary of State for Education and Skills how many and what percentage of 16–19 year olds in Stroud achieved two A level passes or equivalent in each of the last seven years. [162822]

Mr. Miliband: The statistical information requested is detailed in the following table:

	Number achieving	As percentage of candidates
1997	351	76.0
1998	475	83.2
1999	469	88.2
2000	450	90.9
2001	465	93.4
2002	430	81.4
2003	452	88.5

[1] Age at beginning of academic year.
[2] VCE qualifications included in 2002 and 2003; Advanced GNVQ included in 1997–2001.

Education Funding

Mr. Hoyle: To ask the Secretary of State for Education and Skills how much public funding has been spent on education in Chorley in each of the last seven years. [161557]

Mr. Miliband: The information requested is submitted to the Department according to local education authority areas rather than districts within an area. Chorley is a district of Lancashire local education authority. The information for Lancashire LEA is as follows:

Net current expenditure

	Pre-primary education	Primary education	Pre-primary and primary education	Secondary education	Special schools	School spend	Total spend
1995–96	n/a	n/a	237,669,000	202,690,000	42,144,000	482,503,000	583,921,000
1996–97	n/a	n/a	239,587,000	207,231,000	46,585,000	493,403,000	590,313,000
1997–98	n/a	n/a	242,399,000	211,885,000	49,958,000	504,242,000	600,316,000
1998–99	n/a	n/a	209,279,000	179,286,000	38,631,000	427,196,000	507,425,000
1999–00	9,613,898	216,716,058	226,329,956	204,223,737	40,707,605	471,261,298	523,276,325
2000–01	14,411,530	235,524,422	249,935,952	217,880,659	41,733,773	509,550,384	547,388,079
2001–02	20,261,713	262,169,780	282,431,493	243,372,041	46,335,280	572,138,814	599,945,957

Notes:

1. The financial data are taken from Lancashire LEA's Section 52 Outturn Statement submitted to the DfES from 1999–2000 onwards and the ODPM's R01 statement prior to then.

2. Net current expenditure (NCE) includes expenditure within schools and also that incurred centrally by the LEAs.

3. Expenditure was not distinguished between pre-primary and primary sectors until the inception of the Section 52 outturn statement in 1999–2000.

4. School spend includes net current expenditure on pre-primary education, primary education, secondary education and special schools.

5. Total spend includes school spend plus net current expenditure on education out of school, continuing education and management and support.

6. 1995–96, 1996–97 and 1997–98 figures are for Lancashire LEA prior to local government reorganisation. From 1998–99 onwards parts of Lancashire LEA became Blackburn LEA and Blackpool LEA.

7. 1999–2000 figures reflect the return of GM schools to local authority maintenance.

8. Figures used are quoted in cash terms and are as reported by the LEA.

Mr. Bercow: To ask the Secretary of State for Education and Skills how much public funding has been spent on education in Buckinghamshire in each of the last seven years. [161577]

Mr. Miliband: The information requested is contained in the following table:

Net current expenditure

£

	Pre-Primary Education	*Primary Education*	*Pre-Primary and Primary Education*	*Secondary Education*	*Special Schools*	*School Spend*	*Total Spend*
1995–96	n/a	n/a	108,607,000	72,799,000	21,307,000	202,713,000	249,923,000
1996–97	n/a	n/a	112,070,000	73,504,000	22,543,000	208,117,000	254,977,000
1997–98	n/a	n/a	74,879,000	59,002,000	16,905,000	150,786,000	183,122,000
1998–99	n/a	n/a	77,251,000	62,331,000	17,502,000	157,084,000	187,327,000
1999–2000	2,961,537	81,370,766	84,332,303	86,700,327	14,676,470	185,709,100	209,350,972
2000–01	3,340,949	88,619,682	91,960,631	100,166,066	20,763,485	212,890,182	222,923,306
2001–02	4,597,617	95,433,818	100,031,435	111,692,694	26,257,833	237,981,962	245,130,302

Note:

1. The financial data are taken from Buckinghamshire LEA's Section 52 Outturn Statement submitted to the DfES from 1999–2000 onwards and the ODPM's RO1 statement previously.
2. Net current expenditure (NCE) includes expenditure within schools and also that incurred centrally by the LEAs.
3. Expenditure was not distinguished between pre-primary and primary sectors until the inception of the Section 52 outturn statement in 1999–2000.
4. School spend includes net current expenditure on pre-primary education, primary education, secondary education and special schools.
5. Total spend includes school spend plus net current expenditure on education out of school, continuing education and management and support.
6. 1995–96 and 1996–97 figures are for Buckinghamshire LEA prior to local government re-organisation. From 1997–98 onwards part of Buckinghamshire LEA moved into Milton Keynes LEA.
7. 1999–2000 figures reflect the return of GM schools to local authority maintenance.

Mrs. Dean: To ask the Secretary of State for Education and Skills how much public funding was spent per pupil in Staffordshire in each of the last seven years. [161842]

Mr. Miliband: The information requested is contained in the following table:

Net current expenditure per pupil

	Pre-primary education	*Primary education*	*Pre-primary and primary education*	*Secondary education*	*Special schools*
1995–96	n/a	n/a	1,603	2,198	9,305
1996–97	n/a	n/a	1,664	2,286	9,634
1997–98	n/a	n/a	1,653	2,291	9,809
1998–99	n/a	n/a	1,800	2,383	10,142
1999–2000	6,119	1,972	1,998	2,562	11,409
2000–01	9,331	2,198	2,243	2,783	12,428
2001–02	16,734	2,424	2,509	3,079	14,245

Notes:

1. The financial data are taken from Staffordshire LEA's Section 52 Outturn Statement submitted to the DfES from 1999–2000 onwards and the ODPM's RO1 statement previously.
2. Pupil data are drawn from the Annual Schools Census adjusted to be on a financial year basis.
3. Net current expenditure (NCE) includes expenditure within schools and also that incurred centrally by the LEAs.
4. Expenditure was not distinguished between pre-primary and primary sectors until the inception of the Section 52 outturn statement in 1999–2000.
5. The NCE per pupil figures for pre-primary and primary relate the net current expenditure (after recharges) in the pre-primary sector and maintained primary schools to the total number of financial year pupils who are educated in the maintained nursery and primary schools sector.
6. The NCE per pupil figures for secondary relate the net current expenditure (after recharges) in maintained secondary schools to the total number of financial year pupils who are educated in the maintained secondary schools sector.
7. The NCE per pupil figures for special schools relate the net current expenditure (after recharges) in maintained special schools to the total number of financial year pupils who are educated in the maintained special schools sector.
8. 1995–96 and 1996–97 figures are for Staffordshire LEA prior to local government reorganisation. From 1997–98 onwards part of Staffordshire LEA became Stoke-on Trent LEA.
9. 1999–2000 figures reflect the return of GM schools to local authority maintenance.

Education/Training (Greater London)

Simon Hughes: To ask the Secretary of State for Education and Skills how much funding was made available for adult learning in further education colleges in Greater London in each year since 1997. [163066]

Alan Johnson: The Department allocates funds for education and training in the post-16 learning and skills sector to the Learning and Skills Council (LSC). The LSC decides on allocations at individual college and regional level. Information about these allocations is not collected by the Department. This is a matter for the LSC. Mark Haysom, the Council's Chief Executive, will write to the hon. Gentleman with this information and a copy of his reply will be placed in the House Library.

Simon Hughes: To ask the Secretary of State for Education and Skills how many 16 to 18-year-olds not in education, employment or training there were in Greater London in each month since the Connexions service was established, broken down by borough. [163067]

Margaret Hodge: The number of 16–18 year olds in the five London Connexions Partnerships known not to be in education, employment or training (NEET) in each month since the Connexions Service was established is shown in the following table. Information at borough level is not available.

Number of 16–18 year olds known by the Connexions Service not to be in education, employment or training (NEET)

	Central London	East London	North London	South London	West London
2001–02

November	3,596	7,213	2,418	2,069	2,964
December	3,350	6,964	2,240	1,965	2,550

Notes:

(i) Connexions Partnerships were rolled out over two years commencing April 2001. North London and South London started in April 2001, East London in April 2002, Central London in June 2002 and West London in September 2002. It was expected that the NEET figures would increase during the start up period reflecting the wider remit of the Service to engage with all young people in the relevant age group.

(ii) Data for April 2001 to March 2002 are for 16–19 year olds. Data for 16–18 year olds were not available.

(iii) *Data for April 2001 and May 2001 were unavailable for North London Connexions Partnership due to initial difficulties in establishing coverage of the 16–18 cohorts.

(iv) The number of 16–18 year olds not in education, employment or training increases in September each year as summer school leavers enter the labour market for the first time.

(v) From April 2003 mandatory timescales were introduced for maintaining the currency of a young person's activity and thereby focus attention on the size of the NEET group. The variation between the partnership data from April 2003 indicates both the varying success partnerships have had in applying the follow up rules and the cyclical nature of the NEET group.

EU Accession State Students

Mr. Heathcoat-Amory: To ask the Secretary of State for Education and Skills what assessment he has made of the number of higher education students from the EU accession states after 1 May. [161012]

Alan Johnson: In 2002/03, there were 3,374 full-time undergraduates and 362 part-time undergraduates in the UK from the 10 countries acceding to the EU on 1 May 2004. This represents 0.2 per cent. of the UK and EU domiciled undergraduate student population in UK institutions. The funding made available to HEFCE and English universities for 2004–05 provides for a modest increase in student numbers from EU countries following accession. It is not possible to predict the numbers with certainty at this stage since a decision to study in the UK depends on a number of factors, including the availability of HE in the student's home country and their ability to support their own living costs.

Pupil Funding

Mr. Bercow: To ask the Secretary of State for Education and Skills how much public funding was spent per pupil in Buckingham in each of the last seven years. [161315]

Mr. Miliband: The information requested is submitted to the Department according to local education authority areas, rather than districts within an area. Buckingham is a district of Buckinghamshire local education authority. The information for Buckinghamshire LEA is as follows:

Net current expenditure per pupil

	Pre-primary education	Primary education	Pre-primary and primary education	Secondary education	Special schools
1995–96	n/a	n/a	1,821	2,626	12,809
1996–97	n/a	n/a	1,862	2,616	13,197
1997–98	n/a	n/a	1,862	2,670	14,438
1998–99	n/a	n/a	1,983	2,608	15,177
1999–2000	17,353	2,024	2,089	2,700	12,727
2000–01	19,128	2,245	2,319	3,025	18,310
2001–02	36,634	2,437	2,546	3,334	23,845

Notes:

1. Net current expenditure (NCE) includes expenditure within schools and also that incurred centrally by the LEAs.
2. Expenditure was not distinguished between pre-primary and primary sectors until the inception of the Section 52 outturn statement in 1999–2000.
3. The NCE per pupil figures for pre-primary and primary relate the net current expenditure (after recharges) in the pre-primary sector and maintained primary schools to the total number of financial year pupils who are educated in the maintained nursery and primary schools sector.
4. The NCE per pupil figures for secondary relate the net current expenditure (after recharges) in maintained secondary schools to the total number of financial year pupils who are educated in the maintained secondary schools sector.
5. The NCE per pupil figures for special schools relate the net current expenditure (after recharges) in maintained special schools to the total number of financial year pupils who are educated in the maintained special schools sector.
6. 1995–96 and 1996–97 figures are for Buckinghamshire LEA prior to local government reorganisation. From 1997–98 onwards part of Buckinghamshire LEA moved into Milton Keynes LEA.
7. 1999–2000 figures reflect the return of GM schools to local authority maintenance.
8. The financial data are taken from Buckinghamshire LEA's Section 52 Outturn Statement submitted to the DfES from 1999–2000 onwards and the ODPM's RO1 statement previously.
9. Pupil data are drawn from the Annual Schools Census adjusted to be on a financial year basis.

Mr. Hoyle: To ask the Secretary of State for Education and Skills how much public funding was spent per pupil in Chorley in each of the last seven years. [161453]

Mr. Miliband: The information requested is submitted to the Department according to local education authority areas rather than districts within an

area. Chorley is a district of Lancashire local education authority. The information for Lancashire LEA is as follows:

Net current expenditure per pupil

	Pre-primary education	*Primary education*	*Pre-primary and primary education*	*Secondary education*	*Special schools*
1995–96	n/a	n/a	1,802	2,551	13,987
1996–97	n/a	n/a	1,805	2,594	15,988
1997–98	n/a	n/a	1,824	2,631	17,315
1998–99	n/a	n/a	2,002	2,701	17,768
1999–2000	7,130	2,108	2,173	2,763	18,487
2000–01	11,033	2,326	2,437	2,914	18,768
2001–02	16,391	2,629	2,797	3,230	20,597

Notes:

1. The financial data are taken from Lancashire LEA's Section 52 Outturn Statement submitted to the DfES from 1999–2000 onwards and the ODPM's R01 statement prior to then.
2. Pupil data are drawn from the Annual Schools Census adjusted to be on a financial year basis.
3. Net current expenditure (NCE) includes expenditure within schools and also that incurred centrally by the LEAs.
4. Expenditure was not distinguished between pre-primary and primary sectors until the inception of the Section 52 outturn statement in 1999–2000.
5. The NCE per pupil figures for pre-primary and primary relate the net current expenditure (after recharges) in the pre-primary sector and maintained primary schools to the total number of financial year pupils who are educated in the maintained nursery and primary schools sector.
6. The NCE per pupil figures for secondary relate the net current expenditure (after recharges) in maintained secondary schools to the total number of financial year pupils who are educated in the maintained secondary schools sector.
7. The NCE per pupil figures for special schools relate the net current expenditure (after recharges) in maintained special schools to the total number of financial year pupils who are educated in the maintained special schools sector.
8. 1995–96, 1996–97 and 1997–98 figures are for Lancashire LEA prior to local government reorganisation. From 1998–99 onwards parts of Lancashire LEA became Blackburn LEA and Blackpool LEA.
9. 1999–2000 figures reflect the return of GM schools to local authority maintenance.

In-service Training (Schools)

Mr. Drew: To ask the Secretary of State for Education and Skills whether he plans to ringfence budgets for schools for in-service training purposes following the ending of specific support under the Standards Fund. [162742]

Mr. Miliband: No, we are committed to reducing ring-fenced budgets for schools. We believe that schools will get best value from their budgets by managing them as a whole in accordance with their own priorities.

Pupil Mobility

Mr. Gardiner: To ask the Secretary of State for Education and Skills what discussions his officials have had with the Prime Minister's Strategy Unit about their research into the effect of increased pupil mobility on education in London. [163418]

Mr. Stephen Twigg: Officials from the London Challenge Programme have met with the Prime Minister's Strategy Unit to discuss the relevant findings of the London Analytical Report, including those relating to pupil mobility. The London Challenge is addressing the particular challenges faced by schools with high levels of mobility through the Key Stage 3 Strategy and through the trialling of induction mentors in 22 London secondary schools as part of the 'On the Move' project.

Mr. Gardiner: To ask the Secretary of State for Education and Skills whether there is evidence of a disproportionate effect in London authorities arising from pupil mobility. [163420]

Mr. Stephen Twigg: Pupil mobility in some London schools is significant. Data published in the Ofsted report 'Managing Pupil Mobility' in 2002 showed that mobility in both inner and outer London was higher than elsewhere. Schools in inner London authorities had an average of 14.2 per cent. of pupils joining or leaving mid year. In Outer London the average was 6.8 per cent.. This compared to 5.9 per cent. for metropolitan authorities, 6.3 per cent. for unitary authorities and 5.7 per cent. for shire authorities. Ofsted evidence suggests that where mobility levels exceed 12 per cent. there is an impact on standards achieved for all pupils. We are seeking to address the issue of pupil mobility in London through the trialling of induction mentors in 22 London secondary schools, and by the dissemination of good practice through the Key Stage 3 Strategy.

Mr. Gardiner: To ask the Secretary of State for Education and Skills whether good practice guidelines on pupil mobility have been issued. [163421]

Mr. Ivan Lewis: The Guidance on Managing Pupil Mobility and the accompanying Handbook for Induction Mentors were launched on 26 November 2003. Copies are available from Prolog, from the Standards website at www.standards.dfes.gsi.gov.uk/schoolimprovement. Copies have also been placed in the House of Commons Library.

Rewarding and Developing Staff Initiative

Dr. Iddon: To ask the Secretary of State for Education and Skills what percentage of the Government's Rewarding and Developing Staff funding has been spent on *(a)* additional staff, *(b)* external consultants, *(c)* general salary increases, *(d)* individual salary increases and *(e)* performance related pay. [162064]

Alan Johnson: The Higher Education Funding Council for England (HEFCE) undertook an early evaluation of the Rewarding and Developing Staff initiative in its first year (2001–02). The evaluation findings did not provide information at the level of detail requested in the question, but did show investment by higher education institutions in the six areas prioritised by the scheme, as shown below.

Priority area	*Proportion of first year's investment*
Staff development (esp. management development)	30%
Recruitment and retention	30%
Reviews of staffing needs	12%
Job evaluation/equal pay	9%
Equal opportunities activities (excl. job evaluation/equal pay)	9%
Annual performance reviews	7%
Managing poor performance	3%

HEFCE will be evaluating the full first three years of the RDS initiative from autumn 2004.

Schools (West Suffolk)

Mr. Spring: To ask the Secretary of State for Education and Skills if he will list the schools in west Suffolk which ran a budget deficit in the year ended 31 March 2003; and how much this deficit was for each school. [163034]

Mr. Miliband: The information requested is submitted to the Department according to local education authority areas rather than districts within an area. West Suffolk is a district of Suffolk Local Education Authority. The information for Suffolk is as follows:

Schools which ran a deficit budget in the year ending 31 March 2003.

£

School name	*Deficit*
Claydon High School	88,658
Hartismere High School	73,826
Stowmarket High School	43,747
Bury St. Edmunds County Upper School	34,990
Westbourne High School	34,789
St. Felix C of E VC Middle School	26,051
Beacon Hill School	25,466
Glemsford Community Primary School	4,961
Hundon Community Primary School	4,592
Clifford Road Primary School	2,017
Downing Primary School	142

Notes:

1. The data are as reported by Suffolk LEA as at 18 March 2004 and taken from their 2002–03 Section 52 Outturn Statement submitted to the DfES.
2. 2002–03 data remain provisional and as such are subject to change by the LEA.
3. Deficit budget is taken from Table B column 13—other revenue balance. This includes the cumulative balance of income less expenditure from revenue funding sources during the financial year and the balance from previous years.
4. Figures are rounded to the nearest pound.

Teacher/Lecturer Salaries

Mr. Hancock: To ask the Secretary of State for Education and Skills what plans he has for the level of *(a)* teacher and *(b)* lecturer salaries, in real terms, in each of the next three years. [162673]

Mr. Miliband: My right hon. Friend has accepted the School Teachers' Review Body's recommendation that pay scales increase by 2.5 per cent. in April 2004 and by 3.25 per cent. in April 2005 to August 2006. This is in line with the Government's projections on the rate of inflation to 2006 and it is not, therefore, expected that teachers' pay will involve a real terms increase.

The Government play no part in setting the levels of pay in the higher education and further education sectors as universities and further education colleges are independent and autonomous bodies. Pay levels are subject to negotiations between employers and the representative trade union bodies. Pay levels will therefore vary from institution to institution.

Teachers' Pensions

Bob Spink: To ask the Secretary of State for Education and Skills what recent representations he has received regarding teachers' pensions; and if he will make a statement. [162872]

Mr. Miliband: Officials in the Department are working closely with representatives of teacher and employer associations on a wide-ranging review of the Teachers' Pension Scheme that will look at what improvements and flexibilities could be introduced as part of a package of changes that will include an increase to 65 in the scheme's normal pension age.

I have proposed that the higher pension age would be introduced for new teachers from 2006 and for the future service of existing teachers from 2013. I have also given the following assurances to teachers:

Current members of the scheme who reach age 60 on or before 31 August 2013 will not be affected by changes to the existing pension arrangements.

Pension benefits earned before the new arrangements start will be fully protected.

Teachers will still be able to retire at, before or after age sixty as they do now. At retirement, pension and lump sum benefits will take account of the number of years of service the teacher has worked before and after the changes.

Teachers, their union representatives and employers will be fully consulted on the changes.

The review will also examine what other benefits and flexibilities can be introduced into the pension scheme.

NORTHERN IRELAND

A-levels

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what methods are being employed to ensure that the percentage of pupils achieving at least three A grades at A-level in Northern Ireland is maintained. [160625]

Jane Kennedy: The standards of attainment of pupils of all abilities, including the most able, are maintained in all schools through teachers' professional development, and evaluated through inspection.

Costello Report

Mr. Beggs: To ask the Secretary of State for Northern Ireland which external consultants the Department of Education employed in the development, distribution and promotion of the Costello Report. [160984]

Jane Kennedy: No external consultants were employed by my Department in the development, distribution and promotion of the Post-Primary Review Working Group's report. A private company was contracted to print and distribute copies of the report to schools and other bodies.

Mr. Beggs: To ask the Secretary of State for Northern Ireland what amount was spent on *(a)* printing the Costello Report and *(b)* the design, printing and distribution of the leaflet, Information about Transfer Tests and New Post-Primary Arrangements. [160985]

Jane Kennedy: The cost of printing the Costello Report was £25,000 and the cost of the design, printing and distribution of the household leaflet was £134,000.

Mr. Beggs: To ask the Secretary of State for Northern Ireland if he will list *(a)* the groups and individuals he has met and *(b)* the groups and individuals that have requested a meeting with him to discuss post-primary arrangements, since the publication of the Costello Report. [160986]

Jane Kennedy: Since the publication of the Costello Report, I met with representatives of the UUP, DUP, SDLP, Sinn Fein, the Alliance Party and the Governing Bodies Association. I have received a request for a meeting with representatives of the Catholic Bishops of Northern Ireland and I hope to meet with them in the very near future.

Mr. Beggs: To ask the Secretary of State for Northern Ireland when guidance will be issued to schools about the management, planning arrangements and timetable outlined in the Implementation Process Timetable in the Costello Group Report. [160989]

Jane Kennedy: Schools will be kept informed about the implementation arrangements as they are developed. Advice about the initial stages of implementation is expected to be issued to schools before the end of the current school year.

Easter Uprising

Mr. Paul Marsden: To ask the Secretary of State for Northern Ireland what his policy is regarding returning original documents held by his office from the Easter uprising in Dublin in 1916 to *(a)* the nearest living relative and *(b)* the National Archives of Ireland. [162316]

Mr. Paul Murphy: The Northern Ireland Office holds no such records on the Easter uprising in Dublin in 1916. Public release of records by the Northern Ireland Office is carried out in accordance with the provisions of the Public Records Legislation.

Mr. Paul Marsden: To ask the Secretary of State for Northern Ireland for what reason his Office retained original documents on the Easter uprising in Dublin in 1916. [162319]

Mr. Paul Murphy: The Northern Ireland Office has not retained any original documents on the Easter uprising in Dublin in 1916.

Energy Costs

Mr. Beggs: To ask the Secretary of State for Northern Ireland what funds he will make available to help reduce energy costs in Northern Ireland; and if he will make a statement. [162669]

Mr. Pearson: The 2003 Budget included a proposal to remove some of the excess costs inherited from privatisation and reduce electricity bills for Northern Ireland businesses by some £30 million per year. I hope that the result of this will be an average decrease in electricity prices across the business sector of 10 per cent. below the levels they would otherwise have been, taking effect from later this year.

Department of Enterprise, Trade and Investment officials are continuing to work with The Northern Ireland Authority for Energy Regulation and Northern Ireland Electricity on the development of this proposed intervention. They are also working with the Department of Trade and Industry on the need to secure EU State Aid approval.

In addition I am, as part of the new strategic energy framework for Northern Ireland, considering other means of addressing the high energy costs here, including actions that can be taken to improve energy efficiency.

Fisheries

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what financial assistance is provided to fishermen in *(a)* Portavogie, *(b)* Ardglass and *(c)* Kilkeel who are involved in a tie-up-scheme to assist the Cod Recovery Programme; and if he will make a statement. [162918]

Mr. Pearson: A transitional aid scheme has been drawn up in consultation with the local industry and is currently under consideration by the European Commission.

My officials are pressing the Commission for their approval to detailed scheme proposals. Only when all essential approvals have been secured and the scheme has been launched will the figures of compensation paid to vessel owners by port be available.

Pay Dispute (Universities)

Mr. Beggs: To ask the Secretary of State for Northern Ireland if he will make a statement regarding the pay dispute at universities in Northern Ireland. [162695]

Jane Kennedy: The Association of University Teachers (AUT) is taking industrial action in support of its pay claim. University staff pay is determined by central UK-wide negotiating machinery in which Government are not involved.

The Department for Employment and Learning provides funding towards the recurrent costs of the universities but is not the employer of AUT members and has no locus in the determination of their pay. They are directly employed by the universities, which are autonomous bodies responsible for setting their own salary levels.

Planning and Development

Mr. Beggs: To ask the Secretary of State for Northern Ireland (1) how much the establishment of the area planning and development partnerships is expected to cost; and what budget will be allocated to the area planning and development partnerships in each Education and Library Board area; [160987]

(2) how much the establishment of the Strategic Planning and Implementation Group is expected to cost; and what budget will be allocated to it. [160988]

Jane Kennedy: The arrangements for the establishment of the Strategic Planning and Implementation Group and the Area Planning and Development Partnerships are under consideration. The purpose of these groups is to

provide a forum for key interests to work together. Costs have not yet been determined but are expected to be modest.

Mr. Beggs: To ask the Secretary of State for Northern Ireland (1) what steps have been taken to establish strategic planning and implementation groups; [160991]

(2) what steps have been taken *(a)* to establish area and development partnerships and *(b)* to appoint area planning and development partnership staff. [160992]

Jane Kennedy: The membership and functions of the Strategic Planning and Implementation Group are currently under consideration and I expect the Group to be established shortly. The Department of Education will take advice from the Group about the functions of Area Planning and Development Partnerships before they are established.

School Lockers

Lady Hermon: To ask the Secretary of State for Northern Ireland what percentage of schools in Northern Ireland provide full locker facilities for all pupils attending school. [161291]

Jane Kennedy: The information requested is not available and could be obtained only at disproportionate cost.

Seamus Ludlow

Mr. McNamara: To ask the Secretary of State for Northern Ireland on what date the Director of Public Prosecutions received papers prepared by the Chief Constable arising from his investigation into the murder of Mr. Seamus Ludlow; and what actions have been taken in respect of prosecutions in this case. [161219]

Mr. Paul Murphy: The Director of Public Prosecutions for Northern Ireland received the police investigation file in relation to the death of Seamus Ludlow on 23 October 1998.

On 15 October 1999 the direction for no prosecution was issued.

Southern Education and Library Board

Mr. Mallon: To ask the Secretary of State for Northern Ireland when annual funding to the Southern Education and Library Board will be made available; and if he will make a statement. [160333]

Jane Kennedy: I am pleased to say that all Education and Library Boards have now received details of their financial allocations for the 2004–05 financial year. These allocations reflect the Government's focus on improving the quality of service delivery in primary and post-primary education linked to a quality youth service.

FOREIGN AND COMMONWEALTH AFFAIRS

Afghanistan

Mr. Chidgey: To ask the Secretary of State for Foreign and Commonwealth Affairs how many people have so far been recruited to *(a)* the armed forces and *(b)* the police force in Afghanistan; how many of these recruits to the Afghan armed forces and police force have been retained (i) during the training and (ii) after the training has been completed; and how he intends to improve the retention of new recruits to the Afghan armed forces and police force. [162939]

Mr. Mike O'Brien: A total of 13.656 personnel have so far been recruited to the Afghan National Army (ANA). 8,912 have completed training and are now serving with deployed units, 1,589 are currently in training and a further 1,240 are at the initial processing stage. A total of 20,000 personnel have been or are being trained for the Afghan National Police (ANP) force. We do not have exact figures for retention in the ANP but overall retention rates appear better than in the ANA. Both army and police training are being accelerated following a recent significant increase in resources from the US.

International assistance for Afghanistan on army and police training is led by the US and Germany respectively. The UK has provided substantial assistance in both fields, elements of which should directly support retention. Support for ANA development has included £830,000 for refurbishment of ANA barracks to provide decent living and working conditions. We are in the process of providing a further £10 million to develop ANA recruitment centres. The UK provided basic assistance to the ANP to help ensure the retention of national police deployed in Mazar-e Sharif (where our Provincial Reconstruction Team is located). In addition, the UK has provided nearly £1 million of support to German-led refurbishment of the Afghan Border Police Headquarters in Kabul.

Mr. Chidgey: To ask the Secretary of State for Foreign and Commonwealth Affairs what policies are in place to prevent violence targeted against humanitarian aid workers in Afghanistan. [162968]

Mr. Mike O'Brien: Officials from the FCO, DfID and the MoD regularly meet representatives of the British Afghanistan Agencies Group to discuss a range of issues including security.

We and our international partners are committed to helping the Afghan Government improve the security situation in Afghanistan. In October 2003, the UN Security Council extended the mandate of the NATO-led International Security Assistance Force beyond Kabul. Work is in hand to expand the network of Provincial Reconstruction Teams (PRTs) deployed across Afghanistan, including in the south and south-east. PRTs aim to support the authority of the Afghan Government, improve the security situation, facilitate development and reconstruction and support Security Sector Reform. In the long-term Afghanistan must have an effective national army and police force. Work to recruit and train them has been under way for some time, with our active support and involvement. A wider programme of Security Sector Reform is also underway, including the disarmament, demobilisation and reintegration of former combatants.

Cyprus

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs whether *(a)* a

unity settlement and *(b)* an end to the occupation of Cyprus by Turkish armed forces is a prerequisite to advancing Turkey's EU candidacy status; and if he will make a statement. [163245]

Mr. MacShane: A Cyprus settlement is not a precondition for the opening of EU accession negotiations with Turkey. The UK is working to ensure a positive outcome in the ongoing settlement negotiations, including on security issues, on the basis of the UN Secretary General's proposals. We believe that is also the position of the Turkish Government—something which can only strengthen Turkey's relationship with the European Union.

Iran

Mr. Streeter: To ask the Secretary of State for Foreign and Commonwealth Affairs what progress has been made in persuading Iran to allow full International Atomic Energy Agency access to its nuclear facilities since he took part in the tripartite visit to Iran in 2003. [162396]

Mr. Mullin *[holding answer 18 March 2004]:* Together with our tripartite partners, we have continued to press Iran to meet all of its obligations under the agreement signed in Tehran last October. Following informal discussions in the margins of last week's meeting of the Board of Governors of the International Atomic Energy Agency (IAEA) and further high-level contacts in Tehran, Iran has now reversed its recent decision to suspend co-operation with IAEA inspectors. It is hoped that the inspectors will now gain full access to Iranian facilities.

Lancaster House

Tim Loughton: To ask the Secretary of State for Foreign and Commonwealth Affairs what the running cost of Lancaster House was in the last year for which figures are available. [163017]

Mr. Straw: In the financial year 2002–03 the running cost of Lancaster House was £1,882,000.

Tim Loughton: To ask the Secretary of State for Foreign and Commonwealth Affairs what the cost of *(a)* maintaining and *(b)* holding publicly funded functions at Lancaster House was in each of the last five years. [163018]

Mr. Straw: To provide the cost of holding publicly funded functions at Lancaster House for the last five years would incur disproportionate costs. However the cost of maintaining Lancaster House is as follows:

	£
1999	161,904
2000	375,679
2001	746,222
2002	325,632
2003	608,547

Tim Loughton: To ask the Secretary of State for Foreign and Commonwealth Affairs how many times Lancaster House was used for private functions in each of the last five years; and what revenue was brought in as a result. [163019]

Mr. Straw: No private functions are held in Lancaster House. However occasionally, on special request, the Crown Estate has allowed Lancaster House to be used for commercial filming. The revenue from this source over the last five years has been set out in the following table:

	£
1999	26,000
2000	0
2001	40,000
2002	95,000
2003	7,000

We are actively exploring the possibility of greater commercial use of the House in order to offset costs.

Tim Loughton: To ask the Secretary of State for Foreign and Commonwealth Affairs how many times Lancaster House was used by his Department for functions in each of the last five years. [163020]

Mr. Straw: In 2002 Lancaster House was used by the Foreign and Commonwealth Office 236 times and in 2003, 216 times. We are unable to provide figures for previous years as this would incur disproportionate costs.

Tim Loughton: To ask the Secretary of State for Foreign and Commonwealth Affairs what his Department's policy is on private hire of Lancaster House. [163021]

Mr. Straw: The lease for Lancaster House with the Crown Estate only permits its use by senior Civil Servants of grades 2 and above for official business. However on special request, the Crown Estate have on occasion allowed commercial filming to take place.

We are actively exploring the possibility of greater commercial use of the House in order to offset costs.

CONSTITUTIONAL AFFAIRS

Magistrates Courts

Bob Spink: To ask the Parliamentary Secretary, Department for Constitutional Affairs what plans he has to review the ease of access to magistrates courts for rural communities. [162877]

Mr. Leslie: I currently have no plans to review access to magistrates courts in rural communities. Decisions regarding the location of magistrates courts whether rural or urban are made by local Magistrates' Courts Committee's (MCCs) pursuant to Section 31 of the Justices of the Peace Act 1997.

From April 2005 a single executive agency will be created to administer the magistrates courts, the Crown court and the county courts in England and Wales. The new agency can further improve the way all the courts

work, by allowing the different parts of the system to work together more effectively to respond to local needs, including those of rural communities.

Project Funding

Mr. Colman: To ask the Parliamentary Secretary, Department for Constitutional Affairs how much was spent by *(a)* the Government and *(b)* the private sector on (i) solely state financed and (ii) public-private and private finance initiative projects in the Department in each of the last 10 years, broken down by region. [160857]

Mr. Leslie: The following table shows how much the DCA has spent on (i) solely state financed and (ii) public-private and private finance initiative projects in each of the last 10 years. The figures for the solely state-financed projects are for property and construction projects only. The figures for the public-private and private finance initiative projects include IT and property and construction projects.

An indication of the amount the private sector has spent on public-private and private finance initiative projects in the Department in each of the last 10 years can be found on the Treasury website at: http://www.hm-treasury.gov.uk/documents/public_private_partnerships/ppp_pfi_stats.cfm

	Solely state financed (£ million)	*Region*	*Public-private and private finance initiative projects (£ million)*	*Region*
1994–95	33.75	Wales and Chester	0	
	6.3	South East	0	
1995–96	32.7	South East	0	
1996–97	0		0	
1997–98	0		9.5	National
1998–99	0		19.5	
1999–2000	18.7	West	28.8	
2000–01	0		53.6	
2001–02	0		1.3	Midlands
			75	National
2002–03	0		1.4	Midlands
			99.7	National
2003–04 (expected)	0		1.5	Midlands
			107.7	National

Supreme Court

Annabelle Ewing: To ask the Parliamentary Secretary, Department for Constitutional Affairs which consultees expressed concerns as to the integrity of Scots law further to the proposals for a new UK Supreme Court. [162327]

Mr. Leslie: The Government published a summary of responses in January 2004. They have also published the full responses given by consultees on the Department for Constitutional Affairs website.

There was no specific question on Scots Law. Only James Chalmers, a lecturer at Aberdeen university, and two members of the public suggested that the proposals would have an adverse effect on the integrity of Scots law.

LEADER OF THE HOUSE

Bills (Timetabling)

Mr. Shepherd: To ask the Leader of the House if he will list for each bill introduced in *(a)* Session 2001–02 and *(b)* Session 2002–03 (i) the number of sittings in committees, (ii) the number of knives (A) for which provision was made and (B) which took effect, (iii) the number of groups of amendments not reached because a knife took effect, (iv) the number of clauses on which the question that the clause stand part was not reached because a knife took effect, (v) for how many days each bill was considered at report stage, (vi) the number of knives (X) for which provision was made and (Y) which took effect at report stage, (vii) the number of groups of amendments not reached because a knife took effect and (viii) how long was spent in debate (1) at second reading, (2) in committee, (3) in consideration on report and (4) on third reading. [162841]

Mr. Hain: I refer the hon. Member to my reply of 23 October 2003, *Official Report*, column 662W. In respect of 2002–03, much of this information is published in the First Report of the Modernisation Committee, Session 2002–03 (HC 1222, p Ev3). Further information has been published by the Procedure Committee in its Minutes of Evidence of 11 February 2004 (HC 325-i, available on the Committee's web pages).

Petitions

Bob Spink: To ask the Leader of the House if he will make it Government policy to ensure that *(a)* all petitions presented in the House are responded to by Government departments within five days and *(b)* where the petition requires a response from another body, it is responded to within 10 days. [162910]

Mr. Woolas: No. I believe that five days would be an unrealistic deadline for Government Departments to respond to petitions, and, if imposed, would lead to less helpful observations. In some cases, it may not be appropriate for the Government to respond to a petition at all. However, the Modernisation Committee is examining the handling of petitions as part of its inquiry into Connecting with the Public and my right hon. Friend is willing to contemplate change.

DEPUTY PRIME MINISTER

Aggregates (Removal)

Norman Baker: To ask the Deputy Prime Minister what environmental criteria he requires to be met before authorising the removal of aggregates from the sea bed. [162901]

Keith Hill: My right hon. Friend the Deputy Prime Minister gives careful and detailed consideration to all marine minerals dredging proposals and will only approve them once fully satisfied that there will be no significant harm to the marine environment and no harm to the coastline. A Coastal Impact Study must be produced for each proposal. All applications are subject to Environmental Impact Assessment and must be accompanied by an Environmental Statement. Each

application is subject to wide publicity and consultation with, among others, the Department of Environment, Food and Rural Affairs (DEFRA), DEFRA's Centre for Environment, Fisheries and Aquatic Science (CEFAS), the Environment Agency and English Nature.

Council Housing

Dr. Iddon: To ask the Deputy Prime Minister pursuant to his answer of 18 March 2004, *Official Report*, columns 447–48W, on council housing, whether the local authorities listed in the table chose the large scale voluntary transfer option; and if he will list the local authorities who chose the *(a)* Arms Length Management Organisation and *(b)* private finance initiative option whose tenants rejected these options. [163683]

Keith Hill: Five local authorities that had unsuccessful transfer ballots later had successful transfer ballots and have transferred their housing stock to a registered social landlord. These local authorities are:

Torbay

Mendip

Mid Bedfordshire

Maidstone

Cherwell

Camden is the only local authority that recommended an Arms Length Management Organisation (ALMO) to its tenants and secured a place on the ALMO programme, which subsequently had its recommendation rejected by tenants.

Camden is also the only local authority where tenants have rejected a Private Finance Initiative Bid.

Council Tax

Mr. Kidney: To ask the Deputy Prime Minister what the maximum council tax is that a local authority may set for *(a)* a second home and *(b)* an empty home; and to what purposes the local authority may apply the proceeds of the council tax received in each case. [162220]

Mr. Raynsford: From 1 April 2004, the Council Tax (Prescribed Classes of Dwellings)(England) Regulations 2003 (SI 2003/3011) allow local billing authorities to reduce the discount on most second homes to 10 per cent. and on long-term empty homes to zero. There is a national exemption from council tax for unfurnished dwellings which are vacant for six months or less. The maximum council tax which could be charged on a second home is therefore 90 per cent. and the maximum council tax which could be charged on a long-term empty home is 100 per cent. Council tax from second homes and empty homes can be used in the same way as council tax from other property. The proceeds are shared, between billing and precepting authorities. The effect of changing the discounts on second and long-term empty homes is to raise the tax base of an area and so local authorities in that area can raise more council tax. The Government will not adjust grant because of the extra income generated by reducing the second homes discount. This means local authorities in the area have the choice to spend this on local priorities or to have a lower council tax or precept than would otherwise have been the case. In the case of long-term empty property, the Government intend to adjust grant so that extra revenue will not be retained locally.

Departmental Staff

Mr. Prosser: To ask the Deputy Prime Minister what plans he has to *(a)* change staffing levels and *(b)* encourage (i) voluntary retirement and (ii) voluntary redundancies in the Department. [161476]

Yvette Cooper: The Office of the Deputy Prime Minister is reviewing its staffing resources as part of its business planning process and in the light of recommendations in the Lyons Review and the work currently under way in relation to the Gershon Efficiency Review. There is no current programme to encourage voluntary retirement or voluntary redundancies in the Office of the Deputy Prime Minister.

Housing

Mr. Reed: To ask the Deputy Prime Minister if he will estimate the revenue lost to Charnwood borough council in 2003–04 through exemption for council tax of houses of multiple occupation occupied solely by students. [162016]

Keith Hill: I refer the hon. Member to my answer of 17 March 2004, *Official Report*, column 379W. The council tax revenue lost to Charnwood borough council through exemption for council tax of houses of multiple occupation occupied solely by students is compensated by Charnwood borough council receiving an equivalent amount of additional Revenue Support Grant before floors and ceilings.

Mr. Austin Mitchell: To ask the Deputy Prime Minister how undertakings by local authorities to rehouse *(a)* released prisoners and *(b)* members of the forces released from service, together with their families, are maintained when councils transfer their housing stock to registered social landlords. [162766]

Keith Hill: After transfer local housing authorities retain their statutory functions in relation to homelessness and the allocation of housing. The Housing Allocation, Homelessness and Stock Transfer—A Guide to Key Issues issued by the Office of the Deputy Prime Minister in January 2004 advises that it is crucial for housing authorities to negotiate nomination agreements with the transfer landlord and other partner RSLs to ensure that they can continue to discharge their statutory responsibilities.

Mr. Austin Mitchell: To ask the Deputy Prime Minister what central Government spending was allocated since 1999, and to which authorities, to *(a)* paying off housing debt after large scale voluntary transfer, *(b)* grants and payments to Arms Length Management Organisations and *(c)* contributions to the cost of (i) fees, (ii) consultancies and (iii) information campaigns in ballots for transfer which had a (A) successful and (B) unsuccessful outcomes. [162769]

Keith Hill: Since 1999 there have been 10 large scale voluntary transfers where the receipt was insufficient and the Office of the Deputy Prime Minister made an overhanging debt payment. The payments are tabled as follows.

Financial year	Local authority	£ million
1999–2000	Burnley	21.0
2001–02	Coventry	111.7
2001–02	Calderdale	64.6
2001–02	Blackburn with Darwen	78.9
2002–03	St. Helens	87.2
2002–03	Redcar and Cleveland	25.4
2002–03	Knowsley	126.1
2002–03	Carlisle	18.0
2002–03	Bradford	182.8
2002–03	Walsall	108.7

The following allocations have been made to local authorities setting up Arms Length Management Organisations under Rounds 1–3 of the programme:

Round 1 ALMOs	Allocation 2002–04 (£ million)
Ashfield*	24.0
Derby*	31.1
Hounslow*	35.0
Kirklees*	62.5
Rochdale*	24.2
Stockton-on-Tees*	44.5
Westminster*	20.3
Wigan*	58.3

Round 2 ALMOs	Allocation 2003–05 (£ million)
Barnsley*	48.2
Blyth Valley*	17.5
Bolton*	53.0
Brent*	33.8
Carrick*	7.2
Cheltenham*	15.0
Colchester	13.5
Hillingdon*	16.6
Kensington and Chelsea*	21.7
Leeds East	14.7
Leeds North East*	10.5
Leeds North West	16.1
Leeds South East	10.4
Leeds South	22.6
Leeds West*	18.3
Oldham*	36.0
Salford	53.5
Waltham Forest	28.2

Round 3 ALMOs	Allocation 2004–06 (£ million)
Barnet	19.0
Camden	45.0
Easington	23.6
Gateshead	63.0
Harrow	5.0
High Peak	4.7
Islington	24.9
Newcastle	64.0
Poole	17.4
Sheffield (partial)	49.7
Solihull	21.0
South Lakeland	4.2
Warrington	18.3

All allocations are conditional on the local authority receiving approval to delegate its housing management functions to the ALMO under section 27 of the Housing Act 1985 and the ALMO receiving at least a two star rating from the Housing Inspectorate. Those marked * have fulfilled these two conditions and funding has therefore been confirmed. Salford and Camden have since withdrawn from the ALMO programme.

Expenditure incurred in carrying out the statutory consultation required under section 106A of the Housing Act 1985, including the cost of any ballot, is considered to be in connection with the management of dwellings held within the Housing Management Account and therefore must be charged to that account.

No payment is made by central Government towards the cost of such consultation and figures for the total expenditure on this, including the cost of fees, consultants and information campaigns by local authorities, are not held centrally.

Mr. Austin Mitchell: To ask the Deputy Prime Minister (1) what steps he has taken to consult council tenants about the Fourth Option of allowing councils to retain and improve their council house stock; [162931]

(2) what consultations he has held with *(a)* councils and *(b)* the Local Government Association about the Fourth Option of allowing councils to retain and improve their council housing stock. [162933]

Keith Hill: There has been no need for the Office of the Deputy Prime Minister to consult with individual council tenants or local government associations about local authority stock retention. All local authorities are aware that they can retain their housing stock if they can meet the decent homes standard through existing funding streams.

Local Government Grants

Miss McIntosh: To ask the Deputy Prime Minister what the effective grant increase to Harrogate borough council is in financial year 2004–05. [163040]

Mr. Raynsford: Harrogate borough council received a formula grant increase of £249,000 (3 per cent.) compared to the 2003–04 formula grant after adjusting for changes in funding and function i.e. on a like-for-like basis.

London Electorate

Mr. Gardiner: To ask the Deputy Prime Minister what steps he is taking to ensure that the London electorate is able to understand *(a)* the range of elections in June and *(b)* the different voting system they will have to use. [163378]

Keith Hill: Responsibility for promoting voter understanding in the June elections to the Greater London Authority and European Parliament rests with the Electoral Commission under the Political Parties, Elections and Referendums Act 2000. The Greater London Returning Officer has overall responsibility for organising and running the GLA elections and, in 2004, the European Parliament elections in the London region. I understand that the Electoral Commission and Greater London Returning Officer are working in partnership on a programme of public information and awareness.

The Government have made provision for the Greater London Returning Officer to include information about the GLA and European Parliamentary elections in the

booklet of election addresses by the Mayoral candidates, which the Greater London Returning Officer compiles and which will be delivered to each elector. The election rules also require the Greater London Returning Officer to provide notices for the guidance of voters which must be displayed at polling stations and for similar information to be sent to postal voters.

Ministerial Meetings

Mr. Hammond: To ask the Deputy Prime Minister when he last met members or officials of the Electoral Commission; what the purpose of that meeting was; and what the outcome was. [161002]

Phil Hope: My right hon. Friend the Deputy Prime Minister met with members of the Electoral Commission on 3 March to discuss issues relating to the piloting of all-postal voting at the European Parliamentary and combined local elections in June, including how many regions should be involved. Both parties agreed that the regions that the Office of the Deputy Prime Minister announced should use all-postal voting this year are each capable of running a successful pilot.

Regional Bodies

Mr. Neil Turner: To ask the Deputy Prime Minister if he will list the locations of the offices of regional bodies and agencies for which his Department is responsible, broken down by county. [162576]

Phil Hope: The Office of the Deputy Prime Minister is responsible for no regional bodies. The Office of the Deputy Prime Minister is responsible for the Government Offices for the Regions (GOs). The GOs are part of central Government and not regional bodies in their own right.

Supporting People Initiative

Mr. Kidney: To ask the Deputy Prime Minister (1) if he will review the proposed cuts in the Supporting People allocations for 2004–05 with a view to protecting from those cuts local authorities with low per head of population allocations; [159932]

(2) if he will reverse the proposed cuts in the Supporting People allocations for 2004–05 in respect of individual local authorities, with particular reference to Staffordshire. [159875]

Yvette Cooper: Following the late sharp increase in the size of the Supporting People budget last year the Government launched an Independent Review into the Supporting People programme. The review concluded that £1.8 billion was too much to pay for legacy funding, however it recommended that the pace of change needed to take account of the need to protect services for vulnerable people. This is why authorities have only been required to make a 2.5 per cent. efficiency saving in 2004–05 with an element of these funds being re-allocated elsewhere on the programme. The final Supporting People grant allocations for 2004–05 have now been made and will not be reverted. Those allocations reflect a very significant increase in funding compared to two years ago.

Decisions about longer-term future allocations are still under consideration, but we are looking at the wide variation in provision and circumstances between authorities. The intention has always been to move towards a needs based allocation formula, the Independent Review has made recommendations on the formula and we are looking at these recommendations in detail.

Mr. Kidney: To ask the Deputy Prime Minister pursuant to the written statement of 12 February 2004, *Official Report*, column 84WS, on Supporting People Programme 2004–05, whether reductions in funding allocation for the Supporting People Programme 2005–06 will only apply to local authorities with high unit costs. [160774]

Yvette Cooper: Future funding for Supporting People is being considered as part of the Spending Review 2004. Additionally an accelerated inspection programme will look at 19 high cost authorities to help address this issue.

Mr. Kidney: To ask the Deputy Prime Minister when he will announce funding allocations for the Supporting People Programme 2005–06. [160775]

Yvette Cooper: The Supporting People funding allocations for 2005–06 for England will be announced by November 2004.

Mr. Hoyle: To ask the Deputy Prime Minister if he will make a statement on the future funding of the Supporting People Programme for *(a)* 2004–05 and *(b)* 2005–06 in (i) the North West and (ii) Lancashire. [161350]

Yvette Cooper: The Supporting People Programme Grant Allocations for England for 2004–05 were announced on 12 February 2004. Future years funding for the programme is being considered as part of the Spending Review 2004.

HEALTH

Agency Staff

Mr. Burstow: To ask the Secretary of State for Health if he will estimate the cost of agency spending on staff other than doctors and nurses in the NHS in *(a)* England and *(b)* each strategic health authority for each year since 1997, broken down by category of staff. [144782]

Mr. Hutton: The National Health Service does not separately record the cost of employing agency staff. The following figures include total cost to the NHS of staff (excluding doctors and nurses) not directly employed by NHS bodies.

The table shows all non-National Health Service staff expenditure incurred by health authorities, NHS trusts and primary care trusts in England, broken down by staff category, excluding non-NHS doctors and non-NHS nurses. Details of expenditure in each health authority area for the years in question have been placed in the Library.

Expenditure on non NHS staff (excluding doctors and nurses—England)

£

Staff Category (by NHS classification)	*1997–98*	*1998–99*	*1999–2000*	*2000–01*	*2001–02*	*2002–03*
Dental Staff	1,332,649	933,032	764,933	3,131,477	4,405,459	5,117,828
Scientific, Therapeutic and Technical Staff	69,770,807	93,972,343	111,556,549	148,760,849	195,072,433	233,304,815
Administrative and Clerical Staff	59,577,521	72,006,752	89,992,230	117,545,163	153,690,347	172,345,658
Maintenance and Works Staff	3,240,005	4,195,167	4,370,933	5,089,984	5,770,689	6,668,042
Ambulance Staff	197,276	92,964	173,807	620,184	207,693	655,253
Healthcare Assistants and Other Support Staff	26,791,401	30,398,979	34,113,979	38,497,530	44,929,553	58,713,051
Other Employees	15,535,029	18,206,059	21,326,417	24,896,308	32,897,809	77,766,180
England Total	176,444,688	219,805,296	262,298.848	338,541,495	436,973,983	554,570,827

Note:
1. Annual Financial Returns of Health Authorities, 1997–98 to 2001–02
2. Annual Financial Returns of Strategic Health Authorities, 2002–03
3. Annual Financial Returns of NHS Trusts, 1997–98 to 2002–03
4. Annual Financial Returns of Primary Care Trusts, 2000–01 to 2002–03

The separate figures not included in the table for doctors and nurses include all medical staff and all nursing, midwifery and health visiting staff. All data for 2002–03 are provisional

Biomedical Sciences

Mr. Cummings: To ask the Secretary of State for Health what the current role of the Workforce Development Confederation of the NHS is in providing training and support for biomedical sciences for the NHS. [161029]

Mr. Hutton: Workforce development confederations are responsible for developing the existing and future workforce of the National Health Service, including those working in biomedical sciences. This includes assessment of the right number of staff and strategies to ensure that they are in place, including support for training and recruitment and retention initiatives.

The Higher Education Funding Council for England funds the majority of undergraduates in biomedical sciences. The NHS multi-professional education and training budget funds the year in service leading to state registration.

Care Homes

Miss McIntosh: To ask the Secretary of State for Health what his policy is on the differentials between rates paid by local authorities for residents in local authority care homes and those paid for residents in private care homes in the same local authority area. [163041]

Dr. Ladyman: Where council-run services are more expensive than those provided by the independent sector, councils need to demonstrate through best value reviews that those higher costs are justified.

Clinical Staff Numbers

Mr. Lidington: To ask the Secretary of State for Health (1) how many *(a)* doctors and *(b)* nurses there were per head of population in each year since 1997; [160474]

(2) how many *(a)* doctors and *(b)* nurses were practising per 1,000 population in each year since 1997. [160482]

Mr. Hutton: The table shows the number of doctors and nurses per 100,000 population in each year since 1997.

The standard ratio used in the Department is per 100,000 population.

Hospital, Public Health Medicine and Community Health Services (HCHS) Staff[1] and General Medical Practitioners (excluding retainers)[2] and all NHS qualified nursing, midwifery and health visiting staff, including Practice Nurses employed by Unrestricted Principals and Equivalents (UPEs)[3], per 100,000 of population

England *numbers (headcount)*

	1997	*1998*[4]	*1999*[4]	*2000*	*2001*	*2002*
Population	48,635,908	48,789,240	48,986,999	49,166,627	49,389,736	49,561,751
All Doctors[1] (excluding retainers)	89,619	91,837	93,981	96,319	99,169	103,350
Per 100,000 population	184.3	188.2	191.8	195.9	200.8	208.5
of which:						
HCHS Staff[1]	60,230	62,140	63,994	66,067	68,484	72,168
Per 100,000 population	123.8	127.4	130.6	134.4	138.7	145.6
General Medical Practitoners (excluding retainers)	29,389	29,697	29,987	30,252	30,685	31,182
Per 100,000 population	60	61	61	62	62	63

Committee on Safety of Medicines

Mr. Burstow: To ask the Secretary of State for Health (1) when the Committee on Safety of Medicines was first informed of the risk of stroke in certain atypical antipsychotics used for the treatment of elderly people with dementia; [161249]

(2) what arrangements his Department has for sharing information between the Committee on Safety of Medicines and similar organisations in other countries on the safety of medicines used internationally; [161250]

(3) what representations he received on the risk of stroke with antipsychotics before the announcement of 9 March 2004 on the treatment of people with dementia; [161251]

(4) what facilities the Committee on Safety of Medicines has for basing its decisions on medicines used in the UK on clinical trials held in other countries. [161252]

Dr. Ladyman: The safety of medicines is continually monitored by the Medicines and Healthcare products Regulatory Agency (MHRA), with expert advice from the Government's independent expert advisory committee, the Committee on Safety of Medicines (CSM).

Early information on the risk of stroke in dementia patients treated with risperidone was assessed by the MHRA in 2002, resulting in changes to the product information to include appropriate warnings. However, it was not until later in 2003, when further data became available, that revealed the magnitude of the risk and potential public health implications. The CSM was consulted in December 2003, as soon as all the data and subsequent analyses had been compiled and assessed by the MHRA. The CSM considered an assessment of all available data from clinical trials with risperidone and advised that additional analyses of the risperidone clinical trials in dementia and analysis of the risk of alternative treatments were required, as well as expert advice in the treatment of patients with dementia.

An expert working group, including geriatricians, psychogeriatricians and psychiatrists, met on 19 January 2004 to consider a formal meta-analysis of clinical trial data for risperidone and clinical trial data on olanzapine, which had recently become available. The CSM considered the recommendations of the expert working group at the end of January and advised that the risks of stroke with risperidone and olanzapine should be communicated accompanied by comprehensive treatment guidelines to inform the necessary changes in prescribing practice. In the case of a third atypical antipsychotic quetiapine, there were insufficient data to draw conclusions.

Risperidone has a United Kingdom marketing authorisation, whereas olanzapine has a European authorisation valid throughout the European Community. The communication in the UK on 9 March 2004 on risperidone and olanzapine was planned to coincide with a Europe-wide communication on olanzapine following consideration by the European scientific committee, the Committee for Proprietary Medicinal Products (CPMP) at its February meeting.

The CSM, through the MHRA, has close links with regulatory authorities world-wide. The MHRA is represented on the CPMP and its Pharmacovigilance Working Party (PhVWP), which meet monthly and provide a regular forum for discussion of drug safety issues within the European Union. An electronic communication system allows rapid exchange of drug safety information between member states. The PhVWP has regular videoconferences to share drug safety information with the Food and Drug Administration in the United States of America. The MHRA is a member of the Vigimed mailing list, which is an e-mail distribution list set up to facilitate rapid exchange of information between National Centres participating in the World Health Organisation International Drug Monitoring Programme. The MHRA also has informal links with other regulatory authorities world-wide.

There is an obligation on companies making an application for a marketing authorisation to provide the MHRA with all information relevant to the assessment of risks and benefits on the product at the time of the application; this includes data from clinical trials conducted outside the UK. For marketed drugs, the marketing authorisation holder's "qualified person", who is responsible for their pharmacovigilance system, has an obligation to inform the MHRA of any information relevant to the evaluation of the risks and benefits of the product.

Aside from the data and interpretation received from the company, and their corresponding applications to vary the Marketing Authorisation, no representations were received on the risk of stroke with antipsychotics before the announcement of 9 March.

Community Care Act

Mr. Burns: To ask the Secretary of State for Health how many local authorities had incurred fines following the introduction of the Community Care (Delayed Discharges etc) Act 2003, at the latest available date; how much the fines for each local authority have been since the Act came into force; what the total amount of fines incurred by local authorities is; and if he will make a statement. [162617]

Dr. Ladyman *[holding answer 22 March 2004]:* Figures for legal liability for delayed discharges for individual councils are not currently held centrally although data on the number of delays and the level of legal liabilities will be available in due course, once the data have been validated. However 17 councils have indicated that they have no liabilities for charges since reimbursement came into force. Further, the majority of social services departments have arranged local investment agreements with the national health service and will only pay charges once they exceed this locally agreed level of investment.

Continuing NHS Care

Mr. Burstow: To ask the Secretary of State for Health if he will make a statement on the review of continuing NHS care in nine strategic health authorities, referred to by the Parliamentary Under-Secretary of State Lord Warner on 10 March. [162188]

Dr. Ladyman: The independent review of the implementation of fully funded national health service continuing care in nine strategic health authorities is currently underway and is expected to be completed in the spring.

Delayed Discharges

Simon Hughes: To ask the Secretary of State for Health how many patients' hospital discharge was delayed while awaiting community care packages in *(a)* Greater London and *(b)* each London borough in each of the last six years. [162384]

Dr. Ladyman *[holding answer 18 March 2004]:* Data on delayed discharges are not collected on the basis of awaiting community care services. All available information on delayed transfers of care since 1997 are available in the Library, including the latest figures for 2003–04, Quarter 3 (December 2003).

Dentistry

Mr. Burstow: To ask the Secretary of State for Health pursuant to the oral answer of the Minister of State on 24 February 2004, *Official Report*, column 133, on dentistry, when the hon. Member for Doncaster, Central (Ms Winterton) will write to the hon. Member for Sutton and Cheam. [159809]

Ms Rosie Winterton: I wrote to the hon. Member on Tuesday 16 March 2004. A copy has been placed in the Library.

Drinking Water

Ms Walley: To ask the Secretary of State for Health what his Department's policy is on the provision of drinking water in NHS hospitals for *(a)* staff and *(b)* patients; and if he will make a statement. [161355]

Mr. Hutton: Departmental policy is to provide staff and patients in the national health service with wholesome potable water as required by the Water Supply (Water Quality) Regulations 1989. Most of the water supplied in the NHS is from mains supply. It is the responsibility of the relevant water company to deliver water of drinkable quality to the NHS site. NHS trusts are responsible for maintaining water quality within their buildings.

Care Eligibility Criteria

Mr. Burstow: To ask the Secretary of State for Health what monitoring and assessment his Department will carry out of the current review that strategic health authorities are undertaking of their eligibility criteria and of individual cases by March, as referred to by the Parliamentary Under-Secretary of State Lord Warner on 10 March. [162187]

Dr. Ladyman: There are no plans to evaluate the fully funded national health service continuing care eligibility criteria of each strategic health authority. It is the responsibility of each SHA to be satisfied that their criteria reflect existing guidance and the Coughlan judgment. The number of investigations completed and the number of cases granted recompense will be reviewed after the end of March deadline.

Energy Consumption

Brian White: To ask the Secretary of State for Health what progress has been made to date by NHS estates towards meeting his target of reducing energy consumption by 15 per cent. during this decade. [161200]

Miss Melanie Johnson: The national health service continues to make progress to meet this challenging target. Since the 1980s there has been a continuing downward trend in energy usage, carbon emissions are reducing and 68 per cent. of the existing NHS estate has already achieved the energy efficiency target.

NHS Estates is also working closely with Action Energy, NHS Purchasing and Supplies Agency (NHS PASA), and the Carbon Trust to support the NHS and provide best practice advice and guidance to improve energy efficiency.

Free Prescriptions

Mr. Baron: To ask the Secretary of State for Health what recent representations he has received on the categories of patients eligible for free prescriptions in England. [162231]

Ms Rosie Winterton *[holding answer 18 March 2004]:* Representations received since 1 January 2004 have been identified in respect of the following groups:

Medical Conditions:

Alopecia
Alzheimer's disease
Arthritis
Asthma
Autoimmune condition
Cancer
Chronic illness (unidentified)
Coeliac disease
Crohn's disease
Cystic Fibrosis
Downs Syndrome
Haemophilia
Heart condition
Hormone replacement treatment (male and female)
Hyperpituitarism
Hypertension
Incontinence
Kidney dialysis
Leg Ulcers, dressings
Lupus
M.E. (Chronic Fatigue Syndrome)
Mental Health (various)
Multiple sclerosis
Muscular Dystrophy
Parkinson's Disease
Pleurisy
Spleen removed
Ulcerative Colitis

Other circumstances:

Apprentices
Day Case Patients
Private Patients

Recipients of:

Carer's Allowance

Disability Living Allowance

Incapacity Benefit

Students

General Medical Council

Mr. Lansley: To ask the Secretary of State for Health whether proficiency in the use of the English language is a requirement for applicant doctors from the European Union seeking to register with the General Medical Council in order to work in the NHS. [162092]

Mr. Hutton: Doctors who are European Economic Area nationals do not have to undertake English language competency tests in order to register with the General Medical Council. The law does not currently permit this. It is the responsibility of national health service employers to ensure that all doctors they employ have the necessary English language competence to carry out their duties safely. They may require a doctor to undertake a language assessment as part of the recruitment process, regardless of which country they come from.

General Practitioners

Mr. Burstow: To ask the Secretary of State for Health if he will place in the Library a copy of the guidance to general practitioners on implementing the advanced access system; and if he will make a statement. [159781]

Mr. Hutton: A copy of "Improving access in primary care with Advanced Access" has been placed in the Library. This is produced by the primary care collaborative. A key role for the collaborative is to explain, promote and disseminate "Advanced Access". Participating general practices have delivered impressive results—delivering a 72 per cent, reduction in waits for a general practitioner and a 50 per cent, reduction in waits to see a nurse. In large part as a result of this work, most patients in most areas are now able to be offered fast access to a GP or other primary care professional, in line with the NHS Plan target.

Mr. Burstow: To ask the Secretary of State for Health what reimbursement is made available to GP practices meeting the *(a)* 48 and *(b)* 24 hour access targets. [159782]

Mr. Hutton: Under the new primary medical services contracts, a practice will, from 2005–06, be able to receive on average up to £11,000 annually for achieving and sustaining delivery of patient access to services in line with the NHS Plan target. Most patients in most areas are now offered this level of access and we are confident that these financial incentives will ensure that this level of access continues and improves further.

Mr. Spring: To ask the Secretary of State for Health how many general practitioners there are per head of population in each of the primary care trusts within the Norfolk, Suffolk and Cambridgeshire Strategic Health Authority. [163032]

Dr. Ladyman: The number of general practitioners per head of population for each primary care trust within the Norfolk, Suffolk and Cambridge Strategic Health Authority area is shown in the table.

Unrestricted Principals and Equivalents[1] (UPEs) per 100,000 patients for Norfolk, Suffolk and Cambridgeshire Strategic Health Authority by Primary Care Trust as at 30 September 2003

Numbers (headcount)

	UPEs	*UPE patients*	*UPEs per 100,000 patients*
Norfolk, Suffolk and Cambridgeshire	1,341	2,211,268	61
of which:			
Broadland	73	119,170	61
Cambridge City	87	137,350	63
Central Suffolk	63	95,586	66
East Cambridgeshire and Fenland	81	148,405	55
Great Yarmouth	47	89,627	52
Huntingdonshire	94	148,749	63
Ipswich	88	147,514	60
North Norfolk	60	100,541	60

Department of Health General and Personal Medical Services Statistics

Great Ormond Street Hospital

Bob Spink: To ask the Secretary of State for Health how many complaints were received in the last two years, by Great Ormond Street Hospital regarding pay for junior doctors on rotation; how many junior doctors were involved in those complaints; how many of those complaints have been settled; what procedures are in place to enable junior doctors to force such complaints to be addressed; and what time limit is placed on the hospital in settling such complaints or appeals. [R][158546]

Mr. Hutton: I am advised by North Central London Strategic Health Authority that:

Great Ormond Street Hospital National Health Service Trust has received three formal grievances/complaints regarding junior doctors banding and pay protection.

12 junior doctors from Great Ormond Street Hospital were involved in those complaints.

One grievance/complaint involving eight doctors has been settled.

The procedures in place are as set out in the national guidance and the process is being handled through the North Central London action team.

This appeal process does not outline time-scales for completing the process (as in the case of the Employment Tribunal, the time-scale is influenced by the individual case). Great Ormond Street also has its own internal appeals process, which would be triggered if either party is unhappy with the views expressed by the action team on this matter.

Hand Hygiene Trial

Dr. Murrison: To ask the Secretary of State for Health what the cost of the NHS hand hygiene trial launched in July 2003 was; and what the outcome was. [160605]

Mr. Hutton: The National Patient Safety Agency launched a 'clean your hands' pilot campaign in July 2003. It aims to develop solutions to improve hand hygiene compliance by national health service staff, by testing ideas at six pilot sites. It is estimated that about £600,000 would be required to launch a campaign and supply a toolkit to every acute sector ward in the NHS, which works out at a cost of less than £2,000 per trust. The annual cost to the NHS of healthcare acquired infections has been estimated to be about £1 billion.

The evaluation report will be available in April 2004, but preliminary findings show that it achieved its objectives in raising staff and patient awareness of the importance of hand hygiene and increasing hand hygiene compliance.

Health Services (Chorley)

Mr. Hoyle: To ask the Secretary of State for Health what changes have been made to NHS waiting list times in each of the last seven years for Chorley residents. [161593]

Miss Melanie Johnson: Information most closely associated with place of residency is not collected on a constituency level, but at a health services commissioner level. Data are shown in the tables for the South Lancashire Health Authority for the period 1997 to 2002 and the Chorley and South Ribble Primary Care Trust for 2003.

In-patient waiting list in months

	Name of commissioners	*Total*	*0–2*	*3–5*	*6–8*	*9–11*	*12–14*	*15–17*	*18 plus*
1996–97	South Lancashire HA	10,092	4,565	2,587	1,696	1,069	160	12	3
1997–98	South Lancashire HA	10,414	4,566	2,391	1,580	1,128	563	186	0
1998–99	South Lancashire HA	9,179	4,259	2,285	1,354	839	356	86	0

Hepatitis C

Dr. Murrison: To ask the Secretary of State for Health how many dependants will not receive compensation from the Hepatitis C Ex Gratia scheme as a result of the 29 August 2003 cut-off. [155537]

Miss Melanie Johnson: It is not possible to estimate accurately the number of dependants of people in England who were infected with hepatitis C as a result of National Health Service treatment with blood or blood products and who died of all causes before 29 August 2003.

However, the latest figures from the UK Haemophilia Centre Doctors Organisation indicate that a total of 212 people with haemophilia have died as a direct result of the effects of hepatitis C. The number of non-haemophiliacs who have died as a direct result of the effects of hepatitis C is not known.

Heroin Substitutes

Paul Flynn: To ask the Secretary of State for Health what assessment he has made of the efficacy of prescribing heroin substitutes. [162519]

Miss Melanie Johnson *[holding answer 22 March 2004]:* The DH clinical guidelines, published in 1999, lay out the principles of safe and responsible prescribing to drug misusers. The guidelines discuss a number of alternative opiate and non-opiate substitute drugs. The recommendations in the guidelines are based on an expert review of the evidence.

Building on that, the National Treatment Agency (NTA) has produced guidance on the drugs used for substitute prescribing. This guidance was produced with the help of an expert working group, who based their advice on the evidence base. The NTA have also published guidance on the prescribing of injectable opiates for the small group of drug misusers who do not respond to oral substitute prescribing.

Hospital Food

Sue Doughty: To ask the Secretary of State for Health what measures are in place to ensure that hospitals provide *(a)* nutritious and *(b)* high quality food for patients. [161649]

Mr. Hutton: The NHS Plan required hospitals, by 2004, to have a hospital nutrition policy to improve the outcome of care for patients and reduce dependency on intravenous feeding regimes. Hospitals should also ensure that their menus are subject to nutritional analysis to ensure they meet the needs of patients.

To assist hospitals in providing high quality food and food services, NHS Estates developed the Better Hospital Food programme. The national health service

is making good progress in delivering these new services which reflect patients' preferences and provide a wider range of food options, including recipes and product purchasing specifications. In addition, the NHS Purchasing and Supply Agency has in place stringent controls to ensure the quality of all food for which contracts are negotiated on behalf of the NHS.

Patient environment action teams inspect the quality of food served in hospitals as part of their annual assessments.

Immigrant Medical Inspections

Mr. Randall: To ask the Secretary of State for Health what criteria are used for referrals to medical inspectors of immigrants at *(a)* Heathrow Terminal 3, *(b)* other terminals at Heathrow, *(c)* Gatwick north terminal, *(d)* Gatwick south terminal and *(e)* Manchester airport; and what the reasons are for any differences. [156847]

Miss Melanie Johnson: Under paragraph 36 of the Immigration Rules (HC395 as amended), Immigration Officers have the power to refer any individual who is subject to immigration control to a doctor for a medical examination at the port of entry.

Long-standing policy is that any person subject to immigration control who:

- mentions health or medical treatment as a reason for coming to the United Kingdom, or appears unwell; or
- is seeking leave to enter the United Kingdom for six months or more and is at high risk of having been exposed to tuberculosis

should be referred by the Immigration Officer to a medical inspector.

We are advised by the Home Office that these criteria apply at all ports of entry.

Medical Students

Dr. Murrison: To ask the Secretary of State for Health what proportion of medical graduates failed to embark on medical careers in each year since 1990. [161025]

Mr. Hutton: The information is not available in the form requested. The Medical Careers Research Group periodically surveys selected cohorts of medical school graduates. Their latest available data on whether doctors are still practising medicine is shown in the table.

Year of Qualification	*Cohort size*	*Not practising medicine*		*Not practising medicine in the UK*	
		Number	*Percentage*	*Number*	*Percentage*
1974	2344	131	5.6	339	14.5
1977	3130	184	5.9	395	12.6
1983	3841	204	5.3	357	9.3
1988	3731	307	8.2	514	13.8
1993	3639	188	5.2	322	8.8
1996	3836	182	4.7	302	7.9

MMR Vaccine

Mr. Neil Turner: To ask the Secretary of State for Health what the take-up rate of MMR vaccine was in the last five years for which figures are available, broken down by strategic health authority. [162060]

Miss Melanie Johnson: Information about the childhood immunisation programme, which includes children immunised by their first and second birthday, and from 1999 to 2000 by their fifth birthday, is derived from the COVER (Cover of Vaccination Evaluated Rapidly) system and collected by the Health Protection Agency.

Information about the uptake of MMR immunisations and other childhood immunisations is published annually in Department of Health Statistical Bulletins. The latest bulletin, "NHS Immunisation Statistics, England: 2002–03" is available in the Library and on the Department's website http://www.publications.doh.gov.uk/public/sb0316.pdf. This is the first year that uptake by strategic health authority has been available.

Quarterly figures on MMR Uptake from April 2003 to September 2003 are available on the Health Protection Agency's website at, http://www.hpa.org.uk/infections/topics_az/vaccination/cover_sha.htm

National Programme for Information Technology

Mr. Burstow: To ask the Secretary of State for Health pursuant to the Answer of 4 March 2004, *Official Report*, column 1112W, on the IT Programme, what the total projected cost of the National Programme for Information Technology was for each year when it was announced, including local and central procurement; what the latest available total projected cost is; and if he will make a statement. [160702]

Mr. Hutton: I refer the hon. Member to the response I gave him on 4 March 2004, *Official Report*, column 1111W, which set out the projected costs of the national programme for information technology (NPfIT) when it was announced in June 2002.

Since that time contracts of up to nine years duration have been awarded under the NpfIT, as shown in the table.

Company	*Value (£ million)*	*Contract*
BT	620	National data spine
BT	530	National broadband network
Atos Origin SchlumbergerSema)	64.5	National e-booking service
Accenture	1,099	North East local service provider (LSP)
Accenture	934	Eastern LSP
BT	996	London LSP
CSC	973	North West and West Midlands LSP
Fujitsu	986	Southern LSP

Local spend by national health service trusts on IT has been approximately £850 million per year and this level of local investment from the baseline allocation needs to continue to provide adequate resource to support local implementation of the national programme.

National Service Frameworks

Sandra Gidley: To ask the Secretary of State for Health for which of his Department's National Service

Frameworks specific funding has been allocated to primary care trusts for the delivery of the guidelines; and if he will make a statement. [161935]

Mr. Hutton: Revenue allocations to primary care trusts (PCTs) for 2003–04 to 2005–06 were announced on 11 December 2002. The allocations include funding for all national service frameworks and national policy developments. None of the growth money has been identified for specific purposes. PCTs will be able to use these extra resources to deliver on both national and local priorities.

Neurofibromatosis Association

Mr. Lansley: To ask the Secretary of State for Health when the Neurofibromatosis Association will be told the outcome of their section 64 grant application for the development of a specialist adviser service. [162498]

Dr. Ladyman: The Neurofibromatosis Association were told the outcome of their section 64 grant application verbally on 19 March, and a letter of notification was sent to them on the same day.

NHS Capital Use

Mr. Burstow: To ask the Secretary of State for Health if he will list for each *(a)* NHS region, *(b)* strategic health authority and *(c)* NHS trust the (i) monetary value of approvals to use capital for revenue purposes, (ii) the number of approvals and (iii) the total capital allocation for 2002–03. [153933]

Mr. Hutton *[holding answer 9 February 2004]:* The information requested has been placed in the Library.

NHS Professionals

Mr. Burstow: To ask the Secretary of State for Health if he will estimate *(a)* the total cost to date of NHS Professionals and *(b)* the total savings the agency has made in the cost of agency spending; and if he will make a statement; [159773]

Mr. Baron: To ask the Secretary of State for Health pursuant to his answer of 4 February, *Official Report*, column 969W, on NHS Professionals, (1) what assessment he has made of how much NHS Professionals *(a)* has saved and *(b)* has cost to set up and run to date; [160415]

(2) how much funding NHS Professionals has received from the Department for set-up and running costs in each year since its inception; [160498]

(3) how much funding NHS Professionals is forecast to receive from the Department in future financial years; and whether it is predicted to be self-funding. [160593]

Mr. Hutton: NHS Professionals was initially allocated £7 million to support the start up of pilot sites. A further £24 million was invested in 2002–03 to support roll out and it is anticipated that approximately £22 million will be spent in 2003–04. The NHS Professionals Special Health Authority business plan for 2004–05 is currently being finalised. The business plan will set out the level of funding required for NHS Professionals to be self-sustaining in the longer-term.

The cost savings for National Health Service trusts using the NHS Professionals service are accrued at a local level and there is currently no central collection of this information. Information on local benefits and savings will be collected in future by the newly established NHS Professionals Special Health Authority.

NHS Staff (IT Qualifications)

Dr. Murrison: To ask the Secretary of State for Health (1) what estimate he has made of the cost per individual of training and accrediting NHS staff with the European Computer Driving Licence for IT; and whether this estimate includes financial costs incurred through lost working hours; [161021]

(2) what the implications of the National Plan for IT in the NHS are for NHS staff who are unable to *(a)* demonstrate proficiency in IT and *(b)* obtain a European computer driving licence; [161022]

(3) which types of NHS staff will be required to obtain a European computer driving licence; [161023]

(4) how many NHS staff hold a recognised IT qualification for the purposes of working in the NHS; and whether such staff will be required to obtain a European computer driving licence; [161024]

(5) if he will estimate the number of NHS staff who will be required to obtain a European computer driving licence (ECDL); and whether staff who already have a recognised IT qualification will be required to obtain an ECDL. [161027]

Mr. Hutton: The European Computer Driving Licence (ECDL) is a qualification recognised around the world for basic computing skills. General information technology skills should be seen as an everyday requirement for any service based organisation. The opportunity to gain the ECDL qualification is offered to all staff working in the National Health Service. For NHS staff, it provides a basic level of knowledge, which enables people to demonstrate their competence in computer skills. The ECDL is completed in modules and designed to be completed over time and to fit in and around any other work requirements.

There is no formal requirement for NHS staff to hold the ECDL for the purpose of working in the NHS. As a matter of good practice, and as part of its commitment to life-long learning, the NHS encourages all staff to develop appropriate skills, including competency in the use of IT.

The national health informatics development team within the NHS Information Authority has put in place central facilities to support local NHS organisations in training needs around the ECDL. Since the programme was launched in March 2003, 9,000 people have qualified and a further 54,000 have registered. It is expected that up 40 per cent. of NHS staff will register over the five year timescale of the central programme. The central programme provides central support for registration and validation of ECDL training that would otherwise fall to individual NHS organisations and is expected to cost £15 million. It remains the responsibility of local NHS organisations to provide local facilities. Specific costs for ECDL training by individual members of staff are not identified.

Training, development and deployment of staff is a matter for local management. The NHS is an organisation committed to equal opportunities and valuing diversity therefore appropriate opportunities and support should be made available for all staff regardless of whether they hold an ECDL qualification or not.

The Government hope that training and skills development are regarded as an integral part of employment, and that time spent by staff on training for any recognised vocational skill is not identified as lost.

NHS University Helpline

Mr. Lansley: To ask the Secretary of State for Health (1) how many calls have been made to the NHS University Helpline in each month that the service has been operational; [162099]

(2) what the cost of establishing the NHS University Helpline was; and what estimate he has made of the monthly cost of operating it; [162100]

(3) on what date the NHS University Helpline started operating. [162101]

Mr. Hutton: The NHSU helpline—u-/—was launched on 24 November 2003.

The service is still in its early stages of development and will not become fully operational in the national health service until next financial year.

In the trial period to date, over 1,000 individuals have contacted the service seeking independent advice on learning and personal development.

The monthly figures are:

December—223

January—234

February—306

March (to 14 March 2004)—287

The set-up costs were £567,000

The estimated monthly operating costs for this period were £49,700.

Non-consultant Career Grade Doctors

Mr. Bruce George: To ask the Secretary of State for Health what assessment he has made of the difference in pay between experienced non-consultant career grade doctors and general practitioners with special interests; and if he will make a statement. [161674]

Mr. Hutton: The Department has not conducted any specific assessment of this kind.

The pay of most non-consultant career grade doctors is based on the recommendations of the Review Body on Doctors' and Dentists' Remuneration. Pay for general medical practitioners with special interests depends on the contract between the general practitioner and the employing or commissioning body.

Nursing and Midwifery Council

Mr. Lansley: To ask the Secretary of State for Health what discussions his Department has held with the Nursing and Midwifery Council on the eligibility of applicants from EU accession countries to register in the UK from 1 May; and if he will make a statement. [162089]

Mr. Hutton: The Department has kept in frequent contact with the Nursing and Midwifery Council both directly and through a meeting this week with the Alliance of UK Health Regulators on Europe to ensure that all the health care regulatory bodies are aware of their responsibilities in registering applicants from the new member states after 1 May 2004.

Mr. Lansley: To ask the Secretary of State for Health whether proficiency in the use of the English language is a requirement for nurses from the European Union seeking to register with the Nursing and Midwifery Council in order to work in the NHS. [162091]

Mr. Hutton: Nurses who are European Economic Area nationals do not have to undertake English language competency tests in order to register with the Nursing and Midwifery Council. The law does not currently permit this. It is the responsibility of national health service employers to ensure that all nurses they employ have the necessary English language competence to carry out their duties safely. They may require a nurse to undertake a language assessment as part of the recruitment process, regardless of which country they come from.

Nursing

Mr. Burns: To ask the Secretary of State for Health if he will make a statement on measures he intends to take to ensure that the registered nursing care contribution bands reflect increases in nursing costs. [162618]

Dr. Ladyman *[holding answer 22 March 2004]:* The increases to the monetary values for national health service funded nursing care for 2004–05 are already in line with the 3.225 per cent, increase in NHS nurses' and midwives' pay, from April this year.

Opticians (NHS Vouchers)

Mr. Burstow: To ask the Secretary of State for Health (1) what monitoring has been undertaken by his Department of the availability of opticians who will accept NHS vouchers for prescriptions for spectacles; [160677]

(2) what representations he has received on the reimbursement of opticians by NHS organisations of the value of NHS vouchers for spectacles; and if he will make a statement. [160678]

Ms Rosie Winterton: All optical premises registered on a primary care trust's list will accept national health service optical vouchers provided under the general ophthalmic service. At December 2002, there were 6,139 premises on PCT lists in England.

The Department has received occasional representation from individuals about the cost of optical vouchers not meeting the cost of spectacles. We recently announced that optical vouchers for people with high prescriptions would increase by 10 per cent, from 1 April. This will help with the additional cost of these high prescription lenses. As announced on 12 February we will continue to keep these voucher values under review.

Out-of-hours Provision

Mr. Burstow: To ask the Secretary of State for Health from which budget the *(a)* £30 million scheme for out-of-hours provision announced on 4 March and *(b)* the wider £100 million growth package will be paid. [160341]

Mr. Hutton: The £30 million of capital funds to incentivise out-of-hours provision is part of the wider £100 million growth package. These funds were allocated within 2004–05's record £3.6 billion capital resource, of which £3.3 billion was voted by Parliament, with the remainder funded through the sale of surplus property.

Paddington Basin Hospital Project

Mr. Wilkinson: To ask the Secretary of State for Health when he expects to receive the report of the National Audit Office into the Paddington Basin Hospital project. [161464]

Mr. Hutton: No separate National Audit Office (NAO) report is being undertaken on the Paddington Basin hospital project. The NAO is involved in undertaking a joint review of this scheme together with Her Majesty's Treasury and the Department. Its report will be completed soon and will inform the next stage in taking forward this project.

Parkinson's Disease

Mr. Baron: To ask the Secretary of State for Health what his estimate is of the cost of the pharmaceutical management of Parkinson's disease in England. [162566]

Dr. Ladyman *[holding answer 22 March 2004]*: Information is available on the cost of prescription drugs used to treat Parkinson's and related disorders that are dispensed in the community in England. We do not hold data centrally on the overall pharmaceutical cost of Parkinson's Disease (data on drugs dispensed in hospitals/clinics or private prescriptions).

The British National Formulary, section 4.9, identifies a group of drugs that are used for Parkinson's and related disorders. In 2002, 2.8 million items of drugs used in Parkinson's and related disorders were dispensed in the community in England. They had a net ingredient cost of £69.6 million. However, these drugs are not necessarily given only to people with Parkinson's and people with Parkinson's will receive drugs other than this group of drugs.

The data have been obtained from the Prescription Cost Analysis (PCA) system from the Prescription Pricing Authority which covers all prescription items dispensed in the community in England.

Patient Education

Mr. Burstow: To ask the Secretary of State for Health what assessment he has made of the capacity of NHS organisations to implement the National Institute for Clinical Excellence recommendations on patient education. [158030]

Ms Rosie Winterton: The National Institute for Clinical Excellence published a technology appraisal on patient education models in diabetes in May 2003. It recommended that structured patient education is made available to all people with diabetes at the time of initial diagnosis and then as required on an ongoing basis, based on a formal, regular assessment of need. The National Health Service locally is usually required to make funds available to support NICE appraisal guidance within three months of publication. In the case of this guidance, the Secretary of State issued a direction to waive this requirement, as NICE advised that successful implementation of structured educational programmes would depend on the availability of an appropriately trained workforce. Primary care trusts, in working towards the Planning and Priorities Framework target of having practice based registers and systematic treatment for people with diabetes by 2006, should consider the introduction of structured education as an important element of a systematic treatment regime.

Personal Care Charges

Mr. Burstow: To ask the Secretary of State for Health pursuant to his answer of 20 January 2004, *Official Report*, column 1111W, on personal care charges, if he will estimate the change in the cost of free personal care following the announced change in his Department's policy on the assessment of patients for fully funded continuing care costs. [159739]

Dr. Ladyman: The cost of free personal care remains within the range of estimates previously made by the Department. The Department's policy on continuing care has not changed. Assessment procedures have been strengthened to ensure people receive services on the basis of their assessed need.

Pharmaceutical Packaging

Chris Grayling: To ask the Secretary of State for Health (1) how many complaints the Medicines and Healthcare Products Regulatory Agency has received in the past 12 months about changes by pharmaceutical distributors to manufacturers' packaging and related materials; [162005]

(2) whether the Medicines and Healthcare Products Regulatory Agency has received representations about the health risks posed by changes to the packaging of pharmaceutical products during distribution; [162008]

(3) if he will introduce tighter guidelines on the right to change or modify the packaging of pharmaceutical products during the distribution process. [162009]

Ms Rosie Winterton: A pharmaceutical distributor in the United Kingdom is required to hold a wholesale dealer's licence (WL) issued by the Medicines and Healthcare products Regulatory Agency (MHRA). A WL does not authorise distributors to make changes to the manufacturers' packaging and related materials of licensed medicinal products; these activities require a separate assembly licence, also issued by the MHRA. A number of wholesale dealers hold assembly licences for the purpose of re-packaging licensed parallel imported medicines and this reply relates to this group of products.

The repackaging of licensed medicinal products, such as parallel imports, is controlled by the specification registered in the parallel import licence and may only be carried out by assembly sites licensed and inspected by the MHRA.

Parallel importers are not permitted to change the primary packaging of the product—that is the immediate packaging in contact with the product (for instance the blister packaging). The importer is however required to overlabel the immediate packaging in accordance with the European Union labelling regulations. This operation can be carried out by the importer if the company holds an assembly licence, issued by MHRA after inspecting the site.

Any repackaging and relabelling proposed by a parallel importer is considered by MHRA before a licence is issued. The labelling of all products must meet the Medicines Labelling Regulations as laid down in Title V of Directive 2001/83/EC and each product pack must contain a patient information leaflet in English. Guidelines on the labelling and packaging of medicinal products are also relevant to parallel imports.

In the past 12 months MHRA has received 107 letters or reports relating to medicinal products that have been repackaged and placed on the market in the United Kingdom as licensed parallel imports. These include 18 reports received by the MHRA Defective Medicines Report Centre concerning quality defects in the labelling or leaflets of re-packaged parallel imports, (which represents 6 per cent. of quality defects reported on all products).

A further 66 of the letters received, either directly or via ministerial offices, concern aspects of the labelling, packaging or leaflet of the imported products, of which 14 were from patients, patient carers and health professionals. The remaining 52 were from the UK Marketing Authorisation holders and 47 related to updating of patient information leaflets.

Radiographer Vacancies

Simon Hughes: To ask the Secretary of State for Health how many vacancies there are for radiographers in the NHS in *(a)* Greater London and *(b)* each London borough. [162365]

Mr. Hutton: Information on qualified diagnostic and qualified therapeutic radiography staff vacancies in national health service trusts by strategic health authority and primary care trust in London has been placed in the Library.

Seroxat

Tim Loughton: To ask the Secretary of State for Health how many children in England are being prescribed Seroxat in *(a)* under 20 mg doses, *(b)* 20 mg doses and *(c)* over 20 mg doses. [162559]

Dr. Ladyman: Information is not available on the number of children who are prescribed Paroxetine Hydrochloride (Seroxat).

However, estimates of the number of prescription items of Paroxetine Hydrochloride that were dispensed in the community in England to children are available. These estimates show that in 2002 (the latest year for which figures are available) around 43,000 prescription items of Paroxetine Hydrochloride were dispensed in the community to children. This accounts for about one per cent. of all prescription items of Paroxetine Hydrochloride that were dispensed in the community.

The estimate is derived from the Prescription Cost Analysis (PCA) system which covers all prescription items dispensed in the community in England. It does not include items dispensed in hospitals/clinics or private prescriptions. The estimate includes totals of prescription items for the chemical entity Paroxetine rather than Seroxat on its own, thus ensuring that any items dispensed generically are also included in the figures.

As with all prescription items, information on the dosage is not available.

Tim Loughton: To ask the Secretary of State for Health how many people are prescribed Seroxat in England; and what the number was in each of the last five years. [162562]

Ms Rosie Winterton: Information is not available in the requested format. The number of prescription items of paroxetine (seroxat) dispensed in the community in England in each of the last five years is shown in the table.

Number of prescription items (millions) of Paroxetine (Seroxat) dispensed in the community in England, from 1998

Year	*Number of prescription items (millions)*
1998	2.7
1999	3.1
2000	3.5
2001	3.8
2002	3.7
2003[1]	2.2

Notes:

The data is from the Prescription Cost Analysis (PCA) system which covers ail prescription items dispensed in the community in England. It does not include items dispensed in hospitals/clinics or private prescriptions.

Paroxetine (Seroxat) is a selective-serotonin reuptake inhibitor and is defined in the British National Formulary (BNF) paragraph 4.3.3.

This data includes all items for the chemical entity Paroxetine; this includes the brand Seroxat and any generic prescriptions.

Data for 2003 is January to September only.

Tim Loughton: To ask the Secretary of State for Health what percentage of general practitioners prescribe Seroxat in doses larger than 20 mg. [162563]

Ms Rosie Winterton: Information is not available in the requested format.

In 2002, 80 per cent. of all paroxetine (Seroxat) prescription items that were dispensed in the community in England were for the 20 mg tablet and 18 per cent. were for the 30 mg tablet. However, it is not possible to link this data back to individuals or general practitioners, so we do not know what doses individuals have been prescribed. Therefore, it is not possible to infer the percentage of practitioners prescribing paroxetine in doses larger than 20 mg from this information.

Speech and Language Therapists

Anne Picking: To ask the Secretary of State for Health (1) what the average time is that a person has had to wait to be registered as a speech and language therapist in the last five years; [160250]

(2) how many applications to register speech and language therapists are waiting to be processed by the Health Professions Council; [160251]

(3) what plans he has to speed up the process of registering speech and language therapists. [160252]

Mr. Hutton: The Health Professions Council is an independent statutory regulatory body and this information is available directly from that organisation.

Risperidone

Mr. Burstow: To ask the Secretary of State for Health what representations he has received from Johnson and Johnson on the risk of stroke in atypical antipsychotics used on patients with dementia. [162424]

Dr. Ladyman: The marketing authorisation holder for risperidone, Janssen Cilag UK Ltd., is a wholly owned subsidiary of the United States company Johnson and Johnson. Aside from the data and interpretation received from Janssen Cilag and their corresponding applications to vary the UK Marketing Authorisations in respect of the risk of stroke associated with use of risperidone in patients with dementia, no representations have been received from the company.

Student Midwives

Ross Cranston: To ask the Secretary of State for Health what *(a)* the total cost and *(b)* the cost per individual to his Department was of the training of student midwives in each year since 1997. [161545]

Mr. Hutton: The total cost and cost per individual of training student midwives for each year since 1997 are shown in the table.

	Total cost (£ million)	*Cost per individual (£) bursary, salary and tuition*
1997–98	42.6	11,988
1998–99	34.6	10,573
1999–2000	45.6	13,169
2000–01	51.4	13,959
2001–02	58.7	14,461
2002–03	59.0	14,132
2003–04	63.3	13,323

Notes:
1. 1997–98 and 2003–04 are forecasts (actual outturn was only collected from 1999 onwards).
2. Data in the above time series are not strictly comparable due to changes in the way data were collected,
3. Average bursary costs for nurses and midwives added to tuition costs from 2000–01 onwards.

Staffing (London)

Simon Hughes: To ask the Secretary of State for Health how many *(a)* nurses, *(b)* midwives, *(c)* nursing assistants and *(d)* professionals ancillary to medicine were employed in the area of each primary care trust in (i) Greater London and (ii) each London borough in (A) 1997 and (B) the most recent year for which figures are available. [162348]

Mr. Hutton: The information available has been placed in the Library.

Substance Misuse

Mr. Keith Bradley: To ask the Secretary of State for Health what the total NHS budget allocated to substance misuse treatment programmes for *(a)* drugs and *(b)* alcohol is in 2003–04. [162615]

Miss Melanie Johnson *[holding answer 22 March 2004]:* The pooled drug treatment budget totalled £243.6 million in 2003–04, which allowed for an average increase of 24 per cent., to primary care trusts in their allocation from this budget. It is also estimated that £200 million of mainstream national health service expenditure will be spent on drug treatment in 2003–04.

All funding for alcohol treatment services is drawn from the mainstream budgets of the NHS and local authorities. The amounts spent on treatment services from these budgets was substantial, although the method of funding means that it is not possible to give figures on expenditure.

Training Costs

Harry Cohen: To ask the Secretary of State for Health what information he collects on the percentage of annual staffing costs spent on training in the NHS. [162087]

Mr. Hutton: In 2002–03, the latest year for which actual outturn figures are available, the Multi Professional Education and Training (MPET) budget accounted for 11 per cent. of the national health service annual staffing costs. The MPET training budget excludes funds spent by NHS trusts and primary care trusts on training existing staff from within their own budgets because this information is not held centrally.

Tuberculosis

Dr. Murrison: To ask the Secretary of State for Health how many new cases of TB were recorded in each year since 2000. [161168]

Miss Melanie Johnson: The total number of tuberculosis cases reported in England and Wales since 2000 is shown in the table.

Year	*Number of cases*
2000	6,271
2001	6,597
2002	6,907

Note:
[1] Provisional figure.

Health Protection Agency.

Waiting Lists/Times

Simon Hughes: To ask the Secretary of State for Health how many patients are awaiting *(a)* in-patient

admission and *(b)* initial out-patient assessment in Greater London; and what the figures were in each of the last five years. [162385]

Mr. Hutton *[holding answer 18 March 2004]:* The latest available figures for in-patient elective admissions for London are shown in the following tables. Information is only collected for first outpatient attendances for those patients waiting over 13 weeks.

In-patient elective admission list for Greater London.

	Quarter	Total waiting list
1998–99	1	215,588
1998–99	2	201,181
1998–99	3	187,032
1998–99	4	167,783
1999–2000	1	169,894
1999–2000	2	167,338
1999–2000	3	171,301
1999–2000	4	162,303
2000–01	1	163,276
2000–01	2	158,109
2000–01	3	158,022
2000–01	4	156,353
2001–02	1	160,591
2001–02	2	159,094
2001–02	3	159,106
2001–02	4	160,458

Note:
These figures are for London Regional Office.

Source:
Department of Health form KH07

Simon Hughes: To ask the Secretary of State for Health how many patients in *(a)* Greater London and *(b)* each London borough were awaiting physiotherapy assessment in each six-month interval in the last five years. [162386]

Mr. Hutton *[holding answer 18 March 2004]:* The information requested is not held centrally.

Training (EU Accession States)

Miss McIntosh: To ask the Secretary of State for Health what programmes his Department runs to help midwives from the EU accession states to adapt to working in the UK after 1 April. [162471]

Mr. Hutton: This is a matter for employers. We would expect them to provide appropriate induction programmes for all new recruits, whatever their country of origin.

Miss McIntosh: To ask the Secretary of State for Health what controls there are on *(a)* doctors and *(b)* nurses who began their training in an EU accession country before 1 May who wish to work in such professions in the UK after 1 May. [162472]

Mr. Hutton: The recognition of their qualifications, where these do not meet specified minimum training requirements, will be subject to proof of recent and substantial practice experience.

Written Answers to Questions

Thursday 25 March 2004

EDUCATION AND SKILLS

Higher Education Bill

Mr. Clappison: To ask the Secretary of State for Education and Skills how many of the Higher Education Bill's *(a)* clauses and *(b)* schedules were (i) debated, (ii) partially debated and (iii) not debated during the recent committee stage. [162988]

Alan Johnson *[holding answer 23 March 2004]*: 25 clauses of the bill were formally debated during Committee Stage. Debates over fourteen sessions were both wide-ranging and detailed. Debate on the fees provisions lasted for seven committee sessions, and ensured a very full exploration of the Government's policy on tuition fees. A similarly long debate on the Government's proposal to establish an Office for Fair Access lasted for three Committee sessions. 25 clauses and seven schedules were not debated. Among the clauses not debated are 10 clauses that cover technical, interpretative or commencement provisions. The wide-ranging discussion on several clauses meant that the debates touched on a number of issues associated with later clauses that were not formally reached.

In order to ensure that the policies and legislation in the Higher Education Bill were debated in detail, the Government encouraged the extension of several Committee sessions into the evening and added an extra day to the time allotted for Committee stage.

TREASURY

Ouzo

Mr. Carmichael: To ask the Chancellor of the Exchequer what plans the Government have to make an additional submission to the European Court of Justice regarding the level of excise duty levied by the Greek Government on ouzo. [163308]

John Healey: Officials from Customs, DTI and DEFRA are in the process of considering the legal and practical implications of such an approach to the European Court of Justice.

Bicycles

John Thurso: To ask the Chancellor of the Exchequer how much revenue was collected from the *(a)* import and *(b)* sale of bicycles in the last year for which figures are available, broken down by (i) country of origin and (ii) number of machines in each case. [163124]

John Healey: The number of non-motorised bicycles and other cycles (including delivery tricycles)[1] imported in 2003 from non-EU countries and the value of the revenue declared, broken down by country of origin, is shown in the following table:

[1] Classified under commodity code 8712.

Country of origin	*Supplementary units (number)*	*Customs duty*	*VAT*	*Anti-dumping duty*
Vietnam	695,302	3,431,085	4,972,919	0
Taiwan	666,837	4,440,437	5,886,069	1,177,805
Philippines	566,543	1,121,187	2,127,414	0
Bangladesh	348,234	20,983	1,969,880	0
Thailand	311,923	697,388	1,264,953	0
Sri Lanka	297,825	398,525	777,177	0
China	148,690	411,432	942,913	1,133,348
Tunisia	140,309	0	565,686	0
India	139,083	143,705	286,921	0
Poland	99,872	2,751	656,036	0

Malaysia	3	286	423	0
Total	3,615,393	11,1731,726	21,240,787	2,311,153

Source:
Overseas Trade Statistics, HMCE.

Imports from the EU are not subject to Customs duty. VAT is accounted for on acquisition but information is not available on VAT collected by commodity. Data collected on imports of bicycles from the EU do not include the member state of origin.

Sales of bicycles in the UK in 2002 using Office for National Statistics figures for household expenditure on the purchase of all bicycles were £974 million. Information on VAT collected by commodity is not available.

John Thurso: To ask the Chancellor of the Exchequer if he will make a statement on the level and nature of taxes and other charges made by the Government relating to the *(a)* import and *(b)* sale of bicycles in the UK. [163125]

John Healey: The full rate of Customs Duty for bicycles imported from non-EU countries is 15 per cent. of total value.

Reduced rates of duty varying from zero to 10.5 per cent. are applicable to particular countries of origin. Full information on these rates is contained in the Customs and Excise Tariff.

EU Anti-Dumping duties at a rate of 30.6 per cent. of value are currently imposed on importations of bicycles from the Republic of China. Similar duties at a rate of 18.2 per cent. were in force during 2003 on importations from Taiwan. These expired on 26 February 2004.

VAT on bicycles, both imported and home-produced, is charged at the UK standard rate of 17.5 per cent. on the total amount payable by the purchaser.

Customs (Staffing)

Mr. Carmichael: To ask the Chancellor of the Exchequer what effect the proposed merger of HM Customs and Excise with the Inland Revenue and reduction in staffing levels will have on the number of frontline uniformed customs officers in *(a)* the UK, *(b)* Scotland, *(c)* the Highlands and Islands and *(d)* Orkney and Shetland; and if he will make a statement. [163268]

Mr. Prosser: To ask the Chancellor of the Exchequer which posts will be lost in HM Customs and Excise service under his plan to reduce numbers of civil servants. [163174]

John Healey *[holding answer 23 March 2004]:* The Chancellor has announced in this year's Budget the creation of a new Department, integrating the work of HM Customs and Excise and the Inland Revenue.

The new Department will be tasked with delivering the benefits of improved customer service, in particular reducing compliance costs, and improved compliance with tax law, as well as greater efficiency.

The reforms announced dovetail with the work conducted by the Gershon efficiency review. The integration of the departments, along with existing plans and proposed efficiency reforms, will create scope for overall savings equivalent to 14,000 posts by 2008. On the basis of policy commitments and plans to increase front line staffing in some areas, this will result in an overall reduction equivalent to 10,500 posts by 2008.

The location and nature of staffing changes will be determined in detailed business planning to be undertaken by the revenue departments and their new Executive Chairman, when appointed, who will be consulting as appropriate with all key stakeholders including trade unions.

Customs expertise in working at the borders to protect national security, collect revenue, facilitate trade and prevent smuggling will continue to play a vital role in the new integrated department.

EU Waste and Fraud

Sir Teddy Taylor: To ask the Chancellor of the Exchequer if he will make a statement on the systems which are available to *(a)* control and *(b)* prevent (i) waste and (ii) fraud within the European Union; and what assessment he has made of the effectiveness of those procedures. [161698]

Ruth Kelly *[holding answer 25 March 2004]:* The Paymaster General made a full statement on these issues on 23 February in the debate in European Standing Committee B on the European Court of Auditors annual report and the Commission's Fight Against Fraud report. A further detailed assessment is provided in the Government's annual White Paper on the EC Budget and measures to counter fraud and financial mismanagement, the latest version of which was published in April 2003 [Cm 5800].

Public Service Agreement Targets

Tony Wright: To ask the Chancellor of the Exchequer if he will place in the Library the guidance provided to Departments on how they should report progress and achievement against their Public Service Agreement targets. [162930]

Mr. Boateng: A copy of the guidance issued for the spring 2004 departmental reports has been placed in the Library. This includes guidance on reporting against Public Service Agreement targets.

Working Tax Credit

Mr. Goodman: To ask the Chancellor of the Exchequer what estimate he has made of the level of overpayment in the year to April 2004 of the child care element of the Working Tax Credit due to *(a)* fraud, *(b)* claimant error and *(c)* departmental error. [163695]

Dawn Primarolo: I refer the hon. Member to my answer to the hon. Member for Northavon (Mr. Webb) on 5 February 2004, *Official Report*, columns 1003–1004W.

CULTURE, MEDIA AND SPORT

Free Television Licences

Patrick Mercer: To ask the Secretary of State for Culture, Media and Sport if she will amend the regulations on free television licences for those under the age of 75 in care homes. [163611]

Estelle Morris: Television licence fee regulations laid before Parliament on 11 March this year and due to come into force on 1 April include amendments to the rules governing the £5 Accommodation for Residential Care concessionary scheme, principally in response to changes in care homes legislation or for the clarification of entitlement. These amendments are not intended to make any changes of substance to the scope of the scheme's coverage. The Government have no plans at present for any wider changes to the concessionary scheme, but have made clear that the future funding of the BBC will be considered as part of the Charter review process. This will include a detailed examination of the concessionary arrangements.

MINISTER FOR WOMEN

Criminal Justice System (Women Professionals)

24. **Mr. Heath:** To ask the Minister for Women what recent discussions she has had with the *(a)* Lord Chancellor and *(b)* Law Officers on the role of women professionals in the criminal justice system. [163456]

Ms Hewitt: My colleagues and I agree that the more our Criminal Justice System reflects the society it serves, the better it will be.

I was delighted when Dame Brenda Hale was appointed the first women Law Lord in this country.

Alcohol

25. **Mrs. Calton:** To ask the Minister for Women what discussions she has had with the Secretary of State for Health on women and alcohol. [163457]

Ms Hewitt: None. However the analysis that underpins the Alcohol Harm Reduction Strategy for England, published by the Government last week, highlights some key issues for women. Nearly one in five women now exceed 14 units of alcohol each week; on one in five occasions when women drink they do so to excess. The strategy will help tackle alcohol-related harm and its causes.

Career Opportunities (South-east)

26. **Mr. Denham:** To ask the Minister for Women what assessment she has made of the career opportunities open to women in the south-east of England. [163458]

Jacqui Smith: As my hon. Friend is aware, the Department is concerned to promote women's economic participation nationally.

The major changes my right hon. Friend has introduced to support flexible working and work-life balance—rights to request flexible working, increased maternity leave and pay, and paternity leave—are all making a real difference to women's participation.

I have tasked the Regional Development Agencies in the south-east, as elsewhere, to develop economic strategies that focus, among other things, on women's jobs and careers. The Government have increased funding to the RDAs in order to deliver these strategies.

Equal Opportunities

27. **Miss McIntosh:** To ask the Minister for Women if she will make a statement on equal opportunities for professional women in appointments to senior positions in *(a)* 1997 and *(b)* 2003. [163459]

Ms Hewitt: This Government are committed to ensuring equality of opportunity for professional women in appointments to senior positions. The precise figures asked for are not available but since 1999 the number of women directors of a FTSE 100 company has increased from 6 per cent. to 9 per cent. In public appointments 36 per cent. of posts are held by women, an increase of 4 per cent. from 1998; and in the Civil Service, women hold 23 per cent. of the 600 top posts compared with 13 per cent. in 1998.

Civil Service (Pension Entitlement)

28. **Mr. Challen:** To ask the Minister for Women what steps are being taken to ensure that women in the Civil Service do not suffer from a gender gap in pension entitlement. [163460]

Jacqui Smith: The Civil Service pension scheme is a final salary scheme. Benefits are worked out as a proportion of final pensionable earnings multiplied by years of service. Steps are being taken to ensure the Civil Service provides equal pay, to help women who want to maximise their years of service, and to remove barriers to progression. These will all help to ensure that women in the Civil Service do not suffer from a pension gap in pension entitlement.

DEFENCE

Afghanistan

Mr. Chidgey: To ask the Secretary of State for Defence what plans he has to expand the mandate of the provisional reconstruction teams in Afghanistan to enable them to respond to *(a)* human rights abuses, *(b)* factional clashes and *(c)* drugs production. [162967]

Mr. Ingram: The objectives of the British-led Provincial Reconstruction Team are to help the Afghan Transitional Authority extend its influence, to stimulate the development of Security Sector Reform and the reconstruction effort and so to facilitate the development of a stable and secure environment in the Afghan regions. We have no plans to revise these objectives.

ALARM Missile

Mr. Gerald Howarth: To ask the Secretary of State for Defence how long the ALARM missile will remain in service. [162645]

Mr. Ingram: Under current planning assumptions, ALARM is due to remain in service until around the end of the next decade.

Armed Forces Postings

Mrs. Calton: To ask the Secretary of State for Defence how many armed forces personnel have been posted to new locations in each of the last five years; and how many service families were required to move house within the UK and abroad in each year. [153829]

Mr. Ingram: The Naval Service are unable to provide accurate figures on postings to new locations as their information system does not distinguish between drafts of a week and longer tours of duty. The information could therefore be provided only at disproportionate cost.

Information on Army postings could also be provided only at disproportionate cost.

The number of RAF personnel posted to new locations is shown in the following table.

Financial year	*Officers*	*Ground Airmen*
1998–99	3,636	8,805
1999–2000	3,822	8,587
2000–01	4,156	8,105
2001–02	3,511	7,943
2002–03	3,601	7,783

The table details the number of postings for both officers and ground airmen. No statistics are held for Non Commissioned Aircrew as they tend to remain at the same unit for a number of years and therefore are likely to move around less often.

Postings where no physical movement has occurred have been excluded from these statistics. No data on detachments/attachments or deployments has been included.

The Defence Housing Executive records the numbers of moves into and moves out of Service Family Accommodation (SFA) in mainland UK. During 2003 around 24,000 SFA occupants moved within mainland UK or between SFA in Britain and married quarters overseas.

Reliable figures are not readily available for previous years and could be provided only at disproportionate cost.

Army Personnel (Self-harm)

Mr. Hancock: To ask the Secretary of State for Defence pursuant to the answer of 14 October 2003, *Official Report*, column 317W, on Army Personnel (self-harm), if he will make a statement on progress in the collection and analysis of the existing information on incidents of deliberate self-harm in the army. [163148]

Mr. Caplin: The Department is considering whether it is feasible to collect information on incidents of self-harm that would be reliable and consistent between the three Services. The work in hand is looking at the identification and recording of such incidents, reporting systems, analysis and data protection. This is, however, a complex area and an early conclusion is unlikely.

Climate Change

Norman Baker: To ask the Secretary of State for Defence what recent work his Department has carried out to assess the security implications for the UK of climate change; and if he will make a statement. [162884]

Mr. Caplin: The Ministry of Defence is reviewing the implications of climate change for national security as part of its wider assessment of strategic trends which might impact on the United Kingdom's interests.

D-Day Commemoration

Mr. Gerald Howarth: To ask the Secretary of State for Defence which military bands will be attending commemorations for the 60th Anniversary of the Normandy Landings; of these bands, how many are being funded by *(a)* his Department and *(b)* other sources; and at which venues they each will be performing. [160248]

Mr. Caplin: Musical support will be provided by six bands, those of the Royal Marines (Scotland), the Normandy Band of the King's Division, the Royal Irish Regiment, the Parachute Regiment, the Army Air Corps and the Rifle Volunteers (Devon and Dorset). All are being funded by the Ministry of Defence: two centrally and four by unit budgets.

Currently there are 18 separate events which will be supported by one or more bands. The main events for each band are as follows:

Royal Marines—British Memorial Garden Reception afloat at Ouistreham on 4 June, tree-planting ceremony at Ouistreham on 5 June.

King's Division—veterans' homage to Field Marshal Montgomery at Colleville-Montgomery on 5 June, inauguration of the British Memorial Garden and Beating Retreat at Caen on 5 June, Binational Ceremony at Bayeux on 6 June, International Parade at Arromanches on 6 June (or Royal Irish Regiment), final parade of the Normandy Veterans Association at Arromanches on 6 June.

Royal Irish Regiment—inauguration of the British Memorial Garden and Beating Retreat at Caen on 5 June, International Parade at Arromanches on 6 June (or King's Division), final parade of the Normandy Veterans Association at Arromanches on 6 June.

Parachute Regiment—veterans of 3 Parachute Brigade event at Le Mesnil on 5 June.

Army Air Corps—inauguration of the HORSA glider at Ranville on 5 June, Remembrance Ceremony at Hermanville on 6 June.

Rifle Volunteers—Royal British Legion service at Bayeux Cathedral on 6 June, 231 Brigade commemoration at Asnelles on 6 June.

It is also expected that most of the bands will participate in the International Tattoo in Caen on the evening of 6 June, but the programme has yet to be finalised.

Data Protection

Mr. Grieve: To ask the Secretary of State for Defence what assessment has been made since the publication of the Hutton report of the right of employees of his Department to the protection of the Data Protection Act 1998 in relation to the disclosure of their names and identity to third parties without their consent. [163651]

Mr. Hoon: Lord Hutton makes no reference to the Data Protection Act in his report. No assessment has therefore been made of the rights of MOD employees to the protections of the Data Protection Act following the Hutton report.

Deepcut and Catterick Barracks

Mr. Hancock: To ask the Secretary of State for Defence pursuant to the answer of 16 September 2003, *Official Report*, column 704W, on Deepcut and Catterick Barracks, with reference to the conclusion of the investigations by Surrey police, if he will order an independent inquiry into the Royal Military Police Special Investigation Branch; and if he will make a statement. [163146]

Mr. Ingram: The Surrey police, who retained primacy for investigating the deaths at Deepcut Barracks, have made no recommendation to the effect that an independent inquiry into the Royal Military Police Special Investigation Branch should be undertaken, and the Ministry of Defence has no plans to order one.

Mr. McNamara: To ask the Secretary of State for Defence (1) if he will list the external recommendations made by Brigadier Evans in his 1995 review of the Phase 2 training system at Deepcut barracks; how many of these recommendations were accepted; and what action was taken as a result; [162270]

(2) if he will list the internal recommendations made by Brigadier Evans in his 1995 review of the Phase 2 training system at Deepcut barracks; how many of these

recommendations were accepted; what action was taken as a result; and what assessment was made of the applicability of these measures to other barracks. [162269]

Mr. Ingram: Brigadier Evans' Review of the Phase 2 Training System within Deepcut made 30 detailed recommendations not all of which were accepted or adopted. I will write to my hon. Friend in more detail and a copy of my letter will be placed in the Library of the House.

Defence Logistics Organisation

Mr. Djanogly: To ask the Secretary of State for Defence (1) what the full costs will be of moving the Equipment Support (Air) Group from RAF Wyton to *(a)* Abbeywood and *(b)* the other possible locations being considered; [155554]

(2) in relation to the announcement made to staff at RAF Wyton on 26 January regarding the Defence Logistics Organisation (DLO) re-structuring, on what date the consultation ends; what the likely costs of this re-organisation are; what options other than a move to Abbeywood have been considered; and whether it is an option for other MOD centres for DLO to be moved to RAF Wyton; [155553]

(3) why the Defence Logistics Organisation Equipment Support (AIR) is changing its name to Domain 2*; and on what date the change will take place. [155552]

Mr. Ingram: The Defence Logistics Organisation (DLO) began formal consultation with the Trades Unions on 26 January about proposed changes to its structure. Detailed proposals, including possible changes of location, title or role, and associated costs, will flow from this initial consultation period.

Fire Study 2000

Mr. Hancock: To ask the Secretary of State for Defence what representations he has received on Fire Study 2000; and what plans he has for a further study. [162592]

Mr. Ingram: I have received a number of representations concerning Fire Study 2000 from Members of Parliament, trade unions, and members of the Defence Fire Service. In particular these have concerned its relationship to the Airfield Support Services Project where the recommendations contained in Fire Study 2000 have also been used to inform the Public Sector Comparator.

There are no plans for a further study.

Mr. Hancock: To ask the Secretary of State for Defence what plans he has to implement the recommendations of Fire Study 2000. [162593]

Mr. Ingram: The recommendations contained in Fire Study 2000, identifying Fire Service efficiencies, also forms part of the Public Sector Comparator for the Airfield Support Services Project which is seeking to establish the most cost-effective method of maintaining a full airfield support service, without compromising operational effectiveness. No decisions have yet been made. However, should it be decided that a public-private partnership is not the best option then the Public Sector Comparator, including the recommendations contained in Fire Study 2000, would be implemented within two years. In the meantime we continue to examine what Fire Study efficiencies can be implemented pending the completion of the Airfield Support Services Project.

Mr. Hancock: To ask the Secretary of State for Defence whether it is his policy to require Fire Study 2000 to be subject to an independent specialist review to test its manpower and financial assumptions. [162671]

Mr. Ingram: Fire Study 2000 was commissioned in order to review the Ministry of Defence's fire services and develop an optimum organisation in line with the Government's Strategic Defence Review. The results of the study have also been used to inform the Public Sector Comparator for the Airfield Support Services Project (ASSP). All Public Private Partnership Projects such as the ASSP are subject to independent review by MOD scrutineers supporting the Department's Investments Approvals Board and, in some cases, by Her Majesty's Treasury. The underlying assumptions in Fire Study 2000 are therefore being reviewed as part of the overall ASSP evaluation process.

Fisheries Control Agency

Mr. Soames: To ask the Secretary of State for Defence whether it is planned that Royal Navy fisheries protection vessels will operate under the control of the Fisheries Control Agency; and if he will make a statement. [162964]

Mr. Ingram: We have no plans to change the existing arrangements between the Ministry of Defence and DEFRA for the operation of RN Fishery Protection vessels.

Haes Report

Mr. McNamara: To ask the Secretary of State for Defence what conclusions were reached by Lieutenant Colonel R. Haes report of 24 April 2001 concerning the exercise by the Army of the duty of care; what recommendations were made; how many of these have been acted upon; and if he will place a copy of the report in the Library. [162274]

Mr. Ingram: Lieutenant Colonel Haes' report on Army Training and Recruiting Agency Duty of Care and Supervision 98–01 made a significant number of wide-ranging recommendations. I will write to my hon. Friend and a copy of my letter will be placed in the Library of the House.

Arrangements are being made to place a copy of the report in the Library of the House.

Interpreters

Lady Hermon: To ask the Secretary of State for Defence how many *(a)* military and *(b)* non-military interpreters have been deployed to Iraq in each month since the beginning of hostilities in the country. [161281]

Mr. Ingram: Currently there are 15 UK-based civilian and 17 UK military interpreters in Iraq. The number deployed in each month is not held centrally and could be provided only at disproportionate cost.

Iraq

Mr. Keetch: To ask the Secretary of State for Defence pursuant to his answer of 4 March 2004, *Official Report*, column 1050W, on Iraq, if he will list the complaints against UK troops that have been upheld which have been recorded centrally; and if he will make a statement. [160506]

Mr. Ingram *[holding answer 16 March 2004]*: We record centrally cases in which the Special Investigations Branch of the Royal Military Police investigates Iraqi civilian fatalities allegedly caused by United Kingdom forces. As at 17 March the SIB had investigated 21 alleged cases. 10 investigations have been completed. In three the SIB concluded that the soldier had acted within his Rules of Engagement; in four—of road traffic accidents—the fatality was found to have been a genuine accident; and in three it was concluded that there was no case to answer. The remaining 11 investigations are on-going.

Mr. Hancock: To ask the Secretary of State for Defence when he expects to make public the report of the Special Investigation Branch into the deaths of six members of the Royal Military Police killed in Iraq in June 2003. [163218]

Mr. Ingram: In line with usual practice on the release of Service Police reports, we have no plans to make public the Special Investigation Branch (SIB) report into the deaths of the six RMPs who were killed in Al Majarr Al Kabir.

On 22 January 2004, the SIB provided an extensive briefing to the families of the soldiers who died and have undertaken to provide them with further updates should significant further information come to light as the investigation continues.

Mr. Keetch: To ask the Secretary of State for Defence how many bombing missions were aborted by RAF pilots during Operation Telic *(a)* in total and *(b)* owing to faulty target selection; and if he will make a statement. [163410]

Mr. Ingram: Royal Air Force aircraft aborted about 350 missions. 55 of these attacks were aborted due to inability to positively identify the target for example because it was obscured by smoke.

Mr. Keetch: To ask the Secretary of State for Defence how many bombs were exploded in mid-air before reaching their targets during Operation Telic; and if he will make a statement. [163411]

Mr. Ingram: None. The RAF does not possess in its inventory any weapons that can be detonated by the pilot after launch.

Mrs. Liddell: To ask the Secretary of State for Defence if he will make a statement on the contribution of UK forces towards the re-opening of schools in the southern Iraqi provinces. [143742]

Mr. Ingram: Work on schools is one of the Coalition's highest priorities in the reconstruction of Iraq. From the earliest weeks after the end of major combat operations on 1 May 2003 Coalition forces worked closely with UNICEF and other Non-Governmental Organisations to assess need and distribute packages of equipment. Since then a major refurbishment programme has been under way.

As at 25 February, within the Multinational Division (Southeast) area, coalition forces have refurbished and/or granted financial aid packages to 1,824 schools. A large amount of school equipment has also been distributed, including over 15,000 chalkboards, 200,000 student kits and 23,000 desks.

Manning Control

Mr. Keetch: To ask the Secretary of State for Defence how many staff were employed in the last year in administering manning control reviews in the Army; how much money was spent; and if he will make a statement. [162729]

Mr. Caplin: The information requested is not held centrally and could be provided only at disproportionate cost.

Mr. Keetch: To ask the Secretary of State for Defence how many AFB6848 forms have been signed in each year since 1995; and if he will make a statement. [162730]

Mr. Caplin: Statistics on how many AFB6848 are signed are not held centrally for longer than one year. During the period 1 March 2003 to 29 February 2004, some 28,000 AFB6848 were signed.

Marine Maddison

Mr. Hancock: To ask the Secretary of State for Defence pursuant to the answer of 15 October 2003, *Official Report*, column 244W, on Iraq, with reference to the conclusion of the Navy Board of Inquiry into the Death of Marine Maddison, if he will order an independent inquiry into the Royal Military Police Special Investigation Branch; and if he will make a statement. [163147]

Mr. Ingram: The facts surrounding the first Special Investigation Branch investigation of the death of Marine Maddison have been established by a Naval Board of Inquiry. All the lessons to be learned from this fatality are being vigorously pursued, and we await the independent verdict of a Coroner's Inquest. A further independent inquiry would serve no purpose.

Mr. Hancock: To ask the Secretary of State for Defence what factors underlay the decision of his Department to claim, originally, that the death of Marine Maddison was caused through enemy action; at what level the decision was made to support and publicise this claim; and if he will make a statement. [163167]

Mr. Ingram: The Department's initial position reflected the conclusion of the early, in-theatre investigation of Marine Maddison's death. When its conclusion that he was killed by enemy forces was found to be in error, this new information was conveyed at once to his next of kin with our deepest regrets. The error has also been fully acknowledged in public since the relevant Board of Inquiry was completed in December 2003.

Project Funding

Mr. Colman: To ask the Secretary of State for Defence (1) how many *(a)* solely state-financed and *(b)* public-private partnership and private finance initiative projects for which his Department is responsible have been launched in each region in each of the last 10 years; [160949]

(2) how much was spent by *(a)* the Government on solely state-financed projects and *(b)* the (i) Government and (ii) private sector on public-private and private finance initiative projects for which his Department is responsible, in each of the last 10 years, broken down by region. [160950]

Mr. Ingram: Information relating to solely state-financed projects is not held centrally and could be provided only at disproportionate cost. Information regarding public-private partnership and private finance initiative projects is published in the Signed Projects List which can be found on the Treasury website at: http://www.hm-treasury.gov.uk/documents/public_private_partnerships//ppp_pfi_stats.cfm.

Additional and supplementary information can be found on the MOD website at: http://www.mod.uk/business/ppp/database.htm.

RAF Brampton and Wyton

Mr. Djanogly: To ask the Secretary of State for Defence when he expects the assessment of whether there are alternative defence uses for *(a)* RAF Brampton and *(b)* RAF Wyton to be concluded. [157311]

Mr. Ingram: No decisions have yet been made to relocate any existing function from either of the two sites. In any case, RAF Brampton and RAF Wyton are seen as having potential to accommodate a variety of other defence activities. It is, therefore, too early to say when final decisions on continued or alternative uses will be made. Any specific proposals will be subject to full consultation in due course.

Richard King

Mr. McNamara: To ask the Secretary of State for Defence what recommendations were made by the Board of Inquiry into the death of Grenadier Guardsman Richard King; how many of these recommendations have been implemented; what further actions were taken against the 10 non-commissioned officers identified by the Special Investigation Branch and reported for neglect of duty; and how many of these officers have been promoted since the incident. [162258]

Mr. Ingram: The Board of Inquiry into the death of Guardsman King concluded that appropriate remedial measures had been put in place since the incident and therefore made no recommendations.

Investigations were conducted by both the South Wales Police and the Royal Military Police and the case was examined separately by both the Crown Prosecution Service and the Army Prosecuting Authority, neither of whom decided to prosecute any individual.

Nine out of the 10 non-commissioned officers who were reported for neglect of duty have since been promoted.

Royal Navy

Dr. Julian Lewis: To ask the Secretary of State for Defence if he will place in the Library a copy of Re-launching the image of the Royal Navy—A three-year communication strategy, published in November 2001. [152241]

Mr. Ingram: I will write to the hon. Member and place a copy of my letter in the Library of the House.

Single Entry System

Mr. McNamara: To ask the Secretary of State for Defence what conclusions were reached by Brigadier Mountford in his 1993 review of the single entry system; what recommendations he made; how many of these were acted upon; and if he will place a copy of the report in the Library. [162266]

Mr. Ingram: I will write to the hon. Member and a copy of my letter will be placed in the Library of the House.

Type 23 Frigates

Mr. Hancock: To ask the Secretary of State for Defence whether the programme for fitting Sonar 2087 to Type 23 frigates has changed since 16 September 2003. [162670]

Mr. Ingram: There has been no change since the answer I gave on 16 September 2003, *Official Report*, column 709W, to the hon. Member.

Unexploded Ordnance

Mr. Liddell-Grainger: To ask the Secretary of State for Defence what help will be given to QinetiQ to dispose of ordnance in the UK. [161872]

Mr. Ingram: The Ministry of Defence funds the 25 year Long Term Partnering Agreement (LTPA) with QinetiQ under which the company provides a capability for ordnance disposal. The LTPA includes financial provision for infrastructure improvement which could be drawn upon by QinetiQ to provide more cost effective disposal or in order to meet environmental legislation.

Warships

Mr. Hancock: To ask the Secretary of State for Defence what the basis was of the decision to decommission HMS Ark Royal in 2013. [162805]

Mr. Ingram: The replacement of the Invincible class aircraft carriers (CVS) by the future aircraft carriers (CVF) will be achieved through a phased programme. This will see CVF introduced prior to the full withdrawal of the CVS. It is intended that HMS Ark Royal will be the last CVS to be withdrawn from service in 2013.

Mr. Soames: To ask the Secretary of State for Defence what engine problems have been experienced by HMS Albion; and if he will make a statement. [162951]

Mr. Ingram: The engines on HMS Albion have proved to be extremely reliable in service. There have only been a small number of defects, none of them significant. While there have been defects affecting the supporting cooling systems and electrical control systems, these have been rectified by the shipbuilder and the systems have generally performed to a level consistent with any First of Class vessel entering service.

Mr. Soames: To ask the Secretary of State for Defence (1) for what reasons HMS Triumph is being laid up prior to her refit; and for how long the vessel will have been laid up before refit work commences; [162953]

(2) what the basis was of the decision to decommission HMS Triumph 12 months before its refit was due to commence; and what functions the ship will undertake prior to decommissioning. [162806]

Mr. Ingram: HMS Triumph will begin her refit in summer 2005, as originally planned. She arrived in Devonport at the end of January 2004 and her further operation will not be possible until essential refuelling and safety justification work has been undertaken. Once HMS Talent, currently in refit, vacates her dock, the dock-dependent refit work on HMS Triumph will begin. In the meantime, to make optimum use of the facilities and resources at the dockyard, the Department is seeking to reduce the overall length of the refit by identifying that work which is not dependent on a dry dock and may be undertaken ahead of the main refit and refuelling work. In addition, a reduced ship's company, in conjunction with dockyard employees, will conduct trials to inform the content of the refit package.

Mr. Soames: To ask the Secretary of State for Defence (1) what the operational status is of HMS Ark Royal; and whether she is being put out into extended readiness; [162974]

(2) how many Royal Navy aircraft carriers are operational. [162978]

Mr. Ingram: There are currently two operational Royal Navy aircraft carriers, HMS Invincible and HMS Ark Royal. HMS Ark Royal is currently operational, but will be moved to a state of extended readiness from April 2004. HMS Illustrious will return to operational service in 2005 following a period in refit.

SCOTLAND

Censuses

Mr. John Taylor: To ask the Secretary of State for Scotland what assessment he has made of the financial consequences of reducing the 100-year census closure period for decennial population census records for Scotland. [160428]

Mrs. McGuire: None. Responsibility for such an assessment lies with the Scottish Executive as this is a devolved matter.

The Minister responsible in the Scottish Executive is Cathy Jamieson, Minister for Justice.

Mr. Win Griffiths: To ask the Secretary of State for Scotland if he will list the years in which each of the 1851 to 1901 decennial censuses were released for public inspection. [160655]

Mrs. McGuire: The General Register Office for Scotland (GRO(S)), an associated department of the Scottish Executive, is responsible for carrying out periodic censuses of Scotland's population.

The Scottish Census returns for 1841–71 were opened to public inspection in 1923. The returns for 1881 and 1891 were opened to public inspection, though with some restrictions on copying, in 1955. The records for 1901 were opened to public inspection at the end of 2001.

Energy Policy

Miss McIntosh: To ask the Secretary of State for Scotland if he will make a statement on energy policy in Scotland. [155909]

Mrs. McGuire: The February 2003 Energy White Paper "Towards a Low Carbon Economy" defines the Government's overall strategy for energy policy. Its four core objectives—cutting carbon emissions, maintaining reliability of energy supplies, promoting competitive markets to promote productivity and sustainable growth, ensuring every home is adequately and affordably heated—apply and will deliver benefits in Scotland as elsewhere. I take part in the work of the sustainable energy policy network in following through on the White Paper commitments. Scottish Executive Ministers are closely associated with this work.

Core aspects of energy policy and related issues of competition and regulation are reserved. Devolved policy responsibilities in Scotland include promotion of renewables and of energy efficiency. Co-operation in devolved policy areas including planning, environmental protection, encouraging economic development and a skilled work force is crucial to the success of energy policy in Scotland. Good working relations at all levels between the Scottish Executive and UK Government Departments are therefore especially important.

NORTHERN IRELAND

Assembly Ombudsman

Mr. Beggs: To ask the Secretary of State for Northern Ireland what plans he has to extend the remit of the Assembly Ombudsman to include further education colleges; whether he has met with representatives from further education colleges to discuss the issue; and if he will make a statement. [162703]

Jane Kennedy: The Government have no current plans to extend the remit of the Assembly Ombudsman to directly include Further Education Colleges. The Offices of the Assembly Ombudsman and Commissioner for Complaints are currently subject to review. Following consideration of the outcome of that review any proposed changes to the remit of the Ombudsman will be matters for public consultation.

Assets Recovery Agency

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what the value of assets *(a)* recovered and *(b)* frozen is since the Assets Recovery Agency was formed. [161687]

Jane Kennedy: The Assets Recovery Agency in Northern Ireland is currently dealing with 22 cases with a total asset value of over £9.9 million. Of these, 16 are under active investigation. The Agency has frozen assets totalling £2.8 million in five of the remaining cases and is pursuing one case through taxation.

Further Education

Mr. Beggs: To ask the Secretary of State for Northern Ireland what *(a)* research was undertaken and *(b)* evidence was collected during the development of the recent further education strategy proposals, with particular regard to (i) the balance between full-time and part-time lecturing staff, (ii) the number of students taking vocational courses at further education colleges and (iii) the proportion of the 16 to 21 age cohort taking vocational courses at further education colleges. [162704]

Jane Kennedy: The publication of the Draft Strategy for further education is the result of a wide range of consultations and research exercises conducted since autumn 2002. In addition to a public consultation on the future role of further education and an analysis of course provision, enrolments and performance by the 16 local further education colleges, new research was commissioned by DEL to supplement existing information on the work of the colleges. This new research addressed: the qualifications of further education staff; the qualifications of 16–19 year olds entering full-time education; the contribution of further education to economic development; and, an evaluation of the current funding mechanism. The findings of this considerable body of information were augmented further by a number of study visits aimed at evaluating best practice in vocational education.

The proposals set out in the draft strategy are now subject to a second period of public consultation that closes on 30 June 2004. Much of the research is already available on the DEL website and a summary document on this underlying evidence will be published shortly.

With regard to specific areas highlighted, the data collected by the Department shows:

(i) a total of 1,815 full-time and 3,113 part-time lecturing staff in respect of the 2001–02 academic year (source: college returns);

(ii) the total number of students taking vocational courses across all colleges in the 2001–02 academic year was 121,930 (Source: Further Education Statistical Records—FESR);

(iii) the total number of students aged 16–21, studying vocational courses across the N. Ireland further education sector was 48,792 in 2001–02. This represented approximately 33 per cent. of the 16–21 year-old mid year population estimate for 2001 (Source: 2001 census).

International Monitoring Commission

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what annual salary will be paid to members of the International Monitoring Commission; and what he estimates Commission members' average annual expenses will be. [160587]

Jane Kennedy: The Independent Monitoring Commission Commissioners will not be paid an annual salary. The Commissioners receive a per diem rate of £600, the Commissioners may also claim £25 per day and, in addition, their travel and subsistence costs are met.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland if he will estimate the *(a)* cost of setting up and *(b)* annual running costs of the International Monitoring Commission. [160588]

Jane Kennedy: I estimate the costs associated with establishing and running the Independent Monitoring Commission up to the end of financial year 2003–04 to be approximately £600,000. I estimate that the annual running costs will be approximately £2 million, up to half of which will be borne by the Irish Government. I intend to make IMC accounts available in due course.

Mental Health Services

Mr. McGrady: To ask the Secretary of State for Northern Ireland how many emergency psychiatric bed spaces there are in Northern Ireland, broken down by location; and what assessment he has made of the adequacy of this provision to deal with the demand. [163299]

Angela Smith: The Eastern Health and Social Board has six acute psychiatric units providing a total of 224 beds. These are located at Belfast City Hospital, Mater Hospital, Knockbracken Healthcare Park, Lagan Valley Hospital, Ards Hospital and Downshire Hospital.

The Northern Board has three acute psychiatric units providing 134 beds. These are located at the Ross Thompson Unit, Holywell Hospital and Whiteabbey Hospital.

The Southern Board has two acute psychiatric units providing 120 beds. These are located at St. Luke's Hospital and the Psychiatric Unit at Craigavon Area Hospital.

The Western Board has two acute psychiatric units providing 104 beds. These are located at Gransha Hospital and Tyrone and Fermanagh Hospital.

A major review of mental health law, policy and service provision is currently under way. This will look at the issues of hospital provision as well as alternatives to emergency admissions.

Tim Loughton: To ask the Secretary of State for Northern Ireland how many mental health trusts in Northern Ireland have fully established women-only day care facilities. [163048]

Angela Smith: There are no fully established women-only day care facilities in any of the Health and Social Services Trusts in Northern Ireland.

New Deal

Lady Hermon: To ask the Secretary of State for Northern Ireland how many people in Northern Ireland have gained employment as a result of enrolling in the *(a)* New Deal for 18 to 24-years-olds, *(b)* New Deal 50+, *(c)* New Deal for Disabled People, *(d)* New Deal for people aged 25+ and *(e)* New Deal for Lone Parents in each year since their introduction; and what steps he is taking to increase such figures. [161284]

Jane Kennedy: The New Deal programmes are a part of the Government's Welfare to Work Initiative and are aimed at assisting unemployed people from benefit into employment. All New Deal programmes are kept under review and developed to ensure that they meet the needs of their target groups. Independent evaluations are carried out on a regular basis as part of this review process.

The number of people who have gained employment as a result of participating in the New Deals are as follows:

Numbers into sustained employment[1, 2]

	New Deal for 18 to 24-year-olds	*New Deal 50+*	*New Deal for Disabled People*	*New Deal 25+*
1998–99	2,165	[3]0	[4]0	307
1999–2000	3,296	[3]0	[4]0	4,114
2000–01	2,398	523	283	2,521
2001–02	2,010	529	177	1,697
2002–03	1,965	483	436	1,751
2003–04[5]	1,455	—	511	1,036

Total number into employment—New Deal for Lone Parents[6]

	Full-time	*Part-time*
1998–99	543	35
1999–2000	1,213	115
2000–01	1,601	234
2001–02	1,779	221
2002–03	1,967	249
2003–04[5]	1,125	157

[1] A participant is considered to have sustained employment if they remain in the same spell of employment for 92 days or more.

[2] A participant is only ever counted once as starting employment.

[3] New Deal 50+ was introduced in April 2000.

[4] New Deal for Disabled People was introduced across Northern Ireland in April 2000.

[5] Figures for 2003–04 will be subject to revision as data on those who moved into employment towards the end of 2003 and the beginning of 2004 and subsequently sustain that employment becomes available.

[6] The Social Security Agency is responsible for the administration of New Deal for Lone Parents.

Mr. Hume: To ask the Secretary of State for Northern Ireland what percentage of 18 to 24-year-olds in *(a)* Northern Ireland and *(b)* the Foyle constituency entered paid employment within six months of completing New Deal programmes in the last 12 months for which figures are available. [162937]

Jane Kennedy: During the period 1 July 2002 to 30 June 2003 the percentage of leavers from the New Deal for 18 to 24-year-olds entering paid employment within six months of completing the programme was:

(a) 31 per cent. in Northern Ireland; and

(b) 25 per cent. in the Foyle parliamentary constituency.

Pregnancy (Triple Test)

Rev. Martin Smyth: To ask the Secretary of State for Northern Ireland what guidelines have been issued to each of the Northern Ireland health boards regarding the triple test for pregnant women. [162723]

Angela Smith: No guidance has been issued to Health Boards in Northern Ireland on use of the triple test for screening pregnant women in relation to Down's syndrome.

Serious Organised Crime Agency

Mr. Lidington: To ask the Secretary of State for Northern Ireland what the role of the Government's proposed Serious Organised Crime Agency will be in Northern Ireland. [161977]

Jane Kennedy: The Serious and Organised Crime Agency will have a UK wide remit. However, because of the distinctive features of organised crime in Northern Ireland a regional focus will be maintained and the PSNI will continue to have a central role in tackling organised crime.

A representative from the new agency will join the Northern Ireland Organised Crime Task Force.

Ulster Scots

Mr. Dodds: To ask the Secretary of State for Northern Ireland, if he will publish the results of *(a)* surveys and *(b)* measurements of demand for the Ulster-Scots language in Northern Ireland. [159542]

Angela Smith: The results of the 1999 Northern Ireland Life and Times Survey are currently published on the internet (www.ark.ac.uk/nilt).

My officials are currently finalising and preparing for publication the Dunne report, which includes research dating back to 2002. The published report will include the results of the 2000 and 2001 Omnibus Survey. I envisage that the report will be published before the summer.

INTERNATIONAL DEVELOPMENT

Small Arms

Mr. Gardiner: To ask the Secretary of State for International Development what provision has been made to extend funding for *(a)* the small arms and light weapons global conflict prevention pool beyond 2004 and *(b)* the United Nations development programme global weapons collection programme. [163368]

Hilary Benn: The Global Conflict Prevention Pool (GCPP) Small Arms and Light Weapons (SALW) Strategy allocation for 2004–5 is £6.0 million. It is expected that the allocation up to 2006–07 for all strategies including SALW will be agreed by Ministers towards the end of 2004.

Support for the United Nations Development Programme's (UNDP) Small Arms Project on Weapons Collection, Management and Destruction comes from the Global Conflict Prevention Pool (GCPP), jointly managed by the Department for International Development, Ministry of Defence and Foreign and Commonwealth Office. The current phase of support is worth £7.5 million and runs for three years, ending in April 2004. We are currently considering a proposal to extend funding for a further period.

Mr. Gardiner: To ask the Secretary of State for International Development what plans he has to extend small arms and light weapons destruction projects. [163428]

Hilary Benn: DFID is keen to provide continued support to programmes which demonstrate their ability to reduce the availability of Small Arms and Light Weapons (SALW) through stockpile management, collection and destruction initiatives.

Support for United Nations Development Programmes (UNDP's) Small Arms Project on Weapons Collection, Management and Destruction comes from the Global Conflict Prevention Pool (GCPP), jointly managed by DFID, the Ministry of Defence (MoD) and Foreign and Commonwealth Office (FCO). The current phase of support is worth £7.5 million and runs for three years, ending in April 2004. We are currently considering a proposal to extend funding for a further period.

The UK Government will provide on-going support in 2004–05 towards the development of a five year National Action Plan in Tanzania, Kenya, Uganda, Mozambique and Namibia. These plans will provide a comprehensive approach to weapons control in these countries and will include disarmament, destruction and weapons management.

The GCPP will continue to fund a Brazilian NGO, Viva Rio in 2004–05. The next part of the programme will commence in April 2004 and will contain stockpile, destruction and tracing initiatives as part of their awareness raising campaign.

In joint co-operation with MOD and FCO we are also increasing our funding to the UN Regional Centre for Peace, Disarmament and Development in Latin America and the Caribbean to co-ordinate and execute assistance to several Latin American countries during 2004 for weapons destruction and stockpile management, including the organisation of public events.

DFID is also planning new SALW destruction projects in the Balkans.

Mr. Gardiner: To ask the Secretary of State for International Development whether his officials have discussed assistance to the Economic Council of West African States to combat small arms problems in West Africa with the ECOWAS secretariat. [163429]

Hilary Benn: DFID recognises that more needs to be done to combat small arms proliferation in West Africa. In recent months DFID, together with the FCO and MOD, and other donors have been working closely with Economic Community of West African States (ECOWAS) and is member states to take forward a number of emerging opportunities. An outcome of this is that the UK is part funding an ECOWAS conference on Combating illicit Small Arms Brokering during March. As well as focusing on arms brokering this Conference will also review the existing ECOWAS moratorium on small arms and the proposed roles and responsibilities of the ECOWAS Small Arms Unit. The UK contribution for the Conference will be financed through the Global Conflict Prevention Pool to which DFID, FCO and MOD all provide funding.

CDC and Actis

Gregory Barker: To ask the Secretary of State for International Development what the total cost of new office space procured for *(a)* CDC and *(b)* Actis is; and what price per square foot has been paid for each of their new London offices. [157827]

Hilary Benn: The total costs and price per square foot of the new office space for both CDC and Actis are covered by confidentiality clauses in the contracts between the two companies and their respective landlords. The landlords have been asked to waive these restrictions but have declined to do so for commercial reasons. I am not therefore able to provide the information requested.

However, achieving the best value for money has been a priority in the decision to move into the two new offices. CDC's old office was in need of expensive refurbishment to its ventilation and cabling. Furthermore, its 52,000 sq ft of floor space had become too large for a staff complement, which had fallen from some 270 to around 170 over the last few years. The combined floor space of the two new offices amounts to some 32,000 sq ft in comparison. By selling their old office, CDC have also realised the value of the property (some £24 million) which can now be used for CDC's mission of investment in the private sector in poorer developing countries.

TRADE AND INDUSTRY

Long-service Awards

10. **Sir Nicholas Winterton:** To ask the Secretary of State for Trade and Industry what plans she has to introduce legislation on the issuing of long-service awards by companies. [163442]

Jacqui Smith: Long-service awards can benefit both employers and employees. Depending on the circumstances, such awards might amount to indirect age discrimination under the Article 13 European Employment Directive, which requires discrimination on the grounds of age in employment and vocational training to be outlawed by December 2006. We intend that our implementing legislation will provide for employers to be able to continue to offer justifiable long-service awards.

National Minimum Wage

11. **Mr. David Stewart:** To ask the Secretary of State for Trade and Industry what estimate she has made of the number of people benefiting from the recent uprating of the national minimum wage. [163443]

Mr. Sutcliffe: Based on the Office for National Statistics' Low Pay data released in 2003, the DTI estimates that between 1.6 million and 1.9 million people in the UK stand to benefit from the October 2004 uprating of the national minimum wage which was announced last week.

Mr. Jim Cunningham: To ask the Secretary of State for Trade and Industry what estimate she has made of the number of people benefiting from the recent uprating of the national minimum wage. [163569]

Mr. Sutcliffe: Based on the Office for National Statistics Low Pay data released in 2003, the DTI estimates that between 1.6 million and 1.9 million people in the UK stand to benefit from the October 2004 uprating of the National Minimum Wage which was announced last week.

Mr. Battle: To ask the Secretary of State for Trade and Industry what estimate she has made of the number of *(a)* adults, *(b)* 16 and 17-year-olds and *(c)* households in Leeds West that will benefit from the minimum wage rise in October 2004. [162606]

Mr. Sutcliffe: DTI analysis of low pay data from the Office for National Statistics suggests that between 180,000 to 210,000 workers in Yorkshire and the Humber stand to benefit from the October 2004 uprating of the national minimum wage. More detailed information by constituency is not possible using the data available. Information on 16 to 17-year-olds and on households is neither available by region nor by constituency due to small sample size.

Defective Products (Mandatory Recalls)

12. **Mr. McWalter:** To ask the Secretary of State for Trade and Industry if she will create an independent national body to oversee all mandatory recalls of defective products. [163444]

Mr. Sutcliffe: Having carefully considered the option of creating an independent national body we have decided not to pursue this course of action.

Music Industry

13. **Kevin Brennan:** To ask the Secretary of State for Trade and Industry what assessment she has made of the economic contribution of the music industry in the United Kingdom; and if she will make a statement. [163445]

Ms Hewitt: Music is, and has been for many years, one of the most vibrant sectors of the UK economy. The Department for Culture, Media and Sport, who have responsibility for the music industry, estimates that the UK is the third largest market in the world for sales of music and is second only to the USA as a source of repertoire. According to the DCMS sponsored report by the National Music Council on the economic contribution of the UK music business, "Counting the Notes (2002)", the music industry generated a total value added in excess of £3.6 billion in 2000.

Small Firms Legislation

14. **Mr. Paul Marsden:** To ask the Secretary of State for Trade and Industry what assessment she has made of the way the Government consults small firms on new legislation. [163446]

Nigel Griffiths: The Government established a Small Business Council in May 2000 to advise and report on the effects that the Government have on small business, including regulation. William Sargent SEBC Chair acts as the 'voice' for small business across Whitehall—in this role he also has direct access to the Prime Minister and attends Ministerial Panel of Regulatory Accountability.

Chemical Industry

15. **Mr. Ben Chapman:** To ask the Secretary of State for Trade and Industry what steps the Department is taking towards deregulation of the chemical industry. [163447]

Jacqui Smith: The Government continually looks for ways to improve the regulatory regime, and we will be establishing a new chemical industry forum to discuss options for better regulation, as announced by the Chancellor in last week's budget. Appropriate regulation of the chemical industry is, of course, necessary to ensure proper protection of human health and the environment.

European Union (Balance of Trade)

16. **Ann Winterton:** To ask the Secretary of State for Trade and Industry what the balance of trade with the European Union was in the last 12 months for which figures are available; and what the balance was *(a)* five and *(b)* 10 years ago. [163448]

Mr. Mike O'Brien: In the year to the third quarter of 2003, the UK's balance of trade in goods and services deficit with the European Union was 2.5 per cent. of GDP. In 1998 and 1993 the deficits were 0.7 and 0.9 per cent. respectively. In 1988 it was 3.7 per cent.

Nuclear Power (Emissions)

17. **Mr. Chope:** To ask the Secretary of State for Trade and Industry if she will make it her policy under the

United Kingdom national allocation plan to exempt nuclear generation from the EU emissions trading scheme. [163449]

Mr. Timms: While nuclear generation does not produce emissions of carbon dioxide, the associated combustion installation which emits carbon dioxide and with a rated thermal input exceeding 20 MW is subject to the EU emissions trading scheme.

West Africa (Export Control)

18. **Mr. Gardiner:** To ask the Secretary of State for Trade and Industry if she will discuss with representatives of the Economic Community of West African States the Department's policy on extraterritorial export control legislation. [163450]

Nigel Griffiths: Yes my hon. Friend the Minister for Africa wrote last December to Dr. Ibn Chambas, Executive Secretary of the Economic Community of West African States, to explain the Government's policy on extra-territorial controls.

The Minister discussed the issue again when he saw Dr. Chambas in New York this February.

Productivity (Yorkshire and the Humber)

19. **Mr. Challen:** To ask the Secretary of State for Trade and Industry what steps she is taking to improve productivity in Yorkshire and the Humber. [163451]

Jacqui Smith: The Government are committed to raising the productivity of UK business in order to provide prosperity for everybody in our country. Within Yorkshire and the Humber, my Department works closely with Yorkshire Forward, the Regional Development Agency for the region, which has made improved productivity a key priority in then Regional Economic Strategy.

Since its launch in may 2002, the Yorkshire and Humber Manufacturing Advisory Service (MAS) has contacted 691 companies. This has resulted to date in company improvements in productivity added value of £7.8 million per annum.

Internet Access

20. **Mr. David:** To ask the Secretary of State for Trade and Industry what assessment she has made of how the level of internet access in the United Kingdom compares with that in other European countries. [163452]

Mr. Timms: The Office of the e-envoy published an independent international benchmarking assessment in Nov 2002—The Worlds Most Effective Policies for the e-Economy—which presents international comparisons of internet access and use across the G7. The assessment shows the UK to be ahead of other European G7 countries for household internet access.

Alcoholic Beverages

Mr. Hepburn: To ask the Secretary of State for Trade and Industry what measures she is planning to ensure that beer drinkers receive a full pint when purchasing alcoholic beverages on licensed premises. [163469]

Mr. Sutcliffe: I refer the hon. Member to the answer given on 17 March 2004, *Official Report*, column 321W.

Mr. Hepburn: To ask the Secretary of State for Trade and Industry what research the Department has undertaken on whether beer drinkers receive a full pint on licensed premises. [163470]

Mr. Sutcliffe: The Department's consultation document 'Draught Beer and Cider' of March 2002 reported the results of a number of surveys by local authorities.

This consultation document has been placed in the Libraries of the House and can be viewed at www.dti.gov.uk/ccp/consultpdf/beer2.pdf.

BNFL

Mr. Watson: To ask the Secretary of State for Trade and Industry how many fixed price contracts have been undertaken by BNFL in the USA in each of the last 10 years. [162875]

Mr. Timms: BNFL operates in several sectors in the US, principally environmental clean-up through its subsidiary BNFL Inc and fuel manufacture and reactor services through its subsidiary Westinghouse Electric Company. It would not be practical to list specific details of contracts.

I would refer the hon. Member to an answer I gave to the hon. Member for North-West Norfolk (Mr. Bellingham) on 6 January 2004, *Official Report*, column 225W.

Mr. Watson: To ask the Secretary of State for Trade and Industry pursuant to the answer of 17 March 2004, *Official Report*, columns 321–22W what estimates of further losses are envisaged by BNFL Inc; and what other potential losses in the USA BNFL Inc have informed the Department of. [163074]

Mr. Timms: I refer the hon. Member to the answer I gave to the hon. Member for Lewes (Norman Baker), on 22 March 2004, *Official Report*, column 517W.

Conferences and Seminars

Michael Fabricant: To ask the Secretary of State for Trade and Industry pursuant to her answer of 12 March 2004, *Official Report*, column 1775W, on conferences and seminars, for what reason she does not maintain a central register of the *(a)* number and *(b)* cost of conferences and seminars that have been cancelled since June 2001. [162603]

Ms Hewitt: Responsibility for conferences and seminars rests with individual business units in DTI. Statistics on cancellation of such events with associated costs are not normally required for business reasons and are therefore not collected centrally.

Departmental Expenditure

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry what the *(a)* resource budget, *(b)* administration costs and *(c)* staff numbers of the (i) Database Market Strategy Group (Patent Office), (ii) Small Business Investment Task Force, (iii) Small Business Council, (iv) Partnership Fund Assessment

Panel, (v) Measurement Advisory Committee, (vi) Industrial Development Advisory Board, (vii) Council for Science and Technology, (viii) Committee on Cleaner Coal Technology, (ix) National Consumer Council, (x) Gas and Electricity Consumer Council and (xi) British Hallmarking Council are for 2003. [162421]

Ms Hewitt: The resource budget set by DTI for the National Consumer Council for the financial year 2003–04 is £4,059,000. The forecast average staff numbers for the National Consumer Council is 51.2 full time equivalents.

The resource budget set by DTI for the Gas and Electricity Consumer Council for the financial year 2003–04 is £12,300,000. The forecast average staff numbers for the Gas and Electricity Consumer Council is 296 full time equivalents.

The resource provided by DTI for these bodies is funded from DTI's programme budgets. The amount of their expenditure, which would be regarded as administrative costs will be published in each body's audited annual accounts.

The following bodies do not have separate resource budgets or staff. DTI provide the secretariat services in these cases and expenditure is met from within DTI's internal resource budgets.

Council for Science and Technology

Industrial Development Advisory Board

Measurement Advisory Committee

Small Business Investment Task Force

Small Business Council

Partnership Fund Assessment Panel—closed December 2003

The Committee on Cleaner Coal Technology—closed June 2003

The British Hallmarking Council is funded by the Assay Offices and does not receive a resource budget from DTI. It has one member of staff.

The Database Market Strategy Group (Patent Office) has no budget or staff. Its secretariat is provided by the Patent Office. No internal budget has been set for this body. It has not met during 2003–04.

Departmental Scientific Adviser

Dr. Iddon: To ask the Secretary of State for Trade and Industry whether her Department has a chief scientific adviser. [162479]

Ms Hewitt: The Department of Trade and Industry appointed David Hughes as Director General of Innovation Group and Departmental Chief Scientific Adviser (DCS A) in October 2002. David Hughes is a member of the Department's Executive Board.

Sir David King, the Government's Chief Scientific Adviser, reports direct to the Prime Minister and to Cabinet. He provides advice to the Government as a whole on science, engineering and technology (SET) matters. Sir David heads the Office of Science and Technology which is located in my Department.

I meet both regularly and Sir David meets David Hughes and the other Departmental Chief Scientific Advisers on a regular basis.

Drug Treatments in Developing Countries

Mr. Battle To ask the Secretary of State for Trade and Industry if she will make a statement on progress in making cheaper generic drug treatments available to developing countries, pursuant to the World Trade Organisation agreement on trade related aspects of Intellectual Property Rights and Public Health of August 2003. [162590]

Ms Hewitt: The UK Government will be working with our European partners on incorporating the WTO Decision on TRIPs and Public Health into law at EU level. This will enable both the granting of compulsory licences for export of patented medicines in the circumstances laid down in the decision, and appropriate safeguards to ensure that medicines exported in this fashion are not diverted from their intended recipients.

E-Auctions

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry what assessment she has made of the potential impact of closed e-auction policies by supermarket stores on the health and safety compliance rates of contracting companies. [160140]

Mr. Sutcliffe: I understand that the hon. Member may have information regarding a reduction in health and safety standards. This is a matter for the Health and Safety Executive who may be able to respond appropriately if provided with detailed information.

Employment Rights Booklets

Lynne Jones: To ask the Secretary of State for Trade and Industry whether her Department conducted an impact assessment under its race equality scheme of its decision to cease production of hard copy prints of most employment rights advice booklets. [162650]

Mr. Sutcliffe: No. Employment rights information is available from the Department's website or, in paper form, from Acas.

Lynne Jones: To ask the Secretary of State for Trade and Industry pursuant to the answer of 11 March 2004, *Official Report*, columns 1676–77W, on employment rights advice booklets, on what date the organisations listed were invited to join the practitioner group established as part of the review of her Department's information services; which of the organisations listed subsequently *(a)* became a member of the practitioner group and *(b)* attended meetings of the practitioner group; on what dates; and which organisations (i) declined to join the practitioner group and (ii) did not respond to the invitation. [162651]

Mr. Sutcliffe: A letter inviting organisations to join the group was sent on 28 May 2002. Membership was through attendance at the meetings. The letter did not ask for a response if the offer was declined. Records were not kept of organisations that did not respond.

Following is a list of organisations represented at the meetings.

Meeting of Employment Information Practitioners' Group: stakeholder attendance list

9 June 2002

CBI
Leo Abse and Cowen
British Chambers of Commerce
West Midlands Low Pay Unit

10 July 2002

2 October 2002

British Hospitality Association
West Midlands Employment and Low Pay Unit
Parents at Work
Maternity Alliance
SBC
TUC
Acas Council member
British Retail Consortium
EEF
CIPD
Equal Opportunities Commission
Construction Confederation
Federation of Private Business
Employment Law Consultants
Canary Wharf plc
ACAS
ACCA

Entrepreneurship

Mrs. Curtis-Thomas: To ask the Secretary of State for Trade and Industry what steps her Department is taking to promote an enterprise culture within educational establishments. [163312]

Ms Hewitt: In encouraging entrepreneurial attitudes among young people, the DTI has supported Enterprise Insight in developing a national campaign to promote enterprise to young people and to those who influence them (including teachers, careers advisers etc). This campaign will have as its focal point an annual Enterprise Week, the first of which will be from 15 to 21 November this year. Enterprise Week will include national and regional activities and celebrations of entrepreneurial achievement.

The DTI also supports the activities of Young Enterprise, in offering young people practical experience of what enterprise entails through simulated entrepreneurial situations. Specifically, through the SBS it supports YE's Graduate Programme, Masterclass and Innovation Awards.

The DTI is also working closely with the DfES and the Treasury in taking forward the recommendations of the Davies Review. From 2005–06 all Key Stage 4 pupils will receive the equivalent of five days enterprise activity, which develops enterprise capability—innovation, creativity, risk-management and risk-taking, and financial and business understanding. 151 Enterprise Pathfinder projects were launched last September, covering nearly 400 secondary schools in England, from which DfES will derive guidance for all schools prior to launching the £60 million enterprise education entitlement in September 2005. A second wave of Pathfinders will start in September 2004.

The two Departments are also supporting the National Council for Graduate Entrepreneurship. Building on existing good practice, the aims of the Council will be to raise the profile of entrepreneurship and starting a business as a career option within Higher Education Institutions (HEIs), including both universities and other higher education establishments, with the objective of increasing the numbers of students and graduates who give serious thought to this. It will therefore work with all interested parties to encourage and create an entrepreneurial culture among students and graduates.

Fireworks Act

Mr. Gardiner: To ask the Secretary of State for Trade and Industry what timetable has been established for drawing up *(a)* regulations under the Fireworks Act 2003, *(b)* a media and public awareness strategy about the new regulations and *(c)* training for police and local authorities on dealing with the new regulations. [163373]

Mr. Sutcliffe: No formal timetable has been established, but under the Fireworks Act we have already made the Fireworks Regulations 2003 which came into force on 22 December.

Preliminary consultations on implementing the remainder of the Fireworks Act are continuing and draft regulations will be published for consultation towards the end of April with the aim of making regulations by July before summer recess.

A media and public awareness strategy is being considered. As far as possible, this will fit in with our annual firework safety campaign.

The Local Authorities Co-ordinators of Regulatory Services (Lacors) ensure that local authorities have all relevant information and guidance relating to new legislation. Training for the police is a matter for the Home Office.

Flexiclub

Mr. Nigel Jones: To ask the Secretary of State for Trade and Industry what representations she has received regarding the activities of the company Flexiclub; and if she will make a statement. [163227]

Mr. Sutcliffe: The Department does not comment on the affairs of individual companies. If the hon. Member has received complaints about a company called

Flexiclub or trading as Flexiclub we will consider it. According to information held at Companies House, companies with the words Flexiclub in their name have been dissolved, the most recent being in August 2002. We cannot investigate dissolved companies.

Internet Service Providers

Mr. Chidgey: To ask the Secretary of State for Trade and Industry what steps her Department is taking to promote an increase in internet service providers' accountability to their customers. [163431]

Mr. Timms: Under the Communications Act 2003, Ofcom was given a duty to set general conditions for service providers to provide information about services standards and customer rights. Under Ofcom's General Conditions of Entitlement, Internet service providers must provide a consumer code of practice that will set out clear information about the company they are dealing with, what they offer, what policies are in place (e.g. in relation to disconnections, payment, billing etc.), how to contact them, how to complain and how to go to an alternative dispute body.

The Communications Act 2003 also gave Ofcom a duty to promote media literacy. As part of Ofcom's strategy for the promotion of media literacy they will be encouraging Internet service providers to offer advice and guidance to customers, particularly in relation to the protection of young people from harmful content and services delivered on the Internet. In addition, Ofcom propose to direct people to information provided by other stakeholders when looking for information to control their and their children's activities online.

Mr. Chidgey: To ask the Secretary of State for Trade and Industry what steps are being taken to encourage internet service providers to provide more information to their customers on the services they provide. [163432]

Mr. Timms: The regulation of Internet service providers is the responsibility of Ofcom. Under the Communications Act 2003 Ofcom have put in place a range of general conditions which improve the accountability of all communications providers, including ISPs, to their customers. For example all communications providers now have to establish alternative dispute resolution procedures for handling complaints made by their customers.

Ministerial Visits

Mr. Clappison: To ask the Secretary of State for Trade and Industry if she will list the *(a)* businesses and *(b)* small businesses which she has visited in an official capacity since 1 January. [162765]

Ms Hewitt *[holding answer 22 March 2004]:* In my official capacity I frequently meet business people and also held regular meetings with business representative organisations.

Nirex

Mr. Watson: To ask the Secretary of State for Trade and Industry pursuant to her answer of 17 March 2004, *Official Report,* column 330W whether a representative of Nirex was present at the meetings of *(a)* 5 March and *(b)* 9 March; and whether the communications budget was discussed. [163047]

Mr. Timms: Nirex was not represented at these meetings, and they did not address its communications budget.

Nuclear Decommissioning Authority

Mr. Watson: To ask the Secretary of State for Trade and Industry whether applications from foreign candidates will be considered for the post of *(a)* chair and *(b)* chief executive of the Nuclear Decommissioning Authority. [163644]

Mr. Timms: The Department is undertaking a recruitment campaign for two policy advisers who subject to the successful passage of the Energy Bill be appointed Chair, and Chief Executive of the Nuclear Decommissioning Authority. The campaign is open and transparent and applications will be considered from all sources. The key requirement is that candidates meet the criteria for the posts. Successful candidates will need to obtain satisfactory security clearance.

Oil Reserves

Mr. Blunt: To ask the Secretary of State for Trade and Industry (1) what assessment she has made of the importance of the Al-Ghawar oil field to the global oil market; [163400]

(2) what assessment she has made of the risks to sustaining output from the Al-Ghawar field at current levels. [163401]

Mr. Timms: The Al-Ghawar oil field is estimated to have production capacity of around five million barrels of oil per day, approximately 6 per cent. of global oil production.

My Department keeps abreast of the various studies looking at the sustainability of output from Al-Ghawar, and Saudi Arabia more generally. Although production from the Al-Ghawar field may slowly decline in future years, Saudi Aramco is confident that replacements from other giant oil fields mean that oil production from Saudi Arabia can be sustained at current levels, and higher if necessary, for several decades.

Mr. Blunt: To ask the Secretary of State for Trade and Industry what assessment she has made of short to medium term excess of oil and over-supply for oil on policy towards promoting development of more North Sea hydrocarbon resources. [163402]

Mr. Timms: The imperative to maximise the economic benefit, and the consequent contribution to energy security of supply, from the UK's oil and gas reserves applies whatever the oil price. Working with PILOT, the Government-industry forum, we aim to ensure that the North Sea's oil and gas reserves are fully exploited, for example by attracting new entrant oil companies and improving the recovery from existing fields.

Phoenix Development Fund

Mrs. Curtis-Thomas: To ask the Secretary of State for Trade and Industry what assessment she has made of the effect of the Phoenix Development Fund on levels of enterprise in disadvantaged and under-represented groups. [163319]

Nigel Griffiths: The Fund is currently being evaluated and a final report is due in September 2004. However the results to date indicate that the project is helping in the creation of some 8,000 new enterprises and assisting over 8,200 existing businesses.

Renewable Energy

Mr. Sheerman: To ask the Secretary of State for Trade and Industry how much her Department has spent on grants to encourage the use of renewable energy in each year since 1990. [162054]

Mr. Timms: I refer my hon. Friend to the answer that I gave to my right hon. Friend the Member for Oldham, West and Royton (Mr. Meacher) on 17 March 2004, *Official Report*, column 327–28W.

Rural Post Offices (Scotland)

Annabelle Ewing: To ask the Secretary of State for Trade and Industry what discrete criteria are to be employed for Scotland as far as the review of the rural post office network is concerned. [162948]

Mr. Timms: Officials from the Scotland Office and the Scottish Executive will be closely involved in the consideration of policy options for the future of the rural post office network through membership on an inter-departmental working group.

Small Businesses

Mrs. Curtis-Thomas: To ask the Secretary of State for Trade and Industry which of the recommendations of the Cross Cutting Review of Government Services for Small Businesses have been implemented. [163321]

Nigel Griffiths: 37 of 39 recommendations of the Cross Cutting Review of Government Services for Small Business have been or are being implemented, either in their original form, or as modified in the light of subsequent work. The 39 recommendations are set out in the following list.

Recommendation 22 in the list is not being pursued in its original form. Recommendation 23 has been deferred. Work has shown that it is not possible at this stage to develop an appropriate appraisal methodology to take full account of the costs to SMEs of different forms of service delivery.

Recommendations from the Cross Cutting Review of Government Services for Small Business

1. Government Departments to train staff in contact with small firms about the Government's objective of encouraging entrepreneurs: staff should be aware of the support and services available for new firms; this training should be sensitive to regional differences in rates of entrepreneurship.

2. Government 'services' aimed at fostering entrepreneurs should be more consciously designed to help remove barriers for under-represented groups; SBS to lead work on this.

3. SBS should bring forward proposals to increase the reach and effectiveness of the Small Firms Guarantee scheme provided the changes can demonstrate value for money, to implement the broad thrust of SBIT and KPMG recommendations, in particular that:

where possible, sector exclusions are removed;

the scheme is simplified; and that

it is marketed effectively to encourage greater take-up by finance providers and small businesses alike.

4. SBS should act as a focal point for Government research on barriers to enterprise for under-represented groups.

5. SBS to give clearer instructions to Business Links Operators (BLOs) on how to acknowledge diversity in their business delivery and ensure best practice in delivering BLO services are spread to all.

6. SBS to redefine BLOs targets to encourage them to engage the local community, creating an inclusive and approachable reputation, and using intermediaries where these are better at providing business services to specific groups.

7. RDAs should work with Local Strategic Partnerships, using regeneration funds where relevant, to pioneer novel approaches to barriers for specific groups of local entrepreneurs.

8. SBS and Inland Revenue jointly should examine the costs and benefits of providing, in a suitably anonymised form, to Government Departments and expert organisations, on an ongoing basis, existing data available from self-employment registration forms (Annex C).

9. The SBS and ONS should review the questions on self-employment and business ownership in the Labour Force Survey (LFS) to ensure that all self-employed interviewees are captured in the survey, and to examine increasing the LFS sample size.

10. SBS and Inland Revenue should examine and report to Ministers whether data on gender, ethnic background and disability status of applicants by postcode could be captured from self-employment registration forms.

11. SBS and Customs and Excise should examine and report to Ministers whether data on gender, ethnic background and disability status of applicants by postcode could be captured via the VAT registration form.

12. SBS to enforce the BLO contract condition to supply data on the clients receiving 'significant' assistance from Business Links.

13. Government Departments to identify separate services which could be combined to provide a single service for small firms—for example, at start-up, or becoming an employer.

14. Departments to set targets which demonstrate progress towards providing quality services for all customers.

15. SBS and the Office of the e-Envoy, to establish management and governance arrangement for business.gov to ensure that it is developed in conjunction with the main public services for small business; and also will ensure that departments and

agencies can base their electronic service delivery projects on a common, practical, research-based understanding of customer requirements, leading to a common look and feel for government information for small firms.

16. Departments and agencies who are service providers for small firms at start-up are to work with SBS to produce a resource pack with comprehensive information about what Government wants from new businesses and the newly self-employed and what it can do for them; the pack should be available through multiple private and public sector channels (including banks, accountants, libraries and so on). Local authority information should be incorporated as soon as possible.

17. Local enterprise events to be held: these give new and would-be entrepreneurs information about the help available (which they often underestimate).

18. Over time an electronic version of the resource pack to be developed to give more detailed and tailored information.

19. The pack will be underpinned by a common data source available to all issuing it, so that the same advice is given regardless of the agent who gives it.

20. OPSR (Cabinet Office) with support from PSPPU to develop guidance on customer-focused delivery and consult widely on their proposals.

21. SBS to develop further its expertise on small firm sector, to act as a proxy-customer and advise departments and agencies on the needs of small firms in designing and implementing policies which impact on them.

22. To raise awareness and promote culture change, SBS to sponsor a 'special award' for services to small firms within the existing Charter Mark Scheme, with applications judged by a panel comprising small firm representative groups and individual small businesses.

23. Departments to work with HM Treasury in developing further appraisal methodologies which take full account of the costs to SMEs of different forms of service delivery.

24. Departments' targets for measuring towards providing quality services for all customers, should also measure the extent to which the department has set the customer at the heart of its policy and implementation systems.

25. Whitehall Group to act as a forum to share best practice and ensure that opportunities for joint working that would benefit small firms customer are exploited.

26. Expenditure and service information to be collected again by SBS and HMT before the next spending review.

27. SBS to develop and maintain an information quarry on Government requirements of and support for small firms, available for other departments and small firms' advisers.

28. Departments with extensive contacts with small firms to train staff to use the information quarry to signpost small firms to other relevant Government services.

29. Departments and agencies with call centres to review operational targets to ensure these do not discourage effective signposting.

30. As an executive agency of the DTI, the SBS's remit is redefined to take account of the importance of small firms' wider interactions with Government: it should aim to simplify and improve small firms' experience of Government.

31. SBS should develop its role as a source of market knowledge and expertise on small firms for national policy makers through its research and evaluation programme and through existing and newly developing networks.

32. The joint chairman of a group of departments and agencies who provide major services for small firms should be a member of the SBS steering board; the group will advise on SBS's annual work programme to improve the quality and flow of information about Government services; the group will also be a forum for sharing good practice in customer focus.

33. RDAs and SBS should develop a methodology, so that SBS can build up an aggregate picture of demand and supply for information on services for small business.

34. SBS should continue to develop the brokerage role for Business Links.

35. RDAs should work closely with sub-regional partnerships, and Local Strategic Partnerships to share information with small businesses and improve local communication about services for small business.

36. SBS, RDAs and partnerships should develop principles of good partnership working.

37. Members of partnerships may adjust their own services in the light of information about what others do, to eliminate overlapping services or fill gaps.

38. RDAs may wish to give sub regional partnerships budgets for improving information for small firms about what is available; and/or to move from information sharing and provision to positive planning and co-ordination of services.

39. Members of partnerships should also identify any barriers to joint working created by national policies and targets, and pass this information back to the department or agency concerned via the RDA.

TRANSPORT

10-year Plan

Simon Hughes: To ask the Secretary of State for Transport what progress has been made *(a)* in Greater London and *(b)* in each London borough in achieving the 10-Year Plan targets for growth of more than 12 per cent. by 2010 compared with 2000 in the use of (i) bus services and (ii) light rail. [162350]

Mr. McNulty: The combined patronage total of bus and light rail has increased by 13.6 per cent. in the last two years in Greater London.

Bus patronage in Greater London has increased by 13.3 per cent. from 1,354 million journeys in 2000–01—the base year for the Government's 10-Year Plan target—to 1,534 million journeys in 2002–3. No data is available from TfL on the breakdown by London borough of this bus patronage increase.

Total Light Rail patronage in Greater London has also increased by 20.6 per cent. over this period. Annual patronage on the DLR network—which covers the boroughs of Tower Hamlets, Greenwich, Lewisham and Newham and the Corporation of London—has increased from 38.4 to 45.7 million journeys, an increase of 19 per cent., while annual patronage on the Croydon Tramlink—which covers the boroughs of Merton, Sutton, Croydon and Bromley—has increased from 15.0 to 18.7 million journeys, an increase of 24.7 per cent.

Bus Services

Mr. Drew: To ask the Secretary of State for Transport whether the Transport Commissioners have been consulted on the closure of Stroud bus station. [162827]

Mr. McNulty *[holding answer 23 March 2004]*: There is no formal requirement for Traffic Commissioners to be consulted regarding bus stations.

Channel Tunnel

Sir Teddy Taylor: To ask the Secretary of State for Transport what total amount of public funds has been spent on the Channel Tunnel and associated works since 1986; and what assessment he has made of the economic stability of the Tunnel in the future. [161696]

Mr. McNulty *[holding answer 17 March 2004]*: No public funds have been spent on the Channel Tunnel itself. The Treaty of Canterbury, signed on 12 February 1986, specifically prohibits any public finance for this infrastructure. The connecting road and rail infrastructure has been developed with Government support. However, in the UK the bulk of this is in the form of guaranteed bonds.

While the Government is keen to see maximum usage of the Tunnel infrastructure, the economic foundation of the operating company is ultimately a matter for its shareholders.

Computer Misuse

Mr. Webb: To ask the Secretary of State for Transport how many cases of computer misuse there were in his Department and its predecessor in *(a)* 1997 and *(b)* 2003, broken down by category of misuse; and how many of those cases resulted in disciplinary action. [163274]

Mr. McNulty: There have been no proven incidents of computer misuse in the Department for Transport and its predecessor in 1997 and two in 2003.

In 2003, following disciplinary action, one member of staff was dismissed from the Department because of misuse of computer equipment involving access to "inappropriate" websites.

During the same year disciplinary action was taken against another member of staff who was dismissed for gross misconduct on several different counts. One being interpreted as serious negligence, causing unacceptable loss of a computer laptop.

Cycling Proficiency Tests

Mr. Paul Marsden: To ask the Secretary of State for Transport (1) how many cycling proficiency tests have been *(a)* taken and *(b)* passed in each year since 1997, (i) in total and (ii) broken down by local authority; [163115]

(2) what financial support has been given from his Department to local authorities for *(a)* cycling proficiency testing and *(b)* other bicycle training (i) in total and (ii) broken down by local authority. [163116]

Mr. Jamieson: I refer the hon. Member to my answer of 24 February 2004, *Official Report*, columns 339–40W.

Mr. Paul Marsden: To ask the Secretary of State for Transport (1) what research has been conducted into the safety implications of *(a)* the cycling proficiency test and *(b)* other bicycle training; [163117]

(2) what recent changes have been made, and what changes are proposed, to *(a)* the cycling proficiency test and *(b)* other bicycle training. [163118]

Mr. Jamieson: The Transport Research Laboratory's Research Project Report 214, "The Effectiveness of Child Cycle Training Schemes" has shown that cycle training is effective, with trained children found to be significantly safer than untrained children when knowledge and skills were tested two years after training. The research also identified that better performing cycling schemes involve on-road training, staged courses spread out over a number of weeks, and a problem solving or cycling awareness approach to learning.

There is no longer a single official cycle proficiency test. Local authorities adopt different practices when running cycle training schemes according to how they believe they can best deliver safer cycling locally. But we understand that many local authorities currently base their cycle training on the Royal Society for the Prevention of Accidents' guidelines for the management and operation of practical cyclist training schemes.

The Department is currently working with the National Cycling Strategy Board for England to develop a comprehensive promotion of cycling to school. This involves a close look at current cycle training provision; developing a national standard for child cycle training with road safety organisations, cycle trainers and cycling organisations.

Mr. Paul Marsden: To ask the Secretary of State for Transport how many qualified bicycle trainers there were in each year since 1997. [163120]

Mr. Jamieson: There is no centrally held data on the numbers of cycle trainers.

Infrastructure Projects

Mr. Collins: To ask the Secretary of State for Transport if he will list the major transport infrastructure projects within the responsibility of his Department to be built in *(a)* Aberdeen Central, i Alyn and Deeside, *(c)* Ayr, *(d)* Bassetlaw, *(e)* Birmingham, Northfield, *(f)* Birmingham, Perry Barr, *(g)* Blaydon, *(h)* Blyth Valley, *(i)* Bootle, *(j)* Bradford West, *(k)* Braintree, *(l)* Burton, *(m)* Cardiff West, *(n)* Clwyd South,

(o) Conwy, *(p)* Coventry North West, *(q)* Coventry South, *(r)* Clydebank and Milngavie, *(s)* Cynon Valley, *(t)* Dover, *(u)* Ealing North, *(v)* Eltham, *(w)* Feltham and Heston, *(x)* Forest of Dean, *(y)* Gateshead East and Washington West, *(z)* Glasgow, Govan, (aa) Glasgow, Maryhill, (bb) Hammersmith and Fulham, (cc) Hendon, (dd) Hornsey and Wood Green, (ee) Ilford North, (ff) Kettering, (gg) Knowsley South, (hh) Lancaster and Wyre, (ii) Leeds North East, (jj) Leeds West, (kk) Leicester East, (ll) Lewisham, Deptford, (mm) Liverpool, Riverside, (nn) Loughborough, (oo) Manchester, Withington, (pp) Milton Keynes North East, (qq) Monmouth, (rr) Northampton South, (ss) North West Leicestershire, (tt) Ochil, (uu) Reading East, (vv) Reading West, (ww) Rugby and Kenilworth, (xx) Sheffield, Attercliffe, (yy) Sheffield, Hillsborough, (zz) Sittingbourne and Sheppey, (aaa) Stevenage, (bbb) Stockton North, (ccc) Stoke-on-Trent, (ddd) Stourbridge, (eee) Thurrock, (fff) Tyne Bridge, (ggg) Wallasey, (hhh) Wansbeck, (iii) Waveney, (jjj) West Lancashire, (kkk) Wirral West, (lll) Wolverhampton North East and (mmm) Wolverhampton South East; and when the decision was taken to build them. [153777]

Mr. McNulty: The following major transport infrastructure projects within the responsibility of my Department are currently planned, or are being built, in these constituencies as shown in the following table. Many of these projects, for example the West Coast Main Line modernisation, by their very nature benefit a number of constituencies and also benefit people living in many other constituencies.

Constituency	*Project*	*Decision date*
Alyn and Deeside	West Coast Main Line Modernisation—This scheme benefits constituencies along its entire route and is not specific to this constituency.	June 1998
Bassetlaw	A1 Peterborough to Blythe Grade Separated Junction.	March 2001[1]
Birmingham Northfield	Highway Maintenance PFI Scheme—This scheme benefits constituencies along its entire route and is not specific to this constituency.	October 2003
	Northfield Relief Bypass	December 2000 PA[2]
Birmingham Perry Barr	Highway Maintenance PFI Scheme—This scheme benefits constituencies along its entire route and is not specific to this constituency.	October 2003
	Outer Circle Bus Showcase—This scheme benefits constituencies along its entire route and is not specific to this constituency.	December 2000
Bradford West	Yorkshire Yellow School buses—This scheme benefits constituencies across its area of operation and is not specific to this constituency.	December 2003
	Yorcard Integrated Public Transport Smartcard—This scheme benefits constituencies across its area of operation and is not specific to this constituency.	December 2003 PA
Braintree	Felixstowe to Nuneaton Rail Gauge Enhancement—This scheme benefits constituencies along its entire route and is not specific to this constituency.	26 February 2003
Conwy	West Coast Main Line Modernisation—This scheme benefits constituencies along its entire route and is not specific to this constituency.	June 1998
Coventry North West	Coventry Quality Bus Network—This scheme benefits constituencies across its area of operation and is not specific to this constituency.	December 2003 PA 1996
	West Coast Main Line Modernisation—This scheme benefits constituencies along its entire route and is not specific to this constituency.	June 1998
Coventry South	Coventry Quality Bus Network—This scheme benefits constituencies across its area of operation and is not specific to this constituency.	December 2003 PA
	A45 / A46 Tollbar End Improvement—This scheme benefits constituencies along its entire route and is not specific to this constituency.	April 2003[3]
	West Coast Main Line Modernisation—This scheme benefits constituencies along its entire route and is not specific to this constituency.	June 1998
Dover	Southern Region Rail Power Supply Upgrade Project—This scheme benefits constituencies along its entire route and is not specific to this constituency.	Early 2002
Ealing North	Streetlighting PFI schemes	Project Review Group[4] decision 19/8/04
	LU PFI Prestige (Oyster-smart travel cards)	August 1998
	LU PFI Power (power supply)	August 1998
	LU PFI Connect (radio and communications systems)	November 1999
	LU PPP financial close Tube Lines	December 2002
	LU PPP Metronet	April 2003
	These schemes benefit the entire London Underground network and are not specific to this constituency.	March 1999
Eltham	Southern Region Rail Power Supply Upgrade Project—This scheme benefits constituencies along its entire route and is not specific to this constituency.	Early 2002
Feltham and Heston	Southern Region Rail Power Supply Upgrade Project—This scheme benefits constituencies along its entire route and is not specific to this constituency.	Early 2002
	LU PFI Prestige (Oyster-smart travel cards)—This scheme benefits the entire London Underground network and is not specific to this constituency.	August 1998

Constituency	Project	Decision date
Hammersmith and Fulham	LU PFI Prestige (Oyster-smart travel cards)	August 1998
	LU PFI Power (power supply)	August 1998
	LU PFI Connect (radio and communications systems)	November 1999
	LU PPP financial close Tube Lines	December 2002
	LU PPP Metronet	April 2003
	LU PFI BTP accommodation.	March 1999
	These schemes benefit the entire London Underground network and are not specific to this constituency.	
Hendon	LU PFI Prestige (Oyster-smart travel cards)	August 1998
	LU PFI Power (power supply)	August 1998
	LU PFI Connect (radio and communications systems)	November 1999
	LU PPP financial close Tube Lines	December 2002
	LU PPP Metronet	April 2003
	LU PFI BTP accommodation.	March 1999
	These schemes benefit the entire London Underground network and are not specific to this constituency.	
Hornsey and Wood Green	LU PFI Prestige (Oyster-smart travel cards)	August 1998
	LU PFI Power (power supply)	August 1998
	LU PFI Connect (radio and communications systems)	November 1999
	LU PPP financial close Tube Lines	December 2002
	LU PPP Metronet	April 2003
	LU PFI BTP accommodation.	March 1999
	These schemes benefit the entire London Underground network and are not specific to this constituency	
Ilford North	LU PFI Prestige (Oyster-smart travel cards)—This scheme benefits the entire London Underground network and is not specific to this constituency.	August 1998
Kettering	Corby Link Road (borders Kettering Constituency)—This scheme benefits constituencies along its entire route and is not specific to this constituency.	2002 PA 2003 PA
	Isham Bypass—This scheme benefits constituencies along its entire route and is not specific to this constituency.	2003 PA
Knowsley South	M62 Junction 6	March 2001[5]
	Merseytram Line 1 (Light Rail)—This scheme benefits constituencies along its entire route and is not specific to this constituency.	December 2002
Lancaster and Wyre	West Coast Main Line Modernisation—This scheme benefits constituencies along its entire route and is not specific to this constituency.	June 1998
Leeds North East	Yorcard Integrated Public Transport Smartcard—This scheme benefits constituencies across its area of operation and is not specific to this constituency.	December 2003 PA
Leeds West	Yorcard Integrated Public Transport Smartcard—This scheme benefits constituencies across its area of operation and is not specific to this constituency.	December 2003 PA
Leicester East	Upperton Road Viaduct Maintenance Scheme	2003 PA
Lewisham Deptford	East London Line Extension	2001
	LU PFI Prestige (Oyster-smart travel cards) LU PFI Power (power supply)	August 1998
	LU PFI Connect (radio and communications systems)	August 1998
	LU PPP financial close Tube Lines	November 1999
	LU PPP Metronet	December 2002
	LU PFI BTP accommodation	April 2003
	These schemes benefit the entire London Underground network and are not specific to this constituency	March 1999
	Southern Region Rail Power Supply Upgrade Project— This scheme benefits constituencies along its entire route and is not specific to this constituency.	Early 2002
Liverpool Riverside	Merseytram Line 1 (Light Rail)—This scheme benefits constituencies across its area of operation and is not specific to this constituency.	December 2002
Manchester Withington	Manchester Urban Traffic Control—This scheme benefits constituencies across its area of operation and is not specific to this constituency.	December 2000
	South East Manchester Multi Modal Strategy (SEMMMS)—Quality Bus Corridor—This scheme benefits constituencies along its entire route and is. not specific to this constituency.	August 2003
Milton Keynes North East	Central Milton Keynes Public Transport Access Improvements—This scheme benefits constituencies across its area of operation and is not specific to this constituency.	December 2003 PA
	Integrated Transport Scheme—Bus Network—This scheme benefits constituencies across its area of operation and is not specific to this constituency.	December 2000 PA
	West Coast Main Line Modernisation—This scheme benefits constituencies along its entire route and is not specific to this constituency.	June 1998
Northampton South	West Coast Main Line Modernisation—This scheme benefits constituencies along its entire route and is not specific to this constituency.	June 1998
	Quality Bus Network—This scheme benefits constituencies across its area of operation and is not specific to this constituency.	December 2003

Constituency	Project	Decision date
Reading East	M4 Junction 11 (Green Park)	2001 PA
Reading West	M4 Junction 11 (Green Park)	2001 PA
Rugby and Kenilworth	Rugby Western Bypass—This scheme benefits constituencies along its entire route and is not specific to this constituency.	December 2000 PA April 2003[6] February 2003[7] June 1998
	A45/A46 Tollbar End Improvement—This scheme benefits constituencies along its entire route and is not specific to this constituency.	April 2003[6]
	M1 Junction 19	February 2003[7]
	West Coast Main Line Modernisation—This scheme benefits constituencies along its entire route and is not specific to this constituency.	June 1998
Sheffield Attercliffe	Yorcard Integrated Public Transport Smartcard—This scheme benefits constituencies across its area of operation and is not specific to this constituency.	December 2003 PA
Sheffield Hillsborough	Yorcard Integrated Public Transport Smartcard—This scheme benefits constituencies across its area of operation and is not specific to this constituency.	December 2003 PA
Sittingbourne and Sheppey	Southern Region Rail Power Supply Upgrade Project—This scheme benefits constituencies along its entire route and is not specific to this constituency.	Early 2002
Stockton North	South Stockton Link Road—This scheme benefits constituencies along its entire route and is not specific to this constituency.	December 1999
Stoke-on-Trent Central	West Coast Main Line Modernisation—This scheme benefits constituencies along its entire route and is not specific to this constituency.	June 1998
Stoke-on-Trent North	West Coast Main Line Modernisation—This scheme benefits constituencies along its entire route and is not specific to this constituency.	June 1998
Stoke-on-Trent South	West Coast Main Line Modernisation—This scheme benefits constituencies along its entire route and is not specific to this constituency.	June 1998
Thurrock	West Thurrock Regeneration Route (Phase 1)	February 2003
	Felixstowe to Nuneaton Rail Gauge Enhancement, London Route— This scheme benefits constituencies along its entire route and is not specific to this constituency.	26 February 2003
Tyne Bridge	Centrelink (Public Transport Scheme)	December 2000
	Quayside Public Transport	December 2000
	Central Motorway East (A167M)— This scheme benefits constituencies along its entire route and is not specific to this constituency.	2000
Wansbeck	Al Morpeth to Felton Dualling— This scheme benefits constituencies along its entire route and is not specific to this constituency.	July 2003[8]
Waveney	South Lowestoft Relief Road— This scheme benefits constituencies along its entire route and is not specific to this constituency.	2000 PA
Wolverhampton North East	Wolverhampton Centre Access and Integrated Transport Interchange— This scheme benefits nearby constituencies and is not specific to this constituency	December 2000 PA
	West Coast Main Line Modernisation— This scheme benefits constituencies along its entire route and is not specific to this constituency.	June 1998
Wolverhampton South East	Wolverhampton Centre Access and Integrated Transport Interchange— This scheme benefits nearby constituencies and is not specific to this constituency.	December 2000 PA
	West Coast Main Line Modernisation— This scheme benefits constituencies along its entire route and is not specific to this constituency.	June 1998

[1] Date entered the Highways Agency's Targeted Programme of Improvements
[2] PA-Provisionally Approved and subject to completion of the relevant statutory procedures and final approval by Ministers
[3] Date entered the Highways Agency's Targeted Programme of Improvements
[4] Project Review Group (PRG)-a treasury led interdepartmental group that takes decisions on the suitability of schemes for PFI.
[5] Date entered the Highways Agency's Targeted Programme of Improvements
[6] Date entered the Highways Agency's Targeted Programme of Improvements
[7] Date entered the Highways Agency's Targeted Programme of Improvements
[8] Date entered the Highways Agency's Targeted Programme of Improvements

Notes:

1. Major projects are taken to be those with a capital cost of £5 million or over.
2. This answer does not cover any transport matters devolved to the Scottish Parliament or the National Assembly for Wales.
3. Unless stated otherwise, the "decision date" is the date when the decision to fund was taken.
4. The list has been compiled on the basis that the project or its route is physically located in the relevant constituency. However, some complex projects such as West Coast Main Line Modernisation and Channel Tunnel Rail Link will benefit many nearby constituencies. Thus, the following constituencies will be beneficiaries of the projects listed:

West Coast Main Line Modernisation
Bootle
Clydebank & Milngavie
Glasgow Govan
Glasgow Maryhill

Liverpool Riverside
Manchester Withington
Wallasey
West Lancashire
Wirral West
Sittingbourne and Sheppey
CTRL

5. There are no major infrastructure transport projects within the responsibility of my Department relevant to the following constituencies:

Aberdeen Central
Ayr
Blaydon
Blyth Valley
Bootle
Burton
Cardiff West
Clwyd South
Clydebank and Milngavie
Cynon Valley
Cynon Valley
Forest of Dean
Glasgow Govan
Glasgow Maryhill
Loughborough
Monmouth
North West Leicestershire
Ochil
Stevenage
Stourbridge
Wallasey
West Lancashire
Wirral West

London Transport (Grants)

Simon Hughes: To ask the Secretary of State for Transport what grants were made available to *(a)* the Greater London Authority, *(b)* Transport for London, and *(c)* each London borough from his Department in each of the last four financial years. [163060]

Mr. McNulty: The Department for Transport has provided the following level of funding for Transport for London (TfL) through the GLA Transport Grant over the last four years:

£ million

	GLA Transport Grant
2000–01[1]	396.161
2001–02	720.053
2002–03	1,024.118
2003–04[2]	1,681.932

[1] ncludes funding for TfL's predecessor bodies in 2000–01 before the creation of TfL in July 2000. A further £95m of credit approvals were issued by the Government Office for London to London Boroughs for transport capital projects in 2000–01; such support was issued as grant to boroughs by TfL in subsequent years.

[2] nly includes funding for London Underground following its transfer to TfL in July 2003. Before then £872 million grant had been paid for 2003–04.

The Department has not provided any direct funding to London boroughs for transport improvements following the creation of TfL, which is now responsible for allocating borough capital funding. Boroughs, however, do use some of their Revenue Support Grant allocation from the Office of Deputy Prime Minister to fund routine highway maintenance works, concessionary fare provision, and other local transport planning and management activities.

M25

Andrew Mackinlay: To ask the Secretary of State for Transport if he will make a statement on the hold-up of traffic flows on the M25 consequent on the accident in the vicinity of junctions 29 and 31 on 17 March, with particular reference to *(a)* the length in miles of the hold-up at its peak and *(b)* the duration of the hold-up; and what actions were taken by the (i) Highways Agency and (ii) Essex and Kent Police (A) to advise motorists of the hold-up and (B) to ameliorate the delay and congestion, broken down by time. [163256]

Mr. Jamieson *[holding answer 23 March 2004]*: There were severe delays and inconvenience caused to motorists as a result of the fatal accident that occurred on the M25 between Junctions 29 and 30 on Wednesday 17 March.

The Highways Agency and the emergency services are urgently carrying out a thorough investigation into this incident and accident management. As soon as the report's findings are known, the relevant information will be forwarded to my hon. Friend and copies placed in the Libraries of the House.

Motorised Scooters/Wheelchairs

Mr. Greg Knight: To ask the Secretary of State for Transport (1) for what reasons electric-powered wheelchairs are restricted to a maximum speed of 8 mph when being used on a road; and if he will make a statement; [162916]

(2) if he will amend the Use of Invalid Carriages on Highways Regulations 1988 to bring the maximum speed permitted thereunder into line with the maximum speed permitted for electric bicycles under The Motor Cycles, Etc (EC type approval) (Amendment) Regulations 2003 (S.I.1099/2003). [163175]

Dr. Howells: Powered wheelchairs and powered scooters are designed to provide independent mobility for people with a physical disability. Their use is governed by The Use of Invalid Carriages on Highways Regulations 1988 (SI 1988 No.2268). There are two classes of powered vehicle: class 2 vehicles are restricted to 4 mph (6.4 kph) and are designed to be used on footways; class 3 vehicles are restricted to 4 mph (6.4 kph) on the footway and 8mph (12.8kph) on the carriageway.

The vehicles are treated for the purposes of the Road Traffic Act as not being motor vehicles and are, therefore, outside the scope of most requirements of road vehicle construction regulations. Users do not need a driving licence and are not subject to a test.

The speed of 8 mph (12.8 kph) was set following consultation with disability organisations, industry and road safety groups and was intended to provide a balance between the needs of the users for local outdoor mobility and road safety concerns both for the users and for others on the road. We are currently reviewing the regulations and we will be holding a wide-ranging consultation later this year on a range of issues including speed limits.

Mr. Hancock: To ask the Secretary of State for Transport pursuant to his answer of 18 March 2004, *Official Report*, column 405W, on motorised scooters, what research his Department has commissioned on deaths and injuries involving Class 2 and Class 3 invalid carriages. [163843]

Mr. McNulty: The Department for Transport has commissioned research as part of a major review of the legislation governing the use of Class 2 and Class 3 invalid carriages on the highway. The first stage of the research is to estimate the numbers of these vehicles that are being used and to find out how many accidents or incidents there are involving them. This stage of the work should be completed shortly.

Press Officers

Mr. Laws: To ask the Secretary of State for Transport how many press officers were employed in his Department in each year from 1990–91 to 2003–04; what the total cost was in each year; and if he will make a statement. [162847]

Mr. McNulty: I refer the hon. Member to my answer to the hon. Member for Truro and St. Austell (Matthew Taylor) on 9 March 2004, *Official Report*, column 1410W, that provided information for the financial year 2003–04.

In 2002–03 there was an average of 12.7 full time equivalent (fte) press officers employed with related salary costs of £0.51 million in DfT(C), covering the 10 month period from the creation of the Department in late May 2002.

Information for each of the financial years between 1997–2002, when transport policy formed part of the remit of the former Departments' of Environment, Transport and the Regions and Transport, Local Government and the Regions, is not available in a comparable format.

Detailed information on the numbers of permanent press officers employed in departmental press offices, including the former Department of Transport (DoT) for the financial year 1996–97, was provided in a memorandum dated 16 June 1998 to the Select Committee on Public Administration and published in its report on the Government Information and Communication Service (HC 770) in July 1998 (http://www.publications.parliament.uk/pa/cm199798/cmselect/cmpubadm/770/77002.htm).

Comparable staffing figures for the former DoT (central) between 1993–94 to 1995–96 are:

	Number
1995–96	20
1994–95	17
1993–94	19

The salary costs of these staff can be provided only at disproportionate cost.

Comparable information for earlier years is not available.

Rail Services/Stations

Mr. Andrew Turner: To ask the Secretary of State for Transport what proportion of trains to Portsmouth Harbour from *(a)* London Waterloo, *(b)* London Victoria and *(c)* Southampton and the west (i) arrived within five minutes of their advertised arrival time and (ii) terminated before reaching Portsmouth Harbour in the last (A) month and (B) 12 month period for which information is available. [163539]

Mr. McNulty: The information requested is not collated centrally in the format required.

Mr. Andrew Turner: To ask the Secretary of State for Transport what his policy is on the maintenance of the timetabled rail service between London Waterloo and Shanklin. [163540]

Mr. McNulty: Responsibility for the provision of train services, to timetable, is for the train operating companies.

Where more than one train operating company provide elements of a journey, as is the case between London Waterloo and Shanklin, it is the responsibility of each train operating company to ensure that their services run to the timetable for their element of the journey.

Annabelle Ewing: To ask the Secretary of State for Transport what powers he has with respect to the re-opening of railway stations in Scotland. [162945]

Mr. McNulty: The Strategic Rail Authority is responsible for the strategic development and funding of the national rail network, including the Scottish network. The Scottish Executive may facilitate the development and improvement of Scottish passenger rail services, including station re-openings and the provision of new stations.

Road Noise

Shona McIsaac: To ask the Secretary of State for Transport (1) which concrete trunk roads have been resurfaced with low noise materials, broken down by cost of each project; [162578]

(2) how much funding has been allocated to resurface concrete trunk roads with low noise materials *(a)* in each year since the projects started and *(b)* for 2003–04. [162584]

Mr. Jamieson: In year funding is not specifically allocated for resurfacing of concrete trunk roads with low noise materials. The following concrete trunk roads have been resurfaced with low noise materials and broken down by the cost of each project and the year of completion.

Concrete sections completed in	*M20*	*Cost (£ million)*
1999–2000	J3-J5	7.5
2000–01	J9-J10	6.0
2001–02	No schemes completed	No schemes completed

Concrete sections completed in 2002–03	*Cost (£ million)*
M1 80: Junction 2 to Beltoft	2.3
A12 Brentwood Bypass Phase 2	12.8
M11 Junction 8 (Stansted Slip Road Contract)	3.7
M20J11—Sellindge	7.4
M20 Sellindge—Smeeth	—
M27 Junctions 2–3	19.1
M27 Junctions 3–4	—
M11 J7–6 Southbound	3.2
M5 Junctions 26 to 27 Contract 1	1.6
Sub total	50.1

Concrete sections completed in 2003–04	*Cost (£ million)*
A1 Long Bennington	4.4
M42 Junctions 2–3a	7.4
M180 Sandtoft—Junction 2	4.0
M11 B1038 (Newport)—All	10.9
M1 Junctions 1–2	6.9
M20 Junctions 11a-11	7.8
M20 Junctions 13–11a	—
M25 J26–27	14.3
M5 Junctions 26 to 27 Contract 2	3.7
M5 J27 South to Willand	4.9
A12 Witham-Kelvedon	13.7
Sub total	78.0

M20 J11 to Sellindge and M20 Sellindge to Smeeth schemes were delivered as one project. The same applies to M20 Junctions 11a to 11 and M20 Junctions 13 to 11a schemes and the M27 Junctions 2 to 3 and M27 Junctions 3 to 4.

The Highways Agency has reported the following allocated expenditure for concrete trunk roads resurfacing with low noise materials since 1999:

	£ million
1999–2000	7.5
2000–01	6
2001–02	0.7
2002–03	51.4
2003–04	76

Secondments

Norman Baker: To ask the Secretary of State for Transport if he will list the secondees from outside organisations working in his Department, stating in each case *(a)* the name of the person, *(b)* the name of the organisation, *(c)* the post held and *(d)* the start and finish dates of the secondment; and which are involved in drafting Parliamentary Answers. [158048]

Mr. McNulty: There are four secondees from external organisations currently working in DfT, as follows:

	Name (a)			
	Bruce Coombs	*Adrian Sayce*	*Nick Joyce*	*Clive Wood*
Grade	7	7	SCS	7
Band	6.1	6.1	SCSPB 1	6.1
Organisation *(b)*	Civil Aviation Authority	Civil Aviation Authority	Ernst & Young	Nottingham County Council
Host	CAD-Air Traffic Division	Multilateral Division	Transport Finance Directorate	Traffic Management Unit
Post held *(c)*	Head of Branch	Representative to ICAO	Assistant to Corporate Finance Advisor	Secondee
Start *(d)*	26 June 2001	9 December 2002	19 January 2004	12 January 2004
End *(d)*	25 June 2004	9 December 2005	January 2005	July 2004

Note:
(d) All secondees are subject to the Civil Service Code of Conduct whilst on secondment and are expected to undertake the full range of duties attached to the post, including the provision of drafts for PQs if required. Every effort is taken to ensure that no conflict of interest occurs.

Speed Cameras

Mr. Drew: To ask the Secretary of State for Transport what the posted speed is of each fixed speed camera within a Safety Camera Partnership. [142266]

Mr. Jamieson: The information is not available in the form requested. However, the speed limits at the camera sites in the six English Safety Camera Partnerships involved in the two-year pilot evaluation of the Safety Camera Programme were as follows:

Speed limit at camera site (mph)	*Percentage of sites*
30	78.3
40	10.6
50	1.4
60	6.2
70	3.5
Total	100

The pilot areas were selected on the basis that they represented a good mix of demographics, enforcement experience and strategies. The spread of camera enforcement by speed limit is therefore likely to be indicative of the spread of speed limits at camera sites generally.

Further information will be available in the Three Year Report on the Safety Camera Programme, to be published shortly.

In setting the speed at which cameras operate, partnerships follow the Association of Chief Police Officers guidance that the minimum level should be the speed limit, plus 10 per cent., plus 2 mph.

Strategic Rail Authority

Bob Spink: To ask the Secretary of State for Transport how many staff are employed in the Strategic Rail Authority; and what assessment he has made of the potential for cost savings. [162929]

Mr. McNulty: The SRA currently employs 426 staff, excluding those working for subsidiary organisations such as South East Trains. The review of the rail industry announced by my right hon. Friend the Secretary of State on 19 January is looking into roles and responsibilities in the railway industry, including those of the SRA, and any scope for cost savings will be considered as part of the review.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Animal By-Products Regulations

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what powers she has to prevent local authority officers enforcing the Animal By-Products Regulations in the absence of the introduction of the Fallen Stock Subscription Scheme. [158737]

Mr. Bradshaw: No such powers are available. However, Defra has requested that local authorities continue to take a pragmatic approach to enforcement in regard to the disposal of fallen stock.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what instructions or advice she has given local authority enforcement officers in respect of enforcement of the Animal By-Product Regulations and the disposal of fallen stock. [158738]

Mr. Bradshaw: Local authorities, through the LACORS website, have been made aware of the delay and the continuing request that they take a pragmatic approach to enforcement as stated in the news release issued by Defra on 24 February. In addition a letter is being sent to LACORS setting out the Government's guidance on enforcement and a copy is being placed in the Library of the House.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs whether she has notified the European Commission as to her instructions and advice to enforcement officers in respect of the enforcement of the Animal By-Products Regulations. [158740]

Mr. Bradshaw: We have notified the European Commission that we have provided guidance and initial training for enforcement bodies and that guidance and a large amount of information on the Animal By-Products Regulations is available on the Defra website.

Badgers

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs how badger fecundity changes where food supplies are freely available, irrespective of population density. [158361]

Mr. Bradshaw: Badger fecundity is positively correlated with autumn body condition. In environments where food is plentiful, such as south and south-west England, a badger social group may produce several litters each year. Alternatively, in poorer environments, such as upland areas of Scotland, only one litter may be produced per social group per year.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs whether population stress in specific badger social groups triggers migration. [158365]

Mr. Bradshaw: Movements of badgers between social groups is a natural phenomenon. However, rates of movement may differ relative to population density, among other factors. It is generally believed that badgers move between social groups more frequently in lower density and disturbed populations.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what the effects are on badger populations when changes in habitat occur which reduce the carrying capacity of the environment to a level below that of the existing population levels. [158377]

Mr. Bradshaw: No studies have been conducted that address this question.

Bovine TB

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what her best estimate is of the effect on the competitiveness of British dairy products compared with those of *(a)* Ireland, *(b)* France and *(c)* other European Union member states arising from the additional cost borne exclusively by UK farmers as a result of bovine TB. [158369]

Mr. Bradshaw: There are too many variables to be assessed, for instance, industry structures, fluctuation in /euro rates and uncertainty about the real economic effects of TB on the average dairy business in Great Britain, to allow for a realistic estimate of effects on competitiveness to be made.

The cost of TB to farmers in Great Britain is currently being assessed. Defra has commissioned Reading University to carry out research into the economic impacts of TB and alternative control policies in Great Britain. A report is expected shortly and a summary of the findings will be published on the Defra website in due course.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs whether the findings from the Krebs reactive trials are sufficient to rule out the use of reactive culling on a larger scale than was undertaken during those trials. [158698]

Mr. Bradshaw: The result from the reactive areas of the Randomised Badger Culling Trial suggests that removal of badgers in the way it was carried out during the trial is ineffective in reducing the level of bovine TB in the cattle population. Reactive culling of badgers in this way, even on a larger scale, has therefore been ruled out as a policy option.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs whether there is a relationship between badger population density and the prevalence of TB in badger populations. [158716]

Mr. Bradshaw: Currently the only available data, to investigate the potential relationship between disease prevalence and badger population density, originates from the Central Science Laboratory's study at Woodchester Park. This suggests that the prevalence of infection in badgers has fluctuated widely and bears no simple linear relationship to badger density.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what the difference in population growth rates is between *(a)* high, *(b)* medium and *(c)* low density badger populations; and what the primary factors responsible for the difference are. [158717]

Mr. Bradshaw: The growth rate of the badger population, as with any animal population is dependent upon a number of underlying ecological principles, and in particular the rates of births and deaths. A high density population may have little scope for growth, as it is likely to be near the capacity which that particular habitat can support, if the local habitat is poor for badgers then it may only be capable of supporting low numbers. However, if badgers are culled to a low level from a previously high density in a location where conditions are favourable, then there is likely to be considerable potential for population recovery.

Following removal of 11 social groups from a high density badger population in Gloucestershire, it took 10 years for numbers to recover to pre-cull levels (Cheeseman et al, 1993). Following incomplete removal of eight social groups in a lower density population also in Gloucestershire, density returned to pre-cull levels after only three years (Tuyttens et al, 2000). Recovery rates are likely to be dependent on the quality of the habitat, and the size of the badger population in the surrounding area from which immigration will occur.

Cheeseman et al, (1993) Recolonisation by badgers in Gloucestershire. In: Hayden, T.J. (Ed) *The badger*. Royal Irish Academy, Dublin, pp. 78–93.

Tuyttens, F.A.M., et al. (2000) Spatial perturbation caused by a badger culling operation. *Journal of Animal Ecology*, 69, 815–828.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs to what extent multiple administration of a TB detection test with low sensitivity improves the chances of detection of infection in an infected animal which has previously shown a negative response to that test. [158720]

Mr. Bradshaw: Any single test with imperfect sensitivity, when applied more than once to an infected animal, will cause the overall sensitivity of the procedure to rapidly approach 100 per cent., although the added value of extra tests will diminish substantially. The probability formula for the overall sensitivity of the multiple testing protocol is as follows:

$$\sum_{r=1}^{n} \alpha (1-\alpha)^{r-1}$$

Where *a* is the known sensitivity of a single test, n is the total number of tests carried out in the same animal and r ranges in value from 1 to n.

Notes:

This formula assumes:

1. conditional independence between test results (i.e. the sensitivity of one test does not affect the sensitivity of previous or subsequent tests in the same animal) and

2. that once an animal tests positive on any occasion it is considered to be infected and is not subjected to further testing.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs whether it is possible to identify visually individual badgers which are heavily infected by TB; whether it is possible to target those badgers for killing; and whether such a practice would have a significant impact on the incidence of TB in *(a)* badger and *(b)* cattle populations. [158723]

Mr. Bradshaw: Currently, the only sure way of determining the TB status of a badger is through post mortem examination. Even heavily infected individuals may show no outward sign of TB infection. It follows that it would not be possible to target such badgers effectively, and such a practice would be unlikely to have a significant effect on TB in badger or cattle populations.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she has had with the Treasury on the costs of the TB control programme. [159059]

Mr. Bradshaw: Discussions are in progress with the Treasury in relation to Spending Review 2004 and expenditure on the TB control programme is a recognised element in those discussions.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what measures she plans to reduce the costs of the TB control programme. [159060]

Mr. Bradshaw: A key challenge for Government in developing a new TB strategy is, in partnership with industry and others, to reduce the overall economic impact of TB and increase the cost-effectiveness of control measures.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the need for *(a)* vaccination of (i) cattle

and (ii) badgers and *(b)* other measures to control the incidence of TB in cattle herds in the absence of any significant wildlife reservoir of the disease. [159061]

Mr. Bradshaw: Evidence from other countries shows that, in the absence of a significant wildlife reservoir, cattle controls based on regular testing and slaughter, inspection at slaughterhouses, and movement restrictions (including tracing and contiguous testing) can be effective at controlling bovine TB without vaccination.

Any badger/wildlife management strategy (whether culling or vaccination) would need to be deployed in conjunction with cattle-based controls. However, practical application of potential vaccines for cattle or badgers remains a long-term prospect.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what cattle biosecurity measures were maintained during the Thornbury badger clearance programme. [159066]

Mr. Bradshaw: No enhanced biosecurity measures were maintained during the Thornbury badger clearance programme.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what measures are undertaken by her Department in respect of animal sanctuaries and hospitals to ensure that the guidelines relating to the release of badgers into the wild are fully observed. [159069]

Mr. Bradshaw: None. As I have explained in previous answers these guidelines were prepared by animal welfare organisations and are voluntary. As they are not approved by the Department we do not seek to enforce their use.

Animal hospitals treating sick or injured badgers are not legally required to test animals for bovine tuberculosis before they are released from captivity.

To minimise the risk of animal hospitals accidentally spreading tuberculosis Defra facilitated development of the voluntary protocol for the rehabilitation and release of badgers. This was drawn up by the RSPCA, National Federation of Badgers Groups and Secret World Wildlife Rescue. The protocol provides comprehensive guidance on the precautions necessary to protect the welfare of badgers and critically, to minimise the risk of transmitting bovine tuberculosis.

The protocol is promoted by the organisations above and is available via the internet at: http://www.badger.org.uk/action/badger-rehabilitation-protocol-contents.html

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the change in premiums for bovine TB insurance policies since 1997. [159070]

Mr. Bradshaw: No such assessment has been made. Insurance companies will make their own decisions on whether to insure, and about the size of premiums, based on their assessment of the risk.

Contact between officials and the insurance industry early in 2003 indicated that, although companies are honouring existing policies, they are not offering new policies to cover TB in cattle herds, particularly in areas where TB is increasingly prevalent. This is because farmers do not wish to take the cover in areas where the risk is low (such as Yorkshire), but do wish to purchase cover in areas of high incidence (such as the South West). However, the insurance companies considered that the financial risks in offering insurance policies in areas of high incidence were too high at that time.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the measures necessary to restore health to the national badger population. [159071]

Mr. Bradshaw: None.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs if she will determine the optimum population of badgers for each county area, having regard to the effect of high badger densities on *(a)* property, *(b)* wildlife and *(c)* the incidence of TB. [159076]

Mr. Bradshaw: The Government expect the badger to remain a common species, but do not have views on the optimum badger population level, nationally or regionally.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what proportion of the total hours expended by field officers engaged on randomised badger culling trials were absorbed by travelling time. [159079]

Mr. Bradshaw: Individual elements of the field trial including such overheads are not individually quantifiable, as a work recording scheme is not operational. However, in 2003 approximately 1,130,000 miles were driven in WLU official vehicles, which roughly equates to between 2 and 3 hours driving per day per person.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what epidemiological value data on the seasonal incidence of TB in cattle has in determining possible causation. [159080]

Mr. Bradshaw: TB surveillance in GB relies particularly on tuberculin skin testing and meat inspection at the slaughterhouse. Neither of these methods allows a precise ascertainment of when new infection occurred. This is compounded by the nature of TB which is a chronic disease with a highly variable incubation period. If it were possible to determine the time of infection with any certainty, this information would, in some circumstances, help inform the source of infection.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what research her Department has *(a)* commissioned and *(b)* received on chemical deterrents which may be used to protect buildings or other structures from badger ingress. [159081]

Mr. Bradshaw: The Ministry of Agriculture, Fisheries and Food commissioned research in the 1990s on the use of odour repellents that could potentially be used to protect buildings and other structures. The Department is currently considering commissioning new work on this topic. Information on chemical deterrents research is received at intervals as part of normal day-to-day business.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what the *(a)* incidence and *(b)* prevalence of bovine TB in the South West of England was in 1994; and what the current figures are. [159082]

Mr. Bradshaw: A comparison of the incidence of bovine TB in the South West of England in 1994 and 2003 is given in the following table.

Table: Incidence of TB in South West England

	1994 South West[1]	*2003 West Region*[2] *(provisional data)*
Total number of TB Herd tests	11,948	19,910
Total new herd TB incidents[3]	648	2,035
Total confirmed new incidents (CNIs)[4]	274	1,053
Incidence[5] (Percentage)	2.29	5.29

[1] *Source:* The Report of the Chief Veterinary Officer 1994. The area covered by the figures may not exactly correspond to the 2003 West Region.

[2] Cornwall, Devon, Somerset, Dorset, Gloucestershire, Avon, Wiltshire, Hereford and Worcester and Shropshire.

[3] A TB incident is one where at least one reactor is disclosed at the TB test.

[4] A confirmed incident is one where disease is confirmed by finding visible lesions at post mortem examination or *M. bovis* is cultured in the laboratory.

[5] For the purpose of comparing data from 1994 with 2003, incidence is defined as percentage of herds tested that result in CNIs. A better definition would be the percentage of unrestricted herds tested that result in a CNI, but the figures for tests on unrestricted herds are not available for 1994.

We have no reliable or certain measure of prevalence, which is defined in the Krebs Report as "the proportion of a population infected at any one time".

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs to what extent cattle husbandry creates conditions favourable to colonisation of the habitat by badgers. [159084]

Mr. Bradshaw: Many features of the cattle farming landscape are beneficial to badgers. For example, permanent pasture provides ideal habitat for badgers to forage for earthworms, and farm woodlands and hedgerows provide cover for their setts. Furthermore, cattle feed may provide alternative nutrition for badgers when natural foods are unavailable. This is most likely where cattle feed is either put out on pasture or stored in insecure facilities.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what discretion directors of veterinary investigation laboratories have to authorise the post mortem examination of badgers for the presence of TB when presented to their laboratories by a private individual. [159109]

Mr. Bradshaw: The Veterinary Surveillance Department of the VLA, in consultation with Defra, has issued formal instructions to the VLA Regional Laboratories that allow them to carry out post mortem examinations on badgers and other wildlife, on behalf of private individuals, for the purposes of TB screening providing that the submitter is prepared to meet the full cost of the work carried out. There are three provisos, namely:

the premises where the carcase or sick animal was found must be outside the Randomised Badger Culling Trial area;

the VLA has the capacity to undertake this work without compromising any of the statutory TB work that is being carried out on behalf of Defra;

as with all carcase submissions the duty veterinarian has the authority to cease examination where the carcase is found to be unsuitable for further examination, e.g. where the carcase is autolysed or where there is extensive rupture of internal organs due to traumatic injury.

Where there is a conflict in workload the private work may be declined or consideration given to retaining the carcase in either a chilled or frozen state until there is a more convenient time to complete the examination.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the scientific merit of the results obtained from the Thornbury badger clearance project. [159110]

Mr. Bradshaw: There were no scientific controls set up at the time of clearance. This limits the scientific merit of the results. However, both a before and after comparison, and a comparison with incidence in geographically close areas where no contemporary systematic removal of badgers occurred, provide useful information about the effect of culling.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs how many reports of road traffic accidents involving badgers were received by her Department in each of the last five years; how many carcasses were received by veterinary investigation service laboratories in each of those years; and how many were subject to full post-mortem examination including microbiological analysis. [159111]

Mr. Bradshaw: This information is given in the following table.

	Number of carcases reported	*Number of carcases delivered to veterinary laboratories*	*Number of carcases post mortemed*
November 2000 to January 2001	[1]—	[1]—	199
January to 31 May 2002	[1]—	252	220
1 June to December 2002	705	486	435
1 January to 31 December 2003	1,712	1,048	849
1 January to 29 February 2004	285	212	180
Total	2,702	1,998	1,883

[1] This information is not available.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what facilities are in place for the *(a)* collection from site of the carcases of badgers killed in road traffic accidents and *(b)* delivery to veterinary investigation laboratories. [159112]

Mr. Bradshaw: There are four refrigerated vans available to collect carcases of badgers from sites and deliver them to veterinary laboratories.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment has been made of the long-term effect on the badger population of total clearance of badgers from a specific location. [159113]

Mr. Bradshaw: Studies by the Central Science Laboratory, at Woodchester Park in Gloucestershire, showed that it took badgers approximately 10 years to recolonise areas that had been totally cleared. Initial

immigration occurred very quickly, but the population took many years to reach the pre-cull density. This study also showed that, in the initial phase of recovery, badger social organisation was disrupted—the so called perturbation effect.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what the estimated cost of damage caused by badgers to *(a)* land, *(b)* buildings, *(c)* roads and *(d)* other structures is since the Prevention of Badgers Act 1992 came into force. [159114]

Mr. Bradshaw: There is no national estimate of the financial value of damage to land, buildings, roads and other structures by badgers.

A survey of badger damage to agricultural properties in England and Wales conducted in 1997 estimated that the annual cost of damage to structures on farms (this includes buildings, machinery, drains, fences etc.) was £25.7 million (with 95 per cent. CI of 21.5–29.8m). This value was based on information provided by respondents and assumed that the respondents (55 per cent.) were an unbiased sample of the 3,600 farmers who received questionnaires.

Moore N.P., Whiterow, A., Langton, S.D., Kelly, P.P., Garthwaite, D., Bishop, J.D. and Cheeseman, C.L. (1998) The Assessment of Badger Damage to Agriculture and Forestry. Report to MAFF, Project VC 0318 .

Moore N.P., Whiterow, A., Kelly, P.F., Garthwaite, D., Bishop, J. D. Langton, S.D. and Cheeseman, C.L. (1999) Survey of badger Meles meles damage to agriculture in England and Wales. Journal of Applied Ecology 36:974–988

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 15 December 2003, *Official Report*, column 631W, whether she has consulted the Royal College of Veterinary Surgeons on the veterinary resource implications of increasing the frequency of cattle TB testing. [159276]

Mr. Bradshaw: The Royal College of Veterinary Surgeons is one of the organisations we are currently consulting in the course of our review of the bovine tuberculosis strategy.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the need for animal vaccines in the event of the eradication of the wildlife reservoir of bovine TB. [159286]

Mr. Bradshaw: No wildlife reservoir of bovine TB has been identified for eradication. In the event that eradication of a wildlife reservoir was selected as a policy option, it may still be appropriate to retain the option of "ring-vaccination" in zones adjacent to those targeted by eradication. Since it cannot at present be guaranteed that eradication of a wildlife reservoir would completely eliminate bovine tuberculosis, there may still be a need to maintain research towards development of a cattle vaccine.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what reports she has received of badger damage to flood defence works; and what the estimated cost of the damage was. [159291]

Mr. Morley: Damage from badgers' setts and tunnels is most likely to be significant in fenland or lowland areas where embankments may be weakened.

Maintenance of such defences is a matter for the relevant operating authorities, who accordingly do not report such damage as a matter of course.

Repairs to defences are undertaken as part of authorities' routine maintenance programmes and it is not possible to give figures for the costs of repair due to damage caused by badgers.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the reliability of badger culling trials in areas which are bounded by major physical obstacles which prevent badger entry into cleared areas. [159292]

Mr. Bradshaw: The Thornbury clearance area was bounded by major motorways and rivers. Complete badger clearance was achieved by repeated gassing of setts with hydrogen cyanide. The area was subsequently recolonised, showing that badgers can migrate across barriers such as motorways. Large expanses of water are probably the only really effective barrier to badger movement.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what steps are taken to ensure that wildlife unit officers and vehicles engaged in work relating to the trapping or destruction of badgers are unrecognisable. [159294]

Mr. Bradshaw: Wildlife Unit staff wear a range of outdoor clothing suitable for the conditions and environment in which they are working. None is specific to the Department or bears official 'logos'.

The Wildlife Unit now has a diverse fleet of off road vehicles and none bear any official identification as Crown or departmental vehicles. When necessary number plates of such vehicles have been changed.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to her answer of 28 January 2004, *Official Report*, column 384W, whether these data indicate that a significant number of herd tests fail to identify infection where it is present; and what her best estimate is of the failure rate. [159295]

Mr. Bradshaw: The data for 2000 indicate that there were approximately 2 per cent. of confirmed new cases in herds that had been subject to a clear routine whole herd test in the 90 days prior to detection of the infected animal(s) at the slaughterhouse. It is not known how many of these infections started during this 90 day period but after the routine test. In half of these cases, no further animals were found infected at the subsequent check tests.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what evidence her Department has collated on whether badgers have been translocated illegally from the Krebs trials areas. [159296]

Mr. Bradshaw: I refer the hon. Member to the answer given on 29 January 2004, *Official Report*, column 484W.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 30 January 2004, *Official Report*, column 538W, on badgers, to what level the incidence of TB in 1997 was expected to rise by 2003; and what level it reached in 2003. [159327]

Mr. Bradshaw: The incidence of TB in badgers in 1997 is not known, and no estimation was made of expected incidence by 2003.

The incidence of a disease is the number of new cases expressed as a percentage of the population at risk. Therefore, for badgers it is not feasible to estimate incidence, as we have no reliable means of estimating the uninfected population or the number becoming infected.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to reduce the compensation payable to livestock owners for TB. [159052]

Mr. Bradshaw: Compensation for livestock slaughtered for TB control is paid at the market value of the animals. However, ongoing measures to rationalise compensation will see the introduction of quality assurance methods to control wayward valuations and provide greater accountability.

Fallen Stock

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what measures she has put in hand to ensure the biosecurity of vehicles undertaking the collection of fallen stock from different farms in one journey. [158739]

Mr. Bradshaw: The EU Animal By-Products Regulation (EC 1774/2002) already controls the collection and transportation of animal by-products, including animal carcases. It requires animal by-products to be transported in a way that ensures there is no leakage from vehicles or containers. It also requires records to be kept of any consignment of animal by-products to assist in the auditing and traceability of this material.

In addition, general guidance on on-farm biosecurity is available on the Defra website: http://www.defra.gov.uk/animalh/animindx.htm

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of whether there is sufficient incineration capacity to deal with material handled by the Fallen Stock Subscription Scheme which cannot be processed by rendering. [158742]

Mr. Bradshaw: No specific assessment of incineration capacity has been made, but the collection and disposal industry as a whole has consistently advised that collectively there is sufficient capacity to dispose of fallen stock under the Scheme.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what issues remain to be resolved before the Fallen Stock Subscription Scheme can be introduced. [158743]

Mr. Bradshaw: The National Fallen Stock Company has had many issues to resolve since its work started in November last year. Many have been relatively straightforward but others have been more complex and the board has advised that these require more time and negotiation to get right. For example, identifying available alternatives required to cope with sheep in full fleece which cannot be rendered, setting up payment and tender arrangements for the collection and disposal industry, and devising fair subscription rates for the pig and poultry sectors. In addition to these practical problems, the company has, with Defra, been required to ensure the scheme as a whole does not contravene the state aid rules of the EU. A state aid notification has been submitted for the scheme and we expect to have further discussions with the European Commission about the scheme before it goes ahead.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs for what reasons on each occasion she postponed establishment of the Fallen Stock Subscription Scheme. [158744]

Mr. Bradshaw: Defra had lengthy negotiations with the farming unions and other industry bodies between April 2002 and July 2003. On 24 July 2003 it was announced that the basis for sharing the costs of the Scheme and its eventual transfer to industry had been agreed and that the Scheme would go ahead. At that time it was expected that the Scheme would begin in January 2004. That proved to be unachievable. On 24 February the Board of the National Fallen Stock Company and government jointly announced that the launch would have to be postponed. The reasons for this were set out in PQ 1897 to which I would refer my hon. Friend.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what financial contribution her Department has made to the establishment of the Fallen Stock Subscription Scheme. [158745]

Mr. Bradshaw: Defra has committed to a contribution of £5 million in the first year, £3 million in the second year and £2 million in the third year of the Scheme after which the Scheme is expected to be self-financing. Devolved administrations have committed to paying proportionate sums. In addition Defra has agreed to pay a further £1 million towards establishing the administration of the Scheme in the first year.

Farm Incomes (Buckingham)

Mr. Bercow: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on farm income levels for farmers in Buckingham in each of the last seven years. [161561]

Alun Michael: Due to the small number of farms in Buckingham, there is no robust data available on farm incomes for farmers in Buckingham over the last seven years. Net farm income for farms in the East EU "Super Region" and for England over the last seven years are show in the following table.

Net farm income

	East EU Super Region	England
1996–97	36,636	29,833
1997–98	16,281	13,847
1998–99	5,810	10,359
1999–2000	9,604	7,981
2000–01	11,367	9,886
2001–02	11,997	13,558
2002–03	16,894	16,435

Source:
Farm Business Survey.

Net farm income is the return to the principle farmer and spouse for their manual and managerial labour and to the tenant-type capital of the business.

GM Crops

Alan Simpson: To ask the Secretary of State for Environment, Food and Rural Affairs when she was informed that *(a)* Liberty on its own had proved ineffective as a herbicide used with GMHT fodder maize crops in the United States, and *(b)* that to overcome this problem Bayer has been promoting the use of Liberty/Atrazine mix since the spring of 2001. [163170]

Mr. Morley: The herbicide regime employed on the GMHT crops in the farm-scale evaluations (FSE) was established at the beginning of the trials, based on proposals by the chemical manufacturers and the terms of the experimental license granted by the Pesticide Safety Directorate. These guidelines remained in force throughout the FSE. This herbicide regime will now be specified in writing on the release consent in line with advice given by the Advisory Committee on Releases to the Environment on 13 January 2004 and the announcement made by my right hon. Friend the Secretary of State, on 9 March. Accordingly, anyone intending to grow the GMHT maize will only be able to do so using that herbicide regime that was tested in the FSE.

Evidence that Liberty alone provided insufficient weed control in the USA, and that it was on occasion mixed with Atrazine emerged in June 2002 and was immediately put to the FSE scientific steering committee for advice. They considered the issue and following assurance from industry that the herbicide regime being used in the FSE suited agronomic conditions in the UK, the committee were content to leave protocols unchanged.

M. bovis

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs whether *M. bovis* can survive in silage clamps. [158362]

Mr. Bradshaw: In a study of *M. bovis* survival in silage, *M. bovis* was recovered from laboratory-prepared silage inoculated with $3.5x10^6$ colony forming units of *M. bovis* after 24 hours. The organism was not recovered at six or 12 weeks after inoculation. This indicates that it is unlikely that *M. bovis* will survive the ensiling process for any length of time if silage is properly prepared.

Market Towns

Mr. Edward Davey: To ask the Secretary of State for Environment, Food and Rural Affairs what budget *(a)* was set for 2003–04 and *(b)* has been allocated for 2004–05 and 2005–06 by each relevant Government Department for the Market Towns Initiative, broken down by English region. [161651]

Alun Michael: White Paper offered funding of £37 million to enable the Regional Development Agencies and the Countryside Agency to support market town regeneration in the regions over a period of three years. £32 million was allocated to the Regional Development Agencies and £5 million to the Countryside Agency. The initiative was not established as a national funding programme with an annual budget, but as a means of enabling regional partnerships to target towns in their region according to selection criteria agreed regionally.

The start of the initiative was delayed in many of the regions due to the Foot and Mouth crisis, with some regions not launching their own initiatives or incurring spend until last year. For this reason data from the Regional Development Agencies on their expenditure is unlikely to be available until the initiative is evaluated.

Information from the Countryside Agency on its spending to date, broken down by region is given in the following table. The total amount is £11.5 million which is more than double the figure promised in the original figure promised in the Rural White Paper.

Market Towns—Expenditure by region by year 2000–01

[1] The Countryside Agency accounting system has changed since the Initiative started so a breakdown of running costs and salaries is not possible.

[2] Funding for transport is included, although it should be noted that this was a separate funding stream. Also, as some schemes were designed to link towns and cannot be attributed to a single town, this information has been excluded

[3] Regions town by town expenditure may not add up to the total on the overview page. This is due to inclusion of projects which are funded to benefit all towns in a region, such as regional networks or training.

Ministerial Travel

Bob Russell: To ask the Secretary of State for Environment, Food and Rural Affairs when she last used a train in connection with her ministerial duties. [155159]

Margaret Beckett: I last used a train on Friday 30 January 2004 to travel to Manchester to officially open the Manchester Airport Ground Transport Interchange.

National Farmers Union

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs when she last met the National Farmers Union Young Farmers Club; and whether *(a)* dairy and *(b)* beef prices were discussed. [156109]

Margaret Beckett: I have not held a formal meeting with the National Farmers Union Young Farmers Club.

Renewable Energy

Mrs. Curtis-Thomas: To ask the Secretary a of State for Environment, Food and Rural Affairs if she will make a statement on recent trends in investment in renewable energy and the effect of those trends upon residents of Crosby. [160570]

Mr. Timms: I have been asked to reply.

Recent trends in renewable energy investment have been highly encouraging. More new capacity has been constructed in the last few years than in the previous decade, and a significant amount is currently in the pipeline. This covers a wide range of technologies including onshore and offshore wind, solar and biomass.

While this investment has not translated into capacity within Crosby itself there are several wind farm developments, both constructed and proposed, in the surrounding area. The first of these is the 3.6 MW 6 turbine wind farm at Seaforth Docks. It was constructed in 1999 and is roughly three miles from Crosby. The second is the North Hoyle offshore wind farm, which is located around 20–25 miles from Crosby and was opened in November 2003.

There are also two proposed developments for offshore wind farms relatively near to Crosby. The first of these is the 30 turbine Burbo Bank offshore wind farm, it is due to being constructed in 2005 and will be situated around 5–6 miles out to sea from Crosby.

The second is the Gwynt-y-Mor site, which has been awarded a licence under round two of the offshore wind programme and would be located around 15–20 miles from Crosby. The award of a site licence option is only the first step in the development of this wind farm, however, it is hoped that it will be completed by 2010.

Severely Disadvantaged Areas

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what alternative schemes for farm payments she has considered for severely disadvantaged areas. [161537]

Alun Michael: The CAP agreement provided member states with a number of methods for paying the single farm payment including historic, flat rate and hybrid options. Defra will publish shortly an analysis of the economic impact on the English farming industry of these various broad models, including the decision to allocate entitlement on the basis set out in my right hon. Friend the Secretary of State's, statement to the House on 12 February.

Strategic Plant Breeding

Dr. Strang: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list the strategic plant breeding research activities that have been supported by her Department in the last 10 years; and what the *(a)* location and *(b)* amount of support provided by her Department for each project was in each year of the project's existence. [161990]

Mr. Bradshaw: A table showing Defra's plant breeding research projects since the formation of the Department have been placed in the Library of the House. Details of the research providers, and their funding in each year are provided. A full list of the relevant MAFF research projects from 1994 to 2001 can be provided if required.

Defra's current research underpinning crop breeding is informed by an external assessment of the role of publicly funded plant breeding research. The project entitled 'The Role of Future Public Research' investment in the Genetic Improvement of UK Grown Crops was completed in September 2002. The assessment provides a strong rationale for public investment in plant breeding research to support sustainable development in farming and has informed the Defra Science and Innovation Strategy. It has been widely distributed within the research and plant breeding community, and is available on the Defra website.

Defra's current portfolio centres around the use of public research funds to revitalise public-good plant breeding through partnerships between plant breeders and the research base.

CONSTITUTIONAL AFFAIRS

Supreme Court

Annabelle Ewing: To ask the Parliamentary Secretary, Department for Constitutional Affairs what the estimated start-up costs are of the new UK Supreme Court; what the estimated running costs are per annum for the first five years of existence of the new UK Supreme Court; and which UK Government department will be responsible for meeting those costs. [162328]

Mr. Leslie: The cost of establishing the Supreme Court has been estimated for a number of potential building solutions. For those requiring capital investment, the set up costs have been estimated as being between £6 million and £32 million.

The estimated annual building running costs range from £1.6 million to £6.5 million. The other operational costs will be in the region of £4.3 million, made up of £3.2 million salaries (including £2.1 million judicial salaries), plus £1.1 million administrative running costs.

The costs of the UK Supreme Court will be met through fees and through resources provided by the Department for Constitutional Affairs.

HOME DEPARTMENT

Carter Report

Mr. Martyn Jones: To ask the Secretary of State for the Home Department what assessment he has made of the *(a)* future training needs, *(b)* career development and *(c)* qualifications for members of the Probation Service following the publication of the Carter Report. [155618]

Paul Goggins: The structure of the National Offender Management Service is yet to be finalised and the Probation Service will continue to function as it is for the moment. Any future changes to training and career development practices will be subject to the usual consultation arrangement with staff and unions.

Bichard Inquiry

Mr. McNamara: To ask the Secretary of State for the Home Department what estimate he has made of the cost of the Bichard inquiry; and what costs have been incurred by public bodies which have been required to be represented to date. [162702]

Ms Blears: Costs are estimated in the region of £2 million.

Costs incurred by other bodies are not known.

Care Homes

Sandra Gidley: To ask the Secretary of State for the Home Department how many existing care home staff had enhanced level Criminal Records Bureau checks processed by 31 December 2003; what percentage this constitutes of the total number of existing care home staff; and if he will make a statement. [161936]

Ms Blears: As at 31 December 2003, the Criminal Records Bureau (CRB) had completed 39,943 Enhanced Disclosure checks and 2,477 Standard Disclosure checks on existing care home staff. There are no figures to indicate what percentage of staff this represents.

In September 2003, the Department of Health issued its schedule to employers and owners in the care sector on the reintroduction of the previously postponed checks on existing care home staff. Initially, employers were asked to send application forms to the CRB by 31 December 2003. Following discussion between the Home Office and the Department of Health, this date was extended to 29 February 2004.

Crime Reporting

Mr. Heald: To ask the Secretary of State for the Home Department how many minor crimes have been reported using the online facility since its introduction. [162810]

Ms Blears: Online minor crime reports from the public have been fed to Police Services via the Police Portal (www.police.uk) since May 2001. Each must be responded to within two working days, though outcomes cannot be differentiated from normal crime figures. The Police Information Technology Organisation tallies the number of online minor crime reports. Incomplete reports trigger referral to other contacts, for example to 999 for emergencies or to a force's own website.

The following table details yearly online minor crime reports and referrals through the Police Portal since its inception:

	Minor crime reports	*Referrals*
2004 (January to February)	2,318	2,093
2003	14,982	11,461
2002	13,774	9,000
2001 (May to December)	2,009	2,241

Firearms

Paddy Tipping: To ask the Secretary of State for the Home Department how many *(a)* fatalities other than suicides and *(b)* injuries, were caused by single shot target pistols in each year from 1986 to 1996. [163011]

Caroline Flint: The requested information is not available centrally.

Hertfordshire Police Authority

Mr. Clappison: To ask the Secretary of State for the Home Department what the level of financial support made available by central Government to the Hertfordshire police authority was in each year since 1997. [161435]

Ms Blears: The information is set out in the table.

£ million

	General Government grants[1]	*Special payments*[2]	*Specific grants and capital grant*[3]	*Total*
1997–98	76.0	0	1.7	111
1998–99	77.2	0	2.0	79.2
1999–2000	79.4	3.0	2.6	85.0
2000–01	92.9	2.8	1.6	97.3
2001–02	99.0	0.6	6.7	106.3
2001–02[4]	96.3	0.6	6.7	103.6
2002–03	98.6	0.3	8.1	107.0
2003–04	101.5	0	9.5	111.0
2004–05	104.8	0	9.5	114.3

[1] General Government grants comprise Home Office Police grant, Office of the Deputy Prime Minister Revenue Support Grant and National Non-Domestic Rates.

[2] Special payments for transitional costs associated with changes to the boundaries of the Metropolitan Police District from 1 April 2000.

[3] Includes funding from the Crime Fighting Fund, Basic Command Unit funding, Community Support Officer funding, Special Priority payments, Airwave, the DMA Expansion Programme, South East Allowance payments, capital grant and the Premises Improvement Fund.

[4] General grant figures for 2001–02 are not directly comparable with 2002–03 due to the change in funding arrangements of NCS and NCIS. Adjusted figures for 2001–02 are therefore included above.

Home Detention Curfew Scheme

Mrs. Gillan: To ask the Secretary of State for the Home Department if he will list the changes made to the eligibility rules for the home detention curfew scheme, broken down by date. [163271]

Paul Goggins *[holding answer 23 March 2004]:* The following changes have been made to the Home Detention Curfew (HDC) scheme since the scheme was introduced on 28 January 1999.

On 1 March 2001 those required to register with the police under Part 1 of the Sex Offenders Act 1997 became ineligible for the scheme under the provisions of section 65 of the Criminal Justice and Courts Service Act 2000.

Following this, on 1 May 2002 the Presumptive HDC scheme was introduced. Under the scheme prisoners serving sentences of between three months and under 12 months are released on Home Detention Curfew for the

latter part of their sentence unless there are compelling reasons not to do so. This streamlined scheme is applicable to low risk only, less serious offenders. Drug dealers, violent and sexual offenders are not eligible for Presumptive HDC.

On 16 December 2002 the maximum curfew period was extended from 60 to 90 days and then, on 14 July 2003, the curfew period was extended further to 135 days. At the same time, a presumption against suitability for release on HDC was introduced for offenders serving sentences for certain serious violent offences. These offences include attempted murder, explosives offences, possession of an offensive weapon, cruelty to children and racially aggravated offences. In addition, prisoners with any current or previous history of sexual offending, not already barred from HDC, are presumed unsuitable for release. Further, also with effect from 14 July 2003, young offenders, under the age of 18, sentenced to a term of detention under Section 91 of the Powers of Criminal Court (Sentencing Act) became eligible for consideration for HDC. Prior to that date all prisoners under 18 years-of-age were statutorily excluded from HDC.

Finally, with effect from 14 January 2004 notorious prisoners whose release may undermine public confidence in the scheme are referred to the Chief Executive of the National Offender Management Service, who takes the final decision whether, after taking all matters into consideration and the individual circumstances of the case, early release is appropriate.

Mrs. Gillan: To ask the Secretary of State for the Home Department if he will place in the Library copies of circulars to governors and other communications to prison authorities issued this year which included instructions on the operation of the home detention curfew scheme. [163272]

Paul Goggins *[holding answer 23 March 2004]:* Yes.

Human Embryos

Mr. Amess: To ask the Secretary of State for the Home Department how many prosecutions were taken against laboratories found experimenting on human embryos over 14 days in each year since 2000. [162585]

Paul Goggins: Persons proceeded against for offences of experimenting on human embryos over 14 days under section 41 of the Human Fertilisation and Embryology Act 1990 cannot be separately identified in the statistics collected centrally.

Internet Pornography (Children)

Mr. Jenkins: To ask the Secretary of State for the Home Department how many pornographic images of children have been removed from the internet following investigations by *(a)* police and *(b)* their agencies in each year since 2000. [161335]

Paul Goggins: It is not possible to say how many indecent images of children have been removed from the internet as a result of police or other investigations. Even where an internet site is closed down following an investigation, many of the images that were on it may remain in circulation through other websites, newsgroups, or other internet activity. Nor can we be certain how many sites hosted outside the UK have been closed down following reports originating within the UK. Figures from the Internet Watch Foundation (IWF) show that the percentage of sites reported to them found to contain illegal images of children which were hosted in the UK fell from 18 per cent. in 1997, to 3 per cent. in 2000, and to 1 per cent. in 2003. The number of sites within the UK identified in each year from 2000 is given in the table. In each of these cases the internet service providers concerned removed the offending material and police inquiries were made. In 2003 the IWF also identified 510,000 indecent photographs of children carried on newsgroups through the UK's Usenet infrastructure, resulting in access to these being stopped by the IWF members who provide a Usenet feed to their customers.

Number of UK hosted sites identified as potentially illegal by the IWF

	Potentially illegal content: UK
2000	74
2001	80
2002	88
2003	34
Total	276

Mobile Cells

Mrs. Gillan: To ask the Secretary of State for the Home Department how many prisoners were locked into mobile cells in *(a)* Northampton, *(b)* Corby and *(c)* Wellingborough in each of the last two weeks. [162627]

Paul Goggins *[holding answer 22 March 2004]:* No prisoners were locked into mobile cells in Northampton, Corby or Wellingborough in the last two weeks.

Licensing Act

Mr. Oaten: To ask the Secretary of State for the Home Department how many people have been *(a)* prosecuted and *(b)* convicted under (i) section 172, (ii) section 172a and (iii) section 173 of the Licensing Act 1964 in each year since 1997; and how many landlords have had their licences revoked due to breach of these provisions. [161719]

Paul Goggins: The information on the number of persons proceeded against at magistrates courts and found guilty at all courts under the Licensing Act 1964, sections 172, 172A and 173, England and Wales 1997 to 2002 is contained in the table.

Statistics on court proceedings for 2003 will be published in the autumn.

Information on the number of landlords who have had their licences revoked due to breach of these conditions is not collected centrally.

Persons proceeded against at magistrates courts and found guilty at all courts under the Licensing Act 1964, sections 172, 172A and 173, England and Wales 1997 to 2002[1]

[1] Sections of the Computer Misuse Act 1990 are as follows:
Section 1—unauthorised access to computer material
Section 2—unauthorised access with intent to commit or facilitate commission of further offences
Section 3 unauthorised modification of computer material
[2] These data are on the principal offence basis.

Offending Behaviour Courses

Mr. Maude: To ask the Secretary of State for the Home Department how many and what percentage of prisoners serving a sentence for *(a)* burglary, *(b)* offences of violence and *(c)* drug related offences have completed an offending behaviour course in each of the last 10 years. [163282]

Paul Goggins: The following tables contains information on the number of programmes completed by prisoners sentenced for burglary, violence and drug offences:

	Completions of Accredited offending behaviour programmes[1,2]	*Percentage of receptions under sentence serving 12 months or more completing Accredited programmes*
1993–94	548	2.65
1994–95	839	3.73
1995–96	1,185	4.81
1996–97	1,450	5.15
1997–98	2,654	8.77
1998–99	3,501	11.50
1999–2000	5,024	16.61
2000–01	6,516	21.87
2001–02	6,709	22.26
2002–03	7,647	23.28

[1] Prison Statistics England and Wales 2002 Cm 5996.
[2] Programmes delivered in a particular year are not necessarily delivered to prisoners received into prison in that year.

(a) Burglary

	Completions of Accredited offending behaviour programmes by those with an index offence for burglary	*Percentage of receptions under sentence serving 12 months or more for burglary completing Accredited programmes*
1993–94	Not available	Not available
1994–95	Not available	Not available
1995–96	Not available	Not available
1996–97	268	5
1997–98	658	10
1998–99	807	13
1999–2000	1,161	18
2000–01	1,382	20
2001–02	1,383	25
2002–03	1,511	25

(b) Violence against the person

	Completions of Accredited Offending Behaviour Programmes by those with an index offence for violence	*Percentage of Receptions Under Sentence Serving 12 months or more for violence completing Accredited Programmes*
1993–94	Not available	Not available
1994–95	Not available	Not available
1995–96	Not available	Not available
1996–97	69	1
1997–98	187	4
1998–99	306	6
1999–2000	618	13
2000–01	931	19
2001–02	974	19
2002–03	1,062	19

(c) Drug offences

	Completions of Accredited offending behaviour programmes by those with an index offence for drug offences	*Percentage of receptions under sentence serving 12 months or more for drug offences completing Accredited programmes*
1993–94	Not available	Not available
1994–95	Not available	Not available
1995–96	Not available	Not available
1996–97	112	3
1997–98	228	5
1998–99	408	8
1999–2000	754	15
2000–01	1,002	19
2001–02	1,175	21
2002–03	1,533	28

Note:
The tables *(a)* to *(c)* are based on index offence and do not include sex offences where violence may have been a feature of the offence, and only cover the following programmes—ETS, R and R, CALM, CSCP, and RAPt.

The Prison Service also provides a range of education programmes and other activities aimed at rehabilitation and increasing the opportunity for prisoners to find employment and accommodation on release.

Mr. Maude: To ask the Secretary of State for the Home Department how many and what percentage of prisoners completed a course to address offending behaviour in each of the last 10 years. [163283]

Paul Goggins: Not all prisoners are suitable for accredited offending behaviour programmes. Selection for an accredited programme is subject to an assessment of a prisoner's risk of re-offending and individual need. The duration of the programme is also taken into consideration.

Information on the number of programmes completed by prisoners sentenced to one year or over is set out in the following table:

	Completions of Accredited offending behaviour programmes[1,2]	*Percentage of receptions under sentence serving 12 months or more completing Accredited programmes*
1993–94	548	2.65
1994–95	839	3.73
1995–96	1,185	4.81
1996–97	1,450	5.15
1997–98	2,654	8.77
1998–99	3,501	11.50
1999–2000	5,024	16.61
2000–01	6,516	21.87
2001–02	6,709	22.26
2002–03	7,647	23.28

[1] Prison Statistics England and Wales 2002 Cm5996
[2] Programmes delivered in a particular year are not necessarily delivered to prisoners received into prison in that year.

The Prison Service also provides a range of education programmes and other activities aimed at rehabilitation and increasing the opportunity for prisoners to find employment and accommodation on release.

Operation Safeguard

Mrs. Gillan: To ask the Secretary of State for the Home Department how many police forces are on standby for Operation Safeguard. [162628]

Paul Goggins *[holding answer 22 March 2004]:* It is not planned to activate Operation Safeguard at this time. No police forces have been placed on standby for the routine use of police cells:

PACE Convictions

Mr. Oaten: To ask the Secretary of State for the Home Department how many people have been *(a)* prosecuted and *(b)* convicted under section 25 of the Police and Criminal Evidence Act 1984 in each of the last five years. [162412]

Paul Goggins: Section 25 of the Police and Criminal Evidence Act gives the police a general power of arrest for the purposes of enabling the police to prosecute for a non-arrestable offence or to prevent a crime from being committed. The statistics collected centrally on persons proceeded against and those convicted do not enable those originally arrested under this power to be separately identified.

Prison Cells

Mr. Maude: To ask the Secretary of State for the Home Department how many and what percentage of prison cells in England and Wales were equipped with a television in each of the last 10 years. [163277]

Paul Goggins: Historical information on the number of cells in use and the number of cells with in-cell television is not kept centrally.

The Government announced that in-cell television would be made available across the prison estate as part of the incentives and earned privileges scheme, on 1 June 1998, *Official Report*, columns 50–51. Prior to 1998, only a small number of television sets were available in individual prisons. The number available was not centrally recorded. Figures for the number of televisions delivered to establishments in each year since 1998 are as follows.

	Number
1998	10,388
1999	4,938
2000	12,477
2001	12,471
2002	11,455

These figures include replacement sets so do not relate directly to the number of televisions in use.

Prison Education

Charles Hendry: To ask the Secretary of State for the Home Department pursuant to his answer of 1 March, *Official Report*, column 722W, on prison education, what assessments are made of the educational needs of each individual prisoner. [162353]

Paul Goggins: All establishments provide an induction programme and initial assessment of each offender's literacy and numeracy skills. Assessment materials must be referenced to the national standards for adult literacy and numeracy.

Charles Hendry: To ask the Secretary of State for the Home Department pursuant to his answer of 1 March 2004, *Official Report*, column 721W, on prison education, how many heads of learning and skills have been appointed; and if he will make a statement on their roles and responsibilities. [162354]

Paul Goggins: 120 Heads of Learning and Skills have been appointed to the adult estate. Of these, 118 are in post.

Their role is to:

lead the strategic planning process for learning and skills activities throughout their establishment in order to promote a vision of the prison as a secure learning centre;

promote, plan and co-ordinate all learning and skills activity, including programmes provided by the voluntary/community sector, in order to provide a comprehensive and coherent learning and skills programme for all prisoners;

ensure management information systems are in place to record accurately all required data relating to learning and skills provision so that outcomes can be assessed;

ensure that learning and skills are central to the sentence planning process in order to achieve an effective transition for offenders from custody into the community; and

oversee their establishment's quality improvement group, ensuring that a quality improvement strategy, a self-assessment report, action plan and development plan are produced.

Charles Hendry: To ask the Secretary of State for the Home Department pursuant to his answer of 1 March 2004, *Official Report*, column 721W, on prison education, what level of increased investment is being made by his Department, over the next three years, to increase opportunities for learning and skills across the range of prison activities. [162356]

Paul Goggins: The Department for Education and Skills is responsible for the funding of Learning and Skills in prisons. Funding for prison education and training in 2003–04 is £97 million, rising to £122 million in 2004–05 and £135 million in 2005- 06.

Prison Officers

Mr. Oaten: To ask the Secretary of State for the Home Department (1) how many minority ethnic prison officers *(a)* joined and *(b)* left the Prison Service in each of the last five years; [162362]

(2) how many minority ethnic prison officers have resigned from the Prison Service within *(a)* six months, *(b)* one year and *(c)* two years of starting their employment in each of the last five years. [162363]

Paul Goggins: Information relating to the total number of minority ethnic prison officers who joined and left the Prison Service in each of the last five years is contained in the following table. The figures include existing Prison Service staff who converted to the prison officer grade during the period, and are based on voluntary declarations by staff.

	Minority Ethnic Prison Officers			
	Number of recruits and conversions to Prison Officer		*Number of Prison Officers leaving the Service*	
	Number	*Percentage of total*	*Number*	*Percentage of total*
1999	53	5.2	26	3.1
2000	78	7.5	26	2.9
2001	36	7.6	38	2.8
2002	108	6.7	50	4.0
2003	140	5.9	60	4.3

Information on the number of minority ethnic prison officers who resigned from the Prison Service between 1 August 2000 and 31 December 2003 during their first two years of service is given in the following table.

	Minority Ethnic Prison Officers		
	Resigned within six months of appointment	*Resigned between six and 12 months of appointment*	*Resigned between one and two years of appointment*
August to December 2000	2	—	—
2001	—	—	5
2002	3	1	—
2003	2	—	1

Information relating to length of service for staff who left the Service prior to August 2000 is not held centrally and could be obtained only at disproportionate cost.

Prisons (Accommodation)

Mr. Oaten: To ask the Secretary of State for the Home Department if he will list the prisons where prisoner accommodation is due to be refurbished in the next 12 months, indicating those where the work *(a)* is expected to proceed as planned, *(b)* has been brought forward and *(c)* has been put on hold. [163330]

Paul Goggins: The following prisons are scheduled to be part of the wing refurbishment scheme during the next financial year:

Lincoln
Preston
Wakefield
Wandsworth
Pentonville
Winchester

In addition, work to improve conditions in other prison wings may take place, while this up-grading work is being undertaken.

In order to increase capacity across the prison estate, some refurbishment work may have to be deferred. Decisions on which schemes may be affected are still subject to consideration.

Prisons (Male Estate)

Mr. Oaten: To ask the Secretary of State for the Home Department what the expected cost of re-rolling *(a)* HM Prison Winchester and *(b)* HM Prison Edmund's Hill is; and how many additional places the changes will create for the male estate. [163332]

Paul Goggins: There will be no significant increase in building costs, beyond the provision of gender-specific facilities and possible adjustments to physical security, in the re-role of the West Hill wing at HMP Winchester and of HMP Edmund's Hill. Area and local managers are working to establish security, regime and staffing profiles appropriate to the new role. Therefore, full costs or savings are not yet available.

The re-role of HMP Edmund's Hill will make 310 places available for male prisoners. The West Hill wing of HMP Winchester will initially provide a further 87 places for male prisoners, with an additional 40 bed unit becoming available in May 2004.

Private Security Act

Mr. David: To ask the Secretary of State for the Home Department what the timetable is for implementing the Private Security Act 2001. [163221]

Ms Blears: The Security Industry Authority (SIA) commenced licensing of door supervisors in Hampshire and the Isle of Wight on 1 March 2004. It is proposed to roll out licensing of door supervisors across the rest of the country on a phased geographical basis from June 2004 to April 2005. Door supervisors in Wales will be able to apply for an SIA licence from 14 June 2004 and must be in possession of an SIA licence by 6 September 2004. On current plans, the timetable for the introduction of licensing in the other industry sectors covered by the Private Security Industry Act 2001 is as follows: Vehicle Immobilisers from late 2004; Manned Guards and Keyholders in 2005; and Security Consultants and Private Investigators in 2006.

The timetable for the introduction of the approved contractor scheme is under consideration by the Authority.

Probation Service

Miss McIntosh: To ask the Secretary of State for the Home Department what assessment he has made of the impact on the Probation Service of its April 2001 re-organisation. [163108]

Paul Goggins: I refer the hon. Member to the answer given on 9 February 2004, *Official Report*, column 1285W.

Resettlement Programmes

Mr. Maude: To ask the Secretary of State for the Home Department (1) how many and what percentage of long-term prisoners have completed a resettlement programme in each of the last 10 years; [163281]

(2) how many and what percentage of long-term prisoners serving a sentence for *(a)* burglary, *(b)* offences of violence and *(c)* drug related offences completed a resettlement programme in each of the last 10 years. [163284]

Paul Goggins: The information requested is not available. Long-term prisoners are provided with a range of help with their resettlement needs prior to release. There is a particular focus on helping them secure employment and accommodation, through partnership working with employers, Jobcentre Plus and housing providers.

Up to 1,500 long-term prisoners at any time are able, subject to appropriate risk assessment, to undertake unpaid community work or training on day release under licence. Up to another 1,500 long-term prisoners at any time are able, subject to appropriate risk assessment, to undertake paid work in the community on day release under licence. These opportunities help the prisoners make a managed transition back to life in the community, as well as gaining skills and experience which will help them secure employment on release.

Secure Training Centres

Mr. Oaten: To ask the Secretary of State for the Home Department what plans he has to alter the monitoring regime for secure training centres; and whether each secure training centre will continue to have a full-time on-site monitor. [163326]

Paul Goggins: Under section 8 of the Criminal Justice and Public Order Act 1994 each contracted-out secure training centre (STC) must have a monitor. There are no plans to change that requirement.

Since the first STC opened in 1998 the Home Office and the Youth Justice Board have built up substantial monitoring experience. We believe the lessons learned can and should be applied more widely across the juvenile secure estate. To do that the Youth Justice Board is introducing a new regional performance monitoring regime. This will cover STCs alongside Young Offender Institutions and Local Authority Secure Children's Homes.

The nominated STC monitors will combine their STC role with other, regional performance monitoring; they will be supported by assistant monitors on-site; and as part of the changes STC monitoring will be strengthened

by including along with contract compliance the reception and induction arrangements, key performance indicators, key safeguarding indicators and safety tests.

Suicide (Websites)

Charles Hendry: To ask the Secretary of State for the Home Department what representations he has received concerning the presence of websites and internet chatrooms that promote suicide; and if he will make a statement. [161080]

Paul Goggins: In the last 12 months the Home Office has received representations about two cases of suicide in which these websites are alleged to have been a contributing factor.

Winchester/Edmunds Hill Prisons

Mrs. Gillan: To ask the Secretary of State for the Home Department when the decision was made to move women prisoners from *(a)* Winchester and *(b)* Edmunds Hill prisons; how many women prisoners are to be moved; and to which prisons they are being sent. [162626]

Paul Goggins *[holding answer 22 March 2004]:* The announcement on 11 March 2004 closely followed the decision to re-role HMP Edmunds Hill and the West Hill wing at HMP Winchester, as a prompt response to changing population pressures. There was a short delay in the announcement to allow for staff in these establishments to be informed of the decision before the information became public. Decisions on where prisoners will be moved to will be made on an individual basis, to help ensure that each prisoner is held at an establishment that is appropriate for their needs.

As at 11 March 2004, there were a total of 364 female prisoners in HMP Edmunds Hill and the West Hill wing of HMP Winchester. Those who have not reached their release date by the time the re-role occurs will be transferred to other establishments.

Wormwood Scrubs

Ms Buck: To ask the Secretary of State for the Home Department what progress has been made in implementing the recommendations made in internal inquiry reports relating to allegations of prison officer abuse at Wormwood Scrubs; and if he will make a statement. [162664]

Paul Goggins: The Governor at Wormwood Scrubs has implemented the recommendations that have emerged from various completed inquiries and, aided by the Area Manager, ensures that current arrangements are regularly monitored and audited.

Recommendations relating to Wormwood Scrubs, but implemented nationally include:

Setting up a Professional Standards Unit to monitor all investigative and disciplinary processes and to oversee staff corruption issues.

Introducing new investigative procedures.

Developing more effective audit processes of all functions in prisons including segregation units.

Adopting robust policies on alcohol consumption during duty hours including closure of staff clubs.

Streamlining new selection and succession planning for managers.

Developing new partnership arrangements with Health Care trusts that provide improved care for prisoners.

Improving the Area Manager/Governor line management arrangements.

Improving grievance procedures and introducing systems that ensure the integrity of the processes.

Introducing better training for investigators.

Young Offenders

Charles Hendry: To ask the Secretary of State for the Home Department how many hours per week were spent, on average, by inmates in young offenders institutions *(a)* in educational activities, *(b)* on physical exercise and *(c)* in their cells in 2003. [158788]

Paul Goggins: During the current financial year to February 2004, prisoners in Young Offender Institutions undertook an average of 7.1 hours of education activity per week and 3.9 hours of physical exercise. This average is suppressed by the number of prisoners held on remand or unsentenced who are not obliged to participate in educational activities.

The length of time prisoners spent in their cells is not collected routinely.

Dr. Vis: To ask the Secretary of State for the Home Department whether placement conferences are routinely held to decide in which penal institution children should be held. [162277]

Paul Goggins: The Youth Justice Board for England and Wales (YJB) has overall responsibility for placement in the juvenile secure estate. There are three types of accommodation—Young Offender Institutions, Secure Training Centres and Local Authority Secure Children's Homes.

Where a young person is remanded to custody the YJB places them in the young offender institution serving the court they are appearing at.

If a young person receives a detention and training order the YJB decides which establishment is most appropriate, taking into account their age and maturity and the vulnerability assessment made by the youth offending team.

Young people sentenced under sections 90 or 91 of the Powers of Criminal Courts (Sentencing) Act 2000 are placed by the Juvenile Group at Prison Service Headquarters , in consultation with the YJB .

Conferences are not routinely held to decide each placement, but all are reviewed by the youth offending team officer and the establishment . The YJB arranges transfers where more suitable placements are identified.

Dr. Vis: To ask the Secretary of State for the Home Department whether juveniles who reach the age of 18 while serving a detention and training order are automatically transferred out of the juvenile prison estate. [162278]

Paul Goggins: Juveniles who reach the age of 18 while serving a detention and training order will normally remain in the juvenile prison estate until their transfer to the community.

Dr. Vis: To ask the Secretary of State for the Home Department what procedures are in place to ensure that children who are part way through GCSE courses when they are received into prison can continue their courses. [162281]

Paul Goggins: Education departments within prisons are registered with examination boards for the delivery of a number of core curriculum subjects for children who are taking GCSEs. Schools and young offender institutions work together to offer opportunities for progress to those who have already commenced GCSEs and to ensure they continue with their courses in the community on release.

If a GCSE subject is more unusual and cannot be supported in custody to GCSE standard, then either specialist teaching staff are brought in or alternative GCSEs or accreditation opportunities such as in Key Skills level 2 are offered.

Dr. Vis: To ask the Secretary of State for the Home Department which prisons in the juvenile estate give night-time breakfast packs to inmates. [162282]

Paul Goggins: Of the establishments in the Prison Service juvenile estate, Eastwood Park, Lancaster Farms and New Hall routinely provide night-time breakfast packs as a matter of course. Bullwood Hall, Hindley, Huntercombe and Stoke Heath provide them in certain circumstances, for example where a young person has to be produced in court early the next morning.

Charles Hendry: To ask the Secretary of State for the Home Department what steps he is taking to ensure that young offenders are detained near their *(a)* homes and *(b)* families. [162312]

Paul Goggins: In its management of the prison population, the Prison Service aims to hold prisoners in establishments that provide the degree of security they require, are suitable for their gender, age and legal status, provide special facilities appropriate to prisoner needs, and are near to their homes or the courts dealing with their cases. Sentenced young offenders have to be held separately from adult prisoners

Considerable emphasis is also placed on encouraging all prisoners, including young offenders, to maintain their family ties. We recognise that this helps them to achieve a better transition from custody to resettlement, and is therefore an important factor in reducing re-offending.

Mr. Oaten: To ask the Secretary of State for the Home Department pursuant to his answer of 6 January 2004, *Official Report*, column 328W, on young offender institutions, which establishments are equipped with *(a)* unfurnished cells and *(b)* other types of special accommodation. [162437]

Paul Goggins: Special accommodation includes cells designated as 'special' or 'unfurnished'. The following establishments in the juvenile estate are equipped with special accommodation:

Ashfield
Brinsford
Bullwood Hall
Castington
Feltham
Hindley
Huntercombe
Lancaster Farms
New Hall
Parc
Stoke Heath
Warren Hill
Werrington
Wetherby

Mr. Oaten: To ask the Secretary of State for the Home Department pursuant to his answer of 9 February 2004, *Official Report*, column 1262W, on juvenile prisoners, for what reasons the use of unfurnished cells was judged to be unnecessary at *(a)* Eastwood Park, *(b)* Holloway, *(c)* Huntercombe, *(d)* Lancaster Farms, *(e)* Parc, *(f)* Thorn Cross, *(g)* Warren Hill, *(h)* Werrington and *(i)* Wetherby. [162439]

Paul Goggins: Special accommodation may be used for the temporary confinement of a violent or refractory prisoner, but only if its use:

(i) Is necessary in order to prevent the prisoner causing self-injury, injuring another prisoner or staff, or damaging property, or creating a disturbance; and

(ii) Has been properly approved (i.e. No prisoner shall be placed in special accommodation except on the prior authority of the Governor/Controller in charge).

These establishments did not use unfurnished cells between January 2002 and December 2003 for one or more of the following reasons:

(i) They do not have unfurnished cells, or they use special cells or ordinary segregation accommodation;

(ii) Staff were able, on the basis of individual risk assessment, to deal with the violent or refractory behaviour by means other than using special accommodation.

Mr. Oaten: To ask the Secretary of State for the Home Department pursuant to his answer of 9 February 2004, *Official Report*, column 1262W, on juvenile prisoners, what the *(a)* average number of hours and *(b)* longest number of hours spent in unfurnished cells was at (i) Castington, (ii) Feltham, (iii) Hindley and (iv) Stoke Heath in 2003. [162440]

Paul Goggins: Castington did not use unfurnished cells during 2003. Data on the average length of time and the longest length of time spent in unfurnished cells at Feltham, Hindley and Stoke Heath young offender institutions in 2003, is shown in the following table.

Establishment	*Average number of hours*	*Longest number of hours*
Feltham	1 hour 5 minutes	4 hours 30 minutes
Hindley	45 minutes	1 hour 15 minutes
Stoke Heath	7 hours 1 minute	20 hours 45 minutes

Julie Morgan: To ask the Secretary of State for the Home Department how many attacks there were on

prison officers in each young offenders' institution in each month from June 2003 to the most recent month for which figures are available. [163211]

Ms Blears: The number of assaults on prison officers in each young offender's institution is detailed in the table.

Establishment name	2003 June	July	August	September	October	November	December	2004 January	February	March
Aylesbury	—	—	1	—	—	—	—	—	—	—
Brinsford	—	—	—	—	—	—	—	—	—	—
Castington	—	—	—	—	—	1	—	—	—	—
Deerbolt	—	—	—	—	—	—	—	—	—	—
Feltham	—	1	—	—	1	—	1	—	1	—
Glen Parva	—	—	—	—	—	—	—	—	—	—
Hindley	—	—	—	—	—	—	—	—	—	—
Lancaster Farms	—	—	1	—	—	—	2	—	1	—
Northallerton	—	—	—	—	—	—	—	—	—	—
Onley	2	—	—	—	1	1	—	—	—	—
Portland	—	—	—	—	—	—	1	—	—	—
Reading	—	—	—	—	—	—	—	—	—	—
Rochester	—	—	—	—	—	—	—	—	—	—
Stoke Heath	2	1	—	—	—	—	1	—	—	—
Swinfen Hall	—	—	—	—	—	—	1	—	—	—
Thorn Cross	—	—	—	—	—	—	—	—	—	—
Warren Hill	—	—	—	—	—	—	—	—	—	—

The Prison Service categorises establishments by their main role. Establishments that have more than one role are placed in the category that represents the primary or dominant function of the prison. The establishments referred to in the answer are categorised as Young Offender Institutes as they hold a predominantly Young Offender population.

Prison Visiting

Dr. Vis: To ask the Secretary of State for the Home Department whether there is a limit on the number of children who may visit a parent in prison. [162279]

Paul Goggins: There is no limit on the number of children who are able to attend social visits in prisons. However, prisons with fixed, rather than freestanding furniture in their visits halls sometimes experience difficulties in accommodating larger families together. In these instances, there is an expectation that establishments will be flexible and make appropriate arrangements to assist them.

Dr. Vis: To ask the Secretary of State for the Home Department what his policy is on visits to prisoners in Highpoint prison by more than three of their children at any one time. [162280]

Paul Goggins: The prisoner visits booking system currently in use at Highpoint prison allows for one main visitor over 18 years old, two further visitors over the age of 10 and up to four children under the age of 10. A new system is shortly to be introduced which will raise the number of children able to visit to nine.

Youth Offending Teams

Mr. Keith Bradley: To ask the Secretary of State for the Home Department what the total budget allocated to youth offending teams is for *(a)* drugs and *(b)* alcohol programmes in 2003–04. [162612]

Paul Goggins *[holding answer 22 March 2004]:* In 2003–04 the Youth Justice Board paid £8.5 million in grant support to Youth Offending Teams for substance misuse work, which includes drugs and alcohol problems. It does not set separate amounts for each type of problem.

WORK AND PENSIONS

Association of British Insurers

Brian Cotter: To ask the Secretary of State for Work and Pensions if he will ask a third party to examine the accuracy and impartiality of the information the Association of British Insurers is collating on the separation of long tail disease risk and accident risk, as referred to in his Department's Second Stage Report on the review of Employers' Liability Compulsory Insurance. [163200]

Mr. Browne: As well as the Government's consideration of this work we understand that the Association of British Insurers (ABI) is consulting with a wide range of third parties including the Confederation of British Industry (CBI), the Engineering Employers' Federation (EEF), the Federation of Small Businesses (FSB) and the Trades Union Congress (TUC).

Benefits Reforms (Scotland)

Mr. Roy: To ask the Secretary of State for Work and Pensions what discussions he has had concerning the introduction of Jobcentre Plus to Scotland. [160271]

Mr. Browne: The administration of Jobcentre Plus is a matter for the Chief Executive of the Jobcentre Plus, David Anderson. He will write to the hon. Member.

Letter from David Anderson to Mr. Roy, dated 25 March 2004:

As Jobcentre Plus is an Executive Agency, the Secretary of State has asked me to reply to your question concerning what discussions have taken place concerning the introduction of Jobcentre Plus to Scotland. This is something which falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

Jobcentre Plus came into existence as a national organisation at the beginning of April 2002. The Benefits Agency and Employment Service ceased to exist at the same time. The new service is being rolled out across England, Wales and Scotland on a district by district basis. Nearly 400 integrated Jobcentre Plus offices are now operating across the country, 33 of which are in Scotland. Integrating the whole of the former Employment Service and Benefits Agency's services for people of working age and creating the national network of Jobcentre Plus offices will not be completed until 2006.

During 2002–2003, 23 offices were successfully introduced across Grampian, Moray, Orkney and Shetland District and Renfrewshire, Inverclyde, Argyll and Bute District. Implementation is ongoing in Glasgow, Lothian and Borders and Tayside Districts. Rollout planning schedules are at an advanced stage for the remaining Districts; Ayrshire Dumfries and Galloway, Edinburgh, Fife, Forth Valley and Dunbartonshire Highlands and Western Isles and Lanarkshire. Our aim is to complete rollout of Jobcentre Plus throughout Scotland by 2006.

As each district starts to plan for the introduction of the new integrated Jobcentre Plus, service delivery arrangements are shared with local stakeholders, MPs and others. The service delivery arrangements are shared at the initial proposal stage, amended to take account of comments received where appropriate, then shared again when approval for the plans has been given. This is an integral part of the planning process for the introduction of the Jobcentre Plus service across England, Wales and Scotland.

District Managers are provided with a list of suggested stakeholders for this initial planning stage. These include; local MPs/MEPs/MSPs/Members of the National Assembly of Wales, Local Authorities, programme providers/service delivery partners, employers, Citizens Advice Bureaux, and welfare rights organisations. This list is not exhaustive and each District Manager may identify their own local stakeholders.

As part of the consultation process District Managers may also canvass the opinions of their customers and any comments they provide will be used as part of the planning process. We also take account of views expressed by stakeholders representing groups such as unemployed workers and pensioners. Any concerns or issues raised by these groups as a result of the consultation process will be addressed at district level and are fed in to each district's planning before the final decision is made for roll out of Jobcentre Plus in that district.

Jobcentre Plus managers at all levels maintain close contact with many local and national organisations representing our client base. This enables continuous feedback concerning the services that we provide before, during and after the roll out of the new Jobcentre Plus services.

Company Stakeholder Pension Schemes

Sir Archy Kirkwood: To ask the Secretary of State for Work and Pensions if he will make a statement on action taken in relation to companies who are unable to find an insurer to set up a company stakeholder pension scheme with. [163132]

Malcolm Wicks: The Occupational Pensions Regulatory Authority (Opra) is responsible for regulating compliance with the requirement for employers to offer access to stakeholder pension schemes.

Opra has not found any cases, or received any reports, of employers being non-compliant with the requirement because they could not find a suitable stakeholder pension scheme provider. Opra is satisfied that there is an adequate number of schemes open to employers, so no specific action is required. Opra is monitoring the position.

If an employer is required to designate a stakeholder pension scheme for their employees they should first check the register of stakeholder pension schemes on Opra's website which will give addresses of providers. This also gives details of restrictions on membership and availability to designate.

Departmental Policies (Hackney)

Ms Abbott: To ask the Secretary of State for Work and Pensions if he will make a statement on the impact of his Department's policies on the constituency of Hackney, North and Stoke Newington since 1997. [162290]

Mr. Browne: The Department for Work and Pensions was formed in June 2001; since then, we have undertaken a fundamental overhaul of the welfare system, transforming it from a passive organisation paying out benefits to an active system that fights poverty, creates opportunity and helps people become self-sufficient and independent.

We are making a significant contribution to the Government's objective of eradicating child poverty in 20 years and halving it within 10, and there are now half a million fewer children in relative low income than there were in 1997. Child Benefit is now worth £16.05 a week for the eldest child, compared to only £11.40 in 1997, benefiting 13,200 families in Hackney, North and Stoke Newington.

Through Jobcentre Plus, we are promoting work as the best form of welfare for people of working age. The number of people in work is at historically high levels of over 28.27 million. Unemployment in Hackney, North and Stoke Newington has halved and long-term unemployment has fallen by over 75 per cent.

Our New Deals have helped lone parents, the young unemployed, the long-term unemployed, disabled people, the over 50s and partners of the unemployed to move from benefit into work. Nationally over 1,029,000 people have been helped into work by the New Deals, and over 9,500 have been helped into work in Hackney, North and Stoke Newington.

We want all pensioners to have a decent and secure income in retirement and to share fairly in the rising prosperity of the country, and our first priority has been to help the poorest pensioners. The Government will be spending an extra £10 billion in 2004–05 on pensioners as a result of measures introduced since 1997; this is £6 billion more than an earnings link would have given them. Almost half the extra spending, around £5 billion, is going to the poorest third of pensioners.

Pension Credit, introduced from October 2003, provides a contribution to a guaranteed minimum income for those aged 60 and over and, for the first time, those over aged 65 and over may be rewarded for modest savings and income. Around 4,559 pensioner households in Hackney, North and Stoke Newington are already benefiting from Pension Credit, with an average award of £69.81 per week.

We know that older people are disproportionately affected by fuel poverty, and this winter (2003–04) we have made available a Winter Fuel Payment of £200 for each eligible household to help with their fuel bills. In

addition, the introduction of the 80 plus annual payment gives an extra £100 to households where there is someone aged 80 or over. So far 10,120 older people in Hackney, North and Stoke Newington have received a payment this winter; of those 1,865 have received the 80 plus annual payment.

On 17 March, my right hon. Friend the Chancellor of the Exchequer, in his Budget statement, announced a £100 pension payment to households with someone aged over 70, to help with council tax bills.

Some 8,900 pensioners in Hackney, North and Stoke Newington benefited from the above inflation increase in the rate of basic state pension from April 2003. Those over 75, of whom we estimate there are about 3,700 in Hackney, North and Stoke Newington, may also qualify for free TV licences.

Employers' Liability Compulsory Insurance

Brian Cotter: To ask the Secretary of State for Work and Pensions what representations he has received from *(a)* individual businesses and *(b)* trade associations on difficulties in accessing affordable employers' liability compulsory insurance cover since December 2003. [162657]

Mr. Browne: The Department has received seven representations from individual businesses and five representations form trade associations on difficulties in accessing affordable employers' liability compulsory insurance cover since December 2003.

In addition the Department continues to discuss these issues with business representatives and trade associations on a regular basis.

EU Accession Countries

Mr. Evans: To ask the Secretary of State for Work and Pensions what estimate the Government have made of how many EU accession country citizens will make use of the benefits system in the UK. [157345]

Mr. Pond: A number of studies have been published which offer estimates of the number of people coming to the United Kingdom from the EU accession countries, but these do not take into account the measures announced on 23 February by my right hon. Friend the Home Secretary and the steps we are taking to publicise them in the countries most concerned. Consequently no precise estimate of the numbers likely to travel to the UK and claim benefits has been made.

Health and Safety

Mr. Hancock: To ask the Secretary of State for Work and Pensions how many inspectors have been employed by the Health and Safety Executive in each year since 1997; and what the forecast number is for the current year. [155818]

Mr. Browne: The table contains the information on the number of inspectors employed by the Health and Safety Executive (HSE) on 1 April for the years 1997 to 2003; and the planned number for 1 April 2004.

Inspectors employed by HSE

	Number
1997	1,442
1998	1,437
1999	1,497
2000	1,507
2001	1,534
2002	1,625
2003	1,651
2004	[1]1,657

[1] Planned number.

Pension Centre Staffing

Mr. Webb: To ask the Secretary of State for Work and Pensions how many full-time equivalent departmental staff are employed in each pension centre. [160349]

Malcolm Wicks: The information requested (up to the end of February 2004) is in the table.

	Full-time equivalent staff
Derby	301.05
Leicester	278.00
Nottingham	214.29
Norwich Baltic	280.74
Norwich Kingfisher	269.41
London Pension Centre (Glasgow)	517.96
London Pension Centre (Newcastle)	626.92
Dearne Valley	436.22
Seaham	364.32
Stockton	313.10
York	304.83
Burnley	582.14
Stockport	713.93
Warrington	467.91
Dundee	534.18
Motherwell	466.29
Blackpool	191.16
Liverpool	267.29
Cwmbran	242.92
Wrexham	387.09
Bath	406.57
Plymouth	383.87
Swansea	542.05
Birmingham	358.49
Walsall	264.71
Wolverhampton	390.00

Pension Service (IT Facilities)

Mr. Webb: To ask the Secretary of State for Work and Pensions whether local Pension Service staff have IT facilities *(a)* to view customers' details and *(b)* to record ongoing action on the Pension Service database whilst conducting (i) a home visit and (ii) a surgery; what the average time taken for the appropriate pension centre (A) to input this information and (B) to amend existing records on the main database is; and if he will make a statement. [160354]

Malcolm Wicks: Currently The Pension Service local service staff do not have the IT facilities to enable electronic access to customer benefit details or to record ongoing action while conducting a home visit or surgery.

Local service staff do have access to laptop computers and a programme is underway to provide all DWP laptop users with secure remote access to the full IT facilities, including customer benefit details.

Prior to any booked appointment the local service member of staff will preview the customer's details and take any necessary information to the visit or surgery. During the visit or surgery if further information is required staff are equipped with mobile telephones with which they can contact their office for assistance.

The Pension Service does not collect information on each stage of its processing. The organisation has published its handling targets in The Pension Service Business Plan for 2003–04.

Pensions

Mr. Swayne: To ask the Secretary of State for Work and Pensions if he will make a statement on the Government's target in respect of funded pensions. [161205]

Malcolm Wicks: The Government are committed to continuing their strategy which balances fairness and affordability by targeting state support at those who need it most while encouraging private funded provision for those who can afford to save and rewarding those who have done so.

The Pensions Bill, introduced to the House in February is one part of our programme of reform which bolsters protection for pension scheme members through the introduction of the Pension Protection Fund and The Pensions Regulator. These measures, if approved, will provide people with increased confidence that a pension they have saved will be delivered.

In addition, Simplicity, security and choice: Informed choices for working and saving (Cm 6111) set out the action this Government are taking to empower individuals to take control of their retirement planning.

Mr. Webb: To ask the Secretary of State for Work and Pensions (1) what *(a)* temporary and *(b)* permanent changes to the level of written evidence needed to support an application for pension credit have been implemented by his Department; and if he will make a statement; [163292]

(2) if it is his Department's policy to require written evidence of the value of *(a)* occupational pensions, *(b)* premium bonds and *(c)* income tax payments when assessing pension credit applications; and if he will make a statement. [163293]

Malcolm Wicks: Applications for Pension Credit are assessed on the basis that the decision maker must decide, on the balance of probability, whether the information given in the application is correct. As a general rule, written evidence is required of income and of savings and investments above 6,000 (or 10,000, for someone in a care home). Written evidence will normally be required, where relevant, of occupational pensions, premium bonds of 100 or more and income tax deductions.

Our aim is to ensure that Pension Credit is easy to apply for and we continually review our processes to ensure that this is so. We have listened to comments from customers, pension providers and staff and have introduced a number of relatively minor changes to the written evidence which we require. These include, where appropriate, applying an automatic increase to non-state second pensions, where customers are unable to provide details of the rate and date of any proposed increase, inferring the current amount and frequency of non-state second pensions from bank statements and accepting photocopies of documents such as bank statements, savings books and wage slips if the customer is unable or unwilling to provide originals. The changes have been introduced through normal business practices and are subject to ongoing evaluation.

Mr. Webb: To ask the Secretary of State for Work and Pensions if he will estimate the cost to the Exchequer, net of savings in means-tested benefits and additional income tax revenues, of paying a full basic state retirement pension to every individual aged 65 or over, regardless of contribution record, at the rate of the guarantee credit and subsequently indexed to earnings, in each of the next five financial years, assuming that no new rights accrue to the state second pension and that no new rights accrue to the savings credit from the date of implementation of the scheme. [163714]

Malcolm Wicks: The information requested is in the table.

	Net cost (£ billion)
2004–05	9.2
2005–06	9.4
2006–07	9.9
2007–08	10.5
2008–09	11.1

Notes:

1. Figures are for Great Britain in 2003–04 price terms rounded to the nearest £100 million. It is assumed the change comes into effect from April 2004 and payment is uprated in line with earnings thereafter.
2. Gross costs are estimated by the Government Actuary's Department and are consistent with Budget 2004 assumptions and use 2002 based population projections.
3. The costs take into account income related benefit offsets, which are calculated using the DWP policy simulation model and April 2004 benefit rates.
4. Additional income tax revenue is estimated by the Inland Revenue using 2004 tax rates.
5. The savings from abolishing the State Second Pension are calculated by the Government Actuary's Department and are consistent with the long term Public Expenditure Survey forecasts. No allowance has been made for changes to contracting out rules.
6. The savings credit is assumed to be frozen, payments uprated by prices, with no new recipients after 2004. Figures for 2004 and 2005 are based on published medium term forecasts, while those for 2006–07 and beyond are based on the illustrative long-term projections of benefit expenditure underlying Annex A of the Budget report.

Unemployment (Wales)

Mr. Wiggin: To ask the Secretary of State for Work and Pensions what steps are being taken to aid job placement for the unemployed in Wales. [160925]

Mr. Browne: Our active labour market policies ensure people can take advantage of the many job opportunities coming up all the time. This is especially true for those most disadvantaged; the long-term unemployed, lone parents, people with disabilities and older workers.

The development of Jobcentre Plus is building on the high quality service already provided by social security offices and Jobcentres by delivering a single, integrated service to all people of working age, with a clear focus on work. The introduction of work-focused interviews

enables more people to take advantage of the increasing opportunities to move into work by, for the first time, offering everyone of working age advice and guidance on the full range of Jobcentre Plus programmes. In the year up to January 2004 Jobcentre Plus had been notified of 200,000 vacancies in Wales.

There are currently 1.31 million people in work in Wales. This is an increase of 28,000 over the last year and of 100,000 since 1997. Our New Deal has helped over 63,000 people into employment in Wales and our Employment Zones and Action Teams have additionally helped more than 1,600 of the hardest to help people in to work.

FOREIGN AND COMMONWEALTH AFFAIRS

Afghanistan

Mr. Chidgey: To ask the Secretary of State for Foreign and Commonwealth Affairs how the Interim Election Commission, the Joint Electoral Coordination Office and the Coalition intend to address the effects of *(a)* cultural barriers to female participation, *(b)* low literacy rates and *(c)* the current number of electoral registration offices outside Kabul in ensuring full voter registration and participation in Afghanistan. [162928]

Mr. Mike O'Brien: Women are being encouraged to participate in the electoral process through specially targeted civic education programmes and the use of all-women voter registration teams to register women. In order to overcome the low literacy rates in Afghanistan, voter education programmes are using a wide range of media to provide information on the electoral process including television, radio, public meetings and graphic posters.

A number of regional voter registration centres have now closed having completed the process in the larger population centres. As of 22 March 2004, 60 centres were in operation outside Kabul. This will increase to a total of 4,200 centres when the accelerated registration begins in May.

Climate Change

Norman Baker: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent work his Department has carried out to assess the international security implications of climate change; and if he will make a statement. [162885]

Mr. Rammell: Helping to launch new action to reinvigorate the international response to climate change is one of the specific aims set out in the Foreign and Commonwealth Office (FCO) Strategy published in December 2003. A copy of which is available in the Library of the House. Potential linkages between climate change and international security include increased pressure on food and water resources and energy supplies, which in turn (and in combination with other factors) may contribute to the causes of migration, instability and conflict. FCO policies and diplomatic work to promote effective international action against climate change are underpinned by our belief that the global costs of inaction would be high.

The FCO has been involved in work co-ordinated by DEFRA to identify how policy and operational responsibilities could be affected by climate change. Where appropriate, we consider climate change along with other environmental issues in formulating policy on international and security issues. Through our network of overseas Posts, we have disseminated to wider international audiences modelling produced in the UK on climate change impacts scenarios. Within the EU, we have supported efforts to integrate disaster prevention into EU development and environmental priorities. We believe that this work will help to increase understanding of adverse impacts of climate change internationally.

Cyprus

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs what policy response the Government will make to the proposals by the Turkish authorities in the North of Cyprus seeking further derogations to the EU acquis as a precondition to their agreement to a settlement in Cyprus; whether the Government have communicated the proposals to the Government of Turkey; and if he will make a statement. [163244]

Mr. MacShane: The UK is working to support the UN Secretary-General's good offices mission in Cyprus and, along with other members of the European Council, has declared its readiness to accommodate the terms of a Cyprus settlement in line with the principles upon which the EU is founded.

Once a settlement is finalised and approved by both communities it will be for the European Union to accommodate those arrangements, in order for a reunited Cyprus to join the EU on 1 May. The EU should not become an obstacle to a settlement that has been agreed by the parties themselves.

The UK has not communicated any proposals from the Turkish authorities in northern Cyprus to the Turkish Government.

Eritrea/Ethiopia

Mr. Gardiner: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps the Government is taking to ensure that the *(a)* Eritrean and *(b)* Ethiopian Governments observe the rulings of the Independent Boundary Commission; and what action it is taking where these rulings are ignored. [163367]

Mr. Mullin: The UK, and other members of the Security Council, will continue to press Ethiopia to accept the Boundary Commission decision, which is final and binding, and begin a comprehensive political dialogue on all of the issues separating them. We have welcomed the appointment of the UN Special Envoy, Lloyd Axworthy, and are urging both parties to work with him on resolving their differences.

Mr. Gardiner: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent involvement the UK Government has had in the dispute between Eritrea and Ethiopia. [163403]

Mr. Mullin: I most recently discussed the border dispute with the Eritrean ambassador, together with a visiting representative of the Eritrean Government, on 18 March 2004 I also discussed the border with Eritrean President Isaias in Asmara on 15 January 2004 and with Ethiopian Prime Minister Meles in Addis Ababa on 16 January 2004. On each of these occasions I reiterated to the parties that the Boundary Commission's decision is final and binding and urged them to engage in political dialogue on all of the issues separating them.

EU Budget

Miss McIntosh: To ask the Secretary of State for Foreign and Commonwealth Affairs under what powers payments by the United Kingdom to the European Union budget are made. [161395]

Ruth Kelly: I have been asked to reply.

United Kingdom contributions to the EC budget are made under the European Communities Act 1972 as amended. This provides the framework within which the UK makes payments required by or under the Treaties listed in section 1(2) of that Act.

European Court of Human Rights

Mr. David Atkinson: To ask the Secretary of State for Foreign and Commonwealth Affairs how many *(a)* petitions were received and *(b)* cases were dealt with by the European Court of Human Rights in the latest year for which figures are available; and how many and what percentage of each total related to each Council of Europe member state. [162768]

Mr. MacShane: The information requested is as follows.

(a) 30,828 applications were received in 2002 by the European Court of Human Rights;

(b) 18,765 cases were dealt with in the same year (844 judgments, 17,349 applications declared inadmissible, and 530 applications struck off).

A breakdown of how many and what percentage of the total relate to each Council of Europe member state is as follows:

Applications received

State	*Applications 2002*	*Percentage of cases per member state*
Albania	19	0.061
Andorra	—	
Armenia	21	0.068
Austria	400	1.297
Azerbaijan	123	0.398
Belgium	247	0.801
Bosnia and Herzegovina	32	0.103
Bulgaria	588	1.907

[1] Breakdown available only for judgments.

Government Hospitality

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs what the cost to public funds is of the Government Hospitality Advisory Committee for the purchase of wine, in the current financial year. [162731]

Mr. Straw *[holding answer 24 March 2004]:* The Government Hospitality Advisory Committee for the Purchase of Wine cost approximately £6,000 in the financial year 2003–04. The work of the Committee is managed by an established civil servant, whose salary is paid by the Foreign and Commonwealth Office.

Kosovo

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the security situation in the Kosovo towns of *(a)* Mitrovica, *(b)* Orahovac and *(c)* Pristina. [163393]

Mr. Straw: Kosovo Force (KFOR) reports that the situation in these towns is calm but tense. We have called upon all the leaders in Kosovo and Belgrade to show restraint and use their influence to calm the situation. It is important that they continue to work with KFOR and the United Nations Interim Administration Mission in Kosovo to build a stable, democratic and multi-ethnic Kosovo.

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs what the Government's policy is on the future of Kosovo within a Serbia-Montenegro federation. [163394]

Mr. Straw: Our policy on Kosovo is based on United Nations Security Council Resolution 1244 (1999) and the UN endorsed review process of agreed standards, launched in December 2003. As part of this there will be a formal review of Kosovo's progress in meeting the agreed standards in mid 2005. If it were positive, but only if, it could allow a process to begin to determine Kosovo's future status.

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the reconstruction programme required in Kosovo; and if he will make a statement. [163395]

Mr. Straw: The UN Interim Administration Mission in Kosovo, the Kosovo Provisional Institutions of Self-Government (PISG) and the NATO Force for Kosovo are in the process of assessing the damage caused by the recent violence and. the extent of the reconstruction programme required. The PISG has announced the allocation of Kosovo funds to rebuild Serb Churches and homes.

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has received from the Serbia and Montenegro Government regarding Prime Minister Kostunica's proposal for the cantonisation of Kosovo. [163396]

Mr. Straw: We have received no such representations from Serbia and Montenegro. However, on a number of occasions since taking office on 3 March 2004, Serbian Prime Minister Kostunica has stated publicly his Government's preference for the decentralisation of Kosovo through entities or cantons to ensure the security of the Serb community in Kosovo.

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs what the Government's policy is on the Kosovo Serbs' proposal regarding establishment of Serb enclaves within Kosovo. [163397]

Mr. Straw: We are not aware of any formal proposal by the Kosovo Serbs regarding establishment of Serb enclaves within Kosovo.

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs when he last met his counterparts from other EU member states to discuss matters relating to the security situation in *(a)* Kosovo and *(b)* Serbia and Montenegro. [163398]

Mr. Straw: On 22 March 2004.

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the extent to which the borders between *(a)* Kosovo and Albania and *(b)* Kosovo and the Former Yugoslav Republic of Macedonia are adequately secured; and who controls them. [163399]

Mr. Straw: Responsibility for border control points in Kosovo is held by the Kosovo Police Service under the authority of the UN Interim Administrative Mission in Kosovo. Responsibility for the border security of Kosovo, including adjacent to the border with Albania and the Former Yugoslav Republic of Macedonia, rests with the NATO-led Kosovo Force. On the Macedonian side of the border, responsibility for border crossing points rests with the Macedonian Border Police, and for the rest of the border with the First Army Brigade. On the Albanian side of the border, the Albanian Police are responsible for border control. We assess that Kosovo's borders with both Albania and Macedonia are adequately secured.

Kurds (Iraq)

Bob Spink: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make representations to the US and international community that *(a)* Saddam Hussein and *(b)* Ali Hassan Al-Majid be charged under the Convention on the Prevention and Punishment of the Crime of Genocide, Article II in respect of the massacre of Kurds at Halabja and through the Anfal campaign. [162190]

Mr. Rammell: On 10 December 2003, the Iraqi Governing Council (IGC) established the Iraqi Special Tribunal to try major crimes committed under the former Ba'athist regime. The Transitional Administrative Law signed on 8 March 2004 confirms the establishment of the Tribunal.

Article 10 of the Statute of the Tribunal gives it jurisdiction over the crime of genocide which is defined (in Article 11) in accordance with the Genocide Convention. Although it is for the Iraqis to decide what charges will be brought against Saddam Hussein and Ali Hassan Al-Majid we expect that the charges would involve incidents such as the 1988 attack on Halabja and the Anfal campaign.

Bob Spink: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the international community regarding *(a)* the integrity of Iraq's borders and *(b)* the need to ensure Kurdish security in respect of Turkey and Iran; and if he will make a statement. [162192]

Mr. Rammell: We are committed to maintaining the territorial integrity of Iraq, as re-affirmed in UN Security Council Resolution 1511. We have been in regular contact with Iraq's neighbours to urge them to take steps to ensure better security on their borders with Iraq. We have been working hard to improve border security through increased personnel, new technology and tighter procedures. There are currently 8,000 Iraqi border police in place and the Coalition is aiming to double this number. In the north the US military have taken on this role in the Kurdistan Regional Government administered areas.

Opinion Sampling

Mr. Laws: To ask the Secretary of State for Foreign and Commonwealth Affairs what his estimate is of total expenditure by his Department on *(a)* focus groups and *(b)* opinion polls in each year from 1995–96 to 2003–04; and if he will make a statement. [162750]

Mr. Rammell: Focus groups and internal/external opinion polls are not managed centrally. The subject of the group or poll would determine which department within the Foreign and Commonwealth Office (FCO) managed it. For example, the FCO's Information Directorate (responsible for explaining UK foreign policy, creating systems to deliver this information, both internally and to the public, and the development of relationships with the FCO's key partners in shaping and communicating policy) spent £311,000 on focus groups and polls in 2003–04. To collate all costs relating to groups and polls would incur disproportionate costs.

Pakistan

Mr. Tynan: To ask the Secretary of State for Foreign and Commonwealth Affairs what assurances he has received from Pakistan regarding the prevention of the proliferation of weapons of mass destruction. [161210]

Mr. MacShane: During recent discussions with the Pakistani Government, assurances were given that Pakistan would investigate fully the past proliferation activities of Abdul Qadeer Khan and those associated with him. They have also undertaken to make changes to the system of control of their nuclear programme in order to prevent the future transfer of technology.

Press Officers

Mr. Laws: To ask the Secretary of State for Foreign and Commonwealth Affairs how many press officers were employed in his Department in each year from 1990–91 to 2003–04; what the total cost was in each year; and if he will make a statement. [162849]

Mr. Rammell: The number of UK based press officers working in the Foreign and Commonwealth Office Press Office in 2003–04 is 17 and their cost for the year is estimated to be £738,353. Costs comprise salary, employer's national insurance contributions and employer's pension contributions. There are further press officers based at overseas posts however their numbers and costs could be obtained only at disproportionate costs. For years prior to 2003–04 I refer the hon. Member to the answer I gave him on 23 January 2003, *Official Report*, column 469W.

Taiwan

Mr. Gordon Prentice: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations he has received from the People's Republic of China concerning Her Majesty's Government's policy towards Taiwan; and if he will make a statement. [163204]

Mr. Rammell: The People's Republic of China raises Her Majesty's Government's Taiwan policy regularly at official and ministerial level. During his visit on 1–11 March Chinese vice-Foreign Minister Zhang Yesui discussed Taiwan with my right hon. Friend the Foreign Secretary.

The UK's position on Taiwan status remains unchanged. We believe the question of Taiwan is a matter for the people on both sides of the Taiwan straits to settle peacefully among themselves.

Weapons of Mass Destruction

Norman Baker: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on *(a)* the weapons of mass destruction held by Israel and *(b)* that nation's (i) entry into and (ii) adherence to international agreements on such weapons. [162306]

Mr. Rammell: The Government continue to urge Israel to resolve international speculation about its possession of weapons of mass destruction by acceding to the relevant international Treaties.

The Government support the creation of a Middle East zone free of weapons of mass destruction and urges all states, both in the region and elsewhere, to accede to, and adhere to, all the International Treaties and Conventions covering such weapons.

DEPUTY PRIME MINISTER

Department-Funded Programmes

Mr. Goodman: To ask the Deputy Prime Minister how much funding has been allocated in *(a)* 2004–05, *(b)* 2005–06 and *(c)* in total to (i) the Community Empowerment Fund, (ii) the Single Regeneration Budget and (iii) urban regeneration companies. [163655]

Yvette Cooper: Community Empowerment Fund Budget allocations for the Community Empowerment Fund are tabled as follows, broken down by English region:

Budget allocation to community empowerment fund

£

Region	2003–04	2004–05	Total
East	228,033	228,033	456,066
East Midlands	905,245	905,245	1,810,490
London	2,654,485	2,654,485	5,308,970
North East	1,824,502	1,824,502	3,649,004
North West	2,967,301	2,967,301	5,934,602
South East	436,573	436,573	873,146
South West	465,082	465,082	930,164
West Midlands	1,132,771	1,132,771	2,265,542
Yorks and Humber	1,386,008	1,386,008	2,772,016
All regions total	12,000,000	12,000,000	24,000,000

Single Regeneration Budget

In 2001, the Single Regeneration Budget was subsumed into the Regional Development Agencies (RDAs) Single Programme ('Single Pot') from which RDAs will continue to fund existing SRB commitments. The Office of the Deputy Prime Minister's planned contribution to the RDA's Single Pot is £1,456 million for 2004–05 and £1,513 million for 2005–06, totalling £2,959 million over the two year period.

Urban Regeneration Companies (URCs)

Funding allocations for capital projects in each URC are not held centrally and the Office of the Deputy Prime Minister does not fund urban regeneration companies directly. Each URC has its own set of funding partners, which finance the company. Budget allocations from the regional development agencies and English Partnerships, for the 2004–05 running costs of each URC, are set out in my written answer of 4 March 2004, *Official Report*, column 1108W. Allocations for 2005–06 will be of a similar order.

Departmental Buildings

Mr. Laws: To ask the Deputy Prime Minister (1) if he will list the *(a)* address and *(b)* latest valuation of his Department's London-based building assets; and if he will make a statement; [156597]

(2) what his latest estimate is of the value of the Queen Elizabeth II Conference Centre in London; and if he will make a statement. [156598]

Yvette Cooper: The Office of the Deputy Prime Minister has two building assets in London, Burlington House, Piccadilly and the Queen Elizabeth II Conference centre. Although the latter is operated by an Agency of the Office, the building is held as an asset centrally.

The central block of Burlington House is owned freehold by the Office of the Deputy Prime Minister and is let on a long lease to the Royal Academy. It has a balance sheet value of nil.

The Quadrangle Buildings at Burlington House are also owned freehold, and are occupied by Learned Societies. The Office of the Deputy Prime Minister envisages the continued presence of those Societies at Burlington House and discussions are continuing with them with a view to finalising the arrangement. The balance sheet value of the buildings is £1.35 million.

The current book value of the Queen Elizabeth II Conference Centre building is £24 million. This was derived through annual indexation changes to a full independent valuation of £20 million as at 1 April 1999. The building is due to be re-valued as at 1 April 2004.

Government Publicity

Mr. Grieve: To ask the Deputy Prime Minister what assessment he has made of whether the leaflets *(a)* A new opportunity for Yorkshire and the Humber, *(b)* A new opportunity for the North West and *(c)* A new opportunity for the North East meet the criteria of the guidance on Government publicity and advertising; and if he will make a statement. [163657]

Mr. Raynsford: The information campaign to inform the public of the Government's intention to hold referendums in the three regions is being conducted in accordance with the requirements of the Guidance on the Work of the Government Information Service. The Office of the Deputy Prime Minister is satisfied that both the text and the design of all three leaflets meet the criteria of this guidance.

Mr. Grieve: To ask the Deputy Prime Minister whether his Department sought the opinion of the Electoral Commission before publishing the leaflets *(a)* A new opportunity for the North, *(b)* A new opportunity for the North West and *(c)* A new opportunity for Yorkshire and the Humber. [163658]

Mr. Raynsford: No. We are however in regular contact with the Electoral Commission on all matters relating to referendums on elected regional assemblies that are within their remit.

Housing Bill Consultation

Lynne Jones: To ask the Deputy Prime Minister if he will list those respondents to the consultation on the Draft Housing Bill who were *(a)* in favour of and *(b)* against the requirements for local authorities to seek ministerial consent before introducing (i) additional licensing of houses in multiple occupation and (ii) designating an area for selective licensing. [163682]

Keith Hill: The following consultees were:

(a) in favour of the requirements to seek Ministerial consent before introducing additional licensing of houses in multiple occupation: Universities UK; British Property Federation;

(b) against such requirements: Nottingham city council;

(c) in favour of the requirement to seek Ministerial consent before designating an area for selective licensing: North East Housing Forum; Brian Butler Esq.; Universities UK; British Property Federation;

(d) against such requirements: Gateshead Metropolitan borough council; Greenwich London borough council; Reading borough council.

Housing Management/Maintenance Allowance

Mr. Gardiner: To ask the Deputy Prime Minister (1) if he will assess the difference between the level of housing management and maintenance allowance for Brent council in 2003–04 calculated using national crime statistics and the level using more local crime statistics; [163362]

(2) for what reason crime levels used in the calculation of housing management and maintenance allowances are county-wide figures; and if he will use more local figures in such calculations; [163365]

(3) what assessment has been made of the impact of the new arrangements for housing management and maintenance allowances on the Government's child poverty strategy; [163370]

(4) if he will reflect the costs of administering a housing service to areas with high ethnic minority populations in the formula used to calculate management and maintenance allowances; [163371]

(5) if he will amend the management and maintenance allowance for housing revenue accounts to take account of overcrowding. [163372]

Keith Hill: The Office of the Deputy Prime Minister made proposals to revise the calculation of management and maintenance allowances within Housing Revenue Account subsidy in a consultation paper published in July 2003. Following consultation the new methodology was adopted for 2004–05 and onwards.

The research underlying the proposals found that crime levels were a significant driver of an authority's relative need to spend. Although the original proposal was to use county-wide crime figures, respondents to the consultation suggested that appropriate figures were available at individual local authority level. In the calculation of the allowances for 2004–05, the Office of the Deputy Prime Minister therefore calculated a relative crime rate for each individual local authority by comparing the recorded crime figures at the local and national level. County level figures were not used. The Office of the Deputy Prime Minister plans to continue to use local authority level relative crime rates in future years.

The management and maintenance allowances for 2003–04 did not use the new methodology and therefore did not include any crime figures. As both the national and local figure feeds into the calculation for 2004–05, it is not possible to compare the difference between allowances using either one of these figures. Using the methodology as outlined, the combined allowance for Brent for 2004–05 after transitional protection is £1,892.85 per dwelling.

With data currently available, it is not possible to assess the direct impact of the new arrangements on the Government's Child Poverty Strategy. However, the new methodology is widely recognised as achieving a better allocation of resources across all authorities, and the overall increase in resources for local authority management and maintenance has been welcomed as recognising the important role that housing management plays in meeting a number of the Government's priorities.

In discussions with the local authority associations, the extra costs associated with administering a housing service in areas with high ethnic minority populations were cited as costs of dealing with the consequences of racial harassment and also translation and interpretation costs. The use of the local recorded crime rate is intended to cover issues around the former. It was not possible to include the latter as there is a lack of robust data both on the numbers of languages spoken in each authority and on the actual size of the additional costs incurred.

There are no plans to review the allowances to take account of overcrowding.

Local Authority Standards Committees

Mr. Gardiner: To ask the Deputy Prime Minister whether central funding is available for training for members of local authority standards committees. [163375]

Mr. Raynsford: The Office of the Deputy Prime Minister funds the Standards Board for England, one of whose roles is to issue guidance to authorities on matters relating to the conduct of members of authorities. The Board has produced a range of guidance to assist members of standards boards to carry out their role. The aim is for local authorities to base the training they provide to members on guidance and advice from the Standards Board.

Mr. Gardiner: To ask the Deputy Prime Minister what assessment has been made of the training offered to members of local authority standards committees. [163376]

Mr. Raynsford: Recent research commissioned by the Standards Board for England, one of whose roles is to issue guidance to authorities on matters relating to the conduct of members of authorities, has indicated a high level of satisfaction with the guidance and advice provided by the Board. For example, 82 per cent. of people questioned said they were very or fairly satisfied with the published information and guidance.

Local Government Grants

Matthew Green: To ask the Deputy Prime Minister what average percentage of the total expenditure of *(a)* county, *(b)* district, *(c)* metropolitan and *(d)* London authorities was spent on the Local Government Pension Scheme in the last year for which figures are available. [162716]

Mr. Raynsford: For all local authorities in England, it is estimated that 2.2 per cent. of net current expenditure in 2001–02 was on employers' pension contributions to pension schemes other than the teachers, police and fire schemes. Most of this expenditure will be on the Local Government Pension Scheme.

23 local authorities, where authorised, also made payments to pension schemes from capital funds under section 40(6) of the Local Government and Housing Act 1989. This amounted to 1.3 per cent. of total capital expenditure and other transactions in 2001–02.

Information by class of authority is not held centrally and could be provided only at disproportionate cost.

Local Government Statutory Officers

Mr. Nigel Jones: To ask the Deputy Prime Minister when he last reviewed the disciplinary process for local government statutory officers; and if he will make a statement. [162879]

Mr. Raynsford: The arrangements under which a council handles any allegation of misconduct by its head of paid service, monitoring officer or chief finance officer were last amended in 2001. We have no plans to review them.

Mr. Nigel Jones: To ask the Deputy Prime Minister how many local government statutory officers have been *(a)* suspended and *(b)* dismissed in each year since the current disciplinary processes were enacted; and if he will make a statement. [162886]

Mr. Raynsford: The information requested is not held centrally, and could be provided only at disproportionate cost.

Mr. Nigel Jones: To ask the Deputy Prime Minister under what circumstances a local government statutory officer can be *(a)* suspended and *(b)* dismissed; and if he will make a statement. [162887]

Mr. Raynsford: The Local Authorities (Standing Orders)(England) Regulations 2001 set out the arrangements for councils to handle allegations of misconduct by their head of paid service, monitoring officer or chief finance officer. These arrangements provide that no disciplinary action (apart from suspension in order to allow investigation of the allegation) may be taken by a local authority in respect of such officers other than in accordance with a recommendation in a report made by an independent person appointed under the Regulations to investigate the allegation. If the authority does suspend the officer it must be on full pay and may only be for a maximum period of two months. The independent person may, once appointed, choose to extend the period of suspension if he feels it necessary to enable him to carry out his investigation.

Mr. Nigel Jones: To ask the Deputy Prime Minister what the *(a)* average and *(b)* longest elapsed times between initiation of the disciplinary process and (i) suspension and (ii) dismissal in cases involving local government statutory officers has been since the current regulations were enacted; and if he will make a statement. [162888]

Mr. Raynsford: The information requested is not held centrally, and could be provided only at disproportionate cost.

Parliamentary Questions

Mr. Brady: To ask the Deputy Prime Minister how many days on average his Department took in Session 2002–03 to give a substantive answer to a parliamentary Question for Ordinary Written Answer; and what the greatest number of days taken to answer such a Question was. [155914]

Yvette Cooper: The effective handling of parliamentary questions is an issue to which my right hon. Friend the Deputy Prime Minister and ministerial colleagues attach great importance. In the Session 2002–03, the Office of the Deputy Prime Minister answered 72.3 per cent. of its Ordinary Written Questions on time. The information requested is not held in the form requested and could be provided only at disproportionate cost.

Regional Policy

Ann Winterton: To ask the Deputy Prime Minister whether the Government's financial guarantee for the regions post-2006 is dependent on the UK proposals for an EU framework for devolved regional policy being implemented. [163716]

Mr. Raynsford: The Government stated in its consultation document "A modern regional policy for the United Kingdom" March 2003 that the guarantee would apply

> "If the Government's proposed framework for EU policy were agreed[1]."

[1] Page iv, foreword.

South East England Development Agency

Mr. Andrew Turner: To ask the Deputy Prime Minister pursuant to the answer to the hon. Member for Isle of Wight, of 10 March 2004, *Official Report*, columns 1524–26W, on the South East England Development Agency, if he will provide equivalent information for each preceding period of 12 months since 1998; and if he will list the new businesses created through such programmes. [163572]

Mr. Raynsford: I will write to the hon. Member as soon as the information is collated and will make a copy of the letter available in the Library of the House

Tetra

Norman Lamb: To ask the Deputy Prime Minister if he will investigate MM02 Airwave's activities in relation to the installation of Tetra masts for police communications. [161248]

Yvette Cooper: Parliament has entrusted local planning authorities with the responsibility for day-to-day planning control in their areas.

If there is concern that a local planning authority has not acted properly in a particular case it is possible to ask the Local Government Ombudsman to investigate whether there has been maladministration. However, it is advisable to put any complaints to the local authority's monitoring officer (through the Chief Executive's Office, if necessary) in the first place, so that the authority has the chance itself to resolve the complaint.

HEALTH

Soya Contamination

Joan Ruddock: To ask the Secretary of State for Health what assessment he has made of the research carried out by Professor Denis Murphy of the Biotechnology Unit of Glamorgan University into the contamination of UK soya products by GM soya. [162175]

Miss Melanie Johnson: The Food Standards Agency (FSA) has noted the research carried out by Glamorgan University and the conclusions drawn by Professor Murphy. The FSA published a similar survey on the genetically modified content of foods in 2002. This survey showed a small number of products contained low levels of genetically modified material.

The FSA supports practical and enforceable labelling of genetically modified ingredients to ensure that consumers are not misled.

Care Homes

Tim Loughton: To ask the Secretary of State for Health for what reason inspection reports on care homes by the National Care Standards Commission (NCSC), together with subsequent responses by care home owners, are not published in full on the NCSC website. [162920]

Dr. Ladyman: The National Care Standards Commission (NCSC) publishes the reports of its inspections in full on its website. Responses from providers are included wherever possible, although there have been difficulties in uploading this information onto the NCSC's computer system. The website makes it clear that provider comments are available from the NCSC office that originated the inspection or from the provider directly.

Weil's Disease

Mr. Paul Marsden: To ask the Secretary of State for Health how many *(a)* farmers, *(b)* members of farming families and *(c)* farm workers were reported as suffering from Weil's disease in each year since 1997. [161550]

Miss Melanie Johnson: Weil's disease is a serious infection with leptospiral bacteria. Not all leptospiral infections will result in the development of Weil's disease. Data collected include, but do not distinguish between farmers and their family members. The figures for all laboratory-confirmed reports of leptospiral infections in England and Wales since 1997 are set out as follows. Figures are not yet available for 2003.

	Total Leptospirosis human infections	*Infections in farmers (including family members)*	*Infections in farm workers*
1997	39	7	4
1998	29	8	4
1999	41	3	5
2000	54	14	5
2001	27	5	3
2002	[1]47	10	3

[1] Data are provisional

Health Protection Agency Communicable Disease Surveillance Centre 1997–2002

Ashford (Middlesex) Hospital

Mr. Wilshire: To ask the Secretary of State for Health when the accident and emergency department at Ashford (Middlesex) Hospital was closed and replaced by an emergency department; and what the difference between the two facilities is. [160367]

Ms Rosie Winterton: The accident and emergency (A and E) department at Ashford Hospital has not been closed. It remains open 24-hours a day accepting a wide range of medical and surgical emergencies. However, in October 2000 one group of seriously injured patients, those with trauma injuries, were diverted to St. Peter's Hospital, to reflect the concentration of specialist trauma care at St. Peter's.

The diversion from Ashford Hospital to St. Peter's Hospital was made to improve further clinical outcomes for trauma patients and at the same time the trust renamed the A and E department in Ashford Hospital to 'emergency department'.

There is a standard departmental classification system for A and E departments. Ashford Hospital's A and E rating is unchanged. It remains a type 1 A and E, which is a major multi-specialty consultant led 24-hour service, with full resuscitation facilities and designated accommodation for the reception of accident and emergency patients.

Classification does not depend on the name of the service. This is, within certain rules, a matter for the local health service. The official description remains A and E but emergency department is increasingly used as a local alternative.

Cancer Research

Mr. Barnes: To ask the Secretary of State for Health if he will list for *(a)* breast cancer, *(b)* cervical cancer and *(c)* cancer of the prostate, (i) the number of cases diagnosed, (ii) the number of recorded cases and (iii) the amount of Government money spent on research in financial year 2003–04. [162435]

Miss Melanie Johnson: The latest available figures of new cases of cancer diagnosed in England are for 2000. In that year a total of 34,045 new cases of breast cancer, 2,424 new cases of cervical, cancer and 23,109 new cases of prostate cancer were recorded.

Figures for government expenditure on research on specific types of cancer are not available. However analysis carried out in 2002 by the National Cancer Research Institute (NCRI), which co-ordinates research activity among government bodies, charities and the pharmaceutical industry, indicates that of the combined spend that was available for analysis, around 40 per cent. was attributable to specific tumour sites. Approximately 18 per cent. was on breast cancer, approximately 4 per cent. on cervical cancer and approximately 8 per cent. on prostate cancer. This does not include national health service research and development support funding.

Prostate cancer is the only cancer that has a Department of Health funding target for research, of £4.2 million a year by the end of 2003–04, and we are on track to achieve this target.

Cardiac Care

Mr. Hancock: To ask the Secretary of State for Health (1) what plans he has to *(a)* extend the National Service Framework to cover cardiac arrhythmias and *(b)* set targets for their diagnosis and treatment; [162804]

(2) if he will make representations to the National Institute for Clinical Excellence that its appraisal of pacemakers *(a)* examines utilisation rates and *(b)* takes into account the views of the British Cardiac Society. [162807]

Miss Melanie Johnson: On 12 March the Government announced the establishment of an expert group to advise the Department of Health on future policy on sudden cardiac death and cardiac arrhythmia.

This could lead to the drafting of a new national service framework (NSF) chapter setting out the standards and models of care for these conditions. The group will be chaired by the National Clinical Director for Heart Disease, Dr Roger Boyle with voluntary and professional organisations including Cardiac Risk in the Young (CRY) and the British Cardiac Society being invited to join. Patients and families of patients will also have a strong voice in the work.

The British Cardiac Society are one of the many professional groups contributing to the ongoing National Institute for Clinical Excellence (NICE) appraisal of their 2000 guidance on the use of implantable cardioverter defibrillators for arrhythmias. The 2000 report provided guidelines for utilisation rates, and any further recommendations will be made using the best evidence available. NICE are also conducting an appraisal on dual chamber pacing to assess the clinical and cost effectiveness of dual chamber pacemakers compared with single chamber pacemakers, and both appraisals will feed in to the work of the newly-formed group.

Child Obesity

Mr. Ben Chapman: To ask the Secretary of State for Health what involvement the NHS had in the health day organised by the Wirral and Deeside Standing Conference of Women's Organisations on ways to tackle children's obesity on 26 February; and if he will make a statement. [162512]

Miss Melanie Johnson: The information requested is not collected centrally.

Chlamydia

Phil Sawford: To ask the Secretary of State for Health how many people have taken part in the chlamydia screening programme since it was launched. [161370]

Miss Melanie Johnson: The phased implementation of the national chlamydia screening programme began in April 2003. Our estimate is that over 23,000 tests have occurred during 2003. Establishing local programmes does take time and some areas have only recently started screening. We therefore expect numbers of tests carried out to rise considerably in 2004.

Community Health Councils

Mr. Truswell: To ask the Secretary of State for Health where the archives of the former Leeds Community Health Council have been lodged; and how they may be accessed by hon. Members. [162860]

Ms Rosie Winterton *[holding answer 23 March 2004]*: The archives of the former Leeds Community Health Council are stored with the West Yorkshire Archive Service, Chapletown Road, Sheepscar, Leeds LS7 3AP. Access can be arranged by contacting the archive service.

Community Pharmacists

Mr. Burstow: To ask the Secretary of State for Health if he will set out the *(a)* time scale, *(b)* funding and *(c)* content of his Department's plans to integrate community pharmacists into the national IT programme. [158960]

Mr. Hutton: The initial time scale, funding and objectives of the Department's plans for the national programme for information technology in the national health service (NPfIT) were set out in the strategy document, "21st century IT", published in June 2002.

The key objective of the NPfIT is to support, over time, the delivery of integrated health and social care by enabling appropriate access to records and improved storage, sharing and management of core data by all clinicians—including community pharmacists—involved in the delivery of care to the patient, subject to confidentiality and security safeguards and the informed consent of the patient.

We have redefined the scope of the electronic transmission of prescriptions (ETP) programme in order to support the wider pharmacy agenda. It will enable better use of pharmacists' skills and use them to provide patient centred healthcare services that are integral to the NHS.

The ETP programme will enable the commitments made in "Delivering 21st Century IT" to be taken forward and will provide support for the broader pharmacy agenda outlined in "Pharmacy in the Future" and "A Vision for Pharmacy in the New NHS".

Key elements of the electronic transmission of prescriptions system have been procured as part of the recently concluded NHS care records service procurements. Work is under way to plan how community pharmacies can be connected to the system and how their pharmacy computer systems can be upgraded to comply with the requisite technical specification. It is intended that deployment of the live system will commence from January 2005.

Complementary Medicines

Mr. Sheerman: To ask the Secretary of State for Health what his Department's policy is on the availability of complementary medicines through the NHS. [162042]

Miss Melanie Johnson: National health service access to complementary therapies is at the discretion of individual trusts and clinicians. A formal mechanism for commissioning primary medical services from a variety of providers will be available to primary care trusts from 1 April. This could be used to commission clinically-appropriate and cost-effective complementary therapies to help meet the needs of the local community.

Consultant Neurologists

Mr. Baron: To ask the Secretary of State for Health what the *(a)* minimum and *(b)* maximum waiting times were for initial access to consultant neurologists in each strategic health authority in England, in the last year for which figures are available. [162229]

Mr. Hutton *[holding answer 18 March 2004]:* Information on the number of patients waiting for a first out-patient appointment to neurology specialties at quarter end has been placed in the Library. Information is not collected on the number still waiting less than 13 weeks. The information is aggregated at strategic health authority level but is based on national health service providers in England and includes some patients commissioned by Welsh local health boards.

Consultant Nurses

Laura Moffatt: To ask the Secretary of State for Health how many consultant nurse specialists are working in elderly care in the NHS. [163338]

Mr. Hutton *[holding answer 24 March 2004]*: The information requested is not separately available; consultant nurse specialists in elderly care are included with consultant nurses in the acute, elderly and general area of work. As at September 2003, there were 235 consultant nurses in the acute, elderly and general area of work, an increase of 37 per cent. over the previous year.

Contraceptive Services

Mr. Burstow: To ask the Secretary of State for Health (1) whether general practices will be able to opt out of providing contraceptive services; [162155]

(2) what forms of contraception may be prescribed in NHS walk-in centres; [162178]

(3) what forms of contraception are available over the counter; and what plans he has to extend this range; [162179]

(4) what powers pharmacists have to prescribe contraception; and what plans he has to change this. [162185]

Miss Melanie Johnson: General practices have always had the ability to decide whether or not to provide contraceptive services for their patients. Under the new general medical services (GMS) contract they will have to follow procedures to opt out of providing contraception as an additional service and, where they do so, for the first time primary care trusts will be responsible for securing alternative provision for patients affected.

National health service walk-in centres can provide emergency hormonal contraception as part of their core services and may also provide condoms. They exist to provide one-off episodes of care and quick access to advice and treatment for minor ailments and injuries. Therefore, it is not appropriate for them to prescribe regular methods of contraception which require follow up and repeat prescriptions.

Forms of contraception available over the counter are emergency hormonal contraception; male and female condoms, other female barrier methods (including the diaphragm or cap), spermicides and fertility devices. There are no plans currently to extend this range.

Some pharmacists are supplying emergency hormonal contraception under patient group directions which require pharmacists to satisfy certain criteria before supplying these medicines. Also, some pharmacists have undergone an approved training programme to qualify as supplementary prescribers. Under such arrangements the supplementary prescriber is able to prescribe medicines for an individual patient following diagnosis by a doctor as part of a clinical management plan agreed with the patient. Pharmacists could, under these arrangements, prescribe oral contraceptives.

Eye Tests (Crosby)

Mrs. Curtis-Thomas: To ask the Secretary of State for Health (1) how many residents in Crosby aged over 60 years have benefited from the abolition of charges for eye tests; [160389]

(2) how many senior citizens in Crosby have access to free eye tests. [160534]

Miss Melanie Johnson: The information requested is shown in the following table.

General Ophthalmic Services: Number of sight tests paid for by Sefton Health Authority for the years ending 31 March 2000-03

Year ending	*Sight tests for aged 60 and over*[1]	*All sight tests*
31 March 1999	—	42,210
31 March 2000	21,830	57,070
31 March 2001	24,320	58,850
31 March 2002	24,220	58,400
31 March 2003	26,140	55,730

[1] From 1 April 1999, all patients aged 60 and over were included in the group eligible for NHS sight tests. From October 2002, primary care trusts took over the responsibility from health authorities. Sefton Health Authority became South Sefton PCT and Southport and Formby PCT. The data for the PCTs has been added to give 2003 data

SBE515, Department of Health.

General Practitioners

Miss McIntosh: To ask the Secretary of State for Health what assessment he has made of the impact on *(a)* accident and emergency units, *(b)* the ambulance service and *(c)* NHS Direct of the new general practitioner contracts from 1 April. [162264]

Mr. Hutton: The new contract for general medical services will enable strategic health authorities and primary care trusts to commission more integrated unscheduled care services, bringing together providers of primary medical services, NHS Direct, ambulance trusts and other providers to enhance the delivery of high-quality, continuous and holistic care.

Mr. George Osborne: To ask the Secretary of State for Health what estimate he has made of the total cost to the NHS of general practitioner services in the last recorded year. [158265]

Mr. Hutton: The table shows total general medical services (GMS) and personal medical services (PMS) expenditure for the financial year 2002–03.

GMS and PMS expenditure, England 2002–03

£000

	Strategic Health Authority expenditure	Primary Care Trust expenditure	Total expenditure
GMS discretionary	989	863,371	864,360
GMS non discretionary	1,116,722	951,003	2,067,725
PMS	3,607	1,148,179	1,151,786
Total	1,121,318	2,962,553	4,083,871

Sources:

1. Strategic Health Authority Audited Summarisation Forms.
2. Primary Care Trust Audited Summarisation Schedules.

Genetically Modified Foods

Joan Ruddock: To ask the Secretary of State for Health what assessment he has made of the recent report published by the British Medical Association "Genetically modified foods and health: a second interim statement". [162174]

Miss Melanie Johnson: In assessing the safety of genetically modified foods the Food Standards Agency ensures that the most up to date scientific knowledge is taken into account. The agency regularly reviews its research programme to ensure that gaps in scientific knowledge are addressed and has noted the points raised in the recent report by the British Medical Association where additional areas of research have been identified.

Getting Ahead of the Game

Dr. Murrison: To ask the Secretary of State for Health which of the action plans announced in his report Getting Ahead of the Game in January 2002 have been produced; when he intends to publish them; and if he will make a statement. [161139]

Miss Melanie Johnson *[holding answer 15 March 2004]:* The Department's infectious diseases strategy is entitled "Getting Ahead of the Curve" and identified four serious infectious disease problems requiring intensified or new control measures—health care associated infection, tuberculosis (TB), antimicrobial resistance and blood-borne and sexually transmitted viruses (HIV/AIDS, hepatitis B and hepatitis C).

The action plans for healthcare associated infection and antimicrobial resistance have been encompassed within the Government's recent policy document "Winning Ways—Working to Reduce Healthcare Associated Infection in England", published in December 2003 and available at http://www.publications.doh.gov.uk/cmo/hai/winningways.pdf.

The TB action plan that will be published in the next few months.

"The National Strategy for Sexual Health and HIV Implementation Action Plan" was published in June 2002 and is available at http://www.dh.gov.uk/assetRoot/04/01/95/90/04019590.pdf. A hepatitis C action plan to implement our consultation paper, "Hepatitis C Strategy for England", will be published in the next few months. We are keeping under review the need for a specific action plan on hepatitis B.

Health Development Agency

Mr. Burstow: To ask the Secretary of State for Health pursuant to the Answer of 7 January 2004, *Official Report*, column 393W, on the Health Development Agency, what the level of income from sources other than government is; and what the sources are. [159157]

Miss Melanie Johnson: The information requested is shown in the table.

Health development agency income from non central Government sources

£ thousand

Source/Purpose	2000–01	2001–02	2002–03
Income from rent of premises to Electoral Commission	0	597	93
Policy and Communications	0	29	0
Transport and health	0	0	5
PCTs and Has	0	0	3
Income for overseas (European) work and other fees	610	512	399
Publications and merchandise and miscellaneous	87	54	87
Conference income	0	21	110
Total	697	1,213	697

Mr. Jenkins: To ask the Secretary of State for Health what action he is taking to improve the effectiveness of the Health Development Agency. [160075]

Miss Melanie Johnson: The effectiveness of the Health Development Agency is kept under regular review as part of the annual ministerial accountability review process.

Health Funding

Mr. Hoyle: To ask the Secretary of State for Health if he will make additional funding available to areas of continued population growth. [157675]

Mr. Hutton: Changes in primary care trust population figures will be taken into account for the next round of allocations. Preparatory work will begin later in the year.

Health Services

Mr. Hoyle: To ask the Secretary of State for Health how much has been spent on *(a)* cancer care and *(b)* heart disease in Lancashire in each of the last five years; and how many people from Chorley benefited. [161592]

Miss Melanie Johnson: This information is not collected centrally. Allocation of funding for particular treatments is a matter for the primary care trusts involved.

Mr. Hoyle: To ask the Secretary of State for Health if he will make a statement on the future of accident and emergency at Chorley Hospital. [161609]

Miss Melanie Johnson: The Lancashire Teaching Hospitals National Health Service Trust offers a 24 hour accident and emergency service at the Chorley and South Ribble District General Hospital. There are no plans to change this.

Mr. Hoyle: To ask the Secretary of State for Health how many medical beds there have been in Chorley Hospital in each year since 1997. [161588]

Miss Melanie Johnson: Information on beds is collected on a provider basis from national health service organisations and not on a constituency basis. Lancashire Teaching Hospitals NHS Trust opened in 2002–03. It was formed from the merger of the following trusts, Chorley and South Ribble NHS Trust (acute services) and Preston Acute Hospitals NHS Trust.

Relevant available Information on beds for the Lancashire Teaching Hospitals NHS Trust and Chorley and South Ribble NHS Trust is shown in the following tables.

Average daily number of available beds, by sector, Chorley and South Ribble NHS Trust, 1996–97 to 2002–03

	All specialties (excluding day only)	*General and Acute*	*Acute*	*Geriatric*	*Mental illness*	*Learning disability*	*Maternity*	*Day only*

Mrs. Curtis-Thomas: To ask the Secretary of State for Health whether there is a diagnostic and treatment centre located in Crosby. [160435]

Miss Melanie Johnson: There are no treatment centres in Crosby. However, a treatment centre is located at the Aintree Hospital National Health Service Trust and one is due to become operational at the Southport and Ormskirk NHS Trust by the end of 2004.

Mrs. Curtis-Thomas: To ask the Secretary of State for Health how much public funding has been spent on health in Crosby in each of the last seven years. [160439]

Miss Melanie Johnson: Public funding and expenditure figures are not collected on a constituency basis. Information is provided by health authority area from 1996–97 to 2001–02 and by strategic health authority area for 2002–03.

The expenditure is the total expenditure by the relevant health authorities for 1996–97 to 2002–03, and includes the commissioner costs of the relevant primary care trusts for 2000–01 to 2002–03.

The information requested is shown in the table.

Total expenditure by health authority area

£000

	Sefton Health Authority	*Cheshire and Merseyside Strategic Health Authority*
1996–97	197,282	n/a
1997–98	179,155	n/a
1998–99	196,688	n/a
1999–2000	225,349	n/a
2000–01	310,887	n/a
2001–02	331,929	n/a
2002–03	n/a	2,755,985

Note:
2002–03 data remain provisional.

3. Strategic health authority audited summarisation forms 2002–03.
4. Primary care trust audited summarisation schedules 2000–01 to 2002–03.

Healthy Living Programmes

Mr. Burstow: To ask the Secretary of State for Health pursuant to the answer of 7 January 2004, *Official Report*, column 393W, on healthy living programmes, when the Tavistock Institute evaluation will be *(a)* completed and *(b)* published. [159030]

Miss Melanie Johnson: The fieldwork for the Tavistock Institute evaluation is due to be completed in late 2004 with a published report in 2005. Interim findings are already available on the New Opportunities Fund website at www.nof.org.uk.

Household Goods (Chemicals)

Mr. Lazarowicz: To ask the Secretary of State for Health what assessment he has made of the impact on human health of man-made chemicals found in household goods, with particular reference to *(a)* perfluorinated compounds, *(b)* phthalates, *(c)* phenolic compounds and *(d)* brominated flame retardants; and what measures the Government plans to protect human health against the dangers posed by such chemicals. [159467]

Miss Melanie Johnson: The Existing Substances Regulation (ESR) is European-wide legislation which required any manufacturer or importer of a chemical into the European Union to submit data to the European Commission. Substances were prioritised and have undergone comprehensive risk assessment, addressing both the human health and the environmental hazards and risks. Several chemicals from the phthalate, phenolic compounds, and brominated fire retardant groupings have been assessed, or are currently undergoing risk assessment. Those that have been agreed by Member States are publicly available on the website of the European Chemicals Bureau at http://ecb.jrc.it/existing-chemicals). In a number of cases, cross-European marketing and use restrictions have been introduced as a result of these assessments.

Following the voluntary withdrawal from the market by the major producer of perfluorooctane sulphonate (PFOS), a hazard assessment of this chemical was undertaken under the auspices of the Organisation for Economic Coperation and Development (OECD);this is available on the OECD website at www.oecd.org/dataoecd/23/18/2382880.pdf. This is now being followed up by the United Kingdom with a risk reduction strategy which aims to look at the remaining uses of PFOS and how they can be phased out.

In addition, information on the hazardous properties and the safe use of chemicals in household goods is governed by the Chemicals (Hazard Information and Packaging for supply) Regulations 2002. These Regulations require that manufacturers must assess a chemical product for its health effects. If dangerous, the product must be labelled with a warning symbol and phrases indicating the dangers. The particular chemical(s) which cause the product to be classified must be named on the label. The Regulations also require that all potentially dangerous chemicals supplied to the public must be in packaging that is properly labelled and contains warnings about the potential hazards and giving advice on suitable precautions.

Other regulations for protecting the consumer are the Department of Trade and Industry's General Product Safety Regulations 1994 (GPSR), which implement the EC General Products Safety Directive (92159/EEC) and apply to all consumer products (or aspects of those products) that are not covered by specific European safety legislation. The GPSR requires manufacturers to ensure that products present no risk or only minimal risk compatible with the product's use. In other words, producers must first take steps to reduce the hazard as far as possible, then warn about any residual hazard(s) and give advice about the precautions that consumers should take when using the product.

Human Embryos

Mr. Amess: To ask the Secretary of State for Health what guidelines are laid down for the inspection of laboratories experimenting on human embryos. [162588]

Miss Melanie Johnson: The Human Fertilisation and Embryology Act 1990 permits research using human embryos for purposes only specified in the Act. Any establishment wishing to carry out such research must be awarded a licence to do so from the Human Fertilisation and Embryology Authority (HFEA), The HFEA's code of practice sets out the standards of conduct and practice expected of research establishments.

The HFEA inspects research establishments to ensure their compliance with the Act, the code of practice and the conditions of the research licence. Inspections are underpinned by the use of protocols specifically designed to guarantee consistency and thoroughness of a research inspection. These protocols are regularly reviewed by the HFEA to ensure they remain effective.

Lymphoedema

Mrs. Roe: To ask the Secretary of State for Health what guidelines are in place to ensure that non-cancer related lymphoedema patients, who do not have access to a lymphoedema clinic, receive appropriate compression garments as one of the recognised four cornerstones of lymphoedema treatment. [163173]

Dr. Ladyman: We have issued no specific guidance to hospital trusts and primary care trusts for the provision of compression garments to non-cancer related lymphoedema patients. Decisions on what treatments to offer to patients with lymphoedema are a matter for the clinicians in charge of their care.

Malnutrition

Simon Hughes: To ask the Secretary of State for Health how many elderly people were diagnosed as suffering from malnutrition in *(a)* Greater London, *(b)* each London borough and *(c)* England in each of the last five years; and what his Department's policy is for tackling malnutrition. [162387]

Miss Melanie Johnson *[holding answer 25 March 2004]:* Malnutrition is caused by an imbalance of nutrients, particularly energy intake which impacts on body weight. Eating a balanced diet and keeping physically active help people to maintain a healthy body weight.

The table shows the count of finished admission episodes for national health service hospitals in London over the last five years where the primary diagnosis is malnutrition and the age of admission was 65 plus. Data is available only by health authority of residence.

Finished admission episodes by health authority

Health authority of residence	*1998–99*	*1999–2000*	*2000–01*	*2001–02*	*2002–03*
Hillingdon	0	0	0	0	1
Kensington, Chelsea and Westminster	1	1	1	0	0
Enfield and Haringey	1	2	2	0	0
Redbridge and Waltham Forest	1	1	2	1	0

Hospital Episode Statistics (HES), Department of Health

In the "NHS Plan" (2000), the Government made a commitment to reduce under nutrition by developing a hospital nutrition policy to improve the outcome of care of patients by 2004. A number of measures and strategies are in place to manage, monitor and screen patients for under nutrition in hospitals, residential care and the wider community. Nutritional screening is recommended for the care of specific groups, such as those outlined in the "National Service Framework for Older People" (2001).

Medicines and Health Care Products Regulatory Agency

Tim Loughton: To ask the Secretary of State for Health how the information from the Yellow Card system is used by the Medicines and Healthcare Products Regulatory Agency. [162489]

Miss Melanie Johnson: The Committee on Safety of Medicines (CSM) and the Medicines and Healthcare products Regulatory Agency (MHRA) are responsible for monitoring the safety of medicines in the United Kingdom. Reports of suspected adverse drug reactions (ADRs) submitted by health professionals through the Yellow Card scheme are an important source of information regarding the safety of medicines in normal clinical practice.

The Yellow Card scheme primarily acts as an early warning system for the identification of previously unrecognised adverse reactions and also provides valuable information on recognised adverse drug reactions, allowing the MHRA/CSM to identify and refine the understanding of risk factors that may affect the clinical management of patients. The value of the scheme has been demonstrated many times and it has helped to identify numerous important safety issues. To date the MHRA/CSM has received more than 450,000 ADRs reports from the Yellow Card scheme.

In evaluating a possible drug safety issue, the Yellow Card data is typically considered in conjunction with relevant information from other sources such as clinical trial data, published studies, adverse drug reaction reports received from the pharmaceutical industry and data from other Regulatory Authorities.

Where necessary, to protect public health, the MHRA on the advice of CSM may take regulatory action to ensure the medicine is used in a way which minimises risk and maximises benefits to the patient. Possible actions include addition of a new side effect to the product information provided to prescribers and patients, and issuing warnings about groups of patients who should not be given the medicine. In rare circumstances, the MHRA may withdraw a medicine from the market, if the risks of a medicine in clinical use are greater than its potential benefits.

Information on adverse drug reactions is communicated to health professionals and patients by the MHRA/CSM through various routes including patient information leaflets and regular safety bulletins.

Meningitis

Diana Organ: To ask the Secretary of State for Health (1) what financial support his Department gives to the voluntary sector in providing continuing support for people affected by meningitis; [160779]

(2) what plans he has to grant section 65 moneys to the voluntary sector concerned with people affected by meningitis. [160780]

Miss Melanie Johnson: The Meningitis Trust received a Section 64 grant from the Department to fund the Home Visiting Service project. This project supports individuals and their families who have been affected by meningitis.

The total value of the grant awarded over three years is £83,100.

The Department is continuing to fund the Home Visiting Service project at the Meningitis Trust in 2004–05.

Mercury Healthcare

Mr. Wilshire: To ask the Secretary of State for Health pursuant to his answer of 2 March 2004, *Official Report*, column 861W, on Mercury Healthcare, if he will make a statement on the reasons why the Government decided to switch preferred bidder status from Mercury Healthcare to Capio UK in relation to the provision of a diagnostic treatment centre at Ashford Hospital, Middlesex. [162011]

Mr. Hutton: It was decided to switch preferred bidder status after careful consideration of the detailed contract requirements for the spine chain. This is a complex contract that incorporates different clinical specialties, casemix and locations and it is important that the provider matches the needs of the national health service in each area.

Microsoft

Dr. Pugh: To ask the Secretary of State for Health how much the NHS will spend in 2003–04 on the licensing of Microsoft products. [156894]

Mr. Hutton: The estimated spend for 2003–04 by the national health service on the licensing of Microsoft products is £53 million.

Dr. Pugh: To ask the Secretary of State for Health what steps are being taken to ensure that future ordering of proprietary software by the NHS ensures that the NHS will be able to purchase software from a wide range of suppliers at economic cost. [156895]

Mr. Hutton: The NHS Purchasing and Supply Agency and the Office of Government Commerce have put in place a framework contract for information technology products known as GCat. The contract offers a comprehensive range of software to the national health service, at competitive prices, from a number of proprietary software and specialist software resellers.

National Programme for IT

Mrs. Calton: To ask the Secretary of State for Health what assessment has been made of the possibility of the loss of patient data while new IT schemes under the National Programme for IT are being implemented. [159141]

Mr. Hutton: The national programme for information technology (NpfIT) is implementing a series of IT solutions to improve patient choice and the quality of patient treatment and care. Fundamental to this is the national health service care records service, that will enable patient care information to be accessed at the point of need anywhere in England.

In most cases, electronic patient records will be transferred from existing local IT systems and patient administration systems into the nationally available NHS care records service. This is not a new process and occurs at local level every time there is a system refresh or upgrade. Standard IT protocols allow for data to be regressed if problems are encotmtered during transfer to ensure that data is not lost and contracts with suppliers require data back ups to be taken regularly.

Mr. Yeo: To ask the Secretary of State for Health whether there is a facility in the National Programme for IT accredited systems for general practitioners to write free text notes on the patient in the electronic patient record. [160662]

Mr. Hutton: The facility to record free text is a mandatory requirement for accredited systems for general practice. It is also part of the functionality of the national health service national care records service and this facility will therefore be provided for in the future.

NHS (Charges for Overseas Visitors) Regulations

Sandra Gidley: To ask the Secretary of State for Health when the provisions of the NHS (Charges for Overseas Visitors) Regulations 1989 will come into force. [163612]

Mr. Hutton: The National Health Service (Charges to Overseas Visitors) Regulations 1989 came into force on 1 April 1989.

NHS Funding (Crosby)

Mrs. Curtis-Thomas: To ask the Secretary of State for Health how much public funding has been spent on *(a)* heart disease and *(b)* cancer care in Crosby in each of the last five years. [160388]

Miss Melanie Johnson: The information requested is not collected centrally. Allocations of funding for particular treatments are matters for the local primary care trust.

NHS Recruitment

Mr. Yeo: To ask the Secretary of State for Health in which overseas countries the NHS has advertised for staff to work in the UK in the last five years. [163103]

Mr. Hutton *[holding answer 22 March 2004]:* The Department does not collect this information centrally. The national health service are responsible for their own advertising. The Department has however advertised on behalf of the NHS in the following countries:

Asia
Australia
Austria
Belgium
Canada
Denmark
Germany
Greece
Finland
France
Hong Kong
India
Ireland
Italy
Luxembourg
Malta
Netherlands
New Zealand
Norway
Poland
Portugal
Singapore
South America
Spain
Sweden
Switzerland
United States of America
West Indies

Mr. Yeo: To ask the Secretary of State for Health what the budget is for recruitment advertising in foreign newspapers for NHS staff; and how many NHS trusts are paying for recruitment advertisements in such newspapers. [163104]

Mr. Hutton *[holding answer 22 March 2004]:* National health services trusts are responsible for their own recruitment both nationally and internationally and no data on the number of costs of their advertisements in the foreign media are held centrally.

NHS Trusts

Mr. Dorrell: To ask the Secretary of State for Health which NHS Trusts reported financial deficits for financial year 2002–03. [162059]

Mr. Hutton: The national health service trusts that reported deficits in 2002–03 annual accounts are listed in the table.

Ashford and St. Peter's Hospitals NHS Trust
Avon and Wiltshire Mental Health Partnership NHS Trust
Barnet and Chase Farm Hospitals NHS Trust
Barnet, Enfield and Haringey Mental Health NHS Trust
Berkshire Healthcare NHS Trust
Buckinghamshire Mental Health NHS Trust
Burnley Health Care NHS Trust
Dartford and Gravesham NHS Trust
Ealing Hospital NHS Trust
East Kent Community NHS Trust
East Kent Hospitals NHS Trust
East Sussex County NHS Trust
East Sussex Hospitals NHS Trust
Epsom and St. Helier NHS Trust
Essex Ambulance Service NHS Trust
Frimley Park Hospital NHS Trust
Good Hope Hospital NHS Trust
Isle of Wight Healthcare NHS Trust
Kettering General Hospital NHS Trust
Maidstone and Tunbridge Wells NHS Trust
Medway NHS Trust
Milton Keynes General Hospital NHS Trust
New Possibilities NHS Trust
Newcastle, North Tyneside and Northumberland Mental Health NHS Trust
North Bristol NHS Trust
North Cumbria Acute Hospitals NHS Trust
North West Surrey Mental Health NHS Partnership NHS Trust
Northern Birmingham Mental Health NHS Trust
Oxford Radcliffe Hospital NHS Trust
Princess Alexandra Hospital NHS Trust
Queen Mary's Sidcup NHS Trust
Robert Jones and Agnes Hunt Orthopaedic and District Hospital NHS Trust
Royal Berkshire and Battle Hospitals NHS Trust
Royal Cornwall Hospitals NHS Trust
Royal Free Hampstead NHS Trust
Royal Shrewsbury Hospitals NHS Trust
Royal Surrey County Hospital NHS Trust
Royal United Hospital Bath NHS Trust
South Buckinghamshire NHS Trust
South Manchester University Hospitals NHS Trust
Stoke Mandeville Hospital NHS Trust
The Princess Royal Hospital NHS Trust
The Royal West Sussex NHS Trust
United Bristol Healthcare NHS Trust
West Middlesex University NHS Trust
West Sussex Health and Social Care NHS Trust
Weston Area Health NHS Trust
Whittington Hospital NHS Trust
Wolverhampton Health Care NHS Trust
Worcestershire Acute Hospitals NHS Trust

Source:
2002–03 Audited NHS Trust Summarisation Schedules.

Non-consultant Career Grade Doctors (Dermatology)

Mr. Bruce George: To ask the Secretary of State for Health (1) what action his Department is taking to encourage the NHS to make wider use of non-consultant career grade doctors in dermatology; [161673]

(2) what action his Department is taking to reduce the number of non-consultant career grade redundancies in dermatology arising from the withdrawal of primary care trust funding. [161675]

Mr. Hutton: The Government are keen to maximise opportunities for doctors in the non-consultant career grades to utilise their skills to the full to the benefit of all. The Department's recent consultation document, "Choice and Opportunity", recommended a system of accreditation through which non-consultant career

grade doctors with formally recognised skills can work independently at the appropriate level. The introduction of a competency-based framework should facilitate the movement of doctors between specialties to support a more flexible medical work force.

Since 1997, the number of staff grade and associate specialist doctors in dermatology nationally has increased by 130 per cent.

Nursing Vacancies (Greater London)

Simon Hughes: To ask the Secretary of State for Health how many *(a)* hospital and *(b)* community nursing vacancies there are within each (i) primary care trust and (ii) strategic health authority in Greater London. [158436]

Mr. Hutton *[holding answer 3 March 2004]*: The information requested has been placed in the Library.

Paddington Basin Private Finance Initiative

Mr. Lansley: To ask the Secretary of State for Health how much has been spent on consultancy fees in relation to the Paddington Basin private finance initiative project for St. Mary's Paddington, the Royal Brompton and Harefield hospitals. [159303]

Mr. Hutton *[holding answer 5 March 2004]:* A total of £5.638 million has been spent to 31 December 2003 on advisers' fees for planning the Paddington Health Campus.

All consultants are appointed via the formal national health service tendering process.

Pathologists

Mr. Hancock: To ask the Secretary of State for Health how many vacancies there are for pathologists in each primary care trust area; and what plans he has for filling the vacant positions. [161968]

Mr. Hutton: The information requested has been provided by employing organisations, and has been placed in the Library.

The significant expansion in numbers of doctors in training within the pathology group (39 per cent. between September 1997 and September 2003) reflects a recognition that the pathology work force needs further expansion.

In 2003–04, histopathology was allocated 75 centrally funded Specialist Registrar training places, which was over 18 per cent. of the total number of centrally funded posts available. In 2004–05, there will be a further allocation of 37 centrally funded training places to histopathology and 20 further posts to the pathology group as a whole.

The Department continually monitors requirements for the whole work force, including pathology. Action is being taken to extend working lives by offering flexible retirement schemes and flexible employment opportunities.

Work is being taken forward to develop the roles of all staff within the pathology group in order to make the best use of professional skills and knowledge.

Pharmaceutical Packaging

Chris Grayling: To ask the Secretary of State for Health what rules apply to the use by a pharmaceutical manufacturer of tamper-proof packaging on a medical product; and if he will make a statement. [161970]

Ms Rosie Winterton: The regulations covering the packaging of medicinal products makes no reference to the use of tamper-evident presentations. Any decision to use such packaging is a commercial decision for the marketing authorisation holder, provided the safety, quality and efficacy of the medicine is assured.

Prisons (Mental Health)

Mr. Hammond: To ask the Secretary of State for Health if he will make a statement on prison mental health services. [156019]

Dr. Ladyman: By the end of March 2004 national health service mental health in-reach teams will be operating in 90 English prisons where the need is greatest for these services. These teams will include 300 additional staff to provide specialist community-type services to over 5,000 prisoners with serious mental health problems in accordance with the NHS Plan. Investment in NHS mental heath services in prisons will double to £20 million a year by 2005–06.

Public Health

Mr. Burstow: To ask the Secretary of State for Health what the *(a)* timetable and *(b)* budget for his Department's consultation on the Public Health White Paper is. [158536]

Miss Melanie Johnson: My right hon. Friend the Secretary of State for Health launched a consultation document entitled "Choosing Health?" on 3 March 2004. Consultation will close on 28 May. We will publish a White Paper in the summer.

The consultation process will be managed within existing budgets.

Mr. Burstow: To ask the Secretary of State for Health pursuant to the Answer of 27 January 2004, *Official Report*, column 331W, on public health, when his Department's discussions with strategic health authorities will be concluded. [159129]

Miss Melanie Johnson: Discussions with strategic health authority directors of public health about local public health reports are on-going.

Mr. Burstow: To ask the Secretary of State for Health pursuant to the Answer of 12 February 2004, *Official Report*, column 1697W, on Public Health Skills Audit, how the voluntary register is maintained; and what it contains. [159158]

Miss Melanie Johnson: The United Kingdom public health voluntary register is an independent register of public health professionals who can demonstrate that they meet the nationally agreed competencies to practise at specialist level in public health.

The register was established in May 2003 and is supported by all four departments of health in the UK and was commissioned by a multi-agency group

consisting of the Royal Institute of Public Health (RIPH), the Faculty of Public Health (FPH) and the Multidisciplinary Public Health Forum (MDPHF).

Further information is available on the register web site at www.publichealthregister.org.uk.

Rapid Access Chest Pain Clinics (Crosby)

Mrs. Curtis-Thomas: To ask the Secretary of State for Health how many rapid access chest pain clinics there are in Crosby. [160434]

Miss Melanie Johnson: There are no rapid access chest pain clinics in Crosby. Rapid access chest pain clinics are located at Aintree Hospital National Health Service Trust and Southport and Ormskirk NHS Trust.

Science Strategy

Dr. Iddon: To ask the Secretary of State for Health (1) what steps he has taken to enhance science in his Department, since the publication of the Government's science strategy, Investing in Innovation; [162252]

(2) how his Department's chief scientific adviser has ensured that the Department's scientific activities are well directed, as recommended in paragraph 7.11 of the Government's science strategy, Investing in Innovation, published in July 2002. [162483]

Miss Melanie Johnson: Since July 2002 the Department has continued to work with its partners to sustain and develop the science base, and to develop policies and practice based wherever possible on sound science and research. We are building substantial portfolios of research in priority areas including cancer, coronary heart disease, mental health, services for older people and health inequalities. In June 2003, the Genetics White Paper announced new investment in research initiatives to translate genetic discoveries into improved care.

The recent Budget report announced that the Government will work with the national health service, industry and the medical charities to strengthen clinical research in the United Kingdom. To support this work, the Department will increase the national health service funding for research and development by £100 million by 2008.

The functions of Department of Health chief scientific adviser are carried out jointly by the chief medical officer and director of research and development in their respective capacities. The Chief Medical Officer is a member of the departmental management board and is also advised on scientific matters by the Chief Scientist. Details of how the Department's scientific activities are directed are outlined in its science and innovation strategy, which is available on the Department's website at www.dh.gov.uk/research.

Sexual Health

Mr. Burstow: To ask the Secretary of State for Health (1) if he will estimate the extra costs associated with implementing in full the national screening programme for chlamydia immediately; [159729]

(2) what reasons underlie the decision not to implement throughout England a chlamydia screening programme until 2008; [159732]

(3) what estimate he has made of the number of chlamydia infections that will go unidentified before the national screening programme is fully implemented in 2008; [159733]

(4) if he will estimate the cost to the NHS of *(a)* infertility treatment and *(b)* other treatment relating to chlamydia infections over the next 50 years. [159772]

Miss Melanie Johnson: Reliable cost estimates of introducing the full chlamydia screening programme immediately are not available. The Government are committed to completing the screening programme for chlamydia at the earliest possible date.

We believe that the phased introduction of screening, in line with advice from the national screening committee, is the most effective way forward. Local areas need support in establishing the programme which involves organising screening across a network of services and ensuring that samples are sent to laboratories, positive results are sent to individuals and that treatment, partner notification and contact tracing are undertaken. In addition laboratory staff are being trained to use the more reliable molecular amplification test, which we are supporting across all the regions.

In just two years, the programme has been rolled-out to over a quarter of primary care trusts (PCTs) in England. The third phase of the programme will be launched this year, which will bring total coverage to one third of PCTs.

Estimates on future numbers of infections are not available. Estimates are also not available on the cost to the national health service of infertility and other treatment relating to chlamydia infection over the next 50 years.

Mr. Burstow: To ask the Secretary of State for Health pursuant to his answer of 1 March, *Official Report*, column 708W on sexual health, if he will provide total figures for England for each year. [159974]

Miss Melanie Johnson: The total number of teenagers (patients who were less than 20 years of age) treated for sexually transmitted diseases in genitourinary medicine (GUM) clinics in England from 1995 to 2002 are shown in the table.

Number of attenders at genitourinary medicine clinics in England aged less than 20 years with one or more of the following diagnoses: infectious syphilis, uncomplicated gonorrhoea, uncomplicated chlamydial infection, genital herpes (first attack) and genital warts (first attack)

Sex description	*1995*	*1996*	*1997*	*1998*	*1999*	*2000*	*2001*	*2002*
Female	14787	16949	19479	20979	23018	25225	27346	29795
Male	3986	4613	5664	6530	7768	9116	9694	11026
Total	18773	21562	25143	27509	30786	34341	37040	40821

Note:
The England totals shown here correspond to the total number of cases shown in the regional table given in the answer of 1 March, *Official Report*, column 708W. The strategic health authority data totals given in that answer differ from the regional data totals because these, and most of CDSC's other sexually transmitted disease data presentations, are calculated using an imputation method. Data below regional level are not imputed.
Data source:
Health Protection Agency, KC60 statutory returns from GUM clinics.

Sport

Mr. Reed: To ask the Secretary of State for Health what guidance his Department is giving to primary care trusts on how to raise levels of sport and physical activity to the Government target. [159954]

Miss Melanie Johnson: The national service framework for coronary heart disease and the NHS Plan require local action to tackle obesity and physical activity, informed by advice from the Health Development Agency (HDA) on what works. The Department commissioned the HDA to conduct a review of the evidence on the effectiveness of public health interventions for increasing physical activity amongst adults. This will be published shortly. The guidance will be available to national health service regions, strategic health authorities and primary care trusts as well as local government.

The launch of the consultation on public health, "Choosing Health?", provides the opportunity to discuss at a national, regional and local level what needs to be done to develop a coherent strategy to improve health. The activity co-ordination team will publish its draft proposals setting out current and future action to increase activity levels. The Government will then publish a White Paper setting out its strategy for action in the summer.

St. Helens Hospitals

Mr. Woodward: To ask the Secretary of State for Health what was spent on *(a)* healthcare as a whole, *(b)* general practitioner surgeries and *(c)* hospitals in (i) St Helens, (ii) Merseyside and (iii) the North West Region; and what the expected spending is in the next three years. [141484]

Miss Melanie Johnson: The information is shown in the following tables.

Expenditure on primary, secondary and total healthcare

£000

For 2002–03	*Primary*	*Secondary*	*Total*
Cumbria and Lancashire Strategic Health Authority area	457,271	1,360,679	1,817,950
Greater Manchester Strategic Health Authority area	614,022	1,742,178	2,356,200
Cheshire and Merseyside Strategic Health Authority area	578,008	1,894,710	2,472,718
Total	1,649,301	4,997,567	6,646,868
St.Helens Primary Care Trust	43,149	126,697	169,846

Note:
Audited summarisation schedules of primary care trusts within the three strategic health authority areas 2002–03 data remains provisional.
Sources:
Audited summarisation forms of the Cumbria and Lancashire Strategic Health Authority, the Greater Manchester Strategic Health Authority, and the Cheshire and Merseyside Strategic Health Authority 2002–03.

North West Regional Primary Care Trust Allocations

£000

Primary Care Trust	*A 2003–04*	*B 2004–05*	*C 2005–06*
Bebington and West Wirral	99,993	108,879	118,128

Trafford North	88,212	96,076	104,389
Trafford South	108,726	118,389	128,446

Notes:
1. The allocations cover PCTs in the Strategic Health Authority areas of Cheshire and Merseyside, Cumbria and Lancashire and Greater Manchester.
2. These are revenue allocation amounts and not expenditure figures.
3. It is for PCTs in partnership with Strategic Health Authorities and other local stakeholders to determine how best to use their funds to meet national and local priorities for improving health, tackling health inequalities and modernising Services.

Telecommunications Masts

Mr. Gardiner: To ask the Secretary of State for Health whether the level of risk to public health to those living close to mobile telephone masts changes according to the type of mast. [163430]

Miss Melanie Johnson: A review of recent research entitled Health Effects from Radiofrequency Electromagnetic Fields, published by the National Radiological Protection Board's (NRPB) advisory group on non-ionising radiation concluded:

> "Exposure levels from living near to mobile phone base stations are extremely low, and the overall evidence indicates that they are unlikely to pose a risk to health."

The Government along with other European Union Members States has adopted the exposure guidelines of the International Commission on Non-Ionizing Radiation Protection (ICNIRP) as expressed in the 1999 European Council Recommendation 519/EC/ 1999. The operators of mobile telephone equipment including GSM, 3G and TETRA systems should ensure that public exposure does not exceed the ICNIRP guidelines.

A substantial number of measurements of potential exposures of the public from base station emissions, have been made by a number of bodies, including the NRPB (www.nrpb.org) and the Radiocommunications Agency (now part of Ofcom) (www.ofcom.org.uk). In all cases exposures have been very much lower than the guidelines.

I wrote to right hon. and hon. Members 21 January 2004 with a summary of the current position relating to mobile phone technology and health concerns.

Tuberculosis

Dr. Murrison: To ask the Secretary of State for Health how many cases of TB were reported in each month since 1997. [161141]

Miss Melanie Johnson *[holding answer 15 March 2004]:* The numbers of tuberculosis cases reported each week since 1997 are shown in the table.

	1997	*1998*	*1999*	*2000*	*2001*	*2002*

Dr. Murrison: To ask the Secretary of State for Health what the incidence of multi-drug resistant TB was in each year since 1990. [161045]

Miss Melanie Johnson *[holding answer 15 March 2004]:* Routine surveillance of anti-tuberculosis drug resistance commenced in 1994. The incidence of multi-drug resistance since then is shown in the table.

	Percentage
1993	0.8
1994	1.5
1995	1.9
1996	1.7
1997	1.3
1998	1.4
1999	0.8
2000	1.0
2001	1.2
2002	[1]1.1

[1] Provisional figure.

Websites

Mr. Heald: To ask the Secretary of State for Health what the total annual cost of his Department's websites, including those of its agencies, was in the most recent year for which figures are available. [159519]

Mr. Hutton: Department of Health (www.doh.gov.uk and www.dh.gov.uk)The cost of the Department's website is shown in the table.

The figures include hosting and maintenance, development and dedicated staff costs (using agreed Civil Service staff costs including salaries, common services etc.)

Financial Year	*Total cost £000*
2002–03	1,844.0
2003–04	2,799.8

The Department launched a new website on 16 February 2004. It is available at www.dh.gov.uk. The old website was migrated onto 'DotP', the central government content management platform. DotP has been developed in partnership with, and is hosted by, the Office of the e-Envoy. The full cost of this major project is included incosts above, the majority of which will not be incurred in subsequent years.

NHS Pension Agency (www.nhspa.gov.uk)

All website development and maintenance work is covered under a single outsourcing contract with Envision and includes all information technology provision. No separate costs are kept on website specific work.

The NHS Purchasing and Supply Agency (www.pasa.nhs.uk)

The NHS Purchasing and Supply Agency hosts and supports in-house two websites, www.pasa.nhs.uk, www.pasa.nhs.uk and an intranet site. The cost shown in the table covers all three sites. Separate figures are not available. These figures include hosting, maintenance, development and dedicated staff costs. Staffing costs are based on gross salary, but exclude employer's on-costs (National Insurance and superannuation).

Financial Year	*Total cost £000*
2003–04	172.5

The Medicines and Healthcare Products Regulatory Agency—Medicines (www.medicines.mhra.gov.uk)

The Medicines and Healthcare products Regulatory Agency (MHRA) medicines arm is unable to isolate the cost of its website from its overall information technology costs.

The Medicines and Healthcare Products Regulatory Agency—Devices (www.devices.mhra.gov.uk)

The costs shown for the MHRA Devices website is for last complete financial year. Costs for the currant year are expected to be very similar. They include hosting and maintenance, development and staffing costs based on agreed Civil Service staff costs (including salaries, common services etc.).

Financial Year	*Total cost £000*
2002–03	85.5

NHS Estates (www.nhsestates.gov.uk)

The costs shown for the NHS Estates website are for last complete financial year. Accurate data for this financial year is not yet available.

Financial Year	*Total cost £000*
2002–03	267.1

The Department is responsible funding a number of other websites, such as NHS Direct Online and NHS Careers Website. For information on the cost of hosting, development and maintaining these sites, I refer the hon. Member to the response given to the hon. Member for Truro and St Austell (Mr Taylor) on Friday 12 March 2004, *Official Report*, column 1828W.

Written Answers to Questions

Friday 26 March 2004

CONSTITUTIONAL AFFAIRS

Magistrates Courts

Simon Hughes: To ask the Parliamentary Secretary, Department for Constitutional Affairs which magistrates courts have been closed in Greater London since 1997. [163764]

Mr. Leslie: Closures of magistrates' courts are a matter for local Magistrates Courts Committees (MCC). Three magistrates' courts have closed in Greater London since 1997. These were Marlborough Street on 31 March 1997, Clerkenwell on 31 December 1998 and Hampstead 31 March 1997.

Ministers may only intervene in the event of an appeal by the Paying Authority. Ministers have allowed appeals against closure of four magistrates' court houses in London, during the period. These are at Kingston Upon Thames on 8 April 2003, Sutton on 8 March 2004, Harrow on 8 March 2004 and Barking and Dagenham on 8 March 2003.

TRANSPORT

Chief Scientific Adviser

John Thurso: To ask the Secretary of State for Transport if he will make a statement on the previous work experience and knowledge of the Department's Chief Scientific Adviser that is relevant to the position. [164040]

Mr. McNulty: The Department for Transport's Chief Scientific Adviser is Professor Frank Kelly, who divides his time between this role and his position as Professor of the Mathematics of Systems at the University of Cambridge. He obtained his doctorate in 1976 from the University of Cambridge, and since then has held positions in the University's Faculty of Engineering and Faculty of Mathematics.

Professor Kelly's research interests are in random processes, networks and optimization, and especially in applications to the design and control of networks and the understanding of congestion phenomena. He and colleagues at Cambridge developed, jointly with British Telecom, the routing scheme implemented in BT's main digital telephone network. His current research is directed at understanding methods of self-regulation in large-scale complex networks, which include both transport networks and the communication infrastructures upon which our experiences of transport increasingly depend.

Frank Kelly has received several prizes for his work. In 1989 he was awarded the Guy Medal in Silver of the Royal Statistical Society, and in the same year he was elected a Fellow of the Royal Society. In 1992 he was awarded the Lanchester Prize of the Operations Research Society of America, he gave the 1995 Clifford Paterson Lecture of the Royal Society, the 1996 Blackett Lecture of the Operational Research Society, and was awarded the 1997 Naylor Prize of the London Mathematical Society. He received an Honorary Doctorate of Science from Heriot-Watt University in 2001.

Professor Kelly served as Director of the Statistical Laboratory in the University of Cambridge from 1991 to 1993. He has served on the Scientific Board of Hewlett-Packard's Basic Research Institute in Mathematical Sciences, the Scientific Council of EURANDOM, the Conseil Scientifique of France Telecom, the Council of the Royal Society and the Council of the Royal Statistical Society. He has chaired the Royal Institution/University of Cambridge Mathematics Enrichment Project, and the management committee of the Isaac Newton Institute for Mathematical Sciences.

John Thurso: To ask the Secretary of State for Transport if he will make a statement on the process by which the Department's Chief Scientific Adviser was employed; and if he will publish the application details of the other short-listed candidates. [164041]

Mr. McNulty: This was an open competition to recruit a Chief Scientific Adviser at Senior Civil Servant Pay Band 2 level for the Department.

The process was managed and chaired by Alastair Macdonald, the Civil Service Commissioner. The other panel members were Lord Oxburgh, Sir David King, the Government's Chief Scientific Adviser and the previous DfT Permanent Secretary Rachael Lomax and the current Permanent DfT Secretary David Rowlands.

The successful candidate was Professor Frank Kelly who took up post on 1 August 2003. It is not the Department's practice to declare the names of the other short listed candidates, as all applications are made in confidence.

Departmental Officials

Mr. Cousins: To ask the Secretary of State for Transport which former officials of the Department have asked for permission to join *(a)* PricewaterhouseCoopers, *(b)* Deloitte & Touche, *(c)* Ernst and Young and *(d)* KPMG. [156904]

Mr. McNulty: The Department for Transport formed on 29 May 2002. All information provided dates from 29 May 2002.

All civil servants are subject to the Business Appointment Rules, which set out the circumstances in which they must seek permission to accept outside appointments within two years of leaving the Civil Service. A copy of the Rules is available in the Libraries of the House. Information about appointments taken up by the most senior staff is published in the annual reports of the Advisory Committee on Business Appointments. The next annual report will be published shortly.

According to Department for Transport records and records kept by the Cabinet Office, no former officials of the Department have asked for permission to join *(a)* PricewaterhouseCoopers, *(b)* Deloitte & Touche, *(c)* Ernst and Young or *(d)* KPMG.

Home Zone Area-Based Initiative

Mr. Goodman: To ask the Secretary of State for Transport what funding has been allocated in *(a)* 2000–05, *(b)* 2005–06 and *(c)* total to the Home Zone area-based initiative. [163661]

Mr. McNulty: Local authorities are generally expected to fund Home Zones from mainstream funding, particularly the Single Capital Pot, and allocations are not identified or recorded centrally. Through the one-off Home Zone Challenge programme, a total of £30 million funding was allocated to individual schemes in England for the period 2001–05, and was not based on yearly allocations.

Road Accidents

Simon Hughes: To ask the Secretary of State for Transport how many pedestrians were *(a)* killed and *(b)* injured in road traffic accidents in each year since 1997 in Greater London, broken down by borough. [163765]

Mr. Jamieson: The information requested is shown in the following table.

Pedestrian casualties by severity for Greater London: 1997–2002

		1997	*1998*	*1999*	*2000*	*2001*	*2002*
Barking	Killed	3	2	3	2	2	1

Secondments

Mr. Cousins: To ask the Secretary of State for Transport what secondments *(a)* PricewaterhouseCoopers, *(b)* Deloitte & Touche, *(c)* Ernst & Young and *(d)* KPMG have made to his Department since 2001; for what (i) periods and (ii) tasks the secondments were made; whether secondments of staff from his Department have been made to those firms; and for what (A) periods and (B) tasks. [156923]

Mr. McNulty: Secondments are part of the Interchange Initiative, which promotes the exchange of people and good practice between the Civil Service and other organisations. Before an Interchange can occur all parties must be satisfied that no conflict of interest arises.

The Department for Transport was formed on 29 May 2002. All information dates from 29 May 2002.

According to Department records, there have been no secondments of staff from Department for Transport to these firms.

According to Department records, there has been one secondment into the Department for Transport from these firms:

1 Grade: SCS

Band: SCSPB

Organisation: Ernst & Young

Host: Transport Finance Directorate

Post held: Assistant to Corporate Finance Advisor

Start: 19 January 2004

End: January 2005

CHURCH COMMISSIONERS

1 Millbank

Norman Baker: To ask the hon. Member for Middlesbrough, representing the Church Commissioners if he will list those others occupying parts of 1 Millbank indicating in each case *(a)* the square footage occupied and *(b)* the rental received. [164051]

Sir Stuart Bell: Central Lobby Consultants occupy 1,299 square feet at 1 Millbank and Parliamentary Contacts occupy 250 square feet. The whole of the adjacent sites at 2 Millbank and 5 Great College Street are also let.

The Church Commissioners do not publish income figures for individual tenants as this information is commercially sensitive.

DEFENCE

Defence Estates

Patrick Mercer: To ask the Secretary of State for Defence how much public money was spent on the relaunch of Defence Estates prior to April 2003. [163547]

Mr. Caplin: A total of £24,066 was spent on the re-launch of Defence Estates, which took place on 1 April 2003.

National Servicemen (Memorial)

Bob Spink: To ask the Secretary of State for Defence if he will make it his policy to promote the establishment of a memorial to the UK's post-1945 National Servicemen. [162874]

Mr. Caplin: The Ministry of Defence receives many requests from individuals, ex-Servicemen's groups and charitable organisations seeking assistance with various projects. The vast majority have worthy goals and can make an equally compelling case for support. It will therefore continue to be our policy not to promote any specific projects, such as that advocated by the hon. Member, as it would be divisive and open to criticism from unsuccessful applicants, if the Government were to pick and choose which to support.

A memorial dedicated to all National Servicemen was unveiled last year at the National Memorial Arboretum in Staffordshire.

Press Officers

Mr. Laws: To ask the Secretary of State for Defence how many press officers were employed in his Department in each year from 1990–91 to 2003–04; what the total cost was in each year; and if he will make a statement. [162843]

Mr. Caplin: Information for the years from 1994–95 to 2001–02 was provided in my letter of 14 July 2003 to the hon. Member, a copy of which has been placed in the Library of the House.

Information for the years 1990–91 to 1993–94 is no longer available. Information for the years 2002–03 to 2003–04 is currently being researched and I will write again to the hon. Member once the information is to hand.

RAF Innsworth

Mr. Laurence Robertson: To ask the Secretary of State for Defence (1) what account he will take of the impact on the community of Innsworth, Gloucestershire, when deciding on the future of RAF Innsworth; and if he will make a statement; [163921]

(2) what discussions he plans to have with personnel at RAF Innsworth, Gloucestershire, about the future of the base; and if he will make a statement. [163920]

Mr. Ingram: The implications of defence decisions on Service and civilian personnel, and indeed the wider community will be actively considered in the analysis and decision making process.

Personnel at RAF Headquarters Personnel and Training Command have been informed of the planned work to examine the possible collocation of the RAF Headquarters and they will continue to be updated at appropriate intervals. A communication strategy, including consultation with Trades Unions, is in place to ensure dialogue between the study team and all staff.

Mr. Laurence Robertson: To ask the Secretary of State for Defence when he expects to make a decision on the future of RAF Innsworth, Gloucestershire; and if he will make a statement. [163922]

Mr. Ingram: I expect a report on the findings of the study into the possible collocation of the RAF Headquarters before the end of the year, and will make a decision thereafter.

Mr. Laurence Robertson: To ask the Secretary of State for Defence what factors he will take into account when deciding on the future of RAF Innsworth, Gloucestershire; and if he will make a statement. [163923]

Mr. Ingram: In reaching a decision on the future of RAF Headquarters Personnel and Training Command, the operational and financial implications of the options under consideration together with the relevant environmental, social and economic effects, including the impact of other relevant studies will be considered.

Retirement Age

Mr. Streeter: To ask the Secretary of State for Defence when his Department intends to remove its compulsory retirement age of 60. [162902]

Mr. Caplin *[holding answer 22 March 2004]:* The Department is now reviewing its retirement age policy for all MOD Civil Servants below the Senior Civil Service. The review will also consider when the Department should implement any changes resulting from that review.

The Department's current retirement age of 60 does not apply to all grades; some have a retirement age of 65 and others somewhere between 60 and 65.

Secondments

Mr. Cousins: To ask the Secretary of State for Defence what secondments *(a)* PricewaterhouseCoopers, *(b)* Deloitte & Touche, *(c)* Ernst & Young and *(d)* KPMG have made to his Department since 2001; for what (i) periods and (ii) tasks the secondments were made; whether secondments of staff from his Department have been made to those firms; and for what (A) periods and (B) tasks. [156920]

Mr. Caplin: Information available on personnel seconded to the Ministry of Defence from the above named companies from 2001 is as follows:

Inward Secondments

Company	*Start date*	*End Date*	*Tasks*
PricewaterhouseCoopers	October 2000	October 2001	Commercial Adviser
Ernst & Young	February 2001	February 2002	Commercial Adviser
Ernst & Young	October 2001	August 2002	Commercial Adviser
PricewaterhouseCoopers	August 2002	August 2004	Commercial Adviser

There are no outward secondments.

Project Angus

Norman Baker: To ask the Secretary of State for Defence if he will make a statement on the purpose, cost and duration of Project Angus. [163970]

Mr. Caplin: Project Angus is the construction of a new Fleet headquarters building at Whale Island, Portsmouth. Construction started in February 2003 and the completed building will be handed over to the Royal Navy in May 2004, at an estimated final cost of £22 million. This is the final step in the Fleet First re-organisation of the Fleet headquarters which has created a better integrated and more effective Fleet headquarters and saved around £10 million a year in running costs.

EDUCATION AND SKILLS

Connexions

Charles Hendry: To ask the Secretary of State for Education and Skills how the performance of Connexions Direct is assessed. [161032]

Margaret Hodge: Connexions Direct is assessed by measuring their performance against indicators which include the service being available 18 hours a day and the promptness of answering. In addition, a pilot user survey has been conducted and a mystery shopping exercise is being undertaken.

Sure Start

Mr. Liddell-Grainger: To ask the Secretary of State for Education and Skills what funding is being allocated to Sure Start in the next three years. [161865]

Margaret Hodge: Sure Start was allocated funding of £1,223 million for 2004–05 and £1,510 million for 2005–06 in the last spending review, in summer 2002. Funding for 2006–07 will be confirmed, later this year.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Coastal Damage Compensation

Mr. Bellingham: To ask the Secretary of State for Environment, Food and Rural Affairs how much was *(a)* allocated to and *(b)* spent on coastal damage compensation in each of the last five years. [163614]

Mr. Morley: Defra does not allocate funds to be spent on coastal damage compensation. Except in limited circumstances no compensation is payable to those affected by flooding or erosion, including cases where it is decided not to defend a particular area, or to undertake managed realignment. This approach, adopted by successive governments, is justified by current legislation which provides operating authorities with permissive powers to undertake flood and coastal defence works. There is no general obligation to build or maintain defences at all or to a particular standard. Consonant with this approach, the legislation also makes no provision for compensation from public funds to persons whose property or land are affected by erosion or flooding.

Energy Efficiency

Brian White: To ask the Secretary of State for Environment, Food and Rural Affairs what energy targets she plans to introduce for the Government estate to reduce energy consumption per square metre of buildings floor area over the present decade. [161199]

Mr. Morley: The government published on 26 February 2004, the energy section of the Framework for Sustainable Development on the Government Estate. This contained all of the energy targets for the central government estate including the following:

> "Government Departments to increase the energy efficiency of the buildings on their estate, measured in terms of kWh of (1) fuel and (2) electricity use per square metre of buildings floor area, or estate area[1], by 15 per cent. by 2010–11, relative to 1999–2000."

[1] Due to the diversity of the Government Estate, Departments can report using either the floor area of their buildings, or the total estate area.

Mrs. Dean: To ask the Secretary of State for Environment, Food and Rural Affairs how many grants to aid domestic energy efficiency there were in *(a)* Staffordshire and *(b)* the Burton constituency in each of the last three years; and what the total cost of such grants was. [161840]

Mr. Morley: A number of programmes exist to improve the energy efficiency of a household including schemes run by local authorities and work of the Energy Saving Trust. The Department does not collect data on the number of grants awarded and their cost through these schemes.

Under the Warm Front scheme, which is the main Government scheme for tackling fuel poverty and is funded by the Department, between June 2000 and December 2003, 3,764 grants were awarded in the Staffordshire area with a total cost of around £2 million. Of these, 1,653 grants were awarded in the Burton area with a cost of £390,000.

Mr. Bercow: To ask the Secretary of State for Environment, Food and Rural Affairs how many homes in Buckingham have benefited from the Home Energy Efficiency Scheme. [161570]

Mr. Morley: The New Home Energy Efficiency Scheme is now marketed as Warm Front. Between the launch of the scheme in June 2000 and the end of December 2003, 341 households in the Buckingham constituency received assistance from the scheme.

Advisory Committee on Packaging

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs what the *(a)* total budget and *(b)* budget for administration for the Advisory Committee on Packaging was in financial year 2002–03. [162171]

Mr. Morley: The Advisory Committee on Packaging does not have a dedicated budget, but the ACP and its activities are supported by the Defra Waste Management Division's Producer Responsibility Unit.

Agricultural Subsidies

Mr. Liddell-Grainger: To ask the Secretary of State for Environment, Food and Rural Affairs what subsidy will be given to farms on the Somerset levels in the financial years *(a)* before and *(b)* after the mid-term Common Agricultural Policy reform. [161883]

Alun Michael: The subsidy provided to farmers in the Somerset area for the EAGGF 2003 year (16 October 2002 to 15 October 2003) was £29,753,136.13. This includes any receipts under the following schemes: Arable Area Payments, Beef Special Premium, Sheep Annual Premium, Suckler Cow Premium, Slaughter Premium, Extensification Payment and Hill Farming Allowance. We have made no projections of receipts at a county level in future years.

Asgard Systems

Alistair Burt: To ask the Secretary of State for Environment, Food and Rural Affairs if she will establish an inquiry into the part played by her Department in the liquidation of Asgard Systems Ltd. of Bedford. [156718]

Alun Michael: I do not consider it appropriate for the Department to hold such an inquiry. Advice was given to Asgard Systems Ltd. primarily by the Environment Agency, which has a well established "Complaints and Commendations Procedure" for any complaints against it.

Badgers/Bovine TB

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what measures can be taken against obviously diseased badgers observed in areas outside the current Krebs trials areas. [158376]

Mr. Bradshaw: Badgers are a protected species and the terms of their protection, including the restricted circumstances when action might be taken against them, are set out in the Protection of Badgers Act 1992.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answers of 26 January 2004, *Official Report*, column 1W, and 12 February 2004, *Official Report*, column 156W, on badgers, whether increases in badger population have occurred in areas in which the 1990 badger survey predicted that it was unlikely that further significant increases would occur. [158383]

Mr. Bradshaw: There has been no national survey of badgers since the mid-1990s[1] and therefore, the necessary information to answer this question is not available.

[1] "Changes in the British badger population, 1988 to 1997" by G. Wilson, S. Harris and G. McLaren (1997), published by the People's Trust for Endangered Species (ISBN 1 85580 018 7).

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what information she has collated on the effectiveness of reactive culling of badgers in TB breakdown areas as a mechanism of control when applied as part of an overall control package. [158384]

Mr. Bradshaw: On the basis of current scientific evidence, reactive culling as carried out in the Randomised Badger Culling Trial is not viable as a policy option. There are circumstances in which localised culling of badgers might be considered in the future, for example in combination with a vaccine or live test for bovine TB, but neither of these is currently available.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs whether the presence of TB in the badger population presents a risk of infection to other wildlife. [158385]

Mr. Bradshaw: Theoretically, it is possible for badgers to pass TB to other wildlife species, but the low level of incidence of the disease in species such as foxes (which can share sett space with badgers) and small rodents suggests they are not a significant risk.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the value of *(a)* percussion guns and *(b)* snares as a means of controlling badger populations. [158387]

Mr. Bradshaw: The information is as follows:

(a) The use of percussion guns in the Randomised Badger Culling Trial (RBCT) has not been considered; they are a weapon for stunning, not killing, animals.

(b) The use of snares by the Department in the past, and recent work in Ireland, would suggest that a higher trapping efficiency can be achieved than by cage trapping. However, the decision was taken, primarily on welfare grounds, that snares would not be used in the RBCT.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what advice has been given by her Department to farmers in the Peak District when repairing stone walls and stiles regarding contact with badger latrines; and what advice has been given to members of the public. [158390]

Mr. Bradshaw: The Rural Development Service (RDS) of Defra provide grants under the England Rural Development Programme (ERDP) to farmers and land managers in the Peak District National Park to restore drystone walls and construct stiles. These grants are made through the Countryside Stewardship Scheme (CSS) or the Environmentally Sensitive Areas (ESAs) scheme.

Technical guidance is provided concerning the choice of materials used and methods of construction. However, CSS and ESA Project Officers do not give advice to landowners, land managers, drystone wall contractors or members of the public over the health implications of contact with badger latrines. Where farms are open under the educational access component of the CSS, biosecurity measures are required including facilities for hand washing. However, this general guidance is not specific to contact with badger latrines.

Any one seeking advice on badgers should contact my Department's National Wildlife Management Team (Tel: 0845 6014523; e-mail: enquiries.southwest @defra.gsi.gov.uk). I am informed that the Team has not received any recent queries regarding badger latrines from farmers or members of the public in the Peak District.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what the latest average cost is of carrying out a full post-mortem examination of a badger carcase to determine its TB status, including the cost of microbiological testing. [158392]

Mr. Bradshaw: The average cost per carcase of the post mortem examination, as used for badgers taken in the randomised culling trial, including both the TB culture costs and the small number of associated histopathological tests, is currently £87.22.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answers of 6 January, *Official Report*, column 250W and 20 January 2004, *Official Report*, column 1186W, on badgers, what assessment she has made of the reliability of the live test for TB in badgers; and what assessment she has made of the risk that translocated badgers released after testing are not free from TB infection. [158412]

Mr. Bradshaw: The indirect ELISA for badgers (known as the live test) was evaluated using blood samples collected from 1982 badgers killed during statutory badger removal operations in 1991 to 1993. The sensitivity of the test was 40.7 per cent. and the specificity 94.3 per cent. The positive predictive value (the percentage of positive test results where the animal was confirmed as infected) of the test was 67.5 per cent. the negative predictive value (the percentage of negative test results where the animal was confirmed as uninfected) 84.6 per cent. A project (development of immunological assays for the detection of Mycobacterium bovis infection in badgers), funded by the Department, is investigating this area. The project is due to end in March 2005 and the final report should be available shortly afterwards.

Regarding the assessment of the risk that translocated badgers are not free from TB infection, it is current practice to test all candidates for translocation using the live test three times before release. If any test is positive, then that animal and members in its group are not released. A released animal which has had three negative test results has a 2.7 per cent. risk of actually being infected if it comes from a population with a background prevalence of infection of 10 per cent.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to her consultation document, "Preparing for a new GB strategy on bovine tuberculosis", page 23, figure 3, what the forecast public expenditure for each year from 2004–05 to 2012–13 is, broken down by main cost centres. [157938]

Mr. Bradshaw: Figure 3 on page 23 of the document "Preparing for a new GB strategy on bovine tuberculosis" represents a projection of the costs of current policies. The forecast for GB public expenditure for the next three years is shown in the following table by main cost centres.

Funding for TB surveillance, control and research

£000

	2003–04 Forecast	2004–05 Allocation	2005–06 Allocation
Veterinary Directorate (including Wildlife Unit and Veterinary Laboratories Agency)	13,794	14,725	14,730
State Veterinary Service	30,753	37,550	41,550
Animal Disease Control Division	26,217	24,958	24,958
Science Directorate	3,944	3,905	3,905
Total	74,708	81,138	85,143

Detailed budgets which can be broken down by cost centre are not available beyond the Spending Review 2002 period.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what representations she has received on the awarding of grants to farmers to upgrade isolation facilities for bought-in cattle to improve TB controls. [157957]

Mr. Bradshaw: No formal representations have been received regarding grants to upgrade isolation facilities for bought-in cattle.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what funds are available from European Union sources to assist the financing of TB *(a)* testing and *(b)* monitoring schemes. [158371]

Mr. Bradshaw: The EU Veterinary Fund, which aims to ensure financial support to member states for expenditure to help control or eradicate certain diseases, is set down in Council Decision 90/424. The total budget is set annually and allocations to disease control programmes in member states are made according to priorities proposed by the Commission and agreed by member states.

In 2004, €135,500,000 is allocated to "animal disease eradication and monitoring programmes and monitoring of the physical conditions of animals that could pose a public-health risk linked to an external factor". TB is one of the diseases covered by this part of the fund and €6,830,000 is allocated to TB controls.

Council and Commission decisions and regulations can be read online on Eur-lex. http://europa.eu.int/eur-lex/en/index.html.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs (1) how many additional staff she estimates will be required by local authorities to enforce her proposed Tuberculosis (England) Order 2004 over the first five years of its application; [158372]

(2) what consultations she has had with local authorities and their representative bodies on the resource implications arising from the enforcement of her proposed Tuberculosis (England) Order. [158373]

Mr. Bradshaw: Consideration of the costs to local government will be considered fully in the final Regulatory Impact Assessment for the proposed new Tuberculosis (England) Order 2004.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what the average time has been between a TB reactor being reported, the carrying out of microbiological confirmation tests and the reporting of results back to farms in areas other than the Krebs areas since the trials began. [158389]

Mr. Bradshaw: The information requested is kept on individual files for each TB breakdown and cannot be provided except at disproportionate cost.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what she estimates the resource implications are of seeking a full regime of pre- and post-movement testing of cattle from one and two year testing herds to all three and four year receiving herds in terms of *(a)* additional veterinary hours required, *(b)* time inputs required by livestock owners and managers and *(c)* the costs of testing. [158391]

Mr. Bradshaw: None. The proposal as set out in the consultation document 'Preparing for a new GB strategy on bovine TB' is for pre-movement testing of cattle moving from one and two year testing herds to other herds. The resource implications of this proposal will be estimated as part of the consultation process which will involve discussions with veterinary and farming interests.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what the average cost was to livestock farmers, per head of stock examined, of facilitating the conduct of official TB tests in their herds; [158393]

(2) what the average cost to a cattle herd owner of the application of a TB2 restriction notice was in the last period for which figures are available; [158668]

(3) pursuant to her answer of 8 December 2003, *Official Report*, column 216W, what assessment she has made of whether milk production on farms which have suffered multiple TB breakdowns is economically sustainable in the absence of compensation for consequential losses. [158802]

Mr. Bradshaw: The cost of TB to farmers in Great Britain is currently being assessed. Defra has commissioned Reading University to carry out research into the economic impacts of TB and alternative control policies in Great Britain. A report is expected shortly and a summary of the findings will be published on the Defra website in due course.

It is for the individual farmer to decide if his or her business is economically sustainable or not.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what her policy is on the TB testing of badger carcases from road traffic accidents outside TB hotspot areas. [158394]

Mr. Bradshaw: On advice from the Independent Scientific Group on Cattle TB (ISG), a limited Road Traffic Accident (RTA) survey is being conducted in seven counties in England (Cornwall, Devon, Gloucestershire, Herefordshire, Worcestershire, Shropshire and Dorset). The objective of the survey is to determine, with the ISG's help, if RTA data can provide an accurate indication of the prevalence of "M. bovis" (the causative organism for bovine TB) in badgers by comparing it with the data from the randomised badger culling trial. The Central Science Laboratory (CSL) has been employed to collect badger carcasses for the project since 1 June 2002.

In addition, Defra is carrying out a survey of badgers killed in road accidents in the Furness peninsula following an unexplained rise in bovine TB incidents in south west Cumbria.

We are awaiting the results of the validation of the survey in the badger culling trial areas before taking any decisions about extending the survey area further. There are also logistical and budgetary problems in extending the RTA survey.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs how many applications for section 10 licences under the Protection of Badgers Act 1992, permitting the killing of badgers, have been made by *(a)* farmers and *(b)* other private landowners; and how many have been issued to each for the express purpose of preventing the spread of disease, in each year since the Act has been in force. [158395]

Mr. Bradshaw: When members of the public approach my Department with a badger problem, most come seeking our advice on how they can resolve their problem. Only a small number have a clear idea of what action they want to take. Because of this it is not possible to distinguish between applications on the basis of whether the applicant wanted to kill the badgers, relocate them or simply close a problem sett. Thus, we cannot provide figures for the first part of this question.

The number of licences issued to farmers and other private landowners for the express purpose of preventing the spread of disease in each year for which there are computer records, is as follows:

	Number
2001	0
2002	0
2003	0

We are not aware of any licences to kill badgers being issued to farmers or other private landowners prevent the spread of disease between 1992 and 2001.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what recent instructions have been given to state veterinary officials regarding the interpretation of the skin test for TB in cattle. [158396]

Mr. Bradshaw: The interpretation of the single intradermal comparative cervical test (skin test) used in GB for the diagnosis of bovine TB is laid down in Annex B of Council Directive 64/432/EEC (as amended). The existing TB manuals for the State Veterinary Service and Local Veterinary Inspectors reflect this. No changes have been made recently to the interpretation of the skin test for TB in cattle.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of *(a)* programmes in countries other than the UK which have successfully controlled TB in cattle by controlling the disease in wildlife reservoirs and *(b)* the application those programmes might have for the UK. [158397]

Mr. Bradshaw: Defra officials remain in contact, and continue to exchange information, with colleagues in other countries that are experiencing problems with the control of TB in cattle where there is a wildlife disease reservoir.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what the most recently calculated rate of repeat TB breakdowns in cattle herds is in *(a)* England and *(b)* Scotland. [158414]

Mr. Bradshaw: The most recent information on recurrent (repeat) TB incidents dates back to 2002. This shows that the number of confirmed new TB incidents (CNIs) in herds that had a history of CNI in the previous three years increased by 72 per cent. between 2000 and 2002. This increase was not significantly different from the overall percentage increase in CNIs. In England, approximately 25 per cent. of herds with a CNI in 2002 had a history of CNI in the previous three years. In contrast, none of the 27 Scottish herds affected by CNIs in 2002 had experienced a CNI in the previous three years.

Because of the distorted pattern of TB incidents (breakdowns) caused by the suspension of TB testing during 2001, bovine TB statistics for 2002 may not be representative of a typical year. Similar data on repeat TB breakdowns for2003 has not been collated yet.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs whether badgers can acquire TB from infected members of other species on which they predate. [158415]

Mr. Bradshaw: The consumption of infected carcases, prey or otherwise, is a potential route for M. bovis infection in badgers.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs whether adverse effects have been observed in cattle subject to continuous 60-day TB testing. [158429]

Mr. Bradshaw: No adverse effects have been observed in cattle subjected to 60-day (short-interval) tuberculin testing.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs whether she has carried out an assessment of the measures necessary to gain public acceptance of large-scale badger culling. [158805]

Mr. Bradshaw: No such assessment has been carried out.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of whether her containment policy for bovine TB will also contain the spread of M. bovis in badgers. [159121]

Mr. Bradshaw: No such assessment has been made.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to her answer of 30 January 2004, *Official Report*, column 538W, on badgers, what the source of her definition of epidemic is. [159130]

Mr. Bradshaw: Definitions of the term 'epidemic' that are consistent with that given in the answer on 30 January 2004, *Official Report*, column 538W, can be found in standard epidemiological textbooks, such as:

1. Thrusfield, M. (1995). Veterinary Epidemiology. 2nd Edition. Blackwell Science, Oxford, UK. (page 26).

2. Last, J. M. (1995). A Dictionary of Epidemiology. 3rd Edition. Oxford University Press, Oxford, UK. (page 54).

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs whether cats resident on farms on which a TB breakdown has occurred are routinely tested for TB infection. [158379]

Mr. Bradshaw: Cats resident on farms on which a TB breakdown has occurred are not routinely tested for TB infection.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs how many herds are participating in gamma-interferon testing. [158388]

Mr. Bradshaw: By the end of February 2004, 88 herds had been recruited to the gamma-interferon field trial.

In addition, between 1 January 2003 and 29 February 2004, ad-hoc gamma-interferon tests were approved in 19 herds that did not qualify for the field trial. Formal instructions were issued to the State Veterinary Service in November 2003, which provide for the use of the gamma-interferon test in the following circumstances:

to aid decision making in relation to whole or partial herd slaughter in severe TB breakdowns[1];

as a parallel test for non-reactor cattle in ongoing, confirmed TB incidents with a chronic TB problem, but which do not qualify for the field trial[1]; or

as a serial test, to resolve skin test reactors or inconclusive reactors in prolonged unconfirmed TB incidents within low TB prevalence areas where there is a suspicion of non-specific reactivity to the skin test[2].

[1] gamma-interferon used to enhance overall sensitivity of testing,
[2] gamma-interferon complements skin test to achieve better specificity.

TB Strategy

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the implications of the Common Agricultural Policy mid-term review for the development of a TB strategy. [158386]

Mr. Bradshaw: In developing policies on bovine TB Government will take into account the structure and economics of the cattle farming industry, including the impact of the 2003 CAP reform agreement.

Biofuels

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she has had with the Chancellor of the Exchequer on the level of duty on bio-ethanol. [162029]

Mr. Morley: The Department is in regular contact with Treasury Ministers to discuss a whole range of matters related to energy and environmental policy. In addition, my right hon. Friend the Secretary of State, meets regularly with the Chancellor of the Exchequer on a wide range of matters that affect the business of the Department. As with all tax matters, decisions on tax incentives rest with the Chancellor of the Exchequer.

Brucellosis (Cornwall)

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs what measures her Department has put in place to contain the recent outbreak of brucellosis in Cornwall. [163150]

Mr. Bradshaw *[holding answer 23 March 2004]:* The cow which gave rise to confirmation of the brucellosis outbreak had been immediately subject to movement restrictions following her abortion on 9 March. No movements of cattle onto or off the premises of the infected herd were permitted from the time that indications of possible Brucella infection were first reported on 12 March. The four cows and one bull which tested seropositive for brucellosis during investigations were slaughtered on 18 March following confirmation of brucellosis that day; the remainder of the herd was slaughtered on 19 March. Precautionary movement restrictions have also been placed on seven neighbouring herds which are currently undergoing further tests and on the herd which supplied two bulls to the farm during the preceding 12 months; no other cattle apart from seven calves from a neighbouring premises have been brought onto the farm during that time. In the last year there have been only a small number of movements off the farm, other than movements direct to slaughter. These animals are being traced and will be tested. Cattle not born in Great Britain and imported into Cornwall and Devon are also being traced.

Pesticides

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs if she will review the use of chlorpyrifos as an insecticide. [163080]

Alun Michael: The use of chlorpyrifos has been under review since 1998 as part of the UK review of anticholinesterase compounds. The human health aspects were completed in June 2003 and the review of environmental effects is on-going.

In addition chlorpyrifos is being reviewed on a Europe-wide basis under Council Directive 91/414. Spain has lead responsibility in taking forward that review.

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the impact of chlorpyrifos on riparian bird life. [163081]

Alun Michael: The Advisory Committee on Pesticides (ACP) has assessed the effect of chlorpyrifos on birds as a part of an ongoing review of this active substance. The ACP concluded that there is a negligible risk of chlorpyrifos accumulating in fish, and that as a result the risk to birds that eat fish is acceptable.

Risk assessments were also made for other potential routes of bird exposure. Further data have been requested to confirm that chlorpyrifos used on grass and cereals does not pose an acute or short term risk to grazing birds, or to birds eating small insects in orchards. Information has also been requested on granular forms of chlorpyrifos to address any acute and short-term risk to birds consuming chlorpyrifos in this form. These data must be submitted by August 2006.

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the impact of chlorpyrifos on fly fishing. [163082]

Alun Michael: No specific assessment has been made of the impact of chlorpyrifos on fly fishing.

However the Advisory Committee on Pesticides (ACP) is assessing the effect of chlorpyrifos on aquatic life (including fish) as a part of an on-going review of this active substance. At the ACP's request, approval holders have submitted a strategy (including a timetable for the provision of further data) to help complete this assessment. The ACP is currently awaiting further detailed study protocols for agreement.

Common Agricultural Policy

Mr. Sheerman: To ask the Secretary of State for Environment, Food and Rural Affairs what recent discussions she has had with her EU counterparts on reform of the Common Agricultural Policy. [162081]

Alun Michael: My right hon. Friend the Secretary of State regularly meets her counterparts from the other member states to discuss CAP reform, most recently she met with the Italian and Dutch Agriculture Ministers. Aspects of the CAP reform package agreed in June 2003 were discussed at the Council meeting on 24 February. At its meeting on 23 March the council discussed reforms of sectors that were not included in last year's reforms: olive oil, table olives, tobacco, cotton and hops. My right hon. Friend also recently had various discussions with Commissioner Fischler on CAP reform issues, both bilaterally and as part of meetings of the Agriculture Council. CAP reform is very important domestically and internationally and we continue to press our case with the Commission and other member states at Ministerial bilateral and Council meetings, as well as at official level meetings.

Cod Fishery

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what the average cod by-catch recorded from Scottish vessels fishing in ICES *(a)* IVa and *(b)* IVb areas was during 2003. [161992]

Mr. Bradshaw: There is no significant by-catch of cod known in the trawl fisheries targeting pelagic species like herring in the North Sea, but between 3.5 per cent. and 7 per cent. of all UK cod landings from the North Sea are taken from the Fladen fishing grounds, where the fishery predominantly targets Nephrops (prawns).

However, the by-catch of cod varies between different fisheries: there is no meaningful fleet or area average. A further complication is that catch composition may differ from recorded landings because of discarding at sea for example: catch composition is only observed in a sample of fishing trips.

Rod Fishing

Mr. Heald: To ask the Secretary of State for Environment, Food and Rural Affairs how many rod fishing licence applications have been made since the introduction of the online facility; and how many of these were made online. [162809]

Mr. Bradshaw: The figures on rod fishing licence applications are as follows:

Rod Licence Sales	*2001–02*	*2002–03*	*2003–04*
Total rod licence sales	1,137,478	1,188,400	1,227,680
Internet sales of rod licences	12,531	31,501	49,461

Flooding

Mr. Liddell-Grainger: To ask the Secretary of State for Environment, Food and Rural Affairs how much money was given to the Wessex Flood Defence Committee in *(a)* 2002–03 and *(b)* 2003–04. [161880]

Mr. Morley: The Environment Agency is required to arrange for its flood defence functions, except for certain financial ones, to be carried out by Regional Flood Defence Committees (RFDCs). The RFDC may arrange for all or any of these functions to be carried out by Local Flood Defence Committees (LFDCs) under a scheme approved by my right hon. Friend the Secretary of State.

I understand from the Agency that the total of Defra grant and levies on local authorities for the three local flood defence committees under the Wessex RFDC was £23.2 million in 2002–03 and is estimated to be £25.5 million in 2003–04.

Other funding is obtained from developers and district councils for specific projects.

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs under which powers the Environment Agency is charging for maps of flood risk areas; and if she will make a statement. [161961]

Mr. Morley: Where charges are made to certain businesses for specific requirements, the Environment Agency's power to charge derives from the Environmental Information Regulations 1992 (as amended) and from sections 37 and 43 of the Environment Act 1995.

Foot and Mouth

Mr. Swire: To ask the Secretary of State for Environment, Food and Rural Affairs how many businesses in *(a)* Devon and *(b)* Cornwall are owed money by the Department for carrying out work during the foot and mouth outbreak in 2001; how much is owed for (i) Devon and (ii) Cornwall; and what the largest amount owing to each business is. [162714]

Mr. Bradshaw: I refer the hon. Member to the answer I gave to the hon. Member for Weston-super-Mare (Brian Cotter) on 6 January, 2004, *Official Report*, column 261W.

The Department is in dispute with one contractor in Devon over charges arising, or which are claimed to have arisen, from the 2001 foot and mouth disease outbreak. It would be inappropriate to comment on a case that is the subject of alternative disputes resolution procedures and, possibly, litigation in due course.

Currently, the Department has no disputes with contractors in Cornwall.

GM Crops

Mr. Simon Thomas: To ask the Secretary of State for Environment, Food and Rural Affairs what research is being conducted into inter-species gene flow between GM maize and other plants. [162062]

Mr. Morley: I am not aware of any research in the UK on inter-species gene flow between GM maize and other plants.

The Department has commissioned a project looking at intra-specific gene flow between non-GM maize crops in existing maize crops in the UK using naturally occurring molecular markers. A small part of the project includes an examination of the likelihood of maize cross-pollinating with rye grass, a distantly related species. Maize originates in the Americas and there is no evidence that it can cross-pollinate with any UK species under natural conditions.

More research has been conducted in central America where cultivated maize varieties grow alongside sexually compatible wild relatives, but the findings have no relevance to UK conditions.

The GM science review recently assessed the evidence for inter-species gene flow (www.gmsciencedebate.org.uk, First report, Chapter 7.3). They concluded that in the UK, for crops including maize, that gene flow to wild relatives was 'not an issue'.

Mrs. Lawrence: To ask the Secretary of State for Environment, Food and Rural Affairs (1) whether she has communicated the shortcomings of the farm scale evaluation maize trials to the lead competent authority in France in accordance with Directive 2001/18/EC; and whether she has requested a variation in the conditions attached to the Part C consent for Chardon LL fodder maize; [162923]

(2) when she was informed that cattle feeding studies involving Chardon LL fodder maize had been requested by the Advisory Committee on Releases to the Environment and the Advisory Committee on Animal Feeding Stuffs; [162979]

(3) whether *(a)* meat and *(b)* milk from the cattle involved in the Chardon LL feeding studies at Reading University has entered the food chain; [162982]

Mrs. Jackie Lawrence: To ask the Secretary of State for Environment, Food and Rural Affairs whether she gave consent for harvested Chardon LL forage maize from farm-scale evaluation sites to be taken off-site and used in cattle feeding studies at the Reading University Centre for Dairy Research. [163076]

Mr. Morley *[holding answer 23 March 2004]*: I am not aware of any shortcomings of the farm-scale evaluation (FSE) maize trials, the results have been endorsed by both the Scientific Steering Committee overseeing the evaluations and the Advisory Committee on Releases to the Environment (ACRE).

Officials sent the results of the Farm Scale Evaluations, together with the non-specialist and scientific summaries, to the European Commission and the Competent Authorities of the Member States for their information on 20 and 21 October 2003. ACRE published its advice on the FSE results on 13 January 2004, and this advice was also sent to the Commission and the Competent Authorities on that date. On 9 March 2004 officials wrote to the French Competent Authority, which issued the relevant consent on behalf of all EU Member States, seeking amendments to the consent for Bayer T25 GM maize (Chardon LL) to limit herbicide use with the crop in line with ACRE'S advice.

Neither the Advisory Committee on Releases to the Environment nor the Advisory Committee on Animal Feeding stuffs (ACAF) has requested cattle feeding studies involving Chardon LL fodder maize. ACAF has advised, on the basis of the data already submitted, that it is content that the T25 maize grain and its products pose no more risk as animal feed than non-GM maize varieties.

The GM maize used in the farm scale evaluations has Europe wide marketing consent for use in animal feed so no consent was required to use the harvested crop in the cattle feeding study carried out at the University of Reading.

Although there is no legal requirement to withhold the milk or meat from the food chain the protocol for the Reading University study required that the milk from the dairy cows did not enter the food chain during the period of the study.

Mrs. Lawrence: To ask the Secretary of State for Environment, Food and Rural Affairs if she will ensure that, if Chardon LL is placed on the National Seeds Register, it will only be grown in the UK in the future with a herbicide regime exactly the same as that employed in the farm-scale evaluation programme. [162924]

Mr. Morley: On 9 March 2004 officials wrote to the French Competent Authority, which issued the relevant consent on behalf of all EU Member States, seeking

amendments to the consent for Bayer T25 GM maize (Chardon LL) to limit herbicide use with the crop in line with ACRE'S advice on the FSE results.

Alan Simpson: To ask the Secretary of State for Environment, Food and Rural Affairs when she was informed of the recommendation of Professor David Beever that no new maize variety should be placed upon the National Seeds Register unless it achieves a whole-plant target of 32 per cent. [163169]

Mr. Morley: The dry matter content achieved for maize crops depends on location, climate and variety. Views on the optimum value vary and the realistic situation is that it falls within a range of around 28–32 per cent., depending on local factors. The importance of dry matter content is taken into account in the National List system, but it is only one of a number of factors which are assessed.

Alan Simpson: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the involvement of Grainseed in the conduct of the National List trials for Chardon LL in 1998 and 1999, on behalf of the British Plant Breeders Society, and their impact on the research findings. [163206]

Mr. Morley: A thorough evaluation of all the data used for the assessment of Chardon LL in National List trials was conducted by the independent experts on the Herbage Value for Cultivation and Use (VCU) group. The group recommended that the 1998 Grainseed data were acceptable as part of a valid assessment of the performance of Chardon LL. However, the group recommended that the 1999 Grainseed data should be excluded because of substandard plant populations. This was done and data from a reserve site used instead.

Alan Simpson: To ask the Secretary of State for Environment, Food and Rural Affairs what evidence she has collated, in the absence of ruminant feeding studies, that Chardon LL has added value for cultivation and use in the United Kingdom. [163213]

Mr. Morley: The criterion for adding a variety to the UK National List is that it should, taking its qualities as a whole, represent a clear improvement compared with other forage maize varieties already on the UK List. Chardon has been assessed on this basis and found to meet the performance standards set to indicate a clear improvement in value for cultivation and use. The evidence for this is that in National List trials, Chardon's results met the improvement standards for several important characteristics. Animal feeding studies are not required for this assessment.

Mrs. Lawrence: To ask the Secretary of State for Environment, Food and Rural Affairs if she will publish the results of the Reading University Chardon LL feeding studies involving broiler chickens. [162980]

Mr. Morley *[holding answer 23 March 2004]*: I am unaware of any feeding studies undertaken by Reading University involving broiler chickens and GM maize Chardon LL Publication of the results of studies carried out by the University is a matter for them and those funding the work.

Illegal Timber

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs what action she is taking to ensure that illegally logged timber on board MV Greveno does not enter the United Kingdom. [163172]

Mr. Morley *[holding answer 23 March 2004]:* The UK is pressing for a new EU import Regulation as part of the EU Forest Law Enforcement, Governance and Trade (FLEGT) process. This Regulation would apply to timber imports from FLEGT partner countries. Until this Regulation is in force, Customs have no powers to prevent illegally logged timber from being imported into the UK.

The UK is working closely with the Government of Indonesia to control illegal logging and its associated trade. The UK Government have drawn the shipment of timber on the MV Greveno to the attention of the relevant Indonesian authorities, who will look into the issue immediately.

As requested by the Council of the European Union, the UK Government are also currently examining the feasibility of using national legislation, such as that related to money laundering, to deal with imports of timber that have been produced in contravention of the laws of the producer country.

Ministerial Statements

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs for what reason she did not announce the publication of the 4th Annual Report on UK Progress Towards Sustainable Development by means of a oral statement to the House. [162881]

Mr. Morley *[holding answer 22 March 2004]:* If too many announcements are made by oral statement at the end of Questions, Parliamentary business could be hindered.

I announced the publication of this annual report by means of a written statement to the House on 16 March.

Rural Transport

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list parishes and towns which have been awarded Parish Transport Grant in each year since the scheme's inception. [162829]

Alun Michael: The following list of town and parish councils have been awarded a Parish Transport grant since the start of the scheme in 2001.

Parish and town councils—1 April 2001 to 31 March 2002

Alstonefield
Acton Trussell and Bednall

Power Station Emissions

Mr. Trimble: To ask the Secretary of State for Environment, Food and Rural Affairs what emissions were recorded for each power station in each year from 1998 to 2002; and what formula was used to allocate emission permits to each power station. [156102]

Mr. Morley: The Government has used the Department of Trade and Industry's updated energy projections (UEP) as a basis for calculating sectoral and installation level allocations for the power generation sector. The sector allocation is based on UEP projections of carbon dioxide less the amount the Government has decided power stations are to contribute to meeting national climate change targets and a portion to be set-aside for the New Entrants Reserve. This sectoral allocation is then allocated pro-rata to individual power stations according to historical emissions.

The power generation sectoral allocation was calculated using the following formula:

Average annual phase 1 allocation =
Average annual phase 1 emissions projections (147.8 MtCO2)
—Annual contribution to achieving EU ETS saving (5.5 MtCO2 by 2010^)
—Annual contribution to the New entry reserve (8.2%)
i.e. Average annual phase 1 allocation
= 147.8–(1.8^)–[0.08*(147.8–1.8)]
= 134 million allowances
^Extrapolating back from 5.5MtCO2 in 2010, you get an average of 1.8MtCO2 saving over the three years of phase 1.

A significant proportion of the power generators have asserted that their historical emissions data is commercially confidential. We cannot publish the data without first consulting these operators and we have written to them seeking their views about the publication of this data. Subject to the response received from individual companies, I will write to the right hon. Member with the historical emissions data for power generators in the UK.

River Invertebrates

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs if she will meet representatives of angling associations to discuss the assistance which they can provide in the monitoring of invertebrates in rivers. [163078]

Mr. Bradshaw *[holding answer 24 March 2004]:* No. However, the Government are aware of concerns over invertebrate numbers in rivers. The Environment Agency has undertaken evaluation of invertebrate data collected for General Water Quality monitoring; this analysis continues and is moving to establish definitive research to identify the causes in the decline of invertebrate numbers. The Environment Agency is engaged with angling organisations as to how anglers may help in developing this work. The Government will

continue to encourage the Environment Agency to proceed with the research and collaboration with anglers and other interested bodies.

Sewerage

Paddy Tipping: To ask the Secretary of State for Environment, Food and Rural Affairs whether it is her policy to improve the liaison between local authorities and sewerage undertakers to control the rat population in sewers and drains more effectively. [162400]

Mr Morley *[holding answer 22 March 2004]:* Yes. In 1999, we worked with the Local Government Association and WaterUK to prepare and publish a joint protocol, which contained arrangements for closer working relationships between water companies and local authorities in respect of rodent infestations in sewers.

Shellfish

Mr. Amess: To ask the Secretary of State for Environment, Food and Rural Affairs what representations she has made to her European counterparts on a common European approach to the monitoring of toxins in shellfish; and if she will make a statement. [163234]

Mr. Bradshaw: None. This is the policy responsibility of the Food Standards Agency.

Mr. Amess: To ask the Secretary of State for Environment, Food and Rural Affairs what steps she is taking with the Food Standards Agency to minimise shellfish bed closures due to atypical positive results. [163236]

Mr. Bradshaw: The decision on whether to close shellfish beds is the policy responsibility of local Food Authorities, advised by the Food Standards Agency. The Department continues to stay in close contact with the Agency on a whole range of issues relating to the atypical positive results to ensure the problem is fully investigated and the appropriate actions are taken.

Sumatran Tiger

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what steps she is taking to help preserve the Sumatran tiger. [162898]

Mr. Morley: The Government are taking action through our participation in multilateral environmental agreements, notably the Convention on International Trade in Endangered Species, which help safeguard the Sumatran tiger and other endangered species. The Government also provides funds to support "21st Century Tiger", a wild tiger conservation partnership between the Zoological Society of London and Global Tiger Patrol, which has undertaken three projects on the Sumatran tiger over the last four years.

Waste Re-use

Mr. Peter Duncan: To ask the Secretary of State for Environment, Food and Rural Affairs what representations she has had from *(a)* the fuel industry and *(b)* environmental groups on the manufacture of road fuel from waste plastics. [162283]

Mr. Morley: The Department is not aware of receiving any recent representations, on the manufacture of road fuel from waste plastics, from either the fuel industry or environmental groups. The Waste and Resources Action Programme (WRAP) has, in the past, received inquiries on this issue. However, because WRAP'S remit is to develop markets for recycled materials, and the manufacture of road fuel from plastics does not meet the definition of recycling in the Packaging Directive (2004/12/EC), the issue has not been pursued.

Waste Management

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs if she will end the statutory monopoly of the Waste Management Industry Training and Advisory Body to issue certificates of technical competence. [162441]

Mr. Morley: The Department is currently reviewing the permitting of waste recovery and disposal activities. Informal consultation with stakeholders has shown strong support for continuing to require applicants for permits to demonstrate technical competence, which is a feature of the current waste management licensing system. However, there was also a view that other ways of demonstrating technical competence should be introduced in addition to certificates of technical competence issued by the Waste Management Industry Training and Advisory Board. We are considering how to deliver this as part of a new permitting regime and expect to formally consult on proposals in due course.

HOME DEPARTMENT

Correspondence

Mr. Burns: To ask the Secretary of State for the Home Department when the hon. Member for West Chelmsford will receive a reply to his letter of 27 August 2003 to the Department of Trade and Industry transferred to the Home Office on 4 September 2003 concerning Mrs. S. Hawkard. [152929]

Paul Goggins *[holding answer 5 February 2004]:* Baroness Scotland of Asthal QC replied to the hon. Member on 22 March 2004.

Crime Reduction Advisers

Mr. Oaten: To ask the Secretary of State for the Home Department what the *(a)* staffing and *(b)* cost changes have been over the last two years of the units headed by the crime reduction advisers based in regional Government Offices; and what measurable benefits have accrued from the increases. [163328]

Mr. Blunkett: The Home Office transferred 169 staff to the Government Offices (GO) in June 2002 to work on the Crime Reduction agenda, along with funding of £6.104 million. This included 24 research staff who remained on the Home Office payroll but who were co-located in the GOs. The staffing levels have remained the same in 2003–04, though the funding increased to £8.143 million to reflect the full year's cost.

Crime reduction teams in the nine Government Offices are focused on improving the performance of poor performing Crime and Disorder Reduction Partnerships and those with the highest crime rates. They are working closely with these partnerships to identify their strengths and weaknesses across a range of competencies and to develop and implement improvement plans. The deployment of researchers and analysts in each region has also allowed the crime teams to support and develop partnerships more effectively.

National Offender Management Scheme

Mr. Oaten: To ask the Secretary of State for the Home Department whether he has appointed a Programme Board for the National Offender Management Service in accordance with the rules of the Office of Government Commerce. [161165]

Paul Goggins: The implementation of the National Offender Management Service will be overseen by the Chief Executive of the Service and by the National Offender Management Board, chaired by me as Minister for correctional services, with senior representatives from the Home Office, Department for Constitutional Affairs and the Treasury.

Parliamentary Questions

Mr. Burns: To ask the Secretary of State for the Home Department when he will reply to the question from the hon. Member for West Chelmsford tabled on 2 February, reference 152929; and if he will make a statement on the reasons for the time taken to respond to the hon. Member's letter of 27 August on behalf of his constituent Mrs. S. Hawkard. [162397]

Paul Goggins *[holding answer 22 March 2004]:* I refer the hon. Member to the answer I gave him on 26 March 2004.

INTERNATIONAL DEVELOPMENT

Computer Misuse

Mr. Webb: To ask the Secretary of State for International Development how many cases of computer misuse there were in his Department in *(a)* 1997 and *(b)* 2003, broken down by category of misuse; and how many of those cases resulted in disciplinary action. [163287]

Hilary Benn: There were no cases of computer misuse within DFID in either 1997 or 2003, which were sufficiently serious as to warrant recording locally or in NISCC (UNIRAS) or to lead to disciplinary action.

Departmental Scientific Adviser

Dr. Iddon: To ask the Secretary of State for International Development whether his Department has a chief scientific adviser. [162477]

Hilary Benn: In view of the wide range of disciplines required for the tasks of the Department, DFID does not have a single Chief Scientific Adviser. Rather, the Head of Research maintains the liaison function with the Office of Science and Technology, drawing, as appropriate, upon the expertise and perspectives of the various advisory groups in the Department.

DFID is currently reviewing whether these arrangements need to be modified in any way to ensure that its research, policy and country programs continue to make effective use of up to date and relevant scientific knowledge.

Iraq

Mr. Gardiner: To ask the Secretary of State for International Development what part his Department played in discussions within the Coalition Provisional Authority in Iraq leading to changes to Iraq's banking legislation; and for what reasons no provision was made for credit unions. [163354]

Hilary Benn: While not directly involved in these discussions, DFID and other Government Departments were aware of the content of the legislation as it was being drafted, and a Bank of England Secondee to the CPA was involved in the drafting process. The main reason for introducing the new banking legislation was to allow for the establishment of a modern banking sector in Iraq as quickly as possible. The legislation is accordingly focused on this basic requirement.

It will be for future Iraqi Governments to decide on the detailed features of their financial system, including provision for credit unions.

Mr. Gardiner: To ask the Secretary of State for International Development what work *(a)* his Department, *(b)* the Coalition Provisional Authority and *(c)* non-governmental organisations are undertaking in Iraq to (i) build confidence in the banking system and (ii) ensure that women have equal access to *(a)* banks and *(b)* other financial services. [163355]

Hilary Benn: Building confidence in the banking system in Iraq will take time, and will depend to a considerable extent on the quality of the legal and institutional framework in which the banking system operates. The newly introduced banking legislation in Iraq is intended to provide the basic framework in which an effective banking sector can develop and gain the confidence of the Iraqi people.

Increasing women's participation in banking and other financial services is being addressed as part of wider efforts to enhance women's participation in political and economic activity generally.

Mr. Gardiner: To ask the Secretary of State for International Development what efforts *(a)* his Department and *(b)* the Coalition Provisional Authority are taking to ensure that the judicial system in Iraq offers equal justice for women. [163405]

Hilary Benn: DFID is funding a programme of Justice Sector Support, which is delivering training on international human rights law to 988 members of Iraq's judiciary, prosecution service and Bar Association. This includes training on women's rights. Through support to the Judicial Training Institute and the Iraqi Bar Association, the programme will also promote the professional role of women in the justice system. This is an important start to addressing women's access to justice.

The Coalition Provisional Authority (CPA) has been monitoring the potential impact of new legislation on women's access to justice. The UK has been a strong advocate of women's rights in Iraq. This is a priority in DFID's interim Country Assistance Plan for Iraq, copies of which are in the Libraries of both Houses.

Mr. Gardiner: To ask the Secretary of State for International Development what *(a)* resources and *(b)* financial support the (i) Coalition Provisional Authority and (ii) UK Government are offering to develop the Iraqi judicial system. [163406]

Hilary Benn: Coalition Provisional Authority assistance to the Iraqi justice sector includes a team which is providing advice and support to the Ministry of Justice. The team also provides access to resources for the repair, reconstruction and security of Court premises and prison facilities, and the identification and training of judicial and prosecutorial personnel. The CPA also provides advisers to an Office of Human Rights and Transitional Justice. Assistance focuses on forensic assessment and exhumation, training for local capacity building, control of standards and missing persons. The CPA is providing over $99 million project support to the Iraqi justice sector.

DFID has recently agreed justice sector support totalling £2.1 million over two years. The programme aims to strengthen the independence, integrity and professionalism of the Iraqi judiciary, prosecution service and Bar Association and includes training on

human rights law, ethics and standards. Additionally, the justice sector is one of the areas identified for support through the International Reconstruction Fund Facility for Iraq, to which DFID is making an initial contribution of £70 million.

The UK Government have also seconded one adviser to the CPA team advising the Ministry of Justice, another to advise CPA South, six advisers to the team working on Transitional Justice and Human Rights, and three prison rehabilitation and reform advisers.

TRADE AND INDUSTRY

Medical Instruments (Abortion)

Mr. Amess: To ask the Secretary of State for Trade and Industry if she will list the top 10 companies in the UK who make medical instruments used in abortions in order of percentage of market share in *(a)* 2002–03 and *(b)* 2003–04; and which of these companies are based in Essex. [162587]

Miss Melanie Johnson: I have been asked to reply.

This information is not held centrally.

Nuclear Decommissioning Authority

Mr. Watson: To ask the Secretary of State for Trade and Industry whether the Nuclear Decommissioning Authority will implement the recommendations of the Committee on Radioactive Waste Management on the long-term management and disposal of radioactive waste. [163645]

Mr. Timms: The Nuclear Decommissioning Authority (NDA) must have particular regard to relevant Government policy in carrying out its functions, including Government policy on the long-term management of radioactive waste. The Government will decide the policy for the long-term management of higher-level radioactive wastes, taking into account recommendations made to them by the Committee on Radioactive Waste Management (CoRWM).

Post Office

Mr. McLoughlin: To ask the Secretary of State for Trade and Industry if she will instruct Post Office Ltd. to publish a profile of the select teams of personnel involved in walking between each sub-post office that was proposed for closure in the West Derbyshire area plan and the named alternative branch, indicating how many of the personnel were *(a)* wheelchair users, *(b)* physically disabled, *(c)* aged between 65 to 75 years, *(d)* aged between 75 to 85 years, *(e)* aged over 90 years and *(f)* wheeling pushchairs and accompanied by young children. [163744]

Mr. Timms: No. Post Office Ltd. personnel involved in drawing up closure proposals under the urban reinvention programme undertake a detailed on the ground study assessment of the accessibility of the alternative offices identified as the main receiving branches and their facilities for the disabled. This assessment includes the nature of the terrain between the branches, the distance of the journey on foot, including how busy the roads are, where there are pedestrian crossings, traffic lights or underpasses where these need to be crossed. Access by public transport, predominantly by bus, is also checked giving route numbers and distance of stops from the closing and receiving branches. Availability of parking is also checked. All five offices in West Derbyshire proposed for closure have an alternative office within 0.5–1 mile accessible by bus.

Mr. Andrew Turner: To ask the Secretary of State for Trade and Industry what percentage of *(a)* businesses and *(b)* addresses in each postcode district (i) received postal deliveries before 9 a.m. Mondays to Fridays in (A) 1997 and (B) 2003 and (ii) are expected to receive such deliveries in 2005. [162494]

Mr. Timms: Conditions on the delivery of mail are a licensing matter for the regulator, Postcomm. The Postal Services Act 2000, and the License granted by Postcomm under it, requires Royal Mail to make one daily delivery to every household in the United Kingdom. It does not specify the time at which this has to be made, and consequently data on delivery percentages at particular times of the day are not available. Postcomm understands from Royal Mail that the reasons for the change to a single delivery were to improve efficiency and to maintain quality of service. Royal Mail believes that addresses on rural and dedicated business delivery routes are in any case highly unlikely to be affected by the move to a single daily delivery.

Small Business

Brian Cotter: To ask the Secretary of State for Trade and Industry if she will list the small business support schemes funded by her Department open to new business. [163199]

Nigel Griffiths: The small business support schemes currently available are:

Small Firms Loan Guarantee

Grant for Research and Development

Grant for Investigating an Innovative Idea

Knowledge Transfer Partnerships

In addition, the following five schemes will be available from April:

Knowledge Transfer Networks

Collaborative R&D

Access to best business practice

Support to implement best business practice

Selective finance for investment in England

Mrs. Curtis-Thomas: To ask the Secretary of State for Trade and Industry what action her Department has taken to improve access to finance for small businesses; and if she will make a statement. [163318]

Nigel Griffiths: The DTI has taken a number of steps to improve SME's ability to access investment capital. These include the Regional Venture Capital Funds, UK High Technology Fund, The Community Development Venture Fund (known as the Bridges Fund), Community Investment Tax Relief, Investment Readiness Pilots and Early Growth Funds. We are currently also developing the Enterprise Capital Funds as announced in the 2003 pre-Budget report.

Following our review of business support the Department has built on the success of the Smart scheme and replaced it with two new products, Grant for Research and Development and Grant for Investigating an Innovative Idea. The grants available under the new products are potentially bigger than under Smart. During the last two years the number of individuals and small businesses supported annually through Smart and the new products has increased by almost 50 per cent. In addition, the Department has also built upon the success of the Small Firms Loan Guarantee scheme by raising the amount available to manufacturing businesses and extending the scheme to new sectors such as child care and nursery education.

Recently, the Government have taken action to support small business via a wide range of initiatives, as outlined in "The Government Action Plan for Small Business", published on 8 January and available on the Small Business Service Website (www.sbs.gov.uk). It provides a comprehensive account of the significant Government help being made available to small businesses.

Wind Farms

Miss McIntosh: To ask the Secretary of State for Trade and Industry what assessment she has made of the economic viability of electricity generated from wind farms. [163622]

Mr. Timms: Modelling carried out to support the recent Innovation Review shows the current cost of onshore wind generation as 3.1–4 p/kWh expected to fall to ~2.5–3.2 p/kWh by 2020 and offshore wind generation as 6.0–7.6 p/kWh expected to fall to ~3.0–4.6 p/kWh by 2020.

These costs are indicative and subject to variation as the economics of electricity generated from both onshore and offshore wind farms are dependent on the amount of wind at the wind farm site. Electricity generated by onshore and offshore wind farms is eligible for support under the Renewables Obligation.

DEPUTY PRIME MINISTER

Council Tax Receipts (Greater London)

Simon Hughes: To ask the Deputy Prime Minister what the level of council tax receipts collected in Greater London was in each year since 1997, broken down by borough, and what the forecast figures are for the next year. [163766]

Mr. Raynsford: Tabled are the amounts of council tax collected in each London borough and the City of London, irrespective of the financial year to which they relate, in each year from 1996–97 to 2002–03.

Figures for the amounts of council tax received are not requested from local authorities until after the end of the relevant financial year. The amounts received during 2003–04 and future years will depend upon the council tax levels set for each year, changes in the tax base, the collection rates achieved, amounts of council tax benefit expenditure incurred, and amounts collected in respect of earlier years.

Amounts of council tax collected[1]

£000

	1996–97	*1997–98*	*1998–99*	*1999–2000*	*2000–01*	*2001–02*	*2002–03*

[1] Irrespective of the financial year to which it relates.

Green Belt House Building

Bob Spink: To ask the Deputy Prime Minister what proportion of new house building in the South East he estimates will be on Green Belt land up to 2020; and if he will make it his policy to prevent all new house building on Green Belt in the South East up to 2020. [163534]

Keith Hill: Government policy on Green Belts is set out in Planning Policy Guidance Note 2 (PPG2). It remains the policy to protect Green Belts as far as can be seen ahead and boundaries must be altered only exceptionally. Decisions on the need to alter boundaries in order to accommodate development are for regional planning bodies and local planning authorities in the first instance. Any proposals for changes should be brought forward through the regional and local planning process in order to ensure that they are subject to public consultation and scrutiny.

It is not be possible to estimate what proportion of development in the South East will be on Green Belt land up to 2020 until new regional spatial strategies (RSS) for the East of England and the South East are issued, probably in 2006 and 2007 respectively.

Housing Requirement

Mr. Sanders: To ask the Deputy Prime Minister what steps he is taking to meet the Office for National Statistics prediction of a need for 56 million homes in the United Kingdom by 2021. [163670]

Keith Hill: The Office of the Deputy Prime Minister was not able to identify the source of the reference to '56 million homes'. The latest population projections by Government Actuary's Department show the UK population rising from 59 million in 2002 to 63 million in 2021. It is, however, the number of households that relates to homes. The Office of the Deputy Prime Minister's 1996 based household projections for England show household numbers rising to 24 million in 2021 an increase of 3 million households from 2001.

The Sustainable Communities Plan, published in February 2003, set out a programme of action on how to ensure a better balance between housing supply and demand across the regions.

The Office of the Deputy Prime Minister is addressing the housing shortage in areas of high demand, especially in London and the wider South East, through a step change in housing supply.

The Office of the Deputy Prime Minister is working with local authorities and other stakeholders to ensure that existing planned levels of housing provision are delivered—this means an additional 930,000 homes by 2016.

The Office of the Deputy Prime Minister is also progressing delivery of the Growth Areas—which, along with London, have the capacity to deliver 200,000 additional homes above current planning targets by 2016.

The latest revisions to Regional Planning Guidance now underway are looking further—to 2021. Policy options will take into account the Barker Review's finding that current levels of housing supply are not sufficient. The Office of the Deputy Prime Minister agrees that to deliver our commitment to stability and affordability in the housing market a significant increase in development over time is needed. The Office of the Deputy Prime Minister needs to consider the scale of such development and how it can be delivered both in high demand areas and in areas suffering problems of low demand. The Office of the Deputy Prime Minister also need to balance the economic case for increased development against its social and environmental implications. The need to reflect all these issues in our policies, in order to avoid the mistakes of the past, underpins our commitment to deliver, not just more housing, but sustainable communities that people want to live in.

EU Structural Funds

Ann Winterton: To ask the Deputy Prime Minister how much local authority funding in the *(a)* North West, *(b)* North East and *(c)* Yorkshire and the Humber for the 2000 to 2006 period has been used for matched funding. [163717]

Mr. Raynsford: As regards European regional funding, this information is not held centrally and could be provided only at disproportionate cost. While the Office of the Deputy Prime Minister holds details of public sector contributions to European Regional Development Fund programmes, this is not broken down into individual categories, such as local authorities.

The public sector match funding contributions to the 2000–06 Objective 1 and 2 programmes in the North West, North East and Yorkshire and the Humber, from 2000 until 24 March 2004 are as follows.

Region and programme	Total spend (ERDF plus match funding) (£)	Public sector match funding (£)	Public sector as percentage of total
North West			
Merseyside Objective 1	334,357,790	137,238,950	41
North West Objective 2	401,255,420	189,157,370	47
North East			
North East Objective 2	345,981,850	162,709,330	47
Yorkshire and the Humber			
South Yorks Objective 1	258,080,290	56,745,723	22
Yorkshire and the Humber Objective 2	179,197,960	88,698,149	49

Note:
Exchange rate used £1 = €1.54.

Mobile Phone Masts

Mr. Gardiner: To ask the Deputy Prime Minister what monitoring his Department undertakes of the extent to which mobile phone companies share masts. [163358]

Keith Hill: The Mobile Operators' Association send statistics relating to site sharing to the Planning Minister every quarter.

Regional Funding

Ann Winterton: To ask the Deputy Prime Minister pursuant to his answer of 11 March 2004, *Official Report*, column 1712W, on regional assemblies/government, if he will list the funding for the year 2002–03 from each central Government Department to *(a)* the Government offices for and *(b)* the non-departmental public bodies operating in the regions of (i) the North West, (ii) the North East and (iii) Yorkshire and the Humber. [163718]

Mr. Raynsford: The information requested is as follows.

(a) The funding for the year 2002–03 from each central Government Department to the three Government Offices was as follows:

Government Office	DTLR	DTI	DfES	Defra	HO	DCMS	DoH	Total
North East	4,472	2,671	2,043	323	592	63	58	10,222
North West	7,367	3,953	2,848	628	794	63	117	15,770
Yorkshire and the Humber	4,985	2,571	2,340	564	692	63	62	11,278

Note:
All figures are in £000. DTLR became the Office of the Deputy Prime Minister and the Department for Transport during the year in question and so for the purposes of this table, it is assumed that DTLR was in existence for the whole year.

(b) Information on the funding allocated by each central Government Department to non-departmental public bodies operating in each region is not held centrally, and could be provided only at disproportionate cost. In terms of the Office of the Deputy Prime Minister's non-departmental public bodies, only two, English Partnerships and the Housing Corporation, allocate their funding on a regional basis.

English Partnerships' Departmental Expenditure Limit utilisation for 2002–03 for the three regions was as follows:

	£ million
North East	14.5
North West	28.5
Yorkshire and the Humber	16.0

Programme funding provided by the Housing Corporation to registered social landlords operating in the region in 2002–03 was as follows:

	£ million
North East	23.7
North West	95.6
Yorkshire and the Humber	56.2

Telecommunications Transmissions

Mr. Andrew Turner: To ask the Deputy Prime Minister what guidance is given to local planning authorities on the protection of wildlife and domestic animals from the adverse effects of telecommunications transmissions; and what his policy is on where the responsibility lies for the protection of wildlife from such transmissions. [164079]

Keith Hill: The Government's statutory adviser, the National Radiological Protection Board (NRPB), has published guidelines on limiting exposure to electromagnetic radiation for the protection of human health. Following the recommendation made in the Stewart Report on Mobile Phones and Health in 2000 the Government adopted the international guidelines on public exposure set by the International Commission on Non-Ionising Radiation Protection (ICNIRP) as a precautionary measure to limit electromagnetic radiation exposure from mobile phone base stations.

There is no separate advice for local planning authorities or policy on the exposure of wildlife and domestic animals to electromagnetic radiation.

CULTURE, MEDIA AND SPORT

BACS

Brian White: To ask the Secretary of State for Culture, Media and Sport what progress her Department has made to manage the changeover from the Bank Automated Clearing System to the new BACSTEL-IP system for electronic payments. [164318]

Mr. Caborn: The Department's Payments and Receipts Contractor has obtained costs for the new hardware and software required for the upgrade, and made plans for the migration to BACSTEL-IP. The contractor's various sponsoring banks, who will drive the migration timetable, have stated that they are in the process of drawing up a timetable for the migration of all their customers.

Film Industry

Mr. Sheerman: To ask the Secretary of State for Culture, Media and Sport (1) what steps she is taking to secure the financial future of the British Federation of Film Societies; [163381]

(2) what representations she has received from film societies concerning their funding from the UK Film Council; [163382]

(3) what steps she is taking to ensure that the British Film Institute actively supports the work of the British Federation of Film Societies and its constituent members; [163384]

(4) what discussions she has had with *(a)* the British Film Institute and *(b)* the British Federation of Film Societies concerning the Annual Films Viewing Weekend and its continuation on a financial basis that supports local film societies. [163385]

Estelle Morris: The UK Film Council, the Government's strategic adviser for film, has recently completed an extensive consultation on its funding and policy priorities for April 2004 to March 2007. The consultation document "Three Years On" proposes that the UK Film Council should continue to fund the British Federation of Film Societies (BFFS) at £100,000 per annum until 2006–07. This funding would form part of the council's substantial budget for its Distribution and Exhibition fund, which aims to promote accessibility to film across the country. This proposal is supported by the British Film Institute. The BFFS would be required to demonstrate the impact of its work in developing the diversity and range of cinema distribution and appreciation. Beyond continuation of funding, the UK Film Council has outlined plans for a fund for digital equipment for film societies, of direct benefit to constituent members of the BFFS.

The DCMS has received no representations from film societies within the last year, concerning funding from the UK Film Council. The UK Film Council has received one letter from BFFS, and will shortly meet the BFFS to discuss the issues raised.

Support for film societies, and thus the BFFS, has been a key consideration in the recent BFI Strategic Review, and is being addressed as part of broader plans to improve access to resources and collections. Stakeholders including the BFFS have been extensively consulted during this process, and the BFI is firmly committed to working more strategically with national bodies such as the BFFS in their advocacy of specialised film culture.

The UK Film Council and BFI will provide ongoing financial support for the Annual Films Viewing Weekend via a heavily subsidised rate for the use of the National Film Theatre (NFT), the event's venue. DCMS has not been involved in the discussions.

Department-Sponsored Activities

Mr. Goodman: To ask the Secretary of State for Culture, Media and Sport how much funding has been allocated to *(a)* Creative Partnerships, *(b)* Space for Sport and Arts, *(c)* Sports Action Zones and *(d)* Youth Music Action Zones in (i) 2004–05, (ii) 2005–06 and (iii) total. [163720]

Estelle Morris: The information is as follows:

(a) Creative Partnerships has been allocated: (i) £25 million in 2004–05; (ii) £45 million in 2005–06; and (iii) a total of £110 million over four years from 2002–06.

(b) Space for Sport and Arts has been allocated total funding of £134 million over the period 2000–05. £128.4 million has been awarded to date.

(c) Sport Action Zones have been allocated: (i) £1.9 million in 2004–05; (ii) £1 million in 2005–06; amounting to a total of (iii) £2.9 million over the two years.

(d) Youth Music Action Zones will receive: (i) £1.58 million in 2004–05; (ii) the allocation for 2005–06 has not yet been finalised; (iii) Youth Music have made available a total of £15 million to support Action Zones in England over the period 2002–06.

Departmental Buildings

Mr. Llwyd: To ask the Secretary of State for Culture, Media and Sport what *(a)* renovation and *(b)* maintenance projects on buildings (i) owned and (ii) rented by her Department were undertaken in each of the last five years; and what the associated costs were of each. [163950]

Mr. Caborn: DCMS does not occupy any freehold buildings. During the financial year 2000–01 works to a value of £1.5 million were undertaken to link two adjoining buildings and reconfigure accommodation for greater operational efficiency and modernisation of facilities. In 2002 exterior stone cleaning was performed on the main buildings at a cost of £120,000 in compliance with the lease. In 2003 one previously vacant floor of a satellite building was refurbished, at a cost of £46,000 in order to facilitate and accommodate restructuring of part of the Department. In the same year two obsolete fire warning and alarm systems were replaced at a cost of £153,000.

FOREIGN AND COMMONWEALTH AFFAIRS

EU/Israel Trade

Dr. Tonge: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will discuss with his European Union counterparts the suspension of the EU/Israel trade agreements. [163556]

Mr. MacShane: The Government do not intend to raise the suspension of the EU/Israel Association Agreement in upcoming discussions with EU counterparts. The Government believe that, as a friend of Israel and the Palestinians, close engagement provides us with the greatest chance of encouraging both sides to take the necessary steps. We do not believe that suspension of the EU/Israel Association Agreement would bring the parties any nearer to a peaceful resolution.

General Affairs and External Relations Council

Mr. Connarty: To ask the Secretary of State for Foreign and Commonwealth Affairs what the outcome was of the General Affairs and External Relations Council held on 22 March; what the Government's stance was on the issues discussed, including its voting record; and if he will make a statement. [163686]

Mr. MacShane: The information is as follows.

Outcome of the 22 March 2004 General Affairs and External Relations Council

My right hon. Friend the Foreign Secretary represented the UK at the General Affairs and External Relations Council (GAERC) in Brussels on 22 March 2004.

Conclusions were agreed on the strategic partnership for the Middle East, the assassination of Sheikh Yassin, Iran, Western Balkans, UN Commission on Human Rights, Afghanistan, EU military rapid response, EU ACP partnership—water facility, and protection of EU seafarers in third countries—The Tasman Spirit.

General Affairs Session

Progress of work in other Council configurations

The Council took note of a progress report from the Presidency on work under way in the Council's other configurations (Economic and Financial Affairs; Employment, Social Policy, Health and Consumer Affairs; Competitiveness; Environment; and Education, Youth and Culture).

Preparation for the spring European Council

The GAERC finalised an annotated draft agenda and draft conclusions prepared by the Presidency for the 25–26 March European Council in Brussels.

The European Council will examine a package of measures presented by the Presidency with the aim of giving a renewed impulse to efforts to combat terrorism following the 11 March terrorist attacks in Madrid. It will review the international situation and assess the prospects for progress in the Intergovernmental Conference on the draft EU Constitutional Treaty. The European Council is also expected to agree on the procedure to be followed for preparation of the EU's financial perspective for 2007–13 and (as is customary at spring councils) it will pursue work on the structural reform strategy that it laid down at Lisbon in March 2000.

Combating terrorism

The GAERC examined a package of measures (prepared by a 19 March Justice and Home Affairs Council) aimed at giving a renewed impulse to efforts to combat terrorism following the 11 March terrorist attacks in Madrid. The GAERC agreed to forward the measures to the European Council for approval.

External relations session

Western Balkans

The Council discussed Kosovo following recent events in the region and adopted Conclusions calling for an immediate and definitive end to the violence and condemning all acts of ethnically motivated violence. There were also Conclusions on Serbia and Montenegro, where the Council expressed readiness to co-operate with the newly formed Government but made clear that further progress towards European Integration is contingent on concrete action to implement political arid economic reforms. And there were short Conclusions on Macedonia's presentation of its application to join the EU.

ASEM

The Council took stock of preparations for the 17–18 April Asia-Europe Foreign Ministers Meeting (ASEM) at Kildare. It examined how to approach the issue of Burma's request to participate at the fifth ASEM summit at Hanoi on 8–9 October. The Presidency will continue consultations in order to find a solution on this issue.

Strategic Partnership with the Mediterranean and the Middle East

The Council welcomed the Presidency's interim report on the Strategic Partnership with the Mediterranean and the Middle East and looked forward to the June European Council when it will be able to consider the final article.

Short conclusions condemning the killing of Sheikh Ahmed Yassin were also adopted.

Iran

Conclusions were adopted on the Iranian nuclear programme in light of the 8–13 March meeting of the International Atomic Energy Agency's Board of Governors. The Conclusions called on Iran to comply fully with the provisions set out in 13 March Board of Governors' resolution and welcomed Iran's decision to extend the scope of its suspension of enrichment-related and reprocessing activities.

AOB: Russia

The Council had a brief discussion on the extension of the EU-Russia Partnership and Co-operation Agreement (PCA) to the new EU member states. The GAERC noted that contacts were ongoing to ensure that the extension was in place by 1 May.

Land Mines

Mr. Gardiner: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent steps his Department has taken to promote the Convention on the Prohibition on the Use, Stockpiling, Production and Transfer of Anti-Personnel Mines. [163208]

Mr. Rammell: We are committed to promoting the Convention in the lead up to its first Review Conference in Nairobi at the end of this year. Following a comprehensive lobbying campaign of those states not party to the Convention in 2003, Foreign and Commonwealth Office officials will be actively participating in several regional seminars and workshops aimed at promoting the Convention and increasing the number of States Parties. They include events in Vienna, Tokyo and Vilnius.

We also participate in the informal intersessional meetings of the Convention and are members of both the Universalisation and Mobilisation Contact Groups. A UK official is Chair of the Sponsorship Programme in Geneva, which is vital in facilitating the attendance of heavily mine-affected countries to these meetings.

In addition to mine action funding provided by the Department for International Development, we have provided donations to the Convention's International Support Unit based in Geneva and to Landmine Monitor, an annual international publication produced by the International Campaign To Ban Landmines.

Mr. Gardiner: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with countries which are not signatories to the Ottawa Convention about their signing up to the Convention. [163404]

Mr. Rammell: The Government considers that the best way of combating the production, use, stockpiling or transfer of anti-personnel landmines is to persuade as many countries as possible to sign the Ottawa Convention. The United Kingdom was among the first states to ratify the Convention and we continue to urge others to do the same. During 2003 we undertook, through our diplomatic missions, a comprehensive lobbying exercise of those states not party to the Convention, urging their ratification or accession at the earliest opportunity. This exercise was part of our activities in the Ottawa Convention's Universalisation Contact Group. We have built on this exercise in 2004 with a more targeted approach and hope to use the various regional events being held in the run up to the Nairobi Review Conference to encourage non-States Parties to sign the Convention.

Council of Europe

Mr. David Atkinson: To ask the Secretary of State for Foreign and Commonwealth Affairs what his Department's assessment is of progress made by the Russian Federation in meeting the commitments and obligations it entered into upon accession to the Council of Europe; what his Department's assessment is of areas on which further progress should be made; and if he will make a statement. [163220]

Mr. Rammell: The latest Council of Europe (CoE) Resolution on Russian implementation (1277 of 23 April 2002) acknowledges that progress has been made in many areas, for example, judicial reform, the transfer of pre-trial detention centres to the Ministry of Justice and adoption of the Law on the Office of the Commissioner for Human Rights. Progress in other spheres such as the moratorium on the use of the death penalty is welcome, but it remains to be abolished formally and implementation is thus incomplete. The situation has however deteriorated in some areas. In particular, in the level of media freedom and the effect of the State controlled media on the conduct of free and fair elections. I refer the hon. Member to the declaration published by the Presidency on behalf of the European Union on the Presidential elections in Russia on 17 March 2004.

We also remain seriously concerned over the situation in Chechnya. The prosecution of those responsible for human rights violations remains limited to a few key cases, while the majority of reported abuses go uninvestigated. There continue to be reports of widespread human rights abuses, including rising numbers of 'disappearances', by federal forces and local militias in Chechnya.

Most legal instruments pertaining to the accession of Russia to the CoE have been signed and ratified. However, Protocol 6 to the European Convention on Human Rights, and The European Charter for Regional or Minority Languages have been signed but not ratified. Furthermore, The European Social Charter and The Convention on Transfer of Sentenced Persons have not yet been signed.

We continue to support the CoE in remaining engaged with Russia and to encourage Russia to implement its commitments.

PRIME MINISTER

Environmental Matters

Norman Baker: To ask the Prime Minister on what date he next intends to give a speech on environmental matters. [164038]

The Prime Minister: I regularly give speeches on a wide range of domestic and international issues, which cover environmental issues. My forthcoming speaking engagements are announced at the appropriate time.

Mr. Kenneth Norden

Bob Spink: To ask the Prime Minister if he will meet Mr. Kenneth Norden to discuss the loss of his final salary pension scheme. [163594]

The Prime Minister: I have asked my hon. Friend the Minister for Pensions to meet the hon. Gentleman's constituent about this matter on my behalf.

Parliamentary Questions

Norman Baker: To ask the Prime Minister how many, and what percentage of Written Parliamentary Questions tabled to him in 2003 he answered by reference to an earlier Parliamentary Answer. [164037]

The Prime Minister: This information is not held in the format requested. However, it is a matter of public record and can be found in the *Official Report*.

WORK AND PENSIONS

Environmentally Sustainable Procurement

Mr. Sheerman: To ask the Secretary of State for Work and Pensions in what ways environmentally sustainable procurement strategies within the Department have driven innovation in the design and supply of products. [159149]

Maria Eagle: In September 2003, a report signalled how recommendations from the inter-departmental Sustainable Procurement Group (SPG) would be taken forward. Following this DWP introduced revised policy guidance that made it official departmental policy to purchase sustainable goods and services wherever possible.

Guidance is currently being revised to include comprehensive assistance for the Department's procurement officials to achieve this objective. Additionally governance controls for Departmental projects and programmes, which can include major procurement exercises, require that sustainability issues are considered within business cases.

We are now working to include sustainability within several major contracts that are shortly to be renewed as well as reviewing existing contracts for their sustainability impacts. Further work on sustainable procurement and innovation is in hand but it is too early to assess what impact these provisions have had on innovation in the design and supply of products. Information on progress in this area will be included within the annual DWP Sustainable Development Report, which is published in the autumn.

European Year of Disabled People

Mr. Goodman: To ask the Secretary of State for Work and Pensions (1) what funding his Department granted to the European Year of Disabled People National Co-ordinating Chamber in each year since 2002; [163699]

(2) what plans the European Year of Disabled People National Co-ordinating Chamber has made for its employees in 2004; and if he will make a statement; [163700]

(3) how many people are employed by the European Year of Disabled People National Co-ordinating Chamber. [163701]

Maria Eagle: The UK National Co-ordinating Committee was established in January 2002 to develop, agree, implement, and oversee a programme of activity for the European Year of Disabled People 2003. It has been responsible for making recommendations to Ministers on the use of the £1.5 million allocated in 2002 by the Department for Work and Pensions and the European Commission to support EYDP activities. It comprises 16 representatives of key national disability organisations and organisations in the public and private sectors. It has met regularly since January 2002 and will be disbanded on 30 June 2004 when the EYDP officially comes to an end. It has no employees. Secretariat services have been provided by the Department for Work and Pensions.

Executive Agency Staff

Hugh Bayley: To ask the Secretary of State for Work and Pensions how many full-time equivalent jobs there were in his Department and its executive agencies, and prior to 2001 with the Department of Social Security and its agencies, and those agencies which transferred to his Department in 2001, in each year since 1997. [162975]

Maria Eagle: Information is not available on the number of full time equivalent jobs in the Department for Work and Pensions as the numbers of historical vacancies at any given time is not held centrally and could be obtained only at disproportionate cost.

The number of full time equivalent permanent and temporary staff employed in the Department for Work and Pensions, and the relevant predecessor organisations, for each year since 1997 is shown in the table.

	Department of Social Security	*The Employment Service*	*Total*	*Department for Work and Pensions*
31 March 1997	98,194	31,550	129,744	—
31 March 1998	93,635	30,796	124,431	—
31 March 1999	95,048	32,675	127,723	—
31 March 2000	87,261	32,620	119,881	—
31 March 2001	85,423	34,110	119,531	—

31 March 2003	—	—	—	130,007

Notes:

1. Figures are on a whole time equivalent (rounded) and include temporary staff.
2. Figures are point in time at the dates quoted.
3. Figures are consistent with Cabinet Office definitions other than that staff on paid maternity leave are included in the figures above.
4. The reduction in the Department of Social Security staffing in 1999–2000 takes account of the transfer of the Contributions Agency and Working Families Tax Credits to the Inland Revenue.
5. The reduction in staffing in 2000–01 takes account of the outsourcing of the Information Technology Services Agency.

Jobcentre Plus (Staff with Disabilities)

Mr. Goodman: To ask the Secretary of State for Work and Pensions how many *(a)* male and *(b)* female advisers working for Jobcentre Plus in (i) 2002 and (ii) 2003 had a disability, broken down by disability type. [163694]

Maria Eagle: Information on numbers of staff in the Department for Work and Pensions is not held by job type.

Pension Credit

Mr. Webb: To ask the Secretary of State for Work and Pensions if he will make it his policy to publish in advance a schedule of publication dates for pension credit monthly progress reports; and if he will make a statement on the method of release of these reports to hon. Members. [164047]

Malcolm Wicks: We have so far published progress reports on a monthly basis, starting on 14 October 2003. Publication dates for future reports have not yet been agreed. The precise timing, frequency and format of the reports to Parliament will be reviewed in the context of Agency Business Plans for the next operational year. The method of release of reports has been to place them in the House of Commons Library and to make copies available for hon. Members in the Vote Office. More detailed information is also frequently provided to hon. Members in reply to written and oral Questions.

Mr. Webb: To ask the Secretary of State for Work and Pensions pursuant to his answer of 17 March 2004, *Official Report*, columns 317–8W, on pension credit, if he will break down the changes of circumstances reported by customers by *(a)* category of change and *(b)* age group of claimant. [164049]

Malcolm Wicks: It is not possible to break the information down in the way requested.

Pensions

Vera Baird: To ask the Secretary of State for Work and Pensions what proportion of *(a)* women and *(b)* men are members of private (i) occupational and (ii) personal pension schemes, broken down by ethnic group. [163767]

Malcolm Wicks: The breakdown of those of working age contributing to a private pension by ethnic grouping is given in the table.

Membership of private pension schemes by gender within ethnic group category

Ethnic group	*Occupational*			*Personal*		
	Male	*Female*	*All*	*Male*	*Female*	*All*
White	35	33	34	17	9	13
Mixed	30	24	26-	11	9	10
Indian	28	23	26	12	7	10
Pakistani and Bangladeshi	9	8	9	4	1	2
Any other Asian/Asian British background	17	22	19	8	6	7
Black or Black British	25	28	27	5	4	5
Total	34	32	33	16	8	12

Notes:
1. All figures are estimates derived from the Family Resources Survey (FRS) 2002–03, the latest year for which data are available. The coverage of the survey is the UK.
2. Percentages are based on relevant ethnic group respondent population from the Family Resources Survey. Some estimates are based on small sample numbers.
3. Membership relates to those who are currently contributing to a private pension scheme or whose employer is currently contributing.
4. Stakeholder pensions are included as personal pensions.
5. Working age is ages 20–59 for women and 20–64 for men.

Source:
Family Resources Survey 2002–03.

Civil Service

Paul Holmes: To ask the Secretary of State for Work and Pensions what consultation he has conducted with *(a)* staff, *(b)* unions, *(c)* management and *(d)* senior management within his Department on planned redundancies and redeployment of staff over the next four years; whether he plans to have further discussions with these groups on this matter; and if he will make a statement. [163296]

Maria Eagle: My right hon. Friend the Secretary of State wrote, jointly with the Permanent Head of the Department, to all staff and managers immediately following the Budget announcement to explain the context and rationale for the decision to reduce staff numbers.

Shortly after the announcement he met with the General Secretary and other officials of Public and Commercial Services Union.

Officials in the Department meet regularly with the trade unions to discuss workforce management issues and these meetings will continue as detailed plans are now developed.

Winter Fuel Allowance

Simon Hughes: To ask the Secretary of State for Work and Pensions how many senior citizens in *(a)* Greater London and *(b)* each Greater London borough are eligible for the winter fuel allowance; and what this represents as a percentage of the total number of senior citizens. [163763]

Malcolm Wicks: The number of people in Greater London and each Greater London Local Authority who have received a winter fuel payment so far is in the table. We are not able to say how many people were ineligible for this winter's payment.

Region/Local authority	*Payments made in 2003–04*
Greater London	1,071,295
Camden	25,470
City of London	1,055
Hackney	21,505
Hammersmith and Fulham	19,470
Haringey	26,670
Islington	22,090
Kensington and Chelsea	18,670
Lambeth	29,575
Lewisham	33,720
Newham	26,460
Southwark	28,650
Tower Hamlets	21,625
Wandsworth	32,950
Westminster	25,560
Barking and Dagenham	26,685
Barnet	52,875
Bexley	43,560
Brent	36,540
Bromley	61,385
Croydon	52,860
Ealing	42,350
Enfield	45,810
Greenwich	32,475
Harrow	37,215
Havering	49,070
Hillingdon	41,710
Hounslow	31,090
Kingston upon Thames	23,650

Region/Local authority	Payments made in 2003–04
Merton	27,945
Redbridge	39,905
Richmond upon Thames	28,780
Sutton	32,145
Waltham Forest	31,770

Notes:

1. Numbers are rounded to the nearest 5.
2. Please note that these figures for 2003–04 refer only to the main payment run i.e. they do not include the late payment run figures. We estimate that there are approximately 100,000 people in Great Britain paid via late payment runs (0.8 per cent. of all payments). However, since late payment runs are mainly in respect of non-system cases whose claim had not been received by Qualifying Week, they are heavily skewed towards men aged 60.

HEALTH

Agency Staff

Sarah Teather: To ask the Secretary of State for Health how much was spent on agency fees by *(a)* North West London Strategic Health authority, *(b)* North West London Hospitals NHS Trust and *(c)* Brent Primary Care Trust in each year since 1997. [149899]

Mr. Hutton: The national health service does not separately record the cost of employing agency staff. The figures in the tables include total cost to the NHS of staff not directly employed by NHS bodies.

The tables show total non-NHS staff expenditure for NHS trusts, health authorities and a primary care trust in the North West London area.

Total non-NHS Staff Expenditure by (a) North West London Strategic Health Authority, (b) North West London Hospitals NHS Trust and (c) Brent Primary Care Trust—1997–98 to 2002–03

		£
1997–98		
(a)	Kensington, Chelsea and Westminster HA	59,189

(b)	North West London Hospitals NHS Trust	11,674,257
(c)	Brent Teaching PCT	5,826,724

[1] All 2002–03 data are provisional.

Notes:

1. The North West London Strategic Health Authority was established in 2002–03. Prior to this, a combination of four health authorities (Kensington, Chelsea and Westminster HA, Brent and Harrow HA, Ealing, Hammersmith and Hounslow HA and Hillingdon HA) serviced the North West London area.
2. In 1999–2000, the North West London Hospitals NHS Trust was established by the merger of two NHS Trusts (Central Middlesex Hospitals NHS Trust and Northwick Park and St. Mark's NHS Trust).
3. Brent Teaching Primary Care Trust was established in 2002–03.

Annual financial returns of Strategic Health Authorities 2002–03.

Bedfordshire Health Authority

Mr. Chope: To ask the Secretary of State for Health which health body has the authority to remove a caution registered against residential property in respect of Bedfordshire Health Authority's interest in relation to a loan required to complete the original purchase of that property. [157601]

Dr. Ladyman *[holding answer 1 March 2004]*: The Bedfordshire and Hertfordshire Strategic Health Authority has the authority to have a caution removed from a property that it has an interest in.

Cancer Services

Mrs. Curtis-Thomas: To ask the Secretary of State for Health (1) how many and what percentage of women in Crosby with suspected breast cancer saw a specialist within two weeks in each of the last five years; [160386]

(2) how many and what percentage of suspected cancer patients in Crosby saw an NHS consultant within two weeks in each of the last seven years. [160393]

Miss Melanie Johnson: The information requested is not collected on a constituency basis but by national health service trust. A copy has been placed in the Library. The information is also available at http://www.performance.doh.gov.uk/cancerwaits/index.html

"Choosing Health"

Mr. Yeo: To ask the Secretary of State for Health if he will publish the evidence on which the finding is based that premature death from *(a)* cancer has reduced by 10 per cent. and *(b)* coronary heart disease has reduced by 23 per cent. since 1997, as set out in the foreword to the consultation document Choosing Health. [160660]

Miss Melanie Johnson: "Our Healthier Nation", the Government's overall health strategy for England, sets out targets to reduce the death rates from cancer by at least 20 per cent., and all circulatory diseases by at least 40 per cent., in people aged under 75 years by 2010. Progress in respect of these targets are measured against the baseline of the average of the three years 1995, 1996 and 1997.

The targets are monitored using mortality statistics from death registrations provided by the Office for National Statistics. The mortality rates are subsequently calculated by the Department of Health. Mortality rates are age standardised to allow for changes in the age structure of the population (using the European standard population as defined by the World Health Organisation).

The following tables show the three year average mortality rates for all cancers and all circulatory diseases since the baseline figure was established.

All cancers (Malignant Neoplasms) (ICD10 C00-C97)

Persons—aged under 75 years

England	*3 year average mortality rate*
1995–96–97 (Baseline)	141.4
1996–97–98	138.7
1997–98–99	135.1
1998–99–2000	132.3
1999–2000–01	129.1
2000–01–02	126.8
Percentage change in rate since baseline	-10.3

Source:

Office for National Statistics (European age standardised mortality rates per 100,000 population from death registrations, calculations by Department of Health).

All circulatory diseases (ICD10 100–199)

Persons—aged under 75 years

England	*3 year average mortality rate*
1995–96–97 (Baseline)	141.5
1996–97–98	135.7
1997–98–99	128.7
1998–99–2000	122.0
1999–2000–01	114.8
2000–01–02	108.5
Percentage change in rate since baseline	-23.4

Source:

Office for National Statistics (European age standardised mortality rates per 100,000 population from death registrations, calculations by Department of Health).

Coronary Angiograms

Mr. Moss: To ask the Secretary of State for Health what the cost of a coronary angiogram was in each NHS hospital trust in England in the latest period for which figures are available. [150731]

Miss Melanie Johnson: The information requested has been placed in the Library.

Free Health Care

Mr. Heathcoat-Amory: To ask the Secretary of State for Health what checks are carried out by *(a)* general practitioners and *(b)* hospitals to establish that patients from abroad are entitled to health care free at the point of delivery. [155796]

Mr. Hutton: General practices need to check details of an individual's residence or previous registration before deciding whether to accept the person as a registered patient, either on a permanent or temporary basis. This is set out in regulations and guidance. For hospital services, regulations require the national health service trust providing treatment to make

> "such enquiries as it is satisfied are reasonable in all the circumstances, including the state of health of the overseas visitor"

to determine a patient's chargeable status. Guidance makes clear that all patients should be asked a baseline residency question, but it is for individual trusts to decide how far it is reasonable to go in following up on the response.

General Practitioners

Simon Hughes: To ask the Secretary of State for Health how many *(a)* nurses and *(b)* general practitioners are in training in (i) each London borough, (ii) Greater London and (iii) England; and what the figures were in 1997. [162366]

Mr. Hutton: The available information on the number of general practitioner registrars and student nursing populations is shown in the table. Student nursing population information by strategic health authority is only available for 2001–02 and from 1998–99 for the Greater London area.

GP registrars and nursing course student populations by strategic health authority (SHA) and primary care trust (PCT) for London and England

Department of Health General and Personal Medical Services Statistics.

Tim Loughton: To ask the Secretary of State for Health how many general practitioners he estimates over-prescribe *(a)* Seroxat and *(b)* other selective serotonin re-uptake inhibitors. [162564]

Ms Rosie Winterton: Information is not available in requested format.

It is not possible to estimate the numbers of general practitioners prescribing above the recommended doses.

Hormone Replacement Therapy

Sandra Gidley: To ask the Secretary of State for Health what assessment he has made of the link between hormone replacement therapy and an increased risk of *(a)* stroke and *(b)* heart disease; and if he will make a statement. [161927]

Miss Melanie Johnson: The Committee on Safety of Medicines (CSM) and its expert working group on hormone replacement therapy (HRT) has kept the safety of HRT under constant review and provided targeted advice to women and health professionals in response to important new evidence as it has emerged.

Despite some weak observational evidence suggesting a possible benefit, HRT has never been licensed for the prevention of heart disease in the United Kingdom. In 2002, two large studies in the United States provided important new clinical trial information about the effect of combined oestrogen plus progestogen HRT on the risk of heart disease in women with and without a pre-existing heart condition. One of these studies further demonstrated an effect of HRT on the risk of stroke. Immediately upon publication of this study, the CSM informed health professionals and women that HRT had not been proven to be beneficial in preventing coronary heart disease and may in fact result in a small

increase in the risk in the first year of use. The CSM also advised that this type of HRT causes a small increase in the risk of stroke.

Clear warnings about the risk of heart disease and stroke in association with combined HRT use have been agreed throughout Europe and are being included in the summary of product characteristics for health professionals and the patient information leaflet that accompanies each pack of medicine.

In addition, the Medicines and Healthcare products Regulatory Agency (MHRA) has placed a comprehensive review of the risks (including heart disease and stroke) associated with HRT use on its website. Detailed information has also been published in the safety bulletins issued by the MHRA and the Chief Medical Officer, which are available on their respective websites.

The CSM's expert working group on HRT has been informed that the oestrogen-only arm of the US Women's Health Initiative trial has now found that the risk of stroke in users of this HRT preparation is increased similarly to combined HRT. These findings have not yet been published, but will be urgently considered by the CSM and its expert working group on HRT as soon as they are available. When their review is complete, the current product information will be updated as necessary and women and health care professionals will be clearly informed of the new advice.

The CSM advises that for the alleviation of menopausal symptoms, health professionals should prescribe the lowest effective dose of HRT for the shortest possible time and perform regular health checks on HRT users, including a reassessment of the need to continue HRT on an annual basis. The CSM also advises that for the prevention of osteoporosis, HRT should only be used by women who are intolerant of, or contraindicated for, other medicines approved for this purpose.

IT

Mr. Burstow: To ask the Secretary of State for Health what consultation has been undertaken with healthcare professionals before the awarding of contracts under the National Programme for Information Technology; and if he will make a statement. [162186]

Mr. Hutton: Extensive consultation has taken place with clinical representative groups, including the professional Royal Colleges, the General Medical Council, and the British Medical Council, all of whom have provided valuable input. As well as the national professional bodies and groups, the national programme for information technology (NPfIT) team has engaged closely with expert primary care practitioners, including practising general practitioners, who are there to represent and feedback issues with their professional colleagues.

The National Clinical Advisory Board has ensured that the wide-ranging clinical needs and requirements are reflected in the design of the NPfIT solutions and integrated into the ongoing plans of the programme. There are currently 29 full members and 12 working groups covering a variety of care settings, from cancer care to out of hours care.

The NPfIT to date has hosted around 400 local events, engaging managers, clinicians, allied health professionals and IT staff. Over 21,000 individuals have been involved. We are undertaking a concerted effort to ensure as many people as possible are now engaged on the local plans to prepare for phased roll out after April 2004.

Seroxat

Paul Flynn: To ask the Secretary of State for Health when the data on which the Medicines and Healthcare Products Regulatory Agency based its statement of 11 March on dosage levels of Seroxat was first made available to the regulator. [162491]

Ms Rosie Winterton: The advice issued by the Committee for the Safety of Medicines (CSM) on 11 March 2004 followed a re-evaluation of the original dose finding studies carried out for the licensing of paroxetine in 1990. This forms part of the ongoing in-depth review of the safety of selective serotonin reuptake inhibitors (SSRIs), including paroxetine (Seroxat), by the CSM's expert working group on the safety of SSRIs.

The expert group initially reviewed one of the dose finding studies for paroxetine in October 2003. On the advice of the expert group, the manufacturer was then asked to provide data to justify the current dosing recommendations for all indications as part of the European review of the risks and benefits of paroxetine. The expert group reviewed all the information available at its meeting on 27 February 2004.

On 10 March 2004, the CSM endorsed the advice of its expert group and advised that public communication was necessary on the basis of the re-evaluation of clinical trial data and the evidence of prescribing of paroxetine outside of the recommendations in the summary of product characteristics, in particular the use of starting doses above 20 mg in the treatment of depression.

Mental Health Services

Mr. Rosindell: To ask the Secretary of State for Health if he will make a statement on primary care trust provision of mental health services. [163222]

Ms Rosie Winterton: Primary care trusts have a crucial role to play in both the commissioning and provision of mental health services. We know that up to one in four primary care consultations concerns a mental health problem and many people receive all their mental health care and treatment from their general practitioner.

In recognition of the importance of primary mental health care, the National Service Framework for Mental Health (1999) set two standards to deliver better services and to ensure the provision of consistent advice and help for people with mental health needs in primary care.

The NHS Plan (2000) set targets to put in place 1,000 graduate primary care mental health workers and 500 new community mental health staff by December 2004. The National Institute for Mental Health in England has established a work programme on primary care mental health.

These developments are complemented with investment in improving GP premises and increasing the number of GP registrars. Last year, the NHS Plan target to put in place 550 GP registrars by March 2004 was met more than nine months early and we now have 637 more GP registrars in post than in 1999.

Obesity

Mr. Burstow: To ask the Secretary of State for Health what plans the Government has to designate a single body to co-ordinate work across government in tackling obesity. [163600]

Miss Melanie Johnson: The Department takes the lead on work to tackle obesity. However, the Department cannot tackle obesity alone. Cross-governmental working is essential. The Government launched their major consultation on public health this month. The Public Health White Paper will provide the overarching framework to improve public health and will present real opportunities to progress work on the prevention and management of overweight and obesity.

The consultation will enable a wide range of stakeholders to contribute to the debate on overweight and obesity. This will build on the work already started through the food and health action plan and the activity co-ordination team. The Government will draw up their White Paper in the light of the consultation.

York District Hospital

Miss McIntosh: To ask the Secretary of State for Health when building work on the children's assessment and treatment area at York District Hospital was completed. [157522]

Miss Melanie Johnson: This facility was completed at the time the modernised accident and emergency department at York District Hospital was brought into use in February 2001.

Miss McIntosh: To ask the Secretary of State for Health what the area set aside for the children's assessment and treatment area at York District Hospital is currently being used for. [157524]

Miss Melanie Johnson: This area is not being used at the present time.

Miss McIntosh: To ask the Secretary of State for Health when he expects the observation beds in the accident and emergency unit at York District Hospital to be used; for what reason they were built; and at what cost. [157525]

Miss Melanie Johnson: The observation bed area is now being used for the treatment of patients with minor injuries attending the accident and emergency department, on a three month pilot basis.

This facility was built as part of the overall accident and emergency department modernisation scheme, to allow scope for future service development.

The total cost of the accident and emergency modernisation scheme was £2.16 million.

Written Answers to Questions

Monday 29 March 2004

LEADER OF THE HOUSE

Departmental Buildings

Mr. Llwyd: To ask the Leader of the House what *(a)* renovation and *(b)* maintenance projects on buildings (i) owned and (ii) rented by his office were undertaken in each of the last five years; and what the associated costs were of each. [163953]

Mr. Woolas: The Office of the Leader of the House of Commons was established in June 2003 and does not own or rent building space.

The Privy Council Office provides the office with accommodation at 2 Carlton Gardens, and it is responsible for all renovation and maintenance projects.

Temporary Staff

Matthew Taylor: To ask the Leader of the House (1) how many staff his Office employs on a temporary basis through employment agencies; what percentage this is of total staff employed; and how much the Office paid employment agencies to supply temporary staff in *(a)* 2001–02, *(b)* 2002–03 and *(c)* 2003–04 to the most recent date for which figures are available; [158253]

(2) if he will list the employment agencies which his office has used to supply temporary staff in each financial year since 1996–97 to the most recent date for which figures are available. [163811]

Mr. Woolas: The Office of the Leader of the House of Commons was established in June 2003 and the information is set out in the list below.

Staff are employed through employment agencies on a temporary basis to cover vacancies during recruitment.

Year—2003–04

Number—2

Percentage—13

Amount—£9,561.30

The agencies used were Adecco (UK) Limited and Josephine Sammons Ltd.

TRADE AND INDUSTRY

Broadband

John Robertson: To ask the Secretary of State for Trade and Industry what assessment her Department has made of the effect of fees charged for the migration of broadband customers on *(a)* competitiveness in telecommunications and *(b)* broadband take-up. [162057]

Mr. Timms: According to Oftel's "International benchmarking study of Internet access (dial-up and broadband)" for October 2003, the percentage growth in broadband subscriber numbers in the UK remains strong. The UK market is more competitive in terms of service providers and infrastructure competition than either France or Germany. Although take-up in the UK is behind other countries benchmarked, this is at least partly explained by the later launch date of broadband in the UK and the availability of unmetered services.

These factors along with increasingly competitive broadband prices, present a positive picture for broadband development in the UK and in the six months prior to the study, the UK had reached penetration levels similar to France and was catching up on Germany.

In December 2003, Oftel and the incoming Communications Regulator Ofcom agreed a joint draft decision on the regulation of the UK's wholesale broadband access market, which concluded regulatory obligations remained necessary to ensure fair and effective competition. UK individuals and organisations with an interest in the wholesale broadband market were given until 6 February to comment. The EU is also considering the proposals.

Oftel and Ofcom also found that BT should be required to provide its Datastream products on a retail minus basis to allow a sufficient margin between the price it charges for its IPStream products and the price charged for the Datastream products. The actual retail minus margin will be set following consultation in the first quarter of 2004.

Computer Misuse

Mr. Webb: To ask the Secretary of State for Trade and Industry how many cases of computer misuse there were in her Department in *(a)* 1997 and *(b)* 2003, broken down by category of misuse; and how many of those cases resulted in disciplinary action. [163247]

Ms Hewitt: In 2003 there were four cases of computer misuse notified to the DTI Human Resources and Change Management Conduct and Discipline Team. Three of these cases involved the distribution of inappropriate material and the fourth the accessing of inappropriate internet sites. Disciplinary action was taken in all four cases.

Figures for 1997 are not available. 1997 information is not maintained as this is outside the normal retention period for disciplinary cases.

House Sharers

Mr. Leigh: To ask the Secretary of State for Trade and Industry if she will give the same rights to house-sharers not living as a couple as is proposed for same-sex couples in the Civil Partnerships Bill. [163519]

Jacqui Smith: The Government will make clear its detailed proposals on introduction of the forthcoming Civil Partnership Bill. The rights of house-sharers are a separate issue to those of same-sex couples who are unable to marry and there are currently no plans for changes to the law in that area.

Regional Funding

Mr. Goodman: To ask the Secretary of State for Trade and Industry what funding has been allocated to *(a)* European regional development fund areas, *(b)* Frameworks for Regional Employment and Skills Action, *(c)* Phoenix Fund and *(d)* regional centres for manufacturing excellence and *(e)* warm zones in (i) 2004–05, (ii) 2005–06 and (iii) total. [163722]

Ms Hewitt: In accordance with the Spending Review 2002 settlement the Government plan to spend:

£ million

	(a) European Regional Development Fund - ERDF (DTI-related expenditure cover)	*(c) Phoenix Fund*	*(d) Regional centres for manufacturing excellence*
2004–05	186.3	25	2.8
2005–06	176.4	25	0
Total	362.7	50	2.8

(b) In relation to Frameworks for Regional Employment and Skills Action, which is the responsibility of DfES: these are the way in which key regional partners led by the RDA develop and deliver an agreed plan to address skills and employment needs of employers and individuals within the region. The resources which partners bring to the table in respect of agreed priorities in the FRESA will vary from region to region.

(e) Warm zones: no DTI funding has been allocated to Warm Zones in 2004–05 or 2005–06.

Secondments

Mr. Cousins: To ask the Secretary of State for Trade and Industry what secondments *(a)* PricewaterhouseCoopers, *(b)* Deloitte and Touche, *(c)* Ernst and Young and *(d)* KPMG have made to her Department since 2001; for what (i) periods and (ii) tasks the secondments were made; whether secondments of staff from her Department have been made to those firms; and for what (A) periods and (B) tasks. [156927]

Ms Hewitt: Secondments are part of the Interchange Initiative which promotes the exchange of people and good practice between the Civil Service and other organisations. Before an Interchange can occur all parties must be satisfied that no conflict of interest arises.

Inward Secondments

There have been three secondees from *(a)* PricewaterhouseCoopers, two from *(b)* Deloitte and Touche, five from *(c)* Ernst and Young and one from *(d)* KPMG to the Department since 2001.

The following table shows the period of each secondment and the position of each secondee.

Company	*Start date*	*End date*	*Position*
PricewaterhouseCoopers	25 March 2002	31 March 2004	Deputy Director in UK Trade and Investment (Entrepreneurial Inward Investment)
PricewaterhouseCoopers	4 November 2002	29 October 2004	Assistant Director in Industrial Development Unit
PricewaterhouseCoopers	15 June 1999	9 May 2001	Investigator in Company Law and Investigations
Deloitte and Touche	2 September 2002	31 July 2003	Director in Business Relations
Deloitte and Touche	26 July 2000	31 August 2001	Assistant Director in Nuclear Industries Directorate
Ernst and Young	3 February 2003	2 February 2005	Assistant Director in UK T and I
Ernst and Young	14 January 2004	13 January 2006	Assistant Director in Industrial Development Unit
Ernst and Young	15 April 2002	16 April 2004	Deputy Director in Industrial Development Unit
Ernst and Young	2 September 2002	1 September 2004	Deputy Director in Industrial Development Unit
Ernst and Young	15 April 2002	21 March 2004	Director, Internal Audit
KPMG	16 July 2001	1 March 2002	Manager in Engineering Industries Directorate

Outward secondments

There have been no secondments of DTI staff to *(a)* PricewaterhouseCoopers, *(b)* Deloitte and Touche, *(c)* Ernst and Young and *(d)* KPMG since 2001.

DEFENCE

Sea Cadet Corps

22. **Mr. Ivan Henderson:** To ask the Secretary of State for Defence what formal relationship there is between the Royal Navy and the Sea Cadet Corps. [163794]

Mr. Caplin: The Royal Navy's formal relationship with the Sea Cadet Corps is set out in a Memorandum of Understanding between its two principal sponsors, the Ministry of Defence and the Sea Cadet Association.

Discussions are under way on this memorandum as it is due for review in July this year.

Defence Industrial Policy

23. **Mr. Joyce:** To ask the Secretary of State for Defence what steps his Department is taking to involve trade unions in defence industrial policy. [163795]

Mr. Ingram: The Ministry of Defence regularly exchanges views with trade unionists on a range of defence industrial issues. They have welcomed the Defence Industrial Policy that we published in October 2002.

Aircraft Carriers

24. **Richard Ottaway:** To ask the Secretary of State for Defence when he expects the proposed new aircraft carriers to enter service. [163796]

Mr. Ingram: Our target in-service dates for the two new carriers remain as 2012 and 2015. Estimates for their delivery are being developed progressively during the remainder of the Assessment Phase, taking account

of the maturing carrier design. Expected in-service dates will be confirmed when we agree the contracting arrangements for Demonstration and Manufacture.

Territorial Army

25. **Mr. Gray:** To ask the Secretary of State for Defence how many Territorial Army soldiers are deployed in *(a)* Iraq and *(b)* Kosovo; and how many of them have been compulsorily mobilised. [163797]

Mr. Caplin: There are currently some 970 Territorial Army personnel serving in Iraq and 10 in Kosovo who have been compulsorily mobilised. In addition, there are five TA personnel serving in Kosovo who have not.

Departmental Officials

Mr. Cousins: To ask the Secretary of State for Defence which former officials of the Department have asked for permission to join *(a)* PricewaterhouseCoopers, *(b)* Deloitte & Touche, *(c)* Ernst & Young and *(d)* KPMG. [156898]

Mr. Caplin: The Rules on Acceptance of Outside Appointments by Crown Servants (the "Business Appointment Rules"), which are set out in section 4.3 of the Civil Service Management Code, require MOD officials within two years of leaving to obtain permission, in the circumstances defined in paragraph 7 of the rules, before taking up new employment.

It is not our policy to discuss individual applications. Only the most senior officials, whose applications are considered by the Prime Ministers' Advisory Committee on Business Appointments, are required to inform their former Department when they take up such appointments. This information is published in the Committee's annual report.

Since 1 January 2001, four former MOD officials have applied for permission to join PricewaterhouseCoopers; two to join KPMG; and two to join Ernst & Young. All applications were approved unconditionally. No applications have been received to join Deloitte & Touche.

Deployments (Germany)

Mr. Gray: To ask the Secretary of State for Defence what plans he has to relocate an infantry brigade from Germany to the United Kingdom. [163770]

Mr. Ingram *[holding answer 26 March 2004]:* There are no infantry brigades stationed in Germany and we have no plans to change our force levels there.

Iraq

Mr. Carmichael: To ask the Secretary of State for Defence if he will make a statement on the security situation in Iraq. [163775]

Mr. Hoon: The security situation in Iraq remains difficult, with crime a particular problem. The vast majority of terrorist attacks against Iraqi and Coalition security forces and civilians continue to occur to the North and West of Baghdad. Much of the country is calm, however, and normal life is resuming without incident. Around 75,000 Iraqi police are now on duty and more are being trained.

I am sure the House would wish to join me in congratulating British forces for the courage and restraint they showed in calming the recent unrest in Basrah.

Mr. Keetch: To ask the Secretary of State for Defence what action has been taken in each of the cases where successful claims for compensation have been paid to Iraqis alleging injury by UK forces; and if he will make a statement. [148005]

Mr. Ingram *[holding answer 19 January 2004]:* I will write to the hon. Member and a copy of my letter will be placed in the Library of the House.

Mr. Gordon Prentice: To ask the Secretary of State for Defence how many soldiers serving in Iraq have been treated for stress; and if he will make a statement. [162596]

Mr. Caplin: Stress may cause a wide-range of medical conditions. As at 25 March 2004, 120 members of the United Kingdom armed forces had been evacuated from Iraq for psychiatric reasons. We do not record centrally whether individual cases are stress-related.

Kilve Bend Range

Mr. Liddell-Grainger: To ask the Secretary of State for Defence how many objects were dropped by aircraft on the range at Kilve Bend in Somerset in the last five years. [161874]

Mr. Ingram: The range at Kilve Bend, part of the Lilstock Royal Navy Range, served until 1995 as a practice bombing range for fixed-wing aircraft using inert ordinance. It was redesignated as a helicopter gunnery range that year and nothing has been dropped by aircraft on the range since.

Kuwait

Mr. Arbuthnot: To ask the Secretary of State for Defence what support his Department gives to the Humanitarian Operations Centre in Kuwait; and if he will make a statement. [157452]

Mr. Ingram: The UK currently fills one staff officer post in the Humanitarian Operations Centre and is in the process of filling a second.

Osama Bin Laden

Gregory Barker: To ask the Secretary of State for Defence how many British troops are involved in the hunt for Osama Bin Laden; what progress has been made in the search; and if he will make a statement. [164384]

Mr. Hoon: The United Kingdom continues to support the objectives of Operation Enduring Freedom, the US-led coalition operation against international terrorism and its continuing search for the leadership of Al Qaida. All UK forces in the theatre are involved in helping to stabilise Afghanistan to ensure it does not again become a haven for terrorists.

RAF Stafford

Norman Baker: To ask the Secretary of State for Defence if he will list the radioactive items held at RAF Stafford, indicating in each case *(a)* the length of time held and *(b)* the purpose of holding them. [163972]

Mr. Caplin: It will take some time to collate the information requested.

I will, therefore write to the hon. Member and place a copy of my letter in the Library of the House.

Sanctuary Magazine

Patrick Mercer: To ask the Secretary of State for Defence how much money was spent on *(a)* research, *(b)* staffing costs, *(c)* printing and publication, *(d)* distribution and *(e)* other costs for Sanctuary magazine No. 32, 2003; and how much was paid to DCCS Media. [163546]

Mr. Caplin: All research for Sanctuary magazine is carried out by MOD staff, for whom production of the publication is part of their normal duties. Consequently, there are no separate staffing or research costs. The printing and publication costs for the 2003 edition were some £27,000, with the distribution costing £1,500. All costs were met from the budget of the Defence Estates Agency, with no direct payment being made to DCCS media.

War Disablement Pensioners

Mr. Gerrard: To ask the Secretary of State for Defence how many people in London are in receipt of a war disablement pension; and how many of those receive the war pensioners' mobility supplement. [163749]

Mr. Caplin: According to the Veterans Agency Computer System, as at 31 December 2003, there were 8,710 ongoing war disablement pensioners with a recorded address in the Government Office Region of London.

Of these, 820 were receiving the war pensioners' mobility supplement.

Please note that all figures are rounded to the nearest five.

PRIME MINISTER

Cabinet Committee on Relocation

Mr. Hoban: To ask the Prime Minister with reference to the recommendations of the Lyons Report, when a Cabinet Committee on relocation will be set up; who will chair it; and who its members will be. [164585]

The Prime Minister: I shall announce shortly the arrangements for following up this aspect of Sir Michael Lyons's report.

Employment Agencies

Matthew Taylor: To ask the Prime Minister if he will list the employment agencies which his office has used to supply temporary staff in each financial year since 1996–97 to the most recent date for which figures are available. [163808]

The Prime Minister: Since April 2000, my office has used four employment agencies to supply temporary staff to fill vacancies in IT, correspondence, secretarial and administrative support. These are Adecco, Excel Josephine Sammons Agency and Susan Hamilton Agency. Information for the years before 2000 is not held centrally.

Liberation of Rome (1944)

Dr. Julian Lewis: To ask the Prime Minister pursuant to the answer from the Leader of the House to the hon. Member for New Forest, East on 11 March 2004, *Official Report*, column 1673, on prime ministerial and Royal representation at the 60th anniversary commemoration of the liberation of Rome on 4 June, what action he proposes to take. [162080]

The Prime Minister: There are no plans for a Member of the Royal Family or me to attend the 60th anniversary commemoration of the liberation of Rome on 4 June. While we acknowledge this as a significant event in the course of the war, we understand that any ceremony is likely to be a Rome Municipality event rather than a State one. However, it is hoped that a Member of the Royal Family will represent Her Majesty at the commemoration event of the Battle of Monte Cassino in Italy in May.

Libya

Mr. Dalyell: To ask the Prime Minister if, during his forthcoming visit to Libya, he will discuss the future detention of Abdul Bassett al Megrahi. [163724]

The Prime Minister: I discussed a wide range of issues with Colonel Qadhafi including international and regional security issues and the Middle East Peace Process.

The terms under which Abdelbaset Al Megrahi is serving his prison sentence were briefly discussed.

Party Use of Government Buildings

Gregory Barker: To ask the Prime Minister how many Labour Party events have been held at *(a)* Number 10 and *(b)* Number 11 Downing Street since 1997; and how much was paid for the use of the venue in each case. [164386]

The Prime Minister: As was the practice under previous administrations, I have hosted a number of political events at Downing Street. The costs of these were met by the Labour Party.

Register of Interests

Bob Spink: To ask the Prime Minister what the requirements are on officials in his Office to declare current interests; and what register of interests is kept for his officials. [164705]

The Prime Minister: The rules on the disclosure of interests are set out in section 4.3 of the Civil Service Management Code.

SOLICITOR-GENERAL

Iraq

Sir Menzies Campbell: To ask the Solicitor-General which non-governmental *(a)* experts and *(b)* lawyers advised her Department on the legality of war in Iraq; how much each received in public funds; and if she will make a statement. [161700]

The Solicitor-General *[holding answer 22 March 2004]:* No non-governmental experts or lawyers were instructed to advise the Law Officers on whether the war in Iraq was lawful.

Overseas Bribery

Malcolm Bruce: To ask the Solicitor-General how many people specialise in combating overseas bribery in the *(a)* Crown Prosecution Service and *(b)* Serious Fraud Office. [163489]

The Solicitor-General: Prosecutions under part 12 of the Anti-Terrorism, Crime and Security Act 2002 are undertaken by corruption specialists within CPS Casework Directorate.

Taking account of part-time workers, there were 60.3 senior prosecutors within CPS Casework Directorate at 1 March 2004, all of whom have experience of either corruption prosecutions, international work or both.

In view of the very small number of cases so far referred to CPS Casework Directorate, no prosecutor currently specialises exclusively in dealing with overseas corruption.

All SFO lawyers and investigators are required to have a thorough knowledge of fraud related offences, including corruption and the offences falling under part 12 of the Anti-terrorism, Crime and Security Act 2001. However, the Serious Fraud Office does not allocate its staff resource to a particular type of crime or case. Each case referred to the SFO is assessed on its individual merits, including allegations of bribery by UK citizens or companies overseas. As such there are no staff members whose role is solely the investigation and prosecution of overseas bribery.

Parliamentary Questions

Mr. Simon Thomas: To ask the Solicitor-General when she will write to the hon. Member for Ceredigion with a substantive answer to the question tabled by him on 13 October 2003, reference 132362. [161918]

The Solicitor-General: A reply was sent following prorogation and a copy placed in the Library. An additional copy has been sent to the hon. Member.

Youth Matters

Miss McIntosh: To ask the Solicitor-General what youth matters she has considered recently. [148038]

The Solicitor-General: I have considered a wide range of youth matters recently, including persistent young offenders, the street crime initiative, anti-social behaviour orders, sexual offences against children and protection of child witnesses.

FOREIGN AND COMMONWEALTH AFFAIRS

China

Annabelle Ewing: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations have been made to the Chinese Government on *(a)* removing the death sentence imposed on the Buddhist religious leader, Tenzin Deleg Rinpoche and *(b)* allowing a fair retrial in the presence of international impartial observers. [164343]

Mr. Rammell: I raised the case with Assistant Foreign Minister Zhang Yesui in Beijing on 17 December 2003. He replied that Tenzin Deleg Rinpoche had had a fair and public trial and been sentenced in accordance with Chinese law. His case was also recently raised at the EU-China Human Rights Dialogue session held in Dublin on 26–27 February 2004.

We and our EU partners have raised in a series of demarches with the Chinese authorities our serious concerns about the way in which the trial was conducted and the lack of transparency. The latest EU demarche took place in Beijing on 4 February. In response, Mr. Wang Min, Deputy Director General of the Department of International Organisations and Conferences at the Chinese Ministry of Foreign Affairs said that Tenzin Deleg Rinpoche was in good health and being held in Chuandong prison, Sichuan province.

Mr. Simmonds: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the Government's policy on the Chinese arms embargo. [163806]

Mr. Rammell: The European Council on 12 December 2003 invited the General Affairs and External Relations Council (GAERC) to re-examine the EU Arms Embargo on China. The GAERC met on 26 January 2004 and decided to remit the issue to the relevant working groups for detailed examination. The issue will revert to a future GAERC.

The Government welcome the review and Ministers are currently considering the UK's position. In the meantime we will continue fully to implement the Arms Embargo.

Mr. Tynan: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with *(a)* his Chinese counterpart and *(b)* the Chinese Ambassador to the Court of St. James regarding the use of Chinese airspace and refuelling facilities in respect of the transport of weapons of mass destruction and ballistic missile technology (i) to and (ii) from North Korea. [162223]

Mr. MacShane: We regularly discuss, at both ministerial and official level, a range of non-proliferation issues with the Government of China. Such discussions include the proliferation activities of North Korea, which are a matter of mutual concern.

Correspondence

Mr. Kaufman: To ask the Secretary of State for Foreign and Commonwealth Affairs when he will reply to the letter from the right hon. Member for Manchester, Gorton dated 16 February 2004, with regard to Irene Clare Garner. [163302]

Mr. Rammell: My right hon. Friend the Foreign Secretary replied on 24 March 2004.

Elections (International Observers)

Mr. Nigel Jones: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the likely impact on transparency and fairness of providing international observers at forthcoming presidential and parliamentary elections in *(a)* South Africa, *(b)* Malawi, *(c)* the Philippines, *(d)* Indonesia, *(e)* Botswana, *(f)* Ireland, *(g)* Niger, *(h)* the United States of America, *(i)* Namibia, *(j)* Malaysia, *(k)* Mozambique, *(l)* Sudan and *(m)* Ghana; and if he will make a statement. [163232]

Mr. Rammell: The Government support the presence of international election observers as they help promote fair and democratic elections. They provide an independent and neutral appraisal and, although the recommendations are not legally binding, they provide objective guidance for the government in question. Furthermore, the international presence enhances public confidence in the election process, helping to strengthen the respect for human rights and to prevent tension and violence.

It is generally the case that international missions are sent to observe elections at the invitation of the government of the country in question. Currently, the EU has a mission in Indonesia and in Sri Lanka and will shortly be deploying a mission to Malawi. The OSCE is planning election observation missions to the USA and to Ireland. UK observers participate in all of these missions.

Embassy and High Commission Land

Mr. Evans: To ask the Secretary of State for Foreign and Commonwealth Affairs how much embassy and high commission land has been sold in each year since 1998; and what the value was in pounds sterling. [163830]

Mr. Rammell: The value and areas of land that the Foreign and Commonwealth Office has sold since 1998 are as follows:

Financial year	*Area sold square metre*	*Sale proceeds (£000)*
1998–99	9,400	383
1999–2000	142,454.4	18,652
2000–01	—	—
2001–02	11,881	20,041
2002–03	19,132.6	1,787
2003–04	1,500	112

Mr. Evans: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list the *(a)* high commissions and *(b)* embassies from which land has been sold in each year since 1998. [163831]

Mr. Rammell: In each year since 1998 the Foreign and Commonwealth Office has sold land at the following posts:

	Post
2001–02	British High Commission, Singapore
2001–02	British High Commission, Valletta
2002–03	British High Commission, Pretoria
1998–99	British High Commission, Quito
1999–2000	British Embassy, Dublin
2001–02	British Embassy, Kiev
2002–03	British Consulate-General, Alexandria
2003–04	British Embassy, Kiev

Iran

Bob Spink: To ask the Secretary of State for Foreign and Commonwealth Affairs what plans he has to impose trade sanctions on Iran; and if he will make a statement. [163536]

Mr. Rammell: My right hon. Friend the Foreign Secretary has no plans to impose trade sanctions on Iran, a country with which we have normal diplomatic relations.

Iraq

Mr. Chaytor: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list, for each month since it was established, the total income from oil revenues paid into the development fund for Iraq. [163083]

Mr. Rammell: Information on the amount of Iraqi oil produced each month from May 2003 to January 2004 inclusive is given in the following table. Information on the amount paid for the oil is not publicly available. However, as of 5 March 2004, a total of US $6.18 billion of oil proceeds had been received by the Development Fund for Iraq. This information is available through the Coalition Provisional Authority website at www.cpa-iraq.org/budget/DFI introl.html.

Iraqi oil production (million barrels per day)	*Net production*
May 2003	0.28
June 2003	0.44
July 2003	0.70
August 2003	1.11
September 2003	1.41
October 2003	1.58
November 2003	1.92
December 2003	1.97
January 2004	2.04

[1] Estimated Iraqi oil supply net of re-injected crude oil.

Israel

Mr. Lyons: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with the US Administration about the Israeli wall. [163834]

Mr. Rammell: We are in regular contact with the US Administration, at all levels, about the situation in the Middle East including the Israeli security barrier.

Press Releases

Richard Burden: To ask the Secretary of State for Foreign and Commonwealth Affairs on which

occasions since 1 January 2003 his Department has quoted an official from a foreign Government in the title of a press release. [163660]

Mr. Straw: My Press Office has checked its database for all press releases issued since January 2003. No quotes from foreign government officials have been found in any of the titles.

Canada

Mr. Laurence Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with the Canadian Government on seal culling in that country; and if he will make a statement. [163618]

Mr. Mike O'Brien: We last made formal representations to the Canadian Government in 1999. The Canadian authorities are fully aware of our views. We do not accept the need for any seal cull, but if one does take place it should be sustainable and based on a precautionary principle.

Sri Lanka

Mr. Gardiner: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions his officials have had with the Liberation Tigers of Tamil Eelam in Sri Lanka about the needs of Muslims in Sri Lanka. [163363]

Mr. Mike O'Brien: In their contacts with representatives of the Liberation Tigers of Tamil Eelam (LTTE) officials from the British high commission in Sri Lanka regularly raise concerns regarding community relations in LTTE-held areas including the situation of the Muslim community.

Mr. Gardiner: To ask the Secretary of State for Foreign and Commonwealth Affairs what action he is taking to stop the displacement of Muslims in Sri Lanka. [163364]

Mr. Mike O'Brien: The forced displacement in the past of large numbers of the Muslim community in parts of North and East Sri Lanka by the Liberation Tigers of Tamil Eelam is one of the many regrettable aspects of the conflict. A large number of Muslims remain internally displaced. Their reintegration and that of other internally displaced people will be a major issue for a permanent peace agreement to address. We are not aware of any significant recent displacements of Muslims although relations between Muslim, Tamil and Sinhalese communities in eastern Sri Lanka remains an issue of concern. The Government, through the Global Conflict Prevention Pool, are currently funding work by local NGOs to develop early warning mechanisms to prevent local disputes in the east from escalating.

Sudan

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of progress in the Sudan peace talks. [163978]

Mr. Mullin: The current round of peace talks had been due to adjourn on 16 March but have now been extended until 31 March 2004. The First-Vice President and the Chairman of the Sudan People's Liberation Movement continue to discuss the outstanding issues. We remain hopeful that a framework agreement will be finalised soon.

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the fighting between the Sudan People's Liberation Army and the Lord's Resistance Army in Southern Sudan. [163981]

Mr. Mullin: We are aware of recent reports of skirmishes between the Ugandan rebel group, the Lord's Resistance Army, and the Sudan People's Liberation Movement in southern Sudan but have no confirmed details.

However, we recognise that Sudan has a potentially significant role to play in the resolution of the conflict in northern Uganda and are encouraged by recent efforts at cooperation between the two countries. We continue to emphasise this through our Embassy in Khartoum and in ministerial exchanges.

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the role of the Government of Chad in the conflict in Darfur. [163979]

Mr. Mullin: We welcome the Government of Chad's readiness to help the parties to the conflict to find a solution to Darfur's problems, and its continued support to the 110,000 Sudanese refugees whom they are currently hosting.

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the US Administration on the situation in Darfur. [163980]

Mr. Mullin: We are in daily contact with the US Administration about the situation in Darfur and my right hon. Friend the Secretary of State for International Development spoke to the Administrator of the US Agency for International Development about Darfur on 10 March 2004. We are working closely with the US to get the parties to re-establish a ceasefire, preferably with international monitoring, to permit humanitarian access to all those in need, and to resume talks to find a peaceful solution to Darfur's problems.

Travel Guidance

Mr. Sheerman: To ask the Secretary of State for Foreign and Commonwealth Affairs what guidance is issued to British embassies and high commissions abroad on appropriate support to *(a)* visiting Government Ministers, *(b)* visiting select committees, *(c)* select committee members travelling individually and *(d)* visiting hon. Members; and if he will publish the guidelines in full. [163468]

Mr. Straw: Guidance on handling visiting select committees, individual MPs and opposition front bench Members is available to all Foreign and Commonwealth Office (FCO) staff, at home and abroad, on the FCO intranet. I have placed copies of the relevant guidance in

the Library of the House. The FCO does not issue specific guidance on what level of support should be provided for visiting Government Ministers or select committee members travelling individually.

Australia

Bob Spink: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will discuss with his Australian counterpart a mutual prisoner exchange scheme; and if he will make a statement. [163548]

Mr. Mullin: There is already a mutual prisoner exchange scheme in place. Australia acceded to the Council of Europe Convention on the Transfer of Sentenced Persons (CECTSP) in January 2003. The Council of Europe Convention is a multilateral agreement. As of March 2004, the convention has 54 signatories including the UK. HM Prison Service is currently aware of five British nationals in Australia who are seeking to transfer back to the UK.

CABINET OFFICE

Departmental Officials

Mr. Cousins: To ask the Minister for the Cabinet Office which former officials of the Office have asked for permission to join *(a)* PricewaterhouseCoopers, *(b)* Deloitte & Touche, *(c)* Ernst and Young and *(d)* KPMG. [156912]

Mr. Alexander: All civil servants are subject to the business appointment rules, which set out the circumstances in which they must seek permission to accept outside appointments within two years of leaving the Service. A copy of the rules is available in the Libraries of the House. Information about appointments taken up by the most senior staff is published in the annual reports of the Advisory Committee on Business Appointments. The next annual report will be published shortly.

In respect of permissions requested since 2001 there has been a single application under the Business Appointments rules from a former Cabinet Office employee wishing to join KPMG. This application was approved.

DirectGov

Mr. Heald: To ask the Minister for the Cabinet Office (1) how many people *(a)* have so far been employed and *(b)* it is planned will be employed on the DirectGov project; [161834]

(2) what the cost has been of the establishment of the DirectGov service; what the running costs of the service will be; and if he will make a statement; [161852]

(3) what plans his Department has to expand the DirectGov service; what the cost implications of those plans are; what assessment he has made of how greater efficiency in the provision of Government services could be gained through DirectGov; and if he will make a statement. [161853]

Mr. Alexander: DirectGov is the Government's new online service, currently accessible via the UK Online website. Directgov is designed around the needs of the user, making it much easier to find and access Government information and services electronically. The DirectGov site will be expanded over the coming months in both structure and content, taking stakeholder and user feedback into consideration.

Currently the existing UK Online team of 39 staff within the Office of the e-envoy manage the project and have a combined programme and infrastructure budget of £4.4 million. The future budget and staffing of DirectGov will—be decided in conjunction with the site expansion.

Official Data

Dr. Gibson: To ask the Minister for the Cabinet Office what plans there are to co-ordinate the Office for National Statistics citizen information project, the Home Office identification cards database plan and the NHS health records spine. [163155]

Ruth Kelly: The information requested falls within the responsibility of the Registrar General for England and Wales, who has been asked to reply.

Letter from Len Cook to Dr. Ian Gibson, dated 29 March 2004:

As Registrar General for England & Wales, I have been asked to reply to your recent parliamentary question on the Citizen Information Project (CIP) and other government initiatives. (163155)

The CIP, the National Identity Register (part of the Government's proposals for an identity card scheme) and the NHS data spine are separate but complementary projects. I fully recognise the need for effective communication between these initiatives and we are working hard to support this. For example, the Home Office and the Department of Health are represented at senior level on the CIP Project Board and there is ONS representation on the ID Cards Programme Board.

However the programmes are at different stages and as yet there has not been ministerial approval to implement CIP. Therefore, the main objective is to ensure that the programmes are proceeding in such a manner that would allow integration in the future if appropriate whilst continuing to work closely and liaise at every stage of the development phase.

Secondments

Mr. Cousins: To ask the Minister for the Cabinet Office what secondments *(a)* PricewaterhouseCoopers, *(b)* Deloitte & Touche, *(c)* Ernst & Young and *(d)* KPMG have made to the Office since 2001; for what (i) periods and (ii) tasks the secondments were made; whether secondments of staff from the Office have been made to those firms; and for what (A) periods and (B) tasks. [156926]

Mr. Alexander: The Government are committed to developing a modern, flexible, outward-focused civil service that works in partnership with all sectors of society. Interchange is a key tool in meeting that

commitment. Secondments are encouraged as part of the interchange programme, which promotes the exchange of people and good practice between the civil service and other organisations. Before an interchange can occur all parties must be satisfied that no conflict of interest arises. In all cases agreement is reached with the parent organisation on the salary reimbursed by the Cabinet Office to ensure it falls in the civil service pay range appropriate to the post.

The following table gives the number of secondees from 2001 from each of the organisations named in the question.

Seconded from	*(i) Period of secondment (months)*	*Management Unit*
(a) PricewaterhouseCoopers	12	Performance and Innovation Unit
(3 individuals)	12	Performance and Innovation Unit
	11	Prime Minister's Delivery Unit
(b) Deloitte & Touche	6	Office of Public Service Reform
(2 individuals)	12	Shareholder Executive
(c) Ernst & Young	n/a	n/a
(nil)		
(d) KPMG	17	Performance and Innovation Unit
(4 individuals)	16	Office of the e-Envoy
	14	Office of the e-Envoy
	24	Prime Minister's Delivery Unit

Seconded to	*(A) Period of secondment (months)*
(a) PricewaterhouseCoopers (nil)	n/a
(b) Deloitte & Touche (1 individual)	24
(c) Ernst & Young (nil)	n/a
(d) KPMG (nil)	n/a

CULTURE, MEDIA AND SPORT

Double Decker Buses (Tourism)

Mr. Redwood: To ask the Secretary of State for Culture, Media and Sport what research has been carried out into the role of the red double decker as a tourist attraction in London. [164145]

Mr. Caborn: Tourism and transport policy in London is the responsibility of the Mayor and the Greater London Authority (GLA). The GLA have advised me that the phased replacement of the red double-decker "Routemaster" buses is being carried out to improve efficiency, safety, security and accessibility. I also understand that the Mayor is, however, well aware of the iconic significance of the red double-decker for London and is actively looking at ways that a limited number can be kept on central London streets in the long term.

Employment Agencies

Matthew Taylor: To ask the Secretary of State for Culture, Media and Sport if she will list the employment agencies which her Department has used to supply temporary staff in each financial year since 1996–97 to the most recent date for which figures are available. [163814]

Mr. Caborn: The following employment agencies have been used to supply temporary staff for each financial year:

	Employment agency
1997–98	Hays Accountancy
	FSS Financial
	Reed
	Barclay Simpson
1998–99	Hays Accountancy
	FSS Financial
	Barclay Simpson
	Reed
1999–2000	Hays Accountancy
	Reed
	Josephine Sammons
2000–01	Hays Accountancy
	Barclay Simpson
	Oldfield Ellis Associates Ltd
	Josephine Sammons
2001–02	Hays Accountancy
	Adecco
	Oldfield Ellis Associates Ltd
	Josephine Sammons
	Accountancy Additions
2002–03	Lawson Bishop
	Adecco
	Accountancy Additions
	Josephine Sammons
2003–04	Lawson Bishop
	Adecco
	Accountancy Additions
	Josephine Sammons

Note:
There are no records prior to 1997–98.

Green Spaces Funding

Mr. Goodman: To ask the Secretary of State for Culture, Media and Sport how much funding has been allocated in *(a)* 2004–05, *(b)* 2005–06 and *(c)* in total to playing fields and community green spaces. [163653]

Mr. Caborn: The joint Sport England and New Opportunities Fund (NOF) programme 'Active England' will provide over £108 million to create new and improved community sports facilities in England. It is anticipated that a number of the applications made for Active England funding will be for playing fields.

During the past three years, the Sport England Playing Fields and Community Green Spaces programme, which formed part of the NOF £130 million Green Spaces and Sustainable Communities initiative, has invested £19,429,648 into 227 projects providing new or improved playing fields for community access. Of these 216 are now complete.

Public Libraries

Mr. McLoughlin: To ask the Secretary of State for Culture, Media and Sport how much money has been spent on public library *(a)* buildings and *(b)* books in (i) the East Midlands and (ii) West Derbyshire in each year since 1997. [163742]

Estelle Morris: Other than the information contained within the Annual Public Library Statistics published by the Chartered Institute of Public Finance and Accountancy (CIPFA), and available in the Library of the House, data of this kind is not held centrally.

CIPFA included regional breakdowns in the library statistics for the first time in 2001–02 and this is the only year for which these figures are available currently. The premises and books and pamphlets expenditure figures for the East Midlands Region for 2001–02 are shown as follows.

The CIPFA statistics are broken down to library authority level. The relevant figures for Derbyshire are shown as follows. Derbyshire County Council will be able to supply information for the West Derbyshire area specifically.

£

	1997–98	*1998–99*	*1999–2000*	*2000–01*	*2001–02*
Expenditure on library premises					
East Midlands	—	—	—	—	6,141,184
Derbyshire	855,560	1,035,674	1,053,910	1,027,767	1,204,009
Expenditure on books					
East Midlands	—	—	—	—	6,399,848
Derbyshire	908,850	963,742	919,776	911,430	918,985

National Lottery

Mr. McLoughlin: To ask the Secretary of State for Culture, Media and Sport how much Lottery expenditure has been allocated to sporting projects in *(a)* the East Midlands and *(b)* West Derbyshire in each of the past five years, broken down by Lottery distributor. [163743]

Estelle Morris: The information shown in the table is broken down by calendar year. It is derived from information supplied to the Department for Culture, Media and Sport by the Lottery Distribution bodies. It refers to the constituency of West Derbyshire, and the whole of the East Midlands region.

£

	West Derbyshire		*East Midlands*	
	Sport England	*UK sport*	*Sport England*	*UK sport*
1995	108,199	0	6,263,431	0
1996	2,500	0	3,681,775	0
1997	615,500	0	11,146,998	0
1998	914,215	0	33,631,371	0
1999	462,728	417,557	4,139,890	3,216,703
2000	1,457,173	0	28,322,216	5,179,090
2001	1,992,653	0	30,407,031	8,397,200
2002	553,762	0	12,708,685	0
2003	0	0	10,033,598	527,700

INTERNATIONAL DEVELOPMENT

EU Development Assistance

Mr. Bercow: To ask the Secretary of State for International Development if he will make a statement on the commitment of EU development assistance to the EU/European Bank for Reconstruction and Development investment preparation facility in 2002. [163862]

Hilary Benn: The EU/EBRD Investment Preparation Facility (IPF), which ran until the end of 2003, was part of the EC regular Tacis budget. The facility essentially consisted of EC technical cooperation funds for EBRD projects in the countries of the former Soviet Union. In 2002 the EU/EBRD IPF amounted to a total Euro 10 million, of which Euro 2 million have been committed. The facility has, to this date, supported projects in the Russian Federation, Ukraine, Moldova, Georgia and Azerbaijan.

Iraq

Mr. Gardiner: To ask the Secretary of State for International Development if his Department will undertake an assessment of *(a)* the benefits of establishing credit unions in Iraq and *(b)* changing existing banking legislation to that end. [163353]

Hilary Benn: DFID has no plans to undertake an assessment of the benefits of establishing credit unions in Iraq, nor of changes to the existing banking legislation.

We recognise the need to increase the availability of finance to small businesses in Iraq. For this reason DFID is providing a grant of US$15 million to the International Finance Corporation in support of its US$200 million Small Business Finance Facility. This facility will provide funds for loans to small businesses, and technical assistance to develop the skills of Iraqi banks in making such loans.

Tom Brake: To ask the Secretary of State for International Development what income status Iraq has for aid purposes. [163617]

Hilary Benn: Despite its current low income levels, Iraq is classified by the Organisation for Economic Co-operation and Development (OECD) Development Assistance Committee (DAC) as a Lower Middle-Income Country. Aid to Iraq is counted by the DAC as Official Development Assistance.

The World Bank estimates Iraq's per capita GDP in 2003 to have been between US$480 to $630; i.e. low enough to put it in the low income category. GDP is

however expected to grow rapidly over the coming years. GDP per head was as high as US$3,600 in the early 1980s.

Palestine

Richard Burden: To ask the Secretary of State for International Development when he will respond to the recommendations of the International Development Committee Report on Development Assistance and the Occupied Palestinian Territories. [163916]

Hilary Benn: DFID responded to the recommendations of the International Development Select Committee report into the humanitarian crisis in the Occupied Territories of the West Bank and Gaza on the 16 March. The IDC will be publishing DFID's response on Tuesday 30 March and copies will be available from the Vote Office.

Dr. Tonge: To ask the Secretary of State for International Development what representations he has made to the Israeli Government regarding pollution of water sources in the *(a)* West Bank and *(b)* Gaza Strip by Israeli settlements. [163555]

Hilary Benn: DFID is working with the Palestinian Water Authority to help improve the understanding, and protection of the West Bank and Gaza's water resources. This is important in helping to improve access to safe drinking water. Data have shown that pollution of water sources from Palestinian villages and towns is the highest by volume, but pollution from Israeli settlements is higher per capita. The Government have not made any specific representations to the Israeli Government on this matter.

Richard Burden: To ask the Secretary of State for International Development what estimate he has made of the cost of projects funded by the UK directly or through the EU in the Occupied Territories which have been damaged by Israeli military operations; and if he will make a statement. [163646]

Hilary Benn: The total value of damaged projects funded by the EU (either bilaterally by member States or by the European Commission) is £26.5 million. Approximately one-sixth of this is projects solely funded by the EC. UK bilateral funding is largely technical cooperation. Physical damage caused by Israeli military operations has been minimal, and comprises damage to a few project vehicles.

British Overseas Territories

Mr. Nigel Jones: To ask the Secretary of State for International Development how many *(a)* families and *(b)* children in each British Overseas Territory are living in poverty; and if he will make a statement. [164340]

Hilary Benn: This detailed information requested is not available, as it is not collected on a regular basis by the Overseas Territories and to do so would be highly resource intensive for their Governments. However, research published recently by the Caribbean Development Bank suggests that, while there is some poverty in the UK Caribbean Overseas Territories as elsewhere, there is little that is extreme by global standards.

DFID believes the same applies to St. Helena, where precise data are also very limited. More generally, people in the Overseas Territories are largely able to satisfy their basic nutritional requirements; all Overseas Territories are classified internationally as being of 'middle income' status or above; and all Overseas Territories have met, or have largely met, the Millennium Development Goals. DFID's development assistance to those Overseas Territories that still require it, which in the Financial Year just ending is expected to total some £39 million, includes particular focus on the needs of the poorer and more vulnerable members of the island communities.

TRANSPORT

Bicycle Helmets

Mr. Gardiner: To ask the Secretary of State for Transport what plans he has to bring forward legislation to make the wearing of bicycle helmets compulsory on *(a)* A roads, *(b)* B roads and *(c)* on public footpaths. [163377]

Mr. Jamieson: Our position on compulsion has been that at current wearing rates it would cause enforcement difficulties and could have an effect on cycling levels. But the Government will keep its policies in this as in all areas under review in the light of discussion in Parliament and elsewhere.

Mr. Gardiner: To ask the Secretary of State for Transport if he will seek information about the advantages and disadvantages of compulsory cycle helmet use in *(a)* the USA, *(b)* Australia, *(c)* Canada and *(d)* New Zealand. [163408]

Mr. Jamieson: We have commissioned research which, while not the main focus, has considered the effect of compulsion overseas. The Transport Research Laboratory report on cycle helmet wearing relating to 1999 included a literature review of the effects of compulsion, in association with promotional initiatives, overseas. Case studies showed that helmet wearing increased substantially in the USA and Australia. In Australia there was a reported 70 per cent. decrease in cyclist head injuries. The review did not contain any information on the implications for cycling levels.

An independent review commissioned by the Department on the effectiveness of cycle helmets, and published at the end of November 2002, conducted a further literature review on the effect of compulsion overseas. It found that there was a significant rise in the wearing rate following compulsion in provinces and states in Australia, Canada, New Zealand and the USA. There was also a known marked decrease in casualties, confirmed for Australia (70 per cent.), and also New Zealand (30 per cent.). However only Australia monitored the cycling level pre and post legislation and they saw a drop in the amount of cycling following compulsion. The conclusion was that compulsion significantly raises the wearing rate of helmets and does reduce casualties. However this is at the expense of lowering the amount of cycling.

East London Line

Martin Linton: To ask the Secretary of State for Transport what steps he is taking to ensure that the tender specification for the East London Line extension project will reach the commercial market by the end of this financial year. [156994]

Mr. McNulty: The Strategic Rail Authority has now put its procurement proposals to the Department. The proposals raise a range of important issues that we will need to consider carefully, in the context of the forthcoming spending review.

Employment Agencies

Matthew Taylor: To ask the Secretary of State for Transport if he will list the employment agencies which his Department and its predecessors have used to supply temporary staff in each financial year since 1996–97 to the most recent date for which figures are available. [163819]

Mr. McNulty: The Department for Transport was formed on 29 May 2002 following Machinery of Government changes. Its predecessors were DoT, DETR and DTLR. To produce information on these Departments would involve disproportionate cost. Hence the information provided here covers financial years 2002–03 and 2003–04 only.

The Department for Transport currently has a framework agreement with three employment agencies for supply of temporary administrative and secretarial staff below senior civil service. These are:

Adecco, Brook Street and Reed Solutions.

In addition, the Department for Transport Finance Directorate has occasionally used temporary staff with specialist finance skills from the following agencies:

Badenoch and Clark
Goodman Masson
Grainger West
Hays Accountancy
Internal Audit People
Marks Sattin
Michael Page International
Parker Bridge.

EU Freight Facilities Grants

Tim Loughton: To ask the Secretary of State for Transport (1) how much has been given to UK companies in EU freight facilities grants in each of the last three years; and how many UK companies benefited in each year; [162994]

(2) what the criteria are for UK companies to qualify for EU freight facilities grants; [162995]

(3) for what purposes UK companies operating in Sussex have benefited from EU freight facilities grants in the last three years. [162996]

Mr. Jamieson: The freight facilities grant programme is a UK scheme rather than an EU one. But there are some EU programmes that have similar effect.

Until 2001 there was an EU programme called Pilot Actions for Combined Transport (PACT) which sought to encourage modal shift. Under this some UK companies received small amounts of funding for projects such as intermodal tracking systems and feasibility studies for projects. The Department does not have a detailed breakdown by amount received, company and year.

In 2003 the EU agreed a replacement measure called Marco Polo. This is designed to support "modal shift actions", i.e. measures to encourage the transfer of freight from road to more environmentally friendly modes of transport. In order to be eligible for funding projects should be submitted to the European Commission by a consortium of two or more undertakings established in at least two different member states. The Commission has recently completed its first call for expressions of interest but no money has yet been allocated.

Hazardous Substances (Carriage at Sea)

Norman Baker: To ask the Secretary of State for Transport what progress has been made in implementing the International Convention on Liability and Compensation for Damage in Connection with the Carriage of Hazardous and Noxious Substances by Sea. [162970]

Mr. Jamieson: The UK signed the International Convention on Liability and Compensation for Damage in Connection with the Carriage of Hazardous and Noxious Substances by Sea (the HNS Convention), subject to ratification, in October 1996 as a sign of intent to proceed to ratification. The necessary enabling legislation was incorporated into the Merchant Shipping and Maritime Security Act 1997. Certain areas of the Convention are inconsistent with equivalent provisions that exist under EU Council Regulation 44/2001. Until this conflict was resolved by means of EU Council Decision (2002/971/EC) of 18 November 2002, the UK was not authorised to ratify the Convention.

My Department has recently conducted the first phase of public consultation on the implementation and ratification of the HNS Convention. The responses to the consultation are currently being analysed and work has commenced on the preparation of the draft legislation required to implement the Convention. The next stage will be a public consultation on the draft legislation, this should take place early this summer with a view to obtaining parliamentary approval in the autumn and ratification of the Convention before the end of the year.

The HNS Convention will not enter into force until 18 months after the date on which at least 12 States are party to the Convention and certain thresholds relating to quantities of hazardous and noxious substances imported by those States have been reached. There are currently four States party to the HNS Convention: Angola, Morocco, the Russian Federation and Tonga.

Heavy Goods/Public Service Vehicles

Mr. Paul Marsden: To ask the Secretary of State for Transport how many initial annual test failures of *(a)* heavy goods vehicles and *(b)* public service vehicles

there were in each of the last 10 years; and what the most common grounds were on which the tests were failed. [163840]

Mr. Jamieson: The Vehicle and Operator Services Agency is responsible for the annual testing of lorries, buses and coaches at its 92 test stations across the country and at specially approved operators' premises. The number of initial annual test failures for heavy goods vehicles and public service vehicles in each of the past 10 years is given in the table.

Initial annual test failures: 1993–94 to 2002–03

	Vehicle category		
	HGV motor vehicles	*HGV trailer*	*PSV*
2002–03	198,016	68,871	22,672
2001–02	182,826	70,193	22,074
2000–01	177,777	64,793	20,711
1999–2000	167,842	59,456	19,496
1998–99	175,944	59,998	21,353
1997–98	175,925	56,921	20,647
1996–97	164,273	51,179	21,010
1995–96	156,429	47,586	21,368
1994–95	152,070	47,228	22,407
1993–94	155,342	48,030	24,821

The most common defects found that resulted in an initial annual test failure for HGV motor vehicles are headlamp aim and service brake performance. For HGV trailers, the most common defects found are service brake and parking brake performance. For PSVs the most common defects are headlamp aim and body (interior). Examples of the latter include seat condition, passenger grab rails, fire extinguishers and provision of first aid kit.

Mr. Paul Marsden: To ask the Secretary of State for Transport how many PG9s were issued to *(a)* heavy goods vehicles and *(b)* public service vehicles in each of the past 10 years; and what the most common grounds were on which they were issued. [163841]

Mr. Jamieson: The Vehicle and Operator Services Agency issues prohibitions (PG9s) to vehicles which have significant defects. Prohibitions may be issued to vehicles examined during the course of VOSA's roadside enforcement activities (including vehicles seen on operators' premises) or at the time of presentation for annual test. Depending on the severity of the defect, the prohibition notice may come into force immediately or be delayed from coming into force for up to 10 days from the date of inspection.

The number of prohibitions issued (immediate and delayed) to heavy goods vehicles and public service vehicles from 1995–96 to 2002–03 is shown in the table. Figures are not available before 1995–96.

Prohibitions issued: 1995–96 to 2002–03

	Vehicle category		
	HGV motor vehicle	*HGV trailer*	*PSV*
2002–03	18,276	6,913	3,919
2001–02	17,343	5,164	3,666
2000–01	17,669	5,116	3,764
1999–2000	18,012	4,989	3,783
1998–99	17,320	5,094	3,509
1997–98	19,686	5,625	4,481
1996–97	21,970	6,797	5,259
1995–96	19,009	5,702	4,585

The most common prohibition defects at both spot and fleet checks for HGV motor vehicles and trailers are lamps and brake systems and components. For PSVs, the most common prohibition defects are in relation to the body interior and oil and waste leaks.

Level Crossings (Pollution)

Norman Baker: To ask the Secretary of State for Transport if he will take steps to encourage drivers to switch off their engines while being held at full-length level crossing gates. [163967]

Mr. Jamieson: The impacts of switching off and restarting engines after a short period of time are complex and not consistent for different pollutants, such action could actually increase the overall emission level of certain types of pollutant. The effect on vehicle emissions will be dependent on factors such as the type of engine, its state of maintenance and the length of time for which the engine is switched off. It is therefore not considered appropriate to recommend engine switch-off at level crossings.

Maritime Security

Patrick Mercer: To ask the Secretary of State for Transport (1) what responsibility *(a)* his Department and *(b)* Transec will have for maritime security under the International Ship and Port Facility Security Code; [163578]

(2) what responsibility he will have for maritime security under the terms of the International Ship and Port Facility Security Code. [163579]

Mr. Jamieson: The Department for Transport is the Designated Authority to oversee the implementation and compliance of the International Ship and Port Security (ISPS) Code in the United Kingdom.

Reporting directly to the Secretary of State, the Department for Transport's Transport Security Directorate (Transec) has the policy lead and is responsible for introducing the ISPS Code requirements to approximately 600 UK port facilities and over 600 UK flagged ships by the deadline of the 1 July 2004. Operationally Transec is responsible for UK ports and passenger shipping, and the Maritime and Coastguard Agency (MCA) has been delegated responsibility for non-passenger shipping, under a policy framework set by Transec.

Merchant Fleet

Bob Spink: To ask the Secretary of State for Transport what the size of the British merchant fleet was *(a)* in 1980, *(b)* in 1990 and *(c)* on the latest date for which figures are available; and what plans he has to support the merchant fleet. [163535]

Mr. Jamieson: The size of the British registered trading fleet (including the Isle of Man and Channel Islands) of vessels 500 gross tons and over, in these years was as follows.

End year	Thousand wt.
1980	42,308
1990	7,446
2003	19,719

The Government's shipping policy to support the merchant fleet is outlined in the White Paper "British Shipping: Charting a new course". An update of the current status of the 33 actions from 'Charting' has been placed in the Libraries of the House in accordance with the answer of 24 February 2004, *Official Report*, column 343W.

Piracy

Mr. Carmichael: To ask the Secretary of State for Transport what discussions he has had with the International Maritime Organisation about international action to combat piracy. [163343]

Mr. Jamieson: The United Kingdom, as a permanent member of the International Maritime Organisation (IMO), has taken a leading role in addressing the issue of action to combat piracy. Over the past five years the United Kingdom has provided expert assistance in support of several IMO counter piracy missions and seminars to piracy 'hotspot' areas.

The United Kingdom is in the process of implementing IMO requirements for all ships to have internationally agreed security measures in place by July 2004 which will help to protect them from piracy attacks.

Mr. Carmichael: To ask the Secretary of State for Transport what losses were incurred by *(a)* British-flagged and *(b)* British-managed ships owing to acts of piracy in each of the last 10 years. [163344]

Mr. Jamieson: There was no loss of life as a result of piracy attacks on the British Fleet from 1 January 1994 to 31 December 2003.

During the same period, there were a total of 64 recorded piracy attacks on British registered ships.

There are no available figures for British-managed ships.

Mr. Carmichael: To ask the Secretary of State for Transport what assessment he has made of the future trends of piracy against British vessels. [163345]

Mr. Jamieson: The Department works closely with operators of British vessels, the Foreign and Commonwealth Office, the Ministry of Defence, the International Maritime Bureau and with the International Maritime Organisation to ensure that trends of piracy are monitored and acted upon. This work is carried out in co-operation with IMO member states and the United Kingdom has played a leading role in providing expertise and other resources to help combat acts of piracy worldwide.

Mr. Carmichael: To ask the Secretary of State for Transport when he last met representatives of *(a)* ship owners and *(b)* maritime trade unions to discuss piracy. [163346]

Mr. Jamieson: The issue of piracy is regularly discussed by officials in the Department with representatives of the UK maritime industry and its trade bodies; in particular the Chamber of Shipping. This is done directly or under the auspices of the National Maritime Security Committee which meets bi-annually. Similarly, meetings are held with representatives of maritime trade unions the most recent of which was with representatives of NUMAST in September 2003.

Mr. Carmichael: To ask the Secretary of State for Transport when he last discussed sea piracy with the Secretary of State for Defence. [163347]

Mr. Jamieson: The Secretary of State has regular meetings with his ministerial colleagues to discuss a range of issues relevant to the business of his Department. In addition, his officials are engaged in discussions on piracy with other Government Departments including the Foreign and Commonwealth Office, the Ministry of Defence and external bodies, including the International Maritime Organisation and the International Maritime Bureau.

Queen Elizabeth Bridge, Dartford

Mr. Evans: To ask the Secretary of State for Transport when he estimates that the costs of the Queen Elizabeth Bridge, Dartford will have been met through toll fees. [163832]

Mr. Jamieson: The financial break-even date was met on 31 March 2002. The legislation governing the Dartford Crossing (which includes the Queen Elizabeth II Bridge) allowed for tolls to be charged for a year after the financial break-even date to help build up a maintenance fund for the Crossing.

Mr. Evans: To ask the Secretary of State for Transport when the toll is to be removed from the Queen Elizabeth Bridge, Dartford. [163833]

Mr. Jamieson: The power to charge a toll for the use of the Dartford Crossing (which includes the Queen Elizabeth II Bridge) expired on 31 March 2003.

Following a study and a public consultation, a road user charge under the provisions of the Transport Act 2000 was introduced on 1 April 2003 to help manage traffic at the Crossing.

Rail Services

Gregory Barker: To ask the Secretary of State for Transport what recent discussions he has had with the Strategic Rail Authority on improving the service on the Hastings to London line; what assessment he has made of the *(a)* punctuality and *(b)* frequency of trains departing stations south of Tunbridge Wells; and if he will make a statement. [164385]

Mr. McNulty: The Strategic Rail Authority is currently consulting widely on its proposals for the train specification for the new Integrated Kent Franchise, which includes the route between Hastings and London.

The authority also monitors the performance of train operating companies. On 11 March the authority published its quarterly report—National Rail Trends—for the period October to December 2003, a copy of which has been placed in the Library of the House. Information is provided for the services of each operator in aggregate, not by specific routes.

Ships and Containers (Scanning)

Patrick Mercer: To ask the Secretary of State for Transport (1) how much *(a)* was spent in 2003–04 and *(b)* is planned to be spent in 2004–05 on improving the process of scanning of ships and containers upon their arrival in British ports; [163580]

(2) how much his Department has spent on enhancing container security *(a)* in British ports and *(b)* on British ships since May 1997. [163636]

Mr. Jamieson: My Department's Transport Security Directorate (Transec) is responsible for developing, overseeing the implementation of, and ensuring industry compliance with, Counter Terrorist security policy for the UK's major transport modes.

However, in the UK the cost of meeting these security requirements falls to industry. The "user pays" principle has been maintained throughout the country's history of regulating transport security and costs are ultimately passed on to customers.

It is not therefore, possible to give an indication of costs because they are not held centrally. However, as part of the implementation process of the IMO's new maritime security regime, Transec is conducting an Regulatory Impact Assessment, which will, when complete provide a broad picture of the costs associated with meeting the UK's new security requirements. The RIA will include consideration of the cost of enhancing the security of ports handling containers.

Speed Cameras

Sue Doughty: To ask the Secretary of State for Transport how many speed cameras there are in England and Wales; and how many are covered by the special schemes introduced in 2002 to facilitate investment in safety cameras. [150646]

Mr. Jamieson: Information from the 35 Safety Camera Partnerships currently operating, covering 38 of the 43 police authorities in England and Wales, indicates that there are currently 5,040 fixed and mobile camera locations, of which 432 are for detecting motorists going through red traffic lights. This data is currently being audited.

Mr. McLoughlin: To ask the Secretary of State for Transport how many speed cameras *(a)* there are and *(b)* there have been in each of the last five years in (i) the East Midlands and (ii) West Derbyshire. [150925]

Mr. Jamieson: The numbers of approved speed cameras sites operated by local Partnerships under the Safety Camera Programme for the areas covered by the Government Office for the East Midlands are as follows.

	2000–01	*2001–02*	*2002–03*	*2003–04*[1]
Derbyshire	Prior to the area's joining the Programme	53	76	84
Leicestershire	Prior to the area's joining the Programme	Prior to the area's joining the Programme	71	81
Lincolnshire	36	37	56	54
Northamptonshire	13	28	30	25
Nottinghamshire[2]	15	16	52	52

[1] Figures up to the end of September 2003 (latest figures submitted)

[2] Nottingham City in early years; Nottinghamshire latterly

Note:

All figures are as reported by the partnerships and include both fixed and mobile camera sites

The numbers for West Derbyshire are included in those provided for Derbyshire.

Mr. Pope: To ask the Secretary of State for Transport pursuant to his answer of 19 January 2004, *Official Report*, column 1004W, on speed cameras, how much of the income generated by speed cameras in the Lancashire Safety Camera Partnership area in 2003–04 is returned to the partnership to cover the costs of their camera activity; and where the remainder of the income is spent. [151290]

Mr. Jamieson: A maximum of £4.6 million of netted off fine receipts resulting from fixed penalties for speeding and red light offences has been approved to be passed to the Lancashire Safety Camera Partnership to cover the costs of its approved safety camera activity in 2003–04. The actual figure, which may be less but cannot be more, will be contained in the 2003–04 accounts. Any surplus of fixed penalties over the Partnership's approved expenditure is surrendered to the Consolidated Fund.

Mr. Damian Green: To ask the Secretary of State for Transport if he will place in the Library the latest accounts of each safety camera partnership. [158217]

Mr. Jamieson: Local authorities and police forces within individual safety camera partnerships make available for public scrutiny their accounts on an annual basis. These can be viewed by local arrangement.

David Taylor: To ask the Secretary of State for Transport what plans there are to improve the visibility of speed camera warning signs on the trunk road network. [163624]

Mr. Jamieson *[holding answer 26 March 2004]:* The "Handbook of rules and guidance for the operation of the national road safety programme for England and Wales, October 2003", a copy of which is in the Library of the House, sets out the standards for signing, marking, visibility and conspicuity of safety cameras. The Handbook also requires Safety Camera Partnerships regularly to review camera sites, to ensure for example that cameras are not obscured by foliage growth. The types of signs that may be used are contained in the Traffic Signs Regulations and General Directions 2002. There are no current plans to alter these signing requirements. If there is a concern about the visibility of particular camera sites, the local Safety Camera Partnership would welcome comments.

Shona McIsaac: To ask the Secretary of State for Transport how many static speed cameras there are in *(a)* North East Lincolnshire, *(b)* North Lincolnshire and *(c)* Lincolnshire. [162579]

Mr. Jamieson: North East Lincolnshire and Lincolnshire fall within the Humberside Safety Camera Partnership which has no fixed safety camera sites. The Lincolnshire Safety Camera Partnership has 59 fixed speed camera sites.

Mr. Drew: To ask the Secretary of State for Transport how many fixed speed cameras were in operation in the United Kingdom in each year from 1998 to 2003. [142263]

Mr. Jamieson: My Department holds information on speed cameras operated under the Speed Camera Programme for funding of approved cameras from fixed fine receipts, which began with seven Safety Camera Partnership areas in England and Wales in April 2000, increasing to 14 in 2001 and to 28 during 2002. The number of approved fixed speed camera locations for the three financial years is:

As at end of year	*Number of camera sites*	*Number of Partnership areas*
2000–01	311	7
2001–02	706	14
2002–03	1,387	28

My Department plans shortly to publish information on the number of safety camera locations for all Safety Camera Partnerships in England and Wales together with collision and casualty information.

Prior to the Safety Camera Programme, police and highway authorities have used cameras since 1991, under the Road Traffic Act 1991 and the Department of Transport Circular 1/92 'Use of technology for traffic enforcement: Guidance on deployment'. My Department does not hold information centrally on cameras which are not part of the Safety Camera Programme.

Tachograph Offences

Mr. Paul Marsden: To ask the Secretary of State for Transport how many prosecutions for tachograph offences there were in each of the last 10 years. [163838]

Mr. Jamieson: The enforcement of drivers' hours and records legislation is carried out by the Vehicle and Operator Services Agency. Examiners check the tachograph equipment, tachograph charts and record books. The usual sanction imposed for any infringement of this legislation is that of prohibition. However prosecution action may also be instigated. The number of successful prosecutions for tachograph and drivers' hours offences is only available for the last seven years. Figures are shown in the table as follows:

Successful Prosecutions for Tachograph Offences

	2002–03	*2001–02*	*2000–01*	*1999–00*	*1998–99*	*1997–98*	*1996–97*
HGV							
Tach/Records	5,253	4,999	6,279	7,027	5,579	5,233	4,708
Drivers Hours	3,776	2,701	4,184	4,683	4,171	3,478	3,270
PSV							
Tach/Records	441	335	581	554	621	626	525
Drivers Hours	284	317	389	417	244	338	274

Road Accidents

Lembit Öpik: To ask the Secretary of State for Transport how many powered two-wheeler users involved in road accidents were *(a)* killed and *(b)* seriously injured during 2003; and if he will make a statement. [163908]

Mr. Jamieson: Data are not yet available for 2003. In 2002 there were 609 deaths and 6,891 serious injuries among two-wheeled motor vehicle users.

Telecommunications Masts

Mr. Spring: To ask the Secretary of State for Transport (1) what information his Department has received from Network Rail on their plans to *(a)* lease and *(b)* sell telecommunication masts and base stations on their land to mobile phone operators; [163030]

(2) how many telecommunication masts have been erected on land owned by Network Rail since January 2002. [163031]

Mr. McNulty: Network Rail is currently implementing a new safety system known as the Global System for Mobile Communications for Railways (GSM-R). GSM-R will, for the first time, provide a national system of secure and direct driver to signaller communication.

Network Rail advises firstly, that it has no plans to commercially exploit GSM-R telecommunication masts; and secondly, that since January 2002 it has erected 188 masts, of which 176 have been installed on the West Coast Main Line as part of its modernisation.

Vehicle Inspectorate

Mr. Paul Marsden: To ask the Secretary of State for Transport what the annual expenditure of the former Vehicle Inspectorate was in each of the past 10 years up to 2003; what the expenditure of the vehicle inspectorate unit within the Vehicle and Operator Services Agency was in 2003; and what this unit's projected expenditure is in 2004. [163837]

Mr. Jamieson: The Vehicle Inspectorate (VI) merged with the Traffic Area Network to become the Vehicle and Operator Services Agency on 1 April 2003. As a result, separate expenditure figures cannot be supplied for the VI Division in 2003–04, or its projected expenditure in 2004–05. The annual expenditure for the Vehicle Inspectorate prior to the merger is shown as follows:

Annual expenditure: April 1993—March 2003

	£
2002–03	100,803
2001–02	89,046
2000–01	74,614
1999–00	64,924
1998–99	58,474
1997–98	53,870
1996–97	50,718
1995–96	49,348
1994–95	52,493
1993–94	49,422

CONSTITUTIONAL AFFAIRS

Community Legal Service

Mr. David: To ask the Parliamentary Secretary, Department for Constitutional Affairs how many people have been helped by the Community Legal Service in *(a)* 2000–01, *(b)* 2001–02 and *(c)* 2002–03. [163306]

Mr. Lammy: The Legal Services Commission is unable to answer the question in the format requested as its systems record the number of acts of assistance rather than the number of clients assisted, which is not necessarily reflective of the number of individuals involved. The total acts of assistance dealt with by the CLS were as follows:

	Number
2000–01	1,137,000
2001–02	1,005,000
2002–03	1,017,000

Mr. Goodman: To ask the Parliamentary Secretary, Department for Constitutional Affairs how much funding has been allocated in *(a)* 2004–05, *(b)* 2005–06 and *(c)* total to community legal service partnerships. [163656]

Mr. Lammy: The Legal Services Commission, which administers the Community Legal Service, does not allocate funding centrally to Community Legal Service (CLS) Partnerships. However resources have been made available at a regional level to support specific partnership related projects.

The future operation of the CLS Partnerships will be informed by the Independent Review of the CLS which is due to report in April 2004. It is therefore not appropriate to comment on the funding position for 2004–05 and 2005–06 until the final findings and recommendations of this evaluation have been fully considered.

Computer Misuse

Mr. Webb: To ask the Parliamentary Secretary, Department for Constitutional Affairs how many cases of computer misuse there were in his Department and its predecessor in *(a)* 1997 and *(b)* 2003, broken down by category of misuse; and how many of those cases resulted in disciplinary action. [163246]

Mr. Leslie: The number of cases of computer misuse in my Department and its predecessor were as follows:

Category	*1997*	*2003*
Games	1	1
Personal use	6	3
Unofficial business use	0	0
Other	0	0
Total	7	4

In each case disciplinary action has been taken in line with Departmental disciplinary procedures, which accord with the central framework set out in paragraph 4.5 of the Civil Service Management Code.

Departmental Officials

Mr. Cousins: To ask the Parliamentary Secretary, Department for Constitutional Affairs which former officials of the Department have asked for permission to join *(a)* PricewaterhouseCoopers, *(b)* Deloitte & Touche, *(c)* Ernst & Young and *(d)* KPMG. [156907]

Mr. Leslie: The answer in respect of permissions requested since 2001 is none.

Emergency Protection Orders

Simon Hughes: To ask the Parliamentary Secretary, Department for Constitutional Affairs how many applications were heard for emergency protection orders in Greater London in the last year for which information is available, broken down by borough; what proportion were granted; how many were ex-parte applications; and what proportion of ex-parte applications were granted. [164054]

Mr. Leslie: The requested information is not collected in a manner that can be broken down by borough as it is collected at court level only. Provided in the table attached are the numbers of applications for emergency protection orders and orders made in the family proceedings courts in Greater London. There are no county courts in this region with the relevant jurisdiction as this work is dealt with by the Principal Registry of the Family Division, whose figures have been included for reference. No information is held centrally concerning those applications that were made ex-parte and can be provided only at disproportionate cost.

Emergency Protection Orders 2003

Family proceedings court/PRFD	*Applications made*	*Orders made*
Barnet	13	13
Bexley	9	5
Bromley	9	9
Croydon	21	16
Ealing	20	11
Haringey	48	44
Harrow	23	23
Havering	12	11
Hounslow (Feltham)	21	21
Inner London Family Proceedings Court	290	253
Kingston-on-Thames	0	0
Redbridge	9	7
Richmond-on-Thames	4	4
South East Suffolk	12	12
South West Surrey	18	18

Emergency Protection Orders 2003

Family proceedings court/PRFD	*Applications made*	*Orders made*
Uxbridge	28	27
Willesden	24	21
Wimbledon	10	10
Principal Registry of the Family Division	131	29

Legal Services Review

Mr. David: To ask the Parliamentary Secretary, Department for Constitutional Affairs if he will make a statement on the findings of the Review of Supply, Demand and Purchasing of Legal Services regarding the level of solicitor involvement in the provision of publicly funded legal services since the introduction of the Community Legal Service. [163303]

Mr. Lammy: I am considering the first phase of the report on solicitors and will shortly receive the second phase on barristers. When I have both phases I will make a statement which will set out the significance of the reviews for Government policy. It would be premature to make a statement without both phases of the review. We have made available the first phase of the review to the Select Committee on Constitutional Affairs as evidence for its study into advice deserts.

Mr. David: To ask the Parliamentary Secretary, Department for Constitutional Affairs what assessment he has made of the Review of Supply, Demand and Purchasing of Legal Services. [163304]

Mr. Lammy: The report of the solicitor phase of the review was received in December 2003. We expect the barristers' section shortly. I am considering the recommendations carefully and will make a statement when I have both phases of the review.

Mr. David: To ask the Parliamentary Secretary, Department for Constitutional Affairs if he will publish the findings of the Review of Supply, Demand and Purchasing of Legal Services. [163305]

Mr. Lammy: I will publish the findings of the Review of Supply, Demand and Purchasing Arrangement for Legal Services when both phases complete and a copy of the report will be placed in the Library.

Lord Chancellor

Mr. Gordon Prentice: To ask the Parliamentary Secretary, Department for Constitutional Affairs whether the rules preventing former Lord Chancellors from returning to practise law are to be waived in the case of the present incumbent. [162597]

Mr. Leslie: No. I refer my hon. Friend to the Prime Minister's written answer to the hon. Member for North-East Hertfordshire (Mr. Heald) of 25 June 2003, *Official Report*, column 792W.

Mr. Gordon Prentice: To ask the Parliamentary Secretary, Department for Constitutional Affairs for what reasons former Lord Chancellors are prohibited from practising law; and if he will make a statement. [162599]

Mr. Leslie: By convention, judges have not returned to practice after retirement (and this is now included in judicial terms of appointment). The convention ensures the integrity and impartiality of the justice system. This convention has also been adhered to by former Lord Chancellors given their judicial status and role in the administration of justice. The rules, set out in the Ministerial Code, relating to the acceptance of appointments after leaving ministerial office, also apply.

Munby Judgment, November 2001

Sandra Gidley: To ask the Parliamentary Secretary, Department for Constitutional Affairs what assessment he has made of the ruling of November 2001 by Mr. Justice Munby. [161933]

Margaret Hodge: I have been asked to reply.

In R(L and others) and R(R and anon) *v.* Manchester City Council, Mr. Justice Munby found that Manchester City Council's policy on payment to relatives and friends as carers breached Articles 8 and 14 of the European Convention for the Protection of Human Rights and Fundamental Freedoms.

The impact of the judgment is that local authority policies need to demonstrate that payment differences relate to the child's needs or the skills of the carer or some other relevant factor that is used as a basis for an authority wide policy.

Secondments

Mr. Cousins: To ask the Parliamentary Secretary, Department for Constitutional Affairs what secondments *(a)* PricewaterhouseCoopers, *(b)* Deloitte & Touche, *(c)* Ernst & Young and *(d)* KPMG have made to the Department since 2001; for what (i) periods and (ii) tasks the secondments were made; whether secondments of staff from the Department have been made to those firms; and for what (A) periods and (B) tasks. [156929]

Mr. Leslie: Since 2001 there have been two secondments to the Department from Deloitte & Touche. Both worked in the Business Support Office (BSO) in the Department's headquarters. The BSO was set up to support the introduction of programme and project work in Policy Group. Their roles contained both development work (setting up the Business Support Office and defining its roles and responsibilities) and supporting work underway in Policy Group. Their appointments were effective from 29 October 2001 until the end of July 2002.

Since 2001 there have been no secondments of staff from the Department to any of the companies specified.

Wrongful Convictions

Bob Spink: To ask the Parliamentary Secretary, Department for Constitutional Affairs how many convictions have been found by the Court of Appeal to be wrongful in each of the last five years; and how much compensation has been paid in respect of such convictions. [163592]

Mr. Leslie: Figures for the number of convictions found by the Court of Appeal to be wrongful in each of the last five years are provided in Table 1. The figures provided by the Home Office in Table 2 do not identify the amount of compensation awards to successful appellants as they also include payments made under the Home Secretary ex-gratia scheme for wrongful conviction and/or charge.

Table 1: Court of Appeal (Criminal Division) Convictions Overturned

	Number
1998	290
1999	171
2000	150
2001	135
2002	166

Table 2: Compensation paid under ss133 Criminal Justice Act 1988 or the Home Secretary's ex-gratia scheme for wrongful conviction and/or charge

	£ million
1998–99	5.302
1999–2000	5.647
2000–01	8.051
2001–02	6.172
2002–03	8.120

NORTHERN IRELAND

Cancer

Dr. Gibson: To ask the Secretary of State for Northern Ireland how many new cancer diagnoses were made for teenagers and young adults in the 13 to 24 years age range in each of the last five years in Northern Ireland. [163888]

Angela Smith: The following table shows the annual incidence of cancer in teenagers and young adults (aged 13 to 24 years) in Northern Ireland in the last five years for which accurate cancer registration figures are available.

Cancers diagnosed

Ages 13–24	*Number*
1997	64
1998	72
1999	80
2000	68
2001	70

Census 2001

Mr. Leigh: To ask the Secretary of State for Northern Ireland how many households in Northern Ireland contain two or more persons, excluding students, who do not see themselves as a couple, according to the 2001 Census; how many people there are in such households; how many people there are in such households where both are pensioners; and how many people he estimates there are in such households who are related. [163061]

Mr. Pearson: According to the 2001 Census, there are 69,754 households in Northern Ireland containing two or more persons who are not full-time students, where none of the people in the household see themselves as living in a married or co-habiting couple.

These 69,754 households contain 190,583 people of whom:

(i) 9,127 are living in "All Pensioner" households; and

(ii) 176,813 are related to another member of the household.

Mr. Leigh: To ask the Secretary of State for Northern Ireland how many same-sex households there are in Northern Ireland according to the 2001 Census. [163084]

Mr. Pearson: According to the 2001 Census, there are 288 households in Northern Ireland containing couples of the same-sex who indicated they are living as partners.

Computer Misuse

Mr. Webb: To ask the Secretary of State for Northern Ireland how many cases of computer misuse there were in his Department in each of the last seven years, broken down by category of misuse; and how many of those cases resulted in disciplinary action. [163229]

Mr. Pearson: Within the 11 Departments of the formally devolved Northern Ireland Administration and the Northern Ireland Office, there have been a total of 866 cases of computer misuse reported over the last seven years, with disciplinary action having been taken in 688 of those cases.

Cases where misuse falls into more than one category have been broken down and counted separately. The breakdown by year and category is as follows.

Category	*1997–98*	*1998–99*	*1999–2000*	*2000–01*	*2001–02*	*2002–03*	*2003–04*	*Total*
Use of inappropriate or offensive material[1]	1	0	1	31	25	153	219	430
Using unlicensed software, forging e-mail addresses	0	0	0	1	0	4	0	5
Using e-mail facilities for personal use without permission	0	0	0	0	0	13	12	25
Unreasonable extensive personal use	0	0	0	0	0	2	2	4
Unauthorised access to customer accounts	0	1	4	1	3	2	11	22
General misuse of a minor nature (games, using unofficial screensavers)	0	0	0	0	12	280	88	380
Total	1	1	5	33	40	454	332	866

[1] Viewing, creating, distributing, storing or downloading inappropriate or offensive material that could bring the department into disrepute or expose it to legal action.

Invest Northern Ireland

Mr. Trimble: To ask the Secretary of State for Northern Ireland on how many occasions since April 2002 Invest Northern Ireland has taken equity in companies in Northern Ireland; and what the value is of equity taken by Invest Northern Ireland in companies in Northern Ireland since April 2002. [159743]

Mr. Pearson: Invest NI has taken equity investments in 38 companies since April 2002, these investments cost Invest NI £14.5 million.

Police Recruitment

Rev. Martin Smyth: To ask the Secretary of State for Northern Ireland how many applicants have commenced their courses since recruitment for the Police Service of Northern Ireland began; and how many have completed their training. [163711]

Jane Kennedy: A total of 1,202 candidates have been appointed up to and including 14 March 2004 with 946 student officers attested as at 19 March 2004.

There are currently four separate intake groups undergoing the training prior to attestation.

Rev. Martin Smyth: To ask the Secretary of State for Northern Ireland pursuant to the answer of 27 February 2004, *Official Report*, column 583W, on police, how many recruits *(a)* dropped out of their training, *(b)* proved unsuitable and *(c)* did not take up their places. [163712]

Jane Kennedy: I have been advised that as at 1 March 2004 and in total *(a)* 22 student officers resigned *(b)* 10 were dismissed and two were suspended and *(c)* 33 chose not take up their places.

EDUCATION AND SKILLS

Asylum-seeking Children

Alan Keen: To ask the Secretary of State for Education and Skills how many unaccompanied asylum-seeking children have been under the care of the London Borough of Hounslow since 1998; and how many in that time left care having reached 18 years of age. [162501]

Margaret Hodge *[holding answer 22 March 2004]:* Information on unaccompanied asylum seeking children being 'looked after' (within the meaning of the Children Act 1989) by local authorities was collected for the first time in 2002. On 31 March 2002, there were 15 children (rounded to the nearest five) under the age of 18 years looked after by London Borough of Hounslow. 2003 data will be available at the end of March 2004.

Careers Service

Bob Russell: To ask the Secretary of State for Education and Skills what his policy is on the provision of a careers service for young people; and if he will make a statement. [163649]

Margaret Hodge *[holding answer 5 March 2004]:* Responsibility for providing young people with the advice and support they need to make informed learning and career choices is shared between Connexions and schools. Schools provide the underpinning skills young people need to investigate options and manage transitions through learning into work, through a planned programme of careers education in years nine-11 (to be extended to years seven and eight from September 2004). This is complemented by support from Connexions at key decision-making and transition points. All young people aged 13–19 have access to Connexions, with the level of support provided in each individual case being differentiated according to need.

In order to assure ourselves that the current arrangements are robust—in particular in light of changes to the 14–19 phase of education announced in January last year—we have initiated a review of careers education and guidance which will report in Summer 2004.

Child Care

Mr. Milburn: To ask the Secretary of State for Education and Skills if he will list by local authority area how many children are *(a)* aged under five years old and *(b)* aged under eight years, and the number of registered child care places. [161984]

Margaret Hodge: The information requested is shown in the table. Statistics on the number of childcare places registered in England were published on 19 February 2004 in a report by OfSTED "Registered Childcare Providers and Places in England, 31 December 2003". The report is available on the OfSTED website, www.ofsted.gov.uk/publications.

Number of children[1] aged under five and eight years old and the number of registered childcare places[2,3,4]

LEA name	*Children aged under five years old*	*Children aged under eight years old*	*Number of registered childcare places*
England	2,863,700	4,688,500	1,392,800
North East	134,000	223,700	58,800
Hartlepool	5,100	8,700	2,100
Middlesbrough	8,000	13,300	4,700
Redcar and Cleveland	7,300	12,400	2,800
Stockton-on-Tees	10,100	16,900	4,400
Darlington	5,600	9,300	3,400
Durham	25,200	42,300	9,800
Northumberland	15,500	26,000	8,100
Gateshead	10,500	17,200	4,000
Newcastle-upon-Tyne	13,900	22,600	7,100

[1] Mid year estimates 2002.

[2] Registered places are not the number of places occupied, nor the number of children who may benefit from receiving places through providers offering sessions at different times of the day. The number of registered places is likely to be higher than the actual number of registered places as not all providers will immediately inform Ofsted that they have ceased their provision. For about 7 per cent. of providers, the database does not hold the number of registered places. In these cases, the number of places has been estimated and included in the figures shown.

[3] Figures are rounded to the nearest hundred. Due to rounding, data may differ from that published by Ofsted.

[4] Includes childminders, full day care and sessional day care, out of school care and crèches.

Mr. Milburn: To ask the Secretary of State for Education and Skills what plans he has to register sitting services as accredited child care providers. [161988]

Margaret Hodge *[holding answer 18 March 2004]:* Sitter services are becoming increasingly popular, particularly in Scotland, and we are actively investigating the role they could play in England. We believe they can be very useful as a means of enabling parents, especially lone parents, to work atypical hours, and for providing parents of disabled children with child care in their home or with respite care. In particular, using a sitter service to provide home-based child care removes the need for the parent to act as employer. The availability of such a service could also make it much easier for 24 hour service sector employers to recruit and retain employees.

Currently, sitter services do not have to be registered under the Children Act. However, as announced in the Budget, we shall be consulting in the early summer on extending the scope of accredited child care through a new light touch voluntary scheme, to be implemented by April 2005. Accreditation would enable eligible parents to gain working tax credit support for their child care costs, such support currently not being available for users of sitter services. Child care carried out in the parents' home will be considered as part of this consultation.

Lynne Jones: To ask the Secretary of State for Education and Skills if he will make a statement on the *(a)* availability and *(b)* affordability of quality child care. [162621]

Margaret Hodge: The National Childcare Strategy was established in 1998 to ensure that accessible, affordable and quality child care for children up to the age of 14, and 16 for those with special needs, is available in every area.

We have funded a substantial expansion in child care provision of the public, private and voluntary sectors, with a wide variety of types of child care—nurseries, childminders, before and after school provision increasingly delivered alongside early education and other family services—to ensure diversity and choice for parents. To ensure quality National Standards for Under Eights day care and child minding were introduced from September 2001. They set a national benchmark below which no provider may fall. Responsibility for registration and inspection transferred from local authorities to the Early Years Directorate of Ofsted at that time.

By December 2003, more than 920,000 new child care places had been created since 1997, benefiting over 1.6 million children. This means that we have met our target of creating new places for 1.6 million children by March 2004, and are on track to create places for over 2 million by 2006.

At January 2004, 300,000 lower and middle income families were benefiting from the child care element of the new working tax credit, 120,000 more than benefited under the previous arrangements through working families tax credit—and over six times as many as the 47,000 who benefited from the child care disregard under the previous administration's family credit.

Child Poverty

Mrs. Roche: To ask the Secretary of State for Education and Skills what steps his Department is taking to achieve the Government's targets of *(a)* ending child poverty by 2020, *(b)* halving it by 2010 and *(c)* reducing it by a quarter by 2004–05; and if he will make a statement. [154369]

Margaret Hodge: I refer my hon. Friend to the answer given by my hon. Friend the Parliamentary Under-Secretary of State at the Department for Work and Pensions on 12 February 2004, *Official Report*, column 1590W.

Connexions

Charles Hendry: To ask the Secretary of State for Education and Skills what guidelines are given to Connexions partnerships designed to allow national voluntary and community sector organisations to work efficiently with all partnerships. [161086]

Margaret Hodge: The Department for Education and Skills has, in consultation with the Voluntary and Community Sector (VCS), developed a range of guidance for Connexions Partnerships on working with the VCS.

In addition a limited amount of funding has been given to 88 national voluntary youth organisations to help them build capacity to effectively engage with Connexions.

Charles Hendry: To ask the Secretary of State for Education and Skills if he will make a statement on the progress Connexions partnerships have made towards the targets set out in Youth Support Services for 13 to 19 year olds: A Vision for 2006 in *(a)* providing a vibrant high quality youth service, *(b)* making many more young people active citizens, *(c)* engaging many more young people in developmental activities and *(d)* ensuring that parents, carers and teachers are supportive of Connexions. [161098]

Margaret Hodge: Connexions partnerships are working successfully to meet "Youth Support Services for 13 to 19 year olds: A Vision for 2006". Of the 13 Connexions partnerships on which Ofsted has so far reported, one was judged very good, eight good, one satisfactory and three unsatisfactory. Youth services have made encouraging progress in implementing the Transforming Youth Work modernisation programme. Connexions partnerships are actively involving young people in the governance, design, delivery and evaluation of the Connexions Service; and in promoting active citizenship and personal development through Millennium Volunteers, the Neighbourhood Support Fund and activity-based programmes. The Connexions Customer Satisfaction Survey shows that 91 per cent. of respondents were very or fairly satisfied with the service. Connexions Personal Advisers are working with young people to engage parents, carers and teachers, supported by a guidance leaflet.

Contact Centres

Dr. Gibson: To ask the Secretary of State for Education and Skills when he will announce the allocation of funds to new contact centres following the publication of "Making Contact Work". [163759]

Margaret Hodge: I announced on 19 March that £3.5 million was being made available to March 2006, from a DfES/Sure Start Joint Investment Fund, for child contact services. Just under £2.3 million of this money will fund 14 new supervised child contact centres. £130,000 is being made available to Coram Family to provide high quality training to the new centres; £200,000 will provide continued funding for the NCH Contact Matters Pilot Project in Durham; £387,000 will fund the National Association of Child Contact Centres (NACCC) Change Programme whereby it moves its membership from affiliated to accredited status; and £75,000 is being set aside for research into child contact services. We are also making £430,000 available for a 'Sustainability Fund' to support, over the next two years, existing NACCC-member child contact centres in England. The funding will be administered by NACCC and details about how to apply will be announced in July at NACCC's Annual Conference.

E-universities

Dr. Gibson: To ask the Secretary of State for Education and Skills what progress has been made with the e-university project; how much money has been allocated to the project in each financial year since 2000–01; how the project is being co-ordinated; and if he will make a statement. [163538]

Alan Johnson: The e-universities project has been overseen from the outset by the Higher Education Funding Council for England (HEFCE) in partnership with other funding bodies and the UK higher education sector. HEFCE arranged for public investment in an Operating Company, UK eUniversities Worldwide (UKeU) to be handled by a Holding Company (the eLearning Holding Company Ltd.) which is owned collectively by the higher education sector. The Government has provided £62 million to HEFCE for the e-universities project and I understand that HEFCE has passed on £32.6 million to date to the Holding Company for investment in UKeU. By year, this breaks down as: 2001–02, £12.8 million; 2002–03, £15.7 million; 2003–04, £4.1 million. In addition, HEFCE has allocated £7 million to public good activities connected with online learning, including the eChina project and the establishment of a new e-Learning research centre. HEFCE is currently holding restructuring discussions with the boards of UKeU and the Holding Company to consider the future business direction and structure of UKeU in order to identify the best way forward to secure value from the venture for the higher education sector.

Early Years Development

Bob Spink: To ask the Secretary of State for Education and Skills if he will publish the representations he has received from the National Day Nurseries Association on the financial viability of the operation of the nursery education grant scheme for three and four-year-olds by private providers; and if he will make a statement. [162867]

Margaret Hodge: We have not received any specific representations from NDNA on this issue. The Nursery Education Grant scheme ended in March 2003. With effect from April 2003, all funding for free early education places, including those delivered by private providers, was consolidated within the general Education Formula Spending (EFS) arrangements.

Mr. Simmonds: To ask the Secretary of State for Education and Skills how many pre-school places were available in each year since 1997 in *(a)* the state sector and *(b)* the private sector. [163137]

Margaret Hodge: The information is not available in the form requested.

Figures on the number of free nursery education places taken up by three and four-year-olds in England are shown in the table.

Number of free nursery education places taken up by three and four-year-old children in maintained nursery and primary schools and private, voluntary and independent providers—England—1997–2003

Position in January each year

	Three-year-olds		*Four-year-olds*		
	Maintained nursery and primary schools[1]	*Other maintained and private, voluntary and independent providers*[2]	*Maintained nursery and primary schools*[3]	*Other maintained and private, voluntary and independent providers*[4]	*Total four-year-olds*[5]
1997	214,200	[6]—	[6]—	[6]—	576,200
1998	222,000	[6]—	[6]—	[6]—	591,500
1999	225,700	[6]—	[6]—	[6]—	593,800
2000	229,900	40,300	[6]—	[6]—	598,500
2001	226,600	108,800	[6]—	[6]—	589,300
2002	223,500	184,700	477,700	106,800	584,500
2003	218,700	226,100	472,200	107,100	579,300

[1] Headcount of children aged three at 31 December in the previous calendar year from the Annual Schools' Census.

[2] Part-time equivalent number of children aged three at 31 December in the previous calendar year from the Nursery Education Grant data.

[3] Headcount of children aged four at 31 December in the previous calendar year from the Annual Schools' Census.

[4] Information for 2002 was derived from the Nursery Education Grant exercise and information for 2003 from the Early Years Supplementary data collection exercise.

[5] Information prior to 2002 was derived from the Nursery Education Grant exercise. Information for 2002 combines two sources of information, the Annual Schools' Census and the Nursery Education Grant exercise. Information for 2003 combines Annual Schools' Census and the Early Years Supplementary data collection exercise.

[6] Not available.

The latest figures on provision for three and four-year-olds in England were published in a Statistical Bulletin 'Provision for children under five years of age in England—January 2003' which is available on the Department's website www.dfes.gov.uk/rsgateway/.

We have made the commitment that by April 2004, six months ahead of our original target, all three-year-olds in England whose parents want one, will have access to a free, part-time early education place.

Mr. Simmonds: To ask the Secretary of State for Education and Skills how many pre-school child care places have been created in deprived areas in each year since 1997. [163139]

Margaret Hodge: Separate information on child care growth in disadvantaged wards has been collected centrally only from April 2003. Between April and December 2003, the latest available data, 12,800 new child care places were created in pre-school groups located in the 20 per cent. most disadvantaged wards in England. During the same period 2,500 group child care places closed in these wards, so that the stock of group child care places rose by some 10,300 places. Information on child minder places is not broken down by the age of the child. Between April and December 2003, 12,100 places with child minders opened in the 20 per cent. most disadvantaged wards in England and 6,100 such places closed, so that the stock of child minder places in these wards rose by some 6,000 places.

Mr. Simmonds: To ask the Secretary of State for Education and Skills what the overall operating and running costs, including employee salaries, of each Early Years Development and Childcare Partnership in each local education authority were, in each year since 1998. [163142]

Margaret Hodge: It has been the responsibility of the local authority to convene an Early Years Development and Childcare Partnership within guidelines set out in the Early Years Development and Childcare Partnership Planning Guidance 2001–2002 published by the then Department for Education and Employment in 2001. The costs of establishing and running those partnerships were not set by Government.

Education Funding

Mr. Jim Cunningham: To ask the Secretary of State for Education and Skills what the average Government investment per student within *(a)* primary, *(b)* secondary, *(c)* higher and *(d)* further education was in each of the last five years. [159428]

Mr. Ivan Lewis *[holding answer 10 March 2004]:* The available information on funding per pupil or per student is shown in the table.

Funding per full-time equivalent pupil/student

£

	1998–99	*1999–2000*	*2000–01*	*2001–02*[1]	*2002–03*[2]
Unit funding per FTE pupil					
Primary (aged 3–10)	2,420	2,570	2,770	2,930	3,010
Secondary (aged 11–15)	3,260	3,370	3,620	3,810	3,900
Unit funding per FTE student					
Further education (total funding)	3,420	3,650	3,850	4,000	4,020
Higher education	5,200	5,190	5,130	5,170	5,170

[1] Provisional figure (FE)
[2] Planned/provisional figures
Note:
Figures are in real terms adjusted to 2002–03 prices using June 2003 GDP deflators.

The FE and HE figures are consistent with those published in the "Statistics of Education, Education and Training Expenditure since 1993–94; Statistical Bulletin (04/03)". The primary and secondary figures differ from those in the bulletin in that they only include funding which can be apportioned to those sectors.

The basis of the figures in each case is set out in the Expenditure Bulletin. Next month, our departmental report for 2004 will be published and this will include updated tables for the unit funding for the schools, further and higher education sectors.

Further Education Colleges

Martin Linton: To ask the Secretary of State for Education and Skills what plans he has to discuss with the Learning and Skills Councils guidelines for dealing with further education colleges withdrawing provision in their areas. [162109]

Alan Johnson: Local Learning and Skills Councils (LSCs) work with providers to develop provision that meets the needs of learners, employers and the local community. This is part of the LSC's planning process. As part of this process, local LSC-led Strategic Area Reviews are taking place across the country to assess the pattern of provision in every local area and consider how it should be planned to ensure that local needs and priorities are met. Guidance on these reviews is set out in the LSC Circular 03/06—Strategic Area Reviews. A copy of which has been placed in the Library.

In addition, officials from the Department, the LSC and the Association of Colleges will be considering jointly whether further guidance is needed on the respective roles, responsibilities and powers of the Department, National and local LSCs and colleges in the relation to the provision of education and training post-16 in a local area, including decisions about reshaping or withdrawing it.

Martin Linton: To ask the Secretary of State for Education and Skills what percentage of students leaving each further education college in London in each of the last five years left without a qualification. [163521]

Alan Johnson: This is a matter for the Learning and Skills Council (LSC). Mark Haysom the Council's Chief Executive will write to my hon. Friend with the information requested and a copy of his reply will be placed in the Library.

Kids Club Network (Funding)

Mr. Andrew Turner: To ask the Secretary of State for Education and Skills what Government funding has been provided to the Kids' Club Network 4 Children, in each of the last three years for which information is available. [162198]

Margaret Hodge: Over the past three years, 4 Children formerly Kids' Clubs Network has received the following funding:

(£000)

	Department for Education and Skills	*Phoenix Fund (DTI)*
To 31 March 2001	303,144	22,700
To 31 March 2002	593,260	48,546
To 31 March 2003	1,031,124	39,810
Sport England income		
2000–01	30,000	
2001–02	66,504	
2002–03	128,118	

4 Children was also responsible for administering payments totalling an additional £1,028,344 on behalf of Sport England in 2001–2002.

Department of Health

	£000
2000–01	0
2001–02	30,000
2002–03	0

Local Government Finance

Bob Spink: To ask the Secretary of State for Education and Skills what guidance he gives to local education authorities on the sources of funds or budgets they should use to make up for the cut in the Standards Fund in order to continue school drug adviser posts; and if he will make a statement. [163994]

Mr. Stephen Twigg: The cessation of the Standards Fund Grant for drug prevention was announced in December 2002. Since then, the Department has advised local education authorities (LEAs) and schools to fund support for drug education out of the total resources available to them. It is up to individual LEAs to decide whether this support includes the provision of school drug advisors.

Mature Students

Mr. Beith: To ask the Secretary of State for Education and Skills what proportion of students in *(a)* the North East of England, *(b)* England and Wales and *(c)* UK universities have been mature students in each of the last 15 years. [150627]

Alan Johnson: The proportions of undergraduate enrolments from mature students are given in the table.

Proportion of undergraduate enrolments who were mature students by location of HE institution

Percentage

Academic Year	*North East*[1,2]	*England and Wales*[1]	*GB*
1988–89	[3]—	n/a	56
1989–90	[3]—	n/a	56
1990–91	[3]—	n/a	56
1991–92	[3]—	n/a	56
1992–93	[3]—	n/a	57
1993–94	[3]—	n/a	58
1994–95	52	61	60
1995–96	55	63	62
1996–97	57	63	62
1997–98	55	62	61
1998–99	53	61	60
1999–2000	53	60	59
2000–01	55	60	59
2001–02	54	60	60
2002–03	55	61	60

[1] Data are not available for English and Welsh institutions and North East Institutions for years prior to 1993–94

[2] Figures for North East institutions for 1994–95 and 1995–96 do not include those studying HE in FE institutions as the data is not available.

[3] Not available

Source:

Higher Education Statistics Agency, Learning Skills Council, Universities Statistical Record.

Mr. Beith: To ask the Secretary of State for Education and Skills if he will rank universities by their proportion of mature students in *(a)* the North East of England, *(b)* England and Wales and *(c)* the UK. [150628]

Alan Johnson: The information requested has been placed in the Libraries.

National Childcare Strategy (Burton)

Mrs. Dean: To ask the Secretary of State for Education and Skills how many children have benefited from the National Childcare Strategy in the Burton constituency; and if he will make a statement. [161851]

Margaret Hodge: Information on the number of new childcare places created in an individual constituency is available only from 1999. Staffordshire local authority reported that between April 1999 and December 2003, the latest date for which information is currently available, 1,498 new childcare places opened in Burton constituency. A place typically helps more than one child, as not all children take up places full-time, and we estimate these places will help some 2,800 children. During the same period, Staffordshire reported that 315 childcare places closed in Burton, so that the stock of childcare places rose by 1,183 helping some 2,300 children.

Pre-school Education (Crosby)

Mrs. Curtis-Thomas: To ask the Secretary of State for Education and Skills how many free *(a)* nursery and *(b)* pre-school places were available for (i) three and (ii) four year olds in Crosby in each of the last seven years. [160399]

Margaret Hodge: The information is not available in the form requested.

Figures on the number of free nursery education places taken up by three and four year olds in Sefton local education authority area are shown in the table.

The latest figures on provision for three and four year olds in England were published in a Statistical Bulletin Provision for children under five years of age in England—January 2003' which is available on the Department's website www.dfes.gov.uk/rsqateway/.

By April 2004, six months ahead of our original target, all three year olds in England whose parents want one, will have access to a free, part-time early education place.

Number of free nursery education places[1,2,3] taken up by three and four year old children Sefton Local Education Authority area

1997–2003

Position in January each year

	Three year olds	*Four year olds*
1997	2,100	3,200
1998	2,000	3,300
1999	2,100	3,200
2000	2,400	3,100
2001	2,900	3,200
2002	2,700	3,200
2003	2,700	3,000

1. Part-time equivalent number of free nursery education places taken up by three and four year old children.

2. A free nursery education place comprises five two and a half hour sessions of early years education per week, for thirty-three weeks of the year, usually three terms of eleven weeks.

3. Maintained nursery and primary schools and private, voluntary and independent providers.

School Playing Fields

Diana Organ: To ask the Secretary of State for Education and Skills if he will strengthen the guidance on the disposal of playing fields; and if he will make a statement. [163662]

Mr. Stephen Twigg: Section 77 of the School Standards and Framework Act 1998 was introduced on 1 October 1998 to stop the indiscriminate sale of school playing fields that occurred in the 1980s and early to mid 1990s. During this time there was widespread concern at the unrestricted sale of school playing fields. If a local authority wanted to sell a school playing field there was nothing to stop it and it could spend the proceeds as it wished. Local authorities and governing bodies of all maintained schools now need the Secretary of State's consent before they can dispose of a playing field or any part of a playing field. Applications to sell school playing fields are only approved where it is clear that they meet the needs of local schools and their communities and that any proceeds are used to improve school sports provision or education facilities. We are continuing to keep the guidance, which was last revised in July 2001, under review.

Science Strategy

Dr. Iddon: To ask the Secretary of State for Education and Skills what steps he has taken to enhance science in his Department since the publication of the Government's science strategy Investing in Innovation. [162242]

Alan Johnson: The Department is committed to undertaking and using the results of science to help it achieve its objectives as set out in the Department's statement in the "Forward Look of Government Funded Science, Engineering and Technology—2003". Funding for research specifically will increase from £9.1m in 2003–4 to £16.2m in 2004–5.

The Department remains committed to the use of social researchers, economists and statisticians to advise in the development, delivery and evaluation of education and skills policies and they are also deployed as "intelligent customers" for research commissioned from the wider research community. We have made substantial progress for improving the impact of science on policy.

To this end the Department has recently implemented a new process for the identification and prioritisation of research, involving senior policy makers within the Department and external experts to enhance the transfer of knowledge."

Special Educational Needs

Mr. Drew: To ask the Secretary of State for Education and Skills what budget for special education needs provision has been allocated to mainstream schools in Stroud for pupils with moderate learning difficulties since the announcement to close Bownham Park special school. [162741]

Margaret Hodge: Information on the funding by local education authorities to individual schools for particular types of special educational need is not collected centrally.

Mr. Hoban: To ask the Secretary of State for Education and Skills what the total cost of educating children with special educational needs is for *(a)* each local education authority and *(b)* England for 2003–04; what the proportion of total education spending is planned to be spent on special educational needs in that year; and what proportion of the school age population has special educational needs. [158277]

Margaret Hodge *[holding answer 2 March 2004]:* In 2003, 17 per cent. of pupils were recorded as having special educational needs. The rest of the information requested is contained in tables, copies of which have been placed in the Libraries.

Simon Hughes: To ask the Secretary of State for Education and Skills what the total cost is of providing special needs education in *(a)* mainstream and *(b)* special schools in (i) Greater London and (ii) each London borough in 2003–04; and what percentage this forms of the total education budget of (A) Greater London and (B) each London borough. [158458]

Mr. Miliband: The information requested is contained within the following table.

Total estimated gross expenditure on providing special needs education in mainstream and special schools in Greater London for 2003–04

	SEN element of schools budget, Primary and Secondary	Special	SEN element of LEA budget	Total
Inner London:				
City of London	85,457	151,500	24,600	261,557

Outer London	2,995,067,778	5	6	1	12
Greater London	5,095,825,483	6	5	1	12

Notes:
1. Estimated gross expenditure, rather than net expenditure, is given as income cannot be split between nursery, mainstream and special schools.
2. Financial data are taken from LEAs 2003–04 Section 52 Budget statements submitted to the DfES.
3. The SEN element of the schools budget includes the provision for pupils with statements, specialist report for statemented and non-statemented pupils, fees for pupils at independent special schools and abroad and collaboration and integration.
4. The SEN element of the LEA budget includes educational psychology service/assessments and statementing, LEA functions in relation to child protection, health service partnerships/special medical attention, parent partnership, guidance and information and promoting good practice and collaboration. Figures are at LEA level rather than school level and consequently cannot be allocated to phase of education.

Student Loans

Mr. Rendel: To ask the Secretary of State for Education and Skills pursuant to his answer of 5 February 2004 reference number 151860, what proportion of graduates the model assumed would have debts on graduation due to *(a)* maintenance loans, *(b)* fee loans and *(c)* fee and maintenance loans combined, broken down by bands of £1,000. [154379]

Alan Johnson *[holding answer 10 February 2004]:* Of those students entering higher education after 2006, our modelling for the RIA assumed broadly that *(a)* 85 per cent. would leave HE with a debt based on maintenance loans, *(b)* 80 per cent. would leave with debt based on loans for fees, and *(c)* around 70 per cent. would leave with debt for both maintenance and fee loans combined.

The distribution of the level of debt—especially broken down into narrow ranges—is not an explicit output of the model. Moreover, it will not be static as it will depend on a number of factors and assumptions which change over time, such as: parental income, value of loans available; and the interaction of other model assumptions, including course length and whether a student completes their course.

We estimate, using the assumptions in the Regulatory Impact Assessment, and figures for the expected average debt for 2002–03, that the average debt of students starting in 2006 will be around £15,000.

Sure Start

Mr. Liddell-Grainger: To ask the Secretary of State for Education and Skills what his policy is on Sure Start; and what staffing resources have been allocated to implement Sure Start in Somerset in 2003–04. [161864]

Margaret Hodge: Sure Start is a vital part of our commitment to achieve better outcomes for all children. The Chancellor, in his budget speech, restated that commitment when he announced £669 million additional funding for Sure Start by 2007–08 which will pay for children's centres in all of the 20 per cent. most disadvantaged wards in England by 2007–08; 100,000 new childcare places, some of which will be to support nursery education places and a pilot to extend a free part-time early education place to 6,000 two years olds in disadvantaged areas.

£2.551 million has been allocated to Somerset for general Sure Start grant activities in 2003–04.

A further £2.244 million has been allocated to three Sure Start Local Programmes and two Mini Local Programmes in Somerset for 2003–04 (although this funding is controlled by the programmes rather than the local authority). The Department does not collect information on how this funding is allocated to meet staffing requirements.

In addition, the three Sure Start Local Programmes have a maximum capital allocation of £3.325 million. This funding is for use during the first three years of a programme's life. The Mini Sure Start in Chard also has an approved capital allocation of £250,000.

Somerset is also developing 363 new full time child care places across the county through the Neighbourhood Nursery Initiative. Total revenue grant allocated for 2003–04 is approximately £455,000.

Mr. Gardiner: To ask the Secretary of State for Education and Skills what assessment he has made of the merits of Sure Start centres offering a facility for *(a)* consumer and *(b)* financial advice; and if he will meet the Consumers' Association to discuss the matter. [163361]

Margaret Hodge: Sure Start local programmes and children's centres are required to provide services which deliver the Sure Start Unit's PSA targets, including a target to reduce the number of children in workless households. Services are expected to be based on evidence of what works. Consumer and financial advice, including advice on in-work benefits for example, is already provided by many Sure Start local programmes and this will also be the case in children's centres.

I would be happy to consider a request for a meeting with the Consumers' Association and suggest they contact my office with a possible agenda.

Telephone Tapping

Mr. Key: To ask the Secretary of State for Education and Skills what consultation his Department has had with higher education institutions about the tapping of the telephone conversations and e-mails of foreign students; and if he will make a statement. [163675]

Alan Johnson: None.

Universities (Work Experience)

Mr. Gardiner: To ask the Secretary of State for Education and Skills if his Department will encourage universities to offer credits for work experience on university courses. [163417]

Alan Johnson: The use of credit systems is a matter for higher education institutions. However, in the White Paper, "The future of higher education", we asked the Higher Education Funding Council for England (HEFCE) to work with partners in the sector to build upon the best current practice, and to scale this up so that there is widespread and consistent use of credit across higher education. The work is being taken forward as part of a wider exercise to review systems for measuring and recording student achievement, initially through a scoping group chaired by Professor Bob Burgess, VC at the University of Leicester. Professor Burgess is expected to report with recommendations for future action during the summer. More specifically on work experience, the newly introduced two-year foundation degrees combine academic study with work based learning, with the work based element forming part of the overall assessment toward the final award. Employers are actively involved in the design and review of courses to ensure that students are gaining a HE qualification that is relevant to employment in their chosen area.

University Science Departments

Bob Spink: To ask the Secretary of State for Education and Skills (1) if he will list the university science departments that have run *(a)* with a deficit and *(b)* in credit over each of the last three years; and if he will make a statement; [163992]

(2) what action he is planning to support university science departments that are running with a deficit. [163993]

Alan Johnson: Higher education institutions are required to prepare audited financial statements each year. Those statements do not, however, record income and expenditure at the level of individual departments within the institution. Details are not, therefore, available.

The Higher Education Funding Council for England (HEFCE) takes account of the additional costs of science subjects as part of its funding methodology. The funding it pays to institutions is, however, provided as a block grant and it is for the individual institutions to determine the levels at which to fund their departments based on the funding from HEFCE and their other income.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Coastal Defence

Mr. Bellingham: To ask the Secretary of State for Environment, Food and Rural Affairs what forecasts have been made for funding allocations for the coastal defence budget for the next 10 years. [163575]

Mr. Morley: Total provision for Central Government funding to the flood and coastal defence operating authorities (Environment Agency (EA), local authorities (LAs) and internal drainage boards (IDBs)) for maintenance and improvement of defences against flooding, both coastal and otherwise, and coastal erosion is £467 million in 2004–05 and £539 million in 2005–06.

The operating authorities decide how best to invest this money within the constraints of Defra's funding criteria so funds are not specifically set aside for coastal defences as such. I hope to reserve allocations within the overall 2005–06 figure for the EA, LAs for coast protection, LAs for flood defence and IDBs in October following analysis of operating authority forward plans.

Funding to 2007–08 will be considered in this year's Spending Review. Longer-term funding needs are being considered as part of Defra's "National Assessment of Defence Needs and Costs" and I hope to be in a position to publish findings in the summer.

Conferences/Seminars

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what plans were made by her Department for conferences and seminars in conjunction with its consultation on the draft UK National Allocation Plan for the EU Emissions Trading Scheme; what the total cost of organising each of those events was; and how many people attended in each case. [161393]

Mr. Morley: Defra has held three general consultation seminars, the costs and attendances are as follows.

Date	Cost (£000)	Attendance
16 June 2003	3,500	180
10 September 2003	12,000	250
28 January 2004	7,000	450

DTI have also held sector specific meetings with industry to discuss aspects of the consultation.

Disposable Nappies

Paddy Tipping: To ask the Secretary of State for Environment, Food and Rural Affairs (1) how long it takes for disposable nappies to decompose in landfill sites; and what percentage of the waste going to landfill this represents; [161667]

(2) what steps she will take to reduce the environmental impact of the disposal of disposable nappies; [161668]

(3) what restrictions are placed on waste disposal authorities in relation to the disposal in landfill sites of raw sewage from *(a)* disposable nappies and *(b)* other sources; [161669]

(4) what estimate she has made of the total number of disposable nappies that entered the household waste stream in 2003; and what percentage of household waste this constituted. [161670]

Mr. Morley *[holding answer 22 March 2004]:* Disposable nappies consist of fluffed pulp, the largest component, and plastic. They also contain absorbent gel. The rate of breakdown will depend on the conditions of landfill and the other types of waste deposited. Generally landfill sites in the UK have a high moisture and organic content and therefore waste, including the paper and gel parts of nappies, will degrade relatively quickly.

Plastics are generally resistant to degradation and, depending on the type, some will take years to breakdown, others may last indefinitely.

The Strategy Unit in its report 'Waste Not Want Not' estimated that in 2000–01 nappies comprised around 2 per cent. of household waste, equivalent to 350,000 tonnes.

Nappies from the home are classed as household waste and can be disposed of in the normal household waste. Properly regulated landfill is a proven method of dealing with waste safely and can be relied on if alternative methods of dealing with waste are not provided. Our view is that good waste management practice adequately regulated can and does cope with disposable nappies.

Following the publication of the Strategy Unit report 'Waste Not Want Not' the Government accepted the recommendation that the Waste and Resources Action Programme (WRAP) should take forward (as part of an overall waste minimisation initiative) work on supporting re-usable nappies through the provision of support for new businesses and information to parents. The details of the programme are still being worked up.

The aim of the WRAP programme is to achieve an average diversion of 225kg/yr per participating household. WRAP'S target is to convert 155,000 households to re-usable nappies by end of fiscal year 2006. This is an ambitious target and if achieved would create a reduction in household waste of 35,000 tonnes (per annum).

Drinking Water Quality

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the net environmental effect that would flow from tightening drinking water standards further, with particular reference to energy consumption by water companies. [163055]

Mr. Morley: The standards for wholesomeness included in the Water Supply (Water Quality) Regulations 2000 are based on those set out in the 1998 EC Directive on the quality of water intended for human consumption (98/83/EC). These in turn reflect the current World Health Organisation guideline values for drinking water quality. The WHO has published a third edition of its draft guidelines which the European Commission has considered as part of a review of standards, as required by the Directive, in the light of scientific and technical progress.

The process of reviewing the Directive started during October 2003 when the European Commission held a seminar. It has indicated that there is unlikely to be significant changes to the current standards during next five years and that any changes that might be adopted would be unlikely to come into force before 2010. The Government considers that it is not possible to consider provision for costs associated with possible changes to water quality standards within the 2004 periodic review of water prices.

Drinking water standards apply generally at consumers' taps. Environmental standards are set independently to protect the environment, for example, the environmental quality standards that are set to protect aquatic organisms and ecosystems are applied in the water body.

If, in the light of scientific and technical progress, the EC were to agree to more stringent drinking water quality standards in the future, the normal requirements to consult and to prepare impact assessments would apply to any proposed new regulatory standards. The costs of meeting such tighter standards would also be taken into account in the periodic review of water prices.

Emissions Trading

Ms Walley: To ask the Secretary of State for Environment, Food and Rural Affairs if she will change her policy so as to co-ordinate the implementation of the national allocation plan of the Emissions Trading Scheme to include the British Ceramic Confederation in respect of the ceramics sector. [160232]

Mr. Morley: Government have consulted UK industry at each stage of the implementation process of the EU Emissions Trading Scheme and the development of the National Allocation Plan. The British Ceramic Confederation has informed officials of problems with some of the data submitted for the draft National Allocation Plan. Data are being resubmitted and corrected information will be used for the list of installation-level allocations to be published in June.

Furthermore, the British Ceramic Confederation have been involved throughout our on-going consultation with industry, and representatives were present at a meeting held between Defra and DTI officials and the ceramics sector on 16 February 2004. Officials are taking the issues raised by stakeholders seriously and are currently working on how to revise the proposals set out in the draft National Allocation Plan to address these and other concerns raised by stakeholders. Work on these issues and on other points raised in formal responses to the consultation will continue over the coming weeks.

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what progress has been made towards incorporating the Clean Development Mechanism and the Joint Implementation of Reduction Aims in the EU Emissions Trading Scheme. [160877]

Mr. Morley: The Commission has proposed an amendment to the EU Emissions Trading Scheme (EU ETS) which links the EU ETS to the Kyoto Project Mechanisms, Joint Implementation (JI) and the Clean Development Mechanism (CDM).

The Linking Directive is currently being negotiated and we expect a first reading deal in April . The UK supports early agreement on this directive and we expect that once concluded the Amendment Directive will provide a mechanism for the use of credits from CDM and JI projects by operators within the EU ETS as soon as these projects become available.

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what mechanisms she expects to put in place to ensure that the self-monitoring of installations participating in the EU Emissions Trading Scheme is not undermined by fraud. [160878]

Mr. Morley: The European Commission have published guidance for the monitoring and reporting of greenhouse gas emissions. Installations covered by the EU Emissions Trading Scheme in the UK are required to submit monitoring and reporting plans to the regulators who will be assessing these in accordance with the Commission Guidelines. This will ensure that all installations within a sector are monitoring and reporting their data according to the same protocol.

In addition to this, baseline emissions data and annual emissions reports will be verified by independent verifiers and this should minimise the risk of false or misleading information being submitted.

Finally, the Greenhouse Gas Emissions Trading Scheme Regulations 2003 also contain provisions making it an offence to provide, deliberately or recklessly, false or misleading information in various situations, such as for the purpose of obtaining an emissions permit. These provisions should again reduce the risk of fraud.

Similar provisions are having to be put in place in other countries participating in the scheme.

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what proportion of the 20 per cent. cut in carbon dioxide emissions by 2010 she expects to be achieved through the EU Emissions Trading Scheme. [160879]

Mr. Morley: The Government are firmly committed to its domestic goal of moving towards a 20 per cent. reduction in CO_2 emissions below 1990 levels by 2010. The Climate Change Programme published in 2000 identifies policies that were expected to achieve reductions of 17.75 MtC which would amount to a reduction of 19 per cent. on 1990 levels.

The Government proposed in the draft National Allocation Plan published for consultation in January that the cap on emissions for the first phase of the scheme should be derived from the projections of emissions for policies already in place for the industry sectors concerned. The sector cap proposed for the electricity supply industry has been reduced by 0.75 MtC to contribute towards further reductions in line with the plans in the Climate Change Programme for reductions from emission trading. This was consistent with an overall reduction of 16.3 per cent. by 2010.

In determining the cap for the second phase of the scheme from 2008 to 2012, the Government will ensure that installations covered by the scheme make an appropriate contribution to that goal. This issue will be considered further in the review of the UK Climate Change Programme which will take place later in 2004.

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the ability of EU accession countries to participate in the EU emissions trading scheme. [160882]

Mr. Morley: The UK and other member states have worked with the European Commission through a series of workshops in accession countries to discuss the implementation of the EU emissions trading scheme. The Commission regularly reviews the progress of all member states and accession countries in implementing the scheme. The latest assessment suggests that most are on course to participate in the scheme from next year.

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the monitoring of emissions from installations participating in the EU Emissions Trading Scheme situated in the accession countries. [160883]

Mr. Morley: The European Commission has held workshops in eight out of 10 capitals of the acceding countries in order to explain the Directive and the steps needed to implement it. These workshops covered monitoring, reporting and verification; allocation; registries and implementing legislation. Another series of workshops are being held throughout the EU focussing on national allocation plans.

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what additional resources will be made available to the Environment Agency to help it fulfil its responsibilities under the EU Emissions Trading Scheme. [160884]

Mr. Morley: The Environment Agency has taken on additional staff to manage the responsibilities that it will have as a regulator for the purposes of the EU Emissions Trading Scheme. The Agency agrees its priorities with the Department during the annual corporate planning process and allocates its funds accordingly.

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs how many *(a)* current and *(b)* prospective EU member states have approached her Department for advice on the drafting of national allocation plans. [160881]

Mr. Morley: The UK published its draft National Allocation Plan for the EU Emissions Trading Scheme for consultation in January. Government officials have discussed the proposals with representatives of all EU Member States and Accession Countries at meetings organised by the European Commission to discuss the implementation of the scheme. The draft National Allocation Plan is available on the Defra website and we are aware that many Member States have reviewed the detail of our approach to the Plan.

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs how many staff were involved in drafting the National Allocation Plan. [160885]

Mr. Morley: The development and drafting of the National Allocation Plan has involved more than forty staff from Defra, DTI and the Devolved Administrations, with significant contributions from other departments including HM Treasury and Ofgem.

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what the *(a)* cost so far and *(b)* projected total cost of producing the National Allocation Plan is. [160886]

Mr. Morley: The cost to date to Defra and DTI has been in the order of £1.3 million including wages, seminars and consultants fees.

Fly-tipping

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs how much the Environment Agency spent in each year from 1999 to 2003 on staff costs to *(a)* detect and *(b)* prosecute fly-tippers. [156521]

Mr. Morley: Staff costs relating to fly-tipping are not readily available. The Environment Agency spends around £12 million a year on waste-related enforcement activity. The activity relates directly to prosecutions, cautions and elements of notices. This is around 3 per cent. of the Agency's regulatory budget.

Gamma Interferon Test

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what the total spending was on gamma interferon development and trials in each of the last five financial years. [158364]

Mr. Bradshaw: Expenditure on gamma-interferon associated research since 1999 is summarised as follows.

£000

	Expenditure				
	1999–2000	*2000–01*	*2001–02*	*2002–03*	*2003–04*
Expenditure on research projects on gamma-interferon	170	256	209	134	[1]145
Expenditure on other research projects contributing to development of gamma-interferon as a diagnostic test	664	1,522	1,451	2,506	[1]2,861

[1] Estimate.

In addition the gamma-interferon field pilot, which began in November 2002, is expected to cost £667,000 over two years.

Home Energy Efficiency Scheme

Mrs. Curtis-Thomas: To ask the Secretary of State for Environment, Food and Rural Affairs how many homes in Crosby have benefited from the Home Energy Efficiency Scheme. [160569]

Mr. Morley: The Home Energy Efficiency Scheme is now marketed as Warm Front. Between the launch of the scheme in June 2000 and the end of December 2003, approximately 1,800 households in Crosby received assistance from the Scheme.

Ivory

Ian Lucas: To ask the Secretary of State for Environment, Food and Rural Affairs whether she has raised the issue of regulation of the domestic ivory market with the Governments of *(a)* the People's Republic of China, *(b)* Japan, *(c)* Myanmar and *(d)* Vietnam. [156757]

Mr. Morley: I have discussed this in China and Japan. I am aware, of concerns about the regulation of domestic ivory markets in a number of Asian countries. At the last Conference of Parties to the Convention on International Trade in Endangered Species (CITES) in Santiago in November 2002, the Secretariat was directed to assess controls on the internal ivory trade in a number of countries, including China and Japan. Their initial findings will be considered at the CITES Standing Committee meeting later this month, including recommendations for early verification visits by the Secretariat to both China and Japan.

Large Combustion Plants Directive

Paddy Tipping: To ask the Secretary of State for Environment, Food and Rural Affairs whether in the event that the Government choose to implement the large combustion plants directive (LCPD) through a national plan approach her Department will seek amendments to the Integrated Pollution Preventative and Control (IPPC) Directive to allow emission limits to be met via the trading of S02, NOx and dust emission allowances in place of the IPPC's existing requirements to meet the LCPD's emission limit values. [162403]

Mr. Morley *[holding answer 23 March 2004]:* The LCPD applies without prejudice to the IPPC Directive. That means that large combustion plants subject to the IPPC Directive will each have emission limit values (ELVs) set on the basis of the application of best available techniques (BAT) for dealing with pollution. Those ELVs may thus be tighter than those set in the LCPD but cannot be less stringent.

In its response[1] to a June 2003 communication on IPPC from the European Commission, the Government urged a further amendment of the IPPC Directive, along the lines of that already advanced in the "Emissions Trading" Directive[2], to facilitate greater potential for emissions trading for other pollutants.

[1] Available at http://www.defra.gov.uk/environment/ppc/cipp.htm .

[2] Directive 2003/87/EC establishing a scheme for greenhouse gas emission allowance trading within the community and amending Council Directive 96/61/EC.

Paddy Tipping: To ask the Secretary of State for Environment, Food and Rural Affairs whether the emission limit values under the large combustion plants directive apply to existing coal-fired power stations operating under a National Emission Reduction Plan. [162404]

Mr. Morley *[holding answer 23 March 2004]:* If the option chosen to implement the revised large combustion plants directive for combustion plants with a rated thermal input equal or greater than 50MW and licensed before 1 July 1987 ('existing' plants) is a National Emission Reduction Plan, these plants would not be subject to the emission limit values specified in the directive. However, the total emissions of all 'existing' plants in the UK would be limited to a pre-determined level (a 'bubble'). The size of the 'bubble' for each pollutant (sulphur dioxide, nitrogen oxides, and dust) would be calculated as the sum of the emissions when the emission limit values are applied to each existing plant, averaged over the 5-year period 1996 to 2000. This is explained in more detail in chapter three of the Department's Consultation Paper on the implementation of the revised large combustion plant directive published in June 2003.

Marine Conservation

Mr. Kidney: To ask the Secretary of State for Environment, Food and Rural Affairs if she will publish a draft Marine Conservation Bill. [162218]

Mr. Morley: A number of reviews are currently examining whether new arrangements, including new legislation, are required to deliver the Government's vision of clean, healthy, safe, productive and biologically diverse oceans and seas. In particular, the Review of Marine Nature Conservation is looking at the adequacy of existing mechanisms for protecting the marine environment. The Government will take a decision on whether new legislation is needed once it has seen the recommendations from these reviews.

Parish/Town Councils

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list parish and town councils *(a)* which have been granted QUALITY Status, broken down by county area and *(b)* whose status is being assessed. [162828]

Alun Michael: I am very pleased at the extent of engagement of parish and town councils with achieving QUALITY status.

There are approximately 500 clerks currently registered with their County Training Partnership (CTP) to undertake the Certificate in Local Council Administration. Town and parish councils whose clerks are currently taking the qualification are likely to apply for Quality Status once the clerk has secured it, probably within the coming 12 months.

The information requested is as follows:

(a) The 40 parish and town councils that have been granted Quality Status are (by county area):

Name of council	*County*
Weston-super-Mare Town Council	Avon
Keynsham Town Council	Avon
Leighton Linslade Town Council	Bedfordshire
Buckingham Town Council	Buckinghamshire
Huntingdon Town Council	Cambridgeshire
Holywell-cum-Needingworth Parish Council	Cambridgeshire
Poynton Parish Council	Cheshire
Ivybridge Town Council	Devon
Cullompton Town Council	Devon
Stokenham Parish Council	Devon
Tavistock Town Council	Devon
Exmouth Town Council	Devon
Kingsbridge Town Council	Devon
St. Osyth Parish Council	Essex
Great Baddow Town Council	Essex
Witham Town Council	Essex
Loughton Town Council	Essex
Maldon Town Council	Essex
Wivenhoe Town Council	Essex
Headley Parish Council	Hampshire
Brading Town Council	Isle of Wight
Wootton Bridge Parish Council	Isle of Wight
Edenbridge Town Council	Kent
Asfordby Parish Council	Leicestershire and Rutland
Halewood Town Council	Merseyside
Carterton Town Council	Oxfordshire
Lawley and Overdale Parish Council	Shropshire
Oswestry Town Council	Shropshire
Selattyn and Gobowen Parish Council	Shropshire
Sudbury Town Council	Suffolk
Seaford Town Council	Sussex
Hurstpierpoint Sayers Common Parish Council	Sussex
Burgess Hill Town Council	Sussex
East Grinstead Town Council	Sussex
Cuckfield Parish Council	Sussex
Crowborough Town Council	Sussex
Whitnash Town Council	Warwickshire and West Midlands
Curdworth Parish Council	Warwickshire and West Midlands
Melksham Without Parish Council	Wiltshire
Calne Town Council	Wiltshire

(b) The parish and town councils whose status is currently being assessed are:

Name of council	*County*
Stoke Gifford Parish Council	Avon
Newbury Town Council	Berkshire
Sedgefield Town Council	Durham
Peterlee Town Council	Durham
Hamble-le-Rice Parish Council	Hampshire
Petersfield Town Council	Hampshire
Stone Parish Council	Kent
Braunstone Parish Council	Leicestershire and Rutland
Lancing Parish Council	Sussex

Public Carriage Roads

Mr. Edward Davey: To ask the Secretary of State for Environment, Food and Rural Affairs how many roads used as public paths, as introduced under the National Parks and Access to the Countryside Act 1949, have been reclassified as byways open to all traffic in accordance with the Wildlife and Countryside Act 1981 on the basis of *(a)* conclusive evidence of dedication as a public carriage road by the landowner and *(b)* circumstantial evidence of deemed dedication as a public carriage road by the landowner; and in each case, how many were inspected to ensure compliance with standards set out in Part 10 of the Highways Act 1980. [162357]

Alun Michael: Information relating to the basis on which roads used as public paths have been reclassified is not held by local highway authorities in a form in which it can be readily retrieved. The requirement is for highway authorities to maintain byways open to all traffic (BOATS) in a condition that is fit for purpose rather than to meet a fixed statutory standard.

Radioactive Waste

Mr. Watson: To ask the Secretary of State for Environment, Food and Rural Affairs what measures are in place to ensure that the Committee on Radioactive Waste Management does not duplicate work already undertaken by other organisations. [159025]

Mr. Morley: CoRWM has clearly stated terms of reference that require it to provide recommendations to UK Government and devolved Administrations on how best to manage the UK's higher activity radioactive waste in the long-term under the "Managing Radioactive Waste Safely" programme. These terms of reference may be viewed on the Committee's website, http://www.open.gov.uk/rwmac.

Mark Tami: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the impact on long-term radioactive waste management of *(a)* the continued ownership of Nirex by the nuclear industry, *(b)* the ownership of Nirex by the Nuclear Decommissioning Authority and *(c)* making Nirex independent of the nuclear industry. [160008]

Mr. Morley: We have asked the Committee on Radioactive Waste Management (CoRWM) to provide the Government with recommendations on the best form of long-term management for the UK's higher activity radioactive waste. Government have stated their intent to make Nirex independent of industry and under greater Government control to allow an effective contribution to CoRWM's work. We are continuing to give consideration to the possibilities for this; when we are ready, an announcement will be made. In the meantime we are working to ensure Nirex continues to discharge its functions for the benefit of the public as well as its shareholders.

Recycling

Mr. Sheerman: To ask the Secretary of State for Environment, Food and Rural Affairs which 10 local authorities in England achieved the *(a)* highest and *(b)* lowest rates for household recycling in 2002–03. [162049]

Mr. Morley: The percentage of household waste recycled and composted by the 10 highest and lowest performing local authorities in England, for which the most recent data available are 2002–03, is presented in the following table:

Local authority	*Percentage of household waste recycled and composted in 2002–03*[1]
Daventry district council	44
Lichfield district council	43
Wyre district council	33
Melton district council	31
Isle of Wight district council	31
St. Edmundsbury district council	30
Windsor and Maidenhead borough council	29
Forest Heath district council	28
Eastleigh	28
Chiltern district council[2]	27
Dorset county council[2]	27
Kettering district council	4
North Tyneside council	4
Rochdale metropolitan borough council	4
Corby district council	4
Tower Hamlets London borough	3
Bolsover district council	3
Hackney London borough	3
Sunderland city council	2
Barking and Dagenham London borough	2
Liverpool Metropolitan borough council	2

[1] These data are published by ODPM and are available at www.bvpi.gov.uk. The level of household waste recycling in local authorities is the sum of Best Value Performance Indicator 82a and 82b (percentage of household waste sent for recycling and composting respectively).

[2] Joint tenth place.

Mr. Sheerman: To ask the Secretary of State for Environment, Food and Rural Affairs what level of household recycling was achieved in each London borough in the latest year for which figures are available. [162050]

Mr. Morley: The percentage of household waste recycled and composted by each London borough, for which the most recent data available are 2002–03, is presented in the table.

Local authority	*Percentage of household waste recycled and composted in 2002–03*[1]
City of London	14.5
Camden	16.1
Greenwich	9.4
Hackney	2.6
Hammersmith and Fulham	8.5
Islington	5.8
Kensington and Chelsea	7.9
Lambeth	11.0
Lewisham	7.3
Southwark	4.6
Tower Hamlets	3.4
Wandsworth	10.5
Westminster	11.5
Barking and Dagenham	2.2
Barnet	12.1
Bexley	22.0
Brent	6.6

Local authority	Percentage of household waste recycled and composted in 2002–03[1]
Bromley	15.4
Croydon	13.1
Baling	10.7
Enfield	11.7
Haringey	4.4
Harrow	9.4
Havering	6.7
Hillingdon	19.5
Hounslow	15.1
Kingston-upon-Thames	19.0
Merton	15.0
Newham	4.2
Redbridge	10.0
Richmond-upon-Thames	20.5
Sutton	19.3
Waltham Forest	10.2

[1] These data are published by ODPM and are available at www.bvpi.gov.uk. The level of household waste recycling in local authorities equates to the addition of BV82a (sent for recycling) and BV82b (sent for composting).

Mr. Sheerman: To ask the Secretary of State for Environment, Food and Rural Affairs what penalties are imposed on local authorities who fail to meet recycling targets. [162051]

Mr. Morley: The Secretary of State has powers under section 15 of the Local Government Act 1999 to act where authorities are failing to deliver best value. She may consider using these powers to require an authority to make the necessary arrangements to ensure that Statutory Performance Standards for recycling and composting are met.

The starting point would be to invite the authority to submit an action plan setting out how it proposed to meet the standard by a given deadline. If the plan were considered unsatisfactory, follow-up action could range from inviting consultants to provide advice to the authority, to the Secretary of State taking over the waste management duties of the authority until such time as sufficient improvement is secured and can be sustainably maintained by the authority. Any of these steps is likely to have financial consequences for the authority.

We have, however, made clear that we will only use intervention powers as a last resort, and have established a Local Authority Support Unit in Defra's Waste Implementation Programme to assist local authorities in meeting their targets.

Mr. Jim Cunningham: To ask the Secretary of State for Environment, Food and Rural Affairs what action her Department is taking to ensure that local authorities have sufficient funds to promote home-based waste separation for recycling. [163153]

Mr. Morley *[holding answer 23 March 2004]:* Local authority waste management services are funded through the Environmental, Protective and Cultural Services (EPCS) block. Spending Review 2002 increased provision by £671 million over the three years to 2005–06 and we will again be considering the quantum of funding as part of Spending Review 2004. In addition, on 6 January I announced that Defra will be distributing a share of a £20 million grant to all local authorities in England to address the pressure each faces to invest in waste management services in 2004–05.

Within Defra we have also established the Waste Implementation Programme (WIP), investing in strategic measures to help authorities to divert waste from landfill. Through the Waste Minimisation and Recycling ('Challenge') Fund, WIP provides funds for local authorities to implement projects that improve recycling infrastructure in their area. Many of these projects improve the design and coverage of kerbside recycling schemes, including household separation. In 2003–04 the Challenge Fund has distributed £62.5 million to 14 big-ticket 'partnership' projects, and £43.3 million to 51 smaller projects.

WIP has made £30 million available to the Waste and Resources Action Programme (WRAP) for communications and awareness work directly focused on increasing participation in recycling and waste minimisation initiatives. A significant proportion has been allocated to a new fund, targeted at communications projects delivered at local level, primarily by local authorities, including:

£1.7 million recently allocated to support the continuation or expansion of existing local communications schemes;

£8.5 million to communications programmes directly supporting new recycling infrastructure funded by WIP under the Challenge fund;

£8.5 million to fund other communications activity delivered at local or regional level through WRAP'S Performance Improvement Through Communications Initiative.

WRAP also operate a free advisory service available to local authorities that need to implement and improve kerbside collection systems.

Mr. Jim Cunningham: To ask the Secretary of State for Environment, Food and Rural Affairs what action her Department is taking to ensure that local authorities meet their objectives for home based waste separation for recycling within the EU timeframe. [163154]

Mr. Morley *[holding answer 23 March 2004]:* There are no obligations for local authorities to implement home based waste separation under EU law.

In England, the Household Waste Recycling Act requires that waste collection authorities, except in certain circumstances, collect at least two types of recyclable material separate from the residual waste by December 2010.

In addition, local authorities in England have statutory targets in place to ensure that the national targets for increasing the recycling or composting rate to 25 per cent. by 2005, 30 per cent. by 2010 and 33 per cent. by 2015, are met. The Government-funded Waste Resources Action Programme is establishing a programme of advice and training for local authorities to improve collection systems for recyclable materials and organic wastes.

Science Strategy

Dr. Iddon: To ask the Secretary of State for Environment, Food and Rural Affairs what steps she

has taken to enhance science in her Department since the publication of the Government's science strategy, Investing in Innovation. [162251]

Alun Michael: Science plays an essential, and increasingly important role in underpinning and informing Defra's policies across the three areas of environment, food and rural affairs. Defra is therefore strongly committed to maintaining and enhancing its science capabilities, in line with our Science and Innovation Strategy (Delivering the Evidence) published in May 2003. Our R&D budget is ring fenced at over £150 million per annum, and are aiming to protect this in real terms across the SR2002 period and beyond. We also spend in excess of £170 million per annum on a wide range of other types of science, including scientific advice, field trials, knowledge transfer, surveillance and monitoring.

Defra is committed to developing its scientific capabilities and performance, building on the recommendations of the SR2002 Cross Cutting Review of Science and Research and the Government's Investing in Innovation strategy. Defra's Chief Scientific Adviser is the corporate sponsor for a number of on-going science initiatives designed to ensure that:

- we are carrying out the right scientific activities to underpin current and future policy needs and to anticipate emerging risks and opportunities;
- the scientific advice we obtain, and the science activities supporting it, is of a high quality;
- we have access to the right expertise and skills to procure and interpret scientific information, and that scientific advice is used appropriately in the policy making process; and
- Defra science is open and transparent, and its aims and results are effectively communicated.

Our rural affairs approach in both policy and delivery is informed by high quality research and analysis. The publication ("Social and economic change and diversity in rural England") in January was the first of a series from the Rural Research Centre led by Birkbeck College but including academics from other institutions.

Defra's next Science and Innovation Strategy (due to be published spring 2005) will, among other things, address innovation in support of policy priorities and sustainable wealth creation, including technology foresight and horizon scanning, and support for technology transfer and innovation.

Sugar Regime

Mr. Whittingdale: To ask the Secretary of State for Environment, Food and Rural Affairs when she intends to announce the outcome of the consultation on reform of the sugar regime; and if she will make a statement. [160490]

Alun Michael: We are considering the wide range of views received and hope to produce a summary soon. In the meantime the responses themselves are available for public inspection in the Defra library.

Trophy Hunting

Mrs. Curtis-Thomas: To ask the Secretary of State for Environment, Food and Rural Affairs if she will take steps to regulate specialist travel consultants who offer trophy-hunting packages to their clients. [158724]

Mr. Morley: The Government have no plans to take steps to control the activities of those who offer legal trophy hunting packages. Powers are available to refuse the import of hunting trophies and we shall not hesitate to use them where there is evidence that hunting trophies have been taken illegally, or that such hunting is itself unsustainable.

Warm Front (Cleethorpes)

Shona McIsaac: To ask the Secretary of State for Environment, Food and Rural Affairs how many successful applications have been made for Warm Front grants in Cleethorpes constituency. [162581]

Mr. Morley: Between the launch of Warm Front in June 2000 and the end of December 2003, approximately 2,100 households in the Cleethorpes constituency received assistance from the scheme.

Waste Management

Mr. Peter Duncan: To ask the Secretary of State for Environment, Food and Rural Affairs what funds are available to businesses wishing to explore new methods of *(a)* recycling and *(b)* disposing of waste plastics. [162228]

Mr. Morley: In addition to the general support that is available to businesses funded by the Department of Trade and Industry, the Waste and Resources Action Programme may fund research and development, capital investment or business advice and support for projects concerned with the recycling of plastics.

Further support may be available through Defra's Waste Implementation Programme which has a research budget for funding work on recycling and sustainable disposal methods across all waste streams. Defra is developing a waste research strategy which will identify key areas where research activity will need to be focused.

Mr. Peter Duncan: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the uses to which recycled waste farm plastics may be put. [162257]

Mr. Morley: We understand that recycled farm plastics can be used to make a range of products including damp proof membrane and damp proof courses, refuse sacks and bin liners, clinical waste sacks and aprons, plastic pallets and street and garden furniture.

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs if she will issue guidance to businesses to focus waste collection efforts where this delivers maximum economic and environmental benefit. [163096]

Mr. Morley: There are no plans to issue guidance to businesses to focus collection efforts. However, the Government does fund Envirowise, an organisation that offers free, independent advice to business on practical ways to minimise waste and increase profit.

In addition, Budget 2003 announced that increases in the standard rate of landfill tax would be revenue neutral to business as a whole. To achieve this Government are proposing a package of measures

including grants, other financial support measures and extending promotional and capacity building services to support a broader range of commercial and industrial sectors. These measures, which are undergoing detailed development, with consultation, should help businesses improve their waste performance.

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what budget will be available in 2004–05 to the Waste and Resources Research Advisory Group. [162443]

Mr. Morley: No budget is allocated to the Waste and Resources Research Advisory Group (WRRAG), beyond minor costs incurred in the running of the group. WRRAG's role is to make recommendations to Defra on key research priorities to be addressed in a three-year waste research strategy currently being drawn up. The strategy will be subject to consultation later in the year and will be put out to wider consultation.

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs whether appointments to the Waste and Resources Research Advisory Group have been made in accordance with the Nolan principles. [162444]

Mr. Morley: The Waste and Resources Research Advisory Group is classified as an ad hoc advisory group and is not constituted formally as a non-departmental public body. However, appointments have been fully consistent with the ethical parameters set out by the seven Nolan principles of selflessness, integrity, objectivity, accountability, openness, honesty and leadership. The group is providing Defra with expert input into the development of a three-year waste research strategy, which will be subject to consultation later in this year.

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list the *(a)* title and *(b)* subject matter of the waste management research projects that have been commissioned by (i) her Department and (ii) bodies sponsored by her Department since 1 April 2003. [162445]

Mr. Morley: Research projects commissioned by Defra and bodies sponsored by it since 1 April 2003 are set out in the following list. The titles indicate the subject matter.

Defra

Hazardous Waste and WEEE: identifying products and components of present and historic WEEE that are hazardous

A review of exemptions from the waste management licensing regulations for hazardous waste

An action plan for the reduction and environmentally sound management of hazardous waste

Review of Environmental and Health Effects of Waste Management: Municipal Solid Waste and Similar Wastes

Environment Agency

Waste management life cycle assessment tool—model development

List I organic biodegradation/sorption within landfill liners

Establishing equilibrium and pollutant removal requirements for UK landfill

The management of hazardous wastes under new EU legislation

Factors affecting the generation of chloroethene and associated trace gases in landfill

Waste and Resources Action Programme

To increase timber waster recycling through determining and promoting best practice in the furniture industry

Develop methods and sampling protocols for measuring contaminants in recycled wood panelboard sector

Wood residues footprint for the M62 west corridor

Rapid identification and sorting of preservative treated timber

NIRA as a tool for assessing recycled wood

Development of waste sawdust as a plant protection material for horticulture and agriculture

To further develop plastic media for water filtration units with a known service life in larger filtration units

Develop process for recycling carpet waste

Development of mass produced thermoplastic panels

Achieve certification of products containing recycled plastics

Tonnages and collection of construction site packaging

REWARD and Photochem: an assessment of the weathering of recycled plastics

Identifying and maximising affordable plastic bottle collection systems from household kerbside collections

Materials and products from UK-sourced PVC-rich waste for new and existing markets

New applications for Jazz PET

Development of Food Grade HDPE Recycling Process

Develop Options for enhancing Commercial and Industrial Film Collection

Study to Identify Methods of Enhancing Local Authority Collection of Plastics

Use of Post-Consumer Recyclate in Retail Packaging

Research to determine performance of recycled glass sand compared to sand in the sports turf industry

Determine Vortex grinder construction materials for cullet grinding

Identifying legal and commercial barriers to glass recycling in West Oxfordshire—Oxford Brookes University

Increase use of mixed colour cullet reprocessing

To identify BPEO's for use of glass cullet in construction and promote technical confidence in it's use in the construction industry

Research to replace current "fluxing" agent in sanitary ware with waste bottle glass

Improve site practices for collection and clean separation of composite materials

To develop methodology for recycling lamp glass, overcoming technical and practical barriers to recycling

Researching the use of ground glass in brick manufacture

Produce advanced filtration medium using processed glass material

Closing the fibre waste recycling loop

Materials recovery from waste cathode ray tubes

ConGlassCrete II

Increasing collection and recycling of post consumer domestic window waste Feasibility study for the removal of colour from the glass furnace

Pilot Studies for glass collection from urban licensed premises

Pilot Studies for Glass Collection from Urban Licensed Premises

To develop test methods and inorganic contamination limits for recovered container glass

R and D Promoting Recycled Paper (Cellulose) Insulants in Metallic Modular Construction

Toolbox approach to improved recycled fibre use in the UK corrugated case industry

Research into using recycled waste paper residues in construction products

Support development of standards for compost by investigating pathogens of concern for high-quality end-uses (follows Compost standards open R and D competition)

Market development—peat substitution

Determining the market share of recycled materials in the UK economy: development of methodology

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what funding *(a)* her Department and *(b)* bodies sponsored by it have made available since March 2003 for research projects relating to waste management. [162446]

Mr. Morley: The following funding has been made available for research projects relating to waste management by Defra and bodies sponsored by Defra, since March 2003:

Organisation	*£000*
Defra	661
Environment Agency	1,220
Waste and Resource Action Programme	2,695

No funds have yet been assigned to research from Defra's Waste Implementation Programme research budget.

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the additional resources that will be made available to *(a)* the Environment Agency and *(b)* local authorities to detect the unlicensed management of waste. [162465]

Mr. Morley: The Environment Agency is funded through GIA for its enforcement work. This year, about £12 million was spent on waste-related enforcement activity. Local authorities receive funding through the EPCS element of their block grant and will decide resource allocations according to local priorities.

Defra is currently consulting on a fly-tipping strategy which is designed to ensure greater effectiveness, achieved within existing resources.

However, Defra has given the Environment Agency additional funding this year to set up and maintain "Flycapture", a web based database that will enable local authorities and the Agency to fulfil the data requirements of the Anti-social Behaviour Act 2003.

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what modelling her Department has *(a)* undertaken and *(b)* commissioned into the possible impact of the implementation of higher environmental standards on illegal waste (i) management and (ii) disposal activity. [161800]

Mr. Morley: Defra launched a consultation on its proposed Fly-Tipping Strategy on 23 February 2004. This strategy proposes several changes to help deal with illegally disposed waste and contains a partial regulatory impact assessment (RIA).

Defra is also commissioning a comprehensive research project looking at the causes and incentives of illegal waste disposal that will result in a good practice guide for practitioners focusing on pro-active, preventative policies.

HEALTH

"Delivering Race Equality"

Mrs. Helen Clark: To ask the Secretary of State for Health when he will publish the responses received to "Delivering Race Equality"; and when he will publish the Government's proposals. [163562]

Ms Rosie Winterton: We plan to issue two documents, the final version of Delivering Race Equality and a summary of the consultation responses in early summer.

Biomedicine

Mr. McNamara: To ask the Secretary of State for Health for what reasons the Government have not signed the Council of Europe Convention on Human Rights and Biomedicine. [162705]

Miss Melanie Johnson *[holding answer 22 March 2004]:* The convention covers a wide range of complex ethical and legal issues where United Kingdom domestic policy is still to be resolved following consultations. These matters will need to be concluded before the Government are in a position to consider signing and ratifying the convention.

Breast Screening

Bob Spink: To ask the Secretary of State for Health what progress is being made on extending breast screening to younger women; and if he will make a statement. [163688]

Miss Melanie Johnson: The Forrest report, on which the breast screening programme is based, recommended further research to assess the clinical and cost-effectiveness of offering routine screening to women under 50. This is under way, entitled, "Randomised controlled trial of the effect of breast cancer mortality of annual mammographic screening of women starting at age 40" (the 'Age' Trial).

The main aim of the study is to evaluate the effect of annual mammographic screening of women starting at ages 40 to 41 on mortality from breast cancer, thus giving a definitive answer to the outstanding question of whether population screening below 50 is beneficial or not. The study began in February 1991, and recruitment to the trial has now stopped at 160,000 women. The study costs over £1 million a year to run. As the trial is primarily looking at mortality benefits, full results are not expected before 2005.

Chronic Obstructive Pulmonary Disease

Mr. Hancock: To ask the Secretary of State for Health what resources he will be making available to implement the National Institute for Clinical Excellence guidelines on the management of chronic obstructive pulmonary disease. [163799]

Dr. Ladyman: Primary care trusts (PCTs), in partnership with local stakeholders, are responsible for deciding what local service improvements need to be made.

The national health service is currently receiving the largest sustained increase in funding in its history. The total of PCT allocations is £45 billion for 2003–04, £49.3 billion for 2004–05 and £53.9 billion for 2005–06. This represents an increase of £12.7 billion, or an average of 30.8 per cent. over the three years 2003–06.

Cluster Headaches

Mr. Todd: To ask the Secretary of State for Health what steps he is taking to ensure that the needs of those who suffer from cluster headaches are taken into account in the tender for the supply of domiciliary oxygen. [163909]

Ms Rosie Winterton: Healthcare professionals are responsible for assessing and prescribing oxygen therapy for patients, including those suffering from cluster headaches. The new contract, being developed to support introduction of a modernised, integrated, oxygen service from 2005, will require service contractors to supply oxygen in a way that best meets the needs of the patient, as set out in the patient's prescription.

Computer Misuse

Mr. Webb: To ask the Secretary of State for Health how many cases of computer misuse there were in his Department in *(a)* 1997 and *(b)* 2003, broken down by category of misuse; and how many of those cases resulted in disciplinary action. [163250]

Ms Rosie Winterton: The Department takes very seriously any misuse of its information technology systems. All computer users are made aware of the Department's acceptable use policy, which is brought to the attention of new users and is available on the Department of Health Intranet.

Figures for the year 1997 are not available. The table shows the total recorded cases of significant breaches of the Department's acceptable use policy. Figures cover downloading of inappropriate material, loading of unauthorised software and the storage and circulation of inappropriate emails. A more detailed breakdown of these figures is not available. Management checks indicate only a small number of the breaches involve inappropriate content.

2003

Type of misuse	*Total cases*
Internet	2
Email	5
Internet and e-mail	0
Total no of cases	7
Police conviction	1
Action outstanding	2
Disciplinary action taken	4

Correspondence

Mr. Kaufman: To ask the Secretary of State for Health (1) when he will reply to the letter to him from the right hon. Member for Manchester, Gorton, dated 17 February with regard to Dr. P. W. Bishop. [161801]

(2) when he will reply to the letter from the right hon. Member for Manchester, Gorton dated 12 February 2004, with regard to Dr. D. W. Bishop. [163301]

Dr. John Reid: A reply was sent to my right hon. Friend on 26 March 2004.

Dentistry

Mr. Steen: To ask the Secretary of State for Health what percentage of the population had access to an NHS dentist in *(a)* 1997, *(b)* 2000 and *(c)* 2003. [155543]

Ms Rosie Winterton *[holding answer 23 February 2004]:* The Adult Dental Health Survey in 1998 showed that 71 per cent. of the population had seen a dentist in the previous year. Table 1 shows the percentage of dentate adults surveyed that last visited the dentist in given periods.

Table 1

Time since last visit to the dentist[1]	*Percentage of dentate adults*
Up to 1 year	71
Over 1 year, up to 2 years	7
Over 2 years, up to 5 years	12
Over 5 years, up to 10 years	6

[1] Excludes those who have never been to the dentist.

There is no straightforward measure of national health service dental access. However, adult courses of NHS dental treatment have continued to increase; from 24.6 million in 1997, to 25.9 million in 2000, to 26.3 million in 2003.

Adult registrations with a General Dental Service (CDS) dentist fell in September 1997, because of a reduction in the registration period from 24 to 15 months in September 1996, and have been relatively stable since then. Table 2 shows the numbers of registrations and registration rates as a percentage of the population for adults and children at September in the years 1997, 2000 and 2003 for England.

Table 2

	Number (million)	*Rates (percentage)*
1997[1]		
Adults	19.38	51.0
Children	7.37	65.2
Total	26.75	54.3
2000		
Adults	16.81	43.4
Children	6.85	60.7
Total	23.66	47.3
2003		
Adults	16.65	44.0
Children	6.67	60.0
Total	23.32	47.6

[1] The registration periods were changed in September 1996, which affected registration numbers from December 1997.

The registration period is currently 15 months, so patients who have not attended a dentist within that period will not be included in the registration figures.

Anyone wishing to find a dentist with whom to register for NHS dental care, or obtain emergency or occasional treatment, should normally be able to do so by calling NHS Direct. In first 10 months of 2003, NHS Direct was able to give 93 per cent. of callers details of a dentist taking new NHS patients in their area and within local distance standards. Corresponding information is not available for the years 1997 and 2000.

Mr. Steen: To ask the Secretary of State for Health what percentage of the NHS budget has been spent on providing dental care in each of the last five years. [155544]

Ms Rosie Winterton *[holding answer 23 February 2004]:* The gross national health service spend on the general dental service (GDS) and personal dental services (PDS) and the percentage this represents of total NHS expenditure for 1997–98 to 2002–03 is shown in the table. During this period, gross spend on the GDS and PDS has increased by 15 per cent. in real terms.

Gross NHS general dental expenditure and percentage of NHS gross expenditure

	Gross expenditure on general dental service and personal dental service[1] (£ million)	*Gross expenditure on general dental service and personal dental services[1, 2] as a percentage of total gross NHS expenditure[3]*
1997–98	1,349	3.57
1998–99	1,443	3.61
1999–2000	1,491	3.43
2000–01	1,582	3.31
2001–02	1,674	3.17
2002–03	1,750	3.01

[1] Gross expenditure includes income raised through dental charges paid by patients.
[2] Expenditure on the community and hospital dental services has not been included as the information is not collected centrally.
[3] The expenditure figures used for the comparison are on a cash basis up to and including 1999–2000 and on a resource basis thereafter.

Under proposals set out in the Health and Social Care (Community Health and Standards) Act 2003, primary care trusts (PCTs) will assume responsibility for commissioning primary dental care services. With these responsibilities will go the financial resources amounting to some £1.3 billion, which are currently held centrally.

We have guaranteed that dentists working in the GDS will have an automatic right to a contract under the new arrangements and that their gross earnings will be protected over the transition period of three years. During this period, PCTs' newly devolved dentistry allocations will represent a minimum level of spend on NHS which PCTs must maintain.

Mrs. Dean: To ask the Secretary of State for Health (1) how many training places for dentists have been available in each of the last 10 years; [162032]

(2) how many places were available in each of the dental schools in each of the last 10 years; [162033]

(3) how many dentists qualified in each of the last 10 years. [162034]

Ms Rosie Winterton: The quota of training places available for dentists in dental schools in England, as shown in table 1, was set after the Dental Workforce Review conducted in 1987. It has not changed since then but, as the information on graduates in table 2 indicates, the number of students accepted fluctuates because dental schools are required to admit all applicants who achieve the 'A' level scores in the offer of admission the school makes.

Table 1: Number of training places available in England

Dental school	*Number of training places*
Birmingham	65
Bristol	50
King's College, London	145
Leeds	55
Liverpool	55
Manchester	60
Newcastle	68
QMW (Barts and The London)	55
Sheffield	47
Total	600

The numbers of dental students who have graduated from these courses over the last 10 years are shown in table 2.

Table 2: Number of graduates 1993–2003

	Number
1993–94	541
1994–95	492
1995–96	526
1996–97	535
1997–98	576
1998–99	581
1999–2000	585
2000–01	618
2001–02	591
2002–03	549

Diabetes

Mr. Sanders: To ask the Secretary of State for Health (1) what provisions are in place to increase the capacity of trained multidisciplinary teams to fulfil the National Institute for Clinical Excellence guidelines on patient education for people with diabetes; [R] [163667]

(2) how many primary care trusts provide structured diabetes education in line with the National Institute for Clinical Excellence guidelines published in May 2003; [R] [163669]

(3) when he expects the National Institute for Clinical Excellence guidance on patient education for people with diabetes to be implemented in full; [R] [163671]

(4) what percentage of people with diabetes were invited to structured diabetes education sessions with a trained multidisciplinary team in the last 12 months; and what the average frequency was of the follow-up sessions. [R] [163672]

Ms Rosie Winterton: In publishing its guidance on patient education in diabetes, the National Institute for Clinical Excellence acknowledged that successful implementation of structured educational programmes would depend on the availability of an appropriately

trained workforce. Patient education models are currently being made available locally for use by the national health service. This should help primary care trusts to meet the planning and priorities framework target of having practice based registers and systematic treatment, including structured education, in place for people with diabetes by 2006.

The development of the diabetes workforce capacity is the responsibility of the long-term conditions care group workforce team. "Skills for Health" has been commissioned by the care group workforce team to develop competence frameworks for the diabetes workforce. This work includes identifying the competences needed to undertake structured education programmes for people with diabetes. Once complete, this work will be used in many different ways, for example, education commissioning, skills analysis and training needs analysis.

Information is not collected centrally on the local operation of patient education programmes.

Health Spending (West Derbyshire)

Mr. McLoughlin: To ask the Secretary of State for Health how much public money was spent on health in the constituency of West Derbyshire between *(a)* 1992 and 1997, *(b)* 1997 and 2001 and *(c)* 2001 and 2004. [163737]

Dr. Ladyman: The information is not available in the format requested. Expenditure per weighted head in the Trent Strategic Health Authority (SHA) area, which includes the constituency of West Derbyshire, has increased from £610.10 in 1997–98 to £862.03 in 2002–03—the latest year available. This does not represent the total expenditure per head as an element of health expenditure cannot be identified by SHA area.

Integrated Community Equipment Service Team

Mr. Oaten: To ask the Secretary of State for Health for what period he will support the Integrated Community Equipment Service Team; and what budget has been allocated for 2004–05. [164344]

Dr. Ladyman: It is intended to continue the integrating community equipment services team until March 2005. The budget for 2004–05 has not yet been finalised.

Maternity Services (Asylum Seekers)

Sandra Gidley: To ask the Secretary of State for Health what *(a)* maternity and *(b)* antenatal services asylum-seeking women will have access to after 1 April 2004. [163635]

Dr. Ladyman: Women whose application for asylum is under consideration are able to access the same maternity and antenatal services as the resident population. There will be no change to these arrangements on 1 April 2004.

Medicines and Healthcare Products Regulatory Agency

Paul Flynn: To ask the Secretary of State for Health how he plans to ensure consumer representation on the Medicines and Healthcare Products Regulatory Agency's expert working group on selective serotonin reuptake inhibitors. [162492]

Ms Rosie Winterton: The Committee on the Safety of Medicine's expert working group on the safety of selective serotonin reuptake inhibitors included lay membership from its inception—uniquely for an expert group. Following the resignation of one of the lay members, we intend to appoint another lay member to the group as soon as possible.

Mental Health Services

David Taylor: To ask the Secretary of State for Health (1) what guidance has been given to NHS trusts on the provision of *(a)* appropriate clothing and *(b)* other personal items to patients with mental health problems on their return to the community; [163261]

(2) what guidance has been issued to NHS trusts on their responsibility for the provision of clothing to long-stay patients. [163262]

Ms Rosie Winterton *[holding answer 24 March 2004]:* As outlined in the National Service Framework for Mental Health (1999), trusts should ensure that appropriate organisational arrangements are in place to secure good standards of privacy and dignity for hospital patients.

The care programme approach requires patients' health and social care needs to be fully assessed and addressed in their care plans. Care plans should be reviewed regularly, particularly upon discharge from hospital. This principle is embodied in "Effective Care Co-ordination in Mental Health Services (1999)".

We would expect the trust to take account of the basic needs of the patient and asses these in the context of his or her wishes, the length of the hospital stay, and any other available resources.

Nappies

Phil Sawford: To ask the Secretary of State for Health how many NHS hospitals have *(a)* formal and *(b)* exclusive agreements with (i) manufacturers and (ii) suppliers of disposable nappies. [164112]

Dr. Ladyman: This information is not held centrally.

NHS (South Tyneside)

Mr. Hepburn: To ask the Secretary of State for Health how much was spent per capita by the NHS in South Tyneside in each year since 1997; and what spending is projected for 2004. [162864]

Miss Melanie Johnson: Available information on the average amount of national health service spending per weighted head for the former Gateshead and South Tyneside Health Authority for 1996–97 to 2001–02 is shown in table 1. The information for 2002–03 is not available in the same format and is shown as the average spending per weighted head for the Northumberland, Tyne and Wear Strategic Health Authority. Revenue allocations per weighted head for 2003–04 to 2004–05 are shown in table 2.

Table 1: Expenditure per head by health authority area

	Expenditure per head (£)
Gateshead and South Tyneside Health Authority area	
1996–97	645.55
1997–98	614.40
1998–99	631.75
1999–2000	727.51
2000–01	784.29
2001–02	886.71
Northumberland, Tyne and Wear Strategic Health Authority area	
2002–03	997.49

Table 2: Primary care trust revenue allocations by strategic health authority area

Northumberland, Tyne and Wear Strategic Health Authority area	*Revenue allocations per head (£)*
2003–04	915
2004–05	1,001

Notes:
1. 2002–03 data remains provisional.
2. Revenue allocations to primary care trusts 2003–04 to 2004–05.
3. Weighted population figures 1996–97 to 2004–05.

Sources:

Audited summarisation forms of the Northumberland, Tyne and Wear Strategic Health Authority 2002–03.
Audited summarisation schedules of primary care trusts within the health authority areas.

NHS Beds (Crosby)

Mrs. Curtis-Thomas: To ask the Secretary of State for Health if he will make a statement on the number of NHS beds available in Crosby in each year since 1997. [160436]

Miss Melanie Johnson: Information on the average daily number of beds in acute wards in each national health service trust and England from 1996–97 to 2002–03 is available from the Department's website at www.performance.doh.gov.uk/hospitalactivity/index.htm.

Information on beds is collected on a provider basis from NHS organisations. Relevant available information on beds for two trusts in the area is shown in the tables.

Average daily number of available beds by sector—Aintree Hospitals NHS Trust 1996–97 to 2002–03

	All specialties[1]	*General and acute*	*Acute*	*Geriatric*	*Mental illness*	*Learning disability*	*Maternity*	*Day only*

NHS Staff

Mr. Hoyle: To ask the Secretary of State for Health how many NHS staff have been attacked in *(a)* Lancashire, *(b)* Preston and *(c)* Chorley Hospital in each of the last five years; and how many of the attackers have been prosecuted in each case. [151240]

Miss Melanie Johnson *[holding answer 27 January 2004]:* The Department does not collect this information in the form requested. The Department does, however, collect information on reported incidents of violence, which includes verbal abuse. The table shows the number of recorded incidents of violence in national health service organisations in Lancashire for which information is available.

Number of recorded incidents of violence in NHS organisations in Lancashire[1]

[1] Organisations in Lancashire for which information is available.
[2] Not applicable or not available.
[3] Includes Preston Acute Hospitals NHS Trust.
Notes:
1. In April 2002, Chorley and South Ribble NHS Trust was dissolved. Most of its staff were incorporated into Lancashire Care NHS Trust and Lancashire Teaching Hospitals NHS Trust. In April 2002, Preston Acute Hospitals NHS Trust was dissolved. Most of its staff were incorporated into Lancashire Teaching Hospitals NHS Trust. For 2000–01, a combined return was received from Preston Acute Hospitals and Chorley and South Ribble NHS Trust.
2. Violence incidents are those reported that include verbal or physical abuse.
3. Figures for 2001–02 are from surveys by the Department of Health and the National Audit Office.
Sources:
Department of Health Surveys of Violence, Accidents and Harassment in the NHS National Audit Office.

Mr. Keetch: To ask the Secretary of State for Health what surveys he has conducted to determine morale of staff in NHS hospitals in the west Midlands; if he will publish the results; and if he will make a statement. [163824]

Dr. Ladyman *[holding answer 26 March 2004]:* The Department does not conduct surveys of local national health service staff. However, NHS employers have been required to conduct local staff opinion surveys since April 2000. The surveys were for local use only and the results were not collected nationally.

The Commission for Health Improvement (CHI) took on the responsibility for conducting and publishing the results of both national staff and patient surveys from April 2003.

Copies of the survey can be obtained from CHI's website at www.chi.nhs.uk. CHI will be publishing a more detailed breakdown of the survey results in its "State of the NHS" report, planned for June 2004.

Mr. Curtis-Thomas: To ask the Secretary of State for Health (1) if he will make a statement on the numbers of NHS *(a)* doctors and *(b)* nurses in Crosby in each of the last seven years; [160390]

(2) how many NHS *(a)* therapists and *(b)* scientists were located in Crosby in each of the last seven years. [160391]

Miss Melanie Johnson: The information requested is not available on a constituency basis. Information is collected on a national health service trust basis and a primary care trust basis from 2001–02.

The information available has been placed in the Library.

North Bristol NHS Trust

Mr. Webb: To ask the Secretary of State for Health if he will make a statement on the role of *(a)* the Avon, Gloucestershire and Wiltshire Strategic Health Authority and *(b)* his Department in determining the progress of the strategic outline case being prepared by North Bristol NHS Trust. [164383]

Ms Rosie Winterton: The process for the next prioritisation round is detailed as follows:

Health communities will describe their proposals for major capital investments in strategic outline cases (SOCs) and these will form the basis of the scheme's assessment. SOCs must demonstrate both health service need and deliverability. Both the trust and the main commissioners must be in agreement that the investment is likely to be affordable and deliverable. In addition the "host" strategic health authority (SHA), the SHA within which the proposed investment will fall, must agree that these assessments are realistic before submitting the SOC to the Department.

Central assessment will not second guess the SHA's view on health service need; instead, it will concentrate on factors that influence the deliverability of the scheme, including the quality of stakeholder support, project management arrangements and technical considerations.

SOCs will be peer-reviewed by other SHAs operating as part of a technical group, coordinated and guided by the Department. The technical group will report to the Department of Health which will make a recommendation to Ministers. We expect decisions to be announced in the summer.

Ophthalmology

Mr. Todd: To ask the Secretary of State for Health what assessment he has made of the performance of the Levent ophthalmology teams contracted by Trent Strategic Health Authority; and what plans he has to extend their contracts in the Trent region. [163341]

Dr. Ladyman: The Levent ophthalmology team contracted by Trent Strategic Health Authority (SHA) has operated on a total of 2,307 patients between September 2003 and March 2004. This exceeded the original contract volume by 859 patients.

Trent SHA report that it was very impressed by the working styles of the Levent clinics and their kind approach to patients.

The SHA is currently auditing clinical outcomes for the Levent project; which it anticipates will be completed within the next few months, when the final outcomes will be available. While the SHA has no plans to issue further contracts to Levent at this time, it has confirmed that Erewash Primary Care Trust is considering contracting further cataract surgery in 2004–05.

PET Scanners

Tim Loughton: To ask the Secretary of State for Health when he expects to publish the framework document for PET scanners. [163056]

Miss Melanie Johnson: The Department will publish a framework for Positron Emission Tomography scanning for consultation by early summer. Copies will be placed in the Library.

Prescription Drugs

Mr. Hancock: To ask the Secretary of State for Health if he will require pharmaceutical companies to publish the results of experiments involving prescription drugs. [163902]

Ms Rosie Winterton: There are no plans currently in place to require disclosure of the results of company research on prescription drugs. The Government welcome the pharmaceutical industry's support for the Department of Health's research governance framework for health and social care, which recognises that it is researchers' responsibility to ensure that research findings are opened to critical review through the accepted scientific and professional channels and disseminated promptly once established. The Government encourage the pharmaceutical industry to disclose research results to the maximum extent consistent with regulatory process and intellectual property rights.

Respiratory Conditions

Mr. Hancock: To ask the Secretary of State for Health what plans he has for a national service framework for respiratory conditions. [163801]

Dr. Ladyman: There are no plans for a national service framework (NSF) covering respiratory conditions.

The children's NSF will include childhood asthma as an exemplar condition.

The NSF for coronary heart disease already has a reduction in cigarette smoking as one of its major targets. We have also banned tobacco advertising and made smoking reduction aids available on national health service prescription.

Additionally the National Institute for Clinical Excellence issued clinical guidelines for the NHS on 27 February 2004 for the prevention, diagnosis, management and treatment of chronic obstructive pulmonary disease.

Seroxat

Mr. Godsiff: To ask the Secretary of State for Health how many patients have been recorded as having suffered adverse side effects from the prescription of Seroxat. [163566]

Ms Rosie Winterton: The Medicines and Healthcare products Regulatory Agency (MHRA) and the Committee on Safety of Medicines (CSM) receive reports of suspected adverse drug reactions (ADRs) submitted by health professionals on a voluntary basis via the yellow card scheme and there is a legal requirement for companies to report suspected ADRs to their drugs.

A total of 8,960 reports of suspected ADRs have been received through the yellow card scheme in association with paroxetine (Seroxat) since 1990.

St. Jude Silzone Heart Valve

Mr Hunter: To ask the Secretary of State for Health (1) if he will take measures to ensure that all surviving UK recipients of the St. Jude silzone heart valve are informed why these valves have been withdrawn from the market; and if he will make a statement; [163194]

(2) if he will take measures to ensure that all UK recipients of the St Jude silzone heart valve are encouraged to contact for advice the hospitals and surgeons where and by whom they were fitted with these valves; and if he will make a statement. [163195]

Miss Melanie Johnson: The Department issued advice to United Kingdom cardiothoracic surgeons and cardiologists on the problems associated with the St. Jude Silzone heart valve in November 1999 and January 2000. Specifically, the Department advised clinicians of the recall of Silzone heart valves of the increased risk of complications with the Silzone heart valves and of the consequent need to undertake early

review of all patients implanted with these valves. Clinicians are responsible for acting on this advice and for bringing relevant information to the attention of their patients.

Mr. Hunter: To ask the Secretary of State for Health what communication his Department has had with relevant authorities in the Irish Republic regarding the implications for British and Irish citizens of the withdrawal from the market of the St Jude silzone heart valve; and if he will make a statement. [163196]

Miss Melanie Johnson: The Department notified other European competent authorities of the action taken in the United Kingdom, in relation to Silzone heart valves, via notifications through the Medical Devices Vigilance System on 19 November 1999 and 3 February 2000. These notifications informed other competent authorities of the UK's recommendation to undertake an early review of all patients implanted with the Silzone heart valve and gave background to this advice. Notifications of this type are the recognised method for exchanging information on the safety of medical devices between European Member States.

Substance Misuse

Mr. Keith Bradley: To ask the Secretary of State for Health how many alcohol treatment centres there are *(a)* in the UK and *(b)* the north west; and what the budget is for each. [162616]

Miss Melanie Johnson *[holding answer 22 March 2004]:* There are 475 alcohol treatment centres in England. We estimate that around £95 million is spent each year on alcohol treatment services in England. Most of the funding for alcohol treatment services is drawn from the mainstream budgets of the national health service and local authorities. The method of funding these services means that it is not possible to give a breakdown at regional level of budgets and expenditure.

TREASURY

National Statistics

John McDonnell: To ask the Chancellor of the Exchequer how many *(a)* births and *(b)* birth defects there were in the London borough of Hillingdon in each year since 1994; and what the rate of birth defects per 10,000 births was in the borough in each of those years. [163589]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply

Letter from Len Cook to Mr. John McDonnell, dated 29 March 2004:

As National Statistician, I have been asked to reply to your recent question asking for the number of *(a)* births and *(b)* birth defects and rates of birth defects per 10,000 births in Hillingdon since 1994. (163589)

The Office for National Statistics (ONS) is responsible for maintaining the National Congenital Anomaly System (NCAS) notifications in England and Wales. These notifications are collected only for live and stillbirths (i.e. terminations are excluded) and are provided by NHS Trusts on a voluntary basis either directly to ONS or via local congenital anomaly registers that exchange data with ONS. In 1994 there were no registers exchanging information with NCAS. In 2000, NCAS began exchanging data with the North Thames (West) Congenital Malformation Register, which receives more complete information through multi-source ascertainment. It is a hospital-based register and includes information supplied from the maternity unit in Hillingdon. Up to eight malformations can be recorded on NCAS for each baby.

The latest year for which figures are available is 2001. Estimates of the figures requested, covering the period 1994–2001 are shown in the attached table.

Estimated numbers and rates of malformations recorded in the National Congenital Anomaly System[1] Hillingdon health authority, 1994 to 2001[2]

	Total live and stillbirths	*Estimated number of malformations notified*	*Rates per 10,000 live and stillbirths*
1994	3,542	69	194.8
1995	3,421	48	140.3
1996	3,476	51	146.7
1997	3,487	62	177.8
1998	3,551	38	107.0
1999	3,351	49	146.2
2000[3]	3,328	116	348.6
2001	3,260	87	266.9

[1] Notification to this system is voluntary at all stages and therefore may be incomplete, particularly in areas that are not covered by a local registry.

[2] Figures provided are by year of birth.

[3] In 2000, NCAS began exchanging data with the North Thames (West) Congenital Malformation Register, which receives more complete information through multi-source ascertainment. It is a hospital-based register and includes information supplied from the maternity unit in Hillingdon. It is likely that the inclusion of data from this register contributed to the large increase in the estimated number of malformations in Hillingdon in 2000.

Source:

Estimates based on numbers of babies notified to National Congenital Anomaly System at 31 July 2002 (Health Statistics Quarterly no. 16 Annual update: Congenital anomaly statistics—notifications 2001) and the number of malformations recorded for each notified case.

Dr. Gibson: To ask the Chancellor of the Exchequer how many new cancer diagnoses were made for teenagers and young adults in the 13 to 24 years age range in each of the last five years. [163890]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Dr. Ian Gibson, dated 29 March 2004:

As National Statistician, I have been asked to reply to your recent Parliamentary Question concerning how many new cancer diagnoses were made for teenagers and young adults in the 13 to 24 years age range in each of the last five years. (163890)

The latest year for which figures are available is 2000. The number of newly diagnosed cases of cancers for teenagers and young adults aged 13 to 24 years for each of the five years 1996–2000 in England, are given in the table below:

Number of newly diagnosed cases of cancer[1] in England, patients aged 13 to 24 years—1996 to 2000

	1996	*1997*	*1998*	*1999*	*2000*
Males	676	825	736	765	829
Females	595	618	619	642	712
Total	1,271	1,443	1,355	1,407	1,541

[1] International Classification of Diseases, Tenth Revision (ICD-10) code C00-C97 excluding non-melanoma skin cancer—ICD-10 code C44.

Office for National Statistics.

Bob Spink: To ask the Chancellor of the Exchequer how many children were aged *(a)* one, *(b)* two and *(c)* three in each of the last three years. [163551]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Robert Spink, dated 29 March 2004:

As National Statistician I have been asked to reply to your question concerning the population for children aged 1, 2 and 3. (163551)

Below is a table showing the mid-2000, mid-2001 and mid-2002 population estimate for children aged 1, 2 and 3 years for England and Wales.

Population aged 1, 2 and 3 years—England and Wales 2000 to 2002[1]

Thousand

Age	*2000*	*2001*	*2002*
1	623.2	603.5	588.0
2	631.8	619.1	602.6
3	648.3	630.0	618.7

[1] Mid-year estimates of population.

Office for National Statistics.

John McDonnell: To ask the Chancellor of the Exchequer what the incidence of birth defects was in each year since 1996, broken down by region. [163606]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. John McDonnell, dated 29 March 2004:

As National Statistician, I have been asked to reply to your recent question asking for the number of birth defects in England and Wales by region since 1996. (163606)

The Office for National Statistics (ONS) is responsible for maintaining the National Congenital Anomaly System (NCAS) notifications in England and Wales. These notifications are collected only for live and stillbirths (i.e. terminations are excluded) and are provided by NHS Trusts on a voluntary basis either directly to ONS or via local congenital anomaly registers that exchange data with ONS. In 1996 there were no registers exchanging information with NCAS. By 2001, NCAS received more complete information from four local congenital anomaly registers through multi-source ascertainment.

As a result, numbers of notifications in England and Wales have increased since 1996. These registers cover all births in Wales and 24 per cent. of births in England. For the remaining areas NCAS relies solely on SD56 notification forms and is likely to be less complete. Up to eight malformations can be recorded on the system for each baby.

The latest year for which figures are available is 2001. Estimates of the figures requested, covering the period 1996–2001 are shown in the attached table.

Estimated numbers of malformations recorded in the National Congenital Anomaly System[1]—England, Wales and English Government Office Regions, 1996–2001[2]

	1996	*1997*	*1998*	*1999*	*2000*	*2001*
England and Wales	7,440	7,504	8,220	10,168	10,874	9,423
England	6,577	6,753	6,516	8,575	9,273	8,027
Wales	863	751	1,704	1,593	1,601	1,396
Government Office Regions						
North East	331	277	276	289	215	145
North West	1,120	1,122	1,118	1,257	1,744	1,471
Yorkshire and the Humber	858	913	740	1,103	1,186	973
East Midlands	430	534	515	1,593	1,480	1,565
West Midlands	699	713	705	754	690	623
East	641	624	634	693	737	721
London	1,037	951	907	871	1,375	1,157
South East	842	985	980	968	991	762
South West	619	634	641	1,047	855	610

[1] Notification to this system is voluntary at all stages and therefore coverage may be incomplete, particularly in areas that are not covered by a local registry. From 1998, ONS began to exchange data with local registers and by 2001, four such registers were exchanging data with NCAS. As a result, the total coverage of NCAS has increased.
[2] Figures provided are by year of birth.
Source:
Estimates based on numbers of babies notified to National Congenital Anomaly System (NCAS) at 31 July 2002 (Health Statistics Quarterly no. 16 Annual update: Congenital anomaly statistics—notifications 2001) and the number of malformations recorded for each notified case.

United States Container Security Initiative

Patrick Mercer: To ask the Chancellor of the Exchequer if he will estimate the cost of implementing in the United Kingdom the United States Container Security Initiative. [163586]

John Healey: The United States Government have met all the costs of installing equipment and providing US resources to work with HM Customs and Excise at the ports included in the initiative. Customs' costs are minimal and have not been separately quantified.

Aggregates Tax

Mr. Bellingham: To ask the Chancellor of the Exchequer how much revenue the Treasury has received from aggregate dredging in each of the last five years. [163574]

John Healey: This information is not available, as revenue from this source is not separately identified in either aggregates levy or VAT returns.

Bureaux de Change

Norman Lamb: To ask the Chancellor of the Exchequer when he expects to receive Lord Butterfield's report into fraud in relation to bureaux de change. [158707]

The Solicitor-General: I have been asked to reply.

Mr. Justice Butterfield is expected to deliver an interim report to the Attorney-General and the Economic Secretary to the Treasury in the near future.

Carbon Monoxide Poisoning

Mr. Sheerman: To ask the Chancellor of the Exchequer how many people have died from carbon monoxide poisoning in *(a)* the UK and *(b)* Huddersfield in each year since 1997. [163387]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Sheerman dated 29 March 2004:

As National Statistician, I have been asked to reply to your recent question asking how many people have died from carbon monoxide poisoning in *(a)* the UK and *(b)* Huddersfield in each year since 1997. (163387)

The latest year for which figures are currently available is 2002. Figures for the United Kingdom and Kirklees metropolitan district, which includes Huddersfield parliamentary constituency, are shown in the attached table from 1997 to 2002.

The number of deaths in Huddersfield constituency was below five in all but one of these years. Where the numbers of deaths was less than five the exact number has been suppressed to reduce the risk of disclosure of individual cases.

Number of deaths from carbon monoxide poisoning[1] in Kirklees[2] and the United Kingdom, 1997 to 2002[3]

Calendar year	*Kirklees*	*United Kingdom*
1997	13	934
1998	[4]—	803
1999	6	747
2000	6	601
2001	[4]—	545
2002	[4]—	469
Total	35	4,099

[1] The cause of death was defined using the International Classification of Diseases, Ninth Revision (ICD-9) codes for the years 1997 to 1999 for Scotland, 1997 to 2000 for England and Wales, and Northern Ireland, and the International Classification of Diseases, Tenth Revision (ICD-10) codes for 2000 to 2002 for Scotland, and 2001 to 2002 for England and Wales, and Northern Ireland. The codes used were as follows:

Toxic effect of carbon monoxide—ICD-9 986; ICD-10 T58.

The majority of deaths with a nature of injury code of toxic effect of carbon monoxide poisoning are suicides, (75 per cent. of carbon monoxide poisoning deaths in England and Wales in 1997; 69 per cent. in 2002). Some deaths from carbon monoxide poisoning are also of undetermined intent, homicides or the result of fires. A small proportion are the result of accidental poisoning (7 per cent. in England and Wales in 1997 and in 2002).

[2] Usual residents of Kirklees metropolitan district.

[3] Figures are based on deaths occurring in each calendar year in England and Wales, and deaths registered in each calendar year in Scotland and Northern Ireland.

[4] Fewer than five deaths.

Champagne Imports

Bob Spink: To ask the Chancellor of the Exchequer how many litres of champagne were imported in each year since 1999. [163590]

John Healey: The number of litres of champagne imported under Commodity Code 2204 10 11 from 1999 to 2003 is shown in the following table:

	Litres of champagne
1999	24,027,371
2000	14,836,442
2001	17,245,344
2002	24,398,314
2003	24,063,213
1999 to 2003	104,570,684

Source:

Overseas Trade Statistics, HMCE, with monthly allocation for Below Threshold Trade.

Child Tax Credits

Mr. McLoughlin: To ask the Chancellor of the Exchequer how many awards of Child Tax Credit have been determined to have been wrongly calculated in *(a)* the East Midlands and *(b)* West Derbyshire; and of those how many were (i) too high and (ii) too low. [163745]

Dawn Primarolo: I refer the hon. Member to my answer to the hon. Member for North Norfolk (Norman Lamb) on 22 March 2004, *Official Report*, column 664W.

Customs and Excise

Mr. Grogan: To ask the Chancellor of the Exchequer if he will make a statement on the action being taken by Her Majesty's Customs and Excise to combat the illegal importation of bushmeat into the United Kingdom. [163511]

John Healey: I refer my hon. Friend to the answer I gave to the hon. Member for Southend, West (Mr. Amess) on 4 February 2004, *Official Report*, column 935W.

Action to combat illegal imports of bushmeat is part of the overall strategy to tackle illegal imports of products of animal origin.

Demographics

Mr. Lilley: To ask the Chancellor of the Exchequer what proportion of the population increase expected under the principal projection issued by the Office for National Statistics on 18 December 2003 is due to the assumed level of net inward migration and the descendants of migrants. [160514]

Ruth Kelly *[holding answer 11 March 2004]:* A note considering the impact of assumed net migration on projected population growth is now available on the GAD website at http://www.gad.gov.uk/Population/2002/methodology/mignote.htm

Departmental Buildings/Officials

Mr. Llwyd: To ask the Chancellor of the Exchequer what *(a)* renovation and *(b)* maintenance projects on buildings (i) owned and (ii) rented by his Department were undertaken in each of the last five years; and what the associated costs were of each. [163956]

Ruth Kelly: The total costs of refurbishment of 1 Horse Guards Road, occupied by the Treasury under a PFI Agreement in July 2002, were given in answer to the hon. Member for South Norfolk (Mr. Bacon) on 5 February 2002, *Official Report*, column 841W. The costs of essential refurbishment and redecoration works in the two Treasury office buildings and in 11 Downing Street during the years 1997–98/2000–01 were given in answer to the hon. Member for Buckingham (Mr. Bercow) on 6 February 2002, *Official Report*, column 954W. Buildings occupied by Customs and Excise, Inland Revenue and the Valuation Office Agency were transferred to Mapeley Limited on 1 April 2001, under which fully serviced accommodation is provided. Information on any renovation and maintenance projects carried out prior to this date is not readily available and could be constructed only at disproportionate cost.

Mr. Cousins: To ask the Chancellor of the Exchequer which former officials of the Department have asked for permission to join *(a)* PricewaterhouseCoopers, *(b)* Deloitte & Touche, *(c)* Ernst and Young and *(d)* KPMG. [156903]

Ruth Kelly: Civil servants are subject to the Business Appointments Rules, which set out the circumstances in which they must seek permission to accept outside appointments within two years of leaving the service. A copy of the Rules is available in the Libraries of the House. Information about appointments taken up by the most senior staff are published in the annual reports of the Advisory Committee on Business Appointments. The next annual report will be published shortly.

Since 2001 one former official from the Treasury has asked for permission to join one of these organisations. Sir Steve Robson applied for, and was given, permission to undertake an appointment with KPMG. He subsequently took up this appointment.

Economic Statistics (Burton)

Mrs. Dean: To ask the Chancellor of the Exchequer how many jobs have been created in Burton constituency since 1997; and what the level of unemployment was in the Burton constituency in each year since 1997. [161837]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mrs. Janet Dean, dated 29 March, 2004:

As National Statistician, I have been asked to reply to your Parliamentary Question about jobs created, and unemployment levels in Burton. (161837)

While statistics of new jobs created are not available explicitly, statistics from surveys enable comparisons to be made of net changes, from year to year. Table A shows the number of jobs in Burton Constituency in each year from 1997 to 2002, the latest year for which information is available.

The Office for National Statistics (ONS) compiles statistics of unemployment from the Labour Force Survey (LFS) following International Labour Organisation definitions. However, the LFS sample size is too small to give reliable estimates of unemployment in the Burton Parliamentary Constituency.

ONS also compiles statistics of those claiming Jobseeker's Allowance (JSA) for local areas including parliamentary constituencies. Table B gives the annual average number of JSA claimants for the Burton Constituency for each year since 1997.

Table A: Number of jobs[1] in the Burton constituency 1997 to 2002

	Number of jobs
1997	43,000
1998	46,600
1999	46,000
2000	49,500
2001	50,400
2002	51,700
Net change	
1997 to 2002	8,700

[1] Employee jobs only, not self-employed jobs.

Source:

1997; Annual Employment Survey, 1998–2002; Annual Business Inquiry (ABI).

Table B: JSA Claimants in the Burton constituency: 1997 to 2003 annual average

	JSA claimants
1997	2,369
1998	1,944
1999	1,801
2000	1,681
2001	1,392
2002	1,154
2003	1,072

Jobcentre Plus administrative system.

Employment Agency Staff

Matthew Taylor: To ask the Chancellor of the Exchequer if he will list the employment agencies which his Department has used to supply temporary staff in each financial year since 1996–97 to the most recent date for which figures are available. [163812]

Ruth Kelly: The following agencies have supplied temporary staff to the Department. This list has been compiled from readily available records. Analysis of all records to compile a comprehensive list would entail disproportionate cost.

Badenoch & Clark
Brook Street (UK) Ltd.
Glen Recruitment
Goodman Masson Recruitment Services Ltd.
Hays Accountancy Personnel
Hays IT
Hudson Global Resources Ltd.
Huntress Search Ltd.
IPS Group Ltd.
Jonathan Wren & Co. Ltd.
Lawson Bishop Financial Ltd.
Michael Page International
Office Angels
Parker Bridge Recruitment Ltd.
St. James's Consultancy
Stop Gap Ltd.
Sue Hill Recruitment & Services Ltd.
Supplypeople
TFPL Ltd.
TRS Management Resources (Services) Ltd..

Focus Groups and Opinion Polls

Mr. Laws: To ask the Chancellor of the Exchequer what his estimate is of total expenditure by his Department on *(a)* focus groups and *(b)* opinion polls in each year from 1995–96 to 2003–04; and if he will make a statement. [162749]

Ruth Kelly: Detailed information in the form requested is not held centrally and could be obtained only at disproportionate cost.

Individual Savings Accounts

Mr. Flight: To ask the Chancellor of the Exchequer what his best estimate is of the cost to the Exchequer of

the 10 per cent. credit that individual savings accounts receive on dividend distributions that will be abolished from April in each year since its introduction. [163077]

Ruth Kelly *[holding answer 23 March 2004]*: Estimates of the cost of the 10 per cent, credit received by Individual Savings Accounts since their introduction is given in the following table:

	£ million
1999–2000	10
2000–01	30
2001–02	60
2002–03	60
2003–04	[1]70

[1] Provisional.

Insurance Premium Tax

Mr. Flight: To ask the Chancellor of the Exchequer how much has been raised in Insurance Premium Tax in each financial year since 1997–98 from *(a)* mortgage indemnity guarantee policies, *(b)* buildings insurance policies, *(c)* contents insurance policies and *(d)* private health insurance policies. [163596]

Ruth Kelly: The information requested is not available. Insurance Premium Tax receipts do not separately identify the categories of insurance to which they relate.

National Trust

Mr. Dalyell: To ask the Chancellor of the Exchequer what representations he has had from the National Trust on facilitating through financial incentives the rescue of chattels at risk in National Trust properties, where owners have retained chattels. [160516]

John Healey: Treasury Ministers have received representations from the National Trust relating to the recommendations in Sir Nicholas Goodison's report "Securing the Best for Our Museums: Private Giving and Government Support", a copy of which is available in the Library of the House.

The Government are carefully considering Sir Nicholas' recommendations in the context of the 2004 Spending Review and alongside other ongoing work on taxes.

Pensions (Equitable Life)

Dr. Cable: To ask the Chancellor of the Exchequer what estimate he has made, following the publication of the Penrose Report, of *(a)* the percentage change in the value of an Equitable Life pension and *(b)* the average percentage change in the value of a with profits policy across the industry taken out (i) 20 years ago, (ii) 10 years ago and (iii) five years ago, broken down by (A) guaranteed annual return and (B) non-guaranteed annual return products. [161470]

Ruth Kelly *[holding answer 15 March 2004]:* The information is not available in the form requested.

Equitable Life, in common with most closed life insurance funds, does not publish comparative information of this sort.

Stamp Duty

Mr. Flight: To ask the Chancellor of the Exchequer what projections he has made for revenue from stamp duty on *(a)* property and *(b)* share transactions in each of the (i) last five and (ii) next three financial years. [163598]

Ruth Kelly: Estimates of the revenue from stamp duty on both property and share transactions in each of the last five financial years up to and including 2002–03 are given at http://www.inlandrevenue.gov.uk/stats/stamp_duty/03IR151.pdf.

Estimated and projected revenues for total stamp taxes in 2003–04 and 2004–05 are published in table C8 of the Budget 2004 report. The breakdown between duty on land and property and share transactions is as follows:

		£ billion
	2003–04	*2004–05*
Stamp taxes on:		
Land and property	4.9	6.2
Shares	2.6	3.2

Tax Collection

Mr. Letwin: To ask the Chancellor of the Exchequer what the administration costs have been, in each of the last five years, of collecting unpaid taxes. [R] [149810]

Dawn Primarolo: For years up to and including 2001–02, details of the duties collected by the Department and the associated costs of administering those duties can be found in Table 1 at Appendix 1 of the Inland Revenue Annual Report for the year ending 31 March 2002 (published in December 2002).

For 2002–03, comparative figures are:

	£ million
Net receipt of Inland Revenue duties	219,194.8
Total cost of administering Inland Revenue duties	2,431.9

Unclaimed Assets

Mr. Frank Field: To ask the Chancellor of the Exchequer what the sum of unclaimed assets in *(a)* national savings and *(b)* other Government securities was on the latest date for which figures are available. [164338]

Ruth Kelly: "Unclaimed monies" in the National Savings and Investments Product Accounts refer to monies where: the product has been redeemed by the Treasury; monthly interest or prizes are due; or to uncashed Savings Stamps; and where the sums are transferable to the Commissioners for the Reduction of the National Debt. Total unclaimed monies as at 31 March 2003 were £31.9 million.

The estimated total of unclaimed, including issued but unpresented, redemption monies and dividends on gilts on the latest date for which figures are available was around £45 million.

Dr. Cable: To ask the Chancellor of the Exchequer what discussions he has held with the banks on the use of unclaimed bank accounts; and what discussions he has had with the life insurance and pensions industry on the use of unclaimed policies. [161822]

Ruth Kelly *[holding answer 16 March 2004]*: Ministers and officials regularly meet representatives from the financial services industry and discuss a range of issues, including the use of unclaimed assets.

Dr. Cable: To ask the Chancellor of the Exchequer what estimate he has made of the value of *(a)* unclaimed *(b)* premium bond winnings, (i) state pensions, (ii) national savings bonds and (iii) other unclaimed private savings which represents a public sector liability. [161823]

Ruth Kelly *[holding answer 16 March 2004]*: National Savings and Investments (including Premium Bond Prizes) "Unclaimed monies" in the National Savings and Investments Product Accounts refer to monies where: the product has been redeemed by the Treasury; monthly interest or prizes are due; or to un-cashed Savings Stamps; and where the sums are transferable to the Commissioners for the Reduction of the National Debt. Total unclaimed monies as at 31 March 2003 were £31.9 million made up of:

	£000
British Savings Bonds	2,685
Income Bonds	1,344
Pensioners Guaranteed Income Bonds	17
Premium Bonds	22,085
Savings Stamps	5,781
Total	31,912

Unclaimed State Pensions

Information regarding the value of unclaimed State Pensions is not available. This is because there is no entitlement to a State Pension until a claim is made. Anyone who claims after reaching State Pension age may be able to receive a higher amount of State Pension when they do claim.

Government Stocks (Gilts)

The estimated total of unclaimed redemption money and dividends on gilts is around £31 million.

WORK AND PENSIONS

Benefit Payments (Scotland)

John Thurso: To ask the Secretary of State for Work and Pensions how many people in Scotland were in receipt of *(a)* the minimum income guarantee *(b)* council tax benefit and *(c)* jobseeker's allowance in (i) 2000–01 and (ii) 2001–02. [163127]

Mr. Pond: The information is in the table.

Minimum Income Guarantee, Council Tax Benefit and Jobseeker's Allowance recipients in Scotland in 2001 and 2002

Thousand

	February 2001	*February 2002*
Minimum Income Guarantee	173.9	181
Council Tax benefit	537.4	530.3
Jobseeker's Allowance	109.3	102.7

Notes:

1. Minimum Income Guarantee data refers to benefit units where the claimant and/or their partner are aged 60 or over, and therefore will include some claimants aged under 60.
2. Council Tax Benefit data refers to benefit units, which may be a single person or a couple.
3. Figures have been rounded to the nearest hundred and quoted in thousands.
4. Minimum Income Guarantee figures and Jobseeker's Allowance are based on a 5 per cent. sample; therefore they are subject to sampling variation.
5. Jobseeker's Allowance figures exclude 'nil benefit' cases where claimant is in receipt of NI credits only.
6. Council Tax Benefit figures are based on 100 per cent. counts. Figures for non-responding authorities have been estimated.
7. Council Tax Benefit totals exclude any Second Adult Rebate cases.

John Thurso: To ask the Secretary of State for Work and Pensions how many non-pensioners in Scotland were in receipt of income support in *(a)* 2000–01 and *(b)* 2001–02. [163128]

Mr. Pond: The information is in the table.

Working age Income Support claimants in Scotland in 2001 and 2002

	Thousand
February 2001	238.5
February 2002	237.0

Note:

1. Figures have been rounded to the nearest hundred and quoted in thousands.
2. Based on 5 per cent. sample, therefore subject to sampling variation.

Source:

DWP-IAD Information Centre, 5 per cent. sample

Benefits

Mr. Boswell: To ask the Secretary of State for Work and Pensions if he will list each benefit available in 2004–05 as of right to older people, giving *(a)* the qualifying age and *(b)* the total annual Exchequer costs, broken down by uplift according to advancing age. [164068]

Malcolm Wicks: The information is in the table.

Benefit/entitlement	*Payable from age*	*Qualification*	*2004–05 forecast expenditure (£ million)*
Winter Fuel Payments	60	Non-contributory; non-income-related.	1,740
Pension Credit -Guarantee Credit	60	Dependent on income and capital.	4;940
Pension Credit -Savings Credit	65	Dependent on income and capital.	1,030
Contributory basic State Pension (Category A and Category B)	60 to 65	Depends on National Insurance contributions; non-income-related.	41,190
Christmas Bonus	60 to 65	Non-contributory; depends on receipt of qualifying benefit.	110

Benefit/entitlement	*Payable from age*	*Qualification*	*2004-05 forecast expenditure (£ million)*
Additional £100 payment (one-off Budget 2004 measure)	70	Non-contributory; non-income-related.	430
Free TV licences	75	Non-contributory; non-income-related.	420
80+ Annual Payment (Winter Fuel Payment)	80	Non-contributory; non-income-related.	210
Non-contributory basic State Pension (Category D)	80	Non-contributory; non-income-related. Depends on person: not receiving a State Pension or receiving a contributory State Pension lower than Category D rate at age 80; being resident in GB at age 80; and having lived in GB for a total of 10 years or more in any continuous period of 20 years before or after they reach age 80.	30
Age Addition to basic State Pension	80	Non-contributory; non-income-related.	40

Notes:
1. Expenditure figures are consistent with Budget 2004 forecasts and are for GB benefit expenditure.
2. Expenditure figures are rounded to the nearest £10 million.
3. The breakdown of spending may not sum to published totals due to rounding.
4. The figures include Pension Credit (Savings Credit) payments made to someone under age 65 if their partner is age 65 or over.
5. The basic State Pension is paid to women from age 60 and men from age 65.
6. The Christmas Bonus figure is for amounts paid with State Pension and Pension Credit. The Christmas Bonus can also be paid with other qualifying benefits to younger people.

Benefits Reforms (Scotland)

Mr. Roy: To ask the Secretary of State for Work and Pensions what plans he has to introduce in Scotland piloted reforms to *(a)* incapacity benefit and *(b)* housing benefit. [160253]

Mr. Pond: We are piloting Pathways to Work across Great Britain, a groundbreaking scheme that gives people on Incapacity Benefit access to a comprehensive range of work focused support which is already generating encouraging feedback. This scheme is currently being piloted in three areas including Renfrewshire, and will be extended to a further four areas in April 2004.

The overall strategy for reforming Housing Benefit is to improve administration, promote choice and responsibility, enhance work incentives and reduce levels of fraud and error in the system. As part of our reforms, the Local Housing Allowance, a flat rate allowance based on household locations, family size and income, is being tested in nine pathfinder areas, including Edinburgh; the pathfinder went live on the 9 February 2004 and will run for two years.

Mr. Roy: To ask the Secretary of State for Work and Pensions if he will make a statement on housing benefit reforms in Scotland. [160257]

Chris Pond: The Housing Benefit Reform Programme was launched in October 2002. Building on improvements in the administration of Housing Benefit, the overall aims of the reforms are to promote choice and responsibility, enhance work incentives, and reduce levels of fraud and error.

The first stage was to improve administration and this is well under way. For example, between October 2002 and April 2003 we introduced a streamlined Housing Benefit reclaiming process after short periods of work, similar to the arrangements introduced for Jobseeker's Allowance and Income Support in October 2001. From April 2004, we will remove the need for customers to make a new Housing Benefit claim when moving from benefit into work. Instead, this will be treated as a change in circumstances.

The second stage is restructuring benefit support for people on low incomes. We have now introduced the 'Local Housing Allowance' in nine Pathfinder areas across Great Britain, including one in Edinburgh, which went live on the 9 February 2004. This is a flat rate allowance based on household location, family size and income. There will be a comprehensive and independent evaluation of the reforms.

Child Support Agency

Jon Trickett: To ask the Secretary of State for Work and Pensions how many caseworkers are employed by the Child Support Agency, broken down by region. [162167]

Mr. Pond: The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Doug Smith. He will write to my hon. Friend with the information requested.

Letter from Mike Isaac to Mr. Jon Trickett dated 29 March 2004:

In reply to your recent parliamentary question about the Child Support Agency the Secretary of state promised a substantive reply from the Chief Executive. As he is currently on leave I am replying on his behalf.

You asked the Secretary of State for Work and Pensions, how many caseworkers are employed by the Child Support Agency, broken down by region.

The Agency conducts its business through six business units. Their geographical boundaries are described in the Agency's Business Plan. The Business Plan for 2003/04 was placed in the library of the House of Commons on 29 April 2003. The following staff are employed as caseworkers in each of these business units.

Business Unit	Number of Staff
Scotland and North East	888
Wales and North West	877
Eastern	868
South West	754
Midlands	837
South East	699

Child Tax Credit

Mr. Webb: To ask the Secretary of State for Work and Pensions what correspondence his Department has sent to families relating to the transfer of the child elements of jobseeker's allowance and income support to child tax credit payments; and if he will place copies in the Library. [159702]

Mr. Pond: We have written to all families on Income Support and income-based Jobseeker's Allowance in the last six months, explaining how the transfer of the child elements of their benefit to the Child Tax Credit will affect them.

A copy of the letter is available in the Library.

Company Cars (Child Support)

Bob Russell: To ask the Secretary of State for Work and Pensions (1) if he will amend the regulations for the Child Support Agency so that payments given by firms to staff to enable them to obtain a car for company business are excluded as income when calculating maintenance payments; and if he will make a statement; [162003]

(2) whether the value of a company car provided by firms is counted as income by the Child Support Agency when calculating maintenance payments; and if he will make a statement. [162006]

Mr. Pond: Child Support regulations already provide for payments for expenses which are

"wholly, exclusively and necessarily incurred in the performance of the duties of the employment"

to be disregarded for the purposes of maintenance calculations.

Neither does the value of a company car count as income for such purposes.

Departmental Communications

Matthew Taylor: To ask the Secretary of State for Work and Pensions what the total expenditure on communications for his Department has been in 2003–04, broken down by expenditure on *(a)* Government Information and Communication Service staff and *(b)* other staff, broken down by (i) press officers, (ii) special advisers and (iii) others. [158210]

Maria Eagle: The Department's expenditure on communications staff for 2003–04 is forecast to be £11,476,086. This is broken down as follows:

(a) All GICS staff: £3,982,932

(b) Other staff:

(i) Press Officers £1,501,415 (GICS: £976,388—also included in figure in section a. Non GICS: 525,027)

(ii) Special Advisers. The Special Advisers' Code of Conduct sets out the sort of work a special adviser may undertake on behalf of their Minister. This includes communications activity. Details of the costs of Special Advisers are given on an annual basis. Information for the financial year 2003–04 will be published shortly.

(iii) Others: £6,968,127

"Others" includes all staff working in the Communications teams of DWP, Jobcentre Plus, The Pension Service, Child Support Agency; The Appeals Service and Human Resources. Their work includes: marketing (national and regional); media relations; internal communications; communication standards; information services, ie the Library, Public Enquiry Office and Knowledge Management team; intranet; internet; Planning and Finance and other support staff).

The figures are based on average monthly salary costs for staff working in recognised communication functions. The figures do not cover all of the support staff working to communication staff in the regions as this exact figure is not known. More precise figures are not possible as not all of this information is held centrally and could be obtained only at disproportionate cost.

Departmental Ethnic Minority Employment

Bob Spink: To ask the Secretary of State for Work and Pensions what proportion of civil servants in his Department are of Asian origin. [163681]

Maria Eagle: Based on information provided by those staff who responded to ethnicity surveys 4.2 per cent. of the Department's total staff at 29 February 2004 were of Asian origin.

Participation in the surveys is voluntary.

EU Accession States

Annabelle Ewing: To ask the Secretary of State for Work and Pensions what discussions he had with the European Commission concerning his proposals on the application of the benefit system to citizens of EU accession states working in the UK from 1 May onwards. [161401]

Mr. Pond: There have been no discussions with the EU Commission regarding the application of the benefit system to EU accession state nationals. Each member state is responsible for its own social security legislation and there is no requirement for Ministers to discuss changes with the commission.

Annabelle Ewing: To ask the Secretary of State for Work and Pensions (1) pursuant to the answer of 27 February 2004, *Official Report*, columns 584–85W, on EU accession countries, when legislation will be brought forward on the arrangements governing the entitlement to benefits of citizens of EU accession states; whether it will be primary legislation; and whether such legislation will apply to citizens of EU accession states who are in legal employment in the UK prior to 1 May; [161425]

(2) pursuant to the answer of 27 February 2004, *Official Report*, columns 584–85W, on EU accession countries, what definition of working legally without interruption will be used in relation to the entitlement of citizens of EU accession states to the full range of benefits after 12 months; [161426]

(3) pursuant to the answer of 27 February 2004, *Official Report*, columns 584–85W, on EU accession countries, whether citizens of EU accession states will be entitled to claim *(a)* tax credits and child benefit and *(b)* housing benefit and council tax benefit if they are on low income, from the commencement of their legal employment in the UK. [161427]

Mr. Pond: We intend to lay regulations before Parliament prior to 1 May that will make it a requirement for nationals of Czech Republic, Estonia, Hungary, Latvia, Lithuania, Poland, Slovakia and Slovenia to have the right to reside in the UK in order to claim income-related benefits.

The Home Office will bring forward regulations shortly, regulating access to the UK labour market for EU accession state nationals, which will set out the circumstances under which they will be defined as legally working in the UK.

Workers from the EU accession states who are working legally in the UK may, subject to the normal rules, be eligible for housing benefit, council tax benefit, child benefit and tax credits from the start of their legal employment in the UK.

Local Government Finance

Mr. Hoyle: To ask the Secretary of State for Work and Pensions what grants were awarded to *(a)* Lancashire and *(b)* Chorley by his Department in each of the last three years that fall outside the revenue support grant. [157253]

Mr. Pond: The Department for Work and Pensions pays grants to individual local authorities, rather than the county, therefore there are no figures of funding paid to Lancashire. However, the following table shows payments made in respect of Housing Benefit and Council Tax Benefit administration to all the local authorities within Lancashire, including Chorley.

Payments made in respect of Housing Benefit and Council Tax Benefit administration to local authorities in Lancashire

2001–02

£

Authority	*Housing Benefit*	*Council Tax Benefit*

Note:
Prior to 2003–04, the Department for Work and Pensions distributed half of the available grant for administration costs for Housing Benefit/Council Tax Benefit. The other half was distributed by the Office of the Deputy Prime Minister, National Assembly for Wales and the Scottish Executive. From 2003–04 these two elements were brought together, with DWP distributing the total amount of the grant.
Source:
DWP Data.

Additional payments have been made under the Performance Standards Fund and the Help Fund.

The Performance Standards describe action needed to administer Housing Benefit effectively and securely, and address all aspects of administration. A three year fund of £200 million has been available since April 2003 to help local authorities achieve these standards. The Performance Standards Fund provides substantial help through, for example, investment in recruitment, training and better IT. 254 local authorities have already benefited from the first awards which are worth a total of £47 million. The local authorities range from small districts to large metropolitan councils across England, Scotland and Wales.

Performance Standards Fund

£

Authority	*2002–03*	*2003–04*
Blackburn with Darwen	—	119,488
Blackpool	—	40,833
Lancaster	—	80,257
Rossendale	20,030	244,539
West Lancashire	—	43,357
Wyre	—	117,557

In 2001–02 a Help Fund award of £132,114.00 was made to Pendle, the lead authority for the Lancashire Benefits Consortium. This was a multiple bid with the following authorities: Burnley, Chorley, Fylde, Hyndburn, Lancaster, Preston, Ribble Valley, Rossendale and Wyre.

In 2002–03, Help Fund awards were made to Blackpool of £29,554.40 (this was for two separate bids, one of £3,554.40, and one of £26,000.00), Lancaster was awarded £28,500.00, and Pendle was awarded £35,000.00 (this was a single authority bid).

Blackpool was also awarded a payment of £18,739 in November 2003 to cover the start-up costs incurred as a Standard Local Housing Allowance Pathfinder authority.

Habitual Residence Test

Annabelle Ewing: To ask the Secretary of State for Work and Pensions in what way the habitual residence test for the purposes of claiming benefits on the part of citizens of EU accession states working in the UK from 1 May onwards will differ from the habitual residence test for the purposes of the income tax regime applicable to such workers. [161400]

Mr. Pond: The habitual residence test that is used to determine eligibility for benefits by this Department is unrelated to measures used by the Inland Revenue to determine liability for income tax. There is no habitual residence test for income tax.

Health and Safety at Work

Mr. Jenkins: To ask the Secretary of State for Work and Pensions if he will contribute to activities in relation to Workers Memorial Day on 28 April to help raise awareness of health and safety issues within the workplace. [161234]

Mr. Browne: I agree that as Minister for Work it is important I give my support for International Workers Memorial Day on 28 April.

We must remember and pay tribute to the men and women who have been killed, injured or made ill by work. We should not forget them and the Memorial Day is an opportunity for many people to think about those they have lost. For those of us who are engaged with keeping workers safe and healthy the Workers Memorial Day reminds us of the need to continue improving workplace health and safety.

I will be writing to Brendan Barber, General Secretary of the TUC, in support of the many activities trade unions are organising for the day. The TUC's online 'Book of Remembrance' is an innovative and moving initiative and I commend everybody to read it.

Our continuing aim is, of course, to reduce the number of workers that we remember with sadness.

Incapacity Benefit

Bob Spink: To ask the Secretary of State for Work and Pensions what criteria he will apply to determine whether incapacity benefit needs to be reviewed as part of the Pathway to Work scheme; and if he will make a statement. [162868]

Maria Eagle: The Pathways to Work pilots are intended to provide much greater levels of encouragement and assistance to claimants of incapacity benefits in order to enable greater numbers to realise their aspirations of getting back to work. As part of these pilots we are ensuring the initial Personal Capability Assessment (PCA) is completed in a more timely manner than at present, to fit more appropriately with the work-related support we are offering. However, there are no changes to the nature of the PCA assessment for benefit purposes, the threshold for satisfying the PCA, or the way in which PCA review dates are set.

Bob Spink: To ask the Secretary of State for Work and Pensions what estimate he has made of the number of people from whom incapacity benefit will be removed during the next year; and if he will make a statement. [163553]

Maria Eagle: People may cease to receive Incapacity Benefit (IB) for a number of reasons, including an improvement in their condition or a return to work.

We have made no estimate of the number of people who will cease to be entitled to IB during the next year.

Mr. Goodman: To ask the Secretary of State for Work and Pensions if he will list in relation to incapacity benefit the sub-categories of payment made on mental health grounds. [163692]

Maria Eagle: Entitlement to Incapacity Benefit (IB) is not based on any particular diagnosis; instead, it is based on a functional assessment of how a person's medical condition or disability affects their ability to perform day-to-day activities related to work. There are no sub-categories of IB payment that are related to the claimant's condition.

Jobcentre Plus

Mr. Goodman: To ask the Secretary of State for Work and Pensions whether Jobcentre Plus has an incentive payments system to encourage senior managers to employ more people with disabilities; and if he will make a statement. [163696]

Maria Eagle: Jobcentre Plus is positive about employing disabled people. The Agency, as part of the Department for Work and Pensions, operates a guaranteed interview scheme, and has aspirational targets for the number of disabled people it employs in middle and senior management. Later this year, the Department intends to improve its data on the number of disabled people it employs by re-surveying all our staff. There is no incentive payment system to encourage senior managers to employ more disabled people.

Jobcentre Plus

Hugh Bayley: To ask the Secretary of State for Work and Pensions how many full-time equivalent staff have been employed by *(a)* Jobcentres and *(b)* Jobcentre Plus in each year since 1997; and how many unemployed people were served by those jobcentres in each year since 1997. [162976]

Mr. Browne: The administration of Jobcentre Plus is a matter for the Chief Executive of the Jobcentre Plus, David Anderson. He will write to my hon. Friend.

Letter from David Anderson to Mr. Hugh Bayley, dated 29 March 2004:

As Jobcentre Plus is an Executive Agency, the Secretary of State has asked me to reply to your question concerning how many full-time equivalent staff have been employed by jobcentres and subsequently Jobcentre Plus in each year since 1997; and how many unemployed people were served by those jobcentres in each year since 1997. This is something, which falls within the responsibilities delegated to me as Chief Executive of the Agency.

The information you have asked for can be found in the table below.

Year	*Staff (FTE) at 30 April*	*Unemployed at May*
Employment Service		
1997	31,550	1,562,400
1998	30,796	1,295,800
1999	32,675	1,224,500
2000	32,620	1,067,300
2001	34,110	942,000
Jobcentre Plus		
2002	85,020	918,500
2003	80,170	924,000
2004	81,781 (as at 31 January 2004)	—

Source:
Civil Service Statistics and Nomis

It may be helpful if I explain that Jobcentre Plus came into existence in April 2002, bringing together staff from the Employment Service and part of the Benefits Agency. It deals with both claims and payments of all working age benefits as well as job-finding activities. Data on staff is collected by grade rather than job role and it is not possible to identify accurately the number of staff working in front facing customer service posts from this information.

Partnerships Against Poverty

Mr. Goodman: To ask the Secretary of State for Work and Pensions what assessment he has made of the effectiveness of Partnership against Poverty Scotland in relation to its aims; and if he will make a statement. [163698]

Mr. Pond: The Partnerships Against Poverty Forum for Scotland was established in 2000 with the following terms of reference:

to draw together the DWP Pension Service, local authorities, major voluntary organisations and organisations representing ethnic minority pensioners to evaluate existing work on the take-up of social security benefits;

to consider new initiatives and to help inform the development of a co-ordinated approach to benefit take-up;

to contribute to the development of new business processes, training, forms and leaflets to encourage take-up;

to identify and address barriers to take-up;

to consider which organisations are best placed to lead on take-up initiatives and to consider resourcing of initiatives.

The group normally meets four times a year and has taken an active role in the review and development of claim forms and information leaflets for Minimum Income Guarantee, Housing Benefit and Council Tax Benefit and, most recently, Pension Credit. The group has also been influential in the development of short version application forms and simplified customer service and business processes for older people's services; and in the development of new initiatives to promote benefit take-up. The group have also been positively involved in research into the delivery of services to ethnic minority communities and supportive in the development of policies and strategies to address the issues raised.

All parties involved value the opportunity to work in partnership to develop the most effective solutions to the issue of poverty among older people.

Mr. Goodman: To ask the Secretary of State for Work and Pensions what funding his Department granted to Partnership against Poverty Scotland in each year since 1997; and how many people it employed in each year. [163704]

Mr. Pond: The Partnerships Against Poverty Forum for Scotland was established in 2000 and does not receive any funding from the Department for Work and Pensions (DWP), neither does the group employ any staff.

Administrative support for the group is provided by DWP which also provides refreshments and a location for meetings.

Mr. Goodman: To ask the Secretary of State for Work and Pensions what the aims are of Partnerships Against Poverty England and Wales; what assessment he has made of its effectiveness against those aims; and if he will make a statement. [163702]

Mr. Pond: The Partnerships Against Poverty Forum for England and Wales was established in 2000 with the following terms of reference:

to draw together the DWP Pension Service, local authorities, major voluntary organisations and organisations representing ethnic minority pensioners to evaluate existing work on the take-up of social security benefits;

to consider new initiatives and to help inform the development of a co-ordinated approach to benefit take-up;

to contribute to the development of new business processes, training, forms and leaflets to encourage take-up;

to identify and address barriers to take-up;

to consider which organisations are best placed to lead on take-up initiatives and to consider resourcing of initiatives.

The group normally meets four times a year and has taken an active role in the review and development of claim forms and information leaflets for Minimum Income Guarantee, Housing Benefit and Council Tax Benefit and, most recently, Pension Credit. The group has also been influential in the development of short version application forms and simplified customer service and business processes for older people's services; and in the development of new initiatives to promote benefit take-up.

The group has also been positively involved in research into the delivery of services to ethnic minority communities and supportive in the development of policies and strategies to address the issues raised.

All parties involved value the opportunity to work in partnership to develop the most effective solutions to the issue of poverty among older people.

Mr. Goodman: To ask the Secretary of State for Work and Pensions what funding his Department granted to Partnerships Against Poverty England and Wales in each year since 1997; and how many people it employed in each year. [163705]

Mr. Pond: The Partnerships Against Poverty Forum for England and Wales was established in 2000 and does not receive any funding from the Department for Work and Pensions (DWP), neither does the group employ any staff.

Administrative support for the group is provided by DWP which also provides refreshments and a location for meetings.

Pension Credit

Annabelle Ewing: To ask the Secretary of State for Work and Pensions (1) what requests for resources relate to the administration costs of the pension credit; [164268]

(2) what plans he has to collate information on the cost of administering pension credit. [164269]

Malcolm Wicks: Provision for the administration costs of pension credit is included in Request for Resources 3 of the Department's 2003–04 Supply Estimate, "Combating poverty and promoting security and independence in retirement for today's and tomorrow's pensioners", as amended by the 2003–04 Spring Supplementary Estimate. This is available in the Library.

The Department is developing a resource management system which will include the provision of activity based information. The aim is to implement the system from September 2005 and detailed implementation plans will be produced as part of the development phase of the project. Decisions on whether the activity based information will identify the specific administration costs of pension credit cases will be made as part of the Resource Management Project.

Poverty Threshold

Mr. Nigel Jones: To ask the Secretary of State for Work and Pensions (1) how many *(a)* families and *(b)* children in (i) the UK and (ii) Cheltenham have ceased to live below the poverty threshold since 1997; [164298]

(2) how many *(a)* families and *(b)* children in (i) the UK and (ii) Cheltenham he estimates are living below the poverty threshold. [164299]

Mr. Pond: I refer the hon. Member to the answer I gave to my hon. Friend, the Member for City of York (Hugh Bayley) on 8 January 2004, *Official Report*, column 462W.

Sure Start Maternity Grant

Simon Hughes: To ask the Secretary of State for Work and Pensions how many mothers in Greater London, broken down by borough, have taken up the Sure Start maternity grant. [163762]

Mr. Pond *[holding answer 26 March 2004]:* The information is not available.

Note:

1. Social Fund data is held on the Social Fund Policy, Budget and Management Information System (PBMIS). PBMIS does not hold data broken down by borough or for the Greater London area.

Underoccupation

Ms Oona King: To ask the Secretary of State for Work and Pensions (1) whether he has commissioned a final assessment of the pilot underoccupier incentive scheme in Croydon, Haringey and Newham; [156773]

(2) how many tenants who traded down in *(a)* Croydon, *(b)* Haringey and *(c)* Newham received a social security payment to reduce underoccupation as part of the pilot underoccupier incentive scheme. [156774]

Mr. Pond: The pilot underoccupier incentive scheme was discontinued after the evaluation of the first full year in 2001. No further assessment of the scheme was commissioned.

The evaluation of the first full year of the scheme was published as "Evaluation of Department for Work and Pensions Underoccupier Incentive Scheme" In-House Report No. 99, April 2002. Figures for the number of tenants trading down were included in the report.

Websites

Matthew Taylor: To ask the Secretary of State for Work and Pensions what the cost in *(a)* financial and *(b)* other terms was in (i) each financial year since 1997 and (ii) 2003–04 until the latest date for which figures are available of (A) developing and (B) maintaining (1) his Department's website and (2) each website for which his Department is responsible; and how many (C) unique hosts and (D) hits there were in each month for each website in (iii) each financial year since 1997 and (iv) 2003–04 until the latest date for which numbers are available. [155851]

Maria Eagle: Development for the DWP website, agency and other campaign websites is carried out by the Department's own in-house web team who are responsible for production, management and maintenance of all sites.

Contracted and quantifiable costs are included, where available, in the following information. It is not possible to quantify internal costs for each site.

The department's IT contractor provides hosting of departmental sites, and provision of web hosting services. However, internet services are not accounted for separately and it is not possible to disentangle these costs. Web hosting is included within the quantified maintenance costs for the Jobcentre Plus and Worktrain websites.

The following tables provide a list of all departmental sites showing hits on a monthly basis from January 2003.

Total annual hits for the main departmental sites over the last four years, together with quantifiable development and maintenance costs, are as follows:

Winter Fuel Payment

Simon Hughes: To ask the Secretary of State for Work and Pensions how many and what percentage of senior citizens in *(a)* Greater London and *(b)* each Greater London borough received the winter fuel allowance in each year since its inception. [163725]

Malcolm Wicks: The number of people in Greater London and each Greater London local authority who have received a Winter Fuel Payment since winter 1999–2000 is in the table. Figures for previous years are not available. We are not able to provide an accurate estimate of the percentage of people receiving a Winter Fuel Payment.

Winter Fuel Payment recipients, winter 1999–2000 to 2003–04

Region/Local authority	*1999–2000*	*2000–01*	*Winter 2001–02*	*2002–03*	*2003–04*

Brent	33,105	35,905	36,155	36,670	36,540
Ealing	39,360	42,435	42,475	42,710	42,350
Harrow	33,680	36,765	36,930	37,250	37,215
Hillingdon	38,575	42,015	41,930	42,055	41,710
Hounslow	28,820	31,310	31,320	31,455	31,090
Richmond upon Thames	27,155	29,130	29,000	29,065	28,780

Notes:
1. Numbers are rounded to the nearest five.
2. Please note that these figures for 2003–04 refer only to the main payment run ie they do not include the late payment run figures .We estimate that there are approximately 100,000 people in Great Britain paid via late payment runs (0.8 per cent. of all payments). However, since late payment runs are mainly in respect of non-system cases whose claim had not been received by qualifying week, they are heavily skewed towards men aged 60.

Source:
IAD Information Centre, 100 per cent. sample.

Mr. Drew: To ask the Secretary of State for Work and Pensions how many pensioners in the Stroud constituency have benefited from the winter fuel allowance in each year since its inception. [164168]

Malcolm Wicks: The number of people in the Stroud constituency who have received a Winter Fuel Payment since winter 1999–2000 is in the table. Figures for previous years are not available.

Stroud constituency: winter fuel payment

	Payments made
1999–2000	19,625
2000–01	21,695
2001–02	22,015
2002–03	22,535
2003–04	22,815

Notes:
1. Figures are rounded to the nearest five.
2. Please note that these figures for 2003–04 refer only to the main payment run i.e. they do not include the late payment run figures. We estimate that there are approximately 100,000 people in Great Britain paid via late payment runs (0.8 per cent. of all payments). However, since late payment runs are mainly in respect of non-system cases whose claim had not been received by Qualifying Week, they are heavily skewed towards men aged 60.

Working at Height Regulations

Mr. Don Foster: To ask the Secretary of State for Work and Pensions what representations he has received from mountaineering organisations in relation to the Health and Safety Executive's proposed regulation for working at height; and if he will make a statement. [163422]

Mr. Browne: My right hon. Friend has received 11 letters in the past year with regard to the impact of proposed Work at Height Regulations on outdoor activities, such as climbing, caving, hill walking, and mountaineering. None of these letters were sent by mountaineering organisations, although two of the letters expressed specific concern about how the proposed regulations would impact on mountaineering.

Mr. Don Foster: To ask the Secretary of State for Work and Pensions what research his Department has conducted into the impact of the Health and Safety Executive's proposed regulation for working at height upon *(a)* mountaineering, *(b)* hill walking, *(c)* abseiling, *(d)* rock climbing and *(e)* caving; and if he will make a statement. [163423]

Mr. Browne: HSE has sanctioned research to identify some generic principles for risk assessment and decision-making relating to rope working in mountaineering, caving and similar activities.

However, the regulations are expected to have little impact on these activities where the organisations concerned fully comply with the existing standards and practices laid down by their governing bodies.

Mr. Don Foster: To ask the Secretary of State for Work and Pensions what assessment he has made of the impact of the Health and Safety Executive's proposed regulations for working at height on the rural economy; and if he will make a statement. [163424]

Mr. Browne: While the impact on the rural economy has not been estimated, the Regulatory Impact Assessment for the Work at Height Regulations states that 'the costs per business are only around £100 per year'. However, it is worth noting that falls from height are the second largest factor in work place fatalities in the agricultural sector, resulting in 75 fatalities in the past 10 years, and such accidents damage the viability of rural businesses.

DEPUTY PRIME MINISTER

Mortgages

Bob Spink: To ask the Deputy Prime Minister how many heads of households *(a)* below and *(b)* above retirement age had a mortgage on the latest date for which figures are available. [164205]

Keith Hill: Using data from the Survey of English Housing (SEH) for the first three-quarters of the 2003–04, the estimated number of household reference persons[1] (HRPs) in England that have a mortgage and are *(a)* below retirement age was 8,196,000 (55 per cent. of HRPs in this age group), *(b)* above retirement age was 307,000 (5 per cent. of HRPs in this age group).

[1] The figures provided relate to household reference persons rather than to head of households as in the question because from April 2001 the SEH in common with other Government surveys replaced the traditional concept of the "head of the household" by "household reference person". This is the householder with the highest income. The definition of the household reference person, unlike the old head of household definition, no longer gives automatic priority to male partners.

Balance of Funding Review

Huw Irranca-Davies: To ask the Deputy Prime Minister what assessment has been made as part of the current Balance of Funding Review of the conclusions of the Layfield Committee's report in 1974 concerning a combination of property tax and income tax. [164544]

Phil Hope: The remit of the Balance of Funding Review is to review all aspects of the balance of funding, review the evidence, and look at reform options. Evidence presented by the Chartered Institute of Public Finance and Accountancy to the Review Steering Group on 4 March has looked at many of the practical details of a possible local income tax, including some of the effects of combining it with council tax.

Huw Irranca-Davies: To ask the Deputy Prime Minister what measures have been taken to ensure that the Balance of Funding Review in England and the concurrent review commissioned in Wales by the Welsh Assembly Government co-operate effectively where appropriate. [164545]

Phil Hope: An observer for the Welsh Assembly Government sits at meetings of the Balance of Funding Review in England. The two reviews are sharing material where appropriate.

Huw Irranca-Davies: To ask the Deputy Prime Minister what assessment has been made in the Balance of Funding Review of a local income tax on individuals differentiated by income and property value. [164546]

Phil Hope: The Balance of Funding Review Steering Group has heard evidence on the pros and cons of a number of options for reform raised in its public consultation. It heard from the New Policy Institute on 15 January on possible reforms to council tax, and from the Chartered Institute of Public Finance and Accountancy on 4 March on the introduction of a local income tax.

Car Parking

Mr. Chope: To ask the Deputy Prime Minister when the research on car parking in sustainable environments will be published; and if he will make a statement. [164273]

Yvette Cooper: This research is due to be completed by the end of April. Officials in the Office of the Deputy Prime Minister will then make arrangements for making it publicly available. This report is intended to assist local authorities in setting appropriate standards that can deliver well-designed sustainable residential environments, in both rural and urban areas, as is required by PPG3.

The Office of the Deputy Prime Minister also intends that key messages in this report will form part of the revised guidance on the design and layout of residential streets, which the Office of the Deputy Prime Minister and Department for Transport will jointly produce.

Correspondence

Mr. Heath: To ask the Deputy Prime Minister if he will place in the Library his letter to the chairman of the Electoral Commission dated 22 March. [164341]

Mr. Raynsford: A copy of the letter was placed in the Library of both Houses on Thursday 25 March 2004.

Council Houses

Mr. Alan Campbell: To ask the Deputy Prime Minister how many empty council house properties there are in North Tyneside. [164415]

Keith Hill: The position on empty council houses in North Tyneside as at week ending 21 March 2004 is as follows.

Department-Sponsored Bodies

Mr. Edward Davey: To ask the Deputy Prime Minister what the *(a)* total budget, *(b)* funding from his Department, *(c)* administration budget and *(d)* staff cost to his Department for the review of the needs indices used in the allocation of housing capital resources to local authorities and registered social landlords were for financial years (i) 2002–03 and (ii) 2003–04; and if he will make a statement on the (A) current and (B) future work of the review. [163637]

Keith Hill: The staff and other costs of the regular updating and periodic review of the needs indices used in the allocation of housing capital resources are not identified separately from other activity on allocation of housing capital resources. The Office of the Deputy Prime Minister will be looking at the future role and development of these indices in the 2004 Spending Review.

Hereford and Worcester Fire Authority

Mr. Luff: To ask the Deputy Prime Minister what his estimate is of the effective increase in the Hereford and Worcester Fire Authority's precept for the next financial year; and if he will cap the authority. [164243]

Mr. Raynsford: Alternative notional amounts for the 2003–04 budgets of authorities affected by combined fire authorities precepting for the first time in 2004–05 were laid in Parliament on 25 March in the "Limitation of Council Tax and Precepts (Alternative Notional Amounts) Report (England) 2004/05". The report is subject to the approval of Parliament.

In the case of the Hereford and Worcester Fire Authority, the alternative notional amount shown in the draft report equals the figure shown in "Fire Service Circular 7/2004", issued on 24 February 2004. Circular 7/2004 also stated the corresponding indicative Band D council tax for the authority for 2003–04 as £46.54.

The Band D council tax set by the Hereford and Worcester Fire Authority for 2004–05 is £60.21. This was published by the Office of the Deputy Prime Minister on 25 March in Table 2 of "News Release 2004/0069" at: http://www.local.odpm.gov.uk/finance/ctax/ctax045.htm

We need to consider the 2004–05 budget information that we have received from local authorities before taking decisions on capping. We aim to notify authorities that may be in line for capping by the end of April.

Homeless People

Bob Spink: To ask the Deputy Prime Minister how many people in London were *(a)* rough sleepers, *(b)* sleeping in hostels and *(c)* in homeless accommodation in the last period for which information is available. [163523]

Yvette Cooper: The latest local authority Housing Investment Programme returns for spring 2003 show that there were 267 rough sleepers in London.

The number of people sleeping in hostels is not collected centrally and could be provided only at disproportionate cost. However, latest information shows that there are around 19,000 hostel bed spaces in London where typically there is 95 per cent. occupancy on any single night.

The latest statutory homelessness statistical returns for December 2003 show that in London there were 57,410 homeless households in all forms of temporary accommodation.

House Buyers (Protection)

Mr. Todd: To ask the Deputy Prime Minister what plans he has to increase the protection afforded to purchasers of new homes; and if he will make a statement. [163914]

Keith Hill: Almost all new home buyers have protection under new home warranty schemes, in addition to any other contractual, statutory or common law rights they may have. The Home Information Pack will ensure that prospective buyers of new homes have good information on such matters as contract terms and warranty cover before they decide whether to go ahead with the purchase.

In addition, the final report of the Barker Review of Housing Supply sets out a series of challenging reform proposals to the house building industry to increase customer satisfaction, tackle skills shortages, increase the flow of new houses on to the market and improve design and the use of modern methods of construction. The Government and the industry must work together in partnership to deliver these reforms. The Government will review progress made by summer 2005.

Housing

Mr. Austin Mitchell: To ask the Deputy Prime Minister what studies his Department is conducting into tenant satisfaction *(a)* in council housing, *(b)* in registered social landlord housing and *(c)* (i) before

and (ii) after transfer in large scale voluntary transfers; and if he will publish the figures for tenant satisfaction. [162713]

Keith Hill: The Office of the Deputy Prime Minister has published data for tenant satisfaction *(a)* in council housing, *(b)* in registered social landlord housing and *(c)* (i) before and (ii) after transfer in large scale voluntary transfers.

The data has been derived from the Survey of English Housing and is available on the Office of the Deputy Prime Minister's website.

The path to reach the Survey of English Housing section of the Office of the Deputy Prime Minister's website for data on tenant satisfaction in *(a)* council housing and *(b)* registered social landlord housing is:

Home > Housing > Housing research > Housing surveys > Survey of English Housing > Live tables > Satisfaction with landlord > Tables

The path to reach the Survey of English Housing section of the Office of the Deputy Prime Minister's website for data on tenant satisfaction in (i) before and (ii) after transfer in large scale voluntary transfers is:

Home > Housing > Housing research > Housing surveys > Survey of English Housing > Live tables > Social renters > Tables S407, S408 and S455.

Mr. Austin Mitchell: To ask the Deputy Prime Minister how many tenants' ballots on housing transfer have been held since 1999; where each ballot was held (1) what percentage of tenants voted; and what the percentage *(a)* for and *(b)* against (i) large scale voluntary transfer and (ii) arm's length management organisation was in each case; [162767]

(2) what percentage of tenants voted in each of the ballots on large scale voluntary transfer and arm's length management since 1999; and in each case, what the percentage voting in favour was as a proportion of the total number of tenants eligible. [162934]

Keith Hill: There have been 133 tenants ballots for transfer and 25 tenants ballots for Arms Length Management (ALMO) since 1999. Details are tabled.

Large scale voluntary transfers since 1999

Local Government Finance

Mr. Andrew Turner: To ask the Deputy Prime Minister pursuant to his answer of 11 March 2004, *Official Report*, column 1710W, on local government finance (Isle of Wight), what his grant to the Isle of Wight Council was for 2003–04; and what his grant would have been for *(a)* 2003–04 and *(b)* 2004–05 had he not accepted the Isle of Wight's argument about the New Earnings Survey sample size. [164435]

Mr. Raynsford: The Isle of Wight Council received £96.318 million in formulae grant in 2003–04.

At the 2003–04 provisional settlement, the Office of the Deputy Prime Minister calculated the area cost adjustment (ACA) for the Isle of Wight separately from that of Hampshire. As a result the Isle of Wight had an ACA factor of one. Had the Office of the Deputy Prime Minister continued to calculate the ACA in this way for the 2003–04 and 2004–05 settlements, it is likely that the Island would have continued to receive an ACA factor of one. And correspondingly they would have received less revenue support grant in 2003–04 and 2004–05.

However, precisely quantifying the effect of changing the ACA used in the 2003–04 and 2004–05 settlement can be done only at disproportionate cost. This is because it would require the re-calculation of the 2003–04 and 2004–05 ACA and the 2003–04 and 2004–05 settlements including the floor and ceiling calculations. This is a lengthy process.

Mr. Pound: To ask the Deputy Prime Minister what assessment he has made in the balance of funding review of the impact on London local authorities of a local income tax. [164461]

Phil Hope: The Balance of Funding Review Steering Group heard evidence from the Chartered Institute of Public Finance and Accountancy on 4 March on the pros and cons of a local income tax. Their evidence included some assessment of the effect of different models of local income tax on different parts of the country.

Local Government Grants

Matthew Green: To ask the Deputy Prime Minister on how many occasions he has rejected a local authority's application to introduce a houses in multiple occupation control registration scheme which did not comply with the model scheme requirements. [162717]

Keith Hill: Following the 1999 consultation paper on the Government's proposal for licensing of houses in multiple occupation the Department agreed a number of variations that could be made to the model scheme to reflect its proposals for licensing of HMOs. No applications have been received which do not conform to the variations and accordingly no schemes have been refused.

Miss McIntosh: To ask the Deputy Prime Minister what the safety net on losses on benefit subsidy is for Harrogate borough council in financial year 2004–05. [163039]

Mr. Pond: I have been asked to reply.

The information is not available.

Under the new system it is not possible to predict exactly how much local authorities will receive in housing benefit/council tax benefit subsidy. There are a number of variables that will determine the outcome and these will not be known until the end of 2004–05. However, if a local authority's final housing benefit/council tax benefit subsidy for 2004–05 shows it to be disadvantaged by more than 0.5 per cent. of the amount they would otherwise have received under the previous system, its loss in that year would be limited to 0.5 per cent.

Local Government Pension Scheme

Mr. Todd: To ask the Deputy Prime Minister pursuant to his answer of 9 March 2004, *Official Report*, column 144W, on the Local Government Pension Scheme, whether revisions to the Local Government Pension Scheme will facilitate early retirement being used as a mechanism to facilitate reorganisation. [163958]

Phil Hope: The proposed revisions to the Local Government Pension Scheme do not remove the capacity of local authority employers to make their own business decisions about early retirements when reorganisations occur. In doing so, they will need to take into account any resultant pension costs as exemplified by the appropriate pension fund authority, while at the same time ensuring their actions do not discriminate against older workers.

Kevin Brennan: To ask the Deputy Prime Minister when he will issue guidance and advice to local authorities on changes in the rules on part-time employees in the Local Government Pension Scheme. [164279]

Phil Hope: I refer my hon. Friend to the answer given to the hon. Member for Tewkesbury on 8 March 2004, *Official Report*, column 1224W. The Local Government Pensions Committee of the Employers' Organisation for Local Government have now issued the further guidance referred to in that answer. Their Circular 152, dated March 2004, is available on their website at: http://www.lg-employers.gov.uk/documents/pensions/152march04.doc

Mobile Phone Masts

Mr. Gardiner: To ask the Deputy Prime Minister (1) what penalties there are for mobile phone companies that fail to consult on the *(a)* erection and *(b)* upgrading of mobile phone masts; [163357]

(2) what requirements there are for mobile phone companies to consult residents when mobile phone masts near their homes are upgraded. [163359]

Keith Hill: The statutory requirements on a local planning authority to consult once a planning application or application for prior approval has been submitted are set out in the Town and Country Planning (General Development Procedure) Order 1995 and Town and Country Planning (General Permitted Development Order) 1995 respectively.

Planning Policy Guidance Note 8 (revised) on Telecommunications together with the Code of Best Practice on Mobile Phone Network Development set out guidance and best practice for consultation on mobile mast development.

Both documents encourage the operators to undertake consultation and the traffic light model set out in the code is used to help develop a consultation plan for each proposed site. The operators have committed themselves to doing this and to independent monitoring of their implementation of this commitment.

New Deal for Communities

Mr. Edward Davey: To ask the Deputy Prime Minister which consultants have been used by *(a)* his Department and *(b)* each New Deal for Communities partnership on the New Deal for Communities in each financial year since 1999–2000; and at what cost. [160345]

Yvette Cooper: A list of consultants 35 New Deal for Communities (NDC) Partnerships have used from the period 1999–2000 to date has been made available in the Library of the House. Unfortunately due to the time restriction we were unable to obtain data for four NDC partnerships, I will write to the hon. Member once the information is collated and wall make a copy of the letter in the Library.

The spreadsheet also contains information on the consultants that the Office of the Deputy Prime Minister NDC Programme team have used from the period of 2002–2003 to date. Due to changes in the departmental accounting computer system the information for years prior to 2002–2003 is not readily available.

Public Bodies (Expenditure)

Matthew Green: To ask the Deputy Prime Minister if he will list the *(a)* total budget, *(b)* departmental funding and *(c)* administration costs for (i) rent assessment panels, (ii) The Ordnance Survey, (iii) The Standards Board for England, (iv) The Housing Corporation, (v) Housing Action Trust, (vi) The Boundary Commission for England, (vii) The Boundary Commission for Wales, (viii) The Property Advisory Group, (ix) The Audit Commission, (x) English Partnerships, (xi) The Rent Service, (xii) The Advisory Panel on Standards for the Planning Inspectorate, (xiii) Queen Elizabeth II Conference Centre, (xiv) The Fire Service College, (xv) The Planning Inspectorate, (xvi) The Advisory Panel on Beacon Councils, (xvii) The Building Regulations Advisory Committee, (xviii) The Community Forum, (xix) The Residential Property Advisory Group and (xx) Valuation Tribunal for this financial year. [150099]

Yvette Cooper: For 2003–04, figures are tabled as follows:

£

	(a) Total budget	*(b) Departmental funding*	*(c) Administration costs*
(i) Rent Assessment Panels	9,720,000	9,720,000	[1]7,288,000
(ii) Ordnance Survey	111,100,000	Nil	Not defined within total budget
(iii) Standards Board for England	8,944,000	8,944,000	7,891,000
(iv) Housing Corporation	1,898,900,000	1,897,800,000	38,200,000
(v) Housing Action Trusts	101,398,345	76,268,000	12,021,217
(vi) Boundary Commission for England	2,086,000	2,086,000	1,208,000
(vii) Boundary Commission for Wales	314,000	314,000	192,000
(x) English Partnerships	136,108,000	[2]235,000,000	29,100,000
(xi) The Rent Services[3]	46,100,000	46,100,000	46,100,000
(xiii) Queen Elizabeth II Conference Centre	8,060,000	Nil	Not defined within total budget
(xiv) Fire Service College	20,000,000	7,634,000	Not defined within total budget
(xv) Planning Inspectorate[4]	51,737,000	41,759,000	48,976,000
(xx) Valuation Tribunals	10,793,000	10,793,000	10,793,000

[1] Includes elements for travel and subsistence paid to tribunal members and cost of hire of hearing rooms.
[2] English Partnerships' total budget figure is the Departmental Expenditure Limit (DEL) which applies to accrued net expenditure for the year. Under resource accounting policy, site acquisitions do not score against DEL when purchased but at the time of disposal. Departmental funding by way of grant-in-aid provides EP with the funds to acquire land which is held on the balance sheet but will not score in DEL until the time of disposal.
[3] All figures for TRS include £5.510 million capital
[4] All figures for PINS include £4.119 million capital.

On (ix), the Audit Commission, the Controller of Audit will write to you separately. The remaining bodies are all classified as advisory NDPBs: (viii) the Property Advisory Group, (xii) the Advisory Panel on Standards for the Planning Inspectorate, (xvi) the Advisory Panel on Beacon Councils, (xvii) the Building Regulations Advisory Committee, (xviii) the Community Forum, and (xix) the Residential Property Advisory Group do not receive Government funding other than the internal costs to the Office of the Deputy Prime Minister of sponsoring these bodies.

Regional Assemblies

Ann Winterton: To ask the Deputy Prime Minister (1) whether staff from county and district councils in the regions of the north west, north east and Yorkshire and the Humber would be entitled to redundancy if regional assemblies were established and they were offered *(a)* no new employment, *(b)* a job in the new unitary authorities and *(c)* a job in the regional assembly; [163706]

(2) whether staff displaced from existing local authorities offered new placements would be given compensation for relocation following the formation of regional assemblies. [163707]

Mr. Raynsford: The Office of the Deputy Prime Minister is currently considering with the Local Government Association, local government employers, trade unions and other key stakeholders potential arrangements for local government reorganisation. In the light of this work the Office of the Deputy Prime Minister will decide what arrangements to adopt for any reorganisation following the referendum this autumn.

Ann Winterton: To ask the Deputy Prime Minister what revenue raising powers the proposed regional assemblies for *(a)* the North West, *(b)* the North East and *(c)* Yorkshire and the Humber would have. [163709]

Mr. Raynsford: The revenue raising powers of elected regional assemblies were set out in Chapter 5 of the White Paper "Your Region, Your Choice: Revitalising the English Regions", published in May 2002 (Cm 5511).

In summary, the White Paper states that assemblies will receive a general grant to meet most of their direct running costs. But the Office of the Deputy Prime Minister believe that an assembly should be able to raise some extra money within the region if believes that this is desirable. Thus assemblies will be able to raise additional funds through a precept on the council tax. The money will be collected on behalf of the assembly by local authorities in the region as part of their existing arrangements for collecting council tax. As is the case for London, an assembly will not be able to vary non-domestic rates or affect business taxes.

The contribution of council tax-payers to the running costs of the assembly would be equivalent to around 5p per week (£2.60 a year) for a Band D council tax-payer in any region.

An elected assembly would be allowed to set a higher charge to fund additional spending if it considered this desirable. Assemblies will be accountable to their tax-payers for the precept levels that they set, however, the Office of the Deputy Prime Minister will have a reserve power to limit this amount through arrangements comparable to the existing local authority capping regime.

Shell Haven Port

Bob Spink: To ask the Deputy Prime Minister (1) if he will make it his policy to impose a condition of approval for the Shell Haven Port application of a heritage fund to enable the local fishing industry to restart at a future date if the development goes ahead; [162193]

(2) if he will make if his policy to impose a condition of approval for the Shell Haven Port application that no dredging will take place at low water during the March to June spawning season. [162196]

Mr. Jamieson: I have been asked to reply.

The applications for a new container port at London Gateway (formerly Shell Haven) are subject to the statutory planning approvals process. The inspector's report of the Public Inquiry held into the London Gateway proposals is now before Ministers for consideration. I cannot therefore make any further comment.

HOME DEPARTMENT

Coroners' Inquiries

Miss McIntosh: To ask the Secretary of State for the Home Department pursuant to his answer of 10 March 2004, *Official Report*, columns 1571–72W, on coroners' inquiries, what the average length of time in bringing cases before the coroners' courts in *(a)* North Yorkshire, *(b)* East Yorkshire, *(c)* West Yorkshire and *(d)* South Yorkshire was in (i) 1997 and (ii) 2003. [161972]

Paul Goggins: In 2002, the latest year for which figures are available, the average time taken to process an inquest in the four areas mentioned, from the time the death was reported to the coroner until the time the inquest was concluded, is calculated to be just under four and a half months. On the same basis, the average time taken in those four areas for the coroner to issue a certificate permitting a body to be released for burial or other disposal, in cases where an inquest was subsequently held, amounted to six days.

In 1997, in the same areas, the average time taken to process an inquest was just over three months, and to issue a certificate, five and a quarter days.

Drugs

Mr. Jenkins: To ask the Secretary of State for the Home Department what the cost to date is of *(a)* setting up, *(b)* publicising and *(c)* running the Talk to FRANK service. [160066]

Caroline Flint: The FRANK marketing and advertising budget is £3 million per annum over three years (April 2002-March 2005) and is jointly funded by Home Office and Department of Health. The budget covers costs for: media, production of advertising and support literature, research and evaluation of the campaign, website development, PR and partnership marketing. For 2003–04 an additional £1.14 million was added to the publicity budget. The service also attracts running costs covered under a wider Department of Health contract for four helplines. An estimate of the proportion of total contract costs (£1.8 million) attributable to FRANK is not currently available.

Escort Contractors

Mr. Oaten: To ask the Secretary of State for the Home Department pursuant to his answer of 15 March 2004, *Official Report*, column 130W, on escort contractors, what the equivalent figure was for each of the last 10 years. [163327]

Paul Goggins: The eight court escort contracts and the national contract for the movement of prisoners between prisons were introduced on a phased basis between April 1993 and April 1999; therefore complete national records are available only from April 1999.

These records show that Prison Service and contractors' vehicles covered the following approximate distances:

	[1] *Distance*
1999	17,300,000
2000	22,400,000
2001	22,800,000
2002	23,100,000
2003	22700,000

[1] Approximate

In addition, around 3,750,000 miles were covered between January and February 2004.

Firearms

Paddy Tipping: To ask the Secretary of State for the Home Department what arrangements he put in place to allow the pistol shooting events at the last Commonwealth Games to take place within the law. [163012]

Caroline Flint: The National Rifle Association, who hosted the shooting events at Bisley, provided details of every team taking part in the pistol shooting events and of every official who would have access to pistols. Specific authorities were then issued by the Home Office under section 5 of the Firearms Act 1968. The authorities were dated so as to come into force one week before the commencement of the Games and to expire 10 days after the close.

The pistols were brought into the country through Heathrow airport, where they were put into secure storage. They were then taken by section 5 authorised carrier to Bisley where they were placed in the secure armoury. The pistols were allowed out of the armoury only for the necessary practice and competition and returned to the armoury immediately after the shoot. No pistol was allowed to be taken off the site.

At the closing of the Games, all the pistols were taken out of the country in the same way they had arrived.

Paddy Tipping: To ask the Secretary of State for the Home Department what assessment he has made of the safety record of shooting sports in England and Wales. [163110]

Caroline Flint: No information is collated centrally in relation to accidents or injuries resulting specifically from the use of firearms in connection with shooting sports.

Paddy Tipping: To ask the Secretary of State for the Home Department (1) what discussions he had with the police regarding the combining of section 1 and section 2 firearms on the same certificate; [162998]

(2) what representations he has received calling for *(a)* .22 gallery rifles to be licensed and *(b)* the introduction of (i) individual testing in the use of firearms and (ii) hunting examinations before the issue of a firearms certificate in England and Wales; [163007]

(3) what studies his Department has conducted into the difference in the numbers of fatalities and injuries from firearms incidents in those countries that have *(a)* individual testing in the use of firearms and *(b)* hunting examinations and those that do not. [163008]

Caroline Flint: There have been no formal discussions or representations on these issues. There will be an opportunity for all interested parties to comment on these and all other firearms-related issues in responding to the consultation paper we will be issuing shortly on the review of firearms legislation. No specific studies have been undertaken by the Home Office of practices in other countries relating to competency testing and hunting examinations.

Paddy Tipping: To ask the Secretary of State for the Home Department what his estimate is of the *(a)* efficiency and *(b)* practicality of the current arrangements for licensing section 2 firearms. [162999]

Caroline Flint: We shall be seeking views on this as part of the review of firearms legislation. A consultation paper will be issued shortly.

Paddy Tipping: To ask the Secretary of State for the Home Department (1) what information he has collated on *(a)* the time taken by the police and *(b)* the cost incurred to process (i) a firearms certificate and (ii) a shotgun certificate; [163000]

(2) what *(a)* qualifications and *(b)* experience are required by the police of officers serving in firearms licensing departments; [163001]

(3) what training is offered *(a)* before and *(b)* during posting to firearms inquiry officers; [163002]

(4) what plans he has to ensure the efficiency of the next round of renewals of shotgun and firearms certificates in 2004; [163049]

(5) what information he has collated on the plans being made by each constabulary firearms licensing department for the next round of renewals of shotgun and firearms certificates in 2004. [163050]

Caroline Flint: Police forces are responsible under the Firearms Acts for issuing firearms and shotgun certificates. It is for individual chief officers to establish targets for dealing with applications and for ensuring that staff are properly selected and trained for the tasks they carry out.

The average times taken for each force to undertake these functions are not centrally recorded but we understand that most forces would aim to deal with most applications within four to eight weeks.

As with other respects of police administration, firearms licensing is subject to monitoring by Her Majesty's Inspectorate of Constabulary. Forces are required to carry out a five year rolling programme of best value reviews of all areas of business.

Paddy Tipping: To ask the Secretary of State for the Home Department how many applicants denied section 1 and section 2 certificates have appealed to the courts against the decision of the chief officer of each constabulary in England and Wales in each of the last 10 years for which figures are available; and how many appeals were successful. [163003]

Caroline Flint: Firearms licensing statistics for England and Wales are published annually in Home Office statistical bulletins, copies of which are placed in the Library of the House. Details are given of applications which are refused but no information is available on the outcome of any subsequent appeals.

Court statistics provide some information on the volume of appeals but I understand from the Department for Constitutional Affairs that these data are only complete back to 1998 and can only be provided on a court rather than police force basis. Area figures are as follows:

Volume of appeals against revoked firearms licences

Area (by Crown court)	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*
Avon and Somerset	7	7	8	7	9	3
Bedfordshire	1	1	2	1	1	3
Cambridgeshire	4	2	7	1	3	1
Cheshire	11	16	7	1	2	0
Cleveland	4	5	5	3	0	1
Cumbria	2	0	2	0	2	0
Derbyshire	8	8	5	1	2	4
Devon and Cornwall	8	11	8	2	5	10
Dorset	5	2	0	2	0	0
Durham	2	5	5	2	1	0
Dyfed Powys	15	32	16	14	22	15
Essex	17	8	7	4	12	8
Gloucestershire	5	1	3	0	4	0
Greater London	12	11	9	5	9	6
Greater Manchester	4	0	1	2	2	3
Hampshire and Isle of Wight	16	8	12	13	7	14
Hertfordshire	3	5	1	2	0	0
Humberside	2	3	7	6	3	4
Kent	7	3	4	0	0	2
Lancashire	9	4	10	4	7	3
Leicestershire	7	2	2	1	2	2
Lincolnshire	3	1	3	4	0	3
Merseyside	1	2	3	3	0	1
Norfolk	9	16	8	7	2	0
North Wales	1	4	5	5	3	3
North Yorkshire	6	3	3	0	1	0
Northamptonshire	4	3	3	4	5	2
Northumbria	9	13	16	2	5	4
Nottinghamshire	1	3	4	3	2	1
South Wales and Gwent	21	12	10	2	9	2
South Yorkshire	3	5	1	2	3	5
Staffordshire	5	1	0	4	2	2
Suffolk	8	7	6	4	4	6
Surrey	4	2	7	3	2	7
Sussex	8	9	8	9	2	6
Thames Valley	7	3	7	5	3	5
Warwickshire	0	1	5	0	2	1
West Mercia	2	4	2	1	0	2
West Midlands	16	3	4	3	2	4
West Yorkshire	14	7	5	3	4	1
Wiltshire	1	2	3	6	2	0
England and Wales	272	235	224	141	146	134

These figures relate only to those cases where the appeal is clearly against refusal to grant a firearm or shot gun certificate. Other cases listed only as 'refusal of certificate' have not been counted since these might refer to taxi or entertainment licences.

Paddy Tipping: To ask the Secretary of State for the Home Department (1) how many .22 gallery rifles he estimates are in circulation in England and Wales; [163004]

(2) how many .22 shooting galleries he estimates there are in England and Wales; [163005]

(3) any *(a)* fatalities and *(b)* injuries were caused by the use of .22 gallery rifles in England and Wales in each of the last 10 years for which figures are available. [163006]

Caroline Flint: The information requested is not available centrally. We will be seeking views on this aspect of shooting as part of the review of firearms legislation.

Paddy Tipping: To ask the Secretary of State for the Home Department how many Home Office approved target shooting clubs there are in the Lancashire constabulary area. [163009]

Caroline Flint: There are 20 target shooting clubs currently approved by the Secretary of State in the Lancashire constabulary area.

Paddy Tipping: To ask the Secretary of State for the Home Department how many applicants have applied to join Home Office approved target shooting clubs in each year since 1998; and how many have been successful. [163010]

Caroline Flint: The information requested is not kept centrally.

Mr. Salter: To ask the Secretary of State for the Home Department what his policy is on liaison between the Firearms Consultative Committee and a parallel body established in Northern Ireland. [161765]

Caroline Flint: As my hon. Friend will be aware, the Firearms Consultative Committee has ceased to exist. The extent to which it sought to liaise with Northern Ireland, which has its own separate legislation, would have been a matter for the Committee to determine.

Forensic Science

Bob Spink: To ask the Secretary of State for the Home Department if he will meet a small contingent from the Privatisation of Forensic Science lobby of Parliament on 30 March. [163544]

Ms Blears: I would be pleased to meet the hon. Member and his colleagues, but it would be helpful if we could agree to meet once I have had opportunity to consider the outline business case currently being prepared by my officials.

Information Technology

Mr. Oaten: To ask the Secretary of State for the Home Department pursuant to his answer of 5 March 2004, *Official Report*, column 1175W, on information technology, how many of the cases cited in the table related to *(a)* breaches of data protection law and *(b)* pornography. [162436]

Paul Goggins: None of the cases cited involved breaches of data protection laws. Of the two cases in 2002 involving Prison Service staff, one resulted in a member of staff being dismissed for downloading material believed to be pornographic. The other cases cited involved inappropriate use of e-mail and/or browsing inappropriate internet sites.

Intensive Supervision and Surveillance Programme

Mr. Keith Bradley: To ask the Secretary of State for the Home Department when the evaluation report of the Intensive Supervision and Surveillance Programme undertaken by Oxford University will be published. [162605]

Paul Goggins: We expect the report to be ready for publication, following peer review, in the summer.

Juvenile Crime

Bob Spink: To ask the Secretary of State for the Home Department what proportion of recorded crime was committed by persons aged *(a)* 15 to 18 years and *(b)* 15 to 21 years in each of the last three years. [163647]

Paul Goggins: The requested information is not available centrally.

Prisons

Mr. Hoyle: To ask the Secretary of State for the Home Department if he will make a statement on the effects of funding of the Lancashire Probation Service on the funding of the weekend custody suite at Kirkham Prison. [161613]

Paul Goggins: There are no financial implications for the Lancashire Probation Service as a consequence of the introduction of intermittent custody pilots at Kirkham Prison. The Lancashire Probation Service does second three staff to Kirkham Prison, but the cost of these is fully reimbursed by the Prison Service.

Mrs. Gillan: To ask the Secretary of State for the Home Department if he will list the firms which are being invited to bid to *(a)* build and *(b)* run prisons. [162629]

Paul Goggins *[holding answer 22 March 2004]*: There are currently no plans for competitions to build or to run prisons. Should such a competition be launched, this would be announced in a notice in the Official Journal of the European Union setting out details of the relevant contract and inviting expressions of interest. Those firms known to be likely to have an interest in the competition would be notified of the announcement. It is for these firms and any other interested firms to decide whether to bid.

Mr. Hoyle: To ask the Secretary of State for the Home Department how many prisoners have been assaulted in *(a)* privately and *(b)* publicly run prisons in each of the last three years. [161604]

Paul Goggins: The assaults data the Prison Service collects is an overall total for all assaults within a prison, it does not breakdown into assaults on prisoners, staff or others. However our current Key Performance Indicator for Serious Assaults, which offers a better indication of prisoner violence, has been given. This data is collected in a manner which does not identify cases of multiple or repeat assault on individual prisoners.

	Number of serious assaults on prisoners	*Average prisoner population*	*Rate of serious assaults as a proportion of prisoner population (percentage)*
Contracted prisons (privately operated)			
2001	50	5,511	0.9
2002	54	6,615	0.8
2003	74	6,713	1.1
Public prisons			
2001	447	60,790	0.7
2002	521	64,163	0.8
2003	687	66,325	1.0

Mr. Hoyle: To ask the Secretary of State for the Home Department how many prisoners have escaped from *(a)* privately and *(b)* publicly run prisons in each of the last three years. [161605]

Paul Goggins: The information requested is as follows.

Contracted prisons (privately operated)	*Number of serious escapes from prisons*
2001	3
2002	0
2003	1

Public prisons	*Number of escapes from prisons*
2001	5
2002	10
2003	12

Mr. Hoyle: To ask the Secretary of State for the Home Department what the average ratio of prisoners to wardens was in *(a)* privately and *(b)* publicly run prisons in the last year for which figures are available, broken down by category (i) A, (ii) B and (iii) C. [161606]

Paul Goggins: Contracted prisons (privately operated).

Category	Average prisoner population-2003	Prison custody officers[1]	Ratio
A			
B	6060	1531	3.96
C	340	95	3.58

[1] Prison Custody Officers are the equivalent of the public prisons Prison Officer

Public prisons

Category	Average prisoner population	Unified officers	Ratio
A	6272	3967	1.58
B	3406	1184	2.88
C	19001	5092	3.73

Mr. Maude: To ask the Secretary of State for the Home Department how many *(a)* sentenced prisoners and *(b)* remand prisoners were in employment prior to entering prison in each of the last 10 years. [163285]

Paul Goggins: The available information is from large-scale resettlement surveys of sentenced prisoners nearing release, conducted in November-December 2001 and March-April 2003. In both surveys 33 per cent. of prisoners had been in employment, training or education in the four weeks before entering custody. Comparable information for preceding years is not available.

Mr. Maude: To ask the Secretary of State for the Home Department how many prisoners serving *(a)* short-term and *(b)* long-term sentences had employment upon release in each of the last 10 years. [163286]

Paul Goggins: The available information is from large-scale resettlement surveys of sentenced prisoners nearing release, conducted in November-December 2001 and March-April 2003. In both surveys 30 per cent. of prisoners had employment, training or education arranged on release. Comparable information for preceding years is not available.

Mr. Maude: To ask the Secretary of State for the Home Department how many *(a)* short-term and *(b)* long-term prisoners were released in England and Wales without overnight accommodation in each of the last 10 years. [163288]

Paul Goggins: The available information, from large-scale resettlement surveys of sentenced prisoners nearing release conducted in November–December 2001 and March–April 2003, is contained in the following table. Comparable information for preceding years is not available.

Percentage

	Resettlement survey	
	2001	2003
Under 12 months	34	32
12 months to less than four years	35	25
Four years or over	24	23
Total	33	29

Mr. Maude: To ask the Secretary of State for the Home Department how many and what percentage of prisoners in England and Wales used prison gymnasium and sports facilities in each of the last 10 years. [163278]

Paul Goggins: The precise information that the right hon. Member seeks is not available. However, information is available on the amount of time that prisoners spend on physical education. This information is available for the last four years only and is set out in the table.

	Average weekly number of prisoners undertaking physical education	Percentage of prisoners undertaking physical education
2002–03	14,047	20.0
2001–02	13,235	19.9
2000–01	13,541	21.2
1999–2000	11,198	17.4

Probation

Mr. Oaten: To ask the Secretary of State for the Home Department what targets were set for the National Probation Service for the *(a)* current and *(b)* last financial year and to what extent they have been achieved. [161169]

Paul Goggins: The National Probation Service were set targets in eight key areas in 2002–03. The targets relating to Drug Treatment and Testing Orders (DTTOs) and the number starting basic skills courses were met while the targets on basic skills awards, victim contacts and clarity of court reports on minority ethnic offenders were narrowly missed. Targets on enforcement, accredited programmes and sickness absence were not met. The following table gives more details.

Targets were set in the same eight key areas in 2003–04 with substantial increases in the numerical targets from those set in 2002–03. There was a 50 per cent. increase in the DTTO, target, a 25 per cent. increase in the accredited programmes target, and 167 per cent. and 300 per cent. increases in the basic skills starts and awards targets respectively. The following table shows the extent to which these targets are currently being met by expressing the achievement between April and December (the latest available data) as a proportion of the expected level of achievement during the period. The expected level of achievement has been based on the trends achieved during 2002–03. The target on contacting victims has been exceeded whilst basic skills awards, accredited programmes and DTTOs are narrowly under the target expected at this stage in the year.

National Probation Service targets 2002–03 and 2003–04

	2002–03			2003–04			
Key performance measure	*Target*	*Actual*	*Percentage of target achieved*	*Target*	*Actual to date*	*Expected to date*	*Percentage of expected achieved*
Commencements of Drug Treatment and Testing Orders	6,000	6,140	102	9,000	6,159	6,490	95
Completions of Accredited Programmes	12,000	7,716	64	15,000	9,177	10,457	88
Percentage of orders enforced in accordance with national standards	90	64	—	90	76	—	—
Number starting basic skills courses	6,000	5,983	100	16,000	8,641	11,010	78
Number of basic skills awards	1,000	848	85	4,000	1,675	1,840	91
Percentage of victims contacted in accordance with national standards	85	81	—	85	91	—	—
Percentage of court reports on minority ethnic offenders with clear proposals	95	92		95	—	—	—
Sickness absence (average number of days per person per year)	10	11.9	—	9	12.1	—	—

Mr. Oaten: To ask the Secretary of State for the Home Department whether targets for the National Probation Service during 2004–05 will be revised in the light of past performance. [161170]

Paul Goggins: Targets for the National Probation Service for 2004–05 have been issued to areas and are set out in the table.

The second column indicates whether the target is new, has been increased compared to 2003–04, or is unchanged.

Past and current performance has been taken into account in setting these targets, which are intended to be stretching yet achievable. For example, the new compliance target has been set at 70 per cent. based on current performance of 62 per cent.

Measure/Target 2004–05	*Change from 2003–04*
Enforcement and Compliance	
Initiate breach proceedings according to National Standards within 10 days in 90 per cent. of cases	No change
Increase to 70 per cent. the proportion of orders and licences in which the offender complies	New target
Offending Behaviour Programmes	
To achieve 15,000 completions	No change
Enhanced Community Punishment	
To achieve 30,000 completions	New target
Drug Treatment and Testing Orders	
To achieve 13,000 order commencements, including 1,000 lower intensity orders	Increased
To improve completion rates to 35 per cent.	New target
To increase the number of first contacts made within one day of the order being made to 90 per cent.	New target
To increase the number of first contacts made with the treatment provider within two days of the order being made to 90 per cent.	New target
Basic Skills	
To achieve 32,000 starts and 8,000 awards	Increased
Intensive Control and Change Programme	
To achieve 1,788 orders made and 1,101 completions	New target
Reports to Courts	
Clear proposals to be made in 95 per cent. of court report on ethnic minority offenders	No change
Victim Contact	
85 per cent. of victims to be contacted within eight weeks of an offender receiving 12 months imprisonment or more for serious sexual or violent offence	No change

Mr. Oaten: To ask the Secretary of State for the Home Department what factors led to the decision to close the Diversity Unit within the National Probation Directorate. [161171]

Paul Goggins: Probation areas' budgets for 2004–05 include £5.61 million, (1 per cent. of the total budget) that is dedicated to diversity projects. This is a three-fold increase on the previous year. Building on the progress made in recent years, the National Probation Service (NPS) intends to fully integrate diversity as a key part of its work. In order to achieve this, the National Probation Directorate's drive on diversity will include three elements:

the Regions and Performance Management Unit, where a new post filled by the previous Head of the Diversity Unit will provide support to local areas

the Human Resources Unit, which will lead on diversity policy development in relation to NPS staff

the Interventions Unit, which will provide similar leadership in relation to the offenders the Service works with.

Mr. Oaten: To ask the Secretary of State for the Home Department how many places are available in probation hostels in England and Wales; and how many of these places are occupied by *(a)* convicted sex offenders and *(b)* others covered by Multi-Agency Public Protection Panel arrangements. [161174]

Paul Goggins: There are currently 100 approved probation and bail hostels (approved premises) in England and Wales, providing around 2,240 places. No published data is available on the numbers of offenders convicted or charged with sexual offences who are resident in approved premises nor is there any published data on the number of Multi-Agency Public Probation Panel registered offenders in approved premises.

Mr. Hancock: To ask the Secretary of State for the Home Department what representations have been received by the National Probation Directorate from the probation areas following the decision to award the contract for hostel facilities to Anglia Water. [160811]

Paul Goggins: The National Probation Directorate (NPD) regularly receives representations on the operation of the facilities management contract for approved hostels that was awarded to Anglian Water Group in October 2002. These representations are made through a series of Divisional Forums, meeting quarterly, whose membership includes the relevant local probation areas. NPD has also received a number of representations on facilities management issues from individuals and from probation areas.

John McDonnell: To ask the Secretary of State for the Home Department how many probation areas in England and Wales have reported that they will experience difficulties in producing a balanced budget for 2004–05. [160465]

Paul Goggins: The National Probation Directorate has received letters from either the Chief Officer and/or the Chair of nine probation areas concerning the difficulties in producing a balanced budget for 2004–05. Most of these areas are also those that are forecasting an over-spend for 2003–04.

John McDonnell: To ask the Secretary of State for the Home Department how many probation areas in England and Wales are expecting a shortfall in budget for 2004–05. [160466]

Paul Goggins: The National Probation Directorate has now received budget details for 2004–05 from most of the 42 probation areas. Some information is still awaited from some areas. These budgets are currently being analysed. Probation boards are required to produce a balanced budget in accordance with the rules of the Financial Memorandum agreed between the Home Office and the Probation Boards. The National Probation Directorate will carefully scrutinise probation board budgets to ensure that the assumptions that underpin those budgets are sustainable. Boards will not be allowed to have budget deficits or shortfalls.

John McDonnell: To ask the Secretary of State for the Home Department what the expected shortfall in the London probation area budget for 2004–05 is. [160467]

Paul Goggins: The London Probation Area budget for 2004/05 is currently being compiled by officials at the London Probation Area in consultation with the National Probation Directorate. Probation boards are required to produce a balanced budget in accordance with the rules of the financial memorandum agreed between the Home Office and the probation boards.

Rape

Mr. Win Griffiths: To ask the Secretary of State for the Home Department (1) how many allegations of rape were reported to the police by women in *(a)* 1981, *(b)* 1991, *(c)* 2001 and *(d)* the last year for which statistics are available; how many of these reports resulted in prosecutions in each year; and how many prosecutions were successful; [160518]

(2) how many allegations of rape were reported to the police by men in *(a)* 1981, *(b)* 1991, *(c)* 2001 and *(d)* the last year for which statistics are available; how many of these reports resulted in prosecutions in each year; and how many prosecutions were successful. [160519]

Paul Goggins: Information on crimes reported to the police are not collected centrally. However, available data on the number of offences of rape recorded by the police are given in the table.

Offences of rape recorded by the police in England and Wales

Year[1]	*Rape of a female*	*Rape of a male*[2]	*Total rape offences*
1981	1,068	—	1,068
1991	4,045	—	4,045
2000–01	7,929	664	8,593
2001–02[3]	8,990	730	9,720
2002–03[3]	11,441	852	12,293

[1] Numbers of offences were recorded on a calendar year basis until 1997, and on a financial year basis thereafter. There was a change of counting rules for recorded crime on 1 April 1998, which had the effect of increasing the number of crime counted. Numbers of offences for years before and after this date are therefore not directly comparable.

[2] The offence of Rape of a male was added to the Recorded crime series from 1995.

[3] The National Crime Recording Standard (NCRS) was introduced across England and Wales in April 2002. Some police forces adopted the Standard prior to this date. Broadly, the NCRS had the effect of increasing the number of crime recorded by the police and had an overall impact of increasing crime in 2002–03 by 10 per cent., although this figure will differ for different crime types. Therefore, following the introduction of the Standard, numbers of recorded crimes are not directly comparable with previous years.

The available prosecution statistics are given in the table. Court proceedings data relates to offenders and it is therefore not directly comparable with the recorded crime statistics.

Number of defendants proceeded against at magistrates' courts and found guilty all courts for rape offences England and Wales 1981, 1991, 2001 and 2002[1]

Offence type	*Proceeded against*	*Found guilty*
1981 Rape of a female	587	320
1991 Rape of a female	1711	540
2001 Rape of a female	2,472	522
Rape of a male	179	50
2002 Rape of a female	2,780	611
Rape of a male	165	44

[1] These data are on the principal offence basis

Sentencing Statistics

Mr. Maude: To ask the Secretary of State for the Home Department (1) how many people were sentenced for *(a)* burglary, *(b)* assault, *(c)* actual bodily harm, *(d)* grievous bodily harm and *(e)* drug related offences in England and Wales in each of the last 10 years; what proportion received a custodial sentence; and what the average custodial sentence length was; [163237]

(2) how many people were sentenced in England and Wales for *(a)* theft and *(b)* handling stolen goods in each of the last 10 years; what proportion received a custodial sentence; and what the average custodial sentence length was; [163238]

(3) how many people were sentenced in England and Wales for *(a)* fraud and *(b)* forgery in each of the last 10 years; what proportion received a custodial sentence; and what the average custodial sentence length was; [163239]

(4) what the average custody rate for all recorded offences was in each of the last 10 years. [163279]

Paul Goggins: The available information is contained in the table and gives the number of offenders sentenced, sentenced to immediate custody, the custody rate and the average custodial sentence length at all courts for the requested offences, England and Wales 1993 to 2002.

Statistics on court proceedings for 2003 will be published in the Autumn.

Number of offenders sentenced, sentenced to immediate custody, the custody rate and average custodial sentence length for various offences at all courts—England and Wales 1993 to 2002

[1] Common assault and assault on a constable combined.

[2] Includes unsuspended imprisonment, secure training orders, s91–92 of the Powers of the Criminal Courts (Sentencing) Act 2000 replaces the Children and Young Persons Act 1933), partly suspended sentences, detention in a young offender iinstitution and detention and training

[3] Proportion of offenders sentenced who were sentenced to immediate custody.

[4] Excludes life sentences.

Note:

These data are on the principal offence

Mr. Maude: To ask the Secretary of State for the Home Department how many first time offenders were sentenced for *(a)* burglary, *(b)* violent offences and *(c)* drug related offences in each of the last 10 years; what proportion received a custodial sentence; and what the average custodial sentence length was. [163291]

Paul Goggins: Estimates of the number of offenders sentenced for *(a)* burglary *(b)* violent offences and *(c)* drug offences and who had no recorded previous convictions for a standard list offence are summarised in the table. 27 per cent. of first time domestic burglars received a custodial sentence in 1996. By 2000, this had increased to 48 per cent. At the same time, the average sentence length had increased from 16 to 18 months. There is no other information for custodial sentences or sentence lengths for these offenders readily available.

	Number in offence category		
	Violent Offences	*Burglary*	*Drug Offences*
1991	20,730	16,840	8,804
1992	n/a	n/a	n/a
1993	15,544	8,781	8,451
1994	16,043	8,480	8,856
1995	10,205	7,039	8,885
1996	15,132	8,064	11,661
1997	n/a	n/a	n/a
1998	15,744	7,307	15,939
1999	n/a	n/a	n/a
2000	14,867	7,118	14,524

Truancy Parental Imprisonment

Mr. Oaten: To ask the Secretary of State for the Home Department how many individuals have been sentenced to prison for allowing their children to play truant in each of the last 12 months. [163334]

Paul Goggins: Information reported to the Home Office shows that just one person was sentenced to immediate custody in England and Wales for the offence of knowing that their child was not attending school and took no reasonable steps to secure their attendance during 2002, the latest year for which figures are available.

Statistics for 2003 will be published in the autumn.

Wormwood Scrubs

Ms Buck: To ask the Secretary of State for the Home Department what expenditure has been incurred by the Home Office to date on payment to solicitors representing claimants alleging prison officer abuse at Wormwood Scrubs between November 1992 to October 2001. [162634]

Paul Goggins: As of 18 March 2004, £579,243 has been paid to solicitors representing prisoners who allege to have been abused by prison officers at Wormwood Scrubs.

Ms Buck: To ask the Secretary of State for the Home Department how many inquiries have been conducted since November 1992 into allegations of prison officer abuse at Wormwood Scrubs; and how many inquiries are under way. [162663]

Paul Goggins: Records prior to 1999 are not sufficiently detailed to show how many inquiries into individual allegations of abuse were conducted. Since then, 30 internal inquiries have been conducted into individual allegations of prison officer abuse. The police conducted two major investigations between 1998 and July 2003, into more than 100 allegations of abuse. All of these inquiries have been concluded.

Young Offenders

Mr. Battle: To ask the Secretary of State for the Home Department what the most recent estimate is of the cost to public funds of a week of community service served by a young offender. [159512]

Paul Goggins: Currently there are eight community sentences available for young offenders. Of these, two may involve an element of community service—the Community Punishment Order and the Community Punishment and Rehabilitation Order.

The Community Punishment Order (formerly the Community Service Order) is available for offenders aged 16 and upwards. Average weekly costs are not available nationally as courts set a total number of hours for community service and the young offender has 12 months to complete them.

The Community Punishment and Rehabilitation Order also includes community service. It can last between 12 months and three years. Average weekly costs are not available.

The Youth Justice Board is conducting an activity analysis in order to refine the unit costs of juvenile disposals. This is due to be completed by the end of May 2004 and I will write to my right hon. Friend at that time with the definitive figures.

Charles Hendry: To ask the Secretary of State for the Home Department what the re-offending rates for young offenders who have been detained in *(a)* young offender institutions and *(b)* secure units were in the last period for which figures are available. [162313]

Paul Goggins: Information on reconvictions of young male offenders sent to young offender institutions up to 1999 was published in Tables 9.6 and 9.7 of Prison Statistics, England and Wales 2002 (Cmnd 5996).

Charles Hendry: To ask the Secretary of State for the Home Department what assessment he has made of the numeracy and literacy levels of juvenile offenders detained in local authority secure units *(a)* at the start and *(b)* at the end of their period of detainment. [162378]

Paul Goggins *[holding answer 18 March 2004]:* The Youth Justice Board for England and Wales commissions and purchases accommodation for juvenile offenders, including some places in local authority children's homes.

A YJB audit in those establishments in 2001 found that when they entered custody over half averaged six years behind the normal literacy of their age group and over a third were 10 years behind on numeracy. The YJB is currently collecting information on the educational attainments of young people while in those establishments. This will be published in the board's next Annual Statistical Bulletin, due in the autumn.

Julie Morgan: To ask the Secretary of State for the Home Department how many prison officers were employed at each young offenders' institution in each month from June 2003 to the most recent month for which figures are available; and what the planned number of officers was in each month. [163209]

Paul Goggins: Staffing requirements are collated centrally every three months. The following table shows the number of staff and planned prison officer posts at each establishment with a major role as a young offenders' institution on a quarterly basis from June 2003. Where an establishment holds more than one category of prisoner, it is not possible to differentiate the staffing requirements for each category.

	30 June 2003		*30 September 2003*		*31 December 2003*		*29 February 2004*	
Establishment	*Staff in post*[1]	*Planned posts*	*Staff in post*[1]	*Planned posts*	*Staff in post*[1]	*Planned posts*	*Staff in post*[1]	*Planned posts*
Aylesbury	169.5	175.5	163	158.5	156.5	171.5	160	174
Brinsford	229	235.5	224.5	237.5	228.5	238	230.5	240
Castington	208	218	207.5	217	200.5	215	205.5	215
Deerbolt	178	178	179	180	175.5	182	180.5	183
Feltham	413.5	447	425.5	442	436	493	447	495
Glen Parva	254.5	272	251.5	270	257	278	254	274
Hindley	246.5	293.5	253.5	268	254.5	271	255.5	271
Lancaster Farms	209.5	242	218.5	242	220.5	244	221.5	244
Northallerton	67	66	67	67	64	64	66	66
Onley	222.5	234	223.5	234	221.5	231	212.5	229
Portland	167	173.5	164.5	171.5	172	179.5	167.5	177.5
Reading	116	119.5	109	119.5	109	119.5	112	119.5
Rochester	141	151.5	134	149	129	151.5	124.5	143
Stoke Heath	229.5	233	237.5	233	231.5	233	238.5	233
Swinfen Hall	116	118	119	118	117	119	117.5	120
Total	2,967.5	3,157	2,978	3,107	2,973	3,190	2,993	3,184

[1] Figures relate to prison officers, senior officers and principal officers.

In addition to the overall number of staff in post, officers at young offenders' institutions are currently contracted to work additional hours equivalent to an extra 128.5 officers. Total staffing availability at the end of February 2004 was therefore equivalent to 3,121.5 officers against an operational staffing requirement of 3,184. The shortfall is equivalent to 62.5 officers, or 2.0 per cent. which is an acceptable operating margin. The figures do not include new staff in the recruitment process on 29 February 2004.

Julie Morgan: To ask the Secretary of State for the Home Department what the *(a)* certified normal accommodation, *(b)* operational capacity and *(c)* population in each Young Offenders' Institution was in each month from June 2003 to the most recent month for which figures are available. [163210]

Paul Goggins: The certified normal accommodation, operational capacity and population of each single function Young Offender Institution in each month from June 2003 is given in the table.

Where an establishment has multiple functions, such as an adult training prison and a Young Offenders' Institution on a single site, population statistics are also provided.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Animal By-Products Regulations

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs whether she has established the penalties that will apply from the failure of the UK fully to *(a)* implement and *(b)* enforce the Animal By-Products Regulations. [158747]

Mr. Bradshaw: The UK has provided for the administration and enforcement of the EU Animal By-Products Regulation (EC) No. 1774/2002 by the Animal By-Products Regulations 2003. These came into force in England on 1 July 2003, in Scotland on 1 October 2003, in Wales on 31 October 2003 and on 3 December 2003 in Northern Ireland.

Had any part of the UK failed to observe our EU obligations, this could have led to enforcement action being taken by the European Commission in the European Court of Justice (ECJ). If a Member State fails to take the necessary measures to comply with the judgment of the European Court of Justice within the time limit specified, the Member State may incur either a lump sum penalty or a daily penalty payment. The penalty payment would be based on a uniform flat rate amount, multiplied by two coefficients, one reflecting the seriousness of the infringement, and the other the duration. This would then be multiplied by a factor reflecting the ability to pay and the number of votes the UK has in Council.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what discretion she has under European Union law to delay full *(a)* implementation and *(b)* enforcement of the Animal By-Products Regulations. [158748]

Mr. Bradshaw: As the EU Animal By-Products Regulation (EC 1774/2002) is directly applicable in all Member States, no discretion is available to delay either the implementation or the enforcement of the Regulation. However, where possible the UK secured transitional measures where it was clear that sectors of industry needed further time to comply with the requirements of the Regulation.

Badgers/Bovine TB

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what representations she has made to the European Commission concerning the payment to farmers of consequential losses arising from the imposition of TB restrictions on their farms. [157987]

Mr. Bradshaw: No such representations have been made.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs whether live cattle imported from mainland Europe are tested for TB infection prior to being imported into the UK. [158595]

Mr. Bradshaw: Where the Member State, or the part of the Member State where the herd is situated is recognised as being officially free of tuberculosis (as defined by EU Directive 64/432/EEC), a TB test is not required prior to import to Great Britain. This applies whether for breeding, production or slaughter. All cattle must be tested if they do not come from a officially TB-free area.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what advice was given in *(a)* 1999 and *(b)* subsequent years to the Veterinary Investigation Service by the Health and Safety Executive concerning the safety of their laboratories handling TB contaminated material; what action was taken as a result of that advice; and what the cost of that action was. [158671]

Mr. Bradshaw: The Veterinary Investigation Service merged with the Central Veterinary Laboratory and became the Veterinary Laboratories Agency (VLA) In 1996.

VLA in Truro was served with a Crown Prohibition Notice by the Health and Safety Executive (HSE) on 16 August 1999. The HSE considered that it was unsafe to work with TB-infected badger carcases without the provision of "local exhaust ventilation".

VLA commissioned contractors to construct ventilated down-draught autopsy tables. The prototypes were installed at the Truro Regional Laboratory and were approved for use by the HSE. Subsequently, further autopsy tables were installed at all the remaining Regional Laboratories. The total cost was around £90,000. An additional sum of about £20,000 was spent on refurbishment of the Truro badger autopsy room.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what measures have been taken to assist farmers suffering multiple breakdowns safely to dispose of milk produced from reactor cows. [158699]

Mr. Bradshaw: No particular measures are required as, currently, milk from reactor cattle can be sold for human consumption, provided it has been heat-treated.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs to what extent reactive culling undertaken in the Krebs trials is comparable with reactive culling trials undertaken previously. [158749]

Mr. Bradshaw: The randomised badger culling trial is the first culling trial in Great Britain to include scientific controls, allowing a rigorous estimation of the impact of a reactive culling protocol. No other such reactive culling trials have previously been undertaken in Great Britain.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs how the Government reconciles its commitment to protect the badger populations with its commitment to maintain biodiversity in indigenous birds and mammals. [158752]

Mr. Bradshaw: As has been previously explained the badger benefits from legal protection introduced to outlaw cruelty towards animals. For example, the Protection of Animals Act 1911, which among other things, made the baiting of animals illegal, and the Wild Mammals (Protection) Act 1996, which made certain specified acts of cruelty illegal.

There is no reconciliation to be made with our stated commitment to biodiversity. The Department has put in place 391 species action plans, which are designed to help those species whose populations that are endangered or vulnerable.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs whether all TB hotspots in the UK have been identified. [158754]

Mr. Bradshaw: There is no universally accepted definition of a "hotspot". Testing cattle herds for TB at regular enough intervals will, combined with other methods of surveillance, allow identification of areas of emerging infection in cattle.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what the consequences for the spread of bovine TB are of badger migration into areas which are already colonised by established badger social groups. [158755]

Mr. Bradshaw: There will be some movement of badgers even within areas of high density where social groups are virtually contiguous. However, rates of movement between groups are likely to be lower at high population density. Wherever movement between groups occurs there is the potential for disease transmission.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of whether the Krebs trials should be halted immediately. [158760]

Mr. Bradshaw: The Randomised Badger Culling Trial (RBCT) is under constant assessment. The Independent Scientific Group on Cattle TB (ISG) carry out periodic interim analyses of RBCT data. If the ISG's analyses were to reveal any significant findings they would be reported to Ministers. An Independent Review Group, chaired by Professor Charles Godfray, has just completed an assessment of the RBCT and associated work, and the state of progress. The Review Group's report is expected to be published soon.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what the PathMan project to which her recent consultation document Preparing for a New GB Strategy on Bovine TB refers is; and when results are expected from it. [158761]

Mr. Bradshaw: The 'PathMan' project is not referred to in the consultation document "Preparing for a new GB strategy on bovine TB".

'PathMan' is a web-based data capture and project management system specifically developed for a complex project involving collection of data from multiple collaborators or sites. It is being used to collect project data (epidemiology, pathology, bacteriology, histopathology and immunology) from the examination of 200 tuberculin skin-test positive and 200 suspected false negative cattle in order to understand the pathogenesis of naturally infected animals. The project is due to end in September 2005.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what assessment she has made of the reasons why the Krebs reactive trials led to an increase in bovine TB; [158793]

(2) whether the Krebs reactive trial proved conclusively that badgers are involved in the spread of TB among cattle. [158799]

Mr. Bradshaw: The report of the review group chaired by Sir John Krebs, published in 1998, concluded that "there is strong evidence for an association between TB in badgers and cattle". The result from the reactive element of the Randomised Badger Culling Trial adds to the sum of that evidence. Further research and analysis is under way to investigate the reasons for this finding.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what factors in the Thornbury trial contributed to the success of the trial in reducing bovine TB. [158794]

Mr. Bradshaw: Both the gassing method of culling to thoroughly eliminate the badgers, and the steps taken to prevent recolonization for several years, were factors likely to have maximised the reduction of any effect of badgers on cattle TB in the Thornbury trial area.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs which voluntary groups have made representations to her Department on the welfare of badgers. [158795]

Mr. Bradshaw: Defra periodically receives representations from a range of organisations on issues relating to badgers. Unfortunately, information is not kept in a form that would allow us, without disproportionate effort, to identify which representations specifically concerned badger welfare.

However, I can reveal that the following organisations contributed to the recent public consultation exercise on licensing under the Protection of Badgers Act, 1992. The welfare of badgers was a central issue of this exercise.

Cheshire Wildlife Trust
Dorset Badger Group
East Surrey Badger Protection Society
Herefordshire Badger Group
National Federation of Badger Groups
North East Essex Badger Group
North Northants Badger Group
The Royal Society for the Prevention of Cruelty to Animals
The Wildlife Trusts
West Sussex Badger Protection Group
Wirral and Cheshire Badger Group

In addition, I have recently received a representation from Naturewatch concerning legal provisions to combat badger cruelty.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what *(a)* establishments and *(b)* research staff there are to provide the experimental resources needed to develop TB vaccines in badgers. [158796]

Mr. Bradshaw: Defra funds research projects to develop diagnostic tests and vaccines for TB in badgers. These are collaborative projects between the Veterinary Laboratories Agency (VLA) at Weybridge and researchers in the Republic of Ireland.

Four staff are engaged at VLA on these projects.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to create partnerships with farmers by means of granting them licences to kill badgers in TB-infected areas as a means of improving control strategies for TB in cattle. [158797]

Mr. Bradshaw: We have no current plans for such partnerships. As the Secretary of State for Environment, Food and Rural Affairs made clear at the recent National Farmers Union AGM, we are open to radical solutions. If scientific evidence suggests that badger culling would be effective we will want to consider whether we can develop a practical and cost-effective policy.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the likelihood of eradicating bovine TB by concentrating on biosecurity measures in the cattle industry without taking measures to eliminate the disease in the wildlife reservoir. [158798]

Mr. Bradshaw: None. The control of TB in cattle is a complex problem and there is no single solution.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs whether she has identified economic benefits to the UK of allowing TB to be present in the national cattle herd. [158800]

Mr. Bradshaw: No.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the relevance to the UK of the results obtained in the Republic of Ireland following use of BCG vaccine on badgers. [159119]

Mr. Bradshaw: The Government are aware that there has been recent research in the Republic of Ireland on vaccination of badgers with BCG. However, as this work has not yet been published, we are unable to comment on its significance.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what the highest density of badgers recorded at any one location in England has been; and where that location was. [159238]

Mr. Bradshaw: A density of 38 badgers per km^2 has been reported at Wytham Woods near Oxford[1]. As far as we are aware this is the highest density of badgers recorded at a location in England.

[1] Macdonald, D. and Newman, C. (2002) Population dynamics of badger Meles males in Oxfordshire, United Kingdom: numbers, density and cohort life histories and a possible role of climate change in population growth. Journal of Zoology, 256, 121–138.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she has had with her counterparts in the Republic of Ireland about public attitudes to control of TB in wildlife. [159241]

Mr. Bradshaw: No such discussions have taken place.

Coastal Defence

Mr. Bellingham: To ask the Secretary of State for Environment, Food and Rural Affairs what measures are being taken to improve coastal defences in East Anglia. [163615]

Mr. Morley: I understand that over the next 10 years the Environment Agency (EA) is planning to spend about £70 million on coastal defence projects on the East Anglian coast to provide increased protection to some 25,000 residential properties.

The EA is carrying out significant works at Hunstanton to Heacham; Happisburgh to Winterton; Great Yarmouth; Felixstowe; and Tilbury. Defra is also grant aiding Waveney district council for major works to protect against coastal erosion on Corton seafront, north of Lowestoft, and will consider applications from coast protection authorities for other works that meet the Department's criteria for funding.

Five Shoreline Management Plans (SMPs) cover the East Anglian coast. These are all to be reviewed and second generation SMPs produced by 2008. SMPs are high-level plans that recommend policies for flood defence and coastal protection for the future. They take account of erosion and pressures on existing defences and the need to work more in keeping with natural processes. They outline the management policy for each area of the coastline for the next 100 years, and will provide predictions of the implications of these policies over the next 20, 50 and 100 years. The first of these, SMP3b covering the coast from Kelling to Lowestoft Ness, is currently being developed by North Norfolk district council as the lead authority, along with the EA and Great Yarmouth borough council. The draft policies for this SMP will be available for consultation later this year.

Mr. Bellingham: To ask the Secretary of State for Environment, Food and Rural Affairs how much was *(a)* allocated to and *(b)* spent on coastal defence in each of the last five years. [163616]

Mr. Morley: The flood and coastal defence operating authorities promote schemes within the constraints of Defra funding criteria so funds are not specifically set aside for coastal defences as such.

The original Defra grant allocations to the operating authorities (Environment Agency (EA), local authorities (LAs) and internal drainage boards (IDBs)) for capital improvement of defences against flooding, both coastal and otherwise, and coastal erosion for each of the last five years, and the outturn are as follows:

£ million

	Allocation	*Outturn*
1998–99		
Environment Agency	31.0	33.5
Local Authorities	21.9	25.0
Internal Drainage Boards	0.25	0.4
1999–2000		
Environment Agency	28.8	31.8
Local Authorities	26.9	26.0
Internal Drainage Boards	0.25	0.6

£ million

	Allocation	Outturn
2000–01		
Environment Agency	27.0	26.4
Local Authorities	27.0	13.9
Internal Drainage Boards	0.5	0.2
2001–02		
Environment Agency	44.0	38.5
Local Authorities	31.0	10.9
Internal Drainage Boards	2.1	1.3
2002–03		
Environment Agency	61.0	66.2
Local Authorities	23.0	30.7
Internal Drainage Boards	3.0	1.7

In addition to capital grants, Defra has provided LAs with borrowing cover for the net of grant costs of capital works and EA with contributions to national initiatives and costs incurred in relation to the autumn 2000 floods.

Mr. Gummer: To ask the Secretary of State for Environment, Food and Rural Affairs if she will provide an updated version of the point-scoring system used to decide upon priorities for coastal protection. [163753]

Mr. Morley: The Department's priority scoring system for the funding of flood defence and coast protection capital works was introduced in 1997 and revised in the light of experience following extensive consultation. The new system became operational from April 2003. There is no intended bias against coastal erosion schemes in the new system. If any unintended bias emerged the Department would be willing to consider changes to the system. Officials have agreed to hold a workshop with representatives of coast protection authorities to consider whether alternative approaches could inform the allocation process in future years.

Flood Protection

Dr. Richard Taylor: To ask the Secretary of State for Environment, Food and Rural Affairs whether the Risk Assessment for Strategic Planning database held by the Environment Agency has been updated to take account of the performance of demountable flood defences in Bewdley; and when insurers will receive these data. [163111]

Mr. Morley: The Risk Assessment for Strategic Planning (RASP) method was used to produce the National Flood Risk Assessment 2002. The flood probability data arising from that exercise were provided under licence to the Association of British Insurers (ABI) in July 2003. That database has not been updated to take account of the successful use of demountable defences in Bewdley.

The Environment Agency is currently developing the RASP method for use for the National Flood Risk Assessment 2004. This will take into account the demountable defences at Bewdley. The EA's current plans are to make the flood probability data from this analysis of flood risk available to the ABI later this year.

Mr. David Atkinson: To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to re-examine policy on the flood protection for mobile homes in flood risk areas, with particular reference to assessment of possible benefits arising from raising the level of these homes; and if she will make a statement. [163219]

Mr. Morley: The Department has no current plans to re-examine the policy on flood protection for mobile homes in flood risk areas.

Defra provides funding to the relevant operating authorities for capital works where an area at risk of flooding is of sufficient national priority, and where it is possible to provide a technically sound, economically viable and environmentally sustainable scheme to reduce flood risk. For mobile home sites, one of the considerations in determining whether the cost of protection is reasonable will generally include whether it would be more cost effective for the site to be moved to a lower risk location. Clearly site owners may choose to implement measures to reduce flood risk at their own expense (subject to necessary consents) and, as landowners, they are ultimately responsible for protecting their property against flooding.

Advice to the owners of caravan parks and campsites can be found in "Planning Policy Guidance 25: Development and Flood Risk", published by the Office of the Deputy Prime Minister. PPG25 emphasises that owners should prepare safe and effective plans for action to be taken in the event of a flood at the site and ensure that any person who resides in a caravan or tent on that site is informed of the degree of risk and the action they should take in a flood event.

Mr. David Atkinson: To ask the Secretary of State for Environment, Food and Rural Affairs whether residents of flood risk areas are required to contribute towards the cost of evacuation, including temporary accommodation; and if she will make a statement. [155867]

Mr. Morley: The costs of evacuation of people from their homes because of flooding or risk of flooding is a matter for local authorities. The provision of temporary accommodation for people who have been evacuated is a matter for individuals and their insurers, although local authorities can assist in cases where there is a need for their further assistance.

Mr. Liddell-Grainger: To ask the Secretary of State for Environment, Food and Rural Affairs what help is being given to farmers on the Somerset levels to help with flooding under the mid-term Common Agricultural Policy reform. [161879]

Mr. Morley: The Somerset levels are a flood plain where flooding is part of the natural cycle.

While there is no general right to flood protection and no provision to compensate land owners or occupiers for flood damage, there are existing examples of cases where farmers have received payment for additional intentional flooding that forms a part of justified new flood defence measures. There is no intention to give farmers specific help with flooding under CAP reform.

Agri-environment schemes in the area have promoted raised water levels on some farms to enhance the habitat. Whilst this is not a specific flood management tool it can make a contribution and we intend to continue it under Environmental Stewardship from 2005.

GM Crops

Mr. Stephen O'Brien: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the cost-benefit analysis undertaken by her Department regarding the impact on the UK economy of adding each new GM crop. [164021]

Mr. Morley: As part of the GM Dialogue the Strategy Unit carried out a study of the costs and benefits of GM crops. Their report 'Field Work: weighing up the costs and benefits of GM crops' was published on 11 July last year. The report concluded that GM crops could offer some cost and convenience advantages to UK farmers, although any economic benefit is likely to be limited in the short term as only a narrow range of existing GM crops are currently suited to UK conditions, and weak consumer demand may limit take-up. In the longer term it concluded that future developments in GM crops have the potential to offer more wide-ranging benefits, to both farmers and consumers.

We will agree to the commercial cultivation of a GM crop only if we are satisfied that it is safe, and we will provide genuine choice for consumers. Ultimately, it will be for farmers and consumers to assess individual GM seeds and products and decide via the normal operation of the market whether they want to buy them.

Alan Simpson: To ask the Secretary of State for Environment, Food and Rural Affairs what action she has taken to ensure that the Reading University cattle feeding studies involving Chardon LL fodder maize will be scientifically robust and independent of *(a)* Government and *(b)* GM crop technology companies. [163171]

Mr. Morley: The cattle feeding study carried out by Reading University was privately funded research. It is therefore not a matter for Government. I understand that the researchers intend to submit their study to a peer reviewed journal for publication so others will be able to assess the data when the peer review process is complete.

Alan Simpson: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the Norwegian research on the safety of the CaMV promoter used in Chardon LL transgenic insert. [163205]

Mr. Morley: The reported new scientific evidence from Norway on the cauliflower mosaic virus promoter has yet to be published. When the details of this research do become available, the Advisory Committee on Releases to the Environment (ACRE), which advises the Government on the risks posed by the intentional release of GMOs, will be asked to evaluate these data and advise on their implications for existing consents and future applications.

Alan Simpson: To ask the Secretary of State for Environment, Food and Rural Affairs when she gave consent for the harvested Chardon LL forage maize from FSE sites to be taken off-site and used in cattle feeding studies at the Reading University Centre for Dairy Research; and what conditions were attached to that consent. [163212]

Mr. Morley: The GM maize used in the farm scale evaluations has Europe-wide marketing consent for use in animal feed so no consent was required to use the harvested crop in the cattle feeding study carried out at the University of Reading.

Alan Simpson: To ask the Secretary of State for Environment, Food and Rural Affairs how much Chardon LL cattle feeding studies at Reading University has cost public funds. [163214]

Mr. Morley: There has been no cost to public funds. I understand the study carried out at Reading University was privately funded.

Alan Simpson: To ask the Secretary of State for Environment, Food and Rural Affairs what results she has obtained from the Chardon LL cattle feeding studies completed at the Reading University Centre for Dairy Research in 2002. [163215]

Mr. Morley: I have not seen the results of this cattle feeding study, which was privately funded research undertaken by Reading University. Publication of the results of studies carried out by the university is a matter for them and those funding the work. However, I understand that the researchers intend to submit their study and the results to a peer-reviewed journal for publication.

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what the process will be for the formulation of GM coexistence and liability measures; [164424]

(2) if it will be permissible for GM Chardon LL maize to be grown commercially in the United Kingdom before liability and compensation measures have been fully established; and whether she intends that such measures will be based on the principle of perpetual liability; [164425]

(3) whether statutory coexistence and liability measures will be put in place before GM Chardon LL maize can be grown commercially in the United Kingdom; and if she will make a statement. [164426]

(4) what measures she is taking to ensure that farmers wishing to grow GM crops commercially comply with a code of practice based on the EU 0.9 per cent. labelling threshold for GM content; and if she will give them statutory backing. [164427]

Mr Morley *[holding answer 29 March 2004]:* The GM maize Chardon LL will not be grown commercially in the UK before spring 2005 at the very earliest. The Government aim to have co-existence measures in place before then. We are proposing that GM growers should follow a code of practice which has statutory backing, based on the 0.9 per cent. EU labelling threshold for GM presence. It is envisaged that the code will include measures such as crop separation distances to minimise GM cross-pollination. We will consult stakeholders on the details of this as soon as possible, on whether a threshold below 0.9 per cent. should apply for organic production, and on options for providing compensation to non-GM farmers who incur a financial loss because a GM presence exceeds statutory thresholds.

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs what the process is for modifying the Part C consent of Chardon LL maize under Directive 90/220/EEC before it can be grown and managed in the United Kingdom. [164428]

Mr. Morley *[holding answer 29 March 2004]:* On 9 March officials wrote to the French Competent Authority, which issued the relevant consents on behalf of the EU Member States, seeking amendments to the consent for Bayer T25 GM maize (Chardon LL) to limit herbicide use with the crop in line with ACRE'S advice. In accordance with Directive 2001/18 the French Competent Authority are required to forward an assessment report to the Commission who will forward it to all the other Member States. A collective EU decision will then be made on the proposal for amending the conditions of the consent.

Mrs. Lawrence: To ask the Secretary of State for Environment, Food and Rural Affairs if she will publish the results obtained from the Chardon LL cattle feeding studies which were completed at the Reading University Centre for Dairy Research in 2002. [162981]

Mr. Morley *[holding answer 23 March 2004]:* I understand this cattle feeding study was privately funded research undertaken by Reading university. Publication of the results of studies carried out by the university is a matter for them and those funding the work. However, I understand that the researchers intend to submit their study and the results to a peer-reviewed journal for publication.

Mr. Grogan: To ask the Secretary of State for Environment, Food and Rural Affairs whether parliamentary approval will be required to allow the commercial growing of GM maize. [163509]

Mr. Morley: No. The procedures for assessing individual applications to grow GM crops are set out in EU Directive 2001/18 and in the implementing UK legislation. These were subject to parliamentary scrutiny at the time. The legislation provides for decisions to be taken on individual applications by Government. Final decisions on commercial approvals for GM crops are taken collectively by EU member states.

The Government's policy on the commercial growing of GM crops was set out in the statement to Parliament on 9 March.

Parrett Catchment Project

Mr. Liddell-Grainger: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what proposed timetable she has been given for the Parrett sluice; [161885]

(2) what recent submissions she has received concerning the Parrett Catchment Project. [161886]

Mr. Morley: We have not been given a timetable for the Parrett Sluice.

The Environment Agency are currently investigating and developing options for flood risk mitigation in Bridgewater. Until all options have been evaluated it will not be possible to propose a valid timetable for the Parrett Sluice.

As to submissions, we received a report on the Parrett Catchment Project in January 2003. Most recently, the Parrett Catchment Project submitted a response to each of the three phases of public consultation run as part of the agri-environment schemes review, a major review of agri-environment schemes in England. In their most recent submission, dated 8 December 2003, they welcomed the inclusion of flood management as a secondary objective of the new Higher Level Scheme that will replace the current Countryside Stewardship and Environmentally Sensitive Areas Schemes; and made a series of detailed comments on the options. We are still evaluating these.

Sea Birds

Mr. Swayne: To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to ratify the Agreement on the Conservation of Albatrosses and Petrels; and if she will make a statement. [163558]

Mr. Morley: The UK will ratify this Agreement on 2 April.

Secondments

Mr. Cousins: To ask the Secretary of State for Environment, Food and Rural Affairs what secondments *(a)* PricewaterhouseCoopers, *(b)* Deloitte & Touche, *(c)* Ernst & Young and *(d)* KPMG have made to her Department since 2001; for what (i) periods and (ii) tasks the secondments were made; whether secondments of staff from her Department have been made to those firms; and for what (A) periods and (B) tasks. [156916]

Alun Michael: Since 2001 no secondments have been made to Defra from the companies shown at *(a)* to *(d)* in the question, nor were there any secondments to those companies.

Sewerage

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs (1) if she will place in the Library a copy of the W.S. Atkins' research into the scale and problems of private sewers; [162889]

(2) if she will make a statement on the steps taken since the end of the consultation period on the scale and problem of private sewers and drains in England and Wales. [162890]

Mr. Morley: The research on private sewers carried out by W. S. Atkins, was contained in our consultation paper published in July 2003. A copy of that consultation paper, together with a summary of responses, has already been placed in the Library.

Since the consultation period ended, we have analysed responses and worked with stakeholders to identify the issues which will need to be resolved before a decision on the way forward can be made. We intend to publish our findings in early summer.

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs if she will estimate the total amount of solid waste which entered the sewage network in England and Wales in 2003, broken down by *(a)* household and *(b)* other sources. [162891]

Mr. Morley: Information on the total amount of solid waste entering the sewerage network in England and Wales is not collected for regulatory purposes. Ofwat obtains information on the total actual sewage from the ten water and sewerage companies in England and Wales. Aggregate figures for 2002–03 are as follows:

Sewage—Volumes	*Megalitres per day*
Uunmeasured household sewage	6,468
Unmeasured non-household sewage	167
Unmeasured sewage	[1]6,635
Measured domestic sewage	2849
Trade effluent	757
Waste water returned	[2]10,242

[1] This is the sum of unmeasured household and non-household sewage.
[2] This is the sum of unmeasured sewage, measured domestic sewage and trade effluent.

Volume	*Megalitres*
Septic tank waste	1,343
Cesspool waste	940

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs how many incidents of flooding have occurred in the last three years where raw sewage was involved in the contamination of people's homes and property; and if she will make a statement. [162892]

Mr. Morley: The Director General of the Office of Water Services has provided the following figures.

	2000–01	*2001–02*	*2002–03*
Number of incidents			
Overloaded sewers (hydraulic)	3,946	2,468	2,809
Other causes	4,213	3,116	3,219
Total	8,159	5,584	6,028
Number of properties			
Overloaded sewers (hydraulic)	3,228	2,108	2,318
Other causes	3,875	2,849	3,009
Total	7,103	4,957	[1]5,327

[1] Of these nearly 1,100 resulted from heavy summer storms that affected the north of England and for 1,159 properties the flooding affected only uninhabited cellars.
Notes:
1. Hydraulic causes: primarily a lack of capacity in the sewerage network.
2. Other causes: include blockage, collapse etc.

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment has been made of the *(a)* cost and *(b)* environmental impact per volume of sewerage from (i) main sewers, (ii) unadopted sewers, (iii) private sewers, (iv) septic tanks and (v) other non-sewer network-based systems for sewerage disposal; and if she will make a statement. [162896]

Mr. Morley: Information on sewage disposal/ treatment costs has been acquired during the W.S. Atkins research into existing private sewers and drains in England and Wales. The information obtained was mainly in relation to operational data i.e. maintenance and repair costs. W.S. Atkins has suggested that private treatment facilities would on average cost more per property per year to properly maintain than if the property was connected directly to a public sewer. If private treatment facilities are not properly maintained then there is a potential for them to cause pollution of their surrounding environment. In such cases, applications can be made under Section 101Aof the Water Industry Act 1991 for connection to the public sewer network.

The Environment Agency (EA) regulates many activities that have an impact on the environment, including those that have the potential to cause pollution of water. In this respect, the EA has responsibility under the Water Resources Act 1991 (WRA) for the regulation of discharges to controlled waters through the consenting system. If there is no consent, or consents are breached by causing or knowingly permitting any poisonous, noxious or polluting matter to enter controlled waters, this is an offence and the polluter is liable to prosecution under the WRA 1991.

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the current state of sewerage infrastructure, including the *(a)* physical extent of the maintenance and repair backlog and *(b)* expected cost of these repairs. [162897]

Mr. Morley: I am informed by the Director General of Water Services, that the current serviceability of the sewerage network is stable.

Sewerage companies are under a statutory duty under section 94 of the Water Industry Act 1991, enforceable by the Secretary of State or the Director General of Water Services, to ensure the effectual drainage of their area.

Sewerage Undertakers will shortly be submitting to the Director General of Water Services, final business plans for the period of 2005–10. These plans will include capital maintenance to maintain the serviceability of their assets, and to sustain levels of service to their customers. The draft business plans submitted by the companies in August 2003 propose costs of £1.2 billion to maintain sewerage infrastructure in the period 2005–10.

Sheep Tagging

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the *(a)* usefulness and *(b)* costs of sheep tagging; and if she will make a statement. [163571]

Alun Michael: Eartags are an important means of identification for sheep. They allow the holding on which an animal was born and where it has moved from to be identified. This is important when dealing with the tracing and control of animal disease.

The Department produced a Regulatory Impact Assessment (RIA) to look at the costs involved with implementing EU proposals on sheep and goat identification which was lodged in the House Library. EU Regulation 21/2004 was adopted in December and the Department will be producing a further RIA on the new EU requirements before they are implemented in July 2005.

Single Payments

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on gold plating of the standard form for single tax payments. [156506]

Alun Michael: Our policy is to keep administrative burdens to a minimum and to avoid gold plating. Defra and the RPA are working closely on the development of the new Single Farm Payments Scheme and will ensure that application forms contain only the information necessary to ensure compliance with regulatory requirements in line with Government policy on better regulation.

Special Areas of Conservation

Mr. Randall: To ask the Secretary of State for Environment, Food and Rural Affairs when she expects *(a)* Bolton Fell Moss and *(b)* Solway Moss to be designated as candidate Special Areas of Conservation. [163642]

Mr. Bradshaw: Public consultation has been completed for both sites but there remain unresolved objections which require further consideration. Discussions are currently taking place with the objectors. The Secretary of State will decide whether to submit these sites to the European Commission, as candidate Special Areas of Conservation, when the discussions are concluded.

Swill Feeding

Mr. Boris Johnson: To ask the Secretary of State for Environment, Food and Rural Affairs how many replies her Department received in response to the consultation document that preceded the ban on swill feeding; and what percentage of respondents favoured a ban. [162497]

Mr. Bradshaw: The final total number of responses, including the late responses, received was 357. Responses were not clear cut as the consultation asked a number of questions but, taking account of all the responses, there were 37 per cent. against the ban, 32 per cent. in favour and 31 per cent. expressing no preference. Those in favour included major organisations representing widespread interests. They included, among others, the British Pig Association, the National Farmers Union, the National Consumer Council, and the Meat and Livestock Commission.

FOREIGN AND COMMONWEALTH AFFAIRS

Iraq

11. **Mr. David Stewart:** To ask the Secretary of State for Foreign and Commonwealth Affairs what the extent is of British companies' involvement in the reconstruction of Iraq. [164131]

Mr. Mike O'Brien: British companies are playing an important role in the reconstruction process of Iraq. In the recent tranche of contracts worth a total of $5 billion, British companies in joint venture with US companies have won substantial contracts in the Electricity and Public Works and Water sectors, worth in excess of $1.5 billion.

My hon. Friend was in Basra and so knows British companies are also active in the banking, ports, construction, telecoms, security, legal services and consultancy sectors.

14. **Jim Knight:** To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the Governments of countries neighbouring Iraq about the cross-border movements of terrorist groups. [164134]

Mr. Rammell: We have regular contacts with Iraq's neighbours about cross-border movements of terrorist groups. The Coalition Provisional Authority is currently working on a phased plan to tighten border security, beginning with the Iranian border.

Bob Spink: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the distribution of the Iraqi Oil for Food money and accrued interest. [163532]

Mr. Rammell: UN Security Council Resolution 1483 established the Development Fund for Iraq (DFI) as a single account to handle all proceeds from the sale of Iraqi oil, all remaining monies from the Oil For Food (OFF) programme, and all unencumbered Iraqi overseas assets. The DFI is used to fund the Iraqi Budget and additional emergency expenditures authorised by the joint Coalition-Iraqi Programme Review Board.

In addition to the $1 billion transferred from OFF accounts to the DFI at its inception, all uncommitted OFF monies were transferred to the DFI following the hand-over of responsibility for ongoing OFF contracts to the Iraqi Ministry of Trade and the Coalition Provisional Authority on 21 November 2003. The accounts of the DFI as of 5 March 2004 show that this transfer amounted to $2,192,314,373.89.

The DFI is an interest-bearing account held at the Federal Reserve Bank of New York, and all interest earned by the account is re-invested. The accounts of the DFI, the Iraqi Budget and minutes of the Program Review Board are available on-line at the CPA website: www.cpa-iraq.org.

Bob Spink: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will set out the basic constitutional rules and decision making systems for the Iraqi Transitional National Assembly; and if he will make a statement. [163990]

Mr. Rammell: The principles of the transitional political structures in Iraq, including the Transitional National Assembly are set out in the Transitional Administrative Law (TAL), which was signed by the Iraqi Governing Council on 8 March. A copy of the TAL has been placed in the Library of the House. The signing of the TAL was a major step forward for the political process in Iraq.

Bob Spink: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will set out the membership of the Iraqi Transitional National Assembly, including the members' ethnicity; and if he will make a statement. [163995]

Mr. Rammell: The Transitional Administrative Law (TAL) was signed by the Iraqi Governing Council on 8 March. The TAL establishes the principles of the

transitional political structures and sets out the timetable for the elections processes, including membership of the National Assembly. Article 30 states:

C "The National Assembly shall be elected in accordance with an electoral law and a political parties law. The electoral law shall aim to achieve the goal of having women constitute no less than one quarter of the members of the National Assembly and of having fair representation for all communities in Iraq, including the Turcomans, Chaldo-Assyrians and others."

D "Elections for the National Assembly shall take place by 31 December 2004 if possible and in any case no later than 31 January 2005."

The Iraqis have invited the UN to re-engage in Iraq and assist with the elections processes. We welcome the return to Iraq of the Head of the UN Elections Assistance Division, Carina Perelli, to advise on the establishment of an Independent Elections Commission by May.

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the Iraqi Governing Council's proposals to replace the country's civil family laws with Islamic Sharia Law. [164026]

Mr. Rammell: I refer my hon. Friend to the answer I gave my hon. Friend the Member for Lewisham, Deptford (Joan Ruddock) on 9 March 2004, *Official Report*, column 1435W.

Governing Council Resolution 137 on family law has been withdrawn by the Governing Council. It has no legal status.

Mr. Huw Edwards: To ask the Secretary of State for Foreign and Commonwealth Affairs what measures are being taken by the international bodies involved in the reconstruction of Iraq to protect the interests of the Mandaean religious community. [164255]

Mr. Rammell: The Coalition is working hard with the Iraqis to strengthen the Iraqi security and judiciary sectors to provide law and order and to protect the rights of all Iraqis. The fundamental rights of all Iraqis are laid out in Article 12 of the Transitional Administrative Law (TAL), which was agreed by the Iraqi Governing Council on 8 March 2004. A copy of the TAL has been placed in the Library of the House.

Spain

12. **Mr. Jim Cunningham:** To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions his Department has had with the new Spanish Government; and if he will make a statement. [164132]

Mr. MacShane: My right hon. Friend the Secretary of State for Foreign and Commonwealth Affairs spoke with Prime Minister-elect Zapatero's principal Foreign Affairs Advisor, Miguel Angel Moratinos, on 15 March to congratulate him on the PSOE's election victory. Officials have also been in contact with members of the government-elect.

Counter-terrorism (EU)

13. **Mr. Swire:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the measures taken in the EU on the struggle against terrorism. [164133]

Mr. MacShane: In the wake of the 11 September attacks, the EU adopted an action plan on counter-terrorism, which last week's European Council updated and extended.

Much of the old action plan had been achieved. A Framework Decision on Terrorism has tightened counter terrorist legislation in those countries which had not previously faced a terrorist threat. A European Arrest Warrant allows quicker extradition from one member state to another. A system has been established collectively to freeze terrorist assets. Last week's Council decided that we need rapidly to complete implementation of the measures already agreed, approved a wide ranging package of measures designed to enhance further our citizens' security, and endorsed the creation of an EU counter-terrorism co-ordinator.

EU Constitution

16. **Ann Winterton:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on prospects for the proposed Constitution for the European Union. [164136]

Mr. MacShane: I refer the hon. Member to the answer my right hon. Friend the Foreign Secretary gave earlier today to the hon. Member for Aldridge-Brownhills (Mr. Shepherd).

United Nations Reform

17. **Andrew Selous:** To ask the Secretary of State for Foreign and Commonwealth Affairs what his Department's policy is on reform of the United Nations. [164137]

Mr. Rammell: I refer my hon. Member to the answer I gave earlier today to my hon. Friend the Member for Edinburgh, North and Leith (Mr. Lazarowicz).

19. **Linda Gilroy:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on United Nations reform. [164140]

Mr. Rammell: I refer my hon. Friend to the answer I gave earlier today to my hon. Friend the Member for Edinburgh, North and Leith (Mr. Lazarowicz).

Eritrea

18. **Tony Cunningham:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the situation in Eritrea. [164138]

Mr. Mullin: The internal situation in Eritrea is stable. However, we do have concerns about the human rights situation in the country. We have made this clear to the Eritrean authorities.

Afghanistan

20. **Sir Sydney Chapman:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the latest security situation in Afghanistan. [164141]

Mr. Mike O'Brien: The security situation in Afghanistan remains fragile, particularly in the South and East. Sporadic attacks continue against both international and Afghan forces, as well as the UN and

NGOs. Fighting between Afghan forces also occurs, as seen in a recent incident in Herat that resulted in the death of the Civil Aviation and Tourism Minister.

The international community, including the UK, is responding with increased commitments of troops and resources, including by extending the network of Provincial Reconstruction Teams. In the long-term, Afghanistan must be able to maintain its own security, through an effective national army and police force. Work to recruit and train those has been under way for some time, with the UK's active support and involvement.

Serbia/Montenegro

21. **Mr. Randall**: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the current situation in Serbia and Montenegro. [164142]

Mr. MacShane: Following recent elections, the new Serbian Government are focussing on their domestic reform programme. We welcome their commitment to closer European integration through the state union with Montenegro.

We continue to put pressure on Belgrade to engage constructively over Kosovo and renew co-operation with the International Criminal Tribunal for the Former Yugoslavia.

Israel

22. **Claire Ward:** To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Israeli Government regarding continued incursions onto Palestinian land. [164143]

Mr. Rammell: Phase One of the roadmap provides for a progressive withdrawal of the Israeli security forces from areas occupied since 28 September 2000. We have urged the Israeli Government on many occasions to meet their obligations under the roadmap without delay. Israel is entitled to take steps to ensure its security, and safeguard itself against terrorism, but only within international law.

We regard the construction of the Israeli barrier on Palestinian land as unlawful and have made this clear both to the Israeli Government and at the UN. Most recently, following the assassination of Sheikh Yassin on 22 March, my noble Friend, the Baroness Symons of Vernham Dean made it clear to the Israeli Ambassador, Zvi Shtauber, that the excessive use of force in the Occupied Territories does nothing to improve prospects for peace.

Arms Control

Mr. Gardiner: To ask the Secretary of State for Foreign and Commonwealth Affairs what plans the Government have to take forward work on arms control as part of the UK's *(a)* chairmanship of the G8 and *(b)* presidency of the European Council in 2005. [163356]

Mr. MacShane: The United Kingdom will assume the chairmanship of the G8 in January 2005, and the Presidency of the EU in July 2005. The Government have yet to finalise their priorities for the assumption of these key roles. We will, however, wish to continue work already under way on arms control issues and, in particular, to take forward work on implementing coherent strategies on arms control and counter-proliferation in both fora. As was made clear by my right hon. Friend the Foreign Secretary in his statement of 25 February, counter-proliferation issues remain a high priority for the Government (*Official Report*, columns 46–49WS).

Arms Exports

Richard Burden: To ask the Secretary of State for Foreign and Commonwealth Affairs what the total value of British arms exports to *(a)* Israel and *(b)* the occupied territories was in each of the last five years. [163680]

Nigel Griffiths: I have been asked to reply.

Since May 1997, the Government have published an annual report on strategic export controls containing details of all goods, including components, authorised for export from the UK and to which destinations. The total value of SIEL licences issued for each destination is recorded in these reports. Copies of the annual report (up to and including 2002) are available from the Libraries of the House. Details of export licences approved in 2003 will be published later this year in the 2003 annual report.

Concerning quantities exported, HM Customs and Excise and DTI compliance officers check that the terms of the licence have been respected but do not store data on volumes of actual exports which have been vetted and licensed.

Departmental Buildings

Mr. Llwyd: To ask the Secretary of State for Foreign and Commonwealth Affairs what *(a)* renovation and *(b)* maintenance projects on buildings (i) owned and (ii) rented by his Department were undertaken in each of the last five years; and what the associated costs were of each. [163955]

Mr. Rammell: There have been no renovation projects carried out on the Foreign and Commonwealth Office (FCO) in the UK during the past five years. The cost of individual maintenance projects can be provided only at disproportionate cost. However, the total cost of maintenance of the FCO UK Estate during the last five years was:

£

	Owned	*Rented*
1999	7,366,086	161,904
2000	5,360,579	375,679
2001	8,882,212	746,222
2002	6,035,173	325,632
2003	6,579,242	608,547

The details given relate only to the FCO estate in the UK. Details of renovation and maintenance of the overseas estate are held at the individual posts concerned and can be provided only at disproportionate cost.

EU Border Management Agency

Mr. George Osborne: To ask the Secretary of State for Foreign and Commonwealth Affairs what Britain's preferred location for the headquarters of the new EU Border Management Agency is. [164251]

Mr. MacShane: The UK is still considering options for the location for the headquarters of the new EU Border Management Agency.

Human Rights and Democracy Projects

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what his Department's involvement was in the 2002 European Initiative for Human Rights and Democracy projects on *(a)* the prevention of torture in Georgia and *(b)* the campaign against torture in Ukraine; and what assessment he has made of each project; [163863]

(2) what his Department's involvement was in the 2002 European Initiative for Human Rights and Democracy project on *(a)* improving the functioning of the political institutions and reinforcing the mechanisms of protection of human rights and *(b)* the support of the Moscow School of Political Studies; and what assessment he has made of the projects. [163865]

Mr. Rammell: Decisions about the individual projects funded by the European Initiative for Democracy and Human Rights are made by the European Commission and by local EC delegations. They are also responsible for managing and evaluating the projects. The EU Committee on Human Rights and Democracy allocates EU budget resources to projects in third countries and is responsible for evaluating the impact of the fund. The UK is represented on the Committee by officials from the Foreign and Commonwealth Office and the UK Permanent Representation to the EU.

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what the 2002 European Initiative for Democracy and Human Rights micro projects in *(a)* Georgia, *(b)* Russia and *(c)* Ukraine were; how his Department was involved in the micro projects; and what assessment he has made of them. [163866]

Mr. Rammell: The European Initiative for Democracy and Human Rights micro projects scheme is for projects between 10,000 and 100,000 euros (£6,689 and £66,890). These are selected through calls for proposals conducted locally by EC delegations who manage and evaluate the projects.

Priority themes and budget allocations are set by the EU Committee on Human Rights and Democracy on which the UK is represented by officials from the Foreign and Commonwealth Office and the UK Permanent Representation to the EU. Local British Embassies also keep in touch with the local Commission delegation.

Iran

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the latest assessment of Iran's capability to produce weapons of mass destruction. [163976]

Mr. MacShane: We continue to have concerns about Iran's work on uranium enrichment, which, under the agreement signed by Iran and the Foreign Ministers of France, Germany and the United Kingdom on 21 October 2003, Iran undertook to suspend. We welcome Iran's recent decision to allow inspectors from the International Atomic Energy Agency to have access to Iranian nuclear facilities, and hope that Iran will co-operate fully with them.

We judge that Iran also has the capability and the facilities to produce both chemical and biological weapons. Iran is a State Party to the Nuclear Non-Proliferation Treaty, the Chemical Weapons Convention (CWC) and the Biological and Toxin Weapons Convention. Upon accession to the CWC, Iran declared that it had produced chemical weapons in the past and that it had destroyed them.

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on human rights in Iran, with reference to the recent election. [163977]

Mr. Rammell: Over the last 10 years Iran has made progress towards greater political freedom. But the flawed parliamentary elections held on 20 February were a clear setback.

On 23 February, EU Foreign Ministers expressed their deep regret and disappointment that large numbers of candidates, including many sitting deputies, had been prevented from standing, thus making impossible a genuine democratic choice by the Iranian people. For elections in any country to be regarded as free and fair, electors must have a chance to vote for candidates with a range of views.

Kashmir

Mr. Pike: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had in Pakistan regarding talks to resolve the Kashmir issue and continue the work on improving Indo-Pakistan relations. [164129]

Mr. Straw: I refer my hon. Friend to the answer I gave the hon. Member for Mid-Worcestershire (Mr. Luff) earlier today.

We warmly welcome the recent talks between India and Pakistan where they agreed an agenda and timetable for substantive talks, including on the issue of Kashmir. During my recent visits to India and Pakistan, I congratulated President Musharraf, Deputy Prime Minister Advani and Foreign Ministers Kasuri and Sinha on this breakthrough and assured them of our full support as they take this process forward. We recognise that these talks, due to begin after the Indian general election, will be a step in a long and difficult process. We hope that they will, in due course, lead to a durable settlement of all the outstanding issues, including Kashmir.

Korean Peninsula

Mr. Ben Chapman: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has held with his Chinese counterpart on nuclear proliferation on the Korean Peninsula. [163894]

Mr. MacShane: We have a regular dialogue, at both ministerial and official level, with the Government of China on a range of issues of mutual concern. This includes discussion of proliferation on the Korean Peninsula.

Middle East

Richard Burden: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he has received on the removal of funds by the Israeli Government from Palestinian and Jordanian banks in Ramallah in raids in February. [163915]

Mr. Rammell: The Government have received accounts of the Israeli action against banks in Ramallah in February from both the Israeli and Palestinian authorities. The Government understand the need to stop the financing of terrorist groups but are concerned that this action may undermine steps being taken on this issue by the Palestinian Authority.

Poppy Production (Afghanistan)

Mr. Wiggin: To ask the Secretary of State for Foreign and Commonwealth Affairs what progress his Department is making in meeting the target of cutting poppy production in Afghanistan. [164144]

Mr. Rammell: The UK is supporting the Afghan Government in their efforts to eliminate poppy production in Afghanistan.

We have committed £70 million over three years and have a dedicated counter narcotics team in Kabul. According to the United Nations annual poppy crop survey in Afghanistan, the level of opium cultivation in Afghanistan in 2003 increased to 80,000 hectares from 74,000 hectares in 2002. While unwelcome, this is not unexpected. Experience of counter-narcotic policies in other countries, such as Pakistan and Thailand where production started from a much lower level and where there was greater central state control, shows production tends to increase before it decreases.

Increasing security and governance remains key to progress.

CABINET OFFICE

BACS

Brian White: To ask the Minister for the Cabinet Office what progress his Department has made to manage the changeover from the Bank Automated Clearing System to the new BACSTEL-IP system for electronic payments. [164320]

Mr. Alexander: The Cabinet Office is working with software suppliers and is drawing up a migration plan as recommended in the guidance issued by the Office of the Paymaster General (OPG) to change over the Bank Automated clearing system to the new BACSTEL-IP system by December 2005.

CULTURE, MEDIA AND SPORT

Digital Television

Mr. Boswell: To ask the Secretary of State for Culture, Media and Sport pursuant to the answer to the hon. Member for Lichfield (Michael Fabricant) of 8 March 2004, *Official Report*, column 1293W, on Digital Television when she plans to undertake a public consultation on the timetable for switching off analogue television services. [164680]

Estelle Morris: We are working with stakeholders including consumer groups, to have a better understanding of the process of switchover and the options available and we will make an announcement about consultation in due course.

Honours (Rugby)

Mr. Hinchliffe: To ask the Secretary of State for Culture, Media and Sport pursuant to her answer of 17 March 2004, *Official Report*, column 316W, on Sports (Honours), what the reasons are for the differences between the number of honours awarded over the last five years for sporting involvement in rugby league and rugby union; and if she will make a statement. [163960]

Mr. Caborn: Decisions made by the honours committee are made on the basis of individual merit. I cannot comment on individual cases.

National Lottery

Jon Trickett: To ask the Secretary of State for Culture, Media and Sport what steps have been taken in response to the National Audit Office Report by the National Endowment for Science, Technology and the Arts, to improve the distribution of Lottery money across the regions; and if she will make a statement. [164631]

Estelle Morris: NESTA has recruited a National and Regional Co-ordinator to develop and implement a strategic approach to ensuring equality of access to NESTA's programmes across the UK.

NESTA has commissioned research to examine how its processes might be refined to address regional imbalance and the report options for action will be considered by NESTA's Board of Trustees in April.

Physical Education

Mr. Flook: To ask the Secretary of State for Culture, Media and Sport what proportion of schoolchildren in Taunton participated in two or more hours of quality physical education and exercise in each week in the latest six months for which figures are available. [164560]

Mr. Caborn: The information is not held in the format requested and could be provided only at disproportionate cost. The Impact of School Sport Partnerships' (published in March 2004 by DfES and DCMS) set out the early funding of the 2003–04 PE, School Sport and Club Links survey. Overall 61 per cent. of pupils in phase 1 school sport partnership schools spend at least two hours in a typical week on high quality PE and school sport within and beyond the

curriculum. A copy of the report has been placed in the House of Commons Library. The results of the full survey will be published in April.

Sport and Physical Activity Board

Mr. Hinchliffe: To ask the Secretary of State for Culture, Media and Sport on how many occasions the cross-departmental Sport and Physical Activity Board has met. [164571]

Mr. Caborn: The Activity Co-ordination Team, formerly the Sport and Physical Activity Board, which I jointly chair with my hon. Friend the Minister for Public Health has met on five occasions since July 2003.

DEFENCE

Challenger 2

Mr. Hoyle: To ask the Secretary of State for Defence how many Challenger 2 tanks he plans to sell; and to which countries. [163853]

Mr. Ingram: There are currently no plans to sell Challenger 2 tanks.

Defence Medicine Centre

Mr. Viggers: To ask the Secretary of State for Defence what the reason is for the cancellation of the plan to develop a Royal College of Defence Medicine Centre at Selly Oak, Birmingham; and what alternative plans there are to provide for the centre. [164052]

Mr. Caplin: We remain committed to developing the Royal Centre for Defence Medicine in the Birmingham area. Use of the Selly Oak site for this purpose has not been ruled out and remains one of a number of options currently under consideration.

Gulf War Syndrome

Mr. Tyler: To ask the Secretary of State for Defence what steps he is taking to carry out checks on results following the publication of the research study of miscarriages and birth defects amongst the children of Gulf War veterans; and if he will set up an independent inquiry into all reports of serious health problems amongst veterans. [164190]

Mr. Caplin *[holding answer 29 March 2004]:* I refer the hon. Member to the statement I made on 24 March 2004, *Official Report*, column WS44. In addition, the researchers have identified some additional work that is being undertaken within the scope of the original research. With regard to miscarriage, the researchers are looking into measures of infertility as this often relates to early miscarriage. On renal anomalies, a more in-depth study of the diagnosis within this group is being conducted.

The Government are not convinced that an independent inquiry would help. The possibility that we may look again at this matter has not been ruled out but, in the present circumstances, it is only through the programme of research initiated by the Government that we are ever likely to be able to establish the causes of Gulf veterans' illnesses.

HIV/AIDS

Hugh Bayley: To ask the Secretary of State for Defence what HIV/AIDS programme is in place for British armed forces who spend time in sub-Saharan African countries. [164419]

Mr. Ingram: Guidance on HIV/AIDS for members of the Armed Forces is based on guidelines issued by the UK Chief Medical Officer's Expert Advisory Group on AIDS. The prevention and management of HIV infection is part of a general strategy for the promotion of good sexual health and for the protection of personnel against blood borne viruses.

Before deployment to sub-Saharan Africa Service personnel receive a health brief and are warned that the HIV/AIDS virus is a major medical threat. The educational message for operational deployments makes it clear that sexual abstinence is the only safe form of action with risk reduction only as a last resort.

Service personnel are instructed in the use of condoms as a means of protection against STDs, including HIV/AIDS, as well as a form of contraception. On occasions where condoms are not readily available, they may be distributed to Service personnel.

Service personnel who think they have been at risk are encouraged to consult their medical officer for discussion about the virus and possible referral for testing. Alternatively, Service personnel can also go directly to an NHS STI clinic for testing and/or counselling.

Iraq

Mr. Gardiner: To ask the Secretary of State for Defence what efforts are being made by the Iraqi Survey Group to use the serial numbers on weapons found in Iraq to trace *(a)* where and *(b)* when the weapons were made. [163383]

Mr. Hoon: The Iraqi Survey Group (ISG) is responsible for the assessment of Iraqi Weapons of Mass Destruction programmes. In general, the ISG does not have a requirement to use serial numbers to establish the origins and age of weapons.

Mr. Soames: To ask the Secretary of State for Defence how many Iraqi security personnel have been trained by British forces; and how many Iraqi army personnel are operational in the British sector of control. [162952]

Mr. Ingram: As at 25 March 2004 there were around 36,800 Iraqi security personnel in the Multinational Division (Southeast) area, of whom 750 are members of the New Iraqi Army.

Some 14,600 personnel have completed at least basic training.

Operational Vehicles

Mr. Keetch: To ask the Secretary of State for Defence how many operational *(a)* Challenger 2 tanks, *(b)* warrior vehicles, *(c)* FU430, *(d)* Sabre, *(e)* Spartan and *(f)* AS90 vehicles there are; what percentage of the fleet this represents in each case; and what percentage of target availability this represents in each case. [163626]

Mr. Ingram: I will write to the hon. Member and a copy of my letter will be placed in the Library of the House.

Stock Reduction

Mr. Leigh: To ask the Secretary of State for Defence what the changes to stock reduction targets for slow-moving stock and consumables have been, following the undertaking by his Department in its response to the 13th report of the Committee of Public Accounts in Session 2002–03, MoD: Progress in Reducing Stocks, to revisit them. [163933]

Mr. Ingram *[holding answer 29 March 2004]:* Since June 2003, stock reduction targets for slow-moving stock and consumables have been re-visited. As a result of this work, financial provision targets have been replaced by actual stock disposal targets at gross book value. These revised targets were disaggregated and issued in January 2004 to individual budget holders and are being monitored to ensure that the progress required is being made.

The new targets are detailed in the table:

Million

	Disposal targets
2003–04	259.4
2004–05	180.9
2005–06	153.0
Total	593.3

Departmental Timber Purchases

Norman Baker: To ask the Secretary of State for Defence if he will list the purchases of wood originating from Tasmania the Department has made in each year since 1997. [164050]

Mr. Ingram *[holding answer 26 March 2004]:* The Ministry of Defence requires suppliers of timber to obtain evidence that the timber supplied complies with Government policy. The country of origin is not recorded separately and therefore the information requested is not available.

Ulster Defence Regiment (Records)

Mr. Beggs: To ask the Secretary of State for Defence where the search records of the *(a)* 7 City of Belfast battalion of the Ulster Defence Regiment, *(b)* 10 City of Belfast battalion of the Ulster Defence Regiment, *(c)* 3 County Down battalion of the Ulster Defence Regiment and *(d)* regular military units operating in their tactical area of responsibility for the night of 17 February 1978 are held; by what method they are stored; and whether they are a matter of public record. [164431]

Mr. Ingram: The search records of all military units in Northern Ireland are held manually in paper format in the Northern Ireland Search Report Archive at 25 Engineer Regiment, Antrim. Reports of any searches, which did not produce a find, are routinely destroyed after six years when the statute of limitation for claims runs out. Records of productive searches may be held indefinitely in the archives and are subsequently reviewed in accordance with the terms of the Public Records Act, 1958 and 1967. However, I can confirm that there are no search records held prior to 1990.

LEADER OF THE HOUSE

Register of Interests

Bob Spink: To ask the Leader of the House what the requirements are on officials in his Office to declare current interests; and what register of interests is kept for his officials. [164698]

Mr. Hain: The Civil Service Management Code sets out the requirement for civil servants declaring any conflict of interest (http://www.cabinet-office.gov.uk/civilservice/managementcode/index.asp).

Details of individual interests declared and of approvals to undertake activities outlined in these codes of conduct are held on personal files.

TRANSPORT

Speed Cameras

Mr. Spring: To ask the Secretary of State for Transport *(a)* how many speed cameras there were and *(b)* what amount of revenue was raised, in each region in each year since 1997. [143347]

Mr. Jamieson: My Department holds information on speed cameras operated under the Speed Camera Programme for funding of approved cameras from fixed fine receipts, which began with seven Safety Camera Partnership areas in England and Wales in April 2000, increasing to 14 in 2001 and to 28 during 2002. The numbers of approved fixed and mobile speed camera sites for those partnership areas are:

As at end of year	*Fixed camera sites*	*Mobile camera sites*	*Total*
2000–01	311	242	553
2001–02	706	541	1,247
2002–03	1,387	1,528	2,915

My Department plans shortly to publish information on the number of safety camera locations for all Safety Camera Partnerships in England and Wales together with collision and casualty information.

Prior to the Safety Camera Programme, police and highway authorities have used cameras since 1991, under the Road Traffic Act 1991 and the Department of Transport Circular 1/92 "Use of technology for traffic enforcement: Guidance on deployment". My Department does not hold information centrally on cameras which are not part of the Safety Camera Programme.

The conditional offer fixed penalty fines for speeding and traffic light offences from the partnerships, from the audited figures available for 2000–01 and 2001–02 were:

£

	Fine revenue
2000–01	
Cleveland	898,960
Essex	1,843,480
Lincolnshire	627,000
Nottingham	555,360
Northants	2,167,840
South Wales	1,567,000
Thames Valley	2,239,120
	9,898,760
2001–02	
Cleveland	855,480
Essex	3,524,120
Lincolnshire	1,059,680
Nottingham	812,640
Northants	2,967,640
South Wales	1,876,240
Thames Valley	4,672,880
Cambridgeshire	135,420
Derbyshire	654,000
Lancashire	1,197,180
Norfolk	160,140
North Wales	648,780
Staffordshire	631,260
Warwickshire	204,300
Total	19,302,536

Note:

Separate figures are not available for speeding offences only.
Information on 2002–03 fine revenue will be available shortly.

Mr. Simmonds: To ask the Secretary of State for Transport how many speed cameras have been erected in each county in England in each year since 1997. [163804]

Mr. Jamieson: My Department plans shortly to publish information on the safety camera sites in all Safety Camera Partnerships, which currently cover 38 of the 43 police authority areas in England and Wales. Information is not held centrally on safety cameras operated by police and highway authorities which do not participate in the partnership scheme.

Bicycle Helmets

Jane Griffiths: To ask the Secretary of State for Transport what assistance his Department and its predecessor Departments have given to the Bicycle Helmet Initiative Trust in each of the last five years; upon what conditions such assistance was given; and if he will make a statement. [164164]

Mr. Jamieson: We work closely with the Bicycle Helmet Initiative Trust (BHIT), including the provision of grant aid for initiatives which contribute to the Government's cycling objectives. I helped launch the BHIT's "Guidelines for Setting up Community Based Bicycle Helmet Programmes" in May 2002. They are the result of three years work funded by a joint package with the Department of Health of £100,000. BHIT also received funding to produce a similar School Based set of Guidelines, which were sent to all schools in July 2003.

The BHIT has received further funding from the Department of Health for three years. The DoH gave BHIT £32,000 in 2002–03, £25,000 in 2003–04, and will be giving £20,000 in 2004–05 for their Helmet Your Head project. The project was funded as part of the DoH's target for the Health Service to contribute to accident prevention and especially injury reduction among children.

We have given grant aid to other organisations who are pursuing initiatives which support the aims of our road safety strategy, such as RoSPA, for their "Guidelines for Child Cycle Training" and the CTC for their "Adult Cycle Training Schemes Guidelines".

Buses

Mr. Redwood: To ask the Secretary of State for Transport what figures he uses for the cost of *(a)* a bendy bus and *(b)* a conventional double decker bus when calculating grants to local authorities for their transport plans. [164833]

Dr. Howells: Allocations for local transport funding in England (outside London) are calculated to reflect the achievement of each local transport authority in delivering the aims and objectives in its Local Transport Plan. Information on the type of buses used by local operators does not form part of the calculation.

Mr. Redwood: To ask the Secretary of State for Transport how many *(a)* British built and *(b)* German built buses have caught fire and burnt out in the last year in the UK. [164149]

Dr. Howells: We only have records relating to six incidents in 2003—these were cases where the police asked for the Department to help with investigations.

Five of these cases involved British-built vehicles, and all were caused by maintenance defects.

We have no record of any German-built vehicles being involved in fires during 2003.

Mr. Redwood: To ask the Secretary of State for Transport what regulatory action he is proposing to improve safety on bendy buses. [164146]

Dr. Howells: We do not as yet know exactly what has caused the problems with these buses, so it is too early to speculate on whether any additional regulatory action may be necessary.

We are monitoring the situation closely and will be reviewing the situation both with the vehicle manufacturers and the bus operators. In the meantime all the potentially at-risk vehicles have been taken out of service pending the completion of remedial work.

Mr. Redwood: To ask the Secretary of State for Transport what the most recent average occupancy figure is of the London bendy buses. [164147]

Dr. Howells: The average number of passengers travelling at any one time in an articulated "bendy bus" in London was 24, when surveyed by Transport for London in mid 2003.

Mr. Redwood: To ask the Secretary of State for Transport how many seats a London bendy bus has. [164148]

Dr. Howells: The articulated "bendy buses" on services in London have 49 passenger seats. There is also provision for a passenger in a wheelchair.

Driving Test Hazard Perception Test

Lembit Öpik: To ask the Secretary of State for Transport (1) what evaluation of the recently introduced Driving Test Hazard Perception Test his Department has carried out; and if he will make a statement; [163349]

(2) what research his Department carried out in preparation for the introduction of the Driving Test Hazard Perception Test; and if he will make a statement; [163350]

(3) what research his Department has carried out on the reaction of people from different age groups to the new Driving Test Hazard Perception Test; and if he will make a statement; [163351]

(4) what plans his Department has to modify the content of format of the new Driving Test Hazard Perception Test; and if he will make a statement. [163352]

Mr. Jamieson: Hazard perception testing for learner car, lorry and bus drivers, motorcyclists and prospective driving instructors was introduced in November 2002 as part of the qualifying theory test. The pass mark for the hazard perception part of the test has been progressively raised since introduction as instructors and their pupils became accustomed to the new assessment.

Following feedback from candidates that they did not fully understand what they were required to do in the hazard perception part of the theory test, the tutorial video that candidates are shown at the start of that part of the test was revised last December. Since then, the pass rates for the hazard perception part of the test have increased significantly:

Percentage

	November 2002	*December 2003*	*February 2004*
Car	79	69	80
Motorcycle	93	81	89
Lorry	80	69	79
Bus	80	66	76
Driving Instructor	66	56	64

Research over a 10 year period by the Transport Research Laboratory into the importance of hazard awareness in collision prevention indicated that performance in tests of hazard perception improved as experience is gained. The research showed that experienced drivers performed better than new drivers, who in turn performed better than learner drivers.

The film clips used in the hazard perception assessment were trialled before introduction to determine their effectiveness at discriminating between drivers on the ground of their experience. Calibration trials and analysis then took place to identify an appropriate mix of clips to ensure individual tests were of similar difficulty.

Customer satisfaction surveys and focus groups conducted by the Driving Standards Agency explore customer reactions to all aspects of the testing process, including the hazard perception assessment. The research does not differentiate between test candidates based upon their age.

We have no plans to change the format of the hazard perception assessment. We do, however, plan to extend the computerised assessment, together with multiple-choice questions of knowledge and understanding, to the existing standards supervision for all registered driving instructors later this year.

Focus Groups and Opinion Polls

Mr. Laws: To ask the Secretary of State for Transport what his estimate is of total expenditure by his Department on *(a)* focus groups and *(b)* opinion polls in each year from 1995–96 to 2003–04; and if he will make a statement. [162759]

Mr. McNulty: Estimated out-turn in 2003–04, will be £493,065 on focus groups of which £296,070 relates to the consultation for the white paper on the future of air transport and £156,595 to the THINK! road safety publicity campaign. In 2002–03, the Department spent £53,439 on focus groups all of which was in support of THINK!. In addition £50,792 was spent on opinion polls over a 16 month period straddling both the financial years 2002–03 and 2003–04.

Costs for earlier years before the Department for Transport was formed could be provided only at disproportionate cost.

Research is widely used to inform the development, delivery and evaluation of policy and publicity. Focus group work to inform the development of our long term £14 million a year THINK! road safety publicity campaign, which keeps road safety high in the publics consciousness, involves testing attitudes and creative ideas. The end results of any focus group research that we carry out in this context are in the public domain in the form of THINK! campaign material.

All contracts are let in accordance with agreed tendering procedures and are subject to the usual rules that spending should represent good value for money.

Motor Insurance and Driving Licences

Mr. Grogan: To ask the Secretary of State for Transport what plans he has to require motorists to display *(a)* proof of insurance and *(b)* a licence alongside their tax discs. [163513]

Mr. Jamieson: The Government are determined to tackle the menace of uninsured driving. We have commissioned Professor David Greenaway to conduct an independent review of the motor insurance industry with special reference to uninsured driving. The report is due to be delivered to Ministers next month and the recommendations for reducing the level of uninsured driving will be examined in detail. Although not ruling out the display of insurance discs we would not wish to pre-empt the findings of the review and intend to await the outcome before deciding on the next steps.

Motorways

Mr. Greg Knight: To ask the Secretary of State for Transport how many designated parking areas there are

for police patrol vehicles alongside motorway hard shoulders; what the total cost of constructing such areas has been; and how many further such areas are planned. [164274]

Dr. Howells: There are 358 designated parking areas for police patrol vehicles alongside motorway hard shoulders on England's motorway network. Many of the designated parking areas were constructed as part of motorway building schemes and it is not possible to provide the total cost of constructing them.

Currently, one further designated parking area is planned for construction on the M56 in Lancashire. The requirement for additional areas is kept under review through regular liaison meetings with the relevant police authorities.

Network Rail

John Thurso: To ask the Secretary of State for Transport if he will place in the Library a copy of the letter of comfort given to Network Rail on its refinancing programme through bonds. [163126]

Mr. McNulty: A draft of the comfort letter was attached to the Secretary of State's minute to the House of 4 February 2004 about new non-statutory contingent liabilities in support of Network Rail's Medium Term Note borrowing programme.

Rail Services (Kent)

Jonathan Shaw: To ask the Secretary of State for Transport (1) what estimate he has made of the number of passengers travelling from the Medway Towns to Cannon Street; what assessment he has made of the likely impact on commuter services from the Medway Towns to Cannon Street of the Strategic Rail Authority's Integrated Kent Franchise proposals; and if he will make a statement; [162505]

(2) what discussions he has had with the Strategic Rail Authority regarding the current fast Medway Towns to Victoria service in the context of the Strategic Rail Authority's proposed Integrated Kent Franchise. [162508]

Mr. McNulty: Proposals for the detailed train service specification for the Integrated Kent Franchise are currently being consulted upon by the Strategic Rail Authority. Recommended service patterns and its impacts on existing services will be considered following the completion of the consultation.

Jonathan Shaw: To ask the Secretary of State for Transport what plans the Strategic Rail Authority has to improve rail infrastructure in north Kent; and if he will make a statement. [162507]

Mr. McNulty: There is considerable work under way in north Kent, as part of the power supply upgrade (Southern Region New Trains Programme). This will enable operation in north Kent of Class 375 and 376 trains. The train maintenance depot at Slade Green is being refurbished. Security enhancements are being made where trains are stabled.

Jonathan Shaw: To ask the Secretary of State for Transport how many seats *(a)* are available to commuters from the Medway Towns to London and *(b)* are estimated will be available under the Strategic Rail Authority's proposed Integrated Kent Franchise at peak times as defined by the Strategic Rail Authority in their Integrated Kent Franchise proposals. [162509]

Mr. McNulty: There are over 20,000 seats available on services from the Medway Towns to London in the morning peak and over 21,000 from London to the Medway Towns in the evening peak.

The number of seats available under the proposed Integrated Kent Franchise will depend on the type of rolling stock ordered for channel tunnel rail link domestic services.

WALES

Civil Servants

Mr. Wiggin: To ask the Secretary of State for Wales how many civil servants were employed in the Welsh Office in each year between 1979 and 1999. [160931]

Mr. Touhig: The Welsh Office ceased to exist on 1 July 1999. The number of civil servants employed in the Welsh Office between 1979 and 1998 are shown in the table:

	Total employed
1979	2,600
1980	2,363
1981	2,279
1982	2,201
1983	2,176
1984	2,206
1985	2,283
1986	2,250
1987	2,208
1988	2,185
1989	2,220
1990	2,352
1991	2,400
1992	2,407
1993	2,408
1994	2,334
1995	2,194
1996	2,133
1997	2,178
1998	2,269

Mr. Wiggin: To ask the Secretary of State for Wales how many civil servants for whom his Department is responsible there were in each year since 1997; and what the cost of salary payments was in each year. [161196]

Mr. Touhig: Staff numbers for the Wales Office, since its establishment on 1 July 1999, are shown in table 5.7 of the Wales Departmental Report 2003 (CM 5928), a copy of which can be obtained from the Library of the House. Paybill data are contained within Annex 3 of the same publication.

Computer Misuse

Mr. Webb: To ask the Secretary of State for Wales how many cases of computer misuse there were in *(a)* the predecessor to his Department in each year

between 1997 and 1999 and *(b)* his Department in 2003, broken down by category of misuse; and how many of those cases resulted in disciplinary action. [163251]

Mr. Touhig: There are no records of any computer misuse occurring at the Welsh Office between the years 1997 and 1999.

There was one incident of possible misuse in 2003 involving prohibited sites. The person involved left the Wales Office before the investigation was completed so no disciplinary action resulted.

INTERNATIONAL DEVELOPMENT

Conferences

Mr. Bercow: To ask the Secretary of State for International Development how many conferences he and his Ministers attended in the UK and abroad in the year to 29 February; and what the cost of attending was, broken down by *(a)* travel costs, *(b)* food and drink, *(c)* accommodation and *(d)* miscellaneous costs. [160706]

Hilary Benn *[holding answer 12 March 2004]:* The Cabinet Office publishes an annual publication that provides details of overseas travel by Cabinet Ministers and expenditure incurred. Copies of the publication are available in the Libraries of the House. The annual publication covering 2003–04 will be published in due course. All DFID ministerial travel is undertaken in line with the rules set out in the Ministerial Code and Travel by Ministers.

As Secretary of State for International Development I attended one conference in the UK in February. The previous Secretary of State also attended a conference in June as did I when I was Minister of State. Both of these were in London and did not incur any cost.

The Parliamentary Under-Secretary of State has attended three conferences in the UK in the year to 29 February. Only one of these incurred an additional cost to the Department of £37 for a train fare. The other two were held in Central London.

Mr. Bercow: To ask the Secretary of State for International Development how many *(a)* non-ministerial staff and *(b)* special advisers in his Department attended conferences in the UK and abroad in the year to 29 February; and what the cost of attending was, broken down by (i) travel costs, (ii) food and drink, (iii) accommodation and (iv) miscellaneous costs. [160708]

Hilary Benn *[holding answer 12 March 2004]:* It is not possible to provide information on non-ministerial staff attendance at conferences either in the UK or abroad without incurring disproportionate cost, apart from the following information:

A special adviser has attended one conference in the UK. The total cost of attending this was £895. This cost included accommodation and food. Travel cost approximately £20.

Employment Agencies

Matthew Taylor: To ask the Secretary of State for International Development if he will list the employment agencies which his Department has used to supply temporary staff in each financial year since 1996–97 to the most recent date for which figures are available. [163810]

Hilary Benn: The Department for International Development has used the following employment agencies to supply temporary administrative staff for all of the financial years from 1996–97 to 2003–04:

Josephine Sammons, 46 Fish Street Hill, EC3R 6ER

Office Angels, 71–75 Buckingham Palace Road, SW1W OQU

Adecco, 133 Victoria Street, SW1V 6RD

Manpower, Kingsgate Parade, 66–74 Victoria Street, SW1E 6SH

Reed Employment Services, Fairgate House, 78 New Oxford Street, WC1A 1HB

Kelly Services, 1st Floor, Princes Mall, G74 1LB

Margaret Hodge Recruitment (formerly Joyce Young Recruitment), Floor 10, Plaza Tower, G741LW

DFID has also used:

Select Appointments, 300–310 Vauxhall Bridge Road, SW1V 1AA, from 2000–01 to 2003–04.

Human Rights and Democracy Projects

Mr. Bercow: To ask the Secretary of State for International Development (1) what his Department's involvement was in the 2002 European Initiative for Human Rights and Democracy projects on *(a)* inter-communal youth centres in Georgia, *(b)* access to justice for ethnic minorities in Russia and *(c)* educating indigenous people in Siberia; and what assessment he has made of each project; [163875]

(2) what his Department's involvement was in the 2002 European Initiative for Human Rights and Democracy project on improving indigenous multiculturalism through education in *(a)* Russia, *(b)* Ukraine, *(c)* Georgia, *(d)* Armenia, *(e)* Croatia, *(f)* Serbia, *(g)* Bosnia and Herzegovina, *(h)* Kosovo, *(i)* Bulgaria and *(j)* Poland; and what assessment he has made of the results of each project; [163913]

(3) what his Department's involvement was in the 2002 European Initiative for Human Rights and Democracy projects on the prevention of torture in *(a)* Russia, *(b)* the Former Yugoslav Republic of Macedonia, *(c)* Serbia, *(d)* Bulgaria, *(e)* Hungary, *(f)* Poland, *(g)* Latvia, *(h)* Lithuania and *(i)* Estonia; and what assessment he has made of each project. [163935]

Mr. Rammell: I have been asked to reply.

Decisions about the individual projects funded by the European Initiative for Democracy and Human Rights are made by the European Commission and by local EC delegations. They are also responsible for managing and evaluating the projects. The EU Committee on Human Rights and Democracy allocates EU budget resources to projects in third countries and is responsible for evaluating the impact of the fund. The UK is represented on the Committee by officials from the Foreign and Commonwealth Office and the UK Permanent Representation to the EU.

Mr. Bercow: To ask the Secretary of State for International Development (1) what his Department's involvement was in the 2002 European Initiative for Human Rights and Democracy project to *(a)* reinforce

diversity in Russia and *(b)* deliver an information campaign on the fight against racism and xenophobia in Russia; and what assessment he has made of each project; [163877]

(2) what his Department's involvement was in the 2002 European Initiative for Human Rights and Democracy's project on reinforcing federalism, democracy and mechanisms of protection of human rights in Russia; and what assessment he has made of the project. [163998]

Mr. Rammell: I have been asked to reply.

Decisions about the individual projects funded by the European Initiative for Democracy and Human Rights are made by the European Commission and local EC delegations. They are also responsible for managing and evaluating the projects. The EU Committee on Human Rights and democracy allocates EU budget resources to projects in third countries and is responsible for evaluating the impact of the fund. The UK is represented on the Committee by officials from the Foreign and Commonwealth Office and the UK Permanent Representation to the EU. The British embassy in Moscow keeps in close touch with the local Commission delegation.

Science Strategy

Dr. Iddon: To ask the Secretary of State for International Development what steps he has taken to enhance science in his Department since the publication of the Government's science strategy Investing in Innovation. [162250]

Hilary Benn: The Department for International Development has maintained its commitment to the use of science for policy making and delivery, and our investment in science and research is set to increase from the current £80 million per financial year to at least £100 million by 2006–07. Details are set out in the Forward Look 2003 on Government funded science, engineering and technology.

Together with other departments, DFID is improving the way it uses science in its policy work—building on the recommendations of the Cross Cutting Review (CCR) and Investing in Innovation—and the CCR implementation plan being pursued in cooperation with the Office of Science and Technology (OST).

Specifically, DFID is developing a new research strategy, the draft of which will be published shortly for consultation. The draft will set out DFID's main areas of focus and proposals for future spending, including African agricultural productivity, the killer diseases for the poor, climate change, and long-run social and political changes. DFID will also publish a document on how it uses science, with examples of research capacity building efforts in developing countries.

DFID will appoint two experienced scientists—one recommended by the Government's Chief Scientist—to conduct a review of scientific advice in DFID and the case for appointing a Chief Scientist. The Department will also set up a new advisory board, which would include an eminent scientist and representatives from developing countries. The board will at its first meeting consider DFID's contribution to building science capacity in the developing world.

NORTHERN IRELAND

Blood Supplies

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what the implications are for Northern Ireland of the Department of Health's decision not to allow blood donations from those who received transfusions since 1980. [164920]

Angela Smith: The decision to exclude anyone who received a blood transfusion in the United Kingdom since 1980 from donating blood will apply in Northern Ireland with effect from 5 April 2004. This is expected to result in a 3.3 per cent. reduction in blood donations, reducing blood donations in Northern Ireland by about 2,300 units of blood per year. Measures are being planned to ensure that adequate blood supplies are maintained, including promotional campaigns and increased donor sessions.

Lady Hermon: To ask the Secretary of State for Northern Ireland how many donors he expects to be excluded from the blood donor register in Northern Ireland as a result of the recent decision to exclude recipients of blood transfusions from donating blood. [164352]

Angela Smith: The decision to exclude anyone who received a blood transfusion in the UK since 1980 from donating blood is expected to lead to a loss of 3.2 per cent. donors. In Northern Ireland this will exclude over 2,200 people who are currently registered as active donors.

Lady Hermon: To ask the Secretary of State for Northern Ireland what discussions he has held with his colleagues in the Department of Health on the recent decision to exclude recipients of blood transfusions from donating blood. [164353]

Angela Smith: The decision to exclude anyone who received a blood transfusion in the United Kingdom since 1980 from donating blood was based on the advice of the Committee on Microbiological Safety of Blood and Tissues for Transplantation (MSBT). MSBT is convened by the Department of Health and acts as a UK wide advisory committee. It has two members from Northern Ireland, including a representative of the Department of Health, Social Services and Public Safety.

Lady Hermon: To ask the Secretary of State for Northern Ireland what assessment he has made of the implications for Northern Ireland of the recent decision of the Secretary of State for Health to exclude recipients of blood transfusions from donating blood; whether such restrictions apply to Northern Ireland; and if he will make a statement. [164354]

Angela Smith: The decision to exclude anyone who received a blood transfusion in the United Kingdom since 1980 from donating blood will apply in Northern Ireland, with effect from 5 April 2004. This precautionary measure to ensure the safety of blood has the potential to affect blood supplies. Measures are planned to ensure that adequate blood supplies are maintained and that blood is used appropriately.

Rev. Martin Smyth: To ask the Secretary of State for Northern Ireland by how much he expects the level of blood supplies will decrease following the recent decision to prohibit the acceptance of blood from those who have had blood transfusions. [163966]

Angela Smith: The decision to exclude anyone who received a blood transfusion in the UK since 1980 from donating blood is expected to result in a 3.3 per cent. reduction in blood donations. In effect this will reduce blood donations in Northern Ireland by about 2,300 units of blood per year. Measures are being planned to ensure that adequate blood supplies are maintained, including promotional campaigns and increased donor sessions.

Cancer

Dr. Gibson: To ask the Secretary of State for Northern Ireland how many NHS hospital beds are allocated for the treatment of teenage and young adult patients with cancer in Northern Ireland. [163887]

Angela Smith: HSS Trusts in Northern Ireland have advised that there are 10 beds open overnight which are specifically designated for the treatment of teenage and young adult patients with cancer. Should the need exceed this provision, other beds not specifically designated for the treatment of this particular age-group may be made available for teenagers and young adults.

Citizenship Ceremony

Lady Hermon: To ask the Secretary of State for Northern Ireland when he expects the first citizenship ceremony in Northern Ireland to take place; and with what frequency he expects them to occur. [164355]

Mr. Paul Murphy: The first citizenship ceremony in Northern Ireland is scheduled to take place on 4 June 2004. The number and frequency of future ceremonies will depend on the number of applications received. Current estimates are that there will be four ceremonies per year in Northern Ireland.

Focus Groups

Mr. Laws: To ask the Secretary of State for Northern Ireland what his estimate is of total expenditure by his Department on *(a)* focus groups and *(b)* opinion polls in each year from 1995–96 to 2003–04; and if he will make a statement. [162756]

Mr. Paul Murphy: In relation to the expenditure of the Northern Ireland Office on attitudinal research between 1997 and 2003, I refer the hon. Gentleman to the answer given by my hon. Friend the then Parliamentary Under-Secretary, on 13 May 2003, *Official Report*, column 206W. Expenditure in 1995–96 was £11,750. Overall expenditure on attitudinal research for the financial year 2003–04 is not yet available, although £27,480 + vat has been identified to date.

Within the Northern Ireland administration this information could be obtained only at disproportionate cost.

Housing Executive

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what measures the Northern Ireland Housing Executive is undertaking to address the problems faced by the organisation in relation to recruiting people from all sections of the community in Northern Ireland. [164160]

Mr. Spellar: Where monitoring shows that the Northern Ireland Housing Executive's recruitment processes delivers differential outcomes, it initiates an affirmative action programme which aims to encourage full participation of the community in securing employment within the organisation. The Northern Ireland Housing Executive's Affirmative Action Plan addresses areas of under-representation in relation to gender, disability and the other equality groups identified in the Northern Ireland Act 1998.

The main measures the Northern Ireland Housing Executive takes include:

(i) the extension of external recruitment to cover entry level and key recruitment grades;

(ii) the promotion of careers within the Northern Ireland Housing Executive in publications where there is under representation; and

(iii) developing links with schools and training organisations in areas where under representation exists.

Laganside Development

Mr. Hume: To ask the Secretary of State for Northern Ireland what the capital investment by Government Departments in the Laganside development in Belfast has been; and how much money has been earmarked by Government for the capitalisation of the Ilex Corporation in Derry to develop the Ministry of Defence lands. [162936]

Mr. Spellar: The information is as follows:

Laganside

The amount of capital investment by Government Departments in the Laganside Development in Belfast from 1989 until now has been £129 million.

Laganside will wind up some time in the future by which time many of the capital assets will be either sold off, net proceeds being transferred back to the Department for Social Development, or some assets such as the Lagan Walkway and Weir (value £35 million) being retained in public ownership.

Ilex

Government expect shortly to receive an interim bid for funding from Ilex Urban Regeneration Company, under the Integrated Development Fund in advance of an Integrated Development Plan for the North West. This plan will inform future capital investment decisions.

There are plans for the Department for Social Development to acquire the Fort George site later in 2004 for £12 million. The Ebrington site (value circa £4 million) was transferred at nil cost to the Office of the First Minister and Deputy First Minister in December 2003 as part of the Reinvestment and Reform Initiative. It was also recently announced that Government have agreed in principle to acquire the Clooney Barracks site however the transfer value has yet to be determined.

Murder Investigations

Mr. Beggs: To ask the Secretary of State for Northern Ireland what the total financial cost has been of investigations into the murder of *(a)* Mr. Patrick Kelly on 10 August 1974 and *(b)* Mr. Robert Jameson on 17 January 1974, both of Trillick. [162708]

Jane Kennedy: In view of the significant time which has elapsed since these two murders, an estimate of the costs of the associated police investigations could be provided only at disproportionate cost.

Organ Retention

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland, whether relatives of those who had coroners' post mortems will be invited to planned memorials for the victims of organ retention in Northern Ireland. [164577]

Angela Smith: The Department is engaged in ongoing discussions with Belfast city council, Derry city council and the Relatives' Reference Group about the location of suitable memorials for those affected by the retention of human organs and tissue. Relatives of those who were affected, whether through coroners' or hospital post mortem examinations, will be most welcome to attend any future service of dedication of the memorials.

Phoenix Natural Gas

Lady Hermon: To ask the Secretary of State for Northern Ireland what discussions he has had with representatives of Phoenix Natural Gas on the recent increase in gas prices; and if he will make a statement. [164390]

Mr. Pearson: I have met with the Chairman and Chief Executive of Phoenix Natural Gas to express my deep concerns over proposed gas price increases in Northern Ireland. I have also been in contact with all the parties concerned including the Northern Ireland Authority for Energy Regulation (NIAER), the General Consumer Council (NI), National Energy Action and the Department of Social Development who have responsibility for the Northern Ireland Housing Executive and Fuel Poverty. I have also met a delegation of NI political representatives from all the major political parties to hear their concerns. I have asked NIAER to carry out an urgent investigation into the proposed increase and the circumstances leading up to Phoenix's announcement on 19 March, and to report to me by 31 March 2004.

Post Mortems

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland, what procedures relatives will be required to use to obtain tissue from consented hospital and coroner post mortems when the new legislation is implemented. [164576]

Angela Smith: In January 2004 I launched a public consultation document entitled "Post Mortem Examinations—Good Practice in Consent and the Care of the Bereaved". It contains new draft consent forms and guidance, which address relatives' wishes for the return or disposal of tissue. It also takes account of the provisions of the new Human Tissue Bill currently before Parliament. The consultation period ends on 27 April 2004 and it is anticipated that the Department will issue final guidance to the HPSS towards the end of 2004. This will be made available to relatives through the Relatives' Reference Group and the Department's web site. It is too early at this stage to say what the new procedures will be but the principle of consent will underpin them all.

Pulmonary Hypertension

Lady Hermon: To ask the Secretary of State for Northern Ireland if he will make a statement on the provisions in Northern Ireland for sufferers of pulmonary hypertension. [164541]

Angela Smith: Pulmonary hypertension is a rare abnormality and is managed within existing specialty areas including cardiology, general medicine, respiratory medicine and in the case of children, paediatrics. Each case is managed individually, with treatment provided appropriate to the patient's particular needs.

Royal Ulster Constabulary

Mr. Beggs: To ask the Secretary of State for Northern Ireland whether the search and log records of the Royal Ulster Constabulary for the night of 17 February 1978 are still held. [162688]

Jane Kennedy: The Police Service of Northern Ireland has carried out a review of the investigation file and HM Coroner's reports relating to the La Mon bombing. However search papers and logs for the night of 17 February 1978 have not been retained within these papers.

Unionist Paramilitaries

Mr. Hancock: To ask the Secretary of State for Northern Ireland what assistance Unionist political parties are giving the police in curbing the criminal activities of Unionist paramilitary groups. [162594]

Jane Kennedy: The Police Service of Northern Ireland does not categorise any paramilitary group as Unionist. The category used is Loyalist. Unionist political parties have publicly stated their support for the police in their efforts to tackle the criminal activities of Loyalist paramilitary groups. Representatives of Unionist parties also sit on the Policing Board and show their further support for the police at community level by participating in the local District Policing Partnerships.

WORK AND PENSIONS

Benefits

Bob Spink: To ask the Secretary of State for Work and Pensions if he will make it his policy to pay *(a)* bereavement benefit and *(b)* invalid care allowance without deductions arising from the payment of both benefits; and if he will make a statement. [164035]

Mr. Pond: It is a basic principle of the social security system that two benefits at a time cannot be paid for the same purpose. Even though the circumstances which give rise to entitlement to Carer's Allowance and Bereavement Benefit are different, they are both

designed to provide a degree of replacement for lost or foregone income. Carer's Allowance replaces income where the carer has had to give up the chance of working to look after a severely disabled person, while Bereavement Benefit replaces income following the death of a spouse.

Carer's Allowance is therefore not payable, or not payable in full, in addition to Bereavement Benefit. The payment of Bereavement Benefit takes precedence, either extinguishing or reducing the payment of Carer's Allowance. Nevertheless, the income of a person in these circumstances will be at least as high as the rate of Carer's Allowance, and is usually higher. In addition, where the benefit cannot be paid, the person will keep underlying entitlement to Carer's Allowance, which gives them access to the carer premium in the income-related benefits such as Income Support, Housing Benefit and Council Tax Benefit.

We have no plans to change these arrangements.

Hugh Bayley: To ask the Secretary of State for Work and Pensions (1) how many individuals living in *(a)* York and *(b)* North Yorkshire were in receipt of (i) state retirement pension and (ii) other benefits in (A) 1997 and (B) each year since then; [162961]

(2) how many claims for benefits and pensions were made by people living in *(a)* York and *(b)* North Yorkshire in each year since 1997. [162977]

Malcolm Wicks: The information requested concerning the total number of claims for benefits or pensions is not available. The available information is in the tables.

Working age claimants of key benefits in York

	Number
November 1997	11,400
November 1998	11,200
November 1999	10,800
November 2000	10,400
November 2001	10,500
November 2002	9,600
November 2003	9,400

Working age claimants of key benefits in North Yorkshire

	Number
November 1997	33,500
November 1998	33,800
November 1999	33,300
November 2000	31,700
November 2001	31,300
November 2002	31,300
November 2003	31,300

Notes:
1. Figures are rounded to the nearest hundred.
2. Key benefits are Jobseeker's Allowance (JSA), Incapacity Benefit (IB), Severe Disablement Allowance, Disability Living Allowance, Income Support and National Insurance credits only (through JSA or IB).

Child Support Agency

Jon Trickett: To ask the Secretary of State for Work and Pensions what the target response times are for the Child Support Agency telephone helpline; and what the most recent performance delivery against these targets is. [162170]

Mr. Pond: The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Doug Smith. He will write to my hon. Friend with the information requested.

Letter from Mike Isaac to Mr. Jon Trickett, dated 30 March 2004:

In reply to your recent Parliamentary question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive. As he is currently on leave I am replying on his behalf.

You asked the Secretary of State for Work and Pensions, what the targets response times are for the Child Support Agency telephone helpline; and what the most recent performance delivery against these targets is.

The Agency aims to answer 85% of calls received within 60 seconds. In February 2004 it answered 86.9% of calls within that timeframe.

Correspondence

Mr. Webb: To ask the Secretary of State for Work and Pensions when he will answer question reference 147652, tabled by the hon. Member for Northavon on 8 January. [161624]

Mr. Browne *[holding answer 15 March 2004]:* An answer was given to the hon. Member today.

IT Projects

Mr. Webb: To ask the Secretary of State for Work and Pensions if he will list each information technology project being undertaken by his Department and its agencies, including the *(a)* start date, *(b)* the planned completion date, *(c)* the current expected completion date, *(d)* the planned cost and *(e)* the current estimated cost; and if he will make a statement. [147652]

Mr. Browne *[holding answer 13 January 2004]:* The Department for Work and Pensions and its businesses currently have in excess of 100 individual projects which encompass information technology changes to a greater or lesser extent. The Department's major projects are those contained in the modernisation programme. For the most part, these projects embrace both information technology and business change. The following table lists the Department's current major programmes and projects that are based predominantly on IT change with information on schedules, budgets and achievements to date.

The "Planned Costs" column provides forecasts to project implementation. The "Current Authorised Expenditure" column gives expenditure authorised to the programme or project's next approval gate.

Expenditure on projects is formally approved by the Department's governance process and authorised through review gates. These reviews ensure that projects are meeting the standards we expect (including business change, technical and commercial criteria) before authority to progress to the next stage of their development.

It should be noted that project details may alter as they pass through the project lifecycle.

Department for Work and Pensions modernisation programme

Project	*Start date*	*Due end date*	*Expected end date*	*Planned costs (£ million)*	*Current authorised expenditure (£ million)*
Child Support Reform	September 1999	October 2004	Currently under review	400	400
Key achievements	Since 3 March 2003, new Child Support claims have been calculated using the new rules and new IT.				

Project	*Start date*	*Due end date*	*Expected end date*	*Planned costs (£ million)*	*Current authorised expenditure (£ million)*
Customer Management System	October 2001	March 2006	March 2006	300	150
Key achievements	This system currently being rolled out will allow information supplied by customers to be gathered electronically by staff, improving efficiency and customer service. Staff will be able to check information supplied against that already held and issue the customer with a Statement reflecting the information supplied.				

Project	*Start date*	*Due end date*	*Expected end date*	*Planned costs (£ million)*	*Current authorised expenditure (£ million)*
ISCS/JSAPS Modernisation Programme	August 2002	Various	[1]Various	20	20
Key achievements	The Department's updated IS/IT Strategy has identified new ways of delivering IT improvements at lower risk. The modernisation of our Income Support and Jobseekers Allowance systems is now being taken forward in line with updated IS/IT Strategy principles—for example, a preference for commercially available packages rather than bespoke development and staged incremental improvements rather than "big bang" replacement.				

[1] In line with the Department's IT Strategy, this programme has changed from system replacement to a rolling programme of incremental improvements.

Project	Start date	Due end date	Expected end date	Planned costs (£ million)	Current authorised expenditure (£ million)
Working Age IS/IT Strategy Programme	December 2003	Various	[2]Various	Under review	10
Key achievements	This is a new programme in its initial start-up phase.				

[2] This is a rolling programme of a number of business and IT improvement projects with individual start and completion dates.

Project	Start date	Due end date	Expected end date	Planned costs (£ million)	Current authorised expenditure (£ million)
New Tax Credits	April 2000	April 2005	April 2005	90	90
Key achievements	January 2003: IT Gateway between Inland Revenue and DWP went live.April 2003: Payment of new awards of Child Tax Credit and Working Tax Credit start. October 2003: 30,000 Minimum Income Guarantee child premium cases successfully completed.				

Project	Start date	Due end date	Expected end date	Planned costs (£ million)	Current authorised expenditure (£ million)
Digital Office Infrastructure	May 2000	June 2004	June 2004	750	745
Key achievements	DOI aims to implement a modern IT infrastructure platform across the department allowing staff access to modern business software. By February 2004, over 119,000 PCs had been rolled out (plus 23,000 installed in ex ES sites).				

Project	Start date	Due end date	Expected end date	Planned costs (£ million)	Current authorised expenditure (£ million)
Managing Core Systems Estate	November 2003	March 2006	March 2006	15	1
Key achievements	This is a new programme of enhancements to the Department's core systems and is in define and initiate stage.				

Project	Start date	Due end date	Expected end date	Planned costs (£ million)	Current authorised expenditure (£ million)
Pensions Forecasting Programme	September 1999	April 2005	April 2005	40	30
Key achievements	October 2001: Combined Pensions Forecasting service available.				

Project	Start date	Due end date	Expected end date	Planned costs (£ million)	Current authorised expenditure (£ million)
Pensions Credit	August 2001	October 2004	October 2004	285	255
Key achievements	April 2003: Advance application for Pension Credit invited.May 2003: Minimum Income Guarantee to Pension Credit—conversion started.January 2004: Pension Credit payable. 2.18 million pensioner households are now in receipt. Pension Credit Application Line have taken their millionth call.				

Project	Start date	Due end date	Expected end date	Planned costs (£ million)	Current authorised expenditure (£ million)
Pensions Transformation Project	January 2002	2006	2006	To be determined—project to be defined	95
Key achievements	This project is currently focusing on design and delivering changes to the Pension Service organisation, business processes, services and IT.				

Project	Start date	Due end date	Expected end date	Planned costs (£ million)	Current authorised expenditure (£ million)
Customer Information System	July 2003	October 2006	October 2006	50	10
Key achievements	This is a new project in its define and initiate stage.				

Project	Start date	Due end date	Expected end date	Planned costs (£ million)	Current authorised expenditure (£ million)
Payment Modernisation Programme	October 1999	December 2005	December 2005	465	200
Key achievements	From April 2003: Direct Payment became the normal method of payment for new customers. Benefit systems aligned to accommodate direct payments.				

Project	Start date	Due end date	Expected end date	Planned costs (£ million)	Current authorised expenditure (£ million)
Resource Management	April 2001	September 2006	September 2006	155	40
Key achievements	The project is configuring standard Oracle software and implementing best practice processes to replace the Department's existing resource management systems.				

Project	Start date	Due end date	Expected end date	Planned costs (£ million)	Current authorised expenditure (£ million)
Debt Management	November 2000	April 2005	April 2005	115	60
Key achievements	February 2004: Nine out of 10 Debt Centres now set-up.				

New Deal

Sue Doughty: To ask the Secretary of State for Work and Pensions how much funding has been provided to New Deal task forces in each year since 1998. [158230]

Mr. Browne: The information requested is as follows.

New Deal for Young People—spending on the environmental task force (ETF)

	£ million
1997–98[1]	0
1998–99[2]	15
1999–2000	42
2000–01	42
2001–02	42
2002–03	31
2003–04[3]	31

[1] New Deal for Young People (NDYP) started in January 1998. As participation in the NDYP Options normally commenced after a 4 month Gateway period, spend on the Options, including the ETF, was very small and has been rounded to zero.
[2] This corrects the figure that was given in my answer to the hon. Member for Havant (David Willetts), on 14 July 2003, *Official Report*, columns 78–79W.
[3] Estimated outturn.
[4] All figures are rounded to the nearest million.
Source:
Departmental Report 2003

Mr. Frank Field: To ask the Secretary of State for Work and Pensions how much money has so far been spent on each constituent element of the New Deal. [164042]

Mr. Browne *[holding answer 26 March 2004]:* The information is in the table.

£ million

	New Deal for Young People	New Deal 25 plus	New Deal 50 plus	New Deal for Lone Parents	New Deal for Disabled People	New Deal for Partners
1997–98	43	—	—	—	—	—
1998–99	260	34	—	18	1	1
1999–2000	370	97	3	39	22	5
2000–01	412	60	56	43	14	11
2001–02	308	213	87	46	10	8
2002–03	339	254	106	80	27	6
2003–04	340	255	56	82	27	11
Total	2,072	913	308	308	101	42

Notes:
1. All figures are outturn figures except; 2002–03 estimated outturn and, 2003–04 planned expenditure.
2. All figures are rounded to the nearest £ million

2003 DWP Departmental Report (Cm 5921)

HOME DEPARTMENT

Asylum Seekers

Mr. McGrady: To ask the Secretary of State for the Home Department (1) how many asylum seekers are detained in Maghaberry Prison; and how many of those are *(a)* male, *(b)* female and *(c)* children; [162151]

(2) what the average length of stay was for an asylum seeker in the last two years at Maghaberry Prison. [162152]

Beverley Hughes: As at 27 December 2003—the latest available date for which data are available—120 individuals recorded as having sought asylum were detained in prisons in the UK. Of these, less than five were detained at HMP Maghaberry, all of whom were adult males. Minors may not be held at HMP Maghaberry. Information on the number of people detained as at 27 March 2004 will be published on the Home Office website (www.homeoffice.gov.uk/rds/immigration1.html) on 25 May 2004.

Information on the length of detention of individual detainees held at HMP Maghaberry is not available.

Mr. McGrady: To ask the Secretary of State for the Home Department whether asylum seekers detained at Maghaberry Prison are *(a)* subject to normal prison rules and *(b)* held separately from (i) sentenced and (ii) remand prisoners. [162168]

Beverley Hughes: Immigration detainees held at HMP Maghaberry are located on a separate landing in Mourne House and are separate from the main prison population. Detainees are subject to prison rules but are managed as untried prisoners, with a more favourable regime that is more akin to that of enhanced prisoners.

Mr. McGrady: To ask the Secretary of State for the Home Department for how long Maghaberry Prison will be used to detain asylum seekers. [162235]

Beverley Hughes: Individual detainees are held for no longer than is necessary and we seek to ensure that any period of detention is kept to the minimum. An individual detainee who initially elected to remain at HMP Maghaberry rather than be transferred to an Immigration Service removal centre in Great Britain may at any time request to be transferred to such a removal centre.

More generally, we have no plans at present to end the use of HMP Maghaberry for the very small numbers of immigration detainees who express a preference to remain in Northern Ireland rather than be transferred to an Immigration Service removal centre in Great Britain. The small numbers of individuals concerned, usually less than 10 at any one time, would not be sufficient to make a dedicated detention facility in Northern Ireland viable to establish or operate.

Mr. Oaten: To ask the Secretary of State for the Home Department what estimate he has made of the number of failed asylum seekers in the UK who are liable to be forcibly returned to Iraq. [162411]

Beverley Hughes: At present, removals to Iraq are on a voluntary basis, but on 24 February 2004 my right hon. Friend the Home Secretary announced that the UK was the first country to reach agreement with the Coalition Provisional Authority to begin enforced returns of failed Iraqi asylum seekers. The pilot scheme will begin in April and will allow 30 Iraqis per month to be returned initially; it will be linked to a package of assistance with accommodation and employment, and will operate alongside the voluntary returns programme.

Information on asylum applications is published quarterly. The next publication is due to be published on 25 May 2004 on the Home Office website at: http://www.homeoffice.gov.uk/rds/immigration1.html.

Mr. Oaten: To ask the Secretary of State for the Home Department how many failed asylum seekers have been forcibly removed to Afghanistan in each of the last five years. [162418]

Beverley Hughes: Information on the number of Afghan nationals who had claimed asylum at some stage that were removed from the United Kingdom from 1998 to September 2003 (the latest date for which data are available) is shown in the table.

Removals and voluntary[1] departures of principal asylum applicants (excluding dependants): January 1998 to September 2003[2,3,4]

	Afghanistan
1998	15
1999	n/a
2000	n/a
2001	125
2002[5]	395
January to September 2003[5]	460

n/a = Information not available due to data quality issues on IND databases.

[1] Including persons departing "voluntarily" after enforcement action had been initiated against them.

[2] May include removals to a safe third country.

[3] Data are rounded to nearest five with * denoting 1 or 2.

[4] Data are estimated due to data quality issues on the databases.

[5] Provisional figures.

These figures include those persons who departed "voluntarily" after enforcement action had been initiated against them and persons leaving under the Assisted Voluntary Returns Programmes run by the International Organisation for Migration as well as those who were forcibly removed from the UK, however they are not separately identifiable. Information on the destination of those people who are removed is not available.

There were no enforced returns to Afghanistan prior to April 2003. A voluntary return programme, the Return to Afghanistan Programme (RAP) commenced on 20 August 2002. Enforced returns operate under the tripartite Agreement between the United Kingdom, United Nations High Commission for Refugees and Afghan Transitional Administration and flights to Kabul commenced on 28 April 2003.

Alcohol Misuse (Greater London)

Simon Hughes: To ask the Secretary of State for the Home Department what action he plans to take to tackle alcohol misuse in Greater London. [163063]

Ms Blears: On 15 March 2004 the Prime Minister's Strategy Unit published a "Alcohol Harm Reduction Strategy for England". The Strategy sets out the Government plans to combat the range of problems caused by alcohol misuse in England. The majority of London Drug Action Teams (DATs) have already drawn up local alcohol misuse strategies, as part of their plans to tackle wider substance misuse. Officials are working with DATs and Crime and Disorder Reduction Partnerships (CDRPs) to ensure that all London boroughs prioritise alcohol misuse in the next round of crime and drugs strategies.

Amphetamines

John Mann: To ask the Secretary of State for the Home Department pursuant to the oral answer of 22 March 2004, *Official Report*, column 551, on amphetamines, what assessment he has made of the conversion of common cold, flu and hayfever tablets into amphetamines; and what discussions he has had on the volume of these over the counter medicines sold to individuals. [164189]

Caroline Flint *[holding answer 29 March 2003]*: The Forensic Science Service's data on seizures of illicit drugs shows no incidence in the United Kingdom in recent years of these over the counter medicines having been converted into amphetamines for misuse.

Criminal Records Bureau

Mr. Austin Mitchell: To ask the Secretary of State for the Home Department how the Criminal Records Bureau checks addresses and criminal records in application forms. [161950]

Ms Blears: The Criminal Records Bureau scans application forms into its secure system and the address details are compared against a piece of software that identifies whether a legitimate address has been entered. Should an address not be recognised, the form is sent to members of staff who will check the details against a standard verification system known as "Post-Code Lookup". If the address details cannot be verified, the CRB sends a letter to the applicant to seek clarification.

Enhanced Disclosure Applicants are asked to provide details of their addresses, which cover the past five years. This information is used to determine which police force(s) need to be contacted to obtain details of any information held that is not on the police national computer. In such circumstances, the police will check local records to see whether information about the applicant, can be linked with any criminal activity, or any other information that might be pertinent to the position applied for.

Occasionally, an applicant may send with their application form details of any convictions they hold. These are returned to the applicant with a letter informing them that such details are not required for CRB purposes, however the applicant is required to declare such convictions to the registered body. The checks carried out by the Criminal Records Bureau will identify details of relevant convictions.

Mr. Andrew Turner: To ask the Secretary of State for the Home Department when the Criminal Records Bureau received the application of Helen Livett of Binstead, Isle of Wight, for a record check; when that record check will be notified to him; and what the reason is for the delay in responding. [162210]

Ms Blears: The Criminal Records Bureau (CRB) received an Enhanced Disclosure Application Form in respect of Helen Livett on 28 August 2002. The CRB will not issue a disclosure as a result of this application because it has been withdrawn. In January 2003, the bureau conducted an exercise to identify the number of old applications that had been suspended, awaiting further information and Helen Livett's was identified as one such application.

The CRB wrote to Helen Livett and her Registered Body to advise that further information was required in order to process her disclosure application. These letters stated that the application would be withdrawn if this information was not received within six weeks of the date of the letters. No reply was received; consequently Helen Livett's disclosure was withdrawn on 11 April 2003.

Should Helen Livett require a disclosure, she will need to re-apply, ensuring that she provides further payment and sufficient information to enable the CRB to process it.

Curfew Orders

Mr. Evans: To ask the Secretary of State for the Home Department how many curfew orders have been made in the Ribble Valley constituency in each of the last seven years. [163829]

Ms Blears: I would refer the hon. Member to the reply given to him on 11 March 2004, *Official Report*, column 1669W.

Firearms

Mr. Weir: To ask the Secretary of State for the Home Department how many times the Firearms Consultative Committee has met over the last 12 months. [163768]

Caroline Flint *[holding answer 26 March 2003]:* The Committee met five times. In addition there were three sub-group meetings.

Mr. Weir: To ask the Secretary of State for the Home Department what the reasons are for the disbandment of the Firearms Consultative Committee. [163769]

Caroline Flint *[holding answer 26 March 2003]:* As my right hon. Friend the Home Secretary, indicated in his written statement on 30 January, the Government are anxious to maintain a forum for consultation but wishes to do so on a broader basis than allowed by section 22 of the Firearms (Amendment) Act 1988 under which the Firearms Consultative Committee was established. We are now considering a new two-tier consultative structure to look at detailed technical matters and the operation of firearms controls in the round.

Forensic Science Service

Mr. Grogan: To ask the Secretary of State for the Home Department when he expects to revoke the Forensic Science Service Trading Fund Order 1998. [164185]

Ms Blears: There are no immediate plans to revoke the Order as the action is necessary only towards the very end of the process of transforming the Forensic Science Service into a public private partnership.

Khat

Ms Stuart: To ask the Secretary of State for the Home Department pursuant to his answer of 23 February 2004, *Official Report*, column 239W, to the hon. Member for Romford (Mr. Rosindell) on Khat, what practical steps the Advisory Council on the Misuse of Drugs has taken to review the impact of Khat. [164091]

Caroline Flint: The Advisory Council on the Misuse of Drugs keeps the situation in respect of all controlled drugs under review. At its meeting on 2 October 2003, the Advisory Council's sub-committee the Technical Committee considered the impact of Khat. The Committee concluded that further research needed to be carried out before any informed decisions could be made.

The Home Office is in the process of commissioning a piece of research into Khat use in the United Kingdom. We expect the research to be completed by the summer of 2005.

Lancashire Police

Mr. Hoyle: To ask the Secretary of State for the Home Department how much of the cost of policing in Lancashire was paid for by *(a)* central Government and *(b)* local council tax in each of the last four years. [157678]

Ms Blears: The information is set out in the table.

	Council tax	*Government funding and specific grant*[1]	*Other*[2]	*Total gross revenue expenditure*
2000–01	27.4	164.1	10.5	202.0
2001–02	29.9	176.7	8.1	214.7
2002–03	33.3	178.4	14.7	226.4
2003–04	39.7	189.7	9.6	239.0

[1] Includes Principal Home Office Police grant, ODPM Revenue Support Grant and National Non Domestic Rates, Special grant, Revenue for Airwave, Crime Fighting Fund, Rural Policing Grant, Loan charge grant, Street Crime Initiative grant and other specific grants.

[2] Includes all other force income apart from specific grants from Government, and movements in reserves.

Source:

Chartered Institute of Public Finance and Accountancy Police statistics (Actuals 2000–01 to 2002–03 and Estimates 2003–04).

Mopeds (CSOs)

Mr. Oaten: To ask the Secretary of State for the Home Department how many mopeds have been purchased by the Metropolitan police for use by police community support officers in each borough; and at what cost. [163333]

Ms Blears: The Commissioner of Police of the Metropolis informs me that the Metropolitan police have placed orders for 180 mopeds, which are to be used by Community Support Officers.

Of these, 58 mopeds have been delivered and are currently in operational use. They are deployed primarily in the following boroughs by Community Support Officers of the Transport Operation Command Unit.

Borough	*Number of mopeds*
Lewisham	4
Lambeth	3
Tower Hamlets	8
Kensington and Chelsea	4
Camden	18
Ealing	4
Hackney	4
Westminster	13

Vehicles have been procured at competitive prices and the cost of the order remains commercially confidential.

Offender Management

Mr. Oaten: To ask the Secretary of State for the Home Department who will be responsible for the recall of prisoners who breach their parole licence under the National Offender Management Service arrangements. [161173]

Paul Goggins: The current arrangements for the recall of prisoners who breach their parole licence are unlikely to change but it will become a function within the National Offender Management Service.

Overseas Bribery

Malcolm Bruce: To ask the Secretary of State for the Home Department how many people specialise in combating overseas bribery in *(a)* the National Criminal Intelligence Service, *(b)* the National Crime Squad and *(c)* other law enforcement agencies. [163487]

Ms Blears: The National Criminal Intelligence Service holds a responsibility to maintain a national register of reports made of suspected cases of overseas bribery, and two officers, including a senior manager, are involved in the work as part of a wider set of responsibilities they have.

In the National Crime Squad there are no officers or staff dedicated solely to combating overseas bribery. However, the coercion and corruption of law enforcement officers and public officials is characteristic of the way in which serious and organised criminals operate. Consequently, when required, significant resources are invested by the National Crime Squad in combating this threat—both in the UK and overseas.

The Solicitor-General will answer the separate question regarding the Crown Prosecution Service and the Serious Fraud Office.

Police Funding

Mr. Paice: To ask the Secretary of State for the Home Department how much was provided by the Government to police authorities *(a)* from national non-domestic rates, *(b)* from revenue support grant, *(c)* from Home Office police principal grant, *(d)* from all other Home Office and other special grants excluding capital and *(e)* as capital grants were in each year since 1996–97. [148612]

Ms Blears *[holding answer 19 January 2004]:* The information is set out in the table.

£ million

	(a) Redistribute of non-domestic rates[1,2]	*(b) Revenue support grant*[1,2]	*(c) Home Office police grant*	*(d) Total other grants*[3]	*(e) Capital grants*[4]
1996–97	1,061	1,485	3,349	—	190
1997–98	1,035	1,516	3,473	—	170
1998–99	1,027	1,525	3,649	—	143
1999–2000	1,106	1,541	3,698	—	147
2000–01	1,201	1,486	3,823	73	143
2001–02[5]	1,214	1,596	3,995	229	221
2002–03	1,311	1,504	4,065	349	316
2003–04	770	2,055	4,288	658	306
2004–05	744	2,222	4,380	657	281

[1] *Source:* Office of the Deputy Prime Minister & National Assembly for Wales.
[2] Revenue Support Grant (RSG) includes SSA Reduction Grant and Central Support Protection grant. RSG and NNDR for the City of London Police is provided in respect of ail its functions.
[3] Specific grants since 2000–01 for targeted programmes.
[4] Capital Grants include Home Office police capital grant, supplementary credit approvals, Air Support and Premises Improvement Fund, Airwave capital and C3i. Totals up to 2001–02 include an element for major capital schemes allocated under the Priority Planning List (PPL) scheme.
[5] The grant figures for 2001–02 and 2002–03 are not directly comparable, owing to changes from 2002–03 in the method of funding the National Crime Squad and the National Criminal Intelligence Service.

Mr. Hoyle: To ask the Secretary of State for the Home Department if he will take steps to ensure Chorley receives police funding which reflects population growth there. [161608]

Ms Blears: General grant funding for police authorities is allocated on the basis of an estimate of relative need for police resources, taking into account local resources. Resident population is the most significant single factor in the estimate of need. The latest population estimates available from the Registrar General are used.

The Chief Constable and the Police Authority allocate resources at force level according to local plans and operational priorities.

Lancashire Police Authority's grant in 2004–05 will be £182.9 million, an increase of £5.8 million or 3.25 per cent. over this year. It will also receive over £17 million for targeted programmes and capital provision.

I understand from the Chief Constable that Lancashire Constabulary have embarked on a significant community engagement programme. Additional community beat officers have been put in place across the constabulary over the last 12 months, including in Chorley. The constabulary plans to deploy an additional 15 officers to the Southern Division over the next 12 months, who will be split equally across each of the three borough areas. In addition, community support officers are in place. The constabulary has recently launched the Community Safety Accreditation Scheme to improve the quality of service to local communities.

Police Officers

Mr. McLoughlin: To ask the Secretary of State for the Home Department what the training costs were *(a)* per officer and *(b)* in total for new police officers in (i) the East Midlands and (ii) West Derbyshire in each year since 1997. [163739]

Ms Blears: Information concerning the training costs *(a)* per officer and *(b)* in total for new police officers in (i) the East Midlands and (ii) West Derbyshire in each year since 1997 is not held centrally and could be obtained only at disproportionate cost.

Mr. McLoughlin: To ask the Secretary of State for the Home Department how many police officers were recruited in *(a)* the East Midlands and *(b)* West Derbyshire in each year since 1997; and what percentage of each year's intake remains as serving officers, in each case. [163741]

Ms Blears: Information on probationer wastage is not available. Data are in the form of police constables recruitment and wastage for the East Midlands Government Office Region and Derbyshire Police Force Area. Wastage comprises retirements, resignations, dismissals, deaths and transfers to police forces outside England and Wales. Wastage in a particular year does not necessarily relate to recruitment in that year.

The available information is given in the table.

Police constables

Number

	East Midlands[1]	*Derbyshire Police*
1997		
Recruitment	508	85
Wastage	243	47
1998		
Recruitment	402	66
Wastage	288	65
1999		
Recruitment	193	50
Wastage	283	41
2000		
Recruitment	302	79
Wastage	201	31

Police constables

Number

	East Midlands[1]	*Derbyshire Police*
2001		
Recruitment	556	103
Wastage	233	51
2002		
Recruitment	630	111
Wastage	280	39
2003		
Joiners[2]	825	264
Leavers[3]	346	74

[1] East Midlands comprises Derbyshire, Leicestershire, Lincolnshire, Northamptonshire and Nottinghamshire Police Force Areas.

[2] Not comparable to previous recruitment figures as data include transfers from other England and Wales forces and officers returning after a period of secondment.

[3] Not comparable to previous wastage figures as data do not include transfers to other England and Wales forces and officers leaving after a period of secondment.

Sentencing Statistics

Mr. Maude: To ask the Secretary of State for the Home Department how many persons were sentenced in England and Wales for motoring offences, excluding those causing death or serious injury, in each of the last 10 years; how many of those received a custodial sentence; and what the average custodial sentence length was. [163242]

Caroline Flint: The information requested is contained in the table and gives the number of offenders sentenced, those sentenced to immediate custody, the custody rate and the average custodial sentence length at all courts for motoring offences, other than those causing death or injury, England and Wales 1993 to 2002.

Number of offenders sentenced[1]*, sentenced to immediate custody, the custody rate and average custodial sentence length for motoring offences*[2] *at all courts*

England and Wales 1993 to 2002	*Total offenders sentenced*	*Sentenced to immediate custody*[3]	*Custody rate*[4] *(percentage)*	*Average custodial sentence length (months)*
1993	675,868	9,280	1	3.7
1994	650,979	13,116	2	3.7
1995	653,671	14,766	2	3.7
1996	658,991	14,598	2	3.8
1997	658,822	15,967	2	3.8
1998	674,194	16,006	2	3.7
1999	641,160	17,412	3	3.8
2000	615,233	17,832	3	3.8
2001	591,220	18,867	3	3.9
2002	604,289	19,139	3	4.0

[1] These data are on the principal offence basis.

[2] Excludes offences involving death or injury, theft and unauthorised taking of motor vehicle and non-payment of vehicle excise licence.

[3] Includes unsuspended imprisonment, secure training orders, S91–92 of the Powers of the Criminal Courts (Sentencing) Act 2000 (replaced Section 53 of the Children and Young Persons Act 1933), partly suspended sentences, detention in a young offender institution and detention and training orders.

[4] Proportion of offenders sentenced who were sentenced to immediate custody.

Statistics on court proceedings for 2003 will be published in the autumn.

Shopkeepers (Harassment)

Mr. Hepburn: To ask the Secretary of State for the Home Department how many shop workers in *(a)* the Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and *(d)* England and Wales made formal complaints of harassment and violence in (i) 1997, (ii) 2001 and (iii) 2004 to date. [163603]

Ms Blears: This information is not collected centrally.

TREASURY

Bushmeat

Mr. Wyatt: To ask the Chancellor of the Exchequer what action he is taking to control the import of bushmeat. [164495]

John Healey: I refer my hon. Friend to the answer I gave to the hon. Member for Selby (Mr. Grogan) on 29 March 2004, *Official Report*, column 1232W.

Civil Service

Mr. Laurence Robertson: To ask the Chancellor of the Exchequer what estimate he has made of the cost savings arising from the reduction of 40,500 Civil Service jobs in *(a)* each of the years between now and 2008 and *(b)* the following five years; and if he will make a statement. [163855]

Mr. Boateng: The Budget announced that the Department for Work and Pensions has put forward plans to reduce its total staffing by 30,000 between now and 2008. These staff reductions will achieve a total gross administration saving of around £600 million a year in 2003–04 prices.

The Budget also announced the integration of HM Customs and Excise and the Inland Revenue. The creation of a single revenue department, along with existing plans and proposed efficiency reforms, will create scope for an overall staff reduction equivalent to 10,500 posts by 2008. The location and nature of staffing changes will be determined in detailed business planning to be undertaken by the revenue departments and their new Executive Chairman, when appointed, who will be consulting as appropriate with all key stakeholders including trade unions.

Gift Aid

John Barrett: To ask the Chancellor of the Exchequer (1) what steps his Department is taking to make heritage and conservation charities aware of his plans to amend Gift Aid rules on day memberships; [164472]

(2) if he will postpone his plans to amend Gift Aid rules on day memberships to allow heritage and conservation charities to make appropriate amendments to their financial and other plans; [164473]

(3) what deadlines have been set for the proposed consultation on his plans to amend Gift Aid rules on day memberships; [164474]

(4) which organisations his Department intends to consult over plans to amend Gift Aid rules on day memberships; [164475]

(5) what estimate he has made of the number of heritage and conservation charities that will be affected by his Department's proposals to amend gift aid rules on day memberships; [164476]

(6) if he will estimate the additional Treasury revenue that would be raised in each of the next three years from his Department's proposed amendment to Gift Aid rules on day memberships. [164477]

John Healey: The Chancellor of the Exchequer announced in this year's Budget that the Government will continue to consult with charities to develop a new definition of the special statutory exemption from the Gift Aid rules for heritage and conservation charities.

The Inland Revenue has since written to all charities and representative bodies who participated in the first stages of consultation following last year's pre-Budget report. A copy of this letter has also been posted on the Inland Revenue website. Charities have until 11 June to contribute to this extended consultation.

The Government aim to announce the results of the consultation around the time of the Spending Review giving charities the opportunity to take account of the changes in their financial planning.

It is not possible to establish the number of charities that might be affected by, nor the revenue effect of, any changes which might be proposed following this consultation since charities are not required to differentiate on their Gift Aid claims the amounts they are claiming for 'day membership' income from other amounts they are claiming. I refer the hon. Gentleman to the answer I gave to the hon. Member for Leominster (Mr. Wiggin) on 15 January 2004, *Official Report*, columns 865–66W.

Government Debt

Mr. Laurence Robertson: To ask the Chancellor of the Exchequer what the cost of servicing total Government debt was in each of the last five years for which figures are available; and if he will make a statement. [163858]

Mr. Boateng: The latest available figures for debt interest are published by the Office for National Statistics in Table 1.1C of Financial Statistics. A copy of this table has been placed in the Library of the House.

Government Revenue Deficit

Hugh Robertson: To ask the Chancellor of the Exchequer what estimate he has made of the cost of servicing the Government revenue deficit in financial year 2003–04; and if he will make a statement. [163857]

Mr. Boateng: The latest available estimate of debt interest is in Table C11 on page 266 of Budget 2004 (HC 301).

Head Teachers

Lady Hermon: To ask the Chancellor of the Exchequer whether his commitment in the Budget in relation to direct payment of *(a)* £55,000 to primary school and *(b)* £180,000 to secondary school headteachers includes Northern Ireland. [164387]

Ruth Kelly: The Budget announcement related to schools in England only. Funding in Northern Ireland is a matter for the Northern Ireland Executive.

Income Tax

Mr. Rosindell: To ask the Chancellor of the Exchequer how much income tax was collected from each income tax bracket in the last fiscal year for which figures are available. [162466]

Dawn Primarolo: I refer the hon. Member to table 2.6 "Income tax liabilities, by taxpayer's marginal rate" on the Inland Revenue website www.inlandrevenue.gov.uk/stats/income_taxAable-26.pdf.

Public Sector Employees

Mr. Simmonds: To ask the Chancellor of the Exchequer how many employees there were in the public sector in each year since 1995. [163879]

Mr. Boateng: The information requested is published in Labour Market Trends, a copy of which is available in the Library and which can also be accessed through the Office for National Statistics' website: http://www.statistics.gov.uk/downloads/theme labour/LMT september03.pdf

Public Sector Relocation

Hugh Bayley: To ask the Chancellor of the Exchequer which Government Departments suggested York to Sir Michael Lyons' review of public sector relocation as a possible place for relocating their staff; and which groups of staff were mentioned in this context. [163802]

Mr. Boateng: Sir Michael Lyons' review was carried out on the basis that Government Departments who identified possible locations for dispersal of activity should not be named until such time as their plans have been fully worked up and they are ready to make an announcement.

Spirits Tax

Mr. Alan Reid: To ask the Chancellor of the Exchequer what assessment he has made of the tax stamps schemes for bottles of spirits *(a)* run by the United States Administration prior to 1985 and *(b)* proposed by the Norwegian Government in 1997. [164497]

John Healey: Tax stamps have been introduced in forty different countries for a variety of reasons ranging from quality assurance to tackling fraud. The wide range of different schemes and reasons for their introduction or withdrawal means that comparisons between countries cannot easily be drawn.

The USA withdrew its federal tax stamps in 1985 when a 1954 law governing marks on spirits was repealed. However, some States within the USA continued to use tax stamps for a number of reasons including the collection of state duties.

Norway passed enabling legislation for tax stamps in 1997 but has not yet introduced stamps, so it is difficult to make any meaningful assessment of its proposed scheme.

We have received information from over 20 countries about the operation of their tax stamps schemes. Of eight European Union and accession countries where direct inquiries have been made, Denmark, Italy, Portugal, Spain, Poland and the Czech Republic have no plans to withdraw their schemes. Poland in particular emphasised the anti-fraud benefits of their scheme.

Mr. David Stewart: To ask the Chancellor of the Exchequer (1) if he will estimate the impact of the introduction of strip stamps upon the competitiveness of UK distillers, with particular reference to the Scotch whisky sector; [161642]

(2) what estimate he has made of the effect on the cost of packaging for UK distillers of the introduction of strip stamps; and what estimate he has made of a consequent impact upon consumer prices; [161643]

(3) what estimate he has made of the impact of the introduction of strip stamps upon the efficiency of the UK distilling sector, with particular reference to Scotch whisky distillers; [161644]

(4) how many strip stamps he estimates UK distillers will need to purchase each year; and if he will estimate the impact of this cost upon *(a)* employment and *(b)* profitability in the UK; [161645]

(5) how many jobs he expects to be *(a)* eliminated and *(b)* created by the introduction of strip stamps; and what estimate he has made of possible impact upon consumer prices. [161646]

John Healey: The Government announced in the Budget that, owing to continued high levels of spirits duty fraud, it would legislate to implement the Roques report recommendation to introduce tax stamps for spirits. In doing so, the Government will help the trade financially with compliance costs by deferring payment for tax stamps, assisting firms with capital investment and freezing spirits duty for the remainder of this Parliament. Further announcements will be made once detailed options have been considered in discussion with the trade.

A regulatory impact assessment, to be published alongside the Finance Bill, will set out the anticipated impacts, costs and benefits of the tax stamp regime. The impacts on compliance costs, competitiveness, employment and consumer prices will all depend on the detailed measures taken to implement tax stamps, on the measures the Government will introduce to offset the impact on legitimate business and on business decisions taken by companies involved in the spirits production and supply industry.

Miss McIntosh: To ask the Chancellor of the Exchequer (1) what discussions have taken place with the spirits industry about introducing tax stamps; and when he expects to publish full details and costs of the proposals for tax stamps; [164824]

(2) what the reasons are for the delay in publishing details and costs of the proposed tax stamps since his original proposal. [164825]

John Healey: There has been extensive consultation with the spirits industry since December 2001 when a formal consultation on tax stamps issues was launched. Following the Chancellor's announcement in last year's Pre-Budget Report (Cm 6042) that he would implement at the Budget the Roques report recommendation of tax stamps for products subject to the spirits rate of duty when an equally effective alternative could be found, Ministers and officials have received a wide range of representations and held more than 40 meetings with industry representatives. These discussions are continuing and joint industry Government working groups have been established to progress the implementation of tax stamps.

It is the Government's intention to publish a full Regulatory Impact Assessment alongside this year's Finance Bill on 8 April.

Tax Collection

Mr. Rosindell: To ask the Chancellor of the Exchequer what the cost of tax collection was in each of the last five financial years for which figures are available. [162454]

Dawn Primarolo: For years up to and including 2001–02, details of the duties collected by the Department and the associated costs of administering those duties can be found in Table 1 at Appendix 1 of the Inland Revenue Annual Report for the year ending 31 March 2002 (published in December 2002).

For 2002–03, comparative figures are:

	£ million
Net receipt of Inland Revenue duties	219,194.8
Total cost of administering Inland Revenue duties	2,431.9

Tax Receipts

Mr. Rosindell: To ask the Chancellor of the Exchequer how much money the Government received from *(a)* VAT, *(b)* income tax, *(c)* inheritance tax, *(d)* corporation tax, *(e)* capital gains tax and *(f)* stamp duty in each of the last five financial years for which figures are available. [162453]

Dawn Primarolo: Receipts from VAT are published on the HM Customs and Excise website, www.hmce.gov.uk/about/reports/ann-report-2003/a1.pdf.

Income tax, inheritance tax, corporation tax, capital gains tax and stamp duty receipts are published on the Inland Revenue website, www.inlandrevenue.gov.uk/stats/tax_receipts/table-12.pdf.

Trusts (Income Tax)

Mr. Flook: To ask the Chancellor of the Exchequer (1) what discussions he has had with the trust sector regarding the effect of income tax on pre-owned assets on trusts set up before December 2003; [164561]

(2) what assessment he has made of the ease with which tax avoidance schemes using trusts can be dismantled. [164781]

Dawn Primarolo: The consultation process on pre-owned assets was open to all interested parties, and the Chancellor took account of all responses received when settling the details announced in his Budget. How readily any particular tax avoidance scheme using trusts can be dismantled will depend on the scheme; in the case of schemes involving pre-owned assets the Chancellor concluded, with the benefit of consultation, that dismantling them would often be difficult. Provision to address this is among the matters covered by his Budget announcements.

TRADE AND INDUSTRY

ACAS

Brian Cotter: To ask the Secretary of State for Trade and Industry what the cost is of production of hard copy leaflets issued by ACAS that cover employment rights. [164157]

Mr. Sutcliffe: I refer the hon. Member to my reply given on 15 March 2004, *Official Report*, columns 63–64W.

Advice Booklets

Brian Cotter: To ask the Secretary of State for Trade and Industry pursuant to her answer of 11 March 2004, *Official Report*, column 1676W, on advice booklets, which of the organisations invited to be part of the practitioner group *(a)* accepted the invitation to form part of the group and *(b)* supported the policy to cease production of hard copy prints of the relevant leaflets. [164228]

Mr. Sutcliffe: I refer the hon. Member to my reply to the hon. Member for Birmingham, Selly Oak (Lynne Jones) on 25 March 2004, *Official Report*, columns 962–93W.

The group were asked for their views on reducing the number of publications in hard copy. No one at the meeting opposed the proposed changes.

Arms Exports

Mr. Gardiner: To ask the Secretary of State for Trade and Industry how many open individual export licences for arms components have been granted to *(a)* Côte d'Ivoire, *(b)* Nigeria, *(c)* Senegal, *(d)* Colombia, *(e)* Angola and *(f)* Namibia in each year since 2002 broken down by (i) type, (ii) volume and (iii) value; and under what conditions each licence was granted. [163414]

Nigel Griffiths: Since May 1997, the Government have published an Annual Report on Strategic Export Controls containing details of all goods, including components, authorised for export from the UK and to which destinations. The total value of SIEL licences issued for each destination is recorded in these reports. Copies of the Annual Report (up to and including 2002) are available from the Libraries of the House. Details of export licences approved in 2003 will be published later this year in the 2003 Annual Report.

Concerning quantities exported, HM Customs and Excise and DTI compliance officers check that the terms of the licence have been respected but do not store data on volumes of actual exports which have been vetted and licensed.

All licensing decisions are only made following careful and rigorous scrutiny of applications against the consolidated EU and national arms export licensing criteria, taking account of circumstances prevailing at the time and other announced Government policies.

Mr. Gardiner: To ask the Secretary of State for Trade and Industry what weapons components have been licensed to *(a)* Brazil, *(b)* Jordan, *(c)* Malaysia, *(d)* Singapore, *(e)* Turkey, *(f)* South Korea and *(g)* South Africa in the last two years; and what quantities each of those countries has received. [163416]

Nigel Griffiths: Since May 1997, the Government have published an Annual Report on Strategic Export Controls containing details of all goods, including components, authorised for export from the UK and to which destinations. The total value of SIEL licences issued for each destination is recorded in these reports. Copies of the Annual Report (up to and including 2002) are available from the Libraries of the House. Details of export licences approved in 2003 will be published later this year in the 2003 Annual Report.

Concerning quantities exported, HM Customs and Excise and DTI compliance officers check that the terms of the licence have been respected but do not store data on volumes of actual exports which have been vetted and licensed.

Tony Baldry: To ask the Secretary of State for Trade and Industry whether her Department has binding agreements in place to prevent the re-export of UK components without the prior knowledge of the UK Government. [163850]

Nigel Griffiths: When considering an application for a licence to export strategic goods, the DTI requires the applicant to forward an undertaking from the end-user of the goods that they are for his ultimate end-use. A risk assessment is then made, taking account of any information we may hold on the end-user and the risk of diversion. I am advised it would not be practicable for the Government or another party to enter into binding agreements with end-users who are outside UK jurisdiction.

Tony Baldry: To ask the Secretary of State for Trade and Industry how many countries since the introduction in July 2002 of revised guidelines for the licensing of arms components in incorporation cases she estimates have received export licences for arms components where the licensee may not be the final end-user of the finished goods. [163851]

Nigel Griffiths: For 2003, information on whether UK licensed goods were for incorporation has been recorded on the DTI Export Control Organisation's (ECO) databases. Information prior to this can be obtained only at disproportionate cost, via a manual search of licensing files. Statistics on incorporation cases will be published in the Government's 2003 Annual Report on Strategic Export Controls later this year.

Tony Baldry: To ask the Secretary of State for Trade and Industry what definition her Department uses of a non-aggressive component. [163852]

Nigel Griffiths: The DTI has no definition of a non-aggressive component. All components which are on the UK Military List or EU Dual-Use Regulation require an export licence before they may be exported.

Broadband

Mr. Russell Brown: To ask the Secretary of State for Trade and Industry what plans she has to extend *(a)* broadband access to the internet and *(b)* digital television to all rural areas of the UK. [164221]

Mr. Timms: The DTI is working with the devolved Administrations and regional development agencies to extend the availability of broadband still further with a view to broadband being available in every community by the end of next year. We have given them £30 million for pilot schemes to extend the availability of broadband in areas not currently served by the market. This has helped to stimulate further regional schemes across the UK worth at least £377 million over 2000–06.

In England, the Broadband Aggregation Project will make sure that the £1 billion Government spend on broadband connectivity for the public sector between 2003 and 2006 will offer the best value for money and widen availability to surrounding communities.

A joint DTI/Defra rural broadband team has been set up specifically to address the issue of availability of broadband in rural areas. It aims to support local community action to secure affordable access to broadband, to ensure rural communities derive the maximum benefit from the deployment of broadband and promote rural access and take up of broadband to those in a position to effect positive change.

With regard to digital TV, we said in 1999 that before we switch off analogue transmissions everyone who could receive the main public service broadcasting channels in analogue form must be able to receive them on digital systems, and that switching must be affordable for the vast majority of people. These criteria still hold true. However, the Government consider that the advantages of digital television are such that the question is not whether, but how and when we should switch off analogue transmissions.

One of the main arguments for switching off analogue transmissions is that until we do so around 25 per cent. of households will not be able to receive digital services through an aerial. This is because if the power of digital transmissions were increased to enable more complete coverage this would interfere with analogue transmissions, thereby degrading the quality of analogue television reception. Full digital coverage therefore depends on switching off the analogue signal. We are currently working with broadcasters and other stakeholders (including consumer groups) under the Digital Television Action Plan (available at www.digitaltelevision.gov.uk) on an analogue to digital switchover implementation plan. One of the deliverables under this plan will be a region by region timetable for switchover.

Many rural areas are already able to receive digital television signals. Whether a particular household can receive them depends on whether that household is in the reception area of one of the 80 main transmitters from which digital signals are currently broadcast, not on whether it is in a rural or urban area. Digital terrestrial television reception can be checked by entering the viewer's postcode on either the Freeview or the Digital Television Group (DTG)'s websites www.freeview.co.uk or www.dtg.org.uk. Additionally, retailers are advised to check whether customers can receive digital terrestrial television where they live before buying, and most retailers normally bring this to the customer's attention at the point of sale.

It is already possible to receive digital television services by satellite in the vast majority of rural areas. Satellite broadcasts are available to over 98 per cent. of households in the United Kingdom. Viewers can choose to receive all the BBC services and many others free-to-view by purchasing a satellite dish. Alternatively they can subscribe for packages of services which include all public broadcasting services.

Mr. David Stewart: To ask the Secretary of State for Trade and Industry what targets the Government have set for the development of broadband by 2010. [164264]

Mr. Timms: The Government's current broadband target is to have the most competitive and extensive broadband market in the G7 countries by the end of 2005. The Government are in the process of considering with stakeholders (including the Broadband Stakeholder Group), on what targets are necessary to measure the UK's progress in this area after this date. This process will be completed during this year and the Government will make an announcement once the review is complete.

Mr. David Stewart: To ask the Secretary of State for Trade and Industry if she will make a statement on Government plans to widen access to broadband over the next 12 months. [164285]

Mr. Timms: In November 2003, the DTI called on the Government, public bodies and broadband providers to bring broadband availability to 100 per cent. of communities across the UK by the end of 2005. BT and other stakeholders in the telecommunications industry came forward to support this target.

The Government expect that considerable progress will be achieved within the next 12 months. According to Ofcom, an estimated 85 per cent. of UK homes and businesses are covered by a mass-market broadband solution and this is almost certain to rise to 90 per cent. this year.

The Government welcome the advice of the Broadband Stakeholder Group in helping to develop a strategy for reaching the last 10 per cent. of communities. This will involve continuing action by the public and private sectors working in partnership to complete the access to an extensive and competitive broadband market throughout the UK using a variety of technologies.

Decisions on where and when networks will be deployed will be predominantly for the market. However, the Government will continue to play their part, for example, by aggregating the £1 billion demand for public

sector connectivity to 2006 through the Broadband Aggregation Programme, helping to ensure that this investment extends broadband availability to local communities.

Business Link

Mrs. Curtis-Thomas: To ask the Secretary of State for Trade and Industry if she will make a statement on the performance of Business Link. [163322]

Nigel Griffiths: The performance of BL continues to grow strongly. More customers are using BL services then ever before—330,000 businesses last year and at the same time, they are becoming increasingly satisfied—with the quality of the services they are receiving.

The latest performance results (up to the end of Quarter 3 of 2003–04) show that market penetration has already reached the full year target of 27 per cent—with more than double the number of businesses helped this year compared to the same point two years ago and customer satisfaction is still rising and now stands at 87 per cent.

Consumer and Investor Protection

Malcolm Bruce: To ask the Secretary of State for Trade and Industry if she will break down how the funding for *(a)* miscellaneous consumer protection and *(b)* investor protection listed in her Departmental Report 2003 was allocated in 2003–04; and what amounts were allocated in each year since 1997. [147812]

Mr. Sutcliffe: A number of items are included under "Miscellaneous Consumer Protection" including:

£ million

	2002–03	*2003–04*
Consumer Safety (inc. grant-in-aid for ROSPA)	3.4	1.0
Economic Consumer Protection	1.1	4.2
Consumer Information	2.1	2.4
Modernisation Fund[1]	6.6	6.3

[1] The Modernisation Fund is intended to improve the capability and effectiveness of the trading standards service in consumer protection enforcement.

Similarly investor protection covers several items, including:

£ million

	2002–03	*2003–04*
Costs: Disqualification of Directors	13.0	16.9
Companies house late filing penalties	2.4	2.4
Financial Reporting Council	0.8	1.1
Repayments to Treasury solicitors[1]	1.4	1.7
S447 inquiries by outside investigators	1.1	1.1

[1] Payments for professional services in connection with company investigations, including the costs of hiring counsel.

Unfortunately changes in the DTI's accounting system, and changes in responsibility within the Department make it impossible, except at disproportionate cost, to give a consistent breakdown of figures on this basis back to 1997. However drawing on figures from past DTI Expenditure Plans Reports, the sums allocated to these areas since 1997 are:

£ million

	Miscellaneous consumer protection	*Investor protection*
1997–98	8.0	17.4
1998–99	3.2	21.6
1999–2000	3.2	19.3
2000–01	10.7	22.1
2001–02	11.8	23.0
2002–03	17.1	23.0
2003–04	15.0	23.2

Equal Pay Reviews

Mr. Milburn: To ask the Secretary of State for Trade and Industry how many employers, and in which sectors, have conducted equal pay reviews in each year for which figures are available. [163542]

Mr. Sutcliffe: Research published by the Equal Opportunities Commission (EOC) in 2003 has found that 36 per cent. of large organisations (500 or more employees) in their main survey had either conducted an equal pay review (EPR), were in the process of conducting one, or were planning to do so before the end of 2003. 27 per cent. of medium-sized organisations (100–499 employees) had conducted, were conducting, or were planning to conduct an EPR by the end of 2003.

There is no information available on which sectors have conducted equal pay reviews, nor is there information available on organisations conducting pay reviews prior to 2003. However, the EOC survey found that in the manufacturing sector 57 per cent. of organisations had an equal pay policy, in the private services sector 54 per cent. had a policy and in the public sector 69 per cent. had an equal pay policy.

Government Procurement

Mr. Jim Cunningham: To ask the Secretary of State for Trade and Industry what steps she is taking to ensure that procurement by the Government supports innovation within UK manufacturing. [163568]

Ms Hewitt: This Government are committed to British manufacturing and helping manufacturers in Britain to compete successfully for public contracts.

That is why the my right hon. Friend Prime Minister has asked me to chair a cross-government ministerial team to deliver the agenda set out in the Government's Innovation Report, building on work to identify areas where public procurement can better facilitate innovation and how this can be achieved, particularly through developing guidance for public procurers on how to procure innovative solutions and working with NHS Estates to draw innovation through the supply chain.

This is also why in October 2002 this Government launched their Defence Industrial Policy, which commits us to become more innovative in the awarding of major defence contracts and which was the context for the decision to award the contract for Hawk.

Interest Rate Controls

Mr. Gardiner: To ask the Secretary of State for Trade and Industry when she expects the research on the way interest ceilings work in other EU countries will be completed. [164656]

Mr. Sutcliffe: We expect to complete and publish in late spring 2004 research into the way that interest rate controls have worked in other countries.

Job References

Harry Cohen: To ask the Secretary of State for Trade and Industry what requirements are in place to ensure that job references provided by employers are accurate and not misleading; what assessment she has made of the adequacy of remedies for those who may be a victim of an inaccurate reference and may be temporarily unemployed as a consequence, with particular reference to the cost of obtaining a remedy; and if she will make a statement. [164083]

Mr. Sutcliffe: Employees can take action in the employment tribunals if they consider that a reference discriminates against them unlawfully, for instance on grounds of sex or sexual orientation. Employers also have a common law duty to take reasonable care in supplying references. An employee provided with a misleading or inaccurate reference could consider taking action in the civil courts against its supplier. The Department has made no specific assessment of the potential cost involved in seeking redress for a misleading reference or the remedies available.

National Minimum Wage

Huw Irranca-Davies: To ask the Secretary of State for Trade and Industry what estimate she has made of the number of low paid workers who will directly benefit from the increase in the minimum wage in *(a)* the constituency of Ogmore, *(b)* Bridgend county borough and *(c)* Wales. [164554]

Mr. Sutcliffe: It is not possible to provide estimates specifically for the constituency of Ogmore or Bridgend county borough. Based on the Office for National Statistics' Low Pay data released in 2003, the DTI estimates that between 90,000 and 110,000 people in Wales stand to benefit directly from the October 2004 uprating of the National Minimum Wage (that was recently announced).

Post Office Card Account

Mr. Berry: To ask the Secretary of State for Trade and Industry if she will take steps to ensure that the next generation of PIN pads introduced into post offices will be fully accessible for disabled people, with particular reference to those with sight problems. [163643]

Mr. Timms: The design and operation of the Post Office card account, including the use of PIN pads, is a commercial matter for Post Office Ltd. I can confirm, however, that the Post Office is working to ensure its services are as accessible to as many customers as possible. To this end it has already made improvements to its PIN pads. It has: (i) developed a key guard for the PIN pad which clips over the unused keys to simplify its appearance and help guide customers; and (ii) added a raised dot to the "5" key. Further improvements are planned including: (i) producing a guide with RNIB to enhance the enter, clear and cancel keys by inserting tactile symbols next to each of these keys; (ii) different beeps for the enter, clear and cancel keys; and (iii) large print, tactile maps and audio guides to be available in post offices to assist customers to use PIN pads. The Post Office is in consultation with the Disability Rights Commission (DRC) and other representative groups about these adjustments.

Small Businesses

Mrs. Curtis-Thomas: To ask the Secretary of State for Trade and Industry what steps the Government have taken to help small businesses in Crosby since 1997. [160582]

Nigel Griffiths: In his Budget statement the Chancellor announced a number of steps to help small businesses including an increase of capital allowances to 50 per cent. and raising VAT registration threshold to 58 per cent., all of which helps Small Businesses in Crosby. In addition since 2001 the Business Link Operator for Greater Merseyside has contributed £13,700 consultancy subsidy to help 126 businesses, which includes three organisations who have shown an interest in improving their business through developing their people. Two of these are now preparing towards obtaining the Investors in People standard.

A number of organisations have taken advantage of Business Link for Merseyside's subsidised consulting programme under Objective One, one of which wished to establish a scenic/prop workshop for the film and media industry, the subsidy helped the organisation draw up a business plan and raise the finance to develop their business idea. A day Nursery who have expanded into new premises were helped by using this subsidy to help promote their new premises by a production of a new brochure. Two financial service companies have benefited, one by using the subsidy to develop their website to promote financial services, the other to obtain a network solution to provide more efficient and effective ICT services within the business. Another Merseyside company is looking to expand their business and will use the subsidy to develop a marketing plan.

One organisation has used the Business Link's Supply Chain Programme and has just signed up for a second year, part of the programme puts interested businesses on a database and matches them up with purchasers further up the supply chain, this gives the business greater opportunity to grow.

The Business Link has assisted a number of businesses to start-up, this includes helping to draw up a plan to restart a business following pregnancy of the owner, helping identify and obtain funding to allow an employee of a small business to buy out from the retiring employer, assisting a new business to access growth finance, providing an action plan to a business wishing to recycle computers to charities.

A company, started with a loan from Princes Trust approached the Euro Info Centre North West (hosted by Greater Merseyside Enterprise) for information on further European funding to develop the business into Europe. This has given the business access to further

funding which should help it grow into Europe. Another Business has taken advantage several times of the UKTI trade mission service to develop its overseas market opportunities.

Mrs. Curtis-Thomas: To ask the Secretary of State for Trade and Industry how many people were employed in small businesses in each of the last seven years. [163313]

Nigel Griffiths: The figure for 2003 is not yet available.

The estimated numbers of people employed in small businesses (businesses with 0 to 49 employees) in the United Kingdom private sector (including public corporations and nationalised bodies) from 1997 to 2002 are as follows:

	People (Thousand)
1997	9,418
1998	9,652
1999	9,557
2000	9,650
2001	9,809
2002	9,911

These figures are available at www.sbs.gov.uk/statistics/smestats.php.

State Aid

Ann Winterton: To ask the Secretary of State for Trade and Industry how many requests to the European Commission concerning state aid compliance in the regions of *(a)* the north west, *(b)* the north east and *(c)* Yorkshire and the Humber have been made since 2000; and how many requests have been turned down. [163708]

Mr. Mike O'Brien: The following figures set out the best available information on the number of notifications in the regions of the north west, north east and Yorkshire and the Humber made to the European Commission since 2000, excluding agriculture, fishery and transport cases.

North West:

Three SME block exemption, three training aid block exemption and one notified scheme using the full notification procedure—Aid N282/2003 Cumbria Broadband—Project Access—Advancing Communication for Cumbria and Enabling Sustainable Services

North East:

11 SME block exemption, four training aid block exemption and no notified schemes

Yorkshire and Humber:

Four SME block exemption, two training aid block exemption and one notified scheme using the full notification procedure—Aid N486/2003—Yorkshire and Humber Research and Development scheme.

The European Commission has approved all of these schemes.

Taxi Licences

Mrs. May: To ask the Secretary of State for Trade and Industry what assessment she has made of the cost to local authorities of reviewing local taxi licence restrictions. [164058]

Mr. Darling: I have been asked to reply.

There should be no significant additional cost involved in the procedure outlined in the Government's Action Plan. Any local licensing authority which currently controls taxi numbers must base their policy on an assessment of local demand. Our proposals simply aim to formalise that process.

Mrs. May: To ask the Secretary of State for Trade and Industry what criteria the Government are setting for the assessment for local taxi licences' restrictions. [164060]

Mr. Darling: I have been asked to reply.

We are asking those local licensing authorities which currently control taxi numbers to review their policies to determine whether such policies are in the best interests of passengers. As stated in the Action Plan, our request to the licensing authorities will include guidelines on quantity restrictions, including a review of the level of service available to consumers and consumer choice. The guidelines will cover (i) effective surveys to measure demand, including latent demand, for taxi services; (ii) consultation with all those working in the market, consumer and passenger (including disabled) groups, groups which represent those passengers with special needs, the police, a wide range of transport stakeholders e.g. rail/bus/coach providers and traffic managers; and (iii) publication of conclusions, including an explanation of the particular local circumstances which justify restrictions, what benefits they deliver to consumers and how decisions on numbers have been reached. Authorities will be encouraged to make all the evidence gathered to support the decision-making process available for public scrutiny.

Mrs. May: To ask the Secretary of State for Trade and Industry what consultations her Department will undertake with *(a)* the taxi trade and *(b)* local authorities prior to issuing guidelines to local authorities on taxi licence restrictions and the service available to consumers. [164061]

Mr. Darling: I have been asked to reply.

We shall consult a range of stakeholders, including both the taxi trade and licensing authorities, on the draft best practice guidance which we intend to publish later this year.

Mrs. May: To ask the Secretary of State for Trade and Industry (1) what measures will be available to her Department to intervene in local authorities' decisions on taxi licence restrictions; [164062]

(2) what role her Department will play in the assessment of local conditions for taxi licence restrictions. [164063]

Mr. Darling: I have been asked to reply.

As stated in the Action Plan, we shall be asking those local licensing authorities which currently impose a numerical limit on taxi licences to justify their policy and to publish that justification every three years and in the Local Transport Plans which cover their area. We shall note what the local authorities tell us in order that we can consider if further action is needed when we carry out a review in three years' time.

Trade (Taiwan and China)

John Robertson: To ask the Secretary of State for Trade and Industry if she will make a statement on recent levels and trends in UK trade with *(a)* Taiwan and *(b)* China. [164032]

Mr. Mike O'Brien: The value of UK trade in goods, with Taiwan and China is given in the following table.

UK trade with Taiwan, in the latest three months, was 2.5 per cent. lower than the same period a year earlier. Trade with China increased by 31.4 per cent. over the same period.

UK trade in goods with Taiwan and China

£ million

	Taiwan	*China*
2002		
November	261	740
December	264	694
2003

Business Monitor MM24, Monthly Review of External Trade Statistics, ONS.

Trade Agreements

Mr. Battle: To ask the Secretary of State for Trade and Industry how the Government will follow up their recent submission to the European Commission on reforming the rules of origin for preferential trade agreements. [164759]

Mr. Mike O'Brien: The Government are following up their submission in response to the European Commission's Green Paper on the future of rules of origin in preferential trade arrangements through discussions with officials in a range of European Commission Directorates General (Trade Internal Market, Development and Enterprise) and by briefing Commissioners' cabinets ahead of an expected College of Commission discussion. We are also liaising closely with other member states that share our views.

Tyres (Recycling)

Paul Flynn: To ask the Secretary of State for Trade and Industry what measures she *(a)* has introduced and *(b)* plans to introduce to encourage the recycling of tyres for (i) road fill material and (ii) other purposes. [164306]

Mr. Timms: The Government have supported research into a wide variety of uses for waste tyres, including their use in roads. A number of trial stretches of roads incorporating rubber crumb from waste tyres have been laid for evaluation purposes. Funding support for relevant projects, through programmes such as that run by the Engineering and Physical Sciences Research Council, continues to be available.

The Government have no plans to introduce material-specific measures for tyres, although they are considering whether the general framework under which waste tyres are disposed of and recovered could be usefully strengthened. Against that background, initial estimates indicate that value was recovered from around 80 per cent. of the over 400,000 tonnes of tyres disposed of in 2003, and further progress is anticipated during 2004.

Utilities

Jon Trickett: To ask the Secretary of State for Trade and Industry (1) how much she estimates is held by utility companies in excess from estimated bills; [164630]

(2) what steps she has taken to ensure the accuracy of estimated utility bills; and if she will make a statement. [164641]

Mr. Timms: The regulation of gas and electricity supply, including billing arrangements, is the responsibility of the Office of Gas and Electricity Markets (Ofgem). I understand that the Chairman of Ofgem will write to the hon. Member about the matters he has raised.

VAT Registration

Brian Cotter: To ask the Secretary of State for Trade and Industry what assessment she has made of the reasons for *(a)* the fall in the number of VAT registrations and *(b)* the increase in the number of VAT de-registrations since 1997. [162689]

Nigel Griffiths: VAT registrations and de-registrations do not capture all start-up activity. Businesses are unlikely to be registered if they fall below the compulsory VAT threshold, which has been rising in each year since 1997. Similarly, businesses that de-register will not necessarily have closed. Only 1.8 million out of 3.8 million enterprises were registered for VAT at the start of 2002.

Barclays Bank's latest survey of business creation includes non-VAT registered firms and shows that there were 93,100 business start ups in England and Wales in the third quarter of 2003. The latest yearly figures show 384,900 business start ups in England and Wales in the 12 months ending in September 2003. This represents a 3 per cent. increase on the year before.

Waste Electrical and Electronic Equipment Directive

Mr. Donohoe: To ask the Secretary of State for Trade and Industry what estimates her Department has made of the cost to *(a)* consumers, *(b)* taxpayers and *(c)* local councils of implementing the Waste Electrical and Electronic Equipment Directive. [163885]

Mr. Timms: The Government's proposals for implementation of the EU Directive on Waste Electrical and Electronic Equipment should result in no new burdens on taxpayers or local councils. The Directive is a producer responsibility measure and it will be a matter for producers and retailers whether they pass any new costs through to

consumers. A Partial Regulatory Impact Assessment of the Government's implementation strategy was published with their consultation paper on implementation plans for the Directive on 26 November. A copy of this has been placed in the Libraries of the House.

Wind Farms

Miss McIntosh: To ask the Secretary of State for Trade and Industry how much money is being spent in 2003–04 from the Government subsidy to electricity generation companies on the construction and operation of wind farms. [164086]

Mr. Timms: In financial year 2003–04, the Government spent £5 million to support one offshore wind farm development. No direct support was provided for onshore wind farm development except for some small household or community installations under the Clear Skies scheme.

Support provided through the Non Fossil Fuel Obligation and the Renewables Obligation are not Government subsidies.

Mrs. May: To ask the Secretary of State for Trade and Industry if she will list each *(a)* existing and *(b)* proposed onshore wind farm, broken down by constituency. [164647]

Mr. Timms: Proposals to construct and operate on-shore generating stations with a capacity greater than 50 megawatts (MW) in England and Wales require my right hon. Friend the Secretary of State's consent under section 36 of the Electricity Act 1989.

The information for applications made under section 36 for proposed on-shore wind farms is as follows:

Approved but not yet constructed

Cefn Croes— Ceredigion (consented May 2002)

Still under consideration

Little Cheyne Court—Folkestone and Hythe

Scout Moor—Heywood and Middleton, Rossendale and Darwen

Whinash—Penrith and The Border

Keadby—Brigg and Goole, Doncaster North

Tween Bridge—Doncaster North, Don Valley

Consents for generating stations in Scotland are a matter for the devolved administration. Central Government do not hold records of proposals for on-shore wind farms below 50MW as these fall to be determined by the local planning authority under the normal planning regime.

Miss McIntosh: To ask the Secretary of State for Trade and Industry how much money the Government have spent on publicising the role of wind farms in each year since 1997. [164087]

Mr. Timms: The DTI's Renewable Energy Programme publishes a quarterly newsletter, New Review. The publication contains information on technical developments, business opportunities and other issues affecting all the renewables industry not just wind. The newsletter has several thousand subscribers from a range of backgrounds, including the renewables industry, Government, education, finance and consultancy. Since 1997 the average cost per annum has been in the region of £100,000.

The Government recently announced a new campaign to raise awareness of the renewable energy sector not just wind. The campaign—"It's Only Natural"—will seek to inform planners, investors and the wider community of the potential and benefits of renewable energy not just wind. The £2 million (spend over 18 months) campaign will target planners and investors through a number of channels, including workshops, a conference, media initiatives and a website.

Work-Life Balance Challenge Fund

Mr. Milburn: To ask the Secretary of State for Trade and Industry (1) what resources, in addition to the Department's work-life balance fund, she makes available to help employers with work-life issues; [163483]

(2) how many employers, broken down by *(a)* sector and *(b)* region, the Department's work-life balance fund has helped in each year. [163485]

Mr. Sutcliffe: The following table sets out the number of employers who received financial assistance through the Challenge Fund over the five rounds of its operation, by region and by sector.

Figure 1

	Rounds 1–5
Breakdown by region	
North West	52
North East	33
West Midlands	27
East Midlands	45
South West	54
South East	37
Yorkshire and Humber	38
East	38
Scotland	35
Wales	—
Northern Ireland	—
London	83
Cross regional projects	15
Breakdown by Sector	
Manufacturing	22
Science and Research	4
ICT	8
Finance	24
Hospitality	4
Retail	25
Business Services/Consultancy	37
Transport	11
Construction	3
Public Sector Administration	131
Hospitals, LHAs and Trusts	41
Schools and LEAs	62
Voluntary/Charitable bodies and associations including Unions	47

The "Work Life Balance Challenge Fund", which has been one strand of the Work-Life Balance Campaign, is nearing completion and no further rounds are planned. The DTI will continue to help employers establish better practice in their work places. Financial assistance will be accessible through the DTI's new Business Support

Scheme as from April 2004. DTI Business Links will become the first point of contact for companies interested in such support.

DTI will continue to make available a range of resources to assist, inform, and encourage best practice among employers who might wish to pursue Work-Life Balance initiatives in their workplaces. From April 2004 the dissemination of information about Work-Life Balance and Flexible Working policies and practice will be funded through the Business Support Scheme.

A major resource for the campaign has, and will continue to be, an interactive website which offers guidance on establishing initiatives in the workplace, flexible working legislation, and provides research and employer case studies which reflect the experiences of large and small companies across the country who have adopted work life balance policies and practices.

The site allows access to EMAR or the Employment market Analysis and Research (EMAR) site is a Research body fully funded by the DTI. It has an ongoing programme of research, which has complemented the Work-life Balance campaign.New legislation came into effect 6 April 2003. This was accompanied by information and guidance for both employers and employees. An information booklet entitled "New Laws for Working Parents—Key information for employers" was mailed direct to just under 100,000 SMEs (79 per cent. in the 5–49 employee category). The DTI has worked with ACAS to provide further guidance to employers through Acas' national helpline.

Mr. Milburn: To ask the Secretary of State for Trade and Industry what the total expenditure of the Department's Work-life Balance Fund has been in each year of its existence. [163541]

Mr. Sutcliffe: The table at Figure 1 sets out the total financial assistance to date provided through the Challenge Fund for each of the fund's five rounds.

Figure 1

£

	Amount
Round 1	2,015,443
Round 2	586,536
Round 3	3,333,061
Round 4	3,919,851
Round 5	193,575
Total	10,048,466

Working Time Directive

Mr. Jim Cunningham: To ask the Secretary of State for Trade and Industry what discussions she has had with the European Commission on ensuring the UK retains flexibility in implementing the Working Time Directive. [163570]

Mr. Sutcliffe: Both my right hon. Friend the Secretary of State for Trade and Industry and I have met the European Commission several times over the last year with a view to maintaining the flexibility currently given by the Working Time Directive. Indeed, my right hon. Friend the Secretary of State hopes to discuss this issue further with Stavros Dimas, the new Employment and Social Affairs Commissioner, in the near future.

HEALTH

Administration Costs

Mr. Burstow: To ask the Secretary of State for Health how much was spent on administration by *(a)* strategic health authorities, *(b)* primary care trusts and *(c)* NHS trusts in each of the last three years; and if he will make a statement. [157580]

Mr. Hutton: Real terms expenditure on national health service administration, broken down by organisation from 1998–99, is shown in the table.

£ *thousands*

	1998–99	*1999–2000*	*2000–01*	*2001–02*
Health authorities and strategic health authorities	645,339	764,598	755,623	673,817
Primary care trusts	n/a	n/a	62,116	490,075
NHS trusts	1,289,777	1,286,661	1,306,971	1,306,018
Total	1,935,116	2,051,259	2,124,710	2,469,910

Bed Blocking

Mr. David Atkinson: To ask the Secretary of State for Health what recent assessment he has made of the performance of *(a)* Bournemouth borough council and *(b)* Dorset county council in tackling bed blocking arising at the Royal Bournemouth and Christchurch Hospital Trust. [163800]

Dr. Ladyman: In the last four weeks, the Royal Bournemouth and Christchurch Hospital National Health Service Trust has reported between 17 and 32 delayed discharges of residents of Bournemouth borough council. The same trust has reported, in the last four weeks, between 11 and 23 delayed discharges of residents of Dorset county council. These delays were due to a range of reasons; some patients were awaiting social services and others non-acute national health services services. The NHS trust, ambulance trust, five primary care trusts and three local authority social services departments have recently agreed an action plan to tackle these delays.

Care Homes

Charles Hendry: To ask the Secretary of State for Health what steps he is taking to ensure that those carrying out inspections of care homes adhere to similar objectives and requirements. [162377]

Dr. Ladyman *[holding answer 18 March 2004]:* Inspections of care homes are carried out by the National Care Standards Commission, using a national methodology. They are responsible for ensuring the

requirements set down in the Care Homes Regulations 2001 are met and the National Minimum Standards are taken into account. This responsibility will fall to the Commission for Social Care Inspection from 1 April 2004.

Children (Mental Health)

Mr. Hinchliffe: To ask the Secretary of State for Health (1) how he plans to empower children meeting the criteria set out by the House of Lords in Gillick *v.* West Norfolk and Wisbech Area Health Authority in 1986 to consent to or refuse treatment to the same extent as an adult in the planned Mental Health Bill; and if he will make a statement; [162320]

(2) if he will introduce a legal duty on the managers of hospitals to secure *(a)* assessment of and *(b)* provision in the care plan for the family needs of a patient with parental responsibility made subject to compulsory mental health powers; and if he will make a statement; [162321]

(3) if he will bring forward a requirement in the draft Mental Health Bill that the clinical supervisor of a child subject to mental health law must be a specialist in child and adolescent mental health; [162322]

(4) whether he intends to incorporate into the planned Mental Health Bill the rights expressed in article 25 of the United Nations Convention on the Rights of the Child of a child who has been placed by the competent authorities for the purposes of care, protection or treatment of his or her physical or mental health to a periodic review of *(a)* the treatment provided to the child and *(b)* all other circumstances relating to his or her placement. [162323]

Ms Rosie Winterton: The Mental Health Bill Consultation Document, Cm. 5538–111, published in June 2002 contained a number of specific consultation questions on protecting children and young people with serious mental disorder. We have been considering carefully the responses to the consultation and further points raised at a recent meeting with stakeholders specifically looking at proposals for children and young people.

A revised and completed Mental Health Bill will be brought forward for pre-legislative scrutiny this session.

Correspondence

Mr. Kaufman: To ask the Secretary of State for Health when he intends to reply to the letter to him from the right hon. Member for Manchester, Gorton dated 12 February with regard to Dr. P W Bishop. [164938]

Dr. John Reid: A reply was sent to the right hon. Member on 26 March 2004.

Dentists

Simon Hughes: To ask the Secretary of State for Health how many dentists' surgeries in *(a)* Greater London and *(b)* each London borough are accepting new NHS patients. [162364]

Mr. Hutton: The available information on dental practices accepting new National Health Service patients is for primary care trust areas in London. The information in the table shows separate information for the main category of patient and includes the total number of practices.

This information was taken from the NHS.UK website and is correct for 18 March 2004. In addition, some other dental practices may take on new patients, but this is not recorded on the website.

Digital Hearing Aids

Mr. Webb: To ask the Secretary of State for Health when residents of Northavon constituency will be able to access digital hearing aids via the NHS; and if he will make a statement. [163260]

Dr. Ladyman *[holding answer 24 March 2004]:* Digital hearing aids will be available to people from Northavon who attend the audiology service at Southmead Hospital from March 2005.

Details of audiology departments that are or will be involved in the modernising hearing aid services project are available at the Royal National Institute for the Deaf's Modernising of Hearing Aid Services (MHAS) internet site at www.mhas.info.

E-auctions

Mr. Oaten: To ask the Secretary of State for Health what systems are in place to ensure that products and services purchased by e-auction are subject to the same quality and clinical reliance tests as those purchased under normal tender procedures. [164342]

Mr. Hutton *[holding answer 29 March 2004]:* Suppliers invited to participate in an e-auction are initially subjected to a traditional tender process, where product quality issues are assessed. Only those suppliers who meet the minimum criteria on both commercial viability and product quality and standards are invited to submit an initial tender and to participate in any subsequent e-auction event. The award of contracts following an e-auction is not based on the lowest bid price, but on a combination of factors including quality, service and price.

Hospitals (Carshalton and Wallington)

Tom Brake: To ask the Secretary of State for Health if he will list the hospitals in Carshalton and Wallington which ran a budget deficit in the year ending 31 March 2003; and how much this deficit was for each hospital. [163690]

Mr. Hutton: Information on deficits is available at national health service trust level and not for individual hospital units. Epsom and St. Helier NHS Trust includes St. Helier hospital, an acute hospital within Carshalton and Wellington. The 2002–03 audited NHS trust summarisation schedules show Epsom and St. Helier NHS Trust reporting a deficit of £2,193,000 in its accounts for 2002–03.

Medical Qualifications (EU)

Miss McIntosh: To ask the Secretary of State for Health what recent discussions he has had with the European Commission on the recognition of qualifications for *(a)* nurses, *(b)* doctors and *(c)* midwives from the EU applicant countries; and if he will make a statement. [163620]

Mr. Hutton: The Department is in touch with the European Commission about the progress of the acceding countries in meeting their commitments in relation to the training of general care nurses, doctors and midwives and I continue to keep the regulatory bodies informed of developments.

NHS Childcare Provision

Tim Loughton: To ask the Secretary of State for Health how many general practitioners' surgeries take advantage of NHS child care provisions. [163085]

Mr. Hutton: Information on how many general practitioners' surgeries take advantage of national health service child care provision is not collected.

Recruitment/Retention Premiums

Mr. Burstow: To ask the Secretary of State for Health pursuant to his answer of 10 March 2004, *Official Report*, column 1592W, on Agenda for Change, what maximum limits have been set on recruitment and retention premiums to *(a)* individual postholders and *(b)* groups of postholders. [163486]

Mr. Hutton: The "Agenda for Change" proposed agreement states that the combined value of any nationally awarded and locally awarded recruitment and retention premium shall not normally exceed 30 per cent. of basic salary. This applies to individual postholders and groups of postholders.

Rescue Services

Patrick Mercer: To ask the Secretary of State for Health how much joint training in chemical, biological,

radioactive and nuclear duties *(a)* has been and *(b)* is being carried out between ambulance services and fire and rescue services. [162706]

Mr. Hutton: Training courses to allow front tine ambulance staff to respond safely and effectively to chemical, biological, radiological and nuclear incidents have been, and are being, conducted by each ambulance service to a standard syllabus delivered by nationally trained local instructors. That syllabus was developed, and the instructors trained, through the police national training centre at Winterbourne Gunner, with combined input from each of the three main blue light services. The course content places particular emphasis on multi-agency aspects and requires input from the other emergency services at local level.

Confidence in dealing with chemical, biological, radioactive and nuclear (CBRN) incidents is further strengthened through multi-agency exercises and combined CBRN training for ambulance, police and fire incident commanders.

Patrick Mercer: To ask the Secretary of State for Health what level of decontamination training has been given to ambulance crews. [162707]

Mr. Hutton: Each ambulance service has a cadre of staff trained to deal with the health aspects of the response to a chemical, biological, radioactive or nuclear incident. Those staff have been trained to work safely in a contaminated area, to decontaminate patients and to deliver basic life support.

Patrick Mercer: To ask the Secretary of State for Health what proportion of ambulance crews have been trained in the use of chemical, biological, radioactive and nuclear protective equipment. [162719]

Mr. Hutton: The Ambulance Service Association reports that, to date, specialist training in the use of personal equipment has been provided for 2,500 front-line ambulance staff and that number is expected to increase to 3,000 by early summer 2004. The target is to create and maintain a trained cadre of 3,000 staff, which represents about 20 per cent. of front-line accident and emergency staff from ambulance services in England by the end of the year.

The Government have provided equipment and an additional financial contribution of £5,454,200 in 2003–04 to enable ambulance services to continue to develop and maintain specialist teams and training activities.

Patrick Mercer: To ask the Secretary of State for Health what type of chemical, biological, radioactive and nuclear protective equipment has been given to ambulance crews. [162720]

Mr. Hutton: Every ambulance service has been equipped with suitable personal protective equipment (PPE) and mobile decontamination units to allow safe working for front-line staff and to enable the decontamination of patients.

The protective equipment supplied to national health service staff provides adequate protection against a wide range of industrial chemicals and other specifically identified hazards to which NHS staff might be exposed.

Strategic Health Authority Staff

Mr. Lansley: To ask the Secretary of State for Health how many staff are reported in the September 2003 Workforce Census as being employed by each strategic health authority. [163927]

Mr. Hutton *[holding answer 26 March 2004]:* The information requested is shown in the table. Between September 2002 and 2003, the number of staff employed by strategic health authorities (SHAs) fell by 12 per cent.

Hospital, Public Health Medicine and Community Health Services (HCHS) staff and NHS hospital and community health services: Medical and non-medical staff directly employed by Strategic Health Authorities in England as at 30 September 2003

Headcount

		All medical and dental and non-medical staff
	England	3,540

Working Time Directive

Dr. Richard Taylor: To ask the Secretary of State for Health whether he has negotiated a concession in the European Working Time Directive that will allow postponement of implementation of the Directive beyond August for junior doctors. [163924]

Mr. Hutton *[holding answer 26 March 2004]:* No. We are actively seeking changes to the Working Time Directive (WTD) through the European Commission's consultation process to enable national health service employers to comply with the WTD more easily.

CONSTITUTIONAL AFFAIRS

Easter Uprising

Mr. Paul Marsden: To ask the Parliamentary Secretary, Department for Constitutional Affairs what his policy is regarding returning original documents held by the Public Record Office from the Easter uprising in Dublin in 1916 to *(a)* the nearest living relative and *(b)* the National Archives of Ireland. [162317]

Mr. Leslie: Public records relating to the British administration in Ireland in 1916 and subsequently selected for permanent preservation because of their historical importance form part of the archives of the UK Government, now held by the National Archives at Kew. They are kept there so that present and future generations of researchers can access the nation's collective memory as expressed in the written record.

The National Archives runs a full range of well-publicised copying services which are readily available to individuals and institutions if they wish to obtain copies of specific records. Further details can be obtained from its website at: http://www.pro.gov.uk/recordcopying/default.htm

In addition, the National Archives is willing to consider special copying arrangements in cases where it can be demonstrated that this would provide easier access to a significant number of people directly affected by the events described in those records.

Employment Agencies

Matthew Taylor: To ask the Parliamentary Secretary, Department for Constitutional Affairs if he will list the employment agencies which the Department and its predecessors have used to supply temporary staff in each financial year since 1996–97 to the most recent date for which figures are available. [163809]

Mr. Leslie: My Department, and its predecessor, has a national contract with Kelly Services which began in April 2001 for the supply of temporary staff. Prior to that my Department had a contract with Manpower between 1996 and 2001.

My Department uses other agencies but information relating to these during the period in question is not held centrally and could be provided only at disproportionate cost.

My Department uses temporary agency staff to meet short-term requirements and in areas where it is difficult to recruit and retain staff.

Magistrates Courts

Mr. Gummer: To ask the Parliamentary Secretary, Department for Constitutional Affairs how many trials for robbery and burglary in the *(a)* Ealing and Acton magistrates court and *(b)* Ipswich magistrates court have been (i) aborted and (ii) postponed in each of the last three years; and how many postponements of each postponed or aborted case there were before it came to trial or was aborted. [163748]

Mr. Leslie: The data on the number of trials for robbery and burglary in Ealing and Acton and Ipswich magistrates courts, which were aborted and postponed in each of the last three years, are not held.

However, data are collected on 'cracked' and 'ineffective' trials. A 'cracked' trial occurs when on the date of trial, either the defendant pleads guilty or is bound over, or the prosecution withdraws its case. An 'ineffective' trial occurs when on the trial date, the trial has to be adjourned owing to the action or in action of one or more of the prosecution, the defence or the court.

For trials in Ealing and Acton magistrates courts, out of a total of 1,084 trials in 2003, 356 were 'cracked' and 359 were 'ineffective'.

For Ipswich magistrates court, out of a total of 462 trials in 2003, 150 were aborted 'cracked' and 117 were postponed 'ineffective'.

The number of postponements of each 'cracked' or 'ineffective' case before it came to trial is not available.

Opinion Sampling

Mr. Laws: To ask the Parliamentary Secretary, Department for Constitutional Affairs what his estimate is of total expenditure by the Department on *(a)* focus groups and *(b)* opinion polls in each year from 1995–96 to 2003–04; and if he will make a statement. [162748]

Mr. Lammy: The information requested is not held centrally and a comprehensive reply, for other than the current financial year, could only be provided at disproportionate cost.

Total expenditure by the Department on focus groups for the current financial year (2003–04) is expected to be around £230,000.

Total expenditure by the Department on opinion polls for the current financial year (2003–04) is expected to be around £330,000. These figures include the Public Guardianship Office and the Legal Services Commission, which carry out their own research independently.

Supreme Court

Lady Hermon: To ask the Parliamentary Secretary, Department for Constitutional Affairs what discussions he has had with *(a)* political parties and *(b)* other organisations in Northern Ireland on the Government's proposals for a supreme court. [164356]

Mr. Leslie: I have not met with political parties in Northern Ireland to discuss the UK Supreme Court. There have been ongoing discussions at official level between the Department for Constitutional Affairs and both the Northern Ireland Court Service and the Northern Ireland Office. In addition, responses to the consultation paper on the proposed UK Supreme Court were received from the following organisations:

the Northern Ireland Human Rights Commission;

Training for Women Network Ltd;

the Bar Council of Northern Ireland; and

the Lord Chief Justice of Northern Ireland on behalf of the Judges of the High Court and Court of Appeal in Northern Ireland.

DEPUTY PRIME MINISTER

Best Value

Bob Spink: To ask the Deputy Prime Minister what assessment he has made of the impact of best value on the efficient provision of local government services; and if he will make a statement. [163533]

Mr. Raynsford: Best value is a performance management framework for securing continuous improvement through the delivery of efficient, effective and economic services that meet users' needs.

The Office of the Deputy Prime Minister has commissioned Cardiff Business School to evaluate the long-term impact of best value in English local councils. The findings to date reveal that best value is seen as a positive driver of change and that best value reviews are helping councils to improve the efficiency, quality and cost-effectiveness of services.

Council Housing

Mr. Swire: To ask the Deputy Prime Minister how many empty council homes there are in *(a)* Devon and *(b)* Cornwall. [164792]

Keith Hill: The information is as follows:

Total number of vacant local authority owned dwellings at 1 April 2003

	Number
Devon	150
Cornwall	80

Note:
Figures rounded to the nearest 10
Source:
ODPM's Housing Investment Programme returns

Department-Sponsored Bodies

Mr. Edward Davey: To ask the Deputy Prime Minister what the *(a)* total budget, *(b)* funding from his Department, *(c)* administration budget and *(d)* staff cost to his Department for the (i) Housing Revenue Account Group, (ii) Chester-le-Street Housing Advisory Board and (iii) Supporting People Practitioners Group were in financial years (A) 2002–03 and (B) 2003–04; and if he will make a statement on the (1) current and (2) future work of each body. [163640]

Yvette Cooper: The information requested is as follows:

(i) The Housing Revenue Account Group. This group was wound up before March 2003. It had no separately identifiable budget.

(ii) The Chester-le-Street Housing Advisory Board was established by Chester-le-Street Council. The Office of the Deputy Prime Minister did not provide any funds for nor meet any of the expenses of the Board.

(iii) Supporting People Practitioners Group. There was no separately identifiable budget for the Practitioners Group. It was wound up following the introduction of Supporting People.

Fire and Rescue Services

Mr. Flook: To ask the Deputy Prime Minister what assessment he has made of the effect on the threat to life from fire of implementing plans for a single control room for the fire and rescue services in the south west region; and if he will make a statement. [164589]

Mr. Raynsford: The Office of the Deputy Prime Minister is creating a resilient national network of regional fire and rescue control centres which make possible more effective responses to local, regional or national incidents of significant/substantial scale or complexity. This approach strengthens the ability of the service to maximise national capacity to deal with exceptional call volumes, improve resilience and provide more effective fallback arrangements, and address business continuity requirements. The net effect of the improved arrangements will be a reduction in the threat to life, not just from fire, but from a wide range of other threats, not envisaged when the existing infrastructure for call handling and mobilising was developed.

Gypsies/Travellers

Mr. McNamara: To ask the Deputy Prime Minister which local authorities include a policy towards Gypsies and Travellers as a part of their homelessness strategy; and what percentage of local authorities this represents. [164099]

Yvette Cooper: This information is not currently available.

The Homelessness Act 2002 required all local housing authorities in England to publish a strategy by 30 July 2003 which aims to prevent homelessness and ensure that accommodation and support are available for people who become homeless or are at risk of becoming homeless.

The Office of the Deputy Prime Minister has commissioned an independent evaluation of all homelessness strategies, which will report later this year.

Housing

Mr. Austin Mitchell: To ask the Deputy Prime Minister what assessment he makes of the fulfilment by registered social landlords of promises made to tenants in large scale voluntary transfers. [162710]

Keith Hill: The published research is contained in a DETR Research Report entitled 'Views on the Large Scale Voluntary Transfer Process (May 2000)', which explored whether tenants believed that the registered social landlords (RSLs) had delivered on promises made to tenants at time of transfer. The majority of respondents in the case study areas said that their landlord had delivered on at least some of their promises, with only 9 per cent. saying that the RSL had failed to deliver.

The Office of the Deputy Prime Minister and Housing Corporation have commissioned a long term evaluation of the programme, which will record what promises have been made to tenants and track whether these are being met.

Mr. Hoban: To ask the Deputy Prime Minister what account he has made of the proposals set out in the Lyons Report in assessing future demands for housing in *(a)* the south east and *(b)* Hampshire. [164584]

Keith Hill: The requirements for housing in the south east, including Hampshire are set out in Regional Planning Guidance issued in 2001.

The requirements are in the process of being reviewed by the South East Regional Assembly who will need to take account of any impact the proposals in the Lyons Report may have on future demands for housing in the south east and Hampshire. The Government expect to receive a draft strategy in 2005 which will then be subject to public examination.

Mr. Flook: To ask the Deputy Prime Minister what guidance his Department has issued with respect to levels of new-house building in the south west region; which sites in that region are targeted for development; and if he will make a statement. [164590]

Keith Hill: Regional Planning Guidance for the South West (RPG10) published in September 2001 gives guidance on the levels of additional housing for which provision should be made in the region's structure plans over the period 1996–2016. It does not indicate specific sites. The Office of the Deputy Prime Minister has no plans to make a statement.

Local Authority Revenue (Tyne and Wear)

Mr. Alan Campbell: To ask the Deputy Prime Minister what the *(a)* level of external debt and *(b)* annual cost of servicing that debt was in each local authority in Tyne and Wear in each of the last seven years. [164416]

Mr. Raynsford: The information is as follows.

(a) The level of external debt in each local authority in Tyne and Wear in each of the last seven years are tabled as follows. Figures for 1998 and 1999 are not held centrally, and could be provided only at disproportionate cost.

Level of external debt in Tyne and Wear by local authority at 31 March

£ million

	1997	2000	2001	2002	2003
Gateshead	267	336	313	316	313
Newcastle upon Tyne	450	447	460	463	461
North Tyneside	170	205	225	227	212
South Tyneside[1]	313	203	196	177	175
Sunderland	198	220	229	173	143

[1] Public Works Loan Board debt previously held by former Tyne and Wear county council has been excluded from these figures.
Sources:
ODPM monthly and quarterly borrowing returns.
Public Works Loan Board.

It should be noted that authorities with high levels of debt are generally those, which have undertaken capital investment, and that long-term borrowing to finance capital expenditure is currently regulated through the issue of credit approvals and, from 1 April 2004, will be subject to the Prudential System.

(b) Figures for external interest payments in each local authority in Tyne and Wear in each of the last seven years are tabled as follows:

External interest payments in Tyne and Wear by local authority

£ million

2003–04 ODPM Budget Estimate Returns.

Mr. Alan Campbell: To ask the Deputy Prime Minister what percentage of *(a)* council tax and *(b)* council house rents was collected in North Tyneside in each of the last five years. [164417]

Mr. Raynsford: The information requested is tabled as follows:

North Tyneside

Financial year	Percentage of council tax collected in-year[1]	Percentage of council house rents collected[2]
1998–99	91.7	99.3
1999–2000	93.8	98.4
2000–01	94.0	96.2
2001–02	95.2	96.8
2002–03	95.9	96.9

[1] As reported on QRC4 forms. Council tax collection continues after the end of the financial year to which amounts relate and so the final percentage collected is higher than the figures shown, which exclude amounts for earlier years.
[2] Data collected by the Audit Commission as Audit Commission or Best Value Performance Indicators.

Playing Fields (Taunton)

Mr. Flook: To ask the Deputy Prime Minister how many planning applications on playing fields have been approved in Taunton since 1997 that resulted in a lower provision of playing field space. [164556]

Keith Hill: The Office of the Deputy Prime Minister only collates information on planning applications on playing fields where applications are referred first to the Secretary of State under the Town and Country Planning (Playing Fields)(England) Direction 1998 because of an outstanding objection from Sport England. One referral

has been made from Taunton Deane Borough Council since the Direction came into effect. Sport England subsequently withdrew its objection because no playing pitches were affected by the proposal. Detailed information on all planning applications for playing fields is not held centrally and could be obtained only at disproportionate cost.

EDUCATION AND SKILLS

Boarding Schools

Mr. Maude: To ask the Secretary of State for Education and Skills how many *(a)* boarding schools and *(b)* boarding facilities within independent schools have closed since the National Care Standards Commission began its inspections. [164253]

Mr. Miliband: My right hon. Friend receives advice about welfare provision in independent boarding schools from the National Care Standards Commission, for the purposes of ensuring that the regulatory requirements relating to safeguarding and promoting welfare are met. Since April 2002, when the Commission began its inspections, none has resulted in enforcement action to close a school.

Mr. Maude: To ask the Secretary of State for Education and Skills which agencies have statutory authority to inspect or audit boarding schools. [164262]

Mr. Miliband: My right hon. Friend receives advice from the following agencies and authorities for the purposes of ensuring that boarding schools reach and maintain satisfactory standards of education, health, safety and welfare:

Ofsted

The Independent Schools Inspectorate, in the case of independent schools belonging to the Independent Schools Council

The National Care Standards Commission

Fire Authorities.

Mr. Maude: To ask the Secretary of State for Education and Skills how many boarding schools have been examined by the Independent Schools Inspectorate in each of the last six financial years; and how many were identified as having a significant defect. [164301]

Mr. Miliband: Independent Schools which belong to an association affiliated to the Independent Schools Council (ISC), have, since 1 January 1999, been subject to inspection by the Independent Schools Inspectorate (ISI) under arrangements agreed between the Government and the ISC. These inspections provide advice to my right hon. Friend the Secretary of State on whether member schools meet the regulatory requirements which all independent schools must satisfy.

The number of boarding schools inspected by the ISI between 1 January 1999 and 31 December 2003 is given in the table.

	Number of boarding schools inspected by ISI
1999	38
2000	65
2001	94
2002	89
2003	87

None of the inspections by ISI resulted in enforcement action to remove schools from the Register of Independent Schools, as any weaknesses identified by the inspections were addressed.

Adult Learning

Mr. Simmonds: To ask the Secretary of State for Education and Skills how many *(a)* disabled adults benefiting from adult learning initiatives and *(b)* adults with learning difficulties engaged in adult learning education courses there were in each year since 1997. [163735]

Mr. Ivan Lewis: Unfortunately, we do not have reliable information about the number of disabled people participating in particular Government learning initiativesHowever, we have measured the participation of disabled people in adult learning in general (including: Government funded learning, job-related training, and self-taught learning) using the National Adult Learning Survey 2002 (NALS).

Overall, 76 per cent. of adults in England (aged 16 to 69 and outside continuous full-time education) had participated in at least one learning activity over the previous three years. Participation in learning was lower among people with a disability (64 per cent.) than those without a disability (81 per cent.).

We do not currently record participation in LEA-funded Adult Education for people with learning difficulties.

However, around 61 per cent. of adults with learning difficulties had participated in at least one learning activity over the previous three years (*Source:* English Local Labour Force Survey 2001). This compares to 76 per cent. for the general population as described above.

Adult Literacy/Numeracy

Mrs. Curtis-Thomas: To ask the Secretary of State for Education and Skills what public funding has been spent on adult *(a)* literacy and *(b)* numeracy in Crosby in each of the last five years. [160395]

Mr. Ivan Lewis: The estimated total spend on Skills For Life (the Government's strategy for literacy, language and numeracy needs of all post-16 learners from pre-entry level up to and including level 2) and on Key Skills (essential skills of communication, application of number and information technology), from April 2001 to July 2003, in the Greater Merseyside Learning and Skills Council (LSC) area is set out in the table:

Greater Merseyside Learning and Skills Council (LSC)

£000

	Basic skills	*Key skills*
April to July 2001[1]	3,803	1,094
August 2001 to July 2002	6,575	1,564
August 2002 to July 2003	10,677	1,755

[1] The figures for April to July 2001 include costs incurred from August 2000 on learning aims continuing into April 2001.

From the information available to the LSC it has not been feasible to obtain estimates at constituency level or separate figures by subject without incurring disproportionate cost. Likewise it has not been feasible to obtain comparable figures for periods before April 2001 when the Skills for Life strategy was launched and the LSC was formed, but information shows it was considerably less than at present.

Mr. Bercow: To ask the Secretary of State for Education and Skills what public funding has been spent on adult *(a)* literacy and *(b)* numeracy in Buckingham in each of the last five years. [161320]

Mr. Ivan Lewis: The estimated total spend on "Skills For Life" (the Government's strategy for the literacy, language and numeracy needs of all post-16 learners (from pre-entry level up to and including level 2) and on Key Skills (essential skills of communication, application of number and information technology), from April 2001 to July 2003, in the Milton Keynes, Oxfordshire and Buckinghamshire Learning and Skills Council (LSC) area is set out in the table:

£000

	Basic skills	*Key skills*
April 2001 to July 2001[1]	2,445	674
August 2001 to July 2002	4,134	909
August 2002 to July 2003	6,028	1,197

[1] The figures for April to July 2001 include costs incurred from August 2000 on learning aims continuing into April 2001.

From the information available to the LSC it has not been feasible to obtain estimates at constituency level or separate figures by subject without incurring disproportionate cost. Likewise it has not been feasible to obtain comparable figures for periods before April 2001 when the "Skills For Life" strategy was launched and the LSC was formed, but information shows it was considerably less than at present.

Mr. Hoyle: To ask the Secretary of State for Education and Skills how much public funding has been spent on adult *(a)* literacy and *(b)* numeracy in Chorley in each of the last five years. [161450]

Mr. Ivan Lewis: The estimated total spend on "Skills For Life" (the Government's strategy for the literacy, language and numeracy needs of all post-16 learners (from pre-entry level up to and including level 2) and on Key Skills (essential skills of communication, application of number and information technology), from April 2001 to July 2003, in the Lancashire Learning and Skills Council (LSC) area is set out in the following table.

£000

	Basic skills	*Key skills*
April 2001 to July 2001[1]	3,370	1,270
August 2001 to July 2002	6,577	1,857
August 2002 to July 2003	7,815	1,948

[1] The figures for April to July 2001 include costs incurred from August 2000 on learning aims continuing into April 2001.

From the information available to the LSC it has not been feasible to obtain estimates at constituency level or separate figures by subject without incurring disproportionate cost. Likewise it has not been feasible to obtain comparable figures for periods before April 2001 when the "Skills For Life" strategy was launched and the LSC was formed, but information shows it was considerably less than at present.

Mrs. Dean: To ask the Secretary of State for Education and Skills what public funding has been spent on adult *(a)* literacy and *(b)* numeracy in (i) the Burton constituency and (ii) Staffordshire in each of the last seven years. [161845]

Mr. Ivan Lewis: The estimated total spend on "Skills For Life" (the Government's strategy for the literacy, language and numeracy needs of all post-16 learners (from pre-entry level up to and including level 2) and on Key Skills (essential skills of communication, application of number and information technology), from April 2001 to July 2003, in the Staffordshire Learning and Skills Council area is set out in the table:

£000

	Basic skills	*Key skills*
April 2001 to July 2001[1]	2,341	786
August 2001 to July 2002	3,123	1,006
August 2002 to July 2003	4,899	2,063

[1] The figures for April to July 2001 include costs incurred from August 2000 on learning aims continuing into April 2001.

From the information available to the LSC it has not been feasible to obtain estimates at constituency level or separate figures by subject without incurring disproportionate cost. Likewise it has not been feasible to obtain comparable figures for periods before April 2001 when the "Skills For Life" strategy was launched and the LSC was formed, but information shows it was considerably less than at present.

Mr. Alan Campbell: To ask the Secretary of State for Education and Skills how much public funding was spent on adult literacy and numeracy in North Tyneside local education authority in each of the last seven years. [164381]

Mr. Ivan Lewis: The estimated total spend on "Skills For Life" (the Government's strategy for the literacy, language and numeracy needs of all post-16 learners (from pre-entry level up to and including level 2) and on Key Skills (essential skills of communication, application of number and information technology), from April 2001 to July 2003, in the Tyne and Wear Learning and Skills Council area is set out in the following table:

£000

	Basic skills	Key skills
April 2001 to July 2001[1]	4,570	783
August 2001 to July 2002	9,535	1,237
August 2002 to July 2003	14,032	883

[1] The figures for April to July 2001 include costs incurred from August 2000 on learning aims continuing into April 2001.

From the information available to the LSC it has not been feasible to obtain estimates at constituency level or separate figures by subject without incurring disproportionate cost. Likewise it has not been feasible to obtain comparable figures for periods before April 2001 when the Skills for Life strategy was launched and the LSC was formed, but information shows it was considerably less than at present.

Citizenship, Personal and Social Education

Diana Organ: To ask the Secretary of State for Education and Skills if he will make a statement on the integration of citizenship, personal and social education across the curriculum. [164186]

Mr. Stephen Twigg: Citizenship is a statutory subject in secondary schools. The teaching of personal, social and health Education (PSHE) is underpinned by a non-statutory framework across all key stages. Schools have flexibility on how they plan and deliver citizenship and PSHE, whether as discrete areas of the curriculum or integrated across the curriculum. The Qualifications and Curriculum Authority produce a range of guidance documents across citizenship and PSHE.

Communication Skills

Diana Organ: To ask the Secretary of State for Education and Skills what resources he is investing in delivery of communication skills within the curriculum of 11 to 16-year-olds. [164187]

Mr. Stephen Twigg: Communication skills are an important and integral part of every pupil's learning experience. The general teaching requirements of the National Curriculum, which apply across all areas of the curriculum, state that pupils should be taught to express themselves correctly and appropriately and to read accurately and with understanding.

The programmes of study for English at Key Stage 3 and 4, state that pupils should learn to communicate confidently in a wide variety of contexts, adapting what they say and how they say it to different situations and people. English is one of the strands of the Key Stage 3 Strategy in which we are investing £670 million up to the end of March 2005. This aims to improve teaching and learning to develop pupils, at age 14, into independent learners and confident, effective communicators.

Some pupils have significant communication difficulties as the result of acquired or inherited conditions. We have established the Communication Aids Project (CAP) with £20 million funding to March 2006 to help such pupils through the provision of high technology communication aids.

Devon LEA

Mr. Swire: To ask the Secretary of State for Education and Skills how much Devon schools have received in Standards Fund Grant in each year since its introduction. [164786]

Mr. Miliband: Standards Fund grants are allocated to local education authorities (LEAs), not directly to schools. It is not possible to identify separately the amounts allocated to schools by LEAs. The following table shows allocations for the Standards Fund for Devon local education authority since the Standards Fund was introduced in 1998–99. The allocations include both Government and local authority contributions. The figures for 1998–99 to 2002–03 include class size grant, worth £2.9 million in 2002–03. Since 2003–04, funding for class size grant is distributed via Education Formula Spending Shares (EFSS).

Standards fund allocations to Devon local education authority

£ million

	Revenue	Capital
1998–99	8.7	2.8
1999–2000	9.7	8.7
2000–01	18.2	16.4
2001–02	21.9	22.2
2002–03	25.4	20.4
2003–04	20.2	23.1

Mr. Swire: To ask the Secretary of State for Education and Skills how much was spent on adult *(a)* literacy and *(b)* numeracy in Devon Local Education Authority in each of the last seven years. [164797]

Mr. Ivan Lewis: The estimated total spend on Skills For Life (the Government's strategy for the literacy, language and numeracy needs of all post-16 learners from pre-entry level up to and including level 2) and on Key Skills (essential skills of communication, application of number and information technology), from April 2001 to July 2003, in the Devon and Cornwall Learning and Skills Council (LSC) area is set out in the table:

Devon and Cornwall Learning and Skills Council (LSC)

£000

	Basic skills	Key skills
April to July 2001[1]	3,131	714
August 2001 to July 2002	4,775	1,140
August 2002 to July 2003	6,289	1,388

[1] The figures for April to July 2001 include costs incurred from August 2000 on learning aims continuing into April 2001

From the information available to the LSC it has not been feasible to obtain estimates at constituency level or separate figures by subject without incurring disproportionate cost. Likewise it has not been feasible to obtain comparable figures for periods before April 2001 when the Skills for Life strategy was launched and the LSC was formed, but information shows it was considerably less than at present.

Teaching Assistants

Simon Hughes: To ask the Secretary of State for Education and Skills how many teaching assistants there were in schools in Greater London, broken down by local education authority in *(a)* each of the last seven years and *(b)* on the latest date for which figures are available. [163726]

Mr. Miliband: The following table gives the numbers of full time equivalent teaching assistants employed in maintained schools in the Greater London area broken down by local education authority for each year between 1997 and 2003, the latest year for which data are available.

	1997	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*
Greater London	8,165	8,870	9,788	11,740	14,331	15,340	17,510

Source:
Annual Schools' Census

Literacy

Simon Hughes: To ask the Secretary of State for Education and Skills how many people in Greater London, broken down by borough, were classified as *(a)* innumerate and *(b)* illiterate in each year since 1995. [163727]

Mr. Ivan Lewis: There are no annual data available on levels of literacy and numeracy levels in Greater London since 1995. However the DfES Skills for Life survey published in October 2003 provides estimates of the numbers of people who are at various literacy and numeracy skill levels for Greater London Local Learning and Skills Council Areas. The findings are summarised in the following tables. For London as a whole 46 per cent. of the population are at level 2[1], 35 per cent. are at level 1[2] and 19 per cent. at entry level 3 or below[3], which roughly equates to below a G grade at GCSE, for literacy. The figures for the London Local Learning and Skills Council Areas should be treated with caution since they are based on small sample sizes.

[1] Level 2 is considered to be equivalent to the standard of an A*-C pass at GCSE

[2] Level 1 is considered to be equivalent to the standard of a grade D-G pass at GCSE.

[3] Entry Level 3 or below approximately equates to a standard of less than a grade G pass at GCSE.

Table 1: Literacy levels for London and England

	Central (170)	*North (107)*	*South (336)*	*East (336)*	*West (263)*	*Total for London (1212)*	*Total for England (8730)*

Education Funding (North-west)

Mr. Evans: To ask the Secretary of State for Education and Skills how much public funding was spent per pupil on *(a)* primary and *(b)* secondary education in (i) Ribble Valley and Fulwood, (ii) Lancashire and (iii) the North West in each of the last five years. [161807]

Mr. Miliband: The information requested is submitted to the Department according to local education authority areas rather than districts within an area. Ribble Valley and Fulwood is a district of Lancashire Local Education Authority. The information for Lancashire LEA is as follows:

Net Current Expenditure per pupil

	Pre-primary education		Primary education		Pre-primary and primary education		Secondary education	
	Lancashire	North West	Lancashire	North West	Lancashire	North West	Lancashire	North West
1997–98	n/a	n/a	n/a	n/a	1,824	1,853	2,631	2,60C
1998–99	n/a	n/a	n/a	n/a	2,002	2,021	2,701	2,73S
1999–2000	7,130	8,759	2,108	2,150	2,173	2,203	2,763	2,834
2000–01	11,033	13,927	2,326	2,384	2,437	2,471	2,914	3,05S
2001–02	16,391	20,711	2,629	2,670	2,797	2,796	3,230	3,424

Notes:

1. The financial data are taken from local education authorities' Section 52 Outturn Statements submitted to the DfES from 1999–2000 onwards and the ODPM's RO1 statement prior to then.
2. Pupil data are drawn from the Annual Schools Census adjusted to be on a financial year basis.
3. The NCE per pupil figures for pre-primary and primary relate the net current expenditure (after recharges) in the pre-primary sector and maintained primary schools to the total number of financial year pupils who are educated in the maintained nursery and primary schools sector.
4. The NCE per pupil figures for secondary relate the net current expenditure (after recharges) in maintained secondary schools to the total number of financial year pupils who are educated in the maintained secondary schools sector.
5. 1997–98 figures are for Lancashire LEA prior to local government reorganisation. From 1998–99 onwards parts of Lancashire LEA became Blackburn LEA and Blackpool LEA.
6. 1999–2000 figures reflect the return of GM schools to local authority maintenance.
7. Figures used are cash terms as reported by the LEA.

Enterprise Advisers

Mrs. Curtis-Thomas: To ask the Secretary of State for Education and Skills how many schools in Crosby have had enterprise advisers working with them to encourage enterprise practice. [164400]

Alan Johnson: This is a matter for the Learning and Skills Council (LSC). Mark Haysom the LSC's Chief Executive will write to the hon. Member and a copy of his reply will be placed in the Library.

Europass Scheme

Ms Stuart: To ask the Secretary of State for Education and Skills what plans the Government have to participate in the EU initiative on the Europass scheme. [164092]

Alan Johnson: The Government intend to participate fully in the Europass initiative when it has been agreed by the EU institutions, including the Council of Ministers.

Export Control Act

Mr. Key: To ask the Secretary of State for Education and Skills what guidance his Department has given to higher education establishments on the implementation of the Export Control Act 2002; and if he will make a statement. [163676]

Nigel Griffiths: I have been asked to reply.

Detailed user guidance for those operating under the new controls was published in November 2003. This guidance included an explanation of what these controls mean in practice for academia. Officials from the DTI's Export Control Organisation have been working with representatives of academia to help their members become aware of, understand and operate the new controls.

Mathematics

Mr. Willis: To ask the Secretary of State for Education and Skills which of the recommendations made by the report of Professor Adrian Smith's inquiry into post-14 mathematics education on secondary school mathematics teacher shortages he intends to act on; and if he will make a statement. [163825]

Mr. Miliband *[holding answer 26 March 2004]:* As I announced on 24 February, the Government will consider the report "Making Mathematics Count" carefully before deciding on the ways forward.

Mr. Willis: To ask the Secretary of State for Education and Skills (1) what estimate he has made of *(a)* the shortfall of qualified full-time equivalent mathematics teachers, *(b)* the percentage and number of mathematics teachers who have no post A-level qualification in mathematics and *(c)* the percentage and number of full-time equivalent qualified mathematics teachers employed in tasks other than teaching mathematics; and if he will make a statement; [163826]

(2) how many full-time equivalent mathematics teachers with post A level mathematics qualifications there were in secondary schools in England in each year since 1997; and how many such teachers transferred to the further education sector in that period. [163827]

Mr. Miliband *[holding answer 26 March 2004]:* Data about the subject qualifications held by teachers are collected periodically through a sample survey of maintained secondary schools in England. The most recent survey was conducted in November 2002 and showed that 76 per cent. of the teachers who taught some mathematics held a post A level qualification in mathematics, while 88 per cent. of mathematics periods were taught by teachers with a post-A level qualification in mathematics. We estimate that at November 1996 there were approximately 20,200 full-time teachers, who had a post A level qualification in mathematics, teaching some mathematics in maintained secondary schools. At November 2002 there were approximately 21,300.

Data on the number of unfilled teacher vacancies are collected through the annual survey of teachers in service and teacher vacancies (Form 618g). At January 2003, there were 316 unfilled vacancies for full-time mathematics teachers in maintained secondary schools in England, 70 fewer than in January 2002 and 94 fewer than in January 2001. In the 1999–2000 academic year the government introduced Golden Hello incentives to encourage recruitment to teacher training courses in mathematics. Between 1998–99 and September 2003 the number of mathematics teacher trainees rose by 74 per cent. from 1,120 to 1,950.

Data on the number of mathematics teachers employed in tasks other than teaching mathematics or who transfer from the maintained schools sector to the further education sector are not collected centrally.

Modern Apprenticeships

Harry Cohen: To ask the Secretary of State for Education and Skills what targets his Department has on the numbers taking part in modern apprenticeship courses; and what assessment he has made of the overall number of apprentices. [164084]

Mr. Ivan Lewis: For the first question I refer my hon. Friend to the answer I gave on 18 March 2004, *Official Report,* column 654. The average number of modern apprentices in learning in January 2004 was 255,623. This is the highest level of participation since the programme began in 1994.

Overseas Students

Hugh Bayley: To ask the Secretary of State for Education and Skills what the average course fee paid by overseas students is on *(a)* non-degree, *(b)* undergraduate and *(c)* postgraduate courses at colleges and universities. [164152]

Alan Johnson: Tuition fees vary widely between individual institutions and courses of study. According to the British Council the average annual course fee paid by overseas students for a non-degree course is estimated at £4,000. According to a recent survey by Universities UK, the average annual cost of an undergraduate course is £7,475 for classroom-based, £9,500 for laboratory-based, and £18,800 for clinical courses; and the average annual cost for a postgraduate course is £7,650 for classroom-based, £9,700 for laboratory-based, and £18,750 for clinical.

Pupil Mobility

Mr. Gardiner: To ask the Secretary of State for Education and Skills what changes he has made since February 2003 to his policy on the introduction of a targeted grant for local education authorities with high mobility. [163419]

Mr. Miliband: There have been no changes since February 2003 to the policy on the introduction of a targeted grant to local education authorities with high mobility.

School Budgets (Greater London)

Simon Hughes: To ask the Secretary of State for Education and Skills which schools in Greater London, broken down by London borough, ran a budget deficit in the year ended 31 March 2003; and how much this deficit was for each school. [162333]

Mr. Miliband: The information requested has been placed in the Libraries.

School Innovation

Mr. Willis: To ask the Secretary of State for Education and Skills pursuant to his answer of 18 March 2004, *Official Report*, column 475W, on school innovation, how many schools have been granted the power to innovate, broken down by area of innovation. [164624]

Mr. Miliband: There have been four schools whose applications to the Power to Innovate have been granted. These are as follows:

Quantity (Schools)	*Relevant legislation*	*Innovation*
3	The Changing of School Session Times (England) Regulations 1999	To extend the length of the school day mid academic year, rather than wait until the beginning of the new school year. The purpose of the innovation was to provide extra curricular activities for pupils, freeing up time for teachers to work on planning, preparation, and to draw up education plans for individual pupils
1	The Changing of School Session Times (England) Regulations 1999	To change the timings of the school day without the requirements set out in regulations to give the minimum of three months notice to parents and to consult parents at a meeting (instead parents were consulted by correspondence). The purpose of the innovation was to end the school day one hour early on alternate Wednesdays from September 2003, allowing staff to have a dedicated two-hour period once a fortnight for planning, preparation, assessment, and to hold meetings.

School Computers

Simon Hughes: To ask the Secretary of State for Education and Skills how much public funding has been spent on computers for schools in Greater London, broken down by local education authority, in each of the past seven years. [163729]

Mr. Charles Clarke: Funding for information and communications technologies (ICT) in schools has been allocated through the Standards Fund since 1998–99. Details of funding for schools in London (including local education authority matched funding) have been placed in the Libraries.

Simon Hughes: To ask the Secretary of State for Education and Skills how many pupils per computer there are in schools in Greater London, broken down by local education authority. [163730]

Mr. Charles Clarke: The information requested is not available centrally.

Figures for England, which were derived from a sample of schools, are shown in the table.

Average number of pupils[1] per computer (used solely or mainly for teaching and learning purposes) by type of school—England—year end March 2003

2003	*Number*
Maintained Primary Schools	7.9
Maintained Secondary Schools	5.4
Maintained Special Schools	3.0

[1] Full-time equivalent numbers of pupils.

The latest information on ICT in schools was published in Statistical Bulletin "Survey of Information and Communications Technology in Schools 2003", which is available on the Department's website www.dfes.gov.uk/rsgateway/.

North Tyneside LEA

Mr. Alan Campbell: To ask the Secretary of State for Education and Skills how many students living in North Tyneside local education authority have benefited from New Opportunities bursaries since the scheme was set up. [164370]

Alan Johnson: Information about Opportunity Bursaries is held at the level of institutions that provide higher education provision. Apart from that, it is not possible to extract from the data the number of awards for students in any given area.

Mr. Alan Campbell: To ask the Secretary of State for Education and Skills what investment there has been in *(a)* sports and *(b)* music in schools in North Tyneside local education authority in each of the last seven years. [164377]

Mr. Stephen Twigg: The information is not held centrally. Within the context of the statutory National Curriculum, where music is compulsory for pupils aged 5 to 14, and Physical Education (PE) is compulsory for pupils aged 5 to 16, it is for individual schools to use their budgets as they judge appropriate.

The Government are investing more than £1 billion in England to transform PE, school sport and club links. The funding will help deliver an ambitious Public Service Agreement target, shared with the Department for Culture, Media and Sport, to increase the percentage of 5 to 16-year-olds who spend a minimum of two hours each week on high quality PE and school sport within and beyond the curriculum to 75 per cent. by 2006.

The Department is providing £909,086 to support the delivery of 2 School Sport Partnerships in the North Tyneside LEA area. The partnerships include 12 secondary and 51 primary schools and provide enhanced sports opportunities for all young people and ensure that their pupils spend a minimum of two hours a week on high quality PE and School Sport.

The Music Standards Fund (MSF) supports Local Education Authority Music Services, which provide activities including workshops, festivals, small group and ensemble tuition and curriculum support. Since 1999, the following MSF payments have been made to North Tyneside LEA Music Service.

	£
2003–04	213,983
2002–03	203,983
2001–02	154,000
2000–01	73,470
1999–2000	53,375

Note:
£203,983 has been allocated for 2004–05.

Furthermore, the New Opportunities Fund has provided schools in the North Tyneside LEA area with £3,528,950 to specifically enhance music, PE and school sport facilities.

Mr. Alan Campbell: To ask the Secretary of State for Education and Skills how many *(a)* teaching assistants, *(b)* teachers and *(c)* teaching vacancies there were in schools in North Tyneside local education authority in each of the last seven years. [164380]

Mr. Miliband: The following table shows the number of full-time equivalent teaching assistants, regular teachers and full-time teacher vacancies in maintained schools in North Tyneside Local Education Authority in each January between 1997 and 2003.

	Teaching assistants	*Teachers*	*Teacher vacancies*
1997	105	1,650	0
1998	216	1,640	0
1999	217	1,630	26
2000	237	1,600	16
2001	274	1,820	14
2002	184	1,690	8
2003	305	1,650	5

Source:
Annual School Census and the annual survey of teachers in service and teacher vacancies (618G)

Mr. Alan Campbell: To ask the Secretary of State for Education and Skills what the level of local education authority funding per pupil in Tyneside *(a)* is for 2004–05 and *(b)* was in 1996–97. [164418]

Mr. Miliband: The following table provides total revenue funding per pupil (age three to 19) figures for North Tyneside and South Tyneside for 2004–05 and 1997–98—the first year for which comparative data are available. 2004–05 figures are still provisional.

	North Tyneside	*South Tyneside*
1997–98	2,620	2,750
2004–05	3,570	3,820

Mr. Alan Campbell: To ask the Secretary of State for Education and Skills how much North Tyneside schools have received in Standards Fund Grant in each year since its introduction. [164362]

Mr. Miliband: Standards Fund grants are allocated to local education authorities (LEAs), not directly to schools. It is not possible to identify separately the amounts allocated to schools by LEAs. The following table shows allocations for the Standards Fund for North Tyneside local education authority since the Standards Fund was introduced in 1998–99. The allocations include both Government and local authority contributions. The figures for 1998–99 to 2002–03 include class size grant, worth £0.4 million in 2002–03. Since 2003–04, funding for class size grant is distributed via Education Formula Spending Shares (EFSS).

Standards fund allocations to North Tyneside local education authority

£

	Revenue	*Capital*
1998–99	2.1	1.5
1999–2000	3.8	2.2
2000–01	7.9	4.8
2001–02	10.0	6.8
2002–03	12.2	8.5
2003–04	12.6	9.1

School Places (Ribble Valley)

Mr. Evans: To ask the Secretary of State for Education and Skills how many new school places have been created in each year since 1997, in schools in the Ribble Valley parliamentary constituency. [R] [163928]

Mr. Miliband *[holding answer 26 March 2004]:* We do not hold the information in the form requested. However, funding to support the provision of new pupil places in Lancashire local education authority (LEA) has been based on the following numbers of new places.

Year	*Primary*	*Secondary*
1998–99	124	215
1999–2000	—	548
2000–01	—	436
2001–02	—	40
2002–03	—	111
2003–04	180	35

Note:
Allocations related to the authority's forecast of new pupil places required three years hence.

School Playing Fields

Diana Organ: To ask the Secretary of State for Education and Skills how many school playing fields have been disposed of since 2001; and what purposes the land was used for in each case. [163663]

Mr. Stephen Twigg: Section 77 of the School Standards and Framework Act 1998 requires local authorities and schools to obtain the written consent of the Secretary of State before they can dispose of any part of a school's playing field. Schools are only allowed to dispose of genuinely surplus areas of playing fields. All sale proceeds from approved applications are used to provide new or improved sports or education facilities at maintained schools.

Since 2001, only 40 applications have been approved that would result in the loss of an area of school playing field that is capable of forming at least a small sports pitch of 2000m^2. Some 19 of these cases are at closed or closing school sites. Of the 21 cases at operating schools, 18 of them included proposals to provide better sports

facilities, including 11 new sports halls and eight all-weather pitches. The remaining three cases provided improved school facilities including a new school and new school buildings.

The purpose of our assessment process is to ensure that the land is genuinely surplus to needs, not to monitor its future use. That is a matter for the local planning authority. We, therefore, do not record the purposes to which the land will be used following approval to dispose.

Schools (Computers)

Mr. Hoyle: To ask the Secretary of State for Education and Skills how much public funding has been spent on computers for schools in *(a)* Lancashire and *(b)* Chorley in each year since 1996. [164181]

Mr. Tom Clarke: I refer my hon. Friend to my answer to his question on funding allocated to Lancashire for information and communications technology (ICT) in schools across the authority on 16 March, *Official Report*, column 226W. Our records show that Lancashire did not receive any specific funding for ICT in 1996–97 or 1997–98. Funding is not allocated or collected on a constituency basis.

Mr. Hoyle: To ask the Secretary of State for Education and Skills how many pupils per computer there were in schools in *(a)* Lancashire and *(b)* Chorley in each year since 1996. [164182]

Mr. Charles Clarke: The information requested is not available centrally.

Figures for England, which were derived from a sample of schools, are shown in the table.

Average number of pupils[1] per computer (used solely or mainly for teaching and learning purposes) by type of school

England – Year end March 1996–2003

	Maintained primary	*Maintained secondary*	*Maintained special*
1996	19.0	9.0	4.0
1997	[2]	[2]	[2]
1998	17.6	8.7	4.5
1999	13.4	8.4	3.7
2000	12.6	7.9	3.7
2001	11.8	7.1	3.2
2002	10.1	6.5	3.4
2003	7.9	5.4	3.0

[1] Full-time equivalent numbers of pupils.

[2] Not available

The latest information on ICT in schools was published in Statistical Bulletin 'Survey of Information and Communications Technology in Schools 2003', which is available on the Department's web-site www.dfes.gov.uk/rsgateway/.

Speech Therapists

Angela Watkinson: To ask the Secretary of State for Education and Skills how many speech therapist posts in special schools in London were unfilled in each local education authority in each year from 1997 to 2004. [164158]

Mr. Miliband: Data on the number of vacancies for speech therapists in maintained special schools are not collected centrally.

Angela Watkinson: To ask the Secretary of State for Education and Skills how many speech therapists were employed in special schools in each local education authority in London in each year from 1997 to 2004. [164159]

Mr. Miliband: Data on the number of speech therapists in maintained special schools are not collected centrally.

Students (South Derbyshire)

Mr. Todd: To ask the Secretary of State for Education and Skills (1) how many students there were in the most recent academic year for which statistics are available whose home prior to commencing their higher education course was in the South Derbyshire constituency; [157399]

(2) what proportion of students leaving school or college at 18 whose home was in the South Derbyshire constituency commenced a higher education course in the most recent academic year for which statistics are available. [157400]

Alan Johnson *[pursuant to his reply 11 March 2004, Official Report, c. 1745W]*: Figures at constituency level are not held centrally.

The available information covers students accepted for entry to full time undergraduate courses via the Universities and Colleges Admissions Service (UCAS) by local education authority (LEA). The figures show that in autumn 2002, 3,508 students of all ages from South Derbyshire LEA obtained a place in HE. In the same year, 22.5 per cent. of all 18-year-olds from South Derbyshire LEA obtained a place.

Teacher Recruitment

Bob Spink: To ask the Secretary of State for Education and Skills what steps he is taking to attract teachers who have taken early retirement back into the profession on *(a)* a part-time and *(b)* a voluntary basis; and if he will make a statement. [164201]

Mr. Miliband: Working through some of our national partners and contractors, such as the NCSL, TTA and Capita, we have encouraged the increased use of retired teachers with our plans for remodelling the school workforce and promoting 'Keeping in Touch' and 'Return to Teach' programmes. It is however up to local authorities and schools to determine their local needs for voluntary support staff.

More specifically, for those teachers who retired on ill-health grounds from the Teachers' Pension Scheme, regulations came into effect on 1 January 2004 (The Education Health Standards England Regulations 2003) which will enable such former teachers to be re-employed, or work on a voluntary basis, in the education sector in a non-teaching capacity.

Written Answers to Questions

Wednesday 31 March 2004

TRADE AND INDUSTRY

Supermarket Code of Practice

Mr. Drew: To ask the Secretary of State for Trade and Industry when she will respond to the Office of Fair Trading's assessment of the Supermarket Code of Practice. [164073]

Mr. Sutcliffe: The Office of Fair Trading (OFT) announced on 20 February 2004 that it would carry out an audit of the supermarkets' own records to determine whether there is evidence to support complaints about the Code made by various suppliers. When OFT have finalised their assessment, DTI is ready to look closely at the findings and any recommendations for action.

BACS

Brian White: To ask the Secretary of State for Trade and Industry what progress her Department has made to manage the changeover from the Bank Automated Clearing System to the new BACSTEL-IP system for electronic payments. [164327]

Ms Hewitt: The Department's account services provider, Amey BPO Services, have made arrangements to be ready for migration to BACSTEL-IP as and when required by the Bank of England.

Competitiveness Council

Mr. Connarty: To ask the Secretary of State for Trade and Industry pursuant to her answer of 17 March 2004, *Official Report*, columns 326–27W, to the hon. Member for Clydesdale (Mr. Hood), on the Competitiveness Council, for what reasons no agreement was reached on the regulation for the Community Patent. [164294]

Ms Hewitt: Agreement was not reached because of an unresolved issue over whether translations of the claims of the patent, which are required to be filed in all official languages of the European Union, should be for information only, or whether they should have full legal effect. One view is that a company should not be disadvantaged if it infringes a patent due to a bad translation. At the other end of the spectrum, various delegations believe that giving legal effect to translations would raise costs for everyone and increase uncertainty. The UK is anxious to see a compromise which recognises industry's clear view that excessive translation costs would make a Community Patent of little value compared to existing arrangements.

Entrepreneurship

Mrs. Curtis-Thomas: To ask the Secretary of State for Trade and Industry what steps her Department has taken to improve the start-up advice available to entrepreneurs. [163314]

Nigel Griffiths: The government has a range of services and initiatives in place aimed at helping those thinking of starting a business. A comprehensive range of advice, information and support is delivered through the network of Business Link Operators and its partners. The Businesslink.gov website contains tailored advice and information aimed at those thinking about starting a business. This includes a new online training directory to help people thinking of starting a business, or in their first year of trading, to access training in order to innovate, improve, grow and be more competitive. Steps have also been taken to address concerns expressed by those starting in business about understanding their responsibilities with the publication of the 'No Nonsense Guide to Government rules for setting and running your business'. This brings together in one place all the rules and regulations that affect start-up businesses.

Export Credit Guarantees

Malcolm Bruce: To ask the Secretary of State for Trade and Industry when and where payment was made by the Export Credits Guarantee Department of the agent's commission on the contract the ECGD backed on the sale of bridges to Papua New Guinea; and what percentage of the contract the commission represented. [163537]

Mr. Mike O'Brien: ECGD does not pay agent's commission on contracts it supports. However, the element of the contract price which reflects commission payments can be financed by banks within the loans ECGD guarantees.

ECGD is normally obliged to treat all information provided by its customers on the payment of agent's commission confidentially, using it to establish that the payment and value of the commission are acceptable.

Following our request, the exporter has agreed that ECGD can disclose that it employed a private engineering company to act both as local agent and sub-contractor. Commission formed an element of this arrangement and it was payable as work progressed. The commission was financed under the ECGD-guaranteed loan.

Malcolm Bruce: To ask the Secretary of State for Trade and Industry whether the Export Credits Guarantee Department covered agent's commission on the contract it supported on the addition of Trains 4 and 5 to the liquified natural gas plant at Bonny Island in Nigeria; what percentage of the contract the commission represented; and what the *(a)* place and *(b)* date of payment were. [158313]

Mr. Mike O'Brien: ECGD is not covering agent's commission on this contract.

Post Office Closures

Mr. Hinchliffe: To ask the Secretary of State for Trade and Industry (1) what assessment Post Office Ltd. made prior to the programme of closure of sub-post offices in Wakefield of its responsibilities under the Disability Discrimination Act 1995 in respect of access to services provided to customers who are *(a)* blind or visually impaired, *(b)* wheelchair users, *(c)* users of electric wheelchairs, *(d)* deaf, *(e)* frail due to advanced years, *(f)* mentally incapacitated or impaired and *(g)* sufferers

from heart conditions, emphysema or other conditions which restrict mobility, and if she will make a statement; [164244]

(2) what assessment was made during the development of the Post Office Area Plan for Wakefield of the impact of closure of sub-post offices on customer waiting time at the main post office in Wakefield city; [164245]

(3) what action Post Office Ltd. is taking to reduce customer waiting time at the main post office in Wakefield City. [164246]

Mr. Timms: These are operational matters for Post Office Ltd. and I have asked the Chief Executive to respond direct to the hon. Member.

Small Businesses

Mrs. Curtis-Thomas: To ask the Secretary of State for Trade and Industry if she will make a statement on the steps she has taken to encourage small businesses to grow in the United Kingdom. [163310]

Nigel Griffiths: The latest Barclays figures on Start-ups and Closures show that there were 384,900 start-ups in England and Wales in the 12 months ending September 2003, an increase of 3 per cent. on the year before.

A range of financial support is available to improve SMEs' access to finance, including the Small Firms Loan Guarantee scheme, R&D grants, Regional Venture Capital Fund, the Community Development Venture Fund, and Early Growth Funds.

OECD's review of EU countries ('Regulation, Productivity and Growth Economic Survey of the United Kingdom' (January 2003) shows the UK has almost the lowest administration cost and fewer regulations for entrepreneurs than any other EU country and that across Europe tax burdens on small business are lowest in the UK. The OECD Economic Survey—the United Kingdom (January 2004) indicates that in the UK economic and administrative regulations inhibiting competition and barriers to trade are among the lowest in the OECD.

Mrs. Curtis-Thomas: To ask the Secretary of State for Trade and Industry what steps her Department has taken to reduce the regulatory burden on small businesses. [163323]

Nigel Griffiths: Government are committed to reducing the regulatory burden on small business, in particular those regulations that act as a barrier to start-up and growth. We are determined to ensure that we only regulate when there is good reason to do so and when the benefits clearly justify the costs. Government have strengthened both the Regulatory Impact Assessment process and the guidance on the small firms impact test. Costs and benefits of proposed regulations are now properly analysed—and published.

Some of the highlights of the specific measures we have introduced to improve the regulatory environment for small business include:

Publishing the Government Action Plan for Small Business reiterating not only the commitment to better regulation but also our commitment to improving the regulatory environment for small firms.

Cutting form-filling and red tape for 700,000 small businesses with the new flat rate VAT scheme as well as abolishing automatic penalties for late filling of VAT which cost businesses £99 million in 1996–07.

Securing agreement across Government that there should be 12 weeks between the making of new regulation and its implementation, thereby allowing small firms more time to adopt and adapt to new regulations.

Publishing the Regulatory Reform Action Plan—setting out over 250 proposals for better regulation and reform. The Action Plan is designed to make it quicker and easier to repeal out of date legislation.

Raising the small company audit exemption threshold to the EU maximum of £5.6 million, saving 219,000 small businesses up to £274 million.

Announcements in the recent budget also highlight Governments commitment to reducing the regulatory burden for small firms.

A further increase in the VAT threshold to £58,000 keeping 5,000 of the smallest businesses out of the VAT system.

Government Departments reporting on their own regulatory performance. The independent Better Regulation Taskforce will publish its own analysis of these reports and Departments regulatory performance will be taken into account in the 2004 spending review.

Regulatory proposals that are likely to impose major new burdens on business will have to be cleared by the Panel for Regulatory Accountability, chaired by the Prime Minister, based on a thorough Regulatory Impact Assessment that has been agreed by the Cabinet Office Regulatory Impact Unit.

We have already introduced common commencement dates for employment legislation on two days per year in April and October. The Small Business Service will be consulting with Government Departments and small business on extending common commencement dates to other areas of legislation.

Government accepts in principle the benefits to business of moving to direct payment of the Working Tax Credit. This has the potential to reduce the cost of payroll administration benefiting 1.2 million small businesses.

All of these measures are designed to reduce the regulatory burden on small firms but it should be noted that the UK is not over-regulated compared to other countries.

Working Time Directive

Miss McIntosh: To ask the Secretary of State for Trade and Industry what assessment she has made of the cost to British businesses of complying with the Working Time Directive in *(a)* the ceramic sector, *(b)* construction products, *(c)* quarry products and *(d)* all products in total. [164581]

Mr. Sutcliffe: The cost to British business of complying with the Working Time Directive for all industries is estimated to be around £2.5 billion per annum. Estimates for the ceramic, construction and quarrying sectors are not available.

TRANSPORT

Aviation

Mr. Challen: To ask the Secretary of State for Transport what progress was made at the most recent International Civil Aviation Organisation meeting on sustainable aviation. [165168]

Mr. McNulty: The 6th triennial meeting of the ICAO Committee on Aviation Environmental Protection (CAEP) was held in Montreal, 2–12 February 2004. Progress was made on a number of issues. The principal achievements were (i) agreement on a new international standard for the minimum NOX performance of new aircraft engine types in the landing and takeoff cycle that is 12 per cent. more stringent than the current standard, coming into effect in 2008, (ii) agreement on the text of a guidance document on the application of the ICAO 'balanced approach' to noise management at airports, (iii) agreement to continue work on two possible avenues for the future participation of aviation in emissions trading at a global level, and (iv) agreement on a stretching programme of work for the period 2004–07, with a particular emphasis on long term goal-setting and the proper examination of trade-offs between different environmental impacts. Progress was also made on various lower-profile technical issues, but there was no progress on the use of charges to address the global environmental impacts of aviation, on which CAEP remains deeply divided.

All CAEP decisions are subject to confirmation by the ICAO Council and the full ICAO Assembly, 27 September-7 October 2004.

BACS

Brian White: To ask the Secretary of State for Transport what progress his Department has made to manage the changeover from the Bank Automated Clearing System to the new BACSTEL-IP system for electronic payments. [164324]

Mr. McNulty: The Financial Accounting Services Division (FASD) of the Office of the Deputy Prime Minister provides accounting services including banking services to the Department for Transport as a shared service.

FASD is discussing with the supplier of its banking services the options for managing the changeover from the Bank Automated Clearing System (BACS) to the new BACSTEL-IP system for electronic payments.

Buses

Mr. Paul Marsden: To ask the Secretary of State for Transport what percentage of buses he estimates allow full wheelchair access for users. [165150]

Mr. McNulty: An annual survey of vehicle operators carried out by the Department for Transport indicates that approximately 30 per cent. of the 48,000 full size buses operating in Great Britain as Public Service Vehicles, are low floor vehicles offering access for wheelchair users. The percentage operating in any given area will vary but in major cities it is likely to be considerably higher. The current figure for London is around 90 per cent.

These vehicles comprise 6,300 that meet the full wheelchair accessibility requirements of the Public Service Vehicle Accessibility Regulations 2000, and a further 7,700 which were manufactured prior to these regulations coming into force, which are low floor vehicles providing a good level of accessibility for wheelchair users.

Disabled Parking Badges

Claire Ward: To ask the Secretary of State for Transport when he plans to introduce new regulations to permit disabled children under two to obtain disabled parking badges. [165173]

Mr. McNulty: We are already working on a number of changes to the Blue Badge Scheme which require secondary legislation. These include extending the Scheme to those children under two whose medical needs require the transport of medical equipment at all times. We expect to consult on draft regulations later this year and to introduce the changes as soon as possible thereafter.

DVLA

Mr. Greg Knight: To ask the Secretary of State for Transport how much the Driver and Vehicle Licensing Agency spent on advertising in *(a)* the current financial year and *(b)* 1997; and how much they are planning to spend next year. [164346]

Dr. Howells: The information requested on Publicity/Marketing costs for 1997, 2003 and 2004 is as follows:

1997–98 some £3.4 million (as published in the Agency's accounts),

2003–04 some £14 million (current forecast), and

2004–05 some £13 million (current forecast).

The figures represent the Agency's spend/forecast on a resource basis for publicity and marketing. Since 1997 the Agency has seen an increase in expenditure in this area due to our commitment to reducing vehicle crime and our delivery of electronic services.

Main area of increase for this financial year (2003–04) includes Continuous Registration, Mandatory V5, Vehicle Identity Checks and Fee for a new Registration Document (V62). The forecasts for next financial year (2004–05) include Electronic Vehicle Licensing and Accelerating Issue of Harmonised Registration Certificate.

Heavy Goods/Public Service Vehicles

Mr. Paul Marsden: To ask the Secretary of State for Transport how many roadside checks were carried out on *(a)* heavy goods vehicles and *(b)* public service vehicles in each of the last 10 years. [163835]

Mr. Jamieson: The number of roadside checks carried out by the Vehicle and Operator Services Agency (formerly the Vehicle Inspectorate) on heavy goods vehicles and public service vehicles in each of the last 10 years is shown in the following table.

Roadworthiness roadside checks

Vehicle category	*HGV motor vehicles*	*HGV trailers*	*PSV*
2002–03	64,373	21225	20,287
2001–02	56,984	17,699	18,470
2000–01	68,270	22,159	21,160
1999–2000	74,459	24,046	23,516
1998–99	69,718	23,683	20,635
1997–98	85,023	28,096	28,045
1996–97	93,914	32,769	28,809
1995–96	85,523	28,335	23,987
1994–95[1]	13,4046	32,053	32,338
1993–94[1]	14,5807	32,448	32,645

[1] Figures for 1993–94 and 1994–95 include fleet roadworthiness checks. It is not possible to separate out figures for roadside checks only.

Note:

The figures shown exclude emissions-only checks on HGV motor vehicles but include checks on foreign vehicles.

Traffic enforcement examinations

Vehicle category	*HGV*	*PSV*
2002–03	106,587	13,900
2001–02	108,917	11,330
2000–01	132,784	15,994
1999–2000	158,067	18,513
1998–99	161,268	18,183
1997–98	192,573	30,436
1996–97	214,924	30435
1995–96	248,674	38,306
1994–95	266,185	38,654
1993–94	307,835	36,981

Note:

The figures include checks on foreign vehicles

Over recent years, VOSA has sought to improve its targeting regime in order to ensure that those who tend to comply with legal requirements are less likely to be stopped and checked, and those who are pre-disposed to ignore legal requirements are more likely to be detected. Greater effort now goes into researching, targeting and stopping/investigating vehicles selectively and this is reflected in the above trend (figures).

Maritime Security

Patrick Mercer: To ask the Secretary of State for Transport (1) what new security measures have been introduced by *(a)* Government and *(b)* Transec on (i) British ports and (ii) British ships in preparation for the implementation of the International Ship and Port Facility Security Code; [163584]

(2) how Transec has been working to prepare *(a)* ports and *(b)* United Kingdom flagged ships for the implementation of the International Ship and Port Facility Security Code on 1 July; [163585]

(3) if he will make a statement on the preparedness of British *(a)* ships and *(b)* ports for the implementation of the International Ship and Port Facility Security Code. [163623]

Mr. Jamieson: The Department for Transport's Transport Security Directorate (TRANSEC) in conjunction with the Maritime and Coastguard Agency (MCA) are responsible for introducing the ISPS Code requirements. Operationally TRANSEC is responsible for UK ports and passenger shipping, and MCA is responsible for non-passenger shipping, under a policy framework set by TRANSEC.

The UK has developed five port facility Protection Categories, based on traffic type, such as Passenger, Container Ro-Ro, Other Bulk Cargo, and has developed category specific security measures which are designed to reduce any existing vulnerabilities at these port facilities.

All of the major UK ports including the passenger operations have been assessed and Port Facility Security Assessment (PFSA) Reports have been prepared. Along with the individual PFSA reports, industry has been provided with category specific Port Facility Security Instructions and Security Standards. These will form the basis of their Port Facility Security Plans. A Port Facility Security Plan template has also been made available to assist companies prepare their plans, which are then submitted for approval.

Clear guidelines and deadlines have been issued to industry to submit their Ship Security Plans to TRANSEC for passenger ships, and the MCA for non-passenger ships, for examination and approval. Once a plan has been approved, it must be verified on board the ship prior to issuing an International Ship Security Certificate (ISSC).

It is up to individual port facilities and flag vessels to comply with the programme for submission we have set out. TRANSEC and MCA staff are already approving Port Facility Security Plans and issuing International Ship Security Certificates and the Government expect all UK port facilities and flagged ships will comply with the required ISPS standards by the deadline.

Rail Services (Kent)

Jonathan Shaw: To ask the Secretary of State for Transport what discussions he has had with the Office of the Deputy Prime Minister regarding the future demand on rail travel in the Kent Thames Gateway during the expected period of the Integrated Kent Franchise. [162502]

Mr. McNulty: The Department and the Office of the Deputy Prime Minister are in close contact on this issue. The impact of future rail demand in the Thames Gateway area has been taken into account in the Integrated Kent Franchise consultation process.

Port Security

Patrick Mercer: To ask the Secretary of State for Transport (1) what percentage of *(a)* ships and *(b)* containers are subject to security scanning upon their arrival in British ports; [163581]

(2) what measures he has taken since 11 September 2001 to improve the level of security scanning of *(a)* ships and *(b)* container freight upon their arrival in British ports; [163582]

(3) what percentage of *(a)* ships and *(b)* containers are scanned for harmful material upon arrival in Britain at (i) major and (ii) minor ports. [163583]

Mr. Jamieson: As the hon. Member will understand, it is not practice to disclose details of security matters.

Wembley Park Tube Station

Mr. Gardiner: To ask the Secretary of State for Transport (1) if he will enter into discussions with Chiltern Railways about its capacity to provide extra rail services in Brent and North West London during the essential engineering work to be carried out to the Jubilee and Metropolitan lines as part of the upgrade of Wembley Park tube station; [164682]

(2) whether the level of co-operation offered by Chiltern Railways to *(a)* Transport for London and *(b)* London Underground to maintain capacity during closures caused by essential engineering works will have an impact on the renewal of its licence to operate as a train company; [164689]

(3) what statutory responsibilities Chiltern Railways has to co-operate with *(a)* London Underground Limited, *(b)* Transport for London and *(c)* Tube lines in their efforts to maintain rail capacity during the essential engineering work to be carried out to the Jubilee and Metropolitan lines as part of the upgrade of Wembley Park tube station. [164690]

Mr. McNulty: Chiltern Railways has no statutory obligation to provide service cover for the London Underground but are co-operating with Transport for London (TFL) and London Underground Limited (LUL). They have agreed with TfL to run longer trains on the Marylebone-Harrow-Aylesbury route over the weekends 11/12 and 19/20 June to pick up passengers displaced by the works to the Jubilee and Metropolitan lines as part of the upgrade of Wembley Park tube station.

TREASURY

BACS

Brian White: To ask the Chancellor of the Exchequer what progress his Department has made to manage the changeover from the Bank Automated Clearing System to the new BACSTEL-IP system for electronic payments. [164323]

Ruth Kelly: The Office of HM Paymaster General, which provides a banking service to public sector bodies, has issued guidance to all its customers on the implications and importance of preparing for the migration, which must be completed by December 2005. This guidance is being re-inforced through regional presentations to OPG customers.

HM Treasury is presently planning its own transition to BACSTEL-IP.

Inland Revenue has already taken steps to review and replace its BACSTEL links before the December 2005 deadline. This will involve either the replacement of BACSTEL kit or the transfer of payments to non-BACSTEL links.

HM Customs and Excise has been aware for some time of the BACSTEL-IP changes and has already had preliminary meetings with BACS, its sponsoring bank (Bank of England), its current BACS software supplier and various Technical Division representatives.

National Savings and Investments has undertaken and completed the assessment of the impact and cost of moving to the new BACSTEL-IP system and has agreed a suitable solution that will be quick and easy to implement. NS&I plan to be 'live' by August 2004.

Emigration

Mr. Forth: To ask the Chancellor of the Exchequer how many *(a)* emigrants left and *(b)* immigrants entered the UK in each year since 2000. [163053]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr Eric Forth, dated 31 March 2004:

As National Statistician, I have been asked by the Chancellor of the Exchequer to reply to your request for information on migration into the UK, and out of the UK, for each year since 2000. (163053)

The most recent year for which data are available is 2002. The attached table shows in-migration, out-migration and net migration for the UK, for the years 2000–2002. The table shows migration by citizenship, with British citizens and non-British citizens shown separately.

Total international migration[1] : citizenship time series 2002–2002—United Kingdom

Thousand

	All citizenships	*British*	*Non-British*	*European Union[2]*	*Commonwealth*		*Other foreign[4]*
					Old[3]	*New*	
Inflow to UK:							
2000	483.4	104.1	379.3	63.1	57.2	90.9	168.1
2001	479.6	106.3	373.3	60.4	67.4	83.9	161.6
2002	512.8	94.6	418.2	62.8	65.6	92.9	196.8
Outflow from UK:							
2000	320.7	161.1	159.6	57.0	32.2	14.9	55.5
2001	307.7	159.2	148.5	49.1	32.1	18.6	48.6
2002	359.4	185.7	173.7	51.7	42.3	15.8	63.9
Balance:							
2000	+162.8	-57.0	+219.7	+6.1	+25.0	+76.0	+112.6
2001	+171.8	-53.0	+224.8	+11.2	+35.2	+65.4	+113.0
2002	+153.4	-91.1	+244.5	+11.1	+23.4	+77.1	+132.9

[1] Based mainly on data from the International Passenger Survey. Includes adjustments for (1) those whose intended length of stay changes so that their migrant status changes; (2) asylum seekers and their dependants not identified by the IPS; and (3) flows between the UK and the Republic of Ireland.

[2] Figures for all years show EU as it was constituted on 1 January 1995.

[3] Includes estimates of South African citizenship for all years.

[4] Figures for all years include Hong Kong.

Lyons Report

Mr. Hoban: To ask the Chancellor of the Exchequer (1) whether the upfront costs of relocation of Government offices will be included as a capital items within the Government's spending rules; [164726]

(2) when considering relocation options, what is the maximum permitted payback period for an investment to be approved; [164734]

(3) what measures of financial return are used to assess the financial viability of any relocation proposal made in the Lyons Report. [164735]

(4) what proportion of the jobs recommended to be dispersed by the Lyons Report are *(a)* full-time and *(b)* part-time. [164749]

Mr. Boateng: This is a matter for departments' detailed business planning which they will be taking forward as part of the 2004 Spending Review.

Multi-occupancy Households

Mr. Edward Leigh: To ask the Chancellor of the Exchequer how many households in England and Wales contain two or more persons, excluding students, who do not see themselves as a couple, according to the 2001 Census; how many people are in such households; how many people there are in such households where both are pensioners; and how many people in such households he estimates are related to each other. [163071]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Dennis Roberts to Mr. Edward Leigh, dated 31 March 2004:

The National Statistician and Registrar General for England and Wales has been asked to reply to your recent question asking how many households in England and Wales contain two or more persons, excluding students, who do not see themselves as a couple, according to the 2001 Census; how many people are in such households; how many people there are in such households where both are pensioners; and how many people in such households are related to each other. I am replying in his absence.

There were 1,763,170 such households in England and Wales containing 4,616,558 residents. Of these 4,616,558 residents, 183,775 were pensioners living in "All Pensioner" households. This is based on households where none of the residents recorded themselves as part of either a married or a cohabiting couple.

These figures supplied are from a special extract taken from the 2001 Census database.

Information on how many people in such households are related to each other is not currently available from the 2001 Census for England and Wales. ONS expects to be able to derive and publish this information later in the year.

National Insurance Fund

Mr. Denham: To ask the Chancellor of the Exchequer whether it is his policy to reduce the surplus on the National Insurance Fund; and if he will make a statement. [164116]

Dawn Primarolo: The National Insurance Fund provides security for state retirement pensions and other contributory benefits, and the Government are determined to continue managing it prudently.

PFI

Sir Michael Spicer: To ask the Chancellor of the Exchequer what estimate he has made of the *(a)* current and *(b)* future cost to public funds of each existing (i) private finance initiative and (ii) public private partnership project. [163828]

Mr. Boateng *[holding answer 26 March 2004]:* The projected aggregate future payments from public funds for existing PFI projects, are set out in Table C19 'Estimated payments under PFI contracts—April 2004 (signed deals)' in the Financial Statement and BudgetReport (FSBR) 2004. http://www.hmtreasury.gov.uk/media//1CE4C/bud04_chc_312.pdf

Figures on current and future payments for individual existing PFI projects are recorded in individual departmental accounts.

Figures on current and future costs of Public Private Partnerships are recorded in individual departmental accounts.

Mr. Meacher: To ask the Chancellor of the Exchequer (1) in what proportion of refinanced early private finance initiative projects the Office of Government Commerce has secured its target share of 30 per cent. refinancing gains; what proportion of deals signed since July 2002 contract for a 50/50 share of refinancing gains; and how many and what proportion of refinanced deals have applied the Office of Government Commerce application notes recommended discount rate when measuring and sharing refinancing benefits; [163925]

(2) how many and what proportion of private finance initiative contracts have been refinanced; and if he will list by Department *(a)* the name, date and capital value of each, *(b)* the expected shareholder returns when the contract was let, *(c)* the increase in returns from refinancing before payment of refinancing gains to the procuring authority, *(d)* the refinancing gains paid to the procuring authority, *(e)* the expected shareholder returns after sharing refinancing gains and *(f)* the increase in cash terms in the processing authority's maximum termination liability. [163926]

Mr. Boateng: The Government monitor the implementation of the Refinancing Code as part of their wider commitment to safeguard value for money for the taxpayer. Departments and other public bodies are encouraged to make full use of the Refinancing Taskforce, which has been established as a centre of expert advice to assist departments on refinancing issues and transactions.

Ten of the 11 private finance initiative projects refinanced after the introduction of the Voluntary Code of Conduct on 30 September 2002 achieved a gain share of 30 per cent. or more for the authority. The revised Standardisation of PFI Contracts (SOPC) came into effect on 30 June 2002 and all projects signed since have been required to provide for a 50/50 share of refinancing gains between authority and contractor.

Thirty-nine private finance initiative projects have been refinanced. This accounts for less than 7 per cent. of the total number of PFI projects that have reached Financial Close. The information requested in respect of; *(a)* the name, date and capital value of each project

and *(d)* the refinancing gains paid to the procuring authority are listed as follows where available. The information requested in respect of; *(b)* the expected shareholder returns when the contract was let, *(c)* the increase in returns from refinancing before payment of refinancing gains to the procuring authority, *(e)* the expected shareholder returns after sharing refinancing gains and *(f)* the increase in cash terms in the processing authority's maximum termination liability is not held centrally.

[1] The benefit of the refinancing gains was transferred to the Procuring Authority at the outset of the project through a reduction in the project costs to match the forecasted level of refinancing gains.

Public Administration Costs

Mr. Flight: To ask the Chancellor of the Exchequer (1) if he will publish the figures used to calculate Chart 6.1, Administration costs as a proportion of total spending, on page 135 of the Economic and Fiscal Strategy Report and Financial Statement and Budget Report 2004; [163588]

(2) what the cost of Government administration has been in each financial year since 1995–96; and what proportion of total spending by Government Departments in each year those figures represent. [163599]

Mr. Boateng: For 1986–87 to 2005–06, the data that underpins Chart 6.1 in the Economic and Fiscal Strategy Report has been published in Public Expenditure Statistical Analyses (PESA) 1988–89 to 2003–04, copies of which are in the Library.

For financial years 2006–07 and 2007–08, the data that underpins Chart 6.1 reflects announcements on administration costs and Total Managed Expenditure made in Budget 2004.

Public Sector Pay

Mr. Hoban: To ask the Chancellor of the Exchequer what the average public sector salary is in *(a)* the United Kingdom, *(b)* London, *(c)* the South East, *(d)* Hampshire, *(e)* the South West and *(f)* Wales. [164742]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Mark Hoban, dated 31 March 2004:

As National Statistician, I have been asked to reply to your recent question asking what the average public sector salary is in *(a)* the United Kingdom, *(b)* London, *(c)* the South East, *(d)* Hampshire, *(e)* the South West and *(f)* Wales.

Average earnings are estimated from the 2003 New Earnings Survey (NES) and are shown in the attached table. These are provided for full-time employees on adult rates of pay whose pay was unaffected by absence during the pay period. This is the standard definition used for NES tables. The NES does not collect data on the self employed and people who do unpaid work. Area figures are provided according to the location of workplaces.

The NES, carried out in April of each year, is the most comprehensive source of earnings information in Great Britain. It is a one per cent sample of all employees who are members of pay-as-you-earn (PAYE) schemes, but because of its sampling frame, it has difficulty capturing data on people with very low pay. It is therefore likely to under-represent relatively low paid staff earning below the tax threshold.

The New Earnings Survey publication criteria ensures that all estimates are undisclosive and of reliable quality. As with any statistical sample survey, estimates from the NES are subject to sampling error.

Average gross weekly (£) earnings in the public sector in six areas, as specified—April 2003

Area	*Average weekly earnings (£)*
London	559.9
South East (excluding London)	477.3
South West	451.9
Wales	441.5
Hampshire	495.4
UK	465.8

Note:
1. Estimates for London, the South East and the South West are for Government Office Regions.
2. Employees are generally classified to the public sector according the classification of their employer in the Interdepartmental Business Register (IDBR).

Source:
New Earnings Survey, April 2003

Corporation Tax

Mr. Drew: To ask the Chancellor of the Exchequer what additional revenue the Treasury will receive as a result of the changes to small company taxation on dividends proposed to take effect in 2004; [151773]

Mr. Flook: To ask the Chancellor of the Exchequer what estimate he has made of the revenue to be raised in each of the next two financial years from the 19 per cent. minimum rate of corporation tax on distributed profits; and if he will use this revenue to support small businesses; [164562]

Dawn Primarolo: The estimated yield from the 19 per cent. minimum rate of corporation tax on distributed profits for the next three financial years is given in Table A1 of the Financial Statement and Budget Report. Alongside the revenue raised by the measure, unincorporated businesses have benefited from lower tax rates by incorporating. Estimates of the impact of the measure, taking into account these savings, are shown in footnote 1 to Table A1.

CONSTITUTIONAL AFFAIRS

Asylum Cases (Legal Assistance)

Mr. Sarwar: To ask the Parliamentary Secretary, Department for Constitutional Affairs how much was paid in legal assistance in asylum cases in 2003. [164974]

Mr. Lammy: The Legal Services Commission does not differentiate asylum from wider immigration cases and the amount paid by the Commission is calculated by financial year. The total legal aid expenditure for immigration and asylum cases for 2002–03 was £176.2 million. A figure for 2003–04 will not be finalised until after the year-end.

Commercial and Admiralty Courts

Mr. Mark Field: To ask the Parliamentary Secretary, Department for Constitutional Affairs if he will make a statement on progress with the programme to provide the Commercial and Admiralty Courts with more suitable accommodation. [164626]

Mr. Leslie: There is widespread support for a new building for the Commercial Court, and we are committed to finding a way to achieve this. I am aware of the contribution that a successful Commercial Court, and our legal system more generally, provides to the City, and therefore the country and economy as a whole.

The scoping work to produce an Outline Business Case (OBC) to create a new building for the Commercial Court has been completed by officials in my Department.

Further consideration of the options, costs and benefits are being made, and further announcements will be made in due course.

D. W. Stock

Mr. Wyatt: To ask the Parliamentary Secretary, Department for Constitutional Affairs when the Legal Services Commission received details of the case relating to a constituent, D. W. Stock; and what the cost to public funds of dealing with the case has been. [164674]

Mr. Lammy: D. W. Stock first applied for public funding on 3 March 2000. A subsequent application for funding was refused, and the appeal against that refusal was delayed. Mr. Stock made an ex gratia application for compensation on 18 May 2002. The cost to public funds of dealing with the case is not held centrally and can be provided only at disproportionate cost.

Legal Services Commission

Mr. Dismore: To ask the Parliamentary Secretary, Department for Constitutional Affairs what the estimated cost to the Legal Services Commission is of funding Mr. Hamza's appeal to the Special Immigration Appeals Commission. [163845]

Mr. Lammy: The Legal Services Commission has not to date granted funding to Mr. Hamza for an appeal to the Special Immigration Appeals Commission. However, he has a pending appeal to the Funding Review Committee. Disclosure of details relating to Mr. Hamza's case while it is ongoing would constitute a breach of confidentiality.

Magistrates Courts

Mr. Llwyd: To ask the Parliamentary Secretary, Department for Constitutional Affairs how many appeals against closure of magistrates courts were lodged in each year since 1997 to date; and how many of these succeeded in each year. [163934]

Mr. Leslie: The number of successful appeals against closure decided by Ministers is as follows:

1997: 2 out of 17;

1998: 1 out of 26;

1999: 1 out of 9;

2000: 1 out of 11;

2001: none out of 12;

2002: none out of 2;

2003: 5 out of 15;

and in 2004 there have been three successful appeals so far and none dismissed. There are two appeals still outstanding.

Small Claims

Vera Baird: To ask the Parliamentary Secretary, Department for Constitutional Affairs what plans he has to simplify procedures in the small claims track. [164439]

Mr. Lammy: I refer my hon. and learned Friend to my reply on 27 October 2003, *Official Report*, column 49W.

Vera Baird: To ask the Parliamentary Secretary, Department for Constitutional Affairs what research his Department has *(a)* commissioned and *(b)* evaluated on the socio-economic origins of claimants and defendants in actions in the small claims track. [164457]

Mr. Lammy: The Department has conducted several research projects on the small claims track but because of methodological difficulties none has addressed the socio-economic origins of claimants and defendants.

HOME DEPARTMENT

Amphetamines

John Mann: To ask the Secretary of State for the Home Department (1) pursuant to the oral answer of 22 March 2004, *Official Report*, column 551, on amphetamines, what assessment he has made of *(a)* trends in the level of use of methamphetamine hydrochloride and *(b)* the effects of those trends; [163929]

(2) what assessment he has made of the effects of *(a)* methamphetamine hydrochloride and other amphetamines and *(b)* cocaine and crack cocaine on the (i) behaviour, (ii) psychosis and (iii) addiction of individuals when taking these drugs and on the length of time that uncharacteristic drug-induced behaviour continues while the drug remains in an individual's system; [163930]

(3) what assessment he has made of the *(a)* levels and *(b)* effects of use of (i) methamphetamine, (ii) laevoamphetamine and (iii) dextroamphetamine; [163931]

(4) what assessment he has made of the extent to which amphetamine use leads to violent and aggressive behaviour. [163932]

Caroline Flint: The Advisory Council on the Misuse of Drugs keeps the situation in respect of all controlled drugs under review. Methylamphetamine was considered at the ACMD's Technical Committee meeting on 11 March. Evidence given at the meeting suggested that the level of methylamphetamine use in the UK at present is not a significant problem, and there is no evidence to suggest it is likely to become one in the foreseeable future. The Advisory Council is to further consider the matter at its meeting on 1 April.

It was highlighted at the meeting on 11 March that methylamphetamine is a dependent inducing drug that is stronger than normal amphetamine. It has links with the development of mental illness, with users sometimes showing signs of violence, paranoia and anxiety. The effects of the drug last longer than cocaine or crack. The effects of amphetamine are similar to, but generally less severe than for methylamphetamine. Cocaine is a very dependence-inducing drug. Its harms include chest pains which can lead to potentially fatal heart problems. Crack has the same short-lived effects as cocaine but is much stronger. Crack is very addictive and chronic users are likely to suffer from mood swings, paranoia, aggression and mental illnesses.

The level of methylamphetamine use in the United Kingdom is not at present significant. In 2003 only 415 grams of methylamphetamine was seized by the police. Laevoamphetamine and dextroamphetamine are two isomers that are used to make amphetamine and are not misused separately. According to the British Crime Survey 2002–03, 1.6 per cent. of the population in England and Wales in the 16 to 59 age group have used amphetamine in the last 12 months.

No specific assessment has been carried out of the extent to which amphetamine use leads to violent and aggressive behaviour. The Advisory Council last formally considered amphetamine in November 1995. As stated above, the Advisory Council's Technical Committee considered the harms of methylamphetamine at its meeting on 11 March.

Animal Experiments

Mr. Hancock: To ask the Secretary of State for the Home Department what recent research his Department has *(a)* commissioned and *(b)* evaluated on the efficacy of animal experiments; [163903]

Caroline Flint: The Home Office has not commissioned or evaluated any formal research on the efficacy of animal experiments. Animal experiments must be judged to be potentially efficacious in order to be licensed under the Animals (Scientific Procedures) Act 1986, which requires that animals may only be used in scientific procedures where such use is fully justified, where the likely benefits outweigh the costs to the animals involved, and where the procedures are most likely to produce satisfactory results. Also, under the conditions attached to their certificates of designation under the 1986 Act, all places that undertake animal experiments are obliged to have an ethical review process, one of the functions of which is to review the efficacy and conduct of the work undertaken under licence at the establishment. In addition, research councils and charities fund many research projects carried out under the 1986 Act and the work done is reported to and evaluated by them. Other work is funded by pharmaceutical companies and is subject to internal scrutiny within those companies. The safety and efficacy testing needed before people are exposed to new drugs is evaluated by the relevant regulators.

Child Abuse

Ms Shipley: To ask the Secretary of State for the Home Department (1) if he will make a statement on plans to establish regional centres dedicated to high technology investigation of on-line child abuse; [158986]

(2) if he will make a statement on the level of resources available to gather forensic evidence on on-line child abusers; [158990]

(3) if he will list the police forces in England and Wales which do not specialise in combating internet child abuse; [158991]

(4) what funding is available for international co-operation to protect children whose images have been trafficked on-line; [158992]

(5) what discussions he has undertaken with his US counterparts on increasing US detection of internet child pornography crime; [158993]

(6) what percentage of internet child pornography detected in the UK has been hosted on websites in the USA; [158994]

(7) if he will make a statement on the training that police who are not part of specialist units receive on how on-line paedophiles operate. [158995]

Paul Goggins: The deployment of officers to units dealing with child abuse investigations and their training in forensic investigation skills is a matter for individual chief officers. In addition a number of private companies provide forensic examination services which are regularly utilised by law enforcement agencies. There is no centrally aggregated figure of these resources.

In addition to the on-going support for high tech crime, in December 2002 the Home Office provided a one-off payment of £½ million to the Association of Chief Police Officers to support operations to combat child abuse on the internet. This money has been used in part to provide relevant hardware and software, and also to train 86 individuals within forces in basic forensic analysis this financial year. The Home Office is currently producing tactical guidance for managers of computer crime units within forces which will include advice on running these units and practical guidance on procedures and tools for forensic analysis.

Every police force in England and Wales has a computer crime unit and a child protection/child abuse investigation team which has expertise in the recovery of forensic evidence and network investigation. These skills are utilised in on-line child abuse investigations. Whilst the degree of expertise and training within these units will vary from force to force, all forces have specialists in dealing with such cases.

With regard to training police who are not part of specialist units, there is a module included in the probationary training for all new police officers covering the internet and new technology to raise their awareness of how paedophiles and other criminals can exploit this technology. Centrex are also developing an on-line training package for existing officers. I have also made available £100,000 to facilitate the development of a joint awareness package covering how children and those who exploit them use these technologies. This package will be aimed at all professionals with a role in child protection, including social workers, police and probation officers.

A major consultation on the future of police reform was launched on 4 November 2003 entitled 'Policing: Building Safer Communities Together'. This raised a number of questions including whether there is a need for larger strategic forces, and specialised 'lead' forces to tackle certain issues, such as on-line paedophilia. Responses to the consultation paper are now being considered and we will publish firmer proposals for consultation later this year in relation to these issues.

I understand from figures provided by the Internet Watch Foundation that from the images reported to them in 2003, 55 per cent. of child abuse content is believed to be hosted in the United States. My right hon. Friend, the Home Secretary, has recently met the Deputy Attorney General and has discussed how we can co-operate to close down illegal sites that are based in the US. There will be a UK/USA working group to take this issue forward bilaterally.

All G8 countries, including the UK and US, adopted a strategy on Protecting Children from Sexual Exploitation on the internet in October 2002. The aim of the strategy is to protect children from sexual exploitation on the internet and help make cyberspace a safer environment for all internet users.

A problem for all law enforcement agencies is the identification of children featured in child abuse images. As part of this G8 strategy the UK is leading the development of an international (not restricted to G8 countries) Child Image Database, housed at Interpol. It aims to act as a global repository of images of child

abuse with the capacity to carry out automated analysis. It will be a significant tool for international law enforcement contributing to the identification of victims and offenders and analysis of images.

In the UK, where the Internet Watch Foundation discover that child abuse material is produced or hosted overseas, arrangements exist for notifying the relevant law enforcement agency and Internet Service Provider (ISP) concerned.

There are also a variety of funding mechanisms to assist in furthering international co-operation such as through the provision of equipment and training to overseas law enforcement by UK agencies, and the provision of specialist training courses. For example the Foreign and Commonwealth Office and National Crime Squad are hosting a second conference for international law enforcement experts later this month.

Courts (Remand and Tagging)

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what estimate he has made of the effects of courts' *(a)* secure remand and *(b)* tagging powers. [159806]

Paul Goggins: Between April 2002 and January 2004 11,263 juveniles aged 12 to 17 received secure remands and 5,713 juveniles aged 12 to 16 were bailed with a tagging requirement. Tagging has only been available for 17 year olds since 5 January 2004 and we do not yet have figures.

Secure remand powers are intended for young people charged with the most serious and persistent offending. Youth Offending Teams' recommendations to courts reflect this approach. In addition, remand review schemes operate to identify any juveniles who would be more suitable for conditional bail on their next court appearance.

Tagging for juveniles is currently being evaluated and the findings are due to be published shortly.

Criminal Justice (Greater London)

Simon Hughes: To ask the Secretary of State for the Home Department what steps his Department is taking to ensure that targets for improving the performance of the Criminal Justice System in Greater London are met. [163075]

Paul Goggins: The London Criminal Justice Board is one of 42 Local Criminal Justice Boards tasked with improving the performance of the Criminal Justice System (CJS).

The local boards are responsible for delivery of the CJS Public Service Agreement (PSA) targets. Their key priorities are to improve the delivery of justice by increasing the number of crimes for which an offender is brought to justice and to improve the level of public confidence in the CJS. Additionally they have targets to ensure the Persistent Young Offender pledge is met and where applicable, including in London, they have a target to reduce street crime.

Each local board has set out in delivery plans what their precise targets are and how they intend to achieve them. Progress against these plans are monitored and assessed by teams made up from representatives from across the three CJS Departments—Home Office, Department for Constitutional Affairs and Crown Prosecution Service—and appropriate feedback and support is given.

Additionally the National Criminal Justice Board, at its monthly meetings, discusses the performance of local boards and members of the board—Ministers and senior officials—regularly visit local areas to offer support, build good working relationships with board members and challenge boards on poor performance.

London also benefits from having a CJS Ministers Group that works with the board to identify and remove any obstacles to improved performance.

The board recently reviewed its sub-structures and has now set up 28 borough level Criminal Justice Boards that will allow them to focus attention and resources on those areas that most require them.

Drug Testing and Treatment

Miss McIntosh: To ask the Secretary of State for the Home Department pursuant to the answer of 2 March 2004, *Official Report*, column 901W, on drug testing and treatment, (1) if he will break down the number of drug treatment and testing orders issued in the York Petty Sessional Area by bench areas; [161774]

(2) what the success rate is of drug treatment and testing orders *(a)* in England, *(b)* in the York Petty Sessional Area and *(c)* in each bench area in the York Petty Sessional Area; [161775]

(3) how many drug treatment and testing orders have been revoked in the York Petty Sessional Area; and what the reasons were for revoking them; [161776]

(4) what the recommended timescale is for moving between the stages of sentence, initial probation appointment, commencement on programme and receiving prescription drugs. [161777]

Paul Goggins: Information relating to the number of Drug Treatment and Testing Orders (DTTOs) made in the York Petty Sessional Area (PSA) broken down by bench areas together with success rates of these orders and the number that have been revoked and reasons for this is not centrally available.

Data provided by probation areas to the National Probation Directorate show that in England and Wales between October 2000 and December 2003 18,397 orders were made. 16 per cent. of these were completed successfully, and 34 per cent. remained on the order. In the same period, 11,750 orders terminated, 24 per cent. of which were for successful completion.

Completion rates of DTTOs do not necessarily show the whole picture in respect of success of these orders. An evaluation of the three DTTO pilots found that, on average, offenders committed 75 per cent. fewer offences while on the order and reduced their spend on drugs by over 90 per cent. A two-year follow-up reconviction study found that there was a significant reduction in the average number of convictions per year in the two years following the order in all three pilot sites.

In respect of DTTOs, the timescales for first contact with the probation service and treatment provider are determined by the Home Office National Standards for the supervision of offenders in the community. These require that the first appointment with the probation area shall be arranged to take place within one working day of the order being made and contact with the treatment provider shall be arranged to take place within two working days of the order.

No recommendation is made in respect of commencement on any specific programme, nor in respect of prescribing substitute drugs; this is determined on an individual basis following assessment and is dependent upon the treatment needs of the offender. Contact, including treatment, across all requirements of the orders is expected to be on five days per week, for a total of 20 hours per week, for the first 13 weeks of the order.

Graffiti

Mr. Sheerman: To ask the Secretary of State for the Home Department how many of those who graffitied were repeat offenders in 2003; and whether common profiles for repeat offenders have been created. [153607]

Paul Goggins: Statistics are not available to indicate how many of offenders who cause graffiti are repeat offenders. The statistics collected centrally do not include the circumstances of the offence, therefore graffiti offences committed cannot be distinguished from other offences of criminal or malicious damage.

Police

Mr. Heath: To ask the Secretary of State for the Home Department what percentage of police officers in each police force in England and Wales are *(a)* female and *(b)* from an ethnic minority, broken down by rank. [164215]

Ms Blears: The data for 31 March 2003 are shown in the tables. The March 2004 data will be published in the autumn.

Percentage of minority ethnic officers per force, by rank, as at 31 March 2003: England and Wales

Probation Service

Llew Smith: To ask the Secretary of State for the Home Department what representations he has received from serving members of the Probation Service in respect of proposals made in the "Reducing Crime—Changing Lives" publication, issued in January; and what cost-benefit analysis has been made of the proposals to introduce a purchaser/provider model for the Probation Service. [159939]

Paul Goggins: As of 8 March the Home Office has received, in response to the proposals in "Reducing Crime—Changing Lives", 163 representations from serving members of the National Probation Service or from representative groups working within Probation.

The National Offender Management Service implementation team will consider the specific details, including the costs/benefits of the introduction of a purchaser-provider model across Correctional Services.

Study Visas

Hugh Bayley: To ask the Secretary of State for the Home Department what the range of fees payable for visas to study in the UK is; what the average fee payable is; whether higher fees are payable for visas for longer courses; what fees are charged for visa extensions for students who do not complete their courses on time; and if he will make a statement. [164154]

Mr. Mullin: I have been asked to reply.

Students currently pay £36 for a student visa application, irrespective of course length. My right hon. Friend the Minister for Citizenship and Immigration announced the introduction of charging for extensions to stay in the UK on 10 July 2003. The fee for all leave to remain applications including students is £155 with a premium rate of £250 for a same day service.

Wheel Clamping

Kevin Brennan: To ask the Secretary of State for the Home Department if he will make a statement on progress in the licensing of wheel clampers. [164161]

Ms Blears: On current plans the Security Industry Authority propose to commence the licensing of wheel clampers towards the end of 2004. Details of the licensing criteria are currently being finalised and are likely to include an identity check, a criminal records check for relevant previous convictions, and a check on the applicant's professional competence to do the job.

SCOTLAND

Parliamentary Questions

Norman Baker: To ask the Secretary of State for Scotland how many parliamentary questions have been tabled to his Department since 1 January 2003, broken down by *(a)* ordinary written and *(b)* named day; what percentage in respect of *(a)* were answered within 10 working days and what percentage in respect of *(b)* were answered by the specified date. [157735]

Mrs. McGuire: 387 parliamentary questions were tabled to the Department from 1 January 2003 to end February 2004, of which 331 were ordinary written and 56 were named day. While records on average processing times are not collected, approximately 75 per cent. of the ordinary written questions were answered within 10 working days. Approximately 65 per cent. of the named day questions were answered by the specific date.

Census

Mr. Leigh: To ask the Secretary of State for Scotland (1) how many same-sex couple households there are in Scotland according to the 2001 Census; [163064]

(2) how many households in Scotland contain two or more persons, excluding students, who do not see themselves as a couple, according to the 2001 Census; how many people there are in such households; how many people are in such households where there are pensioners; and how many people he estimates are in such households who are related to each other. [163065]

Mrs. McGuire: The Census is a devolved matter in Scotland. However, the Registrar General for Scotland, Mr. Duncan Macniven, will write to the hon. Member setting out the information requested.

UK Supreme Court

Annabelle Ewing: To ask the Secretary of State for Scotland (1) what assessment has been made by his Department of the possible change in fees in civil cases in Scotland that may be required following the establishment of the UK Supreme Court; [162940]

(2) what discussions he has had with Scottish Ministers about the possible change in fees in civil cases in Scotland that may be required following the establishment of the UK Supreme Court. [162941]

Mrs. McGuire: My right hon. and noble Friend the Secretary of State for Constitutional Affairs is responsible for the establishment of the UK Supreme Court and will continue to discuss all aspects of its administration, including the development of appropriate funding mechanisms, directly with the Scottish Executive and my right hon. Friend the Secretary of State.

INTERNATIONAL DEVELOPMENT

Iraq

7. **Bob Spink:** To ask the Secretary of State for International Development what recent discussions he had in Iraq on support for ethnic groups. [164507]

Hilary Benn: In Baghdad and Basra last week I held discussions on a wide range of issues including those affecting ethnic and religious groups. DFID is not providing assistance in support of any specific groups. DFID aims to promote social and political cohesion by increasing the participation of all Iraqis in the democratic process. DFID recently agreed to establish a £5 million political participation fund to assist towards meeting this objective.

Hugh Bayley: To ask the Secretary of State for International Development if he will make a statement on post-war reconstruction and development in Iraq. [164156]

Hilary Benn: I refer the hon. Member to the Written Statement I made to the House on 25 March 2004, *Official Report*, column 66WS, following my visit to Iraq on 22–23 March.

Global Fund

8. **Mr. David Stewart:** To ask the Secretary of State for International Development what recent discussions he has had with European ministers regarding *(a)* the funding and *(b)* the administrative structure of the global fund. [164508]

Hilary Benn: I refer my hon. Friend to the reply I gave earlier.

Zimbabwe

9. **Mr. Liddell-Grainger:** To ask the Secretary of State for International Development if he will make a statement on the humanitarian situation in Zimbabwe. [164509]

Hilary Benn: The humanitarian crisis continues to be fuelled by a number of factors including the HIV/AIDS epidemic, Government of Zimbabwe's misguided economic policies, the fast track land programme, and late rains. Up to 8 million Zimbabweans are currently facing food shortages prior to the harvest in April 2004. In addition, the Government of Zimbabwe is increasingly incapable of providing basic social services such as water and sanitation, health and education to its population.

The 2004 harvest may provide less than half the food needs of the population, mainly due to lack of seeds, fertilizer and other agricultural inputs. Even with a change in the political climate, the need for a humanitarian response in Zimbabwe will continue at least until the April 2005 harvest, and possibly beyond.

Primary Education (Girls)

10. **Helen Jones:** To ask the Secretary of State for International Development what progress has been made in providing primary education for girls in developing countries; and if he will make a statement. [164510]

Gareth Thomas: According to the EFA Global Monitoring Report 2003–4, girls' enrolments have increased faster than those of boys over the decade to 2000. The Net Enrolment Ratio (NER) for girls' primary enrolment in developing countries has increased from 73.5 per cent. in 1990, to 78.9 per cent. in 2000. The Gender Parity Index (GPI), which measures the ratio between girls' and boys' enrolments rates, has also improved from 0.89 in 1990 to 0.93 in 2000 for primary education, thereby closing the gap in East Asia and the Pacific. Of the 128 countries for which there is data currently available (including developing countries), 81 countries have achieved gender parity in primary education.

In recognition of these statistics, DFID is planning to increase its investment in primary education up to £1 billion over the next five years, and we shall be using the UK Presidencies of the G8 and the EU in 2005 to promote girls' education in Africa.

Cuba

11. **Michael Fabricant:** To ask the Secretary of State, Department for International Development, if he will restore bilateral aid to Cuba; and if he will make a statement. [164511]

Mr. Gareth Thomas: There has not been a direct UK development programme to Cuba for many years. DFID department does fund a Small Grants Scheme which provides up to £120,000 per annum. The scheme has funded mainly community based, rural projects, working through non government organisations.

There are no plans to initiate a bilateral programme to Cuba.

In July 2003, the EU renewed its common position on Cuba, adopted in December 1996, in light of continued human rights concerns. In line with this Position, the Commission is supporting activities which promote the transition to pluralist democracy and respect for human rights, improve the living standards of the Cuban people, and encourage sustainable economic growth. Currently the European Commission is supporting programmes to a total cost of £10 million. The UK share of these programmes amounts to £1.8 million.

Palestinian Authority

12. **Mr. Khabra:** To ask the Secretary of State for International Development what measures he is taking to encourage transparency and accountability in international funding to the Palestinian Authority. [164512]

Hilary Benn: Substantial progress has been made since 2002 in improving the Palestinian Authority's financial management, oversight of public spending and accountability. This has largely been driven by the Palestinian Finance Minister with donor encouragement but without much direct donor assistance. DFID has helped the World Bank carry out a thorough Country Financial Accountability Assessment, which has set out an agenda for further improvements in these areas. The continuing need for donors to support the Palestinian Authority budget directly will ensure that these areas remain under close scrutiny.

Great Lakes

13. **Mr. Tom Clarke:** To ask the Secretary of State for International Development what assessment he has made of progress with reconstruction in the Great Lakes region. [164513]

Hilary Benn: The Great Lakes region is emerging from 10 years of conflict, from the 1994 genocide in Rwanda to five years of war in the Democratic Republic of Congo, in which appalling human rights violations were committed and which involved, amongst others, Uganda, Rwanda and Burundi. There has been real progress but expectations of progress in reconstruction must be seen in this context.

The UN Secretary General is assisting preparations for an International Conference to address all the issues arising from reconstruction within the Great Lakes region. The UK fully supports this and will assist as appropriate.

In the Democratic Republic of Congo, a transitional national government was inaugurated in July last year. It brings together the main warring factions in a power-sharing arrangement. This is a major step towards providing an environment in which reconstruction can take place. Its task is to take the country to the first democratic elections in 30 years in 2005–06. It has also started to reconstruct the country but the challenge and needs are huge given the high levels of poverty, dilapidated infrastructure and continuing ethnic tension.

In Rwanda, in the context of the events in 1994 and the reconciliation challenges posed since, progress towards national reconstruction has been remarkable. In order to deal with the large numbers of accused "génocidaires" in prisons throughout Rwanda, the Rwandan Government introduced a traditional system of community justice to handle the lower categories of crime. The Rwanda Demobilisation and Reintegration Programme (RDRP), which co-ordinates the demobilisation, reinsertion and reintegration of ex-combatants, has led to the demobilisation of 46,000 soldiers since 1997. 2003 saw the culmination of the transition period marked by a referendum on a new Constitution and the election of a new government—the first pluralistic elections in Rwanda's history. Despite mixed reviews from some election observers, the election process represented a significant milestone in Rwanda's democratic evolution.

Uganda has benefited from a period of relative internal stability since 1986. Significant progress has been made in relation to the achievement of the Millennium Development Goals (MDGs). The HIV/AIDS MDG was achieved in 1996 and Uganda is on track to meet the income poverty MDG, which requires that only 28 per cent. of the population be living in income poverty by 2015. High economic growth has been achieved over a sustained period through sound economic policies, favourable terms of trade, and the positive effects of rural livelihood diversification. The latest data suggests 38 per cent. of the population currently live below the national poverty line compared to 56 per cent. in 1992. Much of this success has been achieved through the implementation of the Government's Poverty Eradication Action Plan. This is now being revised, and will be the basis for future poverty reduction activities. The current conflict in northern Uganda could negatively affect the progress that has been made. We are monitoring this situation closely.

Burundi's three-year transition from civil war to peace and a democratically elected government is due to be complete in November this year. However, conflict still continues between the government and the FNL, the remaining rebel force. The international community, within which the UK is playing an active part, is helping Burundi achieve the goal of a fully comprehensive ceasefire, prepare for elections, and begin the process of demobilising the combatants and reintegrating the bulk of them into civilian life.

DFID fully supports all the countries of the Great Lakes region in their efforts towards reconstruction, with programmes in 2003–04 of £20 million for the DRC, £37 million for Rwanda, £64.5 million for Uganda and £11.6 million for Burundi.

We are also encouraging the normalisation of regional relations. We have facilitated regular dialogue between Rwanda and Uganda. We have urged the governments of Rwanda, Uganda and DRC to work up good neighbourly relations as the basis for national and regional stability. In this respect, we welcome the signing in New York on 25 September 2003 of a Good Neighbourly Pact, which included commitments by the governments that all support for armed groups should end and that there should be no involvement in any illegal exploitation of natural resources of the DRC.

Water and Sanitation

14. **Mr. Cameron:** To ask the Secretary of State, Department for International Development, what representations he has received regarding water and sanitation in the developing world. [164514]

Hilary Benn: As Secretary of State for International Development, I receive regular representations regarding water and sanitation in the developing world. I also correspond with other donors, international organisations and individuals involved in water on a regular basis.

The bulk of the letters were the result of campaigns launched by non-governmental organisations, namely:

WaterAid's "Flush out Poverty" campaign;

Tear Fund's "Whose Earth" campaign;

World Development Movement's "Pull the plug on it" campaign.

The first two campaigns were aimed at ensuring that the UK government lives up to commitments made at the 2002 World Summit on Sustainable Development. Correspondents called on the UK government to give greater priority to water and sanitation, and to increase the amount of aid spent on sustainable improvements to water and sanitation for the world's poorest people.

The third campaign asked for the water sector not to be included in the General Agreement on Trade in Services (GATS) negotiations. Other correspondents have also expressed concern at the role of the private sector.

In addition to corresponding with interested parties, I and my officials meet with groups, including Trade Unions such as UNISON, that have a particular interest in water.

Nigeria

15. **Mr. Laurence Robertson:** To ask the Secretary of State, Department for International Development, if he will make a statement on his Department's work to encourage Nigeria's trade. [164515]

Hilary Benn: DFID is committed to supporting Nigeria in strengthening trade policy dialogue in the context of Nigeria's home grown development strategy, the National Economic Empowerment and Development Strategy (NEEDS). Recently, the Federal Government of Nigeria has asked DFID to provide a high level briefing on trade and we are responding to this request. In addition, a programme for the promotion of opportunities for the poor in Commodities and Service Markets would also tackle trade concerns by addressing institutional and structural constraints.

DFID has to date, provided trade policy support under the Africa Trade and Poverty Programme in 2003 to strengthen the capacity of the Nigerian government to engage in the WTO and EU-ACP Economic Partnership Agreement negotiations.

Furthermore, the Agency for International Trade Information and Co-operation, which DFID is funding with six other donor countries, provides support to less developed countries and non-resident members of the World Trade Organisation (WTO) and to small and under-resourced missions of developing countries, including Nigeria. The Trade and Investment Access

Facility and the Advisory Centre on WTO Law are other support mechanisms co-funded by the UK Government through DFID that are available to less developed countries including Nigeria.

CARDS Project

Mr. Bercow: To ask the Secretary of State for International Development (1) if he will make a statement on *(a)* his Department's involvement in and *(b)* the effectiveness of the 2002 CARDS project entitled (i) Directorate of Roads in Kosovo and (ii) Pristina to Skopje Road Rehabilitation in Kosovo; [163874]

(2) what his Department's contribution was to the 2002 CARDS projects for *(a)* strategic management support to public utility service providers and *(b)* river gauging and rehabilitation of ash dumps in Mitrovica in Kosovo; and what assessment he has made of the projects; [163868]

(3) if he will make a statement on *(a)* his Department's involvement in and *(b)* the effectiveness of the 2002 CARDS regional co-operation and integration projects on (i) institution building and (ii) integrated border management; [163919]

(4) if he will make a statement on *(a)* his Department's involvement in and *(b)* the effectiveness of the CARDS Institution Building projects (i) on the Implementation of the Stabilisation and Association Agreement in State Institutions in Croatia, (ii) to improve accountability and efficiency in public procurement in Bosnia and Herzegovina, (iii) entitled Introduction of modern practices in the tax and customs administration of Bosnia and Herzegovina and (iv) entitled Support for procurement competition and statistics in Albania that were financed by EU development assistance in 2002; [163937]

(5) if he will make a statement on *(a)* his Department's involvement in and *(b)* the effectiveness of the 2002 CARDS project on the Nikola Tesla A3 thermal power plant in Serbia; [163997]

(6) if he will make a statement on *(a)* his Department's involvement in and *(b)* the effectiveness of the 2002 CARDS projects (i) for local community development in Albania, (ii) for transport sector investment capacity-building measures in Serbia and (iii) for the reconstruction of the Sloboda Bridge in Serbia; [163869]

(7) what his Department's contribution was to the 2002 CARDS projects *(a)* for the return of refugees and displaced persons to (i) Bosnia and Herzegovina and (ii) Croatia, *(b)* to provide support to civil society and to strengthen non-governmental organisations in the Former Yugoslav Republic of Macedonia, *(c)* to provide support to environmental NGOs in Croatia, *(d)* to develop civil society and NGO capacity in Albania, *(e)* to assist in institutional capacity-building to strengthen environmental protection in Serbia and *(f)* for sewerage and waste water feasibility and treatment in Montenegro; and what assessment he has made of each project; [163910]

(8) what assessment he has made of the 2002 CARDS projects on *(a)* technical assistance to the electricity sector and emergency rehabilitation of electricity distribution systems in Montenegro, *(b)* for an energy efficiency agency and an energy regulatory agency in Serbia and *(c)* for generation, transmission and consultancy in respect of energy in Serbia; [163911]

(9) if he will make a statement on *(a)* his Department's involvement in and *(b)* the effectiveness of the 2002 CARDS projects (i) on vocational education and training in Serbia, (ii) on vocational training and educational mobility in Croatia, (iii) to support vocational education and training reform in Albania and (iv) for agricultural and agro-processing credit, the strengthening of public veterinary services and agricultural statistics and the Policy Advisory Unit in Kosovo; [163870]

(10) what his Department's contribution was to the 2002 CARDS projects for *(a)* the development of a comprehensive environmental regulatory framework, *(b)* water resources management and *(c)* solid waste management in Bosnia and Herzegovina; and what assessment he has made of the projects; [163999]

(11) if he will make a statement on *(a)* his Department's involvement in and *(b)* the effectiveness of the 2002 CARDS Tempus projects in (i) Bosnia and Herzegovina, (ii) Albania, (iii) Croatia, (iv) Montenegro, (v) Serbia and (vi) the Former Yugoslav Republic of Macedonia; [163871]

(12) if he will make a statement on *(a)* his Department's involvement in and *(b)* the effectiveness of the CARDS institution building projects on (i) public administration reform in Montenegro, (ii) general and health reforms in (A) Kosovo and (B) Serbia, (iii) the development of financial controls, debt management and customs systems in Croatia and (iv) the strategy and capacity building for regional development in Croatia that were financed by EU development assistance in 2002; [163917]

(13) what his Department's contribution was to the 2002 CARDS projects *(a)* for the design of a secure landfill site for hazardous waste in Albania, *(b)* on pollution abatement and control at Ballski Refinery in Albania and *(c)* on environment legislation and awareness training in Albania; and what assessment he has made of the project; [163918]

(14) if he will make a statement on *(a)* his Department's involvement in, *(b)* the effectiveness of and *(c)* the countries benefiting from the 2002 CARDS Regional Cooperation and Integration Project on (i) regional infrastructure and (ii) democratic stabilisation; [163872]

(15) if he will make a statement on *(a)* his Department's involvement in and *(b)* the effectiveness of the 2002 CARDS projects on (i) road and railway rehabilitation in Montenegro and (ii) access roads to ethnic minority enclaves in Kosovo; [163873]

(16) if he will make a statement on *(a)* his Department's involvement in and *(b)* the effectiveness of the 2002 CARDS project to provide assistance to energy production transmission and distribution networks in Kosovo; [163876]

(17) what his Department's contribution to the 2002 CARDS projects for *(a)* a strategy for environmental law and *(b)* a waste management and water information system in Croatia was; and what assessment he has made of the projects. [164000]

Mr. Gareth Thomas: The Department is involved in projects implemented under the Community Assistance for Reconstruction, Development and Stabilisation (CARDS) programme by contributing the UK's share of the European Commission budget allocated to CARDS and by participating in the Management Committee established to define country strategies and oversee the programme. In addition proposals for spending in Serbia, Montenegro, Kosovo, Albania and the Former Yugoslav Republic of Macedonia (FYROM) are approved by the Governing Board of the European Agency for Reconstruction, on which the Department is also represented. Implementation of specific projects (including procurement, which is governed by EC procurement rules) is the responsibility of the Commission.

When considering Commission funding proposals, the Department took a wide range of factors into consideration, including likely impact, cost-effectiveness and value for money. Many of the 2002 projects are in the early stages of implementation. An assessment of the projects will only be possible once they have been completed. The EC, through its results-orientated management system and strengthened evaluation systems, is best placed to carry out such an assessment.

Departmental Buildings

Mr. Llwyd: To ask the Secretary of State for International Development what *(a)* renovation and *(b)* maintenance projects on buildings (i) owned and (ii) rented by his Department were undertaken in each of the last five years; and what the associated costs were of each. [163943]

Mr. Gareth Thomas: The following projects have been carried out on DFID buildings over the period in question:

1 Palace Street, London (leased):

(a) Refurbishment project over the period 2000–01 to 2001–02, total cost £27 million

(b) Maintenance and repair works to exterior of building, in accordance with requirements of lease, 2003–04, cost £1.2 million

(c) Refurbishment/replacement of lifts, 2003–04, cost £350,000.

20 Victoria Street, London (leased):

(a) Refurbishment of building over the period 2001–02, total cost £1.2 million

Abercrombie House, East Kilbride (freehold):

(a) Refurbishment project over the period 2002–03 to date (due for completion late 2004), total cost £16 million.

Departmental Officials

Mr. Cousins: To ask the Secretary of State for International Development which former officials of the Department have asked for permission to join *(a)* PricewaterhouseCoopers, *(b)* Deloitte & Touche, *(c)* Ernst and Young and *(d)* KPMG. [156908]

Mr. Gareth Thomas: All Civil Servants are subject to the Business Appointment Rules which set out the circumstances in which they must seek permission to accept outside appointments within two years of leaving the Service. A copy of the Rules is available in the Libraries of the House.

Information about appointments taken up by the most senior staff are published in the annual reports of the Advisory Committee on Business Appointments. The next annual report will be published shortly. There have been no such requests for permission from former DFID staff to join any of the listed organisations.

EU Development Assistance

Mr. Bercow: To ask the Secretary of State for International Development (1) if he will make a statement on the commitment of EU development assistance to *(a)* the Chernobyl Shelter, *(b)* energy in Russia, *(c)* nuclear safety, *(d)* central Asia and *(e)* Azerbaijan in 2002; [163860]

(2) if he will make a statement on the EU development assistance expenditure on institution building in *(a)* Russia, *(b)* Mongolia, *(c)* Armenia and *(d)* Ukraine in 2002; [163864]

(3) what his Department's involvement was in the development assistance project in *(a)* Ukraine, *(b)* Russia and *(c)* Georgia in 2002; and what assessment he has made of each project. [163878]

Mr. Gareth Thomas: EU development assistance in these areas is provided through the Tacis programme. The Department is involved in projects implemented under Tacis contributing the UK's share of the European Commission budget allocated to Tacis and by participating in the Management Committee established to define strategy and oversee the programme. Implementation of specific projects (including procurement, which is governed by EC procurement rules) is the responsibility of the Commission.

When considering Commission funding proposals, DFID took a wide range of factors into consideration, including likely impact, cost-effectiveness and value for money. Many of the 2002 projects are in the early stages of implementation. An assessment of the projects will only be possible once they have been completed. The EC, through its results-orientated management system and strengthened evaluation systems, is best placed to carry out such an assessment.

Mr. Bercow: To ask the Secretary of State for International Development (1) if he will make a statement on *(a)* his Department's involvement in and *(b)* the effectiveness of the 2002 EU Development Assistance project entitled Support to the Regional Offices of the International Criminal Court for ex-Yugoslavia in (i) Bosnia and Herzegovina, (ii) Croatia (iii) Kosovo and (iv) Serbia; [163936]

(2) what results were achieved by the EU project for Kosovo on legal aid in civil matters in 2002; [164010]

(3) if he will make a statement on *(a)* the nature of the micro-projects in Bosnia and Herzegovina that were financed by EU Development Assistance in 2002, *(b)* the effectiveness of the projects and *(c)* his Department's involvement in the projects; [164019]

(4) if he will make a statement on *(a)* his Department's involvement in and *(b)* the effectiveness of the 2002 EU development assistance projects entitled (i) Aptitude to supervise and implement the rights of children in Bosnia and Herzegovina and (ii) Stability Pact and the Roma—use your vote with wisdom, in (A) Bosnia and Herzegovina, (B) Croatia, (C) the Former Yugoslav Republic of Macedonia, (D) the Federal Republic of Yugoslavia, (E) Romania and (F) Bulgaria; [164024]

(5) what the total expenditure of EU Development Assistance on the Judicial Reform project in Albania was in 2002; what his Department's involvement in the project was; and what assessment he has made of its value for money; [164001]

(6) what assessment he has made of the value for money of the EU's rehabilitation and equipping of judicial buildings project in 2002; [164011]

(7) what his Department's involvement in the EU's 2002 project to support the judiciary in Serbia was; [164012]

(8) if he will provide a breakdown by programme of the expenditure of EU Development Assistance on the Police and Organised Crime project in Albania in 2002; which of his Department's officials were involved in it; and if he will assess the results of the project; [164002]

(9) what assessment he has made of the results of the 2002 EU development assistance project towards a mutually tolerant society with all the ethnic groups in Kosovo; [164013]

(10) what assessment he has made of the effectiveness of the 2002 EU Development Assistance Project to prevent torture in *(a)* the Former Yugoslav Republic of Macedonia, *(b)* Serbia, *(c)* Bulgaria, *(d)* Hungary, *(e)* Poland and *(f)* Russia; [164018]

(11) what assessment he has made of the results achieved by the 2002 EU development assistance project to improve indigenous multiculturalism through education in *(a)* Croatia, *(b)* Serbia, *(c)* Bosnia and Herzegovina, *(d)* Kosovo, *(e)* Bulgaria, *(f)* Poland, *(g)* Ukraine, *(h)* Russia, *(i)* Georgia and *(j)* Armenia; [164014]

(12) if he will list the results of the EU project on the administration of justice in Bosnia and Herzegovina in 2002; and what his Department's role in achieving them was; [164005]

(13) what the stated purpose of the 2002 EU modernisation of justice project in Croatia was; what his Department's involvement in the project was; and what assessment he has made of its value for money; [164007]

(14) what assessment he has made of the 2002 EU development assistance project to improve the rights of Roma in the Western Balkans; [164015]

(15) what assessment he has made of the results achieved by the 2002 EU development assistance project to reinforce the participation of minorities in local government in Bosnia and Herzegovina; [164016]

(16) how his Department contributed in 2002 to the EU's fight against crime project in the Former Yugoslav Republic of Macedonia; and what assessment he has made of its value for money; [164008]

(17) how his Department contributed in 2002 to the EU's promotion of inter-ethnic relations project in the Former Yugoslav Republic of Macedonia; and what assessment he has made of its value for money; [164009]

(18) what assessment he has made of the results achieved by the 2002 EU Development Assistance Project to promote inter-ethnic relations in the Former Republic of Yugoslavia/Serbia; [164017]

(19) if he will make a statement on *(a)* his Department's and *(b)* other countries' involvement in the EU Development Assistance project in 2002 on Policing in Bosnia and Herzegovina; [164004]

(20) if he will make a statement on *(a)* his Department's involvement in and *(b)* the effectiveness of the EU Development Assistance projects in 2002 to rehabilitate victims of torture in (i) Kosovo, (ii) Bosnia and Herzegovina and (iii) Albania; [164030]

(21) if he will make a statement on *(a)* his Department's involvement in and *(b)* the effectiveness of the 2002 EU development assistance projects entitled (i) Support to the Electoral Observation Mission of the OSCE/ODIHR in the Western Balkans, (ii) Implementation instruments for the national strategies for Roma minorities in the Western Balkans, (iii) Support to the Accession Process in the Council of Europe and in the regional development of the democratic institutions in the Western Balkans and (iv) Respect of the Post-accession engagements in the Council of Europe and Developing and Monitoring Democratic Institutions in Bosnia and Herzegovina. [164025]

Mr. Gareth Thomas: For those projects implemented under the Community Assistance for Reconstruction, Development and Stabilisation (CARDS) programme, the Department is involved through contributing the UK's share of the European Commission budget allocated to CARDS and by participating in the Management Committee established to define country strategies and oversee the programme. In addition proposals for CARDS projects in Serbia, Montenegro, Kosovo, Albania and the Former Yugoslav Republic of Macedonia (FYROM) are approved by the Governing Board of the European Agency for Reconstruction, on which the Department is also represented. For those projects implemented under the European Initiative for Human Rights and Democracy, a similar oversight role is played by the Foreign and Commonwealth Office. Implementation of specific projects (including procurement, which is governed by EC procurement rules) is the responsibility of the Commission.

When considering Commission funding proposals, the Department took a wide range of factors into consideration, including likely impact, cost-effectiveness and value for money. Many of the 2002 projects are in the early stages of implementation. An assessment of the projects, and production of final spending figures, will only be possible once they have been completed. The EC, through its results-orientated management system and strengthened evaluation systems, is best placed to carry out such an assessment.

Mr. Bercow: To ask the Secretary of State for International Development if he will make a statement on EU development assistance to rural development in Mongolia in 2002. [164003]

Mr. Gareth Thomas: EU development assistance to Mongolia is mainly channelled through the Technical Assistance to Commonwealth of Independent States (TACIS) programme. Since 1994, Mongolia has been allocated EUR 50 million for various programme activities, one of which is rural development. In 2000–01 an Integrated Crop and Livestock Production project began. This project is still being implemented with a budget of EUR 2,899,520 for 2002–05.

Mr. Bercow: To ask the Secretary of State for International Development what the stated objectives of the EU project entitled Police and Organised Crime in Croatia in 2002 was; what his Department's involvement in the project was; and what assessment he has made of its value for money. [164006]

Mr. Gareth Thomas: This project is implemented under the EU Community Assistance for Reconstruction, Development and Stabilisation (CARDS) programme and the Department is involved through contributing the UK's share of the European Commission budget allocated to CARDS and by participating in the Management Committee established to define country strategies and oversee the programme.

In addition the project is being implemented under a Twinning arrangement, and the Home Office has successfully bid for Phase 1 of the project in 2003 under the CARDS 2002 programme and the project is due to begin this year. The general objective of the project is to strengthen the capacity of the Croatian Ministry of the Interior for the fight against organised crime and terrorism. The project purpose (of Phase 1, and Phase 2 under CARDS 2003) is to set up a complete Criminal Intelligence System, with all the necessary arrangements, equipment, facilities, and procedures used for the receipt, storage, interagency exchange or dissemination, and analysis of criminal intelligence information.

When considering Commission funding proposals, the Department takes a wide range of factors into consideration, including likely impact, cost-effectiveness and value for money. This particular project is still at an early stage of development and so it is not yet possible to assess its value for money. The EC, through its results-orientated management system and strengthened evaluation systems, is best placed to carry out such an assessment.

HIV/AIDS (Africa)

Hugh Bayley: To ask the Secretary of State for International Development what estimate he has made of the number of *(a)* teachers, *(b)* nurses and *(c)* front-line health sector staff other than nurses that are likely to die from HIV/AIDS and related illnesses in sub-Saharan Africa in the next 10 years. [164423]

Hilary Benn: In sub-Saharan Africa HIV/AIDS is killing people in the prime of their working lives and weakening the ability of many countries to fill key public service posts needed to maintain essential service delivery. The problem is compounded by the increased demand for HIV/AIDS services (treatment, care and prevention) that must be met by a diminishing workforce.

We are, however, still at an early stage of understanding the direct extent of the impact on front-line health and education personnel as a result of death and illness from HIV/AIDS. The data available has limitations in terms of consistency and comparability.

The Department for International Development is working with development partners to assist Ministries of Education in assessing the impact of HIV/AIDS on teachers and in developing educational and management plans to mitigate those impacts. We have supported the preparation of impact assessment studies on the education systems in Botswana, Zimbabwe and Rwanda. We are working as a member of the UNAIDS Inter-Agency Task Team on Education and HIV/AIDS, to train education planners on HIV/AIDS through a programme of workshops under the leadership of the World Bank. We are further supporting the UNESCO International Institute for Educational Planning to carry out research on the impact of HIV/AIDS on education in sub-Saharan Africa. DFID also supports the work of the United Nations Commission on HIV/AIDS and Governance (CHGA), which is currently undertaking research to map the implications of capacity losses from HIV/AIDS for the maintenance of state structures and economic development in Ethiopia, Kenya, Senegal, Zambia, and the Democratic Republic of Congo. The research will specifically investigate the implications of HIV/AIDS on service provision in the public and private sector. It will report its findings to the UN Secretary General, Kofi Annan in 2005. One study by CHGA estimates that 10–15 per cent. of health service staff in Mozambique could die from HIV/AIDS between 2002 and 2010. This would have very damaging consequences for an already extremely weak and under-staffed health system.

The UK's new strategy on HIV/AIDS is being developed in consultation with stakeholders. The strategy, which will be published in July, will emphasise the importance of assisting countries to develop both short-term "emergency" solutions to address the current shortage of health and education personnel, and to take a longer-term view of human resource planning and management in the light of the impact of the HIV/AIDS epidemic.

Indoor Air Pollution

Mrs. May: To ask the Secretary of State for International Development what (1) overseas aid the Government provides for projects to eliminate or reduce indoor air pollution; [164064]

(2) if he will list the overseas aid projects supported by the Government which are aimed at eliminating or reducing indoor air pollution; [164065]

(3) what assessment he has made of the impact of indoor air pollution on health in the world's poorest countries. [164066]

Hilary Benn: The Department for International Development (DFID) recognises the hazards of indoor air pollution from cooking on poorly designed wood, dung and coal burning stoves—the main source of cooking and heating for half the global population. Women are disproportionately affected because the burden of cooking tends to fall on them. In addition,

high levels of indoor smoke pollution can have a particularly bad effect on the health of small children, increasing mortality from pneumonia.

DFID is working to develop a multi-sector approach to this issue, that takes account of appropriate stove technologies and the behavioural changes required to reduce women and children's exposure to indoor smoke from biomass fuels.

As part of our China programme, DFID is supporting the environmentally sustainable and efficient use of locally available sources of fuel in poor rural areas, whilst working to reduce associated health hazards and improve livelihoods, by co-financing a substantial World Bank managed project on indoor air pollution. This project addresses both technology design and product marketing, and seeks to raise awareness of the effect on health. Earlier DFID-supported research work introduced stove improvements to countries in Africa.

DFID is also supporting the Intermediate Technology Development Group (ITDG), which is a key player in this area. ITDG's November 2003 report: "Smoke: the Killer in the Kitchen", which addressed the impact of indoor air pollution on health in developing countries, was, in part, the result of DFID-funded work under the Knowledge and Research (KaR) programme. DFID also supports two other ITDG research projects:

Smoke, health and household energy; and,

Finding ways of scaling up effective and sustainable means of reducing the problem of kitchen smoke.

DFID is looking forward to signing off a Partnership Programme Agreement with ITDG in April 2004.

Further details of DFID-supported research work can be found on DFID's Energy Website, which provides information on all research and development projects in the energy sector supported by DFID's Engineering KaR programme [www.dfid-kar-energy.org.uk]. Projects R8021, R8345 and R7368 are the most relevant, but others also touch on the subject.

Mine Clearance

Brian White: To ask the Secretary of State for International Development to which organisations the Government gave money for mine clearance in 2003–04; and how much was given in each case. [164325]

Hilary Benn: I attach the following table showing the actual spend by DFID for Humanitarian Mine Action in 2003–2004. These programmes cover demining programmes, contributions to the various United Nations Organisations that cover mine action and programmes covering research and the provision of knowledge.

	£
United Nations Mine Action Service (UNMAS) core support	2,000,000
Geneva Centre for Humanitarian Demining (GICHD) core support	1,048,455
United Nations Development Programme (UNDP) core support	600,000
Demining Advice BARIC Consultants (commercial company)	120,113
United Nations Children's Fund (UNICEF) core support	500,000
Research AEA/SERCO (commercial company)	24,823
Research and Knowledge—QINETIQ 2002–2004 (commercial company)	288,392
Ottawa Sponsorship Programme (to assist participants from poorer countries attend international meetings on implementation of the Mine Ban Treaty).	16,660
Angola—Halo Trust mine clearance	117,650
Afghanistan—UNMAS demining	2,000,000
Iraq—Mines Advisory Group (MAG) demining	1,000,000
Iraq—UNMAS demining	4,000,000
N Caucasus—UNICEF mine risk education, victim support	60,000

Additionally the UK share of EC funded mine action programmes for the calendar year 2003 is estimated at approximately 8.5 Million Euros. The final figure will be available in June 2004.

Poverty (Africa)

Mr. Nigel Jones: To ask the Secretary of State for International Development how many *(a)* families and *(b)* children in each country in sub-Saharan Africa are living in poverty; and if he will make a statement. [164300]

Hilary Benn: Officially reported figures are unavailable for the number of families and children in sub-Saharan Africa living in poverty. The World Bank has however published figures for the number of people living below US $1 a day in Sub-Saharan Africa. They estimate that in 2000, 323 million people (adults and children) or 49 per cent. of people in sub-Saharan Africa survived on less than US $1 a day. This is an increase of 82 million on 1990 figures. The following table details figures available for poverty levels in individual countries in Sub-Saharan Africa.

Income Poverty and Population
$1 a day poverty line

	Percentage of population below[1]	*Year of survey*	*Number of People below (Millions)*[2]
Burundi	58.4	1998	4.1
Cameroon	33.4	1996	5.1
Cote d'Ivoire	12.3	1995	2.0
Ethiopia	81.9	1999–2000	53.9
Gambia	59.3	1998	0.8
Ghana	44.8	1999	8.8
Kenya	23.0	1997	7.1
Malawi	41.7	1997–1998	4.4
Mozambique	37.9	1996	6.8
Nigeria	70.2	1997	91.2
Senegal	26.3	1995	2.6
South Africa	<2	1995	—
Uganda	82.2	1996	18.7

[1] The percentage of population living below the commonly used international $1 a day standard, measured in 1993 international prices and adjusted for local currency using purchasing power parities.

[2] The number of people living below the $1 a day standard, measured in 1993 international prices and adjusted for local currency using purchasing power parities.

Source:

The Department for International Development's Report on Statistics for International Development 1998–99 to 2002–03.

Information on the number of children in sub-Saharan Africa living in poverty is not available from official international sources. However, a UNICEF sponsored research project produced data for children living in absolute poverty in 21 African countries. The results of the study are set out in the following table.

Absolute Poverty Among Children[3]*: country data*

	Child (< 18) population (000s) (2000)	*Percentage in absolute poverty*
Benin	3,360	74.7
Burkina Faso	6,457	84.0
Cameroon	7,453	54.3
Central African Republic	1,844	65.4
Cote d'Ivore	7,943	47.3
Ethiopia	32,456	94.0
Ghana	9,303	47.0
Guinea	4,145	71.1
Kenya	15,705	J35.8
Malawi	6,002	74.6
Mozambique	9,231	76.3
Namibia	884	69.8
Nigeria	59,108	52.6
Rwanda	3,941	86.9
Senegal	4,804	39.4
South Africa	17,589	24.3
Tanzania	18,258	78.1
Togo	2,310	61.9
Uganda	13,062	85.4
Zambia	5,571	56.8
Zimbabwe	6,645	45.3

[1] UNICEF have defined absolute poverty as: "a condition characterised by severe deprivation of basic human needs, including food, safe drinking water, sanitation facilities, health, shelter, education and information. It depends not only income but also access to social services".

Source:

UNICEF sponsored research paper "Child Poverty in the Developing World" by David Gordon et al, The Policy Press 2003

These figures show the unacceptable levels of poverty affecting millions of children and their families in Sub-Saharan Africa. We are committed to reducing poverty in sub-Saharan Africa and to assisting countries to make progress towards the Millennium Development Goals, including halving the proportion of people whose income is less than $1 a day by 2015. The Department for International Development's bilateral programme in sub-Saharan Africa will increase to £1 billion by 2005–2006, (up from around £650 million a year in 2002).

Secondments

Mr. Cousins: To ask the Secretary of State for International Development what secondments *(a)* PricewaterhouseCoopers, *(b)* Deloitte & Touche, *(c)* Ernst & Young and *(d)* KPMG has made to his Department since 2001; for what (i) periods and (ii) tasks the secondments were made; whether secondments of staff from his Department have been made to those firms; and for what (A) periods and (B) tasks. [156931]

Mr. Gareth Thomas: Secondments are part of the Interchange Initiative which promotes the exchange of people and good practice between the Civil Service and other organisations. The Department for International Development has not engaged in any secondment activity with PricewaterhouseCoopers, Deloitte & Touche, Ernst & Young and KPMG since 2001.

St. Helena

Bob Spink: To ask the Secretary of State for International Development what proportion of his Department's budget will be directed to St. Helena in 2004–05; and if he will make a statement. [163530]

Mr. Gareth Thomas: DFID's assistance to St. Helena in the coming Financial Year, as part of a new three-year package, will be discussed with the island Government in St. Helena next month. DFID provisionally expect to disburse around £11 million in the present Financial Year, representing under 1 per cent. of total DFID expenditure. This includes funding, which we intend to maintain, in support of the island's annual recurrent budget and dedicated shipping service.

Training Courses

Hugh Bayley: To ask the Secretary of State for Education and Skills what support *(a)* his Department and *(b)* UK educational institutions have given to develop courses for African educational institutions in respect of (i) teacher training courses, (ii) training of health professionals, (iii) distance learning courses and (iv) other courses; and if he will make a statement. [164422]

Hilary Benn: The existence of high quality teacher training institutions and infrastructures is central to the delivery of Education For All in Africa. Likewise, well-educated health professionals are critically important for the delivery of programmes designed to reduce the impact of HIV/AIDS, malaria and tuberculosis. Appropriate distance education programmes, delivered in part through the use of modern Information and Communication Technologies (ICTs), can help to provide courses and resources to teachers and health professionals who would not otherwise have access to them.

DFID is therefore committed to providing support to African Governments and educators to help them to develop sustainable and relevant programmes that will deliver such training. We do this both through the substantial budgetary support that we provide for African Governments, and also through more focused programmes of technical assistance. The Department for International Development is committed to spending over £1 billion for education in the next three to five years, including a substantial investment in Africa. Furthermore, the £7 million Prime Minister's Imfundo initiative (www.imfundo.org) is working in eight African countries to use ICTs to deliver enhanced educational programmes in association with partners drawn from the private sector, civil society and academic institutions, and focuses particularly on teacher training. We are also working closely with

colleagues in the Department for Education and Skills, to help ensure that best UK practice in educational training can be shared with our partner governments in Africa.

Other relevant initiatives supported by DFID include £2 million support for the African Virtual University (www.avu.org) which delivers distance based university level courses across Africa, and £1 million a year funding for the Commonwealth of Learning (www.col.org), an intergovernmental organisation created by Commonwealth Heads of Government to encourage the development and sharing of open learning and distance education knowledge, resources and technologies.

The UK Higher Education Institutions are independent and autonomous bodies, and as such no central record is kept of the number and range of distance learning courses suitable for delivery in Africa, or indeed elsewhere. The Higher Education and Research Opportunities (HERO) website (www.hero.ac.uk) has details of courses available at UK Higher Education Institutions, including those delivered by distance learning. However, many UK institutions do indeed provide support for capacity building and course development in the fields of education and health. DFID has, for example, supported specific distance-learning initiatives between African and British universities in these fields through the Commonwealth Scholarship Commission, and organisations such as The British Council also help to co-ordinate such collaborative activities.

FOREIGN AND COMMONWEALTH AFFAIRS

Study Visas

Hugh Bayley: To ask the Secretary of State for Foreign and Commonwealth Affairs how much money overseas students applying for a visa to study in the UK are required to show that they have available to support themselves while they are in the UK. [164155]

Mr. Mullin: There is no set amount of money that overseas students need to show that they have available in order to gain entry clearance to study in the UK. The Immigration Rules state that students must be able to show that they have sufficient funds to pay for their course and accommodate themselves without working or help from public funds. There are two exceptions to this. A student can meet some of his/her costs through earnings from employment if that employment is either at a publicly funded institution of further or higher education which is itself providing and guaranteeing the employment or a sandwich course placement which the college or university can guarantee will be available to the student.

As a rough guideline the British Council estimates student living costs (excluding fees) for 2002–03 as £768 per calendar month (£6,912 per academic year, which is a nine month period) for a course in London and £600 per calendar month (£5,400 per academic year) for a course outside London. Offer letters from educational establishments often contain an estimated cost for living expenses and the Entry Clearance Officer can also use these figures as a guide.

Aquila Al-Hashemi

Mr. Gardiner: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will release in part or in full the police report into the killing of Aquila Al-Hashemi. [163412]

Mr. Rammell: After the assassination of Iraqi Governing Council member Dr Aquila Al-Hashemi in September 2003, an investigation was launched by the Iraqi police with assistance from the Coalition, into her death. Once the investigation is complete it will be for the Iraqi police to decide whether the report is released in part or in full.

Asset Sales

Mr. Hoyle: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list the *(a)* high commissions, *(b)* embassies, *(c)* buildings and *(d)* land being considered for sale. [164207]

Mr. Rammell: The Foreign and Commonwealth Office (FCO) maintains a pro-active role in the management of its estate. Consideration of prospective sales is continual and we have no definitive list of future sales. In order to preserve the FCO's ability to obtain best value for any individual sale we cannot release general information about possible future sales in advance of individual assets being placed on the market. I am withholding this information under exemption 13 of Part 2 of the Code of Practice on Access to Government Information.

Mr. Hoyle: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list the *(a)* high commissions, *(b)* embassies, *(c)* buildings and *(d)* land which have been sold since 1997. [164206]

Mr. Rammell: I refer my hon. Friend to the answers I gave to the hon. Member for Stratford-on-Avon (Mr. Maples) on 26 January 2004, *Official Report*, columns 56–58W and to the hon. Member for Ribble Valley (Mr. Evans) on 29 March 2004, *Official Report*, column 1148W, which listed the sales of residential accommodation and land.

Since 1997 the Foreign and Commonwealth Office has also sold the following office accommodation:

	Sold office accommodation
1998–99	British Embassy Bogota British Embassy Casablanca
1999–00	British Embassy Bonn
2000–01	British Consulate Malaga British Consulate Seville
2001–02	British High Commission Mbabane
2002–03	British Consulate Naples British Embassy Tirana
2003–04	British High Commission Capetown

BACS

Brian White: To ask the Secretary of State for Foreign and Commonwealth Affairs what progress his

Department has made to manage the changeover from the Bank Automated Clearing System to the new BACSTEL-IP system for electronic payments. [164315]

Mr. Rammell: The Foreign and Commonwealth Office has already installed BACSTEL-IP. The system has been tested and is planned to be in use from April 2004.

BBC

Hugh Bayley: To ask the Secretary of State for Foreign and Commonwealth Affairs what his Department's grant was to *(a)* the BBC World Service and *(b)* BBC World Television in each of the last three years; what the turnover was of each; and what proportion of (i) programmes broadcast and (ii) the budget of each service was devoted to educational programming. [164150]

Mr. Mullin: Figures for the grant in aid paid by the Foreign and Commonwealth Office to the BBC World Service and for the BBC World Service's turnover in the last three financial years are:

£ million

Financial year	*Grant in aid*	*World service broadcasting turnover*
2003–04	[1]220	[3]224.2
2002–03	[2]201	205.7
2001–02	187.9	192.9

[1] Budget.
[2] Outturn.
[3] Forecast.

The proportions of BBC World Service programmes and of its budget devoted to educational programmes over the same period have been:

Percentage

Financial year	*Programmes*	*Budget*
2003–04	[1]0.7	[1]1.3
2002–03	0.7	1.4
2001–02	0.8	1.6

[1] Estimated.

In addition, the BBC World Service funds the BBC 'LearnEnglish' website, which generates traffic of over four million page impressions per month; and for the Chinese English language market it jointly runs with the British Council the 'In2English' which generates significant traffic.

BBC World Television is commercially funded by advertising and distribution revenue and is financially separate from the BBC World Service. It would not fall to me to comment on the allocation of funds within BBC World Television or on the content of its programming.

Egypt

Mr. Boswell: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the *(a)* verdict and *(b)* sentence of imprisonment on three British nationals in the Egyptian State Security Court on 25 March 2004; what consular support is being provided to those concerned; and what diplomatic representations are being made in their case. [164775]

Mr. Mullin *[holding answer 30 March 2004]:* We will not be in a position to consider making any statement relating to the judge's decision until we have received a transcript of his summation. Our Consular officials in Cairo will continue to monitor the men's welfare and make regular consular visits. I assure the hon. Member that we will continue to do all that we properly can to assist the men and provide information and support to their relatives in the United Kingdom. We will continue to make diplomatic representations to the Egyptian Government, where appropriate, about any concerns we may have with this case, including representations about the allegations made by the men that they were tortured and mistreated in the initial days of their detention.

Eritrea

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what representations he will make to the Government of Eritrea concerning *(a)* the arrest of nine evangelical Christians in Asmara on 17 March and the arrest of a further six evangelical Christians in Asmara on 18 March, *(b)* the arrest of 10 evangelical Christians from the Full Gospel Church in Aba Shwale district, Asmara, on 23 February and *(c)* the continuing detention of 46 evangelical Christians arrested at the Hallelujah Church in Asmara in mid-February; [164636]

(2) what representations he will make to the Government of Eritrea concerning the torture of evangelical Christians in prisons. [164637]

Mr. Mullin: We continue to be concerned about restrictions on religious freedom in Eritrea and raise the issue with the Eritrean Government regularly. I discussed my concerns with President Isaias in Asmara on 15 January. Our ambassador was able to raise the cases highlighted in the Compass Direct report with the Eritrean Government on 29 March.

EU-Africa Meeting

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs which countries will participate in the EU-Africa meeting in Dublin on 1 April 2004. [164906]

Mr. Straw: Four countries will attend the EU-Africa meeting on 1 April 2004. Mozambique and South Africa will be attending for the African Union. Ireland and the Netherlands will be attending for the European Union. The AU and EU Commissions will also be represented.

India

Mr. Donohoe: To ask the Secretary of State for Foreign and Commonwealth Affairs what measures have been taken since the publication of the Department's Human Rights Report 2003 to tackle discriminatory practices against the Dalit community in India. [163880]

Mr. Mike O'Brien: Since the publication of the Foreign and Commonwealth Office Human Rights report in September 2003 the Government have continued to raise the subject of Dalits with the Indian Government and with officials. I raised the subject of Dalits with Deputy Prime Minister Advani on my recent

visit to India (5–9 January). I met representatives of the Dalit Solidarity Network earlier this month to update myself on the situation.

The Department for International Development continues to support projects in India for the poorest groups, including Dalits.

Nepal

Sir Menzies Campbell: To ask the Secretary of State for Foreign and Commonwealth Affairs by what authority a British embassy official in Nepal made a statement on 21 December 2003 that the British Government had agreed to supply two short-take-off-and-landing planes to the Royal Nepalese Army; whether the Government have agreed to give two short-take-off-and-landing aircraft to the Royal Nepalese Army; and if he will make a statement. [164909]

Mr. Straw: As part of our wider programme of support under Global Conflict Prevention funding, the Government are planning for the supply of two STOL aircraft to Nepal. The final decision will be confirmed after the departmental minute has been laid before Parliament.

In December 2003 a member of staff at the British embassy Kathmandu used previously agreed lines to respond to a press inquiry about the planned supply.

Search and Rescue

Mr. Nigel Jones: To ask the Secretary of State for Foreign and Commonwealth Affairs what *(a)* equipment, *(b)* personnel and *(c)* other assistance his Department provides to other countries for search and rescue operations involving UK citizens who have gone missing; and if he will make a statement. [164297]

Mr. Mullin: Foreign and Commonwealth Office Consular staff provide all the assistance they properly can to the families of missing British nationals. They help the families liaise with the local authorities and keep them up to date on developments in searches. Search and rescue operations are usually managed by the host authorities who often meet the costs. If the host authorities will not meet the costs, these would fall to the family of the missing individual or his or her insurance company.

Sri Lanka

Mr. Gardiner: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the Sri Lankan Government about the inclusion of the Sri Lankan Muslim community in peace talks. [163366]

Mr. Mike O'Brien: I last had discussions about the Sri Lankan Muslim community with the Sri Lankan Minister for Constitutional Affairs Professor G. L. Peiris on 18 September 2003. Foreign and Commonwealth Office officials regularly discuss this issue in their contacts with the Sri Lankan Government and the leaders of the Muslim community.

Sudan

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the case of Razaz Abaker, sentenced to 100 lashes for alleged adultery in Sudan. [164029]

Mr. Mullin: Though we respect Muslims' views of Shar'ia law, we believe that the application of extreme corporal punishments is incompatible with international human rights law. In Razaz Abaker's case we are particularly concerned that there was no opportunity for appeal.

Such cases are raised on a regular basis with the Government of Sudan, both bilaterally and through the EU-Sudan dialogue.

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with *(a)* the United States, *(b)* Norway and *(c)* other EU countries on a peacekeeping force for Sudan. [164493]

Mr. Mullin: We are in close contact with the UN Department of Peacekeeping Operations about plans for a Peace Support Operation in Sudan. We have also discussed the matter with the United States, Norway and other EU member states.

Mr. Dawson: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) if he will make a statement on the comments made by Mukesh Kapila, the United Nations Humanitarian Co-ordinator for Sudan on the humanitarian and human rights situation in Darfur; [164780]

(2) what assessment he has made of the implications for international peace and security of the situation in Darfur, Western Sudan. [164826]

Mr. Mullin: We are very concerned about the humanitarian and human rights situation in Darfur. We are appealing to the parties to ensure the protection of the civilian population and to allow unhindered humanitarian access to those in need.

We are also concerned about the implications of the situation in Darfur for international peace and security and are working hard to get the parties to stop fighting. The Government of Sudan and the opposition groups have now agreed to attend ceasefire talks in Chad. We hope that these talks will start shortly. This is an important first step in resolving the crisis in Darfur.

Taiwan and China

John Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment his Department has made of human rights in *(a)* Taiwan and *(b)* China. [164369]

Mr. Rammell: We are concerned at the use of the death penalty in Taiwan, but have no other major concerns about human rights there.

We have serious concerns about a wide range of human rights issues in mainland China including: the extensive use of the death penalty; the continuing harassment of political dissidents, religious practitioners

and adherents of the Falun Gong spiritual movement; the situation in Tibet; severe restrictions on freedoms of speech, association and religion.

We believe, however, that the best way to improve the situation "on the ground" is to engage critically with, rather than isolate, China. We do this through the bi-annual UK China Human Rights Dialogue. We raise our concerns through ministerial contacts and public statements. We also raise our concerns through EU mechanisms.

A more detailed assessment of our concerns and activities can be found in the most recent Foreign and Commonwealth Office (FCO) Annual Human Rights Report for 2003 which was presented to Parliament by my right hon. Friend the Foreign Secretary in September last year. The report is also available on the FCO website at www.fco.gov.uk/humanrightsreport2003.

Temporary Staff

Matthew Taylor: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list the employment agencies which his Department has used to supply temporary staff in each financial year since 1996–97 to the most recent date for which figures are available. [163823]

Mr. Mike O'Brien: The Foreign and Commonwealth Office currently has an agreement with three agencies to provide us with temporary agency staff. These are:

Manpower

Hays

Select

Prior to our signing of the Office of Government Commerce (OGC) Framework Agreement on the employment of Agency and Temporary Staff in July 2003, no central records were maintained. To compile such a list retrospectively would incur disproportionate costs.

Tristan da Cunha

Norman Baker: To ask the Secretary of State for Foreign and Commonwealth Affairs what role his Department played in allowing rock-hopper penguins to be removed from Tristan da Cunha for onward transport to zoos in the Far East. [148592]

Mr. Rammell: The Tristan da Cunha Island Council was responsible for the decision in May 2003 to allow 146 Rockhopper penguins to be taken from an estimated population of 50,000 birds on Nightingale Island (part of the Tristan group). The Foreign and Commonwealth Office was informed and confirmed that these birds were not subject to any international law prohibiting their collection. The capture of the birds was witnessed by the Administrator, Tristan da Cunha, to ensure that adequate standards of care and transportation were observed.

Typhoons Sale

Mr. Hoyle: To ask the Secretary of State for Foreign and Commonwealth Affairs what role his Department is playing in the potential sale of Typhoons to Singapore. [164209]

Mr. Mike O'Brien: As is common with other important British commercial contracts, our High Commissioner and his colleagues in Singapore are actively involved in promoting the sale of Typhoon aircraft to the Singapore armed forces.

My right hon. Friend the Foreign Secretary raised the sale of Typhoon aircraft with Singaporean Ministers during his official trip to Singapore in January 2003.

Zimbabwe

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs in what context Zimbabwe was raised at the recent 22 March General Affairs Council meeting; and what action was decided should be taken with regard to that country. [164954]

Mr. Straw: Zimbabwe was not on the agenda for the General Affairs Council meeting on 22 March. The previous meeting of the Council, in February, issued conclusions on Zimbabwe following the EU's decision to continue and extend its targeted measures for a further year. I welcomed the renewal of the measures and pointed out that the decision had sent a clear message that the EU wanted an end to repression and economic catastrophe in Zimbabwe and a return to democratic government and the rule of law.

CULTURE, MEDIA AND SPORT

Substance Abuse

Mr. Gardiner: To ask the Secretary of State for Culture, Media and Sport what discussions she has had on ensuring consistent testing and punishment for substance abuse across all sports in the UK. [164834]

Mr. Caborn: It is a matter for UK Sport, the UK's national anti-doping agency, and sport's governing bodies to carry out a robust and consistent in-and-out of competition drug testing programme.

UK Sport is currently in discussion with sport's national governing bodies and other sporting organisations to incorporate the World Anti-Doping Code into the UK's national anti-doping policy in time for this summer's Olympic Games in Athens. The code will standardise drug-testing programmes, including sanctions, across all sports.

Mr. Gardiner: To ask the Secretary of State for Culture, Media and Sport if her Department will make greater resources available for research and development in the field of substance abuse in sport. [164835]

Mr. Caborn: The Department for Culture, Media and Sport funds UK Sport to act, among other things, as the UK's national anti-doping agency. It is a matter for UK Sport as the UK's national anti-doping agency to decide on the budget that is allocated from their grant in aid for research and development of drug-free sport.

In 2003–04, UK Sport's grant in aid is £23.48 million of which £2 million will be spent on drug-free sport. No monies were allocated specifically to research and development because the World Anti-Doping Agency both undertakes significant research into performance enhancing substances and methods and shares its findings with national anti-doping organisations and the sporting community. UK Sport has allocated £50,000 for research and development in 2004–05.

Mr. Gardiner: To ask the Secretary of State for Culture, Media and Sport (1) what educational work her Department has undertaken to inform *(a)* athletes and *(b)* the general population about the dangers of substance abuse in sport; [164836]

(2) if she will outline her Department's educational work in informing *(a)* athletes and *(b)* the general population about the dangers of performance enhancing drugs. [164838]

Mr. Caborn: The UK, through its national anti-doping agency, UK Sport, is at the forefront of delivering comprehensive and imaginative educational programmes to help athletes train and compete free from performance enhancing substances and methods.

Information is readily available to athletes and their support personnel, sport's national governing bodies, and the wider public on all aspects of the UK's dope testing programme. The education programme includes a variety of delivery methods including booklets, posters and leaflets, through to audience-specific workshops and seminars.

UK Sport offers comprehensive information via their website and e-mail service including the unparalleled Drug Information Database which helps British athletes to find out information about UK-licensed medications and substances at any time and from any place. For athletes without access to the Internet and e-mail, there is a free-phone drug information line.

During the summer, UK Sport is launching a European Commission-funded project called "Start Clean" which aims to build awareness and appreciation of the importance of drug-free sport in 13 to 17-year-olds across the UK.

Mr. Gardiner: To ask the Secretary of State for Culture, Media and Sport if she will increase the resources available for educating people about substance abuse in sport. [164952]

Mr. Caborn: The Department for Culture, Media and Sport funds UK Sport to act, among other things, as the UK's national anti-doping agency. It is a matter for UK Sport as the UK's national anti-doping agency to decide on the budget that is allocated from their grant-in-aid to educate athletes to train and compete free from performance enhancing substances and methods.

In 2003–04, UK Sport's grant-in-aid is £23.48 million of which £2 million will be spent on drug-free sport. Of this, £53,125 will be spent specifically on education programmes for athletes and athlete support personnel. This is in addition to the World Anti-Doping Agency expenditure on education programmes to eradicate doping from sport. UK Sport will allocate around £150,000 for drug-free sport education in 2004–05.

BBC (Commercial Advertising)

Andy Burnham: To ask the Secretary of State for Culture, Media and Sport what assessment she has made as part of the Charter renewal process of the *(a)* extent, *(b)* methods and *(c)* purpose of commercial advertising by the BBC. [163959]

Tessa Jowell *[holding answer 26 March 2004]:* Subject to one certain outcome—that it will maintain a strong BBC, independent of Government—the Charter Review will cover all aspects of the BBC's role, structure and function, including the promotion of its own products and services. We will make the conclusions—together with the evidence on which they are based—available in due course.

Community Fund

Jon Trickett: To ask the Secretary of State for Culture, Media and Sport what her estimate is of the total value of funding made available to voluntary groups by the Community Fund and utilised for the employment of paid employees. [164634]

Estelle Morris: The total value of funding made available to voluntary and community organisations by the Community Fund was £2.6 billion as at 31 March 2003. It is not possible to identify the value of funding utilised for the employment of paid employees as the Community Fund does not collect this data.

Jon Trickett: To ask the Secretary of State for Culture, Media and Sport what value of the Community Fund has been set aside exclusively for local groups in the Wakefield area; if she will list the total distribution from this sum to date; and if she will make a statement. [164635]

Estelle Morris: Fair share is an initiative designed by the Community Fund and the New Opportunities Fund to make Lottery funding more readily available to disadvantaged communities in 77 local areas, which so far have not received their fair share of Lottery funding. Wakefield is one of these 77 areas. The Fair Share initiative was launched in the spring of 2002 and will run until March 2005. The Fair Share target amount for Wakefield for this period is £4,765,000. To date under the Fair Share initiative £3,070,429 has been awarded to 23 projects in Wakefield, which is 64 per cent. of the total allocated amount.

Digital Television

Mr. Flook: To ask the Secretary of State for Culture, Media and Sport what proportion of households in Taunton have not converted from analogue to digital television. [164557]

Estelle Morris: At present, information on digital take-up is not available with this level of detail. However, according to Ofcom, by 31 December 2003, digital television take-up across the UK was 50.2 per cent.

We expect information on regional take-up figures of digital television to be available soon.

Sandra Gidley: To ask the Secretary of State for Culture, Media and Sport how many people over *(a)* 60, *(b)* 70 and *(c)* 80 she estimates have access to digital television; and if she will make a statement. [164764]

Estelle Morris: The information is not available. However, Growth from Knowledge (Gfk) a research company which produces research on the adoption of digital television for both this Department and the DTI estimates that at the turn of the year, 34 per cent. of over-55 households in the C2DE bracket in Great Britain had access to digital television, while 41 per cent. of households in the same age group in the ABC1 bracket had such access.

Funding (Redbridge)

Linda Perham: To ask the Secretary of State for Culture, Media and Sport how much was allocated from the New Opportunities Fund to the *(a)* Ilford North constituency and *(b)* London borough of Redbridge in each of the last five years. [164882]

Estelle Morris: The information shown in the table is broken down by calendar year. It is derived from information supplied to the Department for Culture, Media and Sport by the New Opportunities Fund (and other Lottery Distribution bodies).

The figures are the most recent figures available.

£

	Ilford North	*Redbridge*
1999	4,000	897,644
2000	6,401	55,993
2001	45,877	1,517,962
2002	85,759	704,491
2003	206,748	865,850

Grants

Simon Hughes: To ask the Secretary of State for Culture, Media and Sport what grants were made available to *(a)* the Greater London Authority and *(b)* each London borough from her Department in each of the last four financial years. [163102]

Mr. Caborn: The Department for Culture, Media and Sport provides a grant of £1.9 million per year to the Greater London Authority for the promotion of London to tourists as a destination in its own right and as a gateway to the rest of the UK and for the improvement of tourism amenities and facilities.

Other grants are allocated by the Department on a national level so it is not possible to give the amount available to each London borough.

National Lottery

Mr. Flook: To ask the Secretary of State for Culture, Media and Sport how much National Lottery funding has been distributed to causes in Taunton in each year since 1997. [164559]

Estelle Morris: The information shown in the table is broken down by calendar year. It is derived from information supplied to the Department for Culture, Media and Sport by the Lottery Distribution bodies.

The figures for 2004 are the most recent figures available.

Lottery funding in Taunton

	Number
1997	107,838
1998	45,954
1999	83,958
2000	108,000
2001	98,049
2002	96,096
2003	130,195
2004	8,016

Public Bodies

Mr. Stephen O'Brien: To ask the Secretary of State for Culture, Media and Sport what the *(a)* resource budget, *(b)* administration costs and *(c)* staff numbers were for 2003 of the (i) British Tourist Authority, (ii) English Tourism Council, (iii) Commission for Architecture and the Built Environment, (iv) Community Fund, (v) Football Licensing Authority, (vi) Horserace Betting Levy Board,

(vii) Horserace Totalisator Board, (viii) Millennium Commission, (ix) New Opportunities Fund, (x) UK Sport, (xi) Culture North East, (xii) East Midlands Cultural Consortium, (xiii) Living East (East of England Cultural Consortium), (xiv) North West Cultural Consortium, (xv) South East Cultural Consortium, (xvi) South West Regional Cultural Consortium, (xvii) West Midlands Life Cultural Consortium, (xviii) Working Group on Human Remains, (xix) Yorkshire Cultural Consortium, (xx) Music Industry Forum and (xxi) Viewers' Panel. [164022]

Mr. Caborn: Resource budgets for 2003–04 including provision for current and capital expenditure and non-cash costs (depreciation and cost of capital charges) are shown in the following table:

Organisation	*Resource budget (£000)*	*Average staff numbers as at 31 March 2003*
British Tourist Authority (VisitBritain)	52,485	484
English Tourism Council	0	59
Commission for Architecture and the Built Environment	3,846	31.7
Community Fund	0	493
Football Licensing Authority	1,128	15
Horserace Betting Levy Board	0	126
Horserace Totalisator Board	0	3,902
Millennium Commission	0	68
New Opportunities Fund	0	287
UK Sport	28,050	77

Executive Non-Departmental Public Bodies are funded by grant-in-aid and are not subject to administration costs limits. Details of their staff costs and other operating costs are published in their respective annual reports and accounts. Copies of these may be obtained from the Library of the House.

The Community Fund, the Millennium Commission and the New Opportunities Fund distribute National Lottery proceeds only, receiving no Exchequer funds, and recover their administration costs from the National Lottery Distribution Fund.

The Horserace Betting Levy Board and the Horserace Totalisator Board are funded by levies and commercial betting operations respectively.

With effect from 1 April 2003, the English Tourism Council (ETC) was merged with the British Tourist Authority (BTA) to form VisitBritain. The ETC continues as a legal entity with a new remit as the England Marketing Advisory Board (EMAB) to provide strategic guidance to VisitBritain and Ministers on the domestic marketing of England.

The Regional Cultural Consortiums are currently Advisory Non-Departmental Public Bodies. All of their costs, including administration costs are met from the Department's resource budget for 'Research and Other Surveys'. For 2003–04 the budget for Regional Cultural Consortiums is £1,600,000 (2002–03 outturn: £840,826). In 2003 they did not directly employ any staff. In 2004–05 they will become Executive NDPBs.

The Working Group on Human Remains, Music Industry Forum and the Viewers Panel have completed their work. They had no resource budget and did not employ any staff. Their administration costs were included within the Department for Culture, Media and Sport's administration costs which are published in the Resource Accounts. Copies may be obtained from the Library of the House.

Regional Assemblies

Ann Winterton: To ask the Secretary of State for Culture, Media and Sport what role regional assemblies will have in the distribution of Lottery funds. [164549]

Estelle Morris: Lottery funds are given out by Lottery distributors who operate at arms length, independently of central and local government. That same principle would apply to regional Government. However the Government proposes giving regional assemblies, where these are created, a role in the appointment of the relevant regional arts council and regional sports board, which are the regional awards committees of Arts Council England and Sport England respectively, both of which are Lottery distributors.

Sites of Special Scientific Interest

Joan Ruddock: To ask the Secretary of State for Culture, Media and Sport what grants have been made from Lottery funding to local authorities for sites of special scientific interest. [164973]

Estelle Morris: The Heritage Lottery Fund has awarded 26 grants to 24 projects totalling £11,238,600 to local authorities for projects that include Sites of Special Scientific Interest.

The table contains the specific local authority, the name of the actual project and the award in each case.

£

Applicant	*Project title*	*HLF award*
London boroughs of Barnet and Brent	London, Welsh Harp	420,000
London borough of Bromley	Chalking Up London's Downs	50,000
Cambridgeshire county council	Devil's Dyke Restoration Project	305,000
Staffordshire county council	Saving Cannock Chase	522,000
Carmarthenshire county council	Llyn Llech Owain Country Park	229,500
Denbighshire Countryside Service	Heather and Hillforts/Y Grug a'r Caerau—PPG	50,000
Doncaster Metropolitan borough council	Cusworth Hall and Park Restoration Project	180,500
Doncaster Metropolitan borough council	Cusworth Hall and Park Restoration Project	4,819,000
Kent county council	Brewers Wood and Randall Wood, Kent—Acquisition	91,800
SE London Green Chain Project	Heritage on Your Doorstep—Green Chain Project	47,100
Cornwall county council	Helford River—Capturing Hearts and Minds	89,700
North Cornwall district council	Atlantic Coasts and Valleys	25,700
North Somerset council	Land at Uphill	22,600
Cornwall county council	Geevor Tin Mine Heritage Centre Phase I	291,000
Borough of Poole	North Canford Heath, Whites Land—Acquisition	423,500

£

Applicant	*Project title*	*HLF award*
Brecon Beacons National Park Authority	Caeau Ty Mawr, Brecon—Acquisition	15,000
Rotherham Metropolitan borough council	Fuelling A Revolution—Canklow Wood	101,000
Sedgemoor district council	Brean Down Fort—Repairs and Stabilisation	431,400

South Hams district council	South Devon AONB 'Changes and Challenges'	749,500
Southampton city council	Hawthorns Urban Wildlife Centre, Southampton—Displays	83,600
Gloucester CC Archaeology Service	Painswick Beacon Restoration Project	50,000
Surrey county council	Basingstoke Canal Woodham Backpumping Scheme	295,000
Wyre Countryside Service	Fleetwood Promenade: Coastal Interpretation and Access	46,900
		11,238,600

Sporting Opportunities (Children)

Mrs. Calton: To ask the Secretary of State for Culture, Media and Sport pursuant to her answer of 8 March 2004, *Official Report,* column 1292W, (1) what assessment has been made of the activities of pupils who do not take part in, or are not offered, two hours of high quality physical education per week in Phase 1 Partnership schools; [164467]

(2) what steps have been taken to assess the two hour high quality physical education per week participation rates of young people in Phase 1 Partnership schools. [164469]

Mr. Caborn: Data collected from Phase 1 School Sport Partnership schools indicate that 61 per cent. of pupils are spending at least two hours per week on high-quality PE and sport, within and beyond the curriculum.

The results from the survey of all School Sport Partnerships will be published in April. All Partnerships will receive a report, allowing them to compare their performance with the national average and to address gaps in their provision at a local level.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Agriculture and Fisheries Council

Mr. Connarty: To ask the Secretary of State for Environment, Food and Rural Affairs what the outcome was of the Agriculture and Fisheries Council on 22 and 23 March; what the Government's stance was on the issues discussed, including its voting record; and if she will make a statement. [163938]

Mr. Bradshaw: My right hon. Friend the Secretary of State for Environment, Food and Rural Affairs and I represented the UK at a meeting of the Agriculture and Fisheries Council in Brussels on 22–23 March. Ministers with agriculture and fisheries responsibilities for Scotland and Northern Ireland were also present.

The Council marked with a period of silence its respect for the victims of the Madrid bombs.

The main item of business was a discussion on the Commission's proposals for a regulation to reduce the level of small cetacean bycatch. Many member states were concerned about the resource implications of the proposal, both for the fishing industry and government. In discussion we dropped our request for exemptions from mandatory use of acoustic deterrent devices ("pingers") in the 0–6 nautical mile zone and in ICES Area VIId. We argued against exemptions for under 12 metre vessels to have to use "pingers" on fishing nets and for those under 15 metres to be exempt from observer requirements. We thought only smaller vessels should be exempted but most other Member States supported the proposal. We were pleased that the Regulation offers flexibility for those member states which already have robust bycatch data to design appropriate monitoring schemes alongside provisions for mandatory monitoring schemes for those that do not. A requirement has been included in the Regulation for pilot projects to monitor the effects of "pinger" usage and to observe bycatch on under 15 metre vessels. These pilot schemes have to be designed to deliver good quality scientific data which will be used to review the Regulation after two years' experience. The Regulation also provides for the progressive phasing out of drift nets in the Baltic, which will culminate in a total ban on 1 January 2008. Taken as a whole the package is an important advance in the protection of small cetaceans.

A regulation was also adopted to protect permanently an area of cold water coral reefs off the north west of Scotland (known as the Darwin Mounds) from the impact of damaging fishing activities.

The only agriculture business was further discussion of the Commission's proposals for reform of the olive oil, cotton, tobacco and hops regimes, together with some technical amendment of existing regulations to accommodate the new Member States joining the EU in May this year. The Presidency acknowledged that several delegations were not in a position to conclude negotiations at this Council and announced an additional Council on 19–20 April in Luxembourg to deal specifically with this package. Discussion concentrated on cotton, olive oil and tobacco and largely re-confirmed existing positions. My right hon. Friend the Secretary of State for Environment, Food and Rural Affairs stressed the case for the Commission's proposal of 100 per cent. decoupling in the tobacco sector and joined those arguing for a higher level of decoupling than that proposed for cotton.

Under other business, Commissioner Byrne reported on a recent visit to the USA, Commissioner Fischler reported on progress in EU/Mercosur trade talks and Austria raised a point on harmonisation of approval procedures for pesticides.

Animal Welfare

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what procedures she uses to balance her responsibilities for protecting human health with those for protecting and promoting animal welfare. [158816]

Mr. Bradshaw: Since the Department's creation in June 2001, we have placed sustainability at the heart of our actions to protect and ensure a better quality of life for both humans and livestock. Our policies for food, health, the environment and animals can only prosper and endure if they are fully integrated so that they don't undermine each other. The elements of protecting human health and protecting and promoting animal welfare are complementary. By improving animal welfare, the risk of disease in animals, including diseases transmissible to humans, is reduced.

An outline Animal Health and Welfare Strategy for Great Britain was published in July 2003. It aims to improve the health and welfare of kept animals, and protect public health from animal disease. It sets out the principles that will help inform Government decisions, which include the need to be guided by the precautionary principle.

Policy on the control of zoonoses is a collaborative process involving Defra, DoH, and, in the case of foodborne zoonoses, the FSA. Arrangements currently in place support the level of collaboration necessary to ensure the protection of human health, animal health and animal welfare.

Badgers/Bovine TB

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs (1) how wildlife surveyors distinguish between primary and secondary badger setts; and what effect a preponderance of unrecognised secondary setts has on the estimation of badger populations; [158374]

(2) how wildlife surveyors distinguish between primary and secondary badger setts; and what effect a preponderance of unrecognised secondary setts has on the estimation of badger populations. [158498]

Mr. Bradshaw: Ecologists have tried to classify setts according to size and function. The normal convention in ecological badger surveys is to recognise four categories of setts: main, subsidiary, annex and outlier, although there are other methods of surveying. Defra Wildlife Unit staff distinguish main setts on the basis of a number of factors including the number of holes, activity, latrine location, topography and relationship to other larger setts; secondary or 'other' setts are those not fitting the description of main setts.

Population estimates may be based on the number of main setts, with an estimated average number of badgers for a social group being applied per main sett. This approach relies upon accurate identification of main setts, and would not be affected by any other type of sett being missed; however if a main sett were misclassified e.g. as a subsidiary sett, it would affect the population estimate.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what conclusions her Department has reached on whether the proportion of diseased badgers in road traffic accidents is representative of the incidence of the disease in the badger population as a whole. [158806]

Mr. Bradshaw: The road traffic accident (RTA) survey has been designed to establish whether the incidence of bovine TB in badgers collected from road verges and other locations is representative of the prevalence of the disease in the badger population in that area. A first analysis, using the information from carcases collected so far, is expected to be completed in April.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs (1) whether the proposed levy to fund compensation payments in respect of slaughtered TB reactors will be imposed on *(a)* a per head and *(b)* a per farm basis; and whether it will apply to (i) dairy producers and (ii) beef producers; [158368]

(2) whether the proposed levy to fund compensation payments in respect of slaughtered TB reactors will be imposed on a *(a)* per head and *(b)* per farm basis; and whether it will apply to (i) dairy producers and (ii) beef producers. [158571]

Mr. Bradshaw: The levy which we have in mind would be raised on a per head basis, on all the animals susceptible to any disease covered by the levy fund. Different rates of levy would be set for different categories of animals, in line with the categories which are set for the compensation regime.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what responsibility her Department has for mitigating losses incurred by farmers arising from disease reservoirs over which they have no control; [158413]

(2) whether it is her policy to compensate farmers for all losses incurred due to diseases whose main reservoir is in wildlife. [158757]

Mr. Bradshaw: The Government will pay compensation to farmers and other keepers, when livestock is slaughtered for the purpose of disease control under Section 31 or Section 32 of the Animal Health Act 1981. No compensation is payable for consequential losses. Farmers, like other businesses, need to take into account any risks to their business, including the risk of disease posed by wildlife.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs whether the predicted doubling of the incidence of TB in cattle qualifies technically for the description epidemic. [158801]

Mr. Bradshaw: Yes. The occurrence of TB is at a level in excess of what might be expected, given the previous low incidence established during the 1970s and 1980s.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs whether there are plans to train lay personnel to carry out live TB testing in cattle. [158803]

Mr. Bradshaw: Last year the Government consulted on a proposal to permit fully trained and competent lay personnel to carry out TB testing of cattle. We are currently considering the way forward following the analysis of the responses to the consultation.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs whether budget allocation has been made for the purpose of gaining public acceptance of large-scale badger culling. [158804]

Mr. Bradshaw: No.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs whether it is her objective that bovine TB should be eradicated using current control methods. [158807]

Mr. Bradshaw: The Government recognise that eradication of bovine TB is unlikely to be achieved in the next 10 years using current control methods. The public consultation on a revised TB strategy for Great Britain is looking at what might be achieved in this time scale. A desirable outcome would be to achieve Officially Tuberculosis Free status, as defined in EU Directive 64/432/EEC. Our priority in the shorter term must be to prevent the spread of the disease from areas of GB where incidence is high to areas where it is low.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs whether the clean ring strategy adopted from 1982 to 1985 led to a reduction in the incidence of TB in *(a)* badgers and *(b)* cattle; and what the incidence of bovine TB was outside the clean ring target areas during that period. [158808]

Mr. Bradshaw: The information requested is as follows:

(a) Badgers recolonising areas cleared under the clean ring strategy had similar levels of TB infection to the badgers removed; there was a reduction in the rate of cattle TB breakdowns. The Krebs Report considered this and said 'whilst removal operations may have had an effect on the prevalence of TB in badgers and on herd breakdowns, other factors may also have influenced these. In the absence of scientific controls, it is not possible to separate out the effects of badger removal from these confounding factors'.

(b) There is no known specific assessment of the incidence of bovine TB outside the clean ring target areas during the period 1982 to 1985. The table illustrates the level across Great Britain.

Incidence of tuberculosis as disclosed by tuberculin tests 1982 to 1985 in Great Britain

		Reactors slaughtered		*Herds with reactors*	
	Herds tested	*Number*	*As a percentage of cattle in herds tested*	*Number*	*As a percentage of herds tested*
1982	48,343	569	0.016	308	0.637
1983	44,830	621	0.019	322	0.718
1984	45,285	660	0.019	350	0.773
1985	43,826	699	0.021	341	0.778

Source:
Report of the Chief Veterinary Officer 1984 and 1985.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what her best estimate is of the total costs of bovine TB for each of the years from 2004–05 to 2012–13, based on the assumptions used for the graph on page 23 of her consultation document, "Preparing for a new GB strategy on Bovine Tuberculosis", but in the absence of a significant wildlife reservoir. [158810]

Mr. Bradshaw: It is not possible to estimate this figure. To do so would require knowledge of the quantitative contribution of wildlife to the causation of TB in cattle, a fact not currently known.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs whether the current objective of badger TB vaccine research is to *(a)* achieve a high level of immunity in the badger population and *(b)* reduce bacterial shedding by badgers which have succumbed to the disease. [158811]

Mr. Bradshaw: A vaccine targeted at badgers would not be required to protect individual badgers against TB, but would need to reduce the transmission to cattle. Thus a vaccine that reduces the severity of the disease and/or reduces shedding of the bacteria from infected badgers by inducing protective immunity could have the desired effect. This is the current objective of badger TB vaccine research.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs whether her Department will bear the market authorisation costs for a new animal TB vaccine; and whether she will be seeking a commercial partner to bring the vaccine into use. [158812]

Mr. Bradshaw: There are no plans to develop a generic animal vaccine at present. However Defra is funding research into the development of specific badger and cattle vaccines and associated diagnostic tests.

In particular, Defra is organising a workshop aimed at progressing badger vaccine development from the current research to delivery of a licensed product (BCG based vaccine) to badgers in the field. This will ensure Industry is engaged early enough for manufacturing, licensing and marketing issues to be understood and taken on board. The workshop should clarify timescales, costs and the roles for various partners, and possible models for engagement between Government, Industry and beneficiaries in the development of a badger vaccine.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 10 December 2003, *Official Report*, column 522W, on badgers, whether the gassing of badgers is deemed by her Department to be inhumane when preceded by the administration of an efficient anaesthetic gas. [158813]

Mr. Bradshaw: The gassing of badgers in their setts is not regarded as an acceptable method of killing them because of the difficulty of ensuring the correct concentration of gas throughout the sett, using the methods of delivery and gas combinations that are currently available; this applies whether the gas is intended to bring about anaesthesia or death.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the benefits of unrestricted, natural growth in the badger population. [158814]

Mr. Bradshaw: The Department has not made any such assessment.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to her answer of 22 January 2004, *Official Report*, column 1365W, on badgers, what lessons have been learned from the four badger clearance areas to which she refers. [158815]

Mr. Bradshaw: The Krebs Report considered this and said

> "a reduction in the incidence of TB in cattle in areas after badger clearances would be compelling evidence that the badgers had been responsible for TB in the cattle if alternative explanations could be eliminated".

The Government accepted the Report's recommendation that a field trial be established to investigate this issue further, and set up the Randomised Badger Culling Trial in 1998.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs (1) how many applications for section 10 licences under the Protection of Badgers Act 1992 permitting the killing of badgers for the express purpose of preventing serious damage to land, crops, poultry or any other form of property have been *(a)* made and *(b)* approved in respect of listed buildings or other listed sites in each year that the Act has been in force; [159116]

(2) how many applications for section 10 licences under the Protection of Badgers Act 1992 permitting the killing of badgers have been *(a)* made by (i) farmers and (ii) other private landowners and *(b)* issued for the express purpose of preventing serious damage to land, crops, poultry or any other form of property in each year that the Act has been in force. [159117]

Mr. Bradshaw: When members of the public approach my Department with a badger problem, most come seeking our advice on how they can resolve their problem. Only a small number have a clear idea of what action they want to take. Because of this it is not possible to distinguish between applications on the basis of whether the applicant wanted to kill the badgers, relocate them or simply close a problem sett. Thus, we cannot provide figures for part *(a)* of these questions.

With regard to the number of licences issued to kill badgers for the purpose of preventing serious damage to land, crops, poultry or any other form of property in respect of listed buildings or other listed sites; our computerised system does not specifically record whether a building or other site is listed. Therefore we are unable to provide figures for this. We are however unaware or any such licences issued between 2001 and 2003.

The number of licences issued permitting the killing of badgers for the express purpose of preventing serious damage to land, crops, poultry or any other form of property in each year that the Act has been in force and for which there are computer records available, are as follows:

2001: 0

2002: 1

2003: 0

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs which clauses of the Berne Convention relate to the mass culling of badgers for the purpose of disease control. [159127]

Mr. Bradshaw: No Article of the Bern Convention does so in such precise terms. Article 9, however, provides for 'exceptions', including for the purposes of being in the interest of public health and safety, the prevention of serious damage to livestock and research.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to her answer of 6 February 2004, *Official Report*, column 1109W, what the period is between the administration of each test to which badgers are subject before release; and what the statistical probability is of detecting an infected badger by the application of three tests. [159143]

Mr. Bradshaw: The minimum interval between indirect (Brock) ELISA tests should be 4 weeks.

An animal which has had three negative test results has a 2.7 per cent. risk of being infected if it comes from a population with a background prevalence of infection of 10 per cent.—We cannot be definitive when the background prevalence is subject to fluctuation.

Progress is being made in improving assays to detect antibodies against *M. bovis* infection in badgers.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answers of 8 December 2003, *Official Report*, column 218W, and 29 January 2004, *Official Report*, column 482W, on bovine TB, in how many cases when traps were damaged it was judged that the traps had been recently occupied by badgers. [159145]

Mr. Bradshaw: No judgment was made or records kept as to whether traps damaged by anti-trial protesters contained trapped badgers at the time they were damaged.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answers of 8 December 2003, *Official Report*, column 218W and 29 January, *Official Report*, column 482W, on badgers, in how many instances her

departmental officials reported the loss or damage of badger traps to the police; and what investigations were made as a result. [159155]

Mr. Bradshaw: Badger culling operations are planned in close liaison with the respective police authorities. Varying reporting arrangements for trap damage are agreed with the different police forces who investigate and record such crime according to their assessment of the local situation.

Defra does not receive information on the outcome of police investigations.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 8 December 2003, *Official Report*, column 215W, on badgers, what aspects affecting the routes of transmission of *M. bovis (a)* from cattle to cattle, and *(b)* between badgers and cattle, remain to be fully understood. [159214]

Mr. Bradshaw: In relation to cattle to cattle transmission the rate at which cattle excrete *M. bovis* varies, and the effect of age, breed, productive and health status of the animal and time since infection are not fully understood. If transmission is by the respiratory route the relative importance of proximity, ventilation and dust remains to be determined. It may be that cow to calf transmission by milk ingestion is possible: if so, how often this occurs is not known.

It has not yet been established whether cattle to badger transmission occurs and, if it does, how often in comparison with re-activation of latent infection in badger populations.

In relation to badger to cattle transmission variation in the rate at which badgers excrete *M. bovis*, and the effect of age, breed and health status of the animal and time since infection is not understood. Additionally the relative importance of contamination of pasture, feed stores and silos, feed troughs, water troughs and streams and how and why the risk is discontinuous in space and time, so that some farms can escape disease for many years while neighbours are apparently infected several times a year is yet to be established.

Defra has a number of research projects in place to investigate more fully the factors associated with *M. bovis* transmission between animals.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 8 December 2003, *Official Report*, column 215W, on badgers, whether her objective of containing the geographical spread of TB in cattle also encompassed a reduction in the incidence of TB in cattle in those geographical areas where it has already been detected. [159215]

Mr. Bradshaw: The objective of surveillance and control activity is to reduce the incidence of TB wherever it is found.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 8 December 2003, *Official Report*, column 213W, on badgers, whether the number of field officers employed are sufficient to maintain trapping frequency in proactive areas, in accordance with the protocols set out for the Krebs trials. [159216]

Mr. Bradshaw: Yes.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 16 December 2003, *Official Report*, column 821W, what assessment she has made of whether badger culling programme designs and execution need to be improved in order to reduce perturbation. [159281]

Mr. Bradshaw: The amount of perturbation is a factor of the degree of culling, and the number of badgers surviving it. The more or, conversely, the less effective a badger culling programme is, the less the perturbation effect may be. To make the sort of assessment the hon. Member suggests would require a study designed to quantify accurately the effects on the levels of perturbation that different culling programmes would have. Given the number of replicates that would be required, at varying levels of culling efficiency and badger density, this would be difficult to achieve.

Common Fisheries Policy

Mrs. Humble: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what assessment her Department has made of the obstacles to the UK *(a)* withdrawing from the Common Fisheries Policy and *(b)* creating an alternative structure for UK fisheries management; [163847]

(2) what assessment her Department has made of the legal steps that would be required for the UK to withdraw from the Common Fisheries Policy. [163848]

Mr. Bradshaw: Withdrawal from the Common Fisheries Policy (CFP) would only be achievable by a complex renegotiation of European Union treaties with other member states.

The Prime Minister's Strategy Unit concludes that sustainable fisheries management is most likely to be achieved inside a reformed and regionalised CFP—and the way we carry forward their recommendations will be an integral part of the CFP reforms we agreed in December 2002.

One of these reforms was provision for the establishment of trans-national Regional Advisory Councils (RACs). These will bring together fishermen, scientists and all with an interest in the fish stocks and their exploitation to help develop ways forward to which all parties can subscribe. The industry and other organisations in the UK are at the forefront of action to establish RACs, and a Council Decision is likely to be adopted next month which will allow interested parties to take forward their proposals quickly. We believe RACs to be a groundbreaking change for the CFP—they will help develop more effective consultation and a strong regional focus.

Computer Misuse

Mr. Webb: To ask the Secretary of State for Environment, Food and Rural Affairs how many cases

of computer misuse there were in her Department in 2003, broken down by category of misuse; and how many of those cases resulted in disciplinary action. [163253]

Alun Michael: The Department does not maintain a central list of all cases of computer misuse because these are generally handled through the line management chain or local Personnel Units.

The IT Directorate provides information in cases of suspected computer misuse. There were no cases of formal disciplinary action within the Department during 2003.

The Department seeks to ensure that all users of computer systems are fully aware of their responsibilities and legal obligations. This is done by a variety of methods such as through system training programmes, published user guides and usage policies together with general security policy guidance and advice. This material is subject to regular review and is easily accessible through the Departmental Intranet. Regular Office Notices also provide reminders of key points.

EU Sugar Regime

Claire Ward: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the UK Government's position on reform of the EU sugar regime. [162903]

Alun Michael: The Government have already made clear that they share the European Commission's view that extension of the present regime beyond 2006 is not sustainable. We have also said that we are looking for a market based approach in line with major CAP reforms achieved in June 2003 across most other sectors.

However, sugar reform raises a complex set of issues, including implications for developing countries, and we are still considering the best way ahead, taking account of the views received in our consultation exercise which closed on 16 January and which we are still assessing.

Fallen Stock

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what provisions she has made for the disposal of fallen sheep during the current lambing season, in the absence of the Fallen Stock Subscription Scheme; [158741]

(2) what advice she gives to farmers who are banned from burying fallen stock on their land by the Animal By-Products Regulation 1774/2002/EC and who have no other means of disposal. [158746]

Mr. Bradshaw: The Government are not obliged to provide a National scheme under the Animal By-Products Regulations, nor is one an essential pre-requisite to farmers being able to dispose of their livestock in a legitimate manner.

Farmers are expected to make use of existing local outlets for the disposal of fallen stock i.e. knacker yards, hunt kennels and maggot farms, use on-farm incinerators or make arrangements directly with rendering or incineration plants. However, we have asked local authorities to look sympathetically at individual cases where farmers have made every effort to comply but have faced genuine difficulties in doing so.

Farm Incomes

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs when she expects real total income from farming to return to the level of 1995; and if she will make a statement. [162876]

Alun Michael: Total income from farming in the UK is estimated to be £3.2 billion in 2003, having increased for the third year in a row. In real terms this is 28 per cent. above the 2002 level and 77 per cent. above the low point in 2000. It remains 50 per cent. below the peak in 1995.

Total income from farming in 1995 was exceptionally high due primarily to the combined effects of currency movements the UK's exit from the Exchange Rate Mechanism and favourable world commodity prices.

Government policy is to facilitate the right economic framework to enable farmers to succeed, compete successfully internationally and have a profitable future.

The Government's Strategy for Sustainable Farming and Food, was published on 12 December 2002. The strategy provides a clear and strategic long-term direction towards a more sustainable future. The Government will work in partnership with industry and other stakeholders to implement the strategy, providing the leadership to allow farmers to flourish by their own efforts and to become better connected to markets and consumer requirements.

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs what action she proposes to take to maintain the growth in net farm income for *(a)* dairy, *(b)* cereals, *(c)* cattle and sheep (less favoured areas) and *(d)* cattle and sheep (lowland); and when she expects each to reach, in real terms, the levels of 1995–96. [162878]

Alun Michael: In the year ending February 2004, net farm income in England is expected to have increased on dairy farms, cereal farms and cattle and sheep farms (less favoured areas) in comparison to the previous year. Incomes on lowland cattle and sheep farms are expected to have been broadly unchanged. The increases in incomes are mainly a reflection of higher market prices and support payments in that year which, in turn, are mainly a result of market forces and movements in currency exchange rates.

The level of net farm income in 1995–6 was exceptionally high due primarily to the combined effects of currency movements following the UK's exit from the exchange rate mechanism and favourable world commodity prices.

Government policy is to facilitate the right economic framework to enable farmers to succeed, compete successfully internationally and have a profitable future.

The Government's Strategy for Sustainable Farming and Food, was published on 12 December 2002. The strategy provides a clear and strategic long-term direction towards a more sustainable future. The Government will work in partnership with industry and

other stakeholders to implement the strategy, providing the leadership to allow farmers to flourish by their own efforts and to become better connected to markets and consumer requirements.

Farm Payments

Mr. Nicholas Brown: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what assessment she has made of whether a significant proportion of the single farm payment will become capitalised in agricultural land values; and if she will make a statement; [160166]

(2) what assessment she has made of the likely impact of the single farm payment on rent levels for agricultural land; and if she will make a statement. [160167]

Alun Michael: Defra will publish shortly an analysis of the economic impact on the English farming industry of the decoupling of CAP direct payment and the decision to allocate entitlement on the basis set out in my right hon. Friend the Secretary of State's Statement to the House on 12 February.

Feline TB

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what advice she has issued to private veterinary surgeons on the *(a)* detection and *(b)* reporting of domestic cats infected with *M. bovis*. [159122]

Mr. Bradshaw: There is no advice issued by Defra to private veterinary surgeons on the detection and reporting of domestic cats infected with *M. bovis*. TB in cats is not notifiable to the Divisional Veterinary Manager, although it is good practice to do so.

As set out in the consultation document launched by my Department last 9 February, we are proposing an amendment to the Tuberculosis (England and Wales) Order 1984, which will make the isolation of *M. bovis* notifiable in any mammal other than humans.

Horticulture

David Taylor: To ask the Secretary of State for Environment, Food and Rural Affairs what progress her Department has made in developing proposals to alter the Horticultural Development Council Order 1986 (as amended). [163634]

Alun Michael: The Horticultural Development Council has discussed the levy rate for non-agaricus mushrooms with Defra officials and this is now being considered as part of the statutory review of the Council. Any change to the levy rate will require an amendment to the Horticultural Development Council Order 1986 (as amended). As part of the review we will consider any other proposals for change to the Order including suggestions from the Council.

David Taylor: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions her Department has had with *(a)* the Horticultural Development Council and *(b)* the Mushroom Growers Association about introducing a differential levy rate for non-agaricus (exotic) mushroom growers. [163678]

Mr. Bradshaw: The Horticultural Development Council has discussed the levy rate for exotic mushrooms with Defra officials. The possibility of a differential levy rate is being considered as part of the current statutory review of the Council and the Mushroom Growers' Association (together with other industry bodies) will be consulted on any firm proposals for change.

Milk

Mr. Edwards: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the effects of the code of practice between supermarkets and suppliers on the supply and sale of milk. [162654]

Alun Michael: The operation of the code has recently been reviewed by the Office of Fair Trading. Their report, publis235hed on 20 February, can be found on their website at: http://www.oft.gov.uk/News/Press+releases/2004/28-04.htm.

Rights of Way

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs if she will extend the period of consultation on motor propelled vehicles and rights of way. [162926]

Alun Michael: No. We have allowed a period for submitting responses that is longer than the 12 weeks recommended in the Cabinet Office Code of Practice on Consultation and there has been a very healthy response.

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs how many pieces of correspondence she received on motor propelled vehicles and rights of way when the consultation period finishes. [162927]

Alun Michael: Once I have had a proper opportunity to consider all the comments made on the proposals, I will publish a formal response to the consultation including an analysis of the numbers of responses received.

At this stage, we estimate we have approximately 13,000 formal responses, letters, emails and other written contributions.

Paddy Tipping: To ask the Secretary of State for Environment, Food and Rural Affairs what, and how many, representations she has received from *(a)* the Country Land and Business Association and *(b)* those declaring themselves as members of the Association about the use of modern motorised vehicles on rights of way; and if she will make a statement. [163086]

Alun Michael: Once I have had a proper opportunity to consider all the comments made on the proposals, I will publish a formal response to the consultation, which will include a comprehensive analysis of the responses to the consultation.

The Country Land and Business Association has submitted a formal response to the consultation. 3,500 postcards from members of the association, supporting the Government's proposals.

Rural Payments Agency

Mr. Evans: To ask the Secretary of State for Environment, Food and Rural Affairs how many and what value of payments *(a)* have been made and *(b)* remain unpaid by the Rural Payments Agency to farmers in the North West, broken down by county. [156494]

Alun Michael: The following table shows the number and total value of claims paid to farmers in the North West broken down by county. These figures represent the European Agriculture Guidance and Guarantee Fund 2003 accounting year which runs from 16 October 2002 to 15 October 2003.

The figures for the number and value of unpaid payments could only be provided at disproportionate cost.

£

County[1]	*Number of claims paid*	*Total amount*
Cheshire	2,110	16,210,308.85
Cumbria	4,852	72,822,877.45
Greater Manchester	560	4,320,959.33
Lancashire	2,639	23,156,928.16
Merseyside	188	2,762,820.68
Total	10,349	119,273,894.47

[1] The county split is in line with NUTS 2 (Nomenclature of Territorial Units for Statistics) regional analysis.

Severely Disadvantaged Areas

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what her assessment is of the impact on tourism in severely disadvantaged areas of the payment regime in those areas. [161538]

Alun Michael: Defra will publish shortly an analysis of the economic impact on the English farming industry of the decoupling of CAP direct payment and the decision to allocate entitlement on the basis set out in my right hon. Friend the Secretary of State's Statement to the House on 12 February. We also plan to investigate changes in farmers' business practices and any associated impacts of changes on tourism.

Shellfish

Mr. Amess: To ask the Secretary of State for Environment, Food and Rural Affairs how many shellfish beds have been recommended for closure since 2001, due to the monitoring of toxins in shellfish producing atypical results; and if she will make a statement. [163235]

Miss Melanie Johnson: I have been asked to reply.

I am advised by the Food Standards Agency, that since April 2001, of the 395 classified shellfish beds in England, Wales and Northern Ireland, some 60 beds have, at various times, had temporary restrictions in place due to shellfish samples producing atypical positive results for diarrhetic shellfish poisoning toxins.

Sites of Special Scientific Interest

Diana Organ: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list local authority owned sites of special scientific interest which are in an English Nature management scheme to restore their features. [163664]

Mr. Bradshaw: English Nature has initiated proceedings on four management schemes under section 28J of the Wildlife and Countryside Act 1981, as amended. In each case, a voluntary management agreement was reached with English Nature, before it was necessary to formally serve notice of the schemes. None of these concerned SSSI land owned or managed by local authorities.

English Nature may enter into voluntary management agreements with any owner or occupier of SSSI land. According to English Nature, management agreements have been entered into with local authorities on 204 separate SSSI units covering 4,734 hectares of SSSI land. I will write to my hon. Friend with further details.

Diana Organ: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list sites of special scientific interest owned by local authorities which are in *(a)* favourable and *(b)* unfavourable condition; and which are improving in line with the Public Service Agreement target. [163665]

Mr. Bradshaw: The exact extent of each local authority's SSSI holding has not yet been completely defined. Overall, English Nature estimate that local authorities own or manage at least 47,000 hectares (ha) of SSSI land. Many local authorities do not have digital mapping data for their own landholdings against which English Nature can compare their comprehensive data on SSSI boundaries and condition.

Drawing on English Nature's Site Information System (ENSIS), and working with the Association of Local Government Ecologists, English Nature has identified details of 32,000 ha of SSSI land owned or managed by 256 local authorities. Of these 32,000 ha, according to the last condition assessments completed on the land, approximately 19,400 ha is in favourable condition, 6,900 ha is in recovering condition, and 5,700 ha is in unfavourable no change or declining condition. I will write to the hon. Member with further details.

Diana Organ: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list local authorities which own land designated as sites of special scientific interest, broken down by size of holding. [163666]

Mr. Bradshaw: I refer my hon. Friend to my previous answer concerning the difficulties faced by English Nature in assembling details of local authority SSSI land holdings. According to English Nature's Sites Information System (ENSIS), 256 local authorities own SSSI land. Of these, 10 local authorities own over 1,000 hectares (ha), six local authorities own over 500 ha, and 44 local authorities own over 100 ha. Details of those local authorities owning more than 1,000 ha and more than 500 ha of SSSI land are provided as follows. I will write to my hon. Friend with further details.

Hectares of SSSI land owned/managed—over 1,000 ha
Local authority name:

Barrow Borough Council
Corporation of London
Devon County Council

East Devon District Council
Exeter City Council
Maldon District Council
Metropolitan Borough of Wirral
Northumberland County Council
Staffordshire County Council
Teignbridge District Council

Hectares of SSSI land owned/managed—over 500 ha
Local authority name:

Birmingham City Council
Essex County Council
Hampshire County Council
Poole Borough Council
Surrey County Council
Waverly Borough Council

Vets

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs how many veterinarians the Department *(a)* employed and *(b)* had on establishment in each of the last five years for which records are available. [163529]

Mr. Bradshaw: The total number of vets the State Veterinary Service *(a)* employed and *(b)* had on establishment is shown in the table below.

		Of which:			*Of which:*	
	(a) Employed	*Fixed term appointee*	*Casual*	*(b) Had on establishment*	*Fixed term appointee*	*Casual*
1 January 1999 to 31 December 1999	12	—	—	185	—	—
1 January 2000 to 31 December 2000	13	1	1	198	1	1
1 January 2001 to 31 December 2001	22	3	1	220	4	2
1 January 2002 to 31 December 2002	60	2	33	279	5	35
1 January 2003 to 31 December 2003	22	—	11	252	—	13
1 January 2004 to 25 March 2004	14	—	12	259	—	23

Note:
The figures are given on a head count basis.

NORTHERN IRELAND

Hospital Finance

Lady Hermon: To ask the Secretary of State for Northern Ireland what assessment he has made of the implications for *(a)* acute services and *(b)* care for the elderly as a result of the funding shortfall within the Ulster Community and Hospitals Trust. [164574]

Angela Smith: The Department is aware that there have been additional service pressures placed on the Ulster Community and Hospitals Trust as a result of funding issues, but at this stage the Trust expects to achieve a break-even position for 2003–04.

In recognition of the demands placed on the Trust, during 2003–04 an extra £1 million funding was made available to support Acute Services and the Elderly Programme of Care in the North Down and Ards area. Further work is also being carried out on re-balancing funding allocations, with a subsequent consultation exercise planned to take place in May 2004.

In the longer term, developments at the Ulster Hospital, including the current major re-development programme, are expected to address the equity gap. The Department continues to monitor the position and has been assured that all reasonable steps are being taken to address pressures on local community and hospital services.

Lady Hermon: To ask the Secretary of State for Northern Ireland what steps he plans to take to address the funding shortfall within *(a)* the Ulster Hospital, Dundonald and *(b)* the Ulster Community and Hospitals Trust. [164575]

Angela Smith: Equity in resource allocation to localities such as that covered by the Ulster Community and Hospitals Trust is a matter for the Board concerned. In 2003–04, the Eastern Board has allocated £0.7 million specifically to address the equity issue in North Down and Ards. In addition, a further £1 million funding was made available to support Acute services and the Elderly Programme of Care. The Eastern Board will continue to address the issue of equity within its resource constraints.

On-going developments at the Ulster Hospital are expected to close the equity gap in Acute services over a number of years. In addition, a review of the formula currently used to allocate resources to HSS Boards, due for consultation in May 2004, may alter the equity position to some extent at locality level. The Department of Health, Social Services and Public Safety will continue to work closely with the Eastern Board on this matter.

Hotels

Mr. Trimble: To ask the Secretary of State for Northern Ireland how many hotel beds were available in Northern Ireland in each of the last five years; and what his estimates are for the occupation rates of hotel bedrooms in Northern Ireland in each of the last five years. [164067]

Mr. Pearson: The hotel figures detailed as follows are prepared by the Northern Ireland Tourist Board (NITB) Quality Assurance advisory staff at the time of the statutory inspection. These figures are published monthly in the Accommodation Survey in relation to Bed Occupancy.

The total number of hotel bed spaces available in Northern Ireland is detailed as follows.

	Bed spaces per year
1999	11,163
2000	11,317
2001	11,927
2002	13,310
2003	13,247

The hotel bedroom occupancy rates in Northern Ireland for the last five years are as detailed in the following table. These figures have been taken from the NITB's Research Department's hotel occupancy report.

	Percentage occupancy rates	
	Bedrooms	Bed spaces
1999	53	34
2000	53	33
2001	53	33
2002	53	34
2003	56	37

Housing

Mr. McGrady: To ask the Secretary of State for Northern Ireland if he will make a statement on the time taken to release payments for discretionary grants by the Northern Ireland Housing Executive, Southern Division. [164610]

Mr. Spellar: The Northern Ireland Housing Executive, which has an overall grants budget of £41.13 million in the 2003–04 financial year, aims to make payments within six weeks of a request for inspection provided that all the relevant invoices, guarantees and certificates have been received. In the south area 89.7 per cent. of payments are made within six weeks against a target of 90 per cent.

Manufacturing Workforce

Mr. Trimble: To ask the Secretary of State for Northern Ireland what percentage of the workforce in Northern Ireland was employed in manufacturing during the last five years; and what the equivalent figure was for the whole of the United Kingdom. [164057]

Mr. Pearson: Estimates of the percentage of employee jobs in Manufacturing in Northern Ireland and the United Kingdom between December 1998 and December 2003 are provided in the following table:

Percentage of employee jobs in manufacturing in Northern Ireland and the UK

Seasonally adjusted— December of each year	Northern Ireland	United Kingdom
1998	17.3	16.7
1999	16.6	15.8
2000	16.0	15.1
2001	15.0	14.3
2002	14.3	13.8
2003	13.5	13.4

DEFENCE

Bowman Radio System

Mr. Key: To ask the Secretary of State for Defence which private sector companies are training Army personnel to use Bowman radios; and what the value of the contract is. [162840]

Mr. Ingram: As prime contractor for the Bowman tactical communication system, General Dynamics United Kingdom Ltd. has sub-contracted the conversion training of around 75,000 personnel from all three services to Westland Helicopters Ltd. Training delivery and distributed learning is led by Westland and supported by Outstart and Vosper Thornycroft UK Ltd. Conversion training began on time in July 2003 and, to date, almost 3,500 personnel have completed their individual training.

The prime contract with General Dynamics United Kingdom Ltd. was awarded competitively. I am withholding details about the value of the contract under Exemption 13 of the Code of Practice on Access to Government Information for reasons of commercial confidentiality.

Brimstone Missile

Mr. Gerald Howarth: To ask the Secretary of State for Defence for what reasons there was a delay in the provision of trials aircraft for the development of the Brimstone missile. [162641]

Mr. Ingram: The delay was due to a later than planned delivery of a trials aircraft from the Tornado upgrade programme.

Mr. Gerald Howarth: To ask the Secretary of State for Defence whether it is his intention that the Brimstone missile will supplant the use of the RBL755 cluster bomb in the anti-armour role; and if he will make a statement. [162642]

Mr. Ingram: Brimstone is an advanced air-launched anti-armour weapon designed to defeat modem and future main battle tanks and other armoured fighting vehicles by precision attack. It is intended that the Brimstone missile will replace the RBL755 in the anti-armour role.

Computer Misuse

Mr. Webb: To ask the Secretary of State for Defence how many cases of computer misuse there were in his Department in *(a)* 1997 and *(b)* 2003, broken down by category of misuse; and how many of those cases resulted in disciplinary action. [163248]

Mr. Caplin: In 1997 and 2003, the following instances of computer misuse were recorded across the Ministry of Defence.

	1997	2003
Unauthorised access to computer material		
Incidents	2	2
Disciplined	1	1
Unauthorised access with intent to commit or facilitate commission of further offences		
Incidents	7	0
Disciplined	1	0
Unauthorised modification of computer material		
Incidents	0	0
Disciplined	0	0

It should be noted that in 1997 these incidents were not reported to a central focal point, as has since been required, and that details of disciplinary action taken are only collated once the action concerned has been completed. The above figures are the most accurate that can be made readily available under current reporting arrangements, and additional information could be provided only at disproportionate cost.

Cost Reduction Reviews

Mr. Russell Brown: To ask the Secretary of State for Defence how many cost reduction reviews are under way in his Department; what the approximate cost of each of these reviews is; and how much has been spent on consultancy support to each review. [164216]

Mr. Ingram: The Ministry of Defence is constantly looking at ways to reduce costs and improve performance. Such work is conducted at all levels in the organisation, including as individual management activity, corporate level studies and as part of pan-Government initiatives such as Sir Peter Gershon's Efficiency Review. Where appropriate, this work draws on consultancy support. Details of the number and cost of such reviews under way at any one time are not held centrally and could be provided only at disproportionate cost.

Employment Agencies

Matthew Taylor: To ask the Secretary of State for Defence if he will list the employment agencies which his Department has used to supply temporary staff in each financial year since 1996–97 to the most recent date for which figures are available. [163817]

Mr. Caplin: This information is not held centrally and could be provided only at disproportionate cost.

Equipment Programmes

Mr. Gerald Howarth: To ask the Secretary of State for Defence which current equipment programmes have been delayed owing to insufficient funding for them within his Department's budget. [162644]

Mr. Ingram: Many factors might cause the Ministry of Defence to make adjustments to its equipment-related spending plans, either for the current financial year or beyond.

These include the need to: reflect changes in priority between different military capabilities; ensure coherence between projects; take advantage of emerging technologies; deal with technical or commercial issues; as well as to ensure that the Department remains within its allocated resources. Changes to the timing of individual projects are very often due to a combination of these factors.

Financial Information

Mr. Soames: To ask the Secretary of State for Defence (1) if he will place in the Library copies of the *(a)* fixed assets registers, *(b)* balance sheets and *(c)* operating cost statements maintained by his Department's management groupings for financial years 1999–2000 to 2002–03; [164668]

(2) if he will place in the Library copies of the cash flow statements maintained by his Department's management groupings for financial years 1999–2000 to 2002–03; [164639]

(3) if he will place in the Library copies of the statements of recognised gains and losses maintained by his Department's management groupings for financial years 1999–2000 to 2002–03. [164640]

Mr. Ingram: I refer the hon. Member to my letters Ref: D/Min(AF)/AI 2185N/03/L) dated 21 April 2003 and D/Min(AF)/AI 4656/04/C) dated 30 March 2004, to the hon. Member for Essex North (Mr. Jenkin) for financial years 1999–2000 to 2001–02, of which copies have been placed in the Library of the House. I will write to the hon. Member to provide the corresponding information for financial year 2002–03 and a copy of my letter will be placed in the Library of the House.

Interpreters

Lady Hermon: To ask the Secretary of State for Defence what his Department's policy is regarding the use of non-military interpreters; what training is provided for non-military interpreters before deployment; and if he will make a statement. [161282]

Mr. Ingram: Both civilian and military interpreters are employed on operations as requirements demand. Civilian interpreters include Ministry of Defence personnel and nationals from the region. Those taken on locally generally assist with low-level communication with the local population.

MOD civilians employed on operations are trained in essential skills appropriate to the theatre in which they are deployed and the role that they are to perform. Typical training includes first aid, environmental health, and operational, chemical and biological, cultural, and mine awareness. Like their military colleagues, they also receive pre-deployment medical and dental examinations and, where necessary, vaccinations against diseases.

Iraq

Norman Lamb: To ask the Secretary of State for Defence pursuant to the answer of 25 February 2004, reference 153466, what surveys of public perceptions of the Ministry of Defence, the armed forces and their equipment have taken place since the start of military action in Iraq; what the *(a)* title and *(b)* nature of these surveys were; what the findings of each survey were; where these findings have been published; and if he will make a statement. [158270]

Mr. Caplin: I will write to the hon. Member and place a copy of my letter in the Library of the House.

Mr. Llwyd: To ask the Secretary of State for Defence how many soldiers have been *(a)* killed in Iraq, *(b)* injured seriously enough to warrant a return from Iraq and *(c)* injured but stayed in Iraq to continue service, broken down by soldiers based in (i) Wales, (ii) England, (iii) Scotland and (iv) Northern Ireland. [158891]

Mr. Ingram: As at 25 March, 58 United Kingdom military personnel had been killed while deployed on Operation TELIC in Iraq. We record centrally only those casualties that have been medically evacuated to the United Kingdom. As at 25 March the total was 2,381. Casualties' countries of origin are not recorded centrally and the information could be provided only at disproportionate cost.

Mr. Llwyd: To ask the Secretary of State for Defence whether Ministry of Defence civilian staff have been used in the reconstruction of Iraq; and if he will make a statement. [158892]

Mr. Ingram: As at 21 March 2004, 67 Ministry of Defence civilians were deployed in Iraq supporting the reconstruction of the country in a number of roles including policy advice, interpreting, contracting and administrative support.

Mr. Llwyd: To ask the Secretary of State for Defence which Welsh regiments have served in Iraq since the beginning of hostilities; which regiments are presently in Iraq; and what amount of leave was given to each regiment during their tour of duty abroad. [158893]

Mr. Ingram: The Queens Dragoon Guards served in Iraq from March to June 2003. Personnel were entitled to two weeks leave at the end of their tour of duty in accordance with post operational tour leave guidelines issued at the time.

The 1st Battalion Royal Regiment of Wales was deployed to Iraq in December 2003 and on current planning is due to serve until June 2004. Personnel will generally be entitled to 14 days leave during their tour of duty, and four weeks post-operational tour leave on return to the United Kingdom. This is in accordance with the operational welfare package policy for service in an operational area.

Norman Baker: To ask the Secretary of State for Defence how many individuals are being held by UK forces in Iraq; and what the average length of detention is. [148577]

Mr. Ingram: Article 78 of the IV Geneva Convention (1949) allows the United Kingdom as the Occupying Power to intern people where it considers it necessary for imperative reasons of security. Internees will continue to be held until such time as they are no longer considered a threat to Coalition Forces.

As at 24 March 2004, the UK held 81 internees in Iraq. Of those currently held, the average length of internment is around four and a half months.

Lost Armaments

Mr. Liddell-Grainger: To ask the Secretary of State for Defence (1) what steps will be taken to find the missiles lost in the Bristol Channel in 2001; [161878]

(2) what help is being given to QinetiQ to help find the missile lost in the Bristol Channel; [161877]

(3) how many armaments were lost in the Bristol Channel and the Severn estuary in the last five years; [161876]

(4) what the total number of *(a)* man hours and *(b)* resources were spent on looking for the missile lost in the Bristol Channel in the last five years; [161875]

(5) what the role of the range at Weston-super-Mare will be following the loss of missiles from it in 2003. [161873]

Mr. Ingram: The Ministry of Defence has no record of missiles being lost in the Bristol Channel or Severn Estuary in either 2001 or 2003. We are aware of only one incident of armaments being lost in the Bristol Channel or Severn estuary in the last five years. In March 2002, a pallet of munitions was lost at the St. Thomas' Head range near Weston-super-Mare, which is operated by QinetiQ. The pallet is presumed to have been swept away by very strong spring tides. The pallet contained eight anti tank bar mines (with the fuses removed) and 20 warheads which had been removed from Swingfire missiles.

Extensive searches have been undertaken by the Avon and Somerset Constabulary, HM Coastguard, the Royal Air Force, the Royal Navy Southern Diving Group (SDG) and QinetiQ. The pallet has not, however, been located.

The SDG conducted two searches of the range area, consuming around 160 man-hours in March 2002 and about 220 man-hours in October 2002. QinetiQ carried out searches on foot and by boat and helicopter, expending a total of more than 110 man-hours. The RAF consumed a total of 15 man-hours on the task, including transit to and from the search area. The MOD does not have details of the resources consumed by either the Avon and Somerset Constabulary or HM Coastguard.

Use of the St. Thomas' Head range continues to be covered by the Long Term Partnering Agreement that has been negotiated with QinetiQ for the delivery of a long term test and evaluation capability to the MOD.

Military Gifts

Sir Menzies Campbell: To ask the Secretary of State for Defence what the decision-making process is for granting military gifts under the global conflict prevention fund. [164908]

Mr. Ingram: The gifting of military equipment is permissible under the Global Conflict Prevention Pool (GCPP) where it is considered essential to the success of an agreed strategy and endorsed by Pool officials on the relevant strategy Steering Team or Ministers. Gifts over £100,000 require a Departmental Minute to be laid before both Houses, under the normal 14 working days rule, before a final decision is taken. An export licence, or export licence waiver, is sought as appropriate. Potentially lethal military equipment (such as weapons and ammunition) can only be gifted through the GCPP with the approval of Ministers.

Mines

Mr. Gardiner: To ask the Secretary of State for Defence whether a decision has been made on the disposal of *(a)* Mk 7 and *(b)* L3A1 anti-vehicle mines. [163207]

Mr. Ingram: The total stock of Mk 7 and L3A1 anti-vehicle mines was earmarked for disposal on 10 January 2003. These mines are being disposed of through a contract with QinetiQ. There are still stocks awaiting physical disposal.

MOD Properties

Mr. Hancock: To ask the Secretary of State for Defence how many residential properties owned by his Department are currently empty in the Greater Portsmouth area. [164623]

Mr. Caplin: In the Greater Portsmouth area nearly all the family housing used by the Ministry of Defence is owned by Annington Homes. Some 389 quarters are currently empty and within this figure 46 are in the course of disposal, 57 await modernisation, some 131 are held for future unit deployments and 94 are pre-allocated for Service families. The remainder are available to let.

NAAFI Shops

Mr. Hancock: To ask the Secretary of State for Defence what research he has *(a)* commissioned and *(b)* evaluated on the price of goods available to British forces in NAAFI shops overseas, with particular reference to Iraq, compared with NAAFI shops in the UK; and if he will make a statement. [164179]

Mr. Ingram: NAAFI pricing policy is routinely reviewed by the Ministry of Defence in the forum of the NAAFI Council, which is the body that provides strategic direction to NAAFI under the chairmanship of the Deputy Chief of the Defence Staff, Personnel.

NAAFI prices in Iraq are set at a level that, depending on the products involved, match either local competition (e.g. in the stores serving American and Dutch troops), prices charged by NAAFI in Germany, (which are in the main substantially cheaper than in the United Kingdom), or at the same prices as in Spar shops in the UK.

Personnel Outflow

John Thurso: To ask the Secretary of State for Defence how many people have left *(a)* the Highlanders, *(b)* the Black Watch, *(c)* the Royal Scots, *(d)* the Royal Highland Fusiliers, *(e)* the King's Own Scottish Borderers, *(f)* the Argyll and Sutherland Highlanders, *(g)* the Royal Scots Dragoon Guards, *(h)* Scots Guards and (i) F Company Scots Guards in each of the last five years owing to exit codes (i) 9.398, (ii) 9.403, (iii) 9.404, (iv) 9.405, (v) 9.411, (vi) 9.413, (vii) 9.414 and (viii) PVR. [164717]

Mr. Ingram: It will take some time to collate data about the outflow of personnel under the Queen's Regulations listed for all the requested Regiments. I will therefore write to the hon. Member and place a copy of my letter in the Library of the House.

Postal Services

Mr. Keetch: To ask the Secretary of State for Defence if he will make a statement on his policy towards postal services for forces on operations overseas. [164197]

Mr. Ingram: Postal services for HM Forces on overseas operations form part of the overall Operational Welfare Package (OWP). The postal element of this consists of free Forces Air Letters ("Blueys") and their electronic equivalent, the "e-Bluey", and airmail letters and packets up to 2kg at a subsidised rate equivalent to UK inland first class postage. When operational circumstances permit, a surface parcel service is also made available at a subsidised rate.

In addition to these comprehensive arrangements, an exceptional extension to the service for Iraq only was provided from 17 April 2003 to enable families of deployed personnel to post airmail letters and packets up to 2kg free of charge. The free packet service was introduced in recognition of the particularly austere conditions faced by personnel in Iraq and of the fact that parts of the OWP were not available to them. Since the entire OWP will be available from April, I advised the House in my Written Statement of 27 February 2004, *Official Report*, columns 69–70WS, that this temporary free postal service would be discontinued with effect from 8 April 2004, to bring provisions in Iraq into line with those for other operational theatres.

RAF Strike Command

Mr. Nigel Jones: To ask the Secretary of State for Defence if he will assess the advantages of moving RAF Strike Command from High Wycombe to Gloucestershire; and if he will make a statement. [164304]

Mr. Ingram: The study into the possible collocation of the RAF Headquarters is still at an early stage. The study team will consider the relative merits of all the options and will report their findings in due course.

Mr. Nigel Jones: To ask the Secretary of State for Defence what estimate he has made of the cost savings of moving RAF Strike Command from High Wycombe to Gloucestershire; and if he will make a statement. [164305]

Mr. Ingram: The study into the possible collocation of the RAF Headquarters is still at an early stage, therefore no estimate of potential cost savings has yet been made for any of the options under consideration.

Sanctuary Magazine

Patrick Mercer: To ask the Secretary of State for Defence what the target audience is of Sanctuary magazine; and what its circulation is. [163545]

Mr. Caplin: Sanctuary Magazine exists to communicate and promote the Ministry of Defence's conservation policy, with the target audience being MOD staff who need to be aware of the broad conservation agenda (including MOD Conservation Groups); external bodies with a need to know about MOD's conservation efforts; and targeted to members of the general public who may wish to be made aware of our conservation challenges and the work MOD does to address them.

25,000 copies of the 2003 edition of Sanctuary were printed. 50 per cent. were distributed internally within MOD and 50 per cent. were distributed to a range of external stakeholders (including members of both Houses) and members of the general public.

Search and Rescue Radar Equipment

Mr. Nigel Jones: To ask the Secretary of State for Defence how many aircraft available to his Department are fitted with synthetic aperture radar equipment for use in search and rescue operations, broken down by type; and if he will make a statement. [164296]

Mr. Ingram: None. Synthetic aperture radar will be fitted to the Nimrod MRA4,18 of which are currently due to enter service in 2009. This capability is, however, unlikely to be used in search and rescue operations, as MOD platforms engaged in such operations are already equipped with other, more appropriate, technologies.

Site Decontamination/Stores Write-offs

Mr. Russell Brown: To ask the Secretary of State for Defence how much his Department has spent in each year since 1997 on *(a)* site decontamination and *(b)* stores write-offs. [164218]

Mr. Caplin: It will take some time to collate this information. I will therefore write to my hon. Friend and place a copy of my letter in the Library of the House.

Staff Relocation Costs

Mr. Russell Brown: To ask the Secretary of State for Defence how much has been spent in each year since 1997 on re-location of Ministry of Defence staff. [164219]

Mr. Caplin: This information is not held centrally and could be provided only at disproportionate cost.

Swan Hunter

Mr. Hancock: To ask the Secretary of State for Defence if he will bring forward the building of *(a)* the Joint Casualty Treatment Ship and *(b)* the Military Afloat Reach and Sustainability project to fill the workload gap at Swan Hunter Wallsend. [156559]

Mr. Ingram: The Joint Casualty Treatment Ship project is currently in its Assessment phase and the Military Afloat Reach and Sustainability project is in its Concept phase. A range of options for meeting these two requirements is still therefore under consideration. As part of that work, in line with Defence Industrial Policy, the Department considers a wide range of issues including loading in the UK's shipyards. On current plans, it is not, however, expected that any build contracts for these projects will be placed before the middle of the second half of this decade.

Unmarried Partners

Mr. Keetch: To ask the Secretary of State for Defence whether unmarried partners are eligible for Defence Housing Executive married quarters if they are in a recognised relationship; and if he will make a statement. [163627]

Mr. Caplin *[holding answer 30 March 2004]:* The Tri-Service Accommodation Regulations govern the allocation of married quarters to serving personnel. They do not allow cohabitation with a partner who is not a legal spouse.

However, this policy is currently under review and when a conclusion is reached the House will be advised.

Works Projects

Norman Baker: To ask the Secretary of State for Defence if he will make a statement on the radiological decontamination works at Aldershot, pursuant to project 5067. [163969]

Mr. Caplin: Work was undertaken between October 2001 and March 2002 to remove radiological contamination from the former Royal Electrical and Mechanical Engineers' site in Aldershot following a Land Quality assessment and surveys undertaken by Defence Evaluation and Research Agency Radiological Protection Services. The work was limited to the removal of detectable radium above the regulatory limit.

When contamination was first identified, the local authority, local inhabitants and the media were made aware of the project, and they were kept informed of progress. The site was also fenced and warning signs erected. Tenders were only invited from contractors with an established reputation in radiological decontamination and the work followed current best practice including on the minimisation of waste transferred to licensed landfill sites and to British Nuclear Fuels Ltd., Drigg. I can confirm that the project was completed on 8 March 2002.

CABINET OFFICE

Office of the e-Envoy

Mr. Heald: To ask the Minister for the Cabinet Office what total expenditure has been on the Office of the e-Envoy in *(a)* the last 12 months and *(b)* since it was established. [160023]

Mr. Alexander: The total expenditure for the Office of the e-Envoy over the last 12 months to the end of February 2004 was £17.2 million.

The costs for each financial year are detailed in the table:

	Costs (£000)
2000–01	15,003
2001–02	20,716
2002–03	15,649

Note:
Figures for the financial year 2003–04 are not yet available

The Office of the e-Envoy was established in September 1999. Expenditure was posted to the same user analysis codes as CITU (Cabinet-Office IT Unit) and therefore cannot be separately identified until April 2000.

Regulatory Impact Unit

Mr. Heald: To ask the Minister for the Cabinet Office what the total expenditure *(a)* in the past 12 months and *(b)* since its inception was on the Regulatory Impact Unit; and if he will make a statement. [160037]

Mr. Alexander: The total expenditure for the Regulatory Impact Unit over the last 12 months to the end of February 2004 was £3.1 million.

The costs for each financial year are detailed as follows:

	Costs (£000)
1997–98	1,598
1998–99	1,811
1999–2000	1,973
2000–01	2,324
2001–02	2,502
2002–03	2,981

Note:
Figures for Financial year 2003–04 are not yet available.

Strategy Unit

Mr. Heald: To ask the Minister for the Cabinet Office (1) what the total expenditure of the Strategy Unit was *(a)* in the past 12 months and *(b)* since it was established; [160027]

(2) what the expenditure has been on each review that has been conducted by the Strategy Unit since its inception; and if he will make a statement. [160030]

Mr. Alexander: The total expenditure for the Strategy Unit over the 12 months to the end of February 2004 was £5.0 million.

The costs for each financial year are detailed as follows:

June 2002 to March 2003: £6,126k

Figures for financial year 2003–04 are not yet available.

It is not possible to disaggregate the figures by individual review.

Mr. Flook: To ask the Minister for the Cabinet Office how many projects undertaken by the Strategy Unit since its creation have impacted directly on the South West; and what assessment he has made of their effect on that region. [164564]

Mr. Alexander: The Strategy Unit carries out a range of functions:

long-term strategic reviews of major areas of policy;

studies of cross-cutting policy issues;

work with departments to promote strategic thinking and improve policy-making across Whitehall; and

work to improve the quality and standards of Government social research.

A full list of SU projects is available on its website: www.strategy.gov.uk

No assessment of the regional impact of the unit's work has been carried out.

HOUSE OF COMMONS COMMISSION

Parliamentary Estate

Mr. Llwyd: To ask the hon. Member for Roxburgh and Berwickshire, representing the House of Commons Commission what *(a)* renovation and *(b)* maintenance projects on the parliamentary estate were undertaken in each of the last five years; and what the associated costs were of each. [163952]

Sir Archy Kirkwood: It is not possible to make a useful distinction between renovation and maintenance, as many projects contain elements of both, and some involve new works as well. The projects undertaken on the Parliamentary Estate in each of the last five years are listed as follows:

1999–2000

rationalisation of water services;

repairs to river wall: Speaker's Steps;

New Palace Yard perimeter wall restoration;

lift machinery renewal;

electrical equipment renewal;

overhaul Central Lobby chandelier;

oil painting conservation;

asbestos removal from plant rooms;

stone cleaning—Picture Corridor South;

restoration of grained ceilings;

restoration of Committee Room 10 and installation of air conditioning;

Smoking Room conservation

2000–01

Crypt Chapel ceiling conservation;

repairs to river wall;

Royal Court stone restoration;

stone cleaning—Picture Corridor North;

various roof repairs;

asbestos removal from plant rooms;

oils, prints, watercolours and statues conservation;

rationalisation of water services;

various roof repairs;

lift machinery renewal;

stone cleaning—Picture Corridor East;

underground car park: escalator machinery renewal;

restoration of Committee Rooms 4, 5 and 6 and installation of air conditioning;

Old Palace Yard restoration Phase I;

restoration of Committee Rooms 1, 2 and 3 and installation of air conditioning;

major refurbishment of Norman Shaw South building;

St. Stephen's Tower: refurbishment of offices;

Commons Court: refurbishment of offices;

Old Palace Yard restoration Phase II.

2002–03

various roof repairs;

stone restoration: Commons Court and Commons Inner Court;

lift machinery renewal;

pinnacle repairs: Palace of Westminster;

Palace boiler and chiller plant modernisation;

Palace basement plant room modernisation and asbestos removal;

restoration of Speaker's Green;

restoration of Committee Rooms 7, 8 and 9 and installation of air conditioning;

Old Palace Yard restoration Phase III;

major refurbishment of Norman Shaw South building;

Plaid Cymru and SNP offices: modernisation.

2003–04

Palace boiler and chiller plant modernisation;

roof and gutters repair: Westminster Hall;

various roof repairs: Palace of Westminster;

stone restoration: Commons Court and Commons Inner Courts;

modernisation of basement plant rooms and asbestos removal;

encaustic tile restoration: St. Stephens Hall;

bronze window repairs;

restoration of Committee Rooms 15 and 16 and installation of air conditioning;

restoration of Speaker's Green.

The costs of individual projects are difficult to assign annually, as many extend over several financial years. Over the last five years, the average annual cost, in cash terms, to the House of Commons of new works, renovation and maintenance on the Parliamentary Estate, excluding Portcullis House, has been approximately £23 million.

PRIME MINISTER

Correspondence

Mr. Dalyell: To ask the Prime Minister when he expects to reply to the letter of 20 March from Radomir Putnikovic, Vice-president of the Serb National Unity Congress, on Kosovo. [164937]

The Prime Minister: I have asked my hon. Friend the Minister of State at the Foreign and Commonwealth Office (Mr. MacShane) to reply on my behalf.

British Prisoners (Egypt)

Mr. Amess: To ask the Prime Minister if he will meet the families of Ian Nisbet, Reza Pankhurst and Maajid Nawaz, along with their hon. Members, following the verdict on 25 March. [164841]

The Prime Minister: I have asked my noble and right hon. Friend the Minister of State at the Foreign and Commonwealth Office (Baroness Symons of Vernham Dean) to meet with the families and their hon. Members on my behalf.

Tibet

Kate Hoey: To ask the Prime Minister what his diary commitments are for the dates when the Dalai Lama will be visiting the UK. [165237]

The Prime Minister: I have nothing further to add to my answer to the hon. Member for Lewes (Mr. Baker) on 8 March 2004, *Official Report*, column 1375W.

WORK AND PENSIONS

Council Tax (Pensioners)

Mr. Truswell: To ask the Secretary of State for Work and Pensions (1) what the cost will be in each of the next five years of providing the £100 payment announced in the Budget Statement to pensioners aged 70 years and over to assist with council tax; and what the cost would be in each of those years if the payment were to be made to all those aged 65 years and over; [164229]

(2) if he will make a statement on *(a)* how and *(b)* when the £100 payment announced in the Budget Statement to pensioners to assist with council tax will be made. [164230]

Malcolm Wicks: We are looking at the most cost-effective and efficient way to deliver payments.

It is intended that a single one-off payment is made in 2004–05. However, the costs of providing a £100 payment to all households containing a person aged 70 or over and to all households containing a person aged 65 or over in each of the next five years are shown in the table.

£ million

	Household aged 70 +	*Household aged 65 +*
2004–05	430	660
2005–06	430	640
2006–07	430	630
2007–08	440	620
2008–09	460	620

Notes:
1. Figures are rounded to the nearest £10 million and are given in 2004–05 prices.
2. Figures for 65+ households include the cost of 70+ households.
3. Figures exclude cases in residential care or nursing homes.
4. It is assumed that the £100 is not increased in line with prices.

Source:
Estimate based on DWP administrative data and 2002 based population forecasts from the government actuary's department.

John Barrett: To ask the Secretary of State for Work and Pensions if he will estimate the number of pensioners in Scotland who will receive the £100 payment to help with council tax bills, broken down by *(a)* parliamentary constituency and *(b)* local authority area. [164471]

Malcolm Wicks: The latest available data showing households in Scotland with at least one occupant aged 70 or over broken down by *(a)* parliamentary constituency and *(b)* local authority area are in the tables. We expect the 2004–05 figures to be similar.

Households in Scotland with at least one occupant aged 70 or over by parliamentary constituency

Parliamentary constituency	*Number of households*
Aberdeen Central	5,320
Aberdeen North	4,995
Aberdeen South	6,665
Airdrie and Shotts	5,380
Angus	6,850
Argyll and Bute	5,715
Ayr	7,430
Banff and Buchan	6,055
Caithness Sunderland and Easter Ross	4,605

Households in Scotland with at least one occupant aged 70 or over by parliamentary constituency

Parliamentary constituency	*Number of households*
Carrick Cumnock and Doon Valley	7,360
Central Fife	5,990
Clydebank and Milngavie	6,165
Clydesdale	6,515
Coatbridge and Chryston	5,025
Cumbernauld and Kilsyth	3,790
Cunninghame North	6,505
Cunninghame South	4,590
Dumbarton	5,295
Dumfries	7,585

Civil Service Jobs

Mr. Prosser: To ask the Secretary of State for Work and Pensions which posts will be lost in his Department under the Chancellor of the Exchequer's plan to reduce numbers of civil servants; and what assessment he has made of proposals to cut 30,000 jobs. [163177]

Maria Eagle *[holding answer 25 March 2004]:* The Department has been developing plans for a reduction of up to 18,000 posts since 2002. This is now part of a four-year plan to reduce the number of posts by 30,000. This will reflect the new business model being rolled-out in Jobcentre Plus including more front-line staff conducting work-focused interviews; a Pension Transformation Programme and reductions in staffing in the Pension Service; the introduction of Child Support reform; and savings in "back office" functions in HR, finance and IT support.

The detail of how reductions will be allocated and profiled between businesses and corporate services will be developed in the normal way through our business planning processes and in discussion with the trade unions. We will provide further detail after the Spending Review settlement.

National Insurance Fund

Mr. Denham: To ask the Secretary of State for Work and Pensions if he will make it his policy to use the surplus in the National Insurance Fund to increase state pensions. [164117]

Malcolm Wicks: We are committed to ensuring that the basic state pension remains the foundation for income in retirement, paid for from the National Insurance Fund with a guarantee to increase it by at least 2.5 per cent. a year. We will continue to manage the fund prudently to achieve that objective.

National Minimum Wage

Peter Bradley: To ask the Secretary of State for Work and Pensions how many *(a)* families and *(b)* children in (i) the UK and (ii) the Wrekin he estimates have been lifted out of poverty by the minimum wage. [164053]

Mr. Pond: The information is not available.

The national minimum wage, together with tax credits, has helped to make work pay, with guaranteed minimum incomes for those in employment. From October 2004, when the minimum wage increases to £4.85 per hour, a single earner couple with one child, working full time (35 hours per week) on a minimum wage will have an income of £252 per week.

Pension Credit

Mr. Flook: To ask the Secretary of State for Work and Pensions how many pensioners in the Government Office for the South West Region were eligible for Pension Credit on the latest date for which figures are available; how many eligible pensioners in Taunton were claiming Pension Credit on the latest date for which figures are available; and how many pensioners in Taunton were claiming the minimum income guarantee prior to the introduction of Pension Credit. [164661]

Malcolm Wicks: We estimate that there are approximately 300,000 pensioner households in the South West Government Office Region likely to be eligible for Pension Credit, equivalent to approximately 350,000 individuals. As at 29 February there were 3,870 households in the Taunton constituency, comprising approximately 4,615 individuals, receiving Pension Credit. As at 3 October 2003 there were 2,840 households in Taunton, comprising approximately 3,275 individuals, receiving the Minimum Income Guarantee.

Notes:

1. Estimates of numbers eligible are rounded to the nearest 50,000.
2. Numbers of recipients have been rounded to the nearest five.
3. Numbers of recipients of pension credit exclude small numbers of clerical cases.

Pensions

Lynne Jones: To ask the Secretary of State for Work and Pensions if the Government will make it their policy to restore parity between the state pension available to British citizens resident overseas and that available to UK residents. [164592]

Malcolm Wicks: The UK state pension is payable in all countries abroad to those who are entitled to it. It is uprated in the normal way for UK pensioners living overseas where there is a legal requirement or a reciprocal social security agreement to do so.

The Government are focusing their resources on helping poorer pensioners in the UK and has no plans to unfreeze UK state pensions paid overseas.

Lady Hermon: To ask the Secretary of State for Work and Pensions how the additional payment of £100 for those over 70 announced in the Budget will be paid to pensioners in Northern Ireland. [164388]

Malcolm Wicks: We anticipate that payments will be made in the same way for people in Northern Ireland as for the rest of the United Kingdom. We are looking at the most cost-effective and efficient way to deliver payments.

Redundancies/Redeployment

Paul Holmes: To ask the Secretary of State for Work and Pensions (1) how many *(a)* redundancies and *(b)* redeployments he plans to make in (i) his Department, (ii) Jobcentre Plus, (iii) the Child Support Agency, (iv) the Pension Service, (v) the Disability and Carers Service, (vi) the DWP Corporate Centre and (vii) the Appeals Service in each of the next four years; how many will be front-line staff; and if he will make a statement; [163294]

(2) what estimate has been made of the savings which are likely to be made through the redundancy programme in his Department in each of the next four years; and if he will make a statement; [163297]

(3) to what areas of his Department he plans to redeploy staff in the next four years; how many of these will be front-line positions; and if he will make a statement. [163298]

Maria Eagle: The Department has been developing plans for a reduction of up to 18,000 posts since 2002. This is now part of a four-year plan to reduce the number of posts by 30,000. This will reflect the new business model being rolled-out in Jobcentre Plus including more front-line staff conducting work-focused interviews; a Pension Transformation Programme and reductions in staffing in The Pension Service; the introduction of Child Support reform; and savings in "back office" functions in HR, finance and IT support.

The detail of how reductions will be allocated and profiled between businesses and corporate services will be developed in the normal way through our business planning processes and in discussion with the trade unions. We will provide further detail after the Spending Review settlement.

Sure Start Maternity Grant

Mr. Drew: To ask the Secretary of State for Work and Pensions how many mothers in Stroud have *(a)* applied for and *(b)* obtained the Sure Start maternity grant. [164166]

Mr. Pond: The information is not available in the format requested; the available information is in the table.

Sure Start Maternity Grants for Gloucestershire Social Fund District/Jobcentre Plus District

	Applications	*Awards*
2000–01	1,449	1,146
2001–02	1,723	1,335
2002–03	2,150	1,696
2003–04 (to February)	2,089	1,599

Notes:
1. Data is not available by parliamentary constituency. Stroud parliamentary constituency is part of Gloucestershire Jobcentre Plus District, which was previously Gloucestershire Social Fund District.
2. Sure Start Maternity Grants were introduced on 27 March 2000. The very small numbers of cases for 1999–2000 have been excluded for data protection reasons.
3. Data for 2003–04 is for April 2003 to February 2004 only.
4. Data is given for all applications and awards, irrespective of whether the application was made by the mother or her partner.

Source:
DWP Social Fund Policy, Budget and Management Information System.

Mr. Alan Campbell: To ask the Secretary of State for Work and Pensions how many Sure Start Maternity Grants were awarded in north Tyneside in each of the last seven years. [164374]

Mr. Pond: The information is not available in the format requested; the available information is in the table.

Sure Start Maternity Grants awards for the area covered by Newcastle and North Tyneside Jobcentre Plus District and Northumberland Jobcentre Plus District

	Awards
2000–01	2,842
2001–02	3,096
2002–03	3,626
2003–04 (to February)	3,139

Notes:
1. Data are not available by local authority. North Tyneside local authority is part of Newcastle and North Tyneside Jobcentre Plus District, which was formed in January 2003 when Wallsend and North Shield sites were transferred from Northumbria Social Fund District to Newcastle Social Fund District. The remainder of Northumbria became Northumberland Jobcentre Plus District. Prior to the boundary change, North Tyneside was partly in Newcastle Social Fund District and partly in Northumbria Social Fund District. For comparison purposes, data are given for the area covered by the Newcastle and North Tyneside Jobcentre Plus District and the Northumberland Jobcentre Plus District.
2. Data for 2003–04 is for April 2003 to February 2004 only.
3. Sure Start Maternity Grants were introduced on 27 March 2000. They replaced Maternity Payments.

Source:
DWP Social Fund Policy, Budget and Management Information System.

Winter Payments

Mr. Flook: To ask the Secretary of State for Work and Pensions what estimate he has made of the cost of extending the £100 announced in the Budget Statement to pensioners aged 65 years and over; and if he will make a statement. [164953]

Malcolm Wicks: The estimated cost of extending the £100 one-off payment to all households containing a person aged 65 or over is £230 million.

Notes:
1. Figure is rounded to the nearest £10 million and is given in 2004–05 prices.
2. Figures exclude cases in residential care or nursing homes.

Source:
Estimate based on DWP administrative data and 2002 based population forecasts from the government actuary's department.

DEPUTY PRIME MINISTER

Bailiffs

Mr. McNamara: To ask the Deputy Prime Minister by what procedure certificates are issued authorising private companies to act as bailiffs on behalf of local authorities; and how many companies have *(a)* been refused certification and *(b)* had certification withdrawn in the past year. [164096]

Mr. Leslie: I have been asked to reply.

Certificates are not issued to private companies. Certificates can only be issued to individuals who fulfil the requirements of the Distress for Rent Rules 1988. Statistics are not kept for the number of refusals of certificates. Nine individuals have had their certificate cancelled by a county court judge in the past year.

Mr. McNamara: To ask the Deputy Prime Minister what steps he has taken to record the *(a)* number and *(b)* nature of complaints against bailiffs employed by local authorities. [164097]

Mr. Raynsford: None. This is a matter for local authorities and the bailiffs they employ.

Mr. McNamara: To ask the Deputy Prime Minister what guidance his Department issues to local authorities on ensuring that the activities of bailiffs employed by local authorities are in compliance with the Human Rights Act 1998. [164098]

Phil Hope: The former Lord Chancellor's Department published 'National Standards for Enforcement Agents' in April 2002.

Civil Parish (Lancashire)

Mr. Jack: To ask the Deputy Prime Minister (1) whether the order confirming the creation of the Civil Parish of St. Annes, Lancashire has *(a)* been drafted and *(b)* approved by Ministers; whether he expects that the Civil Parish will be an entity by 1 April; and if his will make a statement on the order making procedure for the creation of the Parish; [164978]

(2) when he expects to make the order confirming the creation of the Civil Parish of St. Annes, Lytham St. Annes, Lancashire; and if he will make a statement. [164979]

Phil Hope: Having received a valid petition, and before making an Order for the creation of a new parish, the Government first consult interested parties on a draft Order, after which the Order, which is not subject to parliamentary procedure, is made.

Following consultation on a draft Order for the creation of the parish of St. Annes, we have decided to defer the making of the Order, to allow Fylde borough council to make the necessary electoral and warding arrangements.

The Office of the Deputy Prime Minister expects to make the Order later this year to come into effect on 1 April 2005.

Council Tax

Paddy Tipping: To ask the Deputy Prime Minister if he will list, in order of cost by billing authority, the average household council tax level for 2004–05. [164464]

Mr. Raynsford: The information requested is available in the Library of the House.

Department-Sponsored Bodies

Mr. Edward Davey: To ask the Deputy Prime Minister what the *(a)* total budget, *(b)* funding from his Department, *(c)* administration budget and *(d)* staff cost to his Department of the (i) Go North East—Corus Task Group and (ii) Review of the Planning Inspectorate was in financial years (A) 2002–03 and (B) 2003–04; and if he will make a statement on the (1) current and (2) future work of each body. [163638]

Keith Hill: The information is as follows.

(i) GO North East—Corus Task Group

(a-d) No specific budget has been allocated by the Office for either administration costs or programme costs for this work.

(1) ONE NorthEast (the Regional Development Agency for the North East) in 2000 was asked to lead a Task Group to make a strategic response to the job reductions on Teesside announced by Corus at that time. This group completed its work in 2002. In response to the group's announcements in March and April 2003 on the future of its UK operations and the Teesside steel making facilities, ONE NorthEast reassembled the Task Group to work with the company to help to secure steel manufacturing at Teesside. The group has so far supported

Work to help the development of a business plan for Teesside Cast Products.

Examining a diversification strategy for the supply chain.

A study of the potential for use of any land and premises released.

(2) The group will continue for the foreseeable future, at least until the future of the Teesside steel making operations is settled.

(ii) The Review of the Planning Inspectorate

(a-d) The Review of the Planning Inspectorate was carried out by officials within the of the Deputy Prime Minister, with advice from consultants, directed by a Review Project Board of key stakeholders. The decision to undertake a review of the Inspectorate was made in July 2002. The administration costs to the Office in 2002–03 were £22,150 none of which were pay costs; and in 2003–04 were £144,420 of which £84,700 were pay costs.

(1) The Planning Inspectorate (PINS) plays an essential role in the planning and other land-use related processes in England and Wales, handling planning appeals, development plans and other casework under planning, housing, environment and other relevant legislation. In doing so, it also plays an important part in the achievement of the Office of the Deputy Prime Minister PSA targets and the delivery of its sustainable communities programme.

(2) The review demonstrated that PINS has performed well in carrying out its duties, at a time when the volume of planning appeals is increasing. The review makes a number of recommendations on how its business processes might be improved to meet this demand more effectively and to help enable it to play its full part in delivering the Government's programme of planning reform.

The review was completed in October 2003, and the Review Report, together with an Action Plan, was published in February 2004.

Mr. Edward Davey: To ask the Deputy Prime Minister what the *(a)* total budget, *(b)* funding from his Department, *(c)* administration budget and *(d)* staff cost to his Department of (i) Regional Housing Boards, (ii) the Buildings Regulations Advisory Committee, (iii) the Community Housing Task Force and (iv) the Home Ownership Task Force were in financial years (A) 2002–03 and (B) 2003–04; and if he will make a statement on the (1) current and (2) future work of each body. [163639]

Keith Hill: The information requested is as follows:

(i) *Regional Housing Boards*

(a-d) There were no identifiable budgets for the Regional Housing Board.

(1) The Office of the Deputy Prime Minister received the first Strategies in July 2003 and accepted the broad thrust of the Boards' recommendations for 2004–05 and 2005–06.

(2) Each Board has been asked to develop their Strategy with a view to producing an updated version in early 2005 in order to advise Ministers on how allocations for 2006–07 and 2007–08 should be made.

One of the recommendations in the Barker Review was that Regional Housing Boards and Regional Planning Bodies be merged. The Government intend consulting with key stakeholders to consider how these bodies can be merged, and will come forward with proposals by the summer with a view to implementing them in 2005.

(ii) *The Building Regulations Advisory Committee*

(a-d) The Building Regulations Advisory Committee do not receive Government funding other than the internal costs to the Office of sponsoring this body.

(1) The Building Regulations Advisory Committee was set up under the Building Act 1984 to advise the Secretary of State on the exercise of his power to make building regulations, and on other subjects connected with building regulations. It is currently assisting the Office with reviews of a number of parts the building regulations, including a review of Part B (Fire Safety) and Part C (Conservation of fuel and power).

(2) In the coming year, the Committee will be assisting with new studies, including one on the potential for action through the building regulations to promote economy in the use of water and a review of the application to dwellings of Part M (Access to and use of buildings).

(iii) *The Community Housing Task Force*

(a-d) The administrative budget for the Community Housing Task Force for 2002–03 was £1,064,200 of which £568,800 were staff costs. For 2003–04 the administrative budget was £927,600 of which £620,600 were staff costs.

(1) The Community Housing Task Force is working with 165 local authorities, their tenants and broader stakeholders providing support, advice and building capacity to enable delivery of robust Option Appraisals by July 2005. The Government Offices for the Regions are responsible for assessing and signing off the Options Appraisals submitted. The Options Appraisal process sets out how local stock owning housing authorities together with their tenants will deliver Decent Homes by 2010 considering the various stock investment routes available to them.

(2) No change is envisaged in the Community Housing Taskforce's key role in working with local authorities and tenants in delivering decent homes. However, to improve the effectiveness and efficiency of the joint working between the Taskforce and Government Offices, the Department is currently considering integrating the Taskforce within the Government Office network.

(iv) *Home Ownership Task Force*

(a-d) The Office provided no direct funding specifically for the Home Ownership Task Force. However, in 2003–04 staff costs of £13,000 were incurred by ODPM in servicing the secretariat.

(1) The Home Ownership Task Force was established by my right hon. Friend the Deputy Prime Minister in the Sustainable Communities Plan to look at the whole range of programmes aimed at helping social tenants and others into home ownership. The Task Force's work is now complete and its final report "A home of my own" was published on 13 November 2003. Copies of the report and executive summary are available on the Housing Corporation's website at www.housingcorp.gov.uk.

Mr. Edward Davey: To ask the Deputy Prime Minister what the *(a)* total budget, *(b)* funding from his Department, *(c)* administration budget and *(d)* staff cost to his Department for the (i) Property Advisory Group, (ii) Residential Property Tribunal Service, (iii) Community Forum and (iv) London Youth Crime Task Force was in financial years (A) 2002–03 and (B) 2003–04; and if he will make a statement on the (1) current and (2) future work of each body. [163641]

Keith Hill: The information requested is as follows:

(i) *The Property Advisory Group*

(a-d) The Property Advisory Group did not have its own budget, but was funded from the Office of the Deputy Prime Minister administrative resources. In 2002–03, total administrative costs were £49,570, of which staff costs was £40,557. For the period April to July 2003, the equivalent figures were £23,653 and £14,033.

(1) The Property Advisory Group was wound up in July 2003 following an internal review of arrangements for consulting the property sector. The successor body is the Property Consultative Group.

(ii) *Residential Property Tribunal Service*

(a-d) The Residential Property Tribunal Service total budget for 2002–03 was £7,624,000 of which £7,530,000 was funding by the Office. Of this £1,934,000 was the administration budget all of which were staff costs. The total budget for 2002–03 was £7,822,000 of which £7,722,000 was funding by the Office. Of this £2,247,000 was the administration budget all of which were staff costs.

(1) The Residential Property Tribunal Service (RPTS) determines:

disputes relating to enfranchisement or service charges;

variations of leases previously dealt with at court;

disputes about the new 'right to manage' provision.

(2) The RPTS will also be conferred with additional jurisdictions, including determining breaches of a lease. Provisions in the Housing Bill currently before Parliament also propose to confer new jurisdiction on the RPTS to hear appeals on local authority notices on the Housing, Health and Safety Rating System under Part 1, licensing decisions in respect of Houses in Multiple Occupation and other residential properties under Parts 2 and 3, and the making and content of Management Orders under Part 4 of the Bill.

(iii) *The Community Forum*

(a-d) The Community Forum do not receive Government funding other than internal costs to the Office of the Deputy Prime Minister of sponsoring this body. The total ODPM annual budget for the Forum is £150,000 all of which is staff costs.

(1) The National Community Forum was established in January 2002 to advise the Neighbourhood Renewal Unit (NRU) and provide a national focus for community involvement.

The Key Objectives of the Forum are:

to act as a sounding board for the NRU by providing a community perspective on Government programmes;

to develop new ideas to help make relevant policy and programmes more effective;

to increase people's understanding of the role of the community in the delivery of neighbourhood renewal.

Alongside the Forum's broader task of advising the NRU on the Neighbourhood Renewal Strategy, work is carried out in smaller groups, which focus members' energy according to their interests and experience. These groups deal with individual topics, which are structured around the following five central themes:

Tackling the barriers that the benefits system can create for community engagement.

The relationship between Local Strategic Partnerships (LSPs), Local democracy and Community Networks.

Challenging the mindsets and structural barriers that prevent the engagement of different sectors of the community in neighbourhood renewal.

Participation in community development by Young People.

The impact of the 2004 Spending Review on engagement of the community sector.

(2) In the coming year the Forum will continue with its task of advising the Neighbourhood Renewal Unit and its work in smaller groups on individual topics.

(iv) *The London Youth Crime Task Force*

This is a matter for my right hon. Friend the Home Secretary whose Department funds the Task Force.

Gypsies/Travellers

Mr. Battle: To ask the Deputy Prime Minister when his review of Gypsy and Traveller community provision will be published. [164459]

Yvette Cooper: The Office of the Deputy Prime Minister's review of Gypsy and Traveller accommodation policy will be completed by the summer.

Mr. Swire: To ask the Deputy Prime Minister what estimate he has made of the costs to *(a)* Devon and *(b)* Cornwall local authorities by the eviction of Gypsies and Travellers in the last three years. [164791]

Yvette Cooper: This information is not held centrally, and could be provided only at disproportionate cost.

Housing

Mr. Love: To ask the Deputy Prime Minister when he intends to publish a full analysis of the responses to his consultation paper, "Empty Homes: temporary management, lasting solutions". [164652]

Keith Hill: The Office of the Deputy Prime Minister will publish an analysis of the responses to the consultation paper, along with our proposals for taking this matter forward, as soon as it is practicable to do so.

Mr. Love: To ask the Deputy Prime Minister how many respondents to his consultation paper, "Empty Homes: temporary management, lasting solutions", *(a)* supported and *(b)* opposed each of the four options for the new mechanism to bring private sector empty homes back into use. [164653]

Keith Hill: Respondents to the consultation paper were asked to indicate which option, or combination of options, they preferred in respect of a proposed power to enable local authorities to take temporary management control of empty homes. The options were as follows:

Option 1—Leasing to remain a voluntary option;

Option 2—Empty Homes Management Orders linked to the physical condition of properties;

Option 3—Empty Homes Management Orders linked to housing need;

Option 4—Empty Homes Management Orders linked to the physical condition of properties and housing need.

Of the 134 responses received to the consultation paper, 115 answered this question. The responses, according to the options preferred, are summarised as follows:

Option 1—one respondent

Option 2—11 respondents

Option 3—19 respondents

Option 4—30 respondents

Options 2 and 3—42 respondents

Options 3 and 4—three respondents

Options 2,3,4—four respondents

Options 1,2,3,4—one respondent

In addition, four respondents said that they preferred none of the options.

Mr. Love: To ask the Deputy Prime Minister if he will place in the Library copies of the responses to his consultation paper, "Empty Homes: temporary management, lasting solutions". [164654]

Keith Hill: Copies of the responses to the consultation paper have been made available in the Library of the Houses.

Mr. Love: To ask the Deputy Prime Minister if he will list the respondents to his consultation paper, "Empty Homes: Temporary Management, Lasting Solutions". [164655]

Keith Hill: Where respondents to the consultation paper provided their name and (where appropriate) the name of the organisation they represented, the information is listed as follows.

Respondents to consultation paper "Empty Homes: Temporary Management, Lasting Solutions"

Pat Smith, Sevenoaks District Council

Karen Cregan, Spelthorne, Borough Council

Isobel Panton, Kennet District Council

Local Government Finance

Mr. Flook: To ask the Deputy Prime Minister what new spending obligations his Department has passed to local government in Somerset since 1997; to what extent these new responsibilities have been supported by an increase in central government grant; and if he will make a statement. [164672]

Mr. Raynsford: The Government are committed to fully funding any new responsibilities it places on local government through the New Burdens principle. The Government do not hold information on the extent of new responsibilities in Somerset since 1997. However Somerset has benefited from the 30 per cent. real term increase in overall Government grant for local authorities since 1997, which has enabled local authorities to comply with new responsibilities while continuing to improve services. This grant increase provides funding for the cost

pressures and new burdens on local government including those identified with the Local Government Association in the context of the relevant Spending Review.

Mr. Swire: To ask the Deputy Prime Minister what the level of external debt was in each local authority in *(a)* Devon and *(b)* Cornwall in each of the last seven years; and what the cost of servicing the debt was in each year. [164793]

Mr. Raynsford: The level of external debt in each local authority in Devon and Cornwall in each of the last seven years is in the following table. Figures for 1998 and 1999 are not held centrally, and could be provided only at disproportionate cost.

Level of external debt in Devon and Cornwall by local authority at 31 March

£ million

	1997	*2000*	*2001*	*2002*	*2003*

ODPM monthly and quarterly borrowing returns.

It should be noted that authorities with high levels of debt are generally those which have undertaken capital investment and that long-term borrowing to finance capital expenditure is currently regulated through the issue of credit approvals and, from 1 April 2004, will be subject to the Prudential System.

Figures for external interest payments in each local authority in Devon and Cornwall in each of the last seven years are shown in the following table.

2003–04 ODPM Budget Estimate Returns.

Regional Assemblies

Mr. Jenkin: To ask the Deputy Prime Minister when the contract for the "Your Say" campaign was put out for tender; how many tenders were received; what the selection criteria were for awarding the contract; when the contract was awarded; and when the contract will terminate. [164804]

Mr. Raynsford: The contract for the Elected Regional Assemblies information campaign was put out to tender on 22 August 2003. Three tenders were received. The selection criteria were best value for money, an understanding of the brief, and the quality of the proposals and the strength of the team from the agency. The contract was awarded in mid September 2003 and will be terminated six to eight weeks before the referendums are held.

Mr. Jenkin: To ask the Deputy Prime Minister by what means, and at what cost, *(a)* Your Say: A New Opportunity for the North East, *(b)* Your Say: A New Opportunity for the North West, *(c)* Your Say: A New Opportunity for Yorkshire and the Humber, *(d)* Your Say: Business and Jobs, *(e)* Your Say: Assembly Powers and Responsibilities and *(f)* Your Say: Housing, Planning and Transport are being distributed. [164805]

Mr. Raynsford: These leaflets, part of the "Your Say" campaign, are designed to inform people in the North West, North East and Yorkshire and the Humber regions, about the Government's plans to give them an opportunity to vote on whether or not they want to have Elected Regional Assemblies.

They are being distributed by Government Offices in the regions at various public events and are available upon request. They are also on the "Your Say" websites. To date, the only costs incurred in distribution have been to cover delivery to events and postage.

Mr. Jenkin: To ask the Deputy Prime Minister how many copies of *(a)* Your Say: A New Opportunity for the North East, *(b)* Your Say: A New Opportunity for the North West, *(c)* Your Say: A New Opportunity for Yorkshire and the Humber, *(d)* Your Say: Business and Jobs, *(e)* Your Say: Assembly Powers and Responsibilities and *(f)* Your Say: Housing, Planning and Transport he intends to distribute; and when he intends to terminate their distribution. [164806]

Mr. Raynsford: These leaflets and fact sheets, part of the "Your Say" campaign, are designed to inform people in the North West, North East and Yorkshire and the Humber regions, about the Government's plans to give them an opportunity to vote on whether or not they want to have Elected Regional Assemblies.

They are being distributed by the Government Offices in the regions at various public events and to individuals or groups upon request. They may also be downloaded from the "Your Say" websites:

www.yoursay-northeast.odpm.gov.uk,

www.yoursaynorthwest.odpm.gov.uk, and

www.yoursay-yorksandhumber.odpm.gov.uk.

Distribution will be in accordance with Section 125(3) of the Political Parties, Elections and Referendums Act.

The number of leaflets and fact sheets to be distributed is not fixed. It will be based on demand and the need to ensure that the Office of the Deputy Prime Minister discharge the responsibility to inform the public. All the Office of the Deputy Prime Minister communication activity is in line with the Civil Service Code.

Mr. Jenkin: To ask the Deputy Prime Minister to whom *(a)* Your Say: A New Opportunity for the North East, *(b)* Your Say: A New Opportunity for the North West, *(c)* Your Say: A New Opportunity for Yorkshire and the Humber, *(d)* Your Say: Business and Jobs, *(e)* Your Say: Assembly Powers and Responsibilities and *(f)* Your Say: Housing, Planning and Transport are being distributed. [164807]

Mr. Raynsford: These leaflets, part of the "Your Say" campaign, are designed to inform people in the North West, North East and Yorkshire and the Humber regions, about the Government's plans to give them an opportunity to vote on whether or not they want to have Elected Regional Assemblies.

The leaflets are being distributed by the Government Offices at events and hearings and are available on request. The leaflets and fact-sheets are available on the "Your Say" websites:

www.yoursay-northwest.odpm.go.uk

www.yoursay-northeast.odpm.gov.uk

www.yoursay-yorksandhumber.odpm.gov.uk

Ann Winterton: To ask the Deputy Prime Minister whether the proposed regional assemblies in *(a)* the North West, *(b)* the North East and *(c)* Yorkshire and the Humber will have borrowing powers. [163715]

Mr. Raynsford: The borrowing powers of elected regional assemblies were set out in Chapter 5 of the White Paper "Your Region, Your Choice: Revitalising the English Regions", published in May 2002 (Cm 5511).

In summary, the White Paper states that regional assemblies' capital expenditure will generally be funded by central Government grant. But there may be circumstances in which an assembly wishes to borrow to raise money for capital expenditure in addition to that provided by central Government. The Office of the Deputy Prime Minister propose to give regional assemblies borrowing powers subject to set limits to fund capital expenditure where they can afford to finance it from their revenue budgets. The Office of the Deputy Prime Minister also propose to give them temporary borrowing powers for cash management purposes.

Right to Buy

Bob Spink: To ask the Deputy Prime Minister how many homes have been purchased under the right-to-buy scheme in each of the last five years. [164202]

Keith Hill: The right-to-buy sales figures for England for the last five complete financial years are in the following table.

	England
1998–99	40,272
1999–2000	54,251
2000–01	52,380
2001–02	51,968
2002–03	63,394

Robson Brown

Mr. Jenkin: To ask the Deputy Prime Minister if he will list the printed material produced by Robson Brown for his Department in the past 12 months; and if he will place a copy of each item in the Library. [164803]

Mr. Raynsford: In the last 12 months Robson Brown have produced the following printed items:

A new opportunity for the North East,

A new opportunity for the North West and,

A new opportunity for Yorkshire and the Humber.

The "Your Say" brand identity guidelines,

note pads,

letterhead,

press notice templates,

leaflet holders, and "Your Say" stickers.

Robson Brown have also designed the three fact sheets:

Business and Jobs,

Assembly Powers and Responsibilities, and

Housing and Transport.

The Office of the Deputy Prime Minister will be making copies of the leaflets and the fact sheets available in the Library of the House.

HEALTH

Alcohol

Mr. Wills: To ask the Secretary of State for Health what progress has been made in arranging a meeting between healthcare professionals and the alcohol industry to discuss health warnings on alcohol products. [162715]

Miss Melanie Johnson: The Government's alcohol harm reduction strategy for England charges the Department of Health and the Home Office with consulting the alcohol industry on the introduction of a voluntary social responsibility scheme. The strategy recommends that, as part of this scheme, the drinks industry should be strongly encouraged to display information on sensible drinking and on the unit content of drinks. We look forward to working with the industry and other key stakeholders on this voluntary social responsibility scheme.

Alzheimer's Disease

Mr. George Osborne: To ask the Secretary of State for Health when he expects to issue advice to local authorities on the funding of care for those with Alzheimer's disease. [164259]

Dr. Ladyman: We have no plans to issue specific guidance to local authorities for the funding of care for individuals with Alzheimer's.

BACS

Brian White: To ask the Secretary of State for Health what progress his Department has made to manage the changeover from the Bank Automated Clearing System to the new BACSTEL-IP system for electronic payments. [164314]

Miss Melanie Johnson: The Department has recently purchased BACSTEL-IP software. The software has been successfully tested and we anticipate moving our payments to BACSTEL-IP shortly.

Care Services

Mr. Hopkins: To ask the Secretary of State for Health how many people in England are being charged for personal care in *(a)* care homes and *(b)* the community. [164276]

Dr. Ladyman: The estimate for the cost of introducing free personal care was prepared by Department of Health economists using a variety of data and assumptions. An explanatory note is available in the Library.

Mr. Hopkins: To ask the Secretary of State for Health if he will make future provision of nursing care given outside hospital free at the point of use; and if he will make a statement. [164277]

Dr. Ladyman: Since the introduction of national health service-funded nursing care in October 2001, people should have access to nursing care from a registered nurse, funded by the NHS, in all settings outside hospital.

Sandra Gidley: To ask the Secretary of State for Health what steps he is taking to review the level of top-up fees paid by residents of care homes; and if he will make a statement. [164288]

Dr. Ladyman: Generally, care home residents may not top-up their fees from their own resources if they are supported by the local council. The only exceptions are where individuals either are in receipt of the 12 weeks property disregard or have accessed the deferred payment scheme. Some supported care home residents may choose to pay for extras that are not part of their agreed care plan using their own resources. There are no current plans to review the level of top-up fees paid by residents.

"Choosing Health"? Consultation Events

Mr. Yeo: To ask the Secretary of State for Health what measures his Department is taking to ensure that the public is aware of the choosing health consultation events; what estimate he has made of the cost of *(a)* hosting and *(b)* advertising such events; and whether the costs will be met by his Department. [160657]

Miss Melanie Johnson: The "Choosing Health"? consultation will be supported by events across the country, organised by the national health service and local authorities, by regional directors of public health with Government offices of the regions, and by the Department of Health and other Government Departments at national level. The consultation process will be managed within existing budgets by the organisation leading the event. Some events will be shaped by initial responses to the consultation, so it is not possible to estimate costs.

We anticipate that other organisations who choose to engage in the debate will also run events, nationally and locally, and encourage their members and contacts to take part.

Organisations will use existing forums for discussion as well as special arrangements for the consultation.

Activities can be publicised on the Department's "Choosing Health"? website, which can be found at www.dh.gov.uk/consultations/liveconsultations. It will be for organisers to determine whether any additional action is needed to promote individual events, for example, targeting key groups or stakeholders.

Clinical Trials

Sandra Gidley: To ask the Secretary of State for Health what steps he is taking to encourage the publication of all the results of clinical trials. [164817]

Miss Melanie Johnson: I refer the hon. Member to my response to the hon. Member for Newport, West (Mr. Flynn) of 10 March 2004, *Official Report*, column 1598W.

Dentistry

Mr. Watts: To ask the Secretary of State for Health what the average income is of *(a)* NHS and *(b)* private sector dentists. [158180]

Ms Rosie Winterton: The average gross fee income of a general dental service (GDS) dentist for national health service work in 2002–03 was £98,000 in England.

Gross fee income of a NHS dentist includes both their personal remuneration as well as business expenses such as staff salaries, laboratory charges and dental consumables.

The income distribution is very wide reflecting the large differences in the amount of GDS work done by individual dentists. Principal GDS dentists do not have a standard working week. They are self employed and choose the amount of GDS work they do. Most dentists will have other income either from private dentistry or from other NHS work. Almost one-quarter of GDS dentists had gross fee income of less than £40,000 in 2002–03; these dentists will have spent only a small proportion of their week doing GDS work.

To produce an income estimate for dentists with a reasonable commitment to the GDS, dentists with gross fee income of less than £55,600 may be excluded. This gives average gross fee income for dentists with a reasonable GDS commitment of £137,000 in 2002–03. The excluded dentists with gross fee income of less than £55,600 will have spent about two days a week or less doing GDS work.

Taking into account estimated expenses, average net fee income of a GDS dentist with a reasonable GDS commitment was around £61,000 in 2002–03. The average GDS net fee income for all dentists including the lowest GDS earners was about £43,000 in 2002–03.

In addition dentists receive other payments such as commitment payments which increase average net income by about £2,000 in 2002–03. So total net income from the GDS averaged about £63,000 for dentists with a reasonable GDS commitment whilst the average net income from the GDS for all dentists including the low GDS earners was about £45,000.

Income of dentists working solely privately is not available. Inland Revenue information for 2001–02 shows that for GDS dentists' average gross income for all self employed work in Great Britain was 163,000 gross or 71,000 net of expenses. This average covers both full-time and part-time dentists.

Mrs. Dean: To ask the Secretary of State for Health what the ratio of dentists to population is in each of the primary care trusts in England. [162018]

Ms Rosie Winterton: The information requested has been placed in the Library.

Mr. Hepburn: To ask the Secretary of State for Health how many people in *(a)* the Jarrow constituency, *(b)* South Tyneside, *(c)* Tyne and Wear, *(d)* the North East and *(e)* England are not registered with a dentist. [162871]

Ms Rosie Winterton: The following table shows the total population, the number of people registered with a dentist under general dental service (GDS) arrangements and, by deduction, the numbers who are not so registered for South Tyneside, Tyne and Wear, the North East and England. Jarrow constituency is covered by South Tyneside Primary Care Trust (PCT).

Number of people not registered with a general dental service (GDS) dentist at 31 January 2004

	South Tyneside[1]	*Tyne and Wear*[2]	*North East*[3]	*England*
Registered GDS patients	86,000	578,000	1,122,000	22,849,000
Population	153,000	1,076,000	2,513,000	48,968,000
Difference	67,000	498,000	1,391,000	26,119,000

[1] Figures cover South Tyneside PCT.
[2] Figures represent the following PCTs: Gateshead, Newcastle, North Tyneside, South Tyneside and Sunderland Teaching.
[3] The North East is covered by Northumberland, Tyne and Wear Strategic Health Authority (SHA) and County Durham and Tees Valley SNA.

Registrations under GDS arrangements cover patients who have been to a general dental service dentist within the past 15 months. They exclude patients who choose to attend occasionally or who have not been to a dentist during the past fifteen months. Patients are able to receive dental treatment without the need for registration from other national health service dental services such as dental access centres, through personal dental services or community dental services. Registrations are included in the area of the dentist. Patients may choose to have their dental services in a different PCT area from the one in which they live.

Departmental Communications

Matthew Taylor: To ask the Secretary of State for Health (1) how many staff are employed in the Department to work in the communications field, broken down by *(a)* Government Information and Communication Service staff and *(b)* other staff, broken down by (i) press officers, (ii) special advisers and (iii) others; [158166]

(2) what the total expenditure on communications for the Department has been in 2003–04, broken down by expenditure on *(a)* Government Information and Communications Service staff and *(b)* other staff, broken down by (i) press officers.(ii) special advisers and (iii) others. [158198]

Ms Rosie Winterton: The Department currently employs 126 staff in its communications directorate.

57 of these are Government Information and Communication Service staff, of whom 22 are press officers and 35 are employed in marketing communications, web and staff communications activities.

There are 70 other communications staff in the wider Department employed in public health campaigns, national health service and Departmental events and visits, marketing (including print and distribution) and support staff.

The total expenditure on communications directorate staff is £4.09 million, broken down as follows:

£2.63 million for Government information and communication service staff, of which £1.06 million is for press officers and £1.46 million for other staff.

The special advisers code of conduct sets out the sort of work a special adviser may undertake on behalf of their Minister. This includes communications activity. Details of the costs of special advisers are given on an annual basis. Information for the financial year 2003–04 will be published in due course.

Drug Rehabilitation Treatment (Prisons)

Bob Spink: To ask the Secretary of State for Health what types of treatment are generally available in prisons for each form of drug addiction; and if he will make a statement. [164247]

Dr. Ladyman: A comprehensive range of drug treatment is available to address the differing needs of drug misusers. The general health examination/assessment a prisoner receives on first reception into custody aims to identify past and present drug usage and engagement with community drugs teams. A clinical decision is then reached about the next steps in the management of each individual prisoner. This can be either detoxification or substitute prescribing, as a prelude to a broader based drug treatment programme.

Counselling, assessment, referral, advice and throughcare (CARAT) service is available in every establishment. CARAT workers, together with healthcare staff where possible, assess a prisoner's treatment needs and devise a care plan based on level of need and time in custody. CARAT provides case management and lower level interventions and is available in all establishments. Intensive rehabilitation programmes are provided through a range of 60 accredited drug rehabilitation programmes, including four therapeutic communities.

Drug Testing

Mr. Hancock: To ask the Secretary of State for Health what plans he has to review procedures for testing drugs. [163901]

Ms Rosie Winterton: The Medicines and Healthcare products Regulatory Agency operates a medicines testing scheme to assess the quality of medicines found on the United Kingdom market.

A review is planned of the current level of sampling used within this scheme.

Fertility Treatment

Mr. Amess: To ask the Secretary of State for Health (1) how many licensed fertility clinics have failed inspection by the Human Fertilisation and Embryology Authority in each of the last five years; [163157]

(2) what plans the Government have to change the rules governing the use of eggs from aborted female foetuses in *(a)* licensed fertility treatments and *(b)* research; [163159]

(3) what studies the Government have commissioned into the long-term effects of invitro fertilisation on *(a)* women and *(b)* children born as a result of the treatment; [163160]

(4) what measures are in place to ensure that human embryos created under a licence issued by the Human Fertilisation and Embryology Authority are not allowed to develop beyond the 14-day statutory time limit; [163163]

(5) what plans he has to require licensed fertility clinics to reimburse the NHS for the cost of treatment arising from multiple births following fertility treatment; [163230]

(6) how many members of the Human Fertilisation and Embryology Authority have declared opposition to destructive embryo research. [163231]

Miss Melanie Johnson: The Human Fertilisation and Embryology Act 1990 provides a regulatory framework for the provision of treatment involving in vitro fertilisation (IVF) and human embryo research. These activities are licensed by the Human Fertilisation and Embryology Authority (HFEA). Inspection of licensed establishments is the cornerstone of the HFEA's work to ensure compliance with Act, the HFEA's code of practice and the conditions upon which the establishment's licence has been granted.

It is not a simple matter of an establishment either "passing or failing" a HFEA inspection. Licensed establishments are expected to operate to set standards and regular inspections take place to ensure these standards are maintained. Where an inspection team considers that an establishment needs to make improvement in a certain area of its operation, a HFEA licence committee that considers the inspection report may decide to attach additional conditions to the licence, with a deadline for implementing improvements if necessary. Failure to comply with the conditions of a licence would be considered by a licence committee and could lead to the revocation of the licence. Were practice to be found of so poor a standard that patients were placed at risk, a licence committee would, as a matter of urgency, consider suspension of the licence and, if necessary, revocation.

The HFEA code of practice sets out standards of conduct and practice that licensed establishments are expected to observe. The new edition of the code, which came into force on 1 March 2004, limits the number of eggs or embryos that can be placed in a woman under age 40, in any one treatment cycle, to a maximum of two. The purpose of this is to limit, as far as possible, multiple pregnancies, which can have a significant medical and social impact on the resulting children and their families, as well as having cost implications for the national health service for the care of the mother and babies. This guidance is supported by the National Institute for Clinical Excellence's guideline on fertility treatment which also recommends that ovarian stimulation should not be offered where the female patient has no fertility problems herself to prevent the risk of a multiple pregnancy. Together these measures should reduce the number of multiple births.

There are no plans to require licensed treatment clinics, a number of which operate within the NHS, to reimburse the health service for costs resulting from the care of multiple pregnancies and births.

The Government have not commissioned any research into the long term effects of in vitro fertilisation (IVF). However, the HFEA has been working with the Medical Research Council to determine what follow-up studies may be needed to assess both the treatments used and any long-term health implications for patients and children born as a result of fertility treatments, including IVF.

When considering applications for embryo research, members of the HFEA are required to reach decisions on the basis of a fair and impartial assessment of the

facts. The HFEA only licences embryo research to take place in circumstances specified by the Human Fertilisation and Embryology Act 1990 and in accordance with the requirements of the Act. No HFEA members have expressed objection to the principles in the Act.

Compliance with the prohibition in section 3(4) of the Human Fertilisation and Embryology Act 1990 on the keeping or using in treatment or research of embryos beyond the 14 day limit is monitored though the HFEA inspection process.

Section 3A of the Human Fertilisation and Embryology Act 1990 prohibits the use in fertility treatment of eggs taken from aborted fetuses. There are no plans to change this. Under the Human Tissue Bill storage of fetal tissue for research purposes would be subject to licensing by the Human Tissue Authority.

Health Development Agency (Crosby)

Mrs. Curtis-Thomas: To ask the Secretary of State for Health if he will make a statement on the effect on residents of Crosby of the Health Development Agency. [160437]

Miss Melanie Johnson: The work of the Health Development Agency (HDA) is focussed on service delivery that supports the whole of the region's public health development.

Crosby has a number of electoral wards assessed as being in the worst 25 per cent. in England for multiple deprivation. The HDA manages the national healthy school standard, which is part of the Government's national strategy to reduce health inequalities for children. The regional management of the programme is delivered in partnership with Sefton local education authority. In Crosby, 15 out of the 28 schools are included in the (Sefton) national health schools standard programme.

The North West HDA organised the largest ever regional public health conference in March 2004 to address the problem of obesity. Over 300 regional public health professionals, including representatives from health services responsible for Crosby, will learn of the latest obesity data for the region and will collaboratively plan a regional obesity action plan. The workshop will draw together best practice from across the region and in addition to the HDA guidance on obesity, this will provide the basis for local and regional work to tackle obesity in the coming years. The North West HDA is currently working with the North West public health observatory and the regional cancer registries to review the main causes of cancer related deaths across the region.

The HDA, in partnership with Liverpool John Moores University and the North West Public Health Observatory, is currently completing a regional report "Alcohol: A Situational Analysis for the North West".

Healthy Eating Campaign/Living Centres

Mr. Hancock: To ask the Secretary of State for Health what plans he has to mount a public health information campaign with the aim of *(a)* decreasing meat consumption and *(b)* increasing fruit and vegetable consumption. [164223]

Miss Melanie Johnson: No plans have been made for a health information campaign aimed at decreasing meat consumption. The Department recommends a balanced diet, which can include meat. The Department's "five-a-day" programme aims to raise public awareness of the health benefits of eating at least five portions of a variety of fruit and vegetables a day and what counts towards "five-a-day". This is supported by a range of information materials, including booklets, posters and leaflets. There is also a "five-a-day" logo for use on promotional materials and on food packets to help consumers choose a diet with plenty of fruit and vegetables.

Mr. Goodman: To ask the Secretary of State for Health how much funding has been allocated in *(a)* 2004–05, *(b)* 2005–06 and *(c)* in total to healthy living centres. [163654]

Miss Melanie Johnson: The Department allocates no funding directly to Healthy Living Centres (HLCs). The New Opportunities Fund has committed a total of £204 million to the HLC programme in England and expects all committed funds to have been expended by 2009.

HIV/AIDS

Bob Spink: To ask the Secretary of State for Health how much was spent on *(a)* publicity and health advice and *(b)* treatment of HIV/AIDS in each of the last three years. [163687]

Miss Melanie Johnson: A total of £223.5 million was allocated to the national health service in England in 2001–02 for the treatment and care of people with HIV. £55 million was allocated for local HIV prevention in 2001–02. These sums were added to the general NHS baselines in 2002–03 and are no longer separately identified.

In addition to these NHS allocations, the Department of Health centrally funds national targeted HIV prevention and health promotion campaigns. Expenditure on this national work for the past three years is shown in the table.

	£ million[1]
2001–02	3.60
2002–03	3.80
2003–04	4.35

[1] Figures include expenditure on national telephone helpline provision (including substance misuse and alcohol advice lines).

Immigrant Medical Inspections

Mr. Randall: To ask the Secretary of State for Health what circulars, guidance and memoranda of understanding he has issued which clarify accountability for services concerned with preventing the importation of infectious disease. [156850]

Miss Melanie Johnson: The Public Health (Aircraft) Regulations 1979, the Public Health (Ships) Regulations 1979, and the Public Health (International Trains) Regulations 1994 set out a number of

requirements intended to control the importation of infectious disease. Implementation of the regulations is generally a matter for local authorities, with medical input provided by the national health service.

"Instructions to Medical Inspectors", issued by the Department in 1992, sets out the procedures to be followed by medical inspectors responsible for medical examinations of prospective entrants to the United Kingdom under the Immigration Act 1971. This was supplemented by a letter from the Department in January 2003, which asked that the attention of medical inspectors be drawn to section 133 of the Nationality, Immigration and Asylum Act 2002 (this section provides a basis for medical inspectors to pass information about those they have examined to others in the NHS).

Liver Disease

Mr. Burstow: To ask the Secretary of State for Health what estimate he has made of the number of people in England with hepatitis C who are not being treated; and if he will make a statement. [162069]

Miss Melanie Johnson: The Department does not hold information centrally about the number of patients with hepatitis C not receiving treatment.

Mr. Burstow: To ask the Secretary of State for Health if he will make a statement on the availability of services for treating liver disease in *(a)* England and *(b)* each region. [162070]

Miss Melanie Johnson: The University of Southampton has recently carried out a survey of health care services for hepatitis C in the United Kingdom on behalf of the British Association for the Study of the Liver, the British Society for Gastroenterology (Liver Section) and the British Liver Trust.

Mental Health Services

Mrs. Helen Clark: To ask the Secretary of State for Health if he will require records, audited by his Department to be kept of the use of control and restraint on mental health patients. [163559]

Ms Rosie Winterton: The Department does not currently keep any central statistical record of the use of control and restraint. Information about the use of control and restraint is collected in a number of ways. Individual authorities are required to have clear policies on the use of restraint which include provision of a review of each incident of restraint, and its application audited and reported to hospital managers (Chapter 19.14 of the Mental Health Code of Practice).

'Developing Positive Practice to Support the Safe and Therapeutic Management of Aggression and Violence in Mental Health Inpatient Settings' was issued by the National Institute for Mental Health in England in February 2004. This guidance makes clear recommendations to services. It states that clinical audit should be an integral part of service culture in order to monitor service responsiveness to the various aspects of patient care.

The National Institute for Clinical Excellence will be publishing guidance later this year relating to management of violence.

The National Patient Safety Agency has developed a national reporting and learning system to promote comprehensive national learning about patient safety incidents. This includes reporting of patient safety incidents involving control and restraint. This information will permit feedback to be provided on services and issues to be identified.

From 1 January 2004, the Mental Health Act Commission (MHAC), as part of its programme of monitoring vulnerable patient groups, has asked providers of acute mental health services to notify every occasion when a detained patient sustains an injury which requires medical intervention as a consequence of an incident of restraint. Following notification, the MHAC will seek to arrange for a commissioner to visit the patient concerned and, during the visit collect information regarding the handling of the incident using a specifically designed commission visiting questionnaire. Providers also receive a short report of the commissioner's findings with recommendations for action where applicable.

Mrs. Helen Clark: To ask the Secretary of State for Health what steps he has taken to create an ethnically more diverse workforce in mental health services. [163560]

Ms Rosie Winterton: The need for services to be appropriate and responsive to the communities they serve is laid out in the consultation document, 'Delivering Race Equality: A Framework for Action' (October 2004). To support this, the National Institute for Mental Health in England (NIMHE) will be developing work to address the cultural capability of organisations, and staff within them, with a clear focus on improving outcomes for those who use services. The importance of this issue is also highlighted in 'Mental Health Services—Workforce Design and Development: Best Practice Guidance (2003).

Linked to 'Improving Working Lives', we have the national 'Positively Diverse' programme to support employers in working towards creating an ethnically more diverse workforce across the whole National Health Service, including mental health services.

The development of black and minority ethnic staff networks at local (trust) and regional levels has also been actively encouraged with seed funding being provided by the Department. In 2002–03, 120 black and minority ethnic staff networks received seed funding through 'Positively Diverse'. All have agreed to report back on good practices, particularly related to the effect on recruitment and retention of staff from black and minority ethnic heritage. The Positively Diverse programme will also be developed within NIMHE to address these issues within the organisation.

Further work is being considered in the light of the 'Delivering Race Equality' consultation responses and the David Bennett Inquiry recommendations.

Mrs. Helen Clark: To ask the Secretary of State for Health what plans he has to introduce cultural awareness training for all mental health staff along the lines proposed by the independent inquiry into the death of David Bennett. [163563]

Ms Rosie Winterton: The National Institute of Mental Health in England's (NIMHE) national workforce programme is developing a set of shared capabilities that all staff should possess as part of their education and training. One of these is to respect diversity and to provide care and interventions in ways that respect and value diversity including age, ethnicity, gender and sexuality.

Further work is being considered in the light of the Delivering Race Equality consultation responses and the David Bennett Inquiry recommendations. Very early discussions have taken place between the Sainsbury Centre and the NIMHE to develop work in this area, building on existing good practice.

Opinion Sampling

Mr. Laws: To ask the Secretary of State for Health what his estimate is of total expenditure by his Department on *(a)* focus groups and *(b)* opinion polls in each year from 1995–96 to 2003–04; and if he will make a statement. [162757]

Ms Rosie Winterton: A list of the Department's expenditure incurred on focus groups and opinion polls in each year from 1995–96 to 2003–04 can only be provided at disproportionate costs.

Over-prescription

Mr. Challen: To ask the Secretary of State for Health what steps are being taken to reduce the waste arising from the over-prescribing of medicines. [163734]

Ms Rosie Winterton: The Department is concerned about wastage from over-prescribing of medicines and has introduced a number of initiatives to address this. These include; the medicines management collaborative schemes, that demonstrate innovation and good practice in medicines management and the joint medicines partnership task force, that encourages the involvement of patients in their treatment decisions and repeat dispensing which enables the pharmacist to check whether patients still need the medicines prescribed for them. Improved prescribing and medicines management is also being encouraged through the quality and outcomes framework, within the new general practitioner contracts. In hospitals, too, action has been taken to reduce waste, including through the re-use of patients' own medicines and dispensing for discharge.

For the future, the new community pharmacy contractual framework is expected to incorporate services, such as medicines use review, which will support quality prescribing and reduce waste.

Sex Education

Mr. Andrew Turner: To ask the Secretary of State for Health what the evidential basis is for the statement by the Chief Medical Officer that there is strong evidence for the effectiveness of sex and relationships education. [162493]

Miss Melanie Johnson: Effective sex and relationships education (SRE) is essential if young people are to make responsible and well informed decisions about their lives. It should teach young people to understand human sexuality and to respect themselves and others. It enables young people to mature, to build up confidence and self-esteem and understand the reasons for delaying sexual activity.

The position with regard to SRE in the Chief Medical Officer's Update is informed by high quality reviews of the international evidence. The most recent of these (Swann, C., Bowe, K., McCormick, G., and Kosmin, M. (2003) Evidence-Based briefing paper on teenage pregnancy and parenthood. Health Development Agency) considered the evidence from all high quality systematic and other reviews and meta-analyses published since 1996. They concluded that 'good' evidence (for example, drawn from high quality reviews) exists for the effectiveness of 'school-based sex education', particularly linked to contraceptive services (measured against knowledge, attitudes, delaying sexual activity and/or reducing pregnancy rates). In contrast, there was no good evidence for the effectiveness of abstinence based education (which focuses only on promoting sexual abstinence).

The Health Development Agency was asked by the Department to undertake a review of the research evidence underpinning the teenage pregnancy strategy. They reviewed systematic reviews, meta-analyses and literature reviews of what works to prevent teenage pregnancy, which have been published since 1996. To be included reviews needed to meet strict quality criteria. This document was endorsed by an expert reference group and was subject to external peer review.

Sunbeds

Dr. Gibson: To ask the Secretary of State for Health what assessment he has made of the *(a)* benefits and *(b)* risks to health of the use of sunbeds. [163892]

Miss Melanie Johnson: The Department has not made an assessment of whether there are any benefits to health from the use of sunbeds. Reports on the effects of ultra-violet radiation (UVR) from the National Radiological Protection Board, the International Commission on Non-Ionising Radiation Protection and the British Medical Association conclude that there is no direct evidence that sunbed exposure causes skin cancer.

By far the greatest source of UVR exposure is the sun. That is why we have taken measures to encourage the public to protect themselves and their children from the risks of unsafe exposure to the sun.

The Health and Safety Executive has published guidance for operators and customers of all solaria, including sunbeds. The advice is that people under 16 years old should not use sunbeds and that a limit of 20 sessions per year should be observed. This advice was developed after consultation with leading experts.

Teenage Cancer

Dr. Gibson: To ask the Secretary of State for Health how many NHS hospital beds are allocated for the treatment of teenage and young adult patients with cancer. [163889]

Miss Melanie Johnson: Information is not collected on the number of beds designated for cancer patients. These beds will be included in the overall total of general

and acute beds. Information on the average daily number of beds for each national health service trust is published annually on the Department's website at http://www.performance.doh.gov.uk/hospitalactivity/index.htm.

vCJD

Mrs. Calton: To ask the Secretary of State for Health what assessment has been made of the impact of changes to the levels of funding for vCJD surveillance in 2004–05. [163895]

Miss Melanie Johnson: The Department will be providing funding of £2,005,594 for 2004–05. This represents an increase of 6.5 per cent. over the funding for 2003–04.

Waiting Times (Crosby)

Mrs. Curtis-Thomas: To ask the Secretary of State for Health if he will make a statement on NHS waiting times for heart surgery in Crosby. [160431]

Miss Melanie Johnson: In March 1997 there were 138 people waiting nine months and 40 people waiting over 12 months for heart surgery at the Cardiothoracic Centre—Liverpool national health service trust. The latest available figures show that in January 2004 there were no people waiting nine months and over for surgery.

EDUCATION AND SKILLS

Careers Service

Bob Russell: To ask the Secretary of State for Education and Skills what representations he has received about the future of the careers service in Essex; and if he will make a statement. [163650]

Margaret Hodge: My Department has received four representations about the future of the careers service in Essex—part of Essex Careers Business Partnership (ECBP). Concerns were raised regarding a short fall in the ECBP pension fund and how the future service provided to young people in that locality would be affected.

Pension liabilities, how they are funded and what pension entitlements staff are legally entitled to, are matters for the directors of ECBP and the trustees of the pension scheme. The Department cannot take on the liabilities of private organisations. The Department's primary concern is to maintain continuity of service to young people in England.

Devon LEA

Mr. Swire: To ask the Secretary of State for Education and Skills how much money was given to schools in the Devon local education authority area from the Capital Modernisation Fund in each of the last seven years. [164785]

Mr. Miliband: The Department for Education and Skills does not hold this information centrally. Capital Modernisation Fund is allocated by projects and not by area.

Mr. Swire: To ask the Secretary of State for Education and Skills how many students living in the Devon local education authority area have benefited from New Opportunities bursaries since the scheme was set up. [164789]

Alan Johnson: Information about Opportunity Bursaries is held at the level of institutions that provide higher education provision. Apart from that, it is not possible to extract from the data the number of awards for students in any given area.

Mr. Swire: To ask the Secretary of State for Education and Skills what investment there has been in *(a)* sport and *(b)* music in schools in Devon Local Education Authority in each of the last seven years. [164794]

Mr. Stephen Twigg: The information is not held centrally. Within the context of the statutory National Curriculum, where music is compulsory for pupils aged 5–14, and Physical Education (PE) is compulsory for pupils aged 5–16, it is for individual schools to use their budgets as they judge appropriate.

The Government are investing more than £1 billion in England to transform PE, school sport and club links. The funding will help deliver an ambitious Public Service Agreement target, shared with the Department for Culture, Media and Sport, to increase the percentage of 5–16 year olds who spend a minimum of two hours each week on high quality PE and school sport within and beyond the curriculum to 75 per cent. by 2006.

The Department is providing £1,746,299 to support the delivery of three School Sport Partnerships in the Devon LEA area. The partnerships include 18 secondary and 114 primary schools and provide enhanced sports opportunities for all young people and ensure that their pupils spend a minimum of two hours a week on high quality PE and School Sport.

Furthermore, £3,953,000 is also being provided to to schools in the Devon LEA area specifically to enhance PE and school sport facilities through the New Opportunities Fund.

The Music Standards Fund (MSF) supports Local Education Authority Music Services, which provide activities including workshops, festivals, small group and ensemble tuition and curriculum support. Since 1999, the following MSF payments have been made to Devon LEA Music Service:

in 2003–04: £656,400
in 2002–03: £818,604
in 2001–02: £697,600
in 2000–01: £203,000 plus £121,050
in 1999–00: £124,000 plus £5,047

A total of £646,400 has been allocated for 2004–05.

Mr. Swire: To ask the Secretary of State for Education and Skills how many *(a)* teaching assistants, *(b)* teachers and *(c)* teaching vacancies there were in schools in Devon Local Education Authority in each of the last seven years. [164796]

Mr. Miliband: The following table shows the number of full-time equivalent teaching assistants, regular teachers and full-time teacher vacancies in maintained schools in the former Devon Local Education Authority area in each January between 1997 and 2003.

	Teaching assistants	Teachers	Teacher vacancies
1997	810	7,700	26
1998	960	7,800	24
1999	1,090	7,890	16
2000	1,250	8,060	59
2001	1,930	8,210	57
2002	2,220	8,430	25
2003	2,670	8,450	6

Sources:
Annual School Census and the annual survey of teachers in service and teacher vacancies (618G).

Mr. Swire: To ask the Secretary of State for Education and Skills what the level of local education authority funding is per pupil in Devon for 2004–05; and what the amount spent was in 1996–97. [164798]

Mr. Miliband: The estimated total level of revenue funding per pupil (age 3 to 19) for Devon for 2004–05 is £3,630. Devon's Net Current Expenditure on pre-primary, primary, special and secondary pupils in 1996–97 was £2,220, as recorded by the authority on its RO1 form. The figures are not directly comparable since the former reflects the total provision made available to the authority whereas the latter reflects what the authority actually spent within schools. 2004–05 funding figures are based on pupil numbers used in the Education Formula Spending Share calculation. Expenditure figures are calculated using pupil numbers from the annual school census adjusted to the appropriate financial year.

Education (Greater London)

Simon Hughes: To ask the Secretary of State for Education and Skills what the average class size in *(a)* primary schools and *(b)* secondary schools was in each year since 1997 in (i) Greater London and (ii) each Greater London borough. [163728]

Mr. Stephen Twigg: The information requested is shown in the table.

Information on class sizes will be updated with provisional 2004 data at the end of April.

Maintained primary and secondary schools: average class size[1] 1997–2000

Position in January each year

Annual Schools' Census

The underlying pupil and teacher figures were published on 25 September 2003 in the statistical volume, "Statistics of Education, Schools in England 2003", a copy of which has been placed in the Library. The table is also available on the statistics section of the DfES website at: http://www.dfes.gov.uk/rsgateway/DB/VOL/v000417/index.shtml

Education (North Tyneside)

Mr. Alan Campbell: To ask the Secretary of State for Education and Skills how much money was given to schools in North Tyneside local education authority from the Capital Modernisation Fund in each of the last seven years. [164376]

Mr. Miliband: The Department of Education and Skills does not hold this information centrally. Capital Modernisation Fund is allocated by projects and not by area.

Mr. Alan Campbell: To ask the Secretary of State for Education and Skills what percentage of pupils achieved at least *(a)* one and *(b)* five GCSE grades A* to C in North Tyneside local education authority in each of the last seven years. [164378]

Mr. Miliband: Information on pupils achievement at GCSE/GNVQ are detailed in the following table:

Percentage of 15 year old pupils[1] in North Tyneside LEA

Academic year	*Achieved at least one A*-C*	*Achieved at least 5 A*-C*
1997	66.7	42.7
1998	67.4	44.5
1999	69.2	43.4
2000	70.2	45.2
2001	70.9	46.6
2002	72.9	48.0
2003	71.1	48.2

[1] Pupils are aged 15 at the start of the academic year i.e. 31 August

Free School Meals (Grammar Schools)

Mr. Chaytor: To ask the Secretary of State for Education and Skills how many and what percentage of pupils were eligible for free school meals in maintained grammar schools in England, broken down by those aged *(a)* 11 to 18 years, *(b)* 11 to 15 years and *(c)* 16 to 18 years. [162726]

Mr. Stephen Twigg: The requested information is given in the table.

Grammar schools: Number and percentage of pupils known to be eligible for free school meals

As at January 2003—England

		Grammar schools[1]	
Pupils aged[3]	*Number of pupils*[2]	*Number of pupils known to be eligible for free school meals*[2]	*Percentage of pupils known to be eligible for free school meals*[2]
11 to 15	110,730	2,550	2.3
16 to 18	39,910	610	1.5
11 to 18	150,640	3,160	2.1

[1] Figures have been rounded to the nearest 10.
[2] Includes pupils with sole and dual (main) registration.
[3] Age as at 31 August 2002.

Annual Schools' Census

Further Education Institutions

Martin Linton: To ask the Secretary of State for Education and Skills what discussions he has had with the Central London Learning and Skills Council about the withdrawal of Westminster Kingsway College Further Education College from Battersea. [163482]

Alan Johnson: None. I refer the hon. Member to my reply to his earlier question on 18 March 2004, *Official Report*, column 467W.

Martin Linton: To ask the Secretary of State for Education and Skills which further education institutions owned buildings *(a)* immediately following incorporation in 1993 and *(b)* in 2003. [163520]

Alan Johnson: The Learning and Skills Council (LSC) hold data on which further education institutions owned buildings immediately following incorporation and the numbers of disposals and acquisitions up to and including 2003. This is a matter for the LSC. Mark Haysom the Council's Chief Executive will write directly to my hon. Friend. A copy of his reply will be placed in the House Library.

Internet

Mr. Swire: To ask the Secretary of State for Education and Skills how many schools have access to *(a)* the internet and *(b)* broadband. [164800]

Mr. Charles Clarke: As at April 2002 over 99 per cent. of schools in England had access to the internet.

As at December 2003 49 per cent. of schools (98 per cent. of secondary schools and 41 per cent. of primary schools) have access to broadband. The Government's target is to connect all schools to broadband by 2006.

Learning and Skills Councils

Ann Winterton: To ask the Secretary of State for Education and Skills which functions of learning and skills councils would be transferred to regional assemblies. [164547]

Alan Johnson: In our White Paper 'Your Region, Your Choice' we set out proposals for each Assembly to appoint two members to the Board of each local Learning and Skills Council (LSC) in its region, and for the national LSC to consult Assemblies on its guidance to the local LSCs. We also propose that local LSCs will be required to have regard to Assembly strategies, including in drawing up their spending plans; and to consult the relevant Assembly about their local plans.

Looked-After Children

Mr. McNamara: To ask the Secretary of State for Education and Skills how many year 11 looked-after children *(a)* did not sit any examinations, *(b)* obtained no qualifications, *(c)* obtained one GCSE or GNVQ and *(d)* obtained at least five GCSEs (or equivalent) grades A* to C broken down by local authority, in each year since 1994; and what the equivalent figures were for all children. [158067]

Mr. Miliband: The information requested has been placed in the Libraries.

Middle Schools

Mr. Willis: To ask the Secretary of State for Education and Skills which local education authorities have *(a)* middle schools, *(b)* planned re-organisation that revives middle schools and *(c)* signified their agreement to his plans for middle schools. [164499]

Mr. Miliband: The following local education authorities have middle schools:

Bedfordshire, Cambridgeshire, Devon, Dorset, Harrow, Hertfordshire, Isle of Wight, Kent, Kirklees, Leicestershire, Milton Keynes, Newcastle upon Tyne, Norfolk, North Tyneside, North Yorkshire, Northamptonshire, Northumberland, Poole, Somerset, Staffordshire, Suffolk, West Sussex, Wiltshire, Windsor and Maidenhead, Worcestershire.

The Isles of Scilly, Hammersmith and Fulham, Nottinghamshire, Sheffield, and Surrey also have individual "all-through" schools, which cater for primary and secondary pupils, and are classified as middle schools under the 1996 Education Act

The Department has not been informed of any planned reorganisations which would involve the introduction of new middle school provision.

The Secretary of State has no plans for middle schools. The organisation of school provision is a local matter. Local education authorities have overall responsibility for ensuring that there are sufficient schools to meet local needs and final decisions on proposals to change the pattern of provision would be made by the local School Organisation Committee (SOC) or schools adjudicator.

Mr. Willis: To ask the Secretary of State for Education and Skills what his Department's policy is on the viability of middle schools within his plans for secondary education. [164500]

Mr. Miliband: The organisation of school provision, including the viability of schools, is a local matter. The Department does not promote a particular organisational model since this depends on the needs and circumstances of an area. Our plans for transforming secondary education remain fixed on improving teaching and learning supported by a drive for building strong school leadership teams; specialism and collaboration; reforming the school workforce and developing partnerships beyond the classroom. Whatever the pattern of local school provision, our aim is that all schools should be equipped to personalise learning to ensure high expectations for all, based on a sound knowledge and understanding of each child's learning needs.

Pay

Sandra Gidley: To ask the Secretary of State for Education and Skills what steps he is taking to reduce the pay gap in the higher education sector. [164769]

Alan Johnson: As the employers, higher education institutions (HEIs) are responsible for pay in higher education. However, we do recognise that Government funding plays a part in what institutions can pay their staff.

We have invested nearly £330 million from 2001–02 to 2003–04 through the Rewarding and Developing Staff (RDS) initiative to help HEIs increase their human resource capability. One of the six priority areas that HEIs need to address in their human resource strategies is the development of equal opportunity targets, including ensuring equal pay for work of equal value.

RDS sits within the broader context of Government funding in higher education. The Higher Education Funding Council for England (HEFCE) are allocating almost £6 billion of grants for 2004–05, a 9.3 per cent. increase on 2003–04. Within that, funding for teaching is increasing by 5.6 per cent. The 2004 Spending Review settlement, announced on 17 March, will allow investment in the sector to continue to grow in real terms.

Primary School Age

Mr. Laurence Robertson: To ask the Secretary of State for Education and Skills how many children in Gloucestershire were of primary school age on the latest date for which figures are available. [164111]

Mr. Miliband *[holding answer 29 March 2004]:* The mid-2002 population estimate[1] for children aged 5 to 11 in Gloucestershire is 49,300[2]. The estimate[1] for those aged 1 to 4 is 25,800[3].

[1] These estimates will not match the age groups in primary and nursery schools exactly.

[2] The figure for children aged 5 to 11 includes some children aged 5 who were not of compulsory school age at the start of the summer term, and some children aged 11 with birthdays in July and August who have completed their primary schooling.

[3] Annual population estimates at LEA level are not published in more detail than the 1 to 4 age group.

Qualifications

Mrs. Humble: To ask the Secretary of State for Education and Skills what percentage of pupils in *(a)* Blackpool and *(b)* Lancashire local education authorities left school with no qualifications in each year since 1997. [164553]

Mr. Miliband: Information on pupils leaving school is not available, however, the percentage of 15 year old pupils that failed to achieve a pass at GCSE or GNVQ are detailed in the following table:

Percentage of 15 year old pupils[1] achieving no passes in GCSE/GNVQ

Percentage

Academic Year	*Blackpool*[2]	*Lancashire*
1998	6.9	5.1
1999	7.3	4.6
2000	6.3	4.3
2001	6.7	4.2
2002	4.9	4.0
2003	6.0	4.6

[1] Pupils are aged 15 at the start of the academic year i.e. 31 August.
[2] Due to local government reorganisation figures are not available for Blackpool for 1997.

Remodelling Change Programme

Dr. Iddon: To ask the Secretary of State for Education and Skills what assessment he has made of whether the Government is on target to meet the commitments identified in paragraph 15 on page 4, Appendix 1 on page 28 and in the table on page 29 in, Raising standards

and tackling workload: a national agreement, for schools' Remodelling Change Programme; and if he will make a statement. [164458]

Mr. Miliband: The Government is committed to sustaining school workforce reforms. The manifesto commitment to 10,000 extra teachers during the life of the Parliament has already been exceeded; and there were 36,000 more support staff in post in January 2003, compared with January 2001. In October 2003, the Secretary of State announced a package of measures that will restore stability to the school funding system, including the introduction of a 4 per cent. minimum per pupil guarantee for schools.

In addition, the National Remodelling Team, working with the Workforce Agreement Monitoring Group and a network of dedicated LEA advisers, has developed advice and support for schools in managing the reforms effectively, including through the provision of training for support staff. Many schools are also currently involved in a tailored change management process.

Salisbury College

Mr. Key: To ask the Secretary of State for Education and Skills if he will make a statement about *(a)* the funding situation and *(b)* staffing prospects at Salisbury College. [163674]

Alan Johnson: The Department allocates funds to the Learning and Skills Council for the provision of education and training in the post-16 learning and skills sector. The Department does not provide a specific budget to the LSC for individual colleges. It is for the Learning and Skills Council to determine for itself the right level of investment in institutions from the funds allocated to it for learning participation. Mark Haysom, the council's chief executive, will write to the hon. Member providing details of the funding situation of Salisbury College. A copy of his reply will be placed in the House Library.

Colleges are independent corporations and, as such, employment issues are an internal matter for the college.

School Nurses

Mr. Watson: To ask the Secretary of State for Education and Skills how many school nurses there are, broken down by education authority. [164814]

Mr. Miliband: The following table gives the number of full-time equivalent number of matrons, nurses and other medical staff in maintained primary, secondary and special schools in England broken down by local education authority at January 2003, the latest information available.

Schools (Absenteeism)

Mr. Willis: To ask the Secretary of State for Education and Skills how many fixed penalty notices have been issued in relation to condoned absenteeism of pupils; and if he will make a statement. [164463]

Mr. Ivan Lewis: This measure only commenced on 27 February 2004. Information about the number of penalty notices issued for truancy is not available at present.

Teachers Pension Scheme

Mr. Willis: To ask the Secretary of State for Education and Skills how many female teachers were making a contribution of 6 per cent. to the teachers' pension scheme between 1972 and 1988; and if he will make a statement. [164465]

Mr. Miliband: The table shows the number of female teachers who were in pensionable employment in the Teachers' Pension Scheme (England and Wales) in each of the years between 1972 and 1988 inclusive.

	Female teachers
1972	263,000
1973	290,000
1974	300,000
1975	316,000
1976	331,000
1977	331,000
1978	335,000
1979	346,000
1980	351,000
1981	351,000
1982	344,000
1983	344,000
1984	342,000
1985	343,000
1986	347,000
1987	364,000
1988	356,000

Source:
Database of Teachers' Records

All members of the Teachers' Pension Scheme (IPS) pay the same main scheme contribution of 6 per cent. The TPS has options for individual scheme members to pay, on a voluntary basis, a higher contribution in order to purchase additional benefits within the scheme.

The TPS is a group scheme where the cost of scheme benefits is shared between employers and employees, with the greater part being met by employers. All TPS employers pay the same contribution rate which is currently 13.5 per cent. Between 1972 and 1988, the scheme has provided automatic family benefits for married male teachers and female teachers with a financially dependent husband. In 1988, the scheme was extended to provide automatic family benefits cover for all married teachers.

Teaching Assistants

Mrs. Humble: To ask the Secretary of State for Education and Skills how many teaching assistants were employed in *(a)* Blackpool and *(b)* Lancashire local education authorities in each year since 1997. [164552]

Mr. Miliband: The following table gives the numbers of full time equivalent teaching assistants in maintained schools in Blackpool and Lancashire local education authorities for each year between 1997 and 2003, the latest year for which data are available.

	Former Lancashire	*Lancashire*	*Blackpool*
1997	1,780	—	—
1998	2,000	—	—
1999	—	1,670	190
2000	—	1,830	220
2001	—	2,190	290
2002	—	1,960	190
2003	—	3,130	390

Annual Schools' Census

Undergraduates

Ross Cranston: To ask the Secretary of State for Education and Skills how many undergraduates were at universities in England in each academic year since 1997. [161612]

Alan Johnson: The available information is given in the table.

Undergraduate enrolments to English HE institutions[1]

Academic year	*Numbers*
1997–98	1,172,877
1998–99	1,195,620
1999–2000	1,198,003
2000–01	1,229,549
2001–02	1,263,498
2002–03	1,328,625

[1] Figures include enrolments to the Open University.
Source:
Higher Education Statistics Agency

Ross Cranston: To ask the Secretary of State for Education and Skills how many undergraduates dropped out of undergraduate studies in each year since 1997. [162036]

Alan Johnson: The latest available figures giving non-completion rates for students starting full-time first degree courses in the UK are as follows:

Non-completion for students starting full-time first degree courses in the UK

Students starting courses in:	[1] *Non-completion rate (percentage)*
2000–01	16
1999–2000	17
1998–99	17
1997–98	17

[1] Non-completion is regarded as those who do not gain a qualification from their original course or from any other course and do not transfer to another institution.
Source:
HEFCE Performance Indicators

Figures published in 2003 by the Organisation for Economic Co-operation and Development (OECD) show that the UK as a whole has one of the lowest non-completion rates among OECD countries.

Written Answers to Questions

Thursday 1 April 2004

WALES

Civil Servants

Mr. Wiggin: To ask the Secretary of State for Wales how many civil servants have been employed in the Wales Office in each year since 1999 in *(a)* London and *(b)* Cardiff. [160935]

Mr. Touhig: The actual number of civil servants in the Wales Office and the split between London and Cardiff could be obtained only at disproportionate cost. The table as follows shows the staffing complement in each year, since the Wales Office came into being on 1 July 1999. This differs from the outturn figures given in the Wales Office annual Departmental Reports as it takes no account of vacancies during the year.

	Staff complement in London (full time equivalents)	*Staff complement in Cardiff (full time equivalents)*
1999–2000	33	3
2000–01	35	9
2001–02	35	9
2002–03	43	12
2003–04	44	11

Wind Farms

Miss McIntosh: To ask the Secretary of State for Wales what assessment he has made of the *(a)* environmental and *(b)* health impact of wind farms in Wales. [164591]

Mr. Touhig: Proposals for the development of wind farms in Wales are assessed for visual and other impacts as part of the planning process.

EDUCATION AND SKILLS

Children in Care

Mr. Sanders: To ask the Secretary of State for Education and Skills how many children are in residential care in each local authority area; and how many receive residential care in each local authority. [159417]

Margaret Hodge: The number of children in residential care in each local authority at 31 March 2002 is shown in the following table.

Children Looked After at 31 March 2002 in residential care[1,2]

[1] Residential care includes secure units, homes and hostels, residential schools, and other residential settings.

[2] Figures in this table exclude children looked after under an agreed series of short term placements.

[3] Figures over 1,000 are rounded to the nearest 100. Figures between one and five have been suppressed. All other figures are rounded to the nearest five.

Source:

Children Looked After by local authorities, year ending 31 March 2002.

Adult Learning

Mr. Simmonds: To ask the Secretary of State for Education and Skills how many people are claiming Adult Learning Grants in pilot areas; and what estimate he has made of the number of people eligible to claim Adult Learning Grants in pilot areas. [16379

Mr. Ivan Lewis: Over 1,900 people have successfully applied for the Adult Learning Grant and more applications are being approved every week. The latest estimate is that some 5,700 adults may be eligible for the grant in the pilot areas.

Arson

Chris Ruane: To ask the Secretary of State for Education and Skills what the total cost of arson damage to schools was in each of the last 15 years. [164950]

Mr. Miliband: Because the Office of the Deputy Prime Minister (ODPM) has overall policy lead for fire safety and arson reduction among government departments, it is ODPM rather than this Department that compiles statistics on fires in schools.

The latest figures we have from ODPM cover the years 1997–2001. They show that, on average, the annual economic costs of arson damage to schools amounted to £42 million. The numbers of school fires started deliberately did not increase steadily over that period, but fluctuated around the average of 972 per year.

Asbestos

Malcolm Bruce: To ask the Secretary of State for Education and Skills what proportion of buildings occupied by *(a)* staff of his Department and *(b)* staff of the Department's executive agencies have been surveyed for the purpose of identifying the presence of asbestos prior to the implementation of the Control of Asbestos at Work Regulations 2002. [159662]

Mr. Stephen Twigg: All of the Department for Education and Skills buildings were surveyed prior to the introduction of the Control of Asbestos at Work Regulations 2002. The surveys complied with the requirements of the regulations current at that time.

Bullying

Mr. Swire: To ask the Secretary of State for Education and Skills how many incidences of bullying in schools were recorded in Devon in the last seven years. [164799]

Mr. Ivan Lewis: Data on bullying is not collected centrally and there is no reliable basis for an estimate of prevalence. However, any level of bullying is too high and we are determined to help schools to tackle the problem. Our guidance pack 'Bullying: Don't Suffer in Silence' and the anti-bullying website www.dfes.gov.uk/bullying offer detailed advice on preventing and addressing bullying. We have also recently launched our anti-bullying Charter which I hope schools will sign and use. It is accompanied by a summary of effective practice to help schools review and enhance their anti-bullying policies. We are also currently running a series of England-wide regional anti-bullying conferences for schools and other partners to share good practice.

Children's Homes

Mr. Sanders: To ask the Secretary of State for Education and Skills how many *(a)* private and *(b)* public sector children's homes there are in each local authority area. [159415]

Margaret Hodge: The information requested is not available as it is not collected by Local Authority area. The National Care Standards Commission (NCSC) collects information on an Area and Regional basis. Details of numbers of children's homes at 27 February 2004, by type of provider and NCSC Region are set out in the following table:

Number of Children's homes by provider type across NCSC Regions at 27 February 2004

NCSC Region	*Independent*	*Local Authority*	*Voluntary*	*NHS*	*Providers Total*
England					
North East	32	70	2	2	106
East Midlands	64	46	6	0	116
South West	160	49	19	1	229
West Midlands	160	46	11	0	217
North West	223	119	34	0	376
London	121	50	23	2	196
South East	153	46	16	1	216
Eastern	64	33	8	0	105
Yorkshire and Humberside	50	95	8	0	153
Total	1,027	554	127	6	1,714

Source:
NCSC

Mr. Sanders: To ask the Secretary of State for Education and Skills how many privately run children's homes are registered. [159416]

Margaret Hodge: 1,027 private children's homes were registered with the National Care Standards Commission at 27 February 2004.

Citizenship Curriculum

Mr. David Stewart: To ask the Secretary of State for Education and Skills what plans he has to increase time spent on learning about court processes in secondary schools. [164196]

Mr. Stephen Twigg: Understanding the role and operation of the criminal and civil justice system in our

democracy is an important part of citizenship education, which became part of the curriculum for 11 to 16-year-olds in September 2002. Pupils learn about the work of the courts, parliament and the government in making and shaping the law. It is up to schools to arrange the allocation of time for subjects and specific elements within them. The QCA has sent detailed guidance on citizenship to all schools, which includes specific units on how to plan and cover the justice system.

Computer Misuse

Mr. Webb: To ask the Secretary of State for Education and Skills how many cases of computer misuse there were in his Department in *(a)* 1997 and *(b)* 2003, broken down by category of misuse; and how many of those cases resulted in disciplinary action. [163276]

Mr. Charles Clarke: The Department for Education and Skills allows personal use of the internet and email outside normal hours. Staff are warned that internet accesses may be monitored and misuse may lead to disciplinary action. Staff are reminded of the policy each time they log on to the Department's network and must accept the policy before log in can be completed.

The numbers of cases of computer misuse within the Department for Education and Skills is as follows:

	Number of cases	*Type of misuse*	*Action*
1997	0	n/a	n/a
2003	2	Serious inappropriate internet use	Disciplinary

Access to the internet for DfES staff was introduced in November 1997 and was approved only to those who had a business need. Usage was low and no instances of misuse occurred.

Departmental Buildings

Mr. Llwyd: To ask the Secretary of State for Education and Skills what *(a)* renovation and *(b)* maintenance projects on buildings (i) owned and (ii) rented by his Department were undertaken in each of the last five years; and what the associated costs were of each. [163949]

Mr. Stephen Twigg: My Department's renovation costs include projects where the primary aim is refurbishment and upgrading, while maintenance costs include projects where the primary aim is repair and/or replacement of existing equipment/installations.

The project cost of the *(a)* renovation and *(b)* maintenance work carried out in each of the last five years is as follows:

£

Financial year	*Leasehold*		*Freehold*	
	Renovation	*Maintenance*	*Renovation*	*Maintenance*
2003–04	3,231,704	478,398	1,564,000	433,085
2002–03	2,811,781	1,283,864	1,982,775	380,070
2001–02	2,445,073	1,432,309	1,967,745	479,095
2000–01	2,993,645	800,959	2,164,164	1,244,123
1999–2000	3,099,315	883,208	1,633,944	1,200,535
Total	14,581,518	4,878,738	9,312,628	3,736,908

Devon LEA

Mr. Swire: To ask the Secretary of State for Education and Skills what percentage of pupils achieved at least *(a)* one and *(b)* five GCSE grades A* to C in Devon Local Education Authority in each of the last seven years. [164795]

Mr. Miliband: The information requested is in the following table:

Percentage of 15-year-old pupils[1] in Devon Local Education Authority

Percentage

Academic year	*Achieved at least one A*-C*	*Achieved at least 5 A*-C*
1997[2]	71.4	44.0
1998	75.6	47.0
1999	75.1	48.4
2000	76.3	49.1
2001	77.0	51.3
2002	74.8	50.4
2003	76.2	52.6

[1] Pupils are aged 15 at the start of the academic year i.e. 31 August.
[2] Results for 1997 are not directly comparable to 1998–2003 results, due to the re-organisation of Devon LEA that took place in 1998.

Education (North Tyneside)

Mr. Alan Campbell: To ask the Secretary of State for Education and Skills what the level of capital investment in schools in North Tyneside was in each of the last seven years. [164361]

Mr. Miliband: The following table shows capital funding allocated to North Tyneside local education authority (LEA) and its schools since 1997. The majority of capital funding is now allocated by formulae, linked to Asset Management Plans. All schools have, since 2000–01, received Devolved Formula capital to use on their most urgent capital needs.

Capital allocations to North Tyneside LEA

	Allocations (£000)
1997–98	2,521
1998–99	2,448
1999–2000	10,255
2000–01	19,766
2001–02	22,449
2002–03	[1]45,512
2003–04	11,528

[1] This includes £33.5 million PFI credits.

Note:
The calculation includes the Voluntary Aided sector. Funding from 2000- 01 to 2002 03 included high levels of Basic Need and also additional exceptional funding.

Employment Agencies

Matthew Taylor: To ask the Secretary of State for Education and Skills if he will list the employment agencies which his Department and its predecessors have used to supply temporary staff in each financial year since 1996–97 to the most recent date for which figures are available. [163813]

Mr. Charles Clarke: The following table lists all the employment agencies used by the Department for Education and Employment and Department for Education and Skills from 1996–97 to date:

	Employment agency
1996–97	Adecco Brook Street
1997–98	Adecco Brook Street
1998–99	Adecco Brook Street
1999–2000	Adecco Brook Street
2000–01	Adecco Brook Street Manpower
2001–02	Adecco Brook Street Manpower
2002–03	Adecco Brook Street Manpower
2003–04	Adecco Brook Street Manpower

Free School Meals

Mr. Watson: To ask the Secretary of State for Education and Skills what the cost of free school meals was per child, broken down by local education authority, in the last 12 months for which figures are available. [165029]

Mr. Miliband: This information is not collected centrally.

Gap Year

Bob Spink: To ask the Secretary of State for Education and Skills if he will commission research into the number of post-A level students who take a gap year before entering university over the next three years in order to help evaluate the impact of changes in higher education student fees and indebtedness. [163989]

Mr. Ivan Lewis: The Government will continue to monitor the number of students accepted to university with deferred entry, as made available by the Universities and Colleges Admissions Service (UCAS).

In addition information will be available through the independent commission established to consider all aspects of the new arrangements based on the first three years of variable fees. The Terms of Reference of this commission were announced by the Secretary of State on 26 January 2004.

Bob Spink: To ask the Secretary of State for Education and Skills what *(a)* proportion and *(b)* number of post-A level students took a gap year before entering university in each of the last five years. [163991]

Mr. Ivan Lewis: The available information comes from the Universities and Colleges Admissions Service (UCAS) and covers deferred entry for 18-year-old, full-time, accepted applicants to first degree and HMD study in the UK. Figures are in the following table.

UK domiciled 18-year-old applicants, accepted through UCAS with deferred entry

Year of application	*Total accepted applicants*	*Total accepted on deferred basis*	*Percentage deferred*
1998/99	148,301	14,261	9.6
1999/00	146,670	14,975	10.2
2000/01	147,986	16,007	10.8
2001/02	156,790	18,840	12.0
2002/03	161,032	19,600	12.2

Source:
UCAS.

This information excludes students who defer making their application to UCAS until they are already taking a gap year.

Healthy Eating

Mr. Watson: To ask the Secretary of State for Education and Skills what meetings he has had with the *(a)* retail and *(b)* food and drink industry to discuss healthy eating in schools. [165033]

Mr. Stephen Twigg: My right hon. Friend the Secretary of State for Education and Skills has had several meetings with the retail and food industries to discuss healthy eating in schools.

Individual Learning Accounts

Mr. Swire: To ask the Secretary of State for Education and Skills what plans he has to compensate companies forced to close due to the termination of individual learning accounts. [164783]

Mr. Ivan Lewis: The Department has no plans to compensate learning providers in relation to their participation in the individual learning accounts (ILA) programme following the closure of the programme on 23 November 2001. The extent to which organisations made business decisions around ILA participation is something each organisation determined for itself.

Isle of Wight Youth Trust

Mr. Andrew Turner: To ask the Secretary of State for Education and Skills what grants he has paid to the Isle of Wight Youth Trust, Wight2BHeard, in each of the last three years; and under what programme. [162764]

Mr. Ivan Lewis *[holding answer 22 March 2004]:* During the last three years I have made no payments to the Isle of Wight Youth Trust, Wight2BHeard.

Opinion Sampling

Mr. Laws: To ask the Secretary of State for Education and Skills what his estimate is of total expenditure by his Department on *(a)* focus groups and *(b)* opinion polls in each year from 1995–96 to 2003–04; and if he will make a statement. [162754]

Mr. Charles Clarke: The Department commissions tightly focused market research to help with the strategic development of publicity campaigns and their evaluation. The expenditure on opinion and market research projects for the years since 1995 is listed in the following table. Information is not held in a form which would allow the projects to be differentiated into the categories requested; some would involve a combination of methodologies.

	£000
1995–96	596
1996–97	647
1997–98	863
1998–99	1,409
1999–2000	1,687
2000–01	2,340
2001–02	1,256
2002–03	2,078
2003–04 (to date)	1,564

Overseas Employees

Hugh Bayley: To ask the Secretary of State for Education and Skills how many nationals of sub-Saharan African countries are employed by *(a)* state schools, *(b)* local education authorities and *(c)* his Department (i) directly and (ii) through private agencies. [164421]

Mr. Miliband: Information on the nationality of employees in state schools, local education authorities and this department is not collected centrally.

Overseas Students

Mr. Andrew Turner: To ask the Secretary of State for Education and Skills how many students in higher education are from each EU country; what proportion from each country are assisted from public funds to meet the cost of fees or maintenance; and to what extent. [164081]

Alan Johnson *[holding answer 26 March 2004]:* The Government are required under Article 12 of the EC Treaty to treat EU students no less favourably than UK students with regard to tuition fees. EU students make a means-assessed contribution to their tuition fees, with the remainder being made up by the Government (via HEFCE). EU students are not entitled to receive support with maintenance costs.

Table A shows the number of full-time undergraduate students enrolled in England and Wales in 2002/03 by domicile. The percentages refer to the numbers of students qualifying for assistance with the means-assessed element of the tuition fees.

The percentage number of EU students qualifying for assistance is lower than the percentage of UK full-time undergraduate students enrolled in England and Wales in academic year 2001/02 who are receiving full or partial support with their tuition fees, as Table B shows.

Table A

Percentage

Domicile	*Enrolments*	*Full assistance*	*Partial assistance*
Greece	9,304	47	11
France	6,739	22	7
Germany	6,932	15	6
Irish Republic	3,998	36	7
Spain	4,253	27	4
Italy	2,597	32	7
Sweden	2,276	46	11
Finland	1,382	32	11
Belgium	1,291	7	3
Netherlands	1,041	17	6
Portugal	1,103	50	7
Denmark	863	39	8

Total	43,422	32	8

Table B

Percentage

	Full assistance	*Partial assistance*
UK students	43	16
EU Students	32	8

Parliamentary Questions

Mr. Sanders: To ask the Secretary of State for Education and Skills when he will answer the Questions tabled by the hon. Member for Torbay on 3 March for answer on 5 March, reference 159415 and 159416. [165493]

Margaret Hodge: A reply has been issued today.

School Building

Mr. Gardiner: To ask the Secretary of State for Education and Skills what assessment he has made of whether, in the Building Schools for the Future programme, adequate changing facilities are incorporated in school designs to allow all children to engage in sport on a daily basis to ensure that the Government can at least meet its targets on school sport and physical activity. [164837]

Mr. Miliband: The Building Schools for the Future programme aims to rebuild or refurbish all secondary schools to a high standard that will include sports facilities for both pupils and, outside schools hours, the local community to use. Changing and shower facilities remain a requirement of the Education (School Premises) Regulations 1999 for pupils who have attained the age of 11 years, and non-statutory guidance on the area and design of these spaces is included in the 'Area Guidelines for Schools': both current (building Bulletin 82) and revised (from April 2004, Building Bulletin 98: Briefing Guide for Secondary School Projects).

School Finance

Tom Brake: To ask the Secretary of State for Education and Skills if he will list the schools in

Carshalton and Wallington which ran a budget deficit in the year ending 31 March 2003; and how much this deficit was for each school. [163689]

Mr. Miliband: The information requested is submitted to the Department according to local education authority areas rather than districts within an area. Carshalton and Wallington is a district of Sutton local education authority. The information for Sutton LEA is as follows:

Schools which ran a deficit budget in the year ending 31 March 2003

£

School name	*Deficit budget*
Rushy Meadow Primary School	(57,769)
Devonshire Primary School	(54,017)

Notes:

1. The data are as reported by Sutton LEA as at 26 March 2004 and taken from their 2002–03 Section 52 Outturn Statement submitted to the DfES.
2. Section 52 is collected at local education authority level not constituency level and there were two schools in Sutton LEA with a deficit budget in 2002–03. Of these, Rushy Meadow Primary School is in Carshalton.
3. Deficit budget is taken from Table B column 13-other revenue balance. This includes the cumulative balance of income less expenditure from revenue funding sources during the financial year and the balance from previous years.
4. Figures are rounded to the nearest pound.

School Repairs (Stroud)

Mr. Drew: To ask the Secretary of State for Education and Skills (1) which schools in the Stroud constituency had at least one year when school repair capital spending was greater than £5,000 since 1997; [164169]

(2) what the total capital spending on school repairs for the Stroud constituency was for each year since 1997. [164170]

Mr. Miliband: The Department allocates capital funding to local education authorities (LEAs) and their schools. The majority of this capital support is allocated to schools and LEAs by formula, and they decide how to invest it in line with their asset management plans. The Department does not, therefore, have detailed information about all the capital investment in each school; this should be held locally.

The following table sets out the total capital support made by this Government to Gloucestershire LEA since 1996–97. This table includes devolved formula capital grants to schools and capital support for the voluntary aided sector.

	£ million
Gloucestershire LEA capital allocations	
1996–97	12.229
1997–98	7.947
1998–99	6.269
1999–2000	12.356
2000–01	24.862
2001–02	21.065
2002–03	22.917
2003–04	28.486

We have also already allocated indicative funding for future years worth approximately £34.6 million in 2004–05 and £20.1 million in 2005–06.

Websites

Mr. Heald: To ask the Secretary of State for Education and Skills what the total annual cost of his Department's websites, including those of its agencies, was in the most recent year for which figures are available. [159515]

Mr. Stephen Twigg: The information is as follows:

DfES—2003–04:

2003–04	£
Central website[1]	1,900,000
Customer facing portals[2]	978,000
Curriculum online[3]	2,394,598

[1] www.dfes.gov.uk
[2] 6 sites
[3] www.curriculumonline.gov.uk

Agencies—latest figures available:

Agency	*Total spent (£)*
Investors in People UK	160,000
QCA	380,000
CITB	315,000
ECITB	22,000
Sector Skills Development Agency (SSDA)	112,585
Adult Learning Inspectorate	38,489
TTA	517,000
BECTA	1,267,100
NGfL	1,111,500
NCSL	673,000
HEFCE	67,000

ENVIRONMENT, FOOD AND RURAL AFFAIRS

CAP

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make it her policy to commence negotiations to withdraw the UK from the Common Agricultural Policy. [163531]

Alun Michael: No. The Common Agricultural Policy is an integral part of the European Union's internal market. It would be bizarre to consider withdrawal at the point when we are achieving the reforms for which the UK has long argued. The changes will deliver a more rational CAP and we played a leading role in securing radical reforms last June. The reforms reflect our own goals for sustainable farming and will deliver better value for money to taxpayers and consumers, provide opportunities to boost farm incomes, bring benefits to the wider rural community, reduce damage to the environment and improve animal welfare.

As a result the reforms will bring benefits across the EU and to agricultural trade and development worldwide. The UK played a leading role in securing these reforms and we will continue to work within the EU for a more sustainable CAP.

Mr. Liddell-Grainger: To ask the Secretary of State for Environment, Food and Rural Affairs what help will be given to Exmoor farmers as a result of the mid-term Common Agricultural Policy reform. [161884]

Alun Michael: Exmoor farmers, like all others, will benefit from decoupling of subsidies from production.

Some representations have been made to my right hon. Friend the Secretary of State that the division of England into two regions; severely Disadvantaged Areas and land outside the SDA, might disadvantage some who farm within the SDA. As a result she has expressed her willingness to consider a small modification to the scheme to create a further region of moorland within the SDA if a case can be made that commands a broad consensus.

British Cattle Movement Service

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what role the British Cattle Movement Service plays in the tracing of stolen cattle. [164596]

Alun Michael: The British Cattle Movement Service (BCMS) acts as the Department's main contact with keepers and police forces in tracing stolen cattle.

The BCMS provides evidence from the Cattle Tracing Scheme database to help the police establish the true ownership of animals in disputed cases.

The BCMS also acts for keepers directly by marking animals reported to have been stolen and informing the local police force when any further notifications are made to them about these animals.

The BCMS works closely with agricultural departments' inspectors, the police and local trading standards officers to ensure that the theft, movement and disposal of stolen animals is made as difficult as possible.

Department-sponsored Bodies

Mr. Stephen O'Brien: To ask the Secretary of State for Environment, Food and Rural Affairs what the *(a)* resource budget, *(b)* administration costs and *(c)* staff numbers were for 2003 of the (i) Agricultural Wages Committees for England, (ii) Home Grown Cereals Authority, (iii) Horticultural Development Council, (iv) Horticultural Research International, (v) Milk Development Council, (vi) United Kingdom Register of Organic Food Standards, (vii) Wine Standards Board, (viii) Committee of Investigation for Great Britain, (ix) Committee on Agricultural Valuation, (x) Committee on Products and Processes for Use in Public Water Supply, (xi) Consumers' Committee for Great Britain under the Agriculture Marketing Act 1958, (xii) Hill Farming Advisory Committee for England, Wales and Northern Ireland, (xiii) Pesticide Residues Committee, (xiv) Water Regulations Advisory Committee, (xv) Zoos Forum, (xvi) Veterinary Laboratories Agency and (xvii) Veterinary Medicines Directorate. [165125]

Alun Michael: This information could not be provided without incurring disproportionate costs.

Departmental Costs

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what has been the total wage bill for her Department for each year since its inception; and what the projected figures for *(a)* total wages and *(b)* total staff numbers are for 2004–05. [164082]

Alun Michael: The expenditure and projected expenditure for DEFRA and its agencies is as follows:

	£000
2001–02	333,414
2002–03	380,358
2003–04	393,544
2004–05	387,291

The forecast staff numbers for 2004–05 is 13,106.

Illegal Hare Coursing

Mr. Simmonds: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what assessment her Department has made of the effect on the rural economy of illegal hare coursing; [163803]

(2) what plans she has to bring forward legislation to reduce illegal hare coursing. [163805]

Alun Michael: Hare coursing as such is not illegal at present. 'Illegal hare coursing' takes place when other offences are associated with the activity, the most common offence being that of trespass. Since it is not a defined activity, separate studies of the economic effect of 'illegal hare coursing' would not be appropriate. Nor is further legislation focused on 'illegal hare coursing' likely to reduce its scale. Enforcement requires effective police intelligence and the active support of people living in affected areas to obtain evidence of offences being committed. However, the Government considers all forms of hare coursing to be undesirable because it involves unnecessary suffering. Last session's Hunting Bill would therefore have made all hare coursing events illegal. Evidence of this offence would be easier to obtain and this would help enforcement.

Land Mapping

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs further to correspondence with the hon. Member for the Vale of York, whether all the mistakes made during the digitalisation of the mapping of land have now been corrected. [164595]

Alun Michael: The maps referred to in the correspondence have been edited and are awaiting agreement from the hon. Member's constituent.

Noble House

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what type of energy generation is used for the supply of electricity and heating to Noble House; and whether her Department has experienced problems with this method of energy generation. [164594]

Alun Michael: The electricity supply for Nobel House is taken from the National Grid. Defra's contract is for the supply of electricity from 100 per cent. renewable sources.

Power for heating the building is delivered by standard mains gas.

Within the last 12 months, apart from some fluctuations in pressure for gas, and one brief failure in the supply for electricity due to external road works, no problems have been reported.

Rural Payments Agency

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs under what Act the Rural Payment Agency is able to *(a)* demand money back from farmers and *(b)* deduct money from future payments after resolution of disputes over the slaughter premium scheme. [164599]

Alun Michael: A member state is obliged to recover any monies paid if an undue payment is made.

The basis upon which undue payments are recovered for Integrated Administration and Control System schemes, of which the Slaughter Premium Scheme is one, is Article 49 of Commission Regulation (EC) No. 2419/2001 laying down the detailed rules for applying the integrated administration and control system for certain Community aid schemes established by Council Regulation (EEC) No 3508/92.

The point raised at *(a)* is covered under paragraph 1 of this article;

> "If undue payment is made, the farmer shall repay the amount in question plus interest calculated in accordance with the time the undue payment was made and the repayment date and in accordance with the provisions of the national law."

The point raised at *(b)* is covered by Article 38 of Commission Regulation (EC) No. 2419/2001;

> "If the percentage established in accordance with paragraph 3 is more than 50% the farmer shall, moreover, be excluded once again from receiving aid up to an amount equal to that to be refused under the first subparagraph. This amount shall be offset against aid payments under the bovine aid schemes to which the farmer is entitled in the context of application he lodges in the course of the three calendar years following the calendar year of the finding."

Science Strategy

Dr. Iddon: To ask the Secretary of State for Environment, Food and Rural Affairs how her Department's Chief Scientific Adviser has ensured that the Department's scientific activities are well directed, as recommended in paragraph 7.11 of the Government's science strategy, Investing in Innovation, published in July 2002. [162484]

Alun Michael: Professor Howard Dalton FRS was appointed as Defra's Chief Scientific Adviser in March 2002. He is a full member of the Departmental Management Board. The Chief Scientific Adviser is responsible to Defra's Management Board and Ministers for the preparation of the Department's Science and Innovation Strategy. This sets out the vision for Defra science, and identifies the science needed to underpin and inform Defra policies across the three areas of environment, food and rural affairs. Defra's first Science and Innovation Strategy was published in May 2003.

CABINET OFFICE

Fisheries

Mr. Salmond: To ask the Minister for the Cabinet Office how much the Prime Minister's Strategy Unit report entitled, Net Benefits: a sustainable and profitable future for UK fishing cost to produce. [165070]

Mr. Alexander: The Strategy Unit's total budget for this financial year is £4.7 million, which funds a range of projects and other work.

A total of 12 people worked on the project, and six of these were engaged on a full time basis.

INTERNATIONAL DEVELOPMENT

BACS

Brian White: To ask the Secretary of State for International Development what progress his Department has made to manage the changeover from the Bank Automated Clearing System to the new BACSTEL-IP system for electronic payments. [164312]

Mr. Gareth Thomas: DFID has carried out some preliminary research with suppliers and will initiate a project in June to migrate our systems to BACSTEL-IP. It is anticipated that this project will be completed before the end of this year.

The requirement to comply with BACSTEL-IP has also been incorporated into the specifications for new systems.

Central America

John Robertson: To ask the Secretary of State for International Development if he will make a statement on his Department's aid policies for *(a)* Belize and *(b)* Central America. [164031]

Mr. Gareth Thomas: The information requested is as follows.

(a) In Belize our focus is on supporting the Government of Belize to meet the benchmarks for qualifying for debt relief under the Commonwealth Debt Initiative. We granted debt relief of £1.548 million for the year July 2002 to 30 June 2003 and reached agreement in principle to the granting of additional debt relief for a further two years from July 2003 to June 2005. Further debt relief is subject to progress on agreed benchmarks in line with the three Commonwealth Debt Initiative criteria of sound economic management, pro-poor policies and accountable and transparent governance. These are the key areas in which we operate a £600,000 strategic fund over the three year period from June 2003 to June 2006.

The UK supports the OAS-sponsored Confidence Building Measures in Belize and Guatemala through the FCO/DFID/MOD Global Conflict Prevention Pool. £1.5 million has been allocated for financial year

2004–05. Our projects are aimed at reducing tensions, encouraging co-operation between security agencies, Government Ministries and Non Governmental Organisations, and addressing the underlying causes of conflict.

In addition Belize benefits from DFID's regional programme for the wider Caribbean which focuses on trade, security sector reform, HIV/AIDS, public sector reform and economic and fiscal management.

(b) We are reviewing our aid policy in relation to Central America. In 2004–05 DFID's Central American programme will be about £5 million of which £3 million will be to support our programme in Nicaragua. The DFID office in Honduras closes in 12 months time and we will withdraw from specific in-country activities in support of the Honduran Poverty Reduction Strategy.

Our policy in Central America is to work with other bilateral donors in order to enhance the impact on poverty of major multilateral agencies, such as the World Bank and the Inter-American Development Bank. Current priorities include enabling poor people to shape, participate in and benefit from access to markets and regional trade, and from more accountable and responsive public sector management, and political systems. In addition we engage regionally on issues of global concern—HIV/AIDS prevention and security. We have a larger programme in Nicaragua, where we are actively involved in the Poverty Reduction Strategy process.

Congo

Mr. Gardiner: To ask the Secretary of State for International Development what support his Department is providing to the Congo Basin Forest Partnership; and whether his Department has participated in discussions about the partnership's objectives. [164588]

Hilary Benn: DFID welcomed the Congo Basin Forest Partnership when it was launched at the World Summit on Sustainable Development by the governments of the United States and South Africa. DFID staff have since participated in meetings of the Partnership in Africa. The UK contributes to the aims of the Partnership through DFID's work in Cameroon and our work in the region on forest law enforcement and governance.

EU Development Assistance

Mr. Bercow: To ask the Secretary of State for International Development if he will make a statement on the commitment of EU development assistance to *(a)* Baltic, *(b)* cross-border and *(c)* regional co-operation in 2002. [163859]

Mr. Gareth Thomas: EU assistance to the Baltic States is largely provided through the PHARE programme (PHARE stands for Poland and Hungary Assistance with Reconstruction, although the programme expanded to cover other countries). The objective of PHARE is to help candidate countries' preparations to accede to the European Union. This consists of technical assistance with the implementation of European legislation, and the building of institutional capacity. The Baltic States are also eligible for assistance under the ISPA programme (Instrument for Structural Policies for Pre-Accession: to help candidate countries to meet environmental standards) and the SAPARD programme (Special Accession Programme for Agriculture and Rural Development: to help candidate countries deal with the problems of the structural adjustment in their agricultural sectors and rural areas, as well as in the implementation of legislation concerning the CAP (Common Agricultural Policy) and related issues). The total planned allocation to the Baltic States under these three programmes was approximately €323 million in 2002.

In addition the Tacis programme (development assistance to the nations of Eastern Europe and Central Asia) contains an element for co-operation in the Baltic region. In 2002 this focused on the promotion of environmental protection and management of natural resources and support for the private sector and assistance for economic development. The total planned allocation for this in 2002 was approximately €8 million. Cross-border assistance also forms a part of the Tacis programme. It aims to assist border regions in overcoming specific developmental problems, encourage links between economic, social and transport networks, accelerate social and economic reform in the partner states and to reduce transboundary environmental risks and pollution. The total planned allocation for cross-border activities in Tacis in 2002 was approximately €27.5. The PHARE programme also contains provision for cross-border activities, the objective of which is to promote cooperation of border regions in countries in central and eastern Europe with adjacent regions in a neighbouring country. The total planned allocation for cross-border activities in PHARE in 2002 was approximately €151 million.

The PHARE and Tacis programmes, as well as the CARDS programme for assistance to the countries of the Western Balkans, contain the facility for spending to promote regional co-operation where that supports delivery of the overall objectives of the programme. It is not possible to produce an estimate for the total spending on regional co-operation in 2002 because this aspect is not individually accounted for in comparable ways across all of the programmes.

Fairtrade

Claire Ward: To ask the Secretary of State for International Development what action his Department is taking to promote the use of Fairtrade goods in the UK. [164089]

Hilary Benn: DFID works with the Fairtrade Foundation to promote the use of Fairtrade goods in the UK.

Through the Development Awareness Fund, we have provided 120,000 to the media campaigns of the Fairtrade Foundation. These are designed specifically to raise both supermarket and consumer awareness of products carrying the Fairtrade Mark. In 2002, DFID provided £300,000 to the Foundation to help extend the range of Fairtrade products on UK supermarket shelves over the next two years. We also gave a grant to support the Fairtrade town/city brand in the UK over three years. This year, I took part in the launch of Fairtrade Fortnight and participated in a number of other events.

DFID will continue to support Fairtrade initiatives that raise awareness of the impact our buying decisions can have on poverty.

Opinion Sampling

Mr. Laws: To ask the Secretary of State for International Development what his estimate is of total expenditure by his Department on *(a)* focus groups and *(b)* opinion polls in each year from 1995–96 to 2003–04; and if he will make a statement. [162747]

Mr. Gareth Thomas: In 1998, DFID commissioned Opinion Leader Research (OLR) to undertake baseline focus group research among the UK public. In 2003, we commissioned OLR to undertake further focus group research to explore ways of increasing understanding and support for international development in the UK. DFID also commissions two annual opinion polls on public attitudes to development. One poll, undertaken by the Office for National Statistics (ONS), monitors the opinion of the UK adult population, and the second, undertaken by Market and Opinion Research International (MORI), monitors the opinion of schoolchildren. In 1999, we also undertook a readership survey of "Developments" magazine, in order to test its impact and reach. The results of the focus group research and the opinion polls are used to inform, and monitor the impact of, our work on development awareness and education.

The Department for International Development was established in 1997. Information on focus group research and opinion polling undertaken in 1995–96 by the Overseas Development Administration is not held centrally, and could be obtained only at disproportionate cost.

Contracts for focus group and opinion poll research are let in accordance with agreed tendering procedures to ensure value for money. The annual cost of focus group research and opinion polls is detailed in the following table:

	Focus groups	*Cost (£)*	*Opinion polls*	*Cost (£)*	*Total (£)*
1997–98	OLR Baseline Study	43,000	—	—	43,000
1998–99	—		—	—	—
1999–2000	—		ONS Poll	28,200	44,704
			MORI Poll	14,700	
			Developments Survey	1,804	
2000–01	—		ONS Poll	33,000	47,629
			MORI Poll	14,629	
2001–02	—		ONS Poll	34,300	45,815
			MORI Poll	11,515	
2002–03	—		ONS Poll	31,880	43,395
			MORI Poll	11,515	
2003–04	OLR Research	50,309	ONS Poll	32,990	95,519
			MORI Poll	12,220	

Register of Interests

Bob Spink: To ask the Secretary of State for International Development what the requirements are on officials in his Department to declare current interests; and what register of interests is kept for his departmental officials. [164702]

Mr. Gareth Thomas: DFID follows Cabinet Office guidance on the disclosure of interests that is set out in Section 4.3 of the Civil Service Management Code. The letters of appointment for staff draw their attention to the rules on use of official information and related activities that are set out in full in our Staff Handbook. The Handbook states that employees must obtain permission from the Head of Human Resources (a Senior Civil Servant) before entering into any business or financial dealings with individuals or businesses with whom they come into official contact, either directly or indirectly. They must also declare immediately if, in the course of their work, they come into contact with an outside organisation in which they have an interest. We do not hold an official register of interests. There is no requirement to do so.

Water Supplies (Africa)

Mr. Nigel Jones: To ask the Secretary of State for International Development what assistance is being made available by *(a)* the United Kingdom under bilateral arrangements, *(b)* the European Union, *(c)* the United States of America and *(d)* aid agencies to develop clean water supplies in sub-Saharan Africa; and if he will make a statement. [164303]

Hilary Benn: The UK is working with the EU Water Initiative finance working group to improve the tracking of aid flows in the water sector. This is because different donors currently use different criteria to calculate support to the water sector or track support within multi sector projects. Figures may also include or exclude related issues such as water resources management or concessional loans. Data on water expenditure are not, therefore, directly comparable. The most recent available data for support to the water sector in sub-Sahara Africa 2001–02 show expenditure as:

UK = £29million (NAO 2003 report, excludes programme aid)

USAID = $12.4 million (based on OECD figures)

European Commission = Euro 210.7 million (based on OECD figures)

European Member States total = $ 1.2 billion

The UK figure does not include our contributions to the European Commission development funds or other multilateral organisations. UK figures include only direct expenditure on the water sector and not multi-sector projects. EC and US figures include broader resource management projects and concessional loans.

DFID's approach to these issues is set out in the Water Action Plan which I presented to the House on 5 April 2004.

Wildlife Management

Mr. Gardiner: To ask the Secretary of State for International Development (1) if he will assist the governments of *(a)* Ghana and *(b)* Cameroon in implementing the indicative actions of the African Forest Law Enforcement and Governance ministerial declaration with respect to (i) wildlife and (ii) bushmeat; [164669]

(2) what new funding has been released to improve wildlife management since the publication of the Department's Wildlife and Poverty Study; [164670]

(3) what resources have been allocated to ensure that wildlife and bushmeat issues are incorporated into poverty assessments since the publication of the Department's Wildlife and Poverty Study. [164671]

Hilary Benn: The Department for International Development (DFID) is committed to working with the governments of Ghana and Cameroon to strengthen their capacity to deal with wildlife and poverty issues. We do this by supporting sector reform. It is for the governments concerned to prioritise actions within their sector reform programmes. Whether or not these governments choose to prioritise the "indicative actions" included in the Africa Forest Law Enforcement and Governance (AFLEG) Declaration, DFID's support will be to the programme as a whole and not to any particular elements of it.

The DFID Wildlife and Poverty Study estimated that 150 million very poor people are significantly dependent on wildlife for their food and livelihoods, and that bushmeat is one important part of this. The study drew out implications for donors, governments, the private sector and civil society, but did not make any explicit recommendations to DFID. No new funding has been released specifically to improve wildlife management since its publication. We have however disseminated the findings of the study widely.

DFID has a two-pronged strategy for ensuring that biodiversity is integrated into development policy and practice by:

supporting partner governments to identify links between biodiversity and poverty and integrate environmental matters, including biodiversity, into their national policy frameworks for poverty reduction (DFID includes biodiversity in its screening processes for bilateral programmes).

promoting the adoption of strategic environmental assessments in the multilateral agencies DFID supports, the EC, the UN, the development banks and others.

SOLICITOR-GENERAL

District Judges

Vera Baird: To ask the Solicitor-General how many district judges (crime) it is intended will be in post in Teesside in 2004. [164445]

Mr. Leslie: I have been asked to reply.

There will be two additional district judges (magistrates courts) in post in Teesside in 2004, from May this year making three in total.

Electronic Tagging

Vera Baird: To ask the Solicitor-General what the Crown Prosecution Service's policy is on prosecuting for criminal damage people on home detection curfew who remove or break their electronic tag. [164444]

The Solicitor-General: An offender who intentionally damages their electronic tag in order to secure its removal or intentionally damages the monitoring equipment will be in breach of the licence conditions for early release from prison. The electronic monitoring contractor will submit a report to the Early Release and Recall Unit of HM Prison Service, which may result in the licence being revoked and the offender recalled to prison.

It is for the electronic monitoring contractors to consider reporting to the police for investigation any allegation of criminal damage caused to the tag or the monitoring equipment. Any subsequent decision to pursue a prosecution for criminal damage will be taken by the Crown Prosecution Service in accordance with guidance in the Code for Crown Prosecutors.

CULTURE, MEDIA AND SPORT

Advertising and Obesity

Mr. Watson: To ask the Secretary of State for Culture, Media and Sport what assessment she has made of links between television advertising and obesity in children. [165031]

Estelle Morris: My right hon. Friend the Secretary of State has made no separate assessment of links between TV advertising and obesity in children but the Department continues to participate in the consultations being undertaken by the Food Standards Agency on the possible impact of broadcast advertising on childhood obesity.

The Secretary of State has also asked Ofcom to examine the adequacy of its codes regulating the content of broadcast advertising of food to children and Ofcom has indicated that it will make its own assessment of the evidence.

The impact of food promotion must be considered in the context of the wide range of factors which may have an influence on the increase in childhood obesity, which the Government are addressing through a number of cross-departmental initiatives.

Community Fund

Jon Trickett: To ask the Secretary of State for Culture, Media and Sport what proportion of Community Fund grants have been distributed to wards in the 20 per cent.most deprived wards in the country according to the 2000 indices of deprivation. [164629]

Estelle Morris: The specific information requested could only be provided at disproportionate cost. However, the joint Community Fund/New Opportunities Fund Fair

Share initiative aims to make Lottery funding more readily available to disadvantaged communities in 77 local areas, which so far have not received their fair share of Lottery funding. The 77 Fair Share areas were selected on the basis of deprivation and low levels of Lottery funding. In England, the levels of deprivation were determined by the Index of Multiple Deprivation 2000.

Funding (Redbridge)

Linda Perham: To ask the Secretary of State for Culture, Media and Sport how much was spent from central government funds per capita on cultural and sporting activities in the London Borough of Redbridge since 1997. [164880]

Mr. Caborn: Central government funds have been spent on cultural and sporting activities in the London Borough of Redbridge since 1997 as follows:

The London Borough of Redbridge received funds directly from DCMS in 2000–01 through the DCMS/ Wolfson Fund. The Borough was part of a consortium of ten local authorities that received a total of £160,000 for Reader Development projects. It is not possible to determine what proportion of this money was allocated to Redbridge.

The London Borough of Redbridge has received the following funds from the Department's directly-funded non-departmental public bodies since 1997.

Arts Council England

Financial year	*Grant (£)*	*Details*
1997–98	8,000	To support year 2 (of 3) Partnership funding to implement an arts education development programme
1998–99	8,000	To support year 3 (of 3) Partnership funding to implement an arts education development programme
2000–01	1,000	Towards the cost of dance company residencies in schools as part of the Redbridge Dance Festival 2001
2003–04	10,000	Towards the costs of outreach and education activities linked to Redbridge Dance Festival 2004, and research and planning to support
Total	27,000	

English Heritage

Financial year	*Grant (£)*	*Details*
1997–98	70,000	Since 1997, English Heritage has offered 10,000 p.a. towards the cost of employing a Conservation Officer at Redbridge Council
1999–2000	6,848	Chapel at Wanstead Hospital
2000–01	25,000	Repairs to the Portico at Valentines Mansion
2003–04	3,000	Repairs to "Temple", The Avenue, Wanstead
	71,000	Contribution of £12,000 to costs of Stage 1 preparatory works towards major repairs to the Chapel of St. Mary and St Thomas, Ilford, with agreement to a further £59,000 towards repairs following successful completion of Stage 1.
Total	175,848	

The total funding from both Arts Council England and English Heritage since 1997 is £202,848. Based on a resident population of 238,635 as measured in the 2001 Census, this equates to £0.85 per person.

Expenditure on cultural services in Redbridge is also supported by the Environmental, Protective and Cultural Services (EPCS) block of the formula grant. The amount of money that a local authority spends on cultural services is a matter for each individual authority.

Licensees

Mr. Keetch: To ask the Secretary of State for Culture, Media and Sport what funding will be offered by her Department to help licensees meet the terms of the Licensing Act 2003; and if she will make a statement. [165077]

Mr. Caborn: We have made it repeatedly clear that the licensing regime to be established under the Licensing Act 2003 should permit the full recovery of the licensing authorities' costs of administration, inspection and enforcement under that regime. We do not consider that taxpayers should subsidise applicants for authorisations under the 2003 Act, save in two instances. During the passage of the Licensing Bill, we gave undertakings in both Houses that schools, sixth form colleges and village, parish or other community halls would be exempted from fees associated with the provision of regulated entertainment. The licensing authorities' costs in these cases will be met by central Government. When compared with the continued operation of the existing licence regimes, we estimate that industry will save £1.97 billion over the first 10 years of the operation of the new regime.

Mr. Keetch: To ask the Secretary of State for Culture, Media and Sport what guidance her Department *(a)* has issued and *(b)* plans to issue to licensees regarding the Licensing Act 2003; and if she will make a statement. [165109]

Mr. Caborn: The Guidance laid in Parliament on 23 March under section 182 of the Licensing Act 2003 is guidance to licensing authorities on the discharge of their functions under the 2003 Act, but we hope that it will also be beneficial and helpful to future applicants for authorisations under that Act.

More generally extensive guidance about the Licensing Act 2003 can be found on the DCMS website (www.culture.gsi.gov.uk). In addition, we continue to work closely with local government representatives, representatives of performers, trade associations and other stakeholders on the dissemination of information that will assist potential licensees in understanding their duties and responsibilities under the new Act.

National Lottery

Mr. Breed: To ask the Secretary of State for Culture, Media and Sport how much National Lottery funding has been allocated to sporting projects in Cornwall in the past five years, broken down by lottery distributor. [165720]

Estelle Morris: The information shown in the table is broken down by calendar year. It is derived from information supplied to the Department for Culture, Media and Sport by the Lottery distribution bodies, although the Lottery funding totalled in the table came exclusively from Sport England.

	£
1999–2000	67,966
2000–01	142,000
2001–02	192,096
2002–03	104,104
2003–04	12,018

The New Opportunities Fund, the Community Fund and the Awards for All programme also channel funding into projects that may involve an element of sport, however it is not possible to identify this precisely.

OFCOM Consultations

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport if she will list the consultations launched by Ofcom since October 2003, broken down by *(a)* estimated cost, *(b)* length of consultations and *(c)* number of responses; and if she will make a statement. [165009]

Estelle Morris: The matter raised the responsibility of OFCOM as independent regulator. Accordingly, my officials have asked the Chief Executive of Ofcom to respond directly to the hon. Member. Copies of the Chief Executive's letter will be placed in the Libraries of both Houses.

Physical Activity

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what estimate her Department has made of progress towards achieving the physical activity target established in Game Plan; and if she will make a statement. [165005]

Mr. Caborn: The first national survey to measure physical activity levels in the population since the publication of Game Plan was the 2003 Health Survey for England, which is likely to report in December 2004.

In the absence of these data it is difficult to estimate progress against the target established in Game Plan, other than that which can be inferred from ongoing strategies to increase participation in sport and physical activity.

We will include initial proposals for monitoring and evaluation of measures to increase physical activity in a forthcoming ACT discussion document to be published shortly.

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what research her Department has commissioned on physical activity, broken down by the *(a)* cost, *(b)* recipient of the contract and *(c)* number of copies of the research published; whether it was published online; and if she will make a statement. [165006]

Mr. Caborn: Sport England, a non departmental public body of the Department for Culture, Media and Sport, is working with other Government Departments and Agencies including the Department of Health and the Health Development Agency to undertake research in this area.

This will contribute to the work of the Activity Co-ordination Team (ACT) created in response to the joint Department for Culture, Media and Sport/Strategy Unit Report Game Plan. ACT has reviewed existing Government research and will include a draft research strategy in a forthcoming ACT discussion document to be published shortly.

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what representations she has received from *(a)* Sport England, *(b)* the regional sports boards, *(c)* the Department for Health, *(d)* the Treasury, *(e)* the Prime Minister's Strategy Unit and *(f)* other Government bodies on the physical activity target set in the Game Plan; and if she will make a statement. [165007]

Mr. Caborn: The Activity Co-ordination Team is considering the feasibility of the Game Plan target and how a partnership between Government, the wider public sector, private and voluntary sectors can work together to meet it. Derek Wanless recommended that the Government's physical activity targets be reviewed. ACT will shortly be publishing a discussion document on delivering increased physical activity, including appropriate targets.

Register of Interests

Bob Spink: To ask the Secretary of State for Culture, Media and Sport what the requirements are on officials in her Department to declare current interests; and what register of interests is kept for her departmental officials. [164700]

Mr. Caborn: The Civil Service Management Code sets out the requirement for civil servants declaring any conflict of interest. This is brought to the attention of staff in the Department through the Staff Guide. It also identifies areas where a conflict of interest between private and departmental interests could potentially occur, and explains the procedure for the raising of and, where appropriate, the recording of any such conflict with senior management.

Subtitling

Mr. Jim Cunningham: To ask the Secretary of State for Culture, Media and Sport if she will make a statement on how her Department is responding to Ofcom's recommendations for subtitle provision, with particular reference to live events. [165135]

Estelle Morris: The Government are committed to extending access to broadcasting services for people who are deaf or hard of hearing—hence the new statutory requirements in the Communications Act 2003. The Act requires Ofcom to draw up a code on

subtitling provision and gives them the ability to exclude programmes and services from the subtitling requirements after considering a number of criteria including the extent of the benefit for disabled people and technical difficulty.

Ofcom consulted on a draft code and I understand that, in light of representations received, Ofcom do not now propose to exempt live programming from the subtitling requirements. Indeed Ofcom have concluded that it is important that live programming should be included in the requirement and we welcome that conclusion.

Ticket Touting

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what discussions her Department has had with *(a)* concert venues, *(b)* tour promoters, *(c)* artists, *(d)* music fans and *(e)* others regarding ticket touting; and if she will make a statement. [164482]

Estelle Morris: I have had no formal discussions with these groups on this issue.

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what guidance her Department has issued to internet auction sites regarding ticket touts; and if she will make a statement. [164483]

Estelle Morris: I have issued no guidance to internet auction sites regarding ticket touts.

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what research her Department has commissioned into the impact of ticket touting *(a)* in person, *(b)* through published advertisements, *(c)* via internet auction sites and *(d)* through other means on the live music industry in the United Kingdom; and if she will make a statement. [164484]

Estelle Morris: None.

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what instructions her Department has issued to the Live Music Forum regarding the impact of ticket touting on live music; and if she will make a statement. [164485]

Estelle Morris: None. The Forum's aims are to: maximise the take-up of reforms in the Licensing Act 2003 relating to the performance of live music; promote the performance of live music generally; monitor and evaluate the impact of the 2003 Act on the performance of live music; and make recommendations for further action. It will be up to the Forum to decide how best to achieve these aims.

PRIME MINISTER

Counter-terrorism (EU)

Llew Smith: To ask the Prime Minister further to his oral statement on the outcome of the European Council of 29 March 2004, *Official Report*, column 1259, if he will list the names of the candidates from which the new EC counter-terrorism co-ordinator was chosen; what the reasons were for the choice; and whether the co-ordinator will have the authority to review the security of nuclear materials in transport as part of his responsibilities. [165578]

The Prime Minister: The counter-terrorism co-ordinator is personally appointed by and responsible to the Secretary-General of the European Council, Javier Solana.

The co-ordinator will be responsible for co-ordinating the counter-terrorism work of the Council. The security of nuclear materials in transport remains a national responsibility for member states.

Human Rights (China)

Norman Baker: To ask the Prime Minister whether he raised human rights issues with Jiang Zemin at his meeting with him in 1999. [165589]

The Prime Minister: I discussed a wide range of issues with President Jiang Zemin during his state visit to the UK in 1999 including bilateral relations, economic co-operation and human rights issues.

Libya

Llew Smith: To ask the Prime Minister pursuant to his oral statement on Libya of 29 March 2004, *Official Report*, column 1267, on which date Libya first volunteered information on the extent of their chemical and nuclear weapons programmes; to which countries the highly sensitive documentation and weapons of mass destruction (WMD) related equipment were removed; by whom and how it was decided to where this equipment should be removed; and if he will place in the Library written declarations Libya has made in respect of its WMD programme. [165572]

The Prime Minister: On 19 December, Libya declared its intention to dismantle completely and verifiably its weapons of mass destruction programmes and to limit the range of its missiles.

The UK and US assisted Libya by removing all declared nuclear weapons related material to secure locations in the US. This was done with the full knowledge, agreement and cooperation of the International Atomic Energy Agency (IAEA).

No chemical weapons material related has been removed from Libya. Under the supervision of the Organisation for the Prohibition of Chemical Weapons (OPCW), all Libya's declared chemical weapons munitions have been destroyed. We are currently in discussions with the Libyan authorities concerning the destruction of their chemical agents.

Within their respective remits, the responsibility for verifying Libya's written declarations lies with the IAEA and the OPCW. The Libyan authorities have fully informed these organisations about the details of their weapons programmes. Copies of the IAEA's and OPCW's initial reports on Libya's nuclear and chemical weapons programmes have been placed in the Library of the House.

The UN has welcomed this move by Libya as a positive step towards the strengthening of global efforts to prevent the spread and use of weapons of mass destruction.

Lockerbie

Mr. Dalyell: To ask the Prime Minister what response he has given to the letter from Mrs. Pamela Dix, Secretary of UK Families Flight 103, requesting a meeting on his discussions with the Libyan leaderships about Lockerbie. [165367]

The Prime Minister: I will be happy to meet the representatives of the Lockerbie families, as soon as a mutually convenient time can be found. I will brief the families about my talks with Colonel Qadhafi and discuss the issues with them

Majid Nawaz

Mr. Amess: To ask the Prime Minister if he will make representations to the President of Egypt that he grant a pardon to Majid Nawaz. [165227]

The Prime Minister: We will consider any further action in relation to Majid Nawaz when we have received a transcript of the judge's summation of the verdict.

Postwatch

Mrs. Calton: To ask the Prime Minister what representations he has received about line management in Postwatch. [165372]

The Prime Minister: As far am I am aware, none.

Provisional IRA

David Burnside: To ask the Prime Minister whether he discussed the supply of arms and explosives to the Provisional IRA with Colonel Gaddafi last week. [165219]

The Prime Minister: I discussed a wide range of issues with Colonel Gadaffi including international and regional security issues, including terrorism.

Rogue States

Mr. Gummer: To ask the Prime Minister pursuant to his answer of 19 January 2004, *Official Report*, column 923W, on rogue states, whether he has determined that *(a)* Israel, *(b)* India and *(c)* Pakistan fall within the definition given of a rogue state. [165524]

The Prime Minister: We continue to have serious concerns about proliferation activities in all three states, and regularly raise these concerns with them.

SCOTLAND

Strip Stamps

Mr. Alan Reid: To ask the Secretary of State for Scotland what discussions he has held with the First Minister of Scotland with regard to the introduction of tax stamps on bottles of spirits. [164566]

Mr. Darling: I discuss a wide range of topical issues with the First Minister of Scotland.

TRANSPORT

Anonymous Tip-offs

Mr. Wyatt: To ask the Secretary of State for Transport how many cases raised through anonymous tip-offs in *(a)* 2001, *(b)* 2002 and *(c)* 2003 were referred to the police for further investigation. [164479]

Mr. Jamieson: The Vehicle and Operator Services Agency has not had any cases of anonymous tip-offs in the South East that have resulted in a police investigation.

Mr. Wyatt: To ask the Secretary of State for Transport how many successful cases were brought against transport companies in Sittingbourne and Sheppey as a result of anonymous tip-offs in *(a)* 2001, *(b)* 2002 and *(c)* 2003. [164480]

Mr. Jamieson: Neither VOSA or The Office of the Traffic Commissioner in the South East holds a record of the number of successful cases that were brought against companies as the result of an anonymous tip-off.

Buses

Mr. Redwood: To ask the Secretary of State for Transport if he will make a statement on modernisation of bus fleets under his bus strategy. [164839]

Dr. Howells: Continuation of the currently high levels of investment by the bus industry in new, modern accessible vehicles is an important part of encouraging bus use and improving local transport provision.

We agreed targets in 2002 with the Confederation of Passenger Transport (CPT), which represents the vast majority of bus operators in the UK, for reducing the average age of the bus fleet and for increasing the accessibility of vehicles.

The CPT has committed its members in Great Britain to a target which aims to achieve and maintain an average fleet age of eight years for their vehicles which are mainly used for local bus services, during the period up to 2010. The latest available figure shows an average vehicle age of 7.5 years.

We are also tracking the proportion of full size bus fleet that is fully accessible, the aim being to ensure that 50 per cent. of vehicles are fully accessible by 2010. The latest available figure shows that 29.3 per cent. of the full size bus fleet currently meet these requirements.

Crossrail

Chris Grayling: To ask the Secretary of State for Transport if he will make a statement on the viability of the proposal to extend Crossrail to Kingston via Richmond. [164492]

Mr. McNulty: The Crossrail proposals submitted by Cross-London Rail Links Ltd. (CLRL) include a branch to Kingston. The Review set up by my right hon. Friend under the chairmanship of Adrian Montague has necessarily considered this branch as part of its

assessment of the overall deliverability of the proposed team. My right hon. Friend is currently considering the Review Team's findings, which will be published in due course.

Driver Vehicle Licensing Agency

Mr. Greg Knight: To ask the Secretary of State for Transport how many motor vehicles equipped with cameras are used by or on behalf of the Driver Vehicle Licensing Agency for the purpose of recording untaxed car use; what the total cost has been of such vehicles and equipment; and upon what basis decisions are made concerning their deployment. [165190]

Dr. Howells: DVLA has 15 automatic number plate reader (ANPR) vans—12 in the UK and three in Northern Ireland. These units have been in operation since October 2001. They are equipped with cameras used to detect unlicensed vehicles on the public road. The annual running cost is approximately £1.2 million.

These vehicles are deployed throughout the UK and Northern Ireland. They work closely with the police on joint operations to target areas of high VED evasion and are also involved in DVLA publicity campaigns. DVLA has a program of campaigns which cover all areas of the UK over an 18 month period.

In addition to DVLA's own vehicles police automatic number plate reader cameras are used to identify unlicensed vehicles. This initiative, named Project Laser, was launched in June 2003 and currently involves 23 police forces in the UK.

Mr. Greg Knight: To ask the Secretary of State for Transport if he will list, by county, the areas in which motor vehicles equipped with cameras used by or on behalf of the Driver Vehicle Licensing Agency for recording untaxed car use have been deployed during the last 12 months. [165192]

Dr. Howells: DVLA's Automatic Number Plate Reader (ANPR) vehicles are deployed throughout the UK and Northern Ireland to target areas of high vehicle excise duty evasion. They work closely with the police on joint operations and are also involved in DVLA publicity campaigns. DVLA has a programme to cover all areas of the UK.

In addition to the DVLA's own vehicles police automatic number plate reader cameras are used to identify unlicensed vehicles. This initiative, named Project Laser, was launched in June 2003 and involves 23 police forces in the UK. This operation also covers large areas of the UK.

Electronic Vehicle Licensing System

Mr. Hancock: To ask the Secretary of State for Transport what the original targets for the implementation of the Electronic Vehicle Licensing System were; and what the current forecast is; and if he will make a statement. [164617]

Mr. Jamieson: The original target for implementation of the Electronic Vehicle Relicensing system was February 2004. This target was achieved on 18 February when the first customers used the telephone and internet to purchase their vehicle licence. The service also gives customers the opportunity to make a Statutory Off Road Notification (known as SORN) using the electronic channels. This service is being introduced in a phased approach, customers will be notified when they are eligible to use the service through their Vehicle Licence Application form.

Eurostar (Near Collision)

Mr. Redwood: To ask the Secretary of State for Transport if he will make a statement on the near collision of two Eurostar trains on 23 March. [164430]

Dr. Howells: Network Rail are undertaking a full internal investigation into an incident involving two Eurostar trains which occurred on 22 March. The Health and Safety Executive (HSE) will be reviewing Network Rail's report on the incident. The HSE advise that one train was stationary at a signal and the other was travelling at very low speed.

Heavy Goods/Public Service Vehicles

Mr. Paul Marsden: To ask the Secretary of State for Transport how many routine vehicle checks were carried out on *(a)* heavy goods vehicles and *(b)* public service vehicles on road freight transport operators' premises in each of the last 10 years. [163836]

Mr. Jamieson: The number of roadworthiness fleet checks carried out by the Vehicle and Operator Services Agency (formerly the Vehicle Inspectorate) on heavy goods vehicles and public service vehicles in each of the last 10 years is shown in the following table:

Roadworthiness fleet checks

Vehicle category	*HGV*	*PSV*
2002–03	26,487	4,499
2001–02	25,500	4,661
2000–01	39,260	5,197
1999–2000	39,048	5,298
1998–99	39,425	5,759
1997–98	45,170	6,439
1996–97	44,520	7,112
1995–96	48,749	6,800
1994–95	50,942	6,804
1993–94	57,869	8,123

Note:
The figures for HGV include checks carried out on trailers.

The reduction in the number of checks carried out in more recent years reflects a change of focus by VOSA on the way its activities are undertaken. Through better data analysis and more effective targeting, VOSA activities increasingly focus on the value of the activity in terms of improving road safety and environmental protection rather than the pure number of inspections.

Jubilee Line

Miss McIntosh: To ask the Secretary of State for Transport whether the British Transport Police were called to the incident involving a train radio fault on the Jubilee Line on 27 March. [165097]

Mr. McNulty: This is an operational matter for London Underground, who since last July have been part of Transport for London. I understand from London Underground that while British Transport

Police (BTP) were made aware of the technical fault with the Jubilee Line radio system on 27 March, there was no need for the BTP to attend.

Litterbugs

Mr. Paul Marsden: To ask the Secretary of State for Transport how many successful prosecutions were carried out against passengers for dropping litter on *(a)* trains and *(b)* buses last year. [165151]

Mr. McNulty: The British Transport Police have advised me that there were no successful prosecutions against passengers dropping litter on trains during 2003. Two people were successfully prosecuted for littering offences on railway stations. Information on prosecutions for dropping litter on buses is not collected centrally.

M6

Michael Fabricant: To ask the Secretary of State for Transport whether funding was provided for the signage for the M6 toll motorway by the CAMBRA construction consortium. [164946]

Mr. Jamieson: Funding for the signage of the M6 Toll and its approaches was provided by Midland Expressway Ltd. Signing within local town centres indicating routes to the toll road was paid for by the relevant local authorities.

Michael Fabricant: To ask the Secretary of State for Transport whether funding was provided for the signage for the M6 toll motorway by *(a)* Midland Expressway Ltd., *(b)* his Department, *(c)* the Highways Agency and *(d)* a combination of public and private finance. [164673]

Mr. Jamieson: Funding for the signage of the M6 Toll and its approaches was provided by Midland Expressway Ltd. Signing within local town centres indicating routes to the toll road was paid for by the relevant local authorities.

My Travel

John Thurso: To ask the Secretary of State for Transport (1) what advice his Department has received from the Civil Aviation Authority on whether My Travel's ATOL bond is sufficient to meet customer claims in the event of that company's financial failure; [164643]

(2) what funds the Air Travel Trust Fund would be required to provide to cover the cost of air tickets in the event of the financial failure of My Travel. [164644]

Mr. McNulty: The Civil Aviation Authority (CAA) provides advice to the Department on a range of issues connected with the operation of the ATOL scheme.

In the event of insolvency of any ATOL holder, the bond would be used to cover the costs of repatriation of customers abroad at the time of the failure and to reimburse those who have paid for their holiday or air ticket but yet to travel.

Due to the seasonal nature of the package travel industry, travel organiser liability varies throughout the year. The level of bond that ATOL holders establish with the CAA is based on their projected licensable turnover but if in the event of insolvency the bond proves to be insufficient, monies from the Air Travel Trust Fund would be used to make up the difference.

Office of the Traffic Commissioner

Mr. Wyatt: To ask the Secretary of State for Transport if he will ask an external body to audit the work of the Office of the Traffic Commissioner in Eastbourne. [164481]

Mr. Jamieson: The Traffic Commissioner for the South East and Metropolitan Area based in Eastbourne is statutorily independent in his licensing functions and not subject to audit.

His administrative support is provided by staff of the Department for Transport whose work is periodically audited under arrangements agreed with the National Audit Office and there is no need to advance the standing programme.

Port Security

Patrick Mercer: To ask the Secretary of State for Transport how much his Department spent in the 2003–04 financial year on the training of port security officers. [165107]

Mr. Jamieson: My Department's Transport Security Directorate (TRANSEC) was responsible for developing the required training parameters for PFSOs and approving the training providers, TRANSEC absorbed the necessary staff costs associated with developing the regime. In addition TRANSEC is also absorbing the subsequent costs of conducting unannounced audits to ensure that the trainers are teaching the approved syllabus to the required standard.

However, industry is meeting the costs of putting individual PFSOs through the training courses. Courses generally run for three days (21 hours) and costs vary between the approved training providers; the range being £300 to £2,000 per candidate per course.

Approved training providers are listed on the Departmental website at: www.dft.gov.uk.

Powered Two-wheelers

Lembit Öpik: To ask the Secretary of State for Transport pursuant to his answer of 18 March 2004, *Official Report*, column 405W, on powered two-wheelers, when he expects to be able to provide the figures requested. [164897]

Mr. Jamieson: Casualty statistics for Two Wheeled Motor Vehicle users in 2003 are due to be published as part of the "Road Casualties in Great Britain—Main Results" bulletin on 24 June 2004. A copy of the bulletin will be placed in the Libraries of the House.

Rail Services (Kent)

Jonathan Shaw: To ask the Secretary of State for Transport what assessment he has made of the change in the numbers of those using the *(a)* A2 and *(b)* M2 as a consequence of the Strategic Rail Authority's Integrated Kent Franchise proposals. [162504]

Mr. McNulty: The SRA has examined the shift from road to rail on an aggregate basis, not by individual roads, as part of the appraisal of the Integrated Kent Franchise. The impact of the Integrated Kent Franchise on road usage will depend on the pattern of services chosen following the consultation exercise currently in progress.

Regional Assemblies

Ann Winterton: To ask the Secretary of State for Transport what *(a)* responsibility for local transport plans and *(b)* functions of the Highways Agency could be transferred to regional assemblies. [164548]

Mr. McNulty: The transport powers of elected regional assemblies were set out in the White Paper "Your Region, Your Choice: Revitalising the English Regions" (Cm5511).

Elected regional assemblies will be responsible for advising government on funding allocations for local transport, taking over functions currently exercised by regional government offices. There are no plans to transfer the functions of the Highways Agency to regional assemblies.

Register of Interests

Bob Spink: To ask the Secretary of State for Transport what the requirements are on officials in his Department to declare current interests; and what register of interests is kept for his departmental officials. [164712]

Mr. McNulty: The Department's staff are required to inform line managers and Human Resources of any conflict of interests. The Department does not keep a register for conflicts of interests.

Seatbelts

Jim Dowd: To ask the Secretary of State for Transport how many applications for exemption from the requirement to wear a seat belt in the front seat of a car on the public highway have been *(a)* received and *(b)* granted in each of the past 10 years. [165236]

Mr. Jamieson: There is no requirement for vehicle users to apply for such exemptions. The Motor Vehicles (Wearing of Seat Belts) Regulations 1993 (SI 1993 No. 176), and The Motor Vehicles (Wearing of Seat Belts by Children in Front Seats) Regulations 1993 (SI 1993 No. 31) provide exemptions for specific situations and/or occupational groups.

Doctors can also exempt a person from the requirement to use a seat belt on medical grounds. The Regulations are available on-line at: www.legislation.hmso.gov.uk.

South Hampshire Rapid Transit Project

Mr. Hancock: To ask the Secretary of State for Transport if he will make a statement on progress with the South Hampshire Rapid Transit project, with particular reference to the expected starting date. [163900]

Mr. McNulty: This scheme remains under consideration following a significant increase in the proposed level of central Government funding. A decision will be made in due course.

Track Access Costs

Mr. Paul Marsden: To ask the Secretary of State for Transport if he will list the track access costs for each train company for each year since 1997. [164823]

Mr. McNulty: The track access costs since 1997 are in the following table. These figures include both the fixed and variable track access charges and charges for the use of stations and depots.

Track access costs

£ million

TOC Name	*Sector*	*1996–97*	*1997–98*	*1998–99*	*1999–2000*	*2000–01*	*2001–02*	*2002–03*	*2003–04*

Traffic Calming

Bob Spink: To ask the Secretary of State for Transport what proportion of claims against local authorities in each of the last five years related to incidents involving *(a)* speed humps and *(b)* other methods of traffic calming; and if he will make a statement. [165057]

Mr. McNulty: Information about claims against local authorities is not held by the Department for Transport.

Transport for London

Mr. Redwood: To ask the Secretary of State for Transport what the capital allocation to Transport for London for *(a)* 2003–04 and *(b)* 2004–05 was, broken down by (i) bus and (ii) Underground. [164832]

Dr. Howells: My Department provides block funding to Transport for London through the GLA Transport Grant, and it is for the Mayor to determine how much of this grant should be allocated for capital investment in buses or London Underground. The GLA Transport Grant was £1,681.932 million in 2003–04, and will be £2,224.556 million in 2004–05.

Urban Light Rail

Norman Baker: To ask the Secretary of State for Transport what assessment his Department has made of the potential of urban light rail to help relieve congestion and pollution. [163054]

Mr. McNulty: We recognise that urban light rail is one of the possible measures that can help relieve congestion and pollution. A number of light rail schemes are under development. These are appraised according to the Departments' New Approach To Appraisal framework which assesses how significant these impacts are alongside other criteria and whether a scheme represents value for money.

Vehicle Excise Duty

Mr. Greg Knight: To ask the Secretary of State for Transport how many motor vehicles have been crushed in the last six months for which figures are available for non-payment of vehicle excise duty; in how many of these cases the owner initially objected thereto; and if he will make a statement. [165170]

Dr. Howells: Between 1 October 2003 and 30 March 2004, DVLA and local authorities with devolved clamping powers clamped 30,500 unlicensed vehicles. Of these 14,600 were disposed of by crushing as they were in too poor a condition to put back on the road.

No figures are available for the number of vehicle keepers who initially objected. However crushing is treated as the final option when disposing of vehicles. Every effort is made to contact the current keeper when unlicensed vehicles are clamped and vehicles are kept in pounds for a minimum of seven days for this purpose. It is only after it becomes clear that the keeper cannot be identified or they provide a disclaimer that vehicles are disposed of by crushing.

NORTHERN IRELAND

Community Relations Core Funding Scheme

Lady Hermon: To ask the Secretary of State for Northern Ireland if he will meet representatives from the Christian Education Movement to discuss the new round of the Community Relations Core Funding Scheme 2004 to 2007. [164389]

Jane Kennedy: I understand that the Christian Education Movement is currently in the process of pursuing the formal appeal process in connection with the Department of Education's decision not to provide funding under the Community Relations Core Funding Scheme for the period April 2004 to 2007. In the circumstances, it would not be appropriate for Ministers to intervene.

Lady Hermon: To ask the Secretary of State for Northern Ireland when the advisory group established to hear appeals from unsuccessful applicants for the Community Relations Core Funding Scheme 2004 to 2007 will meet; who its members are; and on what basis each member was chosen. [164391]

Jane Kennedy: The members of the Advisory Panel, which was set up to assist the Department of Education in considering applications for funding from the Community Relations Core Funding Scheme are:

Member	
Tom McCready	Non-scoring Chairman, Head of Youth Services and Community Relations Branch, DE
Phyllis Richardson	Community Relations Branch, DE
Walker Ewart	Education and Training Inspectorate, DE
Norman Richardson	Lecturer, Stranmillis College
Gerard Doran	Youth Officer, Southern Education and Library Board
June Neill	Assistant Advisory Officer, Western Education and Library Board
Brendan Hartop	UNESCO Centre, University of Ulster

The members of the Advisory Panel were appointed from a broad spectrum of educational interests because of their expertise in community relations policy and practice.

The Advisory Panel also has a role in assisting the Department in its consideration of formal appeals against the Department's decision not to fund certain organisations. The Advisory Panel will consider and offer advice to the Department on each appeal as it arises and on the basis of its individual merits. There will be no single meeting held to consider all appeals received.

Electricity

Mr. Trimble: To ask the Secretary of State for Northern Ireland what reports he has received on proposals to generate electricity from lignite in Northern Ireland. [164055]

Mr. Pearson: None.

Health Services

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what proportion of *(a)* residential care and *(b)* nursing home places in Northern Ireland are provided by independent charities or non-profit organisations. [164914]

Angela Smith: Information on the number of residential care and nursing home places according to whether they are provided by independent charities or non-profit organisations is not collected centrally. However, information is available on total places provided by all voluntary organisations. At 31 March 2003, 29 per cent. of available residential care places and nine per cent. of available nursing home places were provided by such organisations.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many allergy sufferers he estimates there are in the Province. [164926]

Angela Smith: The information requested is not available.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many Duchenne muscular dystrophy sufferers he estimates there are in the Province. [164927]

Angela Smith: Research conducted in 2003 indicates that there are 62 Duchenne muscular dystrophy sufferers in the province, a prevalence of 3.5 per 100,000 population.

Hospital Funding

Lady Hermon: To ask the Secretary of State for Northern Ireland if he will list *(a)* the meetings he has held and *(b)* the correspondence he has had with representatives from (i) The Ulster Hospital, Dundonald and (ii) The Ulster Community and Hospitals Trust in relation to the funding shortfall within the Trust. [164534]

Angela Smith: I have not had any meetings with the Ulster Community and Hospitals Trust nor received any correspondence on this issue. Meetings regarding funding would normally take place between the Board and Trust, with the Department regularly updated on progress and any relevant issues.

Illegal Dumping

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what assessment he has made of the costs resulting from illegal dumping in Northern Ireland; and if he will make a statement. [164850]

Angela Smith: The term "illegal dumping" may be taken to include a wide range of illegal waste management activities ranging from small-scale dumping, referred to as 'fly-tipping', through to the use of sites to dispose illegally of significant quantities of waste.

An illegal site containing in the region of 10,000 tonnes of waste may cost approximately 1,000,000 to remediate by waste removal. The total number of such sites in Northern Ireland is not known. However, my Department's Environment and Heritage Service is currently investigating 20 sites ranging in capacity from 5,000 to 26,000 tonnes.

In addition to the cost of remediation of illegal sites, illegal dumping also impacts adversely, in competitive terms, on those operating legitimate waste management businesses.

Invest NI

Mr. Trimble: To ask the Secretary of State for Northern Ireland what steps are taken by Invest NI to establish whether companies applying for grants have a solvent pension scheme. [164069]

Mr. Pearson: The issue of solvency of the pension fund of a company seeking assistance from Invest NI only arises in relation to larger operations that provide defined benefit schemes to their employees.

From an industrial development perspective, the important issue is the ability of an applicant company to demonstrate that it can fund its proposal for assistance in the context of all of its liabilities, including those relating to the pension scheme. Under Financial Reporting Standard (FRS) 17, the statutory accounts of a company must disclose full details of any liability to the pension fund. Invest NI would therefore become aware of any pension scheme insolvency issues through a company's most recent statutory accounts.

Organ Retention

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland when the television advertising campaign to notify people in Northern Ireland about post mortems and organ retention will commence; and how many leaflets on the subject have so far been distributed in the Province. [164578]

Angela Smith: An ongoing multi-media campaign has been running since June 2002, when the Human Organs Inquiry report was published. A sub-committee of the Department's Human Organs Implementation Steering Group is tasked with managing this campaign in conjunction with a firm of PR/Advertising consultants. No decision to use TV advertising has yet been taken but the campaign is kept under review.

Almost 700,000 of the Department's leaflet "Post Mortem Examinations and the Human Organs Inquiry—Important New Information for Everyone in Northern Ireland" have been distributed throughout Northern Ireland. These have been delivered to homes by the Royal Mail and circulated through HPSS networks.

A further 18,500 leaflets about the Human Organs Enquiry Line (NI) have also been distributed by Enquiry Line staff.

Pulmonary Hypertension

Lady Hermon: To ask the Secretary of State for Northern Ireland how many pulmonary hypertension sufferers there were in Northern Ireland in each of the last five years for which figures are available. [164537]

Angela Smith: Information is not available on the number of pulmonary hypertension sufferers in Northern Ireland. Information is, however, available on the number of people admitted to hospitals in Northern Ireland each year suffering from pulmonary hypertension, and is shown for the years 1998–99 to 2002–03 and is shown in the following table.

	Numbers admitted to hospital with pulmonary hypertension
1998–99	74
1999–2000	91
2000–01	88
2001–02	122
2002–03	197

School Finance

Mr. Trimble: To ask the Secretary of State for Northern Ireland to what extent the Common Funding Formula for schools has been implemented; what the timescale is for full implementation; what criteria are being used to determine the timescale for implementation; and what steps are being taken to ensure children in the more rural board areas are not adversely affected by the timescale for implementation. [164192]

Jane Kennedy: The Common Funding Formula (CFF) has not been implemented. The plan is to consult schools on the final proposals for the CFF shortly, with the aim of implementing Common Funding in April 2005. The implementation of Common Funding will be undertaken within finite budgetary constraints, and central to this will be the issue of manageability, especially for schools facing reductions in their relative budget share. All existing Funding Formulae contain a Small School Factor to facilitate the delivery of the curriculum. Small schools with above average teaching costs may also receive additional support through the Teachers' Salary Protection Factor.

Mr. Beggs: To ask the Secretary of State for Northern Ireland which schools in the South Eastern Education and Library Board area are *(a)* experiencing financial deficit and *(b)* projected to face a financial deficit in the next financial year. [164434]

Jane Kennedy: I understand from the Chief Executive of the South-Eastern Education and Library Board that the following schools are expected to have a deficit at 31 March 2004:

Ballycarrickmaddy Primary School
Carr Primary School
Carryduff Primary School
Castle Gardens Primary School
Comber Primary School
Cregagh Primary School
Crossgar Primary School
Donaghadee High School
Downshire Primary School
Gilnahirk Primary School
Glencraig Primary School
Groomsport Primary School
Hillhall Primary School
Holywood Primary School
Kilmaine Primary School
Lambeg Primary School
Legamaddy Primary School
Londonderry Primary School
Newport Primary School
Newtownards Model Primary School
Newtownbreda Primary School
Old Warren Primary School
Our Lady Queen of Peace Primary School
Priory College
Redburn Primary School
Sacred Heart Primary School
St. Colman's Primary School, Lisburn
St. Colman's Primary School, Moira
St. Joseph's Primary School, Carryduff
St. Joseph's Primary School, Strangford
St. Joseph's Primary School, Downpatrick
St. Joseph's Primary School, Crossgar
St. Malachy's Primary School
St. Mary's Primary School, Portaferry
St. Mary's Primary School, Killyleagh
St. Patrick's Primary School
Tyrella Primary School

Information for the next financial year is not yet available.

TRADE AND INDUSTRY

Bogus Traders

Mr. Hepburn: To ask the Secretary of State for Trade and Industry how many bogus traders have been reported in *(a)* the Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and *(d)* England and Wales in each year since 1997. [165072]

Mr. Sutcliffe: This information is not available centrally.

Mr. Hepburn: To ask the Secretary of State for Trade and Industry how many bogus traders have been convicted for illegal practices in *(a)* the Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and *(d)* England and Wales in each year since 1997. [165074]

Mr. Sutcliffe: This information is not available centrally.

Mr. Hepburn: To ask the Secretary of State for Trade and Industry what estimate she has made of the average age of those targeted by bogus traders in *(a)* the Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and *(d)* the UK, in each year since 1997. [165111]

Mr. Sutcliffe: No such assessment has been made.

Miners' Pension Schemes

Tony Wright: To ask the Secretary of State for Trade and Industry what the total sum is that has been taken to date by the Treasury from the miners' pension schemes under the terms of the 1994 agreement. [163241]

Nigel Griffiths: The receipts from the two schemes since payments began in 1996–97 are as follows:

£ million

	BCSSS	*MPS*	*Total*
1996–97	39.5	0.0	39.5
1997–98	39.5	113.0	152.5
1998–99	107.1	113.0	220.1
1999–2000	107.1	0.0	107.1
2000–01	110.3	315.0	425.3
2001–02	216.0	196.0	412.0
2002–03	216.0	196.0	412.0
2003–04	216.0	175.0	391.0
Total	1,051.5	1,108.0	2,159.5

The terms of the 1994 agreement have meant that similar amounts have been available to the trustees to award substantial bonuses of around 30 per cent. to the schemes' members.

Rogue Traders

Mr. Hepburn: To ask the Secretary of State for Trade and Industry what steps the Government are taking to tackle the problem of rogue traders. [165075]

Mr. Sutcliffe: The Government have introduced a number of new measures to empower and inform consumers.

The Enterprise Act 2002 introduced a new concept of supercomplaints. It provided the legislative framework for the Office of Fair Trading to conduct an investigation of the doorstep selling market in response to supercomplaint from NACAB (now Citizen's Advice). The OFT's report is expected shortly.

The Enterprise Act also included provisions to strengthen the powers available to enforcement authorities to tackle the activities of rogue traders. The Stop Now Orders, first introduced in 2001 by implementation of the Injunctions Directive in the UK, created a new enforcement regime across a wide range of consumer protection legislation. They enabled designated enforcement authorities to apply to the courts for "Stop Now Orders" to stop the practices of rogue traders if they are acting against the collective interests of consumers. The Enterprise Act has extended that protection across an even wider range of consumer protection—particularly in the service sector.

Another way in which we are informing and empowering consumers is the development of Consumer Support Networks (CSNs). These bring together organisations to plan and deliver better, more accessible and more joined-up support for local consumers. Across Britain, the Networks are helping to raise awareness of consumer issues. This includes considerable emphasis on issues relating to sales in the home, particularly for vulnerable or older consumers.

The Government has made up to £30 million of new money available over a 3 year period to roll out a new national consumer helpline—Consumer Direct. With a single, widely publicised number, it will be a powerful tool for consumer advice across Britain. Consumers, no matter where they live, will be able to access reliable, independent help on consumer matters via their own phone, for the price of a local rate call. For those who prefer it, the service will be available on-line.

Better Regulation Task Force

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry what action her Department has taken to implement the recommendation of the Better Regulation Task Force report of May 2002 that there be independent expert input into considering alternatives to state regulation. [161147]

Nigel Griffiths: The Department has appointed two independent experts to examine alternatives to regulation following the Better Regulation Task Force report.

Bridges Community Development

Mrs. Curtis-Thomas: To ask the Secretary of State for Trade and Industry how much public finance from the Bridges Community Development Venture Fund has been invested in Crosby. [164366]

Nigel Griffiths: The Fund Manager, Bridges Community Ventures Ltd. has confirmed that as at the end of December 2003, the Bridge Community Development Venture Fund has invested over £5 million

in nine small and medium enterprises located within disadvantaged wards in England. The Fund Manger did not identify any investment opportunities specifically in Crosby.

Business Link

Mrs. Curtis-Thomas: To ask the Secretary of State for Trade and Industry how many small businesses in Crosby have received advice from Business Link. [164410]

Nigel Griffiths: Greater Merseyside Enterprise Ltd. (Business Link Operator for Merseyside) has provided advice to 126 companies within the Crosby constituency area since April 2001.

Carbon Monoxide

Mr. Sheerman: To ask the Secretary of State for Trade and Industry if she will meet ministerial colleagues from other Departments at the earliest opportunity to discuss ways in which to alert the public to the dangers of carbon monoxide leakage from faulty gas appliances. [163388]

Mr. Browne: I have no present plans to meet ministerial colleagues, as awareness-raising is already being undertaken by the Health and Safety Executive (HSE) and the industry, including the Council for Registered Gas Installers (CORGI), in conjunction with the Department of Trade and Industry and the Department of Health.

Child Poverty (Minimum Income Standards)

Mr. David Stewart: To ask the Secretary of State for Trade and Industry (1) what recent consultation she has conducted with *(a)* young people and *(b)* adults on low income in relation to minimum income standards; [164254]

(2) if she will establish an independent minimum income standards commission to tackle poverty in the UK; and if she will make a statement; [164282]

(3) what recent representations she has received on minimum income standards; and if she will make a statement; [164283]

(4) what research has been *(a)* commissioned and *(b)* collated by her Department on minimum income standards. [164284]

Mr. Pond: I have been asked to reply.

When we launched our consultation exercise, Measuring Child Poverty, in April 2002, we sought views from a wide range of interested parties, including academics and poverty experts, as well as children, young people and adults with direct experience of poverty. The final conclusions of this consultation were published as Measuring Child Poverty in December 2003; a copy is available in the Library.

We have received a number of representations on minimum income standards from hon. Members, through parliamentary questions and correspondence. This topic has always engendered interest from interested lobby groups and members of the public.

We commission research to inform and evaluate policies aimed at alleviating poverty, but there is no accepted single research method that can be used to calculate a minimum income standard for all families. What people need to live on varies greatly, and is dependant on a range of factors.

Poverty is wider than income alone. We have a comprehensive strategy for tackling poverty and social exclusion, and our annual report "Opportunity for all" sets out how we are tackling the problems faced by individuals throughout their lives.

We have no plans to establish an independent minimum income standards commission.

Companies House/Insolvency Service

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry what the 2003–04 performance targets were for *(a)* Companies House and *(b)* the Insolvency Service; and what the level of performance was against each target. [165126]

Mr. Sutcliffe: The following table sets out The Insolvency Service's performance against published targets and indicators for the first 11 months of 2003–04 to 29 February 2004.

Key target and performance indicators 2003–04

	Percentage	
Percentage of user satisfaction as measured by the User Satisfaction Index	86	81
Number of complete case administrations	26,000	26,239
The average time of concluding disqualification proceedings in months	24	22.4
Percentage of disqualification cases concluded within:		
30 Months	85	71.7
24 Months	60	41.7
Action invoices for payment within:		
30 days of receipt	100	98.99
20 days of receipt	97	96.26
Action Insolvency Services Account payments within 4 days of receipt	98	97.3
Action Redundancy Payment claims within 6 weeks	82	88.59
Contain the increase in the cost of administration	+1	[1]—
Contain the increase in the cost of investigating cases	+10	[1]—

[1] Not yet available

The following table shows Companies House performance against published targets and indicators for the first 11 months of 2003–04 to 29 February 2004.

Percentage

	2003–04 target	*Achieved to 29 February 2004*
To maintain on average a monthly compliance rate for accounts submitted	95	96
Data capture accuracy of all forms submitted to Companies House	96.5 error free	95
Image quality of all images placed on the image system	98 error free	97
Product and service availability on CHD (7am to 8pm Monday to Friday)	98 of the time	98
Product and service availability on website (7am to 8pm Monday to Friday)	98 of the time	98
Resolve complaints within five days	97	98
Reply to MPs' letters to the Chief Executive within 10 days	100	100
Achieve a score of more than 80 per cent. in each quarterly Companies House customer satisfaction survey	More than 80	85
Unit cost reduction on document registration in real terms	3	[1]
Average rate of return based on the operating surplus as percentage of average net assets	Average 6	[1]
Payment of bills within 30 days, or on other agreed credit terms, on receipt of goods or services or a valid invoice	100	100

Correspondence

Sir Michael Spicer: To ask the Secretary of State for Trade and Industry when she expects to reply to the letter to her of 23 January 2004 from the hon. Member for West Worcestershire. [165132]

Mr. Mike O'Brien: My noble Friend the Minister for Science and Innovation replied to the letter in 31 March 2004.

Departmental Buildings

Mr. Llwyd: To ask the Secretary of State for Trade and Industry what *(a)* renovation and *(b)* maintenance projects on buildings (i) owned and (ii) rented by her Department were undertaken in each of the last five years; and what the associated costs were of each. [163951]

Ms Hewitt: My Department undertakes a wide variety of projects as part of on-going maintenance and improvements of its current stock. The total capital cost of minor works, maintenance, and renovation projects involving significant works to the building services and fabric, over the last five years are as follows:

Financial year	*£ million*
1999–2000	2.15
2000–01	1.80
2001–02	4.75
2002–03	2.20
2003–04	2.30

Those of a significant value are as follows:

Works projects over £1 million in value

	Financial year				
	1999–2000	*2000–01*	*2001–02*	*2002–03*	*2003–04*
Abbey Orchard Street Fit-out	878	202	—	—	—
1 Victoria Street and Kingsgate House Lift Refurbishment	1,004	—	100	—	—
1 Victoria Street Conference Centre Extension	—	416	2,711	—	—
Elizabeth House Fit-out	—	—	—	729	—

Departmental Officials

Mr. Cousins: To ask the Secretary of State for Trade and Industry which former officials of the Department have asked for permission to join *(a)* PricewaterhouseCoopers, *(b)* Deloitte & Touche, *(c)* Ernst and Young and *(d)* KPMG. [156899]

Ms Hewitt: DTI civil servants like all civil servants are subject to the Business Appointment Rules, which set out the circumstances in which they must seek permission to accept outside appointments within two years of leaving the service. A copy of the Rules is available in the Libraries of the House. Information about appointments taken up by the most senior staff are published in the annual reports of the Advisory Committee on Business Appointments.

Since 2001 the following have sought permission under the Business Appointment Rules to join the firms named.

(a) PricewaterhouseCoopers—One retired Senior Civil Servant

(b) Deloitte & Touche—None

(c) Ernst and Young—None

(d) KPMG—One former Insolvency Service Examiner

Employment Agencies

Matthew Taylor: To ask the Secretary of State for Trade and Industry if she will list the employment agencies which her Department has used to supply temporary staff in each financial year since 1996–97 to the most recent date for which figures are available. [163815]

Ms Hewitt: The following list is of those employment agencies that have supplied my Department with temporary staff for the calendar year 2003. However,

the information requested for the period 1996 to 2002 is not readily available and could be obtained only at disproportionate cost.

The DTI has had a formal agreement with Adecco, since 1 December 2002, and most of its requirements for temporary staff are met by Adecco. However, the Department uses the services of other employment agencies, where they can supply temporary staff with specific skills.

Energy Supplies

Mr. Streeter: To ask the Secretary of State for Trade and Industry what steps have been taken by her Department to ensure energy supplies to the United Kingdom once North Sea reserves have expired. [165078]

Mr. Timms: Maintaining reliable energy supplies, now and in the future, is one of the key goals for UK energy policy set out in the Energy White Paper published in February 2003. It set out how the Government is working with industry to maximise the economic potential of our North Sea reserves, particularly through the PILOT initiative.

However, the White Paper also noted that it is likely that the UK will become a net importer of gas on an annual basis by around 2006 and of oil by around 2010. By 2020 we are likely to be importing around three-quarters of our primary energy needs.

The UK will then be in the same position as most other advanced industrial economies which already import significant proportions of their energy need without noticeable disruption. Import dependency has long been a fact of life for all the G7 countries apart from the UK and Canada.

Oil and currently to a lesser extent gas are internationally traded commodities. And all countries, whether import-dependent or not, have a common interest in promoting open markets and predictable prices.

Current gas import infrastructure projects would facilitate imports from Norway, Netherlands, Russia, Qatar, Algeria, other LNG exporters, or other sources of piped gas or LNG into continental Europe. For example, we have agreed the key principles of a new agreement with Norway which will facilitate a range of cross boundary oil and gas developments including the construction of a pipeline between Norwegian offshore infrastructure and the Easington terminal in the UK. This pipeline will deliver dry gas from Norway's Ormen Lange field and when operational will be capable of delivering up to 20 per cent. of the UK's gas demand.

The expansion of renewable energy is also important for the contribution it will make to ensuring secure energy supplies (as well as to achieving our environmental goals). Our recent Renewables Innovation Review was very clear on the future costs of all renewables technologies and we can see that renewables offer the best opportunity for the new capacity we need. We have set as our first goal obtaining 10 per cent. of our electricity from renewable sources by 2010, with the aspiration of doubling this by 2020.

Wind energy, as the form of renewable energy with far the best immediate prospects for expansion, will play a very big part in this expansion. Through capital and research grants, we are also encouraging the development of other forms of renewable energy such as biomass and energy crops, photovoltaic and wave and tidal energy, so as to create a much more diversified renewable energy sector over the longer term.

As stated in the Energy White Paper: while The Government does not have specific proposals for new nuclear build now, we do not rule out the possibility that at some point in the future new build might be necessary to meet our carbon targets.

Entrepreneurship

Mrs. Curtis-Thomas: To ask the Secretary of State for Trade and Industry what steps her Department is taking to promote entrepreneurship as a career option for graduates. [163315]

Nigel Griffiths: The Small Business Service and the Department for Education and Skills have collaborated to help establish the National Council for Graduate Entrepreneurship (NCGE), as a private company limited by guarantee. The NCGE will promote the idea of starting a business as a viable career option for students and graduates. Six Directors have so far been appointed to the Board of the NCGE, with David Frost (Director General, British Chambers of Commerce) acting as interim Chairman and Karan Bilimoria (Founder and Chief Executive, Cobra Beer) recruited as the Council's Graduate Entrepreneur Champion.

The establishment of the Council builds upon support already provided by Government to help promote Entrepreneurship as a viable career option to students and graduates. The Small Business Service provides support of around £1 million per annum to support organisations

such as Enterprise Insight, Young Enterprise, Shell LiveWIRE and Graduate Prospects in undertaking enterprise awareness and enterprise education activities aimed at young people. Each has a focus within their activities of providing practical advice and information to graduates.

Flexible Hours

Mr. Milburn: To ask the Secretary of State for Trade and Industry what estimate she has made of the number of employers who offer flexible hours of work to employees, broken down by sector. [163543]

Mr. Sutcliffe: The following table is taken from the DTI commissioned report: "The Second Work-Life Balance Study: Results from the Employers Survey Main Report". The study was a large cross sectional survey which yielded nationally representative data of employers provision of flexible working time practices and leave arrangements.

This report is one of a number of reports on Work-life Balance and Flexible Working which form part of the Department's ongoing research programme on employment relations and labour market issues. Such studies are placed in the Libraries of the House upon publication.

Figure 1

Percentage

Standard industrial	*Part-time*	*Term-time*	*Job share*	*Flexitime*	*Compressed hours*	*Annualised hours*	*Reduced hours*

Other Community	12	8	20	30	7	13	10
All Workplaces	74	16	14	24	7	8	15

Miners' Compensation

Mr. Kevin Hughes: To ask the Secretary of State for Trade and Industry how many miners' compensation claims the solicitors Frank Allen Pennington of Doncaster have handled to date; and how much they have received in fees. [163982]

Nigel Griffiths: As of 25 March 2004 the figures are as follows:

	COPD	*VWF*
Total claims registered (Number)	369	509
Total solicitors costs (£)	269,789	283,132

National Institute for Medical Research

Mr. Dismore: To ask the Secretary of State for Trade and Industry if she will make a statement on the future of the National Institute for Medical Research, Mill Hill. [163844]

Ms Hewitt: The Medical Research Council (MRC) has established an expert Task Force to make recommendations to MRC Council on the future of the National Institute for Medical Research (NIMR). Their interim report will be available on the MRC website shortly.

It is expected that a decision on the future of NIMR will be announced by MRC in the summer.

National Minimum Wage

Huw Irranca-Davies: To ask the Secretary of State for Trade and Industry what assessment she has made of the impact of the introduction of the National Minimum Wage for 16 to 17-year-olds on the numbers of young people staying in education or training until the age of 18. [164550]

Mr. Sutcliffe: The Government are committed to ensuring that young people reach the age of 19 with the skills they need to compete in a modern, global economy. Our ambition is that UK staying-on rates after 16 should be among the highest in the OECD.

The new minimum wage rate that will be introduced for 16 and 17-year-old workers at £3.00 per hour with effect from 1 October 2004 has been set with this concern very much in mind. First, the great majority of young workers are already being paid in excess of this rate, and research commissioned by the Low Pay Commission for their latest report concluded that a new minimum wage rate introduced at this level would have negligible effects on education participation. Second, Education Maintenance Allowances will be implemented nationally this autumn and these will provide payments of up to £30 per week for young people who choose to continue in full-time education after reaching compulsory school leaving age. The report of the 16–19 Financial Support Review, "Supporting young people to achieve: towards a new deal for skills", was published alongside the budget. That report sets out the Government's proposals to ensure that young people aged 16–19 have the support and incentives they need to participate in education and training.

Brian Cotter: To ask the Secretary of State for Trade and Industry how many complaints in each year since its introduction have been received relating to alleged underpayment of the national minimum wage; how many of these complaints in each year have been investigated; how many employers in each year were found not to be complying with the national minimum wage requirements; and what the level of underpayment of the national minimum wage identified in each year was. [164171]

Mr. Sutcliffe: The data requested is provided in the following table.

	1999–2000	*2000–01*	*2001–02*	*2002–03*	*[1]2003–04*
Number of complaints	4,682	2,365	1,722	1,998	1,786
Number investigated	100%	100%	100%	100%	100%
Number of employers not complying (£)	1,280	2,119	1,937	1,996	1,961
Underpayment identified	1,242,341	3,034,373	5,135,799	3,585,941	2,253,176

[1] Up to February 2004

Note

The Inland Revenue investigate all complaints about underpayment of the minimum wage. In addition to complaints, they also use tax credit and other data to identify employers who they believe may not be compliant with the minimum wage.

Nuclear Decommissioning Authority

Mr. Watson: To ask the Secretary of State for Trade and Industry (1) pursuant to her answer of 11 March 2004, *Official Report*, column 1683W, on the Nuclear Decommissioning Authority, when her officials have been actively seeking new spent nuclear fuel reprocessing contracts in the last 24 months; [164809]

(2) pursuant to her answer of 11 March 2004, *Official Report*, column 1683W, on the Nuclear Decommissioning Authority, whether the Nuclear Decommissioning Authority will be seeking new spent fuel reprocessing contracts. [164810]

Mr. Timms: My officials have taken no steps to actively seek new reprocessing contracts in the last 24 months. It will be matter for the Nuclear Decommissioning Authority to decide whether or not to seek new reprocessing contracts once it is established.

Before any new THORP contacts could be concluded or changes made to existing contracts that increased volume of spent fuel to be reprocessed at THORP, the approval of my right hon. Friend the Secretary of State for Trade and Industry would be required. Before making any decision on any such future proposal, the Government would review it against the specific criteria that were set out in the July 2002 White Paper on Managing the Nuclear Legacy.

R and D (Crosby)

Mrs. Curtis-Thomas: To ask the Secretary of State for Trade and Industry how many research and development grants have been given to businesses in Crosby from Business Link. [164367]

Nigel Griffiths: There have been two offers made and accepted of Smart grant (now Research and Development Grant) in the Crosby area since 1997 with a total value of £154,401.

The number of Research and Development Grant offered to Businesses in the whole of the Merseyside area since 2000, is 102 with value of claims paid to the sum of £3,704,694.

Regional Development Agencies

Miss Kirkbride: To ask the Secretary of State for Trade and Industry if she will list the locations of the overseas *(a)* offices and *(b)* representations of each regional development agency; what the cost is of each of these representations; and how many staff were employed in each in the last financial year for which figures are available. [164608]

Jacqui Smith: I refer the hon. Member to my answers of 26 January 2004, *Official Report*, columns 73–76W and 5 February 2004, *Official Report*, columns 999–1000W.

Phoenix Fund

Mrs. Curtis-Thomas: To ask the Secretary of State for Trade and Industry how much has been allocated to Crosby from the Phoenix Fund. [164411]

Nigel Griffiths: Seven CDFFs (Community Development Finance Institutions), which is covered by the Phoenix fund, are currently supported in the North West region of which one (Train 2000 Ltd.) is Merseyside based. Train 2000 have been awarded £516,757 (revenue support £109,257; capital support £407,500) and to-date have advanced 30 loans, one of which was to a woman entrepreneur within the Crosby constituency.

Train 2000's principal target group is female entrepreneurs unable to access business finance from conventional sources.

Train 2000 have been successful in receiving funding from the Phoenix Development Fund as well as from CDFI (Community Development Finance Institutions).

North West

Total Support currently committed to NW CDFI's (Community Development Finance Institutions) is £4,844,932 (expected to rise to £6,934,889 after completion of the third process). To date 232 loans has been advanced within the North West region totalling £1,398,725.

There are no Phoenix Development Fund Projects that focus solely on Crosby, however Crosby will be covered by those projects listed as operating in the whole of Liverpool, Merseyside and the North West. The Phoenix Development Fund Projects, which fall within the North West are as follows.

£

Project	Phoenix Development Fund (to March 2004)	Phoenix Development fund Building on the Best April 2004-March 2006)	City growth Strategies (April 2004-March 2006)	City Growth Strategies (April 2004-March 2006)	Development Fund for Rural Renewal (to March 2004)	Area Covered
Granby and Toxteth Development Trust	26,988	—	—	—	—	Granby and Toxteth
Dingle Opportunities	778,783	—	—	—	—	11 Objective 1 Pathway Areas in Liverpool (no mention of Crosby
Train 2000	225,000	799,000	—	—	—	Merseyside
Knowsley MBC	17,483	—	—	—	—	Knowsley
St. Helens Chamber	471,462	—	—	—	—	St. Helen's
St. Helens (via North West RDA)	—	—	375,000	—	—	St. Helen's
Womens Business Network North West	242,520	—	—	—	—	North West
Liverpool Institute of Performing Arts	254,782	528,000	—	—	—	North West
Cats Pyjamas	371,000	—	—	—	—	Liverpool
Liverpool (via North West RDA)	—	—	—	250,000	—	Liverpool
Manchester (via North West RDA)	—	—	—	250,000	—	Manchester
Other NW	1,470,000	—	—	—	814,200	NW outside Merseyside

Included in the above is information about City Growth and Development Fund for Rural Renewal, which comes under the Phoenix fund.

Regeneration (Hampshire)

Mr. Hoban: To ask the Secretary of State for Trade and Industry what analysis underpinned the creation of a priority area for economic regeneration between Portsmouth and Southampton; what the objectives were of establishing this scheme; and to what extent these objectives have been achieved. [165316]

Jacqui Smith: The South Hampshire Priority Area for Economic Regeneration is broadly defined in Regional Planning Guidance for the South East (RPG9 2001). The area was originally proposed by SERPLAN (the South East Regional Planning Body in 2001) in their draft RPG, and was confirmed by the Panel following a Public Examination in 1999. The report of the panel provides further justification for the designation, but criteria included: above average unemployment levels, high levels of social deprivation, low skill levels, dependence on declining industries, derelict urban fabric, peripherally and insularity.

Within the South East Regional Planning Guidance the recommendation was that all the areas identified as Priority Areas for Economic Regeneration (PAERs) need tailored regeneration strategies backed up by appropriate resources to address their problems and maximise their contribution to the sustainable development of the region. Designation as a PAER signalled to regional partners, including the Regional Development Agency, that the needs of the area should be given high priority. As such, the South Hampshire Priority Area for Economic Regeneration is not a scheme. The objectives for the area are set out in RPG 9 (2001), in particular Policy RE7 and Chapter 12. The policy calls for local and regional partners to give particular attention to actively supporting economic regeneration and renewal, including inward investment.

In line with the signals given through designation of the area as a PAER, regional partners, including the South East England Regional Development Agency (SEEDA), have given the area a high priority.

The Regional Assembly, in partnership with local authorities, is currently assessing whether a sub-regional strategy for the South Hampshire area should be prepared as part of the South East Plan

Register of Interests

Bob Spink: To ask the Secretary of State for Trade and Industry what the requirements are on officials in her Department to declare current interests; and what register of interests is kept for her departmental officials. [164699]

Ms Hewitt: All members of staff within the Department are required to inform their senior line managers if they have any private business interests which could possibly conflict with their position in the Department or one of its Agencies. Staff are required to carry out any instructions which the Department or Agency gives about the retention or disposal of those business interests.

Detailed general principles that must be observed in respect of business interests and outside occupations are set out in "The Guide" available to all staff.

There is no central register maintained of the interests of individual departmental officials.

Research Funding

Mr. Key: To ask the Secretary of State for Trade and Industry what financial assistance is available towards collaborative research projects involving business and universities in the field of digital archiving technologies; which projects she *(a)* has assisted since 2001 and *(b)* is supporting; and whether her policy is available on a website. [164450]

Jacqui Smith: Financial assistance for collaborative research to support such technologies will be available under DTIs Technology programme to be formally announced on 26 April 2004. Assistance up to 75 per cent. for basic, 50 per cent. for applied and 25 per cent. for nearer market research projects will be available for industry to academic collaborations and 50 per cent. 40 per cent. and 25 per cent. respectively for projects involving business to business collaborations. The support will be available for projects that address research into such aspects of digital archiving as: Meta-data, Semantics, Ontologies, Vocabularies and

Lexicons. The Innovation Report, which introduces DTI Technology Programme is available from DTIs website www.dti.gov.uk/technologyprogramme. The details for applying to the Technology Programme and a description of the technology priorities covered will be placed on DTI website in early April.

Since 2001, the Department has provided £1.1 million within the e-Science Core programme to establish the Digital Curation Centre at the Universities of Edinburgh, Glasgow, Bath and the Central Laboratories of the Research Councils. Details are available through www.nesc.ac.uk, and www.e-science.clrc.ac.uk/web/projects/Data_Curation_Centre.

A further £3 million of assistance has been provided to support nine projects in the information storage and display area within the LINK Information Storage and Displays programme.

Self-employment

Mrs. Curtis-Thomas: To ask the Secretary of State for Trade and Industry what plans she has to reduce the gap between male and female self-employment rates. [163311]

Nigel Griffiths: The Government's Strategic Framework for Women's Enterprise is working through key strategic partners in the regions, in particular, the Regional Development Agencies, the Business Link network and a number of women's enterprise organisations.

All 45 Business Link operators have women's enterprise as a key delivery theme for their activity.

We are encouraged by the findings on women's enterprise of the Global Entrepreneurship Monitor's most recent report, which states that the levels of female entrepreneurship in the UK rose from around 600,000 in 2002 to around 700,000 in 2003 and that female attitudes to start-up have become far more positive during the last year.

Small Businesses

Mrs. Curtis-Thomas: To ask the Secretary of State for Trade and Industry what steps she has taken to reduce the barriers to start-up for small businesses. [163316]

Nigel Griffiths: The Government are working with its public, private and voluntary sector partners to help start-up businesses to address and overcome early hurdles and barriers to success through the provision of high quality information, advice and support. A range of new actions the Government are undertaking to help start-up businesses to overcome barriers are set out in the "A Government action plan for small business", which was published in January 2004.

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry what advice her Department offers via Business Link operators to small manufacturing businesses of fewer than 10 employees seeking to improve their internal business practice. [165120]

Nigel Griffiths: Business Link operators offer straightforward information on small manufacturing business needs, and access to a wide network of business support organisations. From April advice will be delivered via a new DTI Business Support framework based on four main customer themes. Technology and Innovation, Access to Finance, Achieving Best Practice and Regional Investment. Our goals are to make strategic investments in business support in order to help drive up productivity, to improve delivery of business support and to develop better customer relationships.

The Manufacturing Advisory Service (MAS) has been highly successful as a source of practical help to manufacturers. The Department is keen for this success to continue. The Department is currently discussing the future development of MAS with the English RDAs and Welsh Development Agency, including the determination of future funding arrangements for MAS post March 2005. We are also discussing with RDAs and other stakeholders how best to ensure that MAS co-ordinates effectively within the new DTI Business Support framework, in particular the Support to implement Best Business Practice product (Product 10) that will be delivered through Business Links from April 2004. With emphasis on SMEs.

HOME DEPARTMENT

Alcohol Misuse

Mr. Flook: To ask the Secretary of State for the Home Department what public expenditure there has been by drug action teams on countering the problems caused by alcohol misuse in *(a)* Taunton and *(b)* the South West in each year since 1997; and if he will make a statement. [164782]

Caroline Flint: The information is not available in the format requested. Drug Action Teams (DATs) are funded to tackle drug misuse via the pooled treatment budget and local monies from Primary Care Trusts and Social Services mainstream funds. Further budgets are also available for prevention activities for young people. Alcohol funds are allocated at a local level and usually cannot be disaggregated from mainstream drugs or mental health expenditure.

Animal Experiments

Mr. Hancock: To ask the Secretary of State for the Home Department pursuant to his Answer of 17 March 2004 *Official Report,* column 336W, on animal experiments, if he will make it his policy to encourage the formation of a European Union wide animals (scientific procedures) inspectorate. [164642]

Caroline Flint: No.

Article 19(5) of European Directive 86/609/EEC—on the approximation of laws, regulations and administrative provisions of the member states regarding the protection of animals used for experimental and other scientific purposes—requires that establishments licensed to use animals in scientific procedures shall be subject to periodic inspection by representatives of the National Competent Authority.

Section 18 of the Animals (Scientific Procedures) Act 1986, which transposes the Directive into United Kingdom law, provides for the appointment of inspectors to advise on applications for licences and

certificates under the Act and to visit places where regulated procedures are carried out to determine whether the conditions of licences and certificates are being complied with.

The Government are satisfied that the Home Office Animals (Scientific Procedures) Inspectorate, as set up under section 18, is highly effective in carrying out its duties and responsibilities. We do not consider that a European Inspectorate would add to, or improve on, what the Home Office Inspectorate already does. Nor do we consider that it would be practicable, given the diverse range of national regulatory systems. The Government are also concerned that the establishment of another tier of inspection, if that is what is being suggested, would place an unnecessary additional administrative burden on the scientific community.

We understand that this may also be the view emerging from the discussions taking place in the context of the review of European Directive 86/609/EEC currently being undertaken by the European Commission.

Cannabis

David Davis: To ask the Secretary of State for the Home Department pursuant to his answer of 17 March 2004, *Official Report*, column 338W, on cannabis, when he expects to publish the results of the evaluation into the effectiveness of the advertising campaign on the reclassification of cannabis. [164955]

Caroline Flint: The final report is currently being collated and it is expected that it will be placed in the Library of the House by early May.

Civil Servants

Dr. Cable: To ask the Secretary of State for the Home Department how many civil servants, broken down by grade, there are in the Department and the agencies for which the Department is responsible; and what the figures were in January 1997. [150260]

Fiona Mactaggart: I refer the hon. Member to the answer given by my hon. Friend the Minister for the Cabinet Office on 9 February 2004, *Official Report*, column 1294W.

Bob Spink: To ask the Secretary of State for the Home Department what proportion of civil servants in his Department are of Asian origin. [163587]

Fiona Mactaggart: The Home Office currently employs 2,739 staff who are known to be of Asian origin. This represents 5.35 per cent. of the 69 per cent. of Home Office staff whose ethnicity is known.

Community Development Exchange

Andrew Selous: To ask the Secretary of State for the Home Department if he will list the members of the Community Development Exchange; how they are appointed, and for how long; and to whom they are accountable. [163029]

Fiona Mactaggart: The Community Development Exchange (CDX), is an independent non-governmental organisation that acts as the national membership organisation and voice for community development. The "members" of CDX are individuals and organisations made up of unpaid and paid practitioners, managers, policy officers and researchers from across the voluntary, community, private and public sectors, in a unique forum.

It is because of the independent nature of CDX that the Home Office does not hold a list of members; all members apply for membership to CDX and if accepted pay a yearly subscription; they can remain members for as long as they wish, subject to the payment of the annual subscription; and as independent individuals or organisations, CDX members are only accountable to themselves or their respective Boards of Management.

Credit Card Fraud

Mr. Sheerman: To ask the Secretary of State for the Home Department what powers police have to *(a)* access mobile phone records and *(b)* liaise with internet service providers in order to track down the physical location and identity of those committing fraud involving transactions of less than £500,000. [164847]

Caroline Flint: Under Part 1 Chapter II of Regulation of Investigatory Powers Act 2000, police are able to access communications data, including mobile phone records and information held by internet service providers, for the purposes of the prevention and detection of crime irrespective of the financial loss or gain incurred, to the extent that it is necessary and proportionate to do so.

Dalit Community

Mr. Donohoe: To ask the Secretary of State for the Home Department what measures have been taken since September 2003 to tackle discriminatory practices against the Dalit community in the United Kingdom. [164267]

Fiona Mactaggart *[holding answer 29 March 2004]:* None that I am aware of. I would be willing to consider any evidence-based representations on the need for specific measures, but could not at this stage give an assurance that it would be right to take any.

The Race Relations Act 1976 protects people from racial discrimination in the fields of employment, education, training, housing and the provision of goods, facilities and services. The provisions of the Act apply equally to all people irrespective of colour, race, nationality and ethnic or national origin.

The Race Relations Act 1976 (Amendment) Regulations 2003 further improved the amended Race Relations Act. The Regulations relate to discrimination and harassment on the grounds of race or ethnic or national origins. It is unlawful to discriminate against another person on any of these grounds in any area covered by the legislation.

Caste based discrimination would be unlawful under current legislation if it could also be argued that the discrimination was also based on colour, race, nationality or ethnic or national origins (in the case of

employment, education, training, housing, provisions of goods, facilities, services and most other functions of public authorities) or religion (in the case of employment and training).

We acknowledge that there have been criticisms levelled at the Hindu caste system with regards to the treatment of Dalits. However, it is not the role of Government to take a position on the rites, beliefs or practices of any particular religious faith, other than where these give rise to conflict with the law.

Project Funding

Mr. Colman: To ask the Secretary of State for the Home Department how much was spent by *(a)* the Government on solely state-financed projects and *(b)* the (i) Government and (ii) private sector on public-private and private finance initiative projects for which his Department is responsible in each of the last 10 years, broken down by region. [160962]

Fiona Mactaggart: The information is as follows.

(a) Information on how much has been spent on major projects is not held centrally and to obtain this information would incur disproportionate costs.

(b) I would refer my hon. Friend to the Signed PFI Projects List, which can be found on the HM Treasury website www.hm-treasury.gov.uk/documents/public_private_partnerships/ppp_pfi_stats.

In addition payments made to the service provider on projects which are classed as public private partnerships are as follows:

	Project	
	Airwave	*Criminal Records Bureau*
Region	National	North west
Government spend	£50 million	£30.6 million
Private sector spend	Not available	Not available

Recruitment

Matthew Taylor: To ask the Secretary of State for the Home Department what the cost of recruitment of civil servants for the Department was in each financial year since 1996–97, broken down by *(a)* delegated or contracted out recruitment procedures and *(b)* recruitment procedures carried out by the Department. [158178]

Fiona Mactaggart: Details of the total spend on external recruitment for the central Home Office, including the Immigration and Nationality Directorate (IND), for the years 2000–01, 2001–02 and 2002–03 are shown in the table. Figures for previous years are not available. Final figures for 2003–04 will not be available until the end of the financial year.

The costs detailed in the table cover the costs of recruiting staff into the Home Office, including the Immigration and Nationality Directorate (but excluding Home Office Agencies) using external recruitment agencies. The IND figures reflect the extra recruitment in caseworkers to speed up processing times.

Details of the costs incurred for internal recruitment carried out by the department would be available only at disproportionate cost.

Money spent on external recruitment by the Home Office 2000–03

	2000–01	*2001–02*	*2002–03*
Home Office (not covering immigration and Nationality Directorate or Home Office Agencies)			
Total recruitment spend	1,552,682	1,241,786	967,106
Immigration and Nationality Directorate			
Total Recruitment spend	3,696,892	2,261,122	3,041,458
Total	5,249,574	3,502,908	4,008,564

Sentencing Statistics

Mr. Maude: To ask the Secretary of State for the Home Department how many prisoners on remand were *(a)* acquitted and *(b)* given a non-custodial sentence in each of the last 10 years; and what proportion each figure forms of the total prison population in each of these years. [163252]

Paul Goggins: The first table gives information relating to the estimated number of prisoners received on remand who were *(a)* acquitted and *(b)* given a non-custodial sentence in each of the last 10 years.

The average annual population of remand prisoners from 1993 to 2002 is given in the second table. It is not possible to calculate the number received on remand who were later acquitted or given a non-custodial sentence as a proportion of the remand population. To do so would require the time served on remand for each of these prisoners which is not available. Secondly, some of the time spent on remand counts towards some, or all, of the sentence served.

Table 1: Final outcome for persons remanded in custody[1] at magistrates courts

Number of persons (thousand)

Final outcome	*1993*	*1994*	*1995*	*1996*	*1997*	*1998*	*1999*	*2000*	*2001*	*2002*
Acquitted or not proceeded	11.4	13.5	14.4	16.5	21.4	25.2	25.6	23.8	21.7	21.6
Total non-custodial sentence	19.1	20.1	20.7	26.0	27.1	34.7	33.0	29.6	27.8	31.4
Total immediate custody	21.6	25.8	32.4	34.9	38.0	47.1	48.9	46.0	45.9	49.5
Total number sentenced	40.7	45.9	53.1	60.9	65.1	81.8	81.9	75.6	73.7	80.9
Total	52.1	59.5	67.6	77.4	86.5	107.0	107.5	99.4	95.4	102.5

[1] Includes those remanded for part of the time in custody.

Note:

Remand status shown is that given by the court.

Table 2: Average population of remand prisoners in custody[1] *1993 to 2002*

	Annual average
1993	10,674
1994	12,357
1995	11,375
1996	11,613
1997	12,131
1998	12,568
1999	12,520
2000	11,274
2001	11,238
2002	12,792

[1] Includes prisoners held in police cells in 1993 to 1995.

Speed Cameras

David Taylor: To ask the Secretary of State for the Home Department what his definition is of the term minimum conspicuity in relation to speed camera signs. [163625]

Mr. Jamieson *[holding answer 26 March 2004]:* I have been asked to reply.

The "Handbook of rules and guidance for the operation of the national road safety programme for England and Wales, October 2003", a copy of which is in the Library of the House, sets out in detail the standards for signing, marking, visibility and conspicuity of safety cameras.

Substance Misuse

Mr. Keith Bradley: To ask the Secretary of State for the Home Department what the total budget allocated to substance misuse programmes for *(a)* drugs and *(b)* alcohol is in 2003–04. [162614]

Caroline Flint *[holding answer 22 March 2004]:* The information is as follows.

(a) Drugs—The total drug Pooled Treatment Budget for 2003–04 is £243.6 million. The pooled treatment budget is matched with approximately an additional £200 million of local monies from Primary Care Trust (PCT) and social services mainstream funds. The Pooled Treatment Budget provides funds for drugs only, not alcohol. The Prison Service also allocated £35.8 million for drug treatment programmes in prisons. Further budgets are also available for prevention activities for young people.

(b) Alcohol—Alcohol treatment services are funded from local monies from PCTs and social services mainstream funds.

Background:

In terms of drug funding, all Drug Action Teams (DATs) received an average increase of 24 per cent. in 2003–04.

The data on mainstream drugs spend are gathered via the DAT Treatment Plans by the National Treatment Agency (NTA).

Alcohol funds are allocated at a local level and usually cannot be disaggregated from mainstream drugs or mental health expenditure.

DEFENCE

Accommodation Costs

Mr. Hancock: To ask the Secretary of State for Defence how many *(a)* service personnel and *(b)* other Ministry of Defence employees are living in privately rented accommodation in the Greater Portsmouth area; and at what cost to his Department. [164618]

Mr. Caplin: Substitute Service Accommodation is provided when there is insufficient Service family housing or single living accommodation of the appropriate type to meet demand in the area. As at 31 March 2004, there are 100 service personnel living in privately rented accommodation in the Portsmouth area at a total cost of £82,000 per month.

For other Ministry of Defence employees their accommodation requirements are an individual responsibility, although the Department does, in certain circumstances, pay specific allowances to support its civilian staff when they are relocated.

Defence Contractors

Mr. Gerald Howarth: To ask the Secretary of State for Defence pursuant to the answer to the hon. Member for City of Durham (Mr. Steinberg) of 9 March 2004, *Official Report*, column 1401W, on defence contractors, what contracts for the supply of equipment have been awarded to RUAG and are currently in operation; what action has been taken to enforce the contract under which supplies were suspended by the Swiss Government during the Iraq war; and for what reason he maintains no records centrally of similar contract breaches by other suppliers to his Department. [161778]

Mr. Ingram: There are currently three contracts in place with RUAG Ammotech GMBH, a wholly owned business subsidiary of RUAG, for the supply of ammunition and components. No action was taken against the company in respect of deliveries of 40 mm grenades suspended during the hostilities in Iraq, as this recognised the Swiss Government's long standing policy of neutrality. There was no impact of the operational effectiveness of British forces as available stocks were more than adequate to cover the Operation Telic requirements.

The incidents of similar contract breaches by other suppliers to the Ministry of Defence as a result of action by foreign governments is considered to be so low, that there is considered to be no value in collecting this type of information.

Departmental Buildings

Mr. Llwyd: To ask the Secretary of State for Defence what *(a)* renovation and *(b)* maintenance projects on buildings (i) owned and (ii) rented by his Department were undertaken in each of the last five years; and what the associated costs were of each. [163948]

Mr. Caplin: This information is not held centrally. However it will now be collated but may take some time. When I am in a position to do so, I will write to the hon. Member and place a copy of my letter the Library of the House.

European Convention on Human Rights

Adam Price: To ask the Secretary of State for Defence pursuant to his answer of 20 January 2004, *Official Report*, column 1123W, when he will write to the hon. Member for Camarthen East and Dinefwr in relation to the extra-territorial applicability of the European Convention on Human Rights. [162684]

Mr. Ingram: I will write to the hon. Member shortly.

Iraq

Mr. Keetch: To ask the Secretary of State for Defence how many *(a)* deliberate attacks and *(b)* contact incidents there have been in MND(SE) in Iraq involving UK forces since 17 October 2003; and if he will make a statement. [164910]

Mr. Ingram: Between 17 October 2003 and 28 March 2004 there have been some 67 recorded attacks where firearms or explosives have been used against the United Kingdom Forces in MND(SE). These include some 18 improvised explosive devices, some 41 contact shooting incidents, and some eight other attacks involving mortars, rockets, rocket-propelled grenades or grenades.

Mr. Keetch: To ask the Secretary of State for Defence if he will make it his policy to record centrally Iraqi casualties reported by UK forces; and if he will make a statement. [164911]

Mr. Ingram: UK forces who witness an incident in which they are not directly involved provide medical assistance if necessary and endeavour to report it to the appropriate authority. However, it is not always possible to confirm whether or how many casualties have occurred during a particular incident. Consequently there is limited utility in central recording since we have no viable means of assessing the completeness of the information.

Mr. Keith Simpson: To ask the Secretary of State for Defence what savings will be made by discontinuing the free parcel service for service personnel deployed in Iraq. [165080]

Mr. Ingram: I am not able to quantify precisely the savings, as they depend on force levels and the volumes of mail that families choose to despatch. However, I can say that the cost to the taxpayer of the service since its inception on 17 April 2003 has been between £1.5 million and £2 million. This is in addition to the cost to the Royal Mail Group, who generously provided their services free of charge during the initial three months. I estimate that the cost of providing this service to all personnel on operational deployments would be between £3 million and £9 million per annum. Forces Air Letters ("blueys") and their electronic equivalent, the "e-bluey" will continue to be free of charge. Other airmail items up to 2Kg in weight will be charged at a subsidised rate equivalent to the Royal Mail inland first class tariff.

Joint Force Harrier Study Group

Mr. Soames: To ask the Secretary of State for Defence how many service personnel, and from which service, were involved in the Joint Force Harrier study group in 2001. [162965]

Mr. Ingram: The Joint Force Harrier Capability Working Group was attended by representatives from all key stakeholder areas in the Ministry of Defence. The numbers attending meetings of the group varied due to individuals' availability. Both the Royal Navy and the Royal Air Force were represented.

Mahon Road Base

Mrs. Iris Robinson: To ask the Secretary of State for Defence if he will make a statement on recent personnel changes at Mahon Road army base in Portadown, Northern Ireland. [164940]

Mr. Ingram: There are currently proposals for a re-organisation of Army brigade headquarters in Northern Ireland with a change from three to two operational brigade headquarters. Such a move is a natural progression after the Police Service for Northern Ireland changed from three to two regions last year and would provide a more effective and efficient command structure. This proposal is currently the subject of consultation with the Trade Unions and other interested parties.

If we proceed with this proposal it will mean the disbandment of Headquarters 3 Infantry Brigade which is currently situated in Mahon Road Barracks. Such a re-organisation will not reduce the current level of support which the armed forces provide to the PSNI, indeed the aim is to provide this support more efficiently. Neither will it result in any significant reduction in the number of soldiers or units deployed to Northern Ireland.

Medical Services

Miss McIntosh: To ask the Secretary of State for Defence if he will make a statement on the standard of medical care available to *(a)* service personnel and *(b)* departmental civilian personnel serving in the Vale of York. [165096]

Mr. Caplin: Medical care is provided to Service personnel by the Defence Medical Services to standards at least equal to the National Health Service (NHS). Civilian personnel would receive health service through the local NHS provider.

MOD Properties

Mr. Hancock: To ask the Secretary of State for Defence how many Ministry of Defence properties in the Greater Portsmouth area have been released to *(a)* Annington Homes and *(b)* others in each year since 1996; and what projections he has made for further such releases in each of the next five years. [164619]

Mr. Caplin: Since the 1996 Annington Sale Agreement and up to 31 March 2004, 922 underleased properties with a PO (Portsmouth) postcode have been handed back to Annington Homes Ltd., as follows:

	Number
1997	154
1998	197
1999	21
2000	70
2001	241

	Number
2002	218
2003	20
2004	1

No other disposal of Service Family Accommodation (SFA) has taken place in the area.

Future projections are limited to the next three financial years, and as at 31 March 2004, 273 MOD properties have been identified by the Defence Housing Executive (DHE) in the Portsmouth postcode area for which there is unlikely to be a long-term requirement:

Financial year	Number
2004–05	46
2005–06	47
2006–07	180

The 46 properties in financial year 2004–05 are planned for release to Annington Homes during 2004. Those in other years will be subject to review by the services.

Mr. Hancock: To ask the Secretary of State for Defence how much his Department has realised in capital receipts through the release of Ministry of Defence housing in the Greater Portsmouth area in each year since 1996. [164620]

Mr. Caplin: All the service family housing in the Portsmouth area was purchased by Annington Homes Ltd. (AHL) in 1996. Capital receipts do not accrue to MOD from sales of surplus quarters by AHL, but the Government receives a proportion of the profits under the profit share agreement included in the 1996 sale agreement. Profit share from the sale of the 12,000 properties released through AHL since 1996 has amounted to £96 million. The amounts paid in respect of the Portsmouth releases could be obtained only at disproportionate cost.

Mr. Hancock: To ask the Secretary of State for Defence how many properties in the Greater Portsmouth area Annington Homes has returned to *(a)* his Department and *(b)* the open market in each year since 1996. [164621]

Mr. Caplin: The information is as follows.

(a) No former service family housing has been returned to MOD by Annington since 1996.

(b) When MOD hands back properties to Annington, it is Annington's decision whether to rent them out, release them onto the open market, or sell them to developers or social housing providers. The Department is not involved in this process and is not in a position to quote figures.

Mr. Hancock: To ask the Secretary of State for Defence how many properties his Department has obtained in the Greater Portsmouth area for housing purposes in each year since 1996; at what cost and from which source; and what targets have been set for further such acquisitions in each of the next five years. [164622]

Mr. Caplin: The Defence Housing Executive's Bristol Bath and Portsmouth PFI project includes 51 houses at Seafield Park, Fareham. Of these, 28 were completed in financial year 2002–03 and 23 in 2003–04. These are the only properties acquired in the Portsmouth area since 1996.

Opinion Sampling

Mr. Laws: To ask the Secretary of State for Defence what his estimate is of total expenditure by his Department on *(a)* focus groups and *(b)* opinion polls in each year from 1995–96 to 2003–04; and if he will make a statement. [162762]

Mr. Caplin: The Government want to hear what people have to say about proposed new policies and ideas and are committed to obtaining the best value for money. Public opinion research, including focus groups and polling, is subject to the usual strict rules that spending must represent good value for the taxpayer and must not be used for party political purposes. Research is widely used to inform the development, delivery and evaluation of policy.

Information on the totality of quantitative and qualitative surveys carried out by the Ministry of Defence and its agencies and non-departmental public bodies is not held centrally and could be provided only at disproportionate cost.

Personnel Numbers

Mr. Soames: To ask the Secretary of State for Defence (1) what the average number was of *(a)* military and *(b)* civilian full-time staff or equivalent employed in financial year 2002–03 by the (i) Fleet, (ii) General Officer Commanding (Northern Ireland), (iii) Field Army (Theatre Troops), (iv) 1 (UK) Armoured Division, (v) 2nd Division, (vi) UK Support Command (Germany), (vii) 3rd Division, (viii) Joint Helicopter Command, (ix) 4th Division, (x) Land Support and (xi) 5th Division management groups; [164662]

(2) what the average number was of *(a)* military and *(b)* civilian full-time staff or equivalent employed in financial year 2002–03 by the (i) 1 Group, (ii) 3 Group 2 Group, (iii) Deputy Commander-in-Chief, (iv) British Forces Cyprus, (v) British Forces Gibraltar, (vi) Permanent Joint Headquarters, (vii) Sovereign Base Areas Administration and (viii) British Forces Falkland Islands management groups; [164665]

(3) what the average number was of *(a)* military and *(b)* civilian full-time staff or equivalent employed in financial year 2002–03 by the (i) Personnel Management Agency, (ii) Core HQ, (iii) Training Group Defence Agency, (iv) Internal Costs, (v) Programme Account and (vi) Nuclear management groups; [164666]

(4) what the average number was of *(a)* military and *(b)* civilian full-time staff or equivalent employed in financial year 2002–03 by the (i) Flag Officer Training and Recruiting, (ii) HQ, (iii) Naval Secretary, (iv) Army Personnel Centre, (v) Adjutant General, (vi) Army Training and Recruiting Agency, (vii) Army Programme, (viii) Service Children's Education and (ix) General Staff management groups; [164663]

(5) what the average number was of *(a)* military and *(b)* civilian full-time staff or equivalent employed in financial year 2002–03 by the (i) Defence Fuels Group, (ii) Dep. Chief of Defence Logistics, (iii) Defence Communication Services Agency, (iv) Defence Logistics Support HQ, (v) Defence Clothing and Textiles Agency, (vi) DG Equipment Support (Land), (vii) Warship Support Agency, (viii) DG Equipment Support (Air), (ix) Defence Storage and Distribution Agency, (x) Director Land Service Ammunition, (xi) Defence Transport and Movements Agency and (xii) British Forces Post Office management groups; [164664]

(6) what the average number was of *(a)* military and *(b)* civilian full-time staff or equivalent employed in financial year 2002–03 by the (i) Personnel Director, (ii) War Pensions Agency, (iii) Pay and Personnel Agency, (iv) Surgeon General, (v) Defence Vetting Agency, (vi) Dep. Chief Defence Staff (Personnel), (vii) Defence Export Services Organisation, (viii) Defence Secondary Care Agency, (ix) Finance Director, (x) Defence Dental Agency, (xi) Defence Analytical Services Agency, (xii) Defence Housing Executive, (xiii) Defence Bills Agency, (xiv) Defence Medical Training Org, (xv) Chief Constable MOD Police, (xvi) Armed Forces Personnel Administration Agency, (xvii) Chief Scientific Adviser, (xviii) Defence Estates, (xix) Policy Director, (xx) Deputy Chief Defence Staff (Commitments), (xxi) Deputy Chief Defence Staff (Equipment Capability), (xxii) Director Special Forces, (xxiii) Chief of Defence Intelligence, (xxiv) Defence Geographic and Imaging Intelligence Agency and (xxv) Defence Intelligence and Security Centre management groups. [164667]

Mr. Caplin: There has been a delay in providing this statistical information. I hope to be able to respond in detail soon and I will write to the hon. Member and place a copy of my letter in the Library of the House.

Public Private Partnerships (Specialist Reviews)

Mr. Hancock: To ask the Secretary of State for Defence whether it is his policy to require *(a)* the public sector comparator and *(b)* other commercial bids to undertake a public private partnership, to be subject to an independent specialist review to test their manpower and financial assumptions. [162672]

Mr. Ingram: All major spending projects including all Public Private Partnerships are subject to independent review by the Ministry of Defence scrutineers supporting the Department's Investment Approvals Board. In some cases Her Majesty's Treasury will also scrutinise bids. Certain commercial bids are referred to external advisers for specialist advice.

Royal Irish Regiment (3rd Battalion)

Mrs. Iris Robinson: To ask the Secretary of State for Defence what plans there are for the Third Battalion of the Royal Irish Regiment to be *(a)* disbanded and *(b)* incorporated into other battalions; and whether it will remain fully operational after April 2005. [164951]

Mr. Ingram: I refer the hon. Member to my response to her question which I answered on 23 June 2003, *Official Report*, column 544W.

Works Projects

Norman Baker: To ask the Secretary of State for Defence if he will make a statement on the proposed highway works in Northumberland, pursuant to project 4374. [163968]

Mr. Caplin: The highway works are on the A696 (T) and are in support of the infrastructure developments at the Otterburn Training Area to accommodate live firing of AS90 and multiple launch rocket system.

The works include nine traffic lay-by holding areas for use during the management of convoy movements. The works were undertaken on behalf of the MOD by the Highways Agency and are virtually complete.

WORK AND PENSIONS

Carbon Monoxide

Mr. Sheerman: To ask the Secretary of State for Work and Pensions what steps he is taking to ensure that householders *(a)* obtain and *(b)* use certified carbon monoxide detectors. [163386]

Mr. Browne: Carbon monoxide alarms conforming to the relevant British Standards are a useful back-up precaution for householders, but should not be regarded as a substitute for proper installation and maintenance of gas equipment by a competent installer registered with Council for Registered Gas Installers (CORGI).

In the meantime recommendation of CO alarms as a secondary line of defence has been included in the latest HSE guidance on gas safety and HSE is co-operating with industry on research to resolve questions around long-term reliability.

Gas Appliance Safety

Mr. Sheerman: To ask the Secretary of State for Work and Pensions (1) what discussions he has had with gas suppliers on *(a)* the need for regular gas checks and *(b)* the efficient operations of gas appliances in the domestic setting; [163389]

(2) if he will convene a meeting at the earliest opportunity with the gas supply industry, the Health and Safety Executive and other relevant agencies to plan a national campaign to address the dangers of carbon monoxide poison from domestic gas appliances. [163392]

Mr. Browne: Officials from the Health and Safety Executive (HSE) have already met with representatives from the gas supply industry, who are currently developing a strategy for future national gas safety awareness campaigns. The industry players have committed to produce an agreed strategy for implementation in time for autumn 2004.

This is in addition to existing measures to promote awareness of carbon monoxide (CO) poisoning. These measures include the annual winter gas safety awareness campaign overseen by HSE, which this year targeted particularly vulnerable groups, such as students and other first-time renters, elderly people and parents of young children.

HSE's domestic gas safety website contains information on the causes and symptoms of CO, and what to do if poisoning is suspected. HSE produces free leaflets on gas safety both for general consumers and landlords, including information on CO, in 12 community languages as well as English.

It also operates a Gas Safety Advice line providing free advice to callers. Additionally, where possible, HSE officials participate from time to time in awareness-raising events run by other organisations, such as local community groups.

Mr. Sheerman: To ask the Secretary of State for Work and Pensions if he will introduce a statutory requirement for all homes to have their gas appliances checked on a regular basis. [163390]

Mr. Browne: Residential landlords are already required by law at all times to maintain, in a safe condition, the gas appliances in their rental properties, and to carry out a gas safety check on an annual basis. The Health and Safety Executive (HSE) also strongly recommends that owner-occupiers put in place a regular servicing and maintenance routine for their gas appliances. However, when the question of introducing mandatory safety checks was examined by the Health and Safety Commission in 2000, the Commission concluded that such an approach would be difficult to justify on both cost and practicality grounds. The recommendation of their Review was that efforts should instead be focused on further publicity and guidance in order to raise awareness of the need for all gas appliances to be regularly checked for safety and services in accordance with manufacturers' instructions. I fully support this position.

Mr. Sheerman: To ask the Secretary of State for Work and Pensions how many prosecutions there have been in each of the last 10 years of landlords whose neglect of gas appliances caused the death of their tenants. [163391]

Mr. Andrew Smith: The information is not available in the format requested. Such information as is available is in the following table.

The number of prosecutions of landlords instituted by HSE, following a death: 1996–97 to 2002–03

	Number of cases	*Number of information laid*
1997–98	5	14
1998–99	3	22
1999–2000	5	6
2000–01	3	25
2001–02	1	24
2002–03 (provisional figures)	0	0

Source:
Health and Safety Executive, Safety and Enforcement Statistics.

Each case relates to an individual landlord against whom one or more informations may have been laid; for example, a landlord may be prosecuted for failure to maintain gas appliances at a number of different properties

Workplace Safety

Mr. Paul Marsden: To ask the Secretary of State for Work and Pensions how many workplace transport *(a)* deaths and *(b)* accidents there were in each year since 1997. [165183]

Angela Smith: The information in the table gives the numbers of injuries involving workplace transport in all industries except for mines, railways and offshore where the types of transport are very specific to those industries. The injury figures are those relating to an absence of more than three days from work.

The definition of workplace transport in the table includes people: being struck by a vehicle; falling from a vehicle; being hit by materials falling from a vehicle and injured in a collapse/overturn of a vehicle.

The numbers of workplace transport injuries available at this level of detail are readily available from 1998–99 onwards. They include accidents to employees, to the self-employed and members of the public killed and injured by workplace transport. These figures exclude work related Road Traffic Accidents.

The number of injuries involving workplace transport, as reported to HSE and local authorities, 1998–99 to 2002–03

	Fatal injuries	*Non fatal injuries*
1998–99	67	7,590
1999–2000	54	8,075
2000–01	95	7,597
2001–02	53	5,224
2002–03 (provisional)	57	5,107
Total	326	33,593

Amanda Bufferey

Mr. Michael Foster: To ask the Secretary of State for Work and Pensions if he will intervene to ensure the Child Support Agency (CSA) deal immediately with the case of Amanda Bufferey, CSA reference 326728861475. [164593]

Mr. Pond: The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Doug Smith. He will write to the hon. Member.

Letter from Doug Smith to Mr. Michael Foster, dated 1 April 2004:

In replying to your recent Parliament question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions if he will intervene to ensure the Child Support Agency (CSA) deal immediately with the case of Amanda Buffery, CSA reference 326728861475.

As individual cases are confidential, I have written to you today about Ms Buffery's case.

Benefit Payments

Mr. Cousins: To ask the Secretary of State for Work and Pensions how many *(a)* new and *(b)* existing benefit payments have been transferred to (i) bank accounts and (ii) Post Office Card Accounts in 2003,

broken down by region; and what percentage of (A) new and (B) transferred benefit payments this represents in each case. [160218]

Mr. Pond: The number and percentage of new benefit payments, broken down by region, then bank or building society and Post Office Card Account methods of payment is shown in the following table:

Government Office Region	*Number of payments paid into a Bank or Building Society Account*	*Percentage of payments paid into a Banker Building Society Account*	*Number of payments paid into Post Office Card Account*	*Percentage of payments paid into a Post Office Card Account*
North East	14,145	55.98	730	2.89
North West	35,275	58.23	1,425	2.35
Yorkshire and Humberside	25,595	60.57	1,010	2.39
East Midlands	20,580	64.91	750	2.37
West Midlands	28,405	63.09	1,115	2.48
East of England	26,510	69.53	640	1.68
London	30,870	62.57	1,045	2.12
South East	34,230	70.62	730	1.51
South West	22,570	65.97	670	1.96
Wales	16,170	56.96	680	2.40
Scotland	27,220	56.79	1,110	2.32
Total	281,570	62.39	9,905	2.19

The number and percentage of transferred benefit payments, broken down by region, then bank or building society and Post Office Card Account methods of payment (of the new payment):

Government Office Region	*Number of payments paid into a Bank or Building Society Account*	*Percentage of payments paid into a Bank or Building Society Account*	*Number of payments paid into Post Office Card Accounts*	*Percentage of payments paid into a Post Office Card Account*
North East	20,850	60.06	11,390	32.81
North West	45,625	63.25	20,070	27.82
Yorkshire and Humberside	31,885	64.15	14,340	28.85
East Midlands	25,655	66.87	10,565	27.54
West Midlands	32,030	64.48	14,425	29.04
East of England	25,780	70.44	8,475	23.16
London	31,045	69.57	8,840	19.81
South East	33,660	72.84	9,415	20.37
South West	22,400	65.73	9,195	26.98
Wales	19,195	66.57	6,605	22.91
Scotland	32,415	65.48	12,950	26.16
Total	320,540	66.17	126,270	26.07

Notes:

1. Figures produced by comparing two snapshots of live accounts in payment at 27 December 2003 and 24 January 2004.
2. Figures refer to accounts not claimants. Therefore, if a benefit recipient was in receipt of two benefits via different accounts, these would both be included in these figures, but if a claimant received multiple benefits through one account then this would only be counted once.
3. Figures refer to GB benefit recipients only.
4. Figures have been rounded to the nearest five.
5. Some payments made into Bank and Building Society accounts allow access to cash, at Post Office branches.

The statistics represent accounts paid by each method of payment. As many customers have already provided their account details it is expected that the figures for Direct Payment into bank or building society accounts and Post Office Card Accounts will quickly rise, as customers existing methods of payment expire, and they move over to payment being made direct into their nominated account.

The statistical information detailed in this response has been obtained from the Department for Work and Pensions (DWP) Information Centre, Information and Analysis Directorate.

Child Support Agency

Chris Ruane: To ask the Secretary of State for Work and Pensions (1) on what date the Child Support Agency EDS (Plain Version) Plan will be available; [160356]

(2) what progress has been made in resolving the failings of the new Child Support Agency computer systems; and what timescale has been set for the problems to be resolved. [160360]

Mr. Pond: The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Doug Smith. He will write to the hon. Member with the information requested.

Letter from Mike Isaac to Mr. Chris Ruane, dated 1 April 2004:

In replying to your recent Parliamentary questions about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive. As he is currently on leave I am replying on his behalf.

You asked the Secretary of State for Work and Pensions on what date the Child Support Agency EDS (Plain Version) Plan will be available and what progress has been made in resolving the failings of the new computer systems; and what timescale has been set for the problems to be resolved.

We now have a plan from EDS in plain English. We are using that as a basis for establishing our own plans covering exactly what needs to be done and by when.

It is not yet possible to provide a definitive timescale within which all known problems with the computer and telephony service will be resolved. I will continue to monitor this carefully and make regular reports to the Secretary of State on progress. As you are aware, reports have been made available in the House of Commons Library on 16 July, 18 November 2003 and 12 February 2004.

Chris Ruane: To ask the Secretary of State for Work and Pensions what the current timescale is for a manual payment to be made to a parent with care once the Child Support Agency has identified that the case is a new system failure; and how much money has been received from non-resident parents and not yet paid to parents with care under the new system. [160359]

Mr. Pond: The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Doug Smith. He will write to the hon. Member with the information requested.

Letter from Doug Smith to Mr. Chris Ruane, dated 1 April 2004:

In reply to your recent Parliamentary question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, what the current timescale is for a manual payment to be made to a parent with care once the Child Support Agency has identified that the case is a new system failure; and how much money has been received from non-resident parents and not yet paid to parents with care under the new system.

As at 31 January we had received maintenance payments on the new computer system totalling £18.9 million, in addition to this amount we received £7.1 million that was due to be paid to the Secretary of State. For the same period we made payments to parents with care totalling £18.5 million. At any point in time we will be holding receipts, which are awaiting assignment to a parent with care's account. As at 31 January, £368,868 was awaiting assignment to parents with care whose cases are on the new computer system.

When we identify that the computer cannot make a payment automatically, the case is referred to a specialist team. The average delay in making a manual payment is 10 working days; we are currently issuing around 150 payments each week.

Chris Ruane: To ask the Secretary of State for Work and Pensions how many incidents of non-payment of money received from the non-resident parent to the parent with care owing to software failure there have been under the new Child Support Agency system for *(a)* new straightforward cases and *(b)* migrated cases. [160361]

Mr. Pond: The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Doug Smith. He will write to the hon. Member with the information requested.

Letter from Doug Smith to Mr. Chris Ruane, dated 1 April 2004:

In replying to your recent Parliamentary question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive

You asked the Secretary of State for Work and Pensions, how many incidents of non-payment of money received from the non-resident parent to the parent with care owing to software failure there have been under the new system for *(a)* new straightforward cases and *(b)* migrated cases.

The information that you seek is unavailable. However I can tell you that between August 2003 and February 2004 the new computer system generated over 346,000 payments to a parent with care representing moneys paid to us by the non-resident parent. In the same period just over 1,700 payments were issued manually.

Mr. Hunter: To ask the Secretary of State for Work and Pensions what the planned date is by which all Child Support Agency maintenance assessments calculated under the old system will have been transferred to the new system. [160743]

Mr. Pond: I refer the hon. Member to the Written Answer I gave the hon. Member for Castle Point (Bob Spink) on 18 December 2003, *Official Report*, column 1092W.

Jon Trickett: To ask the Secretary of State for Work and Pensions what performance measures are in place for Child Support Agency caseworkers in English regions; what the most recent performance delivery against these measures was; and how many caseworkers in Yorkshire have been disciplined for poor service provision in the last three years. [162156]

Mr. Pond: The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Doug Smith. He will write to my hon. Friend with the information requested.

Letter from Mike Isaac to Mr. John Trickett, dated 1 April 2004:

In reply to your recent Parliamentary question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive. As he is currently on leave I am replying on his behalf.

You asked the Secretary of State for Work and Pensions, what performance measures are in place for Child Support Agency caseworkers in English regions; what the most recent performance delivery against these measures was; and how many caseworkers in Yorkshire have been disciplined for poor service provision in the last three years.

The Agency adopts a consistent set of performance measures across Great Britain. These are set out and published in the Agency's Business Plan. The plan for 2003/04 was placed in the library of the House of Commons on 29 April 2003. Reports on Agency performance during the course of the current year have also been placed in the library of the House of Commons on 16 July, 18 November 2003 and 12 February 2004. Information with regard to the number of caseworkers in Yorkshire that have been disciplined for poor service provision is not routinely collected and is therefore unavailable.

Mr. Webb: To ask the Secretary of State for Work and Pensions if he will list each of his Department's performance targets for the *(a)* old and *(b)* new Child Support Agency scheme; and what the latest performance against each of those targets is. [162681]

Mr. Pond *[holding answer 22 March 2004]:* The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Doug Smith. He will write to the hon. Member with the information requested.

Letter from Doug Smith to Mr. Steve Webb, dated 1 April 2004:

In replying to your recent Parliamentary question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions if he will list each of his Department's performance targets for the *(a)* old and *(b)* Child Support Agency scheme; and what the latest performance against each of those targets is.

The performance targets for 2003/04 are set out and published in the Agency's Business Plan for that year. This was placed in the Library of the House of Commons on 29 April 2003. I have attached a copy of this section of the plan.

The Secretary of State issued a Written Statement on progress in the new scheme performance on 12 February 2004. A report of the Agency's performance for the year 2003/04 will be included in the Annual Report and Accounts, which will be published in June.

Child Support Agency: Performance against targets as at February 2004

		Percentage
	Target	*Agency*
Secretary of State Targets—Old Scheme The overall proportion of cases to achieve Full Maintenance Assessment to be 33 per cent. on old scheme cases.	33.0	22.6
Secretary of State Targets—New Scheme The overall proportion of cases to achieve Full Maintenance Assessment to be 53 per cent. on new scheme cases.	53.0	60
The accuracy on the last decision for all assessments checked in the year to be correct to the nearest penny in at least 90 per cent. of cases.	90.0	86.4
Case Compliance	78	Not known
Cash Compliance	75	Not known
Throughput of cases from application to payment arrangement	6 weeks	Not known

Throughput and Case and Cash Compliance

Issues with the new computer's management information systems, mean that we are unable to provide reliable performance figures at present. We are working to resolve the problems and expect to have a solution shortly.

Customer Perception

The aim of this target is to focus on how the service provided by the Agency is perceived by those who use it. A qualitative study has been commissioned to look at the experiences and views of new customers whose only involvement will have been with the new scheme. The results of this will be used to establish a baseline from which a customer perception target will be developed. The Agency is now committed to publishing a milestone target in the Business Plan for 2004/05 leading to a published target in 2005/06.

Unit Cost/Productivity

The Agency published an internal unit cost target in the 2003–04 business plan. This target was based on Agency staff cost and the number of cases on the live load. The target for 2003–04 was £184 per case. Our performance in the year to date is within £10 of the target figure.

Debt

Our target is to introduce an internal target for this year and a Secretary of State target for 2004/05. Work continues on the development of the format of the Secretary of State target for 2004/05.

Mr. Webb: To ask the Secretary of State for Work and Pensions if he will estimate the percentage of Child Support Agency cases that are active on the *(a)* old and *(b)* new system; and if he will estimate what the percentages for each of the next 10 years would be if the new child support system continues to take on only new and linked cases. [164048]

Mr. Pond *[holding answer 26 March 2004]:* The administration of the Child Support Agency is a matter for the Chief Executive, Mr Doug Smith. He will write to the hon. Member with the information requested.

Letter from Doug Smith to Mr. Webb, dated 1 April 2004:

In replying to your recent Parliamentary question about the Child Support Agency the Secretary of state promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, if he will estimate the percentage of Child Support Agency cases that are active on the *(a)* old and *(b)* new system; and if he will estimate what the percentages for each of the next 10 years would be if the new child support system continues to take on only new and linked cases.

At 31 December the Agency held over £1 million cases within its systems. At that date 24% of active cases were held on the new computer system and 76% of active cases were held on the old system. I am unable to estimate what the percentages are for the next 10 years, nevertheless if the current rate of transfer continues I estimate that by 30 September the balance will be around 33% on the new system and around 67% on the old.

Dr. Iddon: To ask the Secretary of State for Work and Pensions whether reassessments of pre-2003 Child Support Agency clients transferred to the post-2003 assessment system will apply retrospectively. [164266]

Mr. Pond: No. Old scheme cases will transfer to the new scheme on a date which has yet to be decided. We will make a decision once we are sure the new arrangements are working well. Some cases have converted early where they are linked to a new scheme case.

Mrs. Brooke: To ask the Secretary of State for Work and Pensions when he expects to know when the existing child support cases on the old system of assessment will be transferred to the new system of assessment. [165230]

Mr. Pond: The Child Support Agency now has a recovery plan from EDS (the IT supplier). The agency will use that IT recovery plan as a basis for establishing how this meets the needs of the business.

It is not yet possible to provide a time scale for when cases on the old scheme will be transferred to the new one.

Mr. Simon Thomas: To ask the Secretary of State for Work and Pensions how many claims for child maintenance have not been paid in each of the last five years owing to the Child Support Agency being unable to find the correct address of the absentee parent. [161378]

Mr. Pond: The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Doug Smith. He will write to the hon. Member with the information requested.

Letter from Doug Smith to Mr. Simon Thomas, dated 1 April 2004:

You asked the Secretary of State for Work and Pensions, how many claims of child maintenance have not been paid in each of the last five years owing to the Child Support Agency being unable to find the correct address of the absentee parent.

I'm sorry that this information is not available. It is not information that we have been routinely required to collect.

Mr. Caton: To ask the Secretary of State for Work and Pensions what system is being used to decide the order of priority whereby old rules child support cases are transferred to the new rules. [164890]

Mr. Pond: I refer my hon. Friend to the Written Answer I gave the hon. Member for Dartford (Dr. Stoate) on 27 January 2004, *Official Report*, column 341W.

Civil Servants

Dr. Cable: To ask the Secretary of State for Work and Pensions how many civil servants, broken down by grade, there are in the Department and the agencies for which the Department is responsible; and what the figures were in January 1997. [150258]

Maria Eagle: The Department for Work and Pensions (DWP) was formed in June 2001 from the former Department of Social Security (DSS) and Employment Service (ES).

Information on the number of staff in DWP at 31 January 2004, as in DSS at 1 January 1997, broken down by grade, is in the table. Information by grade in 1997 is not available for ES. However, the total number of staff employed by ES at 1 April 1997 was 34,174.

	1 January 2004 (Department for Work and Pensions)	*31 January 1997 (Department of Social Security)*
SCS	228	108
Grade 6	445	406
Grade 7	1,197	671
SEO	2,707	1,148
HEO	7,982	4,501
EO	41,514	23,864
AO	60,922	49,502
AA	10,056	13,992
Others	—	159
Total	125,051	94,351

Notes:
Staff numbers are Whole-time Equivalent (WTE) rounded and are consistent with
Cabinet Office definitions other than the inclusion of staff on paid maternity leave.

Departmental personnel records.

Construction Industry

Chris Ruane: To ask the Secretary of State for Work and Pensions what measures his Department has taken to promote Local Labour in Construction in the *(a)* public and *(b)* private sector; and if he will make a statement. [164887]

Maria Eagle: This Department is promoting local labour in construction through Framework for Regional Employment and Skills Action (FRESAs) and more specifically our Ambition: Construction pilots.

Since October 2002 each English region has had in place its Framework for Regional Employment and Skills Action (FRESAs). FRESAs aim to maintain and improve regional labour markets by co-ordinating strategy for employment and skills in each region, and ensuring a more efficient and co-ordinated service for employers and individuals alike. The Regional Development Agencies (RDAs) were asked to lead in the development of FRESAs by DWP, with DfES and DTI. The strategic partners taking forward FRESAs include Government Offices, Jobcentre Plus, the CBI, the TUC, the Learning and Skills Council and local authorities.

Ambition is unique among UK welfare-to-work programmes in terms of the degree to which employers are involved in design and delivery. By meeting the precise entry requirements of employers, Ambition can open up well-paid jobs with career potential to unemployed and disadvantaged jobseekers, while at the same time offering a high-quality recruitment service to employers and helping them to address skill shortages.

Ambition pilots are working with employers at central and local levels. Centrally, a steering group of business leaders from the construction sector oversees the project and reports progress to Ministers. Locally, Jobcentre Plus and contracted training providers engage local employers in the design of the programme and work with them to identify and meet their recruitment needs.

Ambition: Construction pilots are operating in seven locations: Paddington, Nottingham, Leeds, Coventry, Manchester, Merseyside and Aberdeen, with two further pilots in Edinburgh, and the Forth Valley starting in April 2004.

Correspondence

Mr. Webb: To ask the Secretary of State for Work and Pensions when he will answer question reference 148968, tabled by the hon. Member for Northavon on 15 January 2004. [161623]

Mr. Pond *[holding answer 23 March 2004]:* An answer was given to the hon. Member today.

Department-Sponsored Programmes

Mr. Goodman: To ask the Secretary of State for Work and Pensions what funding has been allocated to *(a)* action teams for jobs, *(b)* employment zones, *(c)* neighbourhood nurseries, *(d)* StepUp and *(e)* Sure Start in (i) 2004–05, (ii) 2005–06 and (iii) total. [163721]

Mr. Andrew Smith: The information is in the following table.

Programme funding

£ million

Programme	*Total to 2003–04*	*2004–05*[1]	*2005–06*[1]
Action Teams for Jobs	[1]181.5	58	58
Employment Zones	[2]336.5	92	[4]101
Neighbourhood Nurseries	[2]104	95	54
StepUp	[2]19.6	10	1
Sure Start[3]	[2]752	463	507

[1] Allocation figures including Employment and Transport Projects Funds.
[2] Includes spend to date and forecast outturn for 2003–04.
[3] Figures for the 500 plus Sure Start Local Programmes across England.
[4] Anticipated allocation.
Source:
DfES Sure Start Unit, Jobcentre Plus Finance and DWP Programme Divisions.

Departmental Buildings/Contracts

Mr. Llwyd: To ask the Secretary of State for Work and Pensions what *(a)* renovation and *(b)* maintenance projects on buildings (i) owned and (ii) rented by his Department were undertaken in each of the last five years; and what the associated costs were of each. [163944]

Maria Eagle: This department occupies approximately 1,800 buildings. The information in the format requested is not available centrally and could only be obtained at disproportionate cost.

Ethnic Minority Outreach

Ms Abbott: To ask the Secretary of State for Work and Pensions what the value is of the contracts awarded to *(a)* At Work (Talent) North London and *(b)* Reed in Partnership in North London in connection with the Ethnic Minority Outreach Programme; what targets were agreed when the contracts were awarded; and how many people (i) have been helped into work and (ii) have achieved other job outcomes as a result of those contracts, broken down by ethnic background. [162311]

Maria Eagle: The Ethnic Minority Outreach service, launched in April 2002, was introduced to engage with jobless ethnic minority people who were not regular users of Jobcentre Plus services, and help them compete more effectively in the labour market.

Targets were agreed with providers for a range of outcomes including job entries and work related training. Contracts and targets vary according to the particular barriers faced by the local ethnic minority community and the type of provision supplied.

At Work (Talent) North London and Reed in Partnership North London have been awarded contracts to the value of £240,970 and £294,850 respectively to deliver Ethnic Minority Outreach provision over the period April 2002 to March 2004.

Information on numbers helped into work through the Ethnic Minority Outreach service provided by At Work (Talent) North London and Reed in Partnership in North London, broken down by ethnic background, is in the table.

Job entries through Ethnic Minority Outreach provision[1]

Ethnic background	*At Work (Talent) North London*	*Reed in Partnership North London*
Not disclosed	>5	12
British	>5	>5
Irish	>5	>5
Other White	18	>5
White and Black Caribbean	6	>5
White and Black African	9	>5
White and Asian	>5	>5
Other Mixed	>5	>5
Indian	8	>5
Pakistani	10	>5
Bangladeshi	7	>5
Other Asian	7	>5
Black Caribbean	38	39
Black African	52	102
Other Black	10	5
Chinese	>5	>5
Other ethnic group	>5	>5
Total	181	169

[1] All information is to the end of February 2004. Where >5 is indicated, less than five customers from these backgrounds gained jobs. The exact figure is not given to preserve customer anonymity. Job entries through Ethnic Minority Outreach.

Department for Work and Pensions.

Minority Ethnic Outreach targets for At Work (Talent) North London and Reed in Partnership in North London are in the table.

Target	*At Work (Talent) North London*	*Reed in Partnership North London*
Registration with Jobcentre Plus	160	155
Starts on New Deal	160	60
Completion of New Deal	120	40
Job Outcomes	291	140
Registration with Talent Intermediary Service	800	Not applicable
Engagement with employers to promote the benefits of diversity	182	Not applicable

Source:
Department for Work and Pensions

Bob Spink: To ask the Secretary of State for Work and Pensions what action he is taking to increase the number of ethnic minority employees within his Department. [163552]

Maria Eagle: The latest figures for February 2004 show that the Department now employs 7.5 per cent. staff from an ethnic minority against the figure of 6.8 per cent. for the UK's economically active population.

Several initiatives are in place to help us to increase further the proportion of our staff from ethnic backgrounds, these include a new recruitment system introduced in December 2002 which is designed to be inclusive, increasing external recruitment into the Senior Civil Service to give us benefits from a wider range of candidates, development of a checklist of recruitment best practice which will enable recruitment at all grades from the widest possible pool, and a pilot of new methods of recruitment to our non-departmental public bodies. This will be based on outreach, marketing and support for applicants.

Departmental Expenditure (Sittingbourne and Sheppey)

Mr. Wyatt: To ask the Secretary of State for Work and Pensions what the expenditure of his Department and its predecessors for the constituency of Sittingbourne and Sheppey was between *(a)* 1992 and 1997, *(b)* 1997 and 2001 and *(c)* 2001 and 2004. [159489]

Mr. Browne: This information is not currently available in the form requested and could not be assembled without incurring disproportionate cost.

Departmental Policies (Older People)

Mr. Webb: To ask the Secretary of State for Work and Pensions for what *(a)* initiatives, *(b)* campaigns and *(c)* advisory bodies relating to older people his Department (i) is responsible and (ii) has provided funding since 2001; and what the cost in each year was for each one. [165142]

Malcolm Wicks: The information has been placed in the Library.

Direct Payments

Annabelle Ewing: To ask the Secretary of State for Work and Pensions how many people were eligible for direct payments in Scotland in *(a)* 2000–01, *(b)* 2001–02 and *(c)* 2002–03, broken down by local authority area. [161755]

Mr. Pond: The information is not available in the format requested. The information in the table gives the number of benefit and pension accounts paid by Direct Payment in December 2002 and December 2003. The number of accounts paid by Direct Payment in each Scottish local authority is shown as a percentage of the overall total of accounts paid by Direct Payment in Scotland.

	December 2002		*December 2003*	
	Number	*Percentage*	*Number*	*Percentage*
Total benefit or Pension accounts in Scotland paid by Direct Payment	923,120	100	1,296,750	100
Aberdeen City	39,120	4.24	51,155	3.94
Aberdeenshire	43,120	4.67	58,705	4.53
Angus	22,790	2.47	30,975	2.39
Argyll and Bute	18,980	2.06	24,675	1.90
The Scottish Borders	22,835	2.47	30,600	2.36

South Ayrshire	24,445	2.65	32,400	2.50
South Lanarkshire	54,315	5.88	77,715	5.99
Stirling	17,165	1.86	22,180	1.71
West Lothian	27,030	2.93	39,380	3.04
Comhairle nan Eilean Siar	4,330	0.47	6,405	0.49

Notes:
1. Figures refer to a snapshot of live accounts in payment on 24 January 2004 and 25 January 2003.
2. The people eligible for Direct Payment are those who have an account suitable for receiving direct payment and who have an agreement with the Secretary of State that they want their benefit or pension made by this method. The figures above are of those people who have taken up the option of receiving their benefit or pension this way.
3. The figures relate to payments administered by Department of Work and Pensions only. They do not include Child Benefit accounts which are the responsibility of Inland Revenue or War Pension accounts are now the responsibility of the Ministry of Defence
4. The figures above are rounded to the nearest five, totals may not sum due to roundings

DWP Information Centre, Information and Analysis Directorate (100 per cent. data).

E-business Strategy

Mr. Heald: To ask the Secretary of State for Work and Pensions when he expects to produce his Department's e-business strategy. [162815]

Mr. Browne: Making services available online is an intrinsic part of DWP's business strategy, not a free-standing activity. It is therefore no longer appropriate to publish a separate e- business strategy. Details of DWP's approach to customer service delivery can be found in the business plans of each of the main delivery businesses, copies of which are on the Department's websites and in the Library.

Employment Agencies

Matthew Taylor: To ask the Secretary of State for Work and Pensions if he will list the employment agencies which his Department and its predecessors have used to supply temporary staff in each financial year since 1996–97 to the most recent date for which figures are available. [163816]

Maria Eagle: The Department's use of agencies to supply temporary staff is limited, temporary vacancies are normally notified to, and filled by, Jobcentre Plus Offices. The information requested is not held centrally and where available would only go back to 2001/02, due to the length of time the Department is required to keep recruitment information. Obtaining any information would be at disproportionate cost.

Endometriosis

Mrs. Brooke: To ask the Secretary of State for Work and Pensions (1) how much *(a)* Disability Living Allowance and *(b)* (i) short-term and (ii) long-term Incapacity Benefit was paid out in England and Wales as a result of (A) chronic pelvic pain and (B) endometriosis in each year since 2000–01, broken down by region; [163135]

(2) how many individuals in England and Wales were receiving Disability Living Allowance as a result of endometriosis in each year since 2000–01, broken down by region. [163136]

Maria Eagle: There is no data available to answer the question *(a)* on Disability Living Allowance nor the question on Disability Allowance contained in PQ 163136. The items on Incapacity Benefit for which answers can be provided are contained in the table.

Great Britain

£ million

	2000–01	*2001–02*	*2002–03*
Incapacity Benefit short-term			
Endometriosis	0.1	0.4	0.1
Abdominal and Pelvic Pain	3	3	3
Incapacity Benefit long-term			
Endometriosis	2	2	2
Abdominal and pelvic pain			
North East	1	1	1
North West	2	2	2
Yorkshire and Number	2	2	2
East Midlands	1	1	1
West Midlands	2	2	2

Great Britain

£ million

	2000–01	*2001–02*	*2002–03*
East	1	1	1
London	1	1	1
South East	1	1	1
South West	1	1	1
Total England	11	12	12
Wales	2	2	2
Scotland	3	3	3
Great Britain	16	17	18

Numbers are based on a 5 per cent. sample of administrative records, drawn quarterly from the Incapacity Benefit computer system, and averaged over each financial year.

Expenditure figures have been rounded to the nearest million and may not sum to the total as a result. The exception to this is contained in the Table showing Incapacity Short Term expenditure on Endometriosis, which is rounded to the nearest one hundred thousand.

Incapacity Benefit

Mr. Goodman: To ask the Secretary of State for Work and Pensions how many and what percentage of the Incapacity Benefit caseload have been in continuous receipt of the benefit since before 1 May 1997. [163693]

Maria Eagle: The total number of IB and SDA claimants at 30 November 2003 is 2,720,500. Of these, 1,129,200 or 41.5 per cent. have a claim start date before 1 May 1997.

- Before 1997, people claiming Incapacity Benefits received virtually no support to get back to work despite the fact that large numbers want to work again. That is why, since 1997, we have sought to provide greater incentives to try out work, and to offer specialist support to put individuals in a better position to secure a job.

Our Pathways to Work pilots bring all existing and new measures together in a more coherent package of choices. On 17 March, my right hon. Friend the Chancellor of the Exchequer announced further incentives to be trialled in pilot areas to enable those preparing for a return to work to receive an additional £20 per week for up to 26 weeks.

Notes:

1. Figures are rounded to the nearest 100 and the percentage is rounded to one place of decimal.

2. Some cases, which have been "rebuilt" onto the system, may have a start date later than the original commencement date of the spell.

3. Cases where payment has been temporarily suspended for a period within the spell, cannot be identified.

Source:

DWP—IAD Information Centre, 5 per cent. sample.

Mr. Goodman: To ask the Secretary of State for Work and Pensions what the average length of time was for which *(a)* a man and *(b)* a woman has received Incapacity Benefit on mental health grounds in each year since 1997 in relation to (i) stress, (ii) behavioural problems, (iii) anxiety and (iv) depression. [164731]

Maria Eagle: The information has been placed in the Library.

Jobcentre Plus

Tim Loughton: To ask the Secretary of State for Work and Pensions what his plans are for Jobcentre Plus for over 50s; and how much his Department has committed to the programme. [163016]

Mr. Browne: Our Pensions Green Paper 'Simplicity, Security and Choice: Working and Saving for Retirement' reinforced our commitment to extend employment opportunities for older people, with a range of proposals including providing extra back to work help for the over 50s and a number of changes to tax and pension rules which will give individuals more choice and the opportunity to stay in work longer. We have also pledged to tackle age discrimination in the workplace and will be introducing age legislation and guidance covering employment and vocational training by October 2006.

Through Jobcentre Plus we have enhanced the New Deal 50plus programme to offer customers a package of help tailored to individual needs. This includes personal job-search advice, pre-work training, work trials, volunteering opportunities and an in-work training grant. This help is available to all people aged 50 and over (and their dependent partners aged 50 and over) who have been on specified benefits such as Jobseekers Allowance, Incapacity Benefit and Pension Credit for six months or more.

The projected expenditure for New Deal 50plus in 2003–04 is £56 million. Back to work help is also available to people aged 50 or over through other programmes, for example New Deal 25plus and Work Based Learning for Adults. The cost of this help is not available separately of wider programme budgets. Additionally, we have allocated £7.9 million in 2004–05 and £7.2 million in 2005–06 to fund new measures to assist people aged 50 and over back to work (as announced in the pre-Budget report) and a campaign to encourage employers to recruit and retain older workers (as announced in the 2004 Budget).

From April 2004 we will be piloting two of the back to work help proposals outlined in the Green Paper. The Over 50s Outreach pilot involves external organisations acting as an intermediary between Jobcentre Plus and the customer. Research has indicated that contact from Jobcentre Plus can concern people aged over 50, particularly those on inactive benefits such as Incapacity Benefit, Income Support and Severe Disablement Allowance. This project is aimed at identifying best practice to help Jobcentre Plus better engage with these customers.

We are also running a pilot study giving customers aged 50 to 59, who have been claiming JSA for 18 months, mandatory Intensive Activity Periods as part of their ND25plus programme. Customers aged 25 to 49 are already required to participate in this element of the ND25plus programme because it offers them extensive help back into work. Eligible customers aged 50 to 59 currently have voluntary access to this provision but only 12 per cent. take up the opportunity. Research suggests that this lack of take up may be due to

individuals losing confidence and becoming demoralised about their chances of returning to work. We believe that participation in the Intensive Activity Periods is a key element in re-motivating people aged 50 to 59 years old and giving them the relevant support and employment opportunities they need.

In addition to this, the IB Reform pilots are looking at how we can best provide the support needed to help new incapacity benefit customers return to work. Given the positive start to the pilots, and the fact that many of those existing customers volunteering to take part have been successfully helped back into jobs, a tailored regime will be introduced early in 2005 for all existing IB customers who started their claim in the two years prior to the beginning of the IB Reform Pilots.

Mr. Goodman: To ask the Secretary of State for Work and Pensions whether Jobcentre Plus advisers receive additional payments for keeping clients with disabilities in work; and if he will make a statement. [163697]

Mr. Browne: Jobcentre Plus advisers, in common with other DWP staff, receive a basic salary and have the opportunity to earn a performance-related bonus on top. In the 2003 pay award those bonuses were up to £220 for Band C staff in Jobcentre Plus, which included personal advisers. The amount of bonus was determined by the "box marking" an individual received in their annual appraisal, which depended on achievement of their objectives. These objectives would have covered the full range of their duties.

Mr. Andrew Turner: To ask the Secretary of State for Work and Pensions (1) if he will list the functions *(a)* of job centres and *(b)* of Jobcentre Plus centres; [162212]

(2) if he will list the functions *(a)* of job centres and *(b)* of Jobcentre Plus centres in (i) Hampshire and the Isle of Wight and (ii) Ayrshire and Bute, showing for each at the last date for which information is available (A) the number of jobseeker's allowance customers registered at each, (B) the number of income support and incapacity benefit customers registered at each, (C) the number of customers at each in the specialist disability adviser's caseload and (D) the number of customers expected to be seen for incapacity benefit once the new regulations take effect. [162215]

Mr. Browne *[holding answer 18 March 2004]:* The administration of Jobcentre Plus is a matter for the Chief Executive of the Jobcentre Plus, David Anderson. He will write to the hon. Member.

Letter from David Anderson to Mr. Andrew Turner, dated 1 April 2004:

As Jobcentre Plus is an Executive Agency, the Secretary of State has asked me to reply direct to your question about the functions of Jobcentres and Jobcentre Plus centres generally and in Hampshire and the Isle of Wight and Ayrshire and Bute in particular. This is something which falls within the responsibilities delegated to me as Chief Executive of the Agency.

Jobcentre Plus came into existence as a national organisation at the beginning of April 2002 and the roll-out of its new services will be completed by 2006. The Benefits Agency and Employment Service ceased to exist at the same time. Some 400 Jobcentre Plus offices are now delivering the new integrated service across the country.

In broad terms, Jobcentres, formerly operated by the Employment Service, have traditionally provided the following services:

1. taking new claims to Jobseeker's Allowance;
2. providing support for jobseekers through New Deal;
3. providing access to job vacancies through touch-screen Jobpoints
4. Fortnightly Jobsearch Reviews and adviser interventions, supporting jobsearch and checking entitlement to benefit;
5. providing advice and guidance services in the community through outreach and building local partnerships; and
6. signposting to other Government services.

Social security offices, formerly operated by the Benefits Agency, have traditionally provided the following services:

1. receiving and processing claims for a wide range of benefits;
2. managing applications to the Social Fund;
3. providing advice and information on benefits and allowances;
4. investigating cases of suspected fraud, taking action where appropriate; and
5. signposting to other Government services.

The new Jobcentre Plus offices deliver an integrated service incorporating those functions previously delivered through Jobcentres and social security offices. New technology and a growing contact centre network, support the delivery of this new service. As Jobcentre Plus offices are introduced across the country people of working age will have one local contact point for benefits and job vacancies.

With Jobcentre Plus roll-out spread over four years, local managers have had some flexibility to begin the integration of local services ahead of the full implementation. In some locations this might take the form of social security experts providing benefit advice in Jobcentres and, conversely, provision of some access to job vacancies in social security offices. Where we have done this it has improved access to local services, but at the same time it has blurred the distinction between Jobcentres and social security offices.

The new Jobcentre Plus service is currently being rolled out in Hampshire and the Isle of Wight. Ayrshire is currently scheduled to roll-out the new service in 2005–06 and Bute has been delivering the new service since 17 March 2003.

You asked for specific information on; *(a)* the number of Jobseeker's Allowance customers registered at each; *(b)* the number of Income Support and Incapacity Benefit customers registered at each; *(c)* the number of customers at each in the specialist Disability Adviser's caseload; and *(d)* the number of customers expected to be seen for Incapacity Benefit once the new regulations take effect. Current information up to the end of February can be found in the following tables.

Ayrshire and Bute

Office	*Number of JSA Customers Registered*	*Number of IS and IB Customers Registered*	*Number of Disability Employment Advisors Caseload Customers*	*Number of IB Customers to be seen when the IB Reform Pilot takes effect* [1]

I hope this is helpful.

Maternity Allowance

Sandra Gidley: To ask the Secretary of State for Work and Pensions what measures he has taken to publicise the eligibility criteria for maternity allowance. [163339]

Maria Eagle: The eligibility criteria for Maternity Allowance are publicised in a number of ways. The Department publishes a leaflet which is available through both its offices and post offices.

A Maternity Certificate is issued to all women by their GP or midwife from their twenty-first week of pregnancy; it contains basic information on entitlement to Maternity Allowance and directs potential claimants to Jobcentre Plus or Social Security Offices for further guidance and claim forms.

Information is available on a number of websites including the Department's own site, and those of Jobcentre Plus and the Department of Trade and Industry; Inland Revenue guidance also signposts our information sources.

Employed women who are not entitled to Statutory Maternity Pay should also be advised by their employer to claim Maternity Allowance. The Department's leaflet is also included in the bounty pack women receive following childbirth.

New Deal

Mr. George Osborne: To ask the Secretary of State for Work and Pensions what the estimated cost of the New Deal is in the current financial year, broken down by programme. [158417]

Maria Eagle: The information is in the following table:

Estimated New Deal Costs[1]

£ million

	2003–04 Plans
New Deal for Young People	340
New Deal 25 plus	255
New Deal 50 plus	56
New Deal for Lone Parents	82
New Deal for Disabled People	27
New Deal for partners	11

Note:

[1] Includes programme and administrative spend.

Source:

Department for Work and Pensions Departmental Report 2003.

Mr. George Osborne: To ask the Secretary of State for Work and Pensions (1) how many people have participated in the New Deal since its inception, broken down by programme; [158418]

(2) what the *(a)* planned and *(b)* actual cost of the New Deal has been in each year of its operation; [158419]

(3) what the average cost per participant of the New Deal has been to date. [158425]

Maria Eagle: The information requested on the number of New Deal participants is in the following table:

	Number of New Deal Participants [1]	*Number of New Deal Starts* [2]
New Deal for Young People[3]	831,350	1,081,680
New Deal 25plus[4]	496,790	673,790
New Deal for Lone Parents[5]	459,070	577,710
New Deal for Disabled People[6]	69,450	69,450
New Deal for Partners[7]	7,480	7,480
New Deal 50 plus[8]	98,040	98,040

[1] All figures relate to individuals who have started each programme.

[2] An individual may have had more than one start over the period. A distinction between individuals and starts for NDDP, NDP, and ND50+ can't be made.

[3] January 1998—December 2003

[4] April 1998—December 2003

[5] October 1998—December 2003

[6] Pilots launched in September 1998. National network of NDDP job brokers launched from July 2001. Up to December 2003.

[7] Launched as New Deal for Partners of Unemployed People in April 1999. Extended to partners of other benefit recipients in April 2001. Up to December 2003.

[8] New Deal 50 plus was introduced in nine pathfinder areas on 25 October 1999 and rolled out nationally on 3 April 2000. Up to March 2003.

Notes:
All figures rounded to nearest £ million.
All planned figures quoted were the latest published in the appropriate Departmental Report.

Information on the cost per individual participant up to March 2002, the last financial year to have confirmed outturn cost figures, is in the following table:

	Actual Cost up to March 2002 (£millions)[1]	Number of New Deal Participants up to March 2002[2, 3]	Number of New Deal Starts up to March 2002[2, 4]	Average Cost per individual up to March 2002 (rounded to the nearest £10)	Average Cost per start up to March 2002 (rounded to the nearest £10)
New Deal for Young People	1,393	[5]552,882	[5]788,240	2,520	1,770
New Deal 25plus	404	[6]366,190	[6]481, 230	1,100	840
New Deal for Lone Parents	146	[7]248,170	[7]343,040	590	430
New Deal for Disabled People	47	[8]12,960	[8]12,960	3,630	3,630
New Deal for Partners	25	[9]5,150	[9]5,150	4,850	4,850
New Deal 50 plus	146	[10]66,970	[10]66,970	2,180	2,180
Total	2,161	1,252,322	1,697,590	1,730	1,270

[1] *Source:* DWP Departmental Report 2003
[2] *Source:* New Deal Evaluation Database, Information and Analysis Directorate, DWP
[3] All figures relate to individuals who have started each programme
[4] An individual may have had more than one start over the period. A distinction between individuals and starts for NDDP, NDP, and ND50+ can't be made.
[5] January 1998—March 2002
[6] April 1998—March 2002
[7] October 1998—March 2002
[8] Pilots launched in September 1998. National network of NDDP job brokers launched from July 2001. Up to March 2002.
[9] Launched as New Deal for Partners of Unemployed People in April 1999. Extended to partners of other benefit recipients in April 2001. Up to December March 2002
[10] New Deal 50 plus was introduced in nine pathfinder areas on 25 October 1999 and rolled out nationally on 3 April 2000. Up to March 2002.

Over one million people have been helped in to work through the New Deal since its creation, but it has also been a success in financial terms. NIESR estimated that the economy as a whole is richer by £500 million a year as a result of the New Deal for Young People. Independent evaluation has also found that the New Deal for Lone Parents saves money; with every lone parent moving into work equating to an exchequer saving of nearly £1,600.

Opinion Sampling

Mr. Laws: To ask the Secretary of State for Work and Pensions what his estimate is of total expenditure by his Department on *(a)* focus groups and *(b)* opinion polls in each year from 1995–96 to 2003–04; and if he will make a statement. [162761]

Maria Eagle: The Department for Work and Pensions wants to hear what people have to say about proposed new policies and procedures, and about how our services are meeting the needs of our customers. There are several methods by which we do this:

consultation exercises; conducted in accordance with Cabinet Office guidance;

meetings with customer representatives to obtain their views and feedback;

customer surveys, both national and local;

research, contracted in accordance with agreed tendering procedures which;

are subject to the usual rules that spending should represent good value for money.

Because the Department arranges its own consultative meetings, often within its respective businesses, detailed information about expenditure on all of these is not held centrally, and the information could be obtained only at disproportionate cost.

Costs of our public opinion surveys over the last 3 years

	£
2003–04	25,556.25
2002–03	23,441.25
2001–02	42,476.25

Pensioners

Mr. Willis: To ask the Secretary of State for Work and Pensions whether a final date has been set after which pensioners who do not want to change their payment arrangements will no longer be able to use pension books. [161474]

Mr. Pond *[holding answer 15 March 2004]:* The last pension book foils can be dated no later than 28 February 2005. This is to allow for three-month validity for encashment prior to the end of the order book contract on 31 May 2005.

Lynne Jones: To ask the Secretary of State for Work and Pensions (1) what alternative methods of payment he is proposing for people who currently receive a state pension or other benefits by order book, girocheque or payable order but will be unable to transfer to direct payment; [165212]

(2) who will be eligible to receive their *(a)* state pension and *(b)* other benefits by methods other than direct payment. [165213]

Mr. Pond: Research has shown that 87 per cent. of all our customers and 90 per cent. of pensioners already have an account suitable for direct payment.

Direct payment will be the best and most secure option for the overwhelming majority of our customers, giving them a more modern and reliable method of payment with greater choice about where and when they collect their money.

We have always recognised that there will be a small number of people who we cannot pay directly into an account. We are finalising the design of a method of payment to properly meet the needs of these customers and it will be cheque based.

Customers who have not supplied account details will be contacted at an appropriate time and the options available to them will be fully explained. This will include the fact that order books will no longer be a payment option.

The move to direct payment is progressing well. Key figures on the progress of conversion to direct payment are available in the Library updated every four weeks.

Mr. Webb: To ask the Secretary of State for Work and Pensions how many pensioners whose pension is paid by order book receive their pension on *(a)* Monday, *(b)* Tuesday, *(c)* Wednesday, *(d)* Thursday and *(e)* Friday. [148968]

Mr. Pond *[holding answer 19 January 2004]:* The following table shows a breakdown of State Pensioners receiving their payment by means of an order book, by day of payment.

	Number
Monday	2,814,716
Tuesday	430,581
Thursday	815,106
Unknown	4,374
Total	4,064,777

Notes:

1. Figures refer to a snapshot of live accounts in payment on 29 November 2003.
2. Excludes State Pension recipients who receive State Pension combined with another benefit and are paid through another benefit system.
3. Day of payment is calculated by looking at the last payment authorised by the Pension Service, which may be in the future.
4. The day of payment used in this analysis may not be the pensioners usual day of payment if their last payment day in this instrument of payment is altered for any reason (e.g. Christmas).
5. This table shows the day State Pension is paid, not the day the claimant picks up their pension from the Post Office.
6. This answer differs to PQ/04/145975 (Mr Alan Reid) because of change in methodology for calculating these figures.

Source:

IAD Information Centre, 100 per cent. sample

Tony Cunningham: To ask the Secretary of State for Work and Pensions whether the Department's policy to persuade people to have their pension paid into a bank account includes telephone calls urging them to open a bank account. [164898]

Mr. Pond: Already 87 per cent. of all customers, rising to 90 per cent. of pensioners, have access to a bank account that can receive Direct Payment. It is the role of staff to provide customers with factual information on all of their account options. It is for customers themselves to decide which type of account they wish to have their pensions and benefits paid into. The conversion process normally consists of one or more mailings sent directly to the customer, followed by a telephone call if there is no response to the letter(s). The mailing advises customers that this may happen.

Mr. Burns: To ask the Secretary of State for Work and Pensions how many pensioners in *(a)* Essex and *(b)* the West Chelmsford constituency collect benefits from post offices. [165228]

Mr. Pond: Information available on pensioners (women over 60 and men over 65) as at 31 December 2003 in *(a)* Essex and *(b)* West Chelmsford constituency receiving their benefits by a method of payment collectable at a Post Office is shown in the following table. Included in these figures are customers paid into Post Office Card Accounts and customers paid by girocheque. Girocheques are encashable either at a Post Office or they can be paid into a bank or building society account.

	Number
Essex	100,215
West Chelmsford	6,050

Some customers who are paid direct into a bank or building society account can also collect their payments in cash at Post Offices through the wider range of banking services now available at the Post Office. There is no data available on the number of benefit claims collected in this way.

Mr. Burns: To ask the Secretary of State for Work and Pensions how many pensioners in *(a)* Essex and *(b)* the West Chelmsford constituency have migrated from over-the-counter benefit payments to direct transfers in each of the last three years for which figures are available. [165229]

Mr. Pond: The information is not available in the format requested. Figures are only available from December 2002.

Information available for the number of pensioners (women aged 60 and over, men aged 65 and over) who migrated from over the counter benefit payments to Direct Payments into bank and building society accounts between December 2002 and December 2003 is shown in the table.

	Number
West Chelmsford constituency	950
Essex	12,345

Jon Trickett: To ask the Secretary of State for Work and Pensions how many pensioners in Hemsworth constituency receive benefits at the Post Office. [145918]

Mr. Pond *[pursuant to his reply, 21 January 2004, Official Report, c. 1347W]:* The number of Pensioners in the Hemsworth constituency receiving at least one benefit which can be collected at the Post Office is 10,905. This information has been compiled from data available on 29 November 2003.

War Pensions accounts are not included in this reply as they are now the responsibility of the Ministry of Defence.

Linda Perham: To ask the Secretary of State for Work and Pensions if he will make a statement on changes to services to *(a)* employers and *(b)* pensioners in the London borough of Redbridge since 1997. [164875]

Maria Eagle: The delivery of services to Employers in Redbridge is via the Employer Direct Cali Centre in Southend which opened in March 2001.

Employer Direct handles inbound calls, faxes and emails from employers wishing to place a vacancy with Jobcentre Plus. They maintain contact with the employer through the life of the vacancy through the Contact Centre within the Region where the employer is based.

The Pension Service has been developed as a customer-focused organisation after researching what customers need and expect from the Government in relation to pensions business.

The London Pension Centre in Glasgow has been providing a service to pensioners in the London borough of Redbridge since February 2004. The Pension Centre provides a dedicated service to Pensioners, handling their pension inquiries and applications. Prior to this date these services were provided by Ilford Social Security Office.

Pension Centres are supported by a local service operating in the community—providing face-to-face contact through home visits, appointment surgeries and other outreach activity in locations that customers find convenient, such as libraries, community centres and premises provided by partner organisations, allowing more customers to access The Pension Service.

Population Increase (London)

Mr. Gardiner: To ask the Secretary of State for Work and Pensions what provision he has made for the increase in his Department's services to address London's projected population increase; and what plans he has put in place to deal with the employment needs for the population increase. [163407]

Mr. Browne: The Department for Work and Pensions has standards of service for each person receiving benefits or pensions and the Department's business plans ensure that there are sufficient staff and resource to deliver these standards of service.

Such planning will, of course, take account of the size of the London population. It will also need to take account of the proportion of people claiming benefits and pensions. For example, between May 1997 and May 2003 the numbers claiming working age benefits in London has fallen from 830,000 to 691,000 and the proportion of the population from 18.8 per cent. to 14.7 per cent.

At the time of the pre-Budget report 2003 DWP together with the Treasury published a report "Full Employment in Every Region". This examined the employment situation in all regions including London and set out the how labour market policy is developing to deal with London's employment needs.

Post Office Card Account

Malcolm Bruce: To ask the Secretary of State for Work and Pensions (1) what assessment he has made of the effect in terms of timescale and cost of altering the Post Office card account application process to allow account details to be provided from Post Office Limited direct to his Department; whether he has received representations from *(a)* Post Office Limited and *(b)* others relating to the Post Office card account application process; and if he will make a statement; [162800]

(2) what assessment he has made of the timescale involved in processing an application to receive pension and benefits into *(a)* a Post Office Card Account and *(b)* a bank or building society account; whether he has

assessed differences in the timescale of the different application processes for direct payment; and if he will make a statement. [163073]

Mr. Pond *[holding answer 22 March 2004]:* We do recognise that some customers have been slow to send their Post Office card account details to the DWP. The DWP typically send out a conversion letter to customers shortly after they have been sent a new order book. As order books normally last for 20 weeks, this gives the customer plenty of time to open an account if necessary and supply account details.

However, it is clear that many customers do not realise that they then need to provide DWP with their card account details. We are working with the Post Office, sub-postmasters and others to solve this problem. We have improved customer information and sub-postmaster training. These actions have already had some impact and the number of customers returning account details is starting to increase. Further action will also be taken to simplify the process for customers returning account details to DWP.

Mr. Peter Duncan: To ask the Secretary of State for Work and Pensions how much has been spent in marketing the Post Office Card Account in the last year in *(a)* Scotland and *(b)* the UK. [155474]

Maria Eagle: The Department does not market specifically the Post Office Card Account. Instead customers are given information on all the accounts available for Direct Payment. The information is presented in a way that enables customers to decide which account option is best for their individual circumstances.

The total publicity cost for the Direct Payment information campaign during 2003–04 is estimated to be £12,462,000. This includes advertising. As this is a national information campaign, it is not possible to isolate costs for Scotland.

Prescribed Disease A11

Liz Blackman: To ask the Secretary of State for Work and Pensions when he received the Industrial Injuries Advisory Council Report on Prescribed Disease A11; and when he will publish his response to the report. [164180]

Mr. Browne: My right hon. Friend received the report by the Industrial Injury Advisory Council on Prescribed Disease A11 on 23 March 2004. We are currently giving careful consideration to the Council's findings and hope to publish the report after the Easter recess.

Redundancies/Staff Reduction

Paul Holmes: To ask the Secretary of State for Work and Pensions what research his Department has conducted into the effects of his Department's planned redundancies and redeployment of staff over the next four years; if he will place copies in the Library; and if he will make a statement. [163295]

Mr. Letwin: To ask the Secretary of State for Work and Pensions what progress has been made in achieving a gross reduction of 40,000 civil servants in his Department since the Budget. [165020]

Maria Eagle: The Department has been developing plans for a reduction of up to 18,000 posts since 2002. This is now part of a four-year plan to reduce the number of posts by 30,000. This will reflect the new business model being rolled-out in Jobcentre Plus including more front-line staff conducting work-focused interviews; a Pension Transformation Programme and reductions in staffing in The Pension Service; the introduction of Child Support reform; and savings in "back office" functions in HR, finance and IT support.

The detail of how reductions will be allocated and profiled between businesses and corporate services will be developed in the normal way through our business planning processes and in discussion with the trade unions. We will provide further detail after the Spending Review settlement.

Register of Interests

Bob Spink: To ask the Secretary of State for Work and Pensions what the requirements are on officials in his Department to declare current interests; and what register of interests is kept for his departmental officials. [164706]

Maria Eagle: The Civil Service Management Code sets out the requirement for civil servants declaring any conflicts of interest. The Department for Work and Pensions requires individuals to seek permission from their line managers before undertaking any outside employment or activity, which could have a conflict of interest with working for the Department. These include: Political Activities, Outside Business Appointments, Non-Executive Directorships, secondary jobs, managing a board and lodging establishment/nursing home, membership of non-political organisations, Public Service, enlistment in HM Forces, voluntary reserve and auxiliary forces. There is no central register of interests; it is up to individuals and line managers to record them.

Vaccine Damages Payments

Ross Cranston: To ask the Secretary of State for Work and Pensions pursuant to his answer of 12 February 2004, *Official Report*, column 1608W, which of the 571 cases identified involved *(a)* an extension of time limits for claiming and *(b)* the reduction of the disability threshold; and how many claims in each of these categories have been (i) successful and (ii) unsuccessful. [164716]

Maria Eagle: The 571 cases identified under the Regulatory Reform Order (RRO), break down into the following:

208 were originally disallowed because they were out of time;

363 were below the original disability threshold.

Of the 571 cases identified, 337 further claims have so far been received. Of these:

150 were originally disallowed on time limit grounds. Two of these have been successful, 143[1] have been unsuccessful and five are pending;

187 were originally disallowed on disablement grounds. Six of these have been successful, 173[2] have been unsuccessful and eight are pending.

Notes:

[1,2] Of these 316 subsequent disallowances, 275 have been disallowed on the grounds that causation has not been accepted, while 41 have been disallowed where causation has been accepted but the vaccinated person is deemed not to be over 60 per cent. disabled.

[3] Causation is accepted where on the balance of probability, it is determined that a person is, or was immediately before their death, severely disabled due to vaccination against any of the specified diseases.

Working at Height

Mr. Key: To ask the Secretary of State for Work and Pensions whether the Working at Height Directive applies to *(a)* mountaineering, *(b)* rock climbing, *(c)* acrobatics in circuses and gymnasiums and *(d)* other outdoor leisure activities. [163673]

Mr. Browne: The Temporary Work at Height Directive (2001/45/EC) is intended to reduce the risk of falls from height, which account for a large percentage of fatal or major injuries at work. The Directive has the same scope of application as the Framework Directive (89/391/EEC), and applies to all sectors of activity where temporary work at height is carried out.

Therefore, the Directive would apply to all these activities when performed as a work activity. It would not apply to private individuals who partake in these tasks as a sport, or leisure activity. However, it is expected to have little impact on activities where employers fully comply with existing good practice.

FOREIGN AND COMMONWEALTH AFFAIRS

European Initiative for Democracy and Human Rights

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the effectiveness of the European Initiative for Democracy and Human Rights projects in 2002 *(a)* to establish a dialogue on human rights between the EU and Iran and *(b)* to strengthen the labour movement in Tunisia; and what his Department's involvement was in each project. [165205]

Mr. Rammell: Decisions about the individual projects funded by the European Initiative for Democracy and Human Rights are made by the European Commission and local EC Delegations. They are also responsible for managing and evaluating the projects.

The EU Committee on Human Rights and Democracy allocates EU budget resources to projects in third countries and is responsible for evaluating the impact of the fund.

The UK is represented on the Committee by officials from the Foreign and Commonwealth Office and the UK Permanent Representation to the EU.

Burma

Mr. Russell Brown: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will advocate a strengthening of the EU Common Position on Burma at the forthcoming review. [164199]

Mr. Mike O'Brien: Prime Minister Khin Nyunt of Burma's State Peace and Development Council announced a "roadmap to national reconciliation" on 30 August 2003. The first step of the roadmap is to reconvene the National Convention to agree a new constitution, as outlined by Foreign Minister Win Aung at the Bangkok Process meeting in December. In light of that, we believe that it would send a wrong signal to strengthen sanctions under the EU's Common Position on Burma at a time when the regime may be moving forward with the political process. We are therefore prepared to support a rollover of existing measures in the EU Common Position on Burma which already contains tough measures against the regime. However, we remain ready to respond proportionately to positive or negative progress in Burma.

China

David Taylor: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions the Government has held with the Chinese government on Tibetan political prisoners. [163679]

Mr. Rammell: I personally raised the case of one Tibetan political prisoner with Assistant Foreign Minister Zhang Yesui in Beijing on 17 December 2003.

Tibetan political prisoners are included on the list of individual cases of concern which we hand over to the Chinese authorities, in the context of our biannual Human Rights Dialogue. The most recent dialogue round was held in Beijing on 10–11 November 2003.

Phuntsog Nyidrol one of the prisoners on our list was released earlier this month.

The EU also includes Tibetans on its list of individual cases.

Cyprus

Mr. Russell Brown: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with political leaders in Cyprus with a view to securing a deal to reunite Cyprus before 1 May. [164191]

Mr. MacShane: My right hon. Friend the Foreign Secretary met the Foreign Minister of Cyprus at the European Council on 25 March. On 31 March, the Foreign Secretary spoke to the Greek Foreign Minister, who was in Switzerland for the final stage of settlement negotiations. He also recently spoke to the Turkish Foreign Minister. The Foreign Secretary discussed Europe's role in securing a Cyprus settlement in recent meetings with EU Foreign Ministers. My right hon. Friend the Prime Minister has written to the Prime Ministers of Turkey and Greece, and President Papadopoulos of Cyprus, in recent days.

The Foreign Secretary has made a written statement today on the outcome of the Buergenstock negotiations. With the help of the UN Secretary-General the leaders in Cyprus have peace within their grasp. We are calling on all the people of the island to seize that chance. It will then be for the EU to accommodate the terms of a Cyprus settlement in line with the principles upon which

the EU is founded. The EU reiterated that commitment as recently as the last European Council on 26 March 2004.

European Constitution

Mr. Challen: To ask the Secretary of State for Foreign and Commonwealth Affairs what the Government's position is on Article 51 of the draft EU Constitution. [164494]

Mr. MacShane: The Government are content with Article 51 of the draft Constitutional Treaty on the status of churches and non-confessional organisations. The Article reflects the recognition in Declaration 11 to the Treaty of Amsterdam that religion and its structure and organisation in the member states are not areas of Union legislative activity. It also makes it clear that the Union equally respects the status of religious and secular organisations and shall maintain an open transparent and regular dialogue with them. The Government consider that maintaining this dialogue is a normal function of a democratic and pluralist Europe.

Huw Irranca-Davies: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will apply to the EU Constitution a European version of the criterion applied to the 1949 Washington Treaty which declared that it should be understandable to a milkman from Omaha. [164543]

Mr. MacShane: If and when an EU constitutional treaty is agreed I will seek to publish a guide to it in plain English that milk persons in Ogmore can understand.

Stephen Hesford: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he expects the negotiations on the European Constitution to restart in the near future. [156778]

Mr. MacShane: I refer my hon. Friend to the answer that my right hon. Friend the Foreign Secretary gave to the hon. Member for Aldridge-Brownhills (Richard Shepherd) in the House on 30 March 2004, *Official Report*, column 1415.

Iran and Syria

John Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made in the past six months of whether the governments of *(a)* Iran and *(b)* Syria have given support to terrorist groups. [164368]

Mr. Rammell: The UK Government are concerned that Palestinian terrorist groups may draw support from inside Iran and Syria. We continue to press both the Iranian and Syrian authorities on this and, in Syria's case, on the activities of those groups with a presence in Syria. Separately, we have urged the Iranian Government to take effective action against any members of Al-Qaeda seeking refuge in Iran and the Syrian Government to act to stem the flow of terrorists into Iraq. We and EU partners have made clear that relations with both countries can only develop on the basis of action to address political concerns, including terrorism.

Iraq

Harry Cohen: To ask the Secretary of State for Foreign and Commonwealth Affairs how the Iraqi Governing Council will be different after the transfer of sovereignty; and if he will make a statement. [164085]

Mr. Rammell: The Iraqi Governing Council (IGC) will cease to exist as the embodiment of Iraqi sovereignty (as provided for in UNSCR 1511) after 30 June. As set out in Article 2B(1) of the Transitional Administrative Law agreed on 8 March, it will be replaced by a fully sovereign Iraqi Interim Government. The best way to establish the Interim Government is now under discussion among Iraqis, the IGC and the Coalition Provisional Authority. The UN Secretary-General's Special Adviser, Lakhdar Brahimi is due to return to Iraq soon to take part in these discussions.

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what protection is provided for religious communities in Iraq. [164027]

Mr. Rammell: The coalition is working hard to strengthen the Iraqi security and judicial sectors to provide law and order for all Iraqis and to safeguard their rights.

Those rights are laid out in the Transitional Administrative Law (TAL) agreed by the Iraqi Governing Council on March 8. A copy of the TAL has been placed in the Library of the House. Article 12 states that

> "All Iraqis are equal in their rights without regard to gender, sect, opinion, belief, nationality, religion, or origin, and they are equal before the law. Discrimination against an Iraqi citizen on the basis of his gender, nationality, religion, or origin is prohibited."

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what protection for the role of women in Government there will be in the plans to hand over power to an Iraqi Government. [164088]

Mr. Rammell: The Transitional Administrative Law includes provision for an electoral system designed to achieve a goal of no less than one-quarter representation of women in the Transitional National Assembly to be elected no later than January 2005. The Coalition Provisional Authority is discussing with the Iraqi Governing Council, other Iraqis and the UN how best to achieve this target and to ensure women are strongly represented in the Interim Government to be established after 30 June.

Ministerial Visits

Mr. Hoyle: To ask the Secretary of State for Foreign and Commonwealth Affairs when a Minister in his Department last visited *(a)* Singapore, *(b)* Malaysia and *(c)* Thailand. [164208]

Mr. Rammell: My right hon. Friend the Foreign Secretary visited Singapore between 8–9 January 2003 and Malaysia on 10 January 2003. My hon. Friend the then Parliamentary Under-Secretary of State at the Foreign and Commonwealth Office (FCO) (Ben Bradshaw) was the last FCO Minister to visit Thailand, between 16–19 December 2001.

Register of Interests

Bob Spink: To ask the Secretary of State for Foreign and Commonwealth Affairs what the requirements are on officials in his Department to declare current interests; and what register of interests is kept for his departmental officials. [164709]

Mr. Mike O'Brien: The requirements for officials in the Foreign and Commonwealth Office to declare current interests are contained in the Diplomatic Service Regulations and Home Civil Service Regulations. These regulations, stemming from the Civil Service Management Code, set out the principal terms governing employment in the Foreign and Commonwealth Office, and highlight the general principle of conduct that

"you must not use your official position to further your private interests".

Separate regulations cover the circumstances in which officers must declare:

Gifts, advantages and hospitality

Private occupations

Business interests

Declarations and paperwork relating to private occupations and business interests are held on individual files.

Taiwan

Lady Hermon: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the recent election in Taiwan. [164536]

Mr. Rammell: The United Kingdom Government continues to welcome the development of democracy in Taiwan. On 26 March Taiwan's Central Election Committee announced formally that Chen Shui-bian had won the election. The Opposition candidates have asked for a recount and a judicial review. The United Kingdom hopes that the issue can be dealt with through the appropriate legal mechanisms.

Turkey

Mr. Russell Brown: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations he has made to the Turkish authorities in relation to *(a)* human rights issues and *(b)* the possibility of accession to the EU. [164200]

Mr. MacShane: Both my right hon. Friend the Foreign Secretary and I frequently discuss human rights and Turkey's EU accession prospects with Turkish Ministers—most recently in the margins of the spring European Council. The Foreign Secretary also raised these issues with Foreign Minister Gul in Istanbul on 3 March. We repeatedly affirm the UK's strong support for Turkey's EU aspirations and urge Turkish Ministers to press ahead with implementation of human rights reforms.

Venezuela

Mr. Davidson: To ask the Secretary of State for Foreign and Commonwealth Affairs what his policy is on promoting regime change in Venezuela; what discussions he or his officials have had with United States counterparts on this matter; and if he will make a statement. [164606]

Mr. Rammell: The UK with its European Union partners has made clear its position regarding Venezuela in the most recent EU Declaration of 4 March 2004 which encourages the country to find a democratic and peaceful solution to its current political crisis. We have regular discussions with the US on a range of foreign policy issues, including the situation in Venezuela.

Visas

Mr. Russell Brown: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with US immigration authorities in relation to proposed changes to visa requirements for British citizens. [164198]

Mr. Mike O'Brien: I refer my hon. Friend to the answer given to the hon. Member for Worthing, West (Peter Bottomley) on 10 March 2004, *Official Report*, column 1532W.

DEPUTY PRIME MINISTER

Council Tax

Mr. Edward Davey: To ask the Deputy Prime Minister what estimate he has made of the cost to *(a)* the Valuation Office Agency, *(b)* the valuation tribunals and *(c)* central government of administering council tax and council tax benefit in financial year 2003–04. [164486]

Mr. Raynsford: The Valuation Office Agency (VOA) budget for council tax work in 2003–04 is about £29 million. The part of the Valuation Tribunals budget for 2003–04 relating to council tax work is approximately £1 million. The Government is responsible for the policy and legislation rather than the administration of council tax and council tax benefit.

Fire Service

Mr. McLoughlin: To ask the Deputy Prime Minister what the training costs were *(a)* per officer and *(b)* in total for new recruits to the Fire Service in (i) the East Midlands and (ii) West Derbyshire in each year since 1997. [163738]

Mr. Raynsford: The information is not held centrally, and could be provided only at disproportionate cost.

Mr. McLoughlin: To ask the Deputy Prime Minister how many people were recruited to the Fire Service in *(a)* the East Midlands and *(b)* West Derbyshire in each year since 1997; and what percentage of each year's intake remains as serving officers, in each case. [163740]

Mr. Raynsford: Information since 1998 for the five fire and rescue services within the East Midlands Region on the number of people recruited to the Fire Service (in

whole time, retained, fire control and non-uniformed positions) are tabled as follows. Data prior to 1998 are not held centrally and could be provided only at disproportionate cost. Information is not available for West Derbyshire, but is available for Derbyshire FRS as a whole.

Data are not held centrally on the percentage of each year's fire and rescue service recruits who remain on as serving officers for East Midlands region or for West Derbyshire. The cost of gathering the information about the FRS concerned could be obtained only at a disproportionate cost.

Number of successful applicants in East Midlands fire and rescue services between 1998–99 and 2002–03

	Derbyshire	*Leicestershire*	*Lincolnshire*	*Northamptonshire*	*Nottinghamshire*	*Regional total*
Whole-time						
1998–99	5	20	28	0	28	81
1999–2000	14	18	0	14	18	64

2002–03	13	23	8	8	16	68

Government Offices for the Regions

Mr. Jenkin: To ask the Deputy Prime Minister what the budget is for each of the Government offices for the regions for 2003–04; and what the budget of each has been for each of the previous three years. [164828]

Mr. Raynsford: The running cost budgets of Government Offices for the Regions have increased as more Departments have devolved more work to be carried out in the regions. The budgets for 2003–04 and each of the previous three years are tabled as follows:

Amounts in £000

GO	*2003–04*
North East	12,061
North West	17,508
Yorkshire and Humber	12,848
West Midlands	13,043
East Midlands	10,861
East	12,950
South East	14,461
South West	14,053
London	16,611
Totals	124,396

Amounts in £000

GO	*2000–01*	*2001–02*	*2002–03*
North East	8,197.33	8,973.88	10,074.76
North West	13,651.03	15,250.91	13,543.84
Yorkshire and Humber	9,357.21	9,889.50	11,094.48
West Midlands	9,960.77	10,315.96	10,584.49

Amounts in £000

GO	*2000–01*	*2001–02*	*2002–03*
East Midlands	7,335.77	8,200.80	8,835.46
East	7,542.50	8,532.82	9,357.24
South East	9,477.27	10,309.34	10,860.12
South West	8,711.39	10,671.85	11,752.84
London	13,860.98	13,175.10	14,082.01
Totals	88,094.25	95,320.16	102,185.24

The growth in the Government Office over the last three years is attributable to additional sponsor Departments joining and contributing staff and funding to the network, notably Defra (formerly MAFF) in 2001–02 and Home Office in 2002–03.

Home Information Packs

Dr. Gibson: To ask the Deputy Prime Minister (1) what *(a)* representations his Department has received from and *(b)* what meetings his Department has had with the housing industry regarding the proposed introduction of home information packs; [165114]

(2) what estimate he has made of the percentage change in the number of failed housing market transactions that would result from the proposed introduction of home information packs; [165115]

(3) how many home inspectors will be required to fulfil the requirement of the home information pack proposals; how they will be trained; how they will be insured; and over what timescale they will be available; [165116]

(4) what research has been *(a)* commissioned and *(b)* undertaken by his Department to assess the economic costs and benefits to the housing market, in particular in areas of low-demand, of the introduction of home information packs; [165117]

(5) what assessment his Department has made of the pilots carried out on home information packs for house sales. [165118]

Keith Hill: All the main professional and trade bodies involved in the home buying and selling process have been actively involved in helping steer research and develop proposals for home information packs. These organisations frequently express views to the Office of the Deputy Prime Minister. They are closely involved in finalising arrangements for the smooth implementation of home information packs.

Research carried out in 1998 showed that 28 per cent. of home sale transactions failed after terms have been agreed, costing buyers and sellers about £350 million each year in wasted expenditure. The Office of the Deputy Prime Minister expect home information packs to reduce significantly this failure and waste.

Between 7,500 and 8,500 home inspectors will be needed to prepare home condition reports and 90 per cent. of these have already been identified within the property professions. Candidates will be trained within the educational sector and property industry in accordance with approved National Occupational Standards. They will be covered by indemnity insurance and the required number will be available before the implementation of the home information pack.

A regulatory impact assessment published by the Office of the Deputy Prime Minister following consultation with the industry provides details of anticipated costs and benefits arising from home information packs. Following extensive research on this subject, we published a consultation paper "the home information pack in low demand low value areas" in March 2003. A summary of responses to the consultation was published on 3 February 2004. Copies are available in the Library of the House.

In December 1999 we launched a pilot scheme in Bristol to test the practical operation of packs. This showed that home information packs can be assembled quickly, inject transparency into the home buying and selling process and help with the early identification and resolution of problems.

Home Initiatives

Mr. Alan Campbell: To ask the Deputy Prime Minister what assessment he has made of the effect of *(a)* the Starter Home Initiative and *(b)* the Abandoned Home Initiative in North Tyneside. [165360]

Keith Hill: Since September 2001, the Starter Home Initiative (SHI) has been helping key workers into home ownership in areas where the high cost of housing serves to undermine recruitment and retention of skilled staff in our key public services. It has not been available to key workers in the North East. The SHI was superseded from 1 April by a new key worker housing programme—Key Worker Living. This is also not available in the North East.

The Office of the Deputy Prime Minister is not aware of an Abandoned Homes Initiative. However, our Market Renewal Pathfinders are a comprehensive programme to tackle low demand and abandonment in nine areas of England, including Tyneside. The boundaries of the Tyneside scheme, which include parts of Newcastle upon Tyne and Gateshead, but not the North Tyneside council district, were drawn up following an analysis of local housing markets, using a "worst first" approach. The integrated approach to spatial and economic issues being adopted by the pathfinders should bring substantial benefits to the wider sub-region.

Houses in Multiple Occupation

Mr. Reed: To ask the Deputy Prime Minister if he will make it his policy to permit local authorities to charge landlords council tax for houses in multiple occupation occupied solely by students; and if he will make a statement. [162017]

Mr. Raynsford: No. Dwellings occupied entirely by students are exempt from council tax because unlike other groups of people on low incomes, students are not normally entitled to income related benefits such as housing and council tax benefit. If the Government were to make owners of student accommodation liable for council tax, it would not necessarily follow that they would ultimately bear the costs of the tax. This is because landlords could simply pass on the extra costs to the students through their rent.

Key Workers

Sandra Gidley: To ask the Deputy Prime Minister what definition he uses of the category key worker. [164650]

Keith Hill: For the purposes of the recently announced Key Worker Living programme, a key worker is defined as someone employed by the public sector; in a frontline role delivering an essential public service where there are serious recruitment and retention problems; and in a group recommended for inclusion by Regional Housing Boards.

Local Authority Standards (Training)

Mr. Gardiner: To ask the Deputy Prime Minister if he will provide central funding to ensure that there is consistency in the level of training offered to local authority standards committee members. [165626]

Mr. Raynsford: The Office of the Deputy Prime Minister already funds the Standards Board for England, which has issued guidance to assist members of standards committees to carry out their role. The Board will continue to issue guidance as it considers appropriate on matters relating to the conduct of members of authorities, including guidance to standards committee members. The Office of the Deputy Prime Minister relies on the Board's guidance, which has been well received by authorities, to promote consistency of standards.

Local Government (Local Labour Agreements)

Chris Ruane: To ask the Deputy Prime Minister which councils operate local labour agreements. [164888]

Mr. Raynsford: This information requested is not held centrally, and could be provided only at disproportionate cost.

M11/Stansted Corridor

Mr. Burns: To ask the Deputy Prime Minister if he will list those parts of the Chelmsford local authority area in the West Chelmsford parliamentary constituency which are included in the M11/Stansted corridor as a designated area for development; and if he will make a statement. [165066]

Keith Hill: Chelmsford local authority area is not included in the London-Stansted-Cambridge-Peterborough corridor. My hon. Friend the Member for Pontefract and Castleford (Yvette Cooper), made a statement on 2 February 2004 listing the local authorities in the corridor. A copy of this statement is available in the Library of the House.

Regional Assemblies

Mr. Jenkin: To ask the Deputy Prime Minister what proportion of the set-up costs of elected regional assemblies he estimates will be *(a)* premises, *(b)* wages and salaries, *(c)* equipment and stationery and *(d)* other costs. [164831]

Mr. Raynsford: The costs of setting up an elected regional assembly will vary between regions, largely because the cost of referendums and elections depends upon the size of the region's electorate. For these reasons the proportions of the various elements of the estimated set-up costs will also vary between regions.

Regional Government Staff

Mr. Jenkin: To ask the Deputy Prime Minister pursuant to his Answer of 26 January 2004, *Official Report*, column 168W, on regional government, whether those figures included *(a)* casual staff, *(b)* staff on fixed-term appointments, *(c)* staff seconded out, *(d)* staff on career breaks, *(e)* staff on maternity leave and *(f)* staff on special leave without pay. [164827]

Yvette Cooper: The figures in the answer included casual staff and fixed term appointments, as well as permanent staff then working in the Government Offices. The numbers of staff seconded out, on maternity leave and on special leave without pay was as follows:

Government office	*Staff seconded out*	*Career breaks*	*Maternity leave*	*Special leave without pay*
London	12	5	2	1
East	4	7	4	0
West Midlands	10	2	8	1
East Midlands	9	2	2	0
North West	17	5	4	0
North East	6	1	2	0
Yorkshire and the Humber	4	3	4	0
South West	0	0	0	0
South East	18	10	4	0

Robson Brown

Mr. Jenkin: To ask the Deputy Prime Minister if he will list the activities being undertaken by Robson Brown for his Department. [164830]

Yvette Cooper: To date Robson Brown have undertaken the design of the "Your Say" Elected Regional Assemblies logo and supporting material.

They are also advising the Office of the Deputy Prime Minister on the 'Your Say' information campaign.

Staff from Robson Brown have been assisting with the mounting of events and hearings associated with the campaign throughout the three regions.

Shell Haven Port

Bob Spink: To ask the Deputy Prime Minister when he expects to make a statement on the recommendations of the public inquiry into the proposed Shell Haven Port in the Thames Estuary. [162197]

Mr. Jamieson: I have been asked to reply.

As the application for the proposed London Gateway port at Shell Haven is for my Department to determine. The Inspector's report of the public inquiry has been recently received in my Department and is now under consideration.

Sites of Special Scientific Interest

Joan Ruddock: To ask the Deputy Prime Minister what resources his Department makes available to local authorities for sites of special scientific interest; and how much was made available in 2003–04. [164970]

Phil Hope: Local authorities, along with all public bodies have a duty under the Countryside and Rights of Way Act 2000 (CROW) to take reasonable steps, consistent with the proper exercise of their functions, to further the conservation and enhancement of SSSIs. Local authorities also have responsibilities in respect of SSSIs, especially as planning authorities and as SSSI landowners.

Most funding for local authorities' revenue expenditure, including for example support for education, social services and their responsibilities in this area, is met through general grant which is made up of Revenue Support Grant and National Non-Domestic Rates. General grant totalled £43.894 million in 2003–04, which is an increase of £2.449 million or 5.9 per cent. Decisions on spending priorities are a matter for individual authorities taking into account their statutory responsibilities.

Street Furniture

Mr. Andrew Turner: To ask the Deputy Prime Minister what proposals he has to protect areas of high environmental value from the impact of street furniture. [165312]

Keith Hill: Planning Policy Guidance Note 15 recognises that the appearance of historic streets can be improved by preserving or reinstating street furniture of historic or architectural interest.

A review of permitted development rights was carried out on behalf of the Office of the Deputy Prime Minister by Nathaniel Lichfield and Partners last year. It recommended several changes to the restrictions placed on development using permitted development rights in sensitive areas and those used to install street furniture by statutory undertakers and local authorities. The Office of the Deputy Prime Minister expect to consult on changes in the summer.

As part of our on-going work across Government taking forward "Living Places: Cleaner, Safer, Greener" the Office of the Deputy Prime Minister is exploring tools that assist local authorities in managing the street environment, recognising the need or co-ordination between a number of organisations and the involvement of local people.

Your Say Campaign

Mr. Jenkin: To ask the Deputy Prime Minister what spending limit was placed upon the value of the contract for the Your Say campaign when it was put out for tender. [164829]

Mr. Raynsford: The contract was placed on a fixed cost, quotation basis. Each component of the work has been costed separately to ensure best value for money.

CONSTITUTIONAL AFFAIRS

Anti-social Behaviour Orders

Vera Baird: To ask the Parliamentary Secretary, Department for Constitutional Affairs what training is given to district judges (crime) for dealing with *(a)* anti-social behaviour orders (ASBOs) and *(b)* breaches of ASBOs. [164449]

Mr. Leslie: Training for the professional judiciary is the responsibility of the Judicial Studies Board (JSB).

The JSB has not provided any dedicated training events on ASBOs, but the programme for the core seminars for both full and part-time district judges (magistrates courts) allows scope for discussions on the issues arising in sentencing and breach of orders.

Professional judges have access to legislation and Home Office guidance relevant to this area of law, and in addition will refer to any developing law. Detailed guidance on ASBOs was issued to magistrates courts by the Home Office in November 2002. Preliminary Home Office guidance on the new Anti-Social Behaviour Act 2003 has been issued to all magistrates courts in January 2004.

Correspondence

Mr. Kaufman: To ask the Parliamentary Secretary, Department for Constitutional Affairs when he intends to reply to the letter to him from the right hon. Member for Manchester, Gorton dated 8 January with regard to Mrs. V. Bromage, sent to the Cabinet Office and transferred to his Department. [164936]

Mr. Leslie: A reply to my right hon. Friend was signed by Lord Filkin and sent on 22 March.

Departmental Buildings

Mr. Llwyd: To ask the Parliamentary Secretary, Department for Constitutional Affairs what *(a)* renovation and *(b)* maintenance projects on buildings (i) owned and (ii) rented by the Department were undertaken in each of the last five years; and what the associated costs were of each. [163942]

Mr. Leslie: The information on all projects is not readily available and could be provided only at disproportionate cost.

However, details are available of all schemes with a total project cost of £250,000 and above and these are tabled as follows.

	£	*Renovation/ Maintenance*	*Rented/Owned*
1999–2000			
Cardiff Civil Justice Centre	365,000	Renovation	Rented (historic lease)
Cardiff Crown Court	700,000	Maintenance	Owned
Chelmsford Crown Court	330,225	Renovation	Owned
Inner London Sessions House	1,395,866	Maintenance	Owned
Liverpool Combined Court	388,633	Maintenance	Owned
Manchester Crown Court	742,605	Maintenance	Owned
Manchester Crown Court	203,000	Renovation	Owned
Royal Courts of Justice	406,721	Renovation	Owned
Swansea County Court	253,575	Renovation	Rented
Winchester Combined Court	353,192	Renovation	Rented (historic lease)
2000–01			
Cardiff Crown Court	361,062	Maintenance	Owned
Inner London Sessions House	93,902	Maintenance	Owned

District Judges (Vacancies)

Vera Baird: To ask the Parliamentary Secretary, Department for Constitutional Affairs whether vacancies for district judges (crime) are advertised with reference to a particular work location. [164446]

Mr. Leslie: Vacancies for district judges (magistrates courts) are not advertised with reference to a particular work location as district judges have had a national jurisdiction, since the unification of the stipendiary bench in 2000.

Divorces

Mr. Webb: To ask the Parliamentary Under-Secretary of State, Department for Constitutional Affairs how many divorces took place in *(a)* 1997, *(b)* 2000 and *(c)* 2003, disaggregated by the lowest sub-regional level possible. [165143]

Mr. Leslie: Figures relating to the number of decrees absolute granted in the county courts of England and Wales during the years requested are provided in a table. A copy has been placed in both Libraries.

Easter Uprising

Mr. Paul Marsden: To ask the Parliamentary Secretary, Department for Constitutional Affairs for what reason the Public Record Office retained original documents written by those court-martialled following the Dublin uprising in 1916. [162318]

Mr. Leslie: The Judge Advocate General's office, which organised these courts martial, formed part of the British administration in Ireland. It took the original decision to preserve documents written by the defendants in these cases on the grounds that they formed an integral part of the court proceedings. It was subsequently decided that the court records as a whole merited permanent preservation because of their historical importance.

The documents are available for public inspection at the National Archives at Kew, and copies can be supplied.

Information is held on the National Archives' electronic catalogue, and can be accessed on the internet at www.nationalarchives.gov.uk.

Electoral Registration

Dr. Whitehead: To ask the Parliamentary Secretary, Department for Constitutional Affairs how many registered electors for parliamentary elections there were in each year since 1994 in *(a)* England, *(b)* Wales, *(c)* Scotland and *(d)* Northern Ireland. [160087]

Ruth Kelly: I have been asked to reply.

The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Dr. Alan Whitehead, dated 1 April 2004:

As National Statistician, I have been asked to reply to your question concerning the number of registered electors for parliamentary elections in each year from 1994–2003 in England, Wales, Scotland and Northern Ireland. (160087)

Attached is a table showing parliamentary electors for 1994–2003 inclusive for each of the constituent countries of the United Kingdom. From 2001 the annual canvass resulted in registers that came into effect on 1 December, but prior to this they came into effect on 16 February. Due to local elections, Northern Ireland delayed the effective date of their '2003' figures until 2 February 2004.

Parliamentary electors 1994 to 2003

Year of register[1]	Parliamentary electors
England	
1994	36,455,151
1995	36,544,929
1996	36,626,853
1997	36,806,467
1998	36,885,805
1999	36,947,525
2000	36,994,211
2001	37,296,327
2002	37,179,095
2003	36,972,519
Wales	
1994	2,222,091
1995	2,220,290
1996	2,217,893
1997	2,222,533
1998	2,230,452
1999	2,227,571
2000	2,232,474
2001	2,235,666
2002	2,225,599
2003	2,219,973
Scotland	
1994	3,947,157
1995	3,961,566
1996	3,963,072
1997	3,984,406
1998	3,992,502
1999	4,011,450
2000	3,992,034
2001	3,966,801
2002	3,887,059
2003	3,857,997
Northern Ireland	
1994	1,162,335
1995	1,169,423
1996	1,176,927
1997	1,190,198
1998	1,188,034
1999	1,202,339
2000	1,204,721
2001	1,196,970

Parliamentary electors 1994 to 2003

Year of register[1]	*Parliamentary electors*
2002	1,071,600
2003–04[1]	1,067,564

[1] Up to 2000 data are as at 16 February. From 2001 data are as 1 December, except Northern Ireland where '2003' data are in fact as at 2 February 2004.

Source:
Office for National Statistics

National Referendum

Rachel Squire: To ask the Parliamentary Under-Secretary of State, Department for Constitutional Affairs what the estimated cost is of holding a national referendum. [165134]

Mr. Leslie: No comparative figures are available as the only UK-wide referendum was held in 1975. We would expect the cost to be similar to the cost of a general election. The last General Election with a similar franchise cost approximately £80 million.

Organ Retention

Mrs. Iris Robinson: To ask the Parliamentary Secretary, Department for Constitutional Affairs what the procedure is by which relatives can obtain information on organ retention in cases following a coroner's post mortem. [164579]

Mr. Leslie: Currently in all coroners' cases in which it has proved necessary to retain organs, relatives are informed in writing.

Relatives also have the option of phoning the Human Organs Enquiry Line, which was established in November 2002 as recommended in the Northern Ireland Human Organ Inquiry Report. A direct enquiry can also be made to the Coroner who ordered the post-mortem examination.

Postal Voting

Mr. Gordon Prentice: To ask the Parliamentary Secretary, Department for Constitutional Affairs what safeguards he is proposing to put in place to deter electoral fraud following the introduction of all postal voting. [165099]

Mr. Leslie: Postal voting has been available for many years and since 2000 has been available on demand. There are several safeguards in place for this, a Declaration of Identity as well as a variety of offences including personation and undue influence. For the all-postal pilots in June this year, the European Parliamentary and Local Elections (Pilots) Bill builds on existing sanctions, by extending the offence of personation to be an arrestable offence outside polling stations and also by allowing the time limit for investigating electoral offences to be extended, along with a range of practical measures, in partnership with electoral administrators and other key stakeholders, to address potential fraud. Returning Officers can perform checks, including random inspection of Declaration of Identities and the checking of signatures against those already on file or investigating where more than a certain number of ballot papers are sent to or redirected to one address. This is building on the experience gained during a series of successful pilots at local elections.

Review of Tribunals

Mr. McGrady: To ask the Parliamentary Secretary, Department for Constitutional Affairs what plans he has to bring into effect in Northern Ireland the recommendations of the Leggatt Report on the Review of Tribunals. [164628]

Mr. Leslie: Sir Andrew Leggatt's report made a number of recommendations in relation to tribunal reform. The Government will issue its response to these recommendations set in the wider context of reforming the Administrative Justice System in a White Paper later this year. Consideration is currently being given to the implications of Sir Andrew Leggatt's Report for Northern Ireland.

Small Claims

Vera Baird: To ask the Parliamentary Secretary, Department for Constitutional Affairs what the principal categories of claim which are heard in the small claims track are. [164436]

Mr. Lammy: The categories of claims made in the small claims track for which the department collects certain information are debt, personal injury, other negligence and non-possession housing disputes.

Vera Baird: To ask the Parliamentary Secretary, Department for Constitutional Affairs how many claims for return of tenancy deposits were heard in the small claims track in 2002–03. [164437]

Mr. Lammy: The information requested is not collected centrally and can be provided only at disproportionate cost to the department.

Vera Baird: To ask the Parliamentary Secretary, Department for Constitutional Affairs what steps his Department has taken to assess whether charging fees for the recovery of small claims in the small claims track has a deterrent effect on claimants. [164438]

Mr. Leslie: The first step when setting fees is to ensure that the size of the fee is proportionate to cost. This means that even the smallest claim attracts a fee of £30. The second step is to ensure (by means of claim bands) that fees are proportionate to the amount at stake. The third step is to provide protection for those unable to pay. Exemption is available for those on means tested benefits and discretionary remission (based on hardship) for those not qualifying. Finally, the successful litigant may recover his fee from the losing party.

If a litigant is deterred from issuing proceedings this is most likely to be because he is unsure of winning or because he is unsure that the losing party has the means to pay.

When court fees are increased there is always a consultation process. Consultation has shown that the probability of successful recovery is just as important to potential litigants as the size of fees. Relatively low fees are payable on defended small claims because the cost is

shared by those with claims that are not defended. The cost of undefended small claims is the concern of most claimants.

Vera Baird: To ask the Parliamentary Secretary, Department for Constitutional Affairs if he will encourage the the small claims track to sit in neighbourhood premises to determine groups of local cases. [164440]

Mr. Lammy: Cases in the small claims track are heard throughout a network of 218 county courts across the country. The present arrangements for hearing cases in the small claims track are considered adequate to meet the needs of local and public interest and in providing access to justice.

Vera Baird: To ask the Parliamentary Secretary, Department for Constitutional Affairs what plans he has for improving access for the socially excluded to the small claims track. [164441]

Mr. Lammy: One of our Departmental Public Service Agreement targets (PSA6) is to increase year-on-year the number of people who receive suitable assistance in the priority areas of law involving fundamental rights or social exclusion. We are increasing the capacity of the Community Legal Service and all advice and guidance services through closer co-operation and collaboration within the advice sector.

Access to justice is protected by automatic exemption of fees for litigants on specified means tested benefits and discretionary remission (in part or full) for those who do not benefit from exemption but would face exceptional hardship if required to pay fees, or required to pay them in full. There are no current plans to review this policy.

Vera Baird: To ask the Parliamentary Secretary, Department for Constitutional Affairs how many defendants in the small claims track defaulted on orders for money judgments in 2002–03; and how many such judgments were enforced by the court after defaults in that year. [164442]

Mr. Lammy: The department does not hold information centrally concerning defendants who default on money judgments in the small claims track, and it can be provided only at disproportionate cost. For information, figures for enforcement of judgments in 2002–03, irrespective of track, are contained in the table. These figures do not take into account whether or not they were issued because the defendant defaulted on a money judgment.

Enforcement proceedings	*2002–03*
Warrant of execution against goods issued	373,257
Third party debt orders issued	5,828
Charging order applications issued	32,117
Attachment of Earnings order-judgment debt	40,029

Vera Baird: To ask the Parliamentary Secretary, Department for Constitutional Affairs pursuant to his Written Ministerial Statement of 22 March 2004, *Official Report*, column 41WS, what the mechanism will be by which magistrates courts will conduct blitzes against fine defaulters; and by what mechanism the efficacy of such blitzes will be evaluated. [164453]

Mr. Leslie: The national fines initiative referred to in my Written Ministerial Statement of 22 March 2004, *Official Report*, column 41WS, is Operation Payback National guidance was issued to assist courts in planning, but the scope and process of the local operations was determined by individual Justices' Chief Executives, according to local circumstances. Courts identified particular dates and areas for their action, and then, assisted by the police, concentrated all their enforcement resources in the targeted areas for the duration of their local operations.

The magistrates courts who have taken part in Operation Payback have been asked to provide a core set of data, including the number of warrants progressed, amount of money collected and the number of Civilian Enforcement Officers and police involved. This will allow us to assess the effectiveness of the Operation at both a national and regional level.

Vera Baird: To ask the Parliamentary Secretary, Department for Constitutional Affairs what the purpose is of charging fees for *(a)* applicants and *(b)* defendants in the Small Claims Court. [164454]

Mr. Lammy: Four fees may become payable during the course of a defended small claim. The fee on issue of the claim, the fee on a counterclaim, the fee on allocation to track, and the fee on making a specific application. In all cases the purpose of the fee is the same, namely to recover cost.

It would be administratively convenient to recover the extra cost of applications simply by increasing claim fees. However there is a danger that if applications did not attract fees the time of the court and the parties would be wasted by unnecessary applications.

A claimant who forces a defendant to make an application to the court by unreasonably refusing to hand over information risks having to pay the fee. A defendant who makes an unnecessary application is unlikely to recover the fee.

The charging of fees on applications therefore promotes co-operation between the parties and helps to ensure that the time of the court and the parties is not wasted by unnecessary applications.

Vera Baird: To ask the Parliamentary Secretary, Department for Constitutional Affairs if he will make the forms for application to the small claims track available in *(a)* citizens' advice bureaux and *(b)* other neighbourhood premises. [164455]

Mr. Lammy: Claim forms are available to the citizens' advice bureaux and all other advice agencies through any county court and via the Court Service website.

Vera Baird: To ask the Parliamentary Secretary, Department for Constitutional Affairs what the minimum number of trips to the small claims track is which an applicant must take to make a claim and recover judgment. [164456]

Mr. Lammy: It is possible for a claimant to make a small claim and recover judgment without having to attend court.

HEALTH

Access to Medical Notes

Mrs. Iris Robinson: To ask the Secretary of State for Health if he will outline the position regarding access to medical notes by a patient's *(a)* next of kin and *(b)* other first degree relatives. [164919]

Ms Rosie Winterton: Access to health records of living patients is governed by the Data Protection Act 1998. Where a patient is a competent adult, access should normally only be given with the patient's consent. Special provisions apply for adults who are incapacitated and for children. Where a patient has died, access to their record is governed by the Access to Health Records Act 1990. The Act provides the right for a deceased person's personal representative and any person with a claim arising out of the patient's death to apply for access.

Ambulance Staff

Mr. Gordon Prentice: To ask the Secretary of State for Health at what age ambulance personnel are able to retire on a full pension; and if he will make a statement. [165477]

Mr. Hutton: Ambulance staff who are members of the national health service pension scheme and have two years or more pensionable service can retire from employment in the NHS at age 60 with immediate payment of pension. Ambulance staff with 40 years pensionable service will receive a full pension equivalent to half their final year's pensionable pay.

Blood Transfusion

Mr. Burstow: To ask the Secretary of State for Health what the roles are of *(a)* his advisory committees, *(b)* the serious hazards of transfusion body and *(c)* the National Patient Safety Agency in reducing the risks associated with blood transfusion. [163474]

Miss Melanie Johnson: The expert advisory committee on the Microbiological Safety of Blood and Tissues for Transplantation (MSBT) is responsible for providing the Government with advice on blood safety issues.

The Serious Hazards of Transfusion (SHOT) reporting system has two main objectives: to collect data on serious adverse events involving the transfusion of blood components; and to make recommendations to improve transfusion safety, based on the analysis of the collected data. The national medical co-ordinator of SHOT is a member of MSBT.

The National Patient Safety Agency (NPSA) was established to improve the safety of national health service patient care by promoting an open and fair culture and by introducing a new national reporting and learning system for patient safety incidents. The reporting system is being implemented across the NHS during 2004.

The NPSA has worked with SHOT in establishing ways of reducing errors associated with bedside blood transfusions, in establishing the underlying causes of, and in identifying effective ways of collecting data on, these errors, to help ensure that they do not recur. The NPSA will be working with SHOT and others on establishing ways of preventing error, using interventions like bar-coding and tagging systems.

Cancer Services

Bob Spink: To ask the Secretary of State for Health what plans he has to improve the speed of access to radiography for cancer patients. [163996]

Miss Melanie Johnson: To reduce the amount of time patients have to wait for radiography, we are making major investment in replacement and additional scanners and linear accelerators, recruiting and training additional radiographers and streamlining care processes through the cancer services collaborative improvement partnership.

Dr. Gibson: To ask the Secretary of State for Health if he will implement all of the recommendations contained in the National Audit Office report "Tackling Cancer in England: Saving More Lives". [164235]

Miss Melanie Johnson: The Department welcomes the National Audit Office report, "Tackling Cancer in England: Saving More Lives", and will take the report's recommendations into account as we further develop and improve cancer services. The report will be discussed in detail at a Committee of Public Accounts hearing scheduled for 16 June 2004. Sir Nigel Crisp, chief executive of the national health service and Professor Mike Richards, national cancer director, have been called to give evidence at the hearing. The Government will respond to the Committee's subsequent report in the form of a Treasury minute.

Child Alcohol-Related Problems

Simon Hughes: To ask the Secretary of State for Health how many children aged between 11 and 15 years were admitted to hospital in *(a)* Greater London and *(b)* each London borough owing to alcohol-related problems in each of the last six years. [162349]

Mr. Hutton: Figures are not available by London borough. The table shows data by health authority in the London area.

Primary diagnosis (ICD-10 F10, K70, T51) alcohol related illness. Age on admission 11–15 years. Region of treatment north and south Thames 1997–98 and 1998–99/London 1999–2000 to 2002–03 (see note below). Count of finished admission episodes by health authority of treatment. NHS hospitals, 1997–98 to 2002–03

Finished admission episodes Health authority of treatment	*1997–98*	*1998–99*	*1999–2000*	*2000–01*	*2001–02*	*2002–03*

QEY Bexley Bromley and Greenwich	—	—	—	—	19	27
Regional Total	304	243	297	310	309	356

Notes:
1. Figures are not available for Greater London and each London borough and so data based on health authority (HA) of treatment has been provided. Due to organisational changes, information is given for North Thames and South Thames regional offices in the 1997–98 and 1998–99 data years and the London regional office in the 1999–2000 to 2002–03 data years.
2. Since North and South Thames regions cover a greater area than the London region, HAs clearly outside of London have been omitted from this list (HA Codes QAE, QAF, QAK, QAL, QAM, QAN, QAX, QAY, QEP, QEQ).
3. Data has been derived for 2002–03 based on regions and HAs that existed in 2001–02. This is an attempt to provide continuity in the data provided, but caution should still be applied when looking at trends over time.
4. Figures are grossed for both coverage and missing/invalid clinical data, except for 2001–02 and 2002–03, which are not yet adjusted for shortfalls.
5. The primary diagnosis is the first of up to 14 (7 prior to 2002–03) diagnosis fields in the Hospital Episode Statistics (HES) data set and provides the main reason why the patient was in hospital.
6. Due to reasons of confidentiality, figures between 1 and 5 have been suppressed and replaced with '*'

Hospital Episode Statistics (HES), Department of Health.

Chorley Hospital

Mr. Hoyle: To ask the Secretary of State for Health how many hospital *(a)* nurses and *(b)* doctors were victims of violence from patients in Chorley hospital in each of the last five years. [163772]

Miss Melanie Johnson: Information is not collected on the identity of attackers. For information on the number of attacks on staff, I refer my hon. Friend to the response I gave him on 29 March 2004, *Official Report*, columns 1220–21W.

Mr. Hoyle: To ask the Secretary of State for Health how many consultants there were on average in the accident and emergency department in Chorley hospital in each of the last three years. [163733]

Miss Melanie Johnson: Information is gathered on a trust basis. Information for the Chorley and South Ribble National health service Trust and the Preston Acute NHS Trust for 2001 and the Lancashire Teaching Hospitals NHS Trust for 2002 and 2003 is shown in the table.

Hospital, Public Health Medicine and Community Health Services (HCHS): Consultants with an accident and emergency specialty in the Chorley Area

England, as at 30 September	*Number (headcount) 2001*	*2002*	*2003*
Chorley and South Ribble NHS Trust	3	—	—
Preston Acute Hospitals NHS Trust	5	—	—
Lancashire Teaching Hospitals NHS Trust	—	7	7

Department of Health medical and dental workforce census.

Community Hospitals

Mr. Boris Johnson: To ask the Secretary of State for Health what research his Department has commissioned on the movement of NHS staff into and out of the community hospitals at *(a)* Townlands, *(b)* Wallingford, *(c)* Abingdon, *(d)* Wantage, *(e)* Watlington and *(f)* Didcot. [164100]

Ms Rosie Winterton: No research has been commissioned on the movement of national health service staff into and out of these community hospitals.

Mr. Boris Johnson: To ask the Secretary of State for Health what the retention rate of staff was in the latest period for which figures are available at the community hospitals at *(a)* Townlands, *(b)* Wallingford, *(c)* Abingdon, *(d)* Wantage, *(e)* Watlington and *(f)* Didcot. [164104]

Ms Rosie Winterton: The information requested is not collected centrally.

Duchenne Muscular Dystrophy

Mr. Donaldson. To ask the Secretary of State for Health (1) what plans he has to provide funding for research on the treatment of Duchenne muscular dystrophy; [164345]

(2) what plans he has to ring-fence funding for Duchenne muscular dystrophy research; [164931]

(3) what amount will be spent on researching treatment for Duchenne muscular dystrophy over the next five years. [164932]

Dr. Ladyman *[holding answer 29 March 2004]:* On 29 March 2004, my right hon. Friend the Secretary of State announced that the researchers supported by the Muscular Dystrophy Campaign were successful in their bid for research funding. They have been awarded £1.6 million to fund research to underpin the development of a novel gene therapy treatment for Duchenne muscular dystrophy.

Ethical and Environmental Investment Policies

Mr. Gardiner: To ask the Secretary of State for Health pursuant to his answer of 12 January 2004, *Official Report*, column 603W, on ethical and environmental investment policies, whether this information will be *(a)* automatically sent to the foundation hospital trusts and *(b)* sent on request. [164638]

Mr. Hutton: I refer my hon. Friend to my response of 26 January 2004, *Official Report*, column 177W.

Mr. Gardiner: To ask the Secretary of State for Health pursuant to his answer of 12 January 2004, *Official Report*, column 603W, on ethical and environmental investment policies, if he will set minimum standards for the ethical and environmental investments. [164658]

Mr. Hutton: I refer my hon. Friend to my response of 10 February 2004, *Official Report*, column 1410W.

Foundation Trusts (Governorship Elections)

Mr. Drew: To ask the Secretary of State for Health what plans he has to ensure that the membership is announced in advance of any foundation trust governorship election; and what guidance he is providing to trusts on this matter. [R] [164033]

Mr. Hutton: The Public Benefit Corporation (Register of Members) Regulations 2004 were laid in Parliament on 5 March 2004. Subject to Parliamentary approval, they come into force on 1 April 2004 and set out how trusts should maintain registers of members once they have been authorised by the regulator. Registers are to be made public other than in the circumstances set out in the Regulations. The obligation to keep a public register of members only arises once a National health service trust receives an authorisation from the independent regulator to be a NHS foundation trust. Guidance on interpretation of the Regulations has been provided to all NHS trusts applying for NHS foundation trust status.

Mr. Drew: To ask the Secretary of State for Health what the timetable is for forthcoming elections to the boards of governors of foundation trusts. [R] [164034]

Mr. Hutton: The timetable for elections to the board of governors is a matter for each applicant national health service trust. The Department has issued model rules and guidance and these are available in the Library. The Health and Social Care (Community Health and Standards) Act 2003 provides for the commencement of elections once a trust has made an application to the regulator. The independent regulator is responsible for ensuring that a NHS foundation trust's constitution, including its provisions for carrying out elections, is in accordance with the requirements of the Act.

General Medical Services Contract

Dr. Evan Harris: To ask the Secretary of State for Health when the quality and outcomes framework of the General Medical Services contract will be subject to review. [164900]

Mr. Hutton: An independent, United Kingdom-wide review group will be established by the end of this year and will review the quality and outcomes framework (QOF) from then. This will be an ongoing process. Any changes to the QOF of the new general medical services contract will be negotiated and agreed between the NHS Confederation and the British Medical Association.

General Practitioners

Mr. Hepburn: To ask the Secretary of State for Health how many general practitioners per head of population there were in *(a)* the Jarrow constituency, *(b)* South Tyneside, *(c)* Tyne and Wear, *(d)* the North East and *(e)* England in each year since 1997. [162917]

Mr. Hutton: The Department collects figures by primary care trust (PCT) only, not by constituency. The number of unrestricted principals and equivalents (UPE) per head of population in South Tyneside PCT and primary care group (PCG) since 1999 and in Tyne and Wear, the North East and England since 1997 are shown in the table.

Unrestricted Principals and Equivalents [1] (UPEs) per 100,000 patients for England, South Tyneside PCG/PCT, Tyne and Wear and the North East

Number (headcount)							
North East	*1997*	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*
England	53	54	54	54	54	54	55
South Tyneside PCG	n/a	n/a	51	51	n/a	n/a	n/a
South Tyneside PCT	—	—	—	—	52	52	52
Tyne and Wear [2]	53	53	54	55	57	59	61
North East	53	53	54	55	56	57	59

n/a = not available.

[1] Unrestricted Principals and Equivalents (UPEs) includes GMS Unrestricted Principals and Equivalents, PMS Contracted GPs and PMS Salaried GPs.

[2] The first PCTs were established in 2001, data previous to this was collected by health authorities figures for South Tyneside PCG appear comparable to South Tyneside PCT.

Sources:

Department of Health General and Personal Medical Services Statistics.

Mrs. Curtis-Thomas: To ask the Secretary of State for Health what percentage of patients were offered a first appointment with a general practitioner within two working days in *(a)* Crosby and *(b)* England in each year since 1997; and if he will make a statement. [164360]

Miss Melanie Johnson: Data on the availability of appointments to see a general practitioner has been collected since September 2001. Since then, there has been great progress in offering patients the opportunity to see a GP quickly and the overwhelming majority of patients (nationally 96 per cent. at January 2004) can now see a GP within two working days. Data for England, for South Sefton and Southport and Formby primary care trusts (PCTs) and for the former Sefton Health Authority (HA) are shown in the table.

Percentage of patients being offered an appointment with a GP within 48 hours

	England	*South Sefton PCT*	*Southport and Formby PCT*
January 2004	96.4	90.0	100.0
March 2003	88.2	90.4	100.0
1 March 2002[1]	74.6	78.0	[2]—
September 2001[1]	80.1	67.0	[2]—

[1] Data collected between September 2001 and March 2002 are based on the percentage of practices, not patients and are not strictly comparable but are included here for completeness.
[2] Sefton HA results cover both PCTs.

Health Promotion England

Mr. Burstow: To ask the Secretary of State for Health pursuant to the answer of 15 January 2004, *Official Report*, column 856W, on Health Promotion England, what happened to the underspends. [159128]

Miss Melanie Johnson: Health Promotion England was funded from the Department's central budget programme in 2000–01 and 2001–02. Typically, underspends from individual budgets within the programme would have been available for redeployment across the remainder of the central budget programme.

The fact that individual budgets within the overall central budget programme show underspends or overspends against individual allocations is not significant. The large central revenue programmes are managed, controlled and reconciled through the use of overall budget envelopes rather than on a specific budget or area basis.

Health Visitors

Simon Hughes: To ask the Secretary of State for Health what the vacancy rates were for health visitors in Greater London, broken down by health trust, for each year since 1997. [164059]

Mr. Hutton: Information on three-month vacancy rates is only available from 1999 and has been placed in the Library.

Isolation Facilities

Mr. Burstow: To ask the Secretary of State for Health pursuant to his answer of 12 March 2004, *Official Report*, column 1819W, on Healthcare Associated Infections (Deaths), what monitoring his Department will undertake of the provision of isolation facilities in NHS hospitals and the timetable for their implementation. [162434]

Miss Melanie Johnson: Progress on provision of isolation facilities is one of the actions that the strategic health authorities will monitor and the Commission for Healthcare Audit and Inspection will also assess progress as part of the new performance indicator, "Winning Ways—processes and procedures".

Mental Health Services

Mrs. Helen Clark: To ask the Secretary of State for Health what proportion of *(a)* psychiatrists, *(b)* nurses and *(c)* other staff groups working in mental health services are from an ethnic minority group in each strategic health authority area of England. [163561]

Mr. Hutton: The information is shown in the table.

NHS hospital and community health services: Total ethnic minority groups1 of doctors in the psychiatry group, qualified nursing and qualified scientific, therapeutic and technical staff within the specified areas by Strategic Health Authority area in England as at 30 September 2003

Percentage

	All doctors in the psychiatry group	*Qualified nursing staff*

Department of Health Non-Medical Workforce Census.

MRSA Bacterium

Dr. Gibson: To ask the Secretary of State for Health how many strains of the MRSA bacterium have been isolated. [163761]

Miss Melanie Johnson: The total number of strains is not known, but the Health Protection Agency receives around 7,000 methicillin resistant *Staphylococcus aureus* (MRSA) strains a year for typing on a voluntary basis to assist in the investigation of serious disease and outbreak investigation and control. Most hospital outbreaks in the United Kingdom are due to "epidemic" strains of MRSA, which can spread from person to person. A total of 17 epidemic strains have been identified in the UK to date and two strains, EMRSA 15 and EMRSA 16, predominate.

National Care Standards Commission

Mr. Sanders: To ask the Secretary of State for Health what the total cost of setting up the National Care Standards Commission was. [163668]

Dr. Ladyman: Fixed assets were acquired for the National Care Standards Commission (NCSC) by the Department during 2001–02 and those were transferred into the accounts of the NCSC from 1 April 2002 at a transfer value of £44.943 million. The programme revenue spend on setting the NCSC up was £4.665 million. In addition, the cost of civil servants working on setting the Commission up was £1.423 million. When the NCSC was abolished on 1 April 2004, its assets were transferred to the Commission for Social Care Inspection and the Commission for Healthcare Audit and Inspection, which took over the regulation of social and independent healthcare, respectively, on that day.

Dentistry

Mr. Nigel Jones: To ask the Secretary of State for Health what steps he intends to take to deal with shortages of NHS dentists in Gloucestershire; and if he will make a statement on NHS dentistry in Gloucestershire. [159043]

Ms Rosie Winterton: We have provided new investment totalling £90 million to national health service dentistry over the last year. £59 million will support access, and strategic health authorities (SHAs) have been advised of their shares and are working with their primary care trusts (PCTs), including those in Gloucestershire, to address access issues. £30 million is to support information technology and the balance of £1 million will support organisational development locally.

In Gloucestershire, the existing dental access centres offer emergency and routine dental treatment—this is prioritised according to patients' needs and the demands placed on the service.

All the PCTs in Gloucestershire have been invited by Avon, Gloucestershire and Wiltshire SHA to submit proposals to improve access to dental care, funded through the SHA's £2 million share of the access funding. They are also exploring the possibility of establishing an outreach-teaching pilot for dental and dental therapy students with Bristol University.

West Gloucestershire PCT is one of the 16 PCTs in England with which the shadow NHS dentistry support team is working. The support team has made several visits to Gloucestershire towards the end of 2003, and an action plan to establish new dental practices in Cinderford, in the Forest of Dean, and Gloucester City will be agreed by the end of April 2004. Additionally, work is under way to explore the potential for overseas recruitment in Gloucestershire.

Cheltenham and Tewkesbury and Cotswold and Vale PCTs are taking similar action, and are inviting all dental practices to participate and submit proposals for use of the extra resources available in 2004–05.

Mr. Hoyle: To ask the Secretary of State for Health what steps he is taking to *(a)* support and *(b)* promote NHS dentistry in Chorley. [157088]

Miss Melanie Johnson: Over the past two years, Chorley and South Ribble Primary Care Trust (PCT) has invested an additional £90,000 in capital development and equipment for dental practices in return for a specific undertaking from the relevant practices to increase national health service registrations. Additionally, the PCT has increased the number of people working in personal dental services in the area and invested additional capital funding to enable the existing community dental service premises to provide an additional dental surgery. The PCT is currently developing a dental action plan which will further promote NHS dentistry in Chorley and South Ribble.

Nationally, we have provided new investment totalling £90 million to NHS dentistry over the last year. £59 million will support access, and strategic health authorities have been advised of their shares and are working with their PCTs, including Chorley and South Ribble, to address access issues. £30 million is to support information technology and the balance of £1 million will support organisational development locally.

Mr. Pike: To ask the Secretary of State for Health (1) what proposals his Department has to increase the number of dentists in training; and if he will make a statement; [165209]

(2) what representations he has received regarding shortages of NHS dentists; and if he will make a statement. [165210]

Ms Rosie Winterton: We have been undertaking the first dental workforce review since 1987, in which stakeholders, including representatives of strategic health authorities, dental schools, and the British Dental Association participated and gave their views. We will be publishing the report shortly. We are also currently reviewing the number of undergraduate places in dentistry in the context of the current Government Spending Review.

NHS Trust Boards

Mr. Burstow: To ask the Secretary of State for Health whether it is his policy that NHS trust board meetings should be open to the public; and what guidance he issues on circumstances under which meetings may be held in private. [164613]

Mr. Hutton: All national health service trust board meetings should normally be held in public, under the terms of the Public Bodies (Admission to Meetings) Act 1960. Guidance on the circumstances in which boards may go into closed sessions is contained in Health Service Circular 1998/207, a copy of which is available in the Library.

NHS University

Dr. Gibson: To ask the Secretary of State for Health what progress has been made with the NHS University project; how much money has been allocated to the NHS University project in each of the last three financial years; and who the executive postholders of the NHS University project are. [163522]

Mr. Hutton: NHSU has moved through a number of stages of development. It has consulted widely across the national health service and social care on its development plan, "Learning for Everyone", the results

of which fed into NHSU's first strategic plan, launched in December 2003. At this point NHSU was officially constituted as a special health authority.

NHSU has also been piloting and launching a range of programmes—including an induction programme. "Working for the NHS and First Contact", a programme that equips nurses and other healthcare professionals to act as the first point of contact for patients. NHSU has also launched its telephone helpline service for learning opportunities for staff (Ui).

NHSU received its first allocation of £10 million in 2002–03. A further allocation of £30 million was made in 2003–04.

The chief executive and vice chancellor designate of NHSU is Professor Bob Fryer CBE. NHSU has three group directors; Neil Johnson (director of learning programmes and services), Derek Grover (director of distributed learning) and Jeffrey Defries (director of corporate services). Sue Eggleton is director of resources and planning.

Out-of-Hours Services

Miss McIntosh: To ask the Secretary of State for Health what new resources *(a)* were budgeted for and *(b)* will be made available to primary care trusts specifically to help them meet their obligations to provide out-of-hours services. [162261]

Mr. Hutton: Additional resources of £110 million over three years from 2003–04 have been announced to help fund primary care trust (PCT) re-provision of out-of-hours services. The £110 million is in addition to the average of about £6,000 that will be released for each general practitioner who opts out—or some £180 million if all GPs opt out.

A further £28 million (across 2004–05 and 2005–06) is being made available for those PCTs facing the biggest challenges in developing their out-of-hours services; plus up to an additional £30 million in incentive payments will be allocated in 2004–05 to reward them for the planning and delivery of a high quality, sustainable service.

Public Health

Mr. Burstow: To ask the Secretary of State for Health how much his Department has spent on advertising of the dangers of *(a)* smoking, *(b)* poor diet and *(c)* alcohol in each year since 1997. [158219]

Miss Melanie Johnson: Prior to 1999–2000 the Health Education Authority ran the public education campaign on the dangers of smoking. The Department of Health took over this work in December 1999.

The figures in the table show advertising expenditure on the dangers of smoking from 1999–2000 to date.

	Expenditure (£ million)
1999–2000	6.18
2000–01	8.97
2001–02	7.79
2002–03	7.88
2003–04	17.76

There has been no expenditure by the Department on advertising the dangers of poor diet or alcohol during this period.

However, the Department is taking action to ensure that people have access to healthy diets. In 2002–03, funding for the Department of Health-led programmes aimed at improving children's diet totalled £140.98 million and the Food Standards Agency has provided £0.58 million. An additional £9.83 million has been provided to support a range of projects, including community based programmes.

In addition to the above, local nutrition initiatives are funded through health action zones, sure start, healthy living centres and through general funding allocations to health authorities and primary care trusts, on which information is not collected centrally. The Department has also funded health promotion work in these areas from centrally held budgets, including campaign literature, helpline and website advice. Local national health service agencies are responsible for local health promotion work. The funds they spend on this work form part of their general budgets and no breakdown of these funds is centrally available.

The Government's alcohol harm reduction strategy for England was published on 15 March 2004. It contains recommendations for action to improve Government communications on alcohol misuse, including the ways in which the Government inform the public of the dangers of alcohol misuse. The Department will be leading the work on taking these recommendations forward.

Semiconductor Industry (Cancer)

Norman Baker To ask the Secretary of State for Health what recent assessment he has made of the incidence of cancer among workers within the semiconductor industry. [163971]

Mr. Browne: I have been asked to reply.

In December 2001, the Health and Safety Executive (HSE) published a report that set out the findings of a study into the cancer incidence and mortality of current and former workers at the National Semiconductor plant in Greenock. As a result of that investigation, HSE has developed a specification for further investigation of the findings at Greenock which it is discussing with the company and its workforce. The HSE has also established a feasibility study to investigate whether an industry-wide study can be undertaken.

Skin Disease

Dr. Evan Harris: To ask the Secretary of State for Health what plans his Department has to add inflammatory skin diseases to the quality and outcomes framework of the General Medical Services contract. [164905]

Mr. Hutton: Changes to the quality and outcomes framework (QOF) of the new general medical services contract will be negotiated between the NHS Confederation and the British Medical Association, following recommendations from an independent,

United Kingdom-wide review group. The independent review group will decide what disease areas to consider for addition to the QOF.

Smoking

Dr. Gibson: To ask the Secretary of State for Health when the evaluation being carried out by the NHS to verify whether those who stop smoking through the NHS stop smoking services have managed to remain non-smokers will be *(a)* completed and *(b)* published. [164231]

Miss Melanie Johnson: The Department has funded an evaluation of the national health service stop smoking services programme, which is being carried out by a team led by Glasgow University.

The pilot study fieldwork is now complete and the research team which undertook the evaluation is currently writing up its findings. These will be published later this year.

Speech Therapy

Angela Watkinson: To ask the Secretary of State for Health (1) how many school-age children were receiving speech therapy in each of the primary care trust areas in Greater London in each year since 1997 in the *(a)* primary and *(b)* secondary sector; [164175]

(2) how many pre-school children were receiving speech therapy in each of the primary care trust areas in Greater London in each year since 1997. [164176]

Mr. Hutton: Information is not available in the form requested. Information about children receiving speech therapy is available by service provider and not by primary care trust area, and does not distinguish primary from secondary sector provision. The available data for 2002–03 are shown in the table. Information for earlier years could be provided only at disproportionate cost.

Initial contacts (new episodes of care) with speech therapy services, by age and trust, London 2002–03

Notes:
1. All trusts that provide speech therapy services are shown; some may provide services principally for adults.
2. Figures are rounded to the nearest 10; 0 means fewer than 5 cases in the year.

Source:
DH Statistics Division; return KT29.

Angela Watkinson: To ask the Secretary of State for Health (1) how many pre-school children were diagnosed as needing speech therapy in each of the primary care trust areas in Greater London in each year since 1997; [164177]

(2) how many school-age children were diagnosed as needing speech therapy in each of the primary care trust areas in Greater London in each year since 1997 in the *(a)* primary and *(b)* secondary sector. [164178]

Mr. Hutton: No data are held centrally about the number of school-age children diagnosed as needing speech therapy.

St. Jude Silzone Heart Valve

Mr. Hunter: To ask the Secretary of State for Health what information and statistics he has collated about complications experienced by recipients of the St. Jude Silzone heart valve; and if he will make a statement. [163193]

Miss Melanie Johnson: The Medicines and Healthcare products Regulatory Agency (MHRA) receives reports of adverse incidents involving medical devices, including heart valves, though a voluntary user

reporting system and mandatory manufacturer vigilance reporting system as required by the Medical Devices Directive. Information on deaths and valve explantations is also collected by the UK Heart Valve Registry and is made available to clinicians.

Approximately 1,300 Silzone* mechanical heart valves were distributed in the United Kingdom between its introduction in 1997 and its withdrawal from use in January 2000. The main problems associated with Silzone* heart valves were increased risk of blood clotting complications, such as stroke, and leakage around the valve. The MHRA was originally alerted to this problem by a report of seven incidents of such complications among a series of 51 patients implanted with Silzone heart valves at one UK centre. The MHRA has since received only a small number of reports associated with the Silzone* valve. A clinical study sponsored by the manufacturer, St. Jude Medical, confirmed the MHRA's finding that the risk of complications was higher with this valve than in valves without the Silzone* coating, but showed that the increased risk occurred only in the first few months after implantation. Consequently, patients who remain implanted with this valve are now at no greater risk from complications than recipients of uncoated valves.

Suicide Bereavement

Mr. Truswell: To ask the Secretary of State for Health what research his Department has conducted into the costs and benefits of establishing a national suicide bereavement response strategy. [164896]

Ms Rosie Winterton: The Department has commissioned the York Centre for reviews and dissemination to undertake a review of evidence regarding interventions to help people bereaved by suicide. The review is due to report its findings in summer 2004 and will support implementation of objective 2.8 of the national suicide prevention strategy for England.

Tuberculosis

Dr. Murrison: To ask the Secretary of State for Health how many new cases of TB were reported in England in the last year for which figures are available, broken down by health authority. [161142]

Miss Melanie Johnson *[holding answer 15 March 2004]:* The number of tuberculosis cases, reported by strategic health authority (SHA) in England 2001 through enhanced TB surveillance, is shown in the table.

SHA	*TB cases reported*
Birmingham and Black Country	535
Shropshire and Staffordshire	40
West Midlands South	104
Leicestershire, Northamptonshire and Rutland	417
Trent	178
Bedfordshire and Hertfordshire	165
Essex	72
Norfolk Suffolk and Cambridgeshire	83
South Yorkshire	135
West Yorkshire	352
North and East Yorkshire and Northern Lincolnshire	59

TREASURY

World Debt

14. **Kevin Brennan:** To ask the Chancellor of Exchequer, if he will make a statement on his policy towards the cancellation of debt in the world's poorest countries. [164994]

John Healey: The UK Government continues to be absolutely committed to the rapid and full implementation of the heavily indebted poor countries (HIPC) initiative—to ensuring that it delivers as much debt relief as possible under the current framework.

The UK goes even further than is required under the HIPC initiative and is committed to providing 100 per cent. debt relief to eligible HIPC countries.

But we must ensure that the HIPC initiative is completed, that topping up is provided where necessary for countries to achieve the 150 per cent. debt-to-export ratio, that it is fully funded, and that it has wide participation.

However, debt relief alone is not sufficient. All HIPC countries will need additional aid to meet the MDGS. That is why the UK's proposal for an International finance facility (IFF) is so important. it can provide the much-needed substantial increase in resources—in the form of grants, concessional loans, or further debt relief—needed to attain the MDGS.

18. **Mrs. Betty Williams**: To ask the Chancellor of the Exchequer if he will make a statement on his policy towards the cancellation of debt in the world's poorest countries. [164998]

Mr. Boateng : The UK Government continues to be absolutely committed to the rapid and full implementation of the Heavily Indebted Poor Countries (HIPC) Initiative and to ensuring that it delivers as much debt relief as possible, to as many eligible countries as possible, under the current framework.

Ms Dari Taylor: To ask the Chancellor of the Exchequer if he will make a statement on his policy towards the cancellation of debt in the world's poorest countries. [164982]

Mr. Gordon Brown: I refer the hon. Member to the answer I gave to the hon. Member for South Swindon (Ms Drown) earlier today.

Millennium Development Goals

15. **Mr. David Stewart:** To ask the Chancellor of the Exchequer, what recent discussions he has had with other Ministers on financing the Millennium Development Goals. [164995]

John Healey: The Chancellor discussed the UK our proposal for an international finance facility with G7 colleagues at their recent meeting in Boca Raton.

The proposal will be considered in detail during the 8 April Ministerial forum on financing for Development in Paris, which the Chancellor will co-chair with the French Finance Minister.

Employment (North-east)

16. **Mr. Kevan Jones**: To ask the Chancellor of the Exchequer if he will make a statement on progress with his aim to achieve full employment in the north-east. [164996]

Mr. Boateng: Employment has risen in every region since 1997, and in the north-east the employment rate now stands at 69.6 per cent.

Gershon Review

17. **Mr. Swire**: To ask the Chancellor of the Exchequer what discussions he has had with Sir Peter Gershon regarding the total savings in public sector employment within the Department for Transport as a result of his efficiency review. [164997]

Mr. Boateng: The Department for Transport is working closely with Sir Peter Gershon and other key stakeholders to develop efficiency proposals for consideration in the 2004 Spending Review. Details of all departments' agreed efficiency programmes will be published alongside the Spending Review.

Mr. Letwin: To ask the Chancellor of the Exchequer what progress has been made in implementing the interim proposals of the Gershon Review since his announcement in the Budget. [165018]

Mr. Boateng: I can now give more details of the specifics of reductions at Inland Revenue and Customs and Excise.

Of the 14,000 job reductions by 2007–08 in the new tax department, 8,000 will be made by Inland Revenue, 3,000 by HM Customs and Excise and 3,000 will result from the merger.

Ministers have met all the relevant trades unions. And yesterday the Chancellor met the TUC general council.

As the Chancellor announced, following the Lyons review, of the 27,000 public sector jobs to be moved out of London and the south east, 7,000 will not be replaced.

National Insurance

19. **Paul Flynn** : To ask the Chancellor of the Exchequer what the expected cost to the National Insurance Fund is in 2003–04 of reductions in contributions by employers to compensate them for the cost of environmental taxes. [164999]

Dawn Primarolo: In 2003–04 the climate change levy is expected to raise £0.8 billion. The deduction in contributions to the National Insurance Fund for 2003–04 to Compensate for the Climate Change levy is around £1.2 billion.

In 2003–04 the aggregates levy is expected to raise £0.3 billion. The deduction in contributions to the National Insurance Fund for 2003–04 to Compensate for the aggregates levy is around £0.4 billion.

It is not possible to calculate the effect of the reduction in employer NICs in respect of landfill tax due to the structural changes to secondary NICs in 1999.

Energy Efficiency

20. **Mr. Chaytor**: To ask the Chancellor of the Exchequer what fiscal measures he plans to introduce to encourage energy efficiency; and if he will make a statement. [165000]

John Healey: The Energy White Paper identified the efficient use of energy as the most cost-effective way to meet the Government's four energy goals f reducing carbon emissions; ensuring security of supply; maintaining Competitiveness; and tackling fuel poverty. The Government have already made significant progress in encouraging energy efficiency, and the Climate Change levy and the EU emissions trading scheme both have a key role in this.

Budget 2004 also announced further use of economic instruments for domestic energy efficiency, including a landlord's energy saving allowance, and a 5 per cent. reduced rate of VAT for the domestic installation of ground source heat pumps.

Disabled People

21. **Mr. Goodman**: To ask the Chancellor of the Exchequer what recent representations in relation to the Inland Revenue he has received from groups representing people with disabilities. [165001]

Dawn Primarolo: Treasury Ministers receive a range of representations in relation to the Inland Revenue, including from groups representing people with disabilities.

Landfill Levy

22. **Dr. Whitehead**: To ask the Chancellor of the Exchequer what plans he has to recycle the proceeds of the landfill levy. [165002]

John Healey: The Government have confirmed that the announced increases in landfill tax will be recycled to businesses and local authorities. We have been developing ideas on recycling the extra revenue to business through close working with stakeholders. We also commissioned independent research that was published in February: "An assessment of options for

recycling landfill tax revenue", available from the Treasury website. Budget 2004 has also announced that the Government are examining in detail a number of options and that consultations with stakeholders are continuing.

The Landfill Tax Credit Scheme (LTCS) has also been reformed. The value of the LTCS has been revalorised so that for 2004–05 it is worth £48.3 million. The Government have improved the LTCS following consultation with stakeholders so that its scope has been expanded to cover projects that conserve or promote biodiversity in natural habitats, providing more choice and increased support for species and habitats in the vicinity of landfill sites; and the administration of the scheme has been streamlined to provide greater transparency and accountability. There is also a fast track application system for small grants.

Global Fund

23. **Mr. Sarwar**: To ask the Chancellor of the Exchequer if he will make a statement on his plans to increase the UK's contribution to the Global Fund. [165003]

John Healey: Funding for the Global Fund comes from the Budget of the Department for International Development, and is a matter for my hon. Friend , the Secretary of State for International Development. He has given £75 million so far, and has pledged a further £63 million to 2006 and a further US $80 million through to 2008.

The Department for International Development works in close collaboration with the Global Fund to ensure its maximum effectiveness. Good outcomes will encourage DFID, and other, to look at the possibility of increasing support to the fund.

Heroin Smuggling

24. **David Cairns**: To ask the Chancellor of the Exchequer what steps HM Customs and Excise has taken to prepare for the expected increase in the flow of heroin from Afghanistan. [165004]

John Healey: The Government continues to monitor the drugs situation in Afghanistan. HM Customs and Excise will be providing further assistance to the Counter Narcotics Police (CNP) in Afghanistan and UK Customs officers deliver training to the Afghan Police Academy. Customs also work closely with countries neighbouring Afghanistan to improve the drug interdiction capability of these key countries.

Civil Servants (Relocation)

Mr. Hoban: To ask the Chancellor of the Exchequer what analysis Sir Michael Lyons undertook on *(a)* the premises cost and *(b)* the employment cost of Government departments located in (i) the South East and (ii) Hampshire. [165049]

Mr. Boateng: The analysis of property and employment costs in the South East is set out in Chapter 3 of Sir Michael Lyons' report, "Well Placed to Deliver?—Shaping the Pattern of Government Service", published on 15 March.

Mr. Hoban: To ask the Chancellor of the Exchequer (1) what assessment he has made of the proposals in the Lyons Report for the relocation of civil servants away from London and the South East on the house building targets proposed by the Barker Report; [165317]

(2) what assessment Sir Michael Lyons made of the impact on local employment markets of the relocation of Civil Service jobs to South West England and South Wales. [165320]

Mr. Boateng: This is a matter for departments' detailed business planning which they will be taking forward as part of the 2004 Spending Review.

Mr. Hoban: To ask the Chancellor of the Exchequer what assessment he has made of the economic impact on the South Hampshire Priority Area for Economic Regeneration of the proposed relocation of Office for National Statistics staff from Titchfield. [165318]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Peter Walton to Mr. Mark Hoban, dated 1 April 2004:

The National Statistician has been asked to reply to your recent Parliamentary Question on what assessment has been made of the economic impact on the South Hampshire Priority Area for Economic Regeneration of the proposed relocation of Office of National Statistics staff from Titchfield. I am replying in his absence. (165318)

The impact of the proposed relocation will be a factor taken into account in the 2004 Spending Review.

Civil Service

Mr. Gray: To ask the Chancellor of the Exchequer how many members of the Senior Civil Service serve in *(a)* Inland Revenue, *(b)* head office functions of Inland Revenue, *(c)* the Large Business Office (CT), *(d)* International Division and *(e)* Special Compliance Office; and what proportion of them in each case are subject to performance-related pay arrangements. [152232]

Dawn Primarolo: The number of members of the Senior Civil Service (SCS) currently serving in *(a)* Inland Revenue is 292, *(b)* Head Office functions of Inland Revenue is 170, *(c)* the Large Business Office is 66, *(d)* International Division is 19, and *(e)* Special Compliance Office is 4. All members of the SCS are subject to performance related pay arrangements.

Mr. Laurence Robertson: To ask the Chancellor of the Exchequer what estimate he has made of redundancy costs arising from the reduction of 40,500 Civil Service jobs; and if he will make a statement. [163856]

Mr. Boateng: The Government is in discussions with the trade unions about civil service staff reductions through natural wastage and redeployment as well as redundancy. I will report further to the house on necessary costs arising from redundancy.

Close Company Dividends

Mr. Donaldson: To ask the Chancellor of the Exchequer what plans he has to levy national insurance contributions on close company dividends; and if he will make a statement. [161524]

Dawn Primarolo *[holding answer 15 March 2004]:* The Budget made no proposals along these lines.

Correspondence

Mr. McNamara: To ask the Chancellor of the Exchequer when he will reply to the letters of 20 November 2003 and 14 January 2004 from the hon. Member for Hull, North on the partial exemption method and the T element for universities. [163961]

John Healey: I have done so.

Sir Michael Spicer: To ask the Chancellor of the Exchequer when he expects to reply to the letter to him of 20 February from the hon. Member for West Worcestershire. [165131]

John Healey: There is no record of the correspondence being received at the Treasury. A copy has been requested and will be dealt with as soon as possible.

Debt Relief

Mrs. Calton: To ask the Chancellor of the Exchequer how much of the extra funding for the Heavily Indebted Poor Countries fund for top-up debt relief which the G8 committed at their meeting in Canada in 2002 has been provided. [158575]

John Healey: At the G8 summit in Kananaskis in 2002, donors pledged additional resources for the HIPC Trust Fund. The Trust Fund is administered by the World Bank and provides financial support to regional and sub-regional creditors—for example, the African Development Bank—enabling them to provide their share of debt relief commitments under the HIPC Initiative without endangering their lending capacity.

The pledges from 2002 currently amount to US $928 million. Total paid-in contributions up to January 2004 from old and new pledges to the HIPC Trust Fund amount to around $2.8 billion, of which $306 million is based on the pledges made in Kananaskis in 2002.

Departmental Buildings (Asbestos)

Malcolm Bruce: To ask the Chancellor of the Exchequer if he will list the buildings occupied by staff of *(a)* his Department and *(b)* agencies which require (i) remedial work on, and (ii) removal of, asbestos; what that work will cost; and what budgets are available for (A) this work and (B) further asbestos surveys in (1) 2004 and (2) 2005. [159351]

Ruth Kelly: The information regarding those of the Chancellor's Departments affected is set out below. Information on buildings identified as containing asbestos was placed in the Library of the House in response to a question from the hon. Member for Twickenham (Dr. Cable) in July 2003, *Official Report*, column 301W.

The majority of those buildings housing staff from the Inland Revenue, Customs and Excise and the Valuation Office have been owned by Mapeley Ltd. under the STEPS contract since April 2001. Mapeley have responsibility under the contract to manage the STEPS estate in respect of the new Asbestos Regulations. The costs of any works and surveys associated with asbestos will therefore be met by them.

Six buildings on the Royal Mint site are affected. An external study, costing up to £1,500, will be undertaken this year to review further the existing control systems, and to determine what work may be required to comply with the Control of Asbestos at Work Regulations 2002. No specific budget has been earmarked for this work as costs will be covered by the general budget provisions for building maintenance.

In the Office for National Statistics all remedial or removal work identified in earlier asbestos surveys has been carried out. New surveys and management plans are being completed, at a cost of £81,000, and will identify any further work required.

A recent survey in the Office of Government Commerce has revealed asbestos at the Edinburgh office. A further survey is being carried out to determine the best means of treatment, and the cost. These costs will be met from normal estates and maintenance budgets.

Departmental Communications

Matthew Taylor: To ask the Chancellor of the Exchequer (1) how many staff are employed in the Department to work in the communications field, broken down by *(a)* Government Information and Communication Service staff and *(b)* other staff, broken down by (i) press officers, (ii) special advisers and (iii) others; [158153]

(2) what the total expenditure on communications for the Department has been in 2003–04, broken down by expenditure on *(a)* Government Information and Communications Service staff and *(b)* other staff, broken down by (i) press officers.(ii) special advisers and (iii) others. [158204]

Ruth Kelly: The Treasury currently employs nine press officers to work on communications, of which seven are GIGS staff, and one Special Adviser, and thirteen other members of staff to work on Treasury publications, managing the Treasury's external website, and related administration.

The total expenditure for these staff to date in 2003–04 is set out in the following table:

	£
GIGS staff costs	340,270
Other press officer costs	127,175
Other staff costs	368,585

Details of the costs of Special Advisers are given on an annual basis and information for the financial year 2003–04 will be published in due course.

Departmental Policies (Sustainable Development)

Norman Lamb: To ask the Chancellor of the Exchequer what percentage of copying paper used by his Department in 2002–03 was from recycled sources; and how much post-consumer waste this paper contained. [165532]

Ruth Kelly: All copying paper used by HM Treasury during the period 2002–03 was 100 per cent. recycled and contained 100 per cent. post-consumer waste.

Norman Lamb: To ask the Chancellor of the Exchequer what measures he has put in place to ensure that his Department meets the quick win targets set by the Department for Environment, Food and Rural Affairs to ensure that all copying paper bought by the Department is 100 per cent. recycled with a minimum of 75 per cent. post-consumer waste content. [165534]

Ruth Kelly: Currently all copying paper bought by HM Treasury is 100 per cent. recycled and contains 100 per cent. post-consumer waste.

Norman Lamb: To ask the Chancellor of the Exchequer if he will list his Department's main suppliers of *(a)* copier paper, *(b)* stationery, *(c)* envelopes and *(d)* paper for reports; what the name of the paper used is in each case; and what the (i) recycled and (ii) post-consumer recycled content of each type of paper is in each case. [165537]

Ruth Kelly: All stationery, including copier paper, envelopes and paper for reports is bought from Banner. The paper is called "Evolve Office 80 g/m2". This paper is 100 per cent. recycled and contains 100 per cent. post-consumer waste.

Horse Passports

Mr. Gray: To ask the Chancellor of the Exchequer whether other EU countries charge VAT on horse passports. [165193]

John Healey: All member states are required to reflect the provisions of EU Directive's within their own national legislation. Therefore, horse passports issued by a public body under a statutory regime would be outside the scope of VAT. Other bodies supplying goods or services for payment normally fall within the scope of VAT.

Illegal Meat Imports

Mr. Whittingdale: To ask the Chancellor of the Exchequer how much illegal meat has been seized by Customs and Excise in each of the last 10 years, broken down by species. [165198]

John Healey: I refer the hon. Gentleman to the answer I gave to the hon. Member for East Worthing and Shoreham (Tim Loughton) on 3 December 2003, *Official Report*, column 59–60W.

The specific information requested is not available. Seizures identified according to type in DEFRA Annual Review are reproduced in the following table.

	1 April 2001 to 31 March 2003	*1 April 2002 to 31 March 2003*
Meat		
Number	1,242	2,986
Weight (kg)	18,955	31,301
Fish		
Number	353	1,837
Weight (kg)	32,691	21,267
Dairy		
Number	63	795
Weight (kg)	3,784	19,807
Multiple		
Number	361	2,172
Weight (kg)	55,791	36,170
Other		
Number	34	65
Weight (kg)	3,569	666

Inheritance Tax

Mr. Brady: To ask the Chancellor of the Exchequer what amount of inheritance tax revenue was raised from estates of *(a)* less than £300,000, *(b)* £300,000 to £400,000, *(c)* £400,000 to £500,000, *(d)* £500,000 to £600,000, *(e)* £600,000 to £700,000, *(f)* £700,000 to £800,000, *(g)* £800,000 to £900,000, *(h)* £900,000 to £1 million and *(i)* over £1 million in the last year for which figures are available; and in each case what percentage the amount was of the total inheritance tax revenue raised. [163022]

Dawn Primarolo *[holding answer 22 March 2004]:* I refer the hon. Member to the statistics published in Table 12.3 on the Inland Revenue's website at www.inlandrevenue.gov.uk/stats/inheritance_tax/03ir123F.pdf.

Iraq

Dr. Cable: To ask the Chancellor of the Exchequer what the Government's most recent estimate is of the cost of the British occupation of Iraq in each month since the start of the conflict. [164977]

Mr. Dalyell: To ask the Chancellor of the Exchequer what estimate he has made of the cost to the UK of operations in Iraq in March 2004. [165591]

Mr. Boateng *[holding answer 31 March 2004]:* The Treasury does not estimate costs for Iraq in the manner requested.

The Chancellor set aside £3 billion in Budget 2003 to cover the cost of operations in Iraq, £1 billion was drawn down in the Spring Supplementary Estimate for 2002–03. The remaining £2 billion of this special reserve has been carried forward to 2003–04.

In the recent PBR the Chancellor announced a further £500 million set aside for the financial year 2003–04 and a further £300 million for 2004–05 as a prudent allowance to cover Iraq our continuing international commitment to the war on terrorism.

London

Simon Hughes: To ask the Chancellor of the Exchequer what his latest assessment is of the percentage of the UK Gross Domestic Product generated in London in each year since 1997–98. [151980]

Ruth Kelly *[holding answer 30 January 2004]:* The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Simon Hughes, dated 1 April 2004:

As National Statistician I have been asked to reply to your questions on the percentage of UK Gross Domestic Product (GDP) generated in London since 1997. (151980)

The estimates in the attached tables are based on the regional Gross Value Added [1] (GVA) estimates for 2001 and earlier years published in August 2003. These are available on the National Statistics website at: http://www.statistics.gov.uk/StatBase/Product.asp?vlnk = 7359

Table 1 Percentage of UK GVA[3] generated in London (Residence Based)[2]

	UK GVA (£ million)	*London GVA (£ million)*	*London GVA as a percentage of UK*
1997	705,851	111,117	16
1998	749,688	120,271	16
1999	781,847	127,124	16
2000	816,111	133,179	16
2001	851,408	140,354	16

Table 2 Percentage of UK GVA[3] generated in London (Workplace Based)[2]

	UK GVA (£ million)	*London GVA (£ million)*	*London GVA as a percentage of UK*
1997	705,851	126,567	18
1998	749,688	137,402	18
1999	781,847	145,413	19
2000	816,111	154,182	19
2001	851,408	162,501	19

1. Under the European System of Accounts 95 (ESA95) the economic estimates that are defined as Gross Value Added (GVA) at basic prices are broadly equivalent to what has been historically known as GDP at factor cost. ONS has effected the change frtim GDP at factor cost to GVA at basic prices as part of implementation of ESA95, along with all other EU countries. GVA at basic prices includes the effects of taxes less subsidies on production, but excludes taxes and subsidies on products, which are included in GDP at market prices under ESA95.

2. Estimates of GVA in Table A are on a residence basis, where the income of commuters is allocated to where they live, rather than their place of work. Estimates in Table B are on a workplace basis where the income of commuters is allocated to their place of work, rather than where they live.

3. GVA at current basic prices, excluding Extra-Regio. Extra Regio is that part of the UK's economic territory which cannot be allocated to any specific region. The contribution to UK GVA of UK embassies abroad and UK forces stationed overseas is included in Extra-Regio, along with the element of GVA relating to activities taking place on the continental shelf.

Lyons Report

Mr. Flook: To ask the Chancellor of the Exchequer what estimate he has made of the number of Civil Service jobs currently located in the south-east that will be relocated to the south-west in line with the recommendations of the Lyons Report. [164563]

Mr. Hoban: To ask the Chancellor of the Exchequer (1) what steps he is taking to implement the recommendations of the Lyons Report on aligning departmental pay with local market conditions; [164727]

(2) what mechanisms he has set up to co-ordinate *(a)* relocation and *(b)* redundancy of staff consequent on implementation of the Lyons Report; [164728]

(3) what assessment he has made of the capacity for other Government *(a)* Departments and *(b)* agencies to retain staff who are unable to relocate as a consequence of the recommendations in the Lyons Report; [164729]

(4) if he will make a statement on the process for determining whether the relocation options proposed in the Lyons Report will be implemented; [164741]

(5) what *(a)* redundancy and *(b)* early retirement arrangements there are for Civil Service staff who do not relocate as part of a relocation plan; [164748]

(6) what estimate he has made of the cost of the shortlife unit proposed in the Lyons Report to monitor progress on relocation. [164586]

Mr. Boateng: As set out in the 2004 Budget Report, the Government will come forward with detailed proposals for monitoring and implementing dispersal plans as part of the Spending Review.

Minimum Wage

Huw Irranca-Davies: To ask the Chancellor of the Exchequer what estimate he has made of the number of young people who will directly benefit from the introduction of the minimum wage for 16 and 17-year-olds in *(a)* the constituency of Ogmore, *(b)* Bridgend county borough and *(c)* Wales. [164555]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Huw Irranca-Davies, dated 1 April 2004:

As National Statistician I have been asked to reply to your recent Parliamentary Question about the number of young people who will directly benefit from the introduction of the minimum wage for 16 to 17-year-olds in *(a)* the constituency of Ogmore, *(b)* Bridgend county borough and *(c)* Wales. (164555)

The Office for National Statistics (ONS) calculates estimates of the total number of jobs paid less than National Minimum Wage rates for the United Kingdom and Government Office Regions (including Wales). A guide to measuring low pay and associated articles and data can be found on the National Statistics website at: http://www.statistics.gov.uk/StatBase/Product.asp?vlnk = 5837&Pos = l&ColRank = l&Rank = 272.

Estimates for Parliamentary Constituencies and counties are not available for any age group and for 16 to 17-year-olds, estimates are also not available at Government Office Region level.

Manufacturing (Wales)

Mr. Wiggin: To ask the Chancellor of the Exchequer how many jobs there were in the manufacturing sector in Wales in each year since 1997; and what manufacturing sector output was as a proportion of GDP in Wales in each year since 1997. [151759]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Bill Wiggin, dated 1 April 2004:

As National Statistician, I have been asked to reply to your recent Parliamentary Question about manufacturing jobs and output in Wales. (151759)

The Annual Business Inquiry provides information on jobs in Wales by industry. Table 1 shows the number of employees in manufacturing businesses in Wales from December 1997 to December 2002.

Table 2 shows the proportion of manufacturing Gross Value Added (GVA) to total GVA for Wales. The estimates are based on the regional GVA estimates published in August 2003. These are available on the National Statistics website at: http://www.statistics.gov.uk/StatBase/Product.asp?vlnk=7359

Under the European System of Accounts 95 (ES A95) the economic estimates that are defined as Gross Value Added (GVA) at basic prices are broadly equivalent to what has been historically known as GDP at factor cost. The Office for National Statistic has effected the change from GDP at factor cost to GVA at basic prices as part of implementation of ESA95, along with all other EU countries. GVA at basic prices includes the effects of taxes less subsidies on production, but excludes taxes and subsidies on products, which are included in GDP at market prices under ESA95.

Table 1: Manufacturing employee jobs in Wales, 1997–2002

Year	*Number of employee jobs (thousand)*
1997	215
1998	208
1999	207
2000	201
2001	189
2002	185

Source:
Annual Business Inquiry, Annual Employment Survey

Table 2: Manufacturing Gross Value Added[1] as a proportion of total GVA of Wales

Year	*Manufacturing GVA of Wales (£ million)*	*Total GVA of Wales (£ million)*	*Manufacturing as a proportion of total GVA of Wales (%)*
1997	8,007	28,942	28
1998	7,941	29,718	27
1999	7,775	30,652	25
2000	7,826	31,864	25

[1] GVA at current basic prices, excluding Extra-Regio. Extra Regio is that part of the UK's economic territory which cannot be allocated to any specific region. The contribution to UK GVA of UK embassies abroad and UK forces stationed overseas is included in Extra-Regio, along with the element of GVA relating to activities taking place on the continental shelf.

Miners' Pensions

Michael Fabricant: To ask the Chancellor of the Exchequer if he, or one of his ministers, will meet ex-miners from the Lichfield constituency in London to discuss the funding of the two miners' pension schemes and contributions made to the Exchequer. [163461]

Nigel Griffiths: I have been asked to reply.

I refer the hon. Member to the answer given on 11 March 2004, *Official Report*, column 1681–82W.

Office for National Statistics

Mr. Hoban: To ask the Chancellor of the Exchequer (1) what assessment the Office for National Statistics (ONS) has made of the recruitment and retention of staff at Titchfield if the office is *(a)* not relocated and *(b)* relocated on the completion of the ONS modernisation programme; [164721]

(2) what assessment he has made of the number of people at the Office for National Statistics office in Titchfield who will be prepared to move to *(a)* Bristol and *(b)* Wales. [164755]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Mark Hoban dated 1 April 2004:

As National Statistician, I have been asked to reply to your recent questions concerning what assessment the Office for National Statistics (ONS) has made of the recruitment and retention of staff at Titchfield and of the number of staff who would be prepared to relocate.

An initial assessment of these issues was discussed with the Lyons review team. A fuller assessment will be considered as part of the Spending Review.

Mr. Hoban: To ask the Chancellor of the Exchequer (1) if he will publish the submission made to Sir Michael Lyons by the Office for National Statistics; [164722]

(2) what representations the Office for National Statistics made to Sir Michael Lyons during the preparation of his report. [164736]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Mark Hoban dated 1 April 2004:

As National Statistician, I have been asked to reply to your recent questions concerning what representations the Office for National Statistics(ONS) made to Sir Michael Lyons during the preparation of his report and also if the ONS will publish the submission made to Sir Michael.

ONS officials corresponded with and met members of Sir Michael Lyons' team on a number of occasions during the conduct of his review and preparation of his report.

The submission was not a public document although ONS staff have been informed of its contents. Some information was provided to the Lyons Report on a confidential basis and will not be published.

Mr. Hoban: To ask the Chancellor of the Exchequer (1) what assessment his Department made of the upfront relocation costs per person of staff employed at the Office for National Statistics in Titchfield; [164723]

(2) what assessment he has made of the service delivery improvements that would accrue from the relocation of the Office for National Statistics office from Titchfield; [164745]

(3) what assessment he has made of the cost of relocating the Office for National Statistics office from Titchfield to another location; and what cost savings are expected to arise from the relocation.; [164751]

(4) what assessment he has made of the *(a)* financial and *(b)* operational benefits that would accrue to the Office for National Statistics from the proposed move of its office from Titchfield. [164756]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Mark Hoban, dated 1 April 2004:

As National Statistician, I have been asked to reply to your recent questions concerning the financial and operational implications of the proposed move of the Office for National Statistics from its office in Titchfield. (164756, 164751, 164723, 164745)

An initial assessment of these issues was discussed with the Lyons Review team. A fuller assessment will be considered as part of the Spending Review, including detailed proposals for the costs of relocating staff.

Mr. Hoban: To ask the Chancellor of the Exchequer what plans the Office for National Statistics has to develop regional pay rates. [164725]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Peter Walton to Mr. Mark Hoban dated 1 April 2004:

The National Statistician has been asked to reply to your recent Parliamentary Question on what plans the Office for National Statistics (ONS) has to develop regional pay rates. I am replying in his absence.

ONS already distinguishes between London and National rates of pay. National pay scales apply to staff based at all sites other than London.

Any further plans to develop regional pay rates would have to be taken forward in the context of HM Treasury guidance.

Mr. Hoban: To ask the Chancellor of the Exchequer (1) what discussions he has had with the Office of the Deputy Prime Minister concerning the use of the Office for National Statistics office at Titchfield; [164733]

(2) what assessment he has made of the future use of the Office for National Statistics site at Titchfield in the event of relocation. [164752]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Mark Hoban, dated 1 April 2004:

As National Statistician, I have been asked to reply to your recent questions concerning future use of the Office for National Statistics site at Titchfield and what discussions have taken place with the Office of the Deputy Prime Minister. (164733, 164752)

A key element of the Lyons Review recommendations is the need for a coordinated approach across Government. Discussion of the future use of the ONS site at Titchfield will depend on the outcome of the 2004 Spending Review. However, there have been no such discussions at this stage.

Mr. Hoban: To ask the Chancellor of the Exchequer whether the links between the Office for National Statistics office at Titchfield and Southampton University will be maintained if the office is relocated. [164737]

Ruth Kelly: The information falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Mark Hoban, dated 1 April 2004:

As National Statistician I have been asked to reply to your recent Parliamentary Question asking whether the links between the Office for National Statistics office at Titchfield and Southampton University will be maintained if the office is relocated. (164737)

We have no plans to cease links with Southampton University.

The relationship between ONS and Southampton University is an important intangible benefit of location at Titchfield, and it has strengthened work on the 2001 Census in particular. If the work currently undertaken at the Titchfield site were to be relocated, we would work hard to preserve these links.

Mr. Hoban: To ask the Chancellor of the Exchequer when Office for National Statistics *(a)* management and *(b)* staff were informed of the proposals set out in the Lyons Report. [164739]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Mark Hoban, dated 1 April 2004:

As National Statistician I have been asked to reply to your recent Parliamentary Question asking when Office for National Statistics (ONS) *(a)* management and *(b)* staff were informed of the proposals set out in the Lyons Report. (164739)

Copies of the Lyons Report were sent to the heads of all Government departments (including ONS) late on the afternoon of Friday 12 March 2004. ONS staff were then informed of the proposals on the afternoon of Monday 15 March 2004.

Mr. Hoban: To ask the Chancellor of the Exchequer when he will announce a final decision on the relocation of the Office for National Statistics from Titchfield. [164740]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Mark Hoban, dated 1 April 2004:

As National Statistician I have been asked to reply to your recent Parliamentary Question asking when a final decision on the relocation of the Office for National Statistics from Titchfield will be announced. (164740)

I expect a final decision to be announced following the conclusion of the 2004 Spending Review.

Mr. Hoban: To ask the Chancellor of the Exchequer how many (1) *(a)* full-time and *(b)* part-time employees are based at the Office for National Statistics in Titchfield; [164750]

(2) if he will list the *(a)* grade and *(b)* function of staff employed at the Office for National Statistics office in Titchfield; [164746]

(3) what supplements are payable to Office for National Statistics staff working in *(a)* London, *(b)* Southport, *(c)* Wales, *(d)* Bristol and *(e)* Hampshire; [164744]

(4) what the average salary is of the Office for National Statistics staff at *(a)* Titchfield and *(b)* Newport. [164743]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Mark Hoban dated 1 April 2004:

As National Statistician, I have been asked to reply to your recent Parliamentary Questions on staffing and remuneration issues relating to the Titchfield site of the Office for National Statistics (ONS). (164743, 164744, 164746, 164750)

The average salaries of staff working at the Newport and Titchfield sites of ONS at March 2004 are as follows:

Newport £18,821

Titchfield £21,052

These earnings figures are for full time equivalent salaries for ONS civil servants and reflect the different mix of grades at each location.

ONS do not make regional pay supplements. We only distinguish between London and National pay. National pay scales apply to staff based at all sites other than London.

As of March 2004, there are 821 ONS civil servants based at the Titchfield site, of whom 672 are full-time and 149 are part time. There are additional crown employees working at Titchfield on a part-time basis as telephone interviewers. There are an average of 325 such staff employed, although the exact number varies between 300 and 350 on a monthly basis.

The grades and functions of civil servants employed at the ONS Titchfield site are shown in the attached table.

Number, grade and functions of ONS civil service staff based at the Titchfield site, March 2004

Grade	*No of staff (Headcount)*	*Functions*
Al	31	Basic administrative duties, Reprographic operators, Data entry and stores.
A2	224	Administration staff.
A3	17	Library, Personal Assistants.
Bl and B2	193	First line managers, IT programmers.
AS	4	Assistant Statisticians.
Cl and C2	189	Business Managers, Middle managers, Technical team leaders (IT), Research officers, Methodologists, Geographers.
C3	50	Project managers, Business Analysts, Business managers,
C4	37	Senior Researchers, Senior Methodologists, Senior Geographers, Senior Business Analysts, Project Managers.
D2and D3	65	Branch Head Statisticians, Principal Research Officers, Principal Methodologists
D4	7	Senior Managers
SCS grade 1	4	Senior civil servants (SCS)
Total	821	

Mr. Hoban: To ask the Chancellor of the Exchequer what assessment he has made of the impact of the relocation of the Office for National Statistics office in Titchfield on the economy of South East Hampshire. [164754]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Mark Hoban, dated 1 April 2004:

As National Statistician, I have been asked to reply to your recent Parliamentary Question asking what assessment has been made of the impact of the relocation of the Office for National Statistics office in Titchfield, on the economy of South East Hampshire. (164754)

The impact of the proposed relocation will be a factor taken into account in the 2004 Spending Review.

Mr. Hoban: To ask the Chancellor of the Exchequer what the operating costs of the Office for National Statistics premises in Titchfield are. [164757]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Mark Hoban, dated 1 April 2004:

As National Statistician, I have been asked to reply to your recent Parliamentary Question asking what the operating costs of the Office for National Statistics premises in Titchfield are.(164757)

The forecast expenditure on estates, property and facilities management required to keep the Titchfield site operational in 2003–04 is £2.76 million.

Pet Passports

Mr. Gray: To ask the Chancellor of the Exchequer whether VAT is chargeable in relation to pet passports *(a)* by his Department for providing the certificate and *(b)* by the veterinary surgeon who vaccinates the animal. [163771]

John Healey *[holding answer 26 March 2004]:* I have been asked to reply.

DEFRA provides animal health certificates under the Pet Travel Scheme to Government-authorised veterinarians for completion and subsequent issue. Since DEFRA does not charge veterinarians for the supply of certificates, this is outside the scope of VAT.

Veterinary surgeons issue certificates as part of their professional services. Their charges for these services are subject to VAT at the standard rate of 17.5 per cent.

Pre-owned Assets

Mr. Boris Johnson: To ask the Chancellor of the Exchequer (1) what estimate he has made of the number of households likely to be affected by the Inland Revenue's proposed tax on pre-owned assets; [159014]

(2) what research his Department has commissioned on the effect of the proposed tax on pre-owned assets on elderly individuals who have gifted their house to their relatives. [159015]

Dawn Primarolo: Following consultation, proposals to tackle tax avoidance using trusts were set out in the Budget 2004 (paragraphs 5.87 to 5.90).

Premium Bonds

Mr. Gordon Prentice: To ask the Chancellor of the Exchequer what the odds were of winning a prize in the Premium Bond draw with a holding of £1,000 in *(a)* 2003, *(b)* 1997 and *(c)* 1993; and if he will make a statement. [165098]

Ruth Kelly: The Premium Bond odds, with a holding balance of £1,000, were as follows;

December 2003—one in 30.50

December 1997—one in 19.50

December 1993—one in 15.51

Public Services

Mr. Lyons: To ask the Chancellor of the Exchequer if he will make a statement on levels of investment in public services. [163965]

Mr. Boateng: Tables C4 and C5 of Budget 2004 set out the Government's aggregate plans for public sector capital investment. Under these plans, Public Sector Net Investment will reach 2.2 per cent. of GDP by 2007–08 to rectify the historical under-investment in public infrastructure and deliver improved public services. More information on specific capital allocations through to 2005–06 is set out in the SR2002 White Paper (Cm 5570) and the Government will set out new capital plans for 2006/-07 and 2007–08 in the forthcoming Spending Review.

Register of Interests

Bob Spink: To ask the Chancellor of the Exchequer what the requirements are on officials in his Department to declare current interests; and what register of interests is kept for his departmental officials. [164710]

Ruth Kelly: The Civil Service Management Code sets out the requirement for civil servants declaring any conflict of interest.

HM Treasury staff must declare to their team leader or senior management any business interests they would be able to further as a result of their official position.

Self-Assessment (Late Submission)

Bob Russell: To ask the Chancellor of the Exchequer how many penalty notices were issued by the Inland Revenue for the late submission or non-submission by taxpayers of their 2003 self-assessment tax returns. [162325]

Dawn Primarolo: As stated in Budget 2004 (HC 301), and in line with previous years, 90.6 per cent. of self assessment returns were filled on time. Over one million returns were received electronically. Inland Revenue issued 952,766 Late Filing Penalty Notices on 17 February 2004 for returns not submitted by the due date.

Spirits Tax

Mr. Alan Reid: To ask the Chancellor of the Exchequer what the *(a)* lower and *(b)* upper limits are of his estimate of the annual amount of spirits duty fraud; and how he arrived at these estimates. [165232]

John Healey: Customs' estimate of spirits revenue evaded in 2001–02 is £600 million,as reported in "Measuring and Tackling indirect Fraud Losses 2003" (December 2003). The National Audit Office report "Estimating the Level of Spirits Fraud" (March 2004) calculates a corresponding 95 per cent. confidence interval of between £330 million and £1,080 million. This calculation takes account both of sampling variation in the initial level of consumption and of the under-reporting variation. Both reports are available in the Library of the House.

Lady Hermon: To ask the Chancellor of the Exchequer whether it is his policy that the obligation to stamp spirit bottles announced in the Budget should extend to spirits produced in Northern Ireland. [164572]

John Healey *[holding answer 31 March 2004]:* The requirement for qualifying UK retail containers to bear a tax stamp will apply to all home-produced and imported products.

Mr. Alan Reid: To ask the Chancellor of the Exchequer what estimate he has made of the change in *(a)* sales of spirits in the UK and *(b)* the consequent amount of duty collected that would be caused by increases in the sale price of a 70cl bottle in steps of one penny, up to 40 pence. [164498]

John Healey *[holding answer 30 March 2004]:* The sale price of a bottle of spirits is a commercial decision for individual retailers. HM Customs and Excise estimates that a 10p increase in the sale price of a bottle of spirits would lead to a reduction in sales of UK-dutied spirits of around 0.8 per cent. The effects of smaller or larger increases would be broadly pro rata. The impact on spirits duty revenues would depend on the extent to which such an increase was related to spirits duty increases or other factors.

Mr. Alan Reid: To ask the Chancellor of the Exchequer (1) what assessment he has made of the cost to the spirits industry of complying with his proposed tax stamps scheme; and which compliance costs he has so far not assessed; [164569]

(2) what assessment he has made of the cost to the spirits industry of keeping tax stamps secure. [164570]

John Healey *[holding answer 30 March 2004]:* The Government announced in the Budget that, owing to continued high levels of spirits duty fraud, it will legislate to implement the Roques Report recommendation to introduce tax stamps for spirits. In doing so, the Government will help the trade financially with compliance costs by deferring payment for tax stamps, assisting firms with capital investment and freezing spirits duty for the remainder of this Parliament. The Government are also investigating the potential for offsetting security costs. Further announcements will be made once all the detailed offsetting options have been considered in discussion with the trade.

A Regulatory Impact Assessment, to be published alongside the Finance Bill on 8 April, will identify in detail the impacts, costs and benefits of the tax stamp regime.

Mr. Alan Reid: To ask the Chancellor of the Exchequer what discussions he has held with the First Minister of Scotland with regard to the introduction of tax stamps on bottles of spirits. [164565]

John Healey: I refer the hon. gentleman to the answer I gave to the hon. Member for Perth, Annabelle Ewing the hon. Member for Perth earlier today.

T Element

Mr. McNamara: To ask the Chancellor of the Exchequer (1) which *(a)* universities and *(b)* other institutions are required to adhere to the Customs and Excise T element; [163962]

(2) what plans he has to extend the T element to *(a)* all universities and *(b)* other institutions; and if he will list the institutions which (i) have not yet adhered and (ii) have adhered but not made payment; [163963]

(3) if he will compensate those universities which have paid the T element and are financially disadvantaged in relation to universities which should have paid but have not. [163964]

John Healey: Organisations can only recover VAT they incur on purchases that relate to their taxable business activities. The provision of education for a fee is exempt from VAT, so universities and other educational institutions cannot recover the VAT which relates to their exempt supplies of education.

Bodies which engage in both taxable and exempt activities must use a partial exemption method to work out the amount of VAT they can recover. The partial exemption method a university uses is designed to take account of its individual circumstances, but HM Customs and Excise cannot accept a partial exemption special method that does not produce a fair and reasonable recovery of VAT.

Universities and other higher education institutions often use methods that calculate their recoverable VAT in proportion to the value of their supplies of education. In these cases, Customs will take account of the value of the Higher education Funding Council teaching grant (the "T element") when agreeing the method.

The Government cannot comment on the VAT affairs of individual taxpayers. Exemption 15*(a)* of the Open Government Code applies.

Tax

Mr. McFall: To ask the Chancellor of the Exchequer what is regarded by his Department as *(a)* legitimate and *(b)* illegitimate avoidance of tax. [161858]

Dawn Primarolo: The Government take steps to close down tax avoidance schemes as they become aware of them, particularly where they create economic distortions, provide commercial advantages over compliant taxpayers, redistribute tax revenues in an unfair and arbitrary manner, or represent an abuse that conflicts with or defeats the will of Parliament.

Mr. McFall: To ask the Chancellor of the Exchequer what action his Department has taken to establish best practice in international approaches to tackling tax avoidance. [161859]

Dawn Primarolo: The UK has a long, and well-established, history of working with other countries, both bilaterally and multilaterally, on a range of tax issues. We are leading participants in a number of international tax fora and continue to share experience and best practice in international approaches to tackling tax avoidance.

Mr. Letwin: To ask the Chancellor of the Exchequer how much tax that should have been paid is outstanding from each of the last five financial years. [R] [149812]

Dawn Primarolo: Reliable information is not available in the form requested. I refer the hon. Member to the NAO report, "The Recovery of Debt by the Inland Revenue", published on 24 March 2004.

Lynne Jones: To ask the Chancellor of the Exchequer pursuant to the Answer of 23 February 2004, *Official Report*, column 122W, on tax credits, what proportion of the expected £300 million per annum overhead costs of administering the child and working tax credits will be paid to private contractors. [163691]

Dawn Primarolo: The Inland Revenue paid £107 million (excluding VAT and payments in respect of capital purchases) to private contractors during the financial year 2002–03 for the delivery of the tax credits programme. The equivalent figure for the financial year 2003–04 is not yet available.

Mr. Rosindell: To ask the Chancellor of the Exchequer how much tax he estimates has been uncollected in the past five years. [162467]

Dawn Primaroio: In respect of the Inland Revenue, I refer the hon. Member to the NAO report "The Recovery of Debt by the Inland Revenue", which reflects the position in March 2003. Comparable data for earlier years are not available.

Customs' latest estimates of tax losses were published in "Measuring and Tackling Indirect Tax Losses" in December 2003, a copy of which is available in the Library of the House.

Unemployment (Crosby)

Mr. Stephen O'Brien: To ask the Chancellor of the Exchequer what the rate of unemployment in each *(a)* region and *(b)* nation of the United Kingdom was in each month since 1995; and if he will make a statement. [151829]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Stephen O'Brien, dated 1 April 2004:

As National Statistician, I have been asked to reply to your recent Parliamentary Question on unemployment rates. (151829)

The information requested is available from the Labour Force Survey (LFS) on a monthly basis for rolling three-month periods starting with December 1996 to February 1997 and ending with September to November 2003. As with any sample survey, estimates from the LFS are subject to sampling variability.

It is not practicable to print a table of this size in the *Official Report*. However, these data are published on the Office for National Statistics website as part of Table 18 of the Labour Market Statistics First Release Historical Supplement. This may be accessed via the House of Commons Library; the web page address is: http://www.statistics.gov.uk/downloads/theme_labour/LMS_FR_HS/Table18sa.xls.

INDEX TO THE

PARLIAMENTARY DEBATES

OFFICIAL REPORT

SIXTH SERIES **VOLUME 419**

SESSION 2003–2004

15 March 2004—1 April 2004

Printed indexes to Hansard

The volume index is one of three printed indexes to Commons Hansard produced from the House of Commons Library's Parliamentary On-Line Indexing Service (POLIS). It contains references to material in the bound volume of Hansard. The other indexes produced are:

- The index to the daily parts of Hansard. This covers the same date range as the volume index but references may be different as a result of changes to the text and column numbering.
- The sessional index to Hansard. This contains references to material in the bound volumes for a whole session.

Indexes on the Parliamentary website

Daily part and volume indexes covering material from the beginning of the 1999/2000 session will also appear on the Parliamentary website at http://www.parliament.uk with links to the full text of Hansard.

SCOPE

The indexes include entries covering:

- The content of all material recorded in Hansard, including debates, procedural motions and questions.
- The names of all Members contributing to the Parliamentary business recorded in Hansard.
- The names of some types of Parliamentary business whenever they occur in Hansard. These are 'Ministerial statements', 'Business statements', 'Opposition days' and 'Estimates days'.

ARRANGEMENT

- All headings are in one word-by-word alphabetical sequence, with Members' contribution entries distinguished from other entries by italics.
- Where a Member contributes to Parliamentary business and is the subject of Parliamentary business there are separate contribution and subject entries, the subject entry coming first.
- Entries beginning 'Mac' and 'Mc' are sorted in one sequence as 'Mac'.
- 'St', when abbreviated for Saint, is filed as 'Saint'.
- Numbers are filed as if spelt out, e.g. '10 Downing Street' as if 'Ten Downing Street'.

HEADINGS

Choice of headings

- *Specificity*—Entries summarise the overall content of a debate or question as specifically as the various POLIS thesauruses allow. For example, Education, Higher education, Universities or the name of a particular university is used depending on the breadth of the item.
- *Name headings*—Specific entries are included for the names of people, places, institutions, organisations, committees, programmes, initiatives, publications and legislation when these constitute the overall subject of an item.
- *Organisations and subjects*—Organisation entries are preferred for material about the general performance, administration and staffing of an organisation (for example, United Kingdom Passports Agency, Standards). Subject entries are preferred for what organisations do as part of their duties (for example, Passports, Fees and charges).

Geographical coverage

- *Subject headings*—Subject headings are assumed to refer to the whole of England, Great Britain or the United Kingdom unless otherwise stated.
- *Scotland, Northern Ireland and Wales*—Material relating to the whole of Scotland, Northern Ireland and Wales is indexed under these headings.
- *Places within the UK*—Material about specific towns, areas and institutions is entered under the name of the specific town, area or institution.
- *Foreign countries*—Most material relating to foreign countries is collected under the name of that country. Some additional material may be found under the names of—groups of countries, areas within countries, geographical features, place names associated with particular issues, politicians and heads of state, international bodies, and institutions and companies operating in those countries.
- *EC/EU material*—General material about the European Communities and European institutions as bodies is entered under 'European Communities' and 'EC institutions'. Organisational material about specific communities and institutions is entered under the name of the body, for example 'European Coal and Steel Community' or 'European Parliament'. Material about what the Communities and institutions are doing or propose to do is entered under various subject headings beginning 'EC' such as 'EC environmental policy'.

Parliamentary material and business

- *Material about Parliament*—This is indexed under 'Parliament', the names of the two Houses, the 'Palace of Westminster' and parts of the Parliamentary estate (such as 'Portcullis House').
- *Committees*—Material about committees is indexed under 'Committees', types of committee (such as 'Select committees') and the names of individual committees (such as 'Home Affairs Select Committee').
- *Parliamentary proceedings/procedures*—Material discussing these is indexed under the specific type of proceeding (such as 'Parliamentary questions' or 'Oral questions'), procedure (such as 'Calling of Members') or issue (such as 'Unparliamentary expressions').
- *Legislation*—Entries for Parliamentary proceedings on bills and statutory instruments are entered under their titles. Where the lead word of the bill or statutory instrument does not provide a full or clear indication of the subject there are additional subject entries when the bill or instrument is debated. For example, debates on the 'Child Support Pensions and Social Security Bill' have entries under 'Pensions' and 'Social security benefits' as well as under the title of the Bill.
- *Members' names*—These are given in the form by which the Member prefers to be known.
- *Speaker and Chair*—Contributions by the Speaker and deputies are brought together under the heading 'Speaker and deputies'. Contributions from the chair during Committees of the Whole House are brought together under 'Chairman of Committee of the Whole House'. Significant rulings and statements (as opposed to routine comments) are indicated by the sub-heading 'Rulings and statements' in both cases.

Guidance on headings

- *Cross references*—'See' references indicate all the material has been entered under another heading. 'See also' references indicate that additional information may be found under another heading.
- *Concept thesaurus*—A copy of the subject thesaurus to POLIS, listing the concept entries used in the index, is available on the Parliamentary website. A hard copy is available from the Head of the POLIS Unit, House of Commons Library, 1 Derby Gate, London, SW1A 2DG (020 7219 6456).

REFERENCES

- References in the indexes are to columns rather than pages.
- References to debates, but not questions, are accompanied by the date of the item.
- There are separate sequences in Hansard for the material taken on the floor of the House, Westminster Hall sittings, written statements and written questions:
  - References consisting of a number by itself indicate material taken on the floor of the House.
  - References ending in 'wh' indicate Westminster Hall sittings.
  - References ending in 'ws' indicate written statements.
  - References ending in 'w' indicate written questions.
- References under all headings except the names of Members contributing to Parliamentary business and the titles of legislation are listed in one numerical sequence irrespective of whether the material is taken on the floor of the House, is discussed at a Westminster Hall sitting, is a written statement or is a written question.
- References under the names of Members contributing to Parliamentary business and the titles of legislation are listed in numerical sequence under the following headings:
  - *Chamber Debates* (which includes interventions and points of order as well as significant contributions to debates);
  - *Westminster Hall Debates* (covering all debates held as part of the Westminster Hall sittings);
  - *Written Statements* (consisting of ministerial statements issued in writing); and
  - *Questions* (which includes all written, oral and urgent questions).

ABBREVIATIONS

The following abbreviations are used in connection with the progress of bills:

- 1R = First reading
- 2R = Second reading
- Com = Committee stage
- Rep = Report stage
- 3R = Third reading
- res = resolution
- amendt(s) = amendment(s)
- * = matter taken formally without debate or division
- (HL) = Bill starting in House of Lords
- (SP) = Bill in Scottish Parliament.

Parliamentary background

- The Parliamentary website at http://www.parliament.uk contains a range of information about Parliament and the full text of some Parliamentary papers and proceedings including Hansard.
- Information on current Parliamentary business is provided in the House of Commons Information Office *Weekly Information Bulletin*, available on the website and from The Stationery Office (020 7873 8499).
- Further information on Parliamentary proceedings and procedures is available from the House of Commons Information Office (020 7219 4272).
